2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Curriculum and Instruction: CI (p. 846), DE (p. 851), ECE (p. 853), EDTC (p. 853), RDG (p. 854), SPED (p. 856)

Courses Offered

Curriculum and Instruction (CI)
CI 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis
CI 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis
CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.
about Practical Statistics for Educators
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Practical Statistics for Educators

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.
about Teaching Math in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Math in the Elementary School

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.
about Teaching Mathematics and Science in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Mathematics and Science in the Elementary School

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele’s model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.
about Methods in Geometry for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Methods in Geometry for Elementary Math Teachers

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.
about Evaluative Techniques for the Classroom Teacher
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Evaluative Techniques for the Classroom Teacher

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.
about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Probability and Statistics Methods for Elementary Math Teachers

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.
about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Gifted/Talented Education

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.
about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Talent Development

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master's degree students in Education.
about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Creativity: Theories, Research, and Applications

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.
about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Talent Development
A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5318. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5319. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5320. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents' cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5321. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CI 5326. Curriculum & Management in the Elementary & Middle School. Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.

Grade Mode: Standard Letter

about Curriculum & Management in the Elementary & Middle School

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

CI 5327. Principles and Practices in the Elementary School. Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.

Grade Mode: Standard Letter

about Principles and Practices in the Elementary School

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5328. Elementary Social Studies: Curriculum Problems. Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends.

Grade Mode: Standard Letter

about Elementary Social Studies: Curriculum Problems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about The Elementary School Science Curriculum

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5330. Multicultural Teaching and Learning. Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society.

Grade Mode: Standard Letter

about Multicultural Teaching and Learning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics. This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5333. The Secondary Curriculum. A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5336. Methods and Materials for Teaching English as a Second Language. Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5337. Language Acquisition and Development. This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5339. Project-Based Instruction. This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor.

Grade Mode: Standard Letter
about Curriculum for Depth and Challenge

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better.

Grade Mode: Standard Letter
about Strategies for Improving Secondary Teaching

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5365. Biliteracy Development in the Bilingual Education Classrooms.
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337, CI 5387.

Grade Mode: Standard Letter
about Biliteracy Development in the Bilingual Education Classrooms

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5366. The Politics and Creativity of Being and Becoming.
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed.

Grade Mode: Standard Letter
about The Politics and Creativity of Being and Becoming

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5370. Classroom Management, Discipline, and Legal Issues.
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required.

Grade Mode: Standard Letter
about Classroom Management, Discipline, and Legal Issues

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5372. Philosophical Foundations of Education.
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master’s degree students without previous graduate work in philosophy or philosophy of education.

Grade Mode: Standard Letter
about Philosophical Foundations of Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.

Grade Mode: Standard Letter
about Bilingual/ESL Content Area Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content

CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter
about Problems in Elementary Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter
about Problems in Secondary Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter
about Problems in Bilingual Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary.
about Problems in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Education

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of creativity, curiosity, and interest. Implications for education are explored. Prerequisite: CI 5310.
about Advanced Creativity, Curiosity, and Interest

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Creativity, Curiosity, and Interest

CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.
about Mentoring Across the Life Span

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mentoring Across the Life Span

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.
about Bilingual Education: Principles and Practices

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bilingual Education: Principles and Practices

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.
about The Politics of Language

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Politics of Language

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.
about Action Research for Practitioners

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Action Research for Practitioners

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.
about Research Seminar in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Seminar in Education

CI 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CI 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CI 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

DE 5299B. Thesis.  
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit

about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

DE 5321. The Community College.  
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.

DE 5324. Teaching Learning Strategies and Critical Thinking.  
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.

DE 5339. Assessment and Evaluation in Developmental Education.  
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.

DE 5365. Administration of Developmental Education.  
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.

DE 5373. Grant Development and Management.  
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.

DE 5375. Learners in Developmental Education Contexts.  
Profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.

DE 5378. Problems in Developmental Education.  
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.

DE 5379. Independent Study.  
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.

DE 5384. Internship in Developmental Education.  
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

DE 5399A. Thesis.  
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

about Thesis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child's readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.
about Advanced Early Child Development: Readiness for Learning and Language Abilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.
about Curriculum and the Young Child, I (Kindergarten)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, I (Kindergarten)

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.
about Curriculum and the Young Child, II (Kindergarten)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, II (Kindergarten)

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.
about Independent Study in Early Childhood
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.
about Introduction to Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.
about Advanced Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.
about Models of Integration of Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.
about Managing Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.
about Implementing Technology in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Implementing Technology in Education
EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze online tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and online instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.

Grade Mode: Standard Letter

3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.

Reading (RDG)

RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children’s and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5332. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5333. Instructional Design for Educational Technology.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.

Grade Mode: Standard Letter

about Family Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.

Grade Mode: Standard Letter

about Basic Academic Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching.

Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

Grade Mode: Standard Letter

about Connecting Reading and Writing in the Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments.

Prerequisite: RDG 5322.

Grade Mode: Standard Letter

about Assessment-Driven Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory, and practice pertaining to sociocultural models of literacy and literacy instruction.

Grade Mode: Standard Letter

about Literacy as Sociocultural Practice

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

Grade Mode: Standard Letter

about New Literacies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined.

Grade Mode: Standard Letter

about Social, Cultural, and Political Contexts of Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore, and reflect on literacy as social practices within a community.

Grade Mode: Standard Letter

about Foundations of Integrated Reading & Writing Pedagogy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

Grade Mode: Standard Letter

about Community Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students' growth as writers; develop standards and curricula; and critically examine district, state, and national policy.

Grade Mode: Standard Letter

about Writing Pedagogy in the P-12 Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.
about Independent Study in Reading Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Reading Research

RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students.
about Teaching Academic Literacy to Adults
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
about Language Acquisition and Development for Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

RDG 6336. 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.
about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)

SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.
about Selected Topics in Special Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.
about Teaching Language Arts to Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities

SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.
about Education Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327
about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism
This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only. about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process. about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented. about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies. about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings. about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation. about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities. about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline. about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety

SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Characteristics of Students with Learning Disabilities

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Learning Disabilities/Inclusion
SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community. about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Exceptionality

Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management. about Behavior Management: School Application of Applied Behavior Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Behavior Management: School Application of Applied Behavior Analysis

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better. about Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Intervention Practices for Challenging Behavior

SPED 5380. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. about Positive Behavior Interventions and Supports in Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Positive Behavior Interventions and Supports in Schools

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313. about Advanced Practices in Educating Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Educating Students with Emotional/Behavioral Disorders

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosing. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed. about Educational Diagnostician Ethics, Standards, and Procedures
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Diagnostician Ethics, Standards, and Procedures

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375. about Advanced Techniques in Applied Behavioral Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Techniques in Applied Behavioral Analysis

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes. about Single-Subject Research Methods and Designs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Single-Subject Research Methods and Designs

SPED 5389. Special Education Practicum.
Design and implement educational programs for students with disabilities including assessment, planning, instruction, progress reporting, and development of annual goals and objectives. Supervised. Prerequisites: SPED 5311, SPED 5313, SPED 5327, SPED 5334, SPED 5340, SPED 5375. A student may take two of the prerequisites concurrently with SPED 5389. about Special Education Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Education Practicum

SPED 5390. Educational Diagnostician Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosing. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. about Educational Diagnostician Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Diagnostician Practicum
SPED 5391. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327.

3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter

SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports.
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375.

3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Master of Education (M.Ed.), Major in Elementary Education

Admission Policy

Course Work Requirements

Minor Option

Education Course Work
CI 5309 Talent Development 3
CI 5327 Principles and Practices in the Elementary School 3
CI 5390 Research Seminar in Education 3
EDTC 5310 Introduction to Educational Technology 3

Strategies
CI 5310 Creativity: Theories, Research, and Applications 3

Elementary Math/Science
Choose 3 hours
CI 5303 Teaching Math in the Elementary School
CI 5304 Teaching Mathematics and Science in the Elementary School
CI 5329 The Elementary School Science Curriculum

Elementary Social Studies/Reading
CI 5312 Elementary Language Arts: Current Trends 3
or CI 5328 Elementary Social Studies: Curriculum Problems

Cultural Issues
Choose 3 hours

Elective Course Work
Choose 1 course from the following:
CI 5317 Teaching Strategies for Elementary Teachers: Alternative Models
EDCL 5339 Understanding Self: Developing a Personal Vision of Leadership
EDTC 5310 Introduction to Educational Technology

Minor Course Work
Choose a 12-hour minor (Needs advisor approval) 12
Total Hours 36

1 CI 5390 should be taken in the first semester of attendance.

Early Childhood Specialization with Minor

Education Course Work
CI 5309 Talent Development 3
CI 5327 Principles and Practices in the Elementary School 3
CI 5390 Research Seminar in Education 3
EDTC 5310 Introduction to Educational Technology 3

Early Childhood Course Work
ECE 5318 Advanced Early Child Development: Readiness for Learning and Language Abilities 3
ECE 5319 Curriculum and the Young Child, I (Kindergarten) 3
ECE 5330 Curriculum and the Young Child, II (Kindergarten) 3
ECE 5380 Independent Study in Early Childhood 3

Minor Course Work
Choose a 12-hour minor (Needs advisor approval) 12
Total Hours 36

1 CI 5390 should be taken in the first semester of attendance.

Talent Development Emphasis with Minor

Education Course Work
CI 5309 Talent Development 3
CI 5310 Creativity: Theories, Research, and Applications 3
or CI 5381 Advanced Creativity, Curiosity, and Interest 3
CI 5311 Practicum in Talent Development 3
CI 5330 Multicultural Teaching and Learning 3
or CI 5388 The Politics of Language 3
CI 5359 Curriculum for Depth and Challenge 3
or CI 5368 The Politics and Creativity of Being and Becoming 3
CI 5383 Mentoring Across the Life Span 3
CI 5389 Action Research for Practitioners 3
or DE 5373 Grant Development and Management 3
CI 5390 Research Seminar in Education 3

Elective Course Work
Choose 1 course from the following:
CI 5317 Teaching Strategies for Elementary Teachers: Alternative Models 3
EDCL 5339 Understanding Self: Developing a Personal Vision of Leadership 3
EDTC 5310 Introduction to Educational Technology 3

1 CI 5390 should be taken in the first semester of attendance.

Total Hours: 36

1 CI 5313 should be taken in the first semester of attendance.

Master’s level courses in Curriculum and Instruction: CI (p. 861), DE (p. 866), ECE (p. 868), EDTC (p. 868), RDG (p. 869), SPED (p. 871)

1 CI 5313 should be taken in the first or second semester of attendance. CI 5326 should be taken by the end of the second semester. RDG 5340, CI 5303, CI 5328, and CI 5329 should be taken during the last 15 hours.

1 CI 5313 should be taken in the first semester of attendance.

Master’s level courses in Curriculum and Instruction: CI (p. 861), DE (p. 866), ECE (p. 868), EDTC (p. 868), RDG (p. 869), SPED (p. 871)

Courses Offered

Curriculum and Instruction (CI)

CI 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CI 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Practical Statistics for Educators

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Math in the Elementary School

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Mathematics and Science in the Elementary School

1 CI 5390 should be taken in the first semester of attendance.
This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele's model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency. about Methods in Geometry for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.
about Evaluative Techniques for the Classroom Teacher
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.
about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.
about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.
about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master's degree students in Education.
about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.
about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.
about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.
about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.
about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.
about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Coaching Skills for Elementary Math Mentors

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.
about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Strategies for Elementary Teachers: Alternative Models

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.
about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social, Emotional, and Cultural Contexts of Advanced Development

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.
about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Instructional Strategies and Practices

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.
about Middle School Philosophy and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Philosophy and Learning

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.
about Systems for Advanced Academics and Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Systems for Advanced Academics and Talent Development

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.
about Curriculum & Management in the Elementary & Middle School
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum & Management in the Elementary & Middle School

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school; procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.
about Principles and Practices in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices in the Elementary School

Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends.
about Elementary Social Studies: Curriculum Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Social Studies: Curriculum Problems
CI 5329. The Elementary School Science Curriculum.
about The Elementary School Science Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society.
about Multicultural Teaching and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding.
about Developing Tools for Instructional Interactions with English Language Learners in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development.
about The Secondary Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition.
about Methods and Materials for Teaching English as a Second Language
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Methods and Materials for Teaching English as a Second Language

CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336.
about Language Acquisition and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit.
about Project-Based Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Project-Based Instruction

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor.
about Curriculum for Depth and Challenge
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum for Depth and Challenge

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of “C” or better.
about Strategies for Improving Secondary Teaching
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Strategies for Improving Secondary Teaching

CI 5365. Biliteracy Development in the Bilingual Education Classrooms.
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387.
about Biliteracy Development in the Bilingual Education Classrooms
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biliteracy Development in the Bilingual Education Classrooms
CI 5367. Dual Language Immersion Methods.
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5368. The Politics and Creativity of Being and Becoming.
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed. Prerequisite: CI 5336.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5370. Classroom Management, Discipline, and Legal Issues.
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required. Prerequisite: CI 5310.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5372. Philosophical Foundations of Education.
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master’s degree students without previous graduate work in philosophy or philosophy of education. Prerequisites: CI 5387 and CI 5336.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. Prerequisite: CI 5337.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. Prerequisite: CI 5336.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. Prerequisite: CI 5387.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary. Prerequisite: CI 5375.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored. Prerequisite: CI 5310.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included. Prerequisite: CI 5368.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.
Grade Mode: Standard Letter
about Bilingual Education: Principles and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.
Grade Mode: Standard Letter
about The Politics of Language
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5389, CI 5390, plus 6 credit hours in the major, all with grades of "C" or higher.
Grade Mode: Standard Letter
about Action Research for Practitioners
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.
Grade Mode: Standard Letter
about Research Seminar in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

Development Education (DE)

DE 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
1 Credit Hour. 1 Lecture Contact Hours. 0 Lab Contact Hours.

DE 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

DE 5321. The Community College.
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.
Grade Mode: Standard Letter
about The Community College
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.
Grade Mode: Standard Letter
about Teaching Learning Strategies and Critical Thinking
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
DE 5339. Assessment and Evaluation in Developmental Education.
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation. about Assessment and Evaluation in Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation in Developmental Education

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation. about Administration of Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Administration of Developmental Education

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.
about Grant Development and Management
3 Credit Hours. 1.5 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Grant Development and Management

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.
about Learners in Developmental Education Contexts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Learners in Developmental Education Contexts

DE 5378. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.
about Problems in Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Developmental Education

DE 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.
about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.
about Internship in Developmental Education
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Internship in Developmental Education

DE 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

DE 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Early Childhood Education (ECE)

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child's readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.

about Advanced Early Child Development: Readiness for Learning and Language Abilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.

about Curriculum and the Young Child, I (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, I (Kindergarten)

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.

about Curriculum and the Young Child, II (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, II (Kindergarten)

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.

about Independent Study in Early Childhood

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.

about Introduction to Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.

about Advanced Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.

about Models of Integration of Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.

about Managing Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.

about Implementing Technology in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

about Online Learning and Course Design

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Online Learning and Course Design

EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.

about Instructional Design for Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Design for Educational Technology
EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.
Grade Mode: Standard Letter
about Issues in Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.
Grade Mode: Standard Letter
about Educational Technology Internship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Reading (RDG)

RDG 5310. Teaching Literacy with Children's and Young Adult Literature.
Course focuses on current research and methods for using children's and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.
Grade Mode: Standard Letter
about Teaching Literacy with Children's and Young Adult Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.
Grade Mode: Standard Letter
about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.
Grade Mode: Standard Letter
about Teaching Reading in the Elementary and Middle Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.
Grade Mode: Standard Letter
about Developing Content Area Literacy in Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.
Grade Mode: Standard Letter
about Developmental Literacy in the Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.
Grade Mode: Standard Letter
about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.
Grade Mode: Standard Letter
about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.
Grade Mode: Standard Letter
about Basic Academic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Connecting Reading and Writing in the Classroom

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Assessment-Driven Literacy Instruction

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction. Literacy as Sociocultural Practice

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Literacy as Sociocultural Practice

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Social, Cultural, and Political Contexts of Literacy Instruction

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Foundations of Integrated Reading & Writing Pedagogy

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Community Literacy

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students' growth as writers; develop standards and curricula; and critically examine district, state and national policy.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Writing Pedagogy in the P-12 Classroom

RDG 5370F. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Independent Study in Reading Research

RDG 5370G. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Teaching Academic Literacy to Adults

RDG 5380. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Language Acquisition and Development for Literacy Instruction

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Language Acquisition and Development for Literacy Instruction
RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.
Grade Mode: 3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Professional Development about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development
RDG 6336. 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.
Grade Mode: 3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.

Special Education (SPED)
SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Selected Topics in Special Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Teaching Language Arts to Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities
SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Education Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism

SPED 5316. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5320. Selected Topics in Special Education.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Selected Topics in Special Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented.
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities
SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies. about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings. about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation. about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities. about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline. about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety

SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Characteristics of Students with Learning Disabilities

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Learning Disabilities/Inclusion

SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community. about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Exceptionality

Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management. about Behavior Management: School Application of Applied Behavior Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Behavior Management: School Application of Applied Behavior Analysis

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a “C” or better.
about Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Intervention Practices for Challenging Behavior
SPED 5380. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. about Positive Behavior Interventions and Supports in Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Positive Behavior Interventions and Supports in Schools

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.

about Advanced Practices in Educating Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Educating Students with Emotional/Behavioral Disorders

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed.

about Educational Diagnostician Ethics, Standards, and Procedures
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Diagnostician Ethics, Standards, and Procedures

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavioral Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.

about Advanced Techniques in Applied Behavioral Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Techniques in Applied Behavioral Analysis

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes.

about Single-Subject Research Methods and Designs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Single-Subject Research Methods and Designs

SPED 5389. Special Education Practicum.
Design and implement educational programs for students with disabilities including assessment, planning, instruction, progress reporting, and development of annual goals and objectives. Supervised. Prerequisites: SPED 5311, SPED 5313, SPED 5327, SPED 5334, SPED 5340, SPED 5375. A student may take two of the prerequisites concurrently with SPED 5389.

about Special Education Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Special Education Practicum

SPED 5390. Educational Diagnostician Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376.

about Educational Diagnostician Practicum

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the **Graduate College Guide to Preparing and Submitting a Thesis or Dissertation**. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled **Fee Reduction** in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library.
   However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the
Courses Offered

Curriculum and Instruction (CI)

CI 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

about Thesis

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

CI 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.

Grade Mode: Standard Letter

about Practical Statistics for Educators

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele’s model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.

Grade Mode: standard letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.

Grade Mode: standard letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.

Grade Mode: standard letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.

Grade Mode: standard letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master's degree students in Education.
about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.
about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.
about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.
about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.
about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.
about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.
about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5318. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociouslyness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.
about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.
about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Systems for Advanced Academics and Talent Development

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.

Grade Mode: Standard Letter
about Systems for Advanced Academics and Talent Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Curriculum & Management in the Elementary & Middle School

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units. About Curriculum & Management in the Elementary & Middle School

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

about Principles and Practices in the Elementary School

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation. about Principles and Practices in the Elementary School

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends. about Elementary Social Studies: Curriculum Problems

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about The Elementary School Science Curriculum

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Multicultural Teaching and Learning

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society.

about Multicultural Teaching and Learning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptually involve participation as crucial to learning in mathematics contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding.

about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development.

about The Secondary Curriculum

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition.

about Methods and Materials for Teaching English as a Second Language

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Methods and Materials for Teaching English as a Second Language
CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Language Acquisition and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit.
Grade Mode: Standard Letter
about Project-Based Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor.
Grade Mode: Standard Letter
about Curriculum for Depth and Challenge
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better.
Grade Mode: Standard Letter
about Strategies for Improving Secondary Teaching
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5365. Biliteracy Development in the Bilingual Education Classrooms.
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387.
Grade Mode: Standard Letter
about Biliteracy Development in the Bilingual Education Classrooms
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5367. Dual Language Immersion Methods.
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337.
Grade Mode: Standard Letter
about Dual Language Immersion Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5368. The Politics and Creativity of Being and Becoming.
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed.
Grade Mode: Standard Letter
about The Politics and Creativity of Being and Becoming
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5370. Classroom Management, Discipline, and Legal Issues.
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required.
Grade Mode: Standard Letter
about Classroom Management, Discipline, and Legal Issues
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5372. Philosophical Foundations of Education.
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master's degree students without previous graduate work in philosophy or philosophy of education.
Grade Mode: Standard Letter
about Philosophical Foundations of Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.
Grade Mode: Standard Letter
about Bilingual/ESL Content Area Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 5376. The Politics and Creativity of Being and Becoming.
about The Politics and Creativity of Being and Becoming
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on
campus or off campus in approved sites. Designed to give elementary
classroom teachers college credit for in-service type training; course
gives an opportunity for teachers to upgrade their skills and knowledge.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Elementary Education

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on
campus or off campus in approved sites. Designed to give secondary
classroom teachers college credit for in-service type training; course
gives an opportunity for teachers to upgrade their skills and knowledge.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Secondary Education

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on
campus or off campus in approved sites. Designed to give elementary
classroom teachers college credit for in-service type training; course
gives an opportunity for teachers to upgrade their skills and knowledge.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Bilingual Education

CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems.
Designed to place emphasis on selected areas of study. A number
following the course title on the permanent record will indicate the area
of emphasis according to this code (2) counseling (7) Supervision (8)
elementary (9) secondary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Education

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of issues and research in
creativity, curiosity, and interest. Implications for education are explored.
Prerequisite: CI 5310.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Creativity, Curiosity, and Interest

CI 5382. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the
life span, with emphasis on mentoring students and teachers in K-16
educational contexts. Talent development purposes for mentoring are
included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mentoring Across the Life Span

A study of the current trends in bilingual education and elementary
school practices, the philosophy and objectives of the bilingual
elementary school program, classroom organization and management,
and procedures for meeting individual needs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bilingual Education: Principles and Practices

CI 5384. The Politics of Language.
Using a critical linguistic perspective, this course examines the
sociopolitical aspects of language in local, national, and global
contexts. Students learn about language ideologies and gain a profound
understanding for how languages and language practices are intricately
tied to the racial and economic power relations embedded in schools and
society.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Politics of Language

CI 5385. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research
in educational settings. Students will design and implement an action
research project based on a self-selected topic. Prerequisites: CI 5390, CI
5302, plus 6 credit hours in the major, all with grades of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Action Research for Practitioners

CI 5386. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics
include basic research procedures needed in the preparation of thesis
or other research reports and development or skill in reading, analysis,
and application of educational and behavioral research. A research paper
is required of each student. CI 5390 must be completed prior to the
semester of the comprehensive exam.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Seminar in Education

**DE 5299B. Thesis.**
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

*Grade Mode: Credit/No Credit*

*About Thesis*

**DE 5321. The Community College.**
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.

*Grade Mode: Standard Letter*

*About The Community College*

**DE 5324. Teaching Learning Strategies and Critical Thinking.**
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.

*About Teaching Learning Strategies and Critical Thinking*

**DE 5339. Assessment and Evaluation in Developmental Education.**
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.

*About Assessment and Evaluation in Developmental Education*

**DE 5365. Administration of Developmental Education.**
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.

*About Administration of Developmental Education*

**DE 5373. Grant Development and Management.**
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.

*About Grant Development and Management*

**DE 5375. Learners in Developmental Education Contexts.**
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.

*About Learners in Developmental Education Contexts*

**DE 5378. Problems in Developmental Education.**
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.

*About Problems in Developmental Education*

**DE 5379. Independent Study.**
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.

*About Independent Study*
DE 5384. Internship in Developmental Education. 
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours. 
Grade Mode: Credit/No Credit

about Internship in Developmental Education

DE 5399A. Thesis. 
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Credit/No Credit

about Thesis

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Credit/No Credit

about Thesis

Early Childhood Education (ECE)

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities. 
A study of the cognitive, affective, and psychomotor factors bearing on the young child’s readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Credit/No Credit

about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten). 
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter

about Curriculum and the Young Child, I (Kindergarten)

ECE 5320. Curriculum and the Young Child, II (Kindergarten). 
Advanced study of curriculum and materials used in educational programs for young children.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter

about Curriculum and the Young Child, II (Kindergarten)

ECE 5330. Independent Study in Early Childhood. 
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter

about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology. 
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter

about Introduction to Educational Technology
EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Online Learning and Course Design

EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Issues in Educational Technology

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.

3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Technology Internship

Reading (RDG)

RDG 5310. Teaching Literacy with Children's and Young Adult Literature.
Course focuses on current research and methods for using children's and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Literacy with Children's and Young Adult Literature

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Literacy Instruction

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Reading in the Elementary and Middle Schools
RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Content Area Literacy in Middle and Secondary Schools

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.
about Developmental Literacy in the Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developmental Literacy in the Middle and Secondary Schools

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.
about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Literacy Methods for Linguistically and Culturally Diverse Students

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.
about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Family Literacy

RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.
about Basic Academic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Basic Academic Literacy

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including “workshop” techniques and thematic teaching.
Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.
about Connecting Reading and Writing in the Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Connecting Reading and Writing in the Classroom

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments.
Prerequisite: RDG 5322.
about Assessment-Driven Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment-Driven Literacy Instruction

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.
about Literacy as Sociocultural Practice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literacy as Sociocultural Practice

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.
about New Literacies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined.
Repeatable for credit.
about Social, Cultural, and Political Contexts of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Social, Cultural, and Political Contexts of Literacy Instruction

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.
about Foundations of Integrated Reading & Writing Pedagogy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Foundations of Integrated Reading & Writing Pedagogy
RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Community Literacy

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students’ growth as writers; develop standards and curricula; and critically examine district, state and national policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Writing Pedagogy in the P-12 Classroom

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Reading Research

RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language variety; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

RDG 6336. 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)

SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities
SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.
Grade Mode: Standard Letter
about Education Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.
about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process.
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher's role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented.
about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies.
about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings.
about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation.
about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities.
about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline.
about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety
SPED 5355. Characteristics of Students with Learning Disabilities. 
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Characteristics of Students with Learning Disabilities 

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Advanced Practices in Learning Disabilities/Inclusion 

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Advanced Practices in Learning Disabilities/Inclusion 

SPED 5360. Survey of Exceptionality. 
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Survey of Exceptionality 

Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Behavior Management: School Application of Applied Behavior Analysis 

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Advanced Intervention Practices for Challenging Behavior 

SPED 5380. Positive Behavior Interventions and Supports in Schools. 
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Positive Behavior Interventions and Supports in Schools 

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Advanced Practices in Educating Students with Emotional/Behavioral Disorders 

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Educational Diagnostician Ethics, Standards, and Procedures 

SPED 5386. Advanced Techniques in Applied Behavioral Analysis. 
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Advanced Techniques in Applied Behavioral Analysis 

SPED 5387. Single-Subject Research Methods and Designs. 
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes. 
grade Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Single-Subject Research Methods and Designs
Degree Requirements

The 36-hour master of education (M.Ed.) with a major in elementary education-bilingual/bicultural consists of 24 semester hours in bilingual and elementary education and a minor of 12 hours in an approved academic area, such as reading, early childhood, secondary education, talent development, educational administration, special education, or a composite area.

Courses Offered

Curriculum and Instruction (CI)

CI 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

about Thesis

CI 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

about Thesis

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.

Grade Mode: Credit/No Credit

about Practical Statistics for Educators

Master of Education (M.Ed.), Major in Elementary Education-Bilingual/Bicultural

Admission Policy

For information regarding admission application requirements and deadlines, please visit the Graduate College website at http://www.gradcollege.txstate.edu/bibi.html.
This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.

about Teaching Math in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Math in the Elementary School

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

about Teaching Mathematics and Science in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Mathematics and Science in the Elementary School

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele's model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.

about Methods in Geometry for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Methods in Geometry for Elementary Math Teachers

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.

about Evaluative Techniques for the Classroom Teacher
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Evaluative Techniques for the Classroom Teacher

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.

about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Probability and Statistics Methods for Elementary Math Teachers

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.

about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Gifted/Talented Education

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.

about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Talent Development

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master's degree students in Education.

about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Creativity: Theories, Research, and Applications

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.

about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Talent Development

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.

about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Language Arts: Current Trends

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Seminar in Human Growth and Development
CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.

about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.

about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.

about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.

about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.

about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.

about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents' cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.

about Middle School Philosophy and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.

about Systems for Advanced Academics and Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.

about Curriculum & Management in the Elementary & Middle School
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

 Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.

about Principles and Practices in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Development and purposes of the social studies curriculum; contributions of
the social sciences to the social studies curriculum; relation of the social
studies to the total elementary program; curriculum construction, supervi-
sion, and evaluation; current issues and trends. about Elementary Social
Studies: Curriculum Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Social Studies: Curriculum Problems

CI 5329. The Elementary School Science Curriculum.
An intensive study of the philosophies of discovery and inquiry as they relate
to the elementary school science curriculum; laboratory experiences related
to the objectives, content, methods, and materials of selected innovative
programs. Examples: Inquiry Development Program, Elementary Science
Curriculum Improvement Study, Minnesota Mathematics, and Science
Teaching Project.
about The Elementary School Science Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles;
research; current issues and trends; culturally responsive curriculum,
teaching methods and materials, and teaching English language learners.
Students will explore their cultures and other cultures to develop
knowledge and sensitivity needed to teach in a multicultural multilingual
society.
about Multicultural Teaching and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English
Language Learners in Mathematics.
This course will acquaint students with current learning theories that
conceptualize interaction and participation as crucial to learning
mathematics in contexts that include English Language Learners (ELLs).
Students will make practical/meaningful connections to classroom
instruction by designing learning environments that include tools to
support ELLs in learning mathematics with understanding.
about Developing Tools for Instructional Interactions with English
Language Learners in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Tools for Instructional Interactions with English
Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the
Texas curriculum program; basic principles and techniques of curriculum
construction and implementation; aims and purposes of the curriculum
as a function in perpetuating and improving democratic ideals; and
attention to significant research in curriculum development.
about The Secondary Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second
Language.
Identification and use of English as a Second Language (ESL) material
and teaching strategies for teaching ESL as an integrated process
including first and second language acquisition.
about Methods and Materials for Teaching English as a Second
Language
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Methods and Materials for Teaching English as a Second
Language

CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language
learning acquisition. Central concepts in child language development
with special emphasis on language-minority issues will be presented and
discussed. Prerequisite: CI 5336.
about Language Acquisition and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how
adolescents and young adults learn and how project-based instruction
(PBI) may be our best choice for bridging the gap between theory and
practice. Students will observe secondary PBI classes, participate in a
project and design a PBI unit.
about Project-Based Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Project-Based Instruction

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of
curricula with depth and challenge for K-12 students who would benefit
from advanced content. Prerequisites: CI 5309, or permission of the
instructor.
about Curriculum for Depth and Challenge
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum for Depth and Challenge

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and
improvement of teaching strategies appropriate for implementing
selected objectives and content by the secondary teacher. Micro
教学 sessions, including video tape recording, will be required.
Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better.
about Strategies for Improving Secondary Teaching
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Strategies for Improving Secondary Teaching
CI 5365. Biliteracy Development in the Bilingual Education Classrooms.
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5338.
about Biliteracy Development in the Bilingual Education Classrooms
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biliteracy Development in the Bilingual Education Classrooms

CI 5367. Dual Language Immersion Methods.
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5337, CI 5338.
about Dual Language Immersion Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Dual Language Immersion Methods

CI 5368. The Politics and Creativity of Being and Becoming.
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts or produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed. about The Politics and Creativity of Being and Becoming
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Politics and Creativity of Being and Becoming

CI 5370. Classroom Management, Discipline, and Legal Issues.
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required. about Classroom Management, Discipline, and Legal Issues
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Classroom Management, Discipline, and Legal Issues

CI 5372. Philosophical Foundations of Education.
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master’s degree students without previous graduate work in philosophy or philosophy of education. about Philosophical Foundations of Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Philosophical Foundations of Education

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.
about Bilingual/ESL Content Area Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Bilingual/ESL Content Area Instruction

CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. about Problems in Elementary Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Elementary Education

CI 5376. Problems in Secondary Education.

