Located in San Marcos at the foot of the Texas Hill Country, where blackland prairies turn into beautiful hills, Texas State University (Texas State) enjoys a setting that is unique among Texas universities. The beauty of the crystal clear San Marcos River and many sprawling cypress and pecan trees on the campus add to the charm of this picturesque locale. Although major metropolitan centers are not far away, San Marcos has managed to retain the charm of a smaller community, and Texas State still has a real university atmosphere – a place where faculty and students take the processes of teaching and learning seriously.

Undergraduate Catalog

Graduate Catalog

Texas State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, masters, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Texas State University.

2015-2016 Undergraduate Catalog

This catalog is a general information publication only and is not intended to nor does it contain all regulations that relate to students. The information in this version of the Undergraduate Catalog is subject to change without notice. The provisions of this catalog do not constitute a contract, expressed or implied, between any applicant, student, faculty member, or staff employee and Texas State University or The Texas State University System. In the event of conflict between the provisions of this catalog and The Texas State University System Rules and Regulations, the latter shall govern. Texas State reserves the right to withdraw courses at any time, to change its fees or tuition, calendar, curriculum, degree requirements, graduation procedures, and any other requirements affecting students. Changes will become effective whenever authorities determine and will apply to both prospective students and those already enrolled. Questions regarding current information should be addressed to the Office of the Provost and Vice President for Academic Affairs.

This catalog was published in May 2015 and becomes effective with the beginning of the fall semester, 2015.

General Information

Texas State University offers bachelor’s, master’s, specialist, and doctoral degree programs in the colleges of Applied Arts (http://www.txstate.edu/appliedarts), McCoy College of Business Administration (http://www.business.txstate.edu), Education (http://www.education.txstate.edu), Fine Arts and Communication (http://www.finearts.txstate.edu), Health Professions (http://www.health.txstate.edu), Liberal Arts (http://www.txstate.edu/liberalarts), Science and Engineering (http://www.txstate.edu/science), University College (http://www.txstate.edu/ucollege) and The Graduate College (http://www.gradcollege.txstate.edu). As an Emerging Research University, Texas State offers opportunities for discovery and innovation to faculty and students.

Texas State’s main campus is in San Marcos, a growing community of 54,000 people in the Austin Metropolitan Area. The Texas State University Round Rock Campus (http://www.nrc.txstate.edu) is located north of Austin. Students there can take upper-level courses leading to bachelor’s degrees and complete master’s degree and certificate programs.

- University Council for Educational Administration

History of the University

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. During the first century, the Legislature retained the regional designation in the name, but as its mission changed it became first Normal College, then successively Teachers College, College and University. These changes reflected the change from a teacher-preparation institution to a regional university. In 2003 the Legislature dropped the regional designation and the institution became Texas State University-San Marcos, and in 2013 the place name itself was eliminated as the Legislature viewed Texas State University as an emerging research university within the State.

Texas State's original mission was to prepare Texas public school teachers, especially those of the south central area. It became renowned for carrying out this mission, but today it does far more. Texas State currently offers programs in the College of Applied Arts, Emmett and Miriam McCoy College of Business Administration, College of Education, College of Fine Arts and Communication, College of Health Professions, Honors College, College of Liberal Arts, College of Science and Engineering, and University College. The University College oversees undergraduate advising as well as the freshman year experience. The Graduate College provides opportunities for continued intellectual growth through advanced and specialized education that develops leaders in the professions and in research.

As Texas State's student population has grown — from 303 in 1903 to more than 35,000 in 2013 — the campus, too, has expanded and today Texas State is the sixth largest public university in the state. Overlooking the campus and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur.

In 1979, after adding a number of classroom buildings and residence halls, Texas State purchased the former San Marcos Baptist Academy adjacent to the original campus. In 1981, South Texas entrepreneur Harry M. Freeman donated a 3,500-acre ranch to Texas State to be held in perpetual trust as the Harold M. Freeman Educational Foundation. The working ranch is used as a laboratory for students in agriculture, animal science, biology and a variety of other academic disciplines. In 1990, the university opened the Albert B. Alkek Library. The building, conveniently located in the center of campus, is named for the noted Texas rancher, oil man and educational philanthropist who died in 1995.

Texas State acquired one of the most unique ecosystems in the world in 1994 when it purchased the former Aquarena Springs resort and theme park. The purchase allowed Texas State to serve as steward of the headwaters of the San Marcos River, preserving and protecting the area for future generations of Texans. Now called the Aquarena Center, the 90-acre property is the site of a wide variety of educational and research pursuits. Aquarena Center is home to several endangered species of plants and animals that exist nowhere else in the world.

In 1998, as the lead institution, Texas State joined forces with other area universities to establish the Round Rock Higher Education Center, now known as the Texas State University Round Rock Campus (RRC). The
Mission Statement

“The noblest search is the search for excellence.”
—Lyndon B. Johnson
Thirty-Sixth President of the United States, 1963–1969
Texas State University Class of 1930

Texas State University is a public, student-centered, Emerging Research University dedicated to excellence in serving the educational needs of the diverse population of Texas and the world beyond.

Shared Values Statement

In pursuing our mission as a premier institution, we, the faculty, staff, and students of Texas State University, are guided by a shared collection of values. Specifically, we value:

• An exceptional undergraduate experience as the heart of what we do;
• Graduate education as a means of intellectual growth and professional development;
• A diversity of people and ideas, a spirit of inclusiveness, a global perspective, and a sense of community as essential conditions for campus life;
• The cultivation of character and the modeling of honesty, integrity, compassion, fairness, respect, and ethical behavior, both in the classroom and beyond;
• Engaged teaching and learning based in dialogue, student involvement, and the free exchange of ideas;
• Research, scholarship, and creative activity as fundamental sources of new knowledge and as expressions of the human spirit;
• A commitment to public service as a resource for personal, educational, cultural and economic development;
• Thoughtful reflection, collaboration, planning, and evaluation as essential for meeting the changing needs of those we serve.

Multicultural Policy Statement

Texas State believes that freedom of thought, innovation and creativity are fundamental characteristics of a community of scholars. To promote such a learning environment, the university has a special responsibility to seek diversity, to instill a global perspective in its students, and to nurture sensitivity, tolerance and mutual respect. Discrimination against or harassment of individuals on the basis of race, color, national origin, religion, sex, sexual orientation, age, or disability are inconsistent with the purposes of the university.

Students' Rights, Privileges, and Expectations

Texas State believes that the primary purpose of higher education is to promote learning and stimulate inquiry for truth in an atmosphere of freedom. Texas State is committed to the value of a racial and ethnic diversity. Accordingly, Texas State encourages students to exercise the rights of citizenship. However, these rights are subject to reasonable limitations necessary for the orderly operation of Texas State. Texas State expects students to accept their responsibilities as citizens and members of a scholarly community. Paramount among these responsibilities is respect for the rights of others, academic and personal integrity, and adherence to federal, state, and local law as well as university regulations.

The faculty and administration are genuinely concerned with the physical and ethical welfare of students. To that end, Texas State has established rules of conduct and has published these in a Code of Student Conduct and Honor Code. These regulations guide students in achieving personal and academic goals and help the University function in an orderly way. Since students voluntarily associate themselves with Texas State, they should know that these rules are honestly and faithfully enforced. The rules include clear prohibitions against sexual or racial harassment.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination or harassment on the basis of race, color, national origin, age, sex, religion, disability, or veterans' status. This grievance procedure is described in University Policy and Procedure Statement 04.04.46 (http://www.txstate.edu/Effective/UPPS/UPPS-04-04-46.HTML). Prohibition of Discrimination or Harassment. Students should follow the procedures for reporting instances of discrimination or harassment.

The administration and faculty encourage students to participate in managing Texas State through its system of advisory councils and committees. Students are invited to serve as voting members of many of these groups, and are expected to contribute actively to their success. Students may submit recommendations for changes in policy, not only through the committee structure, but also through their own student government.

Student Right-to-Know and Campus Security Act

The Student Right-to-Know and Campus Security Act was enacted in 1990 by federal law. The law requires institutions that receive student aid assistance to prepare and distribute an Annual Security Report (Campus Watch). The Campus Watch for Texas State University at San Marcos and Round Rock campuses include descriptions of campus crime prevention programs, procedures for reporting crimes and information about the number and frequency of crimes reported to the University Police Department for the last three years. It also provides Texas State’s policies for campus security and law enforcement related to sexual offenses, liquor law violations, and controlled substance offenses. In addition to publishing crime statistics, the act requires the Institute to provide timely warnings to the campus community of certain crimes reported to the
University Police Department or local law enforcement which may be considered a threat to the campus community. The Campus Watch is available on the Texas State Website at http://www.police.txstate.edu/Cеры.html, in the Offices of Undergraduate Admissions, Graduate College, Human Resources, and the University Police Department.

For a hard copy of the Campus Watch, contact the University Police Department, Nueces Building or to have a hard copy mailed to you free of charge you may call 512-245-2890.

Student Data, Privacy, and Communications

Correct Data
All students are responsible for making certain Texas State has correct demographic data. A student's name will appear on official records as it is stated on the application for admission, unless a student has previously attended Texas State under a different name. Changes in name, local and/or permanent address, telephone number, marital status, etc. should be reported immediately to the Office of the University Registrar. Texas State is not responsible for loss of correspondence credits due to unreported name changes. Address changes can be submitted at http://www.registrar.txstate.edu/our-services.html.

Family Educational Rights and Privacy Act of 1974 (FERPA)
FERPA protects the privacy of educational records, establishes the right of students to inspect and review their educational records, and provides guidelines for the correction of inaccurate or misleading data. Students also have the right to file complaints with the FERPA Office concerning alleged failures by Texas State to comply with the Act. University policy explains in detail the procedures to be used in complying with the act. The policy is available at http://www.registrar.txstate.edu/persistent-links/ferpa. The Dean of Students and the Registrar both presume that each student is independent of his or her parents when dealing with the student's educational records. Procedures for establishing dependency status are available in both offices.

Communications
Most university offices use Texas State email as the official means of communication. Students are expected to set up and read their Texas State email frequently.

Abandoned and Unclaimed Personal Property
Abandoned and unclaimed personal property discovered on a system university campus shall be turned over to the University Police Department for safekeeping and standardized handling. Property shall be considered abandoned if it appears from the circumstances under which the University comes into possession of the property that the owner has thrown it away, has voluntarily left it, or has lost it without any intent or expectation to regain it.

Abandoned and unclaimed personal property acquired by the police department of a system university shall be held for a minimum of one hundred and twenty (120) days from the time the department acquires the property. If the property is reclaimed during that time, the University may charge the owner a reasonable storage fee. The University Police Department will develop appropriate procedures to facilitate the return of unclaimed personal property to the proper owners. A reasonable effort will be made to notify the owner.

After one hundred and twenty (120) days the property will be declared abandoned. After appropriate property checks that reflect the value of the property have been made, the property may be sold as part of a normal surplus property sale. For specifics on the handling and processing of abandoned and unclaimed property, please refer to University Policy and Procedure Statement 05.01.20.

Undergraduate Academic Advising

Advising Mission
As an integral part of teaching and learning at Texas State, advising is a student-centered, collaborative process that engages students in educational planning to promote academic, personal, and professional development, while considering diverse interests, abilities, and goals.

Definition and Philosophy
Academic advising is an educational process that, by intention and design, facilitates students’ understanding of the meaning and purpose of higher education and fosters their intellectual and personal development toward academic success and lifelong learning (NACADA, 2004).

At Texas State, academic advising provides students with the opportunity to meet with an advisor for the purpose of gaining assistance in planning their educational career, in learning the skills needed for academic success, and in learning how to access the variety of resources and services available to them on the Texas State campus.

As academic advisors at Texas State University, we adhere to key principles provided by the National Academic Advising Association (NACADA) when developing our advising philosophies. Academic advising is a partnership between a student and an academic advisor to develop meaningful educational goals and plans that are consistent with the student’s personal values, interests and abilities. This is a collaborative approach in which the student and the advisor have clear responsibilities for ensuring the advising partnership is successful.

Degree Works is the Degree Audit System for Texas State University. Degree Works assists the advising process and greatly simplifies the preparation of student graduation audits. It is an advising report that shows a student’s progress towards their degree. Students can request a degree audit report through the Self Service Banner for the degree program(s) in which they are enrolled or for degree programs in which they are interested. Degree Works takes the guess work out of selecting courses for future enrollment.

Degree Works will display any university major and graduation (i.e. general education and university degree) requirements and will show which of these requirements the student has already fulfilled and which remain to be completed. Students can print a copy and take it with them when they see their academic advisors. Visit http://www.registrar.txstate.edu/resources/degeworks.html for more information and a video tutorial or contact your academic advisor.
Advisee Responsibilities – What You Are Expected To Do

As an advisee, you have clear responsibilities in the advising partnership in order to be successful:

• Know the requirements of your degree program and make sure that you are taking the courses your program requires for graduation.
• Ensure compliance with all University and College policies, procedures, and deadlines.
• Gather all relevant decision-making information (e.g., deadlines, prerequisites, policies).
• Organize official documents in a way that enables you to access them when needed.
• Schedule timely, regular appointments with an advisor during each semester.
• Come prepared, with your student ID, and be on-time to each appointment.
• Bring questions and materials for discussion, such as a degree audit, degree work sheet, and/or other relevant documents for discussion to your appointment.
• Be an active learner by participating fully in the advising experience.
• Ask questions if you do not understand an issue or have a specific concern.
• Follow through with all recommendations from your advisor.
• Clarify personal values and goals and provide your advisor with accurate information regarding your interests and abilities.
• Keep a personal record of your progress toward meeting your goals.
• Adhere to the Texas State honor code when interacting with others.

Advisor Responsibilities – What You Can Expect

You can expect your advisor to:

• Assist you in understanding the purposes and goals of higher education and its effect on your lives and personal goals.
• Assist you in gaining decision making skills and assuming responsibility for your educational plans and achievements.
• Encourage and guide you as they define and develop realistic goals.
• Encourage and support you as you gain the skills to develop clear and attainable educational plans.
• Maintain confidentiality.
• Understand and effectively communicate the curriculum, graduation requirements, and university and college policies and procedures.
• Provide you with information and strategies for using the available resources and services on campus.
• Accurately document your progress toward meeting your goals.
• Be accessible for meeting with you.

Using the Undergraduate Catalog

Glossary of Terms

Academic Advising Center

Located in each College, the Academic Advising Center houses most of the undergraduate advisors for that College.

Classification

Academic level based on hours earned: 1–29 freshman, 30–59 sophomore, 60–89 junior, and 90+ senior.

Contact Hours

Clock hours spent each week in the instruction process. Contact hours are not course credit hours. Lecture contact hours are the hours per week students are required to spend in contact with faculty in a lecture setting, e.g., class, conference, seminar, individual instruction, private lesson, thesis or dissertation discussion, or independent study. Laboratory contact hours are the number of hours per week that students are required to spend in contact with faculty in an experiential situation, e.g., laboratory clinical, practicum, internship, or student teaching.

Core Curriculum

Serves as the common foundation for all majors and accounts for about 35 percent of the approximately 120 semester credit hours required for a bachelor's degree. See the Academic Services section of the catalog for more detailed information.

Co-requisite

A directive from a School or Department that requires a certain action to be taken while enrolled in a certain course. A corequisite may be a course, permission from a faculty member, a specified classification, or additional requirements as determined by the faculty.

Course Description

Summarizes the content of the course. May include repeatability information as well as pre-requisites or co-requisites.

Course Number

Courses listed in this catalog and in the Schedule of Classes follow a four-digit numbering system. The first digit indicates the level of the course: 1-freshman, 2-sophomore, 3-junior, 4-senior, 5- and 6-masters, and 7-doctoral. The second digit indicates the number of semester credit hours. The last two digits usually indicate the sequencing of the course in the curriculum. The letter (A, B, C, etc.) at the end of a course number usually indicates a topics course.

Course Prefix

Letters preceding the course number that indicate the subject of the course. For example, CJ = Criminal Justice; ANTH = Anthropology.

Credit Hour

For purposes of this catalog and in accord with federal regulations, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

• not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time;
• at least an equivalent amount of work as outlined in the item above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

A semester credit hour is defined by THECB as a unit of measure of instruction consisting of 60 minutes, of which 50 minutes must be direct
instruction over a 15-week period in a semester system. Credit hours must be presented in whole numbers. Academic administrative units are responsible for ensuring that credit hours are awarded only for work that meets this requirement. Students should expect to invest a minimum of two hours of additional work for each hour of classroom or faculty instruction per week. Additional work often includes reading, studying, writing, conducting research, meeting with tutors, and other learning activities.

**Degree Audit**
An advising report, through Degree Works, that shows a student’s progress towards their degree. Students can request a degree audit report through the Self Service Banner for the degree program(s) in which they are enrolled or for degree programs in which they are interested. Visit [http://www.registrar.txstate.edu/resources/degeworks.html](http://www.registrar.txstate.edu/resources/degeworks.html) for more information and a video tutorial or contact your academic advisor.

**Degree Plan**
Set of courses that a student may follow in order to achieve the desired bachelor’s degree.

**Grade Point Average (GPA)**
Texas State utilizes a four-point system. The GPA is the total number of grade points earned divided by the number of semester hours attempted. Semester grade symbols have the following values: “A” = 4 points; “B” = 3 points; “C” = 2 points; “D” = 1 point; “F” = 0 points. Neither hours nor grades are calculated for “I”, “CR”, “PR”, or “W”. “U” and “N” grades are the same as an “F” and equal 0 points.

**Graduate Student**
A student who has graduated with a bachelor’s degree and is returning to the university to pursue either a master’s or doctoral level degree.

**Graduation with Honors**
Students earning a GPA of 3.40-3.59 will graduate cum laude; 3.6-3.79 will graduate magna cum laude; 3.8-4.0 will graduate summa cum laude. Effective Summer 2012, to be eligible for graduation with honors a student seeking a baccalaureate degree must have completed a minimum of 54 semester credit hours preceding graduation at Texas State. Graduation in the Honors College is described on p. 47.

**Multicultural Course**
Course identified in the catalog and schedule of classes that offers students an opportunity to enhance their multicultural competence.

**Post Baccalaureate Student**
Student who has completed a bachelor’s degree and returned to the university to take additional course work that will not count towards a second bachelor’s degree.

**Prerequisite**
A directive from a School or Department that requires a certain action be taken before enrolling in a certain course. A prerequisite may be a course, permission from a faculty member, a specified classification, or additional requirements as determined by the faculty.

**Probation, Academic**
An emphatic warning that the quality of the student’s work has not met Texas State’s minimum academic standards and that the quality must improve during the probationary semester in order for the student to continue at Texas State. A student will be placed on academic probation at the end of the fall or spring semester in which the Texas State GPA is less than 2.00. A student will be removed from academic probation at the end of any long semester or summer term if the Texas State GPA is 2.00 or higher.

**Second Degree Seeking Student**
Student who has completed a bachelor’s degree and returned to the university with the intention to take additional course work that will complete a second baccalaureate degree.

**SLAC**
The Student Learning Assistance Center provides a wide range of academic support programs. Whether students are seeking help with course content, study skills, or test preparation, SLAC provides a walk-in tutoring lab, Supplemental Instruction, campus presentations, and online services.

**Suspension, Academic**
Instated on students who fail to raise their GPA higher than a 2.00 at the end of the second probationary semester.

**Transcript**
Official Texas State transcripts bear the University Seal and the Registrar’s signature. The transcript is an official record of a student’s academic course work.

**Transfer Student**
Student who has attended an institution prior to enrollment at Texas State.

**TSIP**
The Texas Success Initiative program is a legislatively mandated program for certain college freshmen and transfer students, and is located within the University College. Additional information about this program and its requirements can be found in the University College section of this catalog.

**Undergraduate Student**
Student enrolled in course work with the intent of receiving a bachelor’s degree at Texas State.

**Writing Intensive**
Undergraduate courses for which at least sixty five percent of the grade must be based on written exams or assignments, and at least one assignment must be 500 words or more in length. Writing intensive is a designation intended to address the writing policy for undergraduate degree programs.

**How to Interpret a Course Entry in the Catalog**
Academic courses are located alphabetically by course prefix within the school or department in which they are taught. Within each prefix, the courses are listed numerically beginning with freshman level and proceeding through senior level course work. Graduate courses may be found in the Graduate Catalog.

Texas State reserves the right to withdraw courses at any time, to change its fees or tuition, calendar, curriculum, degree requirements, graduation procedures, and any other requirements affecting students. Changes will become effective whenever authorities determine and will apply to both
prospective students and those already enrolled. Questions regarding current information should be addressed to the Office of the Provost and Vice President for Academic Affairs.

Undergraduate Admissions
429 N. Guadalupe Street
www.admissions.txstate.edu (http://www.admissions.txstate.edu)
T: 512.245.2364 F: 512.245.8044

The university provides general admission programs for first-time freshman, transfer, and international students. The admission standards are designed to ensure that admitted students are prepared to meet the academic challenges of the classroom at Texas State.

Students and their parents are welcome to visit Texas State any day the university is open. Drop-in visitors are welcome but an online reservation or a phone call a few days in advance will help the Welcome Center staff give the best possible service. When classes are in session, campus tours are available Monday through Friday. University offices are closed on weekends; however, the Welcome Center is open on a limited basis on weekends during the fall and spring semesters. The Welcome Center is located in the LBJ Student Center. Convenient parking is available at the Student Center Parking Garage.

Bobcat Days at Texas State are special Saturdays when prospective students and their families visit the campus to learn about academic programs, services, activities, and admissions. For Bobcat Days schedules, visit www.admissions.txstate.edu/visit/bobcat-days (http://www.admissions.txstate.edu/visit/bobcat-days).

For further information on available tour times or scheduling your visit www.admissions.txstate.edu/visit (http://www.admissions.txstate.edu/visit), contact the Welcome Center at 512.245.8871 or email welcomecenter@txstate.edu (welcomecenter@txstate.edu).

Deadlines
Students should apply for admission as early as possible. Those still in high school may apply once they have completed six semesters and can provide a high school transcript showing class rank and grades. Application forms and all credentials must be received by the following deadlines:

<table>
<thead>
<tr>
<th>Fall</th>
<th>March 1 (admission priority date)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>May 1 (freshman)</td>
</tr>
<tr>
<td></td>
<td>July 15 (transfer)</td>
</tr>
<tr>
<td>Spring</td>
<td>November 15</td>
</tr>
<tr>
<td>Summer I</td>
<td>May 1 (for classes starting in June)</td>
</tr>
<tr>
<td>Summer II</td>
<td>June 15 (for classes starting in July)</td>
</tr>
</tbody>
</table>

Application Fee
A non-refundable application fee is required with all applications. The application fee is $75 for new students; $75 for special and transient/visiting students; $40 for former students; and $90 for applicants considered for admission on the basis of foreign credentials.

State of Texas Uniform Admission Statement
Per state law, Uniform Admissions Policy, Texas Education Code 51.803-51.809 requires that all students must meet one of the following college readiness standards in order to be eligible to be considered for admission at a Texas Four-Year Public Institution.

- Successfully complete the Foundation (HB5), Foundation with Endorsements (HB5), Distinguished Achievement (HB5), Minimum (UAP), Recommended (UAP) or Distinguished (UAP) high school program or complete the portion of the program that was available to them; or
- Successfully complete a curriculum that is equivalent in content and rigor to the Foundation, Foundation with endorsements Distinguished Achievement, Minimum (UAP), Recommended or Advanced (Distinguished Achievement) high school program at a high school that is exempt from offering such programs; or
- Satisfy the College Readiness Benchmarks on the SAT or ACT assessment
  - SAT – 1500 out of 2400
  - ACT – 18 English, 22 Reading, 22 Mathematics and 23 Science

Equivalencies must be documented by the student’s high school. The forms can be found at http://www.thecb.state.tx.us/.

Freshman Admission
Texas State freshman applicants must complete and meet the following requirements to be considered for admission:

1. Complete the State of Texas Foundation (HB5), Foundation with Endorsements (HB5), Distinguished Achievement (HB5), Minimum (HB5), Recommended (UAP) or Distinguished (UAP) high school program (or their equivalents).

2. In order to be successful at Texas State, students should complete a rigorous curriculum in high school. We strongly recommend that all applicants complete four credits of English, including English I-IV; four credits of math, including Algebra I, Algebra II, Geometry, and an additional advanced math; four credits of science, including Biology, Chemistry, Physics, and an additional advanced science; four credits of social studies, including one credit of World History, World Geography, U.S. History Since 1877, 1/2 credit of U.S. Government and 1/2 credit of Economics; two credits of a foreign language; one credit of fine arts; and one credit of Physical Education.

3. Submit parts I and II of the ApplyTexas Application (www.applytexas.org (http://www.applytexas.org)).

4. Submit one of the Apply Texas application essays (Topic A,B, or C).

5. Submit an official high school transcript (which must include class rank or a statement that the school does not rank) or GED certificate.

6. Submit official SAT or ACT scores including the writing sections.

7. Submit an application fee of $75 (check, money order, American Express, Visa or MasterCard).

8. Submit an official college transcript from each postsecondary school attended. Student must be eligible to return (e.g., free of suspension, dismissal or enforced withdraw) and have a cumulative 2.0 grade point average in all transferable college work.
Texas State admits freshman students in two ways, Assured Admission and Admission Review.

**Assured Admission**

Students completing either the Distinguished Achievement (HB5), Recommended (UAP) or Distinguished (UAP) and meet the minimum class rank and SAT/ACT scores below are eligible for assured admission.

<table>
<thead>
<tr>
<th>Class Rank</th>
<th>SAT (Critical Reasoning + Math)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Top 10%</td>
<td>No minimum required¹</td>
</tr>
<tr>
<td>1st Qtr.</td>
<td>920</td>
</tr>
<tr>
<td>2nd Qtr.</td>
<td>1010</td>
</tr>
<tr>
<td>3rd Qtr.</td>
<td>1180</td>
</tr>
<tr>
<td>4th Qtr.</td>
<td>1270</td>
</tr>
</tbody>
</table>

¹ No minimum scores required for students who rank in the top 10% of their graduating class. ACT or SAT scores, however, must be submitted.

Writing Section of ACT/SAT is required, but will not be included in the scores used in initial review by Texas State.

**Admission Review**

Freshman applicants who complete either the Foundation (HB5), Foundation with Endorsements (HB5), Distinguished Achievement (HB5), Recommended (UAP) or Distinguished (UAP) high school program; rank in the top three quartiles (top 75%) of their class, and have a high school class rank and test scores that place them near the assured admission requirements, may be eligible for the Predicted Academic Success (PAS) Review. A limited number of students whose academic record demonstrates potential for academic success at Texas State will be offered admission. If granted a PAS review, Texas State will consider the high school curriculum, extracurricular involvement, leadership, community service, work experience, essay, class rank, size of graduating class, quality and competitive level of high school courses taken and grades earned, the applicant’s individual verbal and math scores on either the ACT or SAT I. Additional factors such as bilingual proficiency, the applicant’s responsibilities while attending school, and the applicant’s region of residence may also be considered. The review, however, must clearly demonstrate potential for academic success during the freshman year at Texas State. Students in the fourth quarter are not eligible for this review. Applicants offered admission to Texas State University through PAS Review typically have the following minimum coursework: 4 years of English, 4 years of Math (Algebra I, Geometry, Algebra II and an advanced math), 3-4 years of Science, and 2-3 years of the same Foreign Language.

To be considered, students may be asked to submit a seventh-semester transcript that includes class rank. A resume highlighting personal involvement and achievements while in high school and a personal statement that addresses factors the applicant wishes to bring to the attention of the Office of Undergraduate Admissions may also be submitted. Applicants will be notified of their admissibility or inadmissibility on a rolling basis.

A limited number of fall applicants who are reviewed through PAS may be offered admission to a special summer entrance program or a fall co-enrollment program with Austin Community College.

**Limited Access Programs**

**Emmett and Miriam McCoy College of Business Administration**

If a student wishes to pursue a major in the Emmett and Miriam McCoy College of Business Administration, they will be automatically admitted when they:

- Select Business as a first-choice major and receive assured admission to Texas State
- Achieves one of the following: an SAT score of 1200 or higher, an ACT score of 27 or higher, or a ranking in the top 25 percent of their high school graduating class.

Other applicants who have received admission to Texas State will be considered through a competitive review process.

**Pathway Program**

The Pathway program (http://www.admissions.txstate.edu/pathway) is a unique one-year co-enrollment partnership between Texas State University and Austin Community College (ACC). As a participant in the program, the student enrolls for courses at Texas State each semester and at ACC Hays. Acceptance into the program is by invitation and is based on the university's Predicted Academic Success review process. A limited number of fall applicants will be offered a place in this alternative program based on the outcome of the holistic review.

**Transfer Admission**

**Transfer Students with Less than 30 Hours**

Students with less than 30 transferrable hours at the time of application must meet the following requirements:

1. Submit the ApplyTexas Application for transfer admission including one essay and information on extracurricular activities, application fee, and all other documents by the deadline. (see freshman admission requirements)
2. Meet assured admission requirements.
3. Submit an official transcript from each postsecondary institution attended. Students must be eligible to return (e.g., free of suspension, dismissal or enforced withdrawal) to all previous institutions regardless of grade point average (GPA) or degrees received.
4. Have a cumulative 2.0 GPA in all transferrable college work.

**Transfer Students with 30 Hours or More**

All Transfer students with 30-plus completed transferrable credit hours must meet a 2.25 grade point average for all transferrable credit. Transfer applicants must complete and meet the following requirements:

1. Submit part I of the ApplyTexas Application for Transfer/Transient/Readmit (www.applytexas.org)
2. Submit application fee of $75 (check, money order, American Express, Visa or MasterCard)
3. Submit an official college transcript from each postsecondary school attended. Student must be eligible to return (e.g., free of suspension, dismissal or enforced withdraw) to all previous institutions regardless of GPA or degrees received.
4. Have a minimum 2.25 GPA in all transferable work attempted. In calculating the GPA, grades of A, B, C, D, and F are computed as recorded. Non-punitive grades such as W or WP are posted but not calculated. Grades of WF or I are averaged as F. If a course has been repeated, all grades except the first will be used. Grades in non-transferable and technical/VocEd courses are disregarded. See Academic Policies section for specific information and policies for repeated grades and courses.

NOTE: Entering students are required to demonstrate that they have competency in foreign language. This can be demonstrated by:

- Two years of the same foreign language in high school or two semesters of the same foreign language in college. (Some degree programs may have additional requirements for graduation.)
- A placement exam
- CLEP

Transfer students who have met this requirement via their high school work should submit their high school transcript for credit.

Teacher Education Program
To be eligible for a Texas teaching certificate, a student must first be admitted to the university, then they can apply for admittance to the teacher preparation program through the Office of Educator Preparation (p. 232). Information regarding these requirements can be found in the College of Education section of this catalog.

Round Rock Campus
1555 University Blvd.
Round Rock, TX 78665-8017
www.rrc.txstate.edu (http://www.rrc.txstate.edu)
T: 512-716-4001

Texas State University offers students who live or work in the north Austin or Round Rock area a convenient option for completing a bachelor’s degree or obtaining a graduate degree. The Round Rock Campus (RRC) offers classes after 5:00 p.m. one night per week while other programs are offered during daytime hours. In addition to admissions, advising, financial aid and veteran affairs counseling, the RRC also provides computer technology assistance, library services, study areas, workshops, and convenient parking. Students who complete their degree requirements at the RRC are Texas State students who meet all of the same admissions and graduation requirements as students at the main campus.

The RRC offers junior- and senior-level classes to complete a bachelor’s degree in 13 programs as well as 12 graduate degrees and 13 post baccalaureate certificate programs. Students may enroll in hybrid and online courses and, if they choose, can complete their freshman- and sophomore-level classes at the San Marcos campus, at a community college or some other (accredited) institution then transfer to the RRC.

Undergraduate Degree Programs
To register for classes at the Round Rock Campus, students must have completed their sophomore year or at least 45 transferable hours. The 45 hours of credit must be from one of the several degree plans (http://www.rrc.txstate.edu/about/programs/bachelors.html) offered by the RRC. Students who intend to complete the junior- and senior-level classes at the RRC will follow the same application process (http://www.rrc.txstate.edu/prospective/starting.html) as other applicants to Texas State. Because the advising and orientation processes are unique to the RRC it is important to contact RRC student services as soon as possible.

Graduate Degree Programs
Students wanting to grow in their career or simply expand their knowledge can choose to pursue one of the Continuing Education, Post-Baccalaureate Certificate or Master’s degrees programs offered at the Round Rock Campus. Click for a list of those programs (http://www.rrc.txstate.edu/about/programs.html).

International Admission
An international student is defined as anyone who is not a United States citizen. However, a permanent resident alien who has completed two or more years in and graduated from a U.S. high school is required to meet the admission requirements established for U.S. citizens (see Undergraduate Admission in this section of the catalog).

International applicants should complete the International Student Application which is available at www.applytexas.org (http://www.applytexas.org). The application and all credentials must be submitted by the required deadline. A non-refundable $90.00 fee (U.S. currency) is required for all international applicants. Freshman applicants who are graduates of foreign secondary schools must demonstrate that they have above average academic achievement and an education equivalent to that of a U.S. high school graduate. Students transferring from foreign institutions must demonstrate above average academic achievement in their post-secondary education. Applicants must submit original academic records (or copies which have been certified by an appropriate school official) of all secondary and post-secondary coursework, examination results, SAT/ACT test scores, certificates awarded, and/or diplomas. A certified English translation must accompany the original academic records if the original records are not in English. Freshman applicants who are graduates of a U.S. high school and who completed at least two years in a U.S. high school must meet the freshman admission requirements established for U.S. citizens. Transfer applicants from within the U.S. must meet all regular transfer admission requirements (see Undergraduate Admission in this section of the catalog).

All applicants whose native language is not English must present proof of English proficiency. Texas State accepts the following measures of English proficiency for regular admission:

- Test of English as a Foreign Language (TOEFL) minimum score of 550 (paper-based test, PBT) or 213 (computer-based test, CBT), or 78 total score (internet-based test, iBT) with the following 3 out of 4 minimum section scores: 19 in Reading, 19 in Listening, 19 in Speaking and 18 in Writing, or
- International English Language Testing System (IELTS) minimum score of 6.5, or
- International Baccalaureate (IB) grade of 4, 5, 6 or 7 in English A1 or A2 at the Higher Level or Standard Level or English B at the Higher Level, or
- 30 semester hours of college course work transferred from a regionally accredited U.S. institution to include ENG 1310 College Writing I and ENG 1320 College Writing II with grades of “C” or higher, or
Important Considerations

• Transfer students must start attending classes within 5 months of the last day he or she attended classes (or ended OPT), or the next available session, whichever comes sooner.

• Advanced Level exam in English Language on GCE, GCSE, IGCSE or HKCEE with grade of “C” or higher, or

• Completion of all level 5500 Texas State Intensive English classes with composite grade of “A” or “B” and positive recommendation from program director.

International students who meet the established admission requirements but do not yet have the required level of English proficiency may be eligible for the Texas State Intensive English Bridge program. A TOEFL score between 500 & 549 (PBT) or between 173 & 210 (CBT) or 58 (iBT) total score with minimum section scores of 14 in Reading, 14 in Listening, 14 in Speaking and 14 in Writing, or IELTS score between 5.5 & 6.9 is required for the Texas State Intensive English Bridge program. Admission to the Texas State Intensive English Bridge program allows students to begin university academic study on a part-time basis while completing their English proficiency requirements in the Texas State Intensive English program. Acceptance into full-time academic study is contingent upon achieving one of the measures of English proficiency listed in the paragraph above, successfully completing the Intensive English program at Texas State and completing the Texas State credit courses with a grade of “C” or higher.

F1 International Students Transferring to Texas State from Another U.S. Institution

International students who wish to transfer to Texas State University need to meet the academic as well as the immigration requirements for this transfer. Students who have been already admitted into an academic program and provided the financial documentation required for their admissions should follow the steps below to process their SEVIS or immigration transfer. This is a separate procedure not to be confused with the academic transfer done through the Undergraduate or Graduate Admission offices. Simply transferring academically doesn't complete your SEVIS transfer.

1. Notify your international (http://www.international.txstate.edu) immigration student advisor at your current school of your intent to transfer and verify the procedures with them.
2. Request your current school to fill out and fax or email the Status Verification Form. It is your responsibility to make sure that your previous/current institution fills out the Status Verification Form and submits it.
3. Upon your notification, a DSO at your current school will update your record in SEVIS as a “transfer out” and indicate a release date. Once this release date is reached the International Office at Texas State will have access to your SEVIS record to process your transfer I-20.
4. After the release date of your SEVIS record contact the Texas State International Office to confirm that all documents needed for your SEVIS transfer have been received as well as your SEVIS record.
5. Call the International Office to schedule a check-in. You must bring all of your immigration documents to this meeting. Your transfer I-20 will be given to you at this time. For more detailed information on our Check-ins and International Student Orientation visit our website at www.international.txstate.edu (http://www.international.txstate.edu).

F1 International Students Transferring to Another U.S. Institution from Texas State

To transfer to another U.S. institution from Texas State you must request a SEVIS transfer from the International Office. This is a separate transfer from the academic transfer and does not imply a transfer of your academic records. The SEVIS transfer will allow your new institution to issue you a new I-20 that will allow you to maintain your legal status.

To notify the Texas State International Office of your intention to transfer out, you must fill out the SEVIS Transfer Out Form and submit it to our office with the admissions acceptance letter attached to it.

An International Office advisor will determine an appropriate release date for your SEVIS transfer which will generally be the last day of your current semester. More detailed information is included in the SEVIS Transfer Out Form.

If you decide to cancel your transfer, you must notify the Texas State International Office before your SEVIS transfer release date. Once the transfer release date has been reached, Texas State will no longer have access to your SEVIS record and your new institution will be responsible for the management of your record.

Simply receiving the new school's I-20 doesn't complete the transfer process. Contact the staff at your new institution responsible for assisting international students about completing the required SEVIS transfer procedures.

For further information on immigration requirements, contact the Texas State International Office at 512.245.7966 or www.international.txstate.edu (http://www.international.txstate.edu).

For further information on admission requirements for international students, contact the Office of Undergraduate Admissions at 512.245.2759 or www.admissions.txstate.edu (http://www.admissions.txstate.edu).

Readmission of Returning Texas State Students

Any Texas State student who does not enroll in the university for one long semester but wishes to return is considered a returning student (http://www.admissions.txstate.edu/future/former-students). Whether the student leaves on academic or disciplinary suspension or of their own accord, he or she must follow these procedures for readmission:

1. Submit part I of the ApplyTexas Application (http://www.applytexas.org) for Transfer/Transient/Readmit and required transcripts prior to the start of classes for the semester of desired enrollment.
2. Submit application fee of $40 (check, money order, American Express, Visa or MasterCard). Fee waivers (http://www.admissions.txstate.edu/financialaid/fee waivers).
Requirements for admission include:

1. A grade average of "B" or higher
2. A recommendation from a high school counselor or principal
3. Evidence that the student will meet or exceed Texas State freshman general admission requirements.
4. The PSAT or PLAN scores may be used in lieu of the SAT or ACT scores.

The ApplyTexas application, official high school transcripts and application fee of $75 and all supporting documents must be submitted by the deadline. Students admitted under the Special Talent Program must rank in the top three quarters of their high school class. Transfer students must have a minimum 2.0 GPA in that work.

Special Admission Options

All special admission categories will need to meet the State of Texas Uniform Admission Policy, Texas Education Code 51.803-51.809. (see State of Texas Uniform Admission Statement).

Early Admission Program

The Early Admission program offers high school juniors and seniors an opportunity to take college courses while still in high school.

Requirements for admission include:

1. A grade average of "B" or higher
2. A recommendation from a high school counselor or principal
3. Evidence that the student will meet or exceed Texas State freshman general admission requirements.
4. The PSAT or PLAN scores may be used in lieu of the SAT or ACT scores.

The ApplyTexas application, official high school transcripts and application fee of $75 and all supporting documents must be submitted by the deadline. Students admitted under this option are considered non-degree seeking and are not eligible for Financial Aid. After high school graduation, those students wishing to continue at Texas State in degree-seeking status must reapply and submit their final high school transcript.

Individual Approval

Applicants who have been out of high school for at least three years and have 0-29 transferable semester hours may be considered for admission on an individual basis. Applicants must submit an official high school transcript validating high school graduation or GED completion certificate. The high school transcript or GED certificate, college transcript(s), application including one essay (Topic C) and information on extracurricular activities, and the $75 application fee must be submitted by the appropriate deadline. No test score is required for admission review, but test score submission is recommended. Students whose record demonstrates potential for academic success at Texas State may be offered admission.

Special Talent Program

Students who receive a Fine Arts or Athletic Scholarship and are recommended for admission by the Dean of the College of Fine Arts and Communication or the Director of Athletics, but do not meet Assured, Predicted Academic Success or Individual Approval admission requirements, may be granted admission to Texas State. Freshman students admitted under the Special Talent Program must rank in the top three quarters of their high school class. Transfer students must have a minimum 2.00 cumulative GPA. The university president may authorize exceptions to this policy.

Non-Accredited High Schools

Graduates of non-accredited high schools must have a minimum ACT of 26 or SAT I (Critical Reasoning + Math) of 1180 and must meet the course unit requirements (Uniform Admission Policy and Freshman Admission) as outlined in the general admission requirements.

Home-Schooled

Home-schooled applicants must have a minimum ACT of 26 or SAT I (Critical Reasoning + Math) of 1180 to be considered and meet the State of Texas Uniform Admission Policy (see freshman admission policy) and Texas State Freshman Admission Requirements.

Veteran’s Guaranteed Admission Program

The Texas State University System’s (TSUS) Veterans Guaranteed Admission Program is designed to encourage all honorably discharged veterans to complete their undergraduate college education by guaranteeing admittance to one of the System’s institutions of higher education. Military veterans may gain admission to one of the TSUS institutions in several ways:

1. Veterans who apply by the institution’s application deadline and meet the freshman or transfer admission requirements of the TSUS institution will be admitted after their application and official credentials are complete usually in 2-3 weeks.
2. Veterans who narrowly miss the admission requirements of the TSUS institution of their choice will be admitted via one of the institution’s alternative admissions programs (e.g., summer bridge programs, admission contract programs, or similar admission opportunities).
3. Veterans not interested in gaining admission through a summer bridge or similar program may opt to have their file referred to another TSUS institution.
4. TSUS institutions will provide transfer counseling to veterans who wish to begin their higher education pursuits at a community college. Working closely with university admissions counselors, veterans will be provided a specific pathway through one of the Lamar State Colleges or another community college to be able to transfer seamlessly at a later date. These students will be guaranteed admission as soon as they fulfill their transfer admission plan with the TSUS institution.
5. Veterans seeking technical degrees or specific workforce training will be admitted to Lamar State College-Orange, Lamar State College-Port Arthur or the Lamar Institute of Technology. Should their goals change and a baccalaureate degree be sought, these students will be counseled by Lamar staff to take appropriate courses and will be guaranteed admission to any of the TSUS institutions as soon as the transfer requirement have been met.

General Educational Development Tests
Students with medical or personal reasons for not completing high school may elect to take the General Educational Development (GED) tests. Texas State recognizes the GED tests from an applicant with no previous college work whose high school class has graduated. Students with a GED certificate may be considered for admission provided they have a minimum ACT of 26 or SAT I (Critical Reasoning + Math) of 1180.

Transient/Visiting Student Admission
Students who have completed college work and who are working toward a degree at another college or university are eligible to be considered for transient/visiting admission. Transient/Visiting admission is for the summer only. The applicant must complete an application for admission listing all colleges and universities attended. To be admissible as a transient/visiting, a student must be in good standing at their current institution. A current transcript or documentation from Registrar indicating good standing at the institution of current enrollment must be submitted to the Office of Undergraduate Admissions. Upon completion of the summer work, the student may request a transcript/visiting for use in the home institution. Credit and grade points earned as a transient/visiting student at Texas State will not be used in determining regular eligibility for admission to Texas State.

Special Student Option
Students who are not working toward a degree at Texas State may be considered for admission as a Special Student. To qualify, students must either

1. verify an overall 2.25 GPA in previous college work or
2. have a high school diploma or equivalent and not have been enrolled in any secondary or post-secondary institution for the last three years.

Applicants must complete an application for admission listing all colleges and universities attended and the application fee by the required deadline. Students must be eligible to return to each previous post-secondary institution (i.e., free of suspension, dismissal or enforced withdrawal). Enrollment as a Special Student is limited to a total of 24 semester hours and students must reapply each semester. Students admitted under this option are considered non-degree seeking and are not eligible for Financial Aid. Work earned as a Special Student may be considered for degree purposes only after the student has reapplied and has met general admission requirements.

Appeals
Students who wish to appeal their admission decision should submit a letter of appeal providing further information about their circumstances and an indication of their readiness for study at Texas State.

Alternative Admissions Programs
Some prospective transfer students may be eligible for one of these alternative admission programs. Students interested in either the Academic Fresh Start or Academic Bankruptcy program are urged to consult with an admission counselor first before pursuing one of these options. These programs are intended for prospective students only and cannot be applied after the student has been accepted.

Academic Fresh Start
Under the provisions of the Texas Education Code, the Academic Fresh Start program was established to allow a Texas resident to apply for admission and elect to have all academic course work earned 10 or more years prior to the requested enrollment date ignored for admission purposes. Individuals who choose Academic Fresh Start, including former Texas State students, must meet current published admission criteria for Texas State and must submit official records from all colleges attended. Students admitted under this provision will not receive any course credit for courses taken 10 or more years prior to enrollment.

Academic Bankruptcy Policy
Students who have not enrolled in any accredited college or university for five or more consecutive calendar years immediately prior to admission to Texas State may, at the time they apply for admission, request permission to declare academic bankruptcy. Under this policy all college-level work done at an earlier date is eliminated from computation of the GPA and none of it is applied toward a degree at Texas State. Such work, however, will not be removed from the student’s records. Those granted academic bankruptcy are admitted on academic probation.

Second Bachelor’s Degree
Students who have earned a bachelor’s degree and wish to complete a second bachelor’s degree should submit the ApplyTexas application, $75 application fee and official transcripts from all colleges or universities attended including the transcript where the highest degree was obtained. Transcripts for any course work completed after the degree was earned must also be submitted. All usual deadlines apply. Students who hold a bachelor’s degree and wish to pursue additional course work but not a second bachelor’s degree should apply through The Graduate College.

Auditing Courses
Those who wish to audit a course must be accepted by the Office of Undergraduate Admissions and approved by the school, department, or program offering the course. Audit status must be declared at registration. Participation in class discussion and examinations is optional with the instructor. Auditors receive no course credit but are expected to attend class regularly. With departmental/school approval, a student who has audited a course may later take the course for credit.

Transfer Credit
Evaluation of Transfer Credit
Transfer of credit from another institution to Texas State involves consideration of accreditation, comparability of course work and applicability of that course work to a Texas State degree program. The Office of Undergraduate Admissions provides, along with the admission notification letter, an evaluated transfer work that shows how each
course that the student has completed has been evaluated for transfer to Texas State.

**Regional Accreditation**

Texas State will consider for transfer credit (subject to other provisions outlined below) course work completed at institutions which have been granted membership or candidacy status in a regional association of the Association of Colleges and Schools, excluding accrediting commissions for vocational or occupational training.

**No Regional Accreditation**

Course work from an institution which is neither regionally accredited nor a candidate for such accreditation will not be recognized for transfer purposes. Student appeals may be reviewed on an individual basis.

**Bible College Accreditation**

Courses from institutions accredited solely by ABHE (Association for Biblical Higher Education) are awarded transfer credit on a parallel course by course basis. Remedial courses are nontransferable. Religious courses of a doctrinal or denominational character (sacraments, Christian approaches to missions, etc.) are not transferable.

**Credit from Abroad**

Course work completed at foreign institutions will be evaluated on an individual basis. Foreign institutions must be officially recognized by their Ministry of Education for transfer credit to be considered.

**Role of the Office of Undergraduate Admissions in Determining Transfer Credit**

The Office of Undergraduate Admissions reviews each course taken at another college or university and makes the initial determination of whether or not a course is transferable. The course is evaluated for transfer credit by comparing the nature, content, and level of transfer credit and in consultation with appropriate academic units at Texas State. Courses transfer to Texas State on the same level and with the corresponding grades and number of hours as earned at the other institution. It is sometimes necessary for the transfer student to provide such materials as catalogs, course descriptions, syllabi, class assignments, or textbooks to assure proper evaluation. The holding of an associate degree from another institution has no effect on the transfer of credit or admission to Texas State.

**Role of University College**

The University College will review student requests for review of elective courses (ELNA, ELADV) for application to the general education core curriculum.

**Role of College Dean and Program Chair/Department Chair/School Director of Student’s Major**

The applicability of transferred credit toward a degree at Texas State will be the decision of the college dean and the chair/director of the student’s major department/school/program. The applicability of transferred credit will be evaluated on a course-by-course basis.

Explanation of Evaluation Symbols. Admissions personnel assign evaluation symbols to all courses submitted.

1. Courses that have direct Texas State course equivalency will be equated to the Texas State course number and be reflected accordingly on the evaluated transcript record.

2. Courses that hold transfer credit value, but which do not have an exact Texas State course equivalency, will transfer as elective courses. Elective courses will be recorded as ELNA (for lower-level freshman and sophomore courses) and ELADV (for upper-level junior and senior courses). Courses transferred at the lower-level cannot be equated as upper-level courses. The college dean and the chair/director of the student’s major department/school/program will determine how these elective courses apply toward the student’s degree.

3. Courses evaluated as Vocational Education (VocEd) are not transferable and are not computed in the GPA for admission purposes. In cases where VocEd courses support a student’s degree program, the student may request the chair/director of his/her major department/school/program to review the courses. If approved, the VocEd credit will be recorded on the student’s official Texas State transcript for application to that degree program. Should the student’s major change, the applicability of the VocEd credit toward the new major will be subject to review by the chair/director of the student’s new major department/school/program.

4. Courses that hold no transfer value for either admission or degree purposes are evaluated as Non-Transferable (NOCRD). Generally, these are courses that are remedial, preparatory, or developmental in nature.

5. Physical fitness activity courses are evaluated as Activity (ACT). These are transferable for admission and degree purposes.

**Course Equivalency Information**

Course equivalency information may be obtained from the junior/community college counselor, the Texas State Office of Undergraduate Admissions or through CatsWeb on the Texas State web site (www.txstate.edu (http://www.txstate.edu)). Students are encouraged to plan all course selections at the junior/community college as far in advance as possible. Proper planning and use of the equivalency information will maximize the transfer of credit to Texas State.

**Texas Junior/Community College Transfer Students**

Prior to transferring from a Texas junior/community college, students should discuss their course selections and degree plans with their two-year college counselor or academic advisor.

**Articulation Agreements and Transfer Planning Guides**

Texas State has formal articulation agreements and/or transfer planning guides with Alvin Community College, Amarillo College, Austin Community College, Blinn College, Brazosport College Central Texas College, Cisco Jr. College, Coastal Bend College, Collin County Community College, Dallas County Community College District, El Paso Community College, Frank Philips College, Houston Community College, Kilgore College, Laredo Community College, Lone Star College, McLennan Community College, Midland College, Northeast Lakeview College, Northwest Vista, Odessa College, Palo Alto College, Paris Jr. College, San Antonio College, San Jacinto College, South Plains
Texas State University

College, South Texas College, Southwest Texas Junior College, St. Philips College, Tarrant Community College, Temple College, Western Texas College, Wharton Jr. College and Victoria College. Transfer planning guides have been developed for many programs in these community colleges and for many additional programs in other community colleges. Potential transfer students may access existing transfer planning guides at www.admissions.txstate.edu/future/transfer/tpg.html (http://www.admissions.txstate.edu/future/transfer/tpg.html).

Texas Common Course Numbering

Under Texas Education Code 61.832, the Texas Common Course Numbering System (TCCNS) was developed to facilitate transfer of general academic courses between Texas public institutions. Common courses are included in the Community College General Academic Course Guide Manual, published by the Texas Higher Education Coordinating Board. Common course numbers may be used to determine how freshman and sophomore level courses transfer between Texas public institutions.

The common course number has a standardized four-letter prefix followed by a four-digit number, for example, ENGL 1301. The four-letter prefix identifies the subject area. Each digit in the four-digit sequence gives additional information about the course. The first digit identifies the course as either freshman level (1) or sophomore level (2). The second digit identifies the number of credit hours a student will earn upon completion of the course. Most often this digit will be a 1, 2, 3, or 4. The final two digits serve to establish the sequence in which courses are generally taken.

In the course description sections of the catalog, the common course number is shown in parentheses, for example, (ENGL 1301). The following is a list of all the common course numbers currently adopted by Texas State. The courses that fulfill Texas State’s general education core curriculum requirements are designated with an asterisk.

* Courses that fulfill Texas State’s general education core curriculum requirements.

Transcripts

Official Texas State transcripts separate transfer course work and grades from Texas State course work and grades. The transfer GPA is used to determine eligibility for admission purposes. Credits transferred are included in the total hours the student has earned, but the grades and quality points do not affect the student’s Texas State GPA.

Maximum Hours Accepted

Texas State will apply to a specific degree no more than 66 semester hours from an accredited junior/community college (at the approval of the individual dean, 6-8 hours may be added). At the time of the transfer,
Resolutions of Transfer Disputes for Lower-Division Courses

The following procedures shall be followed by public institutions of higher education in the resolution of transfer credit disputes involving lower-division courses:

1. If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that the course credit is denied.
2. The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with Board rules and/or guidelines.
3. If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the institution whose credit is denied for transfer shall notify the Commissioner of the denial.
4. The Commissioner of Higher Education or the Commissioner’s designee shall make the final determination about the dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.
5. All public institutions of higher education shall publish the procedures described in sub-sections (1) and (2) of this section in their undergraduate course catalogs.
6. All public institutions of higher education shall furnish data to the Board on transfer disputes as the Board may require in accord with its statutory responsibilities under Texas Education Code Section 61.826.

Credit for Experiential Learning

The Department of Occupational, Workforce, and Leadership Studies is the only academic unit at Texas State that employs a systematic process for evaluating and credentialing experiential learning with academic merit and credit. Such credit is validated after enrollment at Texas State according to established criteria and is forwarded to the Office of Undergraduate Admissions for posting to the student’s record. Should a student change majors, the validation of extra-institutional credit will be re-evaluated by the new academic department/school.

Military Credit

The Office of Undergraduate Admissions will review course work from educational experience obtained in the Armed Forces. In compliance with Texas Education Code 51,3042, eligible former members of the armed forces admitted as an undergraduate student or reenrolled as an undergraduate student could be awarded course credit for all physical education courses Texas State requires for an undergraduate and for additional semester credit hours, not to exceed 12, that may be applied to satisfy any elective course requirements for the student’s degree program for courses outside the student’s major or minor if the student:

1. graduated from a public or private high school accredited by a generally recognized organization or from a high school operated by the United States Department of Defense; and
2. is a member of the armed forces of the United States who completed at least two years of service in the armed forces or was discharged because of disability.

Two hours of physical education activity credit will be awarded by the Office of Undergraduate Admissions upon receipt of Form DD214 that verifies 2 Years of active military duty. The student must also submit an official high school transcript.

The Office of Undergraduate Admissions uses the “Guide to the Evaluation of Educational Experience in the Armed Services” for evaluating the course work. Other military course work may be considered for transfer credit. Acceptable forms of documentation that may be submitted include:

1. JST (Joint Services Transcript)
2. CCAF Transcript (Community College of the Air Force)
3. Form DD214 (Report of Separation)

Texas State grants credits for the lower and upper division baccalaureate degree but does not award credit for vocational or graduate level work. Transfer credit is subject to approval by the student’s major department/school. ACE credit is only considered for military coursework.

Credit-by-Examination

Credit may be earned by achieving a sufficient score (as determined by the relevant academic department of Texas State University) on any of several exams and submitting official score reports to the Testing, Research Support, & Evaluation Center (TREC), or by submitting a transcript from another college or university to Undergraduate Admissions documenting credits awarded there through examination.

Sufficient scores on the following examinations may be applied for credit:

1. College Level Examination Program (CLEP),
2. College Board Advanced Placement Examination Program (AP),
3. International Baccalaureate Program (IB), and
4. certain established departmental examinations (administered by TREC or by the relevant academic department)

Credit established in this manner through TREC will be recorded as “credit only” (CR) on the transcript and will not affect the GPA, except that Texas State University recognizes superior scores for CLEP exams in French, German, and Spanish language by awarding letter grades of A or B according to the Credit & Grade Awarding Table (http://tlig.net/Zbzt).
Letter grades for the French, German, and Spanish language CLEP exams are optional, and may be recorded as CR at the student’s request.

Evidence of credit by any examination must be evaluated by TREC before it can be entered on a transcript. More detailed materials on this and other TREC programs are available at the TREC website, www.txstate.edu/trec/ (http://www.txstate.edu/trec).

When an official transcript from a previously attended institution of higher education indicating credit earned through examination is received in Undergraduate Admissions, those credits are evaluated by transfer credit criteria and awarded grades of “credit only” (CR).

Credit earned by exam satisfies degree requirements in the same way as credit earned by passing courses does except that it does not count as credit earned in residence.

**International Baccalaureate (IB)**

The International Baccalaureate (IB) is an international program of courses and examinations offered at the high school level. An IB program official transcript of grades (diploma or certificate) must be sent to Texas State for evaluation and award of appropriate course credit. Those students participating in the IB program and planning on attending Texas State University should indicate Texas State as the recipient of the IB diploma or certificate. Students presenting an IB diploma will receive a minimum of 24 course specific semester credit hours in the appropriate subject areas for all IB exam scores of 4 or higher. Students who successfully complete the IB diploma program may receive fewer than 24 semester credit hours under this policy if the student has scored lower than 4 on any IB examination administered as part of the diploma program. The following are the Standard (SL) and Higher Level (HL) exams approved for course credit at Texas State.

**New Student Orientation and Registration for Classes**

All students, including former/readmit students are required to attend New Student Orientation. These special programs for are held before each semester to provide information about student services, class scheduling, and university resources. Additionally, these sessions include academic advisement and course registration. Transfer students with 30 transferable hours complete, readmit and subsequent degree students are eligible for online orientation. International students must also attend International Student Orientation.

**Residency for Tuition**

Residency status affects an individual’s eligibility for resident tuition and for financial aid at Texas State. Applicants for admission to Texas State as well as current students are classified either as an in-state resident of Texas or an out-of-state non-resident.

Rules for determining Texas residency (http://www.admissions.txstate.edu/future/residency.html) classification are different from those regarding standard legal residency. An individual’s residency classification is initially determined by the information provided by the student on their ApplyTexas admission application. The student is responsible for ensuring that their residency information is accurate and any corrections are made to their classification before the census date (normally the 12th day of classes for the spring and fall semesters or the 4th day for summer terms).

Some non-residents may qualify to have the out-of-state portion of their tuition waived (http://www.sbs.txstate.edu/students/waivers-exemptions.html). It is imperative that students understand that a waiver is temporary and does not grant in-state residency. If the waiver expires, or is lost, the tuition bill will reflect the full non-resident amount if residency has not otherwise been established.

**Determination of Residence Status**

1. The following persons shall be classified as Texas residents and entitled to pay resident tuition:
   a. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic semester in which the person enrolls in an institution;
   b. a person who established a domicile in this state not less than 12 months before the census date of the academic semester in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic semester in which the person enrolls in an institution; and
   c. a dependent whose parent established a domicile in this state not less than 12 months before the census date of the academic semester in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic semester in which the person enrolls in an institution.

2. The following non-U.S. citizens may establish a domicile in this state for the purposes of subsection (1)(b) or (c) of this section:
   a. a Permanent Resident;
   b. a person who is eligible for permanent resident status;
   c. an eligible nonimmigrant that holds one of the approved types of visas. A complete list is available at www.collegefortexans.com (http://www.collegefortexans.com);
   d. a person classified by the USCIS as a Refugee, Asylee, Parolee, Conditional Permanent Resident, or Temporary Resident;
   e. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS;
   f. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration and Nationality Act 240A(b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; and
   g. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the "registry" program (8 United States Code 1259), or the Special Immigration Juvenile Program (8 USC 1101(a) (27)(J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.
3. The domicile of a dependent’s parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (1)(a) of this section.

4. A domicile in Texas is presumed if, at least 12 months prior to the census date of the semester in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, or is married to a person who has established a domicile in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.

5. The temporary absence of a person or a dependent’s parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person’s ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent’s parent shall provide documentation of the reason for the temporary absence.

6. The temporary presence of a person or a dependent’s parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.

For information on Residency Requirements contact the Residency Determination Officer for Texas State University at Residency@txstate.edu.

Exceptions. A non-resident or foreign student may qualify to pay in-state tuition. Questions and documentation should be directed to Student Business Services.

1. The student or student’s spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered to be Texas residents.)

2. The student or student’s spouse or parent is employed at least half-time as a teaching or research assistant in a position related to the assistant’s degree program at a Texas public institution of higher education.

3. The student or student’s spouse or parent is employed at least half-time on a regular monthly salaried basis as a teacher or professor at a Texas public institution of higher education.

4. The student holds an approved competitive scholarship from Texas State of at least $1000 for the academic year or summer awarded by an official Texas State scholarship committee.

5. The student or student’s spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program. (Refer to www.collegefortexans.com/Residency for a list of qualified employers.)

6. The student is a New Mexico resident who resides in a county bordering Texas.

7. The student is a Louisiana resident who resides in a parish bordering Texas.

8. The student is a resident of Mexico who has demonstrated a financial need.

Albert B. Alkek Library
Alkek Library
www.library.txstate.edu (http://www.library.txstate.edu)
T: 512.245.2686 F: 512.245.0392

The Alkek Library contains more than 1.5 million print materials, including books, documents, theses/dissertations, and other resources. The library provides access to 540,000 ebooks, 500+ databases, more than 80,000 audiovisual materials, and more than 700,000 microform materials.

Special holdings of the Library include the Wittliff Collections (comprised of the Southwestern Writers Collection and the Southwestern and Mexican Photography Collection), the University Archives, and the K-12 textbook collection. The Library is also a selective depository for federal government documents. As a member of the Texas Digital Library, the Library’s Digital Collections (http://digital.library.txstate.edu/) provides access to unique Texas State collections, including scholarships authored by university faculty, students, and staff and selected materials from The Wittliff Collections and the University Archives.

The Library’s online catalog (http://catalog.library.txstate.edu) provides information on the Library’s holdings. Wireless access to the university network is available within the Library. Laptop computers may be checked-out for building use. A computer lab provides workstations, laser printers, scanners, video-editing equipment, and adaptive equipment for individuals with disabilities.

The Library maintains cooperative borrowing agreements with other libraries in the region. Through TexShare, a statewide resource sharing program, students and faculty may borrow materials held by most public and private university libraries in the state. Materials may be transferred, by request, to the Texas State University Library in Round Rock.

Career Services
LBJ Student Center, 5th Floor
www.careerservices.txstate.edu (http://www.careerservices.txstate.edu)
T: 512.245.2645

Exemplary career services leading Texas State students into the future.

We provide compassionate, comprehensive career assistance to the diverse Texas State family. Our services incorporate leading practices to guide students through all stages of their career development and progression from college to career.

Through Career Services, students have access to a wide array of career-related programs, resources, and career development support.

Career Planning and Exploration

Individual career counseling and planning assistance is available to students as they select a major and establish their career goals. Career assessments and web-based guidance programs are also available to facilitate this process. In addition, counselors can review job search materials and assist with post-graduate program applications.

Career Advising and Job Search Strategies

Career Advisors are available to meet one-on-one with students to discuss their job search preparation. Topics of discussion include résumé and cover letter writing, interviewing techniques, and salary negotiations.
Workshops focused on career development and professionalism are offered throughout the school-year to help in the transition from student to professional.

**Employment**

Resources are available to assist students find part-time, full-time, college work-study, internships and summer employment. These opportunities can be found in our online database, Jobs4Cats. Résumés, class schedules, applications, and proof of employment eligibility are required.

**Job Shadowing and Internships**

Job shadowing is a short term opportunity for students to discover various career options. This experience includes spending time with professionals inside different organizations gaining firsthand knowledge about diverse career fields, and serves as a critical component of career exploration. Internship opportunities are available to refine career goals, gain practical experience, and expand students' views of the world. Often, internships serve as key experiences that lead to full-time opportunities.

**Employer Connections**

Career Services provides students and alumni the opportunity to interact with numerous employers for networking and employment purposes. Bobcats have access to Jobs4Cats, Texas State’s exclusive job search database, as well as many additional online resources that can be viewed at www.careerservices.txstate.edu (http://www.careerservices.txstate.edu).

Career Services hosts approximately ten career events per semester. A few examples include an “All Majors” Spring and Fall Job and Internship Fair, STEM (Science, Technology, Engineering and Math) Job and Internship Fair, Health Professions Fair, and a Mass Communication Career Fair. These events bring hundreds of employers to campus with internship, part-time, and full-time opportunities for students and alumni.

Additional networking is available through employer information sessions and panel presentations, annual externship days, and résumé referrals.

Career Services hosts a robust on-campus interviewing program. Each long semester, approximately 70 employers conduct 700+ interviews on campus for internship and full-time opportunities. All on-campus interviewing opportunities can be found in Jobs4Cats.

**Disability Services**

LBJ Student Center 5-5.1
www.ods.txstate.edu (http://www.ods.txstate.edu)
T: 512.245.3451 F: 512.245.3452

Texas State does not discriminate on the basis of disability in the recruitment and admission of students. Students with disabilities must meet the same admission requirements as other students. A student whose educational and/or personal goals for success have been negatively impacted due to disability-based reasons may wish to address this in the supplemental essay portion of the admission application.

The Office of Disability Services (ODS) at Texas State is dedicated to supporting the lives of students with disabilities who seek the goal of higher education. Because each person's situation is unique, Disability Services simply asks that any interested student meet with us. Documentation requirements vary by situation. The Disability Services staff member will talk to the student about documentation during the initial conversation. No student should delay meeting with the ODS out of concern for not having appropriate paperwork. Students needing sign language or oral interpreting services for admissions counseling or academic advising should contact ODS one week prior to the event to ensure interpreter availability.

Students with disabilities may be entitled to financial assistance from the Department of Assistive and Rehabilitative Services.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination on the basis of disability. This grievance procedure is described in UPPS No. 04.04.46 (http://www.txst.edu/effective/UPPS/UPPS-04-04-46.HTML), Prohibition of Discrimination or Harassment. A copy is available in the university library, the Office of Disability Services and most other university offices. Students who have concerns or complaints should contact the Director of Disability Services at 512.245.3451 or the university ADA Coordinator at 512.245.2278.

**Financial Aid and Scholarships**

J.C. Kellam Building Room 240
www.financialaid.txstate.edu (http://www.financialaid.txstate.edu)
Email: financialaid@txstate.edu
T: 512.245.2315

Texas State makes every effort to help students who need assistance in paying for the cost of their education. Various financial aid programs are available. Interested students should contact Financial Aid and Scholarships or visit the office's website to view the types of assistance that are available.

**Federal and State Aid Programs**

Texas State participates in both federal and state financial aid programs. Financial Aid and Scholarships offers grants, work study, student and parent loans, scholarships and other types of aid. Students with sufficient financial need can benefit from such grants as the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, TEACH Grant, Iraq-Afghanistan Service Grant, TEXAS Grant, Texas State Tuition Grant and Texas Public Educational Grant.

**Applying for Financial Aid**

To apply for financial aid, a student must complete and submit the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov (http://www.fafsa.ed.gov) and include the Texas State University school code – 003615.

**Deadlines**

- March 15 is the priority date for filing a FAFSA for the upcoming academic year (fall and spring). If the deadline is missed, a student may still apply and receive some forms of assistance such as the Pell Grant and student loans.
- March 1 is the priority deadline for filing the separate summer financial aid application prior to the upcoming summer semester. This separate summer application, which can be found online at www.financialaid.txstate.edu (http://www.financialaid.txstate.edu), is in addition to filing the appropriate year’s FAFSA.
- For scholarships deadline information, visit www.financialaid.txstate.edu/scholarships (http://www.financialaid.txstate.edu/scholarships).
Satisfactory Academic Progress Requirements

Federal regulations require students to meet certain minimum academic standards in order to remain eligible for financial assistance. The requirements are that a student:

1. maintain a minimum cumulative Texas State GPA;
2. complete at least 67% of all coursework; and
3. not exceed a maximum limit of attempted hours toward their degree.

Additional program-specific requirements also exist. View these SAP criteria in more detail at www.financialaid.txstate.edu (http://www.financialaid.txstate.edu) by selecting Undergraduate Aid from the dropdown menu and then Maintain My Eligibility.

Alternative Loan Resources

For information on alternative loans, visit www.financialaid.txstate.edu (http://www.financialaid.txstate.edu), select Undergraduate Aid from the dropdown menu and then Types of Aid.

Official Withdrawals and Financial Aid

If a student withdraws or is expelled from the university on or prior to the 60-percent point of the semester, the student is required to repay any unearned portion of their federal Title IV aid. For more details, visit www.financialaid.txstate.edu (http://www.financialaid.txstate.edu), select Undergraduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Unofficial Withdrawals and Financial Aid

If the student fails to earn a passing grade in at least one of their courses (i.e., all U's, all I's or a combination of all U's, W's or I's) during a semester, the student is considered to have, for purposes of federal Title IV funds, unofficially withdrawn from the university. As a result, a federal withdrawal calculation must be performed to determine the amount of Title IV funds the student must repay. For more details, visit www.financialaid.txstate.edu (http://www.financialaid.txstate.edu), select Undergraduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Non-Attendance and Financial Aid

If the student is a Pell Grant, Iraq-Afghanistan Service Grant (IASG) or TEACH Grant recipient, federal regulations require the student to have begun attending the courses for which the student is enrolled and receiving these grants. If on the census date roster (e.g., 12th day of each fall and spring semester) the student is reflected as not attending a course, the student is assumed (for financial aid purposes) not to have begun attendance for that course. The student’s grant will then be adjusted or cancelled based on the courses the student has actually begun attending. For more details, visit www.finaid.txstate.edu (http://www.finaid.txstate.edu), select Undergraduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

To Withdraw

The student must complete the form entitled “Texas State Official Withdrawal Request” from the Registrar’s Office. Financial aid recipients should speak with a Financial Aid and Scholarships representative before the withdrawal is processed. The withdrawal date is defined as the date on which a student first indicates his or her intent to withdraw.

Housing and Residential Life

DHRL Office Building
515 N. Comanche Street
www.reslife.txstate.edu (http://www.reslife.txstate.edu)
T: 512.245.4663 F: 512.245.7619

University Housing Policy

The Department of Housing and Residential Life at Texas State University supports the academic mission of the university by providing on-campus housing. In support of the educational mission of the university and the value of the on-campus residential experience to students the department provides students with a safe, comfortable and convenient living environment, while offering opportunities for increased campus involvement, social interaction and academic assistance. For these reasons, the university requires that certain students live on campus.

New freshmen under the age of 20 (by September 1 for fall admission or January 1 for spring admission) with fewer than 30 credit hours are required to live in on-campus university housing. All students who graduated from high school within the preceding 12 months of the semester of their admission are also required to live on campus.

Living On-Campus

Ask someone about their college experience, and they’re likely to relate stories of the most exciting, intense and memorable times of their life. These memories will almost always relate to their experience in a residence hall. The on-campus living experience is where lifetime friendships are formed, ideas and ideals are exchanged, and a whole world of opportunity and potential is spread before those willing to explore, study and get involved.

It is the mission of the Department of Housing and Residential Life to provide you with welcoming living communities that foster academic success, campus engagement, and personal development.

Research on-campus and nationally has shown that, when compared to those living elsewhere, students living in the residence halls are more fully involved in academic and extracurricular activities and tend to earn a higher GPA.

Dining On-Campus

No matter what you like to eat, when you want to eat, or whom you want to be with, our dining plans have your needs in mind. The university offers four different dining plans so you can pick the one that best fits your schedule, eating preferences, and pocketbook.

Applying to Live On Campus

Contracts for on-campus housing are accepted only after you have been admitted to Texas State

Cancellation Deadlines

Contracts for on-campus living are for the entire academic year. Once your contract has been signed and returned there are very limited reasons for cancellation. If you are not planning to attend the university, cancellation deadlines must be met for a deposit to be refunded. Please see our contract terms and conditions for specific cancellation details.
Veteran's Affairs

J.C. Kellam Building Room 111
www.va.txstate.edu (http://www.va.txstate.edu)
Email: veteransaffairs@txstate.edu
T: 512.245.2641 F: 512.245.3271

Students attending Texas State while receiving educational assistance under one of the public laws for veterans and/or their dependents must contact the Texas State Office of Veterans Affairs to complete the required forms. Information and forms are also available on our website www.va.txstate.edu (http://www.va.txstate.edu).

New and transfer students applying for educational benefits under the U.S. Department of Veterans Affairs for the first time must provide the Office of Veterans Affairs with a Certificate of Eligibility for the respective benefit, a photocopy of the DD214 Member 4 form, “Certificate of Release or Discharge from Active Duty,” and a Change of Place of Training VA Form 22-1995 for transfer students. Reserve and National Guard members applying for Chapter 1606 benefits must provide DD 2384 form: “Notice of Basic Eligibility”. Active duty military and dependents are exempt from the above DD-214 requirement. All students must provide a copy of their Degree Works Audit for their major and must follow the degree requirements in order to receive the maximum payout of their benefit. It is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

Benefit payments are made at the end of each month. Any student enrolling under any of the provisions for VA educational benefits should bring sufficient funds to defray the initial cost of tuition, fees, and living expenses for approximately three (3) months.

As a graduate student receiving veteran benefits, you must file with the Office of Veterans Affairs an official master’s degree outline, a certification deficiency plan, or other similar documentation showing the requirements needed to accomplish your objective. It is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

Dependents of Texas veterans and veterans who have exhausted VA educational benefits, should check with the Office of Veterans Affairs for information about the Hazlewood Exemption. Note: dependents students who are eligible for Hazlewood are subject to federal satisfactory academic progress (SAP) policies. For more information, go to http://www.va.txstate.edu/benefits/hazlewood.html. Applications and information sheets for the Hazlewood Exemption may be obtained at the Office of Veterans Affairs or at www.va.txstate.edu (http://www.va.txstate.edu).

Tuition and Fees

Information regarding tuition and fees may be obtained at http://www.sbs.txstate.edu/.

The University reserves the right to change fees in keeping with the acts of the Texas Legislature and the Board of Regents of The Texas State University System. The payment of all fees entitles the student to admission to classes; admission to auditorium and athletic attractions; subscription to The University Star; use of the Student Center and Recreational Sports Center, health services, and Sewell Park facilities; and group use of the Wimberley Camp. These fees also help provide funds for the Associated Students, band, choir, dramatics, debate and other student activities.

Tuition

Tuition for Excessive Undergraduate Hours

Texas Education Code §54.014 specifies that resident undergraduate students may be subject to a higher tuition rate for attempting excessive hours at any public institution of higher education while classified as a resident student for tuition purposes. Texas State students attempting hours in excess of their degree program requirements will be charged at the non-resident tuition rate for those hours, and those students are categorized as follows:

1. Students initially enrolled during or after the fall 2006 semester will be charged at the non-resident rate if, prior to the start of the semester or session, the student has previously attempted 30 or more hours over the minimum number of semester credit hours required for completion of the degree program in which the student is enrolled.

2. Students initially enrolled during the fall 1999 through summer 2006 semesters will be charged at the non-resident rate if, prior to the start of the semester or session, the student has previously attempted 45 or more hours over the minimum number of semester credit hours required for completion of the degree program in which the student is enrolled.

Attempted courses include those courses attempted at Texas State or any Texas public institution of higher education. The following types of credit hours will count toward the excessive hour limit if they are normally eligible for formula funding:

- major courses;
- dual degree;
- minor courses;
- certificate courses
- teaching certification courses
- hours in distance and off-campus course
- bankruptcy hours;
- repeated courses; and
- courses dropped after the official census date.

The following types of credit hours are exempt and will not count toward the limit:

- hours earned by the undergraduate before graduating from a bachelor’s degree that has been previously awarded;
- hours earned through examination or similar method without registering for a course;
- hours from developmental courses or interventions, workforce education courses, or other courses that would not generate academic credit that could be applied to a degree at Texas State if the course work is within the 27-hour limit at two-year colleges and the 18-hour limit at general academic institutions;
- hours earned by the undergraduate at a private institution or an out-of-state institution;
- hours not eligible for formula funding;
- hours earned by the undergraduate before graduating from high school and used to satisfy high school graduation requirements; and
• hours earned by the undergraduate ten or more years before beginning a new degree program under Academic Fresh Start as described in Texas Education Code §51.931 and Texas Education Code §61.0595(c).

Appeals due to economic hardship are permitted under defined institutional policy. Texas State has determined that students who are eligible for financial aid under the Federal Pell Grant (Pell) program will be exempted from the non-resident tuition if, at the time of registration, their Pell eligibility is documented in the financial aid system at Texas State. Students who become Pell eligible, during the semester in which they are charged the non-resident tuition, may submit eligibility documents to the Student Business Services office no later than the official last class day of the semester in which the appeal is being requested.

**Tuition Rebate Program**

Under Texas Education Code §54.0065, qualified students will receive up to a $1,000 tuition rebate upon graduation from Texas State. To be eligible for this rebate, a student must meet all of the following conditions:

1. The first enrollment in any institution of higher education must be in the fall 1997 semester or later.
2. The student must have received his/her baccalaureate degree from a Texas public university.
3. The student must be a resident of Texas and entitled to pay resident tuition at all times while pursuing the degree.
4. If enrolled for the first time in fall 2005 or later, the student must graduate within four calendar years from the first semester enrolled for a four-year degree or within five calendar years for a five-year degree. Note that the four–or five-year time limit prescribed begins on the first day of the month for enrollment in the semesters described as follows: September for a fall semester, January for a spring semester, and June for summer. For example, a student enrolling for the first time in fall 2006 for a four-year degree must complete that degree not later than September 1, 2010 to be eligible for the rebate.
5. The student must attempt no more than three hours in excess of the minimum number of semester credit hours required to complete the degree under the catalog under which he/she graduates. Hours attempted include transfer credits, course credit earned exclusively by examination in excess of nine semester credit hours, courses that are dropped after the official census date (twelfth class day fall and spring semesters, fourth class day summer sessions), for-credit developmental courses, optional internship and cooperative education courses, and repeated courses. For students concurrently earning a baccalaureate degree and a Texas teaching certificate, required teacher education courses shall not be counted to the extent that they are over and above the free electives allowed in the baccalaureate degree program. Courses dropped for reasons that are determined by the institution to be totally beyond the control of the student shall not be counted.

This tuition rebate program is designed to provide a financial incentive for students to complete their baccalaureate studies with as few extraneous courses as possible. To earn the rebate, it is particularly important to follow the advice and counsel of the academic advisors. Students must apply for the Tuition Rebate Program no sooner than the first day of class of the semester in which the student plans to graduate and not later than the business day immediately preceding graduation. Students must consult with their academic advisor to assure they meet all requirements to qualify for this program. Rebates will first be applied to outstanding obligations owed to Texas State prior to funds being issued to the student.

Appeals due to hardship are permitted under defined institutional policy. Effective for students who enroll for the first time in fall 2005 or later, an otherwise eligible student may be eligible for a rebate without satisfying the above requirements, if the student is awarded a baccalaureate degree and the college dean certifying the degree has determined, with the completion of a Tuition Rebate Hardship Justification form, that the student has demonstrated a hardship under any of the following conditions:

1. a severe illness or other debilitating condition that may affect the student’s academic performance;
2. an indication that the student is responsible for the care of a sick, injured, or needy person and that the student’s provision of care may affect his or her academic performance; or
3. performance of active duty military service.

Some fees are waived for students taking classes exclusively in Round Rock.

**Campus Parking/Vehicle Registration Fee**

Every student, faculty, and staff person who operates or parks a vehicle on campus must:

1. register the vehicle at Parking Services
2. purchase a permit
3. properly display the permit anytime the vehicle is parked on campus
4. become familiar with and abide by the traffic and parking rules. The rules are enforced at all times throughout the year. The purchase of a permit and registration of the vehicle does not guarantee a parking space.

Fees for vehicle registration will be published each year in the Schedule of Classes and in the official rules and regulations. You may register your vehicle on-line at www.parking.txstate.edu (http://www.parking.txstate.edu).

Additional information concerning the purchase and issuance of parking permits may be obtained by contacting Parking Services at 512.245.2887.

**Course Repeat Fee**

The Texas Legislature (TEC 54.014) eliminated funding to higher education for courses that are attempted three or more times. An attempted course is defined as any course in which a grade is earned on the transcript, including repeated courses and courses dropped with a grade of “W”.

In order to compensate for this loss of state funding, students attempting a course for the third or more time may be charged a fee in addition to the tuition charged for the course. This fee will be assessed for courses attempted at Texas State as of the fall semester of 2002 or later. This assessment does not include courses attempted at other colleges or universities.

Certain courses are exempt from this fee because they are designed to be repeated for additional credit, such as thesis, dissertation, and independent study courses; various music, physical education, physical fitness and wellness, studio art, and theatre courses; developmental education courses; and topics courses.

Appeals for the Course Repeat Fee charge due to economic hardship are permitted under defined institutional policy. Texas State has determined that students who are eligible for financial aid under the Federal Pell Grant (Pell) program will be exempted from the nonresident tuition if, at the time of registration, their Pell eligibility is documented in the financial aid system at Texas State. Students who become Pell eligible, during the semester in which they are charged the course repeat fee, may submit eligibility documents to Student Business Services Office no later than the official last class day of the semester in which the appeal is being requested. A student shall be exempted from payment of higher tuition for any course repeated in the final semester or term before graduation, if the course(s) is taken for the purpose of receiving a grade that will satisfy a degree requirement. This exemption applies for only one semester. The exemption does not affect an institution’s ability to charge a higher rate for courses that cannot be reported for funding for other reasons such as the excess credit hour limit, or an institution’s ability to waive higher tuition rates for economic hardship.

**International Student Health Insurance Fee**

All nonimmigrant international students enrolling at Texas State are required to carry health insurance. The fee for the Texas State International Student Health Insurance Plan is automatically added to the fee bill at the time of registration. International students who wish to have this fee waived must present proof of comparable insurance (including major medical, evacuation and repatriation) to the Student Health Center for approval prior to each registration. Appointments are required for waivers and may be obtained by calling 512.245.2161.

**International Student Operations Fee**

All international students with an immigration status of “F1” or “J1” will be charged $60.00 per semester for the maintenance of records, compliance with government regulations, and other services.

**Laboratory Fees**

The amount of lab fees varies on a per course basis. See the Schedule of Classes for current lab fees.

**Testing Fees**

Texas State students, enrolled in a distance education course, who wish to take a course exam through the Testing, Research-Support, and Evaluation Center (TREC) or the Correspondence, Extension, and Study Abroad Programs Office in San Marcos, or the Round Rock Campus Testing Center, will be charged $20.00 per test. This fee applies only to students who wish to take a course exam through these offices rather than take the exam at the times offered as part of the distance education course.

Non-Texas State students, enrolled in a distance education course at another college or university, who wish to take a course exam at the Testing, Research-Support, and Evaluation Center or the Correspondence, Extension, and Study Abroad Programs Office in San Marcos, or the Round Rock Campus Testing Center, will be charged $40.00 per test.

**Room and Board Rates**

Information regarding room and board rates for a specific semester may be obtained at www.reslife.txstate.edu (http://www.reslife.txstate.edu). Room and board is billed on a semester basis and may be paid in full at registration or in installments. All residence halls will be closed between semesters; however, Texas State may choose to keep some of the halls open during the break for an additional room charge.

**Refund of Room and Board Fees**

Any student who withdraws officially from Texas State may receive a refund on the unused portion of the room and board payment. Room and board charges will continue until the student has officially moved from university housing and has received written clearance from the director of Housing and Residential Life. Any refund due will be applied to any unpaid financial obligation with Texas State. If the refund exceeds any unpaid balance, a refund will be processed within 30 days to the permanent address on file in the Registrar’s Office or deposited to the students’ bank account if they have signed up for direct deposit.
Student’s Financial Obligations
Students are expected to meet financial obligations to the university in accordance with specified deadlines and due dates. Registration fees are payable before classes begin. Students are not entitled to enter class, or laboratory, until their fees and deposits have been paid. Failure to pay the amount owed in the allotted time, or payments made with checks that are returned to Texas State unpaid by the bank, may result in any or all of the following:

1. dismissal from Texas State
2. withholding of future registration privileges
3. withholding the issuance of grades or of an official certified transcript
4. withholding the conferring of a degree
5. bar against re-admission for the student
6. warrant hold with the State of Texas
7. referral of debt to a collection agency

Once a student registers, he or she is responsible for the total fees assessed regardless of whether the installment option is used. Refund percentages are applied to total fees assessed and not the amount paid. Students who withdraw before paying all charges may, in the event of withdrawal, receive a bill with a balance due rather than a refund. Delinquent accounts may be referred to a collection agency and the student is responsible for all attorney and collection fees.

Returned Checks
If a check or e-checks are returned unpaid for any reason other than the admitted error of the bank, the student must pay in cash, cashiers check, money order, or credit card (American Express, Discover, Diner’s Club, MasterCard, VISA) immediately and a $30 service fee is assessed for each returned check. A late fee may also be assessed. If a registration check is returned unpaid, the student must make payment (check amount plus a $30 service fee) within ten working days. If the student does not pay in full within that time period, Texas State reserves the right to initiate withdrawal procedures. You will not be officially withdrawn by the Student Business Services Office unless you are notified in writing. It is the student’s responsibility to initiate a formal withdrawal from Texas State at the Registrar’s Office.

Stopping payment on a check for fees or allowing the check to be returned unpaid by the bank for any reason does not constitute official withdrawal. Failure to follow procedures for withdrawing from Texas State may result in financial penalties and delays with future enrollment in Texas State.

If a student has an outstanding returned check, he/she will be on a “cash-only” basis until the obligation is cleared. Cash Only status is a denial of check cashing privileges on campus. If a student has three or more returned checks within a 365-day period (i.e., one calendar year), Texas State reserves the right to place the student on a “cash-only” basis.

Installment Policy
Tuition, fees, and room and board may be paid through the following alternatives:

1. Full payment is due prior to the beginning of the semester.
2. Students may enroll in a payment plan. You can view by going to: http://www.sbs.txstate.edu/.

Installment Payments
Students are responsible for making their installment payments by the due date. For questions about due dates and amounts due, contact the Student Business Services Office at 512.245.2544. Students can check their balance and make payments on the web at http://www.sbs.txstate.edu/.

Late Payment Fees
A delinquent charge of $25 will be assessed the first day after the installment due date. Under Texas Education Code §54.007, a student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made. A student who fails to make full payment prior to the end of the semester or term may be denied credit for the work done that semester or term. See the Student Financial Obligation section for more details.

Refunds
Refunds from the add/drop process will be credited to unpaid financial obligations. Additional fees incurred from the add/drop process will be billed to the student’s account.

Room and board refunds will be applied to any remaining financial obligation owed to Texas State. The additional charge for moving from one dorm to another or moving into a private room will be added to the balance due.

Refunds in the Event of Death. In the event a student dies and a refund of tuition, fees, room and board, deposits, or other monies is due the estate of the deceased student, the university will, as soon as practicable after the death of the student, pay all refunds to the estate of the deceased student.

Drops
Dropping a class – Removing one or more classes from your schedule, while remaining enrolled in at least one course. If you are registered in only one class and wish to drop it, you must withdraw. Refund of tuition and required fees will be made for classes dropped during the first twelve class days in the long semester or first four class days in summer terms, provided you remain enrolled at Texas State until the end of the semester. No refund is made for classes dropped after the twelfth/fourth class day.

Any refund will be applied to remaining unpaid obligations. If you have paid in full, a refund will be processed within 30 days and will be deposited to your bank (sign-up via our secure web site: sbs.txstate.edu/students.fa.eft.html) or mailed to your address on file. Check your mailing address at registrar.txstate.edu/our-services/address-change.html.

Reducing semester credit hours to zero is considered a withdrawal, and withdrawal refund policies apply. For refund information on Special Course Offerings, call the Refund Clerk in the Student Business Services Office.

Withdrawals
Any student who has paid registration fees and officially withdraws by submitting a withdrawal request to the Office of the University Registrar, J.C. Kellam, #111, is entitled to a refund of tuition and fees if
the following condition is met: The amount actually paid, either in full or installment, must be greater than the percentage of total semester’s charges OWED Texas State at the time of withdrawal. The amount of the refund is calculated as follows: (Total amount of tuition and fees minus non-refundable fees) times (refund percentage) minus (outstanding balance of charges, if any) equals Refund. Once a student registers, he or she is responsible for the total fees assessed regardless of whether the installment option is used. Refund percentages are applied to total fees assessed and not the amount paid. Students who withdraw before paying all installments may, in the event of withdrawal, receive a bill with a balance due rather than a refund. Withdrawing is ONLY for the current semester and does not affect any future semesters in which the student is enrolled. For example, if the student withdraws from all classes in Summer, this does not affect the student’s Fall schedule.

Academic Policies
This section of the catalog contains information about Texas State’s general academic policies. All Texas State students should review this information carefully when they enter the University.

Honor Code
As members of a community dedicated to learning, inquiry, and creation, the students, faculty, and administration of our university live by the principles in this Honor Code. These principles require all members of this community to be conscientious, respectful, and honest.

We are Conscientious
We complete our work on time and make every effort to do it right. We come to class and meetings prepared and are willing to demonstrate it. We hold ourselves to doing what is required, embrace rigor, and shun mediocrity, special requests, and excuses.

We are Respectful
We act civilly toward one another and we cooperate with each other. We will strive to create an environment in which people respect and listen to one another, speaking when appropriate, and permitting other people to participate and express their views.

We are Honest
We do our own work and are honest with one another in all matters. We understand how various acts of dishonesty, like plagiarizing, falsifying data, and giving or receiving assistance to which one is not entitled, conflict as much with academic achievement as with the values of honesty and integrity.

The Pledge for Students
Students at our university recognize that, to ensure honest conduct, more is needed than an expectation of academic honesty, and we therefore adopt the practice of affixing the following pledge of honesty to the work we submit for evaluation:

“I pledge to uphold the principles of honesty and responsibility at our university.”

The Pledge for Faculty and Administration
Faculty at our university recognize that the students have rights when accused of academic dishonesty and will inform the accused of their rights of appeal laid out in the student handbook and inform them of the process that will take place:

“I recognize students’ rights and pledge to uphold the principles of honesty and responsibility at our university.”

Addressing Acts of Dishonesty
Students accused of dishonest conduct may have their cases heard by the faculty member. The student may also appeal the faculty member’s decision to the Honor Code Council. Students and faculty will have the option of having an advocate present to insure their rights. Possible actions that may be taken range from exoneration to expulsion. Information about the Honor Code Council and its policies and procedures may be found at www.txstate.edu/honorcodecouncil (http://www.txstate.edu/honorcodecouncil).

Registration

Registration Instructions
Registration Instructions contain CatsWeb registration instructions, dates, fee schedules, instructions on dropping a class or withdrawing, refund schedules, and other information that will be needed throughout the semester. This information, along with the most current class offerings, is available at www.registrar.txstate.edu/registration.html (http://www.registrar.txstate.edu/registration.html).

Academic Advising
Texas State encourages all students to seek academic advising before each registration and at other times when academic questions arise. In some departments, schools, or colleges and for some students, this advising may be mandatory. Students who are undecided about their major are advised through the University College, others through their major department or school and/or in the appropriate college advising center. Advisors help students understand academic requirements and plan schedules to meet those requirements as well as address the choice of majors and career preparation issues.

Undergraduate Student Classification
Classification is based on cumulative hours passed, not counting hours currently enrolled.

<table>
<thead>
<tr>
<th>Classification</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-29</td>
</tr>
<tr>

<td>30-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90+</td>
</tr>
</tbody>
</table>

Course Numbers
Courses listed in this catalog and in the Schedule of Classes follow a four-digit numbering system. The first digit indicates the level of the course: 1—freshman, 2—sophomore, 3—junior, 4—senior, 5—and 6—master’s, 7—doctoral. The second digit indicates the number of semester credit hours the course carries. The last two digits usually indicate the location of the course in the department/school’s curriculum. A letter (A, B, C, etc.) attached to a course number usually indicates a topics course. The numbers in parentheses following a course title indicate the clock hours per week spent in lecture and in laboratory, respectively.
Texas Legislative Requirements

Texas Success Initiative Program (TSIP)

The main component of the TSIP program is an initial assessment that measures skills in mathematics, reading, and writing. All students, except those who are TSI-Exempt, should take an initial assessment test before their first semester in college at a Texas public institution of higher education. Students with disabilities who need reasonable accommodations should contact the Office of Disability Services.

The State of Texas has one approved assessment instrument, the TSI Assessment. This assessment instrument is administered at the Texas State University as well as all two- and four-year public institutions across the state year-round. Prior to taking the TSI Assessment, all examinees must complete a Pre-Assessment Activity (PAA) to understand the importance and process of the assessment, developmental options, and institutional resources.

Approved Assessment Instruments and Cut-Scores

**TSI Assessment**
- College Ready Cut-Scores
  - Mathematics - 350
  - Reading - 351
  - Writing - Essay Score of 5; Essay Score of 4 with Multiple Choice of 363
- Developmental Education Cut-Scores
  - Mathematics - 336
  - Reading - 342
  - Writing - 350

**TSI Exemptions**

Some students are exempt or partially exempt from assessment. A student will be identified as TSI-Exempt or partially exempt when Texas State has received official proof that he or she satisfies any one of the following:

- Earned an Associate or Bachelor's degree from an institution of higher education whose accreditation is recognized by SACS (Southern Association of Colleges and Schools);
- Earned a composite score of at least 23 and at least 19 on the Mathematics and/or English components of an ACT TEST which is no more than five years old;
- Earned a Verbal plus Mathematics total of at least 1070 on a SAT test that is less than five years old, with a minimum score of 500 on the Verbal and/or a minimum of 500 on the Math;
- Performed on the Eleventh grade exit-level Texas Assessment of Knowledge and Skills (TAKS) test that is no more than five years old with a minimum scale score of 2200 on the English Language Arts section with a writing composition score of at least 3 and/or a minimum scale score of 2200 on the Mathematics section;
- STAAR end-of-course (EOC) with a minimum score of Level 2 on the English III shall be exempt from the TSI Assessment required under this title for both reading and writing, and a minimum score of Level 4 on the Algebra II EOC shall be exempt from the TSI Assessment required under this title for the mathematics section;
- Enrolled in a certificate program of one year or less (Level-One certificates, 42 or fewer semester credit hours or the equivalent);
- Previously attended any institution and has been determined to have met readiness standards by that institution;
- Serving on active duty as a member of the armed forces of the United States, the Texas National Guard, or as a member of a reserve component of the armed forces of the United States and has been serving for at least three years preceding enrollment;
- Was honorably discharged, retired, or released from active duty as a member of the armed forces of the United States or the Texas National Guard or service as a member of a reserve component of the armed forces of the United States on or after August 1, 1990.
- An institution may exempt a non-degree seeking or non-certificate seeking student.
- ESOL Waiver—An institution may grant a temporary waiver from the assessment required under this title for students with demonstrated limited English proficiency in order to provide appropriate ESOL/ESL coursework and interventions

The Undergraduate Admissions Office should receive your transcript and ACT, SAT, or TAKS scores. The Office of Disability Services should receive the necessary documentation that the student is deaf or blind. The Success Initiative Program Office may also receive TAKS scores.

