Dick,

Here are several excerpts from the phone conversation transcripts that will underscore my e-mail message to you.

Elsewhere in these conversations Fagan interprets Nahum and the prophecies and attributes them to Mt. Carmel (as DK taught). He said that David and the Davisdians knew (here read Nahum) that there would be a second "attack" (based upon Nahum) and they were ready for it. Now whether the Davidians expected God to intervene, or were going initiate the events that led to their deaths is open for speculation. The thing to keep in mind about these transcripts is the fact that they were recorded before April 19th. It is possible (I suppose) for others (Davidians) to give a different slant to the events of the 19th after the fact (post fire). I still don't know where I stand concerning the 19th. That's why I want to read your book in Sept. Perhaps it will shed more light that I do not have access to at the moment. It just may be that the fire was started inside the compound to repel the tanks (start them on fire) and the breeze/fumes ignited the place. But those four fire points on the film sure do bother me (re: the Nightline film. I also noticed the 4th fire point in the building. Koppel never called him on it, or if he did it was edited out). What also bothers me is the possibility (as some assert) that the authorities set the fire.

I thought that you might enjoy these. I would ask that you not pass on any copies as we need to maintain confidentiality according to Dr. Arnold's wishes. Also, he will be sending me more tapes that may shed some additional information (at least from Fagan) concerning Passover and the events pre-post the 19th.

Let me know what you think.

Excerpts
Recorded : March 29, 1993

FAGAN: Precisely. In as much as the authorities being representatives of the American government. What they're saying on behalf of the American government is, they don't care. TABOR: See, they turned very abusive this week. Are you allowed to watch the news?
FAGAN: Well, I just got a TV inside my room , and my phone was turned off this morning. It was the first time I have really gotten any kind of coverage of what was going on outside... TABOR: It's even in the headlines in the paper today. They've got this get tough verbal approach which
will have no good outcome. We don't believe in that. It's ridiculous. FAGAN: Actually, we expected that. We expected that as we approach Passover season...

TABOR: Kind of a bully approach.
FAGAN: That's right. That will occur, and it will increase as we approach Passover season. And, in fact, they will find themselves doing something that they shouldn't which will create a response that they did not expect.

TABOR: You see, what I'm concerned with is... Now you could say; well I don't know about this, you know, the details, and so that's why I don't understand. But, here is what I would like to see happen. I would like to see something during the Day's of Unleavened Bread, not a surrender, but a coming out. A coming out to freedom. And I'm not talking about the sixth seal. So we wouldn't quite agree on that. Then a publicly staged discussion that we would be covered by CNN. Philip already has a contact with this very sympathetic reporter that you've talked to. Where we would have a press conference where David could talk to - with maybe Philip, me, and a few others we would select that would be knowledgeable of the scriptures, and yet, not be antagonistic, you know. And there would be a more public sort of coming forth or something, you see...

FAGAN: Let me say...

TABOR: ...rather then a bloodbath or that or, you know, sort of thing. FAGAN: ...let me say that's what David had desired all the time. But, I don't know whether I mentioned this to you Phil...

TABOR: He has the power now to get it even from a practical level... FAGAN: I'm afraid he has not. Can I make a point? That when the ATF officers came in on the 28th their primary objective was to either take or kill David. TABOR: Yes.
FAGAN: You do appreciate that.

TABOR: Yes. Phillip told me what you said about shooting the room up. FAGAN: So, we're into a situation where you are actually asking David to trust himself over to these officers who are ignorant of the truth, and though David has tried to present it to them, they've continued to demonstrate that ignorance. Which means they will act not according to the truth. And they're not conciliatory individuals. You've already made the statement that they're already speaking a language of war.
TABOR: I mean it's not like - I mean that's where they are. So I don't know. But we have talked about this as a - because we... Obviously on a human level, you know, I'll be frank with you. I don't want to see anything happen that will be a self fulfillment of verse eleven and twelve of Revelation 6 because of the futility of the situation. You know; like a firefight or something. FAGAN: But it seems very likely that that's the avenue that we're going to be perusing.
TABOR: Yeah. That's what I'm afraid of. And I'm wondering if we can't get back to the white horse and do a little more riding.
FAGAN: Believe me sir, quite frankly, if David were allowed the opportunity to develop things on a much lower basis that is something that I too would prefer.