Master of Education (M.Ed.), Major in Elementary Education-Bilingual/Bicultural

CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

关于Mentoring Across the Life Span

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

关于Bilingual Education: Principles and Practices

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

关于The Politics of Language

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

关于Action Research for Practitioners

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

关于Research Seminar in Education

CI 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

DE 5299B. Thesis.
DE 5321. The Community College.
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about The Community College

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Teaching Learning Strategies and Critical Thinking

DE 5339. Assessment and Evaluation in Developmental Education.
Fundamentals of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Assessment and Evaluation in Developmental Education

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Administration of Developmental Education

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.

3 Credit Hours. 1.5 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter

about Grant Development and Management

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Learners in Developmental Education Contexts

DE 5378. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Problems in Developmental Education

DE 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Independent Study

DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

Grade Mode: Standard Letter

about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.
about Curriculum and the Young Child, I (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Curriculum and the Young Child, I (Kindergarten)

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.
about Curriculum and the Young Child, II (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Curriculum and the Young Child, II (Kindergarten)

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.
about Independent Study in Early Childhood

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.
about Introduction to Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.
about Advanced Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners’ needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.
about Models of Integration of Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.
about Managing Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.
about Implementing Technology in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.
about Online Learning and Course Design

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Online Learning and Course Design
EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315. about Instructional Design for Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.
about Issues in Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Issues in Educational Technology

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.
about Educational Technology Internship
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Technology Internship

Reading (RDG)

RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children’s and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.
about Teaching Literacy with Children’s and Young Adult Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Literacy with Children’s and Young Adult Literature

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.
about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Literacy Instruction

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.
about Teaching Reading in the Elementary and Middle Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective|Multicultural Content
Grade Mode: Standard Letter
about Teaching Reading in the Elementary and Middle Schools

RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.
about Developing Content Area Literacy in Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Content Area Literacy in Middle and Secondary Schools

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.
about Developmental Literacy in the Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developmental Literacy in the Middle and Secondary Schools

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.
about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Literacy Methods for Linguistically and Culturally Diverse Students

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.
about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Family Literacy
RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Basic Academic Literacy

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Connecting Reading and Writing in the Classroom

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Assessment-Driven Literacy Instruction

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Literacy as Sociocultural Practice

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Social, Cultural, and Political Contexts of Literacy Instruction

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Foundations of Integrated Reading & Writing Pedagogy

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Community Literacy

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students' growth as writers; develop standards and curricula; and critically examine district, state and national policy.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Writing Pedagogy in the P-12 Classroom

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Independent Study in Reading Research
RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students. about Teaching Academic Literacy to Adults
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
about Language Acquisition and Development for Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

RDG 6336. 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.
about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)

SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.
about Selected Topics in Special Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.
about Teaching Language Arts to Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities

SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.
about Education Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.
about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process.
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented.
about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies.
about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings.
about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation.
about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities.
about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline.
about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety

SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Characteristics of Students with Learning Disabilities

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Learning Disabilities/Inclusion

SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community.
about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Exceptionality
Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management.
about Behavior Management: School Application of Applied Behavior Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Behavior Management: School Application of Applied Behavior Analysis

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better.
about Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Intervention Practices for Challenging Behavior

SPED 5379. Special Education Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376.
about Special Education Practicum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Education Practicum

SPED 5380. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs.
about Positive Behavior Interventions and Supports in Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Positive Behavior Interventions and Supports in Schools

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.
about Advanced Practices in Educating Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Educating Students with Emotional/Behavioral Disorders

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed.
about Educational Diagnostician Ethics, Standards, and Procedures
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Diagnostician Ethics, Standards, and Procedures

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavioral Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.
about Advanced Techniques in Applied Behavioral Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Techniques in Applied Behavioral Analysis

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes.
about Single-Subject Research Methods and Designs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Single-Subject Research Methods and Designs

SPED 5388. Educational Diagnostician Practicum.
Design and implement educational programs for students with disabilities including assessment, planning, instruction, progress reporting, and development of annual goals and objectives. Supervised. Prerequisites: SPED 5311, SPED 5313, SPED 5327, SPED 5334, SPED 5340, SPED 5375. A student may take two of the prerequisites concurrently with SPED 5389.
about Educational Diagnostician Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Diagnostician Practicum

SPED 5390. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327.
about Field-Based Practicum in Autism Spectrum Disorders
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Field-Based Practicum in Autism Spectrum Disorders
SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports.
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375. about Field Based Practicum in Behavior Disorders/Positive Behavior Supports
3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Field Based Practicum in Behavior Disorders/Positive Behavior Supports

Master of Education (M.Ed.), Major in Educational Technology

Major Program
Graduates of the educational technology program will be prepared to teach technology applications, use technology to support student learning of subject-area content, and provide professional development, mentoring, and basic technical and instructional assistance to other professional educators on their campuses and/or in their districts.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/edtc.html.

Total Hours 39

1 CI 5390 must be taken within the first 12 hours of the graduate program.
2 Other courses from the College of Education may be selected in consultation with the graduate advisor and with approval from The Graduate College.

Master’s level courses in Curriculum and Instruction: CI (p. 900), DE (p. 905), ECE (p. 907), EDTC (p. 907), RDG (p. 908), SPED (p. 910)

Courses Offered

Curriculum and Instruction (CI)

CI 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CI 5299B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Practical Statistics for Educators

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Teaching Math in the Elementary School
CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Teaching Mathematics and Science in the Elementary School

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele's model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Methods in Geometry for Elementary Math Teachers

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Evaluative Techniques for the Classroom Teacher

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Probability and Statistics Methods for Elementary Math Teachers

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Introduction to Gifted/Talented Education

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Talent Development

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master's degree students in Education.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Creativity: Theories, Research, and Applications

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.
Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Practicum in Talent Development

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Elementary Language Arts: Current Trends

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.
Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Research Seminar in Human Growth and Development
CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.

about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Growth and Development II

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.

about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Coaching Skills for Elementary Math Mentors

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.

about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.

about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Strategies for Elementary Teachers: Alternative Models

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.

about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social, Emotional, and Cultural Contexts of Advanced Development

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.

about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Instructional Strategies and Practices

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.

about Middle School Philosophy and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Philosophy and Learning

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.

about Systems for Advanced Academics and Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Systems for Advanced Academics and Talent Development

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.

about Curriculum & Management in the Elementary & Middle School
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum & Management in the Elementary & Middle School

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.

about Principles and Practices in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices in the Elementary School
Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends. about Elementary Social Studies: Curriculum Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Elementary Social Studies: Curriculum Problems

CI 5329. The Elementary School Science Curriculum.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society. about Multicultural Teaching and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding. about Developing Tools for Instructional Interactions with English Language Learners in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development. about The Secondary Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition. about Methods and Materials for Teaching English as a Second Language
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Methods and Materials for Teaching English as a Second Language

CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336. about Language Acquisition and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter about Language Acquisition and Development

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit. about Project-Based Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Project-Based Instruction

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor. about Curriculum for Depth and Challenge
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Curriculum for Depth and Challenge

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better. about Strategies for Improving Secondary Teaching
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Strategies for Improving Secondary Teaching
CI 5365. Biliteracy Development in the Bilingual Education Classrooms. 
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387. 

about Biliteracy Development in the Bilingual Education Classrooms 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Biliteracy Development in the Bilingual Education Classrooms 

CI 5367. Dual Language Immersion Methods. 
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337. 

about Dual Language Immersion Methods 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Dual Language Immersion Methods 

CI 5368. The Politics and Creativity of Being and Becoming. 
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed. 

about The Politics and Creativity of Being and Becoming 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about The Politics and Creativity of Being and Becoming 

CI 5370. Classroom Management, Discipline, and Legal Issues. 
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required. 

about Classroom Management, Discipline, and Legal Issues 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Classroom Management, Discipline, and Legal Issues 

CI 5372. Philosophical Foundations of Education. 
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master's degree students without previous graduate work in philosophy or philosophy of education. 

about Philosophical Foundations of Education 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Philosophical Foundations of Education 

CI 5374. Bilingual/ESL Content Area Instruction. 
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336. 

about Bilingual/ESL Content Area Instruction 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multicultural Content 
Grade Mode: Standard Letter 

about Bilingual/ESL Content Area Instruction 

CI 5375. Problems in Elementary Education. 
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. 

about Problems in Elementary Education 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Problems in Elementary Education 

CI 5376. Problems in Secondary Education. 
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. 

about Problems in Secondary Education 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Problems in Secondary Education 

CI 5377. Problems in Bilingual Education. 
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. 

about Problems in Bilingual Education 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Problems in Bilingual Education 

CI 5378. Problems in Education. 
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary. 

about Problems in Education 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Problems in Education 

CI 5381. Advanced Creativity, Curiosity, and Interest. 
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored. 

about Advanced Creativity, Curiosity, and Interest 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 

about Advanced Creativity, Curiosity, and Interest
CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5599B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5999B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Development Education (DE)

DE 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

DE 5299B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
DE 5321. The Community College.
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.

DE 5339. Assessment and Evaluation in Developmental Education.
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.

DE 5378. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.

DE 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.

DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

DE 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
DE 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

about Thesis

Early Childhood Education (ECE)

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child’s readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.
about Advanced Early Child Development: Readiness for Learning and Language Abilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.
about Curriculum and the Young Child, I (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, I (Kindergarten)

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.
about Curriculum and the Young Child, II (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, II (Kindergarten)

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.
about Independent Study in Early Childhood

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.
about Introduction to Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.
about Advanced Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.
about Models of Integration of Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.
about Managing Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.
about Implementing Technology in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.
about Online Learning and Course Design

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Online Learning and Course Design
EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.
Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.

Reading (RDG)

RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children’s and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.
Prerequisite: Teaching Literacy with Children’s and Young Adult Literature
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.

Grade Mode: Standard Letter

about Basic Academic Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

Grade Mode: Standard Letter

about Connecting Reading and Writing in the Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.

Grade Mode: Standard Letter

about Assessment-Driven Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.

Grade Mode: Standard Letter

about Literacy as Sociocultural Practice

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

Grade Mode: Standard Letter

about New Literacies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.

Grade Mode: Standard Letter

about Social, Cultural, and Political Contexts of Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.

Grade Mode: Standard Letter

about Foundations of Integrated Reading & Writing Pedagogy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

Grade Mode: Standard Letter

about Community Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students’ growth as writers; develop standards and curricula; and critically examine district, state and national policy.

Grade Mode: Standard Letter

about Writing Pedagogy in the P-12 Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

Grade Mode: Standard Letter

about Independent Study in Reading Research

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students. about Teaching Academic Literacy to Adults

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.

about Language Acquisition and Development for Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.

about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

RDG 6336. 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5321, RDG 5326, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.

about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)

SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.

about Selected Topics in Special Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.

about Teaching Language Arts to Students with Disabilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Teaching Language Arts to Students with Disabilities

SPED 5313. Education Students with Emotional/Behavioral Disorders. Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.

about Education Students with Emotional/Behavioral Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism. This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.

about Advanced Educational Strategies for Students with Autism

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.

about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community.
Grade Mode: Standard Letter
about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management. About Behavior Management: School Application of Applied Behavior Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Behavior Management: School Application of Applied Behavior Analysis

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better. About Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Advanced Intervention Practices for Challenging Behavior

Focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better. About Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SPED 5378. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375. About Advanced Techniques in Applied Behavioral Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Advanced Techniques in Applied Behavioral Analysis

SPED 5379. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes. About Single-Subject Research Methods and Designs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Single-Subject Research Methods and Designs

SPED 5380. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. About Positive Behavior Interventions and Supports in Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Positive Behavior Interventions and Supports in Schools

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313. About Advanced Practices in Educating Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Advanced Practices in Educating Students with Emotional/Behavioral Disorders

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed. About Educational Diagnostician Ethics, Standards, and Procedures
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Educational Diagnostician Ethics, Standards, and Procedures

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375. About Advanced Techniques in Applied Behavioral Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Advanced Techniques in Applied Behavioral Analysis

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes. About Single-Subject Research Methods and Designs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Single-Subject Research Methods and Designs

Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. About Educational Diagnostician Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
About Educational Diagnostician Practicum

SPED 5389. Special Education Practicum.
Design and implement educational programs for students with disabilities including assessment, planning, instruction, progress reporting, and development of annual goals and objectives. Supervised. Prerequisites: SPED 5311, SPED 5313, SPED 5327, SPED 5334, SPED 5340, SPED 5375. A student may take two of the prerequisites concurrently with SPED 5389. About Special Education Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
About Special Education Practicum

SPED 5390. Educational Diagnostician Practicum.
Focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better. About Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
About Advanced Intervention Practices for Challenging Behavior

SPED 5391. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327. About Field-Based Practicum in Autism Spectrum Disorders
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
About Field-Based Practicum in Autism Spectrum Disorders
SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports.
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventional, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375. about Field Based Practicum in Behavior Disorders/Positive Behavior Supports
3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Field Based Practicum in Behavior Disorders/Positive Behavior Supports

Master of Education (M.Ed.), Major in Reading Education

Major Program
The reading education major consists of course work in language and literacy development, reading and writing theory and research, teaching literacy from PK through grade 16, teaching with children's/young adult/adult literature, teaching reading and writing in a multilingual/multicultural environment, literacy assessment, and internship. Reading education majors are prepared to meet the International Reading Association professional standards for Reading Specialist/Literacy Coach or the Reading Administrator. Certified teachers with three or more years of teaching experience who successfully complete the major and pass the Professional Reading Specialist Texas Examination of Educator Standards (TExES) qualify for the PK-12 Professional Reading Specialist certificate. An academic minor in reading education is available for those students majoring in other areas. Neither the major nor the minor leads to initial certification as a teacher.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/rdg.html.

Degree Requirements
The 36-hour major consists of 30 hours of course work and a 6 hour cognate.

about Thesis

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.
about Practical Statistics for Educators
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Practical Statistics for Educators

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.
about Teaching Math in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Math in the Elementary School
CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

about Teaching Mathematics and Science in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Mathematics and Science in the Elementary School

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele’s model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.

about Methods in Geometry for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Methods in Geometry for Elementary Math Teachers

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.

about Evaluative Techniques for the Classroom Teacher
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Evaluative Techniques for the Classroom Teacher

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.

about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Probability and Statistics Methods for Elementary Math Teachers

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.

about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Gifted/Talented Education

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.

about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Talent Development

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master’s degree students in Education.

about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Creativity: Theories, Research, and Applications

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.

about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Talent Development

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.

about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Language Arts: Current Trends

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Seminar in Human Growth and Development
CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.

about Human Growth and Development II

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.

about Coaching Skills for Elementary Math Mentors

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.

about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.

about Teaching Strategies for Elementary Teachers: Alternative Models

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.

about Social, Emotional, and Cultural Contexts of Advanced Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.

about Middle School Instructional Strategies and Practices

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.

about Middle School Philosophy and Learning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.

about Systems for Advanced Academics and Talent Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.

about Curriculum & Management in the Elementary & Middle School

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.

about Principles and Practices in the Elementary School

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends.

CI 5343. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development.
about The Secondary Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Secondary Curriculum
CI 5365. Biliteracy Development in the Bilingual Education Classrooms.
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387.

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.

CI 5367. Dual Language Immersion Methods.
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337.

CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

CI 5368. The Politics and Creativity of Being and Becoming.
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed. about The Politics and Creativity of Being and Becoming

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

CI 5370. Classroom Management, Discipline, and Legal Issues.
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required.

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

CI 5372. Philosophical Foundations of Education.
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master's degree students without previous graduate work in philosophy or philosophy of education.

CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary.

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored. Prerequisite: CI 5310.

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.

CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary.

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored. Prerequisite: CI 5310.
CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intrinsically tied to the racial and economic power relations embedded in schools and society.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Development Education (DE)
DE 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
DE 5321. The Community College.
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit. about The Community College

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about The Community College

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.

about Teaching Learning Strategies and Critical Thinking

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter about Teaching Learning Strategies and Critical Thinking

DE 5339. Assessment and Evaluation in Developmental Education.
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.

about Assessment and Evaluation in Developmental Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Assessment and Evaluation in Developmental Education

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.

about Administration of Developmental Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Administration of Developmental Education

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.

about Grant Development and Management

3 Credit Hours. 1.5 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter about Grant Development and Management

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.

about Learners in Developmental Education Contexts

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Learners in Developmental Education Contexts

DE 5378. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.

about Problems in Developmental Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Problems in Developmental Education

DE 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.

about Independent Study

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Independent Study

DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

about Internship in Developmental Education

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit about Internship in Developmental Education

DE 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

about Thesis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Early Childhood Education (ECE)

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child's readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisites: EDTC 5310, EDTC 5315.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315. about Instructional Design for Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.
about Issues in Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Issues in Educational Technology

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.
about Educational Technology Internship
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Technology Internship

Reading (RDG)

RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children’s and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.
about Teaching Literacy with Children’s and Young Adult Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Literacy with Children’s and Young Adult Literature

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.
about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Literacy Instruction

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.
about Teaching Reading in the Elementary and Middle Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective|Multicultural Content
Grade Mode: Standard Letter
about Teaching Reading in the Elementary and Middle Schools

RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.
about Developing Content Area Literacy in Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Content Area Literacy in Middle and Secondary Schools

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.
about Developmental Literacy in the Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developmental Literacy in the Middle and Secondary Schools

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.
about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Literacy Methods for Linguistically and Culturally Diverse Students

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.
about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Family Literacy
RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.

Topics: Basic Academic Literacy
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

Topics: Connecting Reading and Writing in the Classroom
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.

Topics: Assessment-Driven Literacy Instruction
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.

Topics: Literacy as Sociocultural Practice
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

Topics: New Literacies
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.

Topics: Social, Cultural, and Political Contexts of Literacy Instruction
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.

Topics: Foundations of Integrated Reading & Writing Pedagogy
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

Topics: Community Literacy
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students' growth as writers; develop standards and curricula; and critically examine district, state and national policy.

Topics: Writing Pedagogy in the P-12 Classroom
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

Topics: Independent Study in Reading Research
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students.
Grade Mode: Standard Letter
about Teaching Academic Literacy to Adults
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
about Language Acquisition and Development for Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

RDG 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.

Grade Mode: Standard Letter
about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)
SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.
about Selected Topics in Special Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.
about Teaching Language Arts to Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities

SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.
about Education Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.
about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process. about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented. about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies. about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings. about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation. about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities. about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline. about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety

SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Characteristics of Students with Learning Disabilities

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340. about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Learning Disabilities/Inclusion

SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community. about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Exceptionality
Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management. Prerequisite: SPED 5311 or 5340. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5380. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. Prerequisite: SPED 5375 with a "C" or better. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed. Prerequisite: SPED 5375. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5389. Special Education Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. Repeatable for credit. Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5390. Educational Diagnostician Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. Repeatable for credit. Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5391. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.

SPED 5392. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5397. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes. Repeatable for credit. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5398. Special Education Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. Repeatable for credit. Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5399. Educational Diagnostician Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. Repeatable for credit. Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5400. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327. Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports.
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375, about Field Based Practicum in Behavior Disorders/Positive Behavior Supports

3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Master of Arts (M.A.), Major in Secondary Education

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/sced.html.

Degree Requirements
The master of arts (M.A.) consists of a minimum of 30 semester hours. Several courses leading to the master’s degree are available via the internet.

Course Work Requirements

Secondary Education Course Work
CI 5390 Research Seminar in Education 3
CI 5302 Practical Statistics for Educators 3
CI 5389 Action Research for Practitioners 3
or CI 7326 Grant Development and Management 3
CI 5399 Project-Based Instruction 3
or RDG 5324 Developing Content Area Literacy in Middle and Secondary Schools 3
CI 5306 Evaluative Techniques for the Classroom Teacher 3
or SPED 5326 Educating Students with Mild Disabilities 3

Thesis Course Work
Choose a minimum of 6 hours 6
CI 5199B Thesis
CI 5299B Thesis
CI 5399A Thesis
CI 5399B Thesis
CI 5599B Thesis
CI 5999B Thesis

Minor in Cognate
Chose 9 hours of graduate advisor approved electives 9

Total Hours 30

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, EN 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.
Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Curriculum and Instruction: CI (p. 927), DE (p. 932), ECE (p. 933), EDTC (p. 934), RDG (p. 934), SPED (p. 937)

Courses Offered

Curriculum and Instruction (CI)

CI 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

CI 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele’s model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.

about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Probability and Statistics Methods for Elementary Math Teachers

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.

about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Gifted/Talented Education

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.

about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Talent Development

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master’s degree students in Education.

about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Creativity: Theories, Research, and Applications

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.

about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Talent Development

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.

about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Language Arts: Current Trends

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Seminar in Human Growth and Development

CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.

about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Growth and Development II

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.

about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Coaching Skills for Elementary Math Mentors

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.

about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Strategies for Elementary Teachers: Alternative Models

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social, Emotional, and Cultural Contexts of Advanced Development

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Instructional Strategies and Practices

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Philosophy and Learning

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Systems for Advanced Academics and Talent Development

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum & Management in the Elementary & Middle School

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices in the Elementary School

Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends. Prerequisite: CI 5322.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Social Studies: Curriculum Problems

CI 5329. The Elementary School Science Curriculum.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Teaching and Learning
CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding.

about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development.

about The Secondary Curriculum

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition.

about Methods and Materials for Teaching English as a Second Language

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336.

about Language Acquisition and Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit.

about Project-Based Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor.

about Curriculum for Depth and Challenge

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better.

about Strategies for Improving Secondary Teaching

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5365. Biliteracy Development in the Bilingual Education Classrooms.
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387.

about Biliteracy Development in the Bilingual Education Classrooms

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5367. Dual Language Immersion Methods.
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337.

about Dual Language Immersion Methods

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5368. The Politics and Creativity of Being and Becoming.
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed.

about The Politics and Creativity of Being and Becoming

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CI 5370. Classroom Management, Discipline, and Legal Issues.
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Classroom Management, Discipline, and Legal Issues

CI 5372. Philosophical Foundations of Education.
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master’s degree students without previous graduate work in philosophy or philosophy of education.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Philosophical Foundations of Education

CI 5374. Bilingual/ESL Content Area Instruction.
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Bilingual/ESL Content Area Instruction

CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Elementary Education

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Secondary Education

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Bilingual Education

CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Education

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored.

Prerequisite: CI 5310.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Advanced Creativity, Curiosity, and Interest

CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Mentoring Across the Life Span

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Bilingual Education: Principles and Practices

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about The Politics of Language

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Action Research for Practitioners
Master of Arts (M.A.), Major in Secondary Education

**CI 5390. Research Seminar in Education.**
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam. about Research Seminar in Education

Grade Mode: Standard Letter
about Curriculum and the Young Child, II (Kindergarten)
ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.

about Introduction to Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.

about Advanced Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.

about Models of Integration of Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.

about Managing Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.

about Implementing Technology in Education

Grade Mode: Standard Letter
about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

about Online Learning and Course Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Online Learning and Course Design

EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.

about Instructional Design for Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.

about Issues in Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Issues in Educational Technology

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.

about Educational Technology Internship
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Technology Internship

Reading (RDG)

RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children's and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum.

about Teaching Literacy with Children's and Young Adult Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Literacy with Children's and Young Adult Literature
RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research. about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Literacy Instruction

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of materials. about Teaching Reading in the Elementary and Middle Schools

Grade Mode: Standard Letter
about Developmental Literacy in the Middle and Secondary Schools

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326. about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Literacy Methods for Linguistically and Culturally Diverse Students

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability. about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Family Literacy

RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness. about Basic Academic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Basic Academic Literacy

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including “workshop” techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326. about Connecting Reading and Writing in the Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Connecting Reading and Writing in the Classroom

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322. about Assessment-Driven Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment-Driven Literacy Instruction

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction. about Literacy as Sociocultural Practice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literacy as Sociocultural Practice
RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Social, Cultural, and Political Contexts of Literacy Instruction

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Foundations of Integrated Reading & Writing Pedagogy

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Community Literacy

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students' growth as writers; develop standards and curricula; and critically examine district, state and national policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Writing Pedagogy in the P-12 Classroom

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Reading Research

RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development
RDG 6336. Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.

about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about 6336 Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)
SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit. about Selected Topics in Special Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas. about Teaching Language Arts to Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Language Arts to Students with Disabilities

SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues. about Education Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327. about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only. about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process. about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented. about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies. about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings. about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations
SPED 5334. Assessment and Evaluation of Students with Disabilities. The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation.

about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Assessment and Evaluation of Students with Disabilities

SPED 5340. Principles and Practices of Effective Instruction. This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities.

about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Principles and Practices of Effective Instruction

SPED 5354. Advanced Studies in School Discipline, Order, and Safety. This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline.

about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Studies in School Discipline, Order, and Safety

SPED 5355. Characteristics of Students with Learning Disabilities. This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities.

about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Characteristics of Students with Learning Disabilities

SPED 5356. Advanced Practices in Learning Disabilities/Inclusion. This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills.

about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Practices in Learning Disabilities/Inclusion

SPED 5360. Survey of Exceptionality. Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community.

about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Survey of Exceptionality

SPED 5375. Behavior Management: School Application of Applied Behavior Analysis. Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management.

about Behavior Management: School Application of Applied Behavior Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Behavior Management: School Application of Applied Behavior Analysis

SPED 5376. Advanced Intervention Practices for Challenging Behavior. This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a “C” or better.

about Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Intervention Practices for Challenging Behavior

SPED 5380. Positive Behavior Interventions and Supports in Schools. This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs.

about Positive Behavior Interventions and Supports in Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Positive Behavior Interventions and Supports in Schools

SPED 5382. Advanced Practices in Educating Students with Emotional/Behavioral Disorders. This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.

about Advanced Practices in Educating Students with Emotional/Behavioral Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Practices in Educating Students with Emotional/Behavioral Disorders
Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Diagnostician Ethics, Standards, and Procedures

SPED 5386. Advanced Techniques in Applied Behavioral Analysis. 
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.

about Advanced Techniques in Applied Behavioral Analysis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Techniques in Applied Behavioral Analysis

SPED 5387. Single-Subject Research Methods and Designs. 
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes.

about Single-Subject Research Methods and Designs

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Single-Subject Research Methods and Designs

SPED 5389. Special Education Practicum. 
Design and implement educational programs for students with disabilities including assessment, planning, instruction, progress reporting, and development of annual goals and objectives. Supervised. Prerequisites: SPED 5311, SPED 5313, SPED 5327, SPED 5334, SPED 5340, SPED 5375. A student may take two of the prerequisites concurrently with SPED 5389.

about Special Education Practicum

3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Education Practicum

SPED 5390. Educational Diagnostician Practicum. 
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis placed on participation in the full individual evaluation process for identifying problems, developing interventions, and participating in school-based teams. Prerequisites: SPED 5334, SPED 5375, EDP 5376. about Educational Diagnostician Practicum

3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Diagnostician Practicum

SPED 5391. Field-Based Practicum in Autism Spectrum Disorders. 
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327.

about Field-Based Practicum in Autism Spectrum Disorders

3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Field-Based Practicum in Autism Spectrum Disorders

SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports. 
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375.

about Field Based Practicum in Behavior Disorders/Positive Behavior Supports

3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Field Based Practicum in Behavior Disorders/Positive Behavior Supports

Master of Education (M.Ed.), Major in Secondary Education

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradle.college.txstate.edu/sced.html.

Degree Requirements
The 36-hour master of education (M.Ed.) with a major in secondary education consists of either:

1. 24 semester hours in secondary education and 9-12 semester hours in an academic minor or a composite program (depending on concentration selected); or
2. 18 semester hours in secondary education and 18 semester hours in an academic minor or cognate.

Students who do not have a teaching certificate may be required to complete specific background courses before beginning graduate course work. A student may also pursue the secondary education M.Ed. with a concentration in educational technology, talent development, or teaching dual credit courses.