**Remediation**

If the student fails one or more parts of the initial assessment test, he or she will be required to participate in an individualized developmental education program that will prepare the student for freshman-level coursework in the area of deficiency. The program may require retesting, enrollment in developmental courses, and/or participation in lab-based remediation. There are several ways to meet the requirements of the Success Initiative. The student and a Success Initiative Program representative will jointly determine successful completion of the program.

**Out-of-State/Private School Transfers**

A student who is transferring coursework from a private or out-of-state school may not need to take an assessment test. This rule has many restrictions, and students should check with the Success Initiative Program Office before assuming this applies to them. The following statements apply to exact transfer courses and not to ELNA courses. They also must have been taken at private or out-of-state schools. A student who transfers a grade of “A”, “B”, or “C” in the following will be regarded as having passed the Mathematics part of the assessment test.

A student who transfers a grade of “A”, “B”, or “C” in any one of the following will be regarded as having passed the writing part of the assessment test.

</tbody>
</table>
If a student has passed some part of the assessment test satisfactorily, he or she should take the remaining parts of the test prior to attempting to register for classes at Texas State.

Incoming students who have taken an assessment test but have not submitted their scores to Texas State, should contact the Success Initiative Program Office for additional information: www.txstate.edu/tsip (http://www.txstate.edu/tsip).

Requirements in History and Government

Pursuant to Texas Education Code §51.302, every student graduating from a state-supported college or university must complete six semester hours of American history and six semester hours of American government. Both of these requirements are included in Texas State’s general education core curriculum. According to current law, up to three semester hours of credit in an upper-level ROTC course may be applied to the core curriculum history requirement (HIST 1310 or HIST 1320) and up to three hours to the core curriculum government requirement (POSI 2320 only).

Field of Study

Field of Study means a set of courses that will satisfy the lower division requirements for a bachelor’s degree in a specific academic area. Field of study curricula were mandated in Senate Bill 148 (75th Texas Legislature) and are intended, along with general education core curricula, to facilitate the free transferability of lower-division academic course credit among public colleges and universities throughout Texas. As found in Texas Education Code Chapter 61, Subchapter S, Section 61.821-61.829, field of study curricula are developed in accordance with the policies and procedures of the Texas Higher Education Coordinating Board, along with the assistance of advisory committees composed of representatives of institutions of higher education. To date, field of study curricula have been developed in the following academic areas: Business, Computer Science, Communications, Criminal Justice, Early Childhood Education, Engineering, Engineering Technology, Grades 4-8 Teacher Certification, Music.

Each field of study will include the lower division courses that are required before a student may enroll in upper-division courses within the degree program, and may also offer guidelines and suggestions for appropriate general education core curriculum or elective courses in addition to the courses that actually compose the field of study curriculum itself. If a student successfully completes a field of study curriculum that block of courses may be transferred to a general academic teaching institution and must be substituted for that institution’s lower division requirements for the degree program for the field of study into which the student transfers, and the student shall receive full academic credit toward the degree program for the block of courses transferred. A student who transfers from one institution of higher education to another without completing the field of study curriculum of the sending institution shall receive academic credit from the receiving institution for each of the courses that the student has successfully completed in the field of study curriculum of the sending institution. Following receipt of the credit for these courses, the student may be required to satisfy further course requirements in the field of study curriculum of the receiving institution. A student concurrently enrolled at more than one institution shall follow the field of study curriculum of the institution in which the student is classified as a degree-seeking student. More information about field of study is available online at: www.thecb.state.tx.us/ctc/ip/core11_00/index.htm (http://www.thecb.state.tx.us/ctc/ip/core11_00).

Degree Plan

Upon enrollment, all degree-seeking students are provided with a degree plan through DegreeWorks. Based upon the student’s major, this online system displays the courses required for graduation, tracks the individual student’s progress and maintains an up-to-date list of their remaining course work. Students and advisors utilize this tool to facilitate proper class scheduling and to monitor progress toward the degree. (Texas Education Code, Chapter 51, Section 51.9685)

Academic Regulations

Catalog Designation

The catalog designation a student receives when entering Texas State determines the curriculum and other academic policies that apply to the student. Catalog designations are made according to the following guidelines:

1. Students with no prior college work are assigned to the current catalog.
2. Students with prior college work:
   a. Students with prior college work from out-of-state or private institutions are assigned to the current catalog.
   b. Students with prior college work during the last six years, solely from Texas public institutions of higher education, are assigned to the Texas State catalog which was in effect at the time of the student’s initial college enrollment.
3. Former Texas State students (those who leave for 12 or more consecutive months and apply for readmission).
   a. Former students whose initial Texas State enrollment was more than six years ago are assigned to the current catalog.
   b. Former Texas State students whose initial Texas State enrollment was within the last six years and who have completed fewer than 30 hours of college work elsewhere during the interim retain their initial Texas State catalog designation.
   c. Former Texas State students whose initial Texas State enrollment was within the last six years and who have completed 30 or more hours of college work elsewhere during the interim are assigned to the current catalog.
4. A college dean may change the catalog designation.

Per Texas Administrative Code, Rule 4.25, each institution of higher education shall permit a student who transfers from another Texas public institution of higher education to choose a catalog for the purpose of specifying graduation requirements, based upon the dates of attendance at the receiving institution and at the transferring institution, in the same manner that a non-transfer student may choose a catalog. Each Texas public institution of higher education shall include information about graduation requirements under a particular catalog in its official publications, including print and electronic catalogs.

Course Information

Information on Texas State’s undergraduate classroom courses, including lecture and seminar courses, may be found at the following
web site: http://hb2504.txstate.edu. Contents include course syllabi, curriculum vita for the instructor of record, departmental budget reports, end-of-course evaluations of faculty and current work-study job openings.

Course Load
The following regulations govern the number of credit hours an undergraduate student may carry during a given term:

1. Fall or Spring Semesters: Students enrolled in 12 or more credit hours are considered full-time students. Students in good academic standing may register for up to 18 credit hours each semester. Graduating seniors or other students with a Texas State GPA of 3.50 or higher may register for 19 or more credit hours with approval from their academic dean.
2. Summer Term: Students enrolled in 12 or more hours combined over the Summer term are considered full-time students. Students in good academic standing may register for up to 10 credit hours in each of the parts of Summer term.

Only in exceptional circumstances, and only with the approval of the college dean, will students be allowed to exceed the stated course load limitations. In any regular semester or summer term during which a student is enrolled at Texas State, the course load limitations apply to all work attempted, whether at Texas State or elsewhere.

Class Attendance
Texas State expects students to attend every scheduled class meeting. General requirements for class attendance are as follows:

1. Faculty are encouraged to establish mandatory attendance requirements in each course.
2. Each faculty member will inform students of the course attendance policy at the initial class meeting.
3. Students are responsible for understanding the attendance policy for each course in which they enroll and for meeting the attendance requirements.
4. Failure to meet the attendance requirements in a course may lower a grade.

Religious Holy Days
"Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. In accordance with Texas Education Code Section 51.911, Texas State will allow a student who is absent from classes for the observance of a religious holy day to take an examination or complete an assignment scheduled for that absent day within a reasonable time after the absence if the student notifies the instructor of each class that he or she would be absent for a religious holy day. If a student and an instructor disagree about the nature of the absence being for the observance of a religious holy day, or if there is a disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the President or the President's designee. The President or the President's designee must take into account the legislative intent of Education Code Section 51.911. The student and instructor shall abide by the decision of the President or the President's designee. The academic dean of each college serves as the President's designee to hear requests for decisions on these matters from either the faculty member or the student. Any questions concerning this policy should be directed to the Office of the Dean of Students.

Number of Drops
In 2007, the Texas Legislature enacted Senate Bill 1231 which provides that, except for specific instances of good cause, undergraduate students entering as first time freshmen at a Texas public institution of higher education in the fall of 2007 or later will be limited to a total of six dropped courses during their undergraduate career.

Under Texas Education Code Section 51.907 "an institution of higher education may not permit a student to drop more than six courses, including any course a transfer student has dropped at another institution of higher education." This law applies to courses dropped at public institutions of higher education in Texas, including community and technical colleges, health science centers that offer undergraduate programs, and universities. Some courses will not count against the six-drop limit. These include courses dropped at independent or private Texas institutions, courses dropped while the student is still enrolled in high school, developmental courses, non-funded courses or courses dropped at colleges in other states. For the purposes of this law, a "dropped course" is defined as a course that is dropped after the census date, but before the last day to drop.

Dropping Classes/Withdrawing from the University
Dropping a class is an official action whereby students inform Texas State that they will cease attending a class in which they are enrolled while remaining enrolled in at least one other course. Withdrawing is an official action whereby a student informs Texas State that he/she will cease attending all classes.

Automatic "W" Deadline – the deadline to receive an automatic "W" grade is the first 60% of the semester.

Drop Deadline – the deadline to drop (remaining in at least one hour) a class is the first 60% of the semester. Special deadline dates will be enforced for courses offered in a different format.

After the drop deadline, students will be unable to drop individual classes and will receive the grade (A, B, C, D, F, U, or I) earned in the course. To initiate an appeal to drop a class or classes after the semester has ended the student must provide:
Determine whether a student is meeting minimum academic standards. The Texas State GPA for all work attempted at Texas State is used to maintain an average of “C”, grade points divided by semester hours attempted must equal at least 2.00. Otherwise, faculty members will assign an “U” grade.

Grade Reports

Semester grades are based on the student’s written or oral work in a given course. Attendance may also affect the grade. Final grade reports can be accessed thru the University’s student information system. Students may print a grade report via https://ssb.txstate.edu.

Grade Symbols

Grades at Texas State are indicated by the following symbols: “A”- excellent; “B”-good; “C”-average “D”-passing; “F”-failing; “U”- unearned failing (student was not academically engaged until end of term) or withdrawn failing; “N” failure (never attended); “CR”-credit. A grade of “PR” which is temporary and non-punitive, may be assigned in selected courses where the required clock hours needed to complete requirements extend beyond the regular semester or summer session. The “I” grade may be assigned when, due to unusual circumstances beyond the student’s control, a significant portion of a course, such as a term paper or final examination, has not been completed. If a student needs to repeat a course or a significant portion of a course, a “W ”, “F”, or “U” grade should be assigned according to regulations governing the assignments of such grades. A “W ” grade cannot be assigned if the student has not officially dropped the course within the semester deadlines. An “I” grade from Texas State will not count as hours completed until another grade is assigned. Twelve months after a Texas State “I” grade is assigned, it will automatically change to an “F” if the course work has not been completed. An “I” grade transferred from another institution remains as “I” on the Texas State record until an updated transcript is received from the other institution. A grade of “W ” is assigned if a student drops a course by the Automatic “W ” Drop/Withdrawal Deadline (see University Calendar in this catalog ). After the Automatic “W ” Drop/Withdrawal Deadline, a “U” or “W ” will be assigned depending on whether the student is passing (“W ”) or failing (“U”) the course at the time the drop/withdrawal action is officially completed.

Grade-Point Average (GPA)

Texas State utilizes the four-point system. The GPA is the total number of grade points earned divided by the number of semester hours attempted. Semester grade symbols have the following values: “A” = 4 points; “B” = 3 points; “C” = 2 points; “D” = 1 point; “F” and “U” = 0 points. Neither hours nor grades are calculated for “I”, “CR”, “PR”, or “W”. To maintain an average of “C”, grade points divided by semester hours attempted must equal at least 2.00.

The Texas State GPA for all work attempted at Texas State is used to determine whether a student is meeting minimum academic standards. Beginning in the fall of 1991, this Texas State GPA will be calculated by the procedures described in the section titled “Repeating Courses” (see below). Courses taken at other schools will not be included in the GPA at Texas State.

Transcripts

Effective fall 1991, Texas State transcripts will separate transfer course work from Texas State course work. Transfer work will be listed first and will show the number of hours transferred. Texas State course work listed chronologically will follow any transfer course work. The transcript will show Texas State hours attempted, Texas State hours passed, Texas State grade points and Texas State GPA.

Repeating Courses

Effective fall 1991, a student may repeat a course, but cannot receive credit for the course more than once unless the course description in the catalog specifically provides that the course may be repeated for credit. When a course is taken more than once from Texas State, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Texas State hours attempted, grade points earned and GPA. W, I, PR, and RP grades are excluded. If the last grade in a repeated course is lower than an earlier grade, the last grade is used to determine whether the course fulfills university requirements. If the last time a course is taken is from another school, that course will meet degree requirements, but the last grade at Texas State counts towards the Texas State GPA. A course taken for transfer credit must be repeated as transfer credit to count as a repeat. When a course is taken more than once from a transfer institution, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Overall hours attempted, grade points earned and GPA. “W ” and “I” grades are excluded.

Change of Grade

An individual course grade may be changed when the involved faculty member certifies to the University Registrar that an error was made in computing the original grade. The grade change must be approved by the department chair/school director and the appropriate college dean. Students who wish to protest a grade earned in a course should first discuss the grade with the instructor. If no resolution is reached, the student may appeal the grade to the department chair/school director and the appropriate college dean. The grade change must be approved by the department chair/school director and the appropriate college dean. The grade change must be approved by the department chair/school director and the appropriate college dean.

Grade Symbol Changes

Effective fall 1991, a student may repeat a course, but cannot receive credit for the course more than once unless the course description in the catalog specifically provides that the course may be repeated for credit. When a course is taken more than once from Texas State, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Texas State hours attempted, grade points earned and GPA. W, I, PR, and RP grades are excluded. If the last grade in a repeated course is lower than an earlier grade, the last grade is used to determine whether the course fulfills university requirements. If the last time a course is taken is from another school, that course will meet degree requirements, but the last grade at Texas State counts towards the Texas State GPA. A course taken for transfer credit must be repeated as transfer credit to count as a repeat. When a course is taken more than once from a transfer institution, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Overall hours attempted, grade points earned and GPA. “W ” and “I” grades are excluded.

Student Indebtedness

All University property in a student’s possession must be returned and all debts to Texas State, including past due indebtedness to loan funds, must be satisfactorily adjusted before the student is eligible to receive a statement of good standing, an official transcript of credit, graduation, or re-admission to Texas State. Moreover, continued failure to adjust such debt may result in the student’s losing the privilege of attending class.

Academic Probation and Academic Suspension

Minimum Academic Standards

Students must meet minimum academic standards in work completed at Texas State. Those who fail to do so are placed on academic probation or academic suspension, as appropriate. In determining whether a student
is placed on probation or suspension, only grades earned at Texas State are considered.

**Academic Probation**

Academic probation is an emphatic warning that the quality of the student’s work has not met Texas State’s minimum academic standards and that the quality must improve during the probationary semester in order for the student to continue at Texas State. A student will be placed on academic probation at the end of the fall or spring semester in which the Texas State GPA is less than 2.00. A student will be removed from academic probation at the end of any long semester or summer term if the Texas State GPA is 2.00 or higher.

Students placed on academic probation are given two probationary semesters (fall or spring terms) to raise their Texas State GPA to 2.00. For example, if a student is placed on academic probation because the Texas State GPA has fallen to 1.85, then at the end of the two following probationary semesters the Texas State GPA must be 2.00 or higher, or the student will be placed on first academic suspension. Grades earned in developmental coursework, in which neither hours nor grades are calculated toward the GPA, will not affect a student’s academic standing.

**Policies Governing First Academic Suspension**

A first academic suspension will be for the first long semester following placement on academic suspension. Appeals for reinstatement, based on extenuating circumstances, may be made prior to the Monday of registration week to the student’s college dean or designee, who will render a decision on the matter. A student suspended from one college of Texas State may not be reinstated by the dean of another undergraduate college. Deans may, at their discretion, impose conditions regarding course load limits, work load limits, counseling, etc. If the dean denies reinstatement, the student may then appeal to the Suspension Appeals Committee. If reinstatement is allowed, the suspension notation will remain on the student’s transcript. The transcript will also show “Reinstated for ___, Enters on Academic Probation.”

Unless other special conditions are imposed by the dean or the Suspension Appeals Committee, students granted reinstatement and readmitted on academic probation are given two probationary terms (fall or spring terms) to raise their Texas State GPA to 2.00.

In addition to any special conditions imposed by the dean or the Suspension Appeals Committee, students must meet the conditions under “Academic Probation” explained above.

At the end of the second probationary semester, if the Texas State GPA is less than 2.00, the student will be placed on second academic suspension.

Students who are placed on first academic suspension from Texas State at the end of the spring semester will be reinstated by the registrar on academic probation for the following fall semester if they

1. attend the summer term at Texas State,
2. pass nine semester hours, and
3. earn a 2.00 GPA on all work attempted in summer or the student will be removed from probation if the Texas State GPA is 2.00 or greater at the end of the summer term.

**Readmission Following a First Academic Suspension**

At the end of the one long semester period for a first suspension, students must apply for readmission to Texas State for the subsequent semester. Students also must apply for readmission to Texas State following an absence of one long semester or more. Students who re-enter Texas State following an academic suspension do so on academic probation. For specific regulations, refer to paragraph on “Academic Probation”. If the Texas State GPA is less than 2.00 at the end of the second probationary semester, the student will be placed on second academic suspension.

**Policies Governing Second Academic Suspension**

Students who fail to meet the minimum academic standards defined above will be placed on academic suspension for a second time, for a period of two calendar years. If there are extenuating circumstances, students may appeal prior to the Monday of registration week to the appropriate college dean for reinstatement. If reinstatement is denied, students may then appeal to the Suspension Appeals Committee. If the appeal is approved, students may return to Texas State on academic probation, subject to special conditions imposed by the dean or the Suspension Appeals Committee regarding course load limits, work load limits, counseling, etc. If reinstatement is allowed after one long term, prior to the end of the second calendar year, students must apply for re-admission to Texas State (refer to Program D in the Admissions section). The suspension notation will remain on the student’s transcript, which will also show “Reinstated for ___, Enters on Academic Probation.” In addition to any special conditions imposed by the dean or the Suspension Appeals Committee, students must meet the conditions under “Academic Probation” explained previously. At the end of the second probationary semester, if the Texas State GPA is less than 2.00, the student will be placed on academic suspension.

**Readmission Following a Second Academic Suspension**

At the end of the two-year period for a second academic suspension, students may apply for re-admission to Texas State (refer to Program D in the Admissions section).

**Effect of Suspension on Correspondence or Extension Courses**

While on suspension, students may complete a correspondence course in which they enrolled prior to suspension. Students may not enroll in an extension or correspondence course from Texas State while on suspension.

**Registering at Another Institution During Suspension**

Students who have been placed on academic suspension are not prohibited from registering at another institution; however, such academic work will not change the GPA used for calculating probation and suspension, since only those grades earned at Texas State are calculated in determining probation-suspension status. Students who enroll for 30 or more semester hours at another institution while on suspension from Texas State will be considered transfer students if
they return and will be required to have a 2.25 GPA in that work for re-admission.

Exceptions
Cases in which the circumstances are not covered by the above regulations shall be handled at the discretion of the Director of Undergraduate Admissions and the college dean.

Degree and Graduation Policies
Request for Degree Audit
After completing 45-60 semester hours, students should request a degree audit through the college academic advising center or through their major department/school, as determined by college guidelines. When the audit is approved by the appropriate college dean or dean's representative, it will list all courses required for graduation. Students also have the option to run their own unofficial audit at any time before seeing their advisor. The audit should be used to determine which courses to take at each registration.

It is highly recommended that students see their academic advisors to review their degree audits within their last 30 hours prior to graduation. Students need to verify that they are meeting the appropriate degree requirements including coursework and grade-point averages in all courses taken at Texas State and in the major and minor fields of study. If any of the grade-point averages are below the minimums required for graduation, the degree audit can be used in deciding how to raise the averages in the remaining course work.

The college dean has the final approval and appeal for all graduation requirements, including but not limited to degree audits, grade point average, courses, prerequisites, graduation application, transfer credit, residency, catalog time limit and designation.

Teacher Certification
Any degree that includes preparation for becoming a Texas certified teacher will have special degree and graduation requirements. Please refer to the degree requirements under the appropriate College's section and to the Teacher Preparation Program (p. 232) section of this catalog.

Application for Graduation
Students must indicate their intent to graduate by applying for graduation at the beginning of their final long semester or summer session I for August graduation. The student must complete the graduation application using the online application in Self Service Banner. If a student fails to complete the required courses in time for a planned graduation, the student must reapply for the next graduation. Failure to apply for graduation on time may delay the awarding of the diploma until the following graduation. To allow for the receipt and processing of official transcripts in a timely manner, students taking off-campus courses in their final semester should make sure that the Office of Undergraduate Admissions receives official transcripts as soon as they are available from the sending institution.

Minimum Degree Hours and Advanced Hours
Most undergraduate degrees at Texas State require a minimum of 120 semester hours, including 36 advanced hours (junior and senior level courses).

Residency Requirements
To qualify for graduation with a bachelor's degree, a student must complete through Texas State coursework, at least 25 percent of the minimum number of semester hours required for the degree; within this requirement, at least 24 semester hours must be advanced and at least 12 hours of the advanced work must be completed in the major at Texas State. Additionally, at least 24 semester hours of the last 30 hours completed that are required for the degree must be taken at Texas State. Correspondence, extension, and off-campus coursework completed through Texas State may be applied toward residency requirements. Credit-by-examination may not be applied toward residency.

Minimum Grade-Point Requirements for Graduation
Before graduating from Texas State, first and second baccalaureate students must satisfy the following minimum grade requirements:
1. A Texas State GPA of 2.00
2. A GPA of 2.25 in the major(s)
3. A GPA of 2.00 in the minor(s)

NOTE: Individual departments/schools as well as degree programs with Teacher Certification may have higher requirements listed in their sections of this catalog.

Maximum Elective Hours in Courses for the Major or Minor
No more than six semester hours within a major or a first teaching field may count as electives after the minimum requirements of the major or teaching field are fulfilled. Likewise, no more than six semester hours may be counted as electives in a minor or second teaching field once the minimums have been met. Approval of elective credit beyond these maximums must be granted by the appropriate college dean. If the degree program requires electives, the number of free elective hours a student will complete depends on the number of hours a student may need to achieve the minimum hours and/or the 36 advanced total hours required.

Second Bachelor’s Degree
A second bachelor’s degree may be earned by completing a minimum of 30 additional semester hours as recommended by the chair/director of the student’s major program/department/school and subject to the approval of the appropriate college dean. Students earning second bachelor’s degrees subsequent to receiving the first bachelor’s degree are eligible for graduation with honors if they complete 54 or more hours at Texas State in pursuit of the second bachelor’s degree. Residency requirements (as indicated above) apply except that the advanced semester hours required are determined by the dean.

For students who have already completed a first baccalaureate degree at an accredited college or university, with the approval of the department chair/school director and the college dean, the core curriculum requirements for that degree may be accepted in lieu of Texas State’s general education core curriculum. However, requirements associated with particular degrees, e.g., completion of the second semester of a modern language for a Bachelor of Arts degree, or Legislative requirements, e.g., history and government course requirements, must be included in an approved program for a second baccalaureate degree.

Dual Bachelor’s Degrees
If two bachelor’s degrees are conferred simultaneously, the student must complete a minimum of 30 hours beyond the requirements of the
single degree. Degree audits must be filed in the office of both college advising centers. Graduation will occur when the student has completed requirements for both degrees. Students completing dual bachelor’s degrees receive two diplomas.

Double Majors
A student who fulfills the specified requirements for two different majors authorized under a single degree has completed a double major and will receive a single diploma. Both majors appear on the diploma.

Time Limit for Earning a Degree
Students may graduate under the requirements for the degree set forth in the Texas State catalog in force during the session in which they first enroll, provided they graduate within six years from the end of the session. Transfer students who have been assigned a Texas State catalog based on their first semester at a Texas junior college have six years from the end of the semester upon which their catalog designation was based to graduate, not six years from their initial semester at Texas State. After the expiration of such a period of time, students may have to meet requirements outlined in the current catalog. "Requirements for the Degree" refers to the pattern of courses and grade-point averages required for graduation. It does not include other rules and regulations such as probation and suspension criteria, requirements for admission to courses or programs, etc.

Transfer Credit from Two-Year Colleges
Texas State will apply to a degree up to 66 hours from an accredited junior/community college. (At the approval of the individual college dean, 6-8 hours may be added.) At the time of transfer, all transferable work attempted at a junior/community college will be recorded on the official transcript. If the number of hours transferred from a junior college exceeds 66, the student’s chair or director will recommend to the college dean how the student will satisfy degree requirements.

Athletic Certification
J.C. Kellam Building Room 164
T: 512.245.8148 F: 512.245.6826

The Athletics Certification Office is responsible for obtaining, evaluating and documenting the academic credentials in accordance with National Collegiate Athletic Association (NCAA) and Sun Belt Conference eligibility rules for approximately 400+ student-athletes. This office provides the official certification of eligibility documentation to the Texas State Department of Athletics.

Academic Honors

Dean’s List
To be eligible for the Dean’s List at the close of any fall or spring semester, an undergraduate student must have earned a minimum GPA of 3.5 in that semester on at least 12 credit hours. Hours and grades earned through Texas State correspondence courses and extension courses are counted in the hours required to be eligible for Dean’s List and in the GPA calculation for Dean’s List. Graduate courses also count.

Graduation with Honors
Students earning a GPA of 3.40-3.59 will graduate cum laude; 3.6-3.79 will graduate magna cum laude; 3.8-4.0 will graduate summa cum laude. Effective Summer 2012, to be eligible for graduation with honors, a student seeking a baccalaureate degree must have completed a minimum of 54 semester credit hours preceding graduation at Texas State. Calculation of the GPA to determine honors status is based on all Texas State work applied to the first baccalaureate degree, including work completed in the final semester.

Hours earned through Texas State correspondence courses and extension courses are counted in the hours required to be eligible for honors and in the GPA calculation for honors. Hours earned through Texas State credit-by-examination, work/life experience, and other courses receiving “CR” (pass/fail) grades are counted in the hours required to be eligible for honors, but do not count in the GPA calculation. Remedial courses with a “CR” grade and graduate courses are not counted in either the hours required or the GPA calculation for honors.

Transfer students who have earned at least 54 semester hours at Texas State are eligible to graduate with honors if their Texas State GPA meets the above criteria. Students earning second baccalaureate degrees are eligible for graduation with honors if they complete 54 or more hours at Texas State in pursuit of the second degree.

Honor Societies
The following honor societies are open to qualified Texas State students. More information may be obtained through Campus Activities and Student Organizations (CASO). For a complete list of all Honor Societies, see the Registered Student Organizations website at www.studentorgs.txstate.edu (http://www.studentorgs.txstate.edu).

Alpha Chi
Alpha Chi is a national honor society, which promotes academic excellence and exemplary character among undergraduate college and university students and honors those who achieve such distinction. To qualify for membership, a student must be a first-time undergraduate, a junior or senior (having attained no less than 60 credit hours), have a minimum Texas State GPA of 3.50 on at least 45 semester hours at Texas State. Graduate students with a 4.0 and at least 15 hours of graduate course work at Texas State also qualify for Alpha Chi membership. Alpha Chi is the oldest honor society at Texas State, founded in 1922. Membership in the honor society is indicated on the student’s transcript. For more information, contact Dr. Ronald Brown at RonBrown@txstate.edu.

Alpha Lambda Delta
Alpha Lambda Delta is a national academic honor society for freshmen that honors academic excellence during a student’s first year in college. Its purpose is to encourage superior academic achievement among students in their first year in institutions of higher education, to promote intelligent living and a continued high standard of learning, and to assist women and men in recognizing and developing meaningful goals for their roles in society. Membership is open to all freshmen who are registered for a full course of study leading to a bachelor’s degree, who achieve a minimum scholastic average of 3.50 (based on grades of the first full semester or on the cumulative average of the first year in college), and who have paid the initiation and lifetime membership fee. For more information, contact Diann McCabe dm14@txstate.edu.

Golden Key National Honor Society
Golden Key recognizes and encourages scholastic achievement and excellence in all undergraduate fields, supports the faculty and administration in developing and maintaining high academic standards, provides economic assistance by means of annual scholarships, and
promotes altruistic conduct through volunteer service to Texas State and community. The Golden Key National Honor Society accepts students who have a minimum cumulative GPA of 3.40, have completed 60 college hours, 25 of which must have been taken at Texas State, have filed a Member Data Form, and have paid the initiation and lifetime membership fee.

The Honor Society of Phi Kappa Phi
Phi Kappa Phi is the nation’s oldest, largest, and most selective collegiate honor society for all disciplines. This prestigious honor society was chartered at Texas State in 2013 and thirty members of the faculty, staff, and administration signed the charter petition. To qualify for membership, undergraduates must be juniors who are in the top 7.5 percent or seniors in the top 10 percent of their respective classes. Graduate students must rank in the upper 10 percent of their class. Students who are invited to become members may join by paying the initiation and membership fee and participating in an induction ceremony. In addition to numerous membership benefits, the national organization awards over one million dollars in scholarships and fellowships each biennium. The local chapter website is located at http://www.txstate.edu/honors/phikappaphi.

Multicultural Course Designation
In support of an increasingly diverse student body, Texas State is dedicated to increasing multiculturalism in the curriculum. Thus, courses are identified in the catalog and schedule of classes that offer students an opportunity to enhance their multicultural competence.

Classification System
The multicultural classification system helps Texas State track multicultural courses to determine the level at which we are providing U.S. and international diversity issues in the curriculum. The system is an accountability measure that is used as a tool to help departments/schools and colleges communicate diversity infusion to faculty, staff, students, and the community through published data reports. The classification system recognizes the significance of multicultural content and multicultural perspectives. Students benefit from multicultural content as well as perspectives. A course that is high in multicultural content (60% or more) may promote multicultural literacy through multicultural perspectives; that is, its approach to teaching strategies, interactions, and assessment promotes an awareness and appreciation of diversity.

Definitions
Multicultural Content (MC): Courses with 60% of the content multicultural (U.S. or international.)

Multicultural Perspective (MP): Courses using a variety of strategies to encourage multicultural literacy, including content, instructional strategies, assessment, and classroom interactions. (When this is the only classification noted, the content is less than 60%).

Correspondence Studies
302 Academic Services Building North
www.correspondence.txstate.edu (http://www.correspondence.txstate.edu)
T: 512.245.2322 F: 512.245.8934
Toll-free: 800.511.8656

When circumstances such as family, jobs, business travel, etc. compete for time, and students find that it is difficult to schedule their on-campus classes, correspondence study offers a solution. Courses are offered through various disciplines such as art, humanities, health-related fields, mathematics, psychology, modern languages, and sociology. Courses are frequently revised, so students are encouraged to contact the Office of Distance and Extended Learning for the most current list of course offerings or visit the office’s website. Students may enroll in courses at any time of the year and take up to nine months to complete them. Instruction for most courses is online.

How Correspondence Study Works
The course website used in each course gives students step-by-step instructions for completing the lessons required for the course and includes study tips, topic discussions, assignments, and other pertinent course information. Students must complete each lesson and submit the accompanying assignment to the instructor through the course website or the Office of Distance and Extended Learning. The instructor provides feedback on assignments and answers student questions. Assignments are then returned to the student. Almost all courses have proctored examinations, and many have two or three. All proctored examinations must either be administered at Texas State in the Testing, Research Support, and Evaluation Center (TREC) or, for those students who live outside the area, administered by an approved exam proctor.

General Regulations
The following regulations govern correspondence study at Texas State:

1. Students do not have to be currently enrolled or admitted to a college or university to take a correspondence course.
2. Enrollment in a correspondence course does not constitute official admission to Texas State.
3. Texas residents or persons attending public colleges or universities in Texas are subject to compliance with Texas Success Initiative Program regulations.
4. It is the students’ responsibility to ensure that all prerequisite requirements have been met. Prerequisite requirements for all courses are listed in the course information on the office’s website. Non-Texas State students will be required to provide official transcripts to confirm prerequisites have been met.
5. Texas State correspondence courses are applicable toward Texas State degrees. A maximum of 18 hours of correspondence credit may be applied toward a bachelor’s degree.
6. All assignments and exams must be completed to receive credit. The grading criteria for each course are stated on the course website or in the course study guide.
7. Correspondence course grades are calculated into students’ Texas State GPA and included in the review for graduation with honors and for Dean’s List.
8. Students may enroll in a correspondence course at any time during the year and take up to nine months to complete it.
9. A minimum of four weeks must be allowed after a course has been completed for a grade to be reported to the Texas State Registrar.
10. Students on active suspension from Texas State are not eligible to enroll in correspondence courses.
11. If enrollment in correspondence courses creates an academic overload, students must have prior, written approval of their college dean or department chair/school director.
12. Correspondence courses completed through Texas State are applicable toward residency requirements.

Extension Studies

302 Academic Services Building North
www.extension.txstate.edu (http://www.extension.txstate.edu)
T: 512.245.2322 F: 512.245.8934
Toll-free: 800.511.8656

Texas State’s Office of Distance and Extended Learning serves those persons who are unable to come to campus and who wish to earn degree credit, as well as those who wish to pursue in-service training, or to enroll in college courses not normally offered through the academic departments/schools. Extension courses are offered on campus and at various off-campus locations. The times and locations for such courses depend on student need, faculty availability, and demand.

The following regulations govern Texas State extension study:

1. Enrollment in an extension course does not constitute official admission to the university.
2. Students from other institutions who wish to transfer extension credit should obtain prior approval of their home institution.
3. If enrollment in extension courses will create an academic overload, students must have prior, written approval of their college dean and department chair/school director.
4. Transcript records are maintained for all credit earned by extension.
5. A maximum of thirty semester hours for Texas State credit may be completed through a combination of correspondence, extension, and study abroad courses.
6. Students on active suspension from Texas State are not eligible to enroll in courses for extension credit.
7. Texas residents or persons attending public colleges or universities in Texas are subject to compliance with Texas Success Initiative Program regulations.
8. Students are responsible for ascertaining whether or not credit for an extension course will apply to a particular program and whether or not it will transfer to another institution.
9. Extension courses completed through Texas State are applicable toward residency requirements.

Study Abroad

Thornton International House
334 W. Woods Street
www.studyabroad.txstate.edu (http://www.studyabroad.txstate.edu)
T: 512.245.1967 F: 512.245.1644

A study-abroad experience expands students’ intellectual and personal development as they become immersed in other cultures. Students gain a critical self-awareness, an appreciation for a multicultural world, and a clearer understanding of their own culture. Study abroad prepares students to assume their role as responsible world citizens and to succeed professionally in today’s global economy.

The Study Abroad Office offers students the opportunity to participate in a variety of study abroad programs at locations around the world. The credit students earn may be applied toward a degree at Texas State. Some of these programs involve direct enrollment in an overseas institution, while other programs are led by Texas State faculty.

Through Texas State Study Abroad Programs, students can spend from one week to a full academic year in another country either by learning another language, by concentrating their studies related to a specific topic in their field of study, or by participating in an internship. Texas State Study Abroad Programs include a variety of activities that allow students to learn and experience the culture of the host country. In some of these programs students have the opportunity to live with a host family to become totally immersed in the culture of the host country for a more comprehensive learning experience.

Program locations vary each year. Students may learn more about these programs from current information located in the Study Abroad Library. In addition to information about Texas State’s Study Abroad Programs, the Study Abroad Library houses a wealth of information about programs available from other universities as well as study-abroad providers.

Financial Assistance for Study Abroad Programs

Most of the financial aid that students would normally receive for studying at Texas State may be applied toward Texas State Study Abroad Programs. Additionally, there are many schools and study-abroad providers that offer financial aid for attending their programs. If a student is on federal or state financial aid, it is recommended that the student speak with a representative of the Texas State Office of Financial Aid and Scholarships to determine the application of such aid to any study-abroad program and the possible adjustment to meet the student’s needs.

The Study Abroad Office also has information on scholarships that are available to students who want to study abroad. At Texas State, students are also eligible for the International Education Fee Scholarship (IEFS). This scholarship program is funded through the student service fee account. The scholarships are distributed in a competition open to all undergraduate and graduate Texas State students, including international students, who meet the established eligibility requirements.

Continuing Education

302 Academic Services Building North
www.continuing-ed.txstate.edu (http://www.continuing-ed.txstate.edu)
T: 512.245.2507 F: 512.245.8934

The Office of Continuing Education works in cooperation with the academic colleges, schools, departments and programs to extend the resources of Texas State beyond the traditional campus classroom. Professional staff in Continuing Education work with faculty and staff in offering seminars, workshops, conferences, and short courses that help meet the educational needs of the many communities Texas State serves. Continuing Education coordinates planning, budgeting, marketing, fee collection, registration, meals, evaluation, and other duties that may be required.

These programs are generally non-credit in nature. Some programs receive Continuing Education credits, and those who successfully complete these designated programs are awarded Continuing Education Units (CEU). One CEU is awarded to a person who completes a ten contact hour program.
Texas Certified Public Manager Program

www.txstate.edu/cpm (http://www.txstate.edu/cpm)
T: 512.245.3453 F: 512.331.7293

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer this program in Texas. The CPM Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any time during the year; programs are held approximately every two months. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not for profit sector. The program’s primary goal is to improve the performance of public and not for profit sector managers and the organizational performance of state, local, and federal government. It is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant, their agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program is a 7 course sequence which leads to a nationally accredited public manager certification. The CPM Program is offered by Texas State University’s William P. Hobby Center for Public Service.

Texas State Intensive English Program

Thornton International House
334 W. Woods Street
www.txstate.edu/ie (http://www.txstate.edu/ie)
T: 512.245.7810 F: 512.245.3752

TSIE is a non-credit university intensive English-as-a-Second-Language (ESL) program for students who:
1. want to improve their command of the English language before entering college;
2. are participating in the TSIE Pre-Bridge or Bridge Programs; or
3. would like to polish their language abilities.

Beginning, intermediate, and advanced classes, emphasizing academic reading, writing, grammar, and oral skills, are offered during the fall, spring, and summer sessions.

Round Rock Campus

www.rrc.txstate.edu (http://www.rrc.txstate.edu)
T: 512.716.4001 F: 512.716.4110

In 1998, as the lead institution, Texas State joined forces with other area universities and colleges to establish the Round Rock Higher Education Center, now known as Texas State University Round Rock Campus (RRC). In 2005, Texas State opened the Round Rock Campus on 101 acres and offers bachelor’s and master’s programs in Williamson County.

Texas State is addressing the educational needs of North Austin and the Central Texas area at the RRC. Located at 1555 University Boulevard in northeast Round Rock, the RRC offers small class size as well as supportive, engaging faculty and staff in a state-of-the-art collegiate environment. The RRC provides the upper level coursework in select bachelor’s degrees, as well as several, post baccalaureate certificates and master’s degree programs. At the undergraduate level, students transfer hours to the RRC from a community college, another university or the San Marcos Campus. Students may also complete some lower level courses in online classes or via Texas State Correspondence. Round Rock students pay the same tuition as those attending in San Marcos, but certain fees may be waived.

Texas State offers the junior and senior level courses for the following:

• Bachelor of Applied Arts and Sciences, major in Applied Arts and Sciences
• Bachelor of Arts, major in Computer Science
• Bachelor of Arts, major in Mass Communication
• Bachelor of Arts, major in Psychology
• Bachelor of Business Administration, major in Management
• Bachelor of Science, major in Interdisciplinary Studies (Teacher Certification in English as a Second Language Generalist, Grades EC-6)
• Bachelor of Science, major in Computer Science
• Bachelor of Science in Criminal Justice, majors in Criminal Justice, Criminal Justice Law Enforcement, and Criminal Justice Corrections.
• Bachelor of Science in Nursing, major in Nursing
To be eligible to register for Texas State classes at the RRC, students must have completed their sophomore year or at least 45 hours from the prescribed degree plans above. Students who intend to complete the junior and senior level classes at RRC must submit the same admission documents and meet the same admission requirements as any potential Texas State University student. After admission, however, the procedures are different for the RRC.

It is, therefore, very important to follow the Getting Started procedures listed on the RRC website at www.rrc.txstate.edu (http://www.rrc.txstate.edu).

Academic Services

The Assistant Vice President for Academic Services and units (Testing, Research Support, and Evaluation Center [TREC], Academic Testing for Students with Disabilities [ATSD], and Student Learning Assistance Center [SLAC]) reporting to this office provide supplementary, essential services to students, faculty, and administration at Texas State. Specifically the units provide timely and high quality assistance to faculty and administration in processing and analysis of assessment data, and address specific student needs: administration of specific credit and non-credit testing; provision of institutional testing for students with disabilities; provision of supplementary instruction and enhancement of student academic performance, especially among the undergraduate population; and coordination of the undergraduate general education core curriculum.

Student Learning Assistance Center

Alkek Library 411
T: 512.245.2515 F: 512.245.3002
www.txstate.edu/slac (http://www.txstate.edu/slac)

Texas State's Student Learning Assistance Center (SLAC) provides a wide range of academic support programs. Whether students are seeking help with course content, study skills, or test preparation, SLAC provides a variety of services including a walk-in tutoring lab, Supplemental Instruction, campus presentations, and online services.

The SLAC Learning Lab provides academic assistance in accounting; sciences such as physics, biology, and chemistry; English; statistics; computer information systems; history; philosophy; languages such as Spanish; and a number of math courses. The Lab also contains study materials, handouts, and computer-assisted instructional software on a wide range of topics and levels, from correcting comma splices to preparing for graduate school.

Students may also visit SLAC for assistance in preparing for the admissions tests for graduate (GRE), law (LSAT), and business (GMAT) colleges as well as local tests such as the School of Journalism and Mass Communication’s Punctuation, Usage, and Grammar (PUG) exam.

Supplemental Instruction, a nontraditional approach to collaborative learning, provides structured group study for students in historically difficult courses. Supplemental Instruction Leaders (SI’s) act as role models and facilitate multiple study sessions per week in order to assist students, not only with course content, but also with the development of positive study skills and habits.

SLAC staff members also provide informational and interactive presentations on test-taking and anxiety management, learning styles, time management, note-taking, and other topics. Upon request, SLAC’s staff will design specialized programs on study skills and academic improvement to fit the needs of a campus club, organization, or professor. In addition, SLAC works to facilitate the College Note-Taking session of PAWS Preview by showing incoming freshmen proper techniques and giving tips for successfully negotiating a college lecture.

SLAC also provides Texas State students with a number of online resources. By simply visiting www.txstate.edu/slac (http://www.txstate.edu/slac), students can access the Learning Lab’s tutoring schedule and hours, times and locations of Supplemental Instruction sessions, information regarding becoming a lab tutor or SI Leader, content area handouts, and test preparation materials. SLAC also maintains an Online Writing Lab (OWL), providing tutoring in an electronic format accessible via email.

Testing, Research-Support and Evaluation Center (TREC)

Commons Hall Ground Floor
T: 512.245.2276 F: 512.245.2903
www.txstate.edu/trec (http://www.txstate.edu/trec)

The Testing, Research Support & Evaluation Center (TREC) includes a testing center offering a variety of academic tests, including:

1. TSI Assessment
2. THEA Quick Test (paper-based)
3. THEA IBT (internet-based)
4. TEAS V (pre-nursing assessment)
5. Punctuation, Usage and Grammar (PUG)
6. CLEP
7. Departmental Examinations-for-Credit
8. Course exams for Texas State correspondence courses
9. Proctored exams for other institutions
10. DSST exams

Note: Texas State University does not generally accept DSST exams for credit (with the possible exception of the Applied Arts and Sciences program in the Department of Occupational, Workforce, and Leadership Studies.)

Credit-by-Examination

Credit may be earned by achieving a sufficient score (as determined by the relevant academic department of Texas State University) on any of several exams and submitting official score reports to the Testing, Research Support, and Evaluation Center (TREC), or by submitting a transcript from another college or university to Undergraduate Admissions documenting credits awarded there through examination.

Sufficient scores on the following examinations may be applied for credit:

1. College Level Examination Program (CLEP),
2. College Board Advanced Placement Examination Program (AP),
3. International Baccalaureate Program (IB), and
4. certain established departmental examinations (administered by TREC or by the relevant academic department)

Credit established in this manner through TREC will be recorded as “credit only” (CR) on the transcript and will not affect the GPA, except that Texas State University recognizes superior scores for CLEP exams.
in French, German, and Spanish language by awarding letter grades of A or B according to the Credit & Grade Awarding Table (http://tllg.net/Zbzm). Letter grades for the French, German, and Spanish language CLEP exams are optional, and may be recorded as CR at the student's request.

Evidence of credit by any examination must be evaluated by TREC before it can be entered on a transcript. More detailed materials on this and other TREC programs are available at the TREC website, www.txstate.edu/trec/ (http://www.txstate.edu/trec).

Credit earned by exam satisfies degree requirements in the same way as credit earned by passing courses does except that it does not count as credit earned in residence.

**Academic Testing for Students with Disabilities**

Academic Testing for Students with Disabilities (ATSD) is the office within TREC that provides academic testing services (course exams and quizzes) for students who are currently registered with and approved by the Office of Disability Services (ODS) to receive accommodations when testing. Some examples of testing accommodations provided by ATSD include extended time, reduced distraction environment, use of a computer, and use of a reader and/or scribe.

Note that before a student can sign up to take a test at ATSD, the need for testing accommodations must be approved by ODS, and only those accommodations designated by ODS will be provided. ATSD works closely with ODS and the other parts of TREC to provide the most secure, up-to-date, and reduced-distraction testing environment possible to all students registered with ODS.

**General Education Core Curriculum**

In order to acquire the fundamental skills and cultural background that are the marks of an educated person, all undergraduate students at Texas State complete a 42 semester credit hour program of general education core curriculum courses, which serves as the common foundation for all majors and accounts for about 35 percent of the approximately 120 semester credit hours required for a bachelor’s degree.

At the end of the bachelor’s program, the student is prepared not only in a departmental field of study, but also in the general abilities of critical thinking, communication, empirical and quantitative skills, teamwork, personal responsibility and social responsibilities that remain universally useful skills in a rapidly changing world. Texas State graduates have the raw materials to build solutions as they fulfill career and civic responsibilities.

A list of courses and course choices that fulfill the general education core curriculum is given below. In many cases, the academic plans of various Texas State colleges, schools, departments, degrees, majors, and certifications modify or exceed these standards, so students are urged to carefully examine all sections of this catalog, which apply to the academic program of their choice.

Students transferring from Texas public institutions of higher education may have to fulfill only those portions of the general education core curriculum not completed at their previous institutions. Students from private or out-of-state institutions or those who took coursework before this core curriculum was put into place (Fall 2014), will have their coursework evaluated to determine if it is equivalent to that required at Texas State.

For all undergraduate students, specific major requirements may override those in the core curriculum. Those who have completed the core requirement for college math, for instance, may have to complete Calculus if such is required by their major. In all cases, the major and core requirements applicable are those in the catalog year to which the student is assigned. A list of general education core requirements at all Texas public institutions of higher education is available online at http://www.thecb.state.tx.us/apps/tcc/.

**General Education Core Curriculum Components**

**Communication (6 semester credit hours) Code 010**

Select two of the following:

- ENG 1310 College Writing I
- ENG 1320 College Writing II
- HON 2301A Writing to Change the World
- HON 2301B Writing Yourself into Academia: Creating Portraiture

**Mathematics (3 semester credit hours) Code 020**

Select one of the following:

- MATH 1312 College Statistics and Algebra
- MATH 1315 College Algebra
- MATH 1316 Survey of Contemporary Mathematics
- MATH 1317 Plane Trigonometry
- MATH 1319 Mathematics for Business and Economics I
- MATH 1329 Mathematics for Business and Economics II
- MATH 2321 Calculus for Life Sciences I
- MATH 2417 Pre-Calculus Mathematics
- MATH 2471 Calculus I
- HON 2302A Elementary Number Theory

1. See Department of Mathematics section of this catalog for minimum test scores and/or prerequisites required to enroll in these courses. Students may have to complete MATH 1300 or MATH 1311 before enrolling in MATH 1315.

**Life and Physical Sciences (6 semester credit hours) Code 030**

Select two of the following:

- ANTH 2414 Biological Anthropology
- BIO 1320 Modern Biology I, Molecules, Cells, and Physiology
- BIO 1330 Functional Biology
- BIO 1331 Organismal Biology
- BIO 1421 Modern Biology II, Organisms, Evolution, and Environment
- CHEM 1310 Introductory Chemistry for Non-Science Majors
- CHEM 1341 General Chemistry I
- CHEM 1342 General Chemistry II
- CHEM 1430 Chemistry for Non-Science Majors
- GEO 1305 Meteorology

**Degree and Program Information**

Texas State University offers a full range of programs in applied arts, business administration, education, the fine arts, general studies, health professions, the liberal arts, sciences, and engineering. This section of the catalog gives basic information about the undergraduate degrees, majors, minors, and alternative curricula available at Texas State. Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and The Texas State University System.

**Special Requirements for the Bachelor of Arts**

The following requirements apply to all Bachelor of Arts programs.

**Minor Requirement**

A minor is required and may be selected from any of the Texas State approved minors.

**Science Requirement**

In addition to completing the mathematics and the life and physical sciences requirements of the general education core curriculum, students must complete one additional science course (3-4 hours) from anthropology (biological anthropology only), biology, chemistry, computer science, geography (physical geography only), geology, mathematics, philosophy (logic only), physics.
Modern Language Requirement

An intermediate level proficiency demonstrated by successful completion of American Sign Language, Arabic, French, German, Italian, Japanese, Latin, Portuguese, or Spanish (2310 and 2320) is required. Most students will need to complete 1410 and 1420 as prerequisites before attempting 2310.

Select one of the following:

- ASL 2310 & ASL 2320: Intermediate American Sign Language I and Intermediate American Sign Language II
- ARAB 2310 & ARAB 2320: Intermediate Arabic I and Intermediate Arabic II
- CHI 2310 & CHI 2320: Intermediate Chinese I and Intermediate Chinese II
- GER 2310 & GER 2320: Intermediate German I and Intermediate German II
- ITAL 2310 & ITAL 2320: Intermediate Italian I and Intermediate Italian II
- LAT 2310 & LAT 2320: Intermediate Latin and Intermediate Latin
- POR 2310 & POR 2320: Intermediate Portuguese I and Intermediate Portuguese II
- SPAN 2310 & SPAN 2320: Intermediate Spanish I and Intermediate Spanish II

English Literature Requirement

Select two of the following:

- ENG 2310: British Literature before 1785
- ENG 2320: British Literature since 1785
- ENG 2330: World Literature before 1600
- ENG 2340: World Literature since 1600
- ENG 2359: US Literature before 1865
- ENG 2360: US Literature since 1865

Note: Students who earn a "B" or "A" in the first sophomore literature course may choose to take an advanced literature course (3000 or 4000 level) instead of a second sophomore literature course.

Special Requirements for the Bachelor of Science

A minor is required and may be selected from any of the Texas State approved minors.

Pre-Professional Curricula

Students preparing to study dentistry, law, medicine, pharmacy, physical therapy, or veterinary medicine should enroll in the degree plan as suggested by the advisors listed below. Before each registration, the student should consult with an academic advisor.

Dentistry

The Dental Early Admission Program (DEAP) allows a qualified student to apply credits earned during Dental School to an undergraduate degree at Texas State, saving a year's coursework while earning both a bachelor's degree from Texas State and a dental degree from The University of Texas Health Science Center at San Antonio. A DEAP student enters and completes an accelerated undergraduate curriculum at Texas State including a minimum of 93 semester credit hours which can usually be completed in 3 years, 60 of these hours must be earned in residence at Texas State. Advanced placement and dual credit hours shall not be counted in the minimum of 60 hours in residence at Texas State. For more information contact the Department of Biology pre-health advisor, www.bio.txstate.edu/prehealthadvising (http://www.bio.txstate.edu/prehealthadvising).

Law

All accredited law schools in the state require at least the following from applicants prior to admission:

1. a bachelor's degree,
2. superior grades, and
3. a satisfactory score on the Law School Admission Test (LSAT).

Pre-law students are urged to consult a pre-law representative, as appropriate, from the following Texas State colleges, schools, or departments:

- School of Criminal Justice,
- Emmett and Miriam McCoy College of Business Administration,
- Department of Philosophy, or
- the Department of Political Science.

The pre-law student should also become familiar with the services available through the Student Learning Assistance Center. For more information contact your pre-law representative.

Medicine

Medical schools recommend an appropriate bachelor's degree and specific prerequisites for entrance. For more information contact the Department of Biology pre-health advisor, www.bio.txstate.edu/prehealthadvising (http://www.bio.txstate.edu/prehealthadvising).

Pharmacy

Pharmacy is a six-year program, two years of which may be taken at Texas State. The seven pharmacy schools in Texas (Texas A&M Health Science Center Irma Lerma Rangel College of Pharmacy, Texas Southern University College of Pharmacy and Health Sciences, Texas Tech University Health Sciences Center School of Pharmacy, University of Houston College of Pharmacy, University of the Incarnate Word Feik School of Pharmacy, The University of Texas at Austin College of Pharmacy, and University of North Texas Health Science Center) all require two years of prerequisite courses in chemistry, biology, mathematics, physics, English, humanities and social sciences, but the exact courses required vary by school. Consequently, it is imperative that pre-pharmacy students consult with an advisor prior to and during their pre-pharmacy program. For more information contact the Department of Chemistry and Biochemistry.

Physical Therapy

The physical therapy profession requires a post-baccalaureate degree in order to practice; Texas State offers a Doctor of Physical Therapy
degree program. For more information, contact the Department of Physical Therapy or visit www.health.txstate.edu/pt (http://www.health.txstate.edu/pt). The Department of Physical Therapy does not require a specific undergraduate degree in order to gain entrance into their program. However, the Department of Health and Human Performance (HHP) offers an undergraduate degree program that will prepare students to enter the application process for a physical therapy program. The main focus of this pre-professional program is to provide a strong theoretical background utilizing courses across multiple disciplines, including Athletic Training and Exercise and Sports Science, for admittance into a physical therapy program. Coursework will also help prepare students for professional degree programs in related fields, e.g., occupational therapy, chiropractor, and physician assistant. Because the prerequisites amongst professional programs vary, students should seek specific prerequisites for each program of interests.

See the HHP Department section of the catalog for specific course requirements in the degree plan for the Exercise and Sports Science major with a concentration in Pre-Physical Therapy.

Veterinary Medicine
The only College of Veterinary Medicine in Texas is at Texas A&M University. Prior to admission, students must complete at least 64 hours of coursework, which constitutes a pre-veterinary program. At Texas State, all students must choose a major in one of the 4-year bachelor’s programs. While any major is acceptable, majors in Agriculture Animal Science, Biology or Chemistry most nearly parallel the courses required in the pre-veterinary program.

Advising for students at Texas State who wish to pursue the pre-professional curriculum in veterinary medicine is available by contacting the pre-veterinary advisor in the Department of Agriculture at Texas State, or by appointment with the College of Veterinary Medicine at Texas A&M University.

Degrees
Bachelor of Applied Arts and Sciences (B.A.A.S.)
Bachelor of Arts (B.A.)
Bachelor of Arts in International Studies (B.A.I.S.)
Bachelor of Business Administration (B.B.A.)
Bachelor of Exercise and Sports Science (B.E.S.S.)
Bachelor of Fine Arts (B.F.A.)
Bachelor of General Studies (B.G.S.)
Bachelor of Health and Wellness Promotion (B.H.W.P.)
Bachelor of Healthcare Administration (B.H.A.)
Bachelor of Music (B.M.)
Bachelor of Public Administration (B.P.A.)
Bachelor of Science (B.S.)
Bachelor of Science in Agriculture (B.S.A.G.)
Bachelor of Science in Clinical Laboratory Science (B.S.C.L.S.)
Bachelor of Science in Communication Disorders (B.S.C.D.)
Bachelor of Science in Criminal Justice (B.S.C.J.)
Bachelor of Science in Health Information Management (B.S.H.I.M.)
Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.)
Bachelor of Science in Nursing (B.S.N.)
Bachelor of Science in Radiation Therapy (B.S.R.T.)
Bachelor of Science in Recreational Administration (B.S.R.A.)
Bachelor of Science in Respiratory Care (B.S.R.C.)
Bachelor of Science in Technology (B.S.T.)
Bachelor of Social Work (B.S.W.)

Majors
The table below lists all undergraduate majors as they would appear on a diploma and transcript. Please note that a number of these programs have additional emphases, specializations, or concentrations available.

Honors College

Dean
Heather C. Galloway, Ph.D.
Lampasas Building Room 407
T: 512.245.2266 F: 512.245.8959
www.txstate.edu/honors (http://www.txstate.edu/honors)

The Honors College provides a community for students from all majors. Students can take advantage of eclectic and challenging interdisciplinary courses designed by professors in fields such as:

- physics,
- mathematics,
- the humanities,
- poetry,
- business, or
- the arts.

In these small seminar-type classes, students discuss ideas and raise questions stimulated by readings, field trips, and presentations. Honors classes aim to promote interdisciplinary inquiry, creativity, and a lifetime love of learning. Through the Honors Independent Study, the Honors Contract course and the Honors Thesis, students can also design their own course of study.

The Honors College encourages students to apply for nationally and internationally competitive awards such as the Truman graduate scholarships, and Honors faculty assist students applying to graduate schools. The college offers study abroad experiences and encourages students to participate. Additionally, the Honors College participates in the Texas State “Common Experience” program through programming, art exhibits, and courses which connect to the theme.

The Honors College is housed in the historic Lampasas building, adjacent to Old Main. The space includes seminar rooms, a student computer lab, a conference room, offices for staff and student academic organizations and the Honors Coffee Forum - a large area for coffee, conversation, study, and events completely surrounded by the Gallery of the Common Experience art exhibits.

Application

The Honors College accepts students on a rolling admissions basis. To apply, go to http://www.txstate.edu/honors/work/application.html. Entering 1st year students from the top 10 percent of their graduating class, or those with a composite score of 27 on the ACT or 1180 on the SAT (Math + Verbal), are eligible to apply for admission to the college. Transfer or currently enrolled students with a GPA of at least 3.25 are also eligible to apply.

Graduation

Students wishing to graduate in the Honors College have two avenues available for doing so:
1. the traditional Honors College route, where students complete 15 hours of honors courses, including the Honors Thesis and
2. a minor in Honors Studies, where students complete 21 hours of honors courses, including the Senior Seminar and the Honors Thesis.

All Honors College students must maintain a minimum GPA of 3.25 to remain in and to graduate from the program. Students may elect to participate in the Honors College curriculum and community without completing Honors graduation requirements.

Program Benefits

Continuing Honors College students receive access to early registration each semester. Students may receive travel assistance from the college to present research at regional and national conferences and are eligible for scholarships and research support awarded through the Honors College.

The Honors Thesis (a requirement to graduate in the college) allows students to design a research or creative project that they complete under the supervision of a professor who is an expert in the research area. Students present their theses in an undergraduate thesis forum, and completed theses are added to the collection of Alkek Library. Students use the experience of completing an Honors Thesis in their applications to graduate school and/or applications for post graduate work.

Texas State rewards completion of the Honors College requirements with name and thesis title included in the Commencement program, a special transcript annotation, and an Honors College certificate as a supplement to the diploma. The Honors College also provides a special medallion to its graduates, especially suited for wearing at Commencement.

Program Faculty

The Honors College builds on the strength of master teacher-scholars from across the campus, including persons who have garnered Presidential Excellence awards, Piper Professor and other state/national teaching awards, Fulbright Fellowships, and awards for their writing, research, and service contributions. Current faculty are listed on the website.

Courses in Honors

New courses in the Honors College are created continually, a process that ensures innovative, thoughtful offerings not duplicated elsewhere. Faculty members and students who participate in Honors classes represent many different academic departments and colleges from across the campus. Honors courses feature an explicitly interdisciplinary component, and all courses are, by definition, writing intensive. The courses are also discussion intensive, and students are expected to communicate orally, as well as demonstrate problem-solving skills. Many of the courses are designed to replace general education core requirements or advanced offerings. To see particular courses that are offered within the general rubrics listed, please see course listings at the Honors College website: http://www.txstate.edu/honors. Recent course offerings include Graphic Novel: Form and Practice, New and Old World Philosophy, The Voices of Eros in Poetry, Elementary Number Theory, Baseball and the American Experience, Nature and the Quest for Meaning, Humanity and the Natural Environment: A Study of Interrelationships, Disturbing the Peace: Politics of Language and Power in Hip-Hop Culture, C.S. Lewis: Chronicles of a Master Communicator, Astronomy in Art, History and Literature, and From Court to Street: 18th Century France, a course taught entirely in Paris.

Honors Contract Course

Designated with “Honors work included” on students’ transcript upon completion, any regular Texas State course above the 2000 level can become an Honors Contract course with the concurrent approval of the student, faculty instructor, and Honors College. Students completing an Honors Contract course complete at least 15% work in addition to the requirements set forth in the course and must earn a ‘B’ or better in the course. (WI)

Departmental Honors Course

Offered in a growing number of departments, the Departmental Honors Course will follow the set curriculum with additional depth in subject matter and will encourage more student independent research. Possible course modifications include independent projects, group projects, papers, fewer multiple-choice exams, and class size limited to 17 students.

HON 3393B. Quest for Order & Justice in Law.
This course explores the nature of law. It examines diverse perspectives of law expressed in legal texts, religious texts and literature, in order to identify tensions between two important ends of law. Law is a source of social order and it is a source of justice. But these ends sometimes conflict. The course begins by indentifying this conflict and analyzing arguments that resolve it in favor of order or justice. Afterwards, it explores how the conflict influences the development of legal doctrine and how it shapes the practice of law. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HON 3394Y. The Quest for the Sacred in a Secular Age: Late-Modern Novels.
The Protestant Reformation weakened the notion of a homogeneous, central religion, as did the theories of Charles Darwin and Sigmund Freud. Yet the sense that God was no longer a collective concept but a private belief didn’t seem mainstream until the twentieth century. We will study five novels that explore this shift. (WI).

HON 3397J. Extraordinary Leadership: Ownership and Influence.
This course is designed to elevate the performance of leaders. Students are challenged to develop their potential in seminar-style sessions covering leadership definitions, theory, frameworks, and the global application of skills. Students explore their behaviors, motivations, values, influences, and character in an effort to increase self-awareness and to think critically. (WI).
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing|Honors|Topics|Writing Intensive
about Extraordinary Leadership: Ownership and Influence

HON 3397K. The Search for Right and Wrong in Politics.
Using classic texts and works from literature and film, and current event videos, this course provides students with a foundation for understanding the intersection of politics and ethics and for achieving an understanding of how politics works. (WI).
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing|Honors|Topics|Writing Intensive
about The Search for Right and Wrong in Politics

HON 3397L. Economic Anthropology.
This course reviews central issues in economic anthropology, using both case studies and theoretical writings. Students will analyze production, exchange, distribution, consumption, property, economic surplus, inheritance, and types of economic structure. Materials will cover hunter-gatherer societies, simple agricultural societies, pre-capitalist complex state societies, and issues of development in non-industrialized countries. (WI).
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing|Honors|Topics|Writing Intensive
about Economic Anthropology

A story or poem is finite. Life is too. When we arrive at its end, we hope to understand its meaning, or, as Peter Brooks said, "to connect ends and beginnings and make of the middle a highly charged field of force." Stories and poems about death provide this opportunity. (WI).
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing|Honors|Topics|Writing Intensive
about The Death Plot: Fiction, Memoirs, Poems
HON 3397N. Advanced Writing for Video Games.
This course will teach students to write for video games based on techniques learned from observation and study. The course focuses on creativity and flexibility, two traits essential to game writing, and students will develop a marketable design document for an original video game working in design teams. (WI).

HON 3397P. Anti-Intellectualism in American Culture and Politics.
Hostility to science, experts, and “book learning” is a common impulse that shapes contemporary American culture and politics. In this course, we will explore how anti-intellectualism promotes notions about media bias, encourages belief in implausible conspiracies, and spurs hyperpolarized politics, among other topics. (WI).

The College of Applied Arts offers five undergraduate degrees: 

1. Bachelor of Science in Agriculture; 
2. Bachelor of Science in Criminal Justice; 
3. Bachelor of Science in Family and Consumer Sciences; 
4. Bachelor of Applied Arts and Sciences; 
5. Bachelor of Social Work

In addition, the Departments of Aerospace Studies and Military Science prepare students for commissioning in the United States Air Force, United States Army, United States Army Reserves, or Army National Guard.

Twenty-two undergraduate majors (several with specialized options) are offered by four departments and three schools within the College:

- Agriculture: animal science with specializations in basic science and pre-vet and integrated ranch and natural resources management, general agriculture with or without teacher certification, agricultural business and management with specializations in agribusiness management, agricultural systems management, and horticultural business. 
- Criminal Justice: law enforcement, corrections, criminal justice. 
- Family and Consumer Sciences: family and consumer sciences (with consumer science option and teacher certification option), family and child development (with teacher certification option), fashion merchandising, interior design, nutrition and foods (with teacher certification option). 
- Occupational, Workforce, and Leadership Studies: applied arts and sciences. (Individualized degree program that offers adults the opportunity to receive college credit for previous competencies acquired in the workplace as well as select a new career path or supplement skills in current path.)
- Social Work: Education for beginning generalist in social work practices. Designed to give you a well-rounded perspective on efforts to enhance human well-being and productivity, help alleviate poverty and strengthen social justice.

Several of the College’s programs have externship-type courses. These courses provide opportunities for students to further their education in an environment external to Texas State. These courses have entrance requirements including good academic standing at the time of the internship. More specific course requirements are available from the department of your major.

### Minor in Honors Studies

A minor in Honors Studies requires 21 semester hours, of which 12 hours are advanced including HON 4390A and HON 4390B. Of the advanced courses, a maximum of 2 may be Honors Contract courses. Honors Contract courses may not be counted for both the minor and the major. A maximum of 3 Honors courses may be counted to satisfy both General Education Core Curriculum requirements and the minor. Students are required to demonstrate cross-cultural experience by completing a study abroad program or an alternative cross-cultural component. Students must complete an Honors Thesis by enrolling in HON 4390B. Students are required to make a presentation of the thesis in the Honors Thesis Forum and obtain approval by the thesis supervising professor and the Dean of the Honors College.

### College of Applied Arts

**Dean**

T. Jaime Chahin, Ph.D.  
Agriculture Building Room 300  
T: 512.245.3333 F: 512.245.3338

**Assistant Dean**

Donna Vandiver, Ph.D.

**Department Chairs/School Directors**

- Aerospace Studies—Lt. Col. Matthew S. Fehrman  
- Agriculture—Donna Vandiver, Ph.D., Interim  
- Criminal Justice—Christine Sellers, Ph.D.  
- Family and Consumer Sciences—Rodney C. Runyan, Ph.D.  
- Military Science—Lt. Col. Jose A. Garcia, M.A.  
- Occupational, Workforce, and Leadership Studies—Mary Jo Biggs, Ph.D., Interim  
- Social Work—Karen Knox, Ph.D., Interim

The College of Applied Arts’ mission is to prepare undergraduate and graduate students for careers through programs of high quality in academic, professional, and technical areas; to further faculty excellence in teaching supported by quality scholarship; and to enhance our involvement with local, state, national, and international constituencies.

The College of Applied Arts offers five undergraduate degrees:

1. Bachelor of Science in Agriculture;  
2. Bachelor of Science in Criminal Justice;  
3. Bachelor of Science in Family and Consumer Sciences;  
4. Bachelor of Applied Arts and Sciences;  
5. Bachelor of Social Work

### Academic Advising Center

Agriculture Building Room 201  
T: 512.245.1490 F: 512.245.1627  
www.advising.appliedarts.txstate.edu (http://www.advising.appliedarts.txstate.edu)

The mission of the College of Applied Arts Academic Advising Center is to provide accurate and timely advice to prospective and current students regarding their progress toward completion of undergraduate degree programs administered by the college. Services include preparation of degree audits, assistance with degree planning, scheduling of classes, counseling for probation and suspension, evaluation of transfer work, and application for graduation. Please contact the Advising Center staff to schedule an appointment for advising.

### Department of Aerospace Studies

T: 512.245.2182 F: 512.245.7474
Courses in Aerospace Studies (A S)

A S 1000. Leadership Laboratory.
An integral and mandatory two-hour lab accomplished concurrently with all Aerospace Studies courses. It is a progression of practical command and staff experiences that develop leadership potential. AFROTC cadets plan, organize, direct, coordinate, and control all activities. The lab is repeatable without credit because it focuses on different leadership processes.
Grade Mode: Credit/No Credit

A S 1110. The Air Force Today I.
A study of the doctrine, mission, and organization of the United States Air Force; United States strategic offensive and defensive forces, their missions and functions; and employment of nuclear weapons. Co-requisite: A S 1000.
Grade Mode: Standard Letter

A S 1120. The Air Force Today II.
An introduction to flight, oral and written communication for the Air Force officer, Air Force installations, the Air Force profession and how the Air Force integrates with the U.S. Army, Navy, Marines, and Coast Guard. Co-requisite: A S 1000.
Grade Mode: Standard Letter

A S 2110. The Development of Air Power I.
A historical study of the development of air and space power beginning before the first powered flights through WWI, the inter-war years, and WWII, tracing the development of various air power concepts with a focus on factors prompting aerospace research and technological change. Co-requisite: A S 1000.
Grade Mode: Standard Letter

A S 2120. The Development of Air Power II.
A continuation of A S 2110 studying the historical development of air and space power from Vietnam to the present. Events and trends in the history of airpower are examined, emphasizing examples of the impact of air and space power on strategic thought. Co-requisite: A S 1000.
Grade Mode: Standard Letter

Minor
- Aerospace Studies

Information about graduate programs can be found in the Graduate Catalog (p. 634).
A S 3311. Leadership and Management I.
A study of the framework of leadership in the Air Force (AF), part 1.
1. Practical case studies examine AF leadership and management situations and discipline and ethics scenarios that demonstrate applications of the concepts. The course emphasizes communication skills used by officers in the AF. Co-requisite: A S 1000.
Grade Mode: Standard Letter
about Leadership and Management I

A S 3312. Leadership and Management II.
A study of the framework of leadership in the Air Force (AF), part 2.
2. Practical case studies examine AF leadership and management situations and discipline and ethics scenarios that demonstrate applications of the concepts. The course emphasizes communication skills used by officers in the AF. Co-requisite: A S 1000.
Grade Mode: Standard Letter
about Leadership and Management II

Part 1 of the study of professional Air Force (AF) officers in a democratic society; societal attitudes toward the armed forces; national defense structure, policy development; and military law. AFROTC cadets study topics that prepare them for duty as AF officers. The course emphasizes AF communication skills. Co-requisite: A S 1000.
Grade Mode: Standard Letter
about National Security Forces in Contemporary American Society I

A S 4312. National Security Forces in Contemporary American Society II.
Part 2 of the study of professional Air Force (AF) officers in a democratic society; societal attitudes toward the armed forces; national defense structure, policy development; and military law. AFROTC cadets study topics that prepare them for duty as AF officers. The course emphasizes AF communication skills. Co-requisite: A S 1000.
Grade Mode: Standard Letter
about National Security Forces in Contemporary American Society II

A S 1110 The Air Force Today I 1
A S 1120 The Air Force Today II 1
A S 2110 The Development of Air Power I 1
A S 2120 The Development of Air Power II 1
A S 3311 Leadership and Management I 3
A S 3312 Leadership and Management II 3
A S 4311 National Security Forces in Contemporary American Society I 3
A S 4312 National Security Forces in Contemporary American Society II 3

3 hours of MATH

Total Hours 19

Cadets must enroll in A S 1000 every term until graduation.

Department of Agriculture

T: 512.245.2130 F: 512.245.3320
www.ag.txstate.edu (http://www.ag.txstate.edu)

Agriculture majors have a choice of four different degree tracks:

- Agriculture,
- Agriculture Teacher Certification,
- Agriculture Animal Science,
- Agriculture Business and Management.

The Department of Agriculture offers programs reflecting the diversity of choices available and skills required in modern agriculture and its related professions. This dynamic, global industry uses new technologies to improve the production, management, manufacture, and distribution of food and agricultural products.

Major in Agriculture
Agriculture majors are provided a broad exposure to agriculture. With this curriculum, students may expect to manage a ranch or a farm, or work in any career that requires a general agriculture education such as county extension agents, banking or government service.

Major in Agriculture with Teacher Certification in Agricultural Science and Technology
A comprehensive educational program concerned with the broad field of agriculture. Emphasis in the major is on production techniques, managerial skills and competencies necessary to function as agricultural scientists, educators, or agricultural managers in today's complex agricultural industry. Agricultural science and technology teachers are certified to teach in grades six through twelve in the public schools of Texas.

Major in Agriculture Animal Science
The study of all aspects of the livestock and poultry industries including commercial production and management; food processing; and animal feed/animal health including nutrition, biotechnology and veterinary medicine. Involvement of students in ongoing faculty research prepares graduates for careers in research and industry; and for further education

Minor in Aerospace Studies
A minor in Aerospace Studies requires 19 hours, including:
in veterinary schools or graduate schools. Students may pursue two specializations with this major:

- Basic Science and Pre-Vet. The department supervises the Pre-Veterinary Science program, which provides two years of specialized course work for students planning to enter veterinary school.
- Integrated Ranch and Natural Resources Management

**Major in Agriculture Business and Management**

This major reaches far beyond the farm to encompass the activities involved in bringing food and fiber to consumers. Students may pursue three specializations with this major:

- Agribusiness Management. In this specialization students learn about the acquisition and use of capital, the working of the marketplace, financial institutions, and the effect of government policies on agriculture. Therefore, the Agribusiness Management specialization includes courses in agricultural finance, marketing and policies dealing with resource use as well as courses in technical agriculture and general education core curriculum.
- Agricultural Systems Management. This specialization integrates and applies engineering technology, agricultural sciences, and business. It prepares graduates for careers in technical fields and engineering such as agricultural machinery and power systems, electrical energy systems including sensors and controls, agricultural structures, surveying, and environmental systems including water utilization and quality. Students are involved with ongoing research, farm power and machinery, and precision farming and global positioning systems. Graduates are expected to assume positions of leadership and responsibility in careers such as product testing and service management, agricultural sales and services, and agricultural production systems.
- Horticultural Business. This specialization teaches management of commercial establishments and institutions that produce ornamental plants such as greenhouses and nurseries, floral shops and plant therapy businesses. The major also contains specialized courses in horticulture that utilize greenhouses, the Freeman Center and the Living Library Gardens.

**Internship**

Students are encouraged to apply for internships and enroll in AG 4310 after their junior year. The department will assist students in securing internships in agriculturally related businesses or agencies. For specific information and requirements about internships, contact the Department Chair.

**Bachelor of Science in Agriculture (B.S.A.G.)**

- Major in Agriculture (p. 97)
- Major in Agriculture (Teacher Certificate in Agriculture Science and Technology, Grades 6-12) (p. 98)
- Major in Agriculture Animal Science (Basic Science and Pre-Vet Specialization) (p. 99)
- Major in Agriculture Animal Science (Integrated Ranch and Natural Resources Management Specialization) (p. 100)
- Major in Agriculture Business and Management (Agribusiness Management Specialization) (p. 101)
- Major in Agriculture Business and Management (Agricultural Systems Management Specialization) (p. 102)
- Major in Agriculture Business and Management (Horticultural Business Specialization) (p. 103)

**Minors**

- Agriculture (p. 104)
- Animal Science (p. 104)
- Horticulture (p. 104)
- Plant and Soil Science (p. 105)
- Second Teaching Field in Agriculture Science and Technology (Grades 6-12)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in Agriculture (AG)**

**AG 1110. Careers in Agriculture.**

This course is an introduction to careers available in the broad field of agriculture including an overview of personal and career qualifications needed for workplace success.

Course Attributes: 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1131

about Careers in Agriculture

**AG 1445. Basic Animal Science.**

An introductory course designed to acquaint students with the importance of the livestock industry. A study of the types and breeds; market classes and grades of beef cattle, swine, sheep, goats, horses, and poultry; attention will be given to breeding, judging, care, and management.

Course Attributes: 4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1419

about Basic Animal Science

**AG 2310. Applied Leadership Principles.**

Preparation for professional leadership and service, with emphasis on application of leadership principles. The course will focus on guiding students in developing enhanced leadership skills through group and individual leadership enhancement projects and topic research.

Prerequisites: AG 1110.

Course Attributes: 3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

**Grade Mode:** Standard Letter

about Applied Leadership Principles
AG 2313. Agronomic Crops.
A study of the production, harvest practices, storage, and use of cereal and feed grains, fiber crops, forages, and other related crops requiring special technology. 
about Agronomic Crops
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Agronomic Crops

AG 2345. Horse Management.
A course designed as a broad but thorough coverage of most areas of horse husbandry and production, including anatomy, physiology, breeding, feeding, training, and health care. Laboratory sessions are designed to acquaint the student with modern methods of breeding, training, and care of the horse. 
about Horse Management
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Horse Management

AG 2367. Animal Ultrasonography.
A study of current developments and utilization of animal ultrasonography technology in agriculture. Hands-on training in animal growth and development, animal breeding, animal handling and management, animal reproduction, computer technology and data interpretation. 
about Animal Ultrasonography
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Animal Ultrasonography

AG 2373. Introduction to Agricultural Engineering.
An introductory course designed to acquaint students with a wide range of concepts, principles and applied technologies in agricultural engineering. A problem solving course. 
about Introduction to Agricultural Engineering
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Introduction to Agricultural Engineering

AG 2374. Metal Fabrication and Welding Technology for Agriculture.
This course covers the principles and practices of applied metallurgy and welding. Emphasis is given to the management of the technologies and techniques associated with oxy-fuel cutting, shielded metal arc welding (SMAW), Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), and Plasma Arc Cutting (PAC). Prerequisite: AG 2373. 
about Metal Fabrication and Welding Technology for Agriculture
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Metal Fabrication and Welding Technology for Agriculture

AG 2379. General Horticulture.
A survey of the general field of horticulture including general areas of employment. 
about General Horticulture
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about General Horticulture

AG 2383. Introduction to Agricultural Economics.
The role of agriculture in the general economy; the study of basic economic concepts with their application to the agricultural firm; the structure and operation of the marketing system; the functional and institutional aspects of agricultural finance; international trade; and government farm programs. 
about Introduction to Agricultural Economics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: AGRI 2317
about Introduction to Agricultural Economics

AG 2390. Computer Applications in Agriculture.
Introduction to computers and computer technology; operation and application of the computer in production agriculture and agricultural business, services and industries. Includes characteristics of computer hardware and software, accessing and using the computer in agriculture. 
about Computer Applications in Agriculture
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Computer Applications in Agriculture

AG 3301. Genetics of Livestock and Plant Improvement.
Fundamental principles of genetics and their application to higher plants and animals. The physical basis of Mendelian inheritance, expression and interaction of genes, gene frequency, linkage, sex linkage, inbreeding, line breeding, and crossbreeding as applied to selection indices for livestock and plants. Prerequisites: AG 1445; BIO 1330 and BIO 1130. (WI). 
about Genetics of Livestock and Plant Improvement
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: AGRI 2317
about Genetics of Livestock and Plant Improvement

AG 3302. Herbaceous Plant Materials.
This course will include the identification, selection, use, and management of annuals, perennials, herbs, and ornamental grasses in the landscape. Each student will learn irrigation, fertilization, pruning, and other cultural needs of such plants. The laboratory will complement lecture. 
about Herbaceous Plant Materials
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1307
about Herbaceous Plant Materials
AG 3304. Propagation of Horticultural Plants.
Principles and practices of propagating ornamental plants, vegetables, and fruits by sexual and asexual methods including germination of seed, layerage, graftage, division, cuttage, bulbs, corms, and other vegetative plant structures. Study of physical, physiological and environmental factors affecting propagation of ornamental plants. about Propagation of Horticultural Plants

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Propagation of Horticultural Plants

AG 3305. Woody Plant Materials for Outdoor Landscapes.
Study of woody plant material including fruit and ornamental trees, shrubs, and ground covers and their identification, nomenclature, and use in the planting and development of home landscapes. About Woody Plant Materials for Outdoor Landscapes

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Woody Plant Materials for Outdoor Landscapes

AG 3306. Flowers and Plants for Interior Design.
Study of flowers, cut flowers, foliage and blooming pot plants to enhance the interior design of homes and businesses including their identification, cultural requirements, uses, diagnoses and corrective measures of disorders. Basic principles of flower arrangement and the preparation of floral and plant decoration as used in interior design. (WI).
about Flowers and Plants for Interior Design

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Flowers and Plants for Interior Design

AG 3308. Organic Gardening.
Study of principles and practices that involve the production of vegetables by organic methods. Fertility and irrigation; as well as weed, insect and disease control by practices will be covered. About Organic Gardening

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organic Gardening

AG 3310. Agriculture Power and Machinery Technology.
This course covers the principles of 2 stroke and 4-stroke cycle engines, ignition, and combustion types including injection systems. Components including power and power transmissions and hydraulic systems will also be addressed. Prerequisites: Math 1315 and AG 2373. About Agriculture Power and Machinery Technology

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Agriculture Power and Machinery Technology

AG 3314. Animal Health and Disease Control.
A course designed to enable the animal science student to understand basic veterinary principles as applied to prevention of disease in domestic livestock. Common diseases of livestock are considered, with emphasis on sanitation and modern preventative methods concerned with keeping livestock healthy. Prerequisite: AG 1445. About Animal Health and Disease Control

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Animal Health and Disease Control

AG 3317. Farm Management.
Tools and techniques which are basic to the study of farm organization and decision making, the wise allocation of factors of production, the keeping of records, and income tax management. Prerequisites: AG 2383, AG 2390; MATH 1315 or MATH 1319. About Farm Management

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Farm Management

AG 3318. Agricultural Business Management.
Introduction to the institutions and functions in agribusiness. The institutional structure of the agribusiness sector such as the feed, farm machinery and equipment, farm chemicals, financial institutions and private and public agri-services will be delineated. The second part of the course will introduce and develop the various functions such as organizational behavior, financial management, market management and human resource management. Prerequisites: AG 2383, AG 2390; MATH 1315 or MATH 1319. About Agricultural Business Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Agricultural Business Management

Presents the food and fiber system from an international Component. Analysis of food production and consumption patterns under different world economic systems, causes of surpluses and shortages throughout the world; the role of trade in solving food and agricultural problems. Outlook and situation for food and fiber is discussed for both developed and developing nations, and impact of U.S. food policy on world trade flows is presented. (MC).
about International Food and Fiber Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about International Food and Fiber Systems

AG 3321. Range Management.
Practical problems met in managing native pastures and rangelands. Attention to determining range condition and proper stocking rates, methods of handling livestock on the range, range reseeding, brush control, and poisonous plants. The ecological and physiological response of range vegetation to grazing. Prerequisite: AG 1445. About Range Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Range Management
Principles of animal nutrition with emphasis on digestion, absorption, metabolism, and function of nutrients; estimation of feedstuff nutritive value; and requirements of animals. Prerequisites: CHEM 1341, CHEM 1141 and BIO 1330 BIO 1130. (WI).

about Animal Nutrition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 3329. Economic Entomology.
A study of the most common insects of field crops, fruits, and vegetables; life history, methods of attack, damage, and means of preventing and controlling. Collection and mounts of insects will be made.

about Economic Entomology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Basic and fundamental principles of nutrition for ruminant and non-ruminant wildlife with emphasis in North American and African wildlife. Attention will be given to digestive physiology and anatomy, feed sources, forage resources, and nutrient requirements. Prerequisite: AG 1445 or BIO 1330 and BIO 1130.

about Applied Wildlife Nutrition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter

AG 3331. Reproduction in Farm Animals.
An examination of the anatomy and physiology of reproductive systems of livestock of economic importance. Attention is given to reproductive failure and disease. The laboratory includes pregnancy testing, semen collection and evaluation, artificial insemination techniques, and evaluation of breeding records. Prerequisites: AG 1445 and 3301, or BIO 2450.

about Reproduction in Farm Animals
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3334. Livestock Selection and Evaluation.
Detailed consideration of the factors involved in the selection and evaluation of beef cattle, sheep, swine, rabbits, goats, and chickens. Emphasis will be placed on the care, grooming and exhibition of livestock projects. Prerequisite: AG 1445; junior classification.

about Livestock Selection and Evaluation
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3351. Agricultural Marketing and Sales.
A study of the food marketing system and farm input sales; includes the functional systems approach that integrates the agricultural input industries into a discussion of food marketing; takes a micro approach to the development of marketing management skills needed in agribusiness; and provides a critical outlook on issues ranging from inputs to final food products. Prerequisites: AG 2383; MATH 1315 or MATH 1319. (WI).

about Agricultural Marketing and Sales
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 3352. Quantitative Methods in Agricultural Economics.
Principles involved in collection, tabulating and analyzing agricultural data. Topics include sampling procedures, questionnaire development, descriptive analysis of data, correlation, prediction and forecasting and tests of significance. Simple computer programs will be stressed for class exercises during the course. Prerequisite: MATH 1315, MATH 1319, MATH 2321, or MATH 2471.

about Quantitative Methods in Agricultural Economics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3353. Agricultural Structures and Environment.
Principles and practices associated with structural components, selection, materials of construction, heat and moisture control, and the environmental issues of waste management systems; a problem solving course. Prerequisites: MATH 1315, AG 2373 and AG 2390.

about Agricultural Structures and Environment
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3375. Management of Agricultural Machinery and Equipment.
This course addresses the optimization of the equipment phases of agricultural production and processing. Emphasis will be placed on management and decision making principles concerned with the efficient selection, operation, repair, maintenance, and replacement of machinery and equipment. Prerequisites: AG 2373, MATH 1315, CHEM 1341, CHEM 1141, and AG 2390.

about Management of Agricultural Machinery and Equipment
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3426. Soil Science I.
The fundamental principles of soil science to acquaint the student with some physical, chemical, and biological properties of the soil. Prerequisites: CHEM 1341 and CHEM 1141; and AG 2313 or AG 2379.

about Soil Science I
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3427. Soil Science II.
Management of soils as pertaining to their place in the environment. Special emphasis will be given to the role of soil in conventional agricultural systems, natural resource systems, waste management systems, and reclaimed and artificial soil systems. Prerequisite: AG 3426. (WI).

Grade Mode: Standard Letter
Course Attribute(s): Lab Required

about Soil Science II

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

AG 3455. Land Surveying.
Engineering practices used in plane and geodetic surveying including differential and profile leveling, topographic, land, boundary and cadastral, and construction surveys. Laboratory exercises include use of dumpy levels, transits and total stations, and GPS (Global Positioning System) total station with RTK (real time kinematic). Planimeters and stereoscopes are used in analyzing aerial maps. Prerequisites: MATH 1315 or MATH 1317 or MATH 1319; AG 2373 and AG 2390.

Grade Mode: Standard Letter

about Land Surveying

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.

A course for advanced undergraduates to study subject matter of special interest in agriculture. Problems in agronomy, economics, animal science, plant science, and farm mechanics may be selected. Prerequisite: Approval by department chair. May be repeated for up to three semester hours credit. Course may not be taken for graduate credit. (WI).

Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing|Dual Enrollment Permitted

about Current Problems in Technical Agriculture

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

AG 4212. Program Building.
This course will focus on program and curriculum development in agricultural education settings. Primary course elements will include determining program and curriculum goals and objectives, implementing the program, and curriculum evaluation. Prerequisites: AG 4343, AG 4361 (to be taken in final semester).

Grade Mode: Standard Letter

about Program Building

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

AG 4300. Greenhouse and Nursery Management.
Planning greenhouses for commercial and home use; plant-nursery layouts. Study of the physical and economic factors affecting the production of plants in the greenhouse and other forcing structures, and in the field; management techniques used in the production and marketing of greenhouse and nursery plants. (WI).

Grade Mode: Standard Letter

about Greenhouse and Nursery Management

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

AG 4302. Fruit and Vegetable Crop Production.
Factors influencing small-fruit and tree-fruit and vegetable crop production in the field including root stocks, varieties, soil, planting, transplanting, irrigating, fertilizing, pruning, insects, diseases, nematodes, weeds, chemicals, harvesting, storing, and marketing; greenhouse production of certain vegetables. Prerequisite: AG 2313 or AG 2379. (WI).

Grade Mode: Standard Letter
Course Attribute(s): Lab Required|Writing Intensive

about Fruit and Vegetable Crop Production

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

AG 4304. Landscape Management.
To acquaint students with the practices and techniques used in professional landscape construction and management, and with the scientific and technical basis for such practices.

Grade Mode: Standard Letter
Course Attribute(s): Lab Required

about Landscape Management

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

AG 4305. Landscape Design.
Landscaping combines elements of art and science to create functional, aesthetically pleasing outdoor space. This class helps students develop knowledge of design elements and principles. Students learn site and client analysis techniques for critiquing landscapes. Students learn to communicate ideas through the planning and drawing of landscape plans.

Grade Mode: Standard Letter

about Landscape Design

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

AG 4307. Professional Development in Agriculture.
This course requires students to select a topic of current interest appropriate to the major. Critical analysis of the situation including both positive and negative aspects will be encouraged. Findings will be presented in both oral and written form. (Capstone Course). Senior Classification required to enroll.

Grade Mode: Standard Letter

about Professional Development in Agriculture

AG 4310. Agricultural Internship.
This course integrates professional and academic experience through internship with an external employer. The internship is designed to provide actual work experience, observation and analysis in the student’s chosen career field. Prerequisites: Junior or Senior standing and a GPA of 2.75 or higher.

Grade Mode: Standard Letter

about Agricultural Internship

AG 4311. Agricultural Internship Seminar.
This course is the seminar portion of the Agricultural Internship course. Students will be required to present the results of their internships in a seminar format. (Capstone Course). Senior Classification required to enroll.

Grade Mode: Standard Letter

about Agricultural Internship Seminar

AG 4312. Agricultural Internship Field Experience.
This course is the field experience portion of the Agricultural Internship course. Students will be required to spend a minimum of 100 hours working at an external employer for a minimum of 3 months. (Capstone Course). Senior Classification required to enroll.

Grade Mode: Standard Letter

about Agricultural Internship Field Experience

This course is the evaluation portion of the Agricultural Internship course. Students will be required to submit a written report of their internship experience. (Capstone Course). Senior Classification required to enroll.

Grade Mode: Standard Letter

about Agricultural Internship Evaluation

AG 4314. Agricultural Internship Project.
This course is the project portion of the Agricultural Internship course. Students will be required to submit a written report of their internship project. (Capstone Course). Senior Classification required to enroll.

Grade Mode: Standard Letter

about Agricultural Internship Project
AG 4311. Instructional Methods for Career and Technology Educators.
An analysis of the instructional techniques, strategies and methods appropriate to the effective teaching of career and technology subjects. Teaching special populations and teaching in multicultural environments will be addressed. To be taken the Fall semester before student teaching.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Methods for Career and Technology Educators

AG 4325. Feeds and Feeding.
Study of feedstuffs used in livestock enterprises. Application of basic nutrients to the needs of different species of livestock. Formulating rations, methods of feeding, feed control laws, and feeding investigation.

Prerequisites: AG 1445; CHEM 1341, CHEM 1141; BIO 1330, BIO 1130.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Feeds and Feeding

AG 4326. Advanced Animal Science-Ruminants.
The application of scientific and technological advances to production and management in ruminant animal production and management.

Prerequisite: AG 1445. (WI).

about Advanced Animal Science-Ruminants

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Advanced Animal Science-Ruminants

Application of basic principles in the production and management of nonruminant animals. Scientific and technological advances with emphasis on overall management, health care, nutrition, genetics, physiology, and marketing of nonruminant animals.

Prerequisite: AG 1445. (WI).

about Advanced Animal Science-Poultry and Swine

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Advanced Animal Science-Poultry and Swine

AG 4330. Food Technology: Processing Meats.
Evaluation and grading of carcases; wholesale and retail cuts of beef, pork, lamb, and poultry. Emphasis on quality controls, testing of finished products that have been frozen, cured, fried, pickled, and canned.

Prerequisites: AG 1445, BIO 1330, 1130 and CHEM 1341, 1141; or consent of instructor.

about Food Technology: Processing Meats

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Food Technology: Processing Meats

AG 4343. Organization and Management for Laboratory Programs.
Instructional programs involving laboratory equipment and facilities will be examined. Curriculum, teaching methods, equipment and facility management practices including various aspects of safety, tool management, inventory and security are emphasized along with facilities layout planning. Must be taken in last semester of program.

Prerequisites or co-requisites: AG 4212 and AG 4681.

About Organization and Management for Laboratory Programs

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Organization and Management for Laboratory Programs

AG 4361. Agriculture Electric and Mechanical Systems.
Electrical fundamentals applied to agricultural production and processing. Circuits, power, energy, wiring design, and motor fundamentals; selection, installation and operational characteristics. Sensors and control devices including switches, relays, timers, and circuit breakers will be studied.

Prerequisite: AG 2373.

about Agriculture Electric and Mechanical Systems

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Agriculture Electric and Mechanical Systems

AG 4371B. Agriculture Irrigation Technology.
Principles associated with water management practices in maintaining soil productivity and the influence of water management on environmental quality. Emphasis will be placed on the selection and layout of irrigation and drainage systems, waste management systems, and the impact on the environment.

Prerequisite: AG 2373.

about Agriculture Irrigation Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Agriculture Irrigation Technology

AG 4371T. International Horticulture.
The purpose of this program is to introduce students to the English culture and way of life, as well as England's historic role in Horticulture, past and present. Students will intensely study from the following four horticultural fields: Ornamental Horticulture, Landscape Design, Vegetables/ Fruit Crops, and Vineyards and Hops. The program includes basic instruction in English history, as well as lectures and field trips.

about International Horticulture

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about International Horticulture

AG 4380. Agricultural Finance.
An introduction to finance and financial problems faced by agribusiness managers. The subject matter includes financial analysis, planning, and control; capital budgeting; capital structure, liquidity, and risk management; and financial markets.

