DIAMOND SPARKLES

Wednesday’s Game

Phillips was the master of ceremonies all the way. The hard hitting bunch from Martindale managed to gather the two totalled two safe singles off

BASEBALL GAMES

FORMER STUDENTS AT THE UNIVERSITY

A personal of the “Daily Texan” that sifts in to us from time to time reveals the fact that our former students, who are forging ahead both as individuals and as a group. In the first place, we note that over fifty of them are enrolled at the University in the same progressive spirit existent here. We hope to hear their representative voices as students, and perhaps as citizens, in the future. The name of Alfreda Tipts may be found on the list of honor students for the spring term. It is of course a source of gratification to us to know that our former students are making good use of their intellectual equipment. Of course, the end result is whether they use it well or not. Soyars was the star of the defense. He ran back off the third and took several fly’s off the fence. The seventh he showed the rest of us how to scoop dirty grounders. Soyars is a mighty good fielder, and he showed us how to do it up well. Perkins had a good game. He didn’t make any errors. If Cavness wasn’t so lazy he would star. Hendricks went to sleep on second in the fifth, and Jennings cast him seven feet off the base. He never noticed the play until after the umpire had called him out and the stand was howling. We can’t expect to win ball games if the players expect to take the time that ar at the University for the summer, and take their afternoon nap. Hendricks woke up in the seventh inning, however, and won the game with a timely single that scored Carroll from third.

NEW COURSES IN HOME ECONOMICS

Miss Harris, of the National Bureau of Education and in charge of the distribution of the Smith-Hughes fund for high schools and colleges, was here Friday, going over with the departments concerned the course of study to be given by the designated colleges—one of three of which for this state is out here. Harris is interested in preparing ourselves for teaching in high schools and junior colleges operating under the benefits of the Smith-Hughes fund. This is a new course being put in the Normal for next session. It is different in purpose and, to a certain extent, in content from the regular courses in the H. E. G. group. Persons attending it are supposed to be prepared either to teach home-making efficiently in the public schools or to assist in their knowledge practically in the management of a household and—husband. One of the features of the course will be the establishment of a household to be worked out by a group of students. The outlook is that the course will become very popular at once.

Miss Harris will return to Normal shortly, to deliver an address to the student body on the extent, purposes, and implication of the Smith-Hughes fund in furnishing practical courses of study return from their honeymoon at Gal- venston, will occupy rooms at the Seel's.

CHAPATSAUQUA

A very interesting program was presented Monday morning by the Chap- taqua Literary Society. Among the good features of the program was a debate which created much excitement.

The question was: Resolved that it would be an improvement to have the County School Superintendent appointed by a board. Each side of the question was well argued and a heated discussion carried on. A number of other good things were rendered. After the business on hand was transacted, the Society adjourned.

J.

The Liberty Carols, under the direction of Miss Butler, has been functioning actively and publicely this week, in the interest of various events and celebrations of the Hands Country sons. We are glad to see a large number of them come out to see the 500 hands.

WILLEN-WHITE

The above, which is a summary of an announcement that is being received at Normal as fe to press, will be of interest but not necessarily of surprise, to Normal folk generally, as it marks what the sedate and circumstantial historian might term the consummation of an alliance that rumor says has been under consideration for some time. Judge Willemen is County Judge of Hays County, Mrs. Wilhelm is Miss White that has—was an instructor in history, here for several years. In addition to her work in the classroom, she has been an active counselor in the affairs and activities of the Normal Literary Society and one of the main directors in the annual Washington’s birthday celebrations and programs that has become a regular part of the summer term of Normal. During her stay with us she has become an integral part of the Normal faculty and has made a host of friends among us who, will miss her active participation in Normal affairs but who rejoice in the fact that she will remain a citizen of San Marcos, ready to be thoroughly in touch with us at any time.

Mrs. and Miss White, upon their return from their honeymoon at Gal- venston, will occupy rooms at the Seel's.

Four students were elected president and five students were elected vice-presidents for that year. The officers were elected:

Willeard Watkins, President; Mr. Davis, Vice-President; Dr. Brand, Secretary; Mrs. Williams, Treasurer; Mrs. Pitts, Financial Secretary.

The next meeting was adjourned.

Mrs. Kate Pitts our instructor in drawing, left this morning for her home in Sherman, in response to a summons due to the sudden death of her father. The sympathy of the school goes to her bereavement.

Jennings 1; Struck out—Phillips 4. Jennings 2. Umpire, Coleman.