Master's level courses in Curriculum and Instruction: CI (p. 941), DE (p. 946), ECE (p. 947), EDTC (p. 947), RDG (p. 948), SPED (p. 950)
Courses Offered
Curriculum and Instruction (CI)

CI 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

CI 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

CI 5302. Practical Statistics for Educators.
This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research. about Practical Statistics for Educators
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Practical Statistics for Educators

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress. about Teaching Math in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Teaching Math in the Elementary School

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations. about Teaching Mathematics and Science in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Teaching Mathematics and Science in the Elementary School

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele’s model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency. about Methods in Geometry for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Methods in Geometry for Elementary Math Teachers

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0. about Evaluative Techniques for the Classroom Teacher
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Evaluative Techniques for the Classroom Teacher

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling. about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Probability and Statistics Methods for Elementary Math Teachers

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues. about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Introduction to Gifted/Talented Education

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming. about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Talent Development
CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master’s degree students in Education.
about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Creativity: Theories, Research, and Applications

CI 5311. Practicum in Talent Development.
This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.
about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Talent Development

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.
about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Language Arts: Current Trends

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.
about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Seminar in Human Growth and Development

CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.
about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Growth and Development II

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.
about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Coaching Skills for Elementary Math Mentors

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.
about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Strategies for Elementary Teachers: Alternative Models

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.
about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social, Emotional, and Cultural Contexts of Advanced Development

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.
about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Instructional Strategies and Practices
CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Philosophy and Learning

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Systems for Advanced Academics and Talent Development

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units. Prerequisite: CI 5308.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum & Management in the Elementary & Middle School

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation. Prerequisite: CI 5308.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices in the Elementary School

Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends. Prerequisite: CI 5308.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Social Studies: Curriculum Problems

CI 5329. The Elementary School Science Curriculum.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Methods and Materials for Teaching English as a Second Language
CI 5337. Language Acquisition and Development. 
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336. 
about Language Acquisition and Development 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multicultural Content 
Grade Mode: Standard Letter 
about Language Acquisition and Development

CI 5339. Project-Based Instruction. 
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit. 
about Project-Based Instruction 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Project-Based Instruction

CI 5359. Curriculum for Depth and Challenge. 
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor. 
about Curriculum for Depth and Challenge 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Curriculum for Depth and Challenge

CI 5363. Strategies for Improving Secondary Teaching. 
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better. 
about Strategies for Improving Secondary Teaching 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Strategies for Improving Secondary Teaching

CI 5365. Biliteracy Development in the Bilingual Education Classrooms. 
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387. 
about Biliteracy Development in the Bilingual Education Classrooms 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Biliteracy Development in the Bilingual Education Classrooms

CI 5367. Dual Language Immersion Methods. 
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337. 
about Dual Language Immersion Methods 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Dual Language Immersion Methods

CI 5368. The Politics and Creativity of Being and Becoming. 
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed. 
about The Politics and Creativity of Being and Becoming 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about The Politics and Creativity of Being and Becoming

CI 5370. Classroom Management, Discipline, and Legal Issues. 
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required. 
about Classroom Management, Discipline, and Legal Issues 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Classroom Management, Discipline, and Legal Issues

CI 5372. Philosophical Foundations of Education. 
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master’s degree students without previous graduate work in philosophy or philosophy of education. 
about Philosophical Foundations of Education 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Philosophical Foundations of Education

CI 5374. Bilingual/ESL Content Area Instruction. 
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336. 
about Bilingual/ESL Content Area Instruction 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multicultural Content 
Grade Mode: Standard Letter 
about Bilingual/ESL Content Area Instruction
CI 5375. Problems in Elementary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Elementary Education

CI 5376. Problems in Secondary Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Secondary Education

CI 5377. Problems in Bilingual Education.
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Bilingual Education

CI 5378. Problems in Education.
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Problems in Education

CI 5381. Advanced Creativity, Curiosity, and Interest.
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored.

Prerequisite: CI 5310.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Advanced Creativity, Curiosity, and Interest

CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphasis on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Mentoring Across the Life Span

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Bilingual Education: Principles and Practices

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about The Politics of Language

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Action Research for Practitioners

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Research Seminar in Education

CI 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Thesis

CI 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

DE 5321. The Community College.
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit. about The Community College
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Community College

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit. about Teaching Learning Strategies and Critical Thinking
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Learning Strategies and Critical Thinking

DE 5339. Assessment and Evaluation in Developmental Education.
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation. about Assessment and Evaluation in Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation in Developmental Education

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation. about Administration of Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Administration of Developmental Education

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit. about Grant Development and Management
3 Credit Hours. 1.5 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Grant Development and Management

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit. about Learners in Developmental Education Contexts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Learners in Developmental Education Contexts

DE 5377. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic. about Problems in Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Developmental Education

DE 5378. Problems in Developmental Education.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor. about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study
DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

about Internship in Developmental Education
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit

Early Childhood Education (ECE)
ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child’s readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.

about Introduction to Educational Technology
EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.

about Advanced Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners’ needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.

about Models of Integration of Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.

about Managing Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.

about Implementing Technology in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

about Online Learning and Course Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Online Learning and Course Design

EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and on-line instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.

about Instructional Design for Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis.

about Issues in Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Issues in Educational Technology

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework.

about Teaching Literacy with Children's and Young Adult Literature

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research.

about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Literacy Instruction

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material.

about Teaching Reading in the Elementary and Middle Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective|Multicultural Content
Grade Mode: Standard Letter
about Teaching Reading in the Elementary and Middle Schools
RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools.
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Developing Content Area Literacy in Middle and Secondary Schools

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor.
about Developmental Literacy in the Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Developmental Literacy in the Middle and Secondary Schools

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students.
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326.
about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

about Literacy Methods for Linguistically and Culturally Diverse Students

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.
about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Family Literacy

RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.
about Basic Academic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Basic Academic Literacy

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including “workshop” techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.
about Connecting Reading and Writing in the Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Connecting Reading and Writing in the Classroom

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.
about Assessment-Driven Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Assessment-Driven Literacy Instruction

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.
about Literacy as Sociocultural Practice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Literacy as Sociocultural Practice

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.
about New Literacies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.
about Social, Cultural, and Political Contexts of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

about Social, Cultural, and Political Contexts of Literacy Instruction

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.
about Foundations of Integrated Reading & Writing Pedagogy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclule from 3-peat Processing!Topics
Grade Mode: Standard Letter

about Foundations of Integrated Reading & Writing Pedagogy
RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

about Community Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students’ growth as writers; develop standards and curricula; and critically examine district, state and national policy.

about Writing Pedagogy in the P-12 Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

about Independent Study in Reading Research

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students.

about Teaching Academic Literacy to Adults

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.

about Language Acquisition and Development for Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.

about Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

RDG 6336. Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.

about Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

Special Education (SPED)

SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.

about Selected Topics in Special Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students’ access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.

about Teaching Language Arts to Students with Disabilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
SPED 5313. Education Students with Emotional/Behavioral Disorders. Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues. Grade Mode: Standard Letter about Education Students with Emotional/Behavioral Disorders 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5314. Advanced Educational Strategies for Students with Autism. This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327. about Advanced Educational Strategies for Students with Autism 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Advanced Educational Strategies for Students with Autism

SPED 5324. Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities. This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only. about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

SPED 5325. Development Perspectives of the Mildly Disabled. In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process. about Development Perspectives of the Mildly Disabled 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities. Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented. about Educating Students with Mild Disabilities 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities. This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies. about Educating Students with Autism and Other Developmental Disabilities 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations. This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings. about Language Development and Intervention for Special Populations 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities. The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation. about Assessment and Evaluation of Students with Disabilities 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Assessment and Evaluation of Students with Disabilities

SPED 5340. Principles and Practices of Effective Instruction. This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities. about Principles and Practices of Effective Instruction 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Principles and Practices of Effective Instruction

SPED 5354. Advanced Studies in School Discipline, Order, and Safety. This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and trans-disciplinary and comprehensive approaches to school discipline. about Advanced Studies in School Discipline, Order, and Safety 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Advanced Studies in School Discipline, Order, and Safety
SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Characteristics of Students with Learning Disabilities

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Practices in Learning Disabilities/Inclusion

SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Survey of Exceptionality

Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Behavior Management: School Application of Applied Behavior Analysis

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Intervention Practices for Challenging Behavior

SPED 5380. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS, PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. Prerequisite or Co-requisite: SPED 5311 or 5340, SPED 5375.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Positive Behavior Interventions and Supports in Schools

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Practices in Educating Students with Emotional/Behavioral Disorders

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Educational Diagnostician Ethics, Standards, and Procedures

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Techniques in Applied Behavioral Analysis

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Single-Subject Research Methods and Designs
Master of Education (M.Ed.), Major in Special Education

Major Program

The master of education (M.Ed.) with a major in special education consists of course work in special education and a cognate or minor, depending upon the program of study. A student may pursue a master's in generic special education, a master's in special education with concentration, or a master's in special education plus teaching certification. Concentration areas include autism/applied behavior analysis, behavioral disorder/positive behavioral supports, and learning disabilities/inclusion. It is also possible to pursue a Texas State certificate in autism, behavioral disorders/positive behavioral supports, or learning disabilities/inclusion. Certificate programs range from 18-21 semester hours, most of which are included in the master's program.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/sped.html.

Degree Requirements

The 36-hour master of education with a major in special education consists of 24-30 semester hours in special education, with 6-12 semester hours in a cognate or minor, depending upon the program of study.

### Courses Offered

**Curriculum and Instruction (CI)**

CI 5199B. Thesis.

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.  
About Thesis  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit  
About Thesis

CI 5299B. Thesis.

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.  
About Thesis  
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit  
About Thesis

CI 5302. Practical Statistics for Educators.

This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.  
About Practical Statistics for Educators  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
About Practical Statistics for Educators
This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.

about Teaching Math in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5304. Teaching Mathematics and Science in the Elementary School.
The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

about Teaching Mathematics and Science in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele’s model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.

about Methods in Geometry for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

CI 5306. Evaluative Techniques for the Classroom Teacher.
An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5363, CI 5370, RDG 5324, and an Overall GPA of 3.0.

about Evaluative Techniques for the Classroom Teacher
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.

about Probability and Statistics Methods for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5308. Introduction to Gifted/Talented Education.
An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.

about Introduction to Gifted/Talented Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5309. Talent Development.
This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.

about Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5310. Creativity: Theories, Research, and Applications.
A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master’s degree students in Education.

about Creativity: Theories, Research, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5311. Practicum in Talent Development.
A capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310, CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.

about Practicum in Talent Development
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit

A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.

about Elementary Language Arts: Current Trends
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5313. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

about Research Seminar in Human Growth and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5314. Research Seminar in Human Growth and Development.
Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

about Research Seminar in Human Growth and Development

CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.
about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Growth and Development II

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.
about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Coaching Skills for Elementary Math Mentors

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.
about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Strategies for Elementary Teachers: Alternative Models

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.
about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social, Emotional, and Cultural Contexts of Advanced Development

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.
about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Instructional Strategies and Practices

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.
about Middle School Philosophy and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Middle School Philosophy and Learning

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.
about Systems for Advanced Academics and Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Systems for Advanced Academics and Talent Development

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.
about Curriculum & Management in the Elementary & Middle School
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum & Management in the Elementary & Middle School

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.
about Principles and Practices in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices in the Elementary School
Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends. about Elementary Social Studies: Curriculum Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Social Studies: Curriculum Problems

CI 5329. The Elementary School Science Curriculum.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum, teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society. about Multicultural Teaching and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding. about Developing Tools for Instructional Interactions with English Language Learners in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development. about The Secondary Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition. about Methods and Materials for Teaching English as a Second Language
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Methods and Materials for Teaching English as a Second Language

CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336. about Language Acquisition and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit. about Project-Based Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Project-Based Instruction

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor. about Curriculum for Depth and Challenge
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum for Depth and Challenge

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better. about Strategies for Improving Secondary Teaching
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Strategies for Improving Secondary Teaching
CI 5365. Biliteracy Development in the Bilingual Education Classrooms.  
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387.

about Biliteracy Development in the Bilingual Education Classrooms  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5366. The Politics and Creativity of Being and Becoming.  
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed.

about The Politics and Creativity of Being and Becoming  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5370. Classroom Management, Discipline, and Legal Issues.  
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required.

about Classroom Management, Discipline, and Legal Issues  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5372. Philosophical Foundations of Education.  
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master's degree students without previous graduate work in philosophy or philosophy of education.

about Philosophical Foundations of Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5374. Bilingual/ESL Content Area Instruction.  
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336.

about Bilingual/ESL Content Area Instruction  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

CI 5375. Problems in Elementary Education.  
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

about Problems in Elementary Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5376. Problems in Secondary Education.  
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

about Problems in Secondary Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5377. Problems in Bilingual Education.  
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge.

about Problems in Bilingual Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5378. Problems in Education.  
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary.

about Problems in Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

CI 5381. Advanced Creativity, Curiosity, and Interest.  
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored. Prerequisite: CI 5310.

about Advanced Creativity, Curiosity, and Interest  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter
CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5599B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Development Education (DE)

DE 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

DE 5299B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
DE 5321. The Community College.
Introduction to the community college and its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.
about The Community College
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Community College

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.
about Teaching Learning Strategies and Critical Thinking
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Learning Strategies and Critical Thinking

DE 5339. Assessment and Evaluation in Developmental Education.
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.
about Assessment and Evaluation in Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation in Developmental Education

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.
about Administration of Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Administration of Developmental Education

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.
about Grant Development and Management
3 Credit Hours. 1.5 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Grant Development and Management

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.
about Learners in Developmental Education Contexts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Learners in Developmental Education Contexts

DE 5378. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.
about Problems in Developmental Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Developmental Education

DE 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.
about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.
about Internship in Developmental Education
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit

Early Childhood Education (ECE)

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child’s readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.

about Advanced Early Child Development: Readiness for Learning and Language Abilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.

about Curriculum and the Young Child, I (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Curriculum and the Young Child, I (Kindergarten)

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.

about Curriculum and the Young Child, II (Kindergarten)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Curriculum and the Young Child, II (Kindergarten)

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.

about Independent Study in Early Childhood

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.

about Introduction to Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.

about Advanced Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners’ needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.

about Models of Integration of Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.

about Managing Educational Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.

about Implementing Technology in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.

about Online Learning and Course Design

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Online Learning and Course Design
EDTC 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in
Educational Technology to solve instructional problems. Topics covered
include developing teacher training materials, courses, individualized
instruction, websites, multimedia projects, workshops, and on-line
instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.
about Instructional Design for Educational Technology

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues
and trends to enhance their ability to function effectively as educational
technology leaders at the school, district, or agency level. Students will
prepare proposals and plans for their internship. May be repeated once
for credit with different emphasis.
about Issues in Educational Technology

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory
into practice in a real world setting. The intern is provided site-based
opportunities for applying leadership skills in training teachers to use
technology in an educational setting. Graded on a credit (CR), no credit
(F) basis. Prerequisite: Within last six hours of coursework.
about Educational Technology Internship

Grade Mode: 3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.

Reading (RDG)
RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children’s
and young adult literature, including multicultural literature for literacy
instruction in grades EC-12. Students will explore different genres and
evaluate and select literature for instruction across the curriculum.
about Teaching Literacy with Children’s and Young Adult Literature

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models;
thoretical bases of literacy instruction, stages of literacy development;
the relationship between oral language and literacy; and classic and
current quantitative and qualitative literacy research.
about Foundations of Literacy Instruction

Grade Mode: Standard Letter

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle
schools, including the following areas: word identification, spelling,
word study, vocabulary instruction, comprehension strategy instruction,
fluency, critical literacy, and engagement. The course examines reading
curricula, instructional assessment, and selection of material.
about Teaching Reading in the Elementary and Middle Schools

Grade Mode: Standard Letter

RDG 5324. Developing Content Area Literacy in Middle and Secondary
Schools.
Course examines literacy development in middle and secondary school
content areas. Topics include classroom assessment, development of
strategic literacy, fluency, critical thinking, lifelong attitudes, interests,
study strategies, and literacy in multiple sources of narrative and
information text ranging from textbooks to electronic texts. Prerequisite
or corequisite: CI 5363.
about Developing Content Area Literacy in Middle and Secondary Schools

Grade Mode: Standard Letter

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and
secondary-school students who struggle with literacy. The course
also addresses reading curricula and instruction, assessment, and
materials selection. RDG Majors, Minors, and MRT candidates only, or
with permission of instructor.
about Developmental Literacy in the Middle and Secondary Schools

Grade Mode: Standard Letter

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse
Students.
Course topics include linguistic and literacy challenges unique to
students whose native language or dialect is not standard English, and
innovative methods for teaching literacy to linguistically and culturally
diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or
RDG 5326.
about Literacy Methods for Linguistically and Culturally Diverse Students

Grade Mode: Standard Letter

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult
literacy and emergent literacy education. This course will provide
students with the knowledge and abilities to manage a family literacy
program. Students will analyze related learning theories, population
needs, program structures, and policy issues, including diversity and
accountability.
about Family Literacy

Grade Mode: Standard Letter

RDG 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in
Educational Technology to solve instructional problems. Topics covered
include developing teacher training materials, courses, individualized
instruction, websites, multimedia projects, workshops, and on-line
instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.
about Instructional Design for Educational Technology

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5340. Issues in Educational Technology.
This course will provide students with information on current issues
and trends to enhance their ability to function effectively as educational
technology leaders at the school, district, or agency level. Students will
prepare proposals and plans for their internship. May be repeated once
for credit with different emphasis.
about Issues in Educational Technology

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EDTC 5345. Educational Technology Internship.
The Educational Technology Internship allows the intern to apply theory
into practice in a real world setting. The intern is provided site-based
opportunities for applying leadership skills in training teachers to use
technology in an educational setting. Graded on a credit (CR), no credit
(F) basis. Prerequisite: Within last six hours of coursework.
about Educational Technology Internship

Grade Mode: 3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.

Reading (RDG)
RDG 5310. Teaching Literacy with Children’s and Young Adult Literature.
Course focuses on current research and methods for using children’s
and young adult literature, including multicultural literature for literacy
instruction in grades EC-12. Students will explore different genres and
evaluate and select literature for instruction across the curriculum.
about Teaching Literacy with Children’s and Young Adult Literature

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5320. Foundations of Literacy Instruction.
Course surveys reading and writing theories, processes, and models;
thetical bases of literacy instruction, stages of literacy development;
the relationship between oral language and literacy; and classic and
current quantitative and qualitative literacy research.
about Foundations of Literacy Instruction

Grade Mode: Standard Letter

RDG 5322. Teaching Reading in the Elementary and Middle Schools.
Course focuses on effective literacy instruction in elementary and middle
schools, including the following areas: word identification, spelling,
word study, vocabulary instruction, comprehension strategy instruction,
fluency, critical literacy, and engagement. The course examines reading
curricula, instructional assessment, and selection of material.
about Teaching Reading in the Elementary and Middle Schools

Grade Mode: Standard Letter

RDG 5324. Developing Content Area Literacy in Middle and Secondary
Schools.
Course examines literacy development in middle and secondary school
content areas. Topics include classroom assessment, development of
strategic literacy, fluency, critical thinking, lifelong attitudes, interests,
study strategies, and literacy in multiple sources of narrative and
information text ranging from textbooks to electronic texts. Prerequisite
or corequisite: CI 5363.
about Developing Content Area Literacy in Middle and Secondary Schools

Grade Mode: Standard Letter

RDG 5326. Developmental Literacy in the Middle and Secondary Schools.
Course focuses on effective literacy instruction for middle- and
secondary-school students who struggle with literacy. The course
also addresses reading curricula and instruction, assessment, and
materials selection. RDG Majors, Minors, and MRT candidates only, or
with permission of instructor.
about Developmental Literacy in the Middle and Secondary Schools

Grade Mode: Standard Letter

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse
Students.
Course topics include linguistic and literacy challenges unique to
students whose native language or dialect is not standard English, and
innovative methods for teaching literacy to linguistically and culturally
diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or
RDG 5326.

Grade Mode: Standard Letter

RDG 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult
literacy and emergent literacy education. This course will provide
students with the knowledge and abilities to manage a family literacy
program. Students will analyze related learning theories, population
needs, program structures, and policy issues, including diversity and
accountability.
about Family Literacy

Grade Mode: Standard Letter

RDG 5335. Instructional Design for Educational Technology.
This course will focus on the use of instructional design principles in
Educational Technology to solve instructional problems. Topics covered
include developing teacher training materials, courses, individualized
instruction, websites, multimedia projects, workshops, and on-line
instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315.
about Instructional Design for Educational Technology

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.

about Basic Academic Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Basic Academic Literacy

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

about Connecting Reading and Writing in the Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Connecting Reading and Writing in the Classroom

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.

about Assessment-Driven Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment-Driven Literacy Instruction

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.

about Literacy as Sociocultural Practice

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literacy as Sociocultural Practice

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

about New Literacies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.

about Social, Cultural, and Political Contexts of Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Social, Cultural, and Political Contexts of Literacy Instruction

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.

about Foundations of Integrated Reading & Writing Pedagogy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Foundations of Integrated Reading & Writing Pedagogy

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

about Community Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Community Literacy

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students’ growth as writers; develop standards and curricula; and critically examine district, state and national policy.

about Writing Pedagogy in the P-12 Classroom

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Writing Pedagogy in the P-12 Classroom

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

about Independent Study in Reading Research

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Reading Research
RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students. about Teaching Academic Literacy to Adults
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
about Language Acquisition and Development for Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requisites: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.
about Advanced Educational Strategies for Students with Autism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor
development, from infancy to adulthood, in the mildly disabled. Special
emphasis on the relationship between these developmental problems
and the learning process.
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild
disabilities. Characteristics of special education categories discussed
with primary emphasis on learning disabilities. Role of classroom
management and classroom teacher’s role with students with mild
disabilities addressed. Methods for individualizing instruction under a
variety of classroom conditions presented.
about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental
Disabilities.
This course provides an overview of student characteristics and
appropriate instructional techniques for individuals with developmental
disabilities. Topics include specialized assessment and evidence-based
practices, functional curriculum development, transition planning,
and physical management, and assistive technologies.
about Educating Students with Autism and Other Developmental
Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Prerequisites: SPED 5334, SPED 5375, EDP 5376.
about Educational Diagnostician Practicum
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Educational Diagnostician Practicum

SPED 5391. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit.
about Field-Based Practicum in Autism Spectrum Disorders
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Field-Based Practicum in Autism Spectrum Disorders
SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports.
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375, about Field Based Practicum in Behavior Disorders/Positive Behavior Supports
3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

**Department of Health and Human Performance**

Jowers Center Room A116
T: 512.245.2561 F: 512.245.8678
http://www.hhp.txstate.edu/

The Department of Health and Human Performance at Texas State prepares students for careers and doctoral study in many areas including athletic training, cardiac rehabilitation, exercise science, health promotion, kinesiology, physical education, recreation administration, recreation therapy, sport education, and strength and conditioning. Our faculty are nationally and internationally known for their research on autism, biomechanics, exercise physiology, fitness, health promotion, musculoskeletal injury, physical education, and recreation administration and therapy. Recent visiting scholars to the department have come from Brazil, Egypt, Korea, England, and Russia.

The mission of the Department of Health and Human Performance is to create and disseminate knowledge promoting evidence-based practice in athletic training, health promotion, exercise science, and recreation professions. We work to directly promote improved human performance and quality of life through evidence-based educational, recreational, and therapeutic interventions and programs. Our vision is to be a national leader in promoting human performance and health-related quality of life for all.

**Financial Assistance**
Because the department has a large instructional program for the general university student in addition to broad undergraduate athletic training, exercise science, health education, and recreation major programs,
there are extensive opportunities for teaching assistantships, research assistantships, or internships. To be considered for positions as graduate assistant instructors, applicants must have unconditional admission to The Graduate College. Applicants who are interested in these positions should go to http://www.hhp.txstate.edu.

Master of Education (M.Ed.)
• Major in Health Education (p. 978)

Master of Science (M.S.), Major in Athletic Training

Degree Program
The master of science (M.S.) with a major in athletic training is designed as an advanced post-professional athletic training curriculum for the board-certified athletic trainer. The graduate student in athletic training may choose from either the thesis or the non-thesis option.

As background prerequisites, an athletic training major is expected to have graduated from an academic institution that is accredited by the
Commission on Accreditation of Athletic Training Education (CAATE) or presently be certified through the Board of Certification, Inc.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/at.html.

Degree Requirements
The graduate student in athletic training may choose from either the thesis (34 hours) or the non-thesis (37 hours) option.

| AT 5599B Thesis |  |
| AT 5999B Thesis |  |

Total Hours 34

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using
theses on the website of The Graduate College for specific deadlines)

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

   A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

   University resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Courses Offered

Athletic Training (AT)

AT 5101. Graduate Assistant Development.
This course is required of all graduate assistants and provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants are required to register for this course in the spring semester of their employment. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Graduate Assistant Development

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Credit/No Credit

AT 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AT 5201. Graduate Assistant Development.
This course is required of all graduate assistants and provides in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants are required to register for this course in the fall semester of their employment. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Graduate Assistant Development

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Graduate Assistant Development

AT 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AT 5302. Special Topics in Athletic Training.
This course is designed to educate students in the scientific process and develop an in-depth understanding of the research process in Athletic Training.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Master’s level courses in Health and Human Performance: AT
AT 5303. Seminar in Athletic Training.
Current trends in athletic and physical education concerning the care and prevention of injuries with special emphasis on therapeutic and rehabilitation techniques. Taping and bandaging will be practiced in a laboratory situation.
Seminars in Athletic Training
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Athletic Training

AT 5307. Bioenergetics of Exercise and Rehabilitation.
This course is designed to provide both a theoretical and clinical basis for the use of therapeutic exercise in physiological basis of muscular, respiratory, cardiovascular, and nervous systems in the rehabilitation of all athletic injuries. Must be admitted to the MS in Athletic Training Program or instructor approval required.
about Bioenergetics of Exercise and Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bioenergetics of Exercise and Rehabilitation

AT 5308. Therapeutic Exercise and Rehabilitation.
This course is designed to provide both a theoretical and clinical basis for the use of therapeutic exercise in the rehabilitation setting, as well as to impart knowledge pertaining to the physiological effects, indications, contraindications and applications of therapeutic exercise in the rehabilitation of all athletic injuries. Must be admitted to the M.S. in Athletic Training Program.
about Therapeutic Exercise and Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Therapeutic Exercise and Rehabilitation

AT 5310. Proprioception and Neuromuscular Control in Rehabilitation.
This course provides for an advanced study of the concepts, theories, and current research related to proprioception, postural stability, and neuromuscular control as applied to the prevention, diagnosis, and clinical management of sport-related musculoskeletal injuries and concussions. Must be admitted to the M.S. in Athletic Training Program or instructor approval required.
about Proprioception and Neuromuscular Control in Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Proprioception and Neuromuscular Control in Rehabilitation

AT 5311. Biomechanics of Musculoskeletal Injury.
This course focuses on the application of biomechanical principles to the pathoetiology, diagnosis, and physiological capacity for healing of injuries to bone, ligament, tendon, cartilage, and other human tissues, with an emphasis on current injury research. Must be admitted to the M.S. in Athletic Training Program or instructor approval required.
about Biomechanics of Musculoskeletal Injury
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biomechanics of Musculoskeletal Injury

AT 5312. Evidence-Based Practice in Sports Medicine.
This course is designed to provide students with advanced study in the elements of evidence-based practice in sports medicine with focus on the role of accessing, retrieving, and critically appraising evidence to answer clinical questions in patient care. Must be admitted to the M.S. in Athletic Training Program or instructor approval required. Prerequisite: ESS 5346.
about Evidence-Based Practice in Sports Medicine
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Evidence-Based Practice in Sports Medicine

AT 5318. Therapeutic Evaluation and Intervention.
This course explores the scientific bases of therapeutic musculoskeletal exercise and neuromuscular evaluative techniques in the rehabilitation process. Must be admitted to the M.S. in Athletic Training Program. Must be approved by the instructor. Prerequisite: ESS 5346.
about Therapeutic Evaluation and Intervention
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Therapeutic Evaluation and Intervention

AT 5347. Independent Study in Athletic Training.
This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Independent Study in Athletic Training
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Athletic Training

AT 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in AT 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis. Must be admitted to the M.S. in Athletic Training Program or instructor approval required.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

AT 5399B. Thesis.
This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Must be admitted to the M.S. in Athletic Training Program or instructor approval required.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AT 5599B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Must be admitted to the M.S. in Athletic Training Program or instructor approval required.
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis
Master of Science (M.S.), Major in Exercise Science

Major Program
Students seeking a master of science (M.S.) with a major in exercise science will appreciate the value and importance of research-based literature and have the critical thinking, research, and technical skills to:

1. understand research-based literature;
2. use innovative approaches to problem solving;
3. successfully pursue a doctoral degree in exercise science or related discipline;
4. work in athletic, clinical (e.g., cardiopulmonary rehabilitation and diagnostic testing), educational, and fitness settings; and
5. sit for advanced professional certifications (e.g., the American College of Sports Medicine Certified Clinical Exercise Specialist, Certified Health Fitness Specialist, Certified Strength and Conditioning Specialist, or Registered Clinical Exercise Physiologist).

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/exsc.html.

Total Hours 36
If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library.
   However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

**Courses Offered**

**Exercise Science Specialization (ESS)**

**ESS 5101. Graduate Assistant Development.**

This course is required of all graduate teaching and instructional assistants in the department. This course provides regular in-service and planned periodic evaluations of instructional and professional responsibilities. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis.