Prerequisites: AG 2383; MATH 1315 or MATH 1319; ACC 2361.

about Agricultural Finance

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Agricultural Finance
AG 4381. Agricultural Policy.
Identification and analysis of governmental programs and policies affecting the production and marketing of agricultural products. An economic evaluation of alternative policies and their application for farmers, consumers and agribusinesses will be considered. Prerequisites: AG 2383; MATH 1315 or MATH 1319. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 4383. Agricultural Resource Economics.
Economic concepts and institutional factors relating to the use of agricultural resources such as land, air, water, energy, space, etc. Emphasis is on the conservation of resources and the environmental interactions resulting from the use of natural resources for agricultural production. Prerequisite: AG 2383, MATH 1315 or MATH 1319. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 4681. Student Teaching in Agricultural Science and Technology.
Planning for teaching agricultural science in selected schools in Texas. Course to be taken in final semester. Senior classification required to enroll.

6 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Credit/No Credit

Faculty
Angirasa, Aditi K, Professor, Agriculture, Ph.D., Texas A&M University
Benavides, Elizabeth Ashley, Assistant Professor, Agriculture, Ph.D., Univ of Missouri-Columbia
Bruner, Brian L, Lecturer, Agriculture, M.B.A., Texas State University
Cade, Tina Marie, Professor, Agriculture, Ph.D., Texas A&M University
Davis, Bob, Professor Emeritus, Agriculture, Ph.D., North Carolina State University

Wakefield, Dexter Bernard, Assistant Professor, Agriculture, Ph.D., Purdue University Main Campus

Bachelor of Science in Agriculture (B.S.A.G.) Major in Agriculture

Minimum required: 120 semester hours

General Requirements
1. Students cannot enroll in upper-level (3000 or 4000) agriculture courses until they have successfully completed MATH 1315 or MATH 1319, and CHEM 1341 and CHEM 1141.

2. If two years of the same foreign language were taken in high school, then enough additional hours to total the minimum 120 hours required for the degree will fulfill this requirement. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

AG Advanced Elective: 3

Total Hours: 120

1. Must be successfully completed in the first 45 college credit hours at Texas State.

**Bachelor of Science in Agriculture (B.S.A.G.) Major in Agriculture Animal Science (Basic Science and Pre-Vet Specialization)**

Minimum required: 120 semester hours

**General Requirements**

1. A Biochemistry minor is required.
2. Students cannot enroll in upper-level (3000 or 4000) agriculture courses until they have successfully completed MATH 1315 or MATH 1319, and CHEM 1341 and CHEM 1141.
3. If two years of the same foreign language were taken in high school, then enough additional hours to total the minimum 120 hours required for the degree will fulfill this requirement. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**Freshman**

Total Hours: 29-30

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

School of Criminal Justice

Hines Building Room 108
T: 512.245.2174 F: 512.245.8063
www.cj.txstate.edu (http://www.cj.txstate.edu)

The degree programs in the School of Criminal Justice prepare students to pursue advanced academic degrees and to serve the community in the operation and management of criminal justice agencies which include:

- federal, state, county, and municipal law enforcement;
- probation;
- courts;
- institutional corrections;
- parole;
- related agencies.

The programs are founded on an interdisciplinary and academic approach to the role of criminal justice in the maintenance of social order in a democratic society.

Students pursuing a degree in criminal justice should be willing to meet the standards required of such a career. The majority of criminal justice agencies require sound academic preparation, psychological stability, physical agility, and a record free of felonies or excessive traffic offenses. All three programs include optional internships, and students selecting an internship option must meet criteria described below. The Criminal Justice programs include the development of advanced research and writing skills and includes interdisciplinary course work.

15 credit hours in criminal justice core curriculum (or their equivalents) may be transferred from a Texas public two-year college as agreed by Texas public institutions for the criminal justice field of study. If transferring additional criminal justice courses please contact the College of Applied Arts Academic Advising Center for assistance.

Internship

A student must meet the following requirements before being allowed to enroll in an internship course: Texas State GPA of 2.25, CJ CPA of 2.50,
completion of 90 college course work hours (including 21 in CJ), and the following courses. Permission of Internship Coordinator is also required.

- **ENG 1310** College Writing I 3
- **ENG 1320** College Writing II 3
- **CJ 3346** Research in Criminal Justice 3
- **HIST 1310** History of the United States to 1877 3
- **HIST 1320** History of the United States, 1877 to Date 3
- **COMM 1310** Fundamentals of Human Communication 3
- **MATH 1315** College Algebra 3
- **MATH 1316** Survey of Contemporary Mathematics 3
- **MATH 1319** Mathematics for Business and Economics I 3

Select one of the following: 3

- **CJ 3347** Statistics For Criminal Justice
- **MATH 2328** Elementary Statistics
- **SOCI 3307** Statistics for the Behavioral Sciences
- **PSY 2301** Introduction to Statistics
- **& PSY 2101** Introduction to Statistics Laboratory
- **POSI 2310** Principles of American Government 3
- **POSI 2320** Functions of American Government 3
- **6 hours of Life and Physical Sciences** 6

**Minors**

- Criminal Justice

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in Criminal Justice (CJ)**

**CJ 1310. Introduction to Criminal Justice.**

History and philosophy of criminal justice: ethical considerations, crime defined, overview of criminal justice system, law enforcement, court system, prosecution and defense, trial process, and corrections.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

TCCN: CRIJ 1301

about Introduction to Criminal Justice

**CJ 2310. Police Systems and Practices.**

Police profession: organization of law enforcement systems, the police role, police discretion, ethics, police-community interaction, and current and future issues. Prerequisite: CJ 1310. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

TCCN: CRIJ 2328

about Police Systems and Practices

**CJ 2350. The Courts and Criminal Procedure.**

Judiciary in the criminal justice system: structure of American court system, prosecution, right to counsel, pre-trial release, grand juries, adjudication process, types and rules of evidence, and sentencing. Prerequisite: CJ 1310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

TCCN: CRIJ 1306

about The Courts and Criminal Procedure

**CJ 2355. Correctional Systems and Practices.**

Corrections in the criminal justice system: organization of correctional systems, correctional role, institutional operations, alternatives to institutionalization, treatment and rehabilitation, and current and future issues. Prerequisite: CJ 1310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

TCCN: CRIJ 2313

about Correctional Systems and Practices

**CJ 2360. Fundamentals of Criminal Law.**

A study of the nature of criminal law: philosophy and historical developments, major definitions and concepts, classification of crime, elements of crimes and penalties using Texas Statutes as illustrations, and justifications of and defenses to criminal responsibility.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

TCCN: CRIJ 1310

about Fundamentals of Criminal Law

**CJ 3300. Juvenile Justice.**

A study of the juvenile justice process to include both the specialized juvenile law and the role of the courts, police and corrections in juvenile justice. Prerequisite: CJ 1310. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

Grade Mode: Standard Letter

TCCN: CRIJ 1301

about Juvenile Justice
CJ 3322. Race, Ethnicity and Criminal Justice.
This course examines the relationship between race/ethnicity and the criminal justice system. Theories of race/ethnicity and crime, the criminal justice system, and social systems including media, politics and economics are examined to form a comprehensive understanding of the social construction of race as it pertains to a racially disproportionate system.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 3323. Mid-Level Management in Criminal Justice Agencies.
Introduction and overview of the organizational theories of classical behavioral, and systems management concepts. Included in the course content are analyses of the functions of management in modern CJ organizations, internal and external environmental factors, individual & group dynamics, motivation, and leadership styles. Prerequisites: CJ 1310 and CJ 2310 or CJ 2355.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 3325. Penology.
Role of the institution in the process of corrections including the philosophy of imprisonment, the inmate subculture and special programs in institutions. Prerequisite: CJ 1310 and CJ 2355.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 3329. Forensic Evidence.
Investigator’s role in collecting, preparing and presenting evidence in criminal trials. Special attention will be given to electronic evidence in addition to traditional physical evidence. Prerequisites: CJ 2350 and CJ 2360.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Analysis of criminal justice research, survey methods, and the utilization of research in criminal justice. Prerequisite: CJ 1310, CS 1308 or equivalent and Statistics (CJ 3347, MATH 2328, PSY 3301, SOCI 3307 or equivalent). (WI).
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 3347. Statistics For Criminal Justice.
The theory and application of statistical inferential techniques, and correlation and regression for behavioral science data and its applications in Criminal Justice. Emphasis is on the collection, analysis, and interpretation of statistical data in criminal justice settings.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 3390E. Criminal Justice in Southeast Asia.
This course provides an overview of the systems of policing, criminal courts and criminal procedure, prisons, and non-institutional corrections in the nations of Myanmar (Burma), Laos, Vietnam, Thailand, Singapore, Cambodia, the Philippines, Malaysia, and Indonesia, and critically examines justice-related political, social, cultural, and human rights issues.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 4309F. The Psychology of Antisocial Behavior.
This course examines how psychological perspectives are used to explain antisocial behavior, by drawing on the intersection between theory and research in the following areas in psychology: developmental, child psychopathology, biological, personality, cognitive, and social.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CJ 4310. Special Problems in the Criminal Justice System.
A study of contemporary problems in administration, management, organization and operation of criminal justice agencies. Prerequisites: CJ 2310, CJ 2350, CJ 2355, CJ 2360 and senior standing. (Capstone Course). (WI).
about Special Problems in the Criminal Justice System
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Special Problems in the Criminal Justice System

CJ 4314. Terrorism in the United States.
Terrorist groups operating in the U.S. are examined with special emphasis on the far-right (militia, Christian identity, neo-nazi, other racist groups). Analyzed are their belief systems and structures, organizational structure, tactics and targets, and weapons. Future trends are discussed, including the threat posed by nuclear, biological, and chemical terrorism. about Terrorism in the United States
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Terrorism in the United States

CJ 4316. Treatment in Community and Institutional Corrections.
A study of community based programs for adult and juvenile offenders, treatment modalities in various correctional settings, administration, legal issues, and future trends associated with community-based and institutional based treatment. Prerequisites: CJ 2355 and CJ 3325. about Treatment in Community and Institutional Corrections
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Treatment in Community and Institutional Corrections

A study of the problems of organized and upper social status criminal activities with emphasis on statutes and their application to fraud, embezzlement, deceptive trade practices and illegal trade practices. about Occupational Crime
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Occupational Crime

CJ 4323. Special Operation Units in Law Enforcement and Corrections.
This course introduces students to the basic principles of Special Operations Units (SOUs) within criminal justice agencies. Topics include the necessity for such units, the changing nature of communities and policing in America, the principles of crisis management, the development/implementation of SOUs, selection/training/operationalizing of personnel, and types of SOUs. about Special Operation Units in Law Enforcement and Corrections
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Operation Units in Law Enforcement and Corrections

CJ 4326. Women and Criminal Justice.
This course is designed to explore women's involvement in three primary areas of criminal justice as victims, criminals and practitioners employed in criminal justice agencies. It will analyze the impact of sex and gender on such things as criminological theory, sentencing, prison subcultures, victimization and career choices. Prerequisite: junior standing. (MC) (WI).
about Women and Criminal Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Women and Criminal Justice

CJ 4327. Ethics of Social Control.
This course is designed to explore moral decision making. Basic moral or ethical frameworks are applied to ethical decisions which often need to be made in the criminal justice system. Prerequisite: junior standing. (WI).
about Ethics of Social Control
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Ethics of Social Control

Survey of organized crime in contemporary society. Includes attention to crime types and methods, motivation, affiliations, and the effects of this type of criminality. Related legal and law enforcement perspectives will be covered, along with international and cyberspace issues. Prerequisite: CJ 1310.
about Organized Crime
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organized Crime

CJ 4330. Cybercrime.
This course introduces students to the concepts, technologies, techniques and legal and ethical issues associated with cybercrime, security, and computer forensics. Students will gain knowledge regarding the development of national and international computer crime law, crimes unique to computer environments, and traditional crime involving computers and the Internet.
about Cybercrime
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cybercrime

CJ 4331. Serial Murder.
This course covers the phenomenon of serial murder and the police investigative response. Theories, concepts, and law enforcement analytic methods are covered in detail. Emphasis is placed on understanding the reality versus the myth of serial murder, serial killers, and criminal profiling.
about Serial Murder
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Serial Murder
A critical analysis of the nature of organizations within the criminal justice system. An analysis of theories of organizations and of organizational changes within law enforcement agencies. An examination of the quantitative data gathered by the Criminal Justice System and its effective use and presentation. Prerequisites: CJ 1310 and CJ 2310 or CJ 2355.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Criminal Justice Management

Examination of the causes of crime and crime victimization and competing explanations for crime and the impact of crime on crime victims. This course draws on perspectives advanced by a number of diverse fields of inquiry, for example, biology, psychology, sociology, and the political and economic sciences. Prerequisites: CJ 1310 and CJ 3300. (WI).
about Crime Theory and Victimization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Crime Theory and Victimization

An in-depth study of recent developments in criminal law and procedure. Their effects upon the criminal justice agency official in society will be given special attention. Includes specific case studies with emphasis on analyzing factual situations and legal issues. Prerequisites: CJ 1310, and CJ 2310. (WI).
about Contemporary Legal Issues in Law Enforcement
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Contemporary Legal Issues in Law Enforcement

A study of the developing body of law defining the rights and duties of persons confined in penal institutions with equal emphasis on legal issues associated with probationers, parolees, and similar status's within the corrections branch of the criminal justice system. Prerequisites: CJ 1310 and CJ 2355. (WI).
about Contemporary Legal Issues in Corrections
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Contemporary Legal Issues in Corrections

CJ 4362. Readings in Criminal Justice.
An individualized readings course tailored to the academic and professional interests and needs of the student. Emphasis is placed on developing in-depth knowledge of selected criminal justice subjects through directed research. Repeatable for credit with different emphasis. (Permission of instructor is required for course registration.).
about Readings in Criminal Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Readings in Criminal Justice

Independent study and research on topics in criminal justice related to a student's primary area of interest. Work may include individual research, critical reviews or integration of existing body of knowledge. Course may be repeated with different emphasis once for credit with approval of department chair.
about Independent Studies in Criminal Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Studies in Criminal Justice

CJ 4365. Comparative Criminal Justice.
A survey of the organizational, administrative and philosophical principles of criminal justice systems around the world. Prerequisites: CJ 1310 and CJ 2310 or CJ 2355. (WI).
about Comparative Criminal Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Comparative Criminal Justice

1. For the Statistics requirement, SOCI 3307 is recommended for Sociology minors.
Bachelor of Science in Criminal Justice (B.S.C.J.) Major in Criminal Justice Law Enforcement (Internship Option)

Minimum required: 120 semester hours

General Requirement

1. If two years of the same foreign language were taken in high school, then enough additional hours to total the minimum 120 hours required for the degree will fulfill this requirement. This can be satisfied by the electives in the junior or senior year. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

For the Statistics requirement, SOCI 3307 is recommended for Sociology minors.
The Courts and Criminal Procedure

Accreditation (formerly FIDER), the recognized accrediting agency for the discipline. Students learn to communicate their design concepts and to solve design problems.

### Major in Nutrition and Foods

Majors study the relationships between the dietary intake of whole foods, processed foods, functional foods and dietary supplements and the health of individuals and populations. Majors prepare for careers in medical nutrition therapy, food service administration, public health nutrition programs, government agencies, private practice, research, and industry. The Dietetics track is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) and also fulfills didactic requirements for Texas licensing. Graduates of this track will receive a Verification Statement and are qualified to apply for post-graduate dietetic internships in pursuit of Registered Dietitian certification. See note below regarding admittance to the Child Development Center and Texas Teacher Certification Requirements.

### Family and Consumer Sciences Core

All majors in the school, with the exception of Nutrition and Foods Dietetics Concentration, are required to take FCS 4347.

**Note: Admittance to the Child Development Center and Texas Teacher Certification Program**

Be advised that in the State of Texas, criminal convictions may affect a person’s ability to be present in a Licensed or Certified Child Care facility (Chapter 42, Human Resources Code) or obtain teacher certification from the Texas State Board for Educator Certification (Chapter 232, Subchapter C, Texas Administrative Code). Therefore, students enrolling in course work which requires any of the following: observation or participation at the campus Child Development Center; or observing or student teaching in K-12 grade Texas schools must undergo a criminal background check. Criminal history will be reviewed and students may be subject to an investigation based on that criminal history. Furthermore, before teacher certification is granted, applicants will be required to submit fingerprints in a digital format that can be processed by Texas Department of Public Safety.

### Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.)

- Major in Consumer Affairs (p. 129)
- Major in Consumer Affairs (Family and Consumer Sciences Option) (p. 129)
- Major in Consumer Affairs (Teacher Certification in Family and Consumer Sciences, Grades 6-12) (p. 130)
- Major in Family and Child Development (p. 131)
- Major in Family and Child Development (Teacher Certification in Human Development and Family Studies, Grades 8-12) (p. 132)
- Major in Fashion Merchandising (p. 133)
- Major in Interior Design (p. 133)
- Major in Nutrition and Foods (p. 134)
- Major in Nutrition and Foods (Dietetics Track) (p. 135)
- Major in Nutrition and Foods (Teacher Certification in Hospitality, Nutrition, and Food Sciences, Grades 8-12) (p. 136)

### School of Family and Consumer Sciences

Family and Consumer Sciences Building Room 101
T: 512.245.2155 F: 512.245.3829
www.fcs.txstate.edu (http://www.fcs.txstate.edu)

### Major in Consumer Affairs

Majors have a choice of three different tracks:

- Consumer Affairs,
- Family and Consumer Sciences, and
- Family and Consumer Sciences with teacher certification.

Students choosing the Consumer Affairs track study family financial decisions and the role of the consumer in the economy. Students prepare for such careers as business consumer liaisons, consumer advocates, or government agency employees. In the Family and Consumer Science track, students take courses from all areas of Family and Consumer Sciences and select a minor. Graduates seek employment in business, the extension service, and community agencies. The teacher certification option, approved by the Texas Education Agency, certifies graduates to teach Family and Consumer Science in secondary public schools. See note below regarding admittance to the Child Development Center and Texas Teacher Certification Requirements.

### Major in Family and Child Development

Majors work in family and child programs, and community agencies. Using an interdisciplinary approach, students focus on human development and relationships across the lifespan. As a condition for participation in a child development class that requires either observation or participation at the campus Child Development Center, students must undergo a criminal background check and provide verification of an annual TB test. As a condition for placement in an internship site, students must complete a criminal background check and meet any additional requirements set by the internship site. See note below regarding admittance to the Child Development Center and Texas Teacher Certification Requirements.

### Major in Fashion Merchandising

Prepares majors for careers in the merchandising and promotion of fashion goods and services including: apparel, accessories, cosmetics, fragrances, and home furnishings and a variety of other consumer products. Students must complete the required courses for a Business Administration minor.

### Major in Interior Design

Prepares students for careers as residential and/or commercial interior designers. The program is accredited by the Council for Interior Design

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this school include: CA (p. 116), FCD (p. 117), FCS (p. 119), FM (p. 120), ID (p. 122), NUTR (p. 125)

Courses in Consumer Affairs (CA)

CA 1341. Consumers in the Marketplace.
This course is an introduction to consumerism. Topics covered include: the consumer's role in the economy; consumer responses to the pressures of the economy (credit, inflation, and savings); and an analysis of the largest consumer expenditures (housing, food, and transportation).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ECON 1303

about Consumers in the Marketplace

CA 1347. Family and Personal Resource Management.
This course focuses on the analysis of family and personal management processes including resource identification and factors that impact management and decision making. Contemporary issues in the field such as changing family roles, one-parent families, aging, the handicapped, low income families, one-person family and alternate lifestyles will be discussed.

about Family and Personal Resource Management

CA 3341. Family Finance.
In this course students will examine personal/family financial management during different stages of the family life cycle. Topics include budgeting/recordkeeping to achieve economic goals, the role of credit and the need for financial counseling; economic risks and available protection; and alternative forms of saving and investments. Prerequisite: CA 1341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Family Finance

CA 3342. Consumer Law.
This course explores the relationship between consumer laws (federal and state) and policy. Topics include consumer protection legislation which defines the consumer's rights/responsibilities and the appropriate avenues of redress on the part of the consumer. Prerequisite: CA 1341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Consumer Law

This course covers the analysis of factors that influence program planning and the application of program development for entities with differing purposes and organizational structure. Students plan, develop, and implement using alternative methods, such as audio-visuals, demonstration techniques, radio and television, with emphasis on methods for use with adults. Restricted to students in the School of Family and Consumer Sciences.

about Communication Skills and Techniques

CA 4100. Professional Preparation in Consumer Affairs.
Students explore Consumer Affairs in the professional world and continuing education through opportunities, interviews, and professional ethics while practicing the development of credentials and portfolios. Required of all seniors majoring in Consumer Affairs.

about Professional Preparation in Consumer Affairs

CA 4301. Internship in Consumer Affairs.
This course is an Internship program in Consumer Affairs related professions, services, business, or industry. Must meet college, department and program requirements. Repeatable for credit with different emphasis. (Capstone Course).

about Internship in Consumer Affairs

CA 4341. Counseling for Family Practitioners.
This course is an in-depth study of the role of the financial counselor. Topics covered will increase awareness and knowledge of the characteristics of persons with financial difficulties, complexity of factors affecting such situations, desirable relationships between the helper and helped, and an awareness of community resources. Prerequisite: CA 3341.

about Counseling for Family Practitioners

CA 4343. Counseling for Family Practitioners.
This course is an in-depth study of the role of the financial counselor. Topics covered will increase awareness and knowledge of the characteristics of persons with financial difficulties, complexity of factors affecting such situations, desirable relationships between the helper and helped, and an awareness of community resources. Prerequisite: CA 3341.

about Counseling for Family Practitioners
CA 4342. Financial Counseling Practicum.
This course focuses on applying financial counseling and consulting skills consistent with accepting financial counselor roles. Content includes theoretical models of financial counseling. Prerequisite: CA 3342 and CA 4341.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CA 4391. Independent Study in Consumer Affairs.
This course involves independent reading and/or research on a specific topic related to students’ primary area of interest. Work may consist of research, reviews, and integration of existing literature, or other appropriate independent work. Course may be repeated once for credit with approval of instructor.

3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Family and Child Development (FCD)

FCD 1351. Lifespan Development.
Developmental principles underlying behavior as experienced in physical, intellectual, emotional and social changes across the lifespan. Emphasis will be on adult development.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 2351. Child Development.
The development of the total child from conception through adolescence. Observation in Child Development Center.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Students will examine research, theory, and developmentally appropriate practices related to children’s social development and child guidance. Participation in the Child Development Center is required. Restricted to Family and Child Development majors. Prerequisite: FCD 2351.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

FCD 2357. Infants and Toddlers.
This course focuses on understanding and enhancing the development of infants and toddlers in home and group settings. Emphasis is on experiences that promote physical, cognitive, language, and social/ emotional development.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

FCD 3344. Introduction to Infant and Early Childhood Mental Health.
This course is an introduction to the interdisciplinary understanding of the social and emotional development of infants and young children within the context of the family. The role of the infant mental health specialist in strengthening the development of young children will be emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The course focuses on the applied techniques of the Child Life profession. The course will include medical diagnosis terminology, patient assessment, therapeutic techniques and interventions utilized in child life clinical practice.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 3346. Families in Southeast Asia.
This course will focus on how children and families negotiate their daily lives in Southeast Asia. Topics will include a broad overview of issues relevant to Southeast Asian children and families in addition to more detailed analysis of the unique experiences of specific ethnic groups.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 3350. Sexuality Across the Lifespan.
A study of sexuality development as it relates to current critical issues for families and society.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FCD 3351. Creative Experiences for Children.
This course focuses on developmentally appropriate methods, materials, and planning for children's programs through language, literature, music, art, play, social studies, math, and science. Participation in the Child Development Center is required. Prerequisite: FCD 2353.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
FCD 3352. Development of Programs for Young Children.
The study of group care programs for children including development, implementation and assessment of developmentally appropriate programs. Various theoretical and philosophical components will be included.
FCD 3353. Family Life Education.
Study of relationships between core knowledge, educational practice, and audience characteristics in family life education. Translation of research-based knowledge about family life into education materials and presentations suitable for families. Opportunity to develop, implement, and evaluate a family life education presentation. Prerequisites: FCD 2353 and FCD 3355. (WI).
The application of methods, materials and planning in the development of curriculum for the preschool child through math, science, nutrition and outdoor play. Participation in Child Development Center required. Prerequisite: FCD 2353 or approval of instructor.
FCD 3355. Family Relationships.
This course will cover a broad range of research-based topics including the universality and uniqueness of American families, the establishment and maintenance of intimate relationships, family formation and parenthood, and various other aspects related to individual and family relationships over time.
FCD 3356. Introduction to Early Childhood Intervention.
This course provides an interdisciplinary orientation to the professional discipline of early childhood intervention and the early intervention specialist.
FCD 3358. Practicum in Child Development.
Structured practical experience in child development center. Prerequisites: FCD 2353, FCD 2357, and FCD 3351 or approval of instructor.
FCD 3359. Family Diversity.
This course will explore both the internal dynamics and external environments of diverse family forms – including prevalence, social conditions leading to and sustaining their existence, common stereotypes, and recent research. Prerequisite: FCD 3355.
FCD 3394. Adolescent Development.
A study of adolescence as it relates to current critical issues for families and society. The course will focus on specific techniques to analyze and assist the development of adolescents. Emphasis will be on theory and research as it explains the development process.
FCD 4301. Internship in Family and Child Development.
Internship program in Family and Child Development – related professions, services, industry, or business. Must meet college, department, and program requirements. (WI).
FCD 4302C. Conducting Research on Latino Families.
This course is an introduction to research with Latino families. Through the course students will explore current research issues via reviewing research articles. Students will also conduct research with Latino families, gaining important research experience. Prerequisite: Minimum 2.5 Texas State GPA.
FCD 4351. Cultural Diversity of Families.
Students will study cultural diversity with an emphasis on different racial and/or ethnic groups, religions, and social classes. Students will explore selected family science research methods and topics including family function, family life patterns, multicultural groups, agents of enculturation, and family life education as they relate to cultural diversity. Prerequisite: FCD 3355. (MC) (WI).
Grade Mode: Standard Letter
about Cultural Diversity of Families
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Cultural Diversity of Families

FCD 4352. Administration of Programs for Children.
Addresses the history, philosophy, and ethics of programs for young children. Emphasis on responsibilities of the child care administrator in relation to staff, budgets, facility laws, and standards of agency management. Prerequisite: FCD 2353 or approval of instructor.
Grade Mode: Standard Letter
about Administration of Programs for Children
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course introduces students to theoretical and practical methods of working with children and their families in health care settings. Prerequisite: FCD 2353 or approval of instructor.
Grade Mode: Standard Letter
about Hospitalized Child: Introduction to Child Life
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

FCD 4355. Family Interaction.
Study and comparison of family interaction and process across various family structures and transitions. Investigation of interaction strategies to enhance successful family function across various family structures and transitions. Prerequisite: FCD 3355 or approval of instructor.
Grade Mode: Standard Letter
about Family Interaction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

FCD 4356. Administration of Human Service Organizations.
Students will study the implementation of non-profit family and child development programs. Emphasis will be on the leadership and management of human service organizations including program staffing, strategic planning, problem solving, grant writing, and ethical leadership. Prerequisite: FCD 2353 and FCD 3355.
Grade Mode: Standard Letter
about Administration of Human Service Organizations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

FCD 4357. Comparative Studies in Child Development.
The study of early care and education systems including goals, funding and regulation through participation in international exchange programs. The role of government policies in the development and implementation of systems will be addressed.
Grade Mode: Standard Letter
about Comparative Studies in Child Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

FCD 4391. Independent Study in Family and Child Development.
Independent reading and/or research on a specific topic related to student's primary area of interest. Work may consist of research, reviews and integration of existing literature, or other appropriate independent work. May be repeated once for credit with approval of instructor. (WI).
Grade Mode: Standard Letter
about Independent Study in Family and Child Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Family and Consumer Sciences (FCS)
Many of the subject-matter courses in Family and Consumer Sciences are open to non-majors as electives.

The study and implementation of research procedures for use with family and consumer sciences programs. Includes instrument selection, recruitment and testing of subjects, coding, analysis and dissemination of data. Will include field based experiences using appropriate research procedures. (WI).
Grade Mode: Standard Letter
about Research Procedures in Family & Consumer Sciences
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

FCS 4304A. Family Finance II.
This course is a study of financial management for individuals and families. Topics include financial inequality, investments, retirement planning, and estate planning. Prerequisite: CA 3341.
Grade Mode: Standard Letter
about Family Finance II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Study of Family and Consumer Sciences topics in international settings. Emphasis will be placed on cultural awareness and its application within FCS professions. Repeatable for credit with different emphasis. (MC) (WI).
Grade Mode: Standard Letter
about International Study in Family and Consumer Sciences
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

FCS 4343. Occupational Education in FCS.
Its purpose is to help prepare students for teacher certification and teach occupational education content in 11-12 grade FCS classrooms. Occupational education course in 11-12 grades such as Services for Older Adults, Hospitality Services, Childcare and Guidance and Food Production, management and services are designed for students to gain extensive management skills and practical work experience.
Grade Mode: Standard Letter
about Occupational Education in FCS
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
about Occupational Education in FCS

Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Occupational Education in FCS
FCS 4347. Family Policy.
This course is an examination of policy-making and the significance of national, state and local policies that affect families. Students will analyze social policies, including government programs and legislation, and discuss how to influence change in policies. Use of the Internet and computer software programs such as Word, PowerPoint, and others required. Requires Senior Standing. (WI).
about Family Policy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Family Policy

Observation and participation in the total family and consumer science program. Requires a full day in the Teaching Center for ten weeks (five day week except for holidays in public school system). Prerequisites: FCS 3390 and completion of all required Family and Consumer Sciences courses.
about Family and Consumer Sciences: Principles and Process
6 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Family and Consumer Sciences: Principles and Process

Courses in Fashion Merchandising (FM)

FM 1330. Introduction to Fashion Merchandising.
Survey of the fashion industry including an overview of the development, production and distribution of fashion goods and services.
about Introduction to Fashion Merchandising
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: HECO 2311
about Introduction to Fashion Merchandising

FM 1332. Textiles.
A consumer-oriented study of the relationship of fibers, fabrics, and textile product end-uses.
about Textiles
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: HECO 1320
about Textiles

FM 2330. Fashion Promotional Strategies I.
The study of promotional strategies unique to the fashion industry. Emphasis is placed on techniques used at the retail level. Prerequisite: FM 1330.
about Fashion Promotional Strategies I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fashion Promotional Strategies I

FM 2334. Textile Product Analysis.
The study of textile product quality control issues important to manufacturers, retailers, and consumers. Emphasis is placed on evaluating quality based on appearance, cost, durability, and end-use of textile products. Prerequisites: FM 1330 and FM 1332.
about Textile Product Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Textile Product Analysis

FM 2335. Gender, Appearance, and Society.
The investigation of the role of dress and appearance in nonverbal communication, development of the self and gender identity, and social interactions of individuals with a particular emphasis on diverse appearances by various cultural groups.
about Gender, Appearance, and Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Gender, Appearance, and Society

FM 3330. Fashion Buying Principles I.
Quantitative concepts used in merchandising fashion goods with an emphasis on profitability. Prerequisites: FM 1330 and MATH 1315 or MATH 1319.
about Fashion Buying Principles I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fashion Buying Principles I

FM 3332. Fashion Promotional Strategies II.
The study of promotional strategies unique to the fashion industry. Emphasis is placed on techniques initiated by manufacturers and wholesalers of fashion products. Prerequisites: FM 2330.
about Fashion Promotional Strategies II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fashion Promotional Strategies II

FM 3334. Fashion Merchandising Administration.
The study of human resource management in the fashion industry including recruitment, development, assessment, and compensation. Prerequisite: FM 1330.
about Fashion Merchandising Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fashion Merchandising Administration

FM 3335. Pre-history to Renaissance Textiles, Dress and Adornment.
Survey of textiles, dress and adornment from pre-history through the ancient Eastern and Middle Eastern cultures to the development of Western civilization ending with the Northern Renaissance.
about Pre-history to Renaissance Textiles, Dress and Adornment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Pre-history to Renaissance Textiles, Dress and Adornment

FM 3336. Baroque to Modern Western Dress and Adornment.
Chronological study of Western dress and adornment from the Baroque period through modern times. Emphasis on the socio-economic, political, and technological factors contributing to the evolution of fashion.
about Baroque to Modern Western Dress and Adornment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Baroque to Modern Western Dress and Adornment

FM 4101. Special Problems in Fashion Merchandising.
A study of selected areas of Fashion Merchandising. Repeatable for credit with different emphasis.
about Special Problems in Fashion Merchandising
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Special Problems in Fashion Merchandising
On-site study of current textile, merchandising, retail and promotional trends and fashion career related topics. Prerequisite: FM 1330 and FM 1332.  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Specialty Fashion Markets: Career Day

FM 4122. Special Events: Fashion.
The study of all facets involved in planning, organizing, and implementation of a fashion related special event. Prerequisite: FM 2330.  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Special Events: Fashion

FM 4131. Fashion Buying Principles II.
A study of the roles and responsibilities of fashion merchandise buyers. Emphasis on retail buying functions, including developing merchandise plans, selecting products, negotiating terms, and monitoring performance. Prerequisite: FM 3330.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Fashion Merchandising in Domestic Markets

FM 4132. Trends Forecasting and Social Media.
This special topics course in Fashion Merchandising will focus on specific methods for forecasting fashion trends and the role of social media in the diffusion of fashion trends.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Trends Forecasting and Social Media

FM 4301. Internship in Fashion Merchandising.
This course is an Internship in Fashion Merchandising-related professions focused on production, distribution, or retailing of fashion goods, or auxiliary services. Repeatable for credit once. (WI).  
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Internship in Fashion Merchandising

FM 4302A. Special Events Planning.
An in-depth study of selected topics and emerging issues related to the planning of special events. Emphasis will be on planning, organizing, implementing and evaluating special events.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Special Events Planning

FM 4302B. Specialty Fashion Markets.
An in-depth study of specialty fashion markets including historic background; significance of the market; terminology; product assortment, development, production and distribution; and trend analysis.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Specialty Fashion Markets

FM 4302F. Trends Forecasting and Social Media.
This special topics course in Fashion Merchandising will focus on specific methods for forecasting fashion trends and the role of social media in the diffusion of fashion trends.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Trends Forecasting and Social Media

FM 4304. Fashion Product Development.
The course will focus on fashion product development for target markets. Emphasis of the course will be on line development, product specification, color and textile selection, sizing and product costing. Prerequisites: FM 2330, FM 2334, and FM 2335.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter  
about Fashion Product Development

An analysis of variables, concepts and theories related to the role of the consumer in fashion and fashion product consumption. Prerequisite: FM 2335.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Principles of Fashion Consumption

FM 4306. Enterprise Development.
Principles and procedures used in creating successful enterprises to meet consumer demand, including consumer research, logistical issues, and strategic planning. Examines various product and service offerings in traditional and non-traditional outlets.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter  
about Enterprise Development
FM 4339. Fashion Economics.
Economic perspective of textile products, production and global sourcing
with emphasis on U.S. fashion industries. Prerequisite: FM 1330, FM
1332, and ECO 2301, or ECO 2314 and ECO 2315. (WI).
about Fashion Economics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Fashion Economics

FM 4340. Fashion Merchandising in International Markets.
Study of Fashion Merchandising topics in international settings.
Emphasis will be placed on market differences and cultural awareness,
and the implications within Fashion Merchandising professions.
Repeatable for credit with different emphasis. (MC).
about Fashion Merchandising in International Markets
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural
Content
Grade Mode: Standard Letter
about Fashion Merchandising in International Markets

FM 4391. Independent Study in Fashion Merchandising.
Independent reading and/or research on a specific topic related to
students’ primary area of interest. Work may consist of research, reviews,
and integration of existing literature or other appropriate independent
work. May be repeated once for credit with approval of instructor.
Prerequisites: FM 1330 and consent of instructor. (WI).
about Independent Study in Fashion Merchandising
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Independent Study in Fashion Merchandising

Courses in Interior Design (ID)

ID 1320. Design Graphics I.
This course provides specialized training in manual graphic
communication required in the interior design profession. It includes
architectural drafting, illustrative sketching, design diagramming and
schematics, and basics of orthographic and perspective drawing with
emphasis in both technical and aesthetic expression. Prerequisite:
Interior Design majors only or consent of instructor.
about Design Graphics I
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Design Graphics I

ID 1321. Introduction to Design.
Elements and principles of design as applied to the individual and his/her
environment.
about Introduction to Design
3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Introduction to Design

ID 2321. History of Interiors.
Survey of historical styles of furnishings, architecture, and interiors from
the Egyptian period to the Industrial Revolution.
about History of Interiors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Interiors

ID 2322. Basic Interior Design.
This course is an introductory lecture course for Interior Design majors,
analyzing the elements and principles of design as applied to interior
environments. The fundamentals of professional requirements, human
factors, space planning, properties and applications of interior materials
and systems, and components of style will be emphasized. Prerequisites:
ID 1320, ID 1321, and ARTF 1302; all with at least a grade of C.
about Basic Interior Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Basic Interior Design

ID 2323. Design Development.
This course is an introduction to the process of design development and
planning of interior space with an emphasis on graphic visualization
as a creative process and design tool. Prerequisite: ID 2322. Pre or
corequisite: ID 2321; all prerequisites with at least a grade of C.
about Design Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Design Development

ID 2325. Materials and Sources.
This course is an in-depth study of materials and finishes specified for
residential and commercial interiors. Material properties, fabrication,
installation methods, applications, sustainability, maintenance
requirements and sourcing are addressed. Prerequisites: ID 2322 and ID
2329 with grades of "C" or higher.
about Materials and Sources
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Materials and Sources

ID 2329. Housing and the Environment.
Introduction to environmental factors related to human habitation.
Investigates housing from global, ecological, social, physical, and spatial
perspectives. Includes principles of sustainable resources, energy
management, structural and mechanical systems, and interior materials
and finishes. For Interior Design majors only or consent of instructor.
(MC).
about Housing and the Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Housing and the Environment
ID 3220. Design Graphics II.
In this course students are exposed to various techniques of computer integration in the design environment with special emphasis on augmentation of the design process and presentation methodologies using digital media. Prerequisite or corequisite: ID 2323 with a C or higher.

2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Design Graphics II

ID 3321. Contemporary Interiors and Architecture.
A survey of contemporary styles of furnishings, architecture, and interiors from the 19th century to the present. Prerequisite: ID 2321 with grade of "C" or higher. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Contemporary Interiors and Architecture

This course is the beginning studio experience which introduces students to various dimensions, purposes, and characters relative to the small and large residential spaces. Prerequisites: ID 2321, ID 2322, ID 2323, ID 2329 and ARTC 2305. Corequisite: ID 3325 or ID 3326. Prerequisite or corequisite: ID 2325; all with at least a grade of C.

3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Studio I: Residential Interior Design

ID 3323. Studio II: Commercial Interior Design.
This course focuses on the analysis, planning, design and furnishing of small to moderate commercial and other non-residential spaces. Topics include design programming, the design development process, simple contract document preparation and visual and verbal presentation methods. Prerequisites: ID 2325, ID 3322 and CSM 2313. Corequisites: ID 3325 or ID 3326, and ID 3220; all with at least a grade of C.

3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Studio II: Commercial Interior Design

ID 3324. Professional Practices.
A study of the business principles, ethics, and procedures for the interior designer. Prerequisite or co-requisite: ID 3322. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Professional Practices

ID 3325. Interior Lighting Design.
The study of natural and manufactured light sources relative to the interior environment. Emphasis is on light science and technology and the effects on health, behavior, color and form. Includes issues of aesthetics, energy conservation, codes, evaluation, and specifications. Prerequisites: ID 2322, ID 2323, and ID 2329 with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Interior Lighting Design

ID 3326. Comprehensive Interior Design.
Advanced study of materials, systems, codes and other factors relating to public health, safety, and welfare in interior environments. Lecture and application of resources, materials and design technologies. Addresses specifying, scheduling, budgeting, and resource conservation. Prerequisites: ID 2322, 2323, 2329 with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Comprehensive Interior Design

ID 3329. Housing, Interiors, and Furnishings.
An application of the basic design principles in planning, designing, and furnishing interiors for contemporary living to reflect function, economy, beauty, and individuality for varying income levels. For non-Interior Design majors only.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Housing, Interiors, and Furnishings

ID 4101. Special Problems in Interior Design.
A study of selected areas of Interior Design.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Special Problems in Interior Design

ID 4120. Portfolio Design.
Portfolio preparation and production for seeking employment with design firms. Includes instruction on graphic and publication design, business structures and portfolio strategies. For graduating interior design majors. Prerequisites: ID 3220 and ID 4323 with grades of "C" or higher.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Portfolio Design

ID 4220. Portfolio Development.
Focuses on portfolio development in preparation for the workplace. Addresses principles of visual and verbal communication, portfolio content and presentation techniques. Requires upgrading and archiving of studio projects, and investigating alternative presentation methods. Prerequisite: ID 4323.

2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Portfolio Development
ID 4301. Internship in Interior Design.
Internship experience in the Interior Design profession. Must meet college, department, and program requirements. (Capstone Course) Prerequisites: ID 3321, ID 3323, ID 3324, ID 3325, and ID 3326. (WI).
Grade Mode: Standard Letter
about Internship in Interior Design

ID 4302A. Historic Preservation.
Introduction to the field of historic preservation, including history, theory, planning, advocacy, law, conservation, and adaptive use, emphasizing the Secretary of the Interior's Standards for Rehabilitation. Students combine design and technical knowledge to approach historical design problems in creative, sensitive, and economical ways. Prerequisites: ID 2321, ID 3321, and ID 3322.
Grade Mode: Standard Letter
about Historic Preservation

ID 4302B. Digital Interior Design.
Exploration of computer technology resources, including CADD and three dimensional modeling programs, for the solution of interior design problems. Emphasis on the integration of technology as part of the design process as well as the production of presentation graphics and drawings. Prerequisites: ID 3322, TECH 2313 or consent of instructor.
Grade Mode: Standard Letter
about Digital Interior Design

ID 4302C. Lighting Research and Applications.
An in-depth study of light and color and its impact on people's behavior in interior environments.
Grade Mode: Standard Letter
about Lighting Research and Applications

Introduces illustrative sketching, three-dimensional graphics and rendering techniques of interiors. Pre-requisites: ARTF 1302, ID 1320, and ID 1321.
Grade Mode: Standard Letter
about Manual Design Graphics

ID 4302E. Interior Design – Critique.
Qualitative assessment of the built environment; specifically Interior Design. Basic research methodologies will be introduced. Existing critical design analysis will be studied to develop a design-analysis rubric. Site visits to conduct design analysis and written critique of a selected regional project are required. Prerequisites: ID 2323 or consent of instructor.
Grade Mode: Standard Letter
about Interior Design – Critique

ID 4302F. Color Theory and Design Applications.
An introduction to color theory and principles with a fundamental understanding of the psychological and physiological effects color has on human perception. Characteristics of major hues which influence design and behavior and how to use, design, and apply color in the creative process will be studied.
Grade Mode: Standard Letter
about Color Theory and Design Applications

ID 4323. Studio III: Research & Advanced Design.
This course exposes students to specialized research in and application of factors impacting the interior environment. The topics covered include design programming, advanced space planning, finish selection/specifying, furnishings design and detailing, and presentation strategies through creative problem-solving and expanded contract document preparation. Prerequisites: ID 3321, ID 3323, ID 3325, ID 3326, and ID 2325; CSM 4313; all prerequisites with at least a C grade. (MC).
Grade Mode: Standard Letter
about Studio III: Research & Advanced Design

This course requires students to conduct specialized research in interior design to include design issues such as barrier free environments, medical facilities, historic preservation/adaptive re-use, international interiors, energy issues, sustainable design and design for special needs. Prerequisites: ID 2325, ID 3321, ID 3323, ID 3325, ID 3326, and ID 4323; CSM 4313; all prerequisites with at least a C grade.
Grade Mode: Standard Letter
about Studio IV: Contemporary Design Issues
ID 4340. Interior Design in International Markets.
Study of Interior Design topics in international settings. Emphasis will be placed on market differences and cultural awareness, and the implications within Interior Design. Repeatable for credit with different emphasis. (MC).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

ID 4391. Independent Study in Interior Design.
Independent reading and/or research on a specific topic related to student's primary area of interest. Work may consist of research, reviews, and integration of existing literature, or other appropriate independent work. May be repeated once for credit with approval of instructor. (WI).

3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

Courses in Nutrition and Foods (NUTR)

NUTR 1162. Food Systems Laboratory.
This course provides for application of the management techniques and concepts of planning, preparation, cost analysis, and evaluation covered in NUTR 1362. Pre or Co-requisite: NUTR 1362.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 1362. Food Systems.
Nutrition, food science, and management principles in planning, procuring, preparing, preserving, evaluating, and serving food to fulfill dietary requirements of individuals and diverse cultural groups. Includes federal legislation, environmental issues, and culinary principles. Pre or Co-requisite: NUTR 1162.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 2162. Food Science Laboratory.
Students engage in laboratory techniques and exercises related to food, chemistry, microbiology, nutrition, food palatability, and food safety. Prerequisite: NUTR 2360 with grade of C or higher. Co- or prerequisite: NUTR 2362.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

The science of human nutrition with emphasis on nutrient digestion, absorption, and excretion; nutrient metabolism, requirements, and sources. Prerequisite: Three semester hours of science.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TCCN: BIOL 1322

NUTR 2361. Nutritional Assessment.
This course teaches the principles and techniques of assessing nutritional status, presents interviewing and nutrition counseling theories, development of individualized treatment plans and educational tools, and accessing community nutrition resources. Practical application is provided through assignments and in-class experiences. Prerequisites: NUTR 1362, NUTR 2360 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 2362. Food Science.
Students learn the scientific principles underlying the relationships among food, chemistry, microbiology, nutrition, and food safety as related to the major food groups. Prerequisites: 3 hours of chemistry or biology, and NUTR 2360 with grade of C or higher. Co- or prerequisite: NUTR 2162.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 3166. Advanced Food Science Laboratory.
This lab teaches different techniques and protocols used in physical, chemical, colorimetric, spectrophotometric, molecular, and microbiological analysis of food components and assessment of food quality, stability, and safety. Different bioprocessing techniques to improve the quality of food will also be performed. Prerequisites: NUTR 2362, NUTR 2162, CHEM 1341, CHEM 1342. Co-requisite: NUTR 3366.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

For non-science majors. Involves the study of the nutrients and their function in promoting health throughout the life span. Includes standards for consumer selection of a proper diet and analysis of nutrition-related health problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
NUTR 3363. Nutrition for Wellness and Fitness.
Students will study the causes and treatment of overweight and obesity and the effects of dietary and lifestyle choices on attainment and maintenance of health and prevention of chronic diseases. Basic exercise physiology is introduced and dietary recommendations for sports, fitness and prevention of eating disorders are also presented. Prerequisites: NUTR 2361 and NUTR 3367; BIO 2430, or BIO 2451 and BIO 2452, all with grades of C or higher.
about Nutrition for Wellness and Fitness
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective
Grade Mode: Standard Letter
about Nutrition for Wellness and Fitness

This course focuses on basic nutritional science, with emphasis on the physiological and biochemical importance of nutrition to physical performance, health, and fitness. The use and efficacy of ergogenic aids will be investigated. The course requires reading and interpreting the scientific literature. Restricted to students majoring in Athletic Training, Exercise Sports Science, Family and Consumer Sciences, Health & Fitness Management, or Health & Wellness Promotion.
about The Science of Nutrition and Exercise
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Science of Nutrition and Exercise

NUTR 3366. Advanced Food Science.
This course provides an examination of the chemistry, morphology, concentration, and compartmentalization of cellular components in food; the effect of storage and processing on molecular levels of food quality; the kinetic behavior, activity, and stability of food enzymes and microbes, and their effect on food quality and safety. Prerequisites: NUTR 2162, NUTR 2362, CHEM 1341, CHEM 1342. Co-requisite: NUTR 3166.
about Advanced Food Science
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Food Science

NUTR 3367. Nutrition and Physiology.
This course integrates the study of nutrition with other biological sciences, focusing on cellular and molecular physiological processes related to digestion, absorption, transport, and metabolism of nutrients and other dietary components. Prerequisites: NUTR 2360 and BIO 2430 with grades of C or higher; and CHEM 1341, CHEM 1141, CHEM 1342, CHEM 1142.
about Nutrition and Physiology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nutrition and Physiology

NUTR 4101. Special Problems in Nutrition and Foods.
Independent reading and/or research on a specific topic related to students’ primary area of interest. Work may consist of research, reviews, and integration of existing literature, or other appropriate independent work. May be repeated once for credit with approval of instructor.
about Special Problems in Nutrition and Foods
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Special Problems in Nutrition and Foods

NUTR 4167. Food Systems-Production & Management Laboratory.
This course provides for the application of the management techniques and concepts of institutional food production covered in NUTR 4367. Prerequisites: NUTR 1362, NUTR 2360 with grades of C or higher; Pre- or corequisite: NUTR 4367.
about Food Systems-Production & Management Laboratory
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Food Systems-Production & Management Laboratory

Students engage in applied experience under the supervision of a professional mentor in nutrition and foods-related professions, services, businesses, and/or research. Prerequisite: must meet college, department and program requirements. (WI)(Capstone Course).
about Career Exploration in Nutrition and Foods
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Career Exploration in Nutrition and Foods

NUTR 4302C. Micronutrients.
A study of the biochemical and physiological foundations of nutrition. Information pertaining to biochemical structure, metabolism and physiological regulation of minerals and fat-soluble vitamins. Prerequisites: NUTR 2360 and NUTR 3365; Co-requisite: CHEM 2450.
about Micronutrients
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Micronutrients

NUTR 4302E. Community Nutrition.
A study of community nutrition programs addressing food insecurity, prevention and treatment of chronic diseases, and health promotion among special populations, including maternal, infant, child, adolescent and older adults. Review of national and international healthcare systems; program planning incorporating evidence-based intervention strategies. Prerequisite: NUTR 2360 or NUTR 3362; NUTR 4365.
about Community Nutrition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Community Nutrition

NUTR 4304. Functional Foods and Nutraceuticals.
This course introduces students to functional foods, nutraceuticals and dietary supplements used to prevent and treat chronic and infectious diseases. Emphasis is placed on sources and mechanisms of action of dietary bioactives and addresses regulatory issues that govern the development and commercialization of these compounds. Prerequisites: NUTR 2360 or NUTR 3362 and two semesters of chemistry and/or biology.
about Functional Foods and Nutraceuticals
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Functional Foods and Nutraceuticals
NUTR 4350. Hospitality.
Focus on the principles underlying operations in the hospitality industry. Concepts include residential and lodging operations, guest expectations, food, beverage, and maintenance services, promotions, budget control, personnel and security.

about Hospitality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 4360. Medical Nutrition Therapy.
This course explains the physiological and biochemical abnormalities of certain disease states of human body systems with emphasis on diet modification as a therapeutic measure. Prerequisites: NUTR 3367; and BIO 2430 or BIO 2451 and BIO 2452, all with grades of C or better; and NUTR 4365 with a grade of D or better.

about Medical Nutrition Therapy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of the biochemical and physiological foundations of nutrition. Information pertaining to cytology, biochemical structure of nutrients, energy transformations, nutrient-drug interactions, and the anatomy, physiology, and nutrient metabolism of major organ systems is covered. Prerequisites: NUTR 3367; and BIO 2430 or BIO 2451 and BIO 2452, all with grades of C or better; and NUTR 4365 with grade of D or better. Pre- or co-requisite: CHEM 2350 and CHEM 2150, or CHEM 3375, or CHEM 4375.

about Biochemical Nutrition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will examine the specific processes in intermediary nutrient metabolism and their genetic regulation. The effects of nutrients on gene expression, cell signaling, cell physiology, and disease processes will also be explored. Prerequisites: NUTR 3367; and BIO 2430 or BIO 2451 and BIO 2452; and BIO 2440 or BIO 2400, all with grades of C or higher.

about Nutrition and Genetics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 4363. Nutrition Counseling and Education.
Study of teaching/learning styles and development of counseling skills to improve the nutritional status of individuals, families, and groups. Development of effective nutrition education materials and media communications. Prerequisites: NUTR 2361, 4365.

about Nutrition Counseling and Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

NUTR 4365. Nutrition in the Life Span.
This course provides for the in-depth study of the normal growth, development, and nutritional requirements associated with pre-pregnancy, pregnancy, infancy, childhood, adolescence, and the older adulthood. Prerequisites: NUTR 3367; and BIO 2430 or BIO 2451 and BIO 2452, all with grades of C or higher. (WI).

about Nutrition in the Life Span
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course addresses the influence of government, interest groups, media, and industry on nutrition policy decisions, public and private funding, nutrition education, the food supply and food choices, and includes discussion of ethical considerations that have an impact on public health. Prerequisites: NUTR 1362 with grade of C or higher; NUTR 4365. (WI).

about Ethics and Policy in Nutrition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

NUTR 4367. Food Systems-Production & Management.
Students study the principles, policies, and procedures for planning, procurement, staffing, production, evaluation, and research in institutional food service. Topics include systems design, decision hierarchy, organizational structure, and personnel selection, training, and management. Prerequisites: NUTR 1362, NUTR 2360 with grades of C or higher; Pre- or corequisite: NUTR 4167.

about Food Systems-Production & Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Independent reading and/or research on a specific topic related to students’ primary area of interest. Work may consist of research, reviews, and integration of existing literature, or other appropriate independent work. May be repeated once for credit with approval of instructor. (WI).

about Independent Study in Nutrition and Foods
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Writing Intensive
Grade Mode: Standard Letter

Zuniga, Krystle E, Assistant Professor, Family & Consumer Sciences, Ph.D., Univ of Illinois Urbana-Champaign
Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.)
Major in Consumer Affairs

Minimum required: 120 semester hours

General Requirements
1. In addition to general education and departmental core requirements, this major requires specialized courses in consumer education, family and personal resource management, family finance, consumer law, family financial counseling and family policy.
2. Students participate in an internship in a related area.
3. MATH 1316 is not accepted as a prerequisite for courses in some minors.
4. A minor is required.
5. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**Total Hours: 120**

1. MATH 1316 is not accepted as a prerequisite for courses in some minors.

---

**Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.) Major in Consumer Affairs (Teacher Certification in Family and Consumer Sciences, Grades 6-12)**

**Minimum required: 120 semester hours**

**General Requirements**

1. In addition to general education core curriculum and departmental core requirements, the Consumer Affairs major pursuing Teacher Certification in Family and Consumer Sciences is required to take from 6 to 12 semester hours in each of the following areas: nutrition and foods, family and child development, fashion merchandising, interior design, consumer science, and occupational family and consumer sciences.

2. Students must demonstrate competency in basic clothing construction techniques.

3. Students participate in student teaching for pre-professional experience.

4. No minor is required.

5. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.)
Major in Family and Child Development

Minimum required: 120 semester hours

General Requirements

1. In addition to general education core curriculum and Family and Consumer Sciences core requirements, the Family and Child Development major is required to take specialized courses including infant and toddler development, child development, family life education, creative activities for children, and administration of programs for young children.

2. As a condition for participation in a child development class that requires either observation or participation at the campus Child Development Center, students must undergo a criminal background check and provide verification of an annual TB test.

3. As a condition for placement in an internship site, students must complete a criminal background check and meet any additional requirements set by the internship site.

4. No minor is required; however, Family and Child Development majors may add a minor relevant to their career interests, such as, Social Work, Psychology, or Early Childhood Intervention.

5. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.)
Major in Family and Child Development (Teacher Certification in Human Development and Family Studies, Grades 8-12)

Minimum required: 121 semester hours

General Requirements

1. In addition to general education core curriculum and departmental core requirements, the Family and Child Development major pursuing Teacher Certification in Human Development and Family Studies is required to take specialized courses including infant and toddler development, child development, family life education, creative activities for children, and administration of programs for young children.

2. As a condition for participation in a child development class that requires either observation or participation at the campus Child Development Center, students must undergo a criminal background check and provide verification of an annual TB test.

3. As a condition for placement in an internship site, students must complete a criminal background check and meet any additional requirements set by the internship site.

4. Students participate in student teaching for pre-professional experience.

5. No minor is required.

6. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree.
Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.) Major in Fashion Merchandising

Minimum required: 120 semester hours

General Requirements

1. A Minor in Business Administration is required for this degree. Courses for the minor in Business Administration are included in the following degree plan.

2. Majors are required to take specialized courses in Fashion Merchandising including culture and consumer behavior, textiles, textile product analysis, fashion buying principles, fashion merchandising, fashion history, fashion merchandising administration, fashion economics, and fashion promotional strategies.

3. Majors participate in an internship in a related area.

4. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

5. Majors must pass all required Fashion Merchandising courses with a "C" or higher.

Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.) Major in Interior Design

Minimum required: 120 semester hours

General Requirements

1. Majors must maintain a Texas State GPA of 2.0 in order to graduate.

2. The Interior Design major is required to take specialized courses in interior design including history of furnishings and architecture, residential and commercial interior design, research and programming, professional practices, and portfolio design. Visual communication courses, such as drawing, rendering and CADD, are taken in the School of Art and Design and the Department of Engineering Technology.

3. It is strongly suggested that students consider transferring into the program prior to meeting all general education core curriculum requirements or course options may be limited. The completion of ID major course requirements alone requires a minimum of seven semesters due to strict sequencing, regardless of other credit hours accumulated.

4. Students participate in an internship in a related area. Students are required to have completed ENG 1310, ENG 1320, COMM 1310,
MATH 1315 or MATH 1319 in addition to the Interior Design course requirements prior to the internship.

5. Majors must pass all required Interior Design, Art, and Technology classes with a grade of "C" or higher. Any student making a grade of "D" or lower in ID, ART, or CSM courses may not proceed to the next level course until a grade of “C” or higher is achieved.

6. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

### Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.) Major in Nutrition and Foods

**Minimum required: 120 semester hours**

#### General Requirements

1. In addition to general education core requirements, majors take courses in biology, and specialized courses in food systems, food science, nutritional assessment, physiology and nutrition, wellness and fitness, life span nutrition, and food service management. Course
options include medical nutrition therapy, advanced food science, and nutrition and genetics.

2. Majors must maintain a Texas State and major GPA of 2.50 or higher in order to graduate.

3. Majors participate in an externship.

4. A minor is required, and those in biology, business administration, and chemistry are recommended.

5. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.) Major in Nutrition and Foods (Dietetics Track)**

**Minimum required: 126 semester hours**

**General Requirements**

1. In addition to general education core requirements, majors take courses in agriculture, biology, and chemistry, and specialized courses in food science, food systems, food service, management, nutritional assessment, physiology and nutrition, wellness and fitness, lifespan nutrition, biochemical nutrition, functional foods and nutraceuticals, medical nutrition therapy, and nutrition and genetics.

2. Majors must maintain a Texas State and major GPA of 2.75 or higher in order to graduate.

3. Majors participate in an internship.

4. No minor is required.

5. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.)
Major in Nutrition and Foods
(Teacher Certification in Hospitality, Nutrition, and Food Sciences, Grades 8-12)

Minimum required: 129 semester hours

General Requirements
1. In addition to general education core requirements, majors take courses in biology and specialized courses in food systems, food science, nutritional assessment, physiology and nutrition, wellness and fitness, lifespan nutrition, food service management and hospitality.
2. Students participate in student teaching for pre-professional experience and an internship.
3. No minor is required.
4. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
5. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Courses in Military Science (MS)

MS 1000. Leadership Laboratory.
This course concentrates on practical leadership training. Must be taken concurrently with all other MS courses. Repeatable for credit with different emphasis.
about Leadership Laboratory
0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MS 1211. Foundations of Officership.
This course introduces the Army profession and the role of the commissioned officer. It focuses on leadership, ethics and military customs as well as practical skills like physical fitness and stress management. Students must enroll in MS 1000 concurrently.
about Foundations of Officership
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MS 1212. Basic Leadership.
This course is designed to broaden the introduction to the Army and the skills needed to be a successful Army officer. It focuses on leadership, communication and problem solving as well as nutrition and personal development. Students must enroll in MS 1000 concurrently.
about Basic Leadership
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MS 2211. Individual Leadership Studies.
This course is designed to develop the student’s self-confidence, leadership skills and problem solving abilities. It focuses on critical thinking, communication and conflict resolution skills.
about Individual Leadership Studies
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MS 2212. Leadership and Teamwork.
This course focuses on self-development guided by group processes. Experiential learning activities are designed to challenge current beliefs, knowledge and skills. This course also provides equivalent preparation for the ROTC Advanced Course and the Leaders Training Course.
about Leadership and Teamwork
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MS 2313. American Military Studies and Battle Analysis.
This course is designed to study Military History as it applies to the principles of war and current military doctrine. Students will analyze historical battles and lessons learned and apply them to the modern battlefield. (WI).
about American Military Studies and Battle Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

MS 3311. Leadership and Problem Solving I.
This course is designed to enable a student without prior military experience to rapidly integrate into the cadet battalion and perform successfully. Key elements are introduction to physical fitness, how to plan and conduct training, basic tactical skills and military reasoning.
about Leadership and Problem Solving I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MS 3312. Leadership and Problem Solving II.
This course is designed to enable a student without prior military experience to rapidly integrate into the cadet battalion and perform successfully. Key elements are introduction to physical fitness, how to plan and conduct training, basic tactical skills and military reasoning.
about Leadership and Problem Solving II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MS 4311. Leadership and Management.
This course is designed to help cadets make informed career decisions and it continues their education in Army operation, training management, communications and leadership. (WI).
about Leadership and Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

MS 4312. Officership.
This course focuses on completing the transition from cadet to lieutenant. It includes a basic foundation of military law, skills and information on leadership and military science, application and demonstration of knowledge and mastery of military skills reasoning. (WI).
about Officership
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

MS 4313. Independent Study in Military Science.
This course will be designed to meet the needs of the individual student. It will be a directed and closely monitored program targeted at the students' weaknesses/interests. The course will primarily deal with topics pertinent to the military profession; such areas as leadership, management, ethics, law and their application. Course will require weekly bi-weekly progress review with instructor. (WI).
about Independent Study in Military Science
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Writing Intensive
Grade Mode: Standard Letter

1 Or placement credit given for completing basic training or the Leader's Training Course.

2 To be eligible to take these courses, students must sign a contract to enter the U.S. Army, Army Reserve, or Army National Guard. Students must be medically, morally, and physically qualified and receive permission from the department chair.

3 Requires that cadets qualify for an U.S. Army officer commission by submitting to and passing a thorough background investigation to obtain a Secret Security clearance.

Technological Focus

Students holding a two-year technical associates degree or work experience in a technical area may wish to pursue the B.A.A.S. with a technological focus. These students may enroll in upper- and lower-division technological coursework in the Occupational Emphasis module and also additional upper-division technological courses in the Professional Development module of the degree plan. In addition, those students with technical work experience may apply for extra institutional credits, as do other students in the B.A.A.S. degree plans.

Bachelor of Applied Arts and Sciences (B.A.A.S.)

- Major in Applied Arts and Sciences

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this department include: CTE (p. 140), OCED (p. 142)

Courses in Career and Technical Education (CTE)

CTE 3304. Human Relations for Career and Technical Education Teachers.

This course emphasizes the combination of psychological and sociological factors that influence relationships of CTE teachers in the pursuit of professional duties. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted.

about Human Relations for Career and Technical Education Teachers

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Human Relations for Career and Technical Education Teachers

CTE 3307. Selection, Placement, and Follow-up in Career and Technical Education.

This course provides an overview of the practices of occupational selection, placement of students in suitable employment and cooperative sites, and coordinating the relationship between school and workplace site.

about Selection, Placement, and Follow-up in Career and Technical Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Selection, Placement, and Follow-up in Career and Technical Education
CTE 3308. Problems in Cooperative Training.
The course highlights the organization, presentation, and selection of content material necessary in part-time work-based learning programs. The need for community, workplace/industry, family, school, and student partnerships in curricular assessment is emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Cooperative Training

CTE 3313A. Special Needs Students in CTE.
This course involves in-depth studies of characteristics, principles of inclusion, development and implementation of individualized programs of instruction and collaboration with school personnel for effective education of special needs students, including special education, limited-language proficiency, and gifted and talented students.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Special Needs Students in CTE

CTE 3313C. Entrepreneurship.
This course involves study and analysis of ownership, marketing strategies, location, financing, regulations, managing, and protecting a business. It includes strategies for teaching entrepreneurship in CTE.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Entrepreneurship

CTE 3313D. Leadership and Professional Development.
This course is designed to be applicable to all CTE areas in public, private, and corporate education. The course addresses professional growth, leadership styles, skills, and teaching leadership. Trends, policies, and procedures relating to leadership in career and technical areas are highlighted.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Leadership and Professional Development

CTE 3313E. Introduction to Interdisciplinary Studies for the Bachelor of Applied Arts and Sciences Degree.
Introduction to an individualized degree and interdisciplinary studies, reflection on past and future career directions, critical thinking, professional communication, role of information technology in the workplace, leadership development concepts, writing across disciplines, planning for nontraditional options to earn college credit, including prior learning assessment (PLA), and proposing capstone experience.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Introduction to Interdisciplinary Studies for the Bachelor of Applied Arts and Sciences Degree

CTE 3320. Effective Methods of Teaching and Training.
This is an introductory/fundamental course for instructors in trade and industrial education seeking certification and technical trainers who are not seeking certification. It is designed to prepare these individuals to apply effective teaching principles and techniques, to prepare lesson plans, and manage classrooms. Practice teaching will be included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Methods of Teaching and Training

CTE 3321. Work-based Learning in Career and Technical Education.
This course is intended for teacher coordinators of work-based program in trade and industrial cooperative education. There is an emphasis on selection of occupations and appropriate training stations, student recruitment, instruction coordination in on-the-job educational experiences, state and local report preparation and required record keeping systems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Work-based Learning in Career and Technical Education

CTE 3322. Teaching and Training as Professions.
This course emphasizes the professional requirements of teaching and training in a variety of settings. Professional topics include licensure and preparation for the profession, organizations, philosophical foundations of teaching and training, and the socio-political landscape of teaching and training.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching and Training as Professions

CTE 3323. Technology Applications.
This course covers the use and integration of computers in the classroom or office. Topics include history of computers, use of word processor, spreadsheet, and presentation software; overview of common computer programs; history and use of the Internet, and web-page creation. T&I students will review for the TExES examination.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Technology Applications

This course allows students to explore past and present occupational trends, new and emerging occupations and the 21st century occupational skills necessary for success. Students will explore transferability of occupational skills and how these skills are applied and packaged for career transitions.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Occupational Skills for the 21st Century
CTE 3380. Management of Business Office Education Training Programs. This course is for instructors in educational and industry settings and involves the identifications of federal, state, and local policies, the coordination of work-based learning programs, the benefits of student and professional associations, public relations. Students will make visits to local classroom or training facilities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Management of Business Office Education Training Programs

CTE 3381. Instructional Strategies in Business Office Education Training Programs. This course provides an overview of identifying curriculum, individual learning styles, instructional strategies, providing support for students with special needs, non-gender biased instruction, appreciation of diversity, and the use of technology and assessment in business office educational programs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Strategies in Business Office Education Training Programs

CTE 4302. Coordination Techniques. This course presents an overview of the cooperative program in marketing and distributive education (MDE), the establishments of MDE programs, the guidance, selection and placement of students, adjustment of work for individual needs, setting student objectives, evaluation, labor laws, and public relations relevant for MDE programs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Coordination Techniques

CTE 4304. Organization and Management of Marketing Education Programs. This course provides instruction on the organization and administrative structure of marketing organization in the United States. Additionally, the use of objectives, program improvement techniques, appropriate teacher selection techniques, and evaluative criteria are emphasized in relation to marketing and distributive education programs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organization and Management of Marketing Education Programs

CTE 4310. Independent Study in Career and Technical Education. This course is an independent study of various subjects in CTE. Work is done on an independent basis under the direction of the faculty member. Repeatable for credit with different emphases.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Career and Technical Education

Courses in Occupational Education (OCED)

Students desiring to pursue the Bachelor of Applied Arts and Sciences must take OCED 4350 as their initial entry course. All students must have an overall transfer GPA of 2.25 and if the students have Texas State University coursework, a Texas State GPA of 2.25 is required.

OCED 3310. Human Problems in the Workplace. Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Problems in the Workplace

OCED 4111. Independent Study in Occupational Education. This is an independent study course that allows research on topics in occupational education related to a student's interests. Work may include individual research, critical reviews or integration of existing bodies of knowledge. Course may be repeated for credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Occupational Education

OCED 4350. Foundations of Career and Prior Learning Assessment. Theory and techniques related to the identification, documentation, and assessment of various forms of prior extra institutional learning. Career and occupational information and reflection on career decision-making are the focus of the course. Students are encouraged to have completed their English prior to enrollment in the course. Prerequisite: CTE 3313E. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Foundations of Career and Prior Learning Assessment

OCED 4360. Cooperative Occupational Education Readiness. This course prepares the student for supervised on-the-job experience in an occupational area. Proposal development, review of literature, creation of timelines, and task analysis are stressed. Limited on-the-job experience begins in the course. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 13 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Cooperative Occupational Education Readiness

OCED 4361. Practicum in Cooperative Occupational Education. Course is supervised on-the-job experience in an occupation related to the BAAS professional development. Requires extensive reports and documentation. Prerequisites include successful completion of OCED 4360. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 13 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Practicum in Cooperative Occupational Education

Occupational Emphasis Module
Select 45 credits to satisfy this module from experiential learning (work/life experience, non-collegiate sponsored instruction, credit by examination), transfer work from other accredited institutions of higher learning, or a comprehensive cooperative education program.

Professional Development Module
This module of 21 credits is individualized to students’ educational needs.

Internship
Select 45 credits to satisfy this module from experiential learning (work/life experience, non-collegiate sponsored instruction, credit by examination), transfer work from other accredited institutions of higher learning, or a comprehensive cooperative education program.

Elective Module
Select enough elective hours to complete the 120 hour degree chosen with the advice of the student’s degree advisor.

Foreign Language
Students who have not had two years of the same foreign language in high school or who do not have one year of the same foreign language from an accredited college must take the two courses of the same foreign language, which may include American Sign Language.

Total Hours
120

1 This module may be satisfied through a number of options including traditional course work from Texas State and transfer credit from accredited institutions of higher learning plus limited numbers of hours from nontraditional methods including correspondence, extension, and forms of testing including CLEPs.
2 OCED 4350 (Occupational Assessment) is the required entry course for this module.
3 Students will choose courses with the assistance of the degree advisor from at least three academic departments. This module of 21 hours constitutes the major for GPA calculation purposes.
4 This is a required independent activity completed during the student’s last semester.

School of Social Work
Health Professions Building Room 150
T: 512.245.2592 F: 512.245.8097
www.socialwork.txstate.edu (http://www.socialwork.txstate.edu)

The Bachelor of Social Work with a major in Social Work, which is fully accredited by the Council on Social Work Education, prepares students
to engage in entry-level social work practice, to apply for state social work licensure, and to pursue graduate social work studies. Social Work students must maintain high scholastic standards. They must also develop the capacity to work with people from all walks of life and be sensitive toward all people and the many problems they face.

 Admission Process

The Social Work degree requires 54 hours in Social Work and 9 hours in supportive Social Sciences, and builds on liberal arts and the general education core curriculum. The Social Work curriculum is based on and interwoven with the liberal arts/general education core curriculum consisting of 54 semester credit hours. The Social Work major does not require a minor. Students’ progress in three phases of the Social Work major, without regard to disability. A social worker must be emotionally and mentally stable, must have strong communication skills, must have solid interpersonal relationship-building skills, and must conform to professional ethics. The School of Social Work faculty evaluate whether students meet these criteria and may advise a student at any point to continue in the B.S.W. major or consider another major.

Phase I: (Pre-Social Work Major)

Any student may declare a pre-social work major and may enroll in SOWK 1350, SOWK 2375, as well as SOWK elective courses. Social work pre-majors should complete most of their general education core curriculum and liberal arts courses before applying to Phase II of the Social Work major. They must complete at least 45 credit hours, including the following:

Applicants must have a minimum 2.50 overall GPA and a minimum 2.75 GPA in SOWK courses and supportive courses (Biostatistics, ENG 3303 or ENG 3304, and PSY 3322) to apply for Phase II. Students interested in Social Work must contact the College of Applied Arts Academic Advising Center for advisement.

Phase II: (Social Work Major)

Students submit a formal application for admission to Phase II. Application materials are due to the School of Social Work office by 5:00 p.m. on the second Monday of November for spring admission to the major or the second Monday in April for fall admission to the major.

An admission committee screens applicants, considering academic record and suitability for social work practice, and informs applicants in writing of their decision to admit to full major status, conditionally admit to full major status, or deny admission to full major status. Students admitted to Phase II must attend a mandatory orientation to the major prior to beginning Phase II of the degree program. Information regarding the orientation will be provided in the written notification of admission to Phase II of the major. When students are admitted to Phase II, their formal academic major is converted from Pre-Social Work to Social Work.

Admission into Phase II does not guarantee permission to remain in the degree program. Social Work faculty will continuously assess a student’s progress. To be retained, the student must maintain the required minimum Texas State GPA of 2.50. Students must also earn a minimum grade of “C” in each social work course and each supportive course. The School of Social Work outlines the academic progress and advancement to graduation in relation to retaking major sequence coursework in the student handbook. To remain in Phase II, students must also agree to adhere to the NASW Code of Ethics and must demonstrate emotional and mental stability, competent communication skills, interpersonal relationship skills, and high levels of self-awareness.

Phase III: (Field Placement)

Students who have completed all required courses for the B.S.W., excluding SOWK 4645 and SOWK 4650 (Field Placement), and who have met all the requirements noted above may apply for field placement. Students apply for field placement with the School of Social Work’s Field Office.

The School prefers that students take SOWK 4645 and SOWK 4650 during the same semester, which requires that the student limit his/her enrollment that semester to field placement, totaling 12 hours. Under exceptional circumstances, students may request permission from the Field Coordinator to take SOWK 4645 and SOWK 4650 over two consecutive semesters (6 hours each semester).

To be eligible for graduation a student must complete all degree requirements and must have a minimum Texas State GPA of 2.50 with a GPA of 2.75 in social work and supportive courses. Students seeking either a dual degree or a second bachelors’ degree in Social Work will need to complete all requirements for the B.S.W. degree totaling 54 hours for the major, to include 12 hours in field internship, 14 hours in modern languages, 9 hours in supportive courses and the required biology curriculum. To be eligible for graduation a student must complete all degree requirements and must have a minimum Texas State GPA of 2.50 with a GPA of 2.75 in social work and supportive courses.

Courses in Social Work (SOWK)

SOWK 1350 is a prerequisite to all other social work courses except SOWK 2375, SOWK 3339, SOWK 4315, SOWK 4318, SOWK 4320, and SOWK 4355.
SOWK 1350. Introduction to Social Work.
This introductory survey course includes the nature, function, and various types of social work practice, acquainting the student with the history, scope, and values of the profession.

about Introduction to Social Work

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: SOCW 2361
about Introduction to Social Work

SOWK 2320. Love and Relationships.
This elective course explores the nature of attraction, friendship, love, and human sexuality, enabling students to enhance their own personal and professional relationships.

about Love and Relationships

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Love and Relationships

SOWK 2375. Social Services in the Community.
This undergraduate course introduces the organizations and policies involved in social services delivery. Students participate in 50 hours of work as supervised observers and volunteers in selected social service agencies.

about Social Services in the Community

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Services in the Community

SOWK 3305. Seminar in Human Behavior and Social Environment I.
This undergraduate course provides an overview of human functioning in the environment by studying eco-systems and developmental frameworks. It builds knowledge and values for practice with task groups, organizations, and communities. Prerequisites: Official Social Work major; complete SOWK 3420 or instructor consent.

about Seminar in Human Behavior and Social Environment I

¹ Required prior to application for Social Work major.
² Requires an additional 50 hours volunteering.

Minor in Social Work

The Social Work minor makes students aware of our society’s problems, conditions, and value systems, while enhancing their growth in their chosen major fields. The minor does not prepare students for professional social work practice nor for state social work licensure.

A minor in Social Work requires 18 semester hours, including:

Marketing—Raymond P. Fisk, Ph.D.

Named on February 27, 2004 in honor of the generous support of Mr. and Mrs. Emmett McCoy, Texas State’s Emmett and Miriam McCoy College of Business Administration provides broad-based undergraduate and masters-level educational programs that produce graduates with the
values, knowledge, and skills to help them excel in a diverse, globally-competitive environment.

Mission
The Emmett and Miriam McCoy College of Business Administration is a student-centered learning community dedicated to sharing values, knowledge, and skills that enable students to compete responsibly and successfully in a global business environment. The College serves a diverse population of undergraduate and graduate students primarily from Texas. Emphasizing an applied orientation, we value teaching excellence and intellectual contributions, complemented by service.

Vision
The Emmett and Miriam McCoy College of Business Administration strives to be a leader in experiential business education and business relevant, socially significant research.

Values
Committed to supporting the mission of Texas State University as a Hispanic Serving Institution and designated emerging research institution for the state of Texas, we embrace:

- A unique combination of experiential learning, excellent faculty instruction, and a student-centered culture.
- Responsiveness, accountability, and on-going contributions through research and service to Texas and beyond.
- Excellence in all endeavors through self-study, innovation, and continuous improvement.
- Integrity and adherence to professional and ethical standards.
- Respect for individuals and a diverse culture that promotes a globally engaged community of students, staff, and faculty.
- Student engagement and development through active involvement in student organizations.
- Life-long learning and professional development of students, staff, and faculty.

Background
Established in 1958, McCoy College offers the Bachelor of Business Administration (B.B.A.) degree with majors in accounting, computer information systems, economics, finance, management, and marketing. The management major offers a teacher certification option. Computer Information Systems offers a certificate program. Additionally, the College cooperates with the College of Liberal Arts in offering the Bachelor of Arts (B.A.) degree with a major in economics. The B.B.A. degree does not require a minor. Non-business majors may choose business administration as their minor.

The learning environment of McCoy College places primary importance on teaching excellence and intellectual contributions complemented by service. This environment prepares students for careers in both the private and public sectors. The curriculum addresses the economic, legal, political, social, technological, and demographically diverse environment in which modern business is conducted. This environment emphasizes comprehensive learning that combines general education and professional studies in business. The core requirements cover the main functional areas of business, and specialized study in one of six traditional business majors provides knowledge upon which to build a career.

McCoy College, accredited by AACSB-International, The Association to Advance Collegiate Schools of Business, serves over 3,500 undergraduate and graduate business students and has five academic departments: Accounting, Computer Information Systems and Quantitative Methods, Finance and Economics, Management, and Marketing.

McCoy College is entitled by its designation as an AACSB-International accredited school to have Beta Gamma Sigma as its honorary business society. The university chapter has been in existence since 1997. In the College, the top 10 percent of undergraduate business students in their respective classes are eligible to join the society as early as the last semester of their second year of study. Graduate students ranked in the top 20% of their class may join the society after completing one year of study.

Academic Advising Center
McCoy Hall Room 115  
T: 512.245.1993 F: 512.245.1996
www.advising.mccoy.txstate.edu

The McCoy College Academic Advising Center is an accessible, student-centered support service that provides official and accurate academic information, encourages students to develop educational goals, and enables students to identify strategies for success. The services available for students include information sheets for schedule-building and degree requirements, an on-call advisor to address frequently asked questions, one-on-one advising sessions by appointment, information on student professional development opportunities in the College, and the certification of undergraduate graduation applicants. For a complete description of advising services and student responsibilities refer to the McCoy College Academic Advising Syllabus which is available for download at http://advising.mccoy.txstate.edu/resources/syllabus.html. Students are required to show their Texas State ID to speak with an advisor about specific academic information.

Admission Policy
Admission to the College is competitive, and a student must be admitted to the College to pursue a B.B.A. degree. Consideration for admission to McCoy College undergraduate programs is based on specific admission criteria and is conducted as a rolling admission process. For current Texas State students, applications are available online at http://advising.mccoy.txstate.edu/apply. For students not yet admitted to the University, applications are available online at www.applytexas.org (http://www.applytexas.org). Students should list a business major as their first major choice.

Priority dates are March 1 for summer/fall semester and October 15 for the spring semester. Applications received after the priority date will be considered for admission on a space-available basis. Students not yet admitted to Texas State must meet Texas State admission deadlines. Students attending Texas State who are currently on academic probation are not eligible for admission to McCoy College.

Freshmen and Students with fewer than 30 Semester Hours
Students are automatically admitted if their SAT I score is 1200 (Critical Reasoning + Math) or greater, if their ACT score is 27 or greater, or if the student graduated in the top 25% of their high school class. All other applicants will be considered for the remaining openings through a review process. The competitive admission index is based
on a combination of a student’s high school academic record and standardized test score (SAT I or ACT). Students who are admitted to the University but denied admission to a business degree program will be considered for admission to their second choice major or as an undeclared major.

### Students with 30 or more Semester Hours

Students who have not been admitted to McCoy College and have completed at least 30 semester hours either at Texas State or another college or university including ENG 1310, ENG 1320, and MATH 1329 will be considered for admission based upon a competitive index using the grades from ENG 1310, ENG 1320, MATH 1329, and the overall GPA from all colleges and universities attended. Students will be automatically admitted if they have a cumulative GPA of 3.0 or higher and have completed ENG 1310, ENG 1320 and MATH 1329.

### Restricted Status

Any business student whose Texas State GPA drops below a 2.0 is placed on probation by Texas State and on restricted status by McCoy College. Business majors on restricted status must increase their Texas State GPA to at least 2.0 in the subsequent semester or their admission to the College will be voided. Students are required to meet with a representative of the McCoy College Academic Advising Center to remove probation holds; otherwise, the hold will prevent registration or schedule changes. A student whose admission is voided may regain admission to the College by going through the application process and competing with other applicants for openings. Business students with a Texas State GPA below a 2.0 are also subject to the University academic probation and suspension policies.

### General Requirements for the B.B.A. Degree

All students seeking the B.B.A. must complete

1. The general education core curriculum prescribed by Texas State including the following:
   - COMM 1310 Fundamentals of Human Communication 3
   - ENG 1310 College Writing I 3
   - ENG 1320 College Writing II 3
   - MATH 1329 Mathematics for Business and Economics II 3
   - PHIL 1320 Ethics and Society 3
2. A common core of business courses outlined by McCoy College, 3
3. A combination of courses in the major program area specified by the appropriate academic department and restricted upper-division business electives to complement the major, and 3
4. Free electives to achieve a minimum total of 120 semester hours. To ensure compliance with the course requirements for a B.B.A. degree, business students should follow the general sequence of courses specified for the business curriculum in this section of the catalog. Also, students who did not complete satisfactorily at least two years of the same foreign language in high school must complete two semesters (6-8 hours) of a single foreign language.

### Enrollment in Upper-Division Business Courses

Upper-division McCoy College courses (3000- and 4000-level) are restricted to business majors or to students who require the courses for their declared program of study. To be eligible to enroll in these courses, all students must satisfy stated course prerequisites, maintain an overall GPA of 2.00 or greater, and have completed at least 60 semester hours. Students should note that not all courses are taught each semester. If a specific course is needed, students should verify the prospective course offering with the department.

### Common Business Core

To provide a common body of knowledge in business, all students seeking the B.B.A. are required to complete the following courses or their equivalents:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 2361</td>
<td>Introduction to Financial Accounting</td>

<td>Strategic Management and Business Policy</td>
<td>3</td>
</tr>
</tbody>
</table>

1 Students in the 2014 and subsequent catalog years cannot receive credit for MGT 3353.

### Transfer Credit

Business transfer students must meet residency requirements for all Texas State programs outlined in the academic policies section of this catalog. Additionally at least 50% of the semester hours in business required for the College’s various degree programs must be completed in residence at Texas State.

Undergraduate transfer students who received elective credit rather than course-specific credit from the Texas State admissions office may appeal this designation to the McCoy College department in which the course is offered.

Community/junior college students who plan to transfer to McCoy College are advised to pursue the business curriculum outlined in this section. The appropriate course equivalency guide and/or transfer planning guide should be consulted to resolve questions of course transferability. Courses acceptable for transfer by Texas State will transfer at the level at which the courses were taken (i.e., acceptable courses from a community/junior college transfer as freshman or sophomore courses and cannot be used to satisfy junior/senior-level requirements). A maximum of 72 hours from an accredited community/junior college may be applied to a business degree.

### Writing Intensive Hour Requirement

Nine hours of designated “writing intensive” (WI) courses must be completed at Texas State to satisfy degree requirements.

### Grade-Point Average for Graduation

B.B.A. students must achieve the following minimum grade-point averages:
1. A Texas State GPA of 2.00
2. A Business GPA of 2.25 (includes common business core, major(s), and restrictive/advanced electives); and
3. A GPA of 2.0 in the minor(s).

B.B.A. Accounting students must achieve the following grade point averages:

1. A Texas State GPA of 2.00
2. A Business GPA of 2.25 (includes common business core, major(s), and restrictive/advanced electives)
3. A GPA of 2.0 in the minor(s); and
4. A Major GPA of 2.50

B.A. students must achieve the following minimum grade point averages:

1. A Texas State GPA of 2.00
2. A major(s) GPA of 2.25 (includes major courses and restricted/advanced electives); and
3. A GPA of 2.0 in the minor(s).

Double Majors Within Bachelor of Business Administration Programs

Students must fulfill the specified requirements for both majors in full and restricted/advanced electives may not double count.

Minors

- Business Administration (p. 151)
- International Business (p. 151)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Business Administration (B.A.)

B.A 4300. Independent Study in Global Business.
This study abroad course introduces students to the international business environment. Topics include cultural, political, social, and economic factors affecting international business, and the regulatory and ethical environment of global businesses.

about Independent Study in Global Business

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Advanced electives: 6

Total Hours: 18

The advanced electives may be selected from an approved list that is available online at http://www.mccoy.txstate.edu/Undergraduate/majors_programs/intlbusinessminor.html.
Department of Accounting

McCoy Hall Room 431
T: 512.245.2566 F: 512.245.7973
www.accounting.mccoy.txstate.edu (http://www.accounting.mccoy.txstate.edu)

Our mission is to offer quality, student-centered accounting programs for undergraduate and graduate students. Our primary goal is to prepare students for careers in public accounting, industry, government, nonprofit, and other organizations. We strive to:

• Provide quality instruction and curricula that offer strong conceptual foundations and technical skills in accounting. Our programs emphasize critical thinking, ethical decision-making, technology usage, and communication skills. Our graduate programs augment the undergraduate degree and prepare graduates for professional careers in accounting including eligibility for licensure by State Boards of Public Accountancy.
• Engage in intellectual contributions in the areas of discipline-based scholarship, contributions to practice and learning and pedagogical research.
• Provide service to our department, college, university, and other academic organizations. This includes support of the accounting profession and accounting student organizations.
• Build and maintain professional relationships among students, alumni, the accounting profession, and other stakeholders.

The accounting curriculum provides a broad education in theory, ethics and practice. Students completing the four year prescribed program of study earn the Bachelor of Business Administration degree with a major in accounting. Career options include accounting for corporations, industry, governmental, and other not-for-profit organizations.

For a Bachelor of Business Administration with a major in accounting all students must achieve the following grade point averages for graduation:

1. A Texas State GPA of 2.00
2. A Business GPA of 2.25 (includes common business core, major(s), and restrictive/advanced electives)
3. A GPA of 2.0 in the minor(s); and
4. A Major GPA of 2.50.

To meet the educational requirements to take the Uniform CPA Examination in Texas current law requires 150 semester credit hours, including 30 hours of upper-division accounting (including a research course), 24 hours of upper-division related business courses (including business communications), and 3 hours of an approved ethics course. Students may contact the Texas State Board of Public Accountancy at (512) 305-7870 or at http://www.tsbpa.state.tx.us to verify the educational requirements. Although these hours may be satisfied with undergraduate courses, the Department provides a 33 hour Master of Accountancy (M.Acy.) program and a 36 hour Master of Science in Accounting and Information Technology (M.S.A.I.T.) program which offer graduate level accounting courses. Students completing one of these graduate programs should experience greater opportunities for initial employment and career success. In addition to the career choices available to B.B.A. graduates, M.Acy. and M.S.A.I.T. graduates position themselves for career opportunities in public accounting such as auditing, tax, and management consulting.

To make the transition from undergraduate to graduate easier, Texas State undergraduate students who are within 6 hours of completing their undergraduate program may apply for admission to any graduate business program. This allows a student to take graduate courses as appropriate in their last undergraduate semester. Students must complete their undergraduate program at the end of that semester. For more information about graduate program requirements and the admission process, please consult the graduate catalog. To talk with a graduate academic advisor, students should contact the Accounting Department, (512) 245.2566, or go to McCoy Hall 431.

Bachelor of Business Administration (B.B.A.)

• Major in Accounting (p. 154)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Accounting (ACC)

ACC 2301. Accounting in Organizations and Society.
Introductory accounting course for non-business majors. Describes the role of accounting as an information system essential for the operation of today's organizations. Focus is on (1) how data is captured and processed to provide information for decision-making, and (2) how the information provided can be used for decision-making.

Grade Mode: Standard Letter
about Accounting in Organizations and Society

A study of financial statement analysis and overview of financial statements.

Grade Mode: Credit/No Credit
about Financial Analysis and Accounting

ACC 2361. Introduction to Financial Accounting.
This course introduces financial accounting concepts and their application in the accounting process for business organizations, including financial statement preparation, analysis and communication of financial information and related ethical responsibilities. Prerequisite: Math 1319 or equivalent or SAT Mathematics score of 580 to 800 or ACT Math (MP) score of at least 27.

Grade Mode: Standard Letter
about Introduction to Financial Accounting

TCCN: ACCT 2301
about Introduction to Financial Accounting
ACC 2362. Introduction to Managerial Accounting.
This course provides an introduction to the use of accounting information as an aid to management decision making and budgeting. Students will gain an appreciation of control processes and an understanding of accounting reports and related ethical responsibilities. Prerequisites: ACC 2361 and MATH 1319 or equivalent.

Grade Mode: Standard Letter
TCCN: ACCT 2302

ACC 3313. Intermediate Accounting I.
An in-depth study of accounting concepts and standards with emphasis on current theory and practices relating to corporate financial statements particularly stressing asset measurement and presentation. Prerequisites: ACC 2361 and ACC 2362 with a grade of "C" or higher.

Grade Mode: Standard Letter

ACC 3314. Intermediate Accounting II.
This course provides a study of accounting problems related to liability measurement, determination of stockholders' equity, earnings per share, leases, and revenue recognition. It also covers intangibles and investments. Prerequisite: ACC 3313 with a grade of "B" or higher.

Grade Mode: Standard Letter

ACC 3363. Governmental Accounting.
A study of concepts and techniques of fund accounting, and financial reporting for governmental and not-for-profit organizations including state and local government, universities, hospitals, and other public sector entities. Prerequisite: ACC 3313 with a grade of "B" or higher.

Grade Mode: Standard Letter

ACC 3365. Cost/Managerial Accounting.
The study of cost/management accounting within the manufacturing and merchandising environment. Includes the analysis of cost accumulation, planning, and control within the organization. Specific topics emphasized are job order and process costing; standard costing, standard costing and variance analysis; absorption and direct costing; budgetary procedures; cost/volume profit analysis; and capital budgeting techniques. Prerequisites: QMST 2333; ACC 2362 with a grade of "C" or higher, and completion or concurrent enrollment in ACC 3313.

Grade Mode: Standard Letter

ACC 3385. Accounting Systems.
A study of elements of theory, procedures, and practice relating to system design and implementation for manual and computerized accounting information systems. Emphasis placed on system selection, data entry, file structure, internal control implementation, and report generation for various information end-users. Prerequisites: ACC 3313 with a grade of "B" or higher; CIS 3380.

Grade Mode: Standard Letter

ACC 4313. Internal Audit and Controls.
A study of the theory and practices relating to internal auditing. The course emphasizes the procedures used to evaluate and improve the effectiveness of risk management and control processes, including prevention and detection of fraud. Prerequisites: ACC 3314 and ACC 3385 with grades of "C" or higher.

Grade Mode: Standard Letter

An introduction to Federal income tax provisions, concepts and issues concerning individuals, business and property transactions. The coursework focuses on income and expense recognition as well as tax planning opportunities. Prerequisite: ACC 3313.

Grade Mode: Standard Letter

ACC 4390A. International Accounting.
This course introduces students to accounting issues unique to multinational enterprises and international business activity. Financial accounting practices are compared across different countries. The development of international accounting standards is also explored. Prerequisite: ACC 3313.

Grade Mode: Standard Letter

### Department of Computer Information Systems and Quantitative Methods

McCoy Hall Room 404  
T: 512.245.2291  F: 512.245.1452
The mission of the Department of Computer Information Systems and Quantitative Methods is to provide relevant educational opportunities to students wishing to pursue professional careers related to information systems and information technology. The department strives to create an environment for preparing individuals for a lifetime of learning and growth by producing graduates who understand the concepts and uses of information technology and are capable of applying these concepts to business and government.

The computer information systems curriculum provides a strong foundation in the concepts and applications of information systems and technology in organizations. It gives CIS majors the opportunity to study enterprise design, business intelligence, database development, network and security administration, programming languages, and the integration of hardware and software systems with management practices. Students completing the prescribed program of study earn the Bachelor of Business Administration degree with a major in Computer Information Systems. CIS graduates pursue careers as IT integrators, global enterprise system architects, database administrators, network administrators, information security analysts, business systems analysts, application developers, digital-business solution developers, and information systems managers. Graduates work for technology companies, government agencies, accounting firms, oil companies, financial and insurance institutions, retail firms, manufacturing concerns, and consulting companies. Many of these are global enterprises.

Bachelor of Business Administration (B.B.A.)