Seven innings by agreement. Unable to get Martin Dale box score.
The Normal Star

 Entered as second-class matter, March 14, 1919, at the post-offices at San Mar­
cos, Tex., under the Act of Mar. 3, 1919

EXECUTIVE STAFF,

English 301: Class

Wooly, Arlin Johnson.

The Simplified Spelling Board seeks communications of different kinds from all students or faculty members who feel that they have something worth sharing with us. To insure prompt publication, all communications should be in by Wednesday afternoon of the week of publication. They should be typed, double-spaced, and be numbered.

The Simplicity of Forms as Revealed in J2.

“Cheer up,” handbook will contain a succinct treatment of forms of sandwiches it would be advisable to use. It has been spelled in conventional forms. The emotions of both yourself and the student in the English 101 and 301 classes. Any surplus copies remaining after the close of the term will be sold in bound volumes, either paper or cloth, until December, 1919. The complete bound volume will be sent to the student in the English 101 and 301 classes.

The Simplified Spelling Board uses these forms for future reference of familiarizing themselves with the rules for simplified spelling as promulgated by the committee of the Simplified Spelling Board.

The committee of the Simplified Spelling Board.

“Reasons and Rules for Simplified Spelling” is an 8-page folder of a size of our statisticians reports that, in this basis we observe that approximately 30 per cent of the students, teachers, and visitors who have attended the school have arrived at the appointed place. After each hand, we wish the bad eats, the other had brought, and figure out the number of sandwiches it would be advisable for any one of them to eat. Someone suggested that, as most everyone present was accustomed to eating and had exercised in coming to the rendezvous, it would be better to take the eats and the games afterward. Hence lunch was speeded and everybody got hungry for a time. Then there was a gradual withdrawal to seats, or else a short walk up the walk to view the scenery.

Soon the more active ones of the party had gathered to play some real children’s games, as “Three Deep,” “London Bridge,” and even “Crack the Whip.” Who wants to forget an afternoon of such a pleasant time. It was the quietest, most beautiful we had ever had. After the good weather we were able to appear misteriously among the circle of players. Soon all were engrossed in the pleasure of eating again. After the cones had disappeared those who were able to do so, played games for a short time, and then we started back to the Normal Star.

F. H.

Students who have been studying the social results of community entertainments have a good opportunity, Thursday and Friday evenings, to study such entertainments in practice.

The occasions were community street dances in the Courthouse Square in celebration of the return of the Hays County soldiers. The music was furnished by the New Braunfels band. The occasion and avoiding confusion was sifted around to keep down the dust. So far as we could observe, everybody was there, either as spectator or participant, and apparently having a very pleasant time.

Tangible Evidence

Mr. B.—For what was Abraham Lincoln noted?

Miss E.—For his great memory.

Mr. B.—For his being the 16th class, will you state in what book you found that information?

Miss E.—I depend on to depend on a source book; I once saw a monument erected to his memory.

Mr. B.—In Sec. 302: Discussing some of the members of the English 302 class, last only this morning we overheard some junior complaining about the unusual appearance of THE STAR this morning. Do you suppose some of you favor us with a little copy?

PERSONALS
President Evans and Mr. Birdwell have returned from attending the session of the National Educational Association at Milwaukee. It is rumored we shall have the privilege of sharing the benefits of the proceedings of the Association thru a series of chapel talks.

Mr. Nelson and Mr. Thomas went to New Braunfels Monday afternoon, to make talks before the farmer boys' tri-county encampment that was scheduled to occur there. Owing to the rain, the conditions of the road, and generally threatening weather, the encampment failed to materialize, but this they did not know until they reached New Braunfels.

Mrs. Grace Jennings wishes to thank, thru these columns, the three or four girls, whose names she does not know, who assisted her in the sudden illness and fainting spell that she suffered after leaving Mr. Harry's Ed. Col. clan, Saturday, June 20.

On Monday, July 14th, a personally conducted sight-seeing party will go to San Antonio, leaving San Marcos at 6:00 a.m. and returning at 8:00 p.m. Those desiring to go will leave their names with our mother dear, at the office not later than 10:00 a.m. Saturday.

EFFICIENCY
We herd a knocking, loud enough To wake the hole community! But mother said, "Don't be alarmed, It may be Opportunity."

We children ran to greet the gest, But quick ran back once more. "Oh, Mother dear," we cried with fear. "The wolf is at the door!"

She fetched a gun, for she could meet All troubles with impunity. And where we only saw the wolf She still saw "Opportunity."

All honor to our mother dear, And blessings pour on her Who quickly changed a hungry wolf Into a Summer Fair. — Ex.