**Course Attribute(s):** Graduate Assistantship|Exclude from Graduate GPA

**Grade Mode:** Leveling/Assistantships

**about Graduate Assistant Development**

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Graduate Assistantship|Exclude from Graduate GPA

**Grade Mode:** Leveling/Assistantships

**about Graduate Assistant Development**

ESS 5117. Laboratory in Exercise Physiology.
Students in this leveling laboratory course perform experiments that highlight the physiological responses to exercise. The course introduces students to basic techniques in the assessment of health and human performance, including the assessment of maximal oxygen consumption, body composition, anaerobic power and capacity, muscular fitness, movement economy, and dietary intake. Prerequisite: BIO 2430 or equivalent. Co-requisite: ESS 5317.
about Laboratory in Exercise Physiology

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Laboratory in Exercise Physiology

ESS 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A.
about Thesis

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ESS 5201. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in the department. This course provides regular in-service and planned periodic evaluations of instructional and professional responsibilities. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis.
about Graduate Assistant Development

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Graduate Assistant Development

ESS 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A.
about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ESS 5304. Motor Learning and Performance.
This course is designed to provide students the foundation for understanding the principles involved in enhancing motor skill acquisition, and physiological, neurological, and psychological factors affecting motor learning and performance. Inquiry is made into the various motor learning theories and concepts.
about Motor Learning and Performance

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Motor Learning and Performance

ESS 5305. Advanced Fitness Assessment and Exercise Prescription.
This course provides an intensive study of current scientifically based exercise testing and prescription procedures. Students will learn how to evaluate fitness and prescribe exercise through laboratory experiences.
about Advanced Fitness Assessment and Exercise Prescription

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Advanced Fitness Assessment and Exercise Prescription

ESS 5306. Advanced Exercise Physiology.
This advanced course will provide students with a thorough understanding of the acute responses to exercise and the physiological adaptations that occur in response to exercise training. Additional topics to be covered include environmental influences, aging, and sex differences.
about Advanced Exercise Physiology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Exercise Physiology

This course will include the development, instruction, and evaluation of resistance training exercises and programs for diverse populations and settings. Physiological and mechanical principles related to resistance training will be applied to study human performance, injury prevention, and rehabilitation.
about Advanced Resistance Training and Conditioning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Resistance Training and Conditioning

ESS 5308. Physical Activity, Exercise, and Epidemiology.
This course will provide students with opportunities to examine the role of physical inactivity in the development of chronic diseases and the benefits of activity in prevention efforts. A special emphasis will be placed on activity assessment and intervention research.
about Physical Activity, Exercise, and Epidemiology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Physical Activity, Exercise, and Epidemiology

Review of current research and research techniques in the biomechanics of exercise and sport science. Students will develop skills in reviewing, planning, and conducting biomechanical research.
about Biomechanics for Exercise & Sports Science

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biomechanics for Exercise & Sports Science
ESS 5310. Cardiopulmonary Exercise Physiology. The course will provide students with a thorough understanding of the structure, function, neural mechanisms, and integrated responses of the human cardiopulmonary system to acute and chronic exercise. In addition, basic cardiopulmonary pathology, pharmacology, and electrocardiography will be introduced.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5311. Applied Neuromuscular and Skeletal Muscle Physiology. The course will provide students with a thorough understanding of the structure and function of neuromuscular and skeletal muscle physiology. This course will examine mechanisms that regulate skeletal muscle force production and human performance in response to acute and chronic exercise. In addition, advanced laboratory techniques will be introduced.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5317. Exercise Physiology. This leveling course provides an overview of the acute and chronic physiological responses to exercise. Emphasis is on muscle bioenergetics, muscle contractile properties, optimizing human performance through training and supplementation, as well as cardiopulmonary and endocrine responses to exercise. Prerequisite: BIO 2430 or equivalent. Corequisite: ESS 5117.

Grade Mode: Leveling/Assistantships
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5320. Biomechanics. This leveling course provides an introduction to the mechanical foundations of anatomical function and human movement. Qualitative and quantitative biomechanical analyses of human movement are introduced to inform the prescription of technique, equipment, and training interventions. Prerequisite: BIO 2430 or equivalent.

Grade Mode: Leveling/Assistantships
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5322. Inclusion and Diversity in Physical Activity and Sport. This course is designed to prepare physical activity and sport educators with knowledge, skills, and strategies to create inclusive learning environments. Culturally responsive teaching strategies that best accommodate the individual needs of children, adolescents, and adults, with diverse ethnic, racial, cultural, socio-economic, physical, and cognitive needs will be emphasized.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5323. Physical and Motor Assessment of Children with Disabilities. This survey course addresses the selection, administration, and interpretation of commonly used assessment tools and practices for collecting physical and motor performance data on children with disabilities.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5329. Motor Learning. This course provides students with an understanding of the physiological, neurological, and psychological factors affecting performance and acquisition of motor skills. Students will examine the structural components underlying the learning of motor skills and draw upon examples from sport, physical activities, and rehabilitation.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5344. Improving Instruction and Assessment in Physical Activity and Sport. This course is a comprehensive study of pedagogical research examining effective teaching and assessment strategies in physical activity and sport. The use of assessment to improve instruction, learning outcomes, and programming will be emphasized. The course is designed to promote reflective physical activity and sport educators.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5346. Research Methods in Health and Human Performance. A study of research methods related to techniques for searching the professional research literature, understanding, planning, and conducting professional research projects, as well as development of skills for writing research proposals related to human performance.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5347. Independent Study in Exercise Science. The course allows students to receive individualized instruction while working on a professional project with a supervising faculty member. This course will require students to enhance their writing, research, teaching, and/or presentation skills. Repeatable once for credit.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
This leveling course examines fundamental principles and techniques of measuring human performance related to Exercise and Sports Science, as well as evaluating the results of exercise science and human performance tests in children and adults. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. About Measurement & Evaluation in Exercise Science
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
About Measurement & Evaluation in Exercise Science

ESS 5353. Curriculum and Instruction in Physical Activity and Sport.
This course examines contemporary evidenced-based curriculum models. It is designed to enable students to develop and implement developmentally appropriate and theoretically based physical activity and sport programs in schools, communities, and athletic venues. About Curriculum and Instruction in Physical Activity and Sport
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Curriculum and Instruction in Physical Activity and Sport

A study of quantitative statistical methods for planning and conducting experimental and correlational research, as well as techniques for statistical data analysis and interpretation applicable to health and human performance. About Applied Statistics in Health and Human Performance
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Applied Statistics in Health and Human Performance

ESS 5391. Administrative Problems in Competitive Sports.
This course investigates problems of organization and administration of the various programs in competitive sports for men and women in junior high, secondary, and collegiate levels. About Administrative Problems in Competitive Sports
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Administrative Problems in Competitive Sports

ESS 5398. Internship in Exercise and Sports Science.
This 240-hour internship provides students with work-related experience with children, adults, older individuals, or athletes in exercise settings. Students are provided an opportunity to prescribe and supervise age-appropriate and developmentally appropriate exercise programs and perform exercise tests. Prerequisite: ESS 5306. About Internship in Exercise and Sports Science
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
About Internship in Exercise and Sports Science

ESS 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis course credit is awarded until the student has completed the entire thesis required in ESS 5399B. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisites: ESS 5346 and ESS 5356. About Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

ESS 5624. Principles and Practices for Teaching Physical Education.
This is a leveling class for graduate students pursuing teaching certification in physical education. Particular emphasis is placed on methods of teaching physical education. This course does not earn graduate credit. Departmental Approval required. About Principles and Practices for Teaching Physical Education
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
About Principles and Practices for Teaching Physical Education

ESS 5698. Internship in Exercise and Sports Science.
This full-time internship provides students with a minimum of 480 hours of field experience. Students will work with children, adults, older individuals, or athletes in exercise or health care settings, and prescribe and supervise age and fitness appropriate exercise programs and perform comprehensive health-related assessments. About Internship in Exercise and Sports Science
6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Standard Letter
About Internship in Exercise and Sports Science

ESS 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A. About Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

About Thesis

Master of Education (M.Ed), Major in Health Education
Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/hed.html.
Degree Requirements

Students pursuing a master of education (M.Ed.) in health education may select a thesis or non-thesis option. The thesis option requires 36 hours of course work (21 in the major, nine in the minor, and six hours of thesis work). The non-thesis option requires 36 hours of course work (21 in the major and 15 in the minor).

As background prerequisites, a health education major is expected to have a minimum of 18 semester hours of health education course work on the bachelor’s degree or complete graduate leveling courses.

Health Education Elective Course Work

Choose 6 hours from the following: 6

- H ED 5325 Ethical Principles in Health Education
- H ED 5330 Topics in Health Education
- H ED 5331 Seminar in Current Problems in Health Education
- H ED 5335 Health Education Leadership
- H ED 5340 Community Health Program Planning and Evaluation
- H ED 5347 Independent Study in Health Education Problems
- H ED 5360 Internship in Health Education

Thesis Course Work

Choose a minimum 6 hours 6

- H ED 5199B Thesis
- H ED 5299B Thesis
- H ED 5399A Thesis
- H ED 5399B Thesis
- H ED 5599B Thesis
- H ED 5999B Thesis

Minor Course Work

Choose a 9-hour minor (Needs advisor approval) 9

Total Hours 36

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and
plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Health and Human Performance: H ED (p. 980)

Courses Offered

Health Education (H ED)

H ED 5101. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in HPER. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants will be required to register for this course in the spring semester of their employment. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis.

H ED 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

H ED 5201. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in HPER. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants will be required to register for this course in the fall semester of their employment. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis.

H ED 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

H ED 5310. History and Philosophy of Health Education.
Intensive study of historical and philosophical contributions to health promotion program development. Current political issues, public health issues, and influential cultural changes are examined.

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

H ED 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

H ED 5402. History and Philosophy of Health Education.
Intensive study of historical and philosophical contributions to health promotion program development. Current political issues, public health issues, and influential cultural changes are examined.
H ED 5312. Reading, Writing, and Understanding Research in Health and Wellness Promotion.
This course provides practical experience in technical and professional writing skills. In addition, techniques to read and understand research in health and wellness promotion will be presented. Understanding application of research in school, community, and public health programs will be emphasized.
Grade Mode: Standard Letter
about Reading, Writing, and Understanding Research in Health and Wellness Promotion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5315. Application of Quantitative Data Analysis in Health and Wellness Promotion (Research II).
This course focuses on the study of introductory and intermediate statistics and procedures. Emphasis will be placed on the application level of statistics rather than the theoretical and will highlight a) how to apply statistical models, b) how to perform the analyses with social science software, and c) how to interpret findings.
Grade Mode: Standard Letter
about Application of Quantitative Data Analysis in Health and Wellness Promotion (Research II)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5320. Foundation of Public Health.
In-depth study of past and current public health programs. Department of Health Services personnel will be utilized as guest consultants to familiarize students with various existing health programs for Texas residents.
Grade Mode: Standard Letter
about Foundation of Public Health
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5321. Theoretical Foundations of Health Education.
This course focuses on the presentation and critical analysis of the role of theory in health education, the description of different theories being utilized in health education research and interventions, and the application of these theories to interventions and research.
Grade Mode: Standard Letter
about Theoretical Foundations of Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5325. Ethical Principles in Health Education.
This course provides an in-depth analysis of ethical standards, principles, and behaviors related to the field of health education. Students will explore how to apply, monitor, and model ethical standards in the profession.
Grade Mode: Standard Letter
about Ethical Principles in Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5330. Topics in Health Education.
Topics: 5330A Advanced teaching strategies. 5330B Curriculum development. 5330C Other topics as needed. May be repeated once with different emphasis for additional credit.
Grade Mode: Standard Letter
about Topics in Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5331. Seminar in Current Problems in Health Education.
Current national and international trends and problems in health that affect the school age group. May be repeated once with different emphasis for additional credit.
Grade Mode: Standard Letter
about Seminar in Current Problems in Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5335. Health Education Leadership.
Structured experiences for developing administrative leadership for health education programs. Included are leadership philosophy, staffing, programming, budgeting, public relations, facilities, and evaluations.
Grade Mode: Standard Letter
about Health Education Leadership
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5340. Community Health Program Planning and Evaluation.
Course addresses application of professional competencies in health education and promotion programs. Topics include needs assessment, data gathering techniques, instrument design, data and statistics, interpreting, reporting, and application of findings for program development. Cultural competency and communication will also be covered.
Grade Mode: Standard Letter
about Community Health Program Planning and Evaluation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5345. Issues in Human Sexuality Education.
This course provides for in depth study of sexuality education as a lifelong process of acquiring information and forming healthy attitudes, beliefs, and values regarding sexuality. Students will analyze information and educational resources for implementing and advocating for sexuality instruction through health courses, sexuality education courses, and programs.
Grade Mode: Standard Letter
about Issues in Human Sexuality Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
H ED 5346. Literature and Research in Health and Wellness Promotion (Research I).
This course focuses on research models commonly used in health and wellness promotion. Students will learn how to design research studies using accepted research methods in the social sciences. In addition, students will write the introduction, literature review, and methods for common in health and wellness promotion research.
about Literature and Research in Health and Wellness Promotion (Research I)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5347. Independent Study in Health Education Problems.
Allows for independent study of one or more problems in health education that hold special interest or offer opportunity for professional improvement and growth. Open on an individual basis by special arrangement with the Division Coordinator. Repeatable once with a different emphasis. Prerequisite: H ED 5346.
about Independent Study in Health Education Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5360. Internship in Health Education.
As an essential element in the preparation of health education specialists, this 240-hour internship provides students with professionally related experience. Students may work with diverse target audiences in health education settings. Internship is approved and supervised by health education graduate coordinator.
about Internship in Health Education
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5374. Interprofessional Service Learning in Global Health.
This advanced course focuses on principles of international health and wellness promotion with global populations. Emphasis is placed on assessing, planning, implementing, and evaluating prevention strategies. Students explore roles of health educators collaborating with providers of health services to diverse populations. The course may be repeated for credit.
about Interprofessional Service Learning in Global Health
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in H ED 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: H ED 5346.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

H ED 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

H ED 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Education (M.Ed), Major in Physical Education

Major Program
The educational foundations specialization (master’s only or master’s and teacher certification through the MAC program) is designed for individuals pursuing careers as professional educator’s (physical education teachers and coaches) in elementary, secondary, or higher education settings.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/pe.html.

Degree Requirements
Students seeking a master of education (M.Ed.) with a major in physical education may choose to pursue a minor or a specialization in educational foundations. Students may choose from the thesis (30 hours) or non-thesis (36 hours) option.
A physical education major is expected to have a minimum of 18 semester hours of physical education course work at the undergraduate level, exclusive of physical education activity courses. Students who do not have undergraduate course work in physical education may be required to complete graduate leveling courses.

Course Work Requirements
Non-thesis Option with 15-hour Minor

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer
to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Health and Human Performance: AT (p. 985), ESS (p. 986), H ED (p. 989), REC (p. 991)

**Courses Offered**

**Athletic Training (AT)**

**AT 5101. Graduate Assistant Development.**
This course is required of all graduate assistants and provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants are required to register for this course in the spring semester of their employment. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Graduate Assistant Development

**AT 5199B. Thesis.**
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

**AT 5201. Graduate Assistant Development.**
This course is required of all graduate assistants and provides in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants are required to register for this course in the fall semester of their employment. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Graduate Assistant Development

**AT 5299B. Thesis.**
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

**AT 5301. Bioenergetics of Exercise and Rehabilitation.**
This course is designed to provide both a theoretical and clinical basis for the use of therapeutic exercise in physiological basis of muscular, respiratory, cardiovascular, and nervous systems in the rehabilitation of all athletic injuries. Must be admitted to the MS in Athletic Training Program or instructor approval required.

about Bioenergetics of Exercise and Rehabilitation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bioenergetics of Exercise and Rehabilitation

**AT 5302. Special Topics in Athletic Training.**
This course is designed to educate students in the scientific process and develop an in-depth understanding of the research process in Athletic Training.

about Special Topics in Athletic Training

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Topics in Athletic Training

**AT 5303. Seminar in Athletic Training.**
Current trends in athletic and physical education concerning the care and prevention of injuries with special emphasis on therapeutic and rehabilitation techniques. Taping and bandaging will be practiced in a laboratory situation.

about Seminar in Athletic Training

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Athletic Training

**AT 5307. Bioenergetics of Exercise and Rehabilitation.**
This course is designed to provide both a theoretical and clinical basis for the use of therapeutic exercise in physiological basis of muscular, respiratory, cardiovascular, and nervous systems in the rehabilitation of all athletic injuries. Must be admitted to the MS in Athletic Training Program or instructor approval required.

about Bioenergetics of Exercise and Rehabilitation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bioenergetics of Exercise and Rehabilitation

**AT 5308. Therapeutic Exercise and Rehabilitation.**
This course is designed to provide both a theoretical and clinical basis for the use of therapeutic exercise in the rehabilitation setting, as well as to impart knowledge pertaining to the physiological effects, indications, contraindications and applications of therapeutic exercise in the rehabilitation of all athletic injuries. Must be admitted to the M.S. in Athletic Training Program.

about Therapeutic Exercise and Rehabilitation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Therapeutic Exercise and Rehabilitation
AT 5310. Proprioception and Neuromuscular Control in Rehabilitation. This course provides for an advanced study of the concepts, theories, and current research related to proprioception, postural stability, and neuromuscular control as applied to the prevention, diagnosis, and clinical management of sport-related musculoskeletal injuries and concussions. Must be admitted to the M.S. in Athletic Training Program or instructor approval required. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Proprioception and Neuromuscular Control in Rehabilitation

AT 5311. Biomechanics of Musculoskeletal Injury. This course focuses on the application of biomechanical principles to the pathoetiology, diagnosis, and physiological capacity for healing of injuries to bone, ligament, tendon, cartilage, and other human tissues, with an emphasis on current injury research. Must be admitted to the M.S. in Athletic Training Program or instructor approval required. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Biomechanics of Musculoskeletal Injury

AT 5312. Evidence-Based Practice in Sports Medicine. This course is designed to provide students with advanced study in the elements of evidence-based practice in sports medicine with focus on the role of accessing, retrieving, and critically appraising evidence to answer clinical questions in patient care. Must be admitted to the M.S. in Athletic Training Program or instructor approval required. Prerequisite: ESS 5346. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Evidence-Based Practice in Sports Medicine

AT 5318. Therapeutic Evaluation and Intervention. This course explores the scientific bases of therapeutic musculoskeletal exercise and neuromuscular evalutative techniques in the rehabilitation process. Must be admitted to the M.S. in Athletic Training Program. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Therapeutic Evaluation and Intervention

AT 5347. Independent Study in Athletic Training. This course may be taken by a student who desires to work on a research problem or investigation in Athletic Training. The student gathers and analyzes pertinent data and submits a report of the results of the research. Repeatable once for credit. Prerequisite: ESS 5346. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Independent Study in Athletic Training

AT 5399A. Thesis. This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in AT 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

AT 5399B. Thesis. This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

AT 5599B. Thesis. This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. 5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

Exercise Science Specialization (ESS)

ESS 5101. Graduate Assistant Development. This course is required of all graduate teaching and instructional assistants in the department. This course provides regular in-service and planned periodic evaluations of instructional and professional responsibilities. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis. 5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Leveling/Assistantships about Graduate Assistant Development

ESS 5117. Laboratory in Exercise Physiology. Students in this leveling laboratory course perform experiments that highlight the physiological responses to exercise. The course introduces students to basis techniques in the assessment of health and human performance, including the assessment of maximal oxygen consumption, body composition, anaerobic power and capacity, muscular fitness, movement economy, and dietary intake. Prerequisite: BIO 2430 or equivalent. Co-requisite: ESS 5117. 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Course Attribute(s): Exclude from Graduate GPA|Leveling

Grade Mode: Leveling/Assistantships about Laboratory in Exercise Physiology

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours. Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships about Laboratory in Exercise Physiology
ESS 5199B. Thesis.
This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A. Grade Mode: Credit/No Credit

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

ESS 5201. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in the department. This course provides regular in-service and planned periodic evaluations of instructional and professional responsibilities. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis. Grade Mode: Credit/No Credit

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA about Graduate Assistant Development

ESS 5299B. Thesis.
This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A. Grade Mode: Credit/No Credit

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5303. Adapted Physical Education.
A leveling course designed to provide content knowledge on legal mandates, evidence-based practices, and the characteristics of selected disabilities and their consideration when designing meaningful individualized physical activity experiences to meet the needs of students with disabilities in school settings. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5304. Motor Learning and Performance.
This course is designed to provide students the foundation for understanding the principles involved in enhancing motor skill acquisition, and physiological, neurological, and psychological factors affecting motor learning and performance. Inquiry is made into the various motor learning theories and concepts. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5305. Advanced Fitness Assessment and Exercise Prescription.
This course provides an intensive study of current scientifically based exercise testing and prescription procedures. Students will learn how to evaluate fitness and prescribe exercise through laboratory experiences. Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.

ESS 5306. Advanced Exercise Physiology.
This advanced course will provide students with a thorough understanding of the acute responses to exercise and the physiological adaptations that occur in response to exercise training. Additional topics to be covered include environmental influences, aging, and sex differences. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course will include the development, instruction, and evaluation of resistance training exercises and programs for diverse populations and settings. Physiological and mechanical principles related to resistance training will be applied to study human performance, injury prevention, and rehabilitation. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5308. Physical Activity, Exercise, and Epidemiology.
This course will provide students with opportunities to examine the role of physical inactivity in the development of chronic diseases and the benefits of activity in prevention efforts. A special emphasis will be placed on activity assessment and intervention research. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Review of current research and research techniques in the biomechanics of exercise and sport science. Students will develop skills in reviewing, planning, and conducting biomechanical research. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5310. Cardiopulmonary Exercise Physiology.
The course will provide students with a thorough understanding of the structure, function, neural mechanisms, and integrated responses of the human cardiopulmonary system to acute and chronic exercise. In addition, basic cardiopulmonary pathology, pharmacology, and electrocardiography will be introduced. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5311. Applied Neuromuscular and Skeletal Muscle Physiology.
The course will provide students with a thorough understanding of the structure and function of neuromuscular and skeletal muscle physiology. This course will examine mechanisms that regulate skeletal muscle force production and human performance in response to acute and chronic exercise. In addition, advanced laboratory techniques will be introduced. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ESS 5317. Exercise Physiology.
This leveling course provides an overview of the acute and chronic physiological responses to exercise. Emphasis is on muscle bioenergetics, muscle contractile properties, optimizing human performance through training and supplementation, as well as cardiopulmonary and endocrine responses to exercise. Prerequisite: BIO 2430 or equivalent. Corequisite: ESS 5117.

Grade Mode: Leveling/Assistantships
about Exercise Physiology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling

ESS 5319. Motor Learning.
This course provides students with an understanding of the physiological, neurological, and psychological factors affecting performance and acquisition of motor skills. Students will examine the structural components underlying the learning of motor skills and draw upon examples from sport, physical activities, and rehabilitation.

Grade Mode: Standard Letter
about Motor Learning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5320. Biomechanics.
This leveling course provides an introduction to the mechanical foundations of anatomical function and human movement. Qualitative and quantitative biomechanical analyses of human movement are introduced to inform the prescription of technique, equipment, and training interventions. Prerequisite: BIO 2430 or equivalent.

Grade Mode: Leveling/Assistantships
about Biomechanics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling

ESS 5322. Inclusion and Diversity in Physical Activity and Sport.
This course is designed to prepare physical activity and sport educators with knowledge, skills, and strategies to create inclusive learning environments. Culturally responsive teaching strategies that best accommodate the individual needs of children, adolescents, and adults, with diverse ethnic, racial, cultural, socio-economic, physical, and cognitive needs will be emphasized.

Grade Mode: Standard Letter
about Inclusion and Diversity in Physical Activity and Sport

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This survey course addresses the selection, administration, and interpretation of commonly used assessment tools and practices for collecting physical and motor performance data on children with disabilities.

Grade Mode: Standard Letter
about Physical and Motor Assessment of Children with Disabilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5324. Improving Instruction and Assessment in Physical Activity and Sport.
This course is a comprehensive study of pedagogical research examining effective teaching and assessment strategies in physical activity and sport. The use of assessment to improve instruction, learning outcomes, and programming will be emphasized. The course is designed to promote reflective physical activity and sport educators.

Grade Mode: Standard Letter
about Improving Instruction and Assessment in Physical Activity and Sport

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

A study of research methods related to techniques for searching the professional research literature, understanding, planning, and conducting professional research projects, as well as development of skills for writing research proposals related to human performance.

Grade Mode: Standard Letter
about Research Methods in Health and Human Performance

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This leveling course examines fundamental principles and techniques of measuring human performance related to Exercise and Sports Science, as well as evaluating and interpreting the results of exercise science and human performance tests in children and adults. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

Grade Mode: Leveling/Assistantships
about Measurement & Evaluation in Exercise Science

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling

ESS 5327. Curriculum and Instruction in Physical Activity and Sport.
This course examines contemporary evidenced-based curriculum models. It is designed to enable students to develop and implement developmentally appropriate and theoretically based physical activity and sport programs in schools, communities, and athletic venues.

Grade Mode: Standard Letter
about Curriculum and Instruction in Physical Activity and Sport

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ESS 5356. Applied Statistics in Health and Human Performance. A study of quantitative statistical methods for planning and conducting experimental and correlational research, as well as techniques for statistical data analysis and interpretation applicable to health and human performance. about Applied Statistics in Health and Human Performance
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Applied Statistics in Health and Human Performance

ESS 5391. Administrative Problems in Competitive Sports. This course investigates problems of organization and administration of the various programs in competitive sports for men and women in junior high, secondary, and collegiate levels. about Administrative Problems in Competitive Sports
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Administrative Problems in Competitive Sports

ESS 5398. Internship in Exercise and Sports Science. This 240-hour internship provides students with work-related experience with children, adults, older individuals, or athletes in exercise settings. Students are provided an opportunity to prescribe and supervise age- and fitness-appropriate exercise programs and perform exercise tests. Prerequisite: ESS 5306. about Internship in Exercise and Sports Science
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours. Grade Mode: Standard Letter about Internship in Exercise and Sports Science

ESS 5399A. Thesis. This course represents a student’s initial thesis enrollment. No thesis course credit is awarded until the student has completed the entire thesis required in ESS 5399B. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisites: ESS 5346 and ESS 5356. about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

ESS 5399B. Thesis. This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A. about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

ESS 5599B. Thesis. This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A. about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

ESS 5624. Principles and Practices for Teaching Physical Education. This is a leveling class for graduate students pursuing teaching certification in physical education. Particular emphasis is placed on methods of teaching physical education. This course does not earn graduate credit. Departmental Approval required. about Principles and Practices for Teaching Physical Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from Graduate GPA Leveling about Principles and Practices for Teaching Physical Education

ESS 5698. Internship in Exercise and Sports Science. This full-time internship provides students with a minimum of 480 hours of field experience. Students will work with children, adults, older individuals, or athletes in exercise or health care settings, and prescribe and supervise age and fitness appropriate exercise programs and perform comprehensive health-related assessments. about Internship in Exercise and Sports Science
6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours. Grade Mode: Standard Letter about Internship in Exercise and Sports Science

ESS 5999B. Thesis. This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the completed thesis is submitted for binding. Graded on a credit (CR), in progress (PR), or no credit (F) basis. Prerequisite: ESS 5399A. about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

Health Education (H ED)

H ED 5101. Graduate Assistant Development. This course is required of all graduate teaching and instructional assistants in HPER. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants will be required to register for this course in the spring semester of their employment. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis. about Graduate Assistant Development
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA Leveling about Graduate Assistant Development

H ED 5199B. Thesis. This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis
H ED 5201. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in HPED. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants will be required to register for this course in the fall semester of their employment. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis.

about Graduate Assistant Development
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5310. History and Philosophy of Health Education.
Intensive study of historical and philosophical contributions to health promotion program development. Current political issues, public health issues, and influential cultural changes are examined.

about History and Philosophy of Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5312. Reading, Writing, and Understanding Research in Health and Wellness Promotion.
This course provides practical experience in technical and professional writing skills. In addition, techniques to read and understand research in health and wellness promotion will be presented. Understanding application of research in school, community, and public health programs will be emphasized.

about Reading, Writing, and Understanding Research in Health and Wellness Promotion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5315. Application of Quantitative Data Analysis in Health and Wellness Promotion (Research II).
This course focuses on the study of introductory and intermediate statistics and procedures. Emphasis will be placed on the application level of statistics rather than the theoretical and will highlight a) how to apply statistical models, b) how to perform the analyses with social science software, and c) how to interpret findings.

about Application of Quantitative Data Analysis in Health and Wellness Promotion (Research II)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5320. Foundation of Public Health.
In-depth study of past and current public health programs. Department of Health Services personnel will be utilized as guest consultants to familiarize students with various existing health programs for Texas residents.

about Foundation of Public Health
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5321. Theoretical Foundations of Health Education.
This course focuses on the presentation and critical analysis of the role of theory in health education, the description of different theories being utilized in health education research and interventions, and the application of these theories to interventions and research.

about Theoretical Foundations of Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5325. Ethical Principles in Health Education.
This course provides an in-depth analysis of ethical standards, principles, and behaviors related to the field of health education. Students will explore how to apply, monitor, and model ethical standards in the profession.

about Ethical Principles in Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5330. Topics in Health Education.
Topics: 5330A Advanced teaching strategies. 5330B Curriculum development. 5330C Other topics as needed. May be repeated once with a different emphasis for additional credit.

about Topics in Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5331. Seminar in Current Problems in Health Education.
Current national and international trends and problems in health that affect the school age group. May be repeated once with different emphasis for additional credit.

about Seminar in Current Problems in Health Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5335. Health Education Leadership.
Structured experiences for developing administrative leadership for health education programs. Included are leadership philosophy, staffing, programming, budgeting, public relations, facilities, and evaluations.

about Health Education Leadership
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5336. Education Leadership.
H ED 5340. Community Health Program Planning and Evaluation.
Course addresses application of professional competencies in health education and promotion programs. Topics include needs assessment, data gathering techniques, instrument design, data and statistics, interpreting, reporting, and application of findings for program development. Cultural competency and communication will also be covered.
Grade Mode: Standard Letter
about Community Health Program Planning and Evaluation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

H ED 5345. Issues in Human Sexuality Education.
This course provides for in depth study of sexuality education as a lifelong process of acquiring information and forming healthy attitudes, beliefs, and values regarding sexuality. Students will analyze information and educational resources for implementing and advocating for sexuality instruction through health courses, sexuality education courses, and programs.
about Issues in Human Sexuality Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5346. Literature and Research in Health and Wellness Promotion (Research I).
This course focuses on research models commonly used in health and wellness promotion. Students will learn how to design research studies using accepted research methods in the social sciences. In addition, students will write the introduction, literature review, and methods sections common in health and wellness promotion research.
about Literature and Research in Health and Wellness Promotion (Research I)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5347. Independent Study in Health Education Problems.
Allows for independent study of one or more problems in health education that hold special interest or offer opportunity for professional improvement and growth. Open on an individual basis by special arrangement with the Division Coordinator. Repeatable once with a different emphasis. Prerequisite: H ED 5346.
about Independent Study in Health Education Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5360. Internship in Health Education.
As an essential element in the preparation of health education specialists, this 240-hour internship provides students with professionally related experience. Students may work with diverse target audiences in health education settings. Internship is approved and supervised by health education graduate coordinator.
about Internship in Health Education
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5374. Interprofessional Service Learning in Global Health.
This advanced course focuses on principles of international health and wellness promotion with global populations. Emphasis is placed on assessing, planning, implementing, and evaluating prevention strategies. Students will explore roles of health educators collaborating with providers of health services to diverse populations. The course may be repeated for credit.
about Interprofessional Service Learning in Global Health
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

H ED 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in H ED 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: H ED 5346.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

H ED 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

H ED 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Recreation (REC)
REC 5101. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in Health and Human Performance. It provides regular in-service and planned evaluations of instructional responsibilities. Registration is required of Graduate Teaching Assistants in the spring semester of employment. This course does not earn graduate credit. Graded on credit (CR), no-credit (F) basis.
about Graduate Assistant Development
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Standard Letter
about Leisure Enhancement in Later Life Dementia Studies in the United Kingdom - Study Abroad

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

A seminar style course where students investigate current events on the provision of services. This course will address that need.