- Major in Computer Information Systems (p. 158)

Certificate

- Computer Information Systems

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this department include: CIS (p. 155), QMST (p. 157)

Courses in Computer Information Systems (CIS)

CIS 1323. Introduction to Microcomputer Applications.
This course develops advanced information technology skills, focusing on office productivity software. Primary emphasis is placed on spreadsheet, database, and presentation software. Advanced techniques are presented for use in data analysis and decision-making. Students will be expected to demonstrate mastery of these techniques in a hands-on environment.

about Introduction to Microcomputer Applications

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: COSC 1301

CIS 2324. Visual Programming I.
An introduction to application program development to include requirement analysis, design, implementation, and testing. A blend of structured and object-oriented concepts is used to form solutions to business problems using a visual programming language. Prerequisite: CIS 1323.

about Visual Programming I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: BCIS 2316

CIS 3317. E-Business.
Explores the constantly changing world of e-Business from an international perspective. This course will emphasize e-Business challenges and opportunities in the worldwide marketplace, while focusing on global issues of management, implementation, and integration of IT resources. Does not count for CIS advanced elective credit. (MC).

about E-Business

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi. Content & Perspective
Grade Mode: Standard Letter

CIS 3325. Visual Programming II.
An advanced visual programming course covering topics related to the design and implementation of user interface, business logic and data access in a tiered architecture. The emphasis is on techniques that take advantage of a development framework through the use of forms, classes, and objects. Prerequisite: CIS 2324.

about Visual Programming II

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course examines the concepts of information systems and network availability, integrity, and confidentiality in order to develop effective security controls, processes, practices, and procedures. Topics include methodologies, models, architectures, access control systems, ethics, and legal implications of IT security. Prerequisites: Overall GPA 2.0 required. Restricted to Juniors or Seniors in BBA or CJ majors.

about Information Security Assurance: Principles and Practices

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CIS 3360. e-Business Applications Design and Development.
The course focuses on designing effective e-business applications to support the e-business strategy of a company. It covers e-business models, business solution delivery strategy, web required architectures, and development and deployment of dynamic, multi-tiered, transaction-oriented, e-business applications in a business-to-business environment. Prerequisite: CIS 3325 and ACC 2362.

about e-Business Applications Design and Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TCCN: BCIS 2316

about Visual Programming I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TCCN: BCIS 2316

about Visual Programming II

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TCCN: BCIS 2316

about Information Security Assurance: Principles and Practices

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TCCN: BCIS 2316

about e-Business Applications Design and Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CIS 3374. System Analysis and Design.
The analysis and general design phases of the system development life cycle are reviewed. Emphasis on techniques and tools for determining systems requirements that lead to the development of logical design models using structured and object-oriented methodologies. (WI).
about System Analysis and Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about System Analysis and Design

CIS 3375. Enterprise Computing Skills using COBOL.
Basic features of the COBOL language. Emphasis is on structured program development and file processing. Topics include file processing, sort feature, and subprograms. Prerequisite: CIS 3325.
about Enterprise Computing Skills using COBOL
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise Computing Skills using COBOL

CIS 3380. Computer Data Base Systems.
Concepts and methodology of planning, design, development, and management of the computerized data base. The emphasis is on logical database design and a study of relational implementation. A relational DBMS with a relational query language is used for the development of a business application system. Prerequisites: CIS 3374 and completion of or concurrent enrollment in CIS 3380.
about Computer Data Base Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Computer Data Base Systems

CIS 3389. Business Application Programming III.
This course will continue the study of business-oriented software development using an object-oriented programming language. Topics covered will include client/server object relationships, inheritance, polymorphism, encapsulation, inner classes, threads, GUI design, and the use of event models. Prerequisite: CIS 3325.
about Business Application Programming III
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Application Programming III

CIS 3390. Project Management for Business Professionals.
An introduction to project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Program management, system methodologies, material procurement, human, and international issues will be examined from the perspective of their impact on functional disciplines in the organization.
about Project Management for Business Professionals
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Project Management for Business Professionals

Advanced use of information technology in the design and implementation of business applications to support electronic commerce. Concepts, methodology, and toolsets for designing, implementing, and management of applications in Business-to-Business paradigm. Prerequisites: CIS 3382 and CIS 3325 or CIS 3389.
about Enterprise System Development and Application Security
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise System Development and Application Security

This course introduces the concepts, methodology, and toolset for designing business applications. Students will learn the MVC development framework and .Net programming environment for Windows to create interactive business applications. Prerequisite: CIS 3325.
about Mobile Application Development for Windows
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mobile Application Development for Windows

CIS 4320. Mobile Application Development for Apple-iOS.
This course introduces the concepts, methodologies, and toolset for designing business applications for mobile devices such as iPhone and iPad. Students will learn the MVC development framework and Objective-C programming environment for Apple-iOS to create interactive business applications. Prerequisite: CIS 3325.
about Mobile Application Development for Apple-iOS
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mobile Application Development for Apple-iOS

CIS 4321. Mobile Application Development for Android.
This course introduces the concepts, methodology, and toolset for designing business applications for mobile devices. Students will learn the MVC development framework and Java programming environment for Android to create interactive business applications. Prerequisite: CIS 3325.
about Mobile Application Development for Android
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mobile Application Development for Android
A course that integrates systems development with analysis, design, project management, and the systems development life cycle. Object-oriented methods and UML models will be used to develop a project for a client. Students will select methodology, platform, and development technology based on client requirements. Prerequisites: CIS 3325 and CIS 3382.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Computer System Development and Design

The use of advanced information technology for integrating business functions in an enterprise through distributed databases is emphasized. Methodology and tools for the selection and implementation of Enterprise Resource Planning (ERP) systems are discussed. Students will use available ERP software to create, track and communicate enterprise information. Prerequisite: CIS 3380.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise Resource Planning Systems

CIS 4348. Fundamentals of Data Communications.
A course oriented to the technical concepts of data communications and network designs and how they relate to contemporary computer end-user environments. It incorporates the systems approach for understanding, designing, managing, securing, and implementing data communication networks. Students will analyze and design data communication networks for various business situations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fundamentals of Data Communications

This course introduces advanced concepts and database processes to support applications for Business Intelligence. Multi-dimensional modeling along with database, reporting, and analysis capabilities of a modern database environment will be used to design and develop stored procedures, views, user-defined functions, reports and multi-dimensional information cubes. Prerequisite: CIS 3382.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Database Management Systems

This course focuses on the technology and managerial issues related to information systems security. Topics include: Attack methods, access control, authentication, firewalls, incident and disaster response, disaster recovery, security function management, and cryptography. Prerequisite: CIS 4348.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Information Systems Security

CIS 4358. Network Administration.
This course provides students with an understanding of the responsibilities assigned to network administrators. Students will acquire a working knowledge of these responsibilities and skills using tools and technologies for administering enterprise networks via network operating systems commonly used in modern business enterprises. Prerequisite: CIS 4348.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Network Administration

CIS 4360. Developing Business Solutions for the Enterprise.
An introduction to the concepts, methodology, and toolsets for the architecture, design, implementation, and deployment of business solutions for the enterprise in a services-oriented computing environment. Topics include services-oriented architecture, "Software as a Service" framework, n-tier development of business and data services, and application security. Prerequisites: CIS 3325 and CIS 3382.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Business Solutions for the Enterprise

CIS 4395. Independent Study in Computer Information Systems.
An in-depth study of a single topic or related problem solved through computer information systems research. May be repeated once for credit with a different emphasis. Prerequisite: Consent of instructor and department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Computer Information Systems

This one-semester course involves an internship in business information systems. Emphasis is on the application of computer information systems theory to business problems in the area of computer based management information systems. Prerequisite: Specified by employer with consent of instructor and department chair.

3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Computer Information Systems Internship

Courses in Quantitative Methods (QMST)

This introductory course covers descriptive and inferential statistical techniques for business and economic decision making. Topics include measures of central tendency and dispersion, probability distributions, sampling distributions, confidence intervals, hypothesis testing, simple linear regression, and correlation analysis. Prerequisites: CIS 1323; MATH 1329 or equivalent. (MC).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Statistics
QMST 3334. Statistical Modeling.
Students will learn to apply a broad range of statistical analysis
techniques using statistical software in business decision-making.
Topics include applied modeling techniques, such as regression
modeling, time-series modeling and analysis of variance; non-parametric
methods; quality control; and simulation. Prerequisite: QMST 2333.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

QMST 4373A. Applied Time Series.
This course will teach the fundamentals of time series methods to be
applied on real-life data. The course focuses on application, however the
methodology behind the models will also be discussed. Students will
learn how to pick the appropriate method for the time series of interest.
Prerequisites: Consent of instructor and department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

QMST 4373B. Advanced Data Mining Topics.
This course will teach advanced techniques of data mining such as
fuzzy approaches, memory-based reasoning, vector machines and
 genetic algorithms. Techniques will be applied to data sets expected
in the business environment. Prerequisites: Consent of instructor and
department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

### Certificate in Computer Information Systems

The Department of Computer Information Systems and Quantitative Methods offers an intensive program leading to a Certificate in Computer Information Systems (CIS). The program is directed at students who wish to gain information technology (IT) exposure without having to pursue a full degree program in computer information systems. Students who wish to pursue the Computer Information Systems Certificate are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student. The primary objective of the program is to offer an option to non-IT professionals and non-CIS majors to gain an initial expertise in the use of information technology to develop computer-based business information systems. Students must apply for admission in the Department of Computer Information Systems and Quantitative Methods prior to taking any courses and successfully complete 18 semester hours of course work in information technology (IT). These include 12 semester credit hours of required core CIS courses and 6 semester credit hours of CIS advanced elective courses. Required courses include:

The certificate requires 18 hours. Students must complete:

Department of Finance and Economics

McCoy Hall Room 504
T: 512.245.2547 F: 512.245.3089
www.fin-eco.mccoy.txstate.edu (http://www.fin-eco.mccoy.txstate.edu)

The mission of the Department of Finance and Economics is to provide students the ability to pursue learning throughout their lives, accept responsibility for their actions, and contribute to the common goals of society. Departmental programs are designed to develop informed citizens capable of thinking critically and succeeding in a highly-complex, interdependent, global society. Ideally, graduates will successfully compete for employment in both the public and private sectors and for entrance to high-quality graduate education.

The Department includes two closely related disciplines - finance and economics. Economics studies the use of scarce resources to satisfy unlimited wants. The department’s introductory courses meet the need for basic economic and legal understanding in a complex modern society. Upper-division economics and business law courses build upon this foundation. Finance addresses the behavior and determinants of securities prices, portfolio management, and the management of corporate and public funds. In addition, the relationships among monetary policy, the banking system, and financial markets are analyzed.

Students completing one of the three curricula offered by the department earn a Bachelor of Business Administration with a major in either economics or finance, or they may earn a Bachelor of Arts with a major in economics. Finance graduates pursue careers in financial management, banking and other financial institutions, the securities industry, financial planning, and real estate. Economics graduates follow career paths similar to finance majors. Those with the B.A. degree often enter graduate or law school.

Bachelor of Arts (B.A.)
- Major in Economics (p. 166)

Bachelor of Business Administration (B.B.A.)
- Major in Economics (p. 166)
- Major in Finance (p. 167)

Minor
- Economics (p. 168)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this department include: BLAW (p. 160), ECO (p. 161), FIN (p. 163)

Courses in Business Law (BLAW)

BLAW 2361. Legal Environment of Business.
A survey of basic features of the American legal system and legal aspects of business transactions. Topics include the nature and sources of law, court systems and procedures, agency, torts, contracts, ethics, and government regulation of business.
about Legal Environment of Business
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: BUSI 2301
about Legal Environment of Business

This course studies corporations, partnerships, limited liability companies, securities law, law for small business, administrative law, consumer law, environmental law, antitrust law, and insurance.
Prerequisite: BLAW 2361.
about Business Organizations and Government Regulations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Organizations and Government Regulations

This course studies the principles of international business law which emphasizes the commercial activities of the multinational firm conducting business in global economic, political, social and cultural environments. (MC/MP).
about International Business Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective
Grade Mode: Standard Letter
about International Business Law

BLAW 3364. Commercial Law.
This course studies sales law, negotiable instruments, secured transactions, suretyship, bankruptcy, personal property and bailments, real property, and creditors’ rights and remedies. Prerequisite: BLAW 2361.
about Commercial Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Commercial Law
BLAW 3367. Employment Law.
This course studies the legal developments in the workplace, with emphasis on attempts to maintain a proper balance between employees’ interest in earning a livelihood and employers’ interest in operating their business efficiently and profitably. Prerequisite: PHIL 1320. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Employment Law

An in-depth study of a single topic or related problem solved through business law research. May be repeated once for credit with different emphasis. Prerequisite: Consent of instructor and department chair.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Business Law

Courses in Economics (ECO)

ECO 2301. Principles of Economics.
A non-technical study of micro and macroeconomic principles, including demand and supply, production and cost, market structures, aggregate output and performance of the economy, the business cycle and growth, unemployment and inflation, money and banking, fiscal policy, monetary policy, and international trade and finance. Not for business or economics majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core
Grade Mode: Standard Letter
TCCN: ECON 1301
about Principles of Economics

ECO 2314. Principles of Microeconomics.
This course provides an introduction to the microeconomics of a modern industrial society. Emphasis is placed on supply and demand, cost and price concepts, market structures, income distribution, and similar issues. Prerequisite: MATH 1319 or equivalent. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core/Multicultural Content
Grade Mode: Standard Letter
TCCN: ECON 2302
about Principles of Microeconomics

This course provides an introduction to the macroeconomics of a modern industrial society. Emphasis is placed on the analysis of national income, economic stability, fiscal policy, money and banking, economic growth, and international trade. Prerequisites: ECO 2314; MATH 1319 or equivalent. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ECON 2301
about Principles of Macroeconomics

ECO 3301. Economics of Sports.
This course focuses on the business and economics aspects of professional and intercollegiate sports. Topics include the role of sports leagues, the demand for sports, the structure of labor markets in the four major sports, salaries of professional athletes, antitrust legislation, and intercollegiate athletics. Prerequisite: ECO 2301 or ECO 2314.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Economics of Sports

Economic analytical tools and concepts are used to understand how the environment, economy, and businesses interact and the importance of public policy in shaping this interaction. Natural resources as inputs to production are explored. Current policy issues and environmental problems provide illustration and application. Prerequisite: ECO 2301 or ECO 2314.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environmental Economics for Decision Makers

ECO 3305. Law and Economics.
Economic analytical tools and concepts are used to understand how the environment, economy, and businesses interact and the importance of public policy in shaping this interaction. Natural resources as inputs to production are explored. Current policy issues and environmental problems provide illustration and application. Prerequisite: ECO 2301 or ECO 2314.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Law and Economics

ECO 3311. Money and Banking.
A study of money and credit in the modern economy. Examines the development of modern money and banking systems, the structure of the Federal Reserve System, and monetary theory. Prerequisites: ECO 2314 and ECO 2315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Money and Banking

ECO 3313. Labor Economics.
A study of the application to labor markets of supply and demand principles. Topics include the work/leisure decision, time allocation in the household, the demand for education and training, the firm’s use of labor inputs, the impact of unions, and discrimination in labor markets based on race and gender. Prerequisite: ECO 2314.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Labor Economics
ECO 3314. Intermediate Microeconomics.
A study of the application to labor markets of supply and demand principles. Topics include the work/leisure decision, time allocation in the household, the demand for education and training, the firm’s use of labor inputs, the impact of unions, and discrimination in labor markets based on race and gender. Prerequisite: ECO 2314 and ECO 2315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Microeconomics

ECO 3315. Intermediate Macroeconomics.
An analysis of the traditional and modern theories of inflation, unemployment, long-run economic growth, and stabilization policies for promoting economic stability. Prerequisites: ECO 2314 and ECO 2315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Macroeconomics

ECO 3317. International Economics.
A study of the basis for trade among nations and the means of its financing, customs unions, balance-of-payments problems, and similar issues. Prerequisites: ECO 2301 or both ECO 2314 and ECO 2315. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about International Economics

The course focuses on the structural characteristics of the emerging market economies, with an emphasis on analyzing the salient economic challenges and opportunities facing contemporary emerging market economies. Prerequisites: ECO 2301 or both ECO 2314 and ECO 2315. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Emerging Market Economies

ECO 3327. Public Finance.
A study of the growth of the revenue and debt of the United States, taxation and tax incidence theory, and the effect of public expenditures and taxes on economic growth. Prerequisites: ECO 2301 or both ECO 2314 and ECO 2315. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Public Finance

ECO 3334. Business Enterprise and Public Policy.
A survey of the development and structure of American industry and of governmental regulation of business. Prerequisite: ECO 2314. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Business Enterprise and Public Policy

ECO 3335. Managerial Economics.
A study of the application of economic analysis in the formulation of business policies. Includes demand analysis and pricing policies. Prerequisite: ECO 2314.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managerial Economics

An analysis of the theory and practice of capitalism, socialism, and communism. Prerequisites: ECO 2301 or both ECO 2314 and ECO 2315. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Comparative Economic Systems

ECO 4305. Urban and Regional Economics.
A study of urban and regional economic issues including regional growth, crime, transportation, and the urban-rural interface. A focus on sources and uses of models and data unique to regional science and urban economics. Prerequisites: ECO 2314 and ECO 2315. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Urban and Regional Economics

ECO 4313. Econometrics.
This course studies statistical estimation, inference and forecasting methods used in economic research with a focus on models and methods unique to economics. Prerequisites: ECO 2314 and ECO 2315, QMST 2333, MATH 1329 or equivalent. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Econometrics

ECO 4390. Internship in Economics.
Integration of professional and academic experience through an internship with an external employer. Prerequisites: Open to Economics majors only, students must have completed at least nine hours of major courses, enrollment subject to availability and approval, and credit awarded as pass/fail or grade at departmental election. (WI).
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Internship in Economics

ECO 4395. Independent Study in Economics.
An in-depth study of a single topic or related problem solved through economic research. May be repeated once for credit with different emphasis. Prerequisite: Consent of instructor and department chair. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Economics

ECO 4395. Independent Study in Economics.
An in-depth study of a single topic or related problem solved through economic research. May be repeated once for credit with different emphasis. Prerequisite: Consent of instructor and department chair. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Economics
# Courses in Finance (FIN)

**FIN 3301. Real Estate.**
A study of basic real estate principles. Topics include legal instruments and processes, property management, valuations, planning, development and sales, financing, and private and public interests.

<table>
<thead>
<tr>
<th>Grade Mode: Standard Letter</th>

</tbody>
</table>
FIN 4321. Real Estate Finance.
An analysis of problems involved in selecting and financing real estate investment opportunities. Prerequisite: FIN 3312.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Real Estate Finance

FIN 4322. Student Managed Investment Fund Practicum.
The course examines the issues involved in the management and investment strategies of an endowment. It focuses on investment analysis, asset allocation, portfolio monitoring, evaluation, and rebalancing. May be repeated one time for credit with different emphasis. Prerequisites: FIN 3318 and consent of the instructor.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Student Managed Investment Fund Practicum

Advanced course for finance majors interested in financial planning. Topics include ethics in the financial services industry, retirement planning and employee benefits, and estate planning. Prerequisites: FIN 3318, FIN 3326.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Financial Planning

FIN 4326. Financial Plan Development.
Financial Plan Development. Capstone course in personal financial planning. Integration of the financial planning curriculum in the development and presentation of a comprehensive personal financial plan. Prerequisites: FIN 3335, FIN 4325. Prerequisite/Corequisite: ACC 4328.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Financial Plan Development

FIN 4331. International Finance.
A study of international finance principles and their application in a multinational financial management setting. Prerequisites: ECO 3311, FIN 3313, and FIN 3316. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about International Finance

FIN 4340. Commercial Bank Management.
Examines a variety of aspects of managing a commercial bank. Provides students with a conceptual framework for determining the effects of various decisions and environmental factors on a commercial bank’s operations. Issues addressed include bank regulations, asset and liability management, analyzing bank performance, and capital management. Prerequisite: FIN 3313 and FIN 3316.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Commercial Bank Management

FIN 4380A. Advance Capital Budgeting.
A study of capital budgeting techniques, analyses (including risk), and strategies, and their implementation in capital assets investment. Prerequisite: FIN 3313 and FIN 3316.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advance Capital Budgeting

FIN 4380F. New Venture Finance.
An advanced study of methodologies to value financial investments; including but not limited to capital expenditures, commercial real estate, public companies, private companies, and start-up companies. Additional studies will include cost of capital structure and funding sources and alternatives. Prerequisite: FIN 3313 and FIN 3316.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about New Venture Finance

FIN 4380G. Financial Modeling and Equity Analysis.
This course reviews and extends students’ ability to perform financial statement analysis and forecasting. The focus of the course is on producing objective, theory-based company valuation research. Students will choose and defend inputs for qualitative analysis, and discover the importance of qualitative factors in firm value and performance.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Financial Modeling and Equity Analysis

FIN 4380H. Introduction to Fiduciary Law.
This course will develop the student’s fiduciary knowledge and skills. Students will develop a basic understanding of estate and trust administration, risk management, compliance, and tax planning. Key concepts will include Intestate Succession, Wills, Estate Administration, Trusts, Fiduciary Litigation, Wealth Transfer Taxation, Death and Disability Planning. Prerequisites: FIN 3312.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Introduction to Fiduciary Law
FIN 4380I. Introduction to Trust Principles.
The course will explain the principles of estate planning, taxation and
different forms of property ownership. A focus will be on the
characteristics, administration and usage of trusts, retirement plans,
guardianships and powers of attorney. Students will also follow the
process of creating and administering a will containing Trust provisions.
Prerequisite: FIN 3312.
about Introduction to Trust Principles
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Poudel, Rajeeb, Lecturer, Finance & Economics, M.B.A., Marshall
University
Quijano, Margot C, Associate Professor, Finance & Economics, Ph.D., Univ
of Texas at San Antonio
Bachelor of Arts (B.A.) Major in Economics

Minimum required: 120 semester hours

The following requirements apply to all Bachelor of Arts programs:

1. GPA Requirement - To be eligible to declare the B.A. in Economics students must be in good academic standing.
2. Minor Requirement - A minor is required and may be selected from any of the Texas State approved minors (excluding the economics minor).
3. Science Requirement - In addition to completing the mathematics and life and physical sciences requirements of the general education core curriculum, students must complete one additional science course (3-4 hours) from anthropology (biological anthropology only), biology, chemistry, computer science, geography (physical geography only), mathematics, philosophy (logic only), and physics.

Courses in Management (MGT)

MGT 3303. Management of Organizations.
A study of management functions in modern organizations, the internal and external environmental factors affecting organizational efficiency, and the application of quantitative and behavioral science to management study.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An introduction to the uses of communication in modern organizations. Provides students the opportunity to gain practice in making decisions involving selection and organization of communication content, in choosing an appropriate medium for presentation of information, and developing an effective writing style. Includes the study of the theory of business communication, including communication models, general semantics, and causes of miscommunication. Prerequisites: ENG 1310, ENG 1320; COMM 1310. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

MGT 3360. Studies in Entrepreneurship.
Students gain personal insights into entrepreneurship as entrepreneurs describe their contributions, reveal the sources of ideas, and discover ways of growth and success. Includes starting and managing businesses as well as ownership forms, sources of funds, location analysis, facility requirements, management, marketing, and feasibility plans.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Department of Management

McCoy Hall Room 524
T: 512.245.2571 F: 512.245.2850
www.mgt.mccoy.txstate.edu (http://www.mgt.mccoy.txstate.edu)

The mission of the Department of Management is to educate our students to become successful managers and leaders in a dynamic business world. To accomplish this mission, we balance effective teaching with scholarly activities and our professional service contributions. Faculty strive for quality in all department course offerings and undertakings to help prepare students for leadership and service in private and public organizations.

The Management program prepares students for challenging careers in a variety of business and governmental organizations, as well as secondary education. Management majors typically pursue careers in human resource management, industrial relations, production management, hospital administration, office management, and sales management. The concentration in Entrepreneurial Studies is designed for students who wish to start, operate, or expand their own businesses or family-owned businesses. The concentration in Human Resource Management is designed to prepare students for careers in human resource management. Both concentrations consist of 12 hours of undergraduate coursework that may be accommodated within the 120 hours required in the undergraduate business curriculum. More information is available in the McCoy College Academic Advising Center. Students choosing teacher certification pursue careers as secondary education teachers or in the private sector.
MGT 3361. Small Business Operations and Financials.
This course is a study of funding and financial concepts necessary to effectively operate a successful small business. Students will use software programs to maintain working capital and a complete set of books related to running businesses. Prerequisite: ACC 2361 or ACC 2301. Co-requisite: MGT 3360.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Small Business Operations and Financials

MGT 3362. Issues in Family Business.
Issues affecting the management of family businesses. Topics include the uniqueness of family business, family culture, building competitive advantage, marketing, building trust and commitment, family communication, family business governance, nonfamily management roles, succession and estate planning, change and adaptation, and the future of family business. Prerequisite: MGT 3361.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Issues in Family Business

Office information and decision support systems are examined as critical elements in business data and information systems. Emphasis is given to information processing considerations at the systems level, including analysis and management of support activities such as data and records management, electronic filing and retrieval systems, word processing, micro and reprographics, and telecommunications. Includes discussions of current and future technological trends. Prerequisite: MGT 3303. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Writing Intensive about Communication Systems

MGT 3375. International Business.
International business perspectives underlying different business functions. Concepts, processes, and philosophical bases for international operations in selected global markets are emphasized with culture and global dynamic environment as the basis. A project is required. Prerequisite: MGT 3303. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Multicultural Content|Writing Intensive about International Business

This course is designed to enhance critical professional skills including the uses of communication in modern organizations, verbal and written communication, interviewing, networking, organizational politics, teamwork, and understanding the role of ethics in these areas. It introduces theories of business communication including communication models, general semantics, and causes of miscommunication. Prerequisites: ENG 1310, ENG 1320; COMM 1310. (WI).

4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour. Course Attribute(s): Exclude from 3-peat Processing|Lab Required|Writing Intensive Grade Mode: Standard Letter about Business Communication and Professional Development

Review of the fundamentals of business administration as applied to contemporary business problems. Also, a discussion of current business issues and trends. Open to students seeking certification only.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Business Principles, Issues and Trends

MGT 4330. Operations Management.
A study of the various aspects of managing production and operations management functions in manufacturing and service organizations. Methods necessary for analyzing and solving related problems to design, operations, and improvements of the systems that create products and/or services in a global supply chain environment are investigated and emphasized. Prerequisites: MGT 3303; QMST 2333 or IE 3330 or TECH 3364.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Operations Management

MGT 4335. Strategic Management and Business Policy.
An integrative course in strategic management and business policy that utilizes the case method of instruction. A capstone course involving the analysis of business through the application of principles of accounting, communications, economics, finance, management, marketing, quantitative methods, and related disciplines. Prerequisites: MGT 3303; MKT 3343; FIN 3312; QMST 2333. Capstone course and open only to seniors in business. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Strategic Management and Business Policy
MGT 4340. Quality Management and Beyond.
A conceptual and practical overview of the role of quality as a system for establishing a “world class” competitive position. It explores philosophies and ideas of the leading thinkers in quality management, impact of process improvement methods, quality requirements definition and organizational change as it applies to total quality initiatives. Prerequisites: QMST 2333 or consent of professor. MGT 4330 is recommended. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Quality Management and Beyond

MGT 4350. Business Plan Development.
Students work in teams to select, create, and write solid business plans for proposed or real businesses. Prerequisite: MGT 3361. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Business Plan Development

MGT 4351. Applied Entrepreneurship.
Students design, staff, operate, and manage a business or service. Business teams develop financial and operational control systems and procedures for organizational, group, and individual performance evaluations, implement service and business projects, and provide a final public report. Prerequisite: MGT 4350.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Applied Entrepreneurship

This course examines a variety of ethical issues in business from the point of view of practicing manager and corporate leaders. This course is designed to enhance moral awareness and facilitate individual development with respect to making ethical decisions that contribute to effective corporate management and leadership. Prerequisites: PHIL 1320; MGT 3303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Business Ethics

An integration of a number of disciplines and value systems which affect and determine the proper role of business in satisfying the needs of customers, creditors, community, government, stockholders, managers, employees, suppliers, and society in general. Prerequisite: MGT 3303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business, Government, and Society

MGT 4372. Effective Leadership.
This course facilitates the development of leadership capabilities and addresses the complexities, paradoxes, and challenges of leadership. Through self-assessments, readings, lectures, and assignments students gain an appreciation of effective leadership approaches and are provided with opportunities to practice new leadership behaviors. Prerequisite: MGT 3303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Leadership

A study of the principles of human resource management in public and private institutions. Stresses the human resource aspects of recruitment, selection and placement, performance appraisal and compensation. Prerequisite: MGT 3303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Resource Management

MGT 4375. Organizational Behavior and Human Relations.
A study of the role of the individual in formal organizations, group dynamics, motivation theory, communication and leadership. Integrates behavioral science concepts. Prerequisite: MGT 3303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Organizational Behavior and Human Relations

MGT 4377. Labor Relations and Collective Bargaining.
A study of unions and their impact on private and public employment. Examines union growth and governance, collective bargaining, contract negotiation and administration, and arbitration and mediation. Prerequisite: MGT 4373. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Labor Relations and Collective Bargaining

MGT 4378. Training and Development.
This course is designed to develop theoretical and applied perspective on needs assessment, design, development, delivery and evaluation of training and development in organizational contexts. Prerequisites: MGT 4373.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Training and Development

MGT 4379. Organizational Staffing.
A study of current theory and practice in the process of selecting the right employees for positions within the organization, including HR planning, EEO, job analysis, recruitment, and selection procedures. Prerequisite: MGT 4373.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Staffing
MGT 4380. Compensation Management.
A study of the compensation administration in public and private organizations, with stress on the determinants of general wage levels; job analysis and evaluation; incentive, merit, seniority, and executive compensation; fringe benefits, and wage and salary control. Prerequisite: MGT 4373.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390A. Advanced Business Communication.
An advanced study of the uses of business communication in modern organizations. Students gain experience in making decisions involving selection and organization of communication content, and in choosing an appropriate medium for presentation of information. Emphasis is placed on gaining proficiency in various business communication processes. Prerequisite: MGT 3303 and MGT 3353. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390B. Management of the Digital Enterprise.
A study of management in the digital age. Course will look at the impact of digital communications and the new economy on traditional and e-commerce businesses. Topics will include changes in both strategic management as well as functional management (marketing, operations, finance, HR, etc.) Prerequisite: MGT 3303. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390C. Management of New Product Development.
Identifies the requirements and benefits of effective and efficient new product development. Topics include best practices of new-product development management, managing the new product process from idea generation, evaluation and selection; business case development; validation and verification testing; and product launch; and product portfolio management. Prerequisites: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390D. Cross-Cultural Human Relations.
This course is designed to develop theoretical and applied perspectives on cross-cultural human relations within a variety of international business contexts. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390E. Organizational Change.
This course presents an overview of the change process and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored, along with practical ideas on building effective teams to make change possible and sustainable. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390F. Business Creativity and Innovation.
Focuses on the importance of creativity and innovation to business organizations. Topics include the generation of creative ideas, transformation of ideas into commercially viable products/services, legal protection of new products/services, and environmental factors contributing to innovation success. Course objectives are met primarily through classroom discussion and exercises. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390G. Integrative Field Project.
Students work directly with entrepreneurs to research projects and recommend solutions. May involve providing business development assistance to entrepreneurs. Students may work individually or in teams. Project results are summarized in a comprehensive written report and a formal oral presentation. Permission of the Instructor and Chair is required. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines how management thought has developed over time. It discusses how changing political, social, economic, and technological forces have challenged managers to respond in new ways. Significant management ideas will be examined in their contexts to better understand how to successfully manage for the future. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390I. Managing Projects.
Intensive coverage of management in a wide range of project applications from concept through operations. Planning, scheduling, controlling, economic analysis, quality control and customer satisfaction. Prerequisite: MGT 4330.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390J. Organizational Change.
This course presents an overview of the change process and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored, along with practical ideas on building effective teams to make change possible and sustainable. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390K. Business Creativity and Innovation.
Focuses on the importance of creativity and innovation to business organizations. Topics include the generation of creative ideas, transformation of ideas into commercially viable products/services, legal protection of new products/services, and environmental factors contributing to innovation success. Course objectives are met primarily through classroom discussion and exercises. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390L. Integrative Field Project.
Students work directly with entrepreneurs to research projects and recommend solutions. May involve providing business development assistance to entrepreneurs. Students may work individually or in teams. Project results are summarized in a comprehensive written report and a formal oral presentation. Permission of the Instructor and Chair is required. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390M. Management Thought: Past, Present, and Future.
This course examines how management thought has developed over time. It discusses how changing political, social, economic, and technological forces have challenged managers to respond in new ways. Significant management ideas will be examined in their contexts to better understand how to successfully manage for the future. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390N. Organizational Change.
This course presents an overview of the change process and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored, along with practical ideas on building effective teams to make change possible and sustainable. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390O. Business Creativity and Innovation.
Focuses on the importance of creativity and innovation to business organizations. Topics include the generation of creative ideas, transformation of ideas into commercially viable products/services, legal protection of new products/services, and environmental factors contributing to innovation success. Course objectives are met primarily through classroom discussion and exercises. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390P. Integrative Field Project.
Students work directly with entrepreneurs to research projects and recommend solutions. May involve providing business development assistance to entrepreneurs. Students may work individually or in teams. Project results are summarized in a comprehensive written report and a formal oral presentation. Permission of the Instructor and Chair is required. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390Q. Management Thought: Past, Present, and Future.
This course examines how management thought has developed over time. It discusses how changing political, social, economic, and technological forces have challenged managers to respond in new ways. Significant management ideas will be examined in their contexts to better understand how to successfully manage for the future. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390R. Organizational Change.
This course presents an overview of the change process and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored, along with practical ideas on building effective teams to make change possible and sustainable. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390S. Business Creativity and Innovation.
Focuses on the importance of creativity and innovation to business organizations. Topics include the generation of creative ideas, transformation of ideas into commercially viable products/services, legal protection of new products/services, and environmental factors contributing to innovation success. Course objectives are met primarily through classroom discussion and exercises. Prerequisite: MGT 3303.

Problems dealing with stress and conflict during major change will be explored, along with practical ideas on building effective teams to make change possible and sustainable. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390W. Business Creativity and Innovation.
Focuses on the importance of creativity and innovation to business organizations. Topics include the generation of creative ideas, transformation of ideas into commercially viable products/services, legal protection of new products/services, and environmental factors contributing to innovation success. Course objectives are met primarily through classroom discussion and exercises. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390X. Integrative Field Project.
Students work directly with entrepreneurs to research projects and recommend solutions. May involve providing business development assistance to entrepreneurs. Students may work individually or in teams. Project results are summarized in a comprehensive written report and a formal oral presentation. Permission of the Instructor and Chair is required. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390Y. Management Thought: Past, Present, and Future.
This course examines how management thought has developed over time. It discusses how changing political, social, economic, and technological forces have challenged managers to respond in new ways. Significant management ideas will be examined in their contexts to better understand how to successfully manage for the future. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390Z. Organizational Change.
This course presents an overview of the change process and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored, along with practical ideas on building effective teams to make change possible and sustainable. Prerequisite: MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MGT 4390AA. Business Creativity and Innovation.
Focuses on the importance of creativity and innovation to business organizations. Topics include the generation of creative ideas, transformation of ideas into commercially viable products/services, legal protection of new products/services, and environmental factors contributing to innovation success. Course objectives are met primarily through classroom discussion and exercises. Prerequisite: MGT 3303.
MGT 4390Q. Leadership Development: Business as Unusual.
This course is a directed study and practical application of the principles of "Business as Unusual." Students will develop leadership skills for the experience economy through an intensive, highly interactive class format. Students will be paired with upper-level business professionals for one-on-one coaching and mentoring.

Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MGT 4390P. Coaching and Mentoring Practicum.
This course is a directed, practical application of extant leadership theories and principles. Students will further develop their leadership skills through intensive experiential activities.

Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MGT 4390Q. Introduction to Business in a Global Environment.
The course introduces the modern business enterprise with an emphasis on the interdependence of the business functions in a global environment. Topics include the cross border impacts of culture, politics, and law on trade, investment, marketing, management, and accounting and financial systems. Restricted to BBA students.

Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

This course integrates professional and academic experience through internship with an external employer. Restrictions: Management majors with human resource management concentration only; enrollment subject to availability and approval; credit pass/fail or grade at departmental election. Prerequisites: MGT 4373, Permission of Instructor.

Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MGT 4393. Entrepreneurial Internship.
The internship class provides integration of prior professional and academic experience through an entrepreneurial internship with an external employer. Prerequisite: MGT 3360. Restricted to Management majors with entrepreneurship concentration only. Departmental approval required.

Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MGT 4395. Management Internship.
This course provides an integration of professional and academic experience through internship with an external employer. Enrollment subject to availability and approval, credit is pass/fail or grade at departmental election.

Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Department of Marketing

McCoy Hall Room 424
T: 512.245.7428 F: 512.245.7475
www.marketing.mccoy.txstate.edu (http://www.marketing.mccoy.txstate.edu)

The mission of the Department of Marketing is to educate students to succeed in a dynamic business world. To accomplish this mission, faculty will combine effective teaching with basic, applied, and instructional scholarship with professional service. The faculty will strive for quality in all activities to help prepare students for leadership and service in a diverse, global, and competitive environment.

This program prepares students for challenging careers in a variety of business, non-profit, and governmental organizations. Marketing majors typically pursue careers in sales and sales management, product and brand management, retail management, physical distribution, marketing research, advertising, or international marketing. Texas State marketing students graduate with knowledge, skills, and a portfolio of projects that enable them to succeed in a dynamic business environment.

Bachelor of Business Administration (B.B.A.)

- Major in Marketing (p. 179)
- Major in Marketing (Professional Sales Concentration) (p. 179)
- Major in Marketing (Services Marketing Concentration) (p. 180)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Marketing (MKT)

This course studies the strategic marketing process, which creates value for consumers and organizations through integrated production and distribution of products. It examines the marketing process in the context of the global, cultural, economic, legal/regulatory environment. It also examines ethical and socially-responsible marketing and the impact of information technology.
about Principles of Marketing

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles of Marketing

MKT 3350. Consumer Behavior.
A study of the role of the consumer in marketing. Considers the motivation, personality, attitudes, perceptions, lifestyle, and decision-making processes of consumers. Prerequisite: MKT 3343.
about Consumer Behavior

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Consumer Behavior

MKT 3355. Retailing.
A study of the principles of retail store management, including market and trade area analysis, store location and design, organization and operation management, merchandising, inventory control, and promotion and pricing policies. Prerequisite: MKT 3343.
about Retailing

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Retailing

MKT 3358. Professional Selling.
A study of the professional selling process including strategically planning sales calls, strengthening communication skills, responding helpfully to objections, obtaining commitment and building partnerships. Examines cultivating committed relationships, strategic alliances, and partnering skills to provide total sales quality to the company, suppliers, and customers. Prerequisite: MKT 3343.
about Professional Selling

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Professional Selling

MKT 3360. Sales Management.
A study of issues related to planning for, managing, motivating, directing, and controlling a sales force and related sales territories. Both international and domestic perspectives are addressed. Special emphasis is given to the efficiency (cost consideration) and effectiveness (satisfaction consideration) of sales management. Prerequisite: MKT 3358.
about Sales Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Sales Management

The course will focus on developing goal setting, project identification, project planning and management, marketing, financing, and implementing student directed educational programs within the I-35 corridor. The projects are aimed at increasing citizen awareness and understanding of business and economic issues. Prerequisite: Consent of instructor. (WI).
about Studies in Free Enterprises

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Free Enterprises
MKT 3365. Services Marketing.
The services sector dominates the U.S. economy and is becoming critical for competitive advantage in companies across the globe and in all industry sectors. This course examines the foundations of services marketing, which are necessary to create, promise, and deliver a successful, interactive customer experience. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 3370. Marketing Research.
Comprehensive study of marketing research. Examines the research process, including problem formulation, developing a research plan, sampling, data analysis, and preparing a research report. Prerequisites: MKT 3343; QMST 2333.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 3375. Social Marketing.
Social Marketing is the use of marketing principles and techniques to influence a target audience to voluntarily accept, reject, modify, or abandon a behavior for the benefit of individuals, groups, or society as a whole. In this hands-on course, students develop and implement marketing campaigns for social change on behalf of non-profit clients. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 3380. Sports Marketing.
Examines four components of sports marketing, including: (1) the foundation of sports marketing, (2) marketing through sports, including sponsorship, endorsement, and licensing strategies, (3) the marketing of sports, including marketing mix strategies, and (4) emerging topics in sports marketing, including relationship marketing, technology, and controversial issues. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 3385. Ethnic and Niche Marketing.
The course introduces students to marketing approaches used to understand and market products/services to U.S. ethnic and/or subgroups of consumers. The course includes consumer behavior and research techniques as well as implications to the marketing mix. Prerequisites: MKT 3343 and MKT 3350.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 3387. Technology and Marketing.
Study of the marketing process using technologies, e.g., the internet and mobile that support and enhance marketing capabilities, such as the distribution of information. The course examines the impact of technology on the marketing of goods and services to satisfy needs and wants of customers and stakeholders. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 3390. Marketing Health Care.
A study of marketing and its role in health care, including buyer and service provider behavior, relevant marketing principles and strategies, and emerging topics, such as medical tourism, universal health care, and health care regulations. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 4310. International Marketing.
A study of the international planning and coordination of marketing functions, marketing policies, and the analysis of marketing on an international scope including environmental and cultural aspects. Pre: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi. Content & Perspective
Grade Mode: Standard Letter

MKT 4325. Advanced Topics in Service Marketing.
This class is a comprehensive study of services marketing theories, concepts, and strategies; it includes an examination of cost controls, research methodologies, branding, customer service innovation, consumer behavior, and service delivery. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 4330. Promotional Strategy.
Analysis of promotional methods used in marketing and their relation to other business functions. Examines advertising, selling, and sales promotion. Prerequisite: MKT 3343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MKT 4337. Marketing Management.
An integrative course that applies management concepts and techniques to the solution of marketing problems. Analyzes market segments and product positioning, product and product line price, channels of distribution, and promotion. Prerequisites: QMST 2333; MKT 3343, and six additional hours of marketing courses. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Assistant Dean for Faculty and Staff Development
Eric A. Schmidt, Ph.D.

Department Chairs
Curriculum and Instruction—Jodi Patrick Holschuh, Ph.D.
Health and Human Performance—Duane V. Knudson, Ph.D.
The College of Education includes three academic departments. These are Counseling, Adult Education, and School Psychology (CLAS); Curriculum and Instruction (CI); and Health and Human Performance (HHP).

Teacher preparation was the original mission of Southwest Texas Normal School when it was chartered in 1899, and today faculty members in the College of Education continue to focus on that primary mission. Over the last century, the mission of the College has expanded from preparing teachers at the undergraduate level to include the preparation of educators at the master’s and doctoral levels as well as the preparation of professionals in other fields including recreation administration, health and wellness promotion, athletic training, health and fitness management, educational leadership, school psychology, professional counseling, and adult and developmental education.

Academic Advising Center
Education Building Room 2143
T: 512.245.3050  F: 512.245.8225
www.education.txstate.edu/advising (http://www.education.txstate.edu/advising)

The College of Education Undergraduate Advising Center is a student-centered, collaborative resource for undergraduate students seeking an undergraduate degree through the College of Education. As an integral part of teaching and learning at Texas State, academic advisors in the Undergraduate Advising Center cultivate student success by engaging students in educational planning to promote academic, personal, and professional development while considering diverse interests, abilities, and goals. Services available for students include, but are not limited to:

- exploration of career and educational goals;
- assistance with selection of educational programs;
- interpretation of policies and procedures;
- information on course sequencing and degree requirements;
- referral to other university resources; and
- verification of graduation requirements.

Ultimately, the academic advisors in the College of Education Advising Center strive to develop a guidance and support system to encourage student self-reliance, responsibility, and success in achieving academic goals.

Teacher Certification

Students seeking certification to teach EC-6 (Early Childhood through Grade Six), 4-8 (Grade Four through Grade Eight), or All-Level Special Education (Early Childhood through Grade Twelve) will major in Interdisciplinary Studies in the Department of Curriculum and Instruction within the College of Education. Students may acquire an All-level certificate to teach Physical Education or Health in the Department of Health and Human Performance within the College of Education. Students seeking 6, 7, or 8-12 (Grade Six, Seven, or Eight through Grade Twelve) certification or All-level certification in other disciplines will instead complete an academic major within their chosen teaching field in the department and college where that major is housed. Students should note that teacher certification requirements may differ from degree requirements and that completion of both is necessary for awarding a degree and recommending a student for teacher certification. In order to pursue teacher certification, students must apply and be admitted into the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

Courses in Education Student Teaching (EDST)

EDST 4380. Student Teaching All-Level I EC-6/4-8.
This half-semester student teaching course is designed for undergraduate students seeking All-Level teacher certification. Students will engage in teaching experiences in EC-6 or 4-8 settings for half of a 14-week assignment with university guidance and supervision. Repeatable for credit. Prerequisite: Admission to the Teacher Preparation Program; Co-requisite: EDST 4381; All coursework completed; 2.75 Overall GPA.

Department of Counseling, Leadership, Adult Education, and School Psychology

Education Building Room 4037
T: 512.245.2575 F: 512.245.8872
www.txstate.edu/clas (http://www.txstate.edu/clas)

The Department of Counseling, Leadership, Adult Education, and School Psychology (CLAS) is primarily a graduate department, offering programs in Professional Counseling, School Counseling, Adult Education, Educational Leadership, School Psychology, and Student Affairs in Higher Education. While the department offers no undergraduate degrees, it does provide support courses for other programs.

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this department include: COUN (p. 182), SAHE (p. 182)

Courses in Counseling (COUN)

COUN 3320. Introduction to Counseling and Psychotherapy.
The course is designed for upper-division undergraduates considering a helping profession or who wish to know more about counseling before entering into graduate study. The course offers introduction to counseling, counseling theories, and interpersonal communication skills that facilitate counseling relationships. Repeatable for credit with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Introduction to Counseling and Psychotherapy

Courses in Student Affairs in Higher Education (SAHE)

SAHE 4178. Student Leadership in Higher Education.
This course provides students with knowledge to strengthen the campus experience through holding student leadership roles. Students will learn skills, principles, and characteristics necessary for responsible and positive leadership as well as the role of student leadership and student engagement in higher education. Repeatable for credit with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

Ybanez-Llorente, Kathy, Associate Professor, Coun, Ldr, Adult Ed & Sch Psy, Ph.D., Texas A&M Univ-Corpus Christi

Levels of Certification

Students who wish to teach Early Childhood (EC) through Grade 6 (elementary), Grades 4-8 (middle school), or All-Level Special Education pursue the Bachelor of Science major in Interdisciplinary Studies.

Students seeking 6-12, 7-12, or 8-12 (Grade Six, Seven, or Eight through Grade Twelve) certification or All-level certification in other disciplines will instead complete an academic major within their chosen teaching field in the department and college where that major is housed and should consult with advisors in that college.

Admittance to the Teacher Preparation Program

With exception of the minor in Special Education, all degree programs within the Department of Curriculum and Instruction require formal admittance into the Teacher Preparation Program. (Refer to the Office of Educator Preparation (p. 232) section.)

Bachelor of Science (B.S.)

- Major in Interdisciplinary Studies (Teacher Certification in Bilingual Generalist-Spanish, Early Childhood Through Grade 6) (p. 193)
- Major in Interdisciplinary Studies (Teacher Certification in English as a Second Language Generalist, Early Childhood Through Grade 6) (p. 194)
- Major in Interdisciplinary Studies (Teacher Certification in English, Language Arts, Reading and Social Studies, Grades 4-8) (p. 195)
- Major in Interdisciplinary Studies (Teacher Certification in Generalist, Grades 4-8) (p. 197)
- Major in Interdisciplinary Studies (Teacher Certification in Mathematics, Grades 4-8) (p. 197)
- Major in Interdisciplinary Studies (Teacher Certification in Mathematics and Science, Grades 4-8) (p. 198)
- Major in Interdisciplinary Studies (Teacher Certification in Science, Grades 4-8) (p. 199)
- Major in Interdisciplinary Studies (Teacher Certification in Special Education, Early Childhood Through Grade 12) (p. 200)

Minors

- Secondary Education
- Special Education

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Levels of Certification

Students who wish to teach Early Childhood (EC) through Grade 6 (elementary), Grades 4-8 (middle school), or All-Level Special Education pursue the Bachelor of Science major in Interdisciplinary Studies.

Students seeking 6-12, 7-12, or 8-12 (Grade Six, Seven, or Eight through Grade Twelve) certification or All-level certification in other disciplines will instead complete an academic major within their chosen teaching field in the department and college where that major is housed and should consult with advisors in that college.

Interdisciplinary Studies Majors

Students seeking this major should consult with advisors in the College of Education Undergraduate Advising Center for detailed information regarding specific degree requirements, the semester-by-semester sequence, and other requirements such as block applications. Because courses must be taken in a predetermined sequence, it is likely that students will be required to attend summer sessions in order to complete the program within a 4-year time period.

CI 3310. Public Education in a Multicultural Society.
Course utilizes historical, sociocultural, and political lenses to provide an overview of public schooling as a complex system within a multicultural society. Key concepts include: educational philosophy, legal and policy issues, curriculum and instruction, equity, school-community connections, and teachers as change agents. Prerequisite: 2.75 overall GPA. Junior classification required. Must be declared in a degree program that leads to teacher certification.
about Public Education in a Multicultural Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Public Education in a Multicultural Society

CI 3315. Human Development: Learning and Being in Social Contexts.
Drawing from psychological, sociological, anthropological, and historical traditions, this course explores human development, learning theories, identity issues, and multicultural education, especially as these pertain to second-language learners. Implications for classrooms and teaching are included. Prerequisite: 2.75 overall GPA. Junior Classification required. Must be declared in a degree program that leads to teacher certification. (W).
about Human Development: Learning and Being in Social Contexts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s); Writing Intensive
Grade Mode: Standard Letter
about Human Development: Learning and Being in Social Contexts

CI 3322. The Design and Application of the EC-6 Curriculum.
Course focuses on design and application of curricula including content, instructional methodologies and assessment. Foundational theories of human development and learning will be used as students focus on the organization of content, instructional strategies, classroom environment, utilization of materials, and assessment. Prerequisites: Admission to the Teacher Preparation Program; CI 3310, CI 3315; RDG 4320; 2.75 Overall GPA. (W).
about The Design and Application of the EC-6 Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s); Lab Required|Writing Intensive
Grade Mode: Standard Letter
about The Design and Application of the EC-6 Curriculum

CI 3325. Adolescent Growth and Development.
Study of biological, cognitive, and psychological theories and processes of adolescence. Prepares prospective teachers to understand abilities, behaviors, and needs of learners. Roles of family, peer groups, and culture examined with the aid of contemporary adolescent literature. Prerequisite: 2.75 overall GPA. Junior classification required. Must be declared in a degree program that leads to teacher certification.
about Adolescent Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Adolescent Growth and Development

CI 3332. Foundations of Bilingual and ESL Education.
This course examines the rationale, history, and philosophy of bilingual and ESL education and develops students’ understanding of the cultural and psychological influences that mediate the learning process. Prerequisites: Admission to the Teacher Preparation Program; CI 3315, CI 3310, ECE 4300; 2.75 Overall GPA.
about Foundations of Bilingual and ESL Education
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Bilingual and ESL Education

CI 3338. Social Studies in the Elementary and Middle School.
The course provides learner-centered approaches to social studies knowledge, instruction, equity, communication, and professional development and prepares educators with strong foundations for powerful social studies teaching and learning practices including: (a) deep understanding/appreciation, (b) increased awareness of non-traditional approaches, (c) practical methods and applications, and (d) daily integration into teaching. Prerequisites: Junior Classification; 2.75 overall GPA. Restriction: Students majoring in Interdisciplinary Studies.
about Social Studies in the Elementary and Middle School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Studies in the Elementary and Middle School

CI 4300. Middle Level Philosophy and Schooling.
Physical, social, emotional, cognitive, and moral characteristics of young adolescents in contexts of family, community, school, society. History and philosophy of middle school as a developmentally appropriate environment for young adolescents. Continued study of instruction that is affectively and cognitively appropriate for young adolescents. Prerequisites: Admission to the Teacher Preparation Program; RDG 4310; RDG 3315; 2.75 Overall GPA. (W).
about Middle Level Philosophy and Schooling
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s); Writing Intensive
Grade Mode: Standard Letter
about Middle Level Philosophy and Schooling

CI 4325. Classroom Management and Teacher-Student Relationships.
Course will focus on classroom management theories and models. Personal philosophy, beliefs, and style of teaching will be examined as they relate to the various methods of classroom management, student discipline, and teacher-student relationships. Prerequisites: Admission to the Teacher Preparation Program; CI 3310, CI 3315, CI 3332, CI 4360; RDG 4320; ECE 4300, ECE 4310, ECE 4352; Co-requisites: RDG 3315, RDG 3321; 2.75 Overall GPA.
about Classroom Management and Teacher-Student Relationships
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Classroom Management and Teacher-Student Relationships
CI 4332. Secondary Teaching: Curriculum and Technology.
This course investigates secondary curriculum, its history, organization, development, and representation in instructional materials. Students learn how curriculum is decided, impacted, and assessed, and the role of technology in curriculum. Topics include local, state, and national standards, trends, and roles of culture and technology in teaching and learning. Prerequisite: 2.75 overall GPA. Junior classification required. Must be declared in a degree program that leads to teacher certification.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Secondary Teaching: Curriculum and Technology

CI 4343. Instructional Strategies for the Secondary Teacher.
This course focuses on the study of models for instruction, with attention to assessment and classroom management. Students develop and practice strategies for building classroom communities, teaching all learners, and integrating technology into instruction. The focus is on meeting the needs of individual learners while maintaining academic rigor. Prerequisites: Admission to the Teacher Preparation Program; CI 3325 and CI 4332; 2.75 Overall GPA; Corequisites: CI 4370 and RDG 3323. about Instructional Strategies for the Secondary Teacher

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Strategies for the Secondary Teacher

Course provides an in-depth study of the mathematics content and methodology derived from principles of learning and research. Primary focus will be on the development of mathematics understanding and relevant applications rather than manipulation of numbers without context, purpose, or concepts. Students will develop the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and develop techniques for evaluating pupil progress within a field-based environment. Prerequisites: MATH MATH 1315, MATH 1319, MATH 2417, MATH 2471, or MATH 2472; MATH 2311 and MATH 2312. Grades of "C" or higher must be earned in all prerequisites. 2.75 overall GPA required. Junior classification required. Must be declared in a degree program that leads to teacher certification. about Mathematics in the Integrated Elementary Curriculum

about Mathematics in the Integrated Elementary Curriculum

CI 4355. Science in Elementary Education.
Course provides an overview of science standards and content, research-based science pedagogy, and the scientific process skills required for a developmentally appropriate, inquiry-driven science curriculum that facilitates the development of scientific literacy for all students, including second language learners. Prerequisites: PHYS 1310 or PHYS 1315 or PHYS 1410; and PHYS 1320 or PHYS 1325 or PHYS 1420; and PHYS 1110 or PHYS 1115 or PHYS 1125; and BIO 1320 or BIO 1430 or BIO 1330 or BIO 1431 or BIO 1331 or BIO 1421. Grades of "C" or higher must be earned in all prerequisites. 2.75 overall GPA required. Junior classification required. Must be declared in a degree program that leads to teacher certification. about Science in Elementary Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Science in Elementary Education

CI 4360. Methods and Materials for Teaching ESL in the Content.
This course addresses content, methods, and materials of elementary ESL classroom instruction, including curricula, strategies, and materials for meeting the needs of English language learners in all academic content areas. Prerequisites: Admission to the Teacher Preparation Program; ECE 4300 (for ESL Generalists); CI 3332, CI 4361 (for Bilingual Generalists); 2.75 Overall GPA.
about Methods and Materials for Teaching ESL in the Content

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Methods and Materials for Teaching ESL in the Content

CI 4361. Psychological Foundations of Bilingual Education.
The study of the educational foundation and development of bilingual education. The evaluation of achievement and learning ability of the Limited English Proficient (LEP) pupil will be examined. The psychological development of the LEP pupil and relationship of cultural values, socialization practices and learning styles will be analyzed. Prerequisites: Admission to the Teacher Preparation Program; Junior classification; 2.75 Overall GPA.
about Psychological Foundations of Bilingual Education

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Psychological Foundations of Bilingual Education

CI 4362. The Elementary Bilingual Content Areas.
A study of the mathematics, science, social studies, and language arts curriculum of the bilingual elementary classroom. Prerequisites: Admission to the Teacher Preparation Program; CI 3332, CI 4361, and 2.75 Overall GPA.
about The Elementary Bilingual Content Areas

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary Bilingual Content Areas

CI 4365. Biliteracy for Bilingual Learners.
This course targets the dynamic, reciprocal process of literacy development in Spanish and English for bilingual learners. Theories, instructional methods and strategies, texts, and materials will be examined through an integrated approach that considers sociocultural, cognitive, linguistic, and political factors. The course will be taught in both Spanish and English. Prerequisites: Junior standing or higher; Admission to the Teacher Preparation Program; 2.75 Overall GPA; CI 3332, CI 4362.
about Biliteracy for Bilingual Learners

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biliteracy for Bilingual Learners
This course focuses on the development of an appropriate classroom management system based on current theory and research, analysis of legal and ethical issues as they relate to classroom teachers and students, and field experiences in a variety of secondary classroom environments. Prerequisites: Admission to the Teacher Preparation Program; CI 3325 and CI 4332; 2.75 Overall GPA; Corequisites: CI 4343 and RDG 3323.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Classroom Management, Ethics, and Legal Issues in Secondary Teaching

CI 4378. Problems in Education.
Individual problems related to areas of selected study for the undergraduate student, designed to meet individual differences for the purpose of certification. A letter following the course title on the permanent record will indicate the area of emphasis according to this code: (i) Elementary, (j) Secondary, and (l) Bilingual. Repeatable for credit with different emphasis. Prerequisite: Admission to the Teacher Preparation Program; 2.75 Overall GPA.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Problems in Education

Courses in Early Childhood Education (ECE)

ECE 4300. The Languages of Children: Acquisition and Use.
This course is designed to provide pre-service teachers with pertinent information regarding the development of language and cognition in pre-school and school-aged children. Information regarding language structure, the sequence of development as well as the cognitive and social aspects of language acquisition and use will be included. Prerequisites: 2.75 overall GPA. Junior classification required. Must be declared in a degree program that leads to teacher certification.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about The Languages of Children: Acquisition and Use

ECE 4310. Seminar for Teachers of Young Children.
Directed field experiences in observation, participation, problem solving, assessing and teaching in programs for young children. A minimum of 1.5 hour seminar per week is required in addition to assignment (three hours weekly) in an approved preschool or kindergarten program. Prerequisites: Admission to the Teacher Preparation Program; CI 3310, CI 3315, ECE 4300; Co-requisite: ECE 4352; 2.75 Overall GPA.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Seminar for Teachers of Young Children

ECE 4352. Curriculum for Preschool and Kindergarten Children.
Emphasizes research, program development, and developmentally appropriate teaching strategies, materials and activities for children ages 3-6 and collaboration with families. Prerequisites: Admission to the Teacher Preparation Program; CI 3310, CI 3315, ECE 4300; Co-requisite: ECE 4310; 2.75 Overall GPA.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum for Preschool and Kindergarten Children

ECE 4378. Problems in Education.
Individual problems related to areas of selected study for the undergraduate student, designed to meet individual differences for the purpose of certification. A letter following the course title on the permanent record will indicate the area of emphasis according to this code: (i) Elementary, (j) Secondary, and (l) Bilingual. Repeatable for credit with different emphasis. Prerequisite: Admission to the Teacher Preparation Program; 2.75 Overall GPA.

Grade Mode: Standard Letter
about Problems in Education

Courses in Educational Psychology (EDP)

EDP 1350. Effective Learning.
A study of the acquisition of procedural knowledge through the application of human learning theory, cognitive behavior modifications, and developmental psychology. Generalization and transfer of this knowledge will be emphasized. Repeatable for credit with different emphasis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Learning

Courses in Reading (RDG)

RDG 1300. Reading Improvement.
A content-based learning strategies course for students who require compensatory instruction in vocabulary, reading comprehension, critical reading, study skills, and test-taking skills. Required for students who fail to make passing scores on the TASP reading subtest. Concurrent enrollment in specific sections of appropriate general education courses is required. Credit earned for this course will not count toward any baccalaureate degree offered by the University.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing/Developmental/Lab Required
Grade Mode: Developmental
about Reading Improvement
RDG 3312. Reading and Writing Instruction for Children with Special Needs.
Course focuses on classroom reading instruction for children not making average progress in literacy. Course topics: nature and identification of literacy difficulties, including dyslexia; modification of instruction for children with special needs; diagnostic teaching, teacher/ program effectiveness and legal requirements of special populations. Prerequisites: Admission to the Teacher Preparation Program; RDG 3315, RDG 4310; 2.75 Overall GPA. about Reading and Writing Instruction for Children with Special Needs 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Reading and Writing Instruction for Children with Special Needs

RDG 3315. Assessing Literacy: Early Childhood Through Grade Six.
Students will understand principles of literacy assessment to guide literacy instruction for all children, including culturally and linguistically diverse students, and plan appropriate instruction in a field-based setting. Prerequisites: Admission to the Teacher Preparation Program; CI 3315, CI 3310, CI 3332, CI 4360, ECE 4300, ECE 4310, ECE 4352; Co-requisites for EC-6: RDG 3321, RDG 3320; Co-requisite for 4-8: RDG 4310; 2.75 Overall GPA. about Assessing Literacy: Early Childhood Through Grade Six 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Assessing Literacy: Early Childhood Through Grade Six

RDG 3320. Integrating Reading and Writing.
Course focuses on the integration of reading and writing with other subject areas, especially social studies, with special attention given to ESL methodologies for language arts instruction. The workshop approach for reading and writing is emphasized. Prerequisites: Admission to the Teacher Preparation Program; Co-requisites: RDG 3315, RDG 3321; 2.75 Overall GPA. (WI). about Integrating Reading and Writing 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Integrating Reading and Writing

RDG 3321. Literacy Instruction for Early Childhood Through Grade Six.
Course provides for the understanding, critical analysis, and application of current literacy methods and materials, with a focus on ESL theories and methodologies. Course is taught in a field-based setting. Prerequisites: Admission to the Teacher Preparation Program; CI 3315, CI 3310, CI 3332, CI 4360, ECE 4300, ECE 4310, CI 4370; Co-requisites: RDG 3315, RDG 3320; 2.75 Overall GPA. (WI). about Literacy Instruction for Early Childhood Through Grade Six 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Literacy Instruction for Early Childhood Through Grade Six

RDG 3323. Teaching Reading in the Content Areas.
Provides information about reading in secondary content areas emphasizing selection and use of materials, including textbooks in print and electronic formats. Topics include instructional strategies, assessment of comprehension, and adapting instruction to meet student needs. Prerequisites: Admission to the Teacher Preparation Program; CI 3325, CI 4332; Co-requisites: CI 4343, CI 4370; 2.75 Overall GPA. about Teaching Reading in the Content Areas 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Teaching Reading in the Content Areas

RDG 4310. Content Reading.
Course provides information about instruction in the elementary content areas with emphasis on the effective use of textbooks and tradebooks. Course topics include: nature and purpose of content instruction and reading, text selection, use of tradebooks, comprehension, inquiry learning and problem solving, and assessment and meeting individual needs in content reading. Prerequisites: Admission to the Teacher Preparation Program; CI 3310, CI 3325; Co-requisite: RDG 3315; 2.75 Overall GPA. about Content Reading 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter about Content Reading

RDG 4320. Language and Literacy in Diverse Communities.
Course includes the examination of sociolinguistic theories and an introduction to culturally responsive teaching of literacy. Topics address social identity factors, ethnicity, language variation, bilingualism, and the acquisition of Standard American English with implications for effective literacy instruction. Prerequisite: 2.75 overall GPA. Junior classification required. Must be declared in a degree program that leads to teacher certification. (MC). about Language and Literacy in Diverse Communities 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Grade Mode: Standard Letter about Language and Literacy in Diverse Communities

RDG 4380. Independent Study in Reading Instruction.
Analysis and interpretation of selected topics of special interest in reading and language arts instruction. Topics and instructors will vary from semester to semester. Repeatable for credit with different emphasis. Prerequisites: Admission to the Teacher Preparation Program; 2.75 Overall GPA. about Independent Study in Reading Instruction 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Grade Mode: Standard Letter about Independent Study in Reading Instruction
Courses in Special Education (SPED)

SPED 2360. Survey of Exceptionalities.
Course provides for the examination of types, characteristics, and causes of various exceptionalities; identifies federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community. Prerequisite: Sophomore classification. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Exceptionalities

SPED 3338. Educating Students with Emotional/Behavioral Disorders.
This course addresses topics associated with teaching students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues. Prerequisites: Admission to the Teacher Preparation Program or Minor in Special Education; 2.75 Overall GPA. Co-requisites: SPED 2360.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Emotional/Behavioral Disorders

SPED 3390. Assessing Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude; academic achievement; social, emotional, and motor development; and includes implications of these results for instruction or remediation. Prerequisites: Admission to the Teacher Preparation Program or Minor in Special Education; 2.75 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessing Students with Disabilities

SPED 4310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on an independent study basis with faculty member and available only with permission of department. Prerequisites: Admission to the Teacher Preparation Program; 2.75 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 4340. Evidence-Based Instructional Practices for Students with Mild or Moderate Disabilities.
This course delineates evidence-based instructional theories and practices for students with mild or moderate disabilities. The course targets curricular and instructional design for students who need specialized methods for successful learning. Topics include curriculum-based measurement and progress monitoring, specialized evidence-based strategies matched to presenting characteristics, and evidence-based inclusion models. Prerequisites: 2.75 Texas State GPA, SPED 2360. Prerequisite/corequisite: SPED 3930.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Evidence-Based Instructional Practices for Students with Mild or Moderate Disabilities

SPED 4344. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented. Prerequisite: 2.75 overall GPA. Junior classification required. Must be admitted to the Teacher Preparation Program or Minor in Special Education.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 4345. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas. Prerequisites: Admission to the Teacher Preparation Program and Minor in Special Education; SPED 2360; 2.75 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities

SPED 4374. Classroom and Behavior Management Strategies for Students with Disabilities.
Effective strategies for classroom management. Topics include: common management problems, evaluation of classroom management approaches, strategies for preventing behavior problems, teaching new behaviors, increasing desired group and individual behaviors, and positive strategies for reducing inappropriate group and individual behaviors. Prerequisites: Admittance to the Teacher Preparation Program or Minor in Special Education; 2.75 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Classroom and Behavior Management Strategies for Students with Disabilities
**SPED 4381. Educating Students with Intellectual and Developmental Disabilities.**

This course provides an overview of student characteristics and appropriate instructional techniques pertaining to individuals with intellectual and developmental disabilities. Techniques include specialized assessment and instructional strategies, functional curriculum development, transition planning, positive behavior supports, and assistive technologies. Prerequisites: Admittance to the Teacher Preparation Program or Minor in Special Education, 2.75 Overall GPA, SPED 2360.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

about Educating Students with Intellectual and Developmental Disabilities

**SPED 4389. Special Education Practicum.**

This course provides opportunities for students to design and apply assessment, planning, and instructional strategies. Students may be required to instruct in one or more content areas including academic, life, social, prevocational or vocational and/or communication skills. Prerequisites: Admittance to the Teacher Preparation Program; SPED 2360, SPED 3338 or SPED 4381, SPED 4345, SPED 4374; 2.75 Overall GPA.

**3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.**

Bachelor of Science (B.S.) Major in Interdisciplinary Studies (Teacher Certification in Bilingual Generalist-Spanish, Grades EC-6)

Minimum required: 125 semester hours

General Requirements

1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

2. A 2.5 Major GPA and a 2.75 Overall GPA are required to graduate.

3. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of “C” or higher.

4. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

5. Any degree program of 122 hours or more may be considered a five-year program. To complete the predetermined sequence of courses in 4 years, students will most likely need to attend summer sessions.

**Total Hours: 125**

1. While not recommended, previously completed courses in some areas can be substituted for the following degree requirements:
   - MATH 2417 or MATH 2471 with a grade of "C" or better can satisfy the MATH 1315 or MATH 1319 requirement.
   - BIO 1421 or BIO 1330 or BIO 1331 with a grade of "C" or better can satisfy the BIO 1320 requirement.
   - PHYS 1315 with a grade of "C" or better can satisfy the PHYS 1310 requirement.
   - PHYS 1325 with a grade of "C" or better can satisfy the PHYS 1320 requirement.
   - PHYS 1115 or PHYS 1125 with a grade of "C" or better can satisfy the PHYS 1110 requirement.

2. SPAN 1410, SPAN 1420, SPAN 2310, and SPAN 2320 are prerequisites for SPAN 3308.

---

**Bachelor of Science (B.S.) Major in Interdisciplinary Studies (Teacher Certification in English as a Second Language Generalist, Grades EC-6)**

**Minimum required: 125 semester hours**

**General Requirements**

1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

2. A 2.5 Major GPA and a 2.75 Overall GPA are required to graduate.

3. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of "C" or higher.

4. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

5. Any degree program of 122 hours or more may be considered a five-year program. To complete the predetermined sequence of courses in 4 years, students will most likely need to attend summer sessions.

Bachelor of Science (B.S.) Major in Interdisciplinary Studies (Teacher Certification in Mathematics and Science, Grades 4-8)

Minimum required: 131 semester hours

General Requirements

1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

2. A 2.5 Major GPA and a 2.75 Overall GPA are required to graduate.

3. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of "C" or higher.

4. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

5. Any degree program of 122 hours or more may be considered a five-year program. To complete the predetermined sequence of courses in 4 years, students will most likely need to attend summer sessions.
### Bachelor of Science (B.S.) Major in Interdisciplinary Studies (Teacher Certification in Science, Grades 4-8)

**Minimum required:** 126 semester hours

#### General Requirements

1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

2. A 2.5 Major GPA and a 2.75 Overall GPA are required to graduate.

3. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of “C” or higher.

4. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

5. Any degree program of 122 hours or more may be considered a five-year program. To complete the predetermined sequence of courses in 4 years, students will most likely need to attend summer sessions.

**Bachelor of Science (B.S.) Major in Interdisciplinary Studies (Teacher Certification in Special Education, Grades EC-12)**

**Minimum required: 125 semester hours**

**General Requirements**

1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

2. A 2.5 Major GPA and a 2.75 Overall GPA are required to graduate.

3. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of “C” or higher.

4. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

5. Any degree program of 122 hours or more may be considered a five-year program. To complete the predetermined sequence of courses in 4 years, students will most likely need to attend summer sessions.

While not recommended, previously completed courses in some areas can be substituted for the following degree requirements:  
- MATH 2417 or MATH 2471 with a grade of "C" or better can satisfy the MATH 1315 or MATH 1319 requirement.  
- BIO 1421 or BIO 1330 or BIO 1331 with a grade of "C" or better can satisfy  
- PHYS 1315 with a grade of "C" or better can satisfy the PHYS 1310 requirement.  
- PHYS 1325 with a grade of "C" or better can satisfy the PHYS 1320 requirement.  
- PHYS 1115 or PHYS 1125 with a grade of "C" or better can satisfy the PHYS 1110 requirement.

### Minor in Secondary Education

A minor in Secondary Education requires 21 hours, including:  

**Education Core**  
CI 4332 Secondary Teaching: Curriculum and Technology 3  
CI 3325 Adolescent Growth and Development 3  

**Field-Based Block**  
CI 4343 Instructional Strategies for the Secondary Teacher 3  
CI 4370 Classroom Management, Ethics, and Legal Issues in Secondary Teaching 3  
RDG 3323 Teaching Reading in the Content Areas 3  

**Student Teaching**  
EDST 4681 Student Teaching 8-12 6  

**Total Hours** 21  

**Note** that a minor in Secondary Education is not available with all majors. Students must declare a major in a content area for which teacher certification is available. See the Academic Advisor in the College of your major for more information.

### Minor in Special Education

A minor in Special Education requires 21 hours, including:  

- SPED 2360 Survey of Exceptionalities 3  
- SPED 3338 Educating Students with Emotional/Behavioral Disorders 3  
- SPED 3390 Assessing Students with Disabilities 3  
- SPED 4344 Educating Students with Mild Disabilities 3  
- SPED 4345 Teaching Language Arts to Students with Disabilities 3  
- SPED 4374 Classroom and Behavior Management Strategies for Students with Disabilities 3  
- SPED 4381 Educating Students with Intellectual and Developmental Disabilities 3  

**Total Hours** 21  

Students pursuing a Minor in Special Education, who are not otherwise declared in a teacher certification-seeking degree plan, do not need to be admitted to the Teacher Preparation program. They will, however, encounter prerequisite restrictions when attempting to register for their SPED minor courses since those courses in the registration system list 'Teacher Certification Cohort' as a prerequisite requirement. In order to resolve this, those students will need to request prerequisite overrides each semester for each SPED course that they plan to register for by
using the CI Department’s Prerequisite Override Request form accessible at: http://www.education.txstate.edu/ci/forms/course-override.html.

Department of Health and Human Performance

Jowers Center Room A116

Exercise and Sports Science

The Bachelor of Exercise and Sports Science (B.E.S.S.) has several specializations that allow graduates to prepare for careers in education, exercise prescription, health professions, management of exercise programs, and coaching. The BESS with All-Level (EC-12) Teacher Certification in Physical Education prepares graduates to teach in elementary and secondary schools. The BESS with a concentration in Health and Wellness Promotion for Clinical Populations prepares graduates for careers in cardiopulmonary, clinical exercise physiology, and diagnostic testing and programming for cardiac rehabilitation and other special populations. The BESS with a concentration in Pre-Physical Therapy gives students a degree that is well aligned with entrance requirements of advanced study in health care and allied health professions like physical therapy, occupational therapy, orthotics/prosthetics, chiropractics, or physician’s assistant. The BESS with a major in Health and Fitness Management and minor in Business Administration blends exercise science knowledge with the management and leadership skills needed to direct fitness enterprises and wellness/health awareness programs in commercial, corporate, and institutional settings.

Athletic Training

Athletic trainers (ATs) are health care professionals who specialize in the prevention, diagnosis, clinical management and rehabilitation of musculoskeletal injuries and medical conditions.

Texas State University has a long and rich history with regard to athletic training education. Our Professional Program in Athletic Training was one of the first programs in the United States to be accredited, and has been continuously accredited since 1972. The Commission on Accreditation of Athletic Training Education (CAATE) has accredited our Bachelor of Science degree program in Athletic Training through the 2019-2020 academic year. Admission to the Professional Program in Athletic Training at Texas State University is a competitive process that involves successful completion of all of the requirements associated with a Pre-Athletic Training Program, e.g., 5 specific prerequisite courses, 50 hours of directed observation, a formal written application due April 1st, a formal admission interview on or about May 1st, and a minimum Texas State GPA of 2.75. Admission selections are made once per year, at the end of the academic year. In early June each year, the 20 top-ranked applicants are offered admission for the upcoming year as sophomores in the program. Once admitted to the Athletic Training sophomore cohort, the student will take six long semesters (three years) of supervised clinical education experiences in conjunction with a formal sequence of lecture and laboratory-based courses. Completion of our Bachelor of Science degree in Athletic Training qualifies the student to take the national Board of Certification examination and the Texas Advisory Board of Athletic Trainers state licensure examination. For the most current program information and a comprehensive list of all of the Athletic Training Program admission requirements, please refer to our website, http://www.hhp.txstate.edu/Divisions/Athletic-Training.html.

Health Education

Health promotion is the process of empowering people to make informed decisions to improve personal and community health. The Bachelor of Health and Wellness Promotion provides students the opportunity to become competent in the seven areas of responsibility to improve the practice of health education and promotion. Degree focus areas offered include community health promotion or school health education with the option of becoming a Certified Health Education Specialist or obtaining teacher certification. Professionals in health education and health promotion work in many settings, including community, school (K-12), health care, business/industry, college/university professional preparation programs, and university health services settings.

Recreational Administration

The Bachelor of Science in Recreational Administration combines classroom learning and on-the-job training in two career tracks: recreation administration and therapeutic recreation. Students study such areas as recreation programming, leadership, marketing, evaluation, administration, and therapeutic recreation. Recreational Administration graduates, work in camps, nursing homes, recreation centers, resorts, hospitals, rehabilitation facilities, fitness centers, and state and national parks. The program is nationally accredited in recreation administration and therapeutic recreation. Graduates of this program are eligible to sit for certification examinations for National Council for Therapeutic Recreation Certification (CTRS) and/or the National Recreation and Park Association’s National Certification Board (CPRP).

PFW Service Courses

Several Texas State degree programs require Physical Fitness and Wellness (PFW) classes to give students knowledge, skills, and health-related benefits of physical activity. All students may elect to take PFW classes to learn new skills/activities, relieve stress, maintain health, and meet others with similar activity interests. The PFW program provides a wide variety of activity classes that include sports, games, indoor or outdoor activities both on and off campus. PFW classes are for students of all ages, skill ranges, and abilities or disabilities. Some PFW classes, however, are restricted to students who are involved in athletics, band, ROTC, and other organizations. Some off-campus classes have an additional activity fee appropriate for the instructor and facilities used. Contact the Director of the PFW Division if you have any questions about PFW classes.

Admittance to the Teacher Preparation Program

The All-Level Physical Education and All-Level Health Teacher Certifications require formal admittance into the Teacher Preparation Program by the Office of Educator Preparation. (Refer to “Admittance to the Teacher Preparation Program” section under the College of Education.)

Bachelor of Exercise and Sports Science (B.E.S.S.)

• Major in Exercise and Sports Science (Pre-Physical Therapy Concentration) (p. 220)
• Major in Exercise and Sports Science (Health and Wellness Promotion for Clinical Populations Concentration) (p. 221)
• Major in Exercise and Sports Science (Teacher Certification in Physical Education, Grades EC-12) (p. 223)
• Major in Health and Fitness Management (p. 224)

**Bachelor of Health and Wellness Promotion (B.H.W.P.)**
- Major in Health and Wellness Promotion (p. 226)
- Major in Health and Wellness Promotion (Teacher Certification in Health, Grades EC-12) (p. 227)

**Bachelor of Science (B.S.)**
- Major in Athletic Training (p. 228)

**Bachelor of Science in Recreational Administration (B.S.R.A.)**
- Major in Recreational Administration (p. 229)
- Major in Recreational Administration (Therapeutic Recreation Concentration) (p. 230)

**Minors**
- Coaching
- Exercise and Sports Science
- Health and Wellness Promotion
- Recreational Administration
- Second Teaching Field in Health (Grades EC-12)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Subjects in this department include:** AT (p. 203), ESS (p. 205), H ED (p. 209), PFW (p. 211), REC (p. 216)

**Courses in Athletic Training (AT)**

**AT 1298. Orientation to Athletic Training Education.**
Pre-Athletic Training majors will be introduced to the academic and clinical aspects of the CAATE accredited athletic training education program. The course is utilized as part of the rigorous student evaluation process before formal entrance into the athletic training education program. 
about Orientation to Athletic Training Education
2 Credit Hours. 1 Lecture Contact Hour. 1 Lab Contact Hour. 
Grade Mode: Standard Letter
about Orientation to Athletic Training Education

**AT 2156. Taping and Bandaging Athletic Injuries.**
This course focuses on the use of taping, bracing, and bandaging techniques in the prevention and care of athletic injuries. 
about Taping and Bandaging Athletic Injuries
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours. 
Grade Mode: Standard Letter
about Taping and Bandaging Athletic Injuries

**AT 2260. Acute Care of Injuries and Illnesses.**
This course will address the knowledge and skills related to the immediate evaluation and specialized care of acute injuries and illnesses common in sports settings. Lectures and laboratory experiences are focused on key aspects of emergency sports health care, including the rapid assessment, resuscitation, packaging and transportation of injured patients. Must be admitted to the Pre-Athletic Training major to enroll. 
about Acute Care of Injuries and Illnesses
2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours. 
Grade Mode: Standard Letter
about Acute Care of Injuries and Illnesses

**AT 2356. Prevention and Care of Athletic Injuries.**
This course focuses on the theoretical and practical aspects of the prevention, treatment, and rehabilitation of athletic injuries. 
about Prevention and Care of Athletic Injuries
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter
about Prevention and Care of Athletic Injuries

**AT 2497. Clinical Experience in Athletic Training I.**
This course addresses emergency management and athletic injury prevention. These topics are integrated into a clinical education experience to assess professional behaviors, cognitive knowledge, psychomotor skills, and proficiency-based case simulations. The course incorporates didactic education and clinical education at an assigned clinical site under the supervision of a clinical instructor. Must be admitted to an Athletic Training major to enroll. 
about Clinical Experience in Athletic Training I
4 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours. 
Grade Mode: Standard Letter
about Clinical Experience in Athletic Training I

**AT 2498. Clinical Experience in Athletic Training II.**
This course addresses athletic injury evaluation and management. These topics are integrated into a clinical education experience to assess professional behaviors, cognitive knowledge, psychomotor skills, and proficiency-based case simulations. The course incorporates didactic education and clinical education at an assigned clinical site under the supervision of a clinical instructor. Must be admitted to Athletic Training major to enroll. 
about Clinical Experience in Athletic Training II
4 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours. 
Grade Mode: Standard Letter
about Clinical Experience in Athletic Training II

**AT 3126. Applied Laboratory of Upper Extremity Injuries.**
This course will present a study and critical analysis of the anatomy, injury signs and symptoms, and special tests used in the clinical evaluation of upper extremity injuries to the physically active individual. Must be admitted to the Athletic Training Program or Pre-Physical Therapy Concentration to enroll. Co-requisite: AT 3326. 
about Applied Laboratory of Upper Extremity Injuries
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours. 
Co-requisite(s): AT 3326
Grade Mode: Standard Letter
about Applied Laboratory of Upper Extremity Injuries
AT 3128. Applied Laboratory of Lower Extremity Injuries.
This course will present a study and critical analysis of the anatomy, injury signs and symptoms, and specific tests used in the clinical evaluation of lower extremity injuries to the physically active individual. Must be admitted to the Athletic Training Program or Pre-Physical Therapy Concentration to enroll. Co-requisite: AT 3328. about Applied Laboratory of Lower Extremity Injuries
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Co-requisite(s): AT 3328
Grade Mode: Standard Letter
about Applied Laboratory of Lower Extremity Injuries

AT 3136. Applied Laboratory for Therapeutic Modalities.
This course provides students with experiences in laboratory and field applications of therapeutic modalities of all athletic injuries. Must be admitted to the Athletic Training Program or Pre-Physical Therapy Concentration to enroll. Co-requisite: AT 3336. about Applied Laboratory for Therapeutic Modalities
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Co-requisite(s): AT 3336
Grade Mode: Standard Letter
about Applied Laboratory for Therapeutic Modalities

AT 3146. Applied Laboratory for Therapeutic Exercise and Rehabilitation.
This course provides students with experiences in laboratory and field applications of therapeutic exercise and rehabilitation of athletic injuries. Must be admitted to the Athletic Training Program or Pre-Physical Therapy Concentration to enroll. Co-requisite: AT 3346. about Applied Laboratory for Therapeutic Exercise and Rehabilitation
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Co-requisite(s): AT 3346
Grade Mode: Standard Letter
about Applied Laboratory for Therapeutic Exercise and Rehabilitation

AT 3226. Medical Conditions and Disabilities.
This course focuses on evaluation and management strategies of primarily non-orthopaedic conditions commonly encountered in a physically active population and, to a lesser extent, special populations. Must be admitted to the Athletic Training Program or Pre-Physical Therapy Concentration to enroll. Prerequisites: BIO 1421, or BIO 1330 and BIO 1130; BIO 2430. about Medical Conditions and Disabilities
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Medical Conditions and Disabilities

The course will present a study and critical analysis of the anatomy, injury signs and symptoms, and specific tests used in the clinical evaluation of upper extremity injuries to the physically active individual. Co-requisite: AT 3126. Prerequisite: AT 2356, Minimum 2.75 TxState GPA. about Evaluation Techniques of Upper Extremity Injuries
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Co-requisite(s): AT 3126
Grade Mode: Standard Letter
about Evaluation Techniques of Upper Extremity Injuries

The course will present a study and critical analysis of the anatomy, injury signs and symptoms, and specific tests used in the clinical evaluation of lower extremity injuries to the physically active individual. Co-requisite: AT 3128. Prerequisites: AT 2356; BIO 2430 or equivalent; Minimum 2.75 TxState GPA. about Evaluation Techniques of Lower Extremity Injuries
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Co-requisite(s): AT 3128
Grade Mode: Standard Letter
about Evaluation Techniques of Lower Extremity Injuries

AT 3333. Therapeutic Interventions for Medical and Psychosocial Conditions.
This course will address the athletic training knowledge and skills required to evaluate and manage common medical conditions and psychosocial concerns found among the physically active. Lecture and laboratory experiences are focused on immediate and advanced care with emphasis on therapeutic interventions and referral. Prerequisites: BIO 1421, or BIO 1330 and BIO 1130; BIO 2430 or equivalent. about Therapeutic Interventions for Medical and Psychosocial Conditions
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Therapeutic Interventions for Medical and Psychosocial Conditions

AT 3336. Principles and Techniques of Therapeutic Modalities.
A theoretical and evidence-based approach to the use of therapeutic modalities in physical medicine settings. Special emphasis is placed on understanding the physiological effects, indications, contraindications and clinical applications of therapeutic modalities in the treatment and rehabilitation of musculoskeletal and neurological injuries and diseases. Co-requisite: AT 3136. Prerequisite: Minimum 2.75 Texas State GPA. about Principles and Techniques of Therapeutic Modalities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Co-requisite(s): AT 3136
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Principles and Techniques of Therapeutic Modalities

AT 3346. Therapeutic Exercise and Rehabilitation.
A theoretical and evidence-based approach to the use of therapeutic exercise in physical medicine settings. Special emphasis is placed on understanding the physiological effects, indications, contraindications and clinical applications of therapeutic exercise in the treatment and rehabilitation of musculoskeletal and neurological injuries and diseases. Corequisite: AT 3146. Prerequisites: AT 3326, AT 3328, PT 3400, Minimum 2.75 Texas State GPA. about Therapeutic Exercise and Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Co-requisite(s): AT 3146
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Therapeutic Exercise and Rehabilitation
AT 3358. Clinical Pathopharmacology.
This course combines pathophysiology, the study of dynamic aspects of disease processes and study of drugs prescribed to prevent, diagnose, cure, or care for disease across the lifespan. Content includes etiology, pathogenesis, clinical presentation, implications for treatment, and pharmacological management. Prerequisite: BIO 2430 or equivalent; or PT 3400.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Clinical Pathopharmacology

AT 3497. Clinical Experience in Athletic Training III.
This course integrates topics in advanced athletic injury evaluation and management into a clinical education experience designed to assess professional behaviors, cognitive knowledge, psychomotor skills, and proficiency-based case simulations. The course incorporates didactic and clinical education at an assigned clinical site under the supervision of a clinical instructor. Restricted to Athletic Training Majors. Prerequisite: AT 2497 with a grade of "C" or higher.

4 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Clinical Experience in Athletic Training III

AT 3498. Clinical Experience in Athletic Training IV.
This course integrates topics in advanced athletic injury evaluation and management into a clinical education experience designed to assess professional behaviors, cognitive knowledge, psychomotor skills, and proficiency-based case simulations. The course incorporates didactic and clinical education at an assigned clinical site under the supervision of a clinical instructor. Restricted to students in the Athletic Training Major. Prerequisite: AT 2498 with a grade of "C" or higher. (WI).

4 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Clinical Experience in Athletic Training IV

AT 4356. Organization and Management of Athletic Training Programs.
This course addresses the organizational and administrative aspects of athletic training program management. Topics will include, but are not limited to, medical, ethical, legal, personnel and financial management, medical record keeping, facilities, supply requisition and inventory, third-party reimbursement, drug testing and other current professional issues. Prerequisites: AT 3326. (WI).

about Organization and Management of Athletic Training Programs

AT 4360. Internship in Clinical Settings.
Students will be introduced to the clinical aspects of allied health professions by being assigned to a minimum of two clinical sites. Prerequisite: Instructor consent. Prerequisite: Must be admitted to the Athletic Training major or to the Pre-Physical Therapy Emphasis. Prerequisites: A minimum TXST GPA of 2.75, and AT 3326 and AT 3126; AT 3328 and AT 3128; and AT 3336 and AT 3136.

about Internship in Clinical Settings

AT 4497. Clinical Experience in Athletic Training V.
This course integrates topics in therapeutic interventions and exercise into a clinical education experience that assesses professional behaviors, cognitive knowledge, psychomotor skills, and proficiency-based case simulations. The course incorporates didactic and clinical education at an assigned clinical site under the supervision of a clinical instructor. Prerequisite: AT 3497 with a grade of "C" or better.

about Clinical Experience in Athletic Training V

AT 4498. Clinical Experience in Athletic Training VI.
This course integrates topics in nutrition, professionalism, and administration into a clinical education experience that assesses professional behaviors, cognitive knowledge, psychomotor skills, and proficiency-based case simulations. The course incorporates didactic and clinical education at an assigned clinical site under the supervision of a clinical instructor. Prerequisite: AT 3498 with a grade of "C" or better.

about Clinical Experience in Athletic Training VI

Courses in Exercise and Sports Science (ESS)

ESS 1100. Lifetime Fitness and Wellness.
This course introduces students to the concepts of health-related physical fitness. Emphasis is placed on learning how to teach these concepts. Students will design and implement an exercise program for enhancing health-related physical fitness. Restricted to majors or minors in Exercise and Sports Science, Athletic Training, or Health and Fitness Management.

about Lifetime Fitness and Wellness

1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Lifetime Fitness and Wellness

ESS 1128. Aquatic Therapy.
The course addresses basic principles and concepts of aquatic therapy and aquatic emergency management. This course prepares students for the American Red Cross Basic Water Rescue Certification.

about Aquatic Therapy

1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Aquatic Therapy
ESS 1172. Beginning Field Sports.
This course prepares students to become proficient instructors of field sports, including softball and soccer. Emphasis is on skill development, instructional practices, peer coaching, rules, terminology, offensive and defensive strategies, team organization, communication, game play, referee skills, skills assessment, and conditioning for field sports. Restricted to majors or minors in Exercise and Sports Science, Coaching, or Health and Fitness Management.

1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Beginning Field Sports

ESS 1175. Beginning Jogging and Conditioning.
This course presents the proper biomechanics of jogging, safety rules, and conditioning principles relevant to the activity. Course topics include warming-up and cooling-down, hydration, monitoring and modifying intensity, training for road races, and jogging-related injuries. Students will also learn how to train individuals entering into a jogging program. Restricted to majors or minors in Exercise and Sports Science or Health and Fitness Management.

about Beginning Jogging and Conditioning
1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 1176. Beginning Tennis, Badminton, and Other Racket Sports.
This course prepares Exercise and Sports Science majors to be proficient instructors of racket sports, including tennis and badminton. The emphasis is on the fundamentals of racket sports and program development for the beginner. Restricted to majors or minors in Exercise and Sports Science, Health and Fitness Management, or Coaching.

about Beginning Tennis, Badminton, and Other Racket Sports
1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 1177. Beginning Track and Field.
This course prepares students to become proficient instructors of track and field. Emphasis is on skill development and instructional practices, rules, terminology, team organization, communication, athlete selection, and event-specific conditioning for track and field. Prerequisite: Major or minor in Exercise and Sports Science or minor in Coaching.

about Beginning Track and Field
1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 1178. Beginning Volleyball and Basketball.
This course prepares students to become proficient instructors of volleyball and basketball. Emphasis is on skill development, instructional practices, peer coaching, rules, terminology, offensive and defensive strategies, team organization, communication, game play, referee skills, skills assessment, and conditioning for volleyball and basketball. Restricted to majors or minors in Exercise and Sports Science, Health and Fitness Management, or Coaching.

about Beginning Volleyball and Basketball
1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 1179. Beginning Weight Training.
This course prepares students to be proficient instructors of all forms of resistance training. Emphasis is on understanding the proper, safe, and effective techniques of weight lifting. Students will learn how to develop resistance-training programs for untrained individuals with a variety of conditions. Restricted to majors or minors in Exercise and Sports Science, Athletic Training, or Health and Fitness Management.

about Beginning Weight Training
1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 1192. Beginning Balance and Tumbling.
This course prepares students as proficient instructors of the basic fundamentals of balance and tumbling. Emphasis is on the teaching of progressions, skills, and routines. Students will learn and practice safe teaching techniques for spotting in selected balance and tumbling skills. Prerequisite: Major seeing All-Level Teacher Certification in Physical Education.

about Beginning Balance and Tumbling
1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 1201. Group Exercise Instructor Training.
This course is for students interested in becoming certified group exercise instructors. Students will learn how to safely and effectively conduct group exercise classes. Students will be trained to teach a variety of formats, such as high- and low-impact aerobics, step aerobics, kickboxing, yoga, and resistance training. Prerequisite: Major in Health and Fitness Management or consent of the instructor.

about Group Exercise Instructor Training
2 Credit Hours. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ESS 1310. Introduction to Exercise and Sports Science.
This course introduces students to the various areas of exercise science and physical education. Emphasis is on the history of the profession, professional opportunities, present status, past and present leaders, individual awareness of professional responsibilities, current trends and issues, and the professional literature.

about Introduction to Exercise and Sports Science
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ESS 2320. Moto Development.
This course provides the exercise science and physical education student with a knowledge base in the study of changes in motor behavior across the lifespan, the processes that underlie these changes, and factors that affect them. Prerequisite: Major or minor in Exercise and Sports Science.

about Moto Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ESS 3117. Laboratory in Exercise Physiology.
In this laboratory course, students perform experiments that highlight the physiological responses to exercise. This course also introduces students to basic techniques in the assessment of health and human performance, including the assessment of maximal oxygen consumption, body composition, anaerobic power and capacity, muscular fitness, movement economy, and dietary intake. Prerequisites: BIO 2430, or BIO 2451 and BIO 2452, with grades of "C" or higher. Co-requisite: ESS 3317. An overall GPA of 2.5 or higher is required.

Grade Mode: 1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Laboratory in Exercise Physiology

ESS 3303. Assistant Dive Instructor.
This course provides students with the technical knowledge necessary to prepare for the Assistant Diver Instructor Scuba Certification. Topics include advanced diving physiology, air station operations, assisting instructors with beginning open-water dive students, and boat diving operations. Prerequisite: PFW 1201.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assistant Dive Instructor

ESS 3304. Divermaster.
This course provides students with the technical knowledge necessary to prepare for the National Association of Underwater Instructors Divermaster Scuba Certification. Topics include advanced diving physiology, organizing open-water dives, air station operations, assisting instructors with beginning and advanced open-water dive students, and boat diving operations. Prerequisite: Assistant Instructor Certification.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Divermaster

ESS 3317. Exercise Physiology.
Students learn the acute and chronic physiological responses to exercise. Emphasis is on muscle bioenergetics, muscle contractile properties, performance improvement through training and supplementation, as well as cardiopulmonary and endocrine responses to exercise. Prerequisites: BIO 2430, or BIO 2451 and BIO 2452, with grades of "C" or higher. An overall GPA of 2.5 or higher is required. Co-requisite: ESS 3317.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Exercise Physiology

ESS 3320. Biomechanics.
This course provides an introduction to the mechanical foundations of anatomical function and human movement. Qualitative and quantitative biomechanical analyses of human movement are introduced to inform the prescription of technique, equipment, and training interventions. Prerequisites: BIO 2430, or BIO 2451 and BIO 2452, with grades of "C" or higher. An overall GPA of 2.5 or higher is required.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 3321. Teaching Elementary Children Physical Activity.
This course introduces students majoring in Elementary Education and/or Exercise and Sports Science to physical education knowledge and movement concepts. It provides innovative techniques for incorporating physical activity within the elementary school setting. The course presents theory and then guides the students in applying those theories in a practical way.

