It is gratifying to note the sacrifices which young men and young women are making to continue in college and earn degrees. A large number of students are working their way through part-time labor; others are doing "light housekeeping," and still others are in college through loans from friends or from college loan funds. The citizens of San Marcos, through the Chamber of Commerce, during the week ending February 3, raised \$1,500 to \$2,000 in cash for a loan fund for worthy students.