Grade Mode: Standard Letter
about Issues and Trends in Recreation and Leisure Services

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5325. Philosophical Foundations of Therapeutic Recreation.
Course covers therapeutic recreation practices, history of the profession, current trends, and various disabilities and disorders across the lifespan. Through field-based activities, students will develop skills and abilities necessary to provide services to persons with disabilities.

Grade Mode: Standard Letter
about Philosophical Foundations of Therapeutic Recreation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
This course addresses advanced practices and intervention strategies for provision of services to persons with disabilities. Students will gain an understanding of theoretical models and learn how to apply these models when analyzing activity selection and documenting client outcomes. Prerequisite: REC 5325 or REC 5318F.
Grade Mode: Standard Letter
about Advanced Practices and Interventions in Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5327. Advanced Assessment and Documentation in Therapeutic Recreation.
This course provides for the study of advanced assessments and documentation related to persons with disabilities. Students will gain an understanding of standardized assessments in therapeutic recreation, including composition, implementation, and evaluation of results. Prerequisite: REC 5318F or REC 5325.
Grade Mode: Standard Letter
about Advanced Assessment and Documentation in Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5328. Advanced Principles of Therapeutic Recreation.
In this course students apply advanced principles of therapeutic recreation related to persons with psychological disorders and physical disabilities. The course engages students in advanced case study design and implementation of treatment plan utilizing a transdisciplinary approach to rehabilitation. Prerequisites: REC 5318F or REC 5325 and REC 5318G or REC 5326.
Grade Mode: Standard Letter
about Advanced Principles of Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5329. Therapeutic Recreation in Psychiatric Settings.
This course applies an advanced approach of Leisure Education (LE) in the rehabilitation process for persons with psychiatric disorders. Students will have the opportunity in a field-based setting to develop skills and abilities necessary to implement LE in treating persons. Prerequisite: REC 5318F or REC 5325.
Grade Mode: Standard Letter
about Therapeutic Recreation in Psychiatric Settings
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course provides an exploration of management issues within recreation administration with an emphasis on the role of the leader as a conduit for effectiveness. Content will include theories and philosophies, processes, accountability, strategic planning, and conflict resolution applications. Prerequisite: All master-level coursework required by degree plan and National Council for Therapeutic Recreation Certification guidelines.
Grade Mode: Standard Letter
about Applications of Management and Leadership in Leisure Services
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5331. Internship in Therapeutic Recreation.
A seminar style course that focuses on legal and ethical issues related to the solution of research problems inwe this field. Prerequisite: REC 5340.
Grade Mode: Standard Letter
about Internship in Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5332. Independent Study in Recreational Administration.
Individual study related to recreational administration under direct supervision of a faculty member. May be repeated for additional credit at the discretion of the department chair. Prerequisite: All master-level coursework required by degree plan and National Council for Therapeutic Recreation Certification guidelines.
Grade Mode: Standard Letter
about Independent Study in Recreational Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5333. Social Psychology of Recreation and Leisure.
To provide an introduction and overview of the personal, social and social-psychological contexts of leisure; utilizing current literature the course will focus on examining leisure and recreation behavior from psychological, sociological and social-psychological constructs that are contributing to a contemporary, interdisciplinary understanding of the leisure phenomenon. Prerequisite: REC 5330.
Grade Mode: Standard Letter
about Social Psychology of Recreation and Leisure
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5334. Literature and Research.
Directed reading, reports, and discussions of the current literature in the field of education, a critical analysis of research techniques and the locations and securing of information, together with the steps necessary to the solution of research problems in this field. Prerequisite: REC 5333.
Grade Mode: Standard Letter
about Literature and Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5335. Introduction to Therapeutic Recreation.
A seminar style course that focuses on the legal and ethical issues related to recreation and leisure services. Tort law, participant rights, accessibility, credentialing, and others are topics to be addressed in this course. Prerequisite: REC 5334.
Grade Mode: Standard Letter
about Introduction to Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5336. Legal and Ethical Issues in Recreation and Leisure Services.
A seminar style course that focuses on legal and ethical issues related to recreation and leisure services. Tort law, participant rights, accessibility, credentialing, and others are topics to be addressed in this course. Prerequisite: REC 5335.
Grade Mode: Standard Letter
about Legal and Ethical Issues in Recreation and Leisure Services
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5337. Independent Study in Recreational Administration.
Individual study related to recreational administration under direct supervision of a faculty member. May be repeated for additional credit at the discretion of the department chair. Prerequisite: REC 5336.

about Independent Study in Recreational Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Master of Science in Recreation and Leisure Services (M.S.R.L.S.), Major in Recreation and Leisure Services - Recreation Management

**Major Program**

The master of science in recreation and leisure services (M.S.R.L.S.) program is designed to prepare administrators, supervisors, educators, consultants, and researchers to assist people toward richer lives through leisure experiences. Recreation management encompasses the administration and supervision of recreation and leisure services. Recreational professionals seeking course work for certification as Certified Park & Recreation Professional (CPRP) would enroll in this option.

A recreation and leisure services major is expected to have a minimum of 18 semester hours of recreation course work on the bachelor’s degree. Students in the recreation management major must have undergraduate hours in marketing and management and demonstrate competency in those areas.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/rmgt.html.

**Degree Requirements**

M.S.R.L.S. students may pursue a thesis (30 hours) or non-thesis (36 hours) option.

**Thesis Option**

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the *Graduate College Guide to Preparing and Submitting a Thesis or Dissertation*. The thesis handbook may be accessed at [http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf).

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at [http://www.gradcollege.txstate.edu/gcforms.html](http://www.gradcollege.txstate.edu/gcforms.html). After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form...
be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Health and Human Performance: REC

Courses Offered
Recreation (REC)

REC 5101. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in Health and Human Performance. It provides regular in-service and planned evaluations of instructional responsibilities. Registration is required of Graduate Teaching Assistants in the spring semester of employment. This course does not earn graduate credit. Graded on credit (CR), no-credit (F) basis.

REC 5325. Philosophical Foundations of Therapeutic Recreation.
Course covers therapeutic recreation practices, history of the profession, current trends, and various disabilities and disorders across the lifespan. Through field-based activities, students will develop skills and abilities necessary to provide services to persons with disabilities.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course addresses advanced practices and intervention strategies for the provision of services to persons with disabilities. Students will gain an understanding of theoretical models and learn how to apply these models when analyzing activity selection and documenting client outcomes.

Prerequisite: REC 5325 or REC 5318F.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5327. Advanced Assessment and Documentation in Therapeutic Recreation.
This course provides for the study of advanced assessments and documentation related to persons with disabilities. Students will gain an understanding of standardized assessments in therapeutic recreation, including composition, implementation, and evaluation of results.

Prerequisite: REC 5318F or REC 5325.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
REC 5328. Advanced Principles of Therapeutic Recreation.
In this course students apply advanced principles of therapeutic recreation related to persons with psychological disorders and physical disabilities. The course engages students in advanced case study design and implementation of treatment plan utilizing a transdisciplinary approach to rehabilitation. Prerequisites: REC 5318F or REC 5325 and REC 5318G or REC 5326.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5329. Therapeutic Recreation in Psychiatric Settings.
This course applies an advanced approach of Leisure Education (LE) in the rehabilitation process for persons with psychiatric disorders. Students will have the opportunity in a field-based setting to develop skills and abilities necessary to implement LE in treating persons. Prerequisite: REC 5318F or REC 5325.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course provides an exploration of management issues within recreation administration with an emphasis on the role of the leader as a conduit for effectiveness. Content will include theories and philosophies, processes, accountability, strategic planning, and conflict resolution applications.

Individual study related to recreational administration under direct supervision of a faculty member. May be repeated for additional credit at the discretion of the department chair.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5338. Internship in Therapeutic Recreation.
This course provides students the opportunity to complete an intensive, on-site internship under the supervision of a Nationally Certified Therapeutic Recreation Specialist. Students will complete 480 hours in a clinical or community setting. Prerequisite: All master-level coursework required by degree plan and National Council for Therapeutic Recreation Certification guidelines.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5340. Social Psychology of Recreation and Leisure.
To provide an introduction and overview of the personal, social and social-psychological contexts of leisure; utilizing current literature the course will focus on examining leisure and recreation behavior from psychological, sociological and social-psychological constructs that are contributing to a contemporary, interdisciplinary understanding of the leisure phenomenon.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5346. Literature and Research.
Directed reading, reports, and discussions of the current literature in the field of education, a critical analysis of research techniques and the locations and securing of information, together with the steps necessary to the solution of research problems in this field.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5350. Legal and Ethical Issues in Recreation and Leisure Services.
A seminar style course that focuses on legal and ethical issues related to recreation and leisure services. Tort law, participant rights, accessibility, credentialing, and others are topics to be addressed in this course.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5355. Introduction to Therapeutic Recreations.
History, philosophy, appropriate terminology, and professional opportunities in therapeutic recreation profession. Identification of client groups and the role leisure time activity plays in their lives.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5360. Applications of Marketing and Finance in Recreation.
This course is a study of marketing and financial concepts, principles, and techniques as they relate to recreation and leisure delivery systems. These include full cost accounting, pricing, financial management, distribution, promotional techniques, marketing plans, alternative funding and proposals.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REC 5365. Practices and Interventions in Therapeutic Recreation.
Acquiring knowledge, understanding, and application of practices in therapeutic recreation services. Emphasis on facilitation and intervention strategies and “helping” techniques in clinical and community settings, as they relate to administration and current critical issues facing the field.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
REC 5375. Assessment and Documentation in Therapeutic Recreation. Broadens one’s knowledge, understanding of the assessment and documentation process for various populations served; including assessment background, selection of the appropriate tools, techniques; and development of professional documentation skills with regard to client outcomes in all aspects of therapeutic recreation services. about Assessment and Documentation in Therapeutic Recreation 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Assessment and Documentation in Therapeutic Recreation

REC 5380. Administering Leisure Delivery Systems. This course content provides students with program development and administration tools developed and tested within the recreation industry. Topics may include the exploration of programming and organizational theory, administrative processes, and the application of the organizational principles to the recreation service delivery systems. about Administering Leisure Delivery Systems 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Administering Leisure Delivery Systems

REC 5385. Principles of Therapeutic Recreation. Knowledge and understanding of the principles of therapeutic recreation services. Acquiring ability to apply this knowledge in developing therapeutic recreation programs and services related to motor, social, and educational needs of participants. about Principles of Therapeutic Recreation 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Principles of Therapeutic Recreation

REC 5399A. Thesis. This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in REC 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

REC 5399B. Thesis. This course represents a student’s continued thesis enrollment. No thesis credit is awarded until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis 9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

Master of Science in Recreation and Leisure Services (M.S.R.L.S.), Major in Recreation and Leisure Services - Therapeutic Recreation

Major Program
The master of science in recreation and leisure services (M.S.R.L.S.) program is designed to prepare administrators, supervisors, educators, consultants, and researchers to assist people toward richer lives through leisure experiences. Therapeutic recreation focuses on enabling individuals with special needs to experience the same leisure options as able-bodied individuals through the use of recreation as a treatment and education modality. Individuals seeking to become a Certified Therapeutic Recreation Specialist (CTRS) would enroll in this option.

A recreation and leisure services major is expected to have a minimum of 18 semester hours of recreation course work on the bachelor’s degree. Students in the recreation management major must have undergraduate hours in marketing and management, and demonstrate competency in those areas.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/rtmgt.html.

Degree Requirements
M.S.R.L.S. students may pursue a thesis (30 hours) or non-thesis (36 hours) option.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

### Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcfms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval prior to proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

### Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

### Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.
A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Health and Human Performance: REC (p. 1001)

Courses Offered
Recreation (REC)

REC 5101. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in Health and Human Performance. It provides regular in-service and planned evaluations of instructional responsibilities. Registration is required of Graduate Teaching Assistants in the spring semester of employment. This course does not earn graduate credit. Graded on credit (CR), no-credit (F) basis.

Grade Mode: Credit/No Credit

REC 5199B. Thesis.
This course represents a student’s continued thesis enrollment. No thesis credit is awarded until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

REC 5201. Graduate Assistant Development.
This course is required of all graduate teaching and instructional assistants in HPER. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. Graduate assistants will be required to register for this course in the fall semester of their employment. This course does not earn graduate credit. Graded on credit (CR), no-credit (F) basis.

Grade Mode: Credit/No Credit

REC 5299B. Thesis.
This course represents a student’s continued thesis enrollment. No thesis credit is awarded until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

To introduce and explore the meanings of leisure, leisure behavior, and leisure services from historical, philosophical, sociological, and political perspectives. Students will develop a philosophical view of leisure based on exploration of the history of leisure and the leisure profession as well as consideration of the nature of the individual and society.

Grade Mode: Standard Letter

Modern society has increasingly been redefined by practices contextualized by leisure/recreation and embedded in the essence of leisure. Another definer of modern life is technology. This course is a critical survey of the confluence of these two domains, with new meanings made evident. Technology topics may vary. Open to non-majors.

Grade Mode: Standard Letter

Grade Mode: Standard Letter
REC 5318E. Physical environment, life and leisure I: Built public spaces and the leisure experience.
The physical environment is not only a container of human action, it is also itself experienced by people. This course will examine how the human-made environment is a source of meaning and experience and suggest, consequently, how it can be modeled to facilitate preferences by users. Open to non-majors.
about Physical environment, life and leisure I: Built public spaces and the leisure experience
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Physical environment, life and leisure I: Built public spaces and the leisure experience

REC 5318L. Outdoor Recreation Leadership and Administration.
Students will become knowledgeable of the theoretical foundations of outdoor and adventure recreation programming and sustainable ecotourism. Principles and procedures for developing and leading recreation programs in a variety of specialized, outdoor environments will be studied. Leave No Trace competency and outdoor skills will be analyzed and demonstrated in outdoor settings.
about Outdoor Recreation Leadership and Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Outdoor Recreation Leadership and Administration

REC 5320A. Leisure Enhancement in Later Life Dementia Studies in the United Kingdom - Study Abroad.
This study abroad course focuses on selected topics in Therapeutic Recreation in the UK (London, England/Stirling, Scotland) and ties in dementia care site observations and training with St. Christopher's Hospice and Stirling University Dementia Studies program.
about Leisure Enhancement in Later Life Dementia Studies in the United Kingdom - Study Abroad
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

a seminar style course where students investigate current events on the provision of services. This course will address that need.
about Issues and Trends in Recreation and Leisure Services
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Issues and Trends in Recreation and Leisure Services

REC 5325. Philosophical Foundations of Therapeutic Recreation.
Course covers therapeutic recreation practices, history of the profession, current trends, and various disabilities and disorders across the lifespan. Through field-based activities, students will develop skills and abilities necessary to provide services to persons with disabilities.
about Philosophical Foundations of Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Philosophical Foundations of Therapeutic Recreation

This course addresses advanced practices and intervention strategies for provision of services to persons with disabilities. Students will gain an understanding of theoretical models and learn how to apply these models when analyzing activity selection and documenting client outcomes.
Prerequisite: REC 5325 or REC 5318F.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices and Interventions in Therapeutic Recreation

REC 5327. Advanced Assessment and Documentation in Therapeutic Recreation.
This course provides for the study of advanced assessments and documentation related to persons with disabilities. Students will gain an understanding of standardized assessments in therapeutic recreation, including composition, implementation, and evaluation of results.
Prerequisite: REC 5318F or REC 5325.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Assessment and Documentation in Therapeutic Recreation

REC 5328. Advanced Principles of Therapeutic Recreation.
In this course students apply advanced principles of therapeutic recreation related to persons with psychological disorders and physical disabilities. The course engages students in advanced case study design and implementation of treatment plan utilizing a transdisciplinary approach to rehabilitation. Prerequisites: REC 5318F or REC 5325 and REC 5318G or REC 5326.
about Advanced Principles of Therapeutic Recreation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Principles of Therapeutic Recreation

REC 5329. Therapeutic Recreation in Psychiatric Settings.
This course applies an advanced approach of Leisure Education (LE) in the rehabilitation process for persons with psychiatric disorders. Students will have the opportunity in a field-based setting to develop skills and abilities necessary to implement LE in treating persons.
Prerequisite: REC 5318F or REC 5325.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Therapeutic Recreation in Psychiatric Settings

This course provides an exploration of management issues within recreation administration with an emphasis on the role of the leader as a conduit for effectiveness. Content will include theories and philosophies, processes, accountability, strategic planning, and conflict resolution applications.
about Applications of Management and Leadership in Leisure Services
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Applications of Management and Leadership in Leisure Services
REC 5337. Independent Study in Recreational Administration.  
Individual study related to recreational administration under direct supervision of a faculty member. May be repeated for additional credit at the discretion of the department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Independent Study in Recreational Administration

REC 5338. Internship in Therapeutic Recreation.  
This course provides students the opportunity to complete an intensive, on-site internship under the supervision of a Nationally Certified Therapeutic Recreation Specialist. Students will complete 480 hours in a clinical or community setting. Prerequisite: All master-level coursework required by degree plan and National Council for Therapeutic Recreation Certification guidelines.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Internship in Therapeutic Recreation

REC 5340. Social Psychology of Recreation and Leisure.  
To provide an introduction and overview of the personal, social and social-psychological contexts of leisure; utilizing current literature the course will focus on examining leisure and recreation behavior from psychological, sociological and social-psychological constructs that are contributing to a contemporary, interdisciplinary understanding of the leisure phenomenon.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Social Psychology of Recreation and Leisure

REC 5346. Literature and Research.  
Directed reading, reports, and discussions of the current literature in the field of education, a critical analysis of research techniques and the locations and securing of information, together with the steps necessary to the solution of research problems in this field.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Literature and Research

REC 5350. Legal and Ethical Issues in Recreation and Leisure Services.  
A seminar style course that focuses on legal and ethical issues related to recreation and leisure services. Tort law, participant rights, accessibility, credentialing, and others are topics to be addressed in this course.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Legal and Ethical Issues in Recreation and Leisure Services

REC 5355. Introduction to Therapeutic Recreation.  
History, philosophy, appropriate terminology, and professional opportunities in therapeutic recreation profession. Identification of client groups and the role leisure time activity plays in their lives.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Introduction to Therapeutic Recreation

REC 5360. Applications of Marketing and Finance in Recreation.  
This course is a study of marketing and financial concepts, principles, and techniques as they relate to recreation and leisure delivery systems. These include full cost accounting, pricing, financial management, distribution, promotional techniques, marketing plans, alternative funding and proposals.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Applications of Marketing and Finance in Recreation

REC 5365. Practices and Interventions in Therapeutic Recreation.  
Acquiring knowledge, understanding, and application of practices in therapeutic recreation services. Emphasis on facilitation and intervention strategies and “helping” techniques in clinical and community settings, as they relate to administration and current critical issues facing the field.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Practices and Interventions in Therapeutic Recreation

REC 5375. Assessment and Documentation in Therapeutic Recreation.  
Broadens one’s knowledge, understanding of the assessment and documentation process for various populations served; including assessment background, selection of the appropriate tools, techniques; and development of professional documentation skills with regard to client outcomes in all aspects of therapeutic recreation services.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Assessment and Documentation in Therapeutic Recreation

This course content provides students with program development and administration tools developed and tested within the recreation industry. Topics may include the exploration of programming and organizational theory, administrative processes, and the application of the organizational principles to the recreation service delivery systems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Administering Leisure Delivery Systems

REC 5385. Principles of Therapeutic Recreation.  
Knowledge and understanding of the principles of therapeutic recreation services. Acquiring ability to apply this knowledge in developing therapeutic recreation programs and services related to motor, social, and educational needs of participants.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

about Principles of Therapeutic Recreation

REC 5399A. Thesis.  
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in REC 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit

The ever-accelerating advance of technology is bringing down borders and transforming our world into a global community—a diverse community in need of a common language. Art has always been an influential voice, and today the potential for the communicative power of art is greater than ever. Today’s world needs the visual arts.

At Texas State, we strive to educate our students to not only master traditional media and skills of art and design, but also to think, research and problem-solve. This rich combination approach provides a strong foundation for mastery and equips students to communicate a personal vision or a client’s vision. The faculty of the School of Art and Design aim for our graduates not only to make significant contributions to the world of art and design but also to take leadership roles within their communities.

Our facilities provide students with state of the art resources. This, coupled with the excellence of our nationally and internationally recognized faculty, allows us to offer our students outstanding academic curricula and a broad scope of professional expertise.

Master of Fine Arts (M.F.A.), Major in Communication Design

Major Program
The master of fine arts (M.F.A.) with a major in communication design is the terminal degree in the discipline. The curriculum is designed to provide advanced study in the areas of corporate advertising art direction, graphic design, and digital media design.

The graduate program provides students with the knowledge and expertise to attain the following: exploration of advanced problem-solving methodologies, updating technological advancement relating to communication design, examining historical events, theoretical constructs within communication design, and preparation for a career teaching in higher education.

Students will have the opportunity to complete a portion of the degree by the means of online instruction, extended weekend seminars, evening courses, blended (mix of online and face-to-face), and directed study courses.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/cmdes.html.

Degree Requirements
The degree will require a minimum of 60 semester credit hours:

Required Core
ARTC 5340 Contemporary Issues and Criticism 3
ARTC 5341 Modernism and Design 3
ARTC 5342 Postmodernism and Typography 3
ARTC 5343 Communication Design Seminar 3
ARTC 5370 Professional Practice (Taken twice for credit) 6

Prescribed Electives
Choose 30 hours from the following: 30
ARTC 5310 Art Direction
ARTC 5320 Web Design
ARTC 5321 Digital Imaging
ARTC 5322 Word and Image
ARTC 5330 Typography
ARTC 5331 Corporate Identity Systems
ARTC 5332 Corporate Marketing Materials
ARTC 5333 The Experimental Book
ARTC 5350 Special Problems in Communication Design
ARTC 5360C Environmental Graphic Design Systems
ARTC 5360D Typeface Design
ARTC 5360E Sustainable Packaging Design
ARTC 5360G Interactive Design
ARTC 5360H Mobile and Social Media

Free Electives 6
Choose 6 hours in consultation with the graduate advisor

Thesis Course Work
Choose a minimum 6 hours 6
ARTC 5199B Thesis
ARTC 5299B Thesis
ARTC 5399A Thesis
ARTC 5399B Thesis
ARTC 5599B Thesis
ARTC 5999B Thesis

Total Hours 60

In addition to the required credit hours, the degree requires a Mid-Program Portfolio Review. The review will occur after students successfully complete 30 credit hours. The graduate advisor and select M.F.A. faculty will assess each Mid-Term Portfolio component. Passing Mid-Program Portfolio Review will allow the student to continue with
their graduate study. The student with an unsatisfactory Mid-Program Portfolio Review will be allowed to make portfolio work revisions and resubmit (one resubmission only) the portfolio work for reassessment (one time).

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the student matters of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Art and Design: ARTC (p. 1006), ARTH (p. 1010), ARTS (p. 1010), ARTT (p. 1010)

Grade Mode: Leveling/Assistantships
about Graduate Assistant Development

This course may be taken only to fulfill communication design background. Students will acquire knowledge and graphic design skills necessary for advanced studies. This course does not earn graduate degree credit. Prerequisites: Consent of the graduate advisor. Repeatable with different emphasis. Graded on a credit (CR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Communication Design Foundations

ARTC 5310. Art Direction.
Advanced in-depth instruction involving conceptual principles, design, copy strategies, and branding methods in print, broadcast, and e-commerce advertising art direction and design. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Art Direction

ARTC 5313. Communication Design Advanced Problems.
An independent study in communication design, which requires students to pursue complex design problems. Goals and objectives will be outlined in a written format. May be repeated with different emphasis for additional credit. Prerequisite: Permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Communication Design Advanced Problems

ARTC 5320. Web Design.
Students will research, create, and produce advanced online products for Internet. Emphasis is placed on information architecture, interface design, and navigation constructs in order to produce unique online communications. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Web Design

ARTC 5321. Digital Imaging.
Exploration and experimental usage of digital black and white and color imagery utilizing non-traditional approaches to image making. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Digital Imaging

ARTC 5322. Word and Image.
Exploration and experimental usage of the written word integrated with visual forms by using digital and traditional photographic, illustrated, and graphic media. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Word and Image

ARTC 5330. Typography.
This course examines the traditional and experimental advanced usage of type and its relationship to the symbolic or communicative message. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Typography

ARTC 5331. Corporate Identity Systems.
Students explore complex corporate and institutional identity systems. Concept, design, program continuity, and branding in the marketplace will be emphasized. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Corporate Identity Systems

This course will explore advanced development of typographic elements, layout grid constructs, photo-imagery, and illustration for publication of corporate marketing materials. Repeatable up to 3 times when the area(s) of study change.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Corporate Marketing Materials
ARTC 5333. The Experimental Book.
Students explore the experimental printed book including concept, design, and unique production such as unique binding methods. Repeatable up to 3 times when the area(s) of study change.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Experimental Book
ARTC 5340. Contemporary Issues and Criticism.
This course examines emerging issues in graphic design and design criticism, primarily from the turn of the 21st century to the present. Students will learn to analyze and critique graphic design, and will produce a work of critical writing.
about Contemporary Issues and Criticism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Contemporary Issues and Criticism
ARTC 5341. Modernism and Design.
This course explores the modernist movement in design, as it emerged in Europe and America in the early twentieth century. Topics include: visual cultural theory, the origins of modernism, Dada, Constructivism, DeStijl, the Bauhaus, and American modernism.
about Modernism and Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Modernism and Design
ARTC 5342. Postmodernism and Typography.
This course explores the relationship between form and content through the lens of graphic design and typography from the 1960s through 1990s, with a focus on postmodernism. Topics include: new wave and experimental typography, design authorship, appropriation, deconstruction, narrative structures, and new media.
about Postmodernism and Typography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Postmodernism and Typography
ARTC 5343. Communication Design Seminar.
This course examines communication design research methods, modes of practice, and models of the creative process. Students will engage in individual research inquiries, in order to develop the topic for their master’s thesis in Communication Design.
about Communication Design Seminar
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Communication Design Seminar
ARTC 5350. Special Problems in Communication Design.
An independent study requiring complex problem-solving in communication design. Repeatable up to 3 times when the area(s) of study change.
about Special Problems in Communication Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Problems in Communication Design
ARTC 5360C. Environmental Graphic Design Systems.
This course will explore complex corporate, consumer, and institutional environmental systems. Concept, design, program continuity, and environmental graphic design systems (EGDS) in the marketplace will be emphasized. Repeatable up to 3 times when the area(s) of study change.
about Environmental Graphic Design Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Environmental Graphic Design Systems
ARTC 5360D. Typeface Design.
This course explores the detailed anatomy of typefaces in order to design custom typefaces through various applications. Students with an advanced knowledge of typography will research detailed type anatomy as well as historical and cultural typographic constructs. Repeatable up to 3 times when the area(s) of study change.
about Typeface Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Typeface Design
ARTC 5360E. Sustainable Packaging Design.
Students will explore the role of sustainable package design in context to meeting the requirements of clients and consumers in the global marketplace. Repeatable up to 3 times when the area(s) of study change.
about Sustainable Packaging Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Sustainable Packaging Design
ARTC 5360F. Communication Design Business Strategies.
In this course, the student will be exposed to the principles of project, studio, marketing, and business development management as it relates to the business operations of a communication design studio. Repeatable up to 3 times when the area(s) of study change.
about Communication Design Business Strategies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Communication Design Business Strategies
ARTC 5360G. Interactive Design.
This course explores the concept of interactivity in all its form, from the digital to the physical as it relates to communication design. Repeatable up to 3 times when the area(s) of study change.
about Interactive Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Interactive Design
ARTC 5360H. Mobile and Social Media.
In this course, the student explores the implications of social networking and mobile communications in contemporary communication design. Repeatable up to 3 times when the area(s) of study change.
about Mobile and Social Media
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Mobile and Social Media

ARTC 5360L. User Experience Design.
This course explores advanced concepts in user-centered mobile applications, Web site, and operating system interface design. Students will solve design problems that take into account a holistic view of the user and how they interact with software. Repeatable up to 3 times when the area(s) of study change.
about User Experience Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about User Experience Design

ARTC 5360M. Design for Social Impact.
This course will provide a platform to explore the ways that design processes can be applied in order to enable positive social change. The course reconsiders the role of the designer in the context of the social sector. Repeatable up to 3 times when the area(s) of emphasis change.
about Design for Social Impact
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Design for Social Impact

ARTC 5360N. Alternative Printing Methods.
This course will explore hands-on printing methods for designers. Letterpress, screen-printing and other alternative printing methods will be explored to visually express design concepts. Repeatable up to 3 times when the area(s) of study change.
about Alternative Printing Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Alternative Printing Methods

ARTC 5360O. Kinetic Typography.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in ARTC 5399B. Graded on a credit (CR), program (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours.
Grade Mode: Standard Letter
about Thesis

ARTC 5360P. Thesis.
The course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in ARTC 5399B. Graded on a credit (CR), program (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ARTC 5399A. Thesis.
The course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis
ARTC 5999B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. 
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Credit/No Credit
about Thesis

ARTC 5999B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. 
about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Credit/No Credit
about Thesis

Art History (ARTH)
ARTH 5302. Special Problems Advanced.
An independent study course involved with art history, aesthetics, and criticism. The emphasis of the course in on scholarship, research, and writing. May be repeated with different emphasis for additional credit. Prerequisite: Permission of instructor. 
about Special Problems Advanced
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter
about Special Problems Advanced

Studio Art (ARTS)
ARTS 5301. 2-D Advanced Special Problems.
An independent study in 2-D studio art, which requires a student to pursue a personal conceptual direction and to develop the technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Permission of instructor required to enroll. 
about 2-D Advanced Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 
Grade Mode: Standard Letter
about 2-D Advanced Special Problems

ARTS 5302. 3-D Advanced Special Problems.
An independent study in studio art, which requires a student to pursue a personal conceptual direction and to develop the technical and critical skills necessary for creating a cohesive body of artwork. May be repeated with different emphasis for additional credit. Permission of instructor required to enroll. 
about 3-D Advanced Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours. 
Grade Mode: Standard Letter
about 3-D Advanced Special Problems

Art Theory & Practice (ARTT)
ARTT 5376. Research in Art Theory and Practice for Children.
Individualized study focusing on art skill and knowledge development related to children's art learning experiences. May be repeated with different emphasis for additional credit. Teaching experience or admission to graduate degree program and permission of instructor required. 
about Research in Art Theory and Practice for Children
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter
about Research in Art Theory and Practice for Children

ARTT 5377. Research in Art Theory and Practice for Adolescents and Adults.
Individualized study focusing on art skill and knowledge development related to adolescent and/or adult art experiences. May be repeated with different emphasis for additional credit. Teaching experience or admission to graduate degree and permission of instructor required. 
about Research in Art Theory and Practice for Adolescents and Adults
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Department of Communication Studies
Centennial Hall Room 205
T: 512.245.2165 F: 512.245.3138
http://www.finearts.txstate.edu/commstudies

Communication studies students are skilled researchers, writers, speakers, problem-solvers, and leaders. The faculty and staff in the Department of Communication Studies are experts at helping students understand the vital connections between research and teaching inside and outside the classroom. Twenty-one full-time faculty members are active in national and international associations, publish in peer-reviewed journals, and win numerous awards for teaching excellence.