Grade Mode: Standard Letter

ESS 3323. Psychosocial Aspects of Exercise of Sport Science.
This course examines the psychological and social theories and research related to physical activity. Emphasis is on the determinants that influence exercise behavior and sport participation.

Grade Mode: Standard Letter

ESS 3325. Applied Assessment of Physical Activity.
This course is designed to provide students with a theory to practice approach in the assessment of physical activity within the physical education setting. Particular emphasis is placed on empowering students to use relevant and meaningful physical activity assessments in K-12 schools. Prerequisites: ESS 1310 and ESS 2320. Restricted to majors seeking all level Teacher Certification in Physical Education.

Grade Mode: Standard Letter

ESS 3329. Motor Learning.
This course provides students with an understanding of the physiological, neurological, and psychological factors affecting performance and acquisition of motor skills. Students will examine the structural components underlying the learning of motor skills as a draw upon examples from sport, physical activities, and rehabilitation.

Grade Mode: Standard Letter

This course examines the theories and principles of effective coaching, including philosophy, ethics, strategies, team motivation and organization, coach-athlete relationships, performance analysis, and the administration of facilities, personnel, and contests.

Grade Mode: Standard Letter
ESS 4317. Fitness Assessment and Exercise Prescription.

Students are presented with current information on fitness assessment and exercise programming for individuals of all ages and fitness levels. Emphasis is placed on preparation for multiple certifications offered by relevant professional organizations. Prerequisites: ESS 3117 and ESS 3317; BIO 2430, or BIO 2451 and BIO 2452, all with grades of "C" or higher. An overall GPA of 2.5 or higher is required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Fitness Assessment and Exercise Prescription

ESS 4318. Fitness Assessment and Exercise Prescription Practicum.

During this 120-hour practicum, students will acquire advanced knowledge and skills associated with appraising health risk, assessing fitness levels, and designing exercise programs for diverse populations through on-line, classroom, and laboratory settings as well as through field-based experiences by working in a variety of exercise venues. Prerequisites: BIO 2430, or BIO 2451 and BIO 2452; ESS 3117 and ESS 3317, all with grades of "C" or higher. An overall GPA of 2.5 or higher is required.

about Fitness Assessment and Exercise Prescription Practicum

ESS 4319. Clinical Exercise Physiology.

Students gain a thorough understanding of the health appraisal/risk assessment, exercise testing, and exercise programming guidelines for clinical populations. In addition, basic electrocardiography and cardiopulmonary pathology and pharmacology are introduced. Prerequisites: ESS 3117 and ESS 3317; BIO 2430, or BIO 2451 and BIO 2452, all with grades of "C" or higher. An overall GPA of 2.5 or higher is required.

about Clinical Exercise Physiology

This course discusses the development and evaluation of training principles and programs for diverse populations. Emphasis is placed on physiological adaptations and mechanical principles related to the application of resistance training. Prerequisites: BIO 2430, or BIO 2451 and BIO 2452; ESS 3317 and ESS 3117, all with grades of "C" or higher. An overall GPA of 2.5 or higher is required.

about Resistance Training and Conditioning

ESS 4323. Adapted Physical Education.

This introductory course provides All-Level teacher certification candidates in Exercise and Sports Science with content knowledge on legal mandates, evidence-based practices, and the characteristics of selected disabilities and their considerations when designing meaningful individualized physical activity experiences to meet the students with disabilities in school settings. Prerequisites: ESS 1310, ESS 2320 and 2.75 overall GPA. (WI).

about Adapted Physical Education

ESS 4324. Adapted Physical Activity.

This course introduces students to the field of adapted physical activity, including sport and leisure for persons with disabilities. This course provides content knowledge on how to instruct physical activities to individuals with unique needs in various settings.

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Adapted Physical Activity

This course is for students who are interested in research related to Exercise and Sports Science. Students develop a research study, collect data, and analyze the results. Repeatable for credit with different emphasis. Prerequisites: A minimum GPA of 3.00 and special approval.

about Independent Study in Exercise and Sports Science

ESS 4340. Internship in Coaching.

This 220-hour internship provides students with work-related experience. Students will strengthen their coaching-related knowledge, skills, and abilities by observing and shadowing coaches as well as assisting with a range of tasks, including training athletes, managing the facilities, and organizing practices. Prerequisites: completion of all coursework required for the minor in Coaching and special approval.

about Internship in Coaching

This course introduces students to the fundamental principles and techniques of measuring human performance related to Exercise and Sports Science, as well as evaluating and interpreting the results of exercise science and human performance tests in children and adults.

about Measurement & Evaluation in Exercise and Sports Science

208 Department of Health and Human Performance
ESS 4624. Principles and Practices for Teaching Physical Education.
This course provides students with an in-depth study of theory and curriculum encompassing the design and implementation of developmentally appropriate and culturally responsive physical education programs for children and adolescents. Emphasis is on implementing evidenced-based curricula that promote youths’ enjoyment of and participation in lifelong physical activity. Prerequisites: ESS 1310, ESS 2320, ESS 3325 and 2.75 overall GPA.

about Principles and Practices for Teaching Physical Education

6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Principles and Practices for Teaching Physical Education

In this 480-hour internship, students will apply theoretical health and fitness management principles and concepts to an organizational setting. This course requires students to participate in a health and fitness organization/agency and complete a semester-long planning and evaluation project. Prerequisites: Completion of all other coursework required for the degree, department approval, and an overall GPA of 2.5 or higher. (WI).

about Exercise and Sports Science Internship

6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Writing Intensive

about Exercise and Sports Science Internship

Courses in Health Education (H ED)

Course provides an introduction to personal health, acquainting students with the understanding that the decisions they make affect health of self, families, friends, and communities. An emphasis will be placed on health trends and health behaviors.

about Foundations of Personal Health

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHED 1304

about Foundations of Personal Health

H ED 1320. Introduction to Health and Wellness Promotion.
This course addresses concepts essential to understanding the discipline of Health and Wellness Promotion, including competencies and career opportunities for health education specialists in school and community settings.

about Introduction to Health and Wellness Promotion

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Introduction to Health and Wellness Promotion

H ED 2340. Community Health.
This course acquaints students with issues, trends, and developments, and principles in community health. The course also provides an overview of selected topics, such as epidemiology, community organization, and program planning. Prerequisite or co-requisite: H ED 1320.

about Community Health

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Community Health

H ED 2354. Emergency Response and Safety Education.
This course prepares students to respond to and adequately care for life-threatening and non-life-threatening emergencies. The course includes lecture and laboratory activities. Emphasis is placed on healthy lifestyles and safety practices. Students can earn Cardiopulmonary Resuscitation and Responding to Emergencies certification.

about Emergency Response and Safety Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHED 1306

about Emergency Response and Safety Education

H ED 3301. Environmental Health Issues.
An examination of the ecological impact resulting from contemporary sociopolitical action and its resulting influence on human health.

about Environmental Health Issues

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Environmental Health Issues

H ED 3315. Statistical Analysis and Interpretation in Health and Wellness Promotion.
This course emphasizes analysis and interpretation of health-related data. Descriptive and inferential statistics (including measures of central tendency and variability, estimation, ANOVA, and regression) will be used to understand factors associated with current health-related issues. Prerequisites: “C” or better in H ED 1320, H ED 2340, and MATH 1315, MATH 2417 or MATH 2471. (WI).

about Statistical Analysis and Interpretation in Health and Wellness Promotion

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Statistical Analysis and Interpretation in Health and Wellness Promotion

Course offers a foundation in health methods and activities to provide resources for the elementary school teacher. Provides an overview of current school health issues: Coordinated School Health Programs, mental health, personal health, family life, substance abuse, and violence in the elementary setting.

about Health in the Elementary Setting

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Health in the Elementary Setting
Course offers a foundation of health methods and theory with activities to provide resources needed to become successful secondary school educators. The course will provide an overview of current secondary school health issues, such as mental health, personal health, family life, substance abuse, and violence. about Health Education in the Secondary School Setting
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Health Education in the Secondary School Setting

H ED 3342. Adolescent and School Health Programs.
Course will provide an understanding of function and scope of the Coordinated School Health Program (CSHP) model. Students investigate how schools function in solving youths' health problems, and focus on how child and adolescent stakeholders and communities are involved in CSHP. (WI).
about Adolescent and School Health Programs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Adolescent and School Health Programs

Course provides an overview of the etiology of communicable and chronic diseases. Special emphasis will be on health promotion activities to reduce the incidence of disease in communities and society. about Prevention of Disease
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Prevention of Disease

H ED 3350. Consumer Health.
Course focuses on consumer health and making wise decisions regarding selection of health products and services. Students will learn how to effectively evaluate health information. Special emphasis is placed on becoming a health-literate consumer, understanding legislation, and investigating products and services. about Consumer Health
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Consumer Health

H ED 3360. Sexuality Education.
Course provides a study of sexuality education as a lifelong process of acquiring information and forming healthy attitudes, beliefs, and values regarding sexuality. Students will access information and educational resources for implementing and advocating for sexuality instruction through health courses, sexuality education courses, and programs. about Sexuality Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Sexuality Education

H ED 3374. Interprofessional Service Learning in Global Health.
This course focuses on principles of international health and wellness promotion with global populations. Emphasis is placed on assessing, planning, implementing, and evaluating prevention strategies. Students explore roles of health educators collaborating with providers of health services to diverse populations. Prerequisite: H ED 2340 with a grade of "B" or better; repeatable for credit. about Interprofessional Service Learning in Global Health
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Interprofessional Service Learning in Global Health

H ED 3376. Worksite Health Promotion.
The purpose of this course is to introduce students to worksite health promotion. The focus of the course will be on planning, implementing, and evaluating worksite health promotion programs. The course will also address other contemporary health issues, policies, and considerations that affect worksite health promotion. about Worksite Health Promotion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Worksite Health Promotion

H ED 4100. Professional Development in Health and Wellness Promotion.
This one-hour seminar course provides the opportunity for students to obtain a community or clinically-based health promotion internship and to actively participate in health promotion-related professional development activities including conferences, development of resumes and interaction with health professionals. Course to be taken the semester immediately preceding the internship (H ED 4660). Prerequisite or co-requisite: H ED 4640 with a "C" or better; Senior Classification required. about Professional Development in Health and Wellness Promotion
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Professional Development in Health and Wellness Promotion

Course offers an introduction to research and theories in health and wellness promotion. Special emphasis will be on community health interventions. Students will study theory and practice to understand successful and effective health education interventions. Prerequisite: H ED 1320 and H ED 2340 with grades of C or better. about Theoretical Foundations of Health and Wellness Promotion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical Foundations of Health and Wellness Promotion

H ED 4340. Principles of Community Health Education and Promotion.
This course examines theory and principles for development of community health education and promotion programs. Content includes cultural health beliefs, theories, and communication methods and techniques. Prerequisite: H ED 2340 with C or better. Corequisite: H ED 4350. (WI). about Principles of Community Health Education and Promotion

Courses in Recreational Administration (REC)

REC 1310. Introduction to Recreation and Leisure Services.  
Introduction to recreation, includes brief historical backgrounds, professional opportunities, present status, past and present leaders. Role of leisure time in our social structure, professional responsibility, familiarization with current issues and trends, and professional literature. Lecture and field trips. A grade of “C” or higher in this course is required to enroll in any upper division Recreational Administration courses. 
Grade Mode: Standard Letter 
TCCN: PHED 1164 

REC 1330. Leisure and Outdoor Recreation. 
This course provides students with an overview of the role the natural world plays in recreation and leisure services. The course will focus on values of outdoor recreation, adventure recreation, environmental impact, and the role of government in the provision and protection of outdoor recreation programs and resources. 
Grade Mode: Standard Letter 
TCCN: PHED 1164 

REC 1370. Introduction to Therapeutic Recreation. 
This course surveys history, philosophy, terminology and professional opportunities in therapeutic recreation. The role of leisure and therapeutic recreation in enhancing quality of life is explored. 
Grade Mode: Standard Letter 
TCCN: PHED 1164 

REC 2330. Leadership in Recreation and Leisure Services. 
Discussion of leadership theories and skill development for indoor-outdoor games and sports. Teaching activities to develop skill in programming various indoor/outdoor recreational settings. 
Grade Mode: Standard Letter 
TCCN: PHED 1164 

REC 2335. Recreation Program Development. 
This course introduces students to basic principles and procedures for developing recreation programs that respond to human needs. This course provides students with opportunities to acquire and utilize recreation programming skills through practical application. Prerequisites: REC 1310 with a grade of "C” or better, and REC 2330. 
Grade Mode: Standard Letter 
TCCN: PHED 1136 

All PFW courses meet two clock hours per week for one semester hour credit unless otherwise designated.
REC 2336. Directed Field Experience in Programming Recreation.
Students participate in programming and leadership with a selected recreation agency. Online learning modules and communications guide the work and professional reflections. Prerequisite: REC 2335 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Directed Field Experience in Programming Recreation

REC 2370. Practices and Interventions in Therapeutic Recreation.
Students engage in classroom content and service learning to develop knowledge and skills in facilitation techniques used in a variety of therapeutic recreation settings. Prerequisites: REC 1310 and REC 1370 with grades of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Practices and Interventions in Therapeutic Recreation

REC 3325. Recreation Administration.
This course covers administrative practices relevant to entry-level professionals in the recreation industry. Topics include foundations of management, decision-making, planning, coordination of resources, and ethics in the public recreation sector. Prerequisite: REC 2335 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Recreation Administration

REC 3335. Advanced Recreation Program Development.
Students will develop advanced program planning skills through the integration of theories and models of program development, consideration of diverse target markets, performing needs assessments, and planning for risk management issues. Students will apply these planning skills through an applied project. Prerequisite: REC 2335 with a grade of "C" or better. (WI).
about Advanced Recreation Program Development
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Advanced Recreation Program Development

REC 3340. Design and Maintenance of Recreational Facilities.
Introduce theories and provide practical experience in the design, development, operation, maintenance, administration of various recreational facilities. Prerequisite: REC 2335.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Design and Maintenance of Recreational Facilities

Methods, techniques and application of the evaluation process related to a wide variety of leisure service functions: clientele and prospective participants, programs, personnel, facilities, organizations and literature. Prerequisite: REC 2335. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Evaluation of Leisure Service Programming

REC 3360. Field Work in Recreation Leadership.
The student participates at the leadership level in the ongoing work of a selected recreation agency. The work is supervised by an agency representative and a faculty member trained in the recreation field. Prerequisites: REC 1330, REC 2330, and Departmental Approval.
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Field Work in Recreation Leadership

REC 3370. Assessment and Documentation in Therapeutic Recreation.
This course introduces students to selecting, utilizing, and interpreting assessment instruments, and to the processes used to document assessment results and client progress used in therapeutic recreation practice. Prerequisites: REC 1370 with a grade of "C" or better, and HIM 2360.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Assessment and Documentation in Therapeutic Recreation

REC 4318A. Military Recreation.
A topic course to cover the: Survey of U.S. military recreation programs, role of recreation in military mission, concepts of administration and availability of career opportunities within military recreation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Military Recreation

REC 4318B. Campus Recreation.
A topic to cover recreation and leisure services at a college campus. Topics include recreational sports, residence life, Greek organizations, and campus activities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Campus Recreation
REC 4318D. Leisure and Aging.
A study of the relationship of leisure and aging in our society is the primary focus. Students will examine the aging process from biological, psychological and social aspects. Trends in and benefits of leisure programming for senior citizens will be reviewed. A variety of recreation and leisure delivery systems will be investigated as they relate to service delivery to well and frail elderly.

Grade Mode: Standard Letter

Course Attribute(s): Exclude from 3-peat Processing

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Leisure and Aging

REC 4320. Therapeutic Recreation and People with Psychiatric Conditions.
Students will gain a theoretical and practical foundation for applying the therapeutic recreation process with persons with psychiatric conditions. Focus will be on the development of skills necessary to implement evidence-based interventions aimed at behavior change. A grade of "C" or higher in this course is required for enrollment into REC 4680. Prerequisites: REC 1370, REC 2370, REC 3370, PSY 3300 and PSY 3315, all with grades of "C" or higher.

Grade Mode: Standard Letter

about Therapeutic Recreation and People with Psychiatric Conditions

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Therapeutic Recreation and People with Psychiatric Conditions

REC 4330. Entrepreneurial Recreation Management.
This course provides a study of the scope and the entrepreneurial management of leisure services. The focus will be on financial management related to profit centers including planning, legal liability, record keeping, and revenue management. Prerequisite: REC 2335.

Grade Mode: Standard Letter

about Entrepreneurial Recreation Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Entrepreneurial Recreation Management

REC 4335. Outdoor Recreation Programming.
Students apply principles and procedures for developing and leading recreation programs in a variety of specialized, outdoor environments. Students will demonstrate competencies for Leave No Trace certification. Course is taught in cooperation with the Texas State University—Outdoor Center. Prerequisites: REC 1330, REC 2335; PFW 1154C; or Consent of Instructor.

Grade Mode: Standard Letter

about Outdoor Recreation Programming

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Outdoor Recreation Programming

REC 4337. Independent Study in Recreational Administration.
Individual study related to recreational administration under direct supervision of a faculty member. (WI).

Grade Mode: Standard Letter

about Independent Study in Recreational Administration

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

about Independent Study in Recreational Administration

REC 4350. Theories and Methods of Supervision in Recreation and Leisure Services.
This course presents theories and methods relating to recruitment, selecting, hiring, training, disciplining, and discharging employees. This course also addresses legal issues related to personnel supervision. Prerequisite: REC 2335.

Grade Mode: Standard Letter

about Theories and Methods of Supervision in Recreation and Leisure Services

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Theories and Methods of Supervision in Recreation and Leisure Services

REC 4370. Principles of Therapeutic Recreation.
This course will cover the principles of therapeutic recreation services including comprehensive program planning, administrative processes, and issues related to professionalism. Prerequisites: REC 1370, REC 2370, and REC 3370, all with grades of "C" or higher.

Grade Mode: Standard Letter

about Principles of Therapeutic Recreation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Principles of Therapeutic Recreation

REC 4380. Seminar in Recreation.
This capstone seminar addresses trends in leisure services. Emphasis is on the interactional effects of diverse services, consumers, and environments. Taken in the fall or spring semester immediately preceding enrollment in REC 4680. Departmental approval required. (WI).

Grade Mode: Standard Letter

about Seminar in Recreation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

writing intensive

about Seminar in Recreation

REC 4680. Internship in Recreation.
The student participates at the administrative level in the ongoing work of a selected parks and recreation agency. The work is co-supervised by an agency representative trained in the recreation field. Prerequisites: In addition to completion of all REC classes on degree plan and Departmental Approval, completion with a "C" or better in REC 1370, REC 2370, REC 3370, REC 4320 and REC 4370 for Therapeutic Recreation majors or in REC 2335, REC 2336, REC 3325 and REC 4380 for Recreational Administration majors.

Grade Mode: Standard Letter

about Internship in Recreation

6 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Zimmermann, Jo An, Associate Professor, Health & Human Performance, Ph.D., Clemson University

Bachelor of Exercise and Sports Science (B.E.S.S.) Major in Exercise and Sports Science (Pre-Physical Therapy Concentration)

Minimum required: 120 semester hours

General Requirements

1. This 120 credit-hour degree program blends rigorous basic sciences, Athletic Training, and exercise science courses relevant to physical rehabilitation. The main focus of this pre-professional program is to combine the prerequisite coursework required for entrance to a graduate-level allied health program with quality support courses from the Athletic Training and Exercise and Sports Science programs. This degree program will also prepare students for several other graduate programs such as: entry-level Athletic Training, Occupational Therapy, Chiropractic, Physician Assistant, Orthotic/Prosthetic, and Exercise Physiology.

2. Graduate-level programs may require additional or modified prerequisite coursework for admission not included in this program. Students are ultimately responsible for knowing and completing prerequisite requirements for graduate programs of interest. Completion of this program does not guarantee admission to a graduate program in Physical Therapy.

3. Students in the Pre-Physical Therapy program must establish and maintain at least a 2.75 Texas State GPA in order to enroll in the following courses:

   - **AT 3326 Evaluation Techniques of Upper Extremity Injuries**
   - **AT 3126 Applied Laboratory of Upper Extremity Injuries**
   - **AT 3328 Evaluation Techniques of Lower Extremity Injuries**
   - **AT 3128 Applied Laboratory of Lower Extremity Injuries**
   - **AT 3336 Principles and Techniques of Therapeutic Modalities**
   - **AT 3136 Applied Laboratory for Therapeutic Modalities**
   - **AT 3346 Therapeutic Exercise and Rehabilitation**
   - **AT 3146 Applied Laboratory for Therapeutic Exercise and Rehabilitation**

4. Students are advised to follow the approved 4-year academic plan provided by the College of Education Advising Center. Students are advised to complete AT 3326/AT 3126 prior to enrolling in AT 3328/AT 3128. Students should not complete both AT 3326/AT 3126 and AT 3328/AT 3128 in the same semester. Students should enroll in AT 3336/AT 3136 after AT 3326/AT 3126 and AT 3328/AT 3128 have been completed.
5. A 2.75 Texas State GPA is required to graduate.
6. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course, but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

Total Hours: 120

1. AT 4360 has the following pre-requisites for enrollment: minimum 2.75 Texas State GPA; AT 3326 AT 3126; AT 3328, AT 3128, and AT 3336, AT 3136. Therefore, students are advised to take AT 4360 in their last semester of coursework.

**Bachelor of Exercise and Sports Science (B.E.S.S.) Major in Exercise and Sports Science (Health and Wellness Promotion for Clinical Populations Concentration)**

**Minimum required: 120 semester hours**

**General Requirements**

1. This degree program is designed to prepare graduates for study towards a Master’s degree in Exercise Physiology, Biomechanics, or a similar field of study. Completion of this degree does not guarantee admission to a graduate program.
2. This degree program can lead to careers in cardiopulmonary, clinical exercise, and diagnostic testing and programming for cardiac rehabilitation and other special populations. Additional requirements may be necessary to enter these fields.
3. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

Total Hours: 120

\(^1\) While not recommended, previously completed courses in some areas can be substituted for the following degree requirements:
- MATH 1319 or MATH 2417 or MATH 2471 can satisfy the MATH 1315 requirement.
- BIO 2451 and BIO 2452 can be used together to satisfy the BIO 2430 requirement.

\(^2\) Students must complete H ED 4660. A 2.5 Overall GPA is required to enroll in this internship. All other coursework must be completed prior to the internship.

**Life and Physical Sciences**

Students must take 12 hours (i.e. three courses and three corresponding labs)

Bachelor of Exercise and Sports Science (B.E.S.S.) Major in Exercise and Sports Science (Teacher Certification in Physical Education, Early Childhood through Grade 12)

Minimum required: 125 semester hours

General Requirements
1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).
2. A Minor or Second Teaching Field is required and must not be a Minor in Exercise and Sports Science or a Minor in Coaching Athletics. Courses toward a Second Teaching Field are recommended to improve job opportunities. The degree plan below is based on an 18-hour Minor or Second Teaching Field. Certain Minors and Second Teaching Fields may increase the total number of credit hours required for degree completion. Consult an academic advisor for a list of available Second Teaching Fields and recommended Minors.
3. A 2.5 Major GPA and an Overall GPA of 2.75 is required to graduate. If declared, a 2.5 GPA is required within the Second Teaching Field and a 2.0 is required within the Minor to graduate.
4. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of “C” or better.
5. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course, but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.
6. To complete the predetermined sequence of courses in 4 years, students will most likely need to attend summer sessions.

Bachelor of Exercise and Sports Science (B.E.S.S.) Major in Health and Fitness Management

Minimum required: 120 semester hours

General Requirements

1. Students must complete a Minor in Business Administration, which includes:
   - ECO 2301 Principles of Economics 3
   - ACC 2301 Accounting in Organizations and Society 3
   Select 12 elective hours from the following: 12
   - BLAW 2361 Legal Environment of Business
   - CIS 3317 E-Business
   - FIN 3325 Personal Financial Management
   - MGT 3303 Management of Organizations
   - MKT 3343 Principles of Marketing

Total Hours: 18

An Overall GPA of 2.0 or higher is required to enroll in Advanced Business courses. A 2.0 GPA in the Minor is required to graduate.

2. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

¹ While not recommended, previously completed courses in some areas can be substituted for the following degree requirements:
  - MATH 1315 or MATH 2417 or MATH 2471 can satisfy the MATH 1319 requirement.
  - BIO 2451 and BIO 2452 can be used together to satisfy the BIO 2430 requirement.
  - ACC 2361 and ACC 2362 can be used together to satisfy the ACC 2301 requirement.
  - ECO 2314 and ECO 2315 can be used together to satisfy the ECO 2301 requirement.

² Students must complete ESS 4660. A 2.5 Overall GPA is required to enroll in the internship. All other coursework must be completed prior to the internship.

Bachelor of Health and Wellness Promotion (B.H.W.P.) Major in Health and Wellness Promotion

Minimum required: 120 semester hours

General Requirements

1. This degree program prepares graduates to take the national examination to obtain the Certified Health Education Specialist (CHES) through the National Commission for Health Education Credentialing.

2. A Minor is required and must not be a Minor in Health and Wellness Promotion. A 2.0 GPA is required in the Minor in order to graduate. The degree plan below is based on an 18-hour Minor. Certain Minors may increase the total number of credit hours required for degree completion. Consult an academic advisor for a list of recommended Minors.

3. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

Bachelor of Health and Wellness Promotion (B.H.W.P.) Major in Health and Wellness Promotion (Teacher Certification in Health, Early Childhood through Grade 12)

Minimum required: 121 semester hours

General Requirements

1. Students must apply and be admitted to the Teacher Preparation Program in order to enroll in Block coursework and Student Teaching in the Junior and Senior year. Refer to the requirements for Admittance to the Teacher Preparation Program through the Office of Educator Preparation (p. 232).

2. A Minor or Second Teaching Field is required and must not be a Minor in Exercise and Sports Science or a Minor in Coaching. Courses toward a Second Teaching Field are recommended to improve job opportunities. The degree plan below is based on an 18-hour Minor or Second Teaching Field. Certain Minors and Second Teaching Fields may increase the total number of credit hours required for degree completion. Consult an academic advisor for a list of available Second Teaching Fields and recommended Minors.

3. A 2.5 Major GPA and an Overall GPA of 2.75 is required to graduate. If declared, a 2.5 GPA is required within the Second Teaching Field and a 2.0 is required within the Minor to graduate.

4. All Major as well as Pedagogy and Professional Responsibility courses must be completed with a grade of "C" or better.

5. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

- MATH 2417 or MATH 2471 with a grade of "C" or better can satisfy the MATH 1315 requirement.
- BIO 2451 and BIO 2452 can be used together to satisfy the BIO 2430 requirement.
- NUTR 2360 can satisfy the NUTR 3362 requirement.
Bachelor of Science (B.S.) Major in Athletic Training

Minimum required: 122 semester hours

General Requirements

1. The Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Students desiring admission must first declare the Athletic Training major and complete the preliminary requirements for the Athletic Training major at Texas State University in order to become eligible to be admitted to the Athletic Training Program cohort. Once per year, in June, following the completion of a year-long competitive admissions process, the top 20 ranked applicants are offered admission to the Athletic Training Program cohort. For more information, please refer to http://www.hhp.txstate.edu/Divisions/Athletic-Training.html.

2. Students admitted to the Athletic Training Program cohort must be committed to taking the Board of Certification’s national examination, as well as the Texas Advisory Board of Athletic Trainers’ state licensure examination during the last semester prior to graduation.

3. To be considered as a candidate for admission to the Athletic Training Program cohort, students must complete AT 1298, AT 2156, AT 2260, AT 2356, and BIO 2430 with grades of B or better, and:
   • Participate in the competitive admission process that includes the five prerequisite courses mentioned above, a completed application (due annually on April 1), and an admissions interview in early May.
   • Establish and maintain a minimum Texas State GPA of 2.75.
   • Complete 50 hours of directed Athletic Training observation as part of AT 1298 – Orientation to Athletic Training Education.
   • Hold current Emergency Cardiac Care (ECC) certification in CPR/AED at the Professional Rescuer level.

4. The six-component objective formula used to rank applicants for admission to the AT Program cohort is available to view at http://www.hhp.txstate.edu/Divisions/Athletic-Training/Undergraduate-Program.

5. The required Technical Standards for the AT Program are available at the department website listed, in the AT 1298 Policy and Procedures Manual, and from the program director.

6. Students accepted into the AT Program cohort must provide current immunization records to the Texas State Student Health Center.

7. Students must maintain at least a Texas State GPA of 2.75 at all times while pursuing the degree, and in order to graduate.

8. The Athletic Training clinical education requirement at Texas State involves the completion of six long-semester courses over a three-year period that can only be completed at Texas State University. Each of the six clinical education courses in our program involve 2 contact hours per week with a classroom instructor and approximately 20 contact hours of supervised clinical education experiences at various on-campus or off-campus clinical sites.

9. Students are advised to follow the approved 4-year academic plan provided by the College of Education Advising Center. Students are advised to complete AT 3326/AT 3126 prior to enrolling in AT 3328/AT 3128. Students should not complete both AT 3326/AT 3126 and AT 3328/AT 3128 in the same semester. Students should enroll in AT 3336/AT 3136 after AT 3326/AT 3126 and AT 3328/AT 3128 have been completed.

10. Students contemplating transfer should expect to spend four (4) years at Texas State in order to complete the Athletic Training major.

11. Upon completion of the degree, the graduate will be qualified to take the Board of Certification’s national examination and the Texas Advisory Board of Athletic Trainers’ state licensure exam.

12. Athletic Training does not constitute a teaching field. If you are interested in an All-Level Physical Education Teacher Certification, contact the College of Education Undergraduate Advising Center.

13. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

14. To complete the predetermined sequence or courses in 4 years, students will most likely need to attend summer sessions.

## Bachelor of Science in Recreational Administration (B.S.R.A.) Major in Recreational Administration

**Minimum required: 120 semester hours**

### General Requirements

1. Graduates are prepared to take the national examination to obtain the Certified Park and Recreation Professional certification endorsed by the National Recreation and Park Association.
2. Students must complete 20 elective hours, 12 of which must be advanced. Consult with an academic advisor for recommended electives.
3. Students should be aware that some REC courses may only be offered once a year, during a Fall or Spring semester.
4. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

1. While not recommended, previously completed courses in some areas can be substituted for the following degree requirements:
   - MATH 2417 or MATH 2471 can satisfy the MATH 1315 or MATH 1319 requirement.
   - BIO 2451 and BIO 2452 can be used together to satisfy the BIO 2430 requirement.
Bachelor of Science in Recreational Administration (B.S.R.A.) Major in Recreational Administration (Therapeutic Recreation Concentration)

Minimum required: 120 semester hours

**General Requirements**

1. Graduates are eligible to sit for examinations for the National Council for Therapeutic Recreation Certification (NCTRC) and the Certified Parks and Recreation Professional (CPRP).
2. Students should be aware that some REC courses may only be offered once a year, during a Fall or Spring semester.
3. Students entering Texas State with fewer than 16 hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course but will be required to earn an additional free elective, if needed, to reach the 120 minimum total hour requirement for the awarding of a degree.

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Office of Educator Preparation

Education Building Room 2016
T: 512.245.7880  F: 512.245.8345
www.education.txstate.edu/oep (http://www.education.txstate.edu/oep)

The Office of Educator Preparation (OEP) serves all university departments and schools that are involved in producing new teachers for grades EC-12, namely, departments and schools in the Colleges of Applied Arts, Business Administration, Education, Fine Arts and Communication, Liberal Arts, and Science and Engineering. The OEP advises and assists students seeking to earn Texas teacher credentials at the undergraduate, post-baccalaureate, and graduate levels.

Teacher Certification

Students seeking certification to teach EC-6 (Early Childhood through Grade Six), 4-8 (Grade Four through Grade Eight), or All-level Special Education (Early Childhood through Grade 12) will major in Interdisciplinary Studies in the Department of Curriculum and Instruction within the College of Education. Students seeking certification to teach All-level Physical Education or All-level Health will major in X or Y, respectively, in the Department of Health and Human Performance within the College of Education. Students seeking certification to teach in Grades 6, 7, or 8-12 (Grade Six, Seven, or Eight through Grade Twelve) or All-level certification in other disciplines will major in their chosen teaching field in the department and college where that major is housed. Students should note that teacher certification requirements may differ from degree requirements and that completion of both is necessary for awarding a degree and recommending a student for teacher certification. In order to pursue teacher certification, students must apply and be admitted into the Teacher Preparation Program through the Office of Educator Preparation.

Admittance to the Teacher Preparation Program

In addition to meeting the requirements for admission into the University and following a student’s official declaration of a certification-seeking degree program, students must apply to and meet the following requirements for formal admittance into the Teacher Preparation Program:

1. An Overall GPA of at least 2.75.

2. Completion of the following coursework with a grade of “C” or better to demonstrate competency in the following skill areas:
   - Reading: two courses from HIST 1310, HIST 1320, POSI 2310 or POSI 2320 or their equivalents.
   - Written Communication: ENG 1310 and ENG 1320 or their equivalents.
   - Critical Thinking: PHIL 1305 or PHIL 1320 or its equivalent.
   - Mathematics: MATH 1315 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 for Interdisciplinary Studies majors or any algebra-equivalent or higher mathematics course, as determined by the Mathematics Department at Texas State. (Note: MATH 1316 does not fulfill the mathematics requirement for Teacher Preparation Program admittance.)

3. Completion of COMM 1310 or its equivalent with a grade of “B” or better to demonstrate competency in oral communication.
The requirements to be admitted to Student Teaching are as follows:

4. Completion of the online Teacher Preparation Program Admittance Module and quiz to learn about current teacher certification requirements, program expectations, and application procedures.

5. Application to the Teacher Preparation Program
   The online application form is available at http://www.education.txstate.edu/oep/.

Determination of admittance to the Teacher Preparation Program is overseen by the Office of Educator Preparation. More information is available at http://www.education.txstate.edu/oep.

Sequence of Coursework

Students should refer to their Advising Center’s degree plan check sheets for guidance in following the Teacher Preparation course sequence in their degree plan. At a minimum, each Teacher Preparation sequence consists of introductory “Education Core” classes, at least one semester of a Field-Based Block of coursework and a final semester of Student Teaching that occurs after all other coursework has been completed. Students must apply for Field-block coursework at http://www.education.txstate.edu/oep/Applications/apply-for-fieldblock-experience.html and for Student teaching coursework at http://www.education.txstate.edu/oep/Applications/apply-for-student-teaching.html.

Elementary, Middle School, High School, and All-Level Certification Field-Based Requirements

Students in any undergraduate teacher certification program must participate in one or more field-block(s) of integrated courses taught two days per week at a public school in the Central Texas area. This pre-Student Teaching experience is a unique opportunity to learn in actual classrooms, in a partnership between Texas State and public school faculty.

Student Teaching

All coursework for a student’s degree program should be completed prior to Student Teaching. Student Teaching should be done during a student’s final semester.

The requirements to be admitted to Student Teaching are as follows:

1. Attendance at a mandatory Student Teaching Round-Up meeting during the long semester prior to the Student Teaching semester (typically the third week of each semester).

2. Validation of required pre-Student Teaching field experiences.

3. An Overall GPA of at least 2.75.

4. A GPA of at least 2.50 in all assigned courses in the professional sequence and in the teaching field(s) or specialization(s), with no grade below a “C” in these courses.

5. Approval from the Office of Educator Preparation.

Graduation and Certification

Graduation

In addition to the other graduation requirements listed in this catalog, the following graduation requirements must be met by students seeking teacher certification:

1. An Overall GPA of at least 2.75.

2. Successful completion of student teaching.

3. A GPA of at least 2.50 in all assigned courses in the professional sequence and in the teaching field(s) or specialization(s) with no grade below a “C” in these courses.

4. Submission of online Graduation Application by the university’s deadline.

Certification

Eligible students should apply for a Texas Educator Certificate through the State Board for Educator Certification. The Certification Officer in the OEP will recommend the issuance of the appropriate certificate by the State of Texas. The certification process includes the following steps:

1. Completion of at least a baccalaureate degree and the posting of the degree to the official transcript.

2. Verification of satisfactory completion of Student Teaching experience.

3. Passing scores on the appropriate Texas Examination of Educator Standards (TExES).

Dispositions for the Teaching Profession

Students in teacher certification seeking programs are preservice teachers who are expected to exhibit professional dispositions and behaviors that are appropriate to the school environment and that support learners’ academic success. These dispositions and behaviors include professional attitudes, values, and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, and communities.

A candidate who does not meet the expectations for the behaviors and dispositions for the teaching profession will be identified by a professor, supervisor, cooperating teacher, or principal and will meet with an administrator in the Department of Curriculum and Instruction and/or the Office of Educator Preparation to discuss the case. If further action is necessary, the candidate’s case will be reviewed by the chair of the appropriate department with input from other faculty, as appropriate, to determine eligibility for the Teacher Preparation Program. Appeals regarding this Committee’s decision must be made to the Dean of the College of Education whose decision is final.

Post-Graduate Certificate Requirement

Persons who hold at least a bachelor’s degree and who are seeking either initial or additional Texas teaching certificates need to follow information listed in the Graduate Catalog. More information regarding admittance into Teacher Preparation Program is available at: www.education.txstate.edu/oep (http://www.education.txstate.edu/oep).

College of Fine Arts and Communication

Dean
John Fleming, Ph.D.
The School of Art and Design promotes the understanding of art in culture by providing a learning environment that advances students' critical and creative thinking, encourages diverse perspectives, and nurtures individual artistic expression. The School fosters creative and scholarly activities that develop students' conceptual and technical abilities and encourages visually articulate thinkers. The faculty come from diverse educational, professional and cultural backgrounds. Through effective teaching, the School of Art and Design helps students achieve excellence in their individual, artistic and career goals.

The School of Art and Design offers six programs leading to the following degrees:

- Bachelor of Fine Arts with a major in Communication Design;
- Bachelor of Fine Arts with a major in Photography;
- Bachelor of Fine Arts with a major in Studio Art that offers specializations in ceramics, drawing, expanded media, metals, painting, printmaking, and sculpture;
- Bachelor of Fine Arts with a major in Studio Art leading to All-Level (EC-12) Certification that prepares students for teaching art in elementary and secondary schools;
- Bachelor of Arts with a major in Art History that provides an intellectual foundation and a broad background in the history of art, aesthetics and art criticism; and
- Bachelor of Arts with a major in Art that provides broad exposure to art.

All art and design majors are encouraged to enter the annual student exhibition and to take advantage of the University Art Gallery and visiting artists programs. An active internship program is available for all qualified art and design majors.

**Special Requirements**

All students majoring in Studio Art or in Photography are required to participate in the Senior Exhibition (ARTS 4000) within the academic year they plan to graduate. All students majoring in Communication Design are required to participate in Exit Review (ARTC 4000) within the academic year they plan to graduate.

**Communication Design Admission**

The Communication Design Program, a three and a half year sequenced curriculum, emphasizes the integration of critical thinking with a thorough understanding of design principles and processes relevant to the professional practice of design. The program also embraces social, cultural, historical, economic, and global contexts to prepare students to advance knowledge within the discipline. This approach prepares graduates for successful entry into the profession, as well as for entry into graduate education programs.

Admission requirements for the Communication Design program are more restrictive than those of the University and enrollment is limited to provide students with a quality experience.

All applicants who indicate Communication Design as their preferred major will be assigned a temporary status/major code of pre-Communication Design. In addition to meeting Texas State's general admission criteria, all students intending to major in Communication Design must pass ARTC 2000 Admission Portfolio Review to be admitted into the program. Admission Portfolio Review is a competitive formal review of creative work, conducted by Communication Design faculty, which takes place once a year at the end of the spring semester. Native
and transfer students will be required to sign up for Admissions Portfolio Review during the earliest spring semester in which they will meet all eligibility requirements for the review. Students who are denied admission to the Communication Design program after their first review will be allowed only one more attempt during the next review. Pre-Communication Design majors will not be permitted to enroll in 2000 – 4000 level Communication Design courses until they have passed Admission Portfolio Review and have been formally admitted to the program.

All students must meet the following criteria to be eligible to submit their work for the Admission Portfolio Review:

1. Be enrolled in ARTC 2000 Admissions Portfolio Review
2. Complete ARTF 1301, ARTF 1302 with a minimum grade of “C”
3. Have an Overall GPA of 2.75
4. Complete ARTC 1301 and ARTC 1302 with a minimum grade of “B” or concurrent enrollment in ARTC 1301 and ARTC 1302 (ARTC 1301 and ARTC 1302 must be taken at Texas State.) The school no longer accepts transfer credits in Communication Design. All criteria apply to both transfer students and incoming freshman.

Requirements for admission to the Communication Design program are:

1. Passing grade in Admission Portfolio Review (ARTC 2000)
2. Completion of ARTC 1301 and ARTC 1302 each with a minimum grade of “B”

All Communication Design majors must maintain a minimum major GPA of 2.75 to meet graduation requirements.

Bachelor of Arts (B.A.)
- Major in Art (p. 254)
- Major in Art History (p. 255)

Bachelor of Fine Arts (B.F.A.)
- Major in Communication Design (p. 255)
- Major in Photography (p. 256)
- Major in Studio Art (Ceramics Specialization) (p. 257)
- Major in Studio Art (Drawing Specialization) (p. 257)
- Major in Studio Art (Expanded Media Specialization) (p. 258)
- Major in Studio Art (Metals Specialization) (p. 259)
- Major in Studio Art (Painting Specialization) (p. 260)
- Major in Studio Art (Printmaking Specialization) (p. 260)
- Major in Studio Art (Sculpture Specialization) (p. 261)
- Major in Studio Art (Teacher Certification in Art, Grades EC-12) (p. 262)

Minors
- Art
- Art History

Subjects in this school include: ART (p. 235), ARTC (p. 235), ARTF (p. 239), ARTH (p. 239), ARTS (p. 242), ARTT (p. 251)

Courses in Art (ART)
ART 2313. Introduction to Fine Arts.
An introductory course designed to give the student a fundamental understanding of the creation and appreciation of diverse modes of expression through the visual and performing arts. This course may not be repeated for credit by taking MU 2313, TH 2313, or DAN 2313. (MC/MP).

ART 3313. Introduction to Fine Arts.
This course is designed to give the student a critical understanding and appreciation of the history and principles associated with each of the artistic disciplines of theatre, dance, music and the visual arts.

Courses in Communication Design (ARTC)
ARTC 1301. Introduction to Communication Design.
Introduces the field of Communication Design including terminology, creative visual thinking/problem solving, layout design, tools, and materials. Corequisite: ARTC 1302. Prerequisite: ARTF 1301, ARTF 1302 with grades “C” or higher.

ARTC 1302. Imaging I.
An introduction to digital imaging emphasizing visual strategies, techniques, and concepts. Corequisite: ARTC 1301. Prerequisites: ARTF 1301, ARTF 1302 with grades “C” or higher.

During this course, students will prepare and present an entry-level design portfolio. Communication Design majors must pass Admission Portfolio Review to gain entrance into the program. Course is repeatable one time. Co-requisites: ARTC 1301 and ARTC 1302. Prerequisites: ARTF 1301 and ARTC 1302 with grades of “C” or higher. 2.75 Overall GPA required.

Information about graduate programs can be found in the Graduate Catalog (p. 634).
ARTC 2303. Typography I.
This course introduces the evolution and development of alphabets, letter forms, and typography in relationship to visual expression and communication. Corequisite: ARTC 2304. Prerequisites: Admission into the Communication Design Program. ARTC 1301 and ARTC 1302 with grades "B" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Focuses on concept development and ideation strategies through the production of various design forms. Corequisite: ARTC 2303. Prerequisites: Admission into the Communication Design Program. ARTC 1301 and ARTC 1302 with grades "B" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 2305. Visualization and Presentation Techniques.
For Interior Design majors only. Introduces rendering techniques, three-dimensional graphics, and digital imaging for visual presentations. Prerequisites: FCS 1321; ARTF 1302; TECH 1413.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3301. Art Direction I.
Students will develop advertising concepts that relate to the creative strategies, marketing platforms, and psychology specific to client-based communication, and the type of media used. Corequisites: ARTC 3303 and ARTC 3316. Prerequisites: ARTC 3307 and ARTC 3320.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3303. Trademark Design.
Focuses on the design process and concept development of trademark design (i.e., logo design, corporate identity, iconographic systems). The class emphasizes incorporating historic and contemporary methodologies and practices of trademark design within the context of the communication design discipline. Corequisites: ARTC 3301 and ARTC 3316. Prerequisites: ARTC 3307 and ARTC 3320.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Focuses on the creation and application of integrated brand communication systems. Students will develop comprehensive brand identities, typographic elements and layout designs for print and digital media. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3307. Interactive Media I.
This course introduces Web Site design, construction, basic User Interface design, and explores the elements of HTML and CSS. Co-requisite: ARTC 3320. Prerequisites: ARTC 2303 and ARTC 2304.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3310. Illustration.
Introduces media and illustration methods for basic image development. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3313. Imaging II.
This course uses advanced digital and traditional imaging as it applies to visual and verbal problem solving. The class emphasizes incorporating drawing, photography and appropriated images in order to reinforce and extend the possibilities of sourcing and manipulation of images digitally. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3316. Communication Design History Seminar.
This course traces communication design history, through examples of social, political, cultural, technological and economic perspectives, from the end of the 19th century to the present. Students examine how past and current design practices, theory and aesthetics inform and shape the discipline of communication design and contemporary society. Corequisites: This course is to be taken concurrently with ARTC 3301 and ARTC 3303. Prerequisites: ARTC 3307 and ARTC 3320.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 3320. Typography II.
Introduces advanced issues in page structure and composition, content organization and management, typographic hierarchies, typeface selection, and typesetting. Corequisite: ARTC 3307. Prerequisites: ARTC 2303 and ARTC 2304.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4000. Senior Exit Review.
A course in which all graduating seniors must participate during their last academic year. Work will be examined and evaluated while displayed in the Exit Review. Corequisite: ARTC 4315. Prerequisites: ARTC 4308 and completion of 109 hours.

Grade Mode: Credit/No Credit

0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.

Course Attribute(s): Exclude from 3-peat Processing
ARTC 4200. Senior Show & Review.
Students will be given the guidance and the studio time needed to polish their portfolios and to organize and produce the Communication Design Exit Review. Lectures will focus on best practices for professionals in communication design. Final portfolios will be evaluated while exhibited in the Exit Review. Prerequisite: ARTC 4308. Co-requisite: ARTC 4315. Communication Design majors must take ARTC 4200 and ARTC 4315 in their last semester prior to graduation.
Grade Mode: 2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours. 2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours. 2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours. 2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

ARTC 4302. Art Direction II.
Students develop strategic messages across print, digital, and social media and evaluate how conceptual direction and message must shift to accommodate various media. Students strengthen their verbal and visual conceptual skills and elevate their research abilities to create dynamic advertising campaigns, and unify brand position with communication. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4303. Art Direction III.
This course allows students to create art direction projects based on individual professional goals. Faculty will assess each portfolio at the beginning of the course. Students will then address their portfolio content and work to create a body of art direction pieces. Prerequisite: ARTC 4302.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4305. Typography III.
Continues the study of letter form, typography, image and concept relationships for effective communication. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4306. Environmental Graphic Design.
Introduces a multidiscipline-based design practice centered around exterior and interior built environments. Students examine the visual, theoretical and applied aspects of defining a place through wayfinding, identity and information design. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4308. Interactive Media II.
This course explores advanced Web Site design, construction and User Interface design, advanced Web authoring for multiple platforms, and advanced Web typography. Prerequisites: ARTC 3301, ARTC 3303, ARTC 3307 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4309. Interactive Media III.
Mobile application design. Exploration of User Interface design and Experience design for mobile devices. Students will learn to prototype applications that connect the physical and digital worlds. Prerequisite: ARTC 4308.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4310. Communication Design Practicum.
Students are placed in regional graphic design firms and advertising agencies to gain professional design/art experience. May be repeated with different emphasis for additional credit. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316 and completion of 75 hours.
Grade Mode: 3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours. 3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours. 3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours. 3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.

ARTC 4311. Digital Illustration.
An illustration course using digital media to execute illustrations in a wide range of genres. Emphasis will be placed on developing unique approaches to manipulate traditional illustration techniques through digital means, as well as the creation of original digital illustration solutions. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4312. Editorial Illustration.
The study of traditional and digital illustration techniques for editorial publication assignments. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

ARTC 4313. Communication Design Special Problems.
An independent study requiring complex problem solving in Communication Design. Goals and objectives will be outlined in a written format. May be repeated with different emphasis for additional credit. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
ARTC 4314A. Animation.
The study and practice of various animation techniques. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314B. Legal Issues in Communication Design.
This course introduces students to the business and legal issues relating to communication design. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314D. Digital Video.
This course introduces issues in digital video production and editing. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314E. Motion Graphics.
This course introduces issues and applications in the production of motion graphics and special effects for digital video. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314F. Character Development for Illustration.
This course emphasizes basic skills of character/plot development and storytelling, action and background drawing and development of characters in unique styles. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314G. Illustration Techniques and Materials.
A beginning illustration course focusing on learning to render with line and tone styles, watercolor and acrylic painting techniques and other materials such as collage, scratchboard and monoprint styles. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314H. Poster Design.
Exploration and experimental usage of the written word integrated with visual imagery by using digital and traditional photographic, illustration, and other graphic elements utilized in poster design. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314I. Learning from the Land of Design.
The intent of this course is to broaden the students’ understanding of the rich culture of Italian design from the Renaissance to modern Italy. Additionally, the student will learn how intense observation of design principles through sketching, photography and keeping a journal, becomes a method for design inspiration and problem solving. Prerequisites: ARTC 2303 and ARTC 2304.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

ARTC 4314J. Package Design.
Students will explore designed packaged consumer goods while meeting industry and governmental requirements, principles, and guidelines, and sustainability in the context of the global marketplace. Prerequisites: ARTC 3301, ARTC 3303, and ARTC 3320.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314K. Introduction to Hand Painted Signs and Lettering.
This course explores the historic underpinnings, proven techniques, materials and iterative processes associated with hand painted signs and lettering.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTC 4314L. Guerilla Art Direction.
This course examines guerilla advertising art direction strategies. Students will develop non-traditional advertising concepts that promote social causes, consumer products, and public events. Guerilla creative strategy concepts will integrate various types of media including social and mobile interactions with the targeted audiences.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
ARTC 4315. Senior Portfolio Presentation and Self-Promotion.
This capstone course focuses on preparations for entry into professional practice via production of a final portfolio presentation, creation of a resume, business card, and self-promotions, and preparation for the interview process. This course is to be taken concurrently with Exit Review during the final semester before graduation. Prerequisites: ARTC 4308 and completion of 109 hours. Co-requisites: ARTC 4000 or ARTC 4200.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ARTC 4316. Book Design.
This course will cover concept and content development, design, and execution of single edition and limited edition books through lectures, demonstrations, and studio work. Emphasis placed on creativity, problem solving, organizational ability, technical precision, and independent work ethic. Prerequisites: ARTC 3301, ARTC 3303 and ARTC 3316.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Art History (ARTH)
ARTH 2301. Ancient to Medieval Art.
A survey of the history of painting, sculpture, and architecture from prehistoric through medieval periods. (MC).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARTS 1303

ARTH 2302. Renaissance to Modern Art.
A survey of art history from the fourteenth century through the twenty-first century.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARTS 1304

ARTH 3300. Art Criticism and Writing.
This course introduces students to the history and practice of art criticism and provides them with relevant tools and experiences to craft their own body of art criticism. Prerequisites: ARTH 2301 and ARTH 2302. Co-requisites: ARTH 3301, ARTH 3306, and ARTH 3307. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARTS 1303

ARTH 3301. History of Modern Art.
This course offers a survey of the stylistic trends, aesthetic issues, and evolving philosophy of modern art in Europe and the Americas from 1900 to 1965.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ARTH 3303. Issues in Contemporary Art.
An issue-oriented survey of the diverse forms and concepts in contemporary art making practices, mostly from the United States, from 1965 to the present.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ARTH 3306. History of Photography.
This course surveys the history of photography from its earliest manifestations until the present.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Art Foundations (ARTF)
ARTF 1301. 2-D Design.
Introduction to the elements and principles of design through the use of a variety of two-dimensional media and techniques.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ARTS 1311

ARTF 1302. Basic Drawing.
Introduction to a variety of media and techniques for exploring descriptive and expressive possibilities in drawing.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ARTS 1316

ARTF 1303. 3-D Design.
Introduction to the elements and the principles of design through the use of a variety of three-dimensional materials and techniques.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ARTS 1312

ARTF 1304. Color Theory.
Introduction to color as a descriptive and expressive element of art, focusing on color perception and application.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ARTS 2311
ARTh 3307. Issues in Contemporary Art.
An issue-oriented survey of the diverse forms and concepts in contemporary art making practices, mostly from the United States, from 1965 to the present.
Grade Mode: Standard Letter
about Issues in Contemporary Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course provides an introduction to American art and visual culture from ancient times to the 1950s. (WI).
Grade Mode: Standard Letter
about History of American Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about History of American Art

ARTh 4302. Latin American Art.
This course surveys the rich and varied visual art of Latin American and Caribbean countries from the wars of independence to the present day with a focus on recurring themes that have resonated in art throughout the region, such as modernism, internationalism, nationalism, race, identity, and political activism. (MC) (WI).
Grade Mode: Standard Letter
about Latin American Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Latin American Art

ARTh 4303. Pre-Columbian Art.
A survey of the art of Pre-Columbian sites and cultures in Mesoamerica and the Central Andes, from pre-history to the European conquest. (MC) (WI).
Grade Mode: Standard Letter
about Pre-Columbian Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Pre-Columbian Art

A survey of the history of European and American film as an art form. (MC) (WI).
Grade Mode: Standard Letter
about Global History of Cinema

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Global History of Cinema

ARTh 4306. Renaissance Art.
An in-depth survey of the history of Italian Renaissance art, including key works of art representative of the Northern Renaissance. Course emphasizes the study of iconography and stylistic change, in conjunction with larger cultural developments. (MC) (WI).
Grade Mode: Standard Letter
about Renaissance Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Renaissance Art

ARTh 4308. Asian Art.
A broad survey of the art of Asian cultures including India, Japan, and China from pre-history to the present. (MC) (WI).
Grade Mode: Standard Letter
about Asian Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Asian Art

ARTh 4309. Feminism and Visual Representation.
This course provides an introduction to feminist art, theory, and visual culture by focusing on the relationships between several key feminist concerns, including sexuality and gender experience and difference. (WI).
Grade Mode: Standard Letter
about Feminism and Visual Representation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Feminism and Visual Representation

ARTh 4310. Race and Representation.
This course explores the variegated ways that race, and, by implication, identity and difference, is figured and represented in a range of cultural productions, including art, film and visual culture. (WI).
Grade Mode: Standard Letter
about Race and Representation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Race and Representation

ARTh 4311. History of Italian Art.
Taught on-site and centered in Florence, Italy, this course represents a targeted immersion into Renaissance art and culture and includes the study of pivotal works of art and architecture across the Italian peninsula. May be substituted for ARTH 2301 or ARTH 2302. (WI).
Grade Mode: Standard Letter
about History of Italian Art

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Italian Art

ARTh 4312. The Arts in Popular Culture.
This course examines popular culture, including the emergence of mass culture, and its complex intersection with the fine arts from the nineteenth century onwards. (WI).
Grade Mode: Standard Letter
about The Arts in Popular Culture

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about The Arts in Popular Culture

ARTh 4313. Hellenistic Art and Culture.
This course focuses on the Greek aesthetic tradition from the fourth century BCE to the end of the first century C.E., with a cross-disciplinary emphasis on the interaction of Greek and non-Greek cultures from Northern India to the Italian peninsula. (WI).
Grade Mode: Standard Letter
about Hellenistic Art and Culture

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Hellenistic Art and Culture
ARTH 4320A. Documentary Photography.
This course explores key issues in the theory, history, and practice of
documentary photography. (WI).
about Documentary Photography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Documentary Photography

ARTH 4320B. Curatorial Practices.
This course considers the history and cultural significance of the practice
of curating and exhibition making. (WI).
about Curatorial Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Curatorial Practices

ARTH 4321M. Art and Politics.
This course explores various ways in which artists have worked to affect
and/or endorse changes in government, exploring both art as a tool for
social cohesion in support of a particular political party or ideal and art as
a means of political protest. (WI).
about Art and Politics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Art and Politics

ARTH 4321N. Perspectives on Andy Warhol.
This course explores Post-World War II art and culture by focusing on the
career of Andy Warhol. The class will examine the multiple media and
strategies for artistic dialogue and visibility that the artist implemented
over his decades-long practice from the 1960s through the 1980s. (WI).
about Perspectives on Andy Warhol
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Perspectives on Andy Warhol

ARTH 4321O. Spanish Colonial Art of Latin America.
This course surveys the art and architecture of the Spanish and
Portuguese Viceroyalties in the Americas from the conquest to the wars
of independence, examining the role that art and architecture played in
religion, government, social structuring, and identity formation. (WI).
about Spanish Colonial Art of Latin America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Spanish Colonial Art of Latin America

ARTH 4321P. Artists’ Writing.
This course explores ways in which visual artists have engaged with the
written word in relationship to their art work. Readings will be taken from
diaries, manifestos, critical and experimental essays, and works of fiction.
Students will create their own writings and/or art work in response to
weekly readings. (WI).
about Artists’ Writing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Artists’ Writing

ARTH 4321Q. Video Art.
This course considers the myriad ways artists have mobilized video to
confront and complicate representations of people affected by the HIV/
AIDS pandemic. Most of this course will be spent discussing videos and
readings from the 1980s and 1990s and will be localized to the United
States. (WI).
about Video Art
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Video Art

ARTH 4321S. Conceptualism.
This course explores the emergence of conceptualism globally during the
1950s through the 1980s and considers its impact on contemporary art.
(WI).
about Conceptualism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics|Writing Intensive
Grade Mode: Standard Letter
about Conceptualism

ARTH 4321T. Art in the 1990s.
This course broadly considers the state of global art and politics in the
1990s from a postcolonial perspective. (WI).
about Art in the 1990s
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Grade Mode: Standard Letter
about Art in the 1990s

ARTH 4321U. Contemporary Art in Italy.
Taught on-site and centered in Florence, Italy, students consider a
number of contemporary art and exhibition practices, with emphasis on
discursive formations of the global. May be substituted for ARTH 3307.
about Contemporary Art in Italy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Contemporary Art in Italy
ARTH 4321V. History of Experimental Film.
This course provides an overview of experiments in avant-garde and artists films from 1920 until the present. Students will learn how to analyze the meaning in moving images that exhibit unconventional narratives and will examine reactions these films have provoked in audiences past and present.

about History of Experimental Film
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

about History of Experimental Film

ARTH 4322. Special Problems.
An advanced level, independent study in art history, aesthetics, and criticism. The emphasis of the course is on scholarship, research, and writing. May be repeated with different emphasis for additional credit. Prerequisite: Consent of instructor. (WI).

about Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ARTH 4323. Art History Thesis I.
A senior-level course focused on research, methodology, and writing in art history. Prepares students for final senior thesis projects. Prerequisites: ARTH 2301 with a minimum grade of C, and ARTH 3307 with a minimum grade of C. (WI).

about Art History Thesis I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ARTH 4324. Art History Thesis II.
A senior-level course focused on independent research and writing in art history and on the completion of a final thesis project. Prerequisite: ARTH 4323.

about Art History Thesis II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ARTH 4325. Art History Internship.
This course will offer students the opportunity to experience and receive academic credit for professional activities related to the field of art history. Consent of instructor required.

about Art History Internship
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Studio Art (ARTS)

ARTS 1305. Digital Studio Foundations.
This course will provide an introduction to digital imaging software as a tool for the visual artist. Students will learn terminology, operating systems, and how to store, organize and transfer digital data. Special emphasis will be placed upon the use of the computer for conceptual and aesthetic problem solving.

about Digital Studio Foundations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 1321. Drawing I.
Introduces the analytical study of the human form and the figure's potential for compositional and expressive use of drawing. Prerequisites: ARTF 1301 and ARTF 1302.

about Drawing I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 2336. Ceramics I.
An introduction to clay as a medium for creative expression. Basic hand-building and wheel-throwing methods of forming are employed to investigate form and develop conceptual awareness. Prerequisites: ARTF 1301, ARTF 1302, and ARTF 1303.

about Ceramics I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

TCCN: ARTS 2341
about Metals I

ARTS 2351. Painting I.
An introduction to painting emphasizing the elements and principles of pictorial composition. Provides the foundation for critical aesthetic judgment while developing technical and creative skills. Prerequisites: ARTF 1301 and ARTF 1302. about Painting I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TCCN: ARTS 2316
about Painting I

ARTS 2361. Foundations of Photography I.
This course introduces basic concepts in photography through lecture, readings and studio practice in traditional and digital processes. Prerequisites: ARTF 1301 and ARTF 1302. about Foundations of Photography I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TCCN: ARTS 2333
about Foundations of Photography I

ARTS 2371. Printmaking I.
This course introduces relief and screen printing techniques, covering both traditional and contemporary as well as manual and digital techniques. Provides a historical, technical, visual and conceptual foundation for printmaking. Prerequisites: ARTF 1301 and ARTF 1302. about Printmaking I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TCCN: ARTS 2333
about Printmaking I

ARTS 2381. Sculpture I.
An introduction to sculptural materials and processes as a medium for creative expression. Provides the foundation for critical aesthetic judgment while developing technical and creative skills. Prerequisites: ARTF 1301, ARTF 1302, and ARTF 1303. about Sculpture I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TCCN: ARTS 2326
about Sculpture I

ARTS 2391. Watercolor I.
An introduction to the fundamentals of transparent watercolor painting as a medium for creative expression. Prerequisites: ARTF 1301, ARTF 1302, and ARTS 1305 or ARTC 1302. about Watercolor I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TCCN: ARTS 2366
about Watercolor I

ARTS 3302. Expanded Media II.
This studio course continues explorations of formal, critical and technical approaches to time-based practices. Students incorporate diverse media and materials to generate interdisciplinary projects. Emphasis is placed on modes of presentation. Prerequisite: ARTS 2301. about Expanded Media II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Expanded Media II

ARTS 3303. Expanded Media III.
This is a rotating topics course in Expanded Media. Potential course topics include, but are not limited to, performance, participatory practices, institutional critique and contextual methodologies. Prerequisite: ARTS 3302. about Expanded Media III
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Expanded Media III

ARTS 3304. Expanded Media IV.
This is a rotating topics course in Expanded Media. Potential course topics include, but are not limited to, computer programming, web-based systems, animation, sound design and interactive multimedia. Prerequisite: ARTS 3303. about Expanded Media IV
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Expanded Media IV

ARTS 3312. Ceramics II.
Through pottery forms and/or clay sculpture, students develop conceptual and expressive skills. Students formulate glazes and fine kilns. Prerequisites: ARTS 2311. about Ceramics II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Ceramics II
ARTS 3313. Ceramics III.  
Through individualized projects, students develop personal content and expression in their work. Students formulate clay bodies and slips, and investigate experimental firing methods. Prerequisite: ARTS 3312.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Ceramics III

ARTS 3314. Ceramics IV.  
Continued development of personal expression through a self-initiated series of works. Students investigate technically complex forming methods. Prerequisite: ARTS 3313.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Ceramics IV

ARTS 3322. Drawing II.  
Experimentation with techniques and materials to develop perceptual and conceptual skills leading to individual expression in drawings. Prerequisite: ARTF 1303.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Drawing II

ARTS 3323. Drawing III.  
Focuses on the development of a personal visual statement using the human form as subject matter. Interpretive skills are stressed and alternative approaches to generating visual imagery are explored. Prerequisite: ARTS 3322.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Drawing III

ARTS 3324. Drawing IV.  
Emphasizes conceptual skills and critical analysis in the development of individual imagery and aesthetics in drawing. Consistent thematic drawings are required. Prerequisite: ARTS 3323.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Drawing IV

ARTS 3332. Fibers II.  
Development of visual and conceptual skills through traditional and experimental techniques. Prerequisites: ARTS 2331.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Fibers II

ARTS 3333. Fibers III.  
Development of a personal aesthetic direction in fibers using loom and/or non-loom processes. Prerequisites: ARTS 3332.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Fibers III

ARTS 3334. Fibers IV.  
The conceptual and technical aspects of fibers are developed through experimentation, research and evaluation. Prerequisite: ARTS 3333.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Fibers IV

ARTS 3342. Metals II.  
The development of a personal aesthetic and conceptual direction in the metal medium focusing on the relationship between surface and form. Casting is introduced and the exploration of patination and surface coloration continues. Prerequisites: ARTS 2341.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Metals II

ARTS 3343. Metals III.  
Emphasis on a personal conceptual direction in the solution of formal problems using complex construction and fabrication processes. Prerequisite: ARTS 3342.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Metals III

ARTS 3344. Metals IV.  
An introduction to the ductile qualities of the metal medium through advanced forming and raising processes. In a series of artworks, students develop a personal aesthetic. Prerequisite: ARTS 3343.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Metals IV

ARTS 3352. Painting II.  
A series of projects synthesizing the elements and principles of pictorial composition that encourage individual creative solutions. Prerequisites: ARTS 2351, ARTF 1303.  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Painting II
ARTS 3353. Painting III.
Development of personal imagery in painting through individualized projects. Prerequisite: ARTS 3352.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3354. Painting IV.
The conceptual and technical aspects of painting are developed through experimentation, research and evaluation. Prerequisite: ARTS 3353.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3355. Digital Painting.
A course developing basic skills in the use of computer graphic tools and related peripheral devices for creating digital paintings. The course is intended for students with a foundation in traditional painting and drawing media. Prerequisite: ARTS 2351.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3361. Foundations of Photography II.
This course introduces black and white aesthetics and techniques within a traditional and digital context. Prerequisite: ARTS 2361.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This course places an emphasis on the conceptual and technical aspects of digital and photographic imaging using the chemistry and techniques of alternative printing methods. Prerequisites: ARTS 3361 and ARTS 3364.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3364. Introduction to Digital Photography.
This course introduces students to the aesthetics of current digital imaging technology, including new digital cameras, scanning equipment, Macintosh computers, image-manipulation programs and printing devices. Prerequisite: ARTS 2361.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3365. Studio Photography.
This course uses a studio environment to explore issues in controlled lighting in photography. Prerequisites: ARTS 2361 and ARTS 3364.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

This course builds and expands upon the digital concepts and techniques covered in Introduction to Digital Photography. Prerequisite: ARTS 3364.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3372. Printmaking II.
This course introduces, in alternate semesters, intaglio printing during the fall semesters (including copper plate printing: drypoint, mezzotint, etching, aquatint and photo-polymer plates) and lithography printing during the spring semester (including plate and stone litho, as well as photo-lithography) Prerequisites: ARTS 2371, ARTF 1303.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3373. Printmaking III.
This course introduces, in alternate semesters, intaglio printing during fall semesters (including copper plate printing: drypoint, mezzotint, etching, aquatint, and photo-polymer plates) and lithography printing during the spring semester (including plate and stone litho, as well as photo-litho). Prerequisite: ARTS 3372.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3374. Printmaking IV.
Having learned the basic printmaking techniques, students are introduced to Book Arts, hand binding, and containers/boxes. Digital printmaking is also introduced as part of the repertoire of the contemporary artist/printmaker. Prerequisite: ARTS 3373.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
ARTS 3376. Screen Printing.
This course introduces students to contemporary and traditional techniques in serigraphy (also known as screen printing) to produce a series of four in-depth, major creative projects. Repeatable for credit. Prerequisites: ARTF 1301, ARTF 1302, ARTF 1303, and ARTS 1305 or ARTC 1302.

Arts 3376. Screen Printing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3382. Sculpture II.
Development of a personal aesthetic direction with emphasis on the visual, conceptual and technical aspects of sculptural form. Prerequisites: ARTS 2381.

ARTS 3382. Sculpture II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3383. Sculpture III.
Emphasizes personal aesthetic direction through the development of advanced metal casting and fabricating techniques. Prerequisite: ARTS 3382.

ARTS 3383. Sculpture III
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3384. Sculpture IV.
Focuses on developing conceptual and technical skills through the creation of large-scale sculpture. Prerequisite: ARTS 3383.

ARTS 3384. Sculpture IV
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 3392. Watercolor II.
Continues the development of creative and technical skills through a series of structured watercolor projects. Prerequisite: ARTS 2391.

ARTS 3392. Watercolor II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 4000. Senior/Thesis Art Exhibition.
A senior level course in which all graduating students majoring in Studio Art with a studio specialization, Studio Art leading to All Level Certification, or in Photography, must participate during their last academic year. In consultation with thesis faculty, studio art and photography students will select work to exhibit from their Thesis I and Thesis II courses. Students earning teaching certification will select work to exhibit in consultation with art education faculty advisors.

ARTS 4000. Senior/Thesis Art Exhibition
0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 4200. Portfolio, Practice, and Exhibition.
This course provides the skills to prepare, package, and present the BFA Thesis in Studio Art and Photography, including written and professional documents and documentation of the creative work. The course also covers topics required for pursuing a career in the arts, building community, and preparing for post-BFA opportunities. Prerequisite: ARTS 1305. Co-requisite: Thesis II in specialized studio area.

ARTS 4200. Portfolio, Practice, and Exhibition
2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 4305. Expanded Media V.
This advanced studio course integrates contemporary theory and practice. Reading assignments and viewings serve as thematic prompts for students to create projects in an interdisciplinary manner. Experimentation and unexpected outcomes are encouraged. Prerequisite: ARTS 3304.

ARTS 4305. Expanded Media V
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 4306. Expanded Media VI.
This course is the first half of Senior Thesis for students under the Expanded Media Specialization. It requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4305.

ARTS 4306. Expanded Media VI
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ARTS 4307. Expanded Media VII.
This course is the second half of Senior Thesis for students under the Expanded Media Specialization. It requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4306.

ARTS 4307. Expanded Media VII
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
ARTS 4308D. Natural and Human Environment of Italy.
This course uses Italy as the backdrop to enhance aesthetic understanding of both color (slide transparency) and black and white photography. A strong emphasis is placed on developing visual, conceptual and technical aspects of photography using advanced camera knowledge, chemistry, and sensitivity to local visual stimuli. about Natural and Human Environment of Italy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Natural and Human Environment of Italy

ARTS 4308E. Fine Art Forging.
An introduction to the theories and processes of forging and blacksmithing for both ferrous and non-ferrous metals.
about Fine Art Forging
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Fine Art Forging

ARTS 4308I. Disegno a Firenze: Drawing in Florence.
Part of the summer program in Italy, this class focuses on drawing from various subjects in and around the city of Florence. Through daily practice, students will address not only the fundamentals of monochromatic drawing, but also the increased perception that the act of drawing engenders.
about Disegno a Firenze: Drawing in Florence
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Disegno a Firenze: Drawing in Florence

ARTS 4308N. Digital Animation.
This course will provide an introduction to the technical and conceptual processes for creating digital animations. Instruction includes software and hardware requirements and knowledge, visual problem solving, and conceptual development. Each student will complete a short animated video by the end of the course. Prerequisites: ARTF 1301, ARTF 1302, and ARTS 1305 or ARTC 1302.
about Digital Animation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Digital Animation

ARTS 4308O. Graphic Novels and 'Zines.
This class will explore comics, zines, graphic novels and forms of narrative art as a contemporary medium. The student will be introduced to historical and contemporary examples, including cinema and printed matter. The student will create original work in comic strips, 'zines, graphic novellas and/or printed ephemera.
about Graphic Novels and 'Zines
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Graphic Novels and 'Zines

ARTS 4308S. Mapping the City: Interdisciplinary Art in Urban Spaces.
This course will explore different methods of mapping (real and conceptual) utilized by contemporary artists and engage students in collaborative multidisciplinary projects. Students will build on their own interests and strengths, utilizing photography/video/interview formats/drawing/collage/etc., to build a portfolio of contemporary works. Prerequisite: ARTS 1305.
about Mapping the City: Interdisciplinary Art in Urban Spaces
3 Credit Hours. 48 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Mapping the City: Interdisciplinary Art in Urban Spaces

ARTS 4312. Studio Art Internship.
A course designed to offer students the opportunity to experience and receive academic credit for professional related activities in the field of the studio arts. Requires consent of instructor.
about Studio Art Internship
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Studio Art Internship

ARTS 4313. Studio Practice.
This course provides the necessary professional skills needed to pursue a career in the arts. These skills include: writing about your work; building community; giving a formal presentation; designing a business plan and setting concrete goals; conducting research; preparation of materials for post-BFA opportunities. Cannot be retaken for credit. Prerequisites: ARTS 3364 or Level IV in specialization.
about Studio Practice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Studio Practice

ARTS 4315. Ceramics V.
Development of the conceptual and technical aspects of ceramics through experimentation, research and evaluation. Prerequisite: ARTS 3314.
about Ceramics V
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Ceramics V

ARTS 4316. Ceramics VI – Thesis I.
The first half of the Senior Thesis for ceramics majors. Requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4315.
about Ceramics VI – Thesis I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Ceramics VI – Thesis I
ARTS 4317. Ceramics VII – Thesis II.
The second half of the Senior Thesis for ceramics majors. Requires a related body of work documented in a written progress report. Selections from the thesis project will be exhibited in a senior exhibition. Prerequisite: ARTS 4316. Corequisite: ARTS 4000.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Ceramics VII – Thesis II

ARTS 4318. Ceramics Special Problems.
An advanced level, independent study in ceramics which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3313.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Ceramics Special Problems

ARTS 4325. Drawing V.
Requires students to pursue a personal conceptual direction in drawing and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. Prerequisite: ARTS 4324.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Drawing V

ARTS 4326. Drawing VI – Thesis I.
The first half of the Senior Thesis for drawing majors. Requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4325.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Drawing VI – Thesis I

ARTS 4327. Drawing VII – Thesis II.
The second half of the Senior Thesis for drawing majors. Requires a related body of work documented in a written progress report. Selections from the thesis project will be exhibited in a senior exhibition. Prerequisite: ARTS 4326. Corequisite: ARTS 4000.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Drawing VII – Thesis II

ARTS 4328. Drawing Special Problems.
An advanced level, independent study in drawing which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3333.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Drawing Special Problems

ARTS 4335. Fibers V.
Requires students to pursue a personal and conceptual direction in fibers and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. Prerequisite: ARTS 3334.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Fibers V

ARTS 4336. Fibers VI – Thesis I.
The first half of the Senior Thesis for fibers majors. Requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4335.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Fibers VI – Thesis I

ARTS 4337. Fibers VII – Thesis II.
The second half of the Senior Thesis for fibers majors. Requires a related body of work documented in a written progress report. Selections from the thesis project will be exhibited in a senior exhibition. Prerequisite: ARTS 4336 with a minimum grade of B. Corequisite: ARTS 4000.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Fibers VII – Thesis II

ARTS 4338. Fibers Special Problems.
An advanced level, independent study in fibers which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3333.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Fibers Special Problems
ARTS 4345. Metals V.
Focusing on the conceptual and technical aspects of the metal medium through experimentation, research and evaluation. Requires students to pursue a personal and conceptual direction and to produce a consistent body of artwork. Prerequisite: ARTS 3344.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Metals V

ARTS 4346. Metals VI – Thesis I.
The first half of the Senior Thesis for metals majors. Requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4345.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Metals VI – Thesis I

ARTS 4347. Metals VII – Thesis II.
The second half of the Senior Thesis for metals majors. Requires a related body of work documented in a written progress report. Selections from the thesis project will be exhibited in a senior exhibition. Prerequisite: ARTS 4346. Corequisite: ARTS 4000.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Metals VII – Thesis II

ARTS 4348. Metals Special Problems.
An advanced level, independent study in metals which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3343.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Metals Special Problems

ARTS 4355. Painting V.
Requires students to pursue a personal conceptual direction in painting and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. Prerequisite: ARTS 3354.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Painting V

ARTS 4356. Painting VI – Thesis I.
The first half of the Senior Thesis for painting majors. Requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4355.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Painting VI – Thesis I

ARTS 4357. Painting VII – Thesis II.
The second half of the Senior Thesis for painting majors. Requires a related body of work documented in a written progress report. Selections from the thesis project will be exhibited in a senior exhibition. Prerequisite: ARTS 4356. Corequisite: ARTS 4000.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Painting VII – Thesis II

ARTS 4358. Painting Special Problems.
An advanced level, independent study in painting which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3353.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Painting Special Problems

ARTS 4360. Readings in Photography.
In this intensive writing course, students will read, write, and create studio projects in reaction to historical and contemporary written accounts of the history, practice, and interpretation of photography. Prerequisites: ARTH 3306, ARTH 3307. Corequisite: ARTS 4366.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Readings in Photography

ARTS 4363. Color Photography and Digital Imaging.
This is a course in the aesthetics of color digital and photographic imaging and color prints made from transparencies. This course emphasizes developing the visual, conceptual and technical aspects of digital and photographic imaging using advanced camera knowledge and color chemistry for printing both color negative and digital files. Prerequisite: ARTS 4364.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Color Photography and Digital Imaging
This course explores advanced concepts and techniques in digital photography. Prerequisite: ARTS 3366. about Advanced Digital Photography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Digital Photography

ARTS 4366. Photography Thesis I.
This course is a senior-level course for photography majors requiring a series of related photographs. This course is the first half of the senior thesis. Prerequisite: ARTS 4360 or ARTS 3365 or ARTS 3366. about Photography Thesis I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Photography Thesis I

ARTS 4367. Photography Thesis II.
The course is the second half of the Senior Thesis for photography majors requiring a series of original photographs to be documented in a written creative statement. An exhibition in the gallery of some or all of the work culminates the senior thesis. Prerequisite: ARTS 4366. Corequisite: ARTS 4000. about Photography Thesis II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Photography Thesis II

ARTS 4368. Fine Art Photography Special Problems.
An advanced level, independent study in photography which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Must be an Art major or minor to enroll. Prerequisites: ARTS 2361; ARTF 1301, ARTF 1302. about Fine Art Photography Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Fine Art Photography Special Problems

ARTS 4375. Printmaking V.
Students in level V pursue one or more of the various printmaking techniques, mixed with other techniques as necessary, to develop the appropriate technical, aesthetic and conceptual skills necessary to create a cohesive body of work. Prerequisite: ARTS 3374. about Printmaking V
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Printmaking V

ARTS 4376. Printmaking VI.
The student begins to create a conceptually linked body of work for their BFA. Written statements and other documentation are required, and priority is placed on the development of a personal and professional direction. Prerequisite: ARTS 4375. about Printmaking VI
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Printmaking VI

ARTS 4377. Printmaking VII.
The student completes their thesis work, culminating in participation in the Thesis Exhibition. Written statement, thesis and other professional documents are required, as is visual documentation of the thesis work. Emphasis is placed on a conceptually linked body of work and professional presentation. Prerequisite: ARTS 4376. Corequisite: ARTS 4000. about Printmaking VII
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Printmaking VII

ARTS 4378. Printmaking Special Problems.
An advanced level, independent study in printmaking which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3373. about Printmaking Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Printmaking Special Problems

ARTS 4379. Introduction to Book Arts.
This class examines the book as a complex visual and tactile art form. Demonstrations are given on traditional bindings from Asia and Europe. Students produce multiple mock-up books in addition to a major project of their choosing. Slide lectures introduce the history of books and an overview of contemporary artistic activity. about Introduction to Book Arts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Introduction to Book Arts

ARTS 4385. Sculpture V.
The conceptual and technical aspects of sculpture are developed through experimentation, research and evaluation. Requires students to pursue a personal and conceptual direction and to produce a consistent body of artwork. Prerequisite: ARTS 3384. about Sculpture V
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Sculpture V
ARTS 4386. Sculpture VI – Thesis I.
The first half of the Senior Thesis for sculpture majors. Requires a written statement of intent outlining the scope and objectives of the proposed thesis project followed by a related body of artwork. Prerequisite: ARTS 4385.

about Sculpture VI – Thesis I
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Sculpture VI – Thesis I

ARTS 4387. Sculpture VII – Thesis II.
The second half of the Senior Thesis for sculpture majors. Requires a related body of work documented in a written progress report. Selections from the thesis project will be exhibited in a senior exhibition. Prerequisite: ARTS 4386. Corequisite: ARTS 4000.

about Sculpture VII – Thesis II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Sculpture VII – Thesis II

ARTS 4388. Sculpture Special Problems.
An advanced level, independent study in sculpture which requires students to pursue a personal conceptual direction and to develop the appropriate technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Prerequisite: ARTS 3383.

about Sculpture Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

Robert E. Lee Commonwealth auditorium 251

Courses in Art Theory and Practice (ARTT)

A survey and analysis of the theories and practices of art learning. Topics include: philosophy; history and theory of art learning; technology; artistic development; learning theories; assessment tools; program development; presentations and current realities; trends and issues. (WI).

about Fundamentals of Art Theory and Practice
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

about Fundamentals of Art Theory and Practice

ARTT 3370. Art Theory and Practice.
Introduces the theories and practices of children’s art learning for the non-art major.

about Art Theory and Practice
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

about Art Theory and Practice

ARTT 3372. Art Theory and Practice for Children.
A survey and analysis of the theories and practices of teaching art to children. Topics include: artistic development, art programming, content, philosophies, methodologies, objectives and assessment. Requires 10 clock hours of field experience in an elementary art learning setting. Prerequisite: ARTT 2371. (WI).

about Art Theory and Practice for Children
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

about Art Theory and Practice for Children

ARTT 3373. Art Theory and Practice for Adolescents.
The theories and practices of adolescent art learning. Topics include: learning environments, artistic development, presentation methodologies, objectives and assessment, and other current topics. Requires 10 clock hours of field experience in a secondary school art setting. Prerequisite: ARTT 2371.

about Art Theory and Practice for Adolescents
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

about Art Theory and Practice for Adolescents

ARTT 3374. Learning and Digital Media.
The theories and practices of using electronic media for the creation of art as well as for the enhancement of the art learning process. Prerequisite: ARTT 2371. Recommended co-requisite ARTT 3373.

about Learning and Digital Media
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

about Learning and Digital Media

ARTT 3375. Experimental Water Media.
Upper level elective for studio majors. Fills teaching certification watercolor requirement. Students will experiment with water media, including watercolor, egg tempera, gouache, and mixed media on a variety of surfaces, including yupo and gessoed paper. Students will explore mixed media with watercolor. Justification: Future teachers need to develop skills in a wide range of water media, on a wide range of paper including yupo and gessoed paper. Students will explore mixed media with watercolor. These things are not covered in the watercolor studio course. The course would also serve as an elective for studio art majors who want to explore multiple media with watercolor.

about Experimental Water Media
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Experimental Water Media

ARTT 4000. Senior Art Education Exhibition.
A senior level course in which all graduating Art Education Seniors must participate during their last academic year. Work will be examined and produced leading to a showing in one of the Senior Student Exhibitions.

about Senior Art Education Exhibition
0 Credit Hours. 0 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

about Senior Art Education Exhibition
ARTT 4375. Art Criticism, History, and Aesthetics.
A survey and in-depth analysis of the philosophies and structures of art criticism, art history, and aesthetics, as well as contemporary methodologies for analyzing, interpreting and judging works of art. Prerequisite: ARTT 2371 with a grade of "C" or higher, or consent of instructor. (WI).

Grade Mode: Standard Letter
Course Attribute(s): Writing Intensive

ARTT 4376. Special Problems in Art Theory and Practice.
Individualized study focusing on personal skill and knowledge development related to art learning experiences. Research will include a review of literature, a design for practical experience, and documentation of results and conclusions. May be repeated with different emphasis for additional credit. (WI).

Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

ARTT 4377. Pedagogy for Art Educators.
This course is the capstone course for art education majors and offers advanced K-12 pedagogy that supports the development of curriculum and a teaching portfolio. Students are required to participate in service learning fieldwork for a minimum of 6 hours. Prerequisites: ARTT 2371 with at least a C; Corequisites: Prior credit or enrolled in ARTT 3372, ARTT 3373, ARTT 4375, or consent of instructor.

Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

ARTT 4380A. Computer Art.
An advanced level elective designed to examine and apply various techniques of creating and utilizing computer art for use in teaching art in the public schools.

Grade Mode: Standard Letter
Course Attribute(s): Topics

ARTT 4380B. Introduction to Advanced Placement Courses in Public Schools.
An advanced level elective designed to examine the advanced placement course programs available in the public schools.

Grade Mode: Standard Letter
Course Attribute(s): Topics

ARTT 4380C. Community-Based Art Programs.
This course will survey the growing field of community arts and prepare students to work in or with community-based arts programs.

Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

Bachelor of Arts (B.A.) Major in Art

Minimum required: 120 semester hours

**General Requirements**
1. Majors must complete 39 hours of art.
2. A minor is required. Some minors may exceed 24 hours.
3. General education core curriculum and B.A. degree requirements must be met, and students are required to have completed 36 advanced hours.
4. Prerequisites for all advanced Art classes must be met. Students must be aware that the 2000 level ARTS classes chosen will determine the advanced ARTS classes they are eligible to take.

### Total Hours: 120
Bachelor of Fine Arts (B.F.A.) Major in Studio Art (Teacher Certification in Art, Grades EC-12)

Minimum required: 127 semester hours

General Requirements
1. Majors must complete 66 hours in Art and 21 hours in Education.
2. Education majors must maintain an overall GPA of 2.75, a major GPA of 2.5 and a GPA of 2.5 in all required Education courses.
3. Prior to student teaching, majors must complete all required ARTT courses.
4. Prior to student teaching, majors should complete all required art and education courses with a grade of "C" or higher.
5. Certification is in art only (K through 12).
6. General education core curriculum and teacher education requirements must be met, and students are required to have completed 36 advanced hours.
7. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Minor in Art

Courses for the Art Minor must be chosen in consultation with the Director, School of Art and Design. All prerequisites must be met for any course chosen to satisfy requirements for the Art Minor. A student cannot both major and minor in the School of Art and Design. All prerequisites must be met for any course chosen to satisfy requirements for the Art Minor. ARTS 2361 may not be taken to satisfy requirements for the Art Minor.

A Minor in Art requires 24 hours as listed.

Required

ARTF 1301 2-D Design 3
ARTF 1302 Basic Drawing 3
ARTF 1303 3-D Design 3
Select one of the following: 3
ARTS 2311 Ceramics I
ARTS 2321 Drawing I
ARTS 2331 Fibers I
ARTS 2341 Metals I
ARTS 2351 Painting I
ARTS 2371 Printmaking I
ARTS 2381 Sculpture I
ARTS 2391 Watercolor I
Four courses selected from advanced level Art and Design courses 12

Total Hours 24

Students select four Upper Division Art History Electives from the 3000 level lecture and 4000 level seminar courses. 1

Total Hours 18

1 With the exception of ARTH 4325: Art History Internship, offered every semester, the 4000 level courses are taught in rotation on a three-year cycle.

Department of Communication Studies

Centennial Hall Room 205
T: 512.245.2165 F: 512.245.3138
www.finearts.txstate.edu/commstudies

Communication studies examines the creation, expression, and analysis of messages in our personal, professional, and public lives. Communication studies students learn to manage message processes within and among individuals, groups, organizations, and societies. They explore verbal and nonverbal communication, organizational and business communication, rhetoric and criticism, argumentation and persuasion, and communication technology.

Communication studies majors learn principles and practical skills useful for careers in business, industry, government, non-profit organizations, social services, and education. Graduates enter such professions as law, business, public relations, event planning, public service, teaching, management, human resources, training and development, marketing, sales, public administration, politics, and ministry.

Some students may wish to concentrate on a particular aspect of communication study. Although there is no required sequence of courses for any single area of interest, the following general guide may be used to assist students in providing a focal point for their communication study.

Interpersonal Communication

Courses that focus on interpersonal communication are designed to provide students with skills and knowledge to pursue a variety of career goals that involve interpersonal interactions with others. This area of interest is appropriate for students seeking careers in business, non-profit organizations, sales, public relations, customer service, counseling, hospitality services (e.g. travel or hotel industry) or other careers or professions which emphasize effective human relationship skills.

Students interested in interpersonal communication may wish to select from the following courses:

COMM 3325 Communication and Conflict Management 3
COMM 3326 Family Communication 3
COMM 3328 Communication and Gender 3
COMM 3329 Intercultural Communication 3
COMM 3330 Nonverbal Communication 3
COMM 4326 Health Communication 3
COMM 4331 Persuasion 3

Organizational Communication

Courses that focus on organizational communication are designed to enhance the student’s marketability in careers requiring skills in the management of human relationships and communication flow within
contemporary business, public service, non-profit, and professional organizations. Students interested in organizational communication may wish to select from the following courses:

<table>

</table>

**Persuasive Communication**

Persuasive communication emphasizes study in rhetoric, public address, and argumentation. This area of interest is appropriate for students planning careers in business and industry, non-profit organizations, sales and marketing, the ministry, law, politics or other careers in which persuasion, rhetorical, and analytical skills are important. Students interested in persuasive communication may wish to select from the following courses:

</table>

Application may be made to the departmental internship committee for permission to enroll in COMM 4390. A 2.75 GPA (3.0 preferred), senior status, and completion of at least 21 hours of communication studies courses are usually required. An internship will afford the student an opportunity to work in a communication related role in an organization and apply that work experience to communication theories, principles, skills, and strategies learned in communication studies courses. Normally the student will be expected to work on the job for approximately 100 clock hours, complete a research project, and submit an analytical journal for 3 semester hours of academic credit.