FAGAN: I feel somewhat that our time is being very limited now. Just recently even here in prison, I mentioned they're beginning to mess with my phone. I'm also conscious of that fact that whilst we were here they extended to us the privilege of practicing our religion as far as our food needs are concerned. That is now gone. I'm sensing that we are approaching a time where they're not really giving much regard to us. That kind of spirit is actually coming over me which - I'm beginning to sense that this is it.
ARNOLD: Yes.
FAGAN: Unfortunately. Even when I look at the news media initially their focus was the human events of the 28th. It's gotten to the point now to where there is very little that one can pull out of that now. So the stage is being set, as far as I can see, for another action. And even with what Dr. Tabor just mentioned about the type of language that's being used by the negotiators. You know I'm...sadly, I feel that a similar tragedy, actually a tragedy with much - far much greater magnitude will take place in the not too distant future. They're not - the only way that it could be prevented if those in authority hear this message.
ARNOLD: When you say, sir, to hear the message do you mean for them to believe it and confess that David...
FAGAN: It is true.
ARNOLD: ...is the anointed one?
FAGAN: It is true. Yes.
ARNOLD: Is that necessary or is it, or are you saying they need to hear in a sense of listen and cooperate...
FAGAN: Well Ok. Listen and cooperate. Remember the basic level of truth that is acceptable to God are acceptance from those who actually receive it is that contained in the Revelation. You know like I portrayed to you about the seven seals? Because it says as it did in the first chapter, the first three verses which you will also see in Revelation Chapter 22, I think verse 7, where it says, blessed are those who keep the sayings of this book? So if you look at what I showed you from Revelation about the consistency with John's experience in being taken to heaven, the seven seals, somebody coming. That is a basic level of truth that God {seems?} to accept - that people will have to accept. Nobody can dispute that John got taken to heaven.

ARNOLD: Well, so then, as you understand, and you do believe the community will stay put through Passover...
FAGAN: Isaiah 30 speaks of our situation and where our strength is.

Excerpt pt #2
Recorded: March 1993 no specific day given)

FAGAN: So ah - God is gonna act. We're approaching that time. We're approaching that time. We're approaching the Passover season. They've been given ample time, ample evidence, but yet it seems that they totally and absolutely refuse. So God is going to have to do something, and he will do something. This can't go on forever. Ah - the ah - FBI officers are talking about the fact that they have a limitation of time; this is not an unlimited situation. They don't know what they're saying. The truth about it is that ah - God also has no - has - is - is not unlimited... ARNOLD: Um, hm.
FAGAN: And these people continue in their ah -foolish foolishness. They will reap the vengeance from God. It's that simple. It's really that simple. I - I'm getting to the point. OK, I want to come out of prison. I want ah - this thing to end. All right? ARNOLD: Um, hm.

FAGAN: Judah, keep thy solemn feasts, perform thy vows: for the wicked shall no more pass through thee; he is utterly cut off. At the moment, the ATF officers with their tanks and all the rest are being able to pass through our gates. But, as it says in Chapter 2, He - he that dasheth in pieces is come up before thy face. Then it says keep the munition. Do you see that statement? ARNOLD: Yes, I do. Keep the munition.

FAGAN: And the munition as you understand are arms. ARNOLD: Um-hm.

FAGAN: Nineveh is of old is like a pool of water; yet they shall flee away. In other words, those individuals currently ah - besieging the city - an event is going to take place is going to take place. Because - let me go back to verse three and four to try to actually fill that in. The shield of his mighty men is made red, the valiant men are in scarlet: the chariots shall be with flaming torches in the day of his preparation. Most um - students of ah - prophecy will recognize that this had a future application.... ARNOLD: Yes, ah - I've...

FAGAN: ...{?} ARNOLD: Yes, I've heard of ah - people applying this to the highways and automobiles and such things. FAGAN: OK. Actually this refers specifically to the Bradley's. ARNOLD: Well, that's even more direct because it say's chariots and there were - chariots are used in warfare.

FAGAN: Um-hm