Our international reputation comes from several collaborative research projects, faculty and student exchanges, and faculty visiting scholar appointments at Russian universities including Moscow State University, Pyatigorsk State Linguistic University, and The Cultural Institute of St. Petersburg, Russia. We also have collaborative relationships with the University of Amsterdam, Netherlands; Oxford University, England; Cambridge University, England; University of Siena, Italy; and the University of Florence, Italy.

The department also proudly sponsors the student honor society Lambda Pi Eta, the COMM Club, and the Texas State forensics team and LBJ Debate Society. The Elton Abernathy Forensics Society is Texas State’s competitive speech team. The LBJ Debate Society is named for former President Lyndon B. Johnson, who was involved in debate as a student at Texas State University. Both teams travel locally, regionally, and nationally.

Facilities
In 1998, the department moved to its new facilities in the completely renovated Centennial Hall. This new location offers outstanding resources including twenty-four faculty offices, several graduate assistant office suites, research labs, computer labs, conference rooms, several well-equipped classrooms, and a state of the art teaching theatre.
Financial Assistance
Graduate Assistantships offered at competitive stipends with waiver of out-of-state tuition are available to qualified applicants. Assistantship responsibilities include teaching communication fundamentals, serving as assistant director of forensics, or assisting faculty with research. Most assistantships are assigned in March for the fall term, but assistantships may be available for students who wish to begin the graduate program in the spring or summer.

The department offers limited scholarships for currently enrolled students. Also, the College of Fine Arts and Communication and The Graduate College provide a variety of scholarships for new and returning graduate students. See the various web sites for details.

Master of Arts (M.A.)
- Major in Communication Studies (p. 1011)

Minor
- Communication Studies (p. 1019)

Certificate Program
- Corporate Communication and Training (p. 1019)
Beebe, Steven A, Regents' Professor, Communication Studies, Ph.D., Univ of Missouri-Columbia
Burke, Patricia Jean, Assistant Professor, Communication Studies, Ph.D., University of Arizona
Burnette, Ann E, Associate Professor, Communication Studies, Ph.D., Northwestern University
Burns, Michael Edward, Senior Lecturer, Communication Studies, Ph.D., North Dakota State Univ Main Camp
Dailey, Stephanie Layne, Assistant Professor, Communication Studies, Ph.D., University of Texas at Austin
Fox, Rebekah L, Associate Professor, Communication Studies, Ph.D., Purdue University Main Campus
Horan, Sean M, Assistant Professor, Communication Studies, Ph.D., West Virginia University
Houser, Marian L, Professor, Communication Studies, Ph.D., University of Tennessee
Keeley-Vassberg, Maureen, Professor, Communication Studies, Ph.D., University of Iowa
Mandziuk, Roseann M, Professor, Communication Studies, Ph.D., University of Iowa
Salem, Philip J, Professor, Communication Studies, Ph.D., University of Denver
Sobre, Miriam Shoshana, Assistant Professor, Communication Studies
Villagran, Melinda Morris, Chair - Professor, Communication Studies, Ph.D., Univ of Oklahoma Norman Campus
Williams, M Lee, University Distinguished Professor of Communication Studies Emeritus, Communication Studies, Ph.D., Univ of Oklahoma Norman Campus

Master of Arts (M.A.), Major in Communication Studies

Major Program
A master of arts (M.A.) with a major in communication studies offers students maximum flexibility in designing their own customized programs. Students may choose the comprehensive program or thesis program with either a resource area or minor option for course work in other departments. Students may select communication studies courses that develop expertise in one or more of the following areas: organizational communication, rhetorical studies, communication training and development, interpersonal communication, or instructional communication. Students also may select courses from related disciplines, such as mass communication, education, English, psychology, sociology, and business. The department encourages all students to explore courses that provide a breadth of knowledge about human communication.

Organizational Communication
Students primarily interested in organizational communication investigate the function, flow, and structure of communication in organizations to enhance organizational effectiveness. Key courses include such topics as: Organizational Communication, Advanced Organizational Communication Theory and Practice, Communication and Negotiation, Seminar in Communication and Technology, Communication Training and Development, and Communication Assessment.

Rhetorical Studies
Students interested in rhetorical studies investigate how symbols have the power to shape perceptions and alter attitudes. Students may select from courses that offer a broad overview of rhetorical theory and rhetorical methods. Courses with applications to specific communication contexts include Seminar in Political Communication and Organizational Rhetoric. Students may also explore special areas such as media, movements, and genres in Contemporary Rhetoric and Social Influence and Historical Rhetoric and Social Influence.

Communication Training and Development, Communication Assessment, and Organizational Communication Analysis and Development
Students who seek careers as communication trainers or human resource development specialists select from several courses that provide information and prescribe strategies to enhance communication performance. Advanced Organizational Communication Theory and Practice, Organizational Communication Analysis and Development, Communication Assessment and Seminar in Instructional Communication provide additional insight into the communication training function.

Health Communication
Students who focus on health communication investigate the essential role of communication in healthcare through a variety of courses that may include: Health Communication, Critical Health Rhetoric, Communication in Health Organizations, and Relational Health Communication. Course work in health communication explores topics such as barriers to patient and provider interactions, health communication leadership, health disparities, healthcare training and assessment, health in relationships, and healthcare team effectiveness.
Interpersonal Communication

Students who emphasize interpersonal communication take courses that focus on the role of communication in the development and maintenance of human relationships. Seminar in Interpersonal Communication provides a comprehensive review of theory and research that explores interpersonal relationships. Other courses that emphasize interpersonal communication theory and research include: Gender and Communication, Seminar in Nonverbal Communication, Communication and Negotiation, Seminar in Small Group Communication, and Seminar in Communication and Technology.

Instructional Communication

Students who wish to pursue careers in teaching at the community college level will find a broad array of courses that will prepare them for a career in education. We offer courses that focus upon communication curricula typically found in community colleges (interpersonal communication, small group communication, public speaking, and communication fundamentals). Seminar in Instructional Communication and Communication Assessment provide a classic description of the form and function of communication in instructional settings. In addition, students may select courses from our outstanding College of Education.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/comm.html.

Facilities

In 1998, the department moved to its new facilities in the completely renovated Centennial Hall. This new location offers outstanding resources including twenty-four faculty offices, several graduate assistant office suites, research labs, computer labs, conference rooms, several well-equipped classrooms, and a state of the art teaching theatre.

Faculty

The department’s communication studies faculty members are active in state, regional, national, and international associations and publish widely in professional and academic journals.

Degree Requirements

There are two program options for graduate students; the comprehensive, non-thesis program provides the greatest flexibility and breadth of understanding, and the thesis program emphasizes greater depth of understanding. The department assigns all communication studies majors to the comprehensive program with a resource area. After the first term of course work, the student may request the thesis option or select a minor.

Students may choose to finish either program with 6 or more hours of a resource area or a minor. Students consult with the communication studies graduate advisor to select the courses in a resource area, but students must consult and obtain the approval of graduate advisors in other departments to complete a minor. Minors often involve more than 6 hours of course work.

While it is possible to complete the degree requirements within three long terms, many majors elect to extend their course work over two years. Communication studies graduate courses are usually offered in the evening during a long term.

Students must maintain a 3.0 GPA in all communication studies courses in order to graduate.

Applying for a Thesis or a Comprehensive Exam Committee

A student must be in good academic standing to apply for a thesis or comprehensive exam committee. The student’s cumulative GPA in all their graduate classes and in their communication studies classes must be 3.0 or higher. Also, the student should not have any incomplete grades in their classes.

Students must submit departmental forms to the director of graduate studies by November 1 or April 1. Students applying for a thesis must make the request in the term in which they will complete 15 hours of course work. This is generally during the second term of full-time graduate course work since students must complete a thesis over two or more terms. Students applying for a comprehensive exam committee must make the request in the term in which they will complete 27 hours of course work. This is the term before they anticipate graduating. The graduate faculty reviews all requests.

Resource Area Course Work 6

Total Hours 36

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis
 Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Doctoral and Master’s level courses in Communication Studies: COMM

Courses Offered

Communication Studies (COMM)

COMM 5100. Teaching Communication Studies.
An introduction to curriculum, instruction, and assessment methods in the teaching of Communication Studies. Provides an orientation as well as regular in-service training and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatability with different emphasis. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Teaching Communication Studies
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA

COMM 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

COMM 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

An examination of empirical research methods in speech communication. Measurement procedures, statistics, experimental design, and descriptive research methods will be investigated as well as a consideration of scholarly writing and library research. Required of communication studies majors.
Grade Mode: Standard Letter
about Empirical Methods in Communication Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5302. Rhetorical Methods.
A study of approaches to the analysis of public discourse directed toward establishing workable perspectives for students conducting rhetorical analysis. Required of communication studies majors.
Grade Mode: Standard Letter
about Rhetorical Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5310. Methods of Teaching Communication Studies.
A study of the methods of the teaching speech communication principles and skills for secondary school teachers. Prerequisite: Admission to teacher certification program or permission of department chair.
Grade Mode: Standard Letter
about Methods of Teaching Communication Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

A course to be offered to certain graduate students to allow for independent study in a specific area for which a regular course is not available. May be repeated with different emphasis for additional credit.
Grade Mode: Standard Letter
about Directed Research in Communication Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted
COMM 5318. Seminar in Interpersonal Communication.  
A review of current research in the area. Includes an examination of contemporary theories and research methods.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5319. Organizational Communication.  
Examines organizational communication theory and research in applied organizational contexts. Provides communication professionals with an analytical framework for improving communication.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Designed to assist any teacher, whether of speech and drama or some other subject, in directing speech and drama activities. During the course, those in the class will actually direct debate, plays, declamation, and other activities. May be repeated with different emphasis for additional credit.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5321. Communication Assessment.  
An in-depth study of communication assessment techniques employed in the field of oral communication. Statistical, experimental, and observational methods of assessing oral communication in interpersonal, group, and classroom settings are included.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5324. Seminar in Instructional Communication.  
Examines communication instruction theory and research and their practical applications in various institutional settings.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5325. Seminar in Human Communication Theory.  
An examination of theories of human communication contexts including interpersonal, family, intercultural, organizational, and instructional communication. May be repeated with a different topic.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5327. Contemporary Rhetorical Theory.  
A survey of the major contemporary theoretical perspectives and conceptual debates in rhetoric. Focuses upon critical interpretations and applications of theory in addition to study of primary theorists’ writings.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5329B. Communication and Negotiation.  
Examines theory, research, and practice of conflict management and negotiation. Prerequisite: COMM 5319 or permission of instructor.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5329D. Managing Communication Technologies in the Workplace.  
Examines how communication technologies both help and hinder workplace communication. Examines theory, practical applications, key scholars and empirical research. Heavy focus on using case studies that provide context for learning how to thrive in the contemporary organization.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5329E. Communication and Organizational Culture.  
A seminar about communication and organizational culture. Discussion and materials explore communication practices that enable people to identify themselves as members of an organization and bind themselves to each other. Students will have the opportunity to analyze an organization. Prerequisite: COMM 5319 or consent of instructor is required.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5330. Seminar in Nonverbal Communication.  
A review of current theory and research of nonverbal communication behavior.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5331. Seminar in Persuasive Communication.  
An analysis of behavioral theories of persuasion. Emphasis placed on understanding established theories of attitude formation and change, contemporary persuasion, research, and the application of persuasion theory.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5332. Seminar in Communication and Technology.  
Focuses on research and theories about the relationships between technology and communication behavior in interpersonal group, and organization contexts. Also considers relationships between communication, technology, and culture.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
COMM 5342. Historical Rhetoric and Social Influence. The analytical study of speeches, speakers, groups, movements, and rhetorical strategies in history. Includes emphasis on the following topics: American Public Address, Rhetoric of Woman's Suffrage, and other historic topics of interest. May be repeated with different emphasis or topic for additional credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Historical Rhetoric and Social Influence

COMM 5343. Contemporary Rhetoric and Social Influence. The analytical study of speeches, speakers, groups, movements, and rhetorical strategies in contemporary society. Includes emphasis on the following topics: rhetoric and culture, rhetorical movements, and rhetorical genres. May be repeated with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Contemporary Rhetoric and Social Influence

COMM 5344. American Speeches. This course is a survey of American public address. The class will study significant and representative speeches from different periods of American history. This class will examine what the study of American public address can teach us about history, communication, and social influence.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about American Speeches

COMM 5345. Seminar in Political Communication. Study of political communication in contemporary times. Course will cover the rhetoric of candidates and politicians, the structure of political campaigns, and campaign practices.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Seminar in Political Communication

COMM 5347. Seminar in Small Group Communication. An examination of theories and research evidence about communication in the small group.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Seminar in Small Group Communication

COMM 5350. Applied Communication Studies. An application of communication principles and skills. Topics covered may include organizational, interpersonal, nonverbal and group communication, conflict management, communication technology, and persuasion analysis. May not be taken for credit by students pursuing M.A. degree in Communication. May be repeated for additional credit with department approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Applied Communication Studies

COMM 5355. Media Criticism. A rhetorical analysis of media from a Contemporary Cultural Studies perspective.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Media Criticism

COMM 5356. Gender and Communication. An examination of research and theories about gender communication, relationships, and qualitative research methods.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Gender and Communication

COMM 5360. Introduction to Empirical Research in Communication. Introduction to Communication Studies as a behavioral science. Students will learn principles of the scientific method; explore quantitative and qualitative methods; investigate variables across the field (persuasion, interpersonal, organizational, non-verbal, intercultural, and instructional); and analyze and apply research in Communication. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Introduction to Empirical Research in Communication

COMM 5362A. Organizational Communication. Introduction to communication concepts in the context of organizations. Students will learn how communication influences contemporary organizations through familiarity with contemporary research. Students will be prepared to understand, investigate, and manage communication processes in organizations. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Organizational Communication

COMM 5362B. Organizational Rhetoric. Introduction to the study of organizational rhetoric designed for internal and external audiences. Students will analyze and create messages based on theories of organizational rhetoric. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Organizational Rhetoric
COMM 5363. Introduction to Rhetorical Research in Communication. 
Introduction to the rhetorical tradition in Communication, with a focus on methods of analysis of discourse. Students will learn the significance of rhetorical analysis; explore a variety of critical methodologies; perform an analysis of discourse; and report findings in writing. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5371. Communication Training and Development. 
This course examines the theory and practice of developing and presenting communication training sessions for organizations. Prerequisite: COMM 5319 or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5372. Organizational Communication Analysis and Development. 
Examines communication problems in organizations and describes effective interventions. Provides communication managers and consultants with a broad range of tools and procedures for diagnosing and changing communication. Prerequisite: COMM 5319, undergraduate organizational communication course, or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5374. Seminar in Organizational Rhetoric. 
This seminar will include an examination of how organizations use symbols to accomplish a variety of functions for internal and external audiences, as well as exploring the concept of organization as rhetorical argument.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5395. Capstone Research Project. 
Under the direction of a graduate faculty member, students develop and submit a research or applied project using knowledge and skills acquired through graduate coursework. Required for students not pursuing the thesis path. May be taken only once for degree credit. Prerequisite: Permission of instructor.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5399A. Thesis. 
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Communication Studies 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5399B. Thesis. 
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5599B. Thesis. 
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

Independent study of a specific communication research area. May be repeated with different emphasis for additional credit. Prerequisite: Doctoral level standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5399. Thesis. 
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Communication Studies 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5399A. Thesis. 
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Communication Studies 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5399B. Thesis. 
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 5599B. Thesis. 
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

Independent study of a specific communication research area. May be repeated with different emphasis for additional credit. Prerequisite: Doctoral level standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
COMM 7325A. Instructional Communication.
A review of instructional communication theory and research with an emphasis on the function of communication in instructional settings. Prerequisite: Doctoral level standing.
about Instructional Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Instructional Communication

COMM 7325B. Organizational Communication.
A review of organizational communication theory and research with an emphasis on organizational development from a communication perspective. Prerequisite: Doctoral level standing.
about Organizational Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Organizational Communication

COMM 7325C. Communication Assessment.
An in depth study of communication assessment techniques employed in the field of oral communication. Statistical, experimental, and observational methods of assessing oral communication in interpersonal, group, and classroom settings are included.
about Communication Assessment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Communication Assessment

Minor in Communication Studies
A student who minors in communication studies should have completed at least 18 undergraduate semester hours of course work in communication studies (COMM).

A minor in communication studies requires a minimum of 12 semester hours of graduate-level COMM courses. The department encourages communication studies minors to take course work from both rhetorical and behavioral perspectives to gain a broad perspective of the communication studies discipline.

Students may take COMM courses as part of a resource or cognate area. Students who wish to take course work in communication studies that is not part of an approved minor should consult with the instructor of the course or the communication studies graduate advisor.

Certificate in Corporate Communication and Training
The nine-hour certificate program in corporate communication and training is designed to provide foundational instruction in organizational communication, communication training, and human resource development and other related course work for individuals interested in corporate communication, training, and human resource development.

The requirements for this certificate consist of two core courses augmented by one approved elective course in communication. Students pursuing this certificate are required to complete:

Total Hours 9

The admissions criteria for the graduate certificate in corporate communication and training are the same as the criteria for applying for the M.A. degree in communication studies. Applicants must have an undergraduate degree from an accredited institution and at least a 3.2 GPA in the last 60 hours of course work. Background hours in communication studies, including undergraduate course work in empirical research and methods, may be required for entrance to the certificate program.

Admission into the certificate program in corporate communication and training is separate from the M.A. degree program in communication studies. To apply for the graduate certificate in corporate communication and training through The Graduate College, use the Apply Texas online system. Admission to the certificate program is selective. In addition to submitting your application online you should also submit a 500-word statement addressing the following questions:

1. Why are you seeking the graduate certificate in corporate communication and training?
2. How does your academic background prepare you for the certificate (such as previous course work in communication and/or experience as a trainer)?
3. What are your plans after completing the graduate certificate in corporate communication and training and how do you plan to apply this certificate?

Admission Policy
For information regarding admission application requirements and deadlines, please see The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html.

School of Journalism and Mass Communication
Old Main Building Room 102
T: 512.245.2656 F: 512.245.7649
http://www.masscomm.txstate.edu/

The School of Journalism and Mass Communication offers many opportunities for media professionals, academic researchers, educators, and recent graduates to expand their education and training within the mass communication field. The courses offered cultivate strong
research, analytical, and multimedia skills that prove advantageous to
the media professionals as well as to those interested in continuing their
education at the doctoral level. Students will broaden their understanding
of communication theories and current research and will be prepared
for doctoral studies in journalism, mass communication, or related
fields. The School also develops students’ critical thinking abilities and
practical skills that will enable them to take up media-related positions
in the changing global and interactive media environment. It also
enables students whose undergraduate major may not have been mass
communication to gain a skills and theory base for mass communication
careers. The School houses the Center for the Study of Latino Media
and Markets which promotes research, conferences, forums, and other
activities to enhance the understanding of issues related to the growing
Latino media and markets at the national and international levels.

The varied expertise of faculty and diverse backgrounds of both
faculty and students provide a healthy learning environment in which
participants learn through interaction and discussion. Courses offered in
the program address a variety of cutting-edge topics such as online and
social media as well as traditional topics such as mass communication
theory and research methods. In addition, students select courses from
outside the school to supplement their studies.

Our academic curriculum is designed for students who want to learn
cutting-edge communication skills and to develop a lifelong commitment
to the responsibilities and privileges of being mass communicators in
a high-tech, multicultural, global society. The School’s faculty offices,
classrooms, high-tech media labs, and administrative offices are located
in historic Old Main, situated atop Chautauqua hill and overlooking the
Texas State campus and the city of San Marcos.

Students who come to study with us have plenty of opportunities to
experience hands-on what it's like to work in media professions. Our
school provides professional student-operated media to the campus and
community, including The University Star newspaper; KTSW-FM, a 10,500
watt radio station; Bobcat Update, a twice weekly newscast airing on
local cable; and Bobcat PRomotions, a student public relations agency
serving clients on and off campus.

Learning takes place both inside and outside the classroom. Students
can be involved in extra-curricular activities through SjMC-sponsored
chapters of the American Advertising Federation, National Broadcasting
Society, Society of Professional Journalists, Public Relations Student
Society of America, and other groups.

Our students are excellent scholars and competitors in state, regional,
and national competitions. The University Star newspaper received seven
awards in 2014 from the Society of Professional Journalists organization.

Students from the school hold internships at major media outlets in
Texas and throughout the nation, including positions with Scripps
Howard, Dow Jones, Chips Quinn, and others.

The faculty and student body are richly diverse — 21% of all students are
Hispanic — and faculty members hail from Puerto Rico, India and South
Korea. Faculty members are productive scholars who present papers and
actively participate in regional, national and international conferences.
Two Fulbright scholars are members of the school’s faculty, and the
school is a recipient of a Ford Foundation grant to develop a Latino Media
and Markets Program.

The School of Journalism and Mass Communication at Texas State
is accredited by ACEJMC — a designation earned through excellence
and commitment to high standards in professional journalism and
mass communication education and earned by only 20% of JMC
programs in the country. We have more than 1,700 majors enrolled in our
undergraduate and graduate programs — which makes the program one
of the largest journalism and mass communication programs in the state
of Texas — and the nation.

Master of Arts (M.A.)

• Major in Mass Communication (p. 1020)
Baldwin, Patricia Cafferty, Lecturer, Journalism & Mass Comm, Ph.D.,

Master of Arts (M.A.), Major in Mass Communication

Major Program

The School of Journalism and Mass Communication offers many
opportunities for media professionals, academic researchers, educators,
and recent graduates to expand their education and training within
the mass communication field. The courses offered cultivate strong
research, analytical, and multimedia skills that prove advantageous to
the media professionals as well as to those interested in continuing their
education at the doctoral level. Students will broaden their understanding
of communication theories and current research and will be prepared
for doctoral studies in journalism, mass communication, or related
fields. The program also develops students’ critical thinking abilities
and practical skills that will enable them to take up media-related
positions in the changing global and interactive media environment. The
program also enables students whose undergraduate major may not have been mass communication to gain a skills and theory base for mass communication careers. The school houses the Center for the Study of Latino Media and Markets which promotes research, conferences, forums, and other activities to enhance the understanding of issues related to the growing Latino media and markets at the national and international levels. The varied expertise of faculty and diverse backgrounds of both faculty and students provide a healthy learning environment in which participants learn through interaction and discussion. Courses offered in the program address a variety of cutting-edge topics such as online and social media as well as traditional topics such as mass communication theory and research methods. In addition, students select courses from outside the school to supplement their studies.

Facilities

The School of Journalism and Mass Communication is housed in historic Old Main. Situated on top of a hill, Old Main has become the University’s most recognizable symbol. The building houses the campus radio station, faculty offices, smart lecture rooms, television editing facilities, state-of-the-art computer laboratories and a conference room. The office of The University Star, the student newspaper, is located in a building nearby. The Center for the Study of Latino Media and Markets is located in an adjacent building in ASBN 353. Graduate student assistants are provided office space and resource room facilities. The Alkek Library offers excellent research facilities with its vast collection of books and other audio-visual resources. The library also offers the TexShare facility that allows students to borrow books from several other universities from within the state.

Faculty

The School of Journalism and Mass Communication has 28 full-time and eight part-time faculty, 22 of whom hold terminal degrees. The graduate faculty is active in international, national, regional, and state professional associations and publishes widely in professional and scholarly journals.

Assistantships

Competitive graduate assistantships offered with stipends and waivers of out-of-state tuition are available to qualified applicants. Assistantship responsibilities include teaching mass communication fundamentals, working in supervisory roles at student media outlets, assisting in the school’s computer labs, or assisting faculty with teaching. The application for assistantship may be obtained from the departmental graduate advisor or from the following website: www.masscomm.txstate.edu/degrees-programs/graduate/assistantship.html (http://www.masscomm.txstate.edu/degrees-programs/graduate/assistantship.html).

Degree Requirements

The mass communication graduate program offers its students the option of pursuing either a non-thesis track or a thesis track. In general, it is possible for the full-time student to complete the program in an 18-month period. However, most students take at least two years to complete the degree, especially if they are on a thesis track. All students are required to make a minimum 3.0 GPA in the core classes, a minimum 3.0 GPA in the mass communication electives, and a minimum 3.0 GPA in the cognate/minor areas.

Course Work Requirements

General Option, Non-thesis

Mass Communication Core
MC 5302 Research Methods in Mass Communication 3
MC 5303 Theories of Mass Communication 3
MC 5316 Digital Media Issues 3

Mass Communication Electives
Choose 27 hours in consultation with graduate advisor 27

Total Hours 36

Concentration Option, Non-thesis

Mass Communication Core
MC 5302 Research Methods in Mass Communication 3
MC 5303 Theories of Mass Communication 3
MC 5316 Digital Media Issues 3

Mass Communication Electives
Choose 18 hours in consultation with graduate advisor 18

Concentration Course Work 1
Take the appropriate courses per concentration (see below) 9

Total Hours 36
1 Concentrations include: digital media, global media, Latinos and media, or strategic communication. See tables below for course work requirements within each concentration.

General Option, Thesis

Total Hours  33

1 Concentrations include: digital media, global media, Latinos and media, or strategic communication. See tables below for course work requirements within each concentration.

The thesis will consist of original research that contributes to the body of knowledge in mass communication – a scholarly presentation of information about mass communication processes and systems. The thesis is a scholarly study of communication behavior, the purpose of which is to broaden understanding of what mass media communicators do through what media channels, how they do it, and with what effects. It may be quantitative, relying upon an experimental design, content analysis, survey data or another appropriate approach, or it may be qualitative, relying upon historical research or another appropriate methodology.

Optional Elective Courses
All students have the option of taking a maximum of six hours of electives outside the area of mass communication with the graduate advisor’s approval. These courses need to support their special research or career-related needs and interests.

Concentration Course Work Requirements
Students may choose to opt for digital media, global media, Latinos and media, or strategic communication concentrations.

- Students may declare one concentration only.
- Students do not have to declare a concentration if they do not wish to.
- Some courses are not offered each term.
- Some courses may also be offered at the Round Rock campus.
- Students must plan their program in consultation with the graduate advisor.

Strategic Communication

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State
IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

The thesis committee must be composed of a minimum of three approved graduate faculty members.

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5999B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Mass Communications: MC

**Courses Offered**

**Mass Communication (MC)**

MC 5155. Teaching Techniques in Mass Communication. Required of, and open only to, graduate teaching and instructional assistants as a condition of employment. This course provides training and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Teaching Techniques in Mass Communication

**Grade Mode:** Credit/No Credit about Thesis

MC 5199B. Thesis. This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: MCS399A and completed course work. about Thesis

**Grade Mode:** Credit/No Credit about Thesis

MC 5255. Teaching Techniques in Mass Communication. Required of, and open only to, graduate teaching and instructional assistants as a condition of employment. This course provides training and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Teaching Techniques in Mass Communication

**Grade Mode:** Credit/No Credit about Thesis
MC 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: MC5399A and completed course work. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MC 5301. Mass Media and Society.
A seminar devoted to analysis and discussion of significant contemporary issues in mass communication, including a study of the history of the development of mass communication media. about Mass Media and Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Investigation of the tools and techniques of both qualitative and quantitative research methods used in the study of mass communication, including surveys, content analysis, experimental designs and case studies. about Research Methods in Mass Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5303. Theories of Mass Communication.
Examination of the literature of mass communication theory and discussion of theoretical approaches and models. about Theories of Mass Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5304R. Digital Video Production.
This course is designed for the novice student with emphasis on pre- and post-digital video production activities from research to final project. The course involves discussion, development and analysis of digital videos and their applications. Students will explore techniques used in writing and producing short digital videos. about Digital Video Production
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MC 5304T. Health Communication Campaigns.
Provides an overview of the theory and practice of designing, producing and evaluating health-communication campaigns. Examines persuasive approaches to behavioral change as well as audience, message and channel factors in health-campaign development. Emphasizes communication approaches, including mass media, social networking and new media. about Health Communication Campaigns
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MC 5304W. Web Content Management Systems.
Web Content Management Systems. (0-3) Students in this class will develop advanced Web building skills. Specifically, students will be introduced to various Web Content Management Systems and taught how to use these applications to manage content and build Web sites efficiently. Prerequisite or corequisite: MC 5312 or consent of instructor. about Web Content Management Systems
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MC 5304X. Media Systems in Latin America.
This course will examine media systems within their historical, political and economic contexts in Latin America. Media markets in Latin America and their links to Spanish-language and other Latino-oriented media and markets in the U.S. will also be studied. about Media Systems in Latin America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

MC 5304Y. Feature Writing.
This course provides an in-depth understanding of the technical expertise, research methods, interviewing skills and narrative techniques pertinent to feature writing. The course also explores how to target a feature story to a specific audience and how to submit feature stories for publication to newspapers and magazines, print and online. about Feature Writing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

MC 5304Z. SXTXState Project.
This course involves coverage of the South By Southwest Interactive Conference. Students apply and are selected for the project. Students prepare for the event, attend panels, interview participants and maintain the website and social media. Restricted to Mass Communication Graduate Students. Prerequisite: MC 5312 or consent of instructor. about SXTXState Project
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

MC 5306A. Digital Media Entrepreneurship.
This course will explore innovation and creativity associated with digital entrepreneurship. Through a speaker series, students will be introduced to important concepts and ideas from thought leaders and innovators at the intersection of media and technology. Restricted to Mass Communication Graduate Students. about Digital Media Entrepreneurship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

MC 5306B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: MC5399A and completed course work. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MC 5306C. Digital Media Entrepreneurship.
This course will explore innovation and creativity associated with digital entrepreneurship. Through a speaker series, students will be introduced to important concepts and ideas from thought leaders and innovators at the intersection of media and technology. Restricted to Mass Communication Graduate Students. about Digital Media Entrepreneurship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter
MC 5307. Project.  
A major communication effort, the purpose of which is to demonstrate command of the skills necessary to work at advanced levels in mass communication. For example, it may be broadcast documentary, advertising or public relations campaign, or a newspaper series. Prerequisite: Consent of graduate advisor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5308. Seminar in Advertising and Public Relations.  
This course analyzes advertising and public relations issues using an integrated communication framework. Students are introduced to the advertising and public relations decision-making process, learn what problems real organizations experience and evaluate how they resolve issues in such areas as client-agency relationships, strategic planning/management, globalization, channel integration, cyber marketing, evaluation, etc.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5309. Gender, Race, and Class and the Media.  
This course takes a theoretical approach to the study of representations of gender, race, and class in the mass media and the lives of the media professionals who belong to marginalized groups. A historical overview will be followed by an in-depth look at current conditions.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course examines the media systems worldwide in different socioeconomic contexts and studies the patterns of international information flow. The course includes theories governing international communication. Students learn how and why communication takes place between different nations and the impact of this communication on individual nations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

MC 5311. Independent Study.  
Study of a special interest that offers academic or professional improvement and growth in the field of Mass Communication. May be repeated once with different emphasis for additional credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5312. Online Media Design.  
This course will instruct students in Web development and design and address the appropriate usage of text, graphics, sound and video on mass communication sites. The class will also address social and theoretical implications of technology, such as the digital divide, cyberlaw, e-commerce, and Web credibility and accessibility.