**Bachelor of Arts (B.A.)**

- Major in Communication Studies (p. 269)
- Major in Communication Studies (Teacher Certification in Speech, Grades 7-12) (p. 270)

about Intercultural Communication in the Americas

COMM 3318O. Environmental Communication: Sustainability, Rhetoric, Criticism and Advocacy.
The analysis of environmental communication contributes much to our knowledge about public discourse and the symbolic processes of influence in formal oratory, public debate, political communication, organizational communication, and mass media. This course will challenge you, but the rewards will be worth the effort - you will see and hear the public messages around you in a whole new way. about Environmental Communication: Sustainability, Rhetoric, Criticism and Advocacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Environmental Communication: Sustainability, Rhetoric, Criticism and Advocacy
COMM 3318Q. The Dark Side of Communication.
The Dark Side of Communication will examine aversive and problematic interactions in the interpersonal, organizational, and instructional settings. Sample topics include hurtful messages, stalking, aggression, jealousy, fatal attraction, and conflict. Students will take a research-based approach to understanding these undesirable, yet very common, communicative messages. Restricted to sophomore or higher classification.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3318R. Instructional Communication Practicum.
This course will provide students with an overview of instructional communication research including teacher immediacy and clarity, and student responsiveness and engagement. Students will also work with a faculty supervisor as an instructional aide in which they will facilitate experiential activities and learn to assess lower division assignments. Permission of supervising instructor is required prior to registration.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3318S. Social Media in Organizations.
Social Media in Organizations prepares students to be effective social media writers, resourceful workers, critical consumers, and savvy job seekers. We will consider members’ use of social media inside organizations as well as explore our peripheral connection with organizations as consumers and prospective employees.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3318T. Sports Communication.
Sports Communication provides a theoretical foundation to understand and apply interpersonal, organizational, team, and public communication skills in sports settings. Sample topics include: fan culture, racial identity and gender, player/coach interactions, and crisis communication. Students gain practical knowledge and skills to optimize verbal and nonverbal messages in sports contexts. Prerequisite: COMM 1310. Sophomore standing required.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3318. Communication and Conflict Management.
Demonstrates the ways communication skills can be used to manage conflict. The class also provides an analytic framework for diagnosing conflict, negotiation, and mediation. Prerequisites: COMM 2315 or 2330 or permission of instructor; Full major or minor status. (W).
Grade Mode: Writing Intensive
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3326. Family Communication.
A study of the theory and research exploring the family communication process in a variety of family types. Prerequisites: COMM 2315; Full major or minor status. (W).
Grade Mode: Writing Intensive
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3328. Communication and Gender.
Investigates the interactive nature of communication and gender, the creation of gender identities, and the role of gender and communication in a variety of settings. Prerequisites: COMM 2315; Full major or minor status. (MC) (W).
Grade Mode: Writing Intensive
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3330. Nonverbal Communication.
Introduces the conceptual foundations of nonverbal communication. Theoretical components, research methods and applications of nonverbal communication are also explored in a variety of contexts.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 3345. Argumentation and Debate.
A study of basic principles of argumentation emphasizing analysis, evidence, reasoning, and refutation and their applications in formal and informal debate contexts. Students will do laboratory work with the University forensics squad. Prerequisite: COMM 1310.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
COMM 3358. Professional Communication.
Application of self-presentation and interaction concepts and skills to
the transition from undergraduate studies to professional life, including
job selection, resume preparation and presentation, interviewing,
and interaction management in business and professional settings.
Prerequisite: COMM 2315, COMM 2330, or COMM 2338.
Grade Mode: Standard Letter
about Professional Communication

COMM 4111. Practicum in Communication Studies.
On-the-job experience working with faculty to assist with the department
missions of teaching, research or service. Students may work in the
department communication lab, assist faculty in the classroom, serve
as faculty research assistants or other academic support tasks. May
be repeated one time for additional credit. Prerequisites: Senior class
standing and permission of department chair; Full major or minor status.
about Practicum in Communication Studies
Grade Mode: Standard Letter

COMM 4310. Methods of Teaching Communication Studies.
A study of methods of teaching communication studies principles
and skills for secondary school teachers. Prerequisites: Permission of
instructor; Full major or minor status. (WI).
about Methods of Teaching Communication Studies
Grade Mode: Standard Letter

COMM 4315. Directed Research in Communication Studies.
Individual or group research projects at the advanced level that are not
offered in the present curriculum. Permission and project approval must
be obtained from the departmental chair prior to registration. May be
repeated with different emphasis for additional credit. Prerequisites:
Permission of instructor; Full major or minor status.
about Directed Research in Communication Studies
Grade Mode: Standard Letter

Designed to assist individuals to manage and implement programs
in communication studies and theatre. The course includes practical
experience in directing debate, plays, and individual events. Repeatable
for credit with different emphasis. Prerequisites: COMM 3345 or
permission of instructor; Full major or minor status.
Grade Mode: Standard Letter

COMM 4321. American Speeches.
Analysis and evaluation of major American speeches and their influence
on the history and culture of the United States from 1630 to the present.
Prerequisites: COMM 2338; Full major or minor status.
about American Speeches
Grade Mode: Standard Letter

COMM 4322. Rhetoric of Protest Movements.
Explores the persuasive strategies used by protest and political
movements to promote social and political change. Focuses upon
the application of critical perspectives in understanding the stages,
leadership styles, and rhetorical appeals characteristics of movements in
American society. Prerequisites: COMM 2338; Full major or minor status.
(MC).
Grade Mode: Standard Letter

COMM 4324. Organizational Rhetoric.
Guided by principles of rhetoric, students will investigate a variety of
functions for internal and external audiences. Functions will include
building identity; managing issues, impressions, and crisis; and
influencing organizational culture. Students will use this knowledge to
create and analyze organizational messages. Prerequisite: COMM 2338.
about Organizational Rhetoric
Grade Mode: Standard Letter

COMM 4325. Communication and Technology.
This course explores how the use of information and communication
technologies relates to interpersonal, organizational, public, political,
and intercultural communication practices and outcomes. Prerequisite:
COMM 2315, COMM 2330, or COMM 2338.
about Communication and Technology
Grade Mode: Standard Letter

COMM 4307. Media Criticism.
Explores the influence of media messages based upon communication
and rhetorical theories in shaping perceptions and values. Focus is upon
the rhetorical analysis of how the visual media of film and television
communicate social, political, and personal attitudes and behaviors.
Prerequisites: COMM 2338; Full major or minor status.
about Media Criticism
Grade Mode: Standard Letter

COMM 4308. Methods of Teaching Communication Studies.
A study of methods of teaching communication studies principles
and skills for secondary school teachers. Prerequisites: Permission of
instructor; Full major or minor status. (WI).
about Methods of Teaching Communication Studies
Grade Mode: Standard Letter

COMM 4311. Practicum in Communication Studies.
On-the-job experience working with faculty to assist with the department
missions of teaching, research or service. Students may work in the
department communication lab, assist faculty in the classroom, serve
as faculty research assistants or other academic support tasks. May
be repeated one time for additional credit. Prerequisites: Senior class
standing and permission of department chair; Full major or minor status.
about Practicum in Communication Studies
Grade Mode: Standard Letter

COMM 4315. Directed Research in Communication Studies.
Individual or group research projects at the advanced level that are not
offered in the present curriculum. Permission and project approval must
be obtained from the departmental chair prior to registration. May be
repeated with different emphasis for additional credit. Prerequisites:
Permission of instructor; Full major or minor status.
about Directed Research in Communication Studies
Grade Mode: Standard Letter

Designed to assist individuals to manage and implement programs
in communication studies and theatre. The course includes practical
experience in directing debate, plays, and individual events. Repeatable
for credit with different emphasis. Prerequisites: COMM 3345 or
permission of instructor; Full major or minor status.
Grade Mode: Standard Letter

COMM 4321. American Speeches.
Analysis and evaluation of major American speeches and their influence
on the history and culture of the United States from 1630 to the present.
Prerequisites: COMM 2338; Full major or minor status.
about American Speeches
Grade Mode: Standard Letter

COMM 4322. Rhetoric of Protest Movements.
Explores the persuasive strategies used by protest and political
movements to promote social and political change. Focuses upon
the application of critical perspectives in understanding the stages,
leadership styles, and rhetorical appeals characteristics of movements in
American society. Prerequisites: COMM 2338; Full major or minor status.
(MC).
about Rhetoric of Protest Movements
Grade Mode: Standard Letter

COMM 4324. Organizational Rhetoric.
Guided by principles of rhetoric, students will investigate a variety of
functions for internal and external audiences. Functions will include
building identity; managing issues, impressions, and crisis; and
influencing organizational culture. Students will use this knowledge to
create and analyze organizational messages. Prerequisite: COMM 2338.
about Organizational Rhetoric
Grade Mode: Standard Letter

COMM 4325. Communication and Technology.
This course explores how the use of information and communication
technologies relates to interpersonal, organizational, public, political,
and intercultural communication practices and outcomes. Prerequisite:
COMM 2315, COMM 2330, or COMM 2338.
about Communication and Technology
Grade Mode: Standard Letter
COMM 4326. Health Communication.
This course provides students with an overview of major theoretical and practical issues for communicating about health issues in clinical, organizational, relational, and public contexts. Students will gain knowledge and skills to improve patient health outcomes through effective message strategies. Prerequisite: COMM 2315, COMM 2330, or COMM 2338.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Health Communication

COMM 4329. Communication Training and Human Resource Development.
This course presents the principles and skills of developing and presenting communication training programs. An emphasis is placed upon applications of communication skill development, communication theory, and instructional communication research in organizational contexts. Prerequisite: COMM 2315, COMM 2330, or COMM 2338.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Communication Training and Human Resource Development

COMM 4331. Persuasion.
An investigation of rhetorical and behavioral theories of persuasion, the devising of persuasive campaigns, as well as the consumption and generation of persuasive messages in a variety of communication settings. Applicable for careers in business, law, and human relations. Prerequisites: COMM 2315 or COMM 2338; Full major or minor status.

**Bachelor of Arts (B.A.) Major in Communication Studies**

**Minimum required: 120 semester hours**

**General Requirements**

1. General education core curriculum options should be discussed with your academic advisor. Requirements and choices are listed in the Academic Services section.

2. In addition to the core curriculum requirements, the Bachelor of Arts degree requires three additional hours of English literature, three hours of math/science/logic/computer science courses, and six hours of 2000-level modern language courses.

3. Any student admitted to Texas State may declare and be admitted under the temporary pre-program status. With this status, students may enroll in the following communication courses, COMM 1310, COMM 2315, COMM 2330, and COMM 2338. Once a student has accumulated at least 45 hours and has a Texas State GPA of at least 2.50, the student may then declare a major in Communication Studies. Only students admitted to the major will be able to register for additional upper level courses.

**Minor in Health Communication**

A minor in Health Communication includes a unique blend of theory, research, and application. The study of health communication can contribute to disease prevention and health promotion in areas such as provider-patient communication, patient-family communication, public health messages and campaigns, health in mass media, public health, and technology and health. The minor is interdisciplinary and requires 21 hours, including courses from the Department of Communication Studies, the School of Health Administration, the School of Journalism and Mass Communication, and the Department of Psychology. Students will take the following:

**Total Hours** 21

If a student elects to minor in either Communication Studies or Health Communication, no COMM or HA course may count for a major and a minor.

**Minor in Leadership Studies**

A minor in Leadership Studies is interdisciplinary and requires 21 hours, including courses from the following departments Communication Studies, Management, Agriculture, Philosophy, Aerospace Studies, Psychology, and Health Administration. The three required core courses are COMM 2315, COMM 4347, and PHIL 3322. In addition, students select two courses (6 hours) which emphasize leadership skill development and two courses (6 hours) which provide a theoretical or conceptual approach to leadership. All students in this minor will be advised by the Department of Communication Studies. Students entering the program will be contacted by the department and will be required to see an advisor before selecting elective courses.

**School of Journalism and Mass Communication**

Old Main Building Room 102
T: 512.245.2656 F: 512.245.7649
www.masscomm.txstate.edu (http://www.masscomm.txstate.edu)

The School of Journalism and Mass Communication is an ACEJMC accredited program that offers a curriculum that introduces students to the broad framework of mass communication, emphasizing what is common and fundamental to advertising, electronic media, journalism and public relations.

The mission of the School of Journalism and Mass Communication is to pursue excellence. Our programs strive to cultivate strong professional, research, theoretical, critical and ethical skills in a diverse and engaging environment that prepares students to be socially responsible media professionals, scholars and citizens. Students may earn a Bachelor of Arts in Mass Communication or a Bachelor of Science degree with a

Students may gain experience by working in student media, such as the University Star, KTSW 89.9 FM, Bobcat Update/Channel 23 News, Bobcat Promotions, and through internships outside the school. They also have the opportunity to participate in intercollegiate competitions through organizations such as the American Advertising Federation, Public Relations Society of America, Texas Intercollegiate Press Association, National Broadcast Society, and the Society of Professional Journalists.

To earn a Bachelor of Science degree students must complete 120 semester hours, which includes the general education core curriculum requirements, B.S. support coursework requirements, 40 hours in the major, and a minor outside the school. No more than 48 hours of Mass Communication may be counted toward degree requirements. Due to ACEJMC accrediting standards at least 72 hours of the total degree must be outside of MC prefix courses. As a result no more than 48 hours of Mass Communication coursework may be counted toward the minimum 120 hours degree requirements. Students should keep this in mind when considering minor, concentration and open elective options.

To earn a Bachelor of Arts degree in Mass Communication, students must complete 120 semester hours, which includes the general education core curriculum requirements, B.A. degree requirements, 33 hours in Mass Communication, and a minor outside the school. No more than 48 hours of Mass Communication may be counted toward the minimum 120 hour degree requirements.

For the B.S. degree community college transfer students may apply no more than 13 semester credit hours of mass communication transfer courses to their degree. Transfer students from four-year institutions may apply no more than 19 semester credit hours of mass communication transfer courses to their degree. Regardless of transfer coursework at least 21 hours of the major coursework must be earned at Texas State.

For the B.A. degree community college transfer students may apply no more than 12 semester credit hours of mass communication transfer courses to their degree. Transfer students from four-year institutions may apply no more than 15 semester credit hours of mass communication transfer courses to their degree.

At the Round Rock Campus only the Bachelor of Arts major in Mass Communication degree program is offered.

**Special Requirements**

1. Any student admitted to Texas State may declare and be admitted to the program under a temporary status called pre-mass communication. Once a student has accumulated at least thirty credit hours and meets the requirements outlined below, the student will be admitted to the school in full-major status. Students who fail to meet these requirements will not be admitted to the major.
   a. An overall GPA of at least a 2.5 on a 4.0 scale.
   b. A grade of a "C" or higher in the following courses or their equivalents:
      - ENG 1310 College Writing I 3
      - ENG 1320 College Writing II 3
      - COMM 1310 Fundamentals of Human Communication 3
      - MC 1100B Grammar for Journalists 1
      - MC 1301 Introduction to Mass Communication 3

2. General education core curriculum options should be discussed with an academic advisor. Requirements and choices are listed in the Academic Services section.

3. The Punctuation, Usage and Grammar (PUG) test is given by the Texas State Testing, Research-Support and Evaluation Center on the main campus. The PUG is administered weekly; call 512.245.2276 for testing times. There is a fee of $40 per test. Students enrolled at the Round Rock Campus should call the One Stop Center at (512) 716-4000 for testing information.

4. In an effort to promote the academic welfare of all Mass Communication students, the school strongly recommends that all students seek academic advising each semester. In certain situations, students may have an advising hold placed on their records. Advisors are available year round to assist students with academic issues and concerns. Students can call 512-245-1932 to make an advising appointment.

5. All students must earn a "C" or higher in each of four core courses in Mass Communication, which include:
   - MC 1301 Introduction to Mass Communication 3
   - MC 1313 Writing for the Mass Media 3
   - MC 4301 Media Law and Ethics 3
   - MC 4381 Fundamentals of Digital and Online Media 3

6. Students must earn a "C" or higher in all prerequisite courses, as listed by major:
   - Advertising and Mass Communication
     - MC 1313 Writing for the Mass Media 3
     - MC 3367 Advertising 3
     - MC 3372 Advertising Media Planning 3
     - MC 4316G Advertising Copywriting and Layout I 3
     - MC 4317 Account Planning 3
   - Electronic Media and Mass Communication
     - MC 1313 Writing for the Mass Media 3
     - MC 3306 Writing for the Electronic Media 3
     - MC 3311 Video Production 3
     - or MC 4356I Visual Storytelling
   - Journalism and Mass Communication
     - MC 1313 Writing for the Mass Media 3
     - MC 3321 News Writing and Reporting I 3
   - Public Relations and Mass Communication
     - MC 1313 Writing for the Mass Media 3
     - MC 3343 Introduction to Public Relations 3
     - MC 3383 Editing for Clear Communication 3
     - MC 4313 Writing for Public Relations 3
   - Mass Communication
     - MC 1313 Writing for the Mass Media 3

Students are required to submit a senior portfolio and complete a senior exam before they graduate. Please click the following link for more information about the senior portfolio. http://www.masscomm.txstate.edu/resources/advising/forms
Mass Communication Majors

In addition to core MC courses, the school offers courses to prepare students for work within all areas of mass communication. Students may concentrate their study in Advertising, Electronic Media, Journalism or Public Relations, or elect a general Mass Communication course of study.

For B.S. degrees, students must complete an additional 28 hours. For B.A. degree, students must complete an additional 21 hours. Students should see a Mass Communication academic advisor for assistance in planning their programs in these areas of study.

Advertising and Mass Communication

The Advertising (B.S.) sequence aims to help students sharpen their creativity and learn how to solve clients' problems. To the end, the Advertising sequence offers courses that cover the major job descriptions of advertising, such as account management, creative, and media. From the courses, students will get exposed to various issues in the field and learn the skills that are needed to become professional. Further, students will have opportunities to participate in extracurricular activities designed to train and prepare students for the job market through AAF (American Advertising Federation) student advertising competition and Ad Club.

Electronic Media and Mass Communication

The Electronic Media (B.S.) sequence offers courses designed to prepare students for careers in broadcasting, cable, satellite and new media. The courses emphasize journalism, audio and video production, management, and programming by combining skills instruction with decision-making opportunities, which students put into practice while working for student media. Electronic media sequence students receive hands-on experience while working for radio station KTSW, a cable access television channel, and online. Students are also encouraged to seek internships in professional media organizations off-campus.

Mass Communication

The Mass Communication (B.A.) sequence emphasizes theory and research for students interested in graduate school and also provides flexibility for students to study other areas of mass communication.

Journalism and Mass Communication

The Journalism (B.S.) sequence prepares students to be reporters, editors, designers and visual journalists. An emphasis is placed on writing and multimedia skills. Students are encouraged to work with campus media outlets, including the University Star newspaper, and to seek internships with media organizations off campus.

Public Relations and Mass Communication

Based on the skills of writing, graphics and internet tools, Public Relations (B.S.) students learn to develop strategies to effectively communicate carefully designed messages to audiences important to their organizations. Students have opportunities to practice their skills in Bobcat PRomotions, the student-run public relations agency, and in internships in Texas and major cities in the United States.

Concentrations in Digital Media and Multimedia Production

Any student pursuing a B.S. degree in the School of Journalism and Mass Communication may elect to add a concentration in Digital Media or Multimedia Production. Students who elect to add a concentration can apply the 9 hour concentration towards the 12 hours of advanced MC electives required of the B.S. degree.

Minors

- Mass Communication
- Journalism
- Second Teaching Field in Journalism (Grades 8-12)
Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Mass Communication (MC)

MC 1100A. Careers in Media.
- Students engage in career exploration in the media professions.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

MC 1100B. Grammar for Journalists.
- Students refine their English grammar skills to a proficiency level needed to be successful journalists.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

- Students will engage in sports broadcasting and reporting activities. These activities will be completed through in-class and field-based experiences of at least 15 hours. Students will further develop their writing, broadcasting and interviewing skills.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

MC 1100D. Digital Entrepreneurship.
- This course will explore innovation and creativity associated with digital entrepreneurship. Through a speaker series, students will be introduced to important concepts and ideas from thought leaders and innovators at the intersection of media and technology.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

MC 1100E. Digital Media Tools and Skills.
- This course will explore new tools and skills relevant to the digital age. Topics will include data visualization, spreadsheet usage, media creation software, mobile reporting, drones and sensors in journalism and video editing. May be repeated once for credit. Restricted to full major status.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

MC 1100F. Digital Media Innovation Concepts.
- This course will explore new concepts relevant to the digital age. Topics will include digital media history, ethics, law and will address online privacy, security, crime, identity and censorship. May be repeated once. Restricted to full major status.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

MC 1100G. Coding Workshop.
- This course will explore programming languages relevant to the digital age. Topics will include JavaScript, JQuery, Python, PHP, application programming interfaces, database languages, application development frameworks and other current topics. May be repeated once. Restricted to full major status.
- 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Standard Letter

- A survey of the mass media and other areas of mass communication designed to acquaint the student with the field of communication and what it offers.
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
- Grade Mode: Standard Letter
- TCCN: COMM 1307

MC 1313. Writing for the Mass Media.
- An introduction to the major forms of writing for the mass media: advertising, broadcasting, print journalism and public relations. Prerequisite: Full major status and typing skill. (WI).
- 3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
- Course Attribute(s): Lab Required|Writing Intensive
- Grade Mode: Standard Letter
- TCCN: COMM 2311

MC 2111. Media Practicum.
- Students perform supervised media work of at least 60 hours for the semester. Credit requires prior written contract with a supervising faculty member. May be repeated twice. Graded on a credit (CR), no-credit (F) basis.
- 1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
- Course Attribute(s): Exclude from 3-peat Processing
- Grade Mode: Credit/No Credit

TCCN: COMM 2311

Course Attribute(s): Exclude from 3-peat Processing|Topics
- Grade Mode: Credit/No Credit

TCCN: COMM 2311

Course Attribute(s): Exclude from 3-peat Processing
- Grade Mode: Credit/No Credit

TCCN: COMM 2311

Course Attribute(s): Exclude from 3-peat Processing
- Grade Mode: Credit/No Credit
MC 3306. Writing for the Electronic Media.
The study and practice of writing copy for the electronic media, including the composition of commercials, news stories, public service announcements, promotions and documentaries. Prerequisites: Full major status, MC 1313. (WI).
Grade Mode: Standard Letter

about Writing for the Electronic Media

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

MC 3307. Audio Production.
The basics of digital audio production with emphasis on techniques used in producing commercials, public service announcements and promotions. Lab requirements include a regular air-shift on the campus radio station and structured group meetings.
Grade Mode: Standard Letter

about Audio Production

3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required

MC 3311. Video Production.
Basics of analog and digital video production. Emphasis on techniques used in producing newscasts, commercials, public service announcements, promotions. Lab requirements include field and studio production. Prerequisite: Full major status.
Grade Mode: Standard Letter

about Video Production

3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required

MC 3312. Television News.
Standard theory and practice of electronic news gathering and production, including writing copy to match video and synchronization of audio and video in news stories. Students work on a campus news program. Prerequisites: Full major status, MC 3306 and MC 3311 or MC 43561. (WI).
Grade Mode: Standard Letter

about Television News

3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

This course studies the principles, theories, and language of visual communication, emphasizing the evaluation and use of images in mass media. It is designed to help you integrate words and pictures in mass communication and to gain a greater appreciation of our visual world.
Grade Mode: Standard Letter

about Visual Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 3321. News Writing and Reporting I.
Integrating writing and reporting skills to produce stories across media platforms, including print and online, with an emphasis on storytelling. The study of techniques for locating and assessing information from multiple sources, including interviewing, fact verification, online research and the use of libraries. Prerequisites: Full major status, MC 1313. (WI).
Grade Mode: Standard Letter

about News Writing and Reporting I

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

MC 3343. Introduction to Public Relations.
This is the introductory course for the public relations sequence. Students will explore the functions of public relations in the digital age in the development of strategic communications for corporations, companies, government offices, non-profit organizations and public relations agencies.
Grade Mode: Standard Letter

about Introduction to Public Relations

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 3355. Mass Media and Society.
An examination of the roles of the mass media in American society, including an analysis of the philosophical basis of media structure; mass media as business; media effects on public issues, morals and tastes; and other contemporary issues.
Grade Mode: Standard Letter

about Mass Media and Society

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Students will study the principles, techniques and problems of social science research and digital analytics as they relate to the planning and evaluation of strategic communication. Prerequisite: Full major status.
Grade Mode: Standard Letter

about Research Methods in Mass Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 3367. Advertising.
A broad overview of advertising including history, role and responsibility, and impact of the digital revolution. Key topics will be research, account service, media planning, creative, sales promotion, public relations, campaigns, and the advertising agency.
Grade Mode: Standard Letter

about Advertising

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 3368. Advertising Copywriting.
Study of writing and producing advertising copy for print, broadcast and digital media. Emphasis on formative research, market and consumer analysis and the creative process. Prerequisites: Full-major status, MC 1313, MC 3367. (WI).
Grade Mode: Standard Letter

about Advertising Copywriting

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

Grade Mode: Standard Letter

about Advertising Copywriting
MC 3372. Advertising Media Planning.
Study of planning and buying messages in traditional and new media to creatively and effectively reach targeted prospects. Attention is given to media characteristics, scheduling, testing and buying efficiencies. Prerequisites: Full major status, MC 1313, MC 3367.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Advertising Media Planning

MC 3373. Broadcast Commercial and Promotion Writing.
Writing and producing radio scripts and television storyboards for commercial messages. Study will include audiences, programming, research and copytesting, and regulations. Spot announcements will be produced for class. Prerequisites: Full major status, MC 1313, 3367. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter about Broadcast Commercial and Promotion Writing

Study of the principles and strategies of winning audiences for the electronic media: television radio, cable, satellite and the internet.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Programming in Electronic Media

Study of managerial problems in advertising and public relations programs. Case study approach to setting goals, developing strategy, budgeting and working in a client-agency relationship. Prerequisites: Full major status, MC 1313, MC 3343 or MC 3367.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Advertising and Public Relations Management

MC 3383. Editing for Clear Communication.
A course designed to help writers divorce themselves from the creative process and function as editors of their own work and the work of others, focusing on meaning, accuracy, logic, language, sense, organization, style, and form appropriate to audience and medium. Prerequisites: Full major status, MC 1313. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter about Editing for Clear Communication

MC 3390. Media Design.
Study and application of advanced principles of media design including: basic design principles, typography, color, photography, video, and multimedia. Students will learn production skills for existing and new media. Pre-requisite: Full-major status.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted|Lab Required|Time Conflicts Permitted
Grade Mode: Standard Letter about Media Design

The study of the management of electronic media, including sales, federal regulation, and responsibilities to society, community and stockholders. Prerequisite: Full major status.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Management of Electronic Media

MC 4130. Internship.
This course requires a minimum of 100 hours of off-campus experience, written contract with internship coor-dinator and portfolio of completed work. Students cannot gain more than six hours of credit for any combination of: MC 4130, MC 4230 and MC 4330. Prerequisites: 30 credit hours, full-major status, good academic standing and appropriate sequence coursework.
1 Credit Hour. 0 Lecture Contact Hours. 5 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Internship

MC 4230. Internship.
This course requires a minimum of 150 hours of off-campus experience, written contract with internship coordinator and portfolio of completed work. Students cannot gain more than six hours of credit for any combination of: MC 4130, MC 4230 and MC 4330. Prerequisites: 30 credit hours, full-major status, good academic standing and appropriate sequence coursework.
2 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter about Internship

MC 4301. Media Law and Ethics.
This course offers a study of law governing journalism, advertising, electronic media and public relations. Restricted to full major status and junior standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Media Law and Ethics

Students will study the development of mass media, advertising and public relations in the United States from 1690 to the present.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about History of Mass Media

MC 4303. International Advertising.
Overview of international advertising, problems and opportunities of a global economy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about International Advertising
MC 4304. Advertising Strategy and Execution-Portfolio.
Course emphasizes projects that allow students to learn how to produce and display professional portfolios to enhance their employment opportunities. Prerequisites: Full major status, MC 1313, MC 3367.

About Advertising Strategy and Execution-Portfolio

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
About Advertising Strategy and Execution-Portfolio

MC 4305. Theories of Mass Communication.
A study of the predominant theories of communication, including mass media effects, functions and controls. Prerequisites: Full major status. (WI).

About Theories of Mass Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
About Theories of Mass Communication

MC 4306. Advertising Competition.
The course will focus on developing an integrated marketing communications campaign for a national client as part of the National Student Advertising Competition. Students will create a campaign from the developmental through the execution process. Prerequisite: Consent of instructor.

About Advertising Competition

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Advertising Competition

MC 4307. Advertising Campaigns.
Students will develop, coordinate and evaluate a complete advertising campaign for specific clients. Students will conduct market research, formulate objectives and strategies, recommend media plans and develop creative executions through plans books and presentations. Prerequisites: Full major status, MC 4316G, MC 4317, MC 3372. (WI).

About Advertising Campaigns

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
About Advertising Campaigns

MC 4308. Women and Minorities in the Media.
Analysis of the images of women and minorities in the media and their status as media professionals. Includes study of the alternative media. (MC).

About Women and Minorities in the Media

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
About Women and Minorities in the Media

MC 4309. Visual Literacy: Film.
The course will teach how meaning is constructed in visual images by using film as a practical medium. It provides the necessary skills to critique and create effective images. It is especially useful for students majoring in image-based sequences of the mass communication major, particularly broadcasting and advertising.

About Visual Literacy: Film

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Visual Literacy: Film

MC 4310. International Communication.
A study of media systems worldwide in different socioeconomic contexts and an examination of patterns of international communication flow.

About International Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About International Communication

Students complete an academic project requiring the equivalent of 160 hours work. Requires prior written contract with faculty member and portfolio of completed work. Cannot be repeated. Graded on a credit (CR), no-credit (F) basis.

About Independent Study: Advertising, Broadcasting, Print Journalism, Public Relations

3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
About Independent Study: Advertising, Broadcasting, Print Journalism, Public Relations

MC 4312. Photojournalism.
Students will develop skills in camera operation, learn computer software applications, learn how to combine words with stories, and how to make layouts and designs for print and multimedia. Students will learn basic analog and digital camera operations, and how to process digital images for the Web and for printing.

About Photojournalism

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
About Photojournalism

MC 4313. Writing for Public Relations.
This course provides an examination and application of digital and traditional communication tools required for effective public relations. Emphasis is placed on the strategic use of digital media in a modern communication society. Prerequisites: Full major status, MC 1313, MC 3343, MC 3383. (WI).

About Writing for Public Relations

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required/Writing Intensive
Grade Mode: Standard Letter
About Writing for Public Relations
MC 4315. Web Design Publishing.
Students will develop skills in web page construction including Web editing, image and graphic manipulation, animation, and audio and video editing. The course will cover the topics of design, content, and accessibility, as well as important social and ethical issues associated with online publishing. Prerequisite: Full-major status.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Web Design Publishing

MC 4316D. Advertising Media Sales.
An overview of advertising, media selling, and salesmanship, sales strategies, sales management, and case histories designed to acquaint students with a vital function of the business. Prerequisites: Full major status, MC 1313, MC 3367.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advertising Media Sales

MC 4316G. Advertising Copywriting and Layout I.
This course is an introduction to the basic elements of using visual and verbal elements in print, broadcast and internet advertising to solve advertising communication problems. Prerequisites: Full major status, MC 1313, and MC 3367.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advertising Copywriting and Layout I

MC 4316H. Advertising Copywriting and Layout II.
This is an advanced copywriting and ad layout class. Using the skills learned in MC 4316G, students will expand their digital techniques, art directions skills and writing capabilities to create professional level ad campaigns. Prerequisites: Full-major status and MC 4316G.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advertising Copywriting and Layout II

MC 4317. Account Planning.
Hands-on introduction to applied advertising research and account planning. Primary, survey and qualitative research methods are designed, executed and presented by students for the purpose of integrating the consumer’s perspective into creative strategy. Prerequisites: Full-major status, MC 1313, MC 3367.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Account Planning

MC 4318. Media Ethics.
The study of freedom and responsibilities of the mass media practitioners and institutions, explored within the framework of ethical theories. Consideration of values, codes of ethics, moral development, professionalism and institutional constraints as applied to the media of information, persuasion and entertainment will be examined.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Media Ethics

MC 4319. Latinas/Latinos and the Media.
The course focuses on demographic developments related to Latinos in the US; their portrayals in the media; the effects those portrayals; the history and current status of selected Latino-oriented media and ancillary media companies and organizations; and the role of the media in Latino politics.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Latinas/Latinos and the Media

MC 4320. Public Relations Campaigns.
A comprehensive study of effective public relations in a modern society. Students learn the professional approach to the practice of public relations that includes internet applications and how to evaluate its function and value while applying ethical standards of conduct.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Public Relations Campaigns

MC 4321. News Writing and Reporting II.
Integrating the techniques of investigative and in-depth writing and reporting across media platforms, including print and online. The study of techniques for computer-assisted reporting, database reporting, access to governmental or corporate records and the use of open records laws.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about News Writing and Reporting II

This class will provide an overview of the theory and practice of designing, producing and evaluating health-communication campaigns. We will examine persuasive approaches to behavioral change; audience, message and channel factors in campaign development. Our work will emphasize communication approaches, including mass media, social marketing and “new media.”

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Health Communication Campaigns

MC 4323. Latinas/Latinos and the Media.
The course focuses on demographic developments related to Latinos in the US; their portrayals in the media; the effects those portrayals; the history and current status of selected Latino-oriented media and ancillary media companies and organizations; and the role of the media in Latino politics.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Latinas/Latinos and the Media

MC 4324. Public Relations Campaigns.
A comprehensive study of effective public relations in a modern society. Students learn the professional approach to the practice of public relations that includes internet applications and how to evaluate its function and value while applying ethical standards of conduct.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Public Relations Campaigns

MC 4325. News Writing and Reporting II.
Integrating the techniques of investigative and in-depth writing and reporting across media platforms, including print and online. The study of techniques for computer-assisted reporting, database reporting, access to governmental or corporate records and the use of open records laws.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about News Writing and Reporting II

MC 4326. Health Communication Campaigns.
This class will provide an overview of the theory and practice of designing, producing and evaluating health-communication campaigns. We will examine persuasive approaches to behavioral change; audience, message and channel factors in campaign development. Our work will emphasize communication approaches, including mass media, social marketing and “new media.”

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Health Communication Campaigns

**School of Music**

Music Building Room 101
T: 512.245.2651 F: 512.245.8181
Email: music@txstate.edu
www.music.txstate.edu (http://www.music.txstate.edu)

**Mission Statement**

The School of Music is committed to excellence in music teaching and learning for all students at Texas State. As a unit within Texas State, we provide a liberal education with emphasis on cultural values by offering special course work in the arts and humanities.
The School of Music offers thorough preparation for careers in music, music education, music performance and sound recording technology. In addition, it provides opportunities for all university students to develop musical skills and cultural understanding. The School also serves as an outstanding cultural resource for the university and San Marcos communities.

Music graduates with teacher certification work as band directors, choir directors, orchestra directors, or general music teachers. Music Performance graduates perform, establish their own teaching studios, attend graduate school, or use their music degree as a foundation for their careers. Sound Recording Technology graduates work as sound recording engineers, producers, and technicians in the recording and entertainment industries. Bachelor of Arts graduates work in arts administration, musicology, librarianship, and other music-related fields such as law, management, and sales. The choices of profession for a student completing a Bachelor of Arts or a Bachelor of Music are numerous.

Courses Offered
Courses are offered in individual and ensemble performance, music education, history, literature, theory, composition, jazz, Latin, and sound recording. All university students, both music majors and non-music majors, are encouraged to participate in performing ensembles. However, due to the limited availability of private applied music instruction, as well as certain other music classes, the School may use the following criteria for determining students’ access to private applied music instruction:

1. student’s overall musical talent, musical achievement, and performance/teaching potential as determined by audition; and/or
2. studio/class space availability,
3. academic standing as represented by GPA, and
4. other appropriate indicators.

Admission Requirements
Students wanting to enter the music program as a music major must submit an online application and audition on their principal instrument or voice the semester before their desired entrance. Students interested in Sound Recording Technology must complete an additional application, submit materials for pre-screening (see www.txstate.edu/music/srt (http://www.txstate.edu/music/srt) for details), and interview.

Admission to the School of Music is contingent upon admission to Texas State, successful completion of the audition process, and available space in each studio. Moreover, a successful audition does not automatically ensure acceptance to the School of Music at Texas State. Prospective music majors will not be permitted to enroll in applied music and other music major classes until they have been accepted based on their audition and met with an academic advisor.

Auditions are held periodically throughout the year for enrollment the following academic year. Those prospective music students unable to audition in person due to geographic distance from campus may submit an audio or video recording representative of their performing abilities. The deadline to submit a recorded audition is March 1 (Fall admission) or November 1 (Spring admission). Audition requirements are available upon request and on the School of Music website.

School Policies
Those planning careers in music must have a high level of musical skill and understanding. To help evaluate musical skills for counseling and placement purposes, the School of Music requires all music majors to pass several evaluations and academic requirements. Credit by examination is available for Music Theory I - IV and Piano Techniques I - IV only before entering the course sequence at Texas State. Students testing out of one or more of the proficiency exams or courses above must remit $10 to the University’s Testing Center (set fee whether receiving credit for one or more courses) before your CR grade will be processed by the Registrar’s Office. See an academic advisor and the School of Music’s website for details.

A student who leaves Music major status in good standing can be re-admitted as a Music major without re-auditioning if returning within twelve (12) months. A Music student who fails to complete or pass (note: failing grades are F, N, and U) applied lessons or has not been a Music major at Texas State for more than twelve (12) months (i.e. not enrolling or two W grades in a row) will automatically be moved to a pre-music status by their academic advisor and must re-apply and/or re-audition to be accepted back as a Music major.

Music Theory Proficiency
Students seeking teacher certification must pass the theory proficiency examination no later than the semester before student teaching. All other music majors, with the exception of sound recording technology, must pass the theory proficiency examination before applying for graduation. A passing score is also a prerequisite for advanced theory coursework. Theory proficiency requirements are available on the School of Music’s website.

Upper Level Competency Review
The upper level competency review (ULCR) helps music majors determine if they are pursuing the most suitable career. On completion of four long semesters as a music major, the student’s total record is reviewed by the music faculty. This review is completed before the student enrolls for 3000-level courses in the degree area. The upper-level competency review is offered at the end of each long semester. Specific information and requirements are available in the School of Music Student Handbook.

Transfer students with four or more semesters of music study should complete the exam at the end of the first long semester of study at Texas State.

Piano Proficiency
All BA, BM – Music Studies, instrumental concentration students seeking teacher certification, and BM – Performance, jazz concentration students must pass the level II piano proficiency exam by the end of their fourth (4th) long semester. BM – Performance, keyboard concentration students must pass the piano majors piano proficiency exam by the end of their fourth (4th) long semester. BM – Music Studies, choral concentration and all other BM – Performance majors must complete the level IV piano proficiency exam before applying for graduation. Piano proficiency requirements are available on the School of Music’s website. Note: No Piano Proficiency exam is required for BS students.

Senior Recital
A senior recital is required for all students enrolled in a Bachelor of Music degree program. Students seeking teacher certification must present the recital no later than the semester before student teaching. Specific requirements for the senior recital are described in the School of Music Student Handbook and the School of Music’s website.
Recital Attendance Requirements
Each semester, various recitals and concerts are presented by students, faculty, and visiting artists. All undergraduate music majors, with the exception of Bachelor of Science students, are required to attend a significant number of these events each semester, through enrollment in Departmental Recital. In addition, applied music instructors may require attendance at all recitals in the students individual performance area.

Grade Requirements
Students majoring in the School of Music must achieve a grade of “C” or higher (including a CR in Departmental Recital) on all required music (MU, MUSE and MUSP) courses.

Student Teaching Requirements
Before being allowed to enroll for student teaching, music students must have:

1. completed all major coursework for the degree with a “C” or higher;
2. presented a senior recital;
3. passed the Upper Level Competency Review;
4. passed the piano and theory proficiency examinations; and
5. fulfilled the requirements for teacher certification as determined by the College of Education.

Ensemble Requirements
All music majors must participate in the appropriate major ensemble each semester. Music Studies majors are exempt from this requirement during the student teaching semester only. Only one major and one secondary ensemble will be counted toward the student’s degree plan per semester.

Music Fees/Costs
This is a partial listing. Please consult the schedule of classes for other registration fees.

- Instrument rental fee – $30 per semester (Includes all percussionists and students participating in percussion ensembles.)
- Choir dresses - $63 one-time charge (all women participating in a choral ensemble, with the exception of Vocalibre must purchase a choir dress through the School of Music)
- Tuxedos - up to $100 one-time charge (all men participating in a choral ensemble, with the exception of Vocalibre or a concert instrumental ensemble must rent/purchase a tuxedo; locations provided by ensemble director)

NOTE: Students enrolled in private voice lessons or instrumentalists preparing for juries/recital performances are responsible for the cost of providing their own accompanist for lessons, rehearsals, and recitals.

Bachelor of Arts (B.A.)
- Major in Music (p. 318)

Bachelor of Music (B.M.)
- Major in Music Studies (Instrumental Concentration with Teacher Certification in Music, Grades EC-12) (p. 318)

Bachelor of Science (B.S.)
- Major in Sound Recording Technology (p. 324)

Minors
- Jazz (p. 324)
- Mariachi (p. 324)
- Music

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this school include: MU (p. 294), MUSE (p. 304), MUSP (p. 306)

Courses in Music (MU)
MU 1000. Departmental Recital.
Performance, attendance, and weekly observation of recitals. Concurrent enrollment with applied lessons required for all music majors.
Corequisites: Concurrent enrollment with applied lessons and major ensemble required for all music majors.
Grade Mode: Standard Letter

MU 1112. Basic Musicianship.
A study of music fundamentals: reading rhythms, pitches in bass and treble clefs, spelling, notating, and identifying key signatures, intervals and chords. Prerequisite: Music major status.
Grade Mode: Standard Letter

MU 1150. Introduction to Music Technology.
Introduction to current computer applications in music. Including MIDI and sequencing, notation, internet communication, and digital audio. Prerequisite: Full major status.
Grade Mode: Standard Letter

MU 1170. Recording Practicum.
Independent study in sound recording. Students develop aural and practical skills necessary to produce high quality recordings. May be repeated once with different emphasis for additional credit. Prerequisite: Full major status in SRT.
Grade Mode: Standard Letter

MU 1180. Recording Practicum.
Independent study in sound recording. Students develop aural and practical skills necessary to produce high quality recordings. May be repeated once with different emphasis for additional credit. Prerequisite: Full major status in SRT.
Grade Mode: Standard Letter
MU 1182. Recording Practicum II.
Development of aural skills associated with audio production and recording. Continuation of the first semester of MU 1180 Recording Practicum. Prerequisite: MU 1180.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Recording Practicum II

MU 1210. Aural Learning I.
The course materials from Music Theory I as applied through lessons in singing, playing, and music dictation. Co-requisite: MU 1211.

2 Credit Hours. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MUSI 1216
about Aural Learning I

MU 1211. Music Theory I.
Review of music fundamentals including, key signatures, intervals and scales. Spelling and identification of the 4 triad chord-types and the common 5 seventh-chord types. First species counterpoint in 2 voices. Assignments include part-writing and composing with triads in root position and inversion, and analysis of diatonic music. Co-requisite: MU 1210.

2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MUSI 1211
about Music Theory I

MU 1212. Aural Learning II.
The course materials from Music Theory II as applied through lessons in singing, playing, and music dictation. Prerequisites: MU 1210, MU 1211 with a grade of "C" or higher. Corequisite: MU 1213.

2 Credit Hours. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MUSI 1217
about Aural Learning II

MU 1213. Music Theory II.
Review of diatonic part-writing using triads. Part-writing and analysis of cadences, non-chord tones, 7th chords and secondar-function chords. Composition and analysis of period and sentence phrases. Prerequisites: MU 1210, MU 1211 with a grade of "C" or higher. Corequisite: MU 1212.

2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MUSI 1212
about Music Theory II

MU 1312. Essential Musicianship.
Detailed instruction in fundamentals of music theory, including but not limited to notation, meters, scales, key signatures, intervals and chords. This course is designed primarily for non-Music majors and Music minors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Essential Musicianship

MU 1314. Essential Musicianship II.
Continued practice of the essential elements of musicianship. Emphasis on analysis and application of song forms, transposition, popular chord symbols, ear training and sight-singing. Prerequisite: MU 1312 with a C or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Essential Musicianship II

Performance, attendance, and weekly observation of recitals. Concurrent enrollment with applied lessons required for all music majors. Corequisites: Concurrent enrollment with applied lessons and major ensemble required for all music majors.

0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
about Departmental Recital

MU 2104. Writing About Music.
Focusing on basic writing skills, research, and the use and documentation of sources. This course centers on the process of writing about music. Besides written exercises, the assignments include the study of such professional writing samples as concert reviews, program abstracts, and research essays. Prerequisite: Full major status in Performance. Corequisite: MU 2303, MU 3315, or MU 3316. (WI).

1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: MUSI 1104
about Writing About Music

MU 2123. Foundations of Music.
Designed to introduce the student to principles of aesthetics and philosophy, and their practical application as related to music. Prerequisite: Full major in Music Studies.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
TCCN: MUSI 1104
about Foundations of Music

A basic course in the pronunciation of singing in English, French, Italian, Spanish, and German. Prerequisites: Full major in Vocal Performance and Music Studies in Voice. (MC).

1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing/Multicultural Content
Grade Mode: Standard Letter
TCCN: MUSI 2160
about Fundamentals of Diction in Singing
MU 2142. Fundamentals of Diction in Singing II
A basic course in the pronunciation of singing in Italian and French combining lecture and laboratory sessions for practical application.
Prerequisite: MU 2141. (MC).
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Fundamentals of Diction in Singing II

MU 2153. Problems in Music
Study of one or more problems in music. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music. May be repeated once for credit.
about Problems in Music
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MU 2310. Guitar Class I
An introductory course primarily for the non-music major. This course offers the opportunity to study tuning, hand positions, chords, accompaniment patterns, strumming and introductory music reading.
about Guitar Class I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MUSI 1303
about Guitar Class I
MU 2313. Introduction to Fine Arts.
An introductory course designed to give the student a fundamental understanding of the creation and appreciation of diverse modes of expression through the visual and performing arts. This course may not be repeated for credit by taking ART 2313, DAN 2313, or TH 2313. (MC/MP).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Creative Arts Core
Grade Mode: Standard Letter
TCCN: HUMA 1315

MU 2353. Problems in Music.
Study of one or more problems in music. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music. May be repeated once for credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MU 3000. Departmental Recital.
Performance, attendance, and weekly observation of recitals.
Corequisites: Concurrent enrollment with applied lessons and major ensemble required for all music majors.

0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

MU 3207. Fundamentals of Conducting.
Requires successful completion of the Upper Level Competency Review in Music Studies.

2 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MU 3208. Choral Conducting I.
This course covers conducting fundamentals such as beat pattern, baton technique, score reading, cueing, subdivisions, fermatas, and releases. The class will function as an ensemble and each student will conduct assignments approximately once each week. Requires successful completion of the Upper Level Competency Review to enroll.

2 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MU 3217. Instrumental Conducting.
An application of the principles of conducting to instrumental music, including score reading and problems of interpretation. Some choral conducting experience will be included. Prerequisite: MU 3207.

2 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Time Conflicts Permitted
Grade Mode: Standard Letter

MU 3227. Choral Conducting.
An application of the principles of conducting choral music, including score reading and problems in interpretation. Some instrumental conducting experience will be included. Prerequisite: MU 3208.

2 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MU 3233. Jazz Theory and Improvisation I.
This course is a study of the musical theory basics used in jazz improvisation and composition, focusing on best practices in its practical application and pedagogy. In addition to a theoretical and applied approach, students will also examine historical and cultural considerations, as they relate to performance. Prerequisites: Bachelor of Music, MU 1213 or permission of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
MU 3234. Jazz Theory and Improvisation II.
This course is a continuation of MU 3233 and pays particular attention to developing skills in the use of scales and modes (including major and minor pentatonic scales), modal playing, and jazz nomenclature. Prerequisites: Bachelor of Music, MU 3233 or permission of instructor, MUSE 3127.

Grade Mode: Standard Letter
about Jazz Theory and Improvisation II

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

This course is an overview of repertoire for wind bands/orchestras from all musical periods/styles, including music for beginning bands/orchestras to works for collegiate/professional ensembles. There are listening components, score study, review of instrument transpositions, programming, contest preparation and student led wind band/orchestra reading sessions. Prerequisite: MU 2303.

Grade Mode: Standard Letter
about Survey of Instrumental Performance Literature

2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 3242. Survey of Choral Performance Literature.
The course covers detailed consideration of literature of all periods appropriate for choral ensembles and includes discussions on repertoire selection/performance problems peculiar to all ensemble sizes. Assignments give students opportunity to develop their own approach to vocal challenges that face high school and junior high singers, including arranging choral music. Prerequisites: MU 2303, MU 3208, MU 3254. Co-requisite: MU 3227.

Grade Mode: Standard Letter
about Survey of Choral Performance Literature

2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 3253. Instrumental Performance Ensemble Techniques.
This course is designed to introduce fundamental principles of effective instrumental music instruction, rehearsal techniques, and administration of secondary school music programs. This course will provide opportunities for students to conduct and rehearse instrumental ensembles, present teaching demonstrations, and conduct independent scholarship projects related to teaching. Prerequisites: Music Studies major, MU 3207, MU 2263, MUSP 3145 or MUSP 3147, MUSP 3155 or MUSP 3157.

Grade Mode: Standard Letter
about Instrumental Performance Ensemble Techniques

2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

MU 3254. Choral Ensemble Techniques.
This course provides practical experience in developing, teaching and maintaining a successful choral program at the secondary level. Assignments are designed to give students the opportunity to develop approaches to the basic challenges that face high school/middle school choral directors. Students will share ideas and evaluate each other’s work. Prerequisites: Music Studies with choral concentration, MU 2263. Co-Requisite: MU 3208.

Grade Mode: Standard Letter
about Choral Ensemble Techniques

2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 3263. Marching Band Techniques.
An examination of the techniques required to program, design, and instruct a successful marching band show. The class will discuss different types of design concepts currently being employed throughout the country, but also to construct and chart those designs. Prerequisite: Full major status.

grade Mode: Standard Letter
about Marching Band Techniques

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

MU 3269. Current Trends in Music II.

Grade Mode: Standard Letter
about Current Trends in Music II

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

MU 3308. History of Rock.
A survey of the evolution of rock styles, contributions of important performers, and musical techniques involved in the creation and performance of rock music. The course focuses on the first three decades of rock history.

Grade Mode: Standard Letter
about History of Rock

MU 3310. Guitar Class II.
Primarily for the non-music major, the course includes the opportunity for development of more advanced techniques in accompaniment, music reading and solo guitar techniques. Prerequisite: MU 2310.

Grade Mode: Standard Letter
about Guitar Class II

MU 3313. Introduction to Fine Arts.
This course is designed to give the student a critical understanding and appreciation of the history and principles associated with each of the artistic disciplines of theatre, dance, music and the visual arts.

Grade Mode: Standard Letter
about Introduction to Fine Arts

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MU 3315. History and Analysis of Music I.
This course is an intensive chronological study of music from the Medieval through Baroque periods. Students will learn what ideas, forces, and innovations shaped the composers during each period. Students are required to identify/analyze and write about the different styles, genres, and music works of each period. Prerequisites: MU 1212 and MU 2303 or consent of instructor. (MC) (WI). about History and Analysis of Music I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about History and Analysis of Music I

MU 3316. History and Analysis of Music.
A comprehensive musicianship approach to the study of music from the earliest times to the present using techniques of stylistic and structural analysis. Prerequisites: MU 2303 and MU 3315 or consent of instructor. (MC) (WI). about History and Analysis of Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about History and Analysis of Music

MU 3318. World Musics.
This course equips students with practical and intellectual tools to enhance their enjoyment and understanding of popular, folk and classical music traditions around the globe, (with the exclusion of what is commonly referred to as Western Art Music) and explores how these traditions relate to history, social issues, politics and identity. (MC) (WI). about World Musics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about World Musics

A study of the components of music and their concepts. An emphasis on singing and rhythmic performance skills, and esthetic awareness through listening. Prerequisite: MU 2123. about Current Trends in Music I
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Current Trends in Music I

MU 3370. Music for the Elementary Classroom.
Introduction to basic music skills for the elementary classroom teacher. Include practical application and development of strategies and instructional techniques necessary for effective integration of music experiences in the elementary classroom curriculum. Intended for interdisciplinary studies majors. about Music for the Elementary Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Music for the Elementary Classroom

MU 3375. History of Jazz.
Jazz originated in America and has been of great importance in the development of the 20th Century music. Topics will include the structure and history of jazz, the contributions of jazz to contemporary music, and the chronological development of jazz experienced through recordings and live performances. (MC). about History of Jazz
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about History of Jazz

MU 3380A. Women in Jazz.
Overview of jazz history from its New Orleans origins to the present focusing on the contributions of women. Major style periods researched include early jazz/swing, bebop, cool, hard bop, free jazz, jazz fusion, and contemporary trends. Emphasis will be placed on the development of critical listening skills. about Women in Jazz
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Women in Jazz

MU 3380B. Music and Film.
This course is an exploration of historical traditions and functions of Hollywood film music. Students will apply music theory and dictation skills to analyze scores and explain how film music's characteristics and associated cultural connotations combine with image to create new meaning. Prerequisites: MU 2262 and MU 2263, with grades of "C" or higher. about Music and Film
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Music and Film

MU 3380C. Rock Harmony.
Theoretical analysis of popular and rock music incorporating extensive ear training components such as recognition of chords and progressions. Further analysis of the individual stylistic details in rock songs as well as comparison to traditional tonal harmony and form. Pre-requisite: MU 1312 with a C or better. about Rock Harmony
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Rock Harmony

MU 3380D. History of Blues.
This course explores the role of the blues in American popular music, tracing the history of the genre from its origins to its influence on rock and other related styles, surveying important recording labels and related figures. about History of Blues
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about History of Blues
MU 3381. Recording I.
Introduction to audio recording techniques. Topics include acoustics, electronics, microphones, microphone techniques, loudspeakers, and operating principles of common recording equipment. Prerequisite: MU 1182. Restricted to Sound Recording Technology majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Recording I

MU 3382. Recording II.
A continuation of MU 3381. Topics include: operating principles of common recording equipment, fundamentals of analog and digital recording, signal flow, equalization, and sound effects processors. Prerequisite: MU 3381.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Recording II

MU 3383. Audio Technology: Microphones and Mixing Techniques.
Principles and practices of microphone and mixing techniques. Prerequisite: MU 3382. Corequisite: MU 3180.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Audio Technology: Microphones and Mixing Techniques

MU 3384. Audio Recording Techniques.
Audio tape and disc recording and their applications in a variety of settings and genres. Prerequisite: MU 3383. Corequisite: MU 3182.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Audio Recording Techniques

MU 4000. Departmental Recital.
0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
about Departmental Recital

MU 4050. Senior Recital.
Preparation and performance of the senior recital. Corequisites: Concurrent enrollment in Senior Research Project, applied lessons, and major ensemble. 
0 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Senior Recital

A one-semester course designed to equip the prospective band director with the skills to make basic repairs on the various musical instruments. 
1 Credit Hour. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Band Instrument Repair

MU 4152. Problems in Music.
A study of one or more problems in music. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music. May be repeated for credit twice with different emphasis. 
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Problems in Music

MU 4156. Mariachi Arranging.
This course is a study of Mariachi repertoire and arranging techniques for a Mariachi ensemble. Topics will cover instrument ranges, orchestration techniques, and styles. This course is repeatable for credit three times. 
Prerequisites: MU 1210 and MU 1211.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Mariachi Arranging

MU 4157. Mariachi Ensemble Teaching Lab.
This course provides students with the knowledge to become effective directors of Mariachi ensembles within the public school/university systems. Mariachi curriculum/repertoire/rehearsal techniques appropriate to middle school/high school/post-high school ensembles are discussed and applied within the setting of a performing ensemble. This course is repeatable for credit three times.
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Mariachi Ensemble Teaching Lab

MU 4180. Recording Practicum.
Independent study in sound recording. Students develop aural and practical skills necessary to produce high quality recordings. May be repeated once with different emphasis for additional credit. Prerequisite: MU 3182.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Recording Practicum
MU 4182. Recording Practicum VIII.
Development of aural skills associated with audio production and recording. Continuation of the first semester of MU 4180 Recording Practicum. Prerequisite: MU 4180.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Recording Practicum VIII

MU 4185. Senior Research Project.
A study of the student's senior recital literature resulting in a thorough research paper on the theoretical, historical, technical and stylistic aspects of the compositions. Corequisite: Concurrent enrollment in Senior Recital, applied lessons, and ensemble.
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Senior Research Project

MU 4234. Arranging Techniques for School Music Ensembles.
This class will introduce the many techniques involved in arranging for a wide variety of school music ensembles. Content will include an examination of the various instrument families, basic manuscript techniques (both manual and computer aided) and various orchestration techniques for voicing and scoring. Prerequisites: Music Studies majors, MU 2263, MU 3207, MUSP 3145 or MUSP 3147, MUSP 3155 or MUSP 3157.
2 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Arranging Techniques for School Music Ensembles

MU 4244. Jazz Theory and Improvisation III.
This course is a continuation of MU 3234 and explores advanced concepts in jazz theory including symmetrical scales, chord substitutions, re-harmonization, pentatonic and exotic scale forms. Classes will focus on best practices in practical application and pedagogy and also examine historical and cultural considerations related to performance. Prerequisites: Bachelor of Music, MU 3234 or permission of instructor, MUSE 3127.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Jazz Theory and Improvisation III

MU 4245. Jazz Composition and Arranging.
This course is an in-depth exploration of various commercial writing styles and instrumentation, focusing on Pop, Latin, and Jazz. Students will analyze the writing styles of prolific 20th century Big Band Arrangers, and learn to write music for all types of commercial applications, and styles, for all levels of musicians. Prerequisite: Bachelor of Music, MU 4244 or permission of instructor.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Jazz Composition and Arranging

MU 4253. Problems in Music.
Study of one or more problems in music. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music. May be repeated once for credit.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Problems in Music

MU 4255A. Vocal Pedagogy.
Developing teaching methods and broader understanding through critical study of vocal techniques. Prerequisite: Performance major with Vocal Option major status.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Vocal Pedagogy

MU 4255B. Guitar Pedagogy.
Developing teaching methods and broader understanding through critical study of guitar techniques. Prerequisite: Performance with Guitar Option major status.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Guitar Pedagogy

MU 4255C. Piano Pedagogy.
Study of one or more problems in music. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music. May be repeated once for credit.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Vocal Pedagogy

MU 4255D. Woodwind Pedagogy.
This course will help guide students to become more competent and efficient piano teachers through the study of various teaching methods and broaden their understanding of teaching techniques through critical study of various piano technique resources. Prerequisite: Bachelor of Music with keyboard concentration and MUSP 3230, MUSP 3330, MUSP 4330, or MUSP 4330.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Pedagogy

MU 4255E. Woodwind Pedagogy.
This course will help guide students to become more competent and efficient piano teachers through the study of various teaching methods and broaden their understanding of teaching techniques through critical study of various piano technique resources. Prerequisite: Bachelor of Music with keyboard concentration and MUSP 3230, MUSP 3330, MUSP 4330, or MUSP 4330.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Pedagogy

MU 4255F. Woodwind Pedagogy.
This course will help guide students to become more competent and efficient piano teachers through the study of various teaching methods and broaden their understanding of teaching techniques through critical study of various piano technique resources. Prerequisite: Bachelor of Music with keyboard concentration and MUSP 3230, MUSP 3330, MUSP 4330, or MUSP 4330.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Pedagogy
MU 4255E. Brass Pedagogy.
Brass Pedagogy is an intensive study of various instruction styles, skills, and techniques applicable on brass wind instruments. The student will develop instructional methods and a broader knowledge through critical study of instructional and performance techniques. Prerequisites: Bachelor of Music with instrumental concentration and MUSP 3250, MUSP 3350, MUSP 4250, or MUSP 4350.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Brass Pedagogy

MU 4255F. Percussion Pedagogy.
Percussion pedagogy will familiarize the percussion students with various percussion pedagogical studies on a variety of percussion instruments through research, examination, and a compilation of written reviews of current percussion methods and educational publications. Prerequisites: Bachelor of Music with instrumental concentration and MUSP 3170, MUSP 3270, MUSP 4170, or MUSP 4270.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Percussion Pedagogy

MU 4255G. String Pedagogy.
This course represents an intensive study of publications concerned with the instructional methodology of bowed stringed instruments and will include practical instructional experience in a private studio setting, as well as in a group setting. Prerequisites: Bachelor of Music with string or instrumental concentration and MUSP 3260, MUSP 3360, MUSP 4260, or MUSP 4360.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about String Pedagogy

MU 4255H. Piano Literature.
A study of piano performance literature focusing on various styles, genres, composers and eras. This course may be repeated for credit with a different emphasis. Prerequisite: Performance Major status.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Literature

MU 4256C. Piano Literature.
A study of piano performance literature focusing on various styles, genres, composers and eras. This course may be repeated for credit with a different emphasis. Prerequisite: Performance Major status.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Literature

MU 4256D. Woodwind Literature.
Woodwind Literature is a survey of the development of the student's instrument and its literature through a historical perspective stressing a broad knowledge of standard repertoire and styles. Prerequisites: Bachelor of Music with instrumental concentration and MUSP 3240, MUSP 3340, MUSP 4240, or MUSP 4340.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Woodwind Literature

MU 4256E. Brass Literature.
This survey course covers major aspects of selected solo, chamber, and orchestral music repertoire for brass wind instruments including methods and texts. It will also include directed study on the literature of the student's instrument. Prerequisites: Bachelor of Music with instrumental concentration and MUSP 3250, MUSP 3350, MUSP 4250, or MUSP 4350.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Brass Literature

MU 4256F. Percussion Literature.
Percussion literature will familiarize the percussion student with solo and ensemble literature on a variety of percussion instruments through research, examination, and a compilation of written reviews of published percussion literature. Prerequisites: Bachelor of Music with instrumental concentration and MUSP 3170, MUSP 3270, MUSP 4170, or MUSP 4270.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Percussion Literature

MU 4256G. String Literature.
This course encompasses an intensive study of solo and chamber music repertoire from the vantage point of performance practice and rehearsal technique. Specific emphasis will be given to comparisons of stylistic characteristics within the genres. Prerequisites: Bachelor of Music with string or instrumental concentration and MUSP 3260, MUSP 3360, MUSP 4260, or MUSP 4360.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about String Literature
This course explores the anatomy/physiology of the human voice, the acoustic properties that govern resonance, vocal health, and the philosophy of singing and teaching. It is designed for Bachelor of Music majors with a concentration in voice. Restricted to Music Studies or Music Performance majors, with a vocal concentration. Co-requisites: MUSP 3220 or MUSP 4220, or by Instructor Permission.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4258. History of Music in Mexico.
This course is a study of the musical panorama of Mexico; pre-colonial, colonial, folk, urban, academic, and transnational genres are discussed in historical, socio-political, and stylistic context. It includes research methodology and musicology related to Mexican music.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.

MU 4259. Vocal Literature.
This course is a detailed consideration of vocal literature from approximately 1600 through the 20th century, focusing on different cultures of the world. It covers major composers and developments in the genre. Repertoire selection and performance problems peculiar to the various styles will be discussed. Prerequisites: Bachelor of Music with vocal concentration, MU 2142, MUSP 3220, MUSP 3320, MUSP 4220, or MUSP 4320.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4280. Senior Research Project.
A study of the student’s senior recital literature resulting in a thorough research paper on the theoretical, historical, technical and stylistic aspects of the compositions. Corequisites: Concurrent enrollment in Senior Recital, applied lessons, and major ensemble. (WI).
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Designed primarily for the non-music major. Continued study of advanced techniques including scales, arpeggios, strumming patterns and advanced accompanying styles. Analysis and performance of musical styles including rock, country and blues. Prerequisite: MU 2310.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Designed primarily for the non-music major. Continued study of advanced techniques including solosing techniques, accompaniment techniques. Detailed analysis of performance styles emphasizing the styles of contemporary performers. Prerequisite: MU 4310.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4330. Form and Analysis.
Principles of form and analysis developed through the in-depth application of analytical systems to the musical repertoire through the nineteenth century. Prerequisites: MU 2263 or consent of the instructor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4332. Contemporary Analytic Techniques.
Detailed study and analysis of selected compositions from the early twentieth century to the present; analytical projects. Prerequisite: MU 2263 or consent of the instructor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4334. Orchestration.
Study of the characteristics of individual instruments; writing for various combinations; study of scores of different periods; techniques of instrumentation, arranging, and orchestration; listening to recorded and live performances. Prerequisite: MU 2263 or consent of the instructor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4336. Eighteenth Century Counterpoint.
A study of 18th century contrapuntal techniques as found in choral preludes, inventions and fugues, among other forms. Prerequisite: MU 2263 or consent of the instructor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 4343. Jazz Pedagogy.
A study of repertoire selection and evaluation, phrasing and articulation, rhythm section techniques, methods of instruction, and review of current teaching styles in American jazz programs, including contest preparation and the teaching of basic improvisation. Prerequisites: MU 2262, MU 2263 or consent of instructor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MU 4351. Problems in Music.
Study of one or more problems in music. Problems chosen may not duplicate the scope of another course offered for credit. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MU 4353. Problems in Music.
Study of one or more problems in music. Problems chosen may not duplicate the scope of another course offered for credit. The courses are conducted as seminars and are open to students on an individual basis by arrangement with the Director of the School of Music.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

A preparation of students and future musicians for a career in music. The course will discuss the various career options available to aspiring musicians and the paths to take to pursue these options.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MU 4385. Advanced Audio Recording Techniques.
Application of theoretical skills in recording, mixing, and editing concert music. Prerequisite: MU 3384. Corequisite: MU 4180.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MU 4386. Internship.
Practical experience in audio recording under professional supervision. Provides the opportunity for students to demonstrate professional competencies based on prior theoretical and laboratory experiences. Prerequisite: SRT majors only.

3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

MU 4680. Internship in Sound Recording Technology.
Practical experience in audio recording under professional supervision. Provides the opportunity for students to demonstrate professional competencies based on prior theoretical and laboratory experiences. Prerequisite: MU 4385. Capstone course.

6 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Music Ensembles (MUSE)

MUSE 3026. Student Chamber Music.
Small student organized and led performing groups coached by area faculty as necessary.

0 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3099. Concert Ensemble.
This is a major instrumental ensemble that provides playing experience for music majors to improve their performance skills in a mixed ensemble setting. May be repeated for credit. Co-requisite: MUSE 3120. Restricted to full majors in Music Studies, Instrumental Concentration.

0 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3101. Basketball Band.
The Bobcat Basketball Band performs for all home men’s and women’s basketball games that do not fall over a university break. The group travels for all postseason tournaments. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3102. Salsa Del Rio.
Performing ensemble specializing in Latin and South American music. May be repeated for credit. (MC).

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3103. Texas State Mariachi.
Performing ensemble specializing in Mexican folk music. May be repeated for credit. (MC).

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3104. Panorama Steel Drum Band.
A performing ensemble specializing in Caribbean steel drum band music. May be repeated for credit. (MC).

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
MUSE 3105. VocaLibre.
A select vocal ensemble specializing in chamber music, including
madrigal and jazz literature. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about VocaLibre

MUSE 3106. Opera Workshop.
Vocal performance opportunity to participate in performance of opera
and to learn techniques for operatic acting and staging. May be repeated
for credit.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Opera Workshop

MUSE 3107. Opera Theatre.
Advanced level course designed for the mature vocal performer to
analyze and strengthen individual acting and character techniques
through work in full productions of operas, operettas and other musical
theater literature. Prerequisite: MUSE 3106 Opera Workshop.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Opera Theatre

MUSE 3108. Orquesta del Río.
Performing ensemble specializing in Latin and South America music. May
be repeated for credit. (MC).
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter
about Orquesta del Río

MUSE 3120. Bobcat Marching Band.
This ensemble performs at all home and select away football games
utilizing traditional and corps-style marching. The ensemble is focused
on delivering entertaining and high-powered halftime shows while
supporting Bobcat Football. The band also performs in exhibitions for
high school band events. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Bobcat Marching Band

MUSE 3123. Concert Band.
This ensemble provides playing experiences for non-music majors
and music majors who want to improve their skills and serve as a lab
ensemble for conducting students. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Concert Band

MUSE 3124. Women’s Choir.
Performing ensemble specializing in choral literature for women’s voices.
May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Women’s Choir

MUSE 3125. Men’s Choir.
Performing ensemble specializing in choral literature for men’s voices.
May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Men’s Choir

MUSE 3126. Chamber Music.
Small group performing ensembles focusing on chamber literature of
mixed and similar instrumental music. May be repeated for credit.
about Chamber Music
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Chamber Music

MUSE 3127. Jazz Combo.
A small performance ensemble designed to develop improvisational skills
and individual musical creativity through performance of standard jazz
literature. May be repeated for credit.
1 Credit Hour. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Jazz Combo

MUSE 3130. Wind Symphony.
Major instrumental ensemble comprised of the most outstanding wind
and percussion students who are selected by audition. The group is
dedicated to the performance of the finest wind repertoire, whether a
contemporary works for winds, or transcriptions from the orchestral
repertoire. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Wind Symphony

MUSE 3131. Symphonic Winds.
Major instrumental ensemble consisting primarily of music majors and
talented non-music majors. This ensemble performs a broad range of full
ensemble repertoire, representative of all historical periods and styles.
May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Symphonic Winds
MUSE 3140. Texas State Chorale.
Auditioned major choral ensemble specializing in performances of literature from the Renaissance and 20th Century. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3141. University Singers.
Major choral ensemble that performs a variety of literature, including masterworks, from the 17th Century to the present. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3150. Texas State Symphony Orchestra.
A full symphony orchestra that performs standard orchestra literature, as well as oratorio, concerto, and opera accompaniments. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3151. Chamber Orchestra.
Auditioned orchestra designed to perform advanced level symphonic literature with repertoire representing several of historical periods and styles. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3160. Jazz Ensemble.
The jazz based ensemble performs advanced arrangements of contemporary popular music in various styles. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3161. Jazz Orchestra.
The jazz based ensemble performs intermediate arrangements of contemporary popular music in various styles. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3162. Jazz Lab Band.
The jazz based ensemble performs beginning arrangements of contemporary popular music in various styles. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3170. Accompanying.
A coaching seminar for pianists to develop reading and accompanying skills. May be repeated for credit. Prerequisite: Piano major.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3180. Mysterium for Modern Music.
A seminar-based course focusing on the performance and analysis of 20th century music in all styles and media. May be repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSE 3190. Guitar Ensemble.
Chamber guitar ensemble designed to provide interaction with fellow guitarists, develop musicianship as ensemble performer, and to familiarize student with music from different periods through a variety of literature. May repeated for credit.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Applied Music (MUSP)
Applied Instruction: Private study of voice, piano/organ, woodwind, brass, string, and percussion instruments is available to all music majors from beginning through advanced levels of instruction. Though supervised private coaching, instruction focuses on technique, musicality, literature, and performance. May be repeated for credit. Prerequisite: Music major status or permission from instructor.

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or permission from instructor.
Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
1 Credit Hour. 0 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

MUSP 1121. Vocal Techniques.
Vocal Techniques. Vocal instruction focusing on technique, musicality and performance for the beginning singer. May be repeated for credit.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Vocal Techniques

MUSP 1130. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Keyboard

MUSP 1135. Piano Techniques I.
Introductory course to develop piano technique and musical style through sight-reading, scales, chords, harmonization, and improvisation. Prerequisite: Music major status.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Techniques I

MUSP 1136. Piano Techniques II.
Introductory course to develop piano technique and musical style through sight-reading, scales, chords, harmonization, and improvisation. Prerequisite: MUSP 1135.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Techniques II

MUSP 1137. Piano Techniques III.
Advanced level course to develop piano technique and musical style through sight-reading, scales, chords, harmonization and improvisation. Prerequisite: MUSP 1136.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Techniques III

MUSP 1138. Piano Techniques IV.
Advanced level course to develop piano technique and musical style through sight-reading, scales, chords, harmonization and improvisation. Prerequisite: MUSP 1137.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Piano Techniques IV

MUSP 1140. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Woodwind

MUSP 1150. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Brass

MUSP 1160. Applied String.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied String

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Percussion

MUSP 1180. Introduction to Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Introduction to Composition
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

MUSP 1230. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

MUSP 1240. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

MUSP 1250. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

MUSP 1270. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

MUSP 1280. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

Through supervised private coaching, instruction focuses on technique, musicality, literature and performance for individual vocal development. May be repeated for credit. Permission from instructor required to enroll.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing

MUSP 2125. Applied Keyboard for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing
MUSP 2135. Applied Keyboard for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature and performance for individual keyboard development. May be repeated for credit. Permission from instructor required to enroll.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Keyboard for non-majors

MUSP 2140. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Woodwind for non-majors

MUSP 2145. Applied Woodwind for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Permission from instructor required to enroll.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Woodwind for non-majors

MUSP 2150. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Brass for non-majors

MUSP 2155. Applied Brass for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance for individual brass development. May be repeated for credit. Permission from instructor required to enroll.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Brass for non-majors

MUSP 2160. Applied String.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied String

MUSP 2165. Applied String for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance for individual string development. May be repeated for credit. Permission from instructor required to enroll.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied String for non-majors

MUSP 2170. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Percussion

MUSP 2175. Applied Percussion for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance for individual percussion development. May be repeated for credit. Permission from instructor required to enroll.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Percussion for non-majors

MUSP 2180. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Composition
MUSP 2185. Applied Composition for non-majors.
Through supervised private coaching, instruction focuses on technique, musicality, literature and performance for individual composition development. May be repeated for credit. Permission from instructor required to enroll.

about Electronic Music IV

MUSP 3195. Instrumental Techniques.
This course introduces basic teaching and performance techniques of band and orchestral instruments, instrumental ensembles and instrumental music programs for music students who consider instrumental music a secondary skill area. Prerequisite: Full major in Music Studies.
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Instrumental Techniques

MUSP 3196. Jazz & Multicultural Techniques.
This course explores the basic teaching and performance techniques of instrumentation, arranging and pedagogy in the areas of jazz and multicultural ensembles. Prerequisite: Full major in Music Studies.
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Jazz & Multicultural Techniques

MUSP 3197. Choral/Vocal Techniques.
This course will prepare instrumental music studies students with knowledge of and practice in basic vocal and choral techniques along with guidance in the choosing of appropriate choral literature in order that they may be successful in developing, directing, and maintaining choral programs in elementary and secondary schools. Prerequisite: Full major in Music Studies.
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Choral/Vocal Techniques

Through supervised private coaching, instruction focuses on technique, musicality, literature and performance. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Voice

MUSP 3230. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.
about Applied Keyboard
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Applied Keyboard

MUSP 3240. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or permission from instructor. Corequisites: Departmental Recital and appropriate major ensemble; Departmental Recital must be taken at the same level as lessons.

**Department of Theatre and Dance**

Theatre Center Room 101  
T: 512.245.2147  
F: 512.245.8440  
www.theatreanddance.txstate.edu (http://www.theatreanddance.txstate.edu)

The Department of Theatre and Dance provides classroom instruction in all phases of live theatre performance. That instruction is reinforced by students’ participation in every area of theatrical production and performance.

All theatre majors take a sixteen hour core curriculum in the discipline, and then specialize in acting, design/technology, performance and production, musical theatre, or certification to teach in the public schools. Graduates of the theatre program work as teachers, actors, designers, writers, producers, directors, and technicians in film, television, and theatre. Some have also gone on to pursue advanced degrees, conducting further preparation for the profession or preparing to teach at the college or university level.

Texas State’s dance program prepares professional performers and choreographers and certifies teachers for the public schools. Students explore several forms of dance and learn to use those forms in educational and community settings. The role of dance as an art form and a means of developing sound aesthetic values are paramount in the program. Graduates work in public schools, private schools, private studios, and professional dance groups. Some have also gone on to pursue advanced degrees, conducting further preparation for the profession or preparing to teach at the college or university level.

**Special Requirements**

Theatre majors must possess a 2.5 GPA to be eligible for casting in a major production and for admission into the Acting, Musical Theatre, and Design and Technology programs. Students who are admitted to these three programs must maintain a 2.5 GPA to remain in the program. Students who fail to do so will be advised into another program.

**Bachelor of Arts (B.A.)**

- Major in Theatre (p. 341)

**Bachelor of Fine Arts (B.F.A.)**

- Major in Theatre (Acting Pre-Professional Option) (p. 341)
- Major in Theatre (Design/Technology Pre-Professional Option) (p. 342)
- Major in Theatre (Performance and Production Pre-Professional Option) (p. 343)
- Major in Theatre (Teacher Certification in Theatre, Grades EC-12) (p. 344)
- Major in Musical Theatre (p. 344)
- Major in Dance (Dance Studies Emphasis) (p. 345)
- Major in Dance (Performance and Choreography Emphasis) (p. 346)
- Major in Dance (Single Field Teacher Certification in Dance, Grades 8-12) (p. 347)
- Major in Dance (Two Field Teacher Certification in Dance, Grades 8-12) (p. 347)

**Minors**

- Theatre

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Subjects included in this department: DAN (p. 325), TH (p. 330)**

**Courses in Dance (DAN)**

DAN 1111. Freshman Dance Seminar.  
Designed to orient incoming dance majors to several dance topics: dance appreciation, nutrition, time management, and career opportunities in dance. Also includes the practical component of assisting as crew members for dance productions.  
about Freshman Dance Seminar  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Freshman Dance Seminar
DAN 1114. Topics in Fitness Activities: Pilates. Pilates exercise work is designed as a rehabilitative and physical improvement technique (body therapy) that is especially useful for dancers who have sustained injuries or want to avoid common dance injuries. Prerequisites: Intermediate level dance.

Grade Mode: Standard Letter

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

TCCN: DANC 1147

about Topics in Fitness Activities: Pilates

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

DAN 1160. Beginning Jazz. Beginning levels of jazz dance technique including basic jazz walks and weight shifts, isolations, stretches, and dance combinations. Combinations are designed to challenge and enhance the students’ knowledge of the various styles and “schools” of jazz dance and to develop performance and choreographic abilities in these styles. This course is also offered as PFW 1180A.

Grade Mode: Standard Letter

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

TCCN: DANC 1147

about Beginning Jazz

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

DAN 1170. Beginning Recreational Dance. Recreational dance includes international folk dance, square dance, and ballroom dance. Students will learn specific dances from each of these styles and gain an understanding and appreciation of the role of dance in societies and culture. This course provides an opportunity for students to explore the elements of dance as a way to discover movement as an expressive medium. This course is also offered as PFW 1180J.

Grade Mode: Standard Letter

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

TCCN: DANC 1128

about Beginning Recreational Dance

DAN 1180. Beginning Ballet. Introduction to the basic technique and steps of the classical ballet. Basic barre exercises and basic positions and traveling steps of the ballet movement vocabulary will be taught and practiced for mastery, singly and in combination. Students are expected to gain an understanding of ballet as a performing art through historical as well as practical experience. May be repeated once for credit.

Grade Mode: Standard Letter

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

TCCN: DANC 1141

about Beginning Ballet

DAN 1190. Beginning Modern Dance. Basic modern dance technique and movement vocabulary are introduced and practiced for mastery. Biomechanical principles and the elements of dance are introduced. Elementary choreographic experiences will be included. This course is also offered as PFW 1180G.

Grade Mode: Standard Letter

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.

TCCN: DANC 1145

about Beginning Modern Dance

DAN 2161. Intermediate Jazz. (DANC 1148) Intermediate levels of Jazz dance techniques include complex weight shifts, syncopations, coordinations, and isolation techniques. Exercise and floor combinations are designed to challenge and improve previously obtained motor skills and to enhance the knowledge of correct mechanics of dance as a performing art. Prerequisite: DAN 1160 or equivalent.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

TCCN: DANC 1147

about Intermediate Jazz

DAN 2181. Intermediate Ballet. (DANC 1142) Intermediate level ballet barre, center, position, and transitional patterns of the classical ballet will be introduced and practiced for mastery. Emphasis will be on quick mastery of simple to complex combinations of those patterns plus an understanding of the biomechanical basis of each pattern. Restricted to Dance majors only. May be repeated once for credit. Prerequisite: DAN 1180 with a grade of A.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

TCCN: DANC 1128

about Intermediate Ballet

DAN 2191. Intermediate Modern Dance. (DANC 1146) Intermediate modern dance skills are introduced and practiced for mastery. Students are expected to learn and perform combinations with skill and artistry, demonstrating a working knowledge of biomechanics and performance techniques. Application of movement principles is emphasized. Prerequisite: DAN 1190 or equivalent.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

TCCN: DANC 1147

about Intermediate Modern Dance

DAN 2201. Dance Composition I. This course utilizes improvisation as a creative dance technique in designing new movements for choreography. Using current trends in improvisational materials, this course places emphasis on designing original movement while facilitating students in maintaining aesthetic forms and developing artistic discrimination. Prerequisite: DAN 1190.

Grade Mode: Standard Letter

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

TCCN: DANC 1141

about Dance Composition I

DAN 2202. Dance Composition II. Basic principles of dance composition will be applied to solo choreography emphasizing skilled use of space, dynamics, and rhythm to build artistic compositions. Exploration of crafting materials in authentic expression will be facilitated. Prerequisite: DAN 1190 or consent of instructor.

Grade Mode: Standard Letter

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

TCCN: DANC 1145

about Dance Composition II
DAN 2210. Contact Improvisation.
Improvisational movement techniques that explore weight-sharing, non-verbal communication, sensory awareness, risk-taking, and physical and emotional trust. Students will gain the physical and perceptual skills to enhance performance in all areas of creative expression. Principles will be applied through movement training, discussion, and performance. Prerequisite: DAN 2191.
2 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: DANC 1201
about Contact Improvisation

DAN 2313. Introduction to Fine Arts.
An introductory course designed to give the student a fundamental understanding of the creation and appreciation of diverse modes of expression through the visual and performing arts. This course may not be repeated for credit by taking ART 2313, MU 2313, or TH 2313. (MC/MP).
about Introduction to Fine Arts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Creative Arts CoreMulti.Content & Perspective
Grade Mode: Standard Letter
TCCN: HUMA 1315
about Introduction to Fine Arts

DAN 2365. Creative Movement for Children.
Emphasis on rhythmical movement exploration and using creative movement as both an art form and as a teaching tool. Through class activities, students will develop effective facilitator skills and incorporate innovative strategies for teaching traditional material in non-traditional ways. Prerequisite: DAN 1190.
about Creative Movement for Children
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab RequiredMulti.Content & Perspective
Grade Mode: Standard Letter
about Creative Movement for Children

DAN 3151. Musical Theatre Tap I.
This class covers the basic steps of tap technique. Students learn coordination, rhythmic variations, and performance skills through a series of tap combinations. Prerequisite: DAN 2161.
about Musical Theatre Tap I
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Musical Theatre Tap I

DAN 3152. Musical Theatre Tap II.
This class expands on skills covered in Musical Theater Tap I. Basic steps are perfected and more difficult steps and combinations are learned. Longer sequences set to musical theatre music are mastered, and attention is given to ensemble work, rhythmic variations, and performance skills. Prerequisite: DAN 3151.
about Musical Theatre Tap II
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Musical Theatre Tap II

DAN 3162. Advanced Jazz.
Advanced levels of jazz dance technique include more complex coordinations and combinations requiring increased levels of technique, strength and flexibility. Emphasis is on developing ability to quickly master increasingly challenging choreography while continuing to develop new skills. There is a continuing emphasis on biomechanics and choreography. May be repeated once for credit. Prerequisite: DAN 2161 or equivalent.
about Advanced Jazz
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Jazz

DAN 3171. Musical Theatre Dance I.
This course involves the study of dance as it applies to musical theatre performance. It covers some of the styles that make up musical theatre including character dancing, the Charleston, and various ballroom dances. Prerequisite: DAN 2181.
about Musical Theatre Dance I
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Musical Theatre Dance I

DAN 3172. Musical Theatre Dance II.
This course involves the study of dance, movement, and staging for musical theatre and culminates in student choreographed/staged works from a variety of musical theatre productions. It includes strategies for learning and performing dance combinations as they occur in a professional dance audition. Prerequisite: DAN 3171.
about Musical Theatre Dance II
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Musical Theatre Dance II

DAN 3182. Advanced Ballet.
This course is an introduction of the advanced concepts and principles of classical ballet. The class is designed to develop proper alignment, strength, flexibility, coordination and musicality. Restricted to Dance Majors. May be repeated once for credit. Prerequisite: DAN 2181 with a grade of A.
about Advanced Ballet
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Ballet

DAN 3292. Advanced Modern Dance.
Advanced modern dance skills are introduced and practiced for mastery. Students are expected to learn and perform increasingly complex combinations with skill and artistry, demonstrating a mastery of biomechanical principles and performance. Dance majors and minors are expected to develop a high level of skill in this dance style as the primary dance form for their teaching and performing preparation. Repeatable for credit with different emphasis. Prerequisite: DAN 2191 or equivalent.
about Advanced Modern Dance
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Modern Dance
DAN 3313. Introduction to Fine Arts.
This course is designed to give the student a critical understanding and appreciation of the history and principles associated with each of the artistic disciplines of theatre, dance, music and the visual arts. about Introduction to Fine Arts

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Introduction to Fine Arts

DAN 3330. Dance Curriculum Development.
Course builds on a requisite knowledge of basic educational theory and lesson plan structure with an emphasis on developing and implementing a successful Dance curriculum. Practical and effective strategies for teaching middle school and high school Dance will be examined. Prerequisites: DAN 1170, DAN 1180, and DAN 1190. about Dance Curriculum Development

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Dance Curriculum Development

DAN 3332. Dance Concert Production.
Develop skills required to plan and execute dance concerts in standard educational institutions, as well as professional venues. Orientation to technical theatre and design concepts for performance: lighting, stage management, make-up, costuming, and music selection. Students will also become acquainted with strategies for programming, marketing, publicity, and fund-raising for dance concerts. Prerequisite: Junior standing. about Dance Concert Production

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Dance Concert Production

DAN 3340. Dance Touring Ensemble.
Learning and performing dances from the repertory of current faculty members, artists-in-residence, and from the repertory of historic modern dancers. Dances performed locally and regionally. Enrollment by audition only. May be repeated for credit with different emphasis. about Dance Touring Ensemble

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Grade Mode: Standard Letter about Dance Touring Ensemble

DAN 3345. Video Dance.
The class is geared particularly towards dance makers and principally towards dance majors. The central objective is to enable the participants to create choreographic work for the camera, through the analysis and discussions of a selection of screenings as well as through hands-on work. Collaboration and cooperation is encouraged throughout the process. about Video Dance

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Grade Mode: Standard Letter about Video Dance

DAN 3350. Dance Team Directing.
Develop skills required to direct a performing dance team. Topics include choreography, administrative organization, public relations and communication skills. about Dance Team Directing

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Dance Team Directing

DAN 3355. Rhythmic Structure of Movement.
The structural analysis of basic and complex dance movements, their inherent rhythmic configuration. Understanding of movement and its rhythmic structure and correction of movement errors. Practical experience in percussion accompaniment of these movements will be emphasized. Prerequisites: DAN 2201 and DAN 2202. about Rhythmic Structure of Movement

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter about Rhythmic Structure of Movement

DAN 3366. Laban/Bartenieff Movement Analysis.
Labanotation Theory & practice of the Laban Effort-Shape Movement System and its application toward creative expression. Theory and practice of Bartenieff Fundamentals, a movement training which patterns efficient connectivity in the body with emphasis on full psychophysical involvement in personal expression. Basic skill in reading and writing Labanotation will also be included. about Laban/Bartenieff Movement Analysis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Laban/Bartenieff Movement Analysis

DAN 3367. Dance Performance Workshop.
Designed to give the advanced dance student experience in learning and performing varied styles of dance choreography. Established dance works and experimental works will be included in order to develop a professional level ability to learn, remember and perform a wide repertory of choreography. Prerequisite: DAN 1191, or PFW 1180H, or DAN 1192, or PFW 1180L (MC/MP). about Dance Performance Workshop

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Grade Mode: Standard Letter about Dance Performance Workshop

DAN 3370. Dance Composition III.
Opportunity for students to increase knowledge and understanding of dance composition elements as they relate to group forms, theme, development, and phrase manipulation. Prerequisites: DAN 2201, DAN 2202, and DAN 2191. Restricted to dance majors. about Dance Composition III

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Dance Composition III
This course provides an examination of the history and development of musical theatre dance styles, including an in-depth study of significant works of choreographers before 1970, from Agnes DeMille to Jerome Robbins. Prerequisite: DAN 3172.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Musical Theatre Dance III: Pre 1970s Choreography

This course provides an examination of the history and development of musical theatre dance styles, including an in-depth study of significant works of choreographers after 1970, including Bob Fosse, Michael Bennett, Ann Reinking, and Susan Stroman. Prerequisite: DAN 4171.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Musical Theatre Dance IV: Post 1970s Choreography

DAN 4292. Advanced Principles.
Students analyze and perform advanced principles based in dance technique, and somatic approaches to dance training. Students develop a high level of conceptual mastery and physical skill for their teaching and performing preparation. May be repeated once for credit. Prerequisite: DAN 3292 or equivalent.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Advanced Principles

DAN 4330. Dance Kinesiology.
This course is an experiential study of the human body in rest and in motion. Emphasis will be on the skeletal and muscular systems in consideration of applications to dance performance, teaching and creative processes, and injury prevention and rehabilitation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Dance Kinesiology

DAN 4334B. Choreographic Influences in Dance.
The purpose of this course is to investigate how many single important dancers, particular school or movements in dance, artistic and technological developments and political, sociological and other world events have shaped choreographic trends in dance. Prerequisite: upper division standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Choreographic Influences in Dance

DAN 4334C. Costuming for Dance.
This course provides a practical approach to designing and building costumes for dance. Emphasis is placed on basic stitching techniques, introductory patterning, concepts of design for dance and collaborating with other artists. Practical experience with university productions will be required in the laboratory. Prerequisites: DAN 2202 and DAN 2191.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Costuming for Dance

Provides dance majors with a working knowledge of the essential vocabulary of music-rhythm, melody, form and harmony, together with an overview of musical styles throughout both time and geography.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Musical Concepts for Dance Performance

DAN 4360. Dance Independent Study.
Designed to give supervised experience to qualified advanced students in dance. Independent study on research problems or actual production problems may be chosen. May be repeated with different emphasis for additional credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Dance Independent Study

DAN 4366. Writing and Reading About Dance.
Surveys dance literature including an opportunity for students to familiarize themselves with resources, current publications, theoretical materials, and professional organizations in dance. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

about Writing and Reading About Dance

Students will choreograph, costume, and design lights for a group dance of substantial length, justifying artistic choices in an accompanying documented paper. The results of this course will be a senior dance concert. May be repeated once for credit. New material will be covered each time taught. Prerequisites: DAN 2181, DAN 2201, DAN 2202, and DAN 3292.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Advanced Dance Composition: Theory and Practice
DAN 4368. World Dance and Culture.
This course provides an introduction to the study of dance cultures in diverse contexts around the world. Lectures, group discussions, and writing projects will increase awareness of dance and human movement as cultural knowledge. (WI).
about World Dance and Culture
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

DAN 4369. Dance in the 20th and 21st Centuries.
Exposure to a wide variety of literature in the area of dance, the arts and sciences which specifically address the development of dance as an art-form and cultural phenomena in the 20th and 21st Centuries. (WI).
about Dance in the 20th and 21st Centuries
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

DAN 4470. BFA Senior Concert.
A course that provides a practical opportunity to choreograph, perform, and produce a dance concert. Students will engage in the creative, administrative, and promotional aspects of production. Students will also compile a thesis booklet. Prerequisites: Must be a Senior standing and have completed DAN 3292 and DAN 3370.
about BFA Senior Concert
4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Theatre (TH)

TH 1210. Introduction to Musical Theatre.
This course focuses on foundations for training for a professional career in musical theatre, with particular emphasis on interview and audition skills.
about Introduction to Musical Theatre
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 1211. Introduction to Musical Theatre II.
This class continues the foundational work established in TH 1210 Introduction to Musical Theatre. It further develops the interview and audition skills necessary for a professional career in musical theatre. Prerequisite: TH 1210.
about Introduction to Musical Theatre II
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 1340. Voice and Diction.
The human voice and the sounds of speech. The student's own voice and pronunciation will be the primary concern, using practice sessions to develop more acceptable patterns of voice and sound.
about Voice and Diction
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
TCCN: DRAM 2336
about Voice and Diction

TH 1345. Beginning Voice.
This course teaches basic principles of vocal production and its anatomy, including vocal variety and instinctual choice. It emphasizes proper vocal support, range, flexibility and health.
about Beginning Voice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Beginning Voice

TH 1350. Introduction to Theatrical Design.
Course introduces the freshman theatre major to the four primary areas of theatrical design: costume design, scenic design, sound design, and lighting design. Each area's practice is explored and analyzed through a series of exercises that incorporate design projects.
about Introduction to Theatrical Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Theatrical Design

TH 1354. Movement I.
Creative movement for the theatre. Designed to stimulate the actor's body to increase flexibility and the kinetic response to environmental stimulus through exercise and research into the physical process.
about Movement I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
TCCN: DRAM 1322
about Movement I

TH 1355. Movement II.
A continuation of Movement I and the exploration of kinesthetic response for the actor, using movement techniques in class performances and further research into the techniques of Alexander, Feldenkrais, and Laban. Prerequisite: TH 1354.
about Movement II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Movement II

TH 1358. Stagecraft.
The study and practice of basic theatrical scenery construction which includes the use of power tools, various construction materials, construction techniques and basic stage rigging. Includes laboratory work in conjunction with University Theatre productions.
about Stagecraft
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
TCCN: DRAM 1330
about Stagecraft
TH 1364. Beginning Acting.
Beginning Acting. (2-1) Classroom exercises designed to explore and discover the actor's inner resources, and to develop the personal awareness of the student's imaginative potential. May be taken by non-majors independently.
about Beginning Acting
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
TCCN: DRAM 1351
about Beginning Acting

Intermediate Acting. (2-1) Classroom exercises designed to continue the exploration of the actor's inner resources; additional work on discovering techniques of developing a character. May be taken by non-majors independently. Prerequisite: TH 1364 or equivalent.
about Intermediate Acting
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
TCCN: DRAM 1352
about Intermediate Acting

TH 2111. Theatre Activities.
A course designed to provide credit for participation in theatre activities. May be repeated to a total of four credits.
about Theatre Activities
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TCCN: DRAM 1120
about Theatre Activities

TH 2210. Intermediate Musical Theatre I.
This course focuses on intermediate interview and audition skills, intermediate personalizing the lyric skills, intermediate marketing skills, and basic scene study skills.
about Intermediate Musical Theatre I
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Musical Theatre I

TH 2211. Intermediate Musical Theatre II.
This course focuses on intermediate musical theatre theory and analysis, acting through movement, and scene study of both period and contemporary musical theatre works.
about Intermediate Musical Theatre II
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Musical Theatre II

TH 2313. Introduction to Fine Arts.
An introductory course designed to give the student a fundamental understanding of the creation and appreciation of diverse modes of expression through the visual and performing arts. This course may not be repeated for credit by taking ART 2313, DAN 2313, or MU 2313.
about Introduction to Fine Arts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Creative Arts Core Multi.Content & Perspective
Grade Mode: Standard Letter
TCCN: HUMA 1315
about Introduction to Fine Arts

TH 2330. Stagecraft and Stage Lighting.
This class teaches the facilities, tools, materials and techniques used to build scenery safely and effectively in the modern theatre. It also covers the facilities, tools, and techniques used to safely and effectively read a light plot, hang and focus stage lighting instruments. It includes a hands-on lab.
about Stagecraft and Stage Lighting
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Stagecraft and Stage Lighting

TH 2345. Experiencing Speech.
This class focuses on the understanding of and the ability to use speech articulators in order to allow full, healthy production of all the sounds made in human language. While breaking chronic speech patterns, it aims for full speech flexibility and ability to healthfully create any sound the character requires. Prerequisite: TH 1345.
about Experiencing Speech
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Experiencing Speech

TH 2354. Characterization.
A studio acting course in which the student explores and develops techniques of creating a role. Prerequisite: TH 1365 or equivalent.
about Characterization
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: DRAM 2351
about Characterization

TH 3111. Theatre Activities.
This course is designed to provide credit for participation in theatre activities. It typically involves working on a departmental production. May be repeated for credit with different emphasis.
about Theatre Activities
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Theatre Activities

TH 3120. Musical Theatre Singing Technique.
This course is for advanced, private study in musical theatre singing technique. Via private instruction, students will study multiple areas of musical theatre singing including singing for the microphone, belting, placement, and diverse musical theater styles (pop, rock, Golden Age, contemporary musical theater, etc.). Prerequisite: MUSP 1121 and status as a Musical Theatre Major.
about Musical Theatre Singing Technique
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Musical Theatre Singing Technique
TH 3220. Musical Theatre Singing Technique.
This course is for advanced, private study in musical theater singing technique. Via private instruction, students will study multiple areas of musical theatre singing technique including singing for the microphone, belting, placement, and diverse musical theater styles (pop, rock, Golden Age, contemporary musical theater, etc). Prerequisite: MUSP 1121 and status as a Musical Theatre Major.

TH 3310. Intermediate Voice.
Continuing development of the fundamentals of voice and speech for the stage as well as exploring language and text. Practical application through assignments and in-class exercises. Prerequisite: TH 2345.

TH 3313. Introduction to Fine Arts.
Introduction to Fine Arts. (3-0) This course is designed to give the student a critical understanding and appreciation of the history and principles associated with each of the artistic disciplines of theatre, dance, music and the visual arts. (MC/MP).

TH 3320. History of the Theatre I.
A study of the theatre and its place in the social and cultural evolution from primitive civilization to 1700. Selected examples of theatre literature are studied. (WI).

TH 3321. History of the Theatre II.
A study of the theatre and its place in the social and cultural evolution from 1700 to the present. Selected examples of theatre literature are studied. (WI).

Course examines the history of musical theatre, from its antecedents through its Golden Age to present-day issues. In the process students will study musical theatre’s elements and structure, as well as its creators, including major librettists, composers, lyricists, designers, directors, choreographers, and performers.

TH 3330. Advanced Stagecraft.
This course covers the facilities, tools, materials, equipment and techniques used to safely produce, from a technical standpoint, live theatrical performances. The course includes woodworking, metal working, stage rigging, stage lighting, audio and, in general, good stage hand practices. Prerequisite: TH 2330.

TH 3338. Stage Lighting.
This course in stage lighting design assumes basic knowledge of lighting technology equivalent to that learned in TH 2330. This class encompasses research, observation, group discussion, and practical "hands-on" projects with emphasis on learning to see light and developing a common language for light and the lighting design process. Prerequisite: TH 2330.