3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5313. Media Law.  
Study of laws and regulations as they pertain to media operations and the internal and external codes that guide media behavior.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5314. Strategies in Media Management.  
This course offers an analysis and discussion of issues involved in digital and other media ownership and operation, including monopoly and competition, labor relations, human resource management and staffing, the politics of workplace supervision and market relations.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This class examines the psychology of creativity and its application in mass communication to media management, broadcasting, advertising, and public relations. Students learn a variety of ideation techniques and structured creative problem solving methods to better understand their own creative thinking process, and how to facilitate creative thinking in groups.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MC 5316. Digital Media Issues.  
This course will examine the role of digital media, including the Internet, Web and mobile technologies. Issues discussed will include social media and cyberculture research, technology diffusion, data journalism and the effects of digital technologies on society and culture.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
MC 5317. Advanced Online Media.
Students will gain advanced skills in multimedia layout and design. Techniques include audio/video editing, Flash development, and database management as practiced in the communication disciplines. Theoretical and practical considerations of emerging technologies to the media industry will be integrated with production techniques. Prerequisite: MC 5312 or consent of instructor.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Advanced Online Media
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5318. Media Ethics.
The study of freedom and responsibilities of mass media practitioners and institutions, explored within the framework of ethical theories. Students will learn philosophical constructs as well as contemporary ethicists. Consideration of values, codes of ethics, moral development, professionalism, and institutional constraints as applied to media of information, persuasion, and entertainment.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Media Ethics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5319. Mass Media and Politics.
The class will review key literature in the area of mass media and politics and engage in original research related to mass media and statewide, congressional and/or presidential elections. Class focus may vary by professor, e.g. Latinos in the United States.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Mass Media and Politics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5320. Latinos and Media.
An immersion into the study of Latinos, their representations in media, and media oriented to Latinos. The course will require students to engage in in-depth research about Latinos and media issues.
Grade Mode: Standard Letter
about Latinos and Media
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines multinational advertising and public relations organizations and how they function in a global marketplace. Students learn how these organizations serve specific client needs in increasingly complex societies and cultures.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines current theoretical and professional issues in mass communication. This course may be repeated once with a different emphasis for credit.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5323. Advanced Online Media.
This course is designed to impart media writing skills. Students will learn information gathering and interviewing skills, and narrative techniques pertinent to different mass media. Emphasis may vary. This course may be repeated with different emphasis.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Advanced Online Media
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5324. Media Writing.
This course integrates all areas of marketing management and relates media and marketing activities to the other functional areas of the music business, including music publishing, live entertainment, recording companies, and production. Strategic planning and analytical procedures for marketing managerial decisions and their relation with the media will be emphasized.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Music Marketing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5325. Strategic Communication Campaigns.
A comprehensive study of strategic communication campaign planning with emphasis on public relations and advertising. Students will combine theory and practice to develop, coordinate and evaluate advertising/public relations campaigns for key audiences. Prerequisite: MC5308 or consent of instructor.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines the principles, theories, and language of visual communication, emphasizing the evaluation and use of images in digital mass media. Students will learn about media influences on their perceptions of reality and their behavior, the elements of visual literacy, and multicultural and global perspectives in visual media.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines multinational advertising and public relations organizations and how they function in a global marketplace. Students learn how these organizations serve specific client needs in increasingly complex societies and cultures.
Course Attribute(s): Lab Required
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines current theoretical and professional issues in mass communication. This course may be repeated once with a different emphasis for credit.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5329. Internship in Mass Communication.
Students acquire on-the-job experience in an off-campus media setting where they can apply the skills and knowledge acquired through mass communication graduate course work. Requires 180 hours of work off-campus, a written report, and portfolio of work product. Graded on a credit (CR), no credit (F) basis. Prerequisite: Consent of the graduate advisor and internship coordinator.
Course Attribute(s): Lab Required
Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.
This course may be taken only to fulfill mass communication background requirements. Students will acquire knowledge of mass communication necessary for advanced studies. This course does not earn graduate degree credit. Repeatable with different emphasis. Prerequisites: Mass Communication major status and consent of graduate advisor.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5352. Editing for Clear Communication.
The course explores the role of editors in gate keeping and how writing varies by audience and medium. Designed to teach students how to edit using Associated Press style while focusing on accuracy, organization, language, logic, style, and meaning. This course does not earn graduate degree credit. Repeatable with different emphasis. Prerequisites: Mass Communication major status and consent of graduate advisor.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

MC 5353. History of Mass Media.
Students will examine the growth and role of mass media in the United States from 1690 to the present in the context of the nation’s history. This course does not earn graduate degree credit. Repeatable with different emphasis. Prerequisites: Mass Communication major status and consent of graduate advisor.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5399A. Thesis.
A scholarly study of communication behavior, the purpose of which is to broaden understanding of what mass media do, how they do it, and with what effects. It may be quantitative, historical or rely upon another appropriate methodology. No thesis credit is awarded until student has completed the thesis in MC 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Completed course work.
Grade Mode: Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MC 5399B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: MCS399A and completed course work.
Grade Mode: Credit/No Credit
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

School of Music
Music Building Room 101
T: 512.245.2651 F: 512.245.8181
Email: music@txstate.edu
http://www.music.txstate.edu/

The principal functions of graduate education in music are considered to be the continued development of:

• Individual talents, interests, and philosophies which can be used creatively both to preserve and extend our cultural heritage;
• Professional competence in such disciplines as music teaching, composition and performance, interpretation, and evaluation of knowledge;
• Scholarly competence in the organization, interpretation, and evaluation of knowledge;
• Professional competence in the communication and dissemination of knowledge;
• Individuals with the potential to solve contemporary problems in various aspects of music.

Somos Músicos — “We are Musicians” — expresses with simplicity our solidarity of purpose and cooperation within an extraordinary community of musical artists, scholars, and composers: the students and faculty of the School of Music. Our unified mission is threefold: to make music together, to develop ourselves and our art, and to contribute value to our society.

The School of Music offers graduate work in music education, performance, Jazz performance, Latin music, conducting, music theory, composition, and music history and literature leading to the master of music (M.M.) degree.

Faculty
The music faculty of 88 individuals includes 50 internationally active performing, conducting, or composing artists. Collectively, they have performed in more than 30 countries on virtually every continent and have won prestigious prizes such as Grammy Awards, Dallas Concerto Competition, Guillermo Wright-Vallarino National Piano Competition of Ecuador, National Finger Picking Championship, Bulgarian National Clarinet Competition, Atlanta Steinway Society Competition, Handok
Piano Competition, and Southern Keyboard Competition. Their artistry can be heard on hundreds of commercial recordings as released by labels such as Deutsche Grammophon, Harmonia Mundi, Sony, Naxos, Columbia, Capstone, Centaur, Rounder, ERM Media, and Nonesuch Records.

Our scholar faculty claim many important honors and publications in such prestigious journals as Grove Dictionary of American Music, College Music Symposium, Choral Journal, Computer Music Journal, Journal of Band Research, Journal of Research in Music Education, Music Educators Journal, Journal for Music Teacher Education, Theoria, In Theory Only, Journal of Musicological Research, Perspectives of New Music, Southwestern Musician, and Handbook of Texas Music. In 2013 alone, they published 4 books, 10 book chapters, 16 journal articles, and many other scholarly writings. As many as 15 music faculty are regularly active in seeking and obtaining external funding for their initiatives and creative projects. Over a 10-year period, this totaled more than 30 resulting grants, providing nearly $200,000 in external funding for their activities in the School of Music.

Facilities
As the music department has grown into a large, comprehensive School of Music, so too have the facilities expanded to keep pace with its diversity of ensembles, programs, and students.

Music Building
At 101 Pleasant Street, the Music Building includes six classrooms, three large rehearsal rooms, and three smaller rehearsal rooms. The facility also contains a 149-seat Music Building Recital Hall, the Schneider Music Library, 40 practice rooms, an electronic piano laboratory, a multi-station music computer lab, instrument storage rooms and the administrative office suite. Some 13 faculty offices and 49 larger teaching studios are also in the main building.

Performing Arts Center
The new Performing Arts Center on Moon Street includes an acoustically superb 312-seat recital hall. Equipped with two Steinway D concert grand pianos and a beautiful custom-built Flemish replica harpsichord, the hall hosts performances by international guest artists, music faculty, and some student ensembles. It is a learning laboratory for student degree recitals. Another venue, the Patti Strickel Harrison Theater, provides a state-of-the-art theater with orchestra pit for Texas State Opera Theatre productions.

Evans Auditorium
Evans is the largest performance hall on campus with a seating capacity of 933. The university's wind bands, orchestra, and University Arts events utilize Evans as a performance site. Evans also contains two Steinway concert grand pianos.

Fire Station Studio
The Fire Station Studio is located near campus on Guadalupe Street and is available for both Texas State and non-Texas State persons to rent for commercial purposes. The Studio houses the School of Music's sound recording technology program and contains one large recording studio, two smaller studios, and one mixing room.

Colorado Building
Located on Pleasant Street, it houses the Balinese Gamelan and 16 additional practice rooms.

Lampasas Hall
Offering music an additional 5 offices and 3 teaching studios, Lampasas is the second oldest building on campus and was beautifully renovated in 2012.

Departmental Policies
Upon review of a candidate's transcript, additional background courses may be required that will not count towards the graduate degree.

Financial Assistance
Scholarships, which may include waiver of out-of-state tuition, and graduate assistantships (with teaching duties in the department) are available to qualified applicants. For further information about financial assistance and the degree programs, please contact the director of graduate studies in music.

Worthington, Oliver W, Senior Lecturer, Music, D.M.A., University of Texas at Austin

---

**Master of Music (M.M.), Major in Music**

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/mus.html.

**Degree Requirements**

In consultation with the director of graduate studies in music, each full-time student is normally expected to enroll in the appropriate ensemble(s) generally offered in the fall and spring terms. Students must take Introduction to Graduate Studies in Music (MU 5334) within their first year of studies.

Before prospective graduate students are approved for work towards the M.M. degree in a performance or conducting specialization, they must audition for the applied faculty in the appropriate area.

Graduate students in music theory and composition must enroll in Counterpoint and Orchestration (MU 5330B) as requisite background studies if these classes or their equivalents are not taken in an undergraduate degree program. In addition, prospective composition majors must submit a portfolio of original works while prospective music theory and music history/literature majors must submit a portfolio of papers and/or writing samples. Graduate students in history and literature must take a minimum of eight credits in one foreign language as required course work if this study was not included in an undergraduate degree program.

**Course Work Requirements**

The M.M. degree is a 36-hour program with core, major field, and elective hours. In addition, opportunities are provided for independent study with professors in their areas of specialization.

**Music Core**

All music majors take the following:

**Required Courses**

<table>

- Applied Voice - Choose 8 hours in consultation with graduate advisor 8
- Opera Workshop - Choose 3 hours in consultation with graduate advisor 3
- Electives - Choose 12 hours in consultation with graduate advisor 12

**Total Hours** 24

### Woodwind, Brass, or Percussion Performance Concentration

**Major Field Applied Studies**

- MUSE 5101 Graduate Recital 1
- Applied Lessons - Choose 8 hours in consultation with graduate advisor 8
- Ensemble - Choose 3 hours in consultation with graduate advisor 3
- Electives - Choose 12 hours in consultation with graduate advisor 12

**Total Hours** 24

### Comprehensive Examination

All candidates within the graduate music program must pass a comprehensive oral (viva voce) examination. The students will be given a maximum of two attempts in order to pass this examination before being eligible for graduation. Candidates who fail to pass the comprehensive oral examination upon the first try may appeal for re-examination. The re-examination will be administered during the term following the first attempt. Exceptions to this policy are rare and must be approved by the director of graduate studies in music and by the director of the school of music. Failure to pass the required comprehensive oral examination upon the second attempt shall prevent the student from being eligible for graduation.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the *Graduate College Guide to Preparing and Submitting a Thesis or Dissertation*. The thesis handbook may be accessed at [http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf).

### Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at [http://www.gradcollege.txstate.edu/gcforms.html](http://www.gradcollege.txstate.edu/gcforms.html). After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the...
The thesis falls, e.g., subsequent thesis enrollment in the field in which the subject matter of for a student's initial thesis enrollment and a thesis B course for each required. Enrollment for the thesis will be in course number 5399A. The completion of a minimum of six hours of thesis enrollment is approved graduate faculty members. The thesis committee must be composed of a minimum of three student's enrollment in 5399A.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Music: MU (p. 1032), MUSE (p. 1038), MUSP (p. 1041)

Courses Offered

Music (MU)

MU 5113. Independent Study in Music. Study of special interest that offers professional improvement and growth in the field of music. May be repeated with different emphasis for additional credit. Prerequisite: Consent of the graduate advisor. about Independent Study in Music

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Music

MU 5130A. Writing About Music. Focusing on basic writing skills, research, and the use and documentation of sources. Course centers on the process of writing about music. Besides written exercises, the assignments include the study of such professional writing samples as concert reviews, program abstracts, and research essays. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. about Writing About Music

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Writing About Music

MU 5130B. Diction for Singers. An in-depth study of the pronunciation of singing in Italian, German, English, and French incorporating the International Phonetic Alphabet through the use of lecture and laboratory sessions for practical application. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. about Diction for Singers

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Diction for Singers

Proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student's initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Fee Reduction

A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/The-Diss_Info/TD_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):
MU 5141. Kodály Level I – Conducting.
Advanced conducting techniques emphasizing patterns and communication of the character of music. Emphasis on conducting folk songs and classical canons.
about Kodály Level I – Conducting
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Kodály Level I – Conducting

Examination of song literature appropriate for children with emphasis on folk literature.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Kodály Level I – Materials

MU 5145. Kodály Level II – Conducting.
Advanced conducting techniques emphasizing patterns and communication of the character of music. Emphasis on independence of the left and right hands to communicate tempo, dynamics, cues, and character.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Kodály Level II – Conducting

Examination of song literature appropriate for children with emphasis on folk literature. Students will also explore suitable instrumental literature through performance on the recorder.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Kodály Level II – Materials

MU 5149. Kodály Level III – Conducting.
Advanced conducting laboratory with application to 2-, 3-, and 4-part choral works.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Kodály Level III – Conducting

MU 5151. Kodály Level III – Research and Retrieval.
Research of international folk music as applied to philosophy as applied to Kodály music education program.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Kodály Level III – Research and Retrieval

MU 5157. Mariachi Ensemble Teaching Lab.
This course provides students with the knowledge to become effective directors of Mariachi ensembles within the public school/university systems. Mariachi curriculum/repertoire/rehearsal techniques appropriate to middle school/high school/post-high school ensembles are discussed and applied within the setting of a performing ensemble.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
about Mariachi Ensemble Teaching Lab

MU 5182. Practicum in Music Instruction.
Instruction techniques for teaching and instructional assistants concerning selected problems in the teaching of music in the classroom, private instruction, and ensemble environments. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
about Practicum in Music Instruction

MU 5192. Graduate Recital.
A full-length, public recital in the appropriate applied music area. Should be taken simultaneously with a final semester of applied music instruction by those students in performance degree plans.
Grade Mode: Standard Letter
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.
about Graduate Recital

MU 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
about Thesis

MU 5213. Independent Study in Music.
Study of special interest that offers professional improvement and growth in the field of music. May be repeated with different emphasis for additional credit. Prerequisite: Consent of the graduate advisor.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
about Independent Study in Music
MU 5230A. Music Theory.
A study of the materials of counterpoint and harmony as evaluated
through listening and analysis of literature, and application through
composition. This course does not earn graduate degree credit.
Prerequisite: Consent of the graduate music advisor.
about Music Theory
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics
Grade Mode: Leveling/Assistantships
about Music Theory

MU 5230B. Aural Learning.
Development and application of theory concepts through singing,
playing, and dictation. This course does not earn graduate degree credit.
Prerequisite: Consent of the graduate music advisor.
about Aural Learning
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics
Grade Mode: Leveling/Assistantships
about Aural Learning

Development of sight singing and aural skills associated with advanced
musicianship.
about Kodály Level I – Musicianship and Sol-fa
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level I – Musicianship and Sol-fa

The teaching of music utilizing an American adaptation of the Kodály
approach to music education as applied to kindergarteners and first
graders.
about Kodály Level I – Pedagogy
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level I – Pedagogy

Development of sight singing and aural skills associated with advanced
musicianship. Emphasis on analysis of melodic content: intervals, range,
and scales.
about Kodály Level II – Musicianship and Sol-fa
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level II – Musicianship and Sol-fa

The teaching of music utilizing an American adaptation of the Kodály
approach to music education as applied to second and third grade
children.
about Kodály Level II – Pedagogy
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level II – Pedagogy

Development of sight singing and aural skills associated with advanced
musicianship. Emphasis on advanced studies in rhythm, counterpoint,
and harmony.
about Kodály Level III – Musicianship and Sol-fa
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level III – Musicianship and Sol-fa

MU 5250. Kodály Level III – Pedagogy.
The teaching of music utilizing an American adaptation of the Kodály
approach to music education as applied to upper elementary, junior high,
and high school.
about Kodály Level III – Pedagogy
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level III – Pedagogy

MU 5254. Piano Pedagogy I.
History, methods, and materials of piano pedagogy. Includes the
application of technical and musical fundamentals to beginning levels of
teaching. Prerequisites: Piano pedagogy or piano performance majors or
instructor’s permission.
about Piano Pedagogy I
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Piano Pedagogy I

MU 5255. Piano Pedagogy II.
Advanced methods and materials of piano pedagogy. Includes the
application of technical and musical fundamentals to intermediate
and advanced levels of teaching. Prerequisites: Piano Pedagogy I or
instructor’s permission.
about Piano Pedagogy II
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Piano Pedagogy II

MU 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The
student continues to enroll in this course until the thesis is submitted for
binding. Cannot be taken unless a Thesis Proposal has been submitted.
Students working toward the M.M. with thesis are expected to enroll in
thesis each semester in which faculty supervision is received. Graded on
a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

MU 5310. Music Literature of the Baroque.
Style characteristics and literature of the music of 1600-1750 with special
emphasis on Bach and Handel.
about Music Literature of the Baroque
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Music Literature of the Baroque
MU 5313. Independent Study in Music.  
Study of special interest that offers professional improvement and growth in the field of music. May be repeated once with different emphasis for additional credit.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Independent Study in Music

MU 5314. Survey of Twentieth-Century Music.  
Emphasis on music of the modern period and its development from music of earlier periods. Numerous examples of vocal and instrumental works in both large and small forms are used to illustrate twentieth-century styles and trends.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Survey of Twentieth-Century Music

MU 5315. Music Literature, Middle Ages and Renaissance.  
Historical, stylistic, and analytical study of western art music from about 450 to 1600.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Music Literature, Middle Ages and Renaissance

MU 5317. Independent Study in Music.  
Study of special interest that offers professional improvement and growth in the field of music. May be repeated once with different emphasis for additional credit.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Independent Study in Music

MU 5320. Music Literature, Viennese Classical.  
Style analysis of music literature from 1750 to 1830 with emphasis on Haydn, Mozart, and Beethoven.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Music Literature, Viennese Classical

MU 5322. Instrumental Techniques and Materials.  
Evaluation of teaching methods, materials, and literature of wind and string instruments. Prerequisite: Music 3217 or the equivalent of Undergraduate Instrumental Conducting.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Instrumental Techniques and Materials

MU 5323. Vocal Music Education Methods.  
Study of the anatomy of the human voice and evaluation of the scientific data and historical beliefs concerning voice pedagogy with emphasis in teaching voice in the class, private studio, as well as within a variety of choral settings.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Vocal Music Education Methods

MU 5324. Seminar in Music Curriculum and Methodology.  
Evaluation of teaching methods, learning processes, curriculum, and research in music education as a basis for improving music pedagogy.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Seminar in Music Curriculum and Methodology

MU 5325. Research in Music Education I.  
Examination of methodologies, techniques, and procedures for interpreting and conducting research in music education. Relevant studies in music education will be critiqued, with an emphasis on preparation of a research proposal.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Research in Music Education I

MU 5326. Research in Music Education II.  
A continuation and culmination of a research project in the field of music education as developed and proposed in MU 5325. Prerequisite: MU 5325.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Research in Music Education II

MU 5328. Foundations of Music Education.  
The cognitive psychology, historical perspective, and philosophical issues that provide the basis for contemporary music education.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Foundations of Music Education

MU 5329. Psychology of Music.  
This course investigates the psychological foundations of music and examines interdisciplinary approaches to the study of music and the human experience. Topics will include music perception, physiological responses to music, music and the brain, musical attributes, music learning, music therapy, and the measurement of musical behavior.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about Psychology of Music

MU 5330A. History and Analysis of Music.  
A comprehensive musicianship approach to the study of music from the earliest times to the present using techniques of stylistic and structural analysis. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor.  
Grade Mode: Leveling/Assistantships  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
about History and Analysis of Music
MU 5330B. Advanced Theory.
Principles of form and analysis, counterpoint, orchestration, and contemporary analytic techniques developed through in-depth study of musical repertoire. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Advanced Theory

MU 5344. Jazz Arranging.
This course provides a comprehensive study of jazz composition, arranging, and improvisation theory, emphasizing writing for jazz ensembles using harmony, scales, and improvisation in a variety of styles, and providing necessary skills to be a successful jazz or commercial composer/arranger.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Jazz Arranging

MU 5345. Piano Literature I.
This course is designed to expand first-hand familiarity with the literature for the keyboard from the Baroque to Early Romantic era (Bach to Schumann). It will be divided into five chronological segments, discussing the major composers and their contemporaries. Ten composition genres will be discussed during the course.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Piano Literature I

MU 5346. Piano Literature II.
This course is designed to expand first-hand familiarity with the literature for the piano, which will be divided into six chronological segments. These segments will discuss the most significant composers and their contemporaries in the 19th and 20th centuries and their major piano compositions.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Piano Literature II

MU 5350. Musical Styles.
Developing a broader musical understanding through critical listening, technical analyses, and written assignments in various musical styles, including the late classical, romantic, and present eras. Prerequisite: B or higher in MU 5357 or a passing grade on the Graduate Music Theory Placement Exam.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Musical Styles

MU 5351. Introduction to Schenkerian Analysis.
An introduction to the techniques and methods of music analysis as developed by Heinrich Schenker (1868-1935). This course will cover reductive analysis, structural levels in tonal music, and graphing techniques. Prerequisite: MU 5357 with a grade of "B" or higher, or passing grade on music theory entrance exam.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Introduction to Schenkerian Analysis

MU 5353. Ensemble Rehearsal Techniques.
Course is designed for performance ensemble conductors. Includes supervision, administration, and rehearsal techniques.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Ensemble Rehearsal Techniques
MU 5355. Pedagogy of Theory and Comprehensive Musicianship.
Developing teaching methods and broader understanding through critical study of materials, organization, techniques, and problems of music theory and comprehensive musicianship courses. About Pedagogy of Theory and Comprehensive Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Time Conflicts Permitted
Grade Mode: Standard Letter
About Pedagogy of Theory and Comprehensive Musicianship

MU 5356. Comprehensive Music Technology.
Graduate-level studies in music technology and aural skills. The course covers melody, harmony, counterpoint, form, as well as sight-singing, performing, and dictation. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. About Graduate Music Theory and Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
About Graduate Music Theory and Musicianship

MU 5357. Graduate Music Theory and Musicianship.
Graduate-level studies in music theory and aural skills. The course covers melody, harmony, counterpoint, form, as well as sight-singing, performing, and dictation. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. About Graduate Music Theory and Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
About Graduate Music Theory and Musicianship

MU 5358. Graduate Music Theory and Musicianship.
Graduate-level studies in music theory and aural skills. The course covers melody, harmony, counterpoint, form, as well as sight-singing, performing, and dictation. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. About Graduate Music Theory and Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5359. Graduate Music Theory and Musicianship.
Graduate-level studies in music theory and aural skills. The course covers melody, harmony, counterpoint, form, as well as sight-singing, performing, and dictation. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. About Graduate Music Theory and Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
About Graduate Music Theory and Musicianship

MU 5360. Music in the United States.
A survey of the music and musical development in this country from pre-Columbian times to the present. Folk music, popular music, and jazz will be considered as well as traditional and experimental styles. About Music in the United States
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Music in the United States

MU 5365. Computing in Music.
Development of concepts and skills related to current computer technology in music. Exploration and use of computer software, MIDI, and other productivity tools for application to music education, music administration, music research, and music composition. About Computing in Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Computing in Music

MU 5366. Salsa Arranging.
Analysis and arranging music for a Salsa ensemble. Topics will cover instrument ranges, orchestration techniques, and styles. About Salsa Arranging
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Salsa Arranging

MU 5367. History of Music in the Caribbean.
This course is a study of the musical panorama of the Spanish-speaking Caribbean; Pre-Columbian, colonial, folk, urban, academic, and transnational genres are discussed in historical, socio-political, and stylistic context, including coverage of the scope and methods of research in the area of Caribbean music studies. About History of Music in the Caribbean
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About History of Music in the Caribbean

MU 5368. History of Music in Mexico.
This course is a study of the musical panorama of Mexico; Pre-Columbian, colonial, folk, urban, academic, and transnational genres are discussed in historical, socio-political, and stylistic context, including coverage of the scope and methods of research in the area of Mexican music studies. About History of Music in Mexico
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About History of Music in Mexico

MU 5369. History of Music in Latin America.
This course is a study of the musical panorama of Latin America; Pre-Columbian, colonial, folk, urban, academic, and transnational genres are introduced and discussed in historical, socio-political, and stylistic context. It also includes an introduction to the scope and methods of research in Latin American music studies. About History of Music in Latin America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About History of Music in Latin America

MU 5375B. Opera History and Literature.
Exploration of the history of opera from its beginning in Florence around 1600 to the present. Course includes in-depth study of operas such as Bizet’s Carmen and Mozart’s Don Giovanni. Discussion and presentations incorporate the connection between the studies operas, music and society. About Opera History and Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
About Opera History and Literature

MU 5375D. Methods and Methodologies of Music Analysis.
Examination of selected analytical techniques, methods and methodologies, critical approaches, or musical repertories, specifically semiotic analysis, computer-assisted music analysis, analysis of thematic processes, functional analysis, phrase structure analysis, as well as category and feature analysis. Prerequisite: MU 2263 or equivalent. About Methods and Methodologies of Music Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
About Methods and Methodologies of Music Analysis

MU 5375E. Song Literature.
Detailed consideration of vocal literature designed to provide an in depth study and awareness of the art song literature with emphasis on the study of English/American song, French chanson and mélodie, German Lieder, and other commonly performed literature. Further this course provides information on programming, performance practice, and performance preparation. About Song Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

About Song Literature

MU 5375F. Song Literature.
Detailed consideration of vocal literature designed to provide an in depth study and awareness of the art song literature with emphasis on the study of English/American song, French chanson and mélodie, German Lieder, and other commonly performed literature. Further this course provides information on programming, performance practice, and performance preparation. About Song Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
About Song Literature
MU 5375G. Vocal Pedagogy and Materials.
A survey of materials on technique, physiology, repertory, and other areas relevant to the performance, study and pedagogy of the singing voice. This course explores the physical mechanics and acoustics of the human voice, vocal health, and the psychology of voice training.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Vocal Pedagogy and Materials

MU 5375H. Post-Tonal Music Analysis.
The study and application of methodologies and terminology used to analyze post-tonal concert music of the 20th and 21st centuries. Prerequisite: B or higher in MU 5357 or passing grade on the Graduate Music Theory Placement Exam.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Post-Tonal Music Analysis

MU 5375J. Foundations of Ethnomusicology/Musicology.
This course is an introduction to the concepts, methodologies, and scholarly trends central to the disciplines of ethnomusicology and musicology. Prerequisite: MU 5334.
Course Attribute(s): 5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Foundations of Ethnomusicology/Musicology

MU 5375L. Techniques of Contemporary Music.
This course surveys a cross-section of important technical innovations and developments in twentieth-century music, with special focus on music since 1945. Students will read documents outlining aesthetics, analyze music written in a variety of styles, write analytical papers, and using a variety of techniques, compose exercises. Enrollment requires a passing grade on the Graduate Music Theory Placement Exam or Instructor approval.
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Techniques of Contemporary Music

MU 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Music 5399B. Students working toward the M.M. degree with a thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Course Attribute(s): Topics
Grade Mode: Credit/No Credit about Thesis

MU 5399B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Course Attribute(s): Topics
Grade Mode: Credit/No Credit about Thesis