TH 3342. Television/Film Performance.
A practical laboratory course in television and film performance techniques, including procedures and requirements for professional engagements. May be repeated with different emphasis for additional credit. Prerequisite: TH 1364.

TH 3343. Stage Makeup.
A practical course in developing techniques used in applying stage makeup. Emphasis is placed on painting, and contouring the face to achieve the desired effect. Special projects include fantasy makeup and mask making.
TH 3344. Costume Construction.
A practical approach to building costumes for the stage. Emphasis is on
stitching techniques and introductory patterning. Practical experience
with university productions required in laboratory.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

about Costume Construction

TH 3346. Historical Costume Research.
A study of clothing, accessories, and customs of selected theatrical periods as an approach to costuming
period plays.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Historical Costume Research

TH 3350. Technical Production.
This course provides hands-on experience to qualified advanced students in technical theatre utilizing a series of rotating topics. Selected topics
may include stage rigging, sound systems, remote device management, technical direction and/or technical writing/drawing. May be repeated
for credit with different emphasis. Prerequisite: TH 2330 and approval of instructor.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

about Technical Production

TH 3355. Playwriting.
A study of play fundamentals (structure, dialogue, and mechanics), and guidance and discussion of representative plays. Prerequisite: Instructor
approval is required prior to enrollment. May be repeated with different emphasis for additional credit.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Playwriting

TH 3358. Screenwriting.
This course offers a comprehensive study of the art and craft of writing
screenplays. During a semester of intensive writing, readings, script
analysis, and critiques, writers complete assignments in storytelling, character, structure, and script development. Each writer completes a
full-length screenplay as the capstone project for the semester.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Screenwriting

TH 3359. Advanced Screenwriting.
This course focuses on the development of full-length screenplays. May be
repeated for credit with different emphasis. Prerequisite: TH 3358.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Advanced Screenwriting

TH 3360. Beginning Stage Combat.
An introductory course in stage combat. A hands-on approach with
emphasis placed upon actor safety, dramatic requirements of the script,
and historical accuracy. Repeatable for credit with different emphasis.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Beginning Stage Combat

TH 3364. Acting Realism.
A studio course emphasizing the theories and methods of Stanislavsky in
order to create characters in realistic drama. Prerequisite: TH 1365.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

about Acting Realism

TH 3365. Acting Styles.
A studio course emphasizing the theories and methods of Stanislavsky in
order to create characters in realistic drama. Prerequisite: TH 1365.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Acting Styles

TH 3367. Theory and Analysis.
A study of dramatic theory and play analysis for production, including the
study of forms, styles, and methods. (WI).

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Theory and Analysis

TH 3370. Creative Drama.
Emphasis on process drama theory and using creative drama as both an
art form and as a teaching tool. Through class activities, students will
develop effective facilitator skills and incorporate innovative strategies
for teaching traditional material in non-traditional ways.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Creative Drama

TH 3390. BFA Pre-Professional Apprenticeship I.
Intensive work in one of the following career paths: Acting, design, and
theatre technologies, costuming. Prerequisite: Formal admission into the
Bachelor of Fine Arts Pre-professional Program.

Grade Mode: Standard Letter

Course Attribute(s): 3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.

about BFA Pre-Professional Apprenticeship I
TH 4120. Musical Theatre Singing Technique.
This course is for advanced, private study in musical theater singing technique. Via private instruction, students will study multiple areas of musical theatre singing technique including singing for the microphone, belting, placement, and diverse musical theater styles (pop, rock, Golden Age, contemporary musical theater, etc). Prerequisite: TH 3120 or TH 3220 and Senior status as a Musical Theatre Major.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Musical Theatre Singing Technique

TH 4301. Professional Internship.
This course provides professional hands-on experience in the theatre or film industry. May be repeated once for credit. Prerequisite: Consent of instructor.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Professional Internship

TH 4310. Theatre Curriculum Development.
Course builds on a requisite knowledge of basic educational theory and lesson plan structure with an emphasis on developing and implementing a successful Theatre curriculum. Practical and effective strategies for teaching middle school and high school Theatre will be examined.
about Theatre Curriculum Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Theatre Curriculum Development

TH 4320. Directing Theatre Activities.
Designed to assist any teacher in directing theatre activities. During the course, students will direct plays or scenes. May be repeated with different emphasis for additional credit.
about Directing Theatre Activities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Directing Theatre Activities

TH 4323. Shakespeare Through Performance.
This intensive summer study abroad program immerses students in the language and culture of Shakespeare's plays. Incorporating a performance-based approach to the study of Shakespeare, this course includes theatrical workshops taught by professionals at leading international theatres, including the Royal Shakespeare Company.
about Shakespeare Through Performance
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Shakespeare Through Performance

This intensive study abroad program immerses students in the language and culture of Shakespeare's plays. In Stratford, academic workshops are led by scholars from the Shakespeare Birthplace Trust. Through immersion in the cultural environment in which the plays were produced, students gain insight into the context that shaped Shakespeare's theatre.
about Shakespeare: Text and Context
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Standard Letter
Grade Mode: Standard Letter
about Shakespeare: Text and Context

TH 4330B. Business of Theatre.
An in-depth seminar in the management of theatre and related performing arts organizations. Principles of management, planning, communication, and supervision are applied to operation, production preparation, and performance.
about Business of Theatre
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Business of Theatre

TH 4330C. Improvisation for the Actor.
This course teaches improvisational skills for actors via the use of theatre games and experiential exercises. This course is repeatable one time for credit.
about Improvisation for the Actor
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Improvisation for the Actor

TH 4330D. Actor, Artist, Aesthetic.
This course focuses on group and individual created works of art. Students will explore their personal artistic aesthetic and create a piece that will be performed.
about Actor, Artist, Aesthetic
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

about Actor, Artist, Aesthetic

TH 4330F. Singing for the Actor.
This course focuses on developing the vocal instrument and singing skills for actors.
about Singing for the Actor
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Singing for the Actor
TH 4330G. Design for Educational Theatre.
The course consists of three sections covering Scenic Design, Lighting Design and Production Elements. It is intended for Teacher Certification students with the goal of providing the tools to be successful when dealing with limited resources, reduced personnel and challenging theatre venues at their schools. Prerequisite: TH 2338.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Design for Educational Theatre

TH 4330H. Technical Theatre Intensive.
This course provides the technical skills necessary to work effectively as a high school or middle school theatre teacher. It focuses on the facilities, tools, materials and techniques used to build scenery safely and effectively in the modern theatre. Laboratory meetings extend the lecture subjects with practical examples and experiences. Prerequisite: TH 4330G.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required|Topics
Grade Mode: Standard Letter
about Technical Theatre Intensive

TH 4330I. Theatre Drafting.
This course is a study of manual drafting techniques for scenery and lighting designers and technicians. It is required for all BFA scenic and lighting students. Prerequisite: TH 2338.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Theatre Drafting

TH 4330J. Drawing for the Designer.
This course is a studio class with a focus on drawing for the scenic, lighting, and costume design student. Required of all BFA design majors. Prerequisite: TH 4390.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Drawing for the Designer

TH 4330K. Painting for the Designer.
This course is a studio class that will explore painting techniques for the theatrical designer. Required of all BFA design majors. Prerequisite: TH 4390.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Painting for the Designer

TH 4330L. Welding for the Stage.
Welding for the Stage. (3-0) This course offers a hands-on study of the principles and practices utilized in the fabrication of steel framed stage scenery for the live entertainment industry. Emphasis will be on safely cutting and welding mild carbon steel using gas metal arc welding. Includes joint design and cost estimation. Prerequisite: TH 3330 or consent of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Welding for the Stage

TH 4330M. Advanced Stage Management.
The goal of this course is to examine stage management and hone the necessary skills in the areas of theatre, dance, festivals, live events, showcases, and opera. Prerequisite: TH 4334.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Advanced Stage Management

TH 4330N. Company and Production Management for the Arts.
The goal of this course is to examine the job duties (and overlapping tasks) of members of a theatrical producing arts team with a focus on Company and Production Managers. There will be an emphasis on group management and organizational tools.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Company and Production Management for the Arts

TH 4330P. Teaching Artists in Schools and Communities.
What is a teaching artist? This course will examine the current and historical role of theatre artists applying their knowledge and skills in school and community-based settings. Our discussions will be framed by a practical fieldwork experience in a school or community location.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Teaching Artists in Schools and Communities

TH 4330Q. Contemporary Theatre Workshop.
This course examines the landscape of contemporary theatre. Students will read, analyze, and perform scenes from dramatic literature written from the 1990s to the present. It will examine what kinds of artistic trends, styles, and issues are at play in contemporary theatre.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Contemporary Theatre Workshop
TH 4330R. Oregon Shakespeare Festival Intensive.
This course examines theatre production at the regional theatre level by exposing students to the work of the Oregon Shakespeare Festival. Students will study issues of translating the current season's nine plays from script to stage, as well as analyze the perspectives and choices that inform each production.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Oregon Shakespeare Festival Intensive

TH 4330S. Ethnic Theatre Workshop.
This course explores the creative challenges of performing selections from the African American, Latino American, Native American, and Asian American experience. Students will work with poetry, folktales, monologues, and duet scenes. The course will also include an overview of the literature and history of Ethnic Theatre in America.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Ethnic Theatre Workshop

TH 4330T. Film Editing.
This course provides an examination of visual, auditory, and special effects editing techniques for film. It includes practical projects for editing commercials, documentaries, and/or narrative films. Prerequisite: TH 3363.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Film Editing

TH 4330U. Sound Technology.
This course provides an understanding of audio technology, the components of sound systems and their application for live entertainment, including theatre and dance productions. It includes hands-on work in the theatre on departmental productions. Prerequisites: TH 1350 and TH 2330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Sound Technology

TH 4330V. Sound Design.
This course provides an understanding of sound design and its application for live entertainment, including theatre and dance productions. It involves an exploration of the sound design process and practical application through class projects. Prerequisite: TH 4330U.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Sound Design

TH 4330W. Television Writing.
This course focuses on the techniques of writing for television, including both half-hour situational comedies and hour-long dramas. Students will pitch story ideas, develop beat sheets, write treatments, and complete written scripts. Prerequisite: TH 3355.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Television Writing

TH 4330X. Drama and Adaptation.
This course focuses on the development of new theatrical scripts based on existing stories and source material. Students will explore a variety of potential source materials, pitch adaptation ideas, and complete a written script. Prerequisite: TH 3355.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Drama and Adaptation

TH 4330Y. Film Lighting.
This course provides an understanding of the principles, techniques and equipment used in lighting for film. It involves consideration of both technical and design elements. Prerequisite: TH 4363.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Film Lighting

TH 4332. Theatre in Education.
This course provides an in-depth examination of Applied Theatre as it is used in a variety of settings, including elementary and middle school classrooms, recreation facilities, and in community outreach programs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Theatre in Education

TH 4334. Stage Management.
This is a seminar course in stage management, focusing on organization, techniques, and practices for managing stage productions from initial planning through performance.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Stage Management

TH 4335. Stage Management Practicum.
This course is a hands-on practicum in which select students stage manage a departmental production, from auditions through the completion of the production. Prerequisite: TH 4334.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter about Stage Management Practicum
TH 4338. Lighting Design.
Lighting design is a continuation of the principles covered in Stage Lighting. This course will concentrate primarily on the aesthetics of stage lighting, and will cover such topics as: viewer psychological and physiological responses as they pertain to visual perception; color, script analysis; use of light in creating both static and dynamic visual compositions; development and graphic representation of a theatrical lighting design. Prerequisite: TH 2338. May be repeated with different emphasis for additional credit.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Lighting Design

TH 4340. Business of Film.
This course focuses on how film projects are put together, from development to production, with an emphasis on job opportunities that are available in the film industry. Where applicable, working professionals are brought in as guest lecturers to provide a hands-on perspective of working in the film industry.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business of Film

TH 4341. Short Film Development.
This course focuses on the essential elements that go into the pre-production phase of developing a short film project. Emphasis is on script research, writing, budgeting, scheduling, finance, and development.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Short Film Development

TH 4345. Costume Design.
A study of the principles and elements to relate to designing theatrical costumes. Includes experience in research as well as developing drawing and rendering techniques. May be repeated with different emphasis for additional credit.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Costume Design

TH 4346. Advanced Costume Design.
Continued development of costume design skills. Includes research as well as advanced drawing and rendering techniques. Repeatable for credit with different emphasis. Prerequisites: TH 3344 and TH 4345.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Costume Design

TH 4347. Advanced Costume Construction.
An advanced course in building costumes for the stage. Advanced techniques in sewing as well as pattern design and drafting is included. Repeatable for credit with different emphasis. Prerequisite: TH 3344.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Costume Construction

TH 4355. Scene Painting.
Theory and practice of scene painting for the theatre, with hands-on projects implementing various scene-painting techniques. Students will also have the opportunity to work as scenic artists on departmental productions.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Scene Painting

TH 4356. Advanced Theatre Drafting.
A study of computer techniques and procedures used in the preparation of design and technical drawings for theatrical drafting. Prerequisite: TH 4390 or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Theatre Drafting

TH 4357. Scene Design.
A study of scene design for theatre, focusing specifically on process of scenic designer with practical assignments including renderings and scaled models. Prerequisites: TH 1358 or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Scene Design

TH 4360. Problems in Theatre.
Problems in Theatre. (3-0) Designed to give supervised experience to qualified advanced students in theatre history, playwriting, directing, acting, technical, or other theatre problems. Research problems or actual production problems may be chosen. May be repeated with different emphasis for additional credit. (MC).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Problems in Theatre

TH 4361. Dialects For Actors.
A study of the International Phonetic Alphabet and other vocal techniques used to create vocal variations such as regional, national, and international dialects. Prerequisite: TH 3310.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Dialects For Actors
TH 4363. Directing For Film.
An in-depth examination of directing theories and procedures for film with practical filming and editing exercises.
about Directing For Film
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Directing For Film

TH 4364. Directing I.
A study of the fundamentals of directing with practical experience provided by directing scenes. (WI).
about Directing I
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Directing I

TH 4365. Directing II.
A study of directing different dramatic styles. Students will direct a one-act play during regular semesters. Prerequisite: TH 4364. (WI).
about Directing II
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Directing II

Continuation of Creative Dramatics, and the theory and practice related to all phases of producing plays for and with young people through junior high school age. Practical experience in a University production as required for one semester. May be repeated with different emphasis for additional credit.
about Children’s Theatre
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Children’s Theatre

TH 4372. Theory and Practice of Dramaturgy.
Study of the practical application of historical research and textual analysis in the production of period plays and new works. Emphasis upon the dramaturg as an instrument of collaboration between members of the artistic team and as a facilitator of audience outreach. Prerequisite: TH 3367.
about Theory and Practice of Dramaturgy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Theory and Practice of Dramaturgy

TH 4373. Advanced Film Directing.
An in-depth examination of narrative filmmaking that includes screenplay analysis, storyboarding, scheduling the shoot, directorial techniques, staging actors, camera placement, filming on location, and editing. Prerequisite: TH 4363.
about Advanced Film Directing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
about Advanced Film Directing

TH 4375. Advanced Playwriting.
This course focuses on an in-depth study of the techniques of playwriting and the variety of styles that a playwright might employ. The course culminates with the writing of a full-length play. Prerequisite: TH 3355.
about Advanced Playwriting
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Playwriting

TH 4376. Advanced Lighting Design.
This course focuses on advanced principles of light design and lighting aesthetics. It covers the variable elements one encounters during the design process as it applies to stage lighting. Prerequisite: TH 4338.
about Advanced Lighting Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Lighting Design

TH 4377. Advanced Scene Design.
This course emphasizes working with directors and other designers in creating a design for the stage. Students will improve verbal and visual communication skills as well as further develop drawing/painting/modeling/drafting skills. The course involves multiple projects including creating an original performance art piece with a director and other designers. Prerequisite: TH 4357.
about Advanced Scene Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Scene Design

TH 4378. Play Development Lab.
This course provides a laboratory workshop development process for new plays. It provides a structured environment for rigorously revising student-written works. Prerequisite: TH 4375 or instructor approval.
about Play Development Lab
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Play Development Lab

TH 4390. BFA Pre-Professional Apprenticeship II.
Intensive laboratory work in individual and group theatre methods for the actor, designer, or technician. Each apprenticeship from BFA II to V will focus upon a specific theatrical discipline for the actor, i.e. advanced vocal work, music theatre, performing Shakespeare, performing new scripts, advanced movement techniques, and further development of internal process.
about BFA Pre-Professional Apprenticeship II
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about BFA Pre-Professional Apprenticeship II
TH 4391. BFA Pre-Professional Apprenticeship III.
A continuation of laboratory work for the actor. Each apprenticeship from BFA II-V will focus on a specific theatrical discipline for the actor, i.e. advanced vocal work, music theatre, performing Shakespeare, performing new scripts, advanced movement techniques, and further development of the internal process.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing | Lab Required
Grade Mode: Standard Letter

TH 4392. BFA Pre-Professional Apprenticeship IV.
A continuation of laboratory work for the actor. Each apprenticeship from BFA II-V will focus on a specific theatrical discipline for the actor, i.e. advanced vocal work, music theatre, performing Shakespeare, performing new scripts, advanced movement techniques, and further development of the internal process.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

Bachelor of Arts (B.A.) Major in Theatre

Minimum required: 120 semester hours

General Requirements
1. Majors must complete a minimum of 35 hours in Theatre, with six additional hours strongly recommended. A minimum of 12 TH hours must be advanced.
2. General education core curriculum and BA degree requirements must be met. Elective hours may be needed to reach the minimum number of hours for the degree.
3. All theatre majors are encouraged to participate in theatre production activities each semester, and BA students must enroll in TH 2111 a minimum of two semesters.

Bachelor of Fine Arts (B.F.A.) Major in Theatre (Acting Pre-Professional Option)

Minimum required: 125 semester hours

General Requirements
1. Admission to the B.F.A. in Theatre with an emphasis in Acting is highly competitive and based on an audition/interview with the Bachelor of Fine Arts Review Committee. Prospective students audition during their senior year of high school. Interested transfer students must contact the Head of Acting to see if there are any available slots in their class level; typically, transfer students require more than the usual 4 years to complete their degree. Students in the program are always on probation, with their work and progress continually evaluated. There is a formal review at the end of the sophomore year that determines whether each student may advance to the upper-level training.

Bachelor of Fine Arts (B.F.A.) Major in Theatre (Design/Technology Pre-Professional Option)

Minimum required: 120 semester hours

**General Requirements**

1. Admission to the B.F.A. in Theatre with an emphasis in Design and Technology is based on an audition during their sophomore year by taking the B.F.A. I class. At the conclusion of that class, the student’s work is reviewed by the Design/Tech faculty and staff, and a decision whether to admit to the program is made.
2. A minimum of 36 advanced hours are required.
3. General education core curriculum requirements must be met.
4. All Theatre majors are encouraged to participate in theatre production activities each semester.

Bachelor of Fine Arts (B.F.A.) Major in Theatre (Teacher Certification in Theatre, Grades EC-12)

Minimum required: 125 semester hours

General Requirements

1. Admission to the B.F.A. in Theatre with Teacher Certification in Theatre is based on grade point average; a 2.75 is required for admission to the program. Students will be expected to maintain high artistic and academic standards. For specific admission requirements and procedures, students should contact the Department of Theatre and Dance before March 15.

2. An all-level (EC-12) teacher certification in the theatre program consists of a minimum of 41 semester hours, with at least 24 hours advanced.

3. All theatre majors are encouraged to participate in theatre production activities each semester.

4. General education core curriculum requirements must be met.

5. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

6. Teacher Certification majors must maintain an overall GPA of 2.75, a major GPA of 2.75, and a GPA of 2.75 in all required education courses.

During the summer between their junior and senior years, B.F.A. Teacher Certification majors take TH 4365, TH 4330H, and TH 4320.

Bachelor of Fine Arts (B.F.A.) Major in Musical Theatre

Minimum required: 123 semester hours

General Requirements

1. Admission to the B.F.A. in Musical Theatre is highly competitive and based on an audition/interview with the Bachelor of Fine Arts Review Committee. Prospective students audition during their senior year of high school. Interested transfer students must contact the Head of Musical Theatre to see if there are any available slots in their class level; typically, transfer students require more than the usual 4 years to complete their degree. Students in the program are always on probation, with their work and progress continually evaluated. There is a formal review at the end of the sophomore year that determines whether each student may advance to the upper-level training.

2. Bachelor of Fine Arts Theatre students choose their career path in consultation with the Head of Musical Theatre.

3. General education core curriculum requirements must be met. It is recommended that some of the general education hours be taken over one or more summer sessions.

4. A minimum of 36 advanced hours are required.

5. All Theatre majors are encouraged to participate in theatre production activities each semester.
Bachelor of Fine Arts (B.F.A.) Major in Dance (Dance Studies Emphasis)

Minimum required: 120 semester hours

General Requirements
1. Students in the dance program are expected to be active in the dance club, Orchesis, and to participate in dance concerts as dancers, choreographers, and technicians.
2. Students are expected to gain skills at the advanced level in modern dance plus skills in Ballet, Jazz, Folk, Social, and Square, and to enroll in a dance activity course each semester they are in school.

Bachelor of Fine Arts (B.F.A.) Major in Dance (Single Field Teacher Certification in Dance, Grades 8-12)

Minimum required: 120 semester hours

**General Requirements:**
1. Admission to the B.F.A. in Dance with Certification in Dance requires an Overall GPA of 2.75 for admission to the program. Students will be expected to maintain high artistic and academic standards.
2. General Education core curriculum requirements must be met.
3. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).
4. Teacher Certification majors must maintain an Overall GPA of 2.75, a Major GPA of 2.75, and a GPA of 2.75 in all required education courses.

Bachelor of Fine Arts (B.F.A.) Major in Dance (Two Field Teacher Certification in Dance, Grades 8-12)

Minimum required: 130 semester hours

**General Requirements**
1. Consult an academic advisor to help you choose an additional teaching field and for sequencing of courses.
2. A second teaching field is required.
3. It is recommended to take summer Dance courses between the Junior and Senior years.
4. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Minor in Theatre

A minor in Theatre requires 18 hours, including:

Choose one from the following:  
- TH 1358  Stagecraft
- TH 1364  Beginning Acting
- TH 2330  Stagecraft and Stage Lighting

Select 15 additional TH hours, 9 of which must be advanced

Total Hours 18
of cooperating teaching sites and more than 800 affiliations with hospitals and other healthcare facilities.

A number of programs offered in the College of Health Professions have specific admission requirements in addition to Texas State admission requirements. Most programs also have requirements for student liability insurance and immunizations. Background checks and drug testing may be required.

**Academic Advising Center**
Health Professions Building Room 207
T: 512.245.3506 F: 512.245.1615
www.health.txstate.edu/advising (http://www.health.txstate.edu/advising)

In the College of Health Professions Undergraduate Academic Advising Center, we are student-centered, supportive, and welcoming to all. We strive to empower students to be successful in their academic and life goals.

We pledge to be accurate, encouraging, sincere, realistic, approachable, and non-judgmental in our interactions to provide guidance and direction to the University community, including students, faculty, staff and members of students’ support systems.

The College of Health Professions Academic Advising Center provides academic advising which supports undergraduate students seeking admission to a program offered in the College of Health Professions. The Center also prepares degree audits for all undergraduate students in the College of Health Professions, and in coordination with the Dean’s Office, verifies graduation.

**Clinical Laboratory Science Program**
Health Professions Building Room 350-B
T: 512.245.3500 F: 512.245.7860
www.txstate.edu/cls (http://www.txstate.edu/cls)

The Bachelor of Science in Clinical Laboratory Science with a major in Clinical Laboratory Science prepares students to function as clinical laboratory scientists or medical technologists in a wide variety of settings from physician office laboratories to modern tertiary care hospital laboratories. The clinical laboratory scientist can become an indispensable top-level laboratory worker, a supervisor, a specialist, a researcher, or an educator.

The requirements during the first two years of study include courses in biology, chemistry, and mathematics, along with courses in the humanities and social and behavioral sciences. The junior and senior years combine clinical experiences in the affiliated clinical laboratories with advanced academic study in the CLS disciplines.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Graduates of the program are eligible to take the national certification examination for the Medical Laboratory Scientist (MLS) given by the Board of Certification of the American Society for Clinical Pathology (ASCP).

**Admission Process**
Any student entering Texas State may declare Pre-Clinical Laboratory Science as their major. It is recommended that students arrange academic advising at least once prior to making application, and, if possible, arrange to learn about the profession through clinical laboratory tours, personal research, and interviewing a practicing CLS professional. Admission and acceptance to Texas State and declaration as a clinical laboratory science major does not guarantee admission to the program. Admission to the program is competitive and selective. The academic sequence begins during the fall semester of the junior year. Students are selected in the spring semester of their sophomore year. Enrollment is limited by student/faculty ratios and clinical placement availability. The deadline for submission of applications is February 15. A typical cohort size of 20 students will be admitted. Applicants will be notified of their status by April 30th or sooner. The criteria for student selection for the junior class includes scholastic ability, particularly in the sciences, essays, and a personal interview, and not on the basis of gender, race, color, religion, veteran status or condition of disability, or national origin. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program to qualify for admission.

**General Admission Requirements**
1. Admission to Texas State University. University application deadlines are different than the CLS Program deadline. Potential applicants are encouraged to complete the University process early to facilitate review of transcripts during the CLS Program application process.
2. A minimum overall GPA and science GPA of 2.50; however, an overall GPA and a science GPA of 3.0 is recommended in order to be competitive in the application process.
3. Science courses require a minimum grade of "C" or higher.
4. Students may only have a maximum of 12 remaining prerequisite hours, with only eight of these credit hours in prerequisite science courses. Students are encouraged to complete all prerequisite courses prior to admission.
5. Completion of the CLS application packet for admission by the deadline (February 15th).
6. Successful interview of selected candidate with admission committee.
7. Other requirements as necessary by clinical placements (e.g. immunization, background check, and drug testing).

**Program Progression**
Successful program progression requires students to complete each semester in a lock-step sequence with a grade of "C" or higher in all major courses. Each course is offered only once each academic year; therefore, progress in the program is affected should a student fall out of the sequence due to failure to successfully complete a course. A student who falls out of sequence (whether due to illness, course failure, or other reasons) will be delayed one year to repeat the course. According to CLS program policy, students with a grade of less than a "C" in a CLS course will be stepped out of the program and individuals must reapply to the program the following year. To be considered for program re-admission, all original program admission criteria and an approved schedule for retaking courses must be met. In addition, a student may repeat a CLS course once only. If the student does not earn a grade of at least "C" upon repeating the course, the student cannot continue in the program. All non-CLS coursework must be completed prior to the senior year, 2nd semester (spring), due to students beginning off-campus clinical rotations.

**Graduation**
To graduate with a Bachelor of Science in Clinical Laboratory Science, students must successfully complete all CLS courses with a "C" or higher. Requirements for BSCLS completion and graduation include...
a Texas State GPA of 2.0 with a CLS major GPA of 2.25. During the second semester (spring) and final semester (summer) of the senior year, students are required to successfully complete five clinical laboratory rotations/experiences in CLS Clinical Practice courses. These courses require that the students spend clinical time in other facilities, primarily hospitals and reference laboratories, away from campus. Students must furnish their own transportation, and if necessary, housing. Because of the time and distances involved, typically no courses other than those listed in the CLS Program can be taken in the final two semesters of the senior year.

**Immunization Requirements**

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must take certain immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and forms to be supplied may be obtained through the program office.

**Background Check and Drug Screening**

As a condition for placement in professional practice sites, students will be required to have a background check and drug screening and meet other requirements set by individual sites. Information on the drug screening process will be provided by the CLS Program.

**Clinical Placement (rotation) Requirements**

The Clinical Laboratory Science (CLS) Program at Texas State provides clinical placements for all CLS students entering the clinical year (senior year / 2nd year of post baccalaureate) in good academic standing. Clinical placements are carefully and methodically assigned while taking into account transportation issues, types of clinical affiliates, and student characteristics. In the event a clinical affiliate is unable to fulfill their prior obligation, alternative clinical rotations will be sought at other affiliate institutions. In the very unlikely event alternative clinical rotations are unable to be secured, affected students will be reassigned to the first available rotation site. The next available clinical rotation will occur as soon as possible but no later than one year from the time the rotation was cancelled. If the clinical rotation cancellation occurs after clinical rotations have commenced, the affected student will be placed first in the queue to receive the first available clinical rotation slot that will occur no later than one year after the cancellation. If the clinical rotation cancellation occurs prior to the start of clinical rotations, affected students will be selected based on GPA calculated from performance in the CLS courses. Students with the lowest GPAs will be required to relinquish their clinical rotation slots which will delay clinical rotations.

**Bachelor of Science in Clinical Laboratory Science (B.S.C.L.S.)**

- Major in Clinical Laboratory Science (p. 352)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in Clinical Laboratory Science (CLS)**

CLS 3305. Introduction to Clinical Laboratory Techniques.
Clinical Laboratory Science students will be introduced to techniques, procedures, and instrumentation commonly used in clinical laboratories. (WI), about Introduction to Clinical Laboratory Techniques
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Introduction to Clinical Laboratory Techniques

CLS 3323. Clinical Microscopy and Analysis of Body Fluids.
Study of body fluids present in the various anatomical compartments of the body as they differ in health and disease. Physical and chemical tests, and microscopic examination of select body fluids are performed. about Clinical Microscopy and Analysis of Body Fluids
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Clinical Microscopy and Analysis of Body Fluids

CLS 3326. Medical Parasitology.
This course includes lecture and laboratory instruction in medically important parasites producing disease in humans with emphasis on epidemiology, life cycles, identifying characteristics, and pathology of these parasites. about Medical Parasitology
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Medical Parasitology

CLS 3410. Clinical Chemistry I.
Designed to acquaint the clinical laboratory science student with some of the concepts, techniques, procedures, and instrumentation used in clinical chemistry. about Clinical Chemistry I
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Clinical Chemistry I

CLS 3412. Hematology/Coagulation I.
Qualitative and quantitative evaluation of formed elements of the blood and studies in coagulation abnormalities. about Hematology/Coagulation I
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Hematology/Coagulation I

CLS 3424. Clinical Immunology.
Principles of immune response and underlying immunologic procedures of diagnostic value are discussed. Lectures and laboratory emphasize detection, identification, nature of antigens and antibodies, and the antigen-antibody reactions encountered. about Clinical Immunology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Clinical Immunology
CLS 4225. Laboratory Management and Supervision.
Lectures and discussions of general principles of management and supervision of the clinical laboratory and its personnel. (WI). about Laboratory Management and Supervision
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Laboratory Management and Supervision

CLS 4227. Introduction to Clinical Practice.
Discussion of professional and technical requirements for clinical laboratory science students and their role and responsibilities as a unit of the health care team. (WI).
about Introduction to Clinical Practice
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Introduction to Clinical Practice

CLS 4318. Hematology II.
In-depth study of theoretical and practical aspects of clinical hematology and hemostasis with emphasis on principles, methodology, problems encountered, and clinical applications.
about Hematology II
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Hematology II

CLS 4321. Directed Study in Clinical Laboratory Science.
An indepth study of a narrow range of topics or a related problem in the clinical laboratory sciences. Topics to be announced; may be repeated for credit when topics vary.
about Directed Study in Clinical Laboratory Science
3 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Credit/No Credit
about Directed Study in Clinical Laboratory Science

CLS 4340. Clinical Microbiology II.
Study of medically important fungi, viruses, chlamydiae, rickettsiae, and advanced topics in clinical microbiology. Automated identification of microorganisms, database management, and epidemiologic techniques will be discussed.
about Clinical Microbiology II
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Clinical Microbiology II

CLS 4341. Molecular Diagnostics.
This course consists of an introduction to the principles, methodologies and applications of molecular diagnostic procedures used in clinical laboratories. Emphasis is placed on the procedures used in the identification of infectious agents that cause human disease, in the diagnosis of inherited diseases, and the diagnosis of cancer.
about Molecular Diagnostics
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Molecular Diagnostics

Directed independent research covering the principles of research and development of clinical laboratory methodology. (WI). about Research Methods in Clinical Laboratory Science
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Research Methods in Clinical Laboratory Science

CLS 4370. Clinical Chemistry II.
A study of the theoretical and practical aspects of clinical chemistry. Manual and automated laboratory procedures for quantitative analysis of various body fluids.
about Clinical Chemistry II
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Clinical Chemistry II

CLS 4440. Clinical Microbiology I.
Study of pathogenic and nonpathogenic bacteria, fungi, and viruses with special emphasis on methods of isolation from body fluids, cultural and differential biochemical characteristics of body pathogens.
about Clinical Microbiology I
4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Clinical Microbiology I

CLS 4460. Immunohematology.
Study of theoretical and practical consideration of major blood groups with emphasis on grouping and typing, antibody detection and identification, compatibility testing and component therapy in blood transfusion service.
about Immunohematology
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Immunohematology

CLS 4463. CLS Clinical Practice I.
Structured clinical experience assigned on an individual basis for observation, study, and practical application of techniques and methodology in the clinical laboratory.
about CLS Clinical Practice I
4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Grade Mode: Standard Letter
about CLS Clinical Practice I

CLS 4464. CLS Clinical Practice II.
Continuation of Clinical Laboratory Science Practice I; structured clinical experience assigned on an individual basis for observation, study and practical application of techniques and methodology in the clinical laboratory.
about CLS Clinical Practice II
4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Grade Mode: Standard Letter
about CLS Clinical Practice II

Faculty
Ellis, Joanna Howard, Clinical Assistant Professor, Clinical Laboratory Science, M.S., Johns Hopkins University
Bachelor of Science in Clinical Laboratory Science (B.S.C.L.S.) Major in Clinical Laboratory Science

Minimum required: 120 semester hours

General Requirement
1. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

Total Hours: 120
Department of Communication Disorders

If US 1100 is waived, the student must have a minimum of 120 hours to graduate. See the College Advising Center.

See Academic Services section of the catalog for course options that satisfy Literature and Social and Behavioral Sciences components.

Admission Process

The Department of Communication Disorders provides undergraduate students with the academic background to successfully enter a graduate program in speech-language pathology or audiology. The undergraduate curriculum provides knowledge in normal and disordered speech, language, swallowing and hearing processes. Coursework in the major is supported by additional courses in psychology, counseling, biology, physics, and statistics.

The Department prepares students at the graduate level to diagnose and manage speech-language problems in children and adults. A master’s degree is required for state licensure and national certification. The graduate program is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology.

Students are initially considered Pre-professional Communication Disorders majors. Once the student is accepted into the Junior/Senior sequence, the major becomes Communication Disorders.

Admission to the CDIS Junior/Senior-level courses is competitive and selective. Enrollment is limited by student/faculty ratios in both academic and clinical components of the program. To be considered for admission to the Junior/Senior-level courses, the following are required:

1. Students must be in overall good standing to apply.
2. An overall GPA of 3.0
3. Completion of a minimum of 50 hours of coursework from the freshman and sophomore courses listed on the CDIS Degree Plan. The 50 hours must be completed by the end of the Summer 1 session in the same calendar year in which the student wishes to begin the Junior/Senior sequence.
4. The following courses must be taken in the 50 hours:
   - PHYS 1310 Elementary Physics 3
   - CDIS 1331 Introduction to Communication Disorders 3
   - BIO 2430 Human Physiology and Anatomy 4
   - HP 3302 Biostatistics (or an equivalent) 3
   - PSY 3300 Lifespan Development 3
5. These classes must be completed by the end of the Summer 1 session in the same calendar year in which the student wishes to begin the Junior/Senior sequence.
6. A minimum grade of C in support and major classes listed as part of the freshman/sophomore years on the Degree Plan:
   - HIM 2360 Medical Terminology 3
   - BIO 2430 Human Physiology and Anatomy 4
   - HP 3302 Biostatistics (or an equivalent) 3

Students are ranked by their GPA in the five required classes and admittance in the Junior/Senior year is based on this ranking. Preference for admission is given to students who have not repeated any of the five courses.

The application for admission is submitted to the department by May 15th. Admission decisions are made after the end of Summer 1. All students will be notified by letter of the CDIS Undergraduate Admission Committee’s decisions. Student selection is made on academic performance and not on the basis of race, color, religion, gender, age, or national origin.

CDIS Progression and Repeat Course Policy

1. The Junior/Senior-level courses (Bachelors of Science Degree in Communication Disorders) academic sequence begins during the fall semester only.
2. Courses must be taken in the sequence identified in the catalog.
3. After admission into the Junior/Senior sequence, failure to enroll in all of the recommended CDIS courses for that semester as identified by an advisor in conjunction with the Degree Plan will delay graduation at least a year.
4. CDIS students must receive a grade of “C” or higher in each CDIS class. If a grade below “C” in a junior- or senior-level CDIS courses is earned, the student will not be allowed to continue as a Communication Disorders major and must change majors to something other than CDIS. This change will be done in conjunction with the student’s CDIS academic advisor and the College of Health Professions’ Advising Center.

Graduation

1. Have a GPA of 2.75 in the major in order to graduate.
2. If a student has not earned the minimum major requirement of 2.75 for graduation and earned “C” or higher in all CDIS courses, the student will be allowed to re-take CDIS courses only until the student achieves the GPA of 2.75. CDIS students are NOT permitted to re-take CDIS courses if they have earned C’s or higher in the courses.

Bachelor of Science in Communication Disorders (B.S.C.D.)

- Major in Communication Disorders (p. 355)

Information about graduate programs can be found in the Graduate Catalog (p. 634).
Courses in Communication Disorders (CDIS)

CDIS 1331. Introduction to Communication Disorders.
Study of speech, hearing, and language development and its disorders; descriptions of communicative disorders and their etiologies for the speech-language pathologist, health professional, and classroom teacher.
Grade Mode: Standard Letter

CDIS 3312. Neuroanatomy for Communication Disorders.
This is a lecture course that examines the organization of the brain, spinal cord, and peripheral nervous system. Significance of the areas of the nervous system that are primary or secondary for speech, language and hearing are the main focus of this course.
Grade Mode: Standard Letter

CDIS 3325. Anatomy and Physiology of the Speech Production System.
Description of structure and function of the speech production system with emphasis on physical problems in speech, language, and hearing.
Grade Mode: Standard Letter

CDIS 3459. Phonemics and Phonetics.
Grade Mode: Standard Letter

CDIS 3462. Remediation of Articulatory and Phonological Disorders.
This course prepares students to manage articulation and phonological disorders. Current therapeutic models are reviewed. Observation of therapy and instruction in preparation of written clinical reports are required. Prerequisites: CDIS 3325 and CDIS 3459. (WI) (MP).
Grade Mode: Standard Letter

CDIS 3469. Introduction to Hearing Science.
Study of acoustics, auditory physiology and perception of sound. Includes discussion of auditory sensitivity, signal detection, psychoacoustic methods, perception of pitch and loudness, binaural hearing and speech perception. Associated laboratory promotes reinforcement of concepts addressed in lecture through review, problem solving and weekly assignments.
Grade Mode: Standard Letter

CDIS 3475. Speech Science.
Normal processes of speech production will be addressed from anatomic, physiologic, kinematic, aerodynamic, acoustic, and perceptual perspectives. Measurement and analysis techniques, instrumentation, and experimental paradigms used to study speech production and perception will be emphasized. Prerequisites: CDIS 3325 and CDIS 3459.
Grade Mode: Standard Letter

CDIS 4301. Advanced Independent Study.
In-depth study of selected topics in Communication Disorders for the exceptionally motivated student. Work done on an independent basis with faculty member and only with prior departmental permission.
Grade Mode: Standard Letter

CDIS 4317. Service Delivery in Communication Disorders.
Provides a foundation of clinical management to prepare CDIS students to work in a variety of settings. Emphasis will be placed on techniques of goal and objective sequencing, report writing, evaluation of services, ethics, and interdisciplinary collaboration. Prerequisites: CDIS 3459, CDIS 3462, CDIS 4330, CDIS 4466 or CDIS 4350. (WI).
Grade Mode: Standard Letter

CDIS 4330. Speech and Language Development.
Course to acquaint students with acquisition of speech and language in children. Basic information from linguistics, psycho-linguistics, psychology, and communication are examined for children in various stages of development.
Grade Mode: Standard Letter

Designed to review methods of non-oral communication as applied to hospital, rehabilitation, and school settings. Use of electronic communication systems emphasized. Prerequisites or co-requisites: CDIS 4330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Augmentative Communication Systems

CDIS 4344. Clinical Practicum in Communication Disorders.
Supervised clinical practicum in speech-language pathology. Must be taken each semester student participates in any supervised clinical practicum in speech-language pathology. Prerequisites: CDIS 1331, CDIS 3459, CDIS 3462 or CDIS 4466, and CDIS 4330. (Concurrent registration in CDIS 4330 acceptable).
3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Lab Required
Grade Mode: Credit/No Credit
about Clinical Practicum in Communication Disorders

CDIS 4350. Survey of Neurogenic Communication Disorders.
This course provides an introduction to acquired speech, language, cognitive and swallowing disorders resulting from brain injury. Basic neuroanatomy and physiology are reviewed, followed by discussion of the etiology, diagnosis, treatment, and prognosis of these disorders. Emphasis is placed on aphasia, dysarthria, apraxia of speech, right hemisphere syndrome, traumatic brain injury, dementia, and dysphagia. Prerequisite: CDIS 3312.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Neurogenic Communication Disorders

CDIS 4370. Aural Rehabilitation.
Principles and procedures in the habilitation and rehabilitation of hearing impaired children and adults. Prerequisites: CDIS 4420. (MC) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Aural Rehabilitation

CDIS 4420. Introduction to Audiology.
Relates anatomy and physiology of the auditory system and the science of acoustics to the study of normal and pathological auditory function. Laboratory experience in administration and interpretation of audiological tests. Discussion of professional opportunities in the field of audiology and provision of audiological service to special populations. Prerequisite: CDIS 3469. (MC).
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Introduction to Audiology

CDIS 4466. Clinical Management of Language Disorders.
Study of principles and procedures for the identification, description, assessment and remediation of language disorders in infants, children, and adolescents. Students will observe demonstrations of assessment procedures and types of language disorders within the context of clinical procedures. Describing observed behaviors and analyzing language samples will be emphasized. Prerequisite: CDIS 4330.
about Clinical Management of Language Disorders
4 Credit Hours. 4 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Lab Required
Grade Mode: Standard Letter
about Clinical Management of Language Disorders

School of Health Administration

Health Professions Building Room 250
T: 512.245.3494 F: 512.245.8712
www.health.txstate.edu/HA (http://www.health.txstate.edu/HA)

The Healthcare Administration major integrates healthcare management theory and practice, and prepares graduates to assume entry to midlevel management positions in a variety of healthcare settings. These settings include health maintenance organizations (HMO’s), physician group practice, hospitals, insurance companies, clinics, and medical offices. Healthcare administrators manage employees, prepare and maintain budgets, procure resources and perform other administrative functions so that the clinical professionals can provide their services. The major is certified by the Association of University Programs in Health Administration.

Admission

Any student in Texas State may declare Pre-Healthcare Administration as the major. To declare Pre-Healthcare Administration as a major, contact the School Administrative Assistant and schedule an appointment with the B.H.A. Director.

Admission to the Healthcare Administration program is competitive with a limited number of applicants accepted to each class. In addition to the minimum criteria for program consideration, applicants to the B.H.A. program are required to have an interview with the B.H.A. Program Director. B.H.A. applicants meeting the minimum criteria listed below will be considered for program admission:

- Successful completion of all general education core and support courses with a “C” or better in the following courses:
  - MATH 1315 College Algebra (or an equivalent) | 3 |
  - ECO 2301 Principles of Economics | 3 |
  - or ECO 2314 Principles of Microeconomics | 3 |
  - HP 3325 Healthcare Statistics (or an equivalent) | 3 |
  - HA 3308 Healthcare Organization | 3 |

- Texas State GPA of 2.75 or higher.
- Completion of the PUG (punctuation, usage, and grammar) test with a passing score (70% or higher). Applicants are allowed to take the PUG a maximum of three times.
- Application deadlines and items for application packet are posted on School webpage.
Progression and Repeat Course Policy

B.H.A. majors are required to take courses in a prescribed sequence and are required to successfully complete with a grade of “C” or better.

- All 3000-level courses before enrolling in any 4000-level courses.
- All 4000-level courses before enrolling in field placement. In addition, all B.H.A. majors are required to pass an EXIT exam administered in HA 4141 before enrolling in field placement.

B.H.A. majors are required to make a “C” or better in all HA courses and are allowed to repeat each HA course once, and only once, to improve their grade. In the event that B.H.A. majors do not make a “C” or better when repeating a course, they will be suspended from the major. B.H.A. majors suspended from the B.H.A. program have a right of appeal and should contact the B.H.A. Director.

Graduation

To graduate with a B.H.A. degree, a student must:

1. Complete all required courses.
2. Have a grade of “C” or better in each HA course.
3. Have a 2.00 Texas State GPA or better and 2.25 HA GPA or better.
4. Have met University residence requirements.
5. Pass an EXIT exam administered in HA 4141.

Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must take certain immunizations before the student can be placed in a clinical or residency assignment. Information on these requirements and forms to be supplied may be obtained through the school office.

NOTE: All students are required to complete a residency for the B.H.A.

A background check is required for all students in the 3rd HA semester during enrollment in HA 4141 prior to beginning the residency. Issues with the background check will impact residency placement and ability for employment in the healthcare industry.

Bachelor of Healthcare Administration (B.H.A.)

- Major in Healthcare Administration (p. 360)

Minor

- Healthcare Administration (p. 361)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this school include: HA (p. 357), HP (p. 359)

Courses in Healthcare Administration (HA)

HA 3308. Healthcare Organization.
Overview of the healthcare system and the role hospitals have played and continue to play in the future. Analysis of organizational structure of a hospital and other healthcare agencies, administrative and management elements necessary for policy determination, decision making, and control to achieve institutional goals and objectives.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 3309. Ethics in the Health Professions.
This course introduces the student to a sound foundation in well-established ethical theories and a familiarity with terms, concepts and issues in ethics as applied to the health professions. Also provides practical methods for proceeding from considered reflection to informed action in solving ethical problems.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 3311. Independent Study in Healthcare Administration.
An in-depth study of a single topic or problem confronting the healthcare industry. This course affords the student an opportunity to focus on a topic/problem or group of related problems impacting healthcare managers. This course may be repeated for credit with a different emphasis.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

HA 3315. Healthcare Administration History, Culture, and Language.
An introduction to the historical and cultural development of modern healthcare administration in contemporary American society. Special attention is given to the mores of health services delivery including critiques and use of professional behavior and language. (MC).

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Write Intensive

Introduction to the following functions of supervisory management: planning, organizing, staffing, influencing, and controlling; as well as the connective processes of decisionmaking, coordinating, and communicating in healthcare organizations. (WI).

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

NOTE: All students are required to complete a residency for the B.H.A.

A background check is required for all students in the 3rd HA semester during enrollment in HA 4141 prior to beginning the residency. Issues with the background check will impact residency placement and ability for employment in the healthcare industry.

Bachelor of Healthcare Administration (B.H.A.)

- Major in Healthcare Administration (p. 360)

Minor

- Healthcare Administration (p. 361)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this school include: HA (p. 357), HP (p. 359)

Courses in Healthcare Administration (HA)

HA 3308. Healthcare Organization.
Overview of the healthcare system and the role hospitals have played and continue to play in the future. Analysis of organizational structure of a hospital and other healthcare agencies, administrative and management elements necessary for policy determination, decision making, and control to achieve institutional goals and objectives.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 3309. Ethics in the Health Professions.
This course introduces the student to a sound foundation in well-established ethical theories and a familiarity with terms, concepts and issues in ethics as applied to the health professions. Also provides practical methods for proceeding from considered reflection to informed action in solving ethical problems.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 3311. Independent Study in Healthcare Administration.
An in-depth study of a single topic or problem confronting the healthcare industry. This course affords the student an opportunity to focus on a topic/problem or group of related problems impacting healthcare managers. This course may be repeated for credit with a different emphasis.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

HA 3315. Healthcare Administration History, Culture, and Language.
An introduction to the historical and cultural development of modern healthcare administration in contemporary American society. Special attention is given to the mores of health services delivery including critiques and use of professional behavior and language. (MC).

Grade Mode: Standard Letter

A background check is required for all students in the 3rd HA semester during enrollment in HA 4141 prior to beginning the residency. Issues with the background check will impact residency placement and ability for employment in the healthcare industry.
HA 3329. Human Resources in Healthcare Management.
Human resource management as applicable to the healthcare field. Course will cover human resource planning, staffing, job requirements, job descriptions, sources of labor supply, training and education programs, salary administration, employee communications, legal considerations, union-management relations.
Grade Mode: Standard Letter
about Human Resources in Healthcare Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 3340. Management of Health Information Systems.
Provides an introduction to information systems for healthcare facilities and agencies. Covers determining what information is needed by whom; designing information flows, procurement of computer/telecommunication resources, assuring information security, and continuing management of information systems supporting healthcare delivery.
Grade Mode: Standard Letter
about Management of Health Information Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 3341. Training and Professional Development in Healthcare.
This course examines the training and professional development processes as applied to the healthcare industry. Emphasis is placed on staff developments, need analysis, task analysis, development of training and continuing education programs for healthcare personnel. (WI).
Grade Mode: Standard Letter
about Training and Professional Development in Healthcare
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive

HA 3344. Patient Care Management & Quality Improvement in Health Care Integrated Delivery Systems.
This course is an introduction of integrated delivery systems and their operations. It includes an examination of patient care management and the patient experience. A framework for understanding healthcare quality efforts is also an integral part of the course.
Grade Mode: Standard Letter
about Patient Care Management & Quality Improvement in Health Care Integrated Delivery Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course includes a review of the laws pertaining to healthcare institutions, physicians, and other healthcare workers who contribute to patient care. Tort and contract law are emphasized. The course addresses policy issues and ethics through topics like patient rights, reproduction, and end of life decisions.
Grade Mode: Standard Letter
about Essentials of Healthcare Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Provides an introduction to accounting useful in healthcare facilities and agencies, and demonstrates the application of accounting principles and techniques in the healthcare field. Prerequisites: ECO 2301 or ECO 2314, and HP 3325 or equivalent.
Grade Mode: Standard Letter
about Principles of Accounting for Healthcare Managers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

A concentration in the fundamentals of healthcare financial management including the financial organization of nonprofit facilities, sources of operating revenue, management of working capital, and the allocation, control and analysis of resources. Prerequisites: ECO 2301 or 2314, and HA 3375 or approval of instructor.
Grade Mode: Standard Letter
about Financial Management for Healthcare Managers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

HA 4121. Problems in Healthcare Administration.
In-depth study of a singular problem considered to be of immediate concern to the health care industry. Special emphasis is placed on problems unique to managers in the field of health administration. May be repeated with permission of department chair.
Grade Mode: Standard Letter
about Problems in Healthcare Administration
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

HA 4141. Healthcare Comprehensive Exam and Review.
A course in which each of the respective faculty will review their portion of the comprehensive examination that all HA majors are required to successfully pass during their final semester of study. The comprehensive exam will be administered at the conclusion of the course.
Grade Mode: Credit/No Credit
about Healthcare Comprehensive Exam and Review
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

HA 4221. Problems in Healthcare Administration.
In-depth study of a narrow range of topics considered to be of immediate concern to the health care industry. Special emphasis on problems unique to managers in the field of health administration. May be repeated with permission of department chair.
Grade Mode: Standard Letter
about Problems in Healthcare Administration
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
HA 4305. Healthcare Services Marketing.
The course applies the principles of services marketing to healthcare organizations. The course will present tools to identify and close the gaps that exist between customer expectation of services and the services provided and to ensure quality of health care.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Healthcare Services Marketing

HA 4311. Cost Accounting for Healthcare Organizations.
A study of the cost accounting methods and techniques appropriate to the healthcare industry. The focus is on the control and measurement of costs, budgeting practices, and the generation of financial information to aid in supervisory and managerial decision making. Prerequisite: HA 3375.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Cost Accounting for Healthcare Organizations

HA 4315. Health Services Problem Solving and Decision Making.
An introduction to methodologies used to seek solutions to health administration problems which affect technical and professional personnel. Designed to place emphasis on techniques most directly applicable to models of administration and management decision making.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

about Health Services Problem Solving and Decision Making

HA 4318. Employment Law in Healthcare Management.
This course examines the legal aspects of healthcare human resource management. Each of the major federal and state enactments impacting human resource management will be studied in depth. Prerequisite: HA 3329.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Employment Law in Healthcare Management

HA 4320. Seminar in Healthcare Administration.
Current trends and problems in health administration affecting health administration technical and professional personnel. Designed to place emphasis in selected areas of administration and management. Research paper and presentation is required of each student. (WI) (MC/MP).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

about Seminar in Healthcare Administration

This capstone class integrates accounting, finance, marketing, MIS, and organizational behavior in the creation of sustainable competitive advantage. Health care case studies will be used to illustrate key concepts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Healthcare Strategic Management

HA 4440. Practicum Internship A.
Students with specialization in management participate in a health services based practicum. Experiences in providing opportunities for observation, participation, and practical application of administrative or management skills in the institutional setting are required. Must have a 2.25 major GPA and have completed all junior year major courses.

4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Practicum Internship A

HA 4441. Practicum Internship B.
Studies tailored to particular interests and needs of individual students. A variety of experiences may be used to enrich the program for students with special needs or demonstrated competencies. This course is taken in the final semester of study.

4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Practicum Internship B

Designed for students who have limited or no previous background in healthcare management/administration. Includes rotation through selected major departments, culminating in a major project. This course is taken in the final semester of study.

8 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Healthcare Administrative Residency

Courses in Health Professions (HP)

HP 2351. Application of Computers in the Health Professions.
An introduction to computer applications important to health care including both common and specialized medical software. Common computer applications are introduced using projects and data resources from a healthcare environment. Students also examine specialized medical applications such as the National Library of Medicine, healthcare Internet resources, and telemedicine.

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Application of Computers in the Health Professions

Texas State University 359
HP 3302. Biostatistics.  
The course introduces major statistical concepts and procedures as applied to clinical science students with an emphasis on inferential statistics. Topics include: descriptive statistics, hypothesis testing, comparison statistics, association statistics, and beginning epidemiological ratios. Students are introduced to major statistical packages. Prerequisite: MATH 1315 or MATH 1319.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter

The course introduces major statistical concepts and procedures as applied to healthcare administration students with an emphasis on descriptive statistics. Topics include: healthcare statistical terminology, descriptive statistics, hypothesis testing, comparison statistics, relationship statistics, and association statistics. Prerequisite: MATH 1315 or MATH 1319.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

### Department of Health Information Management

Health Professions Building Room 302  
T: 512.245.8242 F: 512.245.8258  
www.health.txstate.edu/HIM (http://www.health.txstate.edu/HIM)

The Health Information Management major prepares students to work in the health information management profession which focuses on managing patient health information, administering computer information systems, collecting and analyzing patient data and using classification systems and medical terminology.

Health Information Management professionals work in multiple settings throughout the healthcare industry. These include the continuum of care delivery organizations; hospitals, multispecialty clinics and physician practices, long-term care, mental health, and other ambulatory care settings. The profession has recently seen significant expansion in nonpatient care settings, with careers in managed care and insurance companies, software vendors, consulting services, government agencies, education, and pharmaceutical companies.

The program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education. Upon completion of the degree, graduates of the program are eligible to sit for the RHIA (Registered Health Information Administrator) examination offered by the American Health Information Management Association.

The B.S.H.I.M. is offered in two formats—the traditional campus-based program and an on-line program.

- The Traditional Campus-Based Program is a two plus two program with completion of general education core curriculum and program prerequisite coursework during the first two years. Following application and acceptance into the program, the final two years consist of the professional coursework reinforced with a professional practice experience assignment in a hospitals or health care related organization. Application deadline is March 1.
- The on-line Program is offered to traditional students who have completed the general education core curriculum and program...
prerequisite coursework and those who have already completed an associate degree in health information or other degree. The courses in this format are offered via web-based instruction, independent study, and a professional practice experience. Application deadline is March 1.

Admission

Any student at Texas State University may declare Pre-Health Information Management as their major. To declare Pre-HIM as a major, contact the Department of Health Information Management to schedule an interview with the Department Chair. It is strongly recommended that students present themselves for academic advising with a HIM program advisor as soon as health information management has been selected as a major.

Admission Process for acceptance to the professional phase of the program to begin the 3000 and 4000 level coursework, students must:

1. Have completed the majority of the Core and other prerequisite coursework;
2. Have a minimum overall GPA of 2.50;
3. Be eligible for admission to Texas State. (University application deadlines are different than the HIM Program deadline. Potential program applicants are encouraged to complete the University process early to facilitate review of transcripts during the HIM Program application process);
4. Submit HIM Program application by March 1 for consideration to begin the HIM coursework in the fall semester; and
5. Interview with the HIM Program Admissions Committee.

Advanced placement in the major coursework due to previous health information or related coursework and/or work experience will require a review of the student’s credentials and transcripts. Because of course sequencing and the scheduling of clinical assignments, students who drop out of the program for one or more semesters will be required to reapply for admission and be re-interviewed by the admissions committee.

Progression

B.S.H.I.M. courses are to be taken in a published sequence. The HIM courses are offered in a lock-step sequence. Most courses are offered only once each academic year; therefore, progress in the program may be delayed if a student falls out of sequence due to failure to successfully complete the HIM courses with the required “C” or higher. Because of course sequencing and the scheduling of the professional practice experience assignment, students who drop out of the program for one or more semesters will be required to reapply for admission and be re-interviewed by the admissions committee for consideration to be allowed to continue in the program.

Graduation

To graduate with a Bachelor of Science in Health Information Management, students must successfully complete all HIM courses with a “C” or higher. Graduating students must have attained a 2.0 or higher Texas State University GPA with a minimum of 2.25 GPA in the HIM major courses.

During the second semester of the senior year students are required to take a five-week professional practice experience course. This course requires that the students spend a minimum of five weeks in other institutions (hospitals or healthcare related organizations) away from campus. Students who have already completed an associate degree in health information or another bachelor’s degree or who have significant healthcare experience are required to complete a two-week professional practice experience course. Students must furnish their own transportation and housing. Because of the time and distances involved, no courses other than those listed can be taken in the final semester of the senior year.

Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must take certain immunizations before the student can be placed in a professional practice experience assignment. Information on these requirements and forms may be obtained through the HIM Department.

Background Checks and Drug Screening

As a condition for placement in some professional practice experience sites, students may be required to have a background check and/or drug screening and/or meet other specific requirements as set by individual sites. Information will be provided by the HIM Department.

Bachelor of Science in Health Information Management (B.S.H.I.M.)

- Major in Health Information Management (p. 365)

Minor

- Health Information Management (p. 366)

Certificate

- Health Information Privacy & Security (p. 366)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Health Information Management (HIM)

HIM 2345. The Language of Healthcare: Spanish.
An introduction of the practical language used in clinical settings to facilitate interaction with Spanish-speaking patients and healthcare professionals. Special emphasis is placed on the use of meaningful medical vocabulary for various healthcare professionals who work with Spanish-speaking patients and their families. Prerequisite: Two semesters of Spanish.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Language of Healthcare: Spanish

HIM 2360. Medical Terminology.
Recognizing and understanding the vocabulary of the health care professions. Emphasis on medical prefixes, suffixes, and word roots as used in oral and written communications.

about Medical Terminology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Medical Terminology
HIM 3301. Principles of Health Information Management. 
Exploration of the expanding role of the HIM professional. Emphasis will be on the organizational structure and delivery of healthcare in hospitals and other healthcare agencies and the associated roles of HIM professionals.

Grade Mode: Standard Letter

about Principles of Health Information Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

An introduction to the information technology aspects of health information management to include hardware components, systems architecture, operating systems, languages, software applications, tools, and related topics and concepts.

about Fundamentals of Health Information Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3311. Health Informatics, Analytics and Data Use.
This course provides an overview and introduction to healthcare data management. Topics in the course will include the system development life cycle, project management, information infrastructure and data analytics. Implementing healthcare information systems, decision making, and consumer informatics will also be examined.

about Health Informatics, Analytics and Data Use

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3350. Legal Aspects of HIM.
A study of the legal issues of Health Information Management with focus on statutory and regulatory requirements, case law and practical applications. Special legal problems associated with access to patient information, disposition of records, confidentiality and privacy, reporting requirements and compliance with current state and federal legislation are emphasized.

about Legal Aspects of HIM

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3367. Disease and Medical Science I.
An introduction to the general disease process. Stress is placed upon the occurrence of disease, the signs and symptoms of disease, the test values and findings of disease, and the therapeutic treatment of disease.

about Disease and Medical Science I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3368. Disease and Medical Science II.
A continuation of Disease and Medical Science I.

about Disease and Medical Science II

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3380. Quality Improvement Regulations & Procedures for HIM.
Overview of regulatory agency requirements for quality improvement, utilization management and risk management. Methods for integrating these procedures for credentialing and peer review are explored.

about Quality Improvement Regulations & Procedures for HIM

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3390. Principles of Management in HIM.
This course provides a study of the principles of management in healthcare and related organizations. The course provides the opportunity to apply the fundamentals of management including ethical decision making and human resources in the expanded role of the HIM Professional.

about Principles of Management in HIM

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3463. Introduction and Technical Aspects of Health Information Management.
An introduction into principles and procedures used in health records organization, maintenance and retention, numbering and filing systems and procedures, forms control and design, and imaging. Emphasis placed on functions and duties of the HIM administrator, and relationships of the medical record to the health care delivery system.

about Introduction and Technical Aspects of Health Information Management

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.

Grade Mode: Standard Letter

HIM 3464. Coding and Classification Systems I.
This course provides an introduction to ICD, CPT and other classifications and nomenclatures. Emphasis will be placed on the assignment of diagnosis and procedure codes. Management and the use of encoding systems is examined.

about Coding and Classification Systems I

4 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

Course Attribute(s): Lab Required

Grade Mode: Standard Letter

HIM 4101. Problems in Health Information Management.
Comprehensive study of selected problems related to professional practice issues and changes in the health information management field. Emphasis will be on problem solving and application of management skills. May be repeated with permission of department chair.

about Problems in Health Information Management

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

about Problems in Health Information Management
HIM 4225. Health Information Management Research and Education. A course of independent reading and research with the student completing a research project and developing an in-service instructional module. Emphasis is on the application of health information management theory and clinical practice. (WI). about Health Information Management Research and Education

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Time Conflicts Permitted|Writing Intensive Grade Mode: Standard Letter about Health Information Management Research and Education

HIM 4331. Health Information Management Research and Data Analysis. An introduction to research methods and experimental inquiry to acquaint the student with skills to critique and conduct studies in the health information management domains. The course will also provide the foundation for compiling, analyzing, and displaying statistics related to the delivery of healthcare. about Health Information Management Research and Data Analysis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Health Information Management Research and Data Analysis

HIM 4363. Comparative Record Systems. Theory and procedures for the maintenance and regulation of patient health information records in non-hospital medical care facilities to include long term care, ambulatory care, psychiatric care, rehabilitation and prison record keeping systems. about Comparative Record Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Comparative Record Systems

HIM 4364. Coding and Classification Systems II. This course is a continued study of ICD, CPT and other classifications and nomenclatures. The role of mapping among clinical terminologies is analyzed. The relationship with inpatient and ambulatory care reimbursement systems is also explored. about Coding and Classification Systems II

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours. Course Attribute(s): Lab Required Grade Mode: Standard Letter about Coding and Classification Systems II

HIM 4370. Finance and Reimbursement Methodologies for HIM. Course will address the reimbursement cycle from patient registration to claims billing with an emphasis on federal regulations and the role of HIM regarding payment systems. Topics will include accounting principles, budget processes, cost/benefit analysis, healthcare finance, compliance strategies, charge-master and casemix management, and payment systems and plans. about Finance and Reimbursement Methodologies for HIM

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Finance and Reimbursement Methodologies for HIM

HIM 4383. Seminar in Health Information Management. Problem-solving course designed to assimilate actual internship encounters and theory. Emphasis is on integration of knowledge and making transition to the applications required to function as a health information manager. about Seminar in Health Information Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing Grade Mode: Standard Letter about Seminar in Health Information Management

HIM 4385. Health Information Management Practicum. Assignments made to promote uniformity and competency levels required of entry-level health information management professionals with practical application of administrative, management, and problem-solving skills required to complete projects and portfolio material. (WI). about Health Information Management Practicum

3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours. Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Health Information Management Practicum

HIM 4388. Practicum. Faculty-led administrative training for the associate degree health information progression student. Emphasis is placed on analysis of HIM personnel functions, interdepartmental relations, use of health information technology, and committee assignments. Full-time participation of the student is required. about Practicum

3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours. Course Attribute(s): Lab Required|Time Conflicts Permitted|Writing Intensive Grade Mode: Credit/No Credit about Practicum

HIM 4389. Professional Practice Experience. Supervised management experience and training in a healthcare or related setting. Student will participate in administrative, management, and problem-solving activities in the institutional setting. Full-time participation is required. Option for health information associate degree and post-baccalaureate students. (WI). about Professional Practice Experience

3 Credit Hours. 1 Lecture Contact Hour. 40 Lab Contact Hours. Course Attribute(s): Lab Required|Time Conflicts Permitted|Writing Intensive Grade Mode: Credit/No Credit about Professional Practice Experience

HIM 4390. Contemporary Leadership Principles for HIM. An analysis of the expanded role of the Health Information Management professional in the healthcare environment and application of the principles involved. Topics include strategic planning and forecasting, marketing, entrepreneurialism, leadership, motivation, consensus building, workforce diversity, change management, work redesign/reengineering, and project management. (WI). about Contemporary Leadership Principles for HIM

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Contemporary Leadership Principles for HIM
HIM 4401. Organizational Management of Health Information Technology.
This course studies the integrated use of health information technology throughout the healthcare organization. Students will evaluate how technology impacts the overall hospital operations from both a clinical and an administrative perspective, and will use planning and assessment tools to simulate health information technology system implementation.  
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Grade Mode: Standard Letter

HIM 4501. Professional Practice Experience.
Supervised management experience and training in a healthcare or related setting. Student will participate in administrative, management, and problem-solving activities in the institutional setting. Full-time participation is required in addition to scheduled campus visits. (WI).  
5 Credit Hours. 1 Lecture Contact Hour. 40 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Credit/No Credit

</tr>
</tbody>
</table>

Total Hours: 22

Appropriate sequencing of courses is necessary for progression to subsequent courses. This minor would enhance and broaden the scope of various other fields of study by providing a well-rounded introduction and an opportunity for practical applications of the administrative functions related to the management of health information. Completing this minor does not meet eligibility requirements for the R.H.I.A. (Registered Health Information Administrator) certification examination offered by the American Health Information Management Association.

Academic advisement is important prior to enrolling in HIM minor courses due to sequencing requirements.

St. David’s School of Nursing

Nursing Building
Round Rock Campus
Round Rock, TX
T: 512.716.2900 F: 512.716.2911
www.nursing.txstate.edu (http://www.nursing.txstate.edu)

Mission Statement

The St. David’s School of Nursing, located in Round Rock, educates and prepares graduates, using innovative teaching strategies and state-of-the-art technology, to function in professional nursing roles to manage illness; promote, maintain, and restore health; and provide end of life care for diverse individuals, families, populations, and communities across the lifespan. Graduates demonstrate competence in clinical judgment, collaborate as members of the interprofessional health care team and utilize scientifically-based interventions. These future nurses will provide ethical, safe, and effective patient-centered care and contribute to present and emerging research and health management practices.

The nursing program offers a Bachelor of Science in Nursing (B.S.N.). Graduates are prepared to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN®) and to meet the minimum competencies for beginning practice as a Registered Nurse. The B.S.N. graduate is prepared to pursue clinical excellence and certification by the American Nurses Credentialing Center (ANCC) and to continue formal education for the Master’s Degree and Doctorate in Nursing. This program is accredited by the Commission on Collegiate Nursing Education.

The B.S.N. curriculum is 120 hours, including 61 hours of Texas State core curricular and prerequisite courses; and 59 hours of nursing
Admission Process
The application period begins October 1 and closes January 15. Admission to the undergraduate major in nursing is competitive and selective. Applicants must first be admitted to Texas State University prior to submitting the School of Nursing application. Applicants must have a prerequisite GPA of 2.90 or higher and a science GPA of 3.00 or higher. However, a 3.0 prerequisite GPA is recommended to be competitive in the application process. Science courses require a minimum grade of “C” for admission. A maximum of 8 attempts (including W) on the 5 science courses, with no more than 2 attempts on any one science course, is permitted. There can be a maximum of 18 remaining prerequisite credit hours, (including no more than 2 of the 5 science courses) left to complete in the spring and summer semesters before final admission to the St. David’s School of Nursing. An application fee and copies of all college transcripts are to accompany the St. David’s School of Nursing application. Additional criteria include a personal persuasive essay, scores from the Test of Essential Academic Skills (pre-nursing entrance assessment) and 2 professional or academic references. One hundred (100) highly qualified junior level students will be admitted each fall.

For complete admission procedures, see online at www.nursing.txstate.edu (http://www.nursing.txstate.edu).

Academic Progression
The nursing program must be completed in three years from the time of first admission. Students enrolled in the nursing program are required to maintain a grade of at least a “C” (2.0 GPA) in all courses in the nursing curriculum. Nursing courses are offered in a lock-step sequence. Each course will be offered only once each academic year; therefore, progress in the program will be delayed if the student fails or drops a course. A student may repeat a nursing course only once. Following a second nursing course failure, the student is dismissed from the nursing program, but not from Texas State University.

Graduation
To graduate with a Bachelor of Science in Nursing, a student must successfully complete all nursing courses with a “C” or better in addition to completing all prerequisite courses. Graduating students must have attained a 2.0 or higher Texas State University GPA with a minimum of a 2.50 GPA in the Nursing major.

Immunizations and Basic Life Support
It is a policy of the College of Health Professions that each student complete a Health Certificate and Immunization Test Form. These forms must be signed by a physician or licensed healthcare provider. Students must stay current on immunizations. Basic Life Support for Healthcare Professionals is also to be completed.

Criminal Background Check (2)/Drug Screen
The first criminal background check conducted through the Board of Nursing is required prior to admission to the St. David’s School of Nursing at Texas State. A valid social security number is required by the St. David’s School of Nursing’s clinical partners for the second background check. This background check also includes a drug screening. All nursing students are subject to random or for cause screens.

Bachelor of Science in Nursing (B.S.N.)
- Major in Nursing (p. 370)

Courses in Nursing (NURS)
NURS 3110. Health Assessment Across the Life Span Practicum.
This course requires demonstrated competency in the performance and documentation of physical assessments of well individuals and nursing care plans using the nursing process, critical thinking, and evidence-based practice. Apply teaching/learning principles in meeting the education needs of patients and demonstrate measures to maintain confidentiality of personal health information. Restricted to Nursing Majors.

NURS 3121. Essentials of Nursing Care Practicum.
This course requires the use of nursing process and clinical reasoning principles to provide safe, effective, patient-centered care. Evidence-based practices will be used when performing essential nursing skills and procedures to care for patients experiencing acute and chronic alterations in health status. Restricted to Nursing Majors.

NURS 3221. Essentials of Nursing Care.
This foundation course focuses on basic concepts related to essential nursing care of patients across the life span. Integration of knowledge of family systems, evidence-based practice, clinical reasoning, and the nursing process to provide safe, effective, patient-centered care will occur. Restricted to Nursing Majors.

NURS 3321. Essentials of Nursing Care Care.
This foundation course focuses on basic concepts related to essential nursing care of patients across the life span. Integration of knowledge of family systems, evidence-based practice, clinical reasoning, and the nursing process to provide safe, effective, patient-centered care will occur. Restricted to Nursing Majors.

Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Essentials of Nursing Care
Access and barriers to healthcare, past and current healthcare policy, and the professional nurse's role in policy and delivery of healthcare, will be emphasized. Qualitative and quantitative research in relation to healthcare systems, evidence based nursing practice, and ethical topics will be discussed. Restricted to Nursing Majors.
Grade Mode: Standard Letter

NURS 3240. Nursing Care Across the Life Span Practicum.
This course uses clinical experiences to apply the nursing process in providing safe, effective, and quality care to patients and families across the life span. Clinical reasoning and judgment will be used to provide ethical, holistic, and patient-centered nursing care, promote health, prevent disease, and manage illness. Restricted to Nursing Majors.
Grade Mode: Credit/No Credit

NURS 3241. Acute Nursing Care of Adults Practicum.
This course requires students to use evidence-based and collaborative practice principles in providing safe, effective, and quality care to adult patients experiencing acute, rapidly changing, life-threatening alterations in health status. Clinical reasoning and judgment will be used to provide ethical, holistic, patient-centered nursing care, manage illness, and promote health. Restricted to Nursing Majors.
Grade Mode: Credit/No Credit

NURS 3250. Health Assessment Across the Life Span.
Conducting health histories and physical assessments of well individuals and developing nursing care plans that include patient age-specific health promotion, illness prevention, and risk factors will be emphasized. Assessments will encompass cultural domains, diversity, belief systems, and the implications for traditional as well as complementary and alternative healthcare. Restricted to Nursing Majors.
Grade Mode: Standard Letter

NURS 3260. Psychiatric Mental Health Nursing Practicum.
This course utilizes clinical experiences to promote application of the nursing process in providing quality care to those experiencing mental health issues across the life span. Competency in using evidence-based practices to promote health, prevent disease, and manage illness will be developed. Restricted to Nursing Majors.
Grade Mode: Credit/No Credit

NURS 3300. Foundations of Professional Nursing Practice.
This course explores the history of nursing in the context of the evolving healthcare system. Laws, regulations, and ethical guidelines impacting nursing licensure and professional practice will be examined. The delivery of patient and family-centered, evidence-based, and safe quality care will be explored. Restricted to Nursing Majors. (WI).
Grade Mode: Standard Letter

NURS 3302. Research and Ethics.
Introduction to critical appraisal of qualitative and quantitative research, and application of research and evidence-based processes used to improve decision-making and patient care outcomes across health settings. Integration of theory, information systems, clinical judgment, interprofessional perspectives and analysis of ethical conduct provide a foundation for learning the research process. Restricted to Nursing Majors. (WI).
Grade Mode: Standard Letter

NURS 3340. Pathophysiology and Pharmacology for Nurses.
Introduction and overview of pathology, clinical pharmacology and pharmacotherapeutics, including how major drugs are used therapeutically for age-specific clients. Other topics to be covered include drug laws and regulations, patient and nurse safety. Prerequisite to NURS 3440 and NURS 3460. Restricted to Nursing Majors.
Grade Mode: Standard Letter

NURS 3440. Nursing Care Across the Life Span.
This foundational course focuses on the use of clinical reasoning and judgment to provide collaborative care to patients across the life span experiencing chronic and acute alterations in health status. Content is presented based on evidence-based practice and the prevalent health needs of patients. Restricted to Nursing Majors.
Grade Mode: Standard Letter

NURS 3441. Acute Nursing Care of Adults.
This course focuses on the use of evidence-based practice and clinical reasoning and judgment to provide collaborative care to adult patients experiencing acute, rapidly changing, life-threatening alterations in health status. Restricted to Nursing Majors.
Grade Mode: Standard Letter
NURS 3460. Psychiatric Mental Health Nursing.
This course applies theories, concepts, knowledge, and skills for the comprehensive nursing care of those coping with mental health issues. Building on a liberal education, this course integrates theories of mental illness, psychopathology, and current research findings as they relate to the presentation of symptoms and holistic management of care. Restricted to Nursing Majors.

4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
about Psychiatric Mental Health Nursing

NURS 4201. Professional Growth and Empowerment.
This course focuses on issues related to professional practice, career planning, personal goal setting, and empowerment of self and others. Factors related to job performance, performance expectations and evaluation, reality orientation, and commitment to lifelong learning will be discussed. Restricted to Nursing Majors.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Professional Growth and Empowerment

NURS 4211. Nursing Care in Complex Health Practicum.
This course focuses on providing care to patients with complex health alterations and life situations. Nursing care to patients in a variety of settings will be provided using the concepts of therapeutic communication and collaborative interventions with a focus on the complexity of the patient’s or family’s needs. Restricted to Nursing Majors.

2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Nursing Care in Complex Health Practicum

NURS 4241. Leadership and Management of Nursing Care Practicum.
Leadership and management skills in a variety of nursing care situations will be applied. Nursing unit leadership and staff assignments based on assessment of client needs, resources, priorities, and competencies of staff will be covered. Assessment and evaluation of the provision of evidence-based nursing care will be performed. Restricted to Nursing Majors.

2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Leadership and Management of Nursing Care Practicum

NURS 4250. Maternal, Newborn, and Pediatric Nursing Practicum.
This course is the clinical companion to NURS 4350. Concepts, knowledge, and skills taught in NURS 4350 will be applied to both simulation lab and clinical settings. Evidenced-based, developmentally and culturally appropriate nursing care in a variety of patient-care settings will be emphasized. Restricted to Nursing Majors.

2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Maternal, Newborn, and Pediatric Nursing Practicum

NURS 4280. Community-Based Nursing Practicum.
Health assessment and planning will be conducted for diverse community groups including education, support groups/ resources, advocacy, response to situational crises, bio-terrorism and environmental emergencies, group dynamics, and impact on communities. Clinical experiences will occur in community or public health settings. Restricted to Nursing Majors.

2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Community-Based Nursing Practicum

NURS 4311. Nursing Care in Complex Health.
This course explores traditional and contemporary nursing concepts related to complex health alterations, compensations, and environments across the life span. Therapeutic communication, education, and collaborative interventions with diverse individuals and groups are emphasized including the use of complementary and alternative modalities to meet the needs of patients. Restricted to Nursing Majors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Nursing Care in Complex Health

NURS 4350. Maternal, Newborn, and Pediatric Nursing.
This course applies the nursing process and evidenced-based practice to the care of maternal, newborn, and pediatric patients in acute care settings. The course emphasizes the use of the nursing process to provide care to individuals and families that is developmentally and culturally focused. Restricted to Nursing Majors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Maternal, Newborn, and Pediatric Nursing

NURS 4380. Community-Based Nursing.
Using a variety of philosophical perspectives, community-based nursing care, learning to contrast care in hospital-based settings while transitioning into organizations within the community will be explored. Reflective assessment skills and mindful intervention/teaching projects will be developed. Restricted to Nursing Majors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Community-Based Nursing

NURS 4441. Leadership and Management of Nursing Care.
Students discuss leadership and management theories related to organizational nursing roles, including competencies required for complex change, performance improvement, and transformational leadership. Organizational contexts – structure, processes, and culture – in leading and directing patient centered care are examined, along with relationships between governance structures, practice environments, and positive patient outcomes. Restricted to Nursing Majors. (WI).

4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Leadership and Management of Nursing Care

The Department of Physical Therapy

The Department of Physical Therapy is a graduate department offering a Doctor of Physical Therapy (D.P.T.). For more information, contact the Department of Physical Therapy or visit http://www.health.txstate.edu/pt. While the Department offers no undergraduate degree, it does provide advisement to students interested in pursuing a graduate degree in Physical Therapy.

The requirements for admission include:

1. completion of a baccalaureate degree with a minimum 3.00 GPA in the last 60 hours of course work completed for that degree;
2. minimum 3.00 GPA in all science courses;
3. preferred minimum GRE of 150 on verbal and 145 quantitative;
4. completion of all prerequisite courses, including general psychology, abnormal or developmental psychology, statistics, medical terminology, human physiology and anatomy or human structure and function, vertebrate physiology or physiology of exercise, general chemistry I and II, and general physics I and II.

This program is accredited by the Commission on Accreditation in Physical Therapy Education.

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Course in Physical Therapy (PT)

PT 3400. Human Structure and Function.
A study of the structure and function of the human body with emphasis on the skeletal, muscular, and nervous systems. Course focuses on anatomy and physiology of body systems of special interest to students preparing to be health professionals. Laboratory study of the human cadaver is included.

www.health.txstate.edu/rtt (http://www.health.txstate.edu/rtt)

The radiation therapist is a key member of the professional team, which uses various forms of radiation to treat cancer patients. Radiation therapy may be used alone, or in combination with surgery or chemotherapy, and is the treatment of choice for cure of many cancers. Because of sustained contact with patients, the radiation therapist has considerable responsibility in patient care, dietary counseling and treatment evaluation. The radiation therapist must also appreciate the significant psychological impact that cancer has on patients and their families. The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The curriculum complies with the professional curriculum of the American Society of Radiologic Technologists.

The degree program, Bachelor of Science in Radiation Therapy with a major in Radiation Therapy, is a two- and one-half year program beginning in the junior year. The junior and senior years combine clinical experiences in the affiliated radiation therapy facilities with advanced academic study in the professional disciplines. The program is designed to prepare students for the technical, theoretical, and psychological aspects of this career. Students acquire the technical skills necessary to plan, deliver, and record a prescribed course of radiotherapy. Upon completion of the degree, students are eligible to apply to the ARRT national registry examination.

Admission

Any student entering Texas State may declare Pre-Radiation Therapy as their major. Admission to Texas State does not guarantee admission to the program. Admission to the program is competitive and selective. It is recommended that students arrange academic advising at least once prior to making application. The academic sequence begins during the fall semester. Enrollment is limited by student/faculty ratios in the clinical components of the program. The deadline for submission of applications is January 15.

General Admission Requirements

1. Admission to Texas State
2. Satisfactory completion of all general education requirements and a minimum overall GPA of 2.75.
3. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
4. Students must receive a "C" or higher in all math, science, and support courses:
   - BIO 2430 Human Physiology and Anatomy 4
   - HP 3302 Biostatistics (or an equivalent) 3
   - AT 3358 Clinical Pathopharmacology 3
   - PHYS 1320 Elementary Physics 3
   - PHYS 1110 Elementary Physics Laboratory 1
   - CHEM 1341 General Chemistry I 3
   - CHEM 1141 General Chemistry Laboratory I 1
5. See Academic Services section of the catalog for course options that satisfy literature components.
6. Completion of an application packet for admission.
7. Three letters of reference and a career goal statement.
8. Successful interview of selected candidates with admission committee.
9. 40 hour clinical observation with completed evaluation on file by Jan. 15.
10. Students must be able to perform the 13 Technical Standards indicated by the American Disabilities Act (refer to program website or department for more information).
11. Previous misdemeanor or felony convictions will affect admission to the program.

Academic Progression

Students enrolled in the Radiation Therapy Program are required to maintain a grade of "C" or better in all coursework. Radiation Therapy courses are offered in a lock-step sequence. Each course is offered only once each academic year; therefore, progress in the program is affected should a student fall out of sequence due to failure to successfully complete a course. A student who falls out of sequence (whether due to illness, course failure, or other reasons) will be delayed one year to repeat the course. In addition, a student may repeat a radiation therapy course only once. If the student does not earn a grade of at least "C" upon repeating the course, the student cannot continue in the program.

Graduation

To graduate with a Bachelor of Science in Radiation Therapy Degree, a student must successfully fulfill the general education requirements and complete all radiation therapy courses with a "C" or better. The student must meet the requirements for clinical competency as described in the Directed Clinical Learning syllabi. Graduation students must have attained a 2.0 or higher Texas State University GPA with a minimum of a 2.75 GPA in the Radiation Therapy major.

Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must take certain immunizations before the student can be placed in a clinical or internship assignment. Information on these
requirements and forms to be supplied may be obtained through the program office.

**Criminal Background Check/Drug Screening**

As a condition for placement in some professional practice sites, students may be required to have a background check and/or drug screening and meet other requirements set by individual sites. Information on the process of drug screening will be provided by the school/department/program. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for state license status following graduation and may affect admission consideration to the Radiation Therapy program.

**Bachelor of Science in Radiation Therapy (B.S.R.T.)**

- Major in Radiation Therapy (p. 376)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in Radiation Therapy Technology (RTT)**

**RTT 3120. Clinical Simulation Lab I.**

Students are provided instruction and simulated practice in a controlled laboratory setting. This course provides first-year students foundational clinical set-up skills from which to build on during the clinical learning practicum course.

about Clinical Simulation Lab I

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.

Grade Mode: Standard Letter

about Clinical Simulation Lab I

**RTT 3121. Clinical Simulation Lab II.**

Students are provided instruction and simulated practice in a controlled laboratory setting. This course provides instruction, demonstration and participation in immobilization, positioning and simulation with the aid of an anthropomorphic phantom. Students will learn aspects of simulation for basic treatment delivery applications.

about Clinical Simulation Lab II

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.

Grade Mode: Standard Letter

about Clinical Simulation Lab II

**RTT 3220. Directed Clinical Learning I.**

Students will observe the basic operations of the radiation oncology clinic while interacting with the multidisciplinary team involved in providing treatment and care. The student will be introduced to oncology terminology, equipment, and techniques used for treatment. Learning is achieved through direct patient care, with instruction, demonstration and direct supervision. Prerequisite: Acceptance into the major.

about Directed Clinical Learning I

2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.

Grade Mode: Standard Letter

about Directed Clinical Learning I

**RTT 3221. Directed Clinical Learning II.**

Students will gain additional skills in clinical procedures, interaction with patients and professional personnel. Students apply knowledge from previous clinical learning experience under the supervision of a registered radiation therapist. Students are tested on intermediate clinical radiation therapy skills.

about Directed Clinical Learning II

2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.

Grade Mode: Standard Letter

about Directed Clinical Learning II

**RTT 3300. Patient Care in Radiation Oncology.**

This course will focus on basic nursing concepts involved in providing care for the cancer patient. Topics to be included in the class will be cancer as a chronic health problem, social roles and cancer, multidisciplinary approach to patient care, psychosocial dimension of cancer, in-treatment examinations, follow-up examinations, emergency management, chemotherapy and nutritional aspects of treating patients with cancer.

about Patient Care in Radiation Oncology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Patient Care in Radiation Oncology

**RTT 3301. Introduction to Radiation Oncology.**

An overview of radiation oncology and the role of the radiation therapist. Presentations will orient the student to the physical and biological basis of radiation equipment, procedures, tumor pathology, and patient interaction. (WI).

about Introduction to Radiation Oncology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

Grade Mode: Standard Letter

about Introduction to Radiation Oncology

**RTT 3302. Radiologic Science and Medical Imaging.**

This course will cover the principles governing production of radiation, interaction of radiation with matter, and protection of the radiation worker and patient from exposure. Basic principles of x-ray equipment, exposure factors, latent image formation, and processing of radiographs are presented. Prerequisite: Program Director’s approval.

about Radiologic Science and Medical Imaging

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Radiologic Science and Medical Imaging

**RTT 3310. Physics of Radiation Therapy I.**

Students will learn the principles of radiation physics as they apply to the treatment and care of the cancer patient. Course will include a thorough review of x-ray production, fundamental principles, concepts and terminology. Topics studied include measurements, general principles, structure of the atom, structure of the matter, electrostatics, magnetism, electrodynamics, electromagnetism, rectification and production and properties of radiation and radiographic techniques.

about Physics of Radiation Therapy I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Physics of Radiation Therapy I
RTT 3314. Radiation Therapy Sectional Anatomy.
The course provides instruction in identifying cross-sectional anatomy to
develop the ability to make anatomic correlations between multiple
planes of view. Major organs, lymphatics, vessels are emphasized as
related to the clinical significance in the field of radiation therapy.
about Radiation Therapy Sectional Anatomy
Grade Mode: Standard Letter
about Radiation Therapy Sectional Anatomy

RTT 3350. Radiobiology.
This course will cover the principles of cell response to radiation,
including tissue sensitivity, survival, repair and the latent effects of
irradiated tissue. Topics to be covered include the development of
radiation science, cellular targets for radiation action, target theory,
physical/chemical factors affecting radiation response, biological
factors, repair and recovery, fractionated doses and dose rate, early/
acute effects of whole body exposure, late/chronic effects of whole body
exposure, and radiation protection dose guidelines.
about Radiobiology
Grade Mode: Standard Letter
about Radiobiology

RTT 4120. Clinical Simulation Lab III.
Students are provided instruction and simulated practice in a controlled
laboratory setting. A continuation of RTT 3121. This course provides
instruction, demonstration, and participation in immobilization,
positioning and simulation with the aid of an anthropomorphic phantom.
Students will learn aspects of simulation for basic intermediate treatment
delivery applications.
about Clinical Simulation Lab III
Grade Mode: Standard Letter
about Clinical Simulation Lab III

RTT 4121. Clinical Simulation Lab IV.
Students are provided instruction and simulated practice in a controlled
laboratory setting. A continuation of RTT 4120. This course provides
instruction, demonstration and participation in immobilization,
positioning and treatment simulation. Students will learn aspects of
simulation for basic, intermediate, and some advanced treatment delivery
applications.
about Clinical Simulation Lab IV
Grade Mode: Standard Letter
about Clinical Simulation Lab IV

RTT 4122. Clinical Simulation Lab V.
Students are provided instruction and simulated practice in a controlled
laboratory setting. A continuation of RTT 4121. This course provides
instruction, demonstration and participation in immobilization,
positioning and treatment simulation. Students will learn aspects of
simulation for basic, intermediate, and some advanced treatment delivery
applications.
about Clinical Simulation Lab V
Grade Mode: Standard Letter
about Clinical Simulation Lab V

RTT 4189. Radiation Therapy Literary Scholarship and Manuscript Writing.
This intensive writing course provides instructions in research strategies,
critical review and analysis of peer reviewed publications. An introduction
to scholarly resources and professional manuscript development using
peer reviewed journal guidelines for the profession of radiation therapy.
This course prepares students for RTT 4191 Radiation Therapy Seminar.
Grade Mode: Standard Letter
about Radiation Therapy Literary Scholarship and Manuscript Writing

RTT 4190. Professional Issues in Radiation Therapy.
This capstone course provides a comprehensive review of the program
curriculum and clinical practice in the field. Current radiation therapy
treatment management techniques and issues are presented for
analysis.
about Professional Issues in Radiation Therapy
Grade Mode: Standard Letter
about Professional Issues in Radiation Therapy

RTT 4191. Radiation Therapy Seminar.
This course is a continuation of RTT 4189. The course provides
instruction in the completion of a final draft for the student’s technical
manuscript. The course work builds from the completed manuscript and
draws from the material and knowledge gained in RTT 4189 to develop a
formal presentation.
about Radiation Therapy Seminar
Grade Mode: Standard Letter
about Radiation Therapy Seminar

RTT 4220. Directed Clinical Learning III.
Students will continue to develop skills during this clinical course.
Progressive interaction with patients and professional personnel
are monitored as students practice radiation therapy in a supervised
setting. Additional areas include problem solving, identifying machine
components and basic side effect management. Students will
demonstrate competence in beginning, and intermediate procedures.
about Directed Clinical Learning III
Grade Mode: Standard Letter
about Directed Clinical Learning III

RTT 4221. Directed Clinical Learning IV.
The course provides students the opportunity to continue to develop
confidence and increased skill in simulation and treatment delivery.
Students will demonstrate competence in beginning, intermediate, and
some advanced procedures through supervised clinical instruction,
progressing through a competency-based educational sequence.
about Directed Clinical Learning IV
Grade Mode: Standard Letter
about Directed Clinical Learning IV
RTT 4222. Directed Clinical Learning V.
The students will complete their clinical training by practicing all the skills they have learned in the classroom, lab, and clinical practicum. The students will continue demonstrating proficiency while completing the Skills Competency Checklist.
Grade Mode: Standard Letter

2 Credit Hours. 1 Lecture Contact Hour. 24 Lab Contact Hours.

RTT 4291. Professional Issues in Radiation Therapy.
This capstone course provides a comprehensive review of the program curriculum and clinical practice in the field. Current radiation therapy treatment management techniques and issues are presented for analysis.
Grade Mode: Standard Letter

2 Credit Hours. 1 Lecture Contact Hour. 0 Lab Contact Hours.

RTT 4310. Physics of Radiation Therapy II.
Students will continue to learn the principles of cell response to radiation. Topics covered will include properties of x-ray and gamma radiation, radiation units, x-ray production, photon interactions, beam characteristics, radioactivity, treatment units, and particle irradiation.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RTT 4330. Quality Assurance.
Students will study quality assurance tests related to patient charts, treatment accessories, patient communication devices, machine reading and safety devices. Emphasis on quality control procedures to include Continuous Quality Improvement (CQI), Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and responsibilities of each team member in relation to quality assurance duties.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RTT 4331. Operational Issues in Radiation Therapy.
Course content is designed to focus on various radiation therapy operational issues. Accreditation, CQI development and assessment techniques will be presented. Human resource issues and regulations impacting the radiation therapist will be examined. Topics include the role of network information systems within the radiation oncology department. (WI).
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive

Faculty
Hollman, John S, Lecturer, Radiation Therapy, A.B., Austin Community College
Lopez, Dora P, Clinical Lecturer, Radiation Therapy, B.A.A.S., Texas State University
Lozano, Reynaldo G, Program Chair - Asst Professor, Radiation Therapy, Ph.D., Texas State University
Stanley, Dennis Nichols, Lecturer, Radiation Therapy, M.S., Univ of Tex Hlth Sci San Antonio

Total Hours: 120

1. If US 1100 is waived, the student must have 120 hours to graduate.

See College Advising Center

Department of Respiratory Care

Health Professions Building Room 351
T: 512.245.8243 F: 512.245.7978
www.health.txstate.edu/rc (http://www.health.txstate.edu/rc)

The Bachelor of Science in Respiratory Care Program prepares students to practice as respiratory care professionals and take their place as a key healthcare team member. Skilled in assessing patients with breathing disorders in the emergency room, intensive care units and many other areas in healthcare facilities, respiratory therapists work directly with physicians on newborn, pediatric or adult patients to analyze oxygen levels and breathing difficulty. Therapists administer medications to relieve breathing distress, provide pulmonary/lung therapies, and conduct lung diagnostics for all ages. Graduates find employment in many settings such as hospitals, pulmonary rehabilitation clinics, doctors offices, sleep labs, homecare, and air-life transport teams working with
patients in the emergency room, newborn/pediatric/adult intensive care units, and many other areas.

Respiratory care (RC) majors take classes on the San Marcos campus and gain clinical experience in area hospitals. Students successfully admitted to the program must complete the sequenced curriculum within the cohort group. Individuals taking core courses prior to applying for admission to the RC program should contact the College of Health Professions’ Advising Office. Students completing an associate degree in RC from another university or college are eligible to apply for admission to the B.S.R.C. Program at Texas State for bachelor degree completion. For information on this option, see the department chair. The B.S.R.C. Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC) and qualifies graduates to take national board credentialing exams immediately upon completion.

The department also offers a graduate certificate in Polysonmographic Technology (sleep studies) at the graduate level that is fully accredited by CoARC and qualifies individuals to sit for national board credentialing exams immediately upon completion. The polysonmographic (PSG) graduate certificate is comprised of six courses (15 credit hours) with three courses offered each fall and spring. Individuals credentialed in PSG provide diagnostic and therapeutic treatment for those suffering from sleep disorders such as obstructive sleep apnea, insomnia, narcolepsy, and other conditions. Admission for the Polysonmographic Technology certificate is granted each summer for a cohort starting in the fall. Please refer to the Graduate catalog for admission requirements and course descriptions.

**Admission Process**

Application for admission to the RC program must be made to the RC department in addition to regular university admission procedures. All applicants must have an overall GPA of 2.50 to apply. It is highly recommended that individuals interested in applying for the RC program complete RC 2213 prior to application. Admission is competitive and enrollment is limited depending on student/faculty ratios in the clinical phase of the program. All courses must be taken in sequence and completed with a grade of C or higher in order to progress to the next semester in the curriculum. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program in order to qualify for admission.

**Program Progression**

Successful program progression requires students to complete each semester in a lock-step sequence with a grade of "C" or higher in all RC courses. According to departmental policy, students with a grade of less than a “C” in a RC course will be ineligible to continue the program and must reapply to the program the following year. To be considered for program readmission, all original program admission criteria must be met. If readmitted, an assessment of clinical skills will be required to determine appropriate clinical placement in the curriculum sequence.

**Graduation**

Requirements for B.S.R.C. completion and graduation include a Texas State GPA of 2.0 with a RC major GPA of 2.25.

---

**Immunization Requirements**

It is a policy of the College of Health Professions that each student must provide the College Health Report completed by a physician or licensed healthcare provider, and must complete specific immunizations before being placed in a clinical or internship assignment. Information on these requirements and forms may be obtained through the departmental office.

**Background Checks and Drug Screening**

As a condition for placement in some professional practice sites, all students are required to have a background check and/or drug screening to meet requirements of individual sites. Information on the drug screening process will be provided by the department. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for state respiratory care practitioner license status following graduation and may affect admission consideration.

**Bachelor of Science in Respiratory Care (B.S.R.C.)**

- Major in Respiratory Care (p. 380)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in Respiratory Care (RC)**

**RC 2213. Introduction to Respiratory Care.**

This course offers an in-depth overview of the respiratory care profession to acquaint the student with the responsibilities of the respiratory therapist as part of healthcare team. Progression of the profession, career opportunities, past and future impact of profession on patient recovery and health maintenance, and medical gas therapy will be covered.

about Introduction to Respiratory Care

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

**RC 3125. Pulmonary Function Testing.**

This course examines the most common pulmonary function tests, their techniques, and the pathophysiology that may be evaluated by each test. Pulmonary function equipment, calibration, and the American Thoracic Society guidelines will be discussed. Laboratory practice of performing the tests will be provided to develop skills for testing patients.

about Pulmonary Function Testing

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.

Grade Mode: Standard Letter

**RC 3212. Pharmacology.**

A comprehensive study of pharmacology principles. Receptor theory, clinical applications of medications, and historical analysis of first-generation medications will be covered. Current medication trends and recommendations are also examined.

about Pharmacology

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Pharmacology
RC 3232. Hemodynamics.
This course is an advanced study of cardiovascular hemodynamic measurements. Normal cardiovascular physiology and measures are examined, as well as variations caused by disease. Current clinical trends and practices in hemodynamic procedures are also explored.
Grade Mode: Standard Letter

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

RC 3313. RC Clinical Practice I.
This course provides an introduction to respiratory care clinical skills, including vital signs, chest assessment, infection control, aerosolized medication delivery, oxygen therapy, hyperinflation therapy, and airway clearance. This course prepares the student for direct patient care to be performed in more advanced courses. Direct patient care is performed under close supervision.
Grade Mode: Standard Letter

3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.

RC 3314. Respiratory Care Instrumentation.
Through lectures and lab exercises, students are acquainted with concepts of design, function, and operation of basic respiratory care equipment. Oxygen cylinders, regulators, flowmeters, oxygen analyzers, oximeters, oxygen adjuncts, humidifiers, nebulizers, airways, and pressure cycled ventilators will be covered. The course also covers respiratory pharmacology, decontamination of equipment, and arrhythmia recognition.
Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

RC 3315. Cardiopulmonary - Renal Anatomy & Physiology.
This course provides an in-depth human gross anatomy study of the cardiac, respiratory, and renal systems. Clinical application of pulmonary anatomy and physiology will also be explored.
Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

RC 3316. Fundamentals of Respiratory Care.
This course provides a study of theories and modalities utilized in delivering, monitoring, and evaluating basic respiratory therapeutics to patients with compromised respiratory function in various healthcare settings. Aspects of artificial ventilation, arterial blood gas analysis, lung volume diagnostics, and hyperinflation intervention will be covered in patient scenarios.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RC 3321. Cardiopulmonary Pathology.
As an introduction to the assessment, treatment, and pathophysiology of respiratory diseases, this course focuses on the signs, symptoms, etiology, pathophysiology, diagnosis and treatment of selected diseases. Utilizing clinical simulation software to develop critical thinking regarding assessment, diagnostic data gathering. (WI).
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

This course provides students with an in-depth study of selected respiratory care techniques with an emphasis on the care of critically ill patients. Critical skills and knowledge of mechanical ventilation, bedside diagnostic techniques, patient monitoring, and rehabilitation are explored in the critical care setting.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RC 3323. RC Clinical Practice II.
Students perform clinical procedures and interact with patients and professional personnel in a healthcare institution under the supervision of a respiratory therapist. Students gain direct patient care experience as presented in medical/surgical and pediatric clinical situations. Preparatory instruction is provided for mechanical ventilation and other critical care procedures.
Grade Mode: Standard Letter

3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.

RC 3324. Critical Care Instrumentation.
A comprehensive study of advanced equipment and technology utilized in the critical care, homecare, pulmonary rehabilitation and blood gas lab settings. Lectures and class activities will detail hardware for hemodynamic monitoring, supplemental oxygen administration, noninvasive monitoring, blood gas measurement, quality control and assurance and mechanical ventilator concepts.
Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

RC 3333. RC Clinical Practice III.
A supervised clinical education experience in which the student administers advanced respiratory therapeutics to patients in the adult critical care setting. Diagnostic and monitoring procedures, including arterial blood gases, bedside physiologic monitoring, airway care, advanced pulmonary function testing, ventilator management will be performed according to physician orders.
Grade Mode: Standard Letter

3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
RC 3334. Neonatal Respiratory Care.
An in-depth study of neonatal utero development, fetal lung development, fetal circulation, and cardiovascular changes at birth. Neonatal respiratory emergencies, neonatal respiratory diseases and management, congenital defects, and respiratory care procedures specific to the neonate will be discussed. A specific emphasis on neonatal mechanical ventilation will be included.
about Neonatal Respiratory Care
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Neonatal Respiratory Care

RC 3335. RC Clinical Practice IV.
This course provides an advanced clinical education experience in respiratory therapeutics on patients in the adult critical care setting. Appropriate clinical expectations include experience in arterial blood gas procurement and measurement, bedside physiologic monitoring, airway care, and monitoring of mechanical ventilation in the intensive care unit.
about RC Clinical Practice IV
3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Grade Mode: Standard Letter
about RC Clinical Practice IV

RC 4211. Respiratory Care Research.
This course provides an introduction to applied experimental design, research ethics, and data analysis focusing on the respiratory care profession. Students will participate in each step the research process from developing a personal research hypothesis and research design through IRB submission. Prerequisite: HP 3302 or equivalent.
about Respiratory Care Research
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Respiratory Care Research

RC 4212. Critical Care Clinical Simulation.
This course will prepare respiratory care students to successfully navigate multiple clinical simulation patient cases. Clinical simulations covered reflect real-life patient scenarios and mirror the content found on national board exams. Students will receive focused attention on board exam review and evidence-based care.
about Critical Care Clinical Simulation
2 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Critical Care Clinical Simulation

RC 4223. ICU Internship.
Through affiliations with agencies, hospitals and selected treatment centers, the student interns in the intensive care setting by providing patient care and administering critical care therapeutics. Analysis and clinical application of advanced ventilator care of patients is emphasized along with patient care diagnostics and management in the ICU.
about ICU Internship
2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit
about ICU Internship

RC 4224. Research Seminar.
A study of the research process from a review of research design to methodology implementation including data collection, statistical analysis, and presentation of a research proposal on a topic in the respiratory care discipline. The course provides direct research experience culminating in a research paper and presentation. Prerequisite: RC 4211.
about Research Seminar
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Research Seminar

RC 4225. Specialization Internship.
This course provides the student with an internship opportunity to gain clinical experience in sub-specialty areas including pediatrics, adult intensive care, neonatal intensive care, pulmonary function testing, home care/durable medical equipment, subacute care, pulmonary rehabilitation, polysomnography, education, and research. Specific specialty offerings will be based on clinical availability.
about Specialization Internship
2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
about Specialization Internship

This course provides an in-depth study of specific adult mechanical ventilators addressing traditional and proposed ventilator classification, various methods of operation, parameter interrelationships and ventilator patient monitoring. Lectures and class activities will focus on ventilator analysis of several contemporary volume-, time-, pressure- and flow-cycled ventilators with advanced graphics interpretation required.
about Advanced Ventilator Concepts
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Ventilator Concepts

RC 4316. RC Clinical Practice IV.
This course provides an advanced intensive care clinical education requiring students to monitor and administer critical care therapeutics on assigned patients in the adult and neonatal critical care setting. Cardiopulmonary diagnostic experience will be gained through arterial blood gas and co-oximetry assessment with ventilator graphic analysis.
about RC Clinical Practice IV
3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Grade Mode: Standard Letter
about RC Clinical Practice IV

RC 4317. Pulmonary Rehabilitation.
This course is designed to introduce students to the medical, ethical, and insurance reimbursement issues of pulmonary rehabilitation, homecare, and sleep diagnostic facilities. The role of therapists in case management, treatment requirements, and discharge planning along with the impact of legislation, regulations, and politics will be explored.
about Pulmonary Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Pulmonary Rehabilitation
RC 4318. Independent Study in Respiratory Care.
This course provides the student an in-depth study on a topic or healthcare problem impacting respiratory care. The course may be repeated for credit with a different emphasis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Respiratory Care

RC 4321. Leadership and Management for Respiratory Care Professionals.
This course is designed to comprehensively examine the dynamic evolution of respiratory care as a profession. The role of the respiratory care professional in the areas of leadership, management, and professional ethics will be explored with regards to the profession’s impact on legislation, regulation, and politics. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Leadership and Management for Respiratory Care Professionals

RC 4322. RC Practitioner Seminar.
Students will research and present selected case studies by students to physicians, therapists, and colleagues. Presentations will emphasize total patient management with etiology, symptoms, pathophysiology, diagnosis, and treatment of specific diseases including asthma, pulmonary embolism, CHF, COPD, ARDS, neurologic diseases, inhalational injury, pneumonia, sleep disordered breathing, AIDS, and drug overdose. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about RC Practitioner Seminar

Associate Dean
Nancy J. Grayson, Ph.D.

Associate Dean
Lucy Ditto Harney, Ph.D.

Department Chairs/Program Directors
International Studies–Dennis Dunn, Ph.D.
Diversity and Gender Studies–Audwin Anderson, Ph.D.
Study of the Southwest–J.F. de la Teja, Ph.D.
Anthropology–Elizabeth Erhart, Ph.D.
English–Daniel T. Lochman, Ph.D.
Geography–Alberto Giordano, Ph.D.
History–Mary C. Brennan, Ph.D.
Modern Languages–Robert A. Fischer, Ph.D.
Philosophy–Craig Hanks, Ph.D.
Political Science–Kenneth L. Grasso, Ph.D.
Psychology–William L. Kelemen, Ph.D.
Sociology–Chad L. Smith, Ph.D.

The College of Liberal Arts provides students with the foundation for a liberal education, preparing graduates to think independently, to choose freely, to base personal and professional decisions on a broad understanding of history and culture, and to live full, rewarding lives. Recognizing the central importance of liberal education, the university requires that more than fifty percent of the general education core curriculum be taken in the College of Liberal Arts, and students increasingly declare majors or minors in one of the college’s nine departments or special programs.

The College of Liberal Arts offers the Bachelor of Arts in each of its nine departments: Anthropology, English, Geography, History, Modern Languages, Philosophy, Political Science, Psychology, and Sociology. The Bachelor of Science is awarded in Anthropology, Psychology, Sociology, and Geography. The college also offers two special degrees: the Bachelor of Arts in International Studies (B.A.I.S.), and the Bachelor of Public
Administration (B.P.A.). The college houses eleven interdisciplinary minors: Aging and the Life Course, Diversity Studies, International Studies, Media Studies, Medieval and Renaissance Studies, Nature and Heritage Tourism, Religious Studies, Southwestern Studies, Studies in Popular Culture, Value Studies, and Women’s Studies. The college provides education not only in the traditional humanities but also in the practical application of the humanities to professional careers.

Specific Requirements of the College of Liberal Arts

The following requirements apply to all degree programs within the College of Liberal Arts. Students transferring in more than 15 hours will not be required to complete US 1100 – University Seminar. Bachelor of Arts degrees require two semesters of literature and one additional science course. Transferring in a core coded 040 course from another institution does not waive this requirement. See your academic advisor for questions related to these requirements.

Academic Advising Center

Flowers Hall Room 322
T: 512.245.1852 F: 512.245.7949
www.txstate.edu/liberalarts/advisingcenter

The College of Liberal Arts Academic Advising Center provides effective guidance to a diverse community with integrity and commitment. In a supportive and collaborative environment, we motivate our students to take an active role in achieving their educational goals. The advising center works in cooperation with each department and center to provide quality academic advising and information to majors and minors within the College of Liberal Arts. The advising center is a resource for students, as advisors offer counseling on academic and administrative issues. Students can find information on core curriculum requirements, majors and minors, semester course selection, transfer credit, academic probation and suspension, progress toward degree completion, study abroad opportunities, and career options.

As students progress toward the completion of their degree, academic advisors recommend they follow a checklist of their major and a degree audit to guide them in course selection. Our advisors are available to offer explanations of these documents and assist in the process of applying for graduation. From new student orientation to graduation, academic advisors work closely with departments and centers in the college and throughout the university to ensure that each of our students has a successful academic career.

In an effort to prepare our Liberal Arts students for a career that offers them the opportunity to use their broad range of skills and abilities, the advising center has partnered with Career Services to bring special events and programs to the students in the college. In addition to meeting the individual needs of students, Career Services and the College of Liberal Arts frequently host programs and panels for specific majors where students can network with professionals.

In Texas and throughout the United States, demand for graduates with knowledge of international business, cultural and area studies, and language skills continues to increase. The growing movement toward intercontinental and international trade blocs, such as NAFTA and the European Union, has created a need for persons who are not only skilled in business and communications technology, but also cultural understanding and international business practices. The Bachelor of Arts in International Studies (B.A.I.S.) degree offered by the Center addresses this need and prepares students for work in multinational corporations, state and federal governmental agencies with international divisions, and nonprofit corporations.

In addition to its academic programs, the Center gives its students several opportunities to develop global awareness and intercultural sensitivity during their undergraduate years, including internships and study abroad.

Academic Advising

Both pre-majors and declared majors will receive advising assistance from the College of Liberal Arts Academic Advising Center. The Center for International Studies employs a full-time academic program coordinator who provides information on graduate study, internships, and planning for study abroad. The Center works closely with the Office of Career Services to prepare students for internationally focused careers in various fields, and with the College of Liberal Arts Academic Advising Center to ensure our students’ timely graduation.

Admission and Graduation Requirements

All majors in International Studies are required to have at least a sophomore standing, successfully completed ENG 1310, ENG 1320, HIST 1310, HIST 1320, POSI 2310 and POSI 2320, or approved equivalents and a minimum 3.00 Texas State GPA to officially declare the major. Eligible students should schedule an advising appointment with the Liberal Arts Advising Center to declare the major in International Studies. For graduation, all majors are required to maintain a TxSt GPA of 3.00, a major GPA of 3.00, complete the Texas State general education core curriculum (including the additional special requirements for the Bachelor of Arts), the International Studies Core, and the International Studies major courses. Additionally, all undergraduate students pursuing the B.A.I.S. degree are required to complete a global academic experience. The requirement can be fulfilled by a study abroad course or the IS 4387, International Studies Internship, if it entails international work, service, or group research. The Center’s director and academic program coordinator will work closely with IS majors to find the best options for faculty-led or independent international study. International Studies majors are not required to complete a minor. Students must meet all course prerequisites. Please see the College of Liberal Arts, and Degrees and Programs sections of this catalog for specific information on the general education core curriculum, and special requirements for the Bachelor of Arts.

International Studies majors are required to complete the special requirements in science, modern language, and English for the Bachelor of Arts listed under the Degrees and Programs section of this catalog. For International Studies majors, the list of approved additional science courses under that section is expanded to include statistics. Approved statistics courses are:

Courses in International Studies (IS)

A senior-level seminar that explores international topics through reading, writing, research and group discussion. Students will be expected to produce a significant research paper. This course is required for all International Studies majors and should be taken in the senior year of undergraduate study.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

Grade Mode: Standard Letter
about International Studies Seminar

IS 4387. International Studies Internship.
A semester-long work and study experience in a local, national, or foreign setting. Internships must be approved by the director of the Center for International Studies. May be repeated for credit.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter
about International Studies Internship

IS 4687. International Studies Internship.
A semester long work and study experience in a local, national, or foreign setting. Internships must be approved by the director of the Center for International Studies. Open to International Studies majors and minors with 60 or more undergraduate hours and a minimum Texas State GPA of 3.00. Repeatable once for credit.

6 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content

Grade Mode: Standard Letter
about International Studies Internship

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (Asian Studies Focus)

Minimum required: 120 semester hours

General Requirements
1. Choose 9 courses (27 hours) from the list of prescribed electives for the Asian Studies focus. No more than 3 courses (9 hours) can be taken from a single discipline
2. All students are required to complete a global academic experience that can be fulfilled by a study abroad course or the IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (Interamerican Studies Focus)

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (Middle East/African Studies Focus)

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (Russian/East European Studies Focus)

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (Travel and Tourism Focus)

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies-International Relations

Minor
- International Studies (p. 389)
Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (European Studies Focus)

Minimum required: 120 semester hours

**General Requirements**

1. Choose 9 courses (27 hours) from the list of prescribed electives for the European Studies focus. No more than 3 courses (9 hours) can be taken from a single discipline.
2. All students are required to complete a global academic experience that can be fulfilled by a study abroad course or the IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies (Travel and Tourism Focus)

Minimum required: 120 semester hours

General Requirements

1. Required courses:
   - ACC 2301 Accounting in Organizations and Society 3
   - GEO 3340 Political Geography 3
   - 6 hours advanced European or World HIST electives (one course before 1700, and one course after 1700; see Department of History Group A and B courses)
   - MGT 3303 Management of Organizations 3
   - MKT 3343 Principles of Marketing 3
   - IS 4687 International Studies Internship 3

2. Choose 2 additional courses (6 hours) from the list of prescribed electives for the Travel and Tourism focus.

3. It is strongly recommended that students also complete ENG 2330 and ENG 2340 to satisfy the general education core and additional B.A. sophomore ENG Literature requirements.

4. All students are required to complete a global academic experience that can be fulfilled by a study abroad course or an independent study/research course if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

Bachelor of Arts in International Studies (B.A.I.S.) Major in International Studies-International Relations

Minimum required: 120 semester hours

### General Requirements

1. **Required Courses:**

   - ECO 3317 International Economics 3
   - GEO 3340 Political Geography 3
   - HIST 3357 History of U.S. Foreign Relations 3
   - POSI 4356 International Law 3
   - POSI 4359 Politics of International Economic Relations 3

   Select two of the following: 6
   - COMM 3318K Diversity and Communication
   - COMM 3329 Intercultural Communication
   - GEO 3353 Comparative Economic Systems
   - HIST 3339 International Relations
   - PHIL 3322 Professional Ethics
   - POSI 4326 Issues in World Politics
   - POSI 4327 Theories of International Politics
   - POSI 4345 American Foreign Policy
   - POSI 4357 International Organization
   - POSI 4367 International Conflict and Security
   - PSY 4393 International Psychology
   - SOCI 3328 Complex Organizations
   - SOWK 3339 Selected Topics in Social Work (when emphasis is international)

   Select one of the following: 3
   - HIST 3312 Renaissance and Reformation
   - HIST 3313 Europe During the Old Regime, 1600-1760
   - HIST 3322 Colonial History of Latin America to 1828
   - HIST 4307 Medieval European History, 300-1400
   - HIST 4317 Tudor-Stuart England, 1485-1689
   - HIST 4320 Origins of Christianity
   - HIST 4325 Islamic History to 1798
   - HIST 4333 The History of Russia and Eurasia to 1917

   Select one of the following: 3
   - HIST 3311 History of Europe Since 1919
   - HIST 3314 Revolutionary Europe, 1760-1815
   - HIST 3324 Latin America from Independence to Present
   - HIST 4326 The Modern Middle East
   - HIST 4334 The History of Russia and Eurasia from 1917 to Present
   - HIST 4336 Germany from 1815 to Present

---

1. The 3 hour advanced language course requirement must be completed from the same language that was completed for the additional B.A. requirements (2310 and 2320).

2. Students are required to select courses from a list of prescribed (preapproved) electives specific to each International Studies Focus. For a complete list of course options that will satisfy the International Studies - Travel and Tourism focus, please visit the Center for International Studies website at [www.txstate.edu/internationalstudies](http://www.txstate.edu/internationalstudies).
HIST 4343 Modern China, 1600-Present
HIST 4344 Modern Japan, 1600-Present
HIST 4350B Origins of the Modern Global Economic System
HIST 4373 Economic and Social History of the Americas

2. All students are required to complete a global academic experience that can be fulfilled by a study abroad course or the IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

Total Hours: 120

1. The 3 hour advanced language course requirement must be completed from the same language that was completed for the additional B.A. requirements (2310 and 2320).

2. Students are required to select courses from a list of prescribed (preapproved) electives specific to each International Studies Focus. For a complete list of course options that will satisfy the International Studies Focus, please visit the Center for International Studies website at www.txstate.edu/internationalstudies (http://www.txstate.edu/internationalstudies).

Certificate in Interamerican Studies

The Certificate in Interamerican Studies is an innovative program that seeks to educate leaders who are knowledgeable about society, history, culture, languages, government, and business between the United States, Canada, and Mexico in order to improve their ability to be successful in a number of major fields that deal with these countries including trade, conflict, resolution, cultural exchanges, hemispheric security, environmental and health threats, agriculture, access to water, Cuba, immigration and migration, drug trafficking, human rights, democratic institutions, media, public opinion, and labor. It also aims to familiarize students with the tri-lingual and tri-cultural nature of the United States, Canada, and Mexico with the aim of improving their ability to manage or work for firms or government agencies that deal with these countries.

Enrollment is open to all degree seeking and post-baccalaureate students who satisfy individual course prerequisites and who are in good academic standing at Texas State.

The certificate requires 18 hours that may be accommodated within the hours required in the undergraduate curriculum for most majors. Six courses will be selected from the list of approved electives. For the complete list of course options that will satisfy the Interamerican Studies Certificate, please visit the Center for International Studies website at www.txstate.edu/internationalstudies (http://www.txstate.edu/internationalstudies).

Certificate in Southeast Asian Studies

The Certificate in Southeast Asian Studies is an undergraduate program of study that concentrates on Southeast Asia and offers students a credential to show that they have an academic specialization on the ASEAN Bloc. Enrollment is open to all degree seeking and post-baccalaureate students who satisfy individual prerequisites and who are in good academic standing at Texas State.

The Certificate requires 18 semester credit hours that may be accommodated within the hours required in the undergraduate curriculum for most majors. Six courses will be selected from the list of approved electives. For the complete list of course options that will satisfy the Southeast Asian Studies Certificate, please visit the Center for International Studies website at www.txstate.edu/internationalstudies (http://www.txstate.edu/internationalstudies).

Minor in International Studies

The minor requires 21 semester hours, which includes:

| GEO 1310 | World Geography | 3 |
| GEO 3303 | Economic Geography | 3 |
| POSI 3322 | Introduction to International Studies | 3 |
| Select one of the following: | 3 |
| ECO 3317 | International Economics | |
| POSI 4326 | Issues in World Politics | |
Center for Diversity and Gender Studies

Undergraduate Academic Center Room 478
T: 512.245.2361 F: 512.245.1414
www.mdgs.txstate.edu (http://www.mdgs.txstate.edu)

The Center for Diversity and Gender Studies in the College of Liberal Arts administers both the Diversity Studies minor at the undergraduate level and the Women's Studies minor at the undergraduate and graduate levels. The Center helps prepare students to work and live in a pluralistic society through curricular and co-curricular activities — symposia, workshops, exhibits, theater productions, diversity reading discussions, and research projects. In addition, it assists faculty with resources and professional development activities to encourage the infusion of multiculturalism in the curriculum through a Multicultural Curriculum Transformation and Research Institute. It houses a resource area with more than 300 books, articles, and syllabi. The Center sponsors a Women and Gender Research Collaborative with its own online professional peer reviewed Journal of Research on Women and Gender. Through private donations, Diversity and Gender Studies offers annual scholarships to students. The director of the Center works in collaboration with an advisory council of faculty and staff representing several Texas State colleges and departments.

Key issues for prospective minors to consider:

• Tomorrow's graduates will be entering a work force dominated by technological, service, and communication industries with an increasingly diverse workplace and clientele.
• Employer demand is increasing for diversity knowledge and skills among today's college students.
• In 2010, the Hispanic, Asian and African American population in Texas grew to approximately 53%—or the majority in the state.
• Well-rounded graduates have included in their liberal arts education a greater-knowledge of their cultural history and traditions.

Minors

• Diversity Studies (p. 391)
• Women's Studies (p. 392)

Subjects in this center include: DVST (p. 390), WS (p. 390)

Courses in Diversity Studies (DVST)

DVST 3301. Introduction to Diversity Studies.
The course is a general, multi-disciplinary and comparative survey of U.S diversity issues. It highlights the traditional minorities, such as African, Latino/a American, Native, and Asian Americas, as well as European American ethnic groups. It also explores issues related to religion, age, sexual orientation, gender identity, and physical ability/disability.

Grade Mode: Standard Letter

DVST 3320. Introduction to Global Diversity Issues.
This course provides an understanding of relationship between U.S and other nations in terms of economics, politics, and culture. Students will examine how colonialism shaped developed and underdeveloped nations, investigate grassroots activism in response to globalization and will examine how policies formulation by one country has consequences for other countries.

Grade Mode: Standard Letter

Courses in Women's Studies (WS)

WS 3376. Images of Women.
This course, one of two multidisciplinary team-taught women's studies courses, is a survey of the changing images of women in the U.S. since 1800 through the eyes of historians, writers, artists, orators, the media, and educators.

Grade Mode: Standard Letter

WS 3377. Realities of Women.
This course, one of two multidisciplinary team-taught women's studies courses, is the study of realities faced by women in the U.S. today— including biological and psychological differences in males and females, politics and the law, the work force, and the home. Gender roles in societies outside the U.S. will also be examined.

Grade Mode: Standard Letter
**WS 4388. Independent Research in Women’s Studies.**
Independent study course open to advanced students on an individual or small group basis. The research area in Women’s Studies, bibliography, and study paper outline are to be approved by the instructor.

*About Independent Research in Women’s Studies*

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

*Minor in Diversity Studies*

The 18-hour minor provides for an interdisciplinary approach to Diversity Studies. It also provides conceptual frameworks for exploring new perspectives which recover the history and creative expressions previously excluded by the traditional approaches to higher education. The minor fosters students development of self, voice, and moral vision to prepare students to live and work effectively in a pluralistic society. Although not required, the minor currently offers students the option of a concentration in a special topics area. The special topics include: African American, American Indian or Latino American Studies, Latinos and the Media. Students may also explore issues related to religion, age, sexual orientation, and physical ability and disability. Using the courses available students may design a special focus based on their interest or career path.

The required core course, (3 hours) DVST 3301 offers a general, multidisciplinary and comparative survey.

The general requirement block (9 hours): This area is meant for courses that focus specially on issues related to American ethnic groups and their country of origin, women and gender issues, sexual orientation, religion, age, and ability/disability issues.

The general concepts electives block (6 hours) deals more broadly with concepts of diversity. These courses provide a theoretical framework for understanding comparative, interdisciplinary approaches to the study of diversity. Related diversity topics may be substituted here also.

**Required Course**

DVST 3301 Introduction to Diversity Studies 3

**General Requirement Block**

Minor in Women’s Studies

The 18-hour minor offers an interdisciplinary program that concentrates on the images and realities of women. Drawing on recent scholarship on women and gender, the Women’s Studies minor provides a flexible, coherent program that enables students to consider the significance of gender.

On a personal level, courses in this program enhance the human potential of both men and women, because knowledge about how societies construct gender relations can encourage students to examine their own attitudes and behavior. On an academic level, a minor in Women’s Studies provides study of the ongoing scholarship about women and gender and offers students the opportunity for exciting intellectual growth. On a professional level, the minor provides a valuable specialty to prepare students for opportunities in a variety of fields, including business, counseling, education, government, health and medicine, human resources, law, politics, psychology, social work, and graduate studies. The Women’s Studies minor helps students recognize their opportunities in a rapidly changing society and flexibly complements any major.

The two required core courses (6 hours) are WS 3376 and WS 3377. They examine the images of women that are prevalent in Western culture (with examples being drawn from films, literature, visual arts, and popular music) as well as those topics and issues related to the realities of women’s lives.

Center for the Study of the Southwest

Brazos Hall Room 212
T: 512.245.2224 F: 512.245.7462
www.txstate.edu/cssw

The Center for the Study of the Southwest in the College of Liberal Arts, established in February 1990, has a threefold mission: curriculum development, public outreach, and research. Its 18-hour interdisciplinary minor, administered jointly with the Department of English, was approved in 1992. The Center draws faculty from varied disciplines (Art, Biology, English, Geography, History, and others), it disseminates information about its programs and research through Southwestern American Literature, a biannual journal devoted to the literature and culture of the Greater Southwest, and Texas Books in Review, a biannual that monitors publications from or about Texas.

The Center for the Study of the Southwest, funded in part by grants from the National Endowment for the Humanities, promotes the exchange of knowledge about regional humanities issues among individuals, communities, and institutions across the four-state region of Texas, New Mexico, Arizona, and Nevada. The Center encourages students, teachers, and the general public to understand the power of place to build identity, honor diversity, strengthen community, and celebrate the human spirit.

Courses in Anthropology (ANTH)

ANTH 1312. Cultural Anthropology.
In this course students examine the nature of cultural variation of populations in the present and recent past. Its subjects include social, political, economic, and ideological aspects of human cultures.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core
Grade Mode: Standard Letter
TCCN: ANTH 2351

ANTH 2414. Biological Anthropology.
This lecture and accompanying laboratory course examine fundamental aspects of the biological nature of humans using evolutionary theory. Course content is divided into topics devoted to the process of evolution, genetics, the primate order, osteology, human evolution, and variability and adaptation.

about Biological Anthropology

4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: ANTH 2401

ANTH 2415. Introduction to Archaeology.
This course covers the basic principles of archaeology. It includes a study of the kinds of sites; classification of stone artifacts; methods of archaeological survey and excavation; methods of dating by geological, faunal, and radiometric means; and the theoretical approach to archaeology. This course includes a two-hour weekly laboratory.

about Introduction to Archaeology

4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Introduction to Archaeology

ANTH 3301. Principles of Cultural Anthropology.
This course is an ethnographically-based analysis of major theoretical positions and debates in contemporary anthropology. Prerequisites: ANTH 1312 and 60 hours of coursework. (WI).

about Principles of Cultural Anthropology

4 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Principles of Cultural Anthropology

Department of Anthropology

Evans Liberal Arts Building Room 266
T: 512.245.8272 F: 512.245.8076
www.txstate.edu/anthropology (http://www.txstate.edu/anthropology)

Anthropology is the study of human cultural and biological variation and evolution. It is a holistic discipline taking into consideration all aspects of human existence. Anthropology is divided into four major sub-fields: cultural anthropology, biological anthropology, archaeology, and linguistic anthropology. The anthropology program at Texas State offers coursework and training in each of these areas. Graduates enter a wide range of professions including foreign affairs, journalism, education, medicine and medical research, health professions, human resources, academia, criminal justice, museum science, international business, and contract archaeology.

Anthropology majors may choose from two degree plans. The Bachelor of Arts (B.A.) degree in Anthropology is designed to prepare students for professional careers or graduate study. An understanding of the world’s cultural and biological diversity is especially valuable in today’s global economy. The Bachelor of Science (B.S.) degree in Anthropology is specifically designed to expand the science training of students and prepare them for professional careers or graduate study. Students pursuing either degree have the opportunity to participate in departmental field schools, archaeological excavations, and/or an internship program to support their education and career goals.
ANTH 3302. Introduction to Linguistic Anthropology.
This course provides an introduction to the study of linguistic anthropology. We will focus on the origin of language and its evolution and diversity, the interactions between language, culture and society, and modes of communication. This course will enhance a student’s awareness of the complex interrelationships between language and other aspects of culture. (MC).
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Introduction to Linguistic Anthropology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3303. Applied Cultural Anthropology.
In this course students will learn the methods applied cultural anthropologists use to address social problems such as poverty, sustainable development, conflict, climate change, community health, workplace and product design, education, and cultural heritage, as well as the value “thinking anthropologically” has for a wide range of careers.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Applied Cultural Anthropology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3305. Magic, Ritual and Religion.
An examination of magic and religion in cultures of the world with an emphasis on recent works dealing with mysticism and the occult. (MC).
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Magic, Ritual and Religion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3306. World Prehistory.
This course presents a survey of the prehistoric human record throughout the world. It focuses upon the achievements of early and modern humans, world colonization events, and the development of complex societies.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about World Prehistory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3307. History of Evolutionary Thought.
This course discusses the impact of evolutionary discourse within the context of its history. Students will develop a thorough understanding of the evolution and its importance to anthropology, as well as to other scientific disciplines. Prerequisites: ANTH 2414 and 60 hours of coursework. (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about History of Evolutionary Thought
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course surveys Cultural Resource Management (CRM) archaeology, the conservation and investigation of archaeological remains as mandated by federal and state laws. The course covers the history of CRM and its legal and regulatory framework, organization, methods, funding, employment prospects, and ethical and practical dilemmas. Prerequisite: ANTH 2415.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Cultural Resource Management and Archaeology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3309. Cultures Through Film.
Through films, lectures, and discussions, students explore the various ways that ethnographic film interprets the cultural environment and social interactions of small-scale cultures around the world. We will also discuss anthropological interpretations of how historically U.S. (American) culture has dealt with concepts of the “other” and supernatural phenomena through film. (MC).
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Cultures Through Film
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3311. Disease and Society.
In this course students examine infectious diseases and the effect they have on human societies. The course is organized into case studies of specific infectious diseases, which focus on the biology and epidemiology of a disease as well its social impact.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Disease and Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3313. Aztec: Native Americans and Empire.
This course presents an understanding of Aztec culture through archaeology, the interpretation of art, religion, and architecture, and the formation of a highly specialized and stratified society with an imperial administration. The course will emphasize an intellectual and religious outlook in intimate contact with the earth, sky, and the seasons.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Aztec: Native Americans and Empire
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 3314. Latin American Cultures.
An examination of Latin American cultures with an emphasis on pre-Columbian and contemporary indigenous peoples of Mexico. (MC).
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Latin American Cultures
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ANTH 3315. Archaeology of the Southwest.
An examination of the prehistory and early cultures of the Greater Southwest from the first arrival of humans as early as 20,000 years ago to the coming of the Spaniards in the 16th century. The course covers several mammoth kill sites at the end of the Pleistocene; the emergence of Archaic hunters and gatherers and the appearance of agriculture about two thousand years ago, leading to the three major cultures in the southwest — the Mogollon, the Hohokam and the Anasazi, the last in about two thousand years. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  0 Lab Contact Hours.  Grade Mode: Standard Letter about Archaeology of the Southwest
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Archaeology of the Southwest

ANTH 3316. The Origin and Evolution of Human Behavior.
This course presents our current understanding of Old World Paleolithic Archaeology. The origin and evolution of hominid behavior, the initial colonization of the Old World, and the development of modern human behavior will be discussed for each continent. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about The Origin and Evolution of Human Behavior

ANTH 3317. Rock Art Field Methods.
This course will train students in rock art field methods. They will gain first-hand experience recording rock art sites through photography, field sketches, mapping, and written inventories. Students will generate a visual and written description of the art, which they will use to infer and explain past human behavior.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Rock Art Field Methods

ANTH 3318. Texas Archaeology.
This course will present our current understanding of Texas archaeology. The environmental and social contexts of prehistoric, protohistoric, and historic records of Native American and Spanish occupations in Texas are discussed. Prerequisite: ANTH 2415. (MC) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Texas Archaeology

ANTH 3319. Human Growth and Development.
In this course students focus on the life history of humans from birth to death, and consider how humans grow and change both biologically and psychologically over the course of their lives. Topics include life stages, sex differences, nutrition, environment, growth disorders, and the evolution of human growth.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Growth and Development

ANTH 3320. Peoples and Cultures of Africa.
This course is a general introduction to the contemporary peoples and cultures of Africa. Students will examine the social structure, economy, political systems, and religions of African cultures in the context of the radical economic and social transformations affecting the area. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Peoples and Cultures of Africa

ANTH 3321. Mexican American Culture.
An examination of the history and culture of Mexican Americans with an emphasis on the analytical concepts of culture, race, class, and gender. Lectures, films, and selected readings (including chapters from anthropological and literary books and journals) will be used to portray the diversity of Mexican American experiences in this country. Topics include religion, politics, economy, identity politics, popular culture, sexuality, marriage and the family. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mexican American Culture

ANTH 3322. Maya History and Society.
The purpose of this course is to develop a knowledge of Maya Civilization from historical as well as anthropological perspectives. Students will study the features of the Classic Period Maya and modern Maya societies including the religious and economic life styles. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Maya History and Society

ANTH 3323. Anthropology of Religion and Fundamentalism.
This course provides students with current and historical approaches to the anthropology of religion with a particular emphasis on fundamentalism. It focuses on the development of religious fundamentalism in different cultural contexts, geopolitical situations, and religious traditions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Anthropology of Religion and Fundamentalism
ANTH 3328. Primate Cognition.
In this course students investigate historical and current views regarding the cognitive capacities of nonhuman primates, and the extent to which these abilities are shared with humans. Topics include social cognition, numerical cognition, problem solving, tool use, culture, communication, theory of mind, deception, selfrecognition, and imitation. (WI).

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3329. Comparative Juvenile Behavior.
This course will give students a thorough understanding of the comparative method through examples from the development of juvenile animals. It will introduce students to socioecology, neurobiology, and life history markers, with information that they can apply across disciplines. (WI).

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3332. Myths and Moundbuilders.
This course presents an anthropological approach to Native Americans of the Southeastern United States, their culture and beliefs. (MC).

Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course will examine the prehistoric development of native, North American culture with special emphasis on art, religion, and the cultural mechanisms through which native Americans deal with non-native American contemporary social and political developments. Prerequisite: ANTH 1312. (MC).

Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3335. The Anthropology of Native American Belief Systems.
In this course students use anthropological approaches to investigate past and present Native American belief systems in order to determine the temporal range and evolving complexity of Native American religious and ritual expression.

Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3336. Community Research Project.
This course gives students the opportunity to conduct hands-on anthropological research on a variety of topics in local or other communities. Students will undertake individualized research projects designed in conjunction with the professor. Students must consult with the professor prior to enrollment to design the research project and receive approval.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3338. Geoarchaeology.
This course will teach students how to interpret sediments and the nature of sediment accumulation at archeological sites. Course topics include sedimentology, natural depositional environments, weathering processes and soil development, stratigraphic analysis, and archaeological site formation processes. (WI).

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

An examination of the long and diverse record of human and nonhuman biological adaptations as viewed from the fossil record. It examines the functional and ecological challenges that may have been responsible for the path of human development.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3342. Primate Behavior.
This course examines a wide variety of aspects of ecology, identification, and behavior among the living primates (prosimians, monkeys, apes, and humans). Topics which are emphasized include general primate trends, social structure and composition, communication, aggression and dominance, socialization, and primate psychology.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3343. Human Variation and Adaptation.
This course examines the physical variation observable within and between human populations. It emphasizes a functional approach whereby variation is examined in relation to biological adaptation. It explores the biological mechanisms responsible for change and evaluates the potential of biological components in human behavior.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ANTH 3345. Archaeology of Mexico.
This course examines the development of culture from early hunters and gatherers through the appearance of agriculture to the rise of civilization. The focus of the course is on the emergence of complex society among groups such as the Olmec, Aztec, and Maya. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Archaeology of Mexico

ANTH 3347. Archaeology of North America.
This course describes human settlement of North America from the end of the Pleistocene to European discovery. It considers early occupation of arctic, plains, and forested regions and development during archaic times of Adena, Hopewell, and Mississippian societies in the Southeast and Mogollon, Hohokam, and Anasazi in the Southwest. Prerequisite: ANTH 2415.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Archaeology of North America

In this course students will learn about the ecology and conservation of rainforest flora and fauna by participating in fieldwork in the rainforests of Mexico. Prior introductory biological anthropology, animal behavior, botany, or biology courses are helpful but are not required to register for this course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Rainforest Ecology

ANTH 3349. The Incas.
The Incas were the largest Pre-Columbian empire in the Americas and this course will explore the origins of this civilization and how they conquered such a large area of South America. Using archaeological and historic information the class will examine various aspects of Inca society including religion, economics, and kingship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Incas

ANTH 3350. Gender and Sexuality in Cross-cultural Perspective.
This course examines historical and contemporary issues related to gender and sexuality from a global, cross-cultural perspective. It will focus on cultural constructions of gender and sexuality, including gender stratifications, biology and evolution, families and kinship, work, sex work, diverse sexualities, media representations, and domestic and sexual violence. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Gender and Sexuality in Cross-cultural Perspective

ANTH 3354. Latin American Gender and Sexuality.
This course examines cultural constructions of gender and sexuality among both the indigenous and immigrant populations throughout the Americas, with a special emphasis on gender inequalities in Greater Latin America. (MC).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Latin American Gender and Sexuality

ANTH 3355. Introduction to Yucatec/Lacandon Maya.
This course introduces students to the fundamentals of the language of the Maya Indians of southern Mexico through lecture and "hands-on" class exercises with native Maya speakers.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Yucatec/Lacandon Maya

ANTH 3356. Archaeology of Andean Civilizations.
This course examines the cultures of the Andes Region of South America with an emphasis on pre-Columbian and contemporary peoples of the area.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Archaeology of Andean Civilizations

ANTH 3360. Economic Anthropology.
Reviews central issues in economic anthropology, using both case studies and theoretical writings. Analyzes production, exchange, distribution, consumption, property, economic surplus, inheritance, and types of economic structure. Materials will cover hunter-gatherer societies, simple agricultural societies, pre-capitalist complex state societies, and issues of development in nonindustrialized counties.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Economic Anthropology

ANTH 3361. Archaeological Field Methodology.
In this course students will learn about planning, organizing, and carrying out archaeological field investigations from survey to excavation to specialized data recovery. The focus is on the research strategies, techniques and logistics necessary to design and accomplish successful field research. Prerequisite ANTH 2415. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Archaeological Field Methodology
ANTH 3363. The Art and Archaeology of the Olmec.
This course will present our current understanding of the art and archaeology of the Olmec culture, the earliest known civilization in North America. The Olmec culture is considered the influential foundation for later Mesoamerican civilizations such as the Maya and the Aztec.

Grade Mode: Standard Letter
about The Art and Archaeology of the Olmec

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about The Art and Archaeology of the Olmec

ANTH 3364. Biological Basis of Human Behavior.
Students in this course evaluate studies on the biological basis of human behavior and explore the question of whether behavioral patterns are genetically fixed. It includes popular and scientific approaches to themes such as the evolution of human behavior, biology and behavior, race and racism, biological determinism, and human universals.

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biological Basis of Human Behavior

ANTH 3364A. Mixtec Codices: Prehispanic Literature of Oaxaca.
This course surveys the dominant prehispanic cultures of Oaxaca, the Zapotec and Mixtec Indians, and focuses on the Mixtec pictogram fanfold books called codices. (WI).

Grade Mode: Standard Letter
about Mixtec Codices: Prehispanic Literature of Oaxaca

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
about Mixtec Codices: Prehispanic Literature of Oaxaca

ANTH 3366N. Curation of Archaeological Materials.
This course provides students with the skills to prepare archaeological materials for curation, which includes the processes and techniques used to stabilize and preserve organic and inorganic materials. This training can be used to gain certification in the field of archaeological curation. Prerequisite: 2415.

Grade Mode: Standard Letter
about Curation of Archaeological Materials

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Curation of Archaeological Materials

ANTH 3366P. Archaeology of the Earliest Americans.
This course focuses on the long-standing and controversial issues of when, how, and who first peopled the Americas. This is a significant aspect of human prehistory and remains unresolved. Students will use archaeological, biological, linguistic, and environmental evidence to help identify the first inhabitants of the New World.

Grade Mode: Standard Letter
about Archaeology of the Earliest Americans

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
about Archaeology of the Earliest Americans

ANTH 3367Q. Field Methods in Forensic Anthropology.
In this course students will learn how to locate, excavate and recover human remains, associated personal effects, and other materials in order to ensure legal credibility for all recoveries. Prerequisite: ANTH 4382.

Grade Mode:
3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Field Methods in Forensic Anthropology

ANTH 3367R. Theoretical Concepts in Archaeology.
This course provides a broad survey of theory in archaeology as it is practiced throughout the world. It includes both historical perspectives and contemporary usage. ANTH 2415 and 60 hours of coursework. (WI).

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
about Theoretical Concepts in Archaeology

ANTH 3367S. Theory in Linguistic Anthropology.
In this course students will learn about the major theories of linguistic anthropology through reading and discussing classic and contemporary literature. Topics include language evolution, behaviorism, mentalism, structuralism, cognitive anthropology, ethnosemantics, universalism and linguistic relativism, symbolic anthropology, culture and gender, language and identity, ethnography of speaking, and language change. Prerequisites: ANTH 1312 or ANTH 3302 and 60 hours of coursework. (WI).

Grade Mode:
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Theory in Linguistic Anthropology

Underwater resource management requires certain skills for those who manage, investigate, or monitor cultural, biological, or other resources found in water. This course is intended to prepare and qualify certified divers for further research and employment opportunities in underwater resource management, which includes archaeology, environmental/ecological anthropology, and other related fields. Prerequisites: Current scuba diving certification from any nationally accredited dive certification agency and an advanced scuba diving certification is recommended. Students must also complete standard liability and waiver forms, as well as complete a diving physical prior to any water work.

Grade Mode:
3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Scientific Diving for Resource Management
ANTH 3376V. Anthropology of Peace and Violence.
The class explores anthropological perspectives on peace and violence. It focuses on understanding violent practices within both traditional and current day societies including everyday violence and warfare. It explores the contributions of social structure, gender, religion, race, and ethnicity to violence. It examines efforts to build peace and reconciliation. 
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Anthropology of Peace and Violence

ANTH 3376W. Anthropology of Disasters.
The course examines "disasters" as socio-cultural phenomena shaped by how humans organize and build communities. It investigates how race, ethnicity, class, gender, age, and dis/ability contribute to differential impacts. It explores human experiences of disaster trauma, loss, and resilience. It shows how the discipline can help improve disaster management policies. (WI)
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Anthropology of Disasters

ANTH 3376X. Language and Linguistics.
This course is concerned with the theoretical and methodological study of language, what constitutes the knowledge of a language, how this language is acquired, and how it is used. Other areas of interest include the properties of human language, its representation in the mind, learnability, origin, and change.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language and Linguistics

ANTH 3380. Forensic Anthropology.
Forensic Anthropology is the recovery and analysis of human skeletal remains for modern legal inquiry. This course is an overview of the field of Forensic Anthropology illustrated with real forensic cases.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Forensic Anthropology

ANTH 3381. Human Osteology.
The foundation of biological anthropology is the study of the human skeleton. This is a lab-intensive course in which students will learn how to identify skeletal elements, both whole and fragmentary.
Course Attribute(s): 3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Osteology

ANTH 4303. Human Speech Sounds.
This course is an introductory overview of human speech production and perception from an anthropological perspective. It describes speech anatomy and pays particular attention to the description of the acoustic and articulatory properties of speech as it occurs in real time. Students will study articulatory, acoustic, and auditory phonetics.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Speech Sounds

ANTH 4304. Language, Culture and Society.
This course seeks to introduce students to the fundamentals of linguistic anthropology, and the use of linguistics in anthropological fieldwork through lecture, discussion, and "hands on" class exercises.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language, Culture and Society

ANTH 4309. Culture, Medicine and the Body.
This course explores how the human body, functions of the body, and the practices of medicine and healing are situated and contextualized within cultural frameworks. Case studies cover body and health-related topics over the life course, from birth to death. Prerequisite: ANTH 1312 or ANTH 3325, or permission of the instructor. (WI)
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Culture, Medicine and the Body

ANTH 4310. Theories and Issues in Anthropology.
This course explores major theoretical and historical developments in anthropology, highlighting the discipline's unique four-field perspective that includes archaeology, biological and cultural anthropology, and anthropological linguistics. Topics stress the importance of anthropological thought in key scientific discoveries and cultural debates. Prerequisites: ANTH 1312 and 60 hours of coursework.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Theories and Issues in Anthropology

ANTH 4315. Archaeological Artifact Identification and Analysis.
This course will train students to describe and analyze artifacts commonly recovered from archaeological sites. Current theories covering the production and analysis of chipped and ground stone tools, ceramics, bone and other materials will be presented, and scientific analytical methods discussed. Prerequisites: ANTH 2415 and one additional archaeology course.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Archaeological Artifact Identification and Analysis
ANTH 4320. Rise of Civilization.
This course consists of a definition of civilization and its components, its geographic setting, and the roles of religion, art, and the institution of the "Divine King" in the development of dynamic state societies in Egypt, Sumeria, the Indus Valley, and China in the Old World and that of the Olmec in Mexico and Chavin in Peru. (MC) (WI).
about Rise of Civilization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4360. Directed Study.
A one-semester course of independent reading, tutorial sessions, and individual research projects. Open to superior students by invitation of the professor and with the consent of the chair of the department. May be repeated for credit with permission of instructor.
about Directed Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 4361. Field Methods in Cultural Anthropology.
This course teaches students how to conduct field research in cultural anthropology. Topics include research ethics, problem formulation, participant observation, interviewing, and other techniques for data collection and analysis. Students will conduct their own field research project under the instructor's supervision. (WI).
about Field Methods in Cultural Anthropology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4363. Field Methods in Primate Behavior.
In this course, students will learn about the behavior, ecology, and conservation of living nonhuman primates in the rainforests of Mexico. Prior introductory physical anthropology or biology courses are helpful but not required to register for this course.
about Field Methods in Primate Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4381. Paleopathology.
This course focuses on the study of diseases and maladies of ancient populations, and will survey the range of pathology on human skeletons from trauma, infection, syphilis, tuberculosis, leprosy, anemia, metabolic disturbances, arthritis, and tumors. Prerequisite: ANTH 3381. (WI).
about Paleopathology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course is for students who wish to advance their osteological skills. Students will learn how to identify isolated and fragmentary skeletal remains to estimate age, sex, ancestry, stature, and health of an individual in past and present contexts. Prerequisite: ANTH 3381.
about Methods in Skeletal Biology
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4390. Internship in Anthropology.
This course provides students with professional development through work or research-related experience. It includes a 250-hour internship and written report. Prerequisites: Anthropology major, junior or senior standing, ANTH 1312, ANTH 2414, ANTH 2415, and a minimum 2.5 GPA in Anthropology. (WI).
about Internship in Anthropology
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4630. Archaeological Field School.
This course is designed to train students in the skills and techniques of modern archaeological survey and excavation of prehistoric sites. May be repeated for credit, but only six hours may be applied toward the major.
about Archaeological Field School
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Lab Required
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Anthropology

Minimum required: 120 semester hours

General Requirements
1. A major in anthropology requires 32 semester hours of which 18 hours must be advanced courses.
2. Majors must select a minor from the approved list of minors in the degrees and programs section of this catalog.
3. Majors are required to complete:
   ANTH 1312  Cultural Anthropology 3
   ANTH 2414  Biological Anthropology 4
   ANTH 2415  Introduction to Archaeology 4
   Select one of the following theory-based courses: 3
   ANTH 3301  Principles of Cultural Anthropology
   ANTH 3307  History of Evolutionary Thought
   ANTH 3376R Theoretical Concepts in Archaeology
   ANTH 3376S Theory in Linguistic Anthropology
   ANTH 4310  Theories and Issues in Anthropology
4. Majors are required to achieve the following minimum grade point averages for graduation: Texas State GPA 2.00, major GPA 2.25, and minor GPA 2.00.
5. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).
6. All students must complete a minimum of 36 advanced hours (3000 or 4000 level courses) as part of their degree.
7. The Social and Behavioral Sciences component of the general education core curriculum cannot be satisfied by the completion of ANTH 1312; majors must select an additional social science course from:
   ECO 2301  Principles of Economics 3
   ECO 2314  Principles of Microeconomics 3
   GEO 1310  World Geography 3
   PSY 1300  Introduction to Psychology 3
   SOCI 1310  Introduction to Sociology 3
8. Majors must complete 6 hours of the same foreign language (2310 and 2320). Most students complete 1410 and 1420 as prerequisites before attempting 2310.
9. Majors may not receive more than six hours of credit in ANTH 4630 to satisfy Anthropology major requirements.
10. The minimum number of hours required for a degree is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the 120 and/or 36 advanced total hours required for a degree.

Bachelor of Science (B.S.) Major in Anthropology

**Minimum required: 120 semester hours**

### General Requirements

1. A major in anthropology consists of 35 semester hours, 18 of which must be at the advanced level.
2. Majors must select a minor from the following list of lab-based science minors: biology, chemistry, physics, geology, geography, computer science, or mathematics.
3. Majors are required to complete:
   - ANTH 1312 Cultural Anthropology
   - ANTH 2414 Biological Anthropology
   - ANTH 2415 Introduction to Archaeology

**Total Hours: 120**

1. Students who complete a four-hour biological anthropology and/or archeology course at another institution may have course(s) evaluated by the Chair of the Department to determine credit for ANTH 2414 and/or ANTH 2415 can be assigned.

2. Majors must complete an additional science for the B.A. degree. This course is in addition to the general education core curriculum Life and Physical Sciences component.

### Bachelor of Science (B.S.) Major in Anthropology

1. Majors must complete 6 hours of Anthropology techniques courses to be selected from:
   - ANTH 3317 Rock Art Field Methods
   - ANTH 3376N Curation of Archaeological Materials
   - ANTH 3376Q Field Methods in Forensic Anthropology
   - ANTH 4361 Field Methods in Cultural Anthropology
   - ANTH 4363 Field Methods in Primate Behavior
   - ANTH 4382 Methods in Skeletal Biology
   - ANTH 4630 Archaeological Field School

2. Majors may not receive more than six hours of credit for ANTH 4630 to satisfy Anthropology major requirements.

3. Majors are required to achieve the following minimum grade point averages for graduation: Texas State GPA 2.00, major GPA 2.50, and minor GPA 2.00.

4. The social and behavioral sciences component of the general education core curriculum cannot be satisfied by the completion of ANTH 1312; majors must select an additional social science course from:
   - ECO 2301 Principles of Economics
   - ECO 2314 Principles of Microeconomics
   - GEO 1310 World Geography
   - PSY 2301 Introduction to Statistics
   - PSY 3307 Statistics for the Behavioral Sciences

5. Majors must complete 8 hours of the same foreign language (1410 and 1420) at the college level.

6. Majors must complete Technical Writing (ENG 3303) or Philosophical Theory of Science (PHIL 4355). If majors choose PHIL 4355, an additional sophomore English Literature will be required to complete the B.A. Literature requirement.

7. Majors must complete a statistics course from:
   - CJ 3347 Statistics For Criminal Justice
   - GEO 3301 Research Methods in Geography
   - PSY 2301 Introduction to Statistics
   - SOCI 3307 Statistics for the Behavioral Sciences

8. Majors must complete 12 hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).

9. All students must complete a minimum of 36 advanced hours (3000 or 4000 level courses) as part of their degree.

10. Majors are required to complete 6 hours of Anthropology techniques courses to be selected from:
    - ANTH 3317 Rock Art Field Methods
    - ANTH 3376N Curation of Archaeological Materials
    - ANTH 3376Q Field Methods in Forensic Anthropology
    - ANTH 4361 Field Methods in Cultural Anthropology
    - ANTH 4363 Field Methods in Primate Behavior
    - ANTH 4382 Methods in Skeletal Biology
    - ANTH 4630 Archaeological Field School

11. Majors must complete 8 hours of the same foreign language (1410 and 1420) at the college level.

12. Majors must complete Technical Writing (ENG 3303) or Philosophical Theory of Science (PHIL 4355). If majors choose PHIL 4355, an additional sophomore English Literature will be required to complete the B.A. Literature requirement.

13. Majors must complete a statistics course from:
    - CJ 3347 Statistics For Criminal Justice
    - GEO 3301 Research Methods in Geography
    - PSY 2301 Introduction to Statistics
    - SOCI 3307 Statistics for the Behavioral Sciences

www.english.txstate.edu (http://www.english.txstate.edu)

Faculty in the Department of English teach, conduct research in, and advance the discipline of English Studies, including rhetoric and composition, creative writing, technical communication, film and media studies, literature and language. They prepare undergraduate students to pursue further education and/or careers; to think, write, and speak clearly; to produce authoritative scholarship and inspiring creative work; to read with pleasure, skill, and understanding; and to appreciate the power and subtlety of discourse in various media.

While gaining a broad liberal education, English majors also learn practical skills that provide a base for almost any career. Graduates traditionally enter the fields of education, journalism, publishing, or communications. They also work for computer, engineering, and public relations firms or pursue careers in politics and government. An English background provides excellent training for law school and other graduate programs.
Bachelor of Arts (B.A.)

- Major in English (p. 412)
- Major in English (Single Field Teacher Certification in English Language Arts and Reading, Grades 7-12) (p. 417)

Bachelor of Arts (B.A.) Major in English

Minimum required: 120 semester hours

General Requirements
1. Major requires 36 hours of English.
2. Majors must satisfy general education core curriculum and B.A. degree requirements.
3. Majors must complete an approved minor.
4. The number of free electives a student will complete depends on the number of hours a student may need to achieve the 120 and/or the 36 advanced total hours required.
5. ENG 1310 and ENG 1320 are prerequisites to all other English courses.

1 Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2 Meets the requirement that majors must take at least 6 hours of Literature before 1800.

3 ENG 3301 is required, and majors should take it immediately after completing the sophomore literature requirement.

**ENG, Advanced**

In addition to ENG 3301, majors must complete seven advanced courses. Majors must take at least one advanced course from each of the four groups listed below. They also select nine hours of electives from one or more groups. In selecting from groups or in choosing electives, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major:

| ENG 3343 | The Interdisciplinary Approach to Literature | 3 |
| ENG 3354 | Shakespeare 1 | 3 |
| ENG 4351 | Chaucer and His Time 1 | 3 |
| ENG 4355 | The Later Shakespeare 1 | 3 |
| ENG 4358 | Milton 1 | 3 |

**Group A - British Literature**

| ENG 3351 | Anglo-Saxon Language, Literature, and Culture 1 | 3 |
| ENG 3352 | Medieval English Literature 1 | 3 |
| ENG 3353 | British Poetry and Prose of the Sixteenth Century 1 | 3 |
| ENG 3354 | Shakespeare 1 | 3 |
| ENG 3356 | British Poetry and Prose of the Seventeenth Century 1 | 3 |

| ENG 3357 | British Literature of the Restoration and Augustan Periods, 1660-1750 1 | 3 |
| ENG 3359 | British Literature, 1750-1800 1 | 3 |
| ENG 3362 | The British Romantics | 3 |
| ENG 3365 | Victorian Literature | 3 |
| ENG 3368 | The British Novel | 3 |
| ENG 3370 | Twentieth-Century British Literature | 3 |
| ENG 4351 | Chaucer and His Time 1 | 3 |
| ENG 4355 | The Later Shakespeare 1 | 3 |
| ENG 4358 | Milton 1 | 3 |

**Group B - American Literature**

| ENG 3309 | The Southwest in Film | 3 |
| ENG 3326 | American Drama on Film | 3 |
| ENG 3331 | Literature of Black America | 3 |
| ENG 3333 | Early US Literature 1 | 3 |
| ENG 3335 | US Literature 1865-1930: The Rise of Realism, Naturalism, and Modernism | 3 |
| ENG 3336 | US Literature, 1930 to the Present: From Modernism to Contemporary Forms | 3 |
| ENG 3338 | The American Novel | 3 |
| ENG 3344 | Chicano/a Narrative and Social History | 3 |
| ENG 3345 | Southwestern Studies I: Defining the Region | 3 |
| ENG 3346 | Southwestern Studies II: Consequences of Region | 3 |
| ENG 3347 | American Poetry | 3 |
| ENG 4325 | Literature of the Southwest | 3 |
| ENG 4334 | US Romanticism | 3 |

**Group C - World Literature**

| ENG 3321 | The Short Story | 3 |
| ENG 3322 | The European Novel | 3 |
| ENG 3323 | Modern Poetry | 3 |
| ENG 3325 | Russian Literature in Translation | 3 |
| ENG 3327 | Types of World Drama in English 1 | 3 |
| ENG 3328 | Types of World Drama in English (Modern) | 3 |
| ENG 3329 | Mythology | 3 |
| ENG 3341 | Studies in World Literature | 3 |
| ENG 3350 | Medieval European Literature 1 | 3 |
| ENG 3385 | Children's Literature | 3 |
| ENG 3386 | Adolescent Literature | 3 |
| ENG 3388 | Women and Literature | 3 |
| ENG 3392 | Women Writers of the Middle Ages 1 | 3 |
| ENG 3393 | Introduction to Canadian Literature | 3 |

**Group D - Forms, Language, and Writing**

| ENG 3302 | Film and Video Theory and Production | 3 |
| ENG 3303 | Technical Writing | 3 |
| ENG 3304 | Professional Writing | 3 |
| ENG 3306 | Writing for Film | 3 |
| ENG 3307 | Introduction to the Study of Film | 3 |
| ENG 3308 | Advanced Topics in Film | 3 |
| ENG 3311 | Practices in Writing and Rhetoric | 3 |
| ENG 3315 | Introduction to Creative Writing | 3 |

1. Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2. Meets the requirement that majors must take at least 6 hours of Literature before 1800.

3. ENG 3301 is required, and majors should take it immediately after completing the sophomore literature requirement.

**ENG, Advanced**

In addition to ENG 3301, majors must complete seven advanced courses. Majors must take at least one advanced course from Group A and one from Group C, two courses from Group B, and two specified courses from Group D: ENG 3319 or ENG 4310, and ENG 3389. They also select a three-hour elective from one group. In selecting their advanced courses, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major:

- **Group A - British Literature**
  - ENG 3351 Anglo-Saxon Language, Literature, and Culture
  - ENG 3352 Medieval English Literature
  - ENG 3353 British Poetry and Prose of the Sixteenth Century
  - ENG 3354 Shakespeare
  - ENG 3356 British Poetry and Prose of the Seventeenth Century
  - ENG 3357 British Literature of the Restoration and Augustan Periods, 1660-1750
  - ENG 3359 British Literature, 1750-1800
  - ENG 3362 The British Romantics
  - ENG 3365 Victorian Literature
  - ENG 3368 The British Novel
  - ENG 3370 Twentieth-Century British Literature
  - ENG 4351 Chaucer and His Time
  - ENG 4355 The Later Shakespeare
  - ENG 4358 Milton

- **Group B - American Literature**
  - ENG 3309 The Southwest in Film
  - ENG 3326 American Drama on Film
  - ENG 3331 Literature of Black America
  - ENG 3333 Early US Literature
  - ENG 3335 US Literature 1865-1930: The Rise of Realism, Naturalism, and Modernism
  - ENG 3336 US Literature, 1930 to the Present: From Modernism to Contemporary Forms
  - ENG 3338 The American Novel
  - ENG 3344 Chicano/a Narrative and Social History
  - ENG 3345 Southwestern Studies I: Defining the Region
  - ENG 3346 Southwestern Studies II: Consequences of Region
  - ENG 3347 American Poetry
  - ENG 4325 Literature of the Southwest
  - ENG 4334 US Romanticism

- **Group C - World Literature**
  - ENG 3321 The Short Story
  - ENG 3322 The European Novel
  - ENG 3323 Modern Poetry
  - ENG 3325 Russian Literature in Translation
  - ENG 3327 Types of World Drama in English

1 Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2 Meets the requirement that majors must take at least 6 hours of Literature before 1800.

3 ENG 3301 is required, and majors should take it immediately after completing the sophomore literature requirement.

ENG, Advanced
In addition to ENG 3301, majors must complete seven advanced courses. Majors must take one advanced course from Groups A, B, and C plus nine hours of electives in writing and rhetoric. In choosing their nine hours of electives in writing and rhetoric, major with the emphasis in writing and rhetoric must take three hours of theory (ENG 3318, repeatable); three hours of practice (ENG 3303, ENG 3304, ENG 3311, or ENG 3342); and three hours of theory or practice. They also select one three-hour elective from one of the groups. In selecting their advanced courses, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major:

ENG 3343 The Interdisciplinary Approach to Literature 3
ENG 3354 Shakespeare ³ 3
ENG 4351 Chaucer and His Time ³ 3
ENG 4355 The Later Shakespeare ³ 3
ENG 4358 Milton ³ 3

Group A - British Literature
ENG 3351 Anglo-Saxon Language, Literature, and Culture ³ 3
ENG 3352 Medieval English Literature ³ 3
ENG 3353 British Poetry and Prose of the Sixteenth Century ³ 3
ENG 3354 Shakespeare ³ 3
ENG 3356 British Poetry and Prose of the Seventeenth Century ³ 3
ENG 3357 British Literature of the Restoration and Augustan Periods, 1660-1750 ³ 3
ENG 3359 British Literature, 1750-1800 ³ 3
ENG 3362 The British Romantics 3
ENG 3365 Victorian Literature 3
ENG 3368 The British Novel 3
ENG 3370 Twentieth-Century British Literature 3
ENG 4351 Chaucer and His Time ³ 3
ENG 4355 The Later Shakespeare ³ 3
ENG 4358 Milton ³ 3

Group B - American Literature
ENG 3309 The Southwest in Film 3
ENG 3326 American Drama on Film 3
ENG 3331 Literature of Black America 3
ENG 3333 Early US Literature ³ 3
ENG 3335 US Literature 1865-1930: The Rise of Realism, Naturalism, and Modernism ³ 3
ENG 3336 US Literature, 1930 to the Present: From Modernism to Contemporary Forms ³ 3
ENG 3338 The American Novel 3
ENG 3344 Chicano/a Narrative and Social History 3
ENG 3345 Southwestern Studies I: Defining the Region 3
ENG 3346 Southwestern Studies II: Consequences of Region 3
ENG 3347 American Poetry 3
ENG 4325 Literature of the Southwest 3
ENG 4334 US Romanticism 3

Group C - World Literature
ENG 3321 The Short Story 3
ENG 3322 The European Novel 3
ENG 3323 Modern Poetry 3
ENG 3325 Russian Literature in Translation 3
ENG 3327 Types of World Drama in English ³ 3
Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the minor. Minors must take advanced courses from at least two different groups (Group A-British Literature, Group B-American Literature, Group C-World Literature, or Group D-Forms, Language, and Writing) and are encouraged to complete one course that centers on genre, theme, or theory.

**Group A - British Literature**
- ENG 3351 Anglo-Saxon Language, Literature, and Culture
- ENG 3352 Medieval English Literature
- ENG 3353 British Poetry and Prose of the Sixteenth Century
- ENG 3354 Shakespeare
- ENG 3356 British Poetry and Prose of the Seventeenth Century
- ENG 3357 British Literature of the Restoration and Augustan Periods, 1660-1750
- ENG 3359 British Literature, 1750-1800
- ENG 3362 The British Romantics
- ENG 3365 Victorian Literature
- ENG 3368 The British Novel
- ENG 3370 Twentieth-Century British Literature
- ENG 4351 Chaucer and His Time
- ENG 4355 The Later Shakespeare
- ENG 4358 Milton

**Group B - American Literature**
- ENG 3309 The Southwest in Film
- ENG 3326 American Drama on Film
- ENG 3331 Literature of Black America
- ENG 3333 Early US Literature
- ENG 3335 US Literature 1865-1930: The Rise of Realism, Naturalism, and Modernism
- ENG 3336 US Literature, 1930 to the Present: From Modernism to Contemporary Forms
- ENG 3338 The American Novel
- ENG 3344 Chicano/a Narrative and Social History
- ENG 3345 Southwestern Studies I: Defining the Region
- ENG 3346 Southwestern Studies II: Consequences of Region
- ENG 3347 American Poetry
- ENG 4325 Literature of the Southwest
- ENG 4334 US Romanticism

**Group C - World Literature**
- ENG 3321 The Short Story
- ENG 3322 The European Novel
- ENG 3323 Modern Poetry
- ENG 3325 Russian Literature in Translation
- ENG 3327 Types of World Drama in English
- ENG 3328 Types of World Drama in English (Modern)
- ENG 3329 Mythology
- ENG 3341 Studies in World Literature
ENG 3350 Medieval European Literature 1 3
ENG 3385 Children’s Literature 3
ENG 3386 Adolescent Literature 3
ENG 3388 Women and Literature 3
ENG 3392 Women Writers of the Middle Ages 1 3
ENG 3393 Introduction to Canadian Literature 3

Group D - Forms, Language, and Writing
ENG 3302 Film and Video Theory and Production 3
ENG 3303 Technical Writing 3
ENG 3304 Professional Writing 3
ENG 3306 Writing for Film 3
ENG 3307 Introduction to the Study of Film 3
ENG 3308 Advanced Topics in Film 3
ENG 3311 Practices in Writing and Rhetoric 3
ENG 3315 Introduction to Creative Writing 3
ENG 3316 Film Studies 3
ENG 3318 Theories of Writing and Rhetoric 3
ENG 3319 The Development of English 3
ENG 3320 Theory and Criticism 3
ENG 3340 Special Topics in Language and Literature 3
ENG 3342 Editing 3
ENG 3343 The Interdisciplinary Approach to Literature 3
ENG 3348 Creative Writing: Fiction 3
ENG 3349 Creative Writing: Poetry 3
ENG 3389 The Discipline of English 3
ENG 4310 Modern English Syntax 3
ENG 4323 Studies in Autobiography and Biography 3
ENG 4348 Senior Seminar in Fiction Writing 3
ENG 4349 Senior Seminar in Poetry Writing 3
ENG 4350 Senior Seminar in Film 3

1 Meets the requirement that majors must take at least 6 hours of Literature before 1800.

**Total Hours** 24

Students may choose an emphasis in creative writing or professional writing, or they may take courses in both types of writing. Students should check course descriptions for prerequisites to ENG 3348, ENG 3349, ENG 4348, and ENG 4349.
Students majoring in English may not minor in writing.

Second Teaching Field in English (Grades 7-12)

For students who are seeking a teacher certification within their major and would like a second teaching field in English, the requirements are:

ENG 1310  College Writing I  3
ENG 1320  College Writing II  3
ENG 3301  Critical Theory and Practice for English Majors  3
Select two of the following:  6
   ENG 2310  British Literature before 1785
   ENG 2320  British Literature since 1785
   ENG 2330  World Literature before 1600
   ENG 2340  World Literature since 1600
   ENG 2359  US Literature before 1865
   ENG 2360  US Literature since 1865
Select three advanced hours from Group A  3
Select six advanced hours from Group B  6
Select three advanced hours from Group C  3
Select one of the following from Group D:  3
   ENG 3319  The Development of English
   ENG 4310  Modern English Syntax

Total Hours  30

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Group A - British Literature
ENG 3351  Anglo-Saxon Language, Literature, and Culture  3
ENG 3352  Medieval English Literature  3
ENG 3353  British Poetry and Prose of the Sixteenth Century  3
ENG 3354  Shakespeare  3
ENG 3356  British Poetry and Prose of the Seventeenth Century  3
ENG 3357  British Literature of the Restoration and Augustan Periods, 1660-1750  3
ENG 3359  British Literature, 1750-1800  3
ENG 3362  The British Romantics  3
ENG 3365  Victorian Literature  3
ENG 3368  The British Novel  3
ENG 3370  Twentieth-Century British Literature  3
ENG 4351  Chaucer and His Time  3
ENG 4355  The Later Shakespeare  3
ENG 4358  Milton  3

Group B - American Literature
ENG 3309  The Southwest in Film  3
ENG 3326  American Drama on Film  3
ENG 3331  Literature of Black America  3
ENG 3333  Early US Literature  3
ENG 3335  US Literature 1865-1930: The Rise of Realism, Naturalism, and Modernism  3
ENG 3336  US Literature, 1930 to the Present: From Modernism to Contemporary Forms  3
ENG 3338  The American Novel  3
ENG 3344  Chicano/a Narrative and Social History  3
ENG 3345  Southwestern Studies I: Defining the Region  3
ENG 3346  Southwestern Studies II: Consequences of Region  3
ENG 3347  American Poetry  3
ENG 4325  Literature of the Southwest  3
ENG 4334  US Romanticism  3

Group C - World Literature
ENG 3321  The Short Story  3
ENG 3322  The European Novel  3
ENG 3323  Modern Poetry  3
ENG 3325  Russian Literature in Translation  3
ENG 3327  Types of World Drama in English  3
ENG 3328  Types of World Drama in English (Modern)  3
ENG 3329  Mythology  3
ENG 3341  Studies in World Literature  3
ENG 3350  Medieval European Literature  3
ENG 3385  Children’s Literature  3
ENG 3386  Adolescent Literature  3
ENG 3388  Women and Literature  3
ENG 3392  Women Writers of the Middle Ages  3
ENG 3393  Introduction to Canadian Literature  3

1  Meets the requirement that majors must take at least 6 hours of Literature before 1800.

Department of Geography
Evans Liberal Arts Building Room 139
T: 512.245.2170  F: 512.245.8353
www.geo.txstate.edu (http://www.geo.txstate.edu)

Texas State Geography is one of the largest undergraduate programs in the United States. The Journal of Geography, the Association of American Geographers, and a National Program Effectiveness Survey recognized the Department as among the best undergraduate Geography programs in the nation. Additionally, the Department of Geography's internship program is the largest of its kind, placing students in both government agencies and private enterprises to provide students real-world experience to complement their academic program. The Department also offers highly acclaimed field experiences to places such as Big Bend National Park, the Southwestern United States, Europe and Mexico, where students gain invaluable firsthand geographical knowledge while gaining academic credit.

The undergraduate geography program offers a variety of majors of study. Students may select a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.). The degrees provide students programs and courses designed to increase their understanding of the world they live in and to help students develop analytical skills necessary to interpret and solve real-world problems. The B.A. requires a minimum of 30 semester hours of Geography while the B.S. requires a minimum of 36 hours of Geography coursework. Geography majors may include a maximum
of two additional Geography courses towards their major. Geography majors are required to complete a minor and are encouraged to select a minor in consultation with an academic advisor.

**Major in Geography**
The Geography major provides flexibility in designing unique programs for students with highly specialized career or graduate study objectives. Students electing to follow this major are strongly encouraged to work with a faculty member with experience in their special area of interest.

**Major in Geography with Teacher Certification in Social Studies**
This degree program is designed to prepare students to teach any of the four social studies disciplines (History, Geography, Government, and Economics) at the secondary level (grades 7-12). Upon completion of the social studies curriculum and passage of the social studies TExES test, students will receive certification in social studies and eligibility to teach in any of the four disciplines. Students pursuing secondary certification with a major in Geography select a minor from the disciplines of History or Political Science. In addition, students will complete specific courses in the third social studies discipline not chosen as a major or minor.

**Major in Geographic Information Science**
The general philosophy of the program stresses the importance of a content-rich background in geography along with principles and techniques of Geographic Information Science: GIS; remote sensing; visualization; cartography; spatial modeling; and quantitative methods. The major in Geographic Information Science was developed and structured for positions in local, state, and federal agencies, commercial companies, planning departments, engineering firms, utility companies, and many others. To prepare for GIScience careers, many students perform internships with government agencies or private firms as part of their academic program.

**Major in Geography Resource and Environmental Studies**
The Geography Resource and Environmental Studies major prepares students for a wide variety of government and private sector occupations relating to resource conservation and/or environmental management. Graduates pursue careers with employers such as the Texas General Land Office, the Texas Commission on Environmental Quality, the Texas Department of Transportation, Texas Parks and Wildlife, the National Geographic Society, the Lower Colorado River Authority, the San Antonio Water System, Motorola, Valero Energy and various private — sector environmental consulting firms.

**Major in Geography Urban and Regional Planning**
Planning is a diverse profession, which draws upon fields of knowledge and technical skills closely related to geography. Urban and Regional Planning provides the means to evaluate and facilitate programs that benefit our neighborhoods, communities, cities, and regions. Population growth, economic development, transportation, education, public services, and the environment are a few of the essential factors evaluated by planners. Many of our graduates are employed as planners in Texas, as well as within other states and countries. Others have continued in graduate studies at Texas State or in other programs at the University of Texas or Texas A&M, as well as universities outside Texas.

**Major in Geography Water Resources**
The Geography Water Resources major provides a focused study of the physical, chemical, social, political, and economic factors of water resources from the geographic perspective. As water resources become ever more critical to the nation, and in particular Texas and the Southwest Borderlands, this degree program addresses the increasing need for professionals in this crucial field. Graduates are highly sought after by government agencies, from local, state to federal, industries that have large water demands, agricultural interests and private consulting firms that specialize in water resource issues. The Lower Colorado River Authority, the Guadalupe-Blanco River Authority, the Edwards Aquifer Authority, and the San Antonio Water System all employ graduates of the program.

**Major in Physical Geography**
This major emphasizes the physical science elements of geographical study. Physical Geography prepares students for employment in applied climatology and meteorology, oceanography, geomorphology, resource evaluation, environmental analysis, and areas where an understanding of the complex relationship between nature and society is required. Students considering graduate studies in Physical Geography or any of the earth and atmospheric sciences should select this degree option.

**Admission Process**
Students meeting university admission standards enter the undergraduate Geography program as pre-majors. To become majors, students must complete the following with a grade of “C” or higher in each course:

- GEO 1309 Introduction to Cultural Geography 3
- or GEO 1310 World Geography
- GEO 2410 Introduction to Physical Geography 4
- GEO 2426 Fundamentals of Geographic Information Systems 4
- GEO 3301 Research Methods in Geography 3

**Total Hours** 14

**Academic Advising**
The Department of Geography provides extensive academic advising services which include individual and group advising. All geography majors and minors are encouraged to seek advice about program requirements and course selection each semester. Major faculty and academic advisors can offer detailed program and course information as well as course checklists for each major. Proper academic planning and academic advising leads students toward completing the steps for satisfying graduation requirements.

**Bachelor of Arts (B.A.)**
- Major in Geography (p. 436)

**Bachelor of Science (B.S.)**
- Major in Geography (p. 438)
- Major in Geography (Teacher Certification in Social Studies, Grades 7-12: History Minor and Political Science Third Field) (p. 439)
- Major in Geography (Teacher Certification in Social Studies, Grades 7-12: Political Science Minor and History Third Field) (p. 441)
• Major in Geographic Information Science (p. 437)
• Major in Physical Geography (p. 446)
• Major in Geography Resource and Environmental Studies (p. 442)
• Major in Geography Urban and Regional Planning (p. 444)
• Major in Geography Water Resources (p. 445)

Minors
• Geography (p. 448)
• Geology (p. 449)
• Nature and Heritage Tourism (p. 449)

Certificates
• Environmental Interpretation (p. 447)
• Geographic Information Science (p. 447)
• Location Analysis (p. 448)
• Water Resources Policy (p. 448)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this department include: GEO (p. 427), GEOL (p. 434), NHT (p. 435)

Courses in Geography (GEO)

GEO 1105. Meteorology Laboratory.
Laboratory observations, calculations, and exercises of meteorological data and phenomena. Prerequisite or corequisite: GEO 1305.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: GEO 1147
about Meteorology Laboratory

GEO 1305. Meteorology.
An introduction to atmospheric science providing information on the properties of the atmosphere, the scientific principles that govern weather and climate, and interactions between the atmosphere and the other components of the Earth system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: GEO 1347
about Meteorology

GEO 1309. Introduction to Cultural Geography.
This course introduces students to the geographical perspective and focuses on spatial distributions of human activities and investigates underlying geographical processes that account for present and past cultural patterns such as population, folk and popular culture, language, religion, gender, ethnicity, politics, urban and rural land use, and economic development. (MC).
about Introduction to Cultural Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GEOG 1302
about Introduction to Cultural Geography

GEO 1310. World Geography.
This course stresses the similarities and differences of the major world regions. Emphasis is given to human behavior in a spatial context. (MC).
about World Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core|Multicultural Content
Grade Mode: Standard Letter
TCCN: GEOG 1303
about World Geography

GEO 2110. Physical Geography Laboratory.
This is a laboratory course that includes exercises and calculations to apply principles and concepts covered in introductory physical geography lecture classes. These include geographic tools, weather and climate, soils and biogeography, and geomorphology. Open only to students who have taken the lecture class at another college/university. Prerequisites: MATH 1315 or higher (excluding MATH 1316) with a grade of "C" or higher. An introductory physical geography lecture course with a grade of "C" or higher. Instructor Approval Needed.
about Physical Geography Laboratory
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Physical Geography Laboratory

GEO 2310. Introduction to Environmental Geography.
Introduces the Geographic perspective to examine the Earth’s environment and its opportunities, constraints, and risks. Principles of scale space, and distributions will be used in examining the environment.
about Introduction to Environmental Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Environmental Geography

GEO 2410. Introduction to Physical Geography.
A systematic study of the various elements that make up the Earth’s physical environment, weather, climate, vegetation, soil, and landforms. Prerequisite: MATH 1315 or above (excluding MATH 1316) with a grade of "C" or higher.
about Introduction to Physical Geography
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Introduction to Physical Geography
GEO 2420. Introduction to Geographic Information Techniques.
The course will introduce the foundations of geographic information systems (GIS), global positioning systems (GPS), remote sensing, cartography, data analysis, and other tools and methods used by geographic information scientists. Maps, data collection, using and creating Internet content, and data analysis and display will be topics in the course.
Grade Mode: Standard Letter
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
about Introduction to Geographic Information Techniques

This course is an introduction to Geographic Information Systems (GIS), a tool for integrating and analyzing spatial data to visualize relationships, seek explanations and develop solutions to pressing problems. The foundations and theory of GIS will be emphasized. Prerequisite: MATH 1315 or above (excluding MATH 1316) with a grade of C or higher.
Grade Mode: Standard Letter
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
about Fundamentals of Geographic Information Systems

GEO 2427. Management and Implementation of GIS.
This course addresses strategies for successful GIS management and implementation in an organization-wide context and is organized around four primary issues: implementation planning, data management, technology assessment, and organizational setting. Prerequisite: GEO 2426 or equivalent.
Grade Mode: Standard Letter
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
about Management and Implementation of GIS

GEO 3134. Water Quality Monitoring and Management.
This course incorporates the water quality training of Texas Watch so students can receive certification and become Texas Watch water quality monitors. In addition, students learn to compile, analyze, and present water quality data for watershed management. May be repeated once for credit. Corequisite or prerequisite: GEO 3434.
Grade Mode: Standard Letter
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
about Water Quality Monitoring and Management

GEO 3301. Research Methods in Geography.
This course provides an introduction to quantitative and qualitative research methodology, data collection and analytical techniques. Topics include descriptive, inferential, spatial quantitative statistics and qualitative methods such as case studies and content analysis. The course will introduce students to software applications that are designed for organizing, analyzing and visualizing data. Prerequisite: MATH 1315 or above (excluding MATH 1316) with a grade of “C” or higher.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Research Methods in Geography

GEO 3303. Economic Geography.
This course investigates the geographic organization of economic activity with emphasis on the interconnections from global to local scales. Technological advances, resource creation and destruction, supply and demand, distribution and development, environmental impacts, and economic justice are addressed. Theoretical models are used to interpret past and current situations. (MC).
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
about Economic Geography

GEO 3305. Climatology.
Introduction to the elements of climate and their use in environmental monitoring and analysis. Prerequisite: GEO 1305 or GEO 2410 with a grade of “C” or higher.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
about Climatology

GEO 3307. Geography of Europe.
The course presents a systematic and regional investigation of the physical and cultural processes and phenomena that have created the characteristic landscapes of Europe. Topics include the climate, landform regions, trade, transportation, urban growth, population change, and the evolution of economic integration in the region. (MC).
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
about Geography of Europe

GEO 3308. Latin America.
A regional survey of the physical and cultural geography of Latin America. (MC).
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
about Latin America

GEO 3309. United States and Canada.
This course provides a systematic and regional analysis of the United States and Canada with emphasis on contemporary economic, environmental, political, and social issues. (MC) (WI).
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
about United States and Canada

GEO 3310. Urban Geography.
The study of city systems, form, and development with emphasis on functional patterns, economic base, industrial location, service, and social area analysis.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Urban Geography
GEO 3313. Natural Resource Use and Management.
This course uses environmental concepts at all geographic scales to identify and analyze patterns and processes of resource use, and discusses management strategies to solve present and future concerns related to natural resources. Prerequisites: One course from GEO 1305, GEO 1309, GEO 1310, GEO 2310 or GEO 2410 with a grade of "C" or higher.
about Natural Resource Use and Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 3320. Community and Regional Planning.
This course examines the practice, history and development of community and regional planning in the U.S. focusing on specific methods and legal frameworks of community planning and cultivating sustainable development.
about Community and Regional Planning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Community and Regional Planning

An analysis of energy sources, their distribution and characteristics, and the problems associated with their use and management. Prerequisite: MATH 1315 or above (excluding MATH 1316) with a grade of "C" or higher. (WI).
about Energy Resource Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Energy Resource Management

GEO 3322. Location Analysis.
Location and movement stressed in terms of the factors considered in locating industry, business, housing, and community facilities.
about Location Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Location Analysis

GEO 3325. Geomorphology.
This course provides a study of landforms, the processes and materials that form them and change them over time. Students will be introduced to bibliographic research and the interpretation of landforms and landscapes in the field from photographs or maps. Prerequisite: GEO 2410 or GEOL 1410 or equivalents with a grade of "C" or higher.
about Geomorphology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geomorphology

GEO 3328. Geography of North Africa and the Middle East.
A regional treatment dealing with the physical features and cultural activities of the people in North Africa and the Middle East. (MC).
about Geography of North Africa and the Middle East
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Geography of North Africa and the Middle East

GEO 3329. Geography of Texas.
A physical and cultural geography of Texas with special emphasis on human resources and economic activities. (MC).
about Geography of Texas
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Geography of Texas

GEO 3332. Geography of South and Southeast Asia.
This course provides a regional overview of the physical and human geography of the countries of the Indian subcontinent and Southeast Asia. Topics include the monsoons, cultural diversity, rapid economic development, agricultural systems, and environmental problems. (MC) (WI).
about Geography of South and Southeast Asia
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter
about Geography of South and Southeast Asia

GEO 3333. Geography of China and Japan.
This course provides a regional overview of the physical and human geography of the countries of East Asia. This course also systematically examines China, Korea, and Japan by closely examining such topics as the impacts of high population densities and intensive land use practices. (MC).
about Geography of China and Japan
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter
about Geography of China and Japan

GEO 3335. Oceanography.
An introductory course about the physical, chemical, geologic, and biologic characteristics of the oceans and coastal areas. Emphasis will be placed on the role of the oceans as a component of the global environment. Prerequisite: GEO 2410 or GEOL 1410 or BIO 1320 or BIO 1430, with a grade of "C" or higher.
about Oceanography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Oceanography

GEO 3340. Political Geography.
Political geography concerns the interrelationship between political activities and spatial distributions. Topics include the concept of the state, international spheres of influence and confrontation, boundaries, contemporary world issues and problems, and geographic aspects of electoral politics. (MC).
about Political Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Political Geography
GEO 3349. Population Geography.
An in-depth study of the spatial distribution and movement of human populations. The course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections. (MC).

about Population Geography

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Population Geography

GEO 3351. Geography of Health.
This course introduces concepts of health, health care, disease, and illness from a geographical perspective. The course will examine how people and societies interact geographically with the environment in ways that result in varying degrees of health. The focus will be on understanding health from the perspective of populations rather than individuals in a geographic context.

about Geography of Health

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of Health

A geographical analysis of ethnic groups in the United States with emphasis on their settlement patterns, spatial interactions, and current problems. (MC).

about American Ethnic Geography

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter
about American Ethnic Geography

GEO 3411. Maps and Mapmaking.
An introduction to reference and thematic map use and design. The course introduces basic cartographic mapping techniques for quantitative and qualitative data, teaches about geospatial analysis and interpretation, and enables students to design basic maps. Prerequisite: GEO 2426 with a grade of "C" or higher.

about Maps and Mapmaking

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Maps and Mapmaking

Introduction to the acquisition, mensuration, interpretation, and mapping of aerial photographs and satellite images for environmental monitoring and inventorying. Prerequisite: GEO 2410 with a grade of "C" or higher.

about Principles of Remote Sensing

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Principles of Remote Sensing

GEO 3426. Advanced GIS.
This course builds on the principles introduced in GEO 2426 and presents an in-depth examination of the technical aspects involved in spatial data handling, analysis, and modeling. Prerequisite: GEO 2426 and GEO 3301 with grades of "C" or higher.

about Advanced GIS

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Advanced GIS

GEO 3434. Water Resources.
This course analyzes within a geographical perspective, the formation, use, conservation, and management of water resources. The students will develop a working knowledge of the hydrologic, water quality, legal, economic, political, and societal factors that determine water availability, hazards, use, demand, and allocation. Prerequisite: GEO 2410, or CHEM 1141 and CHEM 1341, with a grade of "C" or higher.

about Water Resources

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Water Resources

GEO 4190. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.

about Independent Study

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study

GEO 4290. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.

about Independent Study

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study

GEO 4306. Geography of the Southwest.
Though primarily defined by aridity, the southwestern United States is extremely diverse in its environments and its people. This course explores how people have related to this land. This course also examines current issues and future trends in natural resources and cultural processes in the region. (MC).

about Geography of the Southwest

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Geography of the Southwest
Cultural ecology employs concepts of culture formation/change and biological ecology, with emphasis on the processes of adaptation. It provides a holistic means to interpret pre-modern, non-western, and agrarian cultures as well as modern cultures as they relate to their biophysical environment. Prerequisite: Junior or Senior standing. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Cultural Ecology

GEO 4310. Regional Field Studies.
Observation, description, and analysis of a geographical environment based upon offcampus study in that environment. May be repeated once, provided the second study is in a different region, for a total of 6 semester hours. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Regional Field Studies

GEO 4311. Environmental Management.
This course provides an analysis of the causes of environmental problems, from local to global scale, and the evaluation of attempts at management and solutions of those problems. Emphasis will be placed on the role that geography can play in environmental degradation and management. Prerequisite: GEO 2410 with a grade of "C" or higher and senior status. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Environmental Management

GEO 4312. River Basin Management.
The purpose of this course is to study principles and practices of large-scale river basin management. Emphasis is on integrated management of land and water resources, including economic development and environmental protection issues. Prerequisite: GEO 3434 or GEO 4325 with a grade of "C" or higher. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about River Basin Management

GEO 4313. Landscape Biogeography.
Investigation of present-day and post-Pleistocene spatial patterns of plants, animals, and biogeographical processes. Human interactions with biogeographical patterns is also addressed, as are methods for reconstructing Holocene patterns of biogeographic distribution. Course to be taught over every other year. Prerequisite: GEO 2410 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Landscape Biogeography

This course explores the relationships between design and urban landscapes. It analyzes urbanization and provides a critical appraisal of the role of design and material culture in shaping urban environments. Prerequisite: GEO 3310 with a "C" or higher and junior or senior status.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cities and Urban Design

GEO 4315. Interpretive Environmental Geography.
Students learn principles, themes, and techniques for effective interpretation of environmental information to audiences ranging from park visitors to professional conferences. Interpretive themes are drawn from geographic concepts including the physical and cultural landscapes and cultural ecology. Techniques emphasize effective use of traditional and digital presentation methods. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Interpretive Environmental Geography

GEO 4316. Cities and Urban Design.
The course explores the relationships between design and urban landscapes. It analyzes urbanization and provides a critical appraisal of the role of design and material culture in shaping urban environments. Prerequisite: GEO 3310 with a "C" or higher and junior or senior status.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cities and Urban Design

GEO 4317. Conservation Leadership.
This course offers an in-depth introduction to the conservation movement and the philosophy, establishment, and operation of institutions engaged in that movement. Problems and attributes of leadership will be emphasized along with the operational implications, ethical issues and other considerations for successful implementation at non-governmental, local, state, and federal levels. Restricted to Junior or Senior Standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Conservation Leadership

GEO 4318. GPS and GIS.
Students will learn to plan and conduct fieldwork using the Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisite: GEO 2426, and GEO 3411 or GEO 3426, with grade(s) of "C" or higher.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about GPS and GIS

GEO 4319. Fluvial Processes.
Students analyze modern principles of river processes and forms within a geographical perspective. This course examines the fundamental mechanics of fluvial channels with an emphasis on quantitative geographic evaluation of their processes. The course emphasizes natural scientific perspectives and includes linkages to ecology, engineering, resources management, and policy. Prerequisite: GEO 3325 or GEO 3434 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fluvial Processes

GEO 4320. Cities and Urban Design.
The course explores the relationships between design and urban landscapes. It analyzes urbanization and provides a critical appraisal of the role of design and material culture in shaping urban environments. Prerequisite: GEO 3310 with a "C" or higher and junior or senior status.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cities and Urban Design

GEO 4321. Conservation Leadership.
This course explores the relationships between design and urban landscapes. It analyzes urbanization and provides a critical appraisal of the role of design and material culture in shaping urban environments. Prerequisite: GEO 3310 with a "C" or higher and junior or senior status.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Conservation Leadership

GEO 4322. Interpretive Environmental Geography.
Students learn principles, themes, and techniques for effective interpretation of environmental information to audiences ranging from park visitors to professional conferences. Interpretive themes are drawn from geographic concepts including the physical and cultural landscapes and cultural ecology. Techniques emphasize effective use of traditional and digital presentation methods. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Interpretive Environmental Geography

GEO 4323. Conservation Leadership.