MU 5599A. Thesis.
This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Course Attribute(s): Topics
Grade Mode: Credit/No Credit about Thesis

MU 5399C. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Music 5399B. Students working toward the M.M. degree with a thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Course Attribute(s): 9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Thesis

MU 5599B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Course Attribute(s): 9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

Music Ensemble (MUSE)

MUSE 5101. Basketball Band.
The Bobcat Basketball Band performs for all home men's and women's basketball games that do not fall over a university break. The group travels for all postseason tournaments. May be repeated for credit.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter about Basketball Band
MUSE 5102. Salsa Del Rio.
Performing ensemble specializing in Latin and South American music. May be repeated for credit.
Grade Mode: Standard Letter
about Salsa Del Rio
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
MUSE 5103. Texas State Mariachi.
Performing ensemble specializing in Mexican folk music. May be repeated for credit.
Grade Mode: Standard Letter
about Texas State Mariachi
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
MUSE 5104. Panorama Steel Drum Band.
A performing ensemble specializing in Caribbean steel drum band music. May be repeated for credit.
Grade Mode: Standard Letter
about Panorama Steel Drum Band
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
MUSE 5105. VocaLibre.
A select vocal ensemble specializing in chamber music, including madrigal or jazz literature. May be repeated for credit. Prerequisite: Enrollment in major choral ensemble.
Grade Mode: Standard Letter
about VocaLibre
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
MUSE 5106. Opera Theater.
Opera Theatre explores advanced opera performance techniques designed for the graduate vocal performer. Students will analyze and strengthen acting and interpretive techniques through work in full productions of operas, operettas, and classical musical theater repertoire of all style periods, building skills necessary for a professional operatic career. May be repeated for credit.
Grade Mode: Standard Letter
about Opera Theater
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
MUSE 5108. Orquesta del Rio.
Performing ensemble specializing in Latin and South American music. May be repeatable for credit. (MC).
Grade Mode: Standard Letter
about Orquesta del Rio
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required|Multicultural Content
MUSE 5120. Bobcat Marching Band.
This ensemble performs at all home and select away football games, utilizing traditional and corps-style marching. The ensemble is focused on delivering entertaining and high-powered halftime shows while supporting Bobcat Football. The band also performs in exhibitions for high school band events. May be repeated for credit.
Grade Mode: Standard Letter
about Bobcat Marching Band
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
MUSE 5123. Concert Band.
This ensemble provides playing experiences for non-music majors and music majors who want to improve their skills and serve as a lab ensemble for conducting students. May be repeated for credit.
Grade Mode: Standard Letter
about Concert Band
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
MUSE 5124. Women's Choir.
Performing ensemble specializing in choral literature for women's voices. May be repeated for credit.
Grade Mode: Standard Letter
about Women's Choir
1 Credit Hour. 6 Lecture Contact Hours. 0 Lab Contact Hours.
MUSE 5125. Men's Choir.
Performing ensemble specializing in choral literature for men's voices. May be repeated for credit.
Grade Mode: Standard Letter
about Men's Choir
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
MUSE 5126. Chamber Music.
Small group performing ensembles focusing on chamber literature of mixed and similar instrumental music. May be repeated for credit.
Grade Mode: Standard Letter
about Chamber Music
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
MUSE 5127. Jazz Combo.
A small performance ensemble designed to develop improvisational skills and individual musical creativity through performance of standard jazz literature. May be repeated for credit.
Grade Mode: Standard Letter
about Jazz Combo
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
MUSE 5128. Conducting Seminar.
A seminar based course focusing on conducting technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or permission by the instructor.
Grade Mode: Standard Letter
about Conducting Seminar
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
MUSE 5129. Afro-Caribbean Lab.  
This course is an experimental ensemble of flexible size and instrumentation that specializes in advanced arranging, performance, and improvisation involving Afro-Caribbean styles and rhythms. An audition is required for placement in this ensemble.  
about Afro-Caribbean Lab  
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Afro-Caribbean Lab

MUSE 5130. Wind Symphony.  
Major instrumental ensemble comprised of the most outstanding wind and percussion students who are selected by audition. The group is dedicated to the performance of the finest wind repertoire, whether a contemporary works for winds, or transcriptions from the orchestral repertoire. May be repeated for credit.  
about Wind Symphony  
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Wind Symphony

MUSE 5131. Symphonic Winds.  
Major instrumental ensemble consisting primarily of music majors and talented non-music majors. This ensemble performs a broad range of full ensemble repertoire, representative of all historical periods and styles. May be repeated for credit.  
about Symphonic Winds  
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Symphonic Winds

MUSE 5140. Texas State Chorale.  
Auditioned major choral ensemble specializing in performances of literature from the Renaissance and 20th Century. May be repeated for credit.  
about Texas State Chorale  
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Texas State Chorale

MUSE 5141. University Singers.  
Major choral ensemble that performs a variety of literature, including masterworks from the 17th Century to the present. May be repeated for credit.  
about University Singers  
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Standard Letter  
about University Singers

MUSE 5150. Texas State Symphony Orchestra.  
A full symphony orchestra that performs standard orchestra literature, as well as oratorio, concerto, and opera accompaniments. May be repeated for credit.  
about Texas State Symphony Orchestra  
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Texas State Symphony Orchestra

MUSE 5160. Jazz Ensemble.  
The jazz-based ensemble performs advanced arrangements of contemporary popular music in various styles. May be repeated for credit.  
about Jazz Ensemble  
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Jazz Ensemble

MUSE 5161. Jazz Orchestra.  
The jazz-based ensemble performs intermediate arrangements of contemporary popular music in various styles. May be repeated for credit.  
about Jazz Orchestra  
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Jazz Orchestra

MUSE 5162. Jazz Lab Band.  
The jazz-based ensemble performs beginning arrangements of contemporary popular music in various styles. May be repeated for credit.  
about Jazz Lab Band  
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Jazz Lab Band

MUSE 5180. Mysterium for Modern Music.  
A seminar-based course focusing on the performance and analysis of 20th century music in all styles and media. May be repeated for credit. Prerequisite: Music (Composition Specialization) major status.  
about Mysterium for Modern Music  
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Mysterium for Modern Music

MUSE 5185. Modern Music Ensemble.  
A performance-based course focusing on the performance of modern music in all styles and media. May be repeated for additional credit.  
about Modern Music Ensemble  
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Modern Music Ensemble

MUSE 5190. Guitar Ensemble.  
Chamber guitar ensemble designed to provide interaction with fellow guitarists, develop musicianship as an ensemble performer, and to familiarize the student with music from different periods through a variety of literature. May be repeated for credit. Prerequisite: Music (Guitar Performance Specialization) major status.  
about Guitar Ensemble  
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Guitar Ensemble
Music Performance (MUSP)

MUSP 5101. Graduate Recital.
A full-length, public recital in the appropriate applied music area. Should be taken simultaneously with a final semester of applied music instruction by those students in performance degree plans.
Grade Mode: Standard Letter
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MUSP 5127. Applied Conducting.
Through supervised private coaching, instruction focuses on baton technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MUSP 5130. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MUSP 5135. Piano Pedagogy Internship.
Supervised teaching experience. Practical application of methods, techniques, and materials of piano pedagogy. Prerequisite: Instructor’s permission.
Grade Mode: Standard Letter
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

MUSP 5140. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MUSP 5150. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MUSP 5164. Mariachi Melodia Techniques.
This course provides students with the fundamentals of playing and teaching the melodic instruments associated with the Mariachi ensemble, with specific emphasis on the voice, violin, and trumpet. Topics will cover history, tuning, and stylistic techniques associated with each instrument. This course is repeatable for credit three times.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

MUSP 5165. Mariachi Armonia Techniques.
This course provides students with the fundamentals of playing and teaching the rhythm/harmony instruments in the Mariachi ensemble, with specific emphasis in the guitarrón, vihuella/guitar, and the harp. Topics will cover history, tuning, strumming, and stylistic techniques specific to each instrument. This course is repeatable for credit three times.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

This course provides students with knowledge that is essential to become effective directors of Mariachi and Salsa ensembles. Instruments, styles, repertory, and resources that are related to these ensembles will be discussed.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

MUSP 5170. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
MUSP 5175. Afro-Cuban Hand Drumming.
The fundamentals of playing and teaching Afro-Cuban Drums. Topics will cover history and knowledge of styles of the various Afro-Cuban percussion instruments.
Grade Mode: Standard Letter
about Afro-Cuban Hand Drumming
1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
MUSP 5180. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Composition
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Introduction to recording and tape manipulation techniques of music concrete, electro-acoustical music techniques involving digital and analog synthesizers, and the MIDI environment. May be repeated for credit. Prerequisite: Music major status or permission from instructor.
Grade Mode: Standard Letter
about Electro-acoustic Music
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Voice
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5227. Applied Conducting.
Through supervised private coaching, instruction focuses on baton technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.
Grade Mode: Standard Letter
about Applied Conducting
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5230. Applied Keyboarding.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Keyboarding
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5240. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Woodwind
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5250. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Brass
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5260. Applied String.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied String
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5270. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Percussion
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
MUSP 5280. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter
about Applied Composition
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Introduction to recording and tape manipulation techniques of music concrete, electro-acoustical music techniques involving digital and analog synthesizers, and the MIDI environment. May be repeated for credit. Prerequisite: Music major status or permission from instructor.
Grade Mode: Standard Letter
about Electro-acoustic Music
2 Credit Hours. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

MUSP 5327. Applied Conducting.
Through supervised private coaching, instruction focuses on baton technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.
Grade Mode: Standard Letter

MUSP 5330. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

MUSP 5335. Keyboard Skills.
Advanced keyboard skills, styles, performance techniques, and professional health for pianists.
Grade Mode: Standard Letter

MUSP 5337. Advanced Conducting.
Music performance class designed for further development of baton technique, score reading, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated once with different emphasis for additional credit.
Grade Mode: Standard Letter

MUSP 5340. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

MUSP 5350. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

MUSP 5355. Applied Conducting.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the conducting area. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.
Grade Mode: Standard Letter

MUSP 5360. Applied String.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

MUSP 5370. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

MUSP 5380. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.
Grade Mode: Standard Letter

Introduction to recording and tape manipulation techniques of music concrete, electro-acoustical music techniques involving digital and analog synthesizers, and the MIDI environment. May be repeated for credit. Prerequisite: Music major status or permission from instructor.
Grade Mode: Standard Letter

Master of Music (M.M.), Major in Music Education

Major Program

Before prospective graduate students are approved for one of the music education specializations, they are expected to have certification to teach public school music and to have an interview with the appropriate music education faculty. Those students who do not possess a teacher's certificate must satisfy a deficiency plan in music education if they are to pursue the M.M. degree with one of the specializations under music education.
Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/mused.html.

Degree Requirements

The M.M. in music education is a 36-hour program with core, major field, and elective hours. In addition, opportunities are provided for independent study with professors in their areas of specialization.

Music Education Core

All music education majors take the following:

<table>
<thead>
<tr>

Choose 3 hours

- MUSP 5337  Advanced Conducting
- MU 5353  Ensemble Rehearsal Techniques

Elective Courses

Choose 12 hours in consultation with graduate advisor

| Total Hours | 24 |

**Comprehensive Examination**

All candidates within the graduate music program must pass a comprehensive oral (viva voce) examination. The students will be given a maximum of two attempts in order to pass this examination before being eligible for graduation. Candidates who fail to pass the comprehensive oral examination upon the first try may appeal for re-examination. The re-examination will be administered during the term following the first attempt. Exceptions to this policy are rare and must be approved by the director of graduate studies in music and by the director of the school of music. Failure to pass the required comprehensive oral examination upon the second attempt shall prevent the student from being eligible for graduation.

Master’s level courses in Music: MU (p. 1045), MUSE (p. 1051), MUSP (p. 1053)

**Courses Offered**

**Music (MU)**

**MU 5113. Independent Study in Music.**
Study of special interest that offers professional improvement and growth in the field of music. May be repeated with different emphasis for additional credit. Prerequisite: Consent of the graduate advisor.

Grade Mode: Standard Letter

about Independent Study in Music

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5130A. Writing About Music.**
Focusing on basic writing skills, research, and the use and documentation of sources. Course centers on the process of writing about music. Besides written exercises, the assignments include the study of such professional writing samples as concert reviews, program abstracts, and research essays. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor.

Grade Mode: Leveling/Assistantships

about Writing About Music

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics

Grade Mode: Leveling/Assistantships

about Writing About Music

MU 5130B. Diction for Singers.
An in-depth study of the pronunciation of singing in Italian, German, English, and French incorporating the International Phonetic Alphabet through the use of lecture and laboratory sessions for practical application. This course does not earn graduate degree credit.

Prerequisite: Consent of the graduate music advisor.

Grade Mode: Leveling/Assistantships

about Diction for Singers

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5141. Kodály Level I – Conducting.**
Advanced conducting techniques emphasizing patterns and communication of the character of music. Emphasis on conducting folk songs and classical canons.

Grade Mode: Leveling/Assistantships

about Diction for Singers

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5143. Kodály Level I – Materials.**
Examination of song literature appropriate for children with emphasis on folk literature.

Grade Mode: Leveling/Assistantships

about Kodály Level I – Conducting

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5145. Kodály Level II – Conducting.**
Advanced conducting techniques emphasizing patterns and communication of the character of music. Emphasis on independence of the left and right hands to communicate tempo, dynamics, cues, and character.

Grade Mode: Leveling/Assistantships

about Kodály Level I – Materials

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5147. Kodály Level II – Materials.**
Examination of song literature appropriate for children with emphasis on folk literature. Students will also explore suitable instrumental literature through performance on the recorder.

Grade Mode: Leveling/Assistantships

about Kodály Level II – Conducting

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5149. Kodály Level III – Conducting.**
Advanced conducting laboratory with application to 2-, 3-, and 4-part choral works.

Grade Mode: Leveling/Assistantships

about Kodály Level III – Conducting

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**MU 5151. Kodály Level III – Research and Retrieval.**
Research of international folk music as applied to philosophy as applied to Kodály music education program.

Grade Mode: Leveling/Assistantships

about Kodály Level III – Research and Retrieval

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
MU 5156. Mariachi Arranging.
This course is a study of Mariachi repertoire and arranging techniques for a Mariachi ensemble. Topics will cover instrument ranges, orchestration techniques, and styles. This course is repeatable for credit three times. about Mariachi Arranging
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Mariachi Arranging

MU 5157. Mariachi Ensemble Teaching Lab.
This course provides students with the knowledge to become effective directors of Mariachi ensembles within the public school/university systems. Mariachi curriculum/repertoire/rehearsal techniques appropriate to middle school/high school/post-high school ensembles are discussed and applied within the setting of a performing ensemble. This course is repeatable for credit three times. about Mariachi Ensemble Teaching Lab
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Mariachi Ensemble Teaching Lab

MU 5182. Practicum in Music Instruction.
Instruction techniques for teaching and instructional assistants concerning selected problems in the teaching of music in the classroom, private instruction, and ensemble environments. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis. about Practicum in Music Instruction
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistanship|Exclude from Graduate GPA|Leveling|Assistantships
Grade Mode: Leveling/Assistantships
about Practicum in Music Instruction

MU 5192. Graduate Recital.
A full-length, public recital in the appropriate applied music area. Should be taken simultaneously with a final semester of applied music instruction by those students in performance degree plans. about Graduate Recital
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Graduate Recital

MU 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

MU 5213. Independent Study in Music.
Study of special interest that offers professional improvement and growth in the field of music. May be repeated with different emphasis for additional credit. Prerequisite: Consent of the graduate advisor. about Independent Study in Music
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics
Grade Mode: Leveling/Assistantships
about Independent Study in Music

MU 5230A. Music Theory.
A study of the materials of counterpoint and harmony as evaluated through listening and analysis of literature, and application through composition. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. about Music Theory
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics
Grade Mode: Leveling/Assistantships
about Music Theory

MU 5230B. Aural Learning.
Development and application of theory concepts through singing, playing, and dictation. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor. about Aural Learning
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics
Grade Mode: Leveling/Assistantships
about Aural Learning

Development of sight singing and aural skills associated with advanced musicianship. about Kodály Level I – Musicianship and Sol-fa
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level I – Musicianship and Sol-fa

The teaching of music utilizing an American adaptation of the Kodály approach to music education as applied to kindergarteners and first graders. about Kodály Level I – Pedagogy
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level I – Pedagogy

Development of sight singing and aural skills associated with advanced musicianship. Emphasis on analysis of melodic content: intervals, range, and scales. about Kodály Level II – Musicianship and Sol-fa
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level II – Musicianship and Sol-fa
The teaching of music utilizing an American adaptation of the Kodály approach to music education as applied to second and third grade children.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level II – Pedagogy

Development of sight singing and aural skills associated with advanced musicianship. Emphasis on advanced studies in rhythm, counterpoint, and harmony.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level III – Musicianship and Sol-fa

MU 5250. Kodály Level III – Pedagogy.
The teaching of music utilizing an American adaptation of the Kodály approach to music education as applied to upper elementary, junior high, and high school.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Kodály Level III – Pedagogy

MU 5254. Piano Pedagogy I.
History, methods, and materials of piano pedagogy. Includes the application of technical and musical fundamentals to beginning levels of teaching. Prerequisites: Piano pedagogy or piano performance majors or instructor's permission.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Piano Pedagogy I

MU 5255. Piano Pedagogy II.
Advanced methods and materials of piano pedagogy. Includes the application of technical and musical fundamentals to intermediate and advanced levels of teaching. Prerequisites: Piano Pedagogy I or instructor's permission.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Piano Pedagogy II

MU 5299B. Thesis.
This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

MU 5310. Music Literature of the Baroque.
Style characteristics and literature of the music of 1600-1750 with special emphasis on Bach and Handel.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Music Literature of the Baroque

MU 5313. Independent Study in Music.
Study of special interest that offers professional improvement and growth in the field of music. May be repeated once with different emphasis for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Music

MU 5314. Survey of Twentieth-Century Music.
Emphasis on music of the modern period and its development from music of earlier periods. Numerous examples of vocal and instrumental works in both large and small forms are used to illustrate twentieth-century styles and trends.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Twentieth-Century Music

MU 5315. Music Literature, Middle Ages and Renaissance.
Historical, stylistic, and analytical study of western art music from about 450 to 1600.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Music Literature, Middle Ages and Renaissance

MU 5317. Independent Study in Music.
Study of special interest that offers professional improvement and growth in the field of music. May be repeated once with different emphasis for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Music

MU 5320. Music Literature, Viennese Classical.
Style analysis of music literature from 1750 to 1830 with emphasis on Haydn, Mozart, and Beethoven.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Music Literature, Viennese Classical

MU 5322. Instrumental Techniques and Materials.
Evaluation of teaching methods, materials, and literature of wind and string instruments. Prerequisite: Music 3217 or the equivalent of Undergraduate Instrumental Conducting.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instrumental Techniques and Materials
MU 5323. Vocal Music Education Methods.
Study of the anatomy of the human voice and evaluation of the scientific
data and historical beliefs concerning voice pedagogy with emphasis in
teaching voice in the class, private studio, as well as within a variety of
choral settings.
Grade Mode: Standard Letter
about Vocal Music Education Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5324. Seminar in Music Curriculum and Methodology.
Evaluation of teaching methods, learning processes, curriculum, and
research in music education as a basis for improving music pedagogy.
Grade Mode: Standard Letter
about Seminar in Music Curriculum and Methodology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5325. Research in Music Education I.
Examination of methodologies, techniques, and procedures for
interpreting and conducting research in music education. Relevant
studies in music education will be critiqued, with an emphasis on
preparation of a research proposal.
Grade Mode: Standard Letter
about Research in Music Education I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5326. Research in Music Education II.
A continuation and culmination of a research project in the field of music
education as developed and proposed in MU 5325. Prerequisite: MU
5325.
Grade Mode: Standard Letter
about Research in Music Education II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5328. Foundations of Music Education.
The cognitive psychology, historical perspective, and philosophical issues
that provide the basis for contemporary music education.
Grade Mode: Standard Letter
about Foundations of Music Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5329. Psychology of Music.
This course investigates the psychological foundations of music and the
human experience. Topics will include music perception, physiological
responses to music, music and the brain, musical attributes, music
learning, music therapy, and the measurement of musical behavior.
Grade Mode: Standard Letter
about Psychology of Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5330A. History and Analysis of Music.
A comprehensive musicianship approach to the study of music from the
earliest times to the present using techniques of stylistic and structural
analysis. This course does not earn graduate degree credit. Prerequisite:
Consent of the graduate music advisor.
Grade Mode: Leveling/Assistantships
about History and Analysis of Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics

MU 5330B. Advanced Theory.
Principles of form and analysis, counterpoint, orchestration, and
contemporary analytic techniques developed through in-depth study of
musical repertoire. This course does not earn graduate degree credit.
Prerequisite: Consent of the graduate music advisor.
Grade Mode: Leveling/Assistantships
about Advanced Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling|Topics

Music literature of the period from 1830 to 1910 with analysis of styles.
Grade Mode: Standard Letter
about Music Literature, Nineteenth-Century Romantic
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5341. History of Jazz.
This course is a chronological survey and historical analysis of the major
solos, ensembles, composers, recordings, and stylistic trends of all
major jazz styles.
Grade Mode: Standard Letter
about History of Jazz
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MU 5342. Jazz Pedagogy.
Jazz pedagogy is an in-depth study of the history, methodologies,
resources, and techniques of jazz pedagogy and the development of jazz
ensemble rehearsal skills.
Grade Mode: Standard Letter
about Jazz Pedagogy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MU 5343. Jazz Improvisation.
This course is a detailed study of the evolution of melodic, harmonic, and rhythmic structures used by jazz improvisers and composers from the 1930s to present day.
about Jazz Improvisation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Jazz Improvisation

MU 5344. Jazz Arranging.
This course provides a comprehensive study of jazz composition, arranging, and improvisation theory, emphasizing writing for jazz ensembles using harmony, scales, and improvisation in a variety of styles, and providing necessary skills to be a successful jazz or commercial composer/arranger.
about Jazz Arranging
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Jazz Arranging

MU 5345. Piano Literature I.
This course is designed to expand first-hand familiarity with the literature for the keyboard from the Baroque to Early Romantic era (Bach to Schumann). It will be divided into five chronological segments, discussing the major composers and their contemporaries. Ten composition genres will be discussed during the course.
about Piano Literature I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Piano Literature I

MU 5346. Piano Literature II.
This course is designed to expand first-hand familiarity with the literature for the piano, which will be divided into six chronological segments. These segments will discuss the most significant composers and their contemporaries in the 19th and 20th centuries and their major piano compositions.
about Piano Literature II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Piano Literature II

MU 5350. Musical Styles.
Developing a broader musical understanding through critical listening, technical analyses, and written assignments in various musical styles, including the late classical, romantic, and present eras. Prerequisite: B or higher in MU 5357 or a passing grade on the Graduate Music Theory Placement Exam.
about Musical Styles
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Musical Styles

MU 5351. Introduction to Schenkerian Analysis.
An introduction to the techniques and methods of music analysis as developed by Heinrich Schenker (1868-1935). This course will cover reductive analysis, structural levels in tonal music, and graphing techniques. Prerequisite: MU 5357 with a grade of "B" or higher, or passing grade on music theory entrance exam.
about Introduction to Schenkerian Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Schenkerian Analysis

MU 5353. Ensemble Rehearsal Techniques.
Course is designed for performance ensemble conductors. Includes supervision, administration, and rehearsal techniques.
about Ensemble Rehearsal Techniques
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ensemble Rehearsal Techniques

MU 5355. Pedagogy of Theory and Comprehensive Musicianship.
Developing teaching methods and broader understanding through critical study of materials, organization, techniques, and problems of music theory and comprehensive musicianship courses.
about Pedagogy of Theory and Comprehensive Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Time Conflicts Permitted
Grade Mode: Standard Letter
about Pedagogy of Theory and Comprehensive Musicianship

MU 5357. Graduate Music Theory and Musicianship.
Graduate-level studies in music theory and aural skills. The course covers melody, harmony, counterpoint, form, as well as sight-singing, performing, and dictation. This course does not earn graduate degree credit. Prerequisite: Consent of the graduate music advisor.
about Graduate Music Theory and Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Graduate Music Theory and Musicianship

MU 5360. Music in the United States.
A survey of the music and musical development in this country from pre-Columbian times to the present. Folk music, popular music, and jazz will be considered as well as traditional and experimental styles.
about Music in the United States
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Music in the United States

MU 5365. Computing in Music.
Development of concepts and skills related to current computer technology in music. Exploration and use of computer software, MIDI, and other productivity tools for application to music education, music administration, music research, and music composition.
about Computing in Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Computing in Music
MU 5366. Salsa Arranging.
Analysis and arranging music for a Salsa ensemble. Topics will cover instrument ranges, orchestration techniques, and styles.
about Salsa Arranging
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Salsa Arranging

MU 5367. History of Music in the Caribbean.
This course is a study of the musical panorama of the Spanish-speaking Caribbean; Pre-Columbian, colonial, folk, urban, academic, and transnational genres are discussed in historical, socio-political, and stylistic context, includes coverage of the scope and methods of research in the area of Caribbean music studies.
about History of Music in the Caribbean
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Music in the Caribbean

MU 5368. History of Music in Mexico.
This course is a study of the musical panorama of Mexico; Pre-Columbian, colonial, folk, urban, academic, and transnational genres are introduced and discussed in historical, socio-political, and stylistic context. It also includes an introduction to the scope and methods of research in Latin American music studies.
about History of Music in Mexico
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Music in Mexico

MU 5369. History of Music in Latin America.
This course is a study of the musical panorama of Latin America; Pre-Columbian, colonial, folk, urban, academic, and transnational genres are introduced and discussed in historical, socio-political, and stylistic context. It also includes an introduction to the scope and methods of research in Latin American music studies.
about History of Music in Latin America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Music in Latin America

MU 5375B. Opera History and Literature.
Exploration of the history of opera from its beginning in Florence around 1600 to the present. Course includes in-depth study of operas such as Bizet’s Carmen and Mozart’s Don Giovanni. Discussion and presentations incorporate the connection between the studies operas, music and society.
about Opera History and Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Opera History and Literature

MU 5375D. Methods and Methodologies of Music Analysis.
Examination of selected analytical techniques, methods and methodologies, critical approaches, or musical repertoires, specifically semiotic analysis, computer-assisted music analysis, analysis of thematic processes, functional analysis, phrase structure analysis, as well as category and feature analysis. Prerequisite: MU 2263 or equivalent.
about Methods and Methodologies of Music Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Methods and Methodologies of Music Analysis

MU 5375E. Song Literature.
Detailed consideration of vocal literature designed to provide an in depth study and awareness of the art song literature with emphasis on the study of English/American song, French chanson and mélodie, German Lieder, and other commonly performed literature. Further this course provides information on programming, performance practice, and performance preparation.
about Song Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Song Literature

MU 5375G. Vocal Pedagogy and Materials.
A survey of materials on technique, physiology, repertory, and other areas relevant to the performance, study and pedagogy of the singing voice. This course explores the physical mechanics and acoustics of the human voice, vocal health, and the psychology of voice training.
about Vocal Pedagogy and Materials
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Vocal Pedagogy and Materials

MU 5375H. Post-Tonal Music Analysis.
The study and application of methodologies and terminology used to analyze post-tonal concert music of the 20th and 21st centuries. Prerequisite: B or higher in MU 5357 or passing grade on the Graduate Music Theory Placement Exam.
about Post-Tonal Music Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Post-Tonal Music Analysis

MU 5375I. Advanced Musicianship.
Advanced studies in sight reading, dictation, and keyboard skills, including harmonization. Prerequisite: B or higher in MU 5357 or passing grade on the Graduate Music Theory Placement Exam.
about Advanced Musicianship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Advanced Musicianship
MU 5375J. Foundations of Ethnomusicology/Musicology.
This course is an introduction to the concepts, methodologies, and scholarly trends central to the disciplines of ethnomusicology and musicology. Prerequisite: MU 5334. about Foundations of Ethnomusicology/Musicology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Topics
Grade Mode: Standard Letter about Foundations of Ethnomusicology/Musicology

MU 5375L. Techniques of Contemporary Music.
This course surveys a cross-section of important technical innovations and developments in twentieth-century music, with special focus on music since 1945. Students will read documents outlining aesthetics, analyze music written in a variety of styles, write analytical papers, and using a variety of techniques, compose exercises. Enrollment requires a passing grade on the Graduate Music Theory Placement Exam or Instructor approval. about Techniques of Contemporary Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter about Techniques of Contemporary Music

MU 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Music 5399B. Students working toward the M.M. degree with a thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

MU 5399B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

MU 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Cannot be taken unless a Thesis Proposal has been submitted. Students working toward the M.M. with thesis are expected to enroll in thesis each semester in which faculty supervision is received. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

Music Ensemble (MUSE)
MUSE 5101. Basketball Band.
The Bobcat Basketball Band performs for all home men's and women's basketball games that do not fall over a university break. The group travels for all postseason tournaments. May be repeated for credit. about Basketball Band
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours. Grade Mode: Standard Letter about Basketball Band

MUSE 5102. Salsa Del Rio.
Performing ensemble specializing in Latin and South American music. May be repeated for credit. about Salsa Del Rio
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours. Grade Mode: Standard Letter about Salsa Del Rio

MUSE 5103. Texas State Mariachi.
Performing ensemble specializing in Mexican folk music. May be repeated for credit. about Texas State Mariachi
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours. Grade Mode: Standard Letter about Texas State Mariachi

MUSE 5104. Panorama Steel Drum Band.
A performing ensemble specializing in Caribbean steel drum band music. May be repeated for credit. about Panorama Steel Drum Band
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours. Grade Mode: Standard Letter about Panorama Steel Drum Band

MUSE 5105. VocaLibre.
A select vocal ensemble specializing in chamber music, including madrigal or jazz literature. May be repeated for credit. Prerequisite: Enrollment in major choral ensemble. about VocaLibre
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours. Grade Mode: Standard Letter about VocaLibre
MUSE 5106. Opera Theater.
Opera Theatre explores advanced opera performance techniques designed for the graduate vocal performer. Students will analyze and strengthen acting and interpretive techniques through work in full productions of operas, operettas, and classical musical theater repertoire of all style periods, building skills necessary for a professional operatic career. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Grade Mode: Standard Letter
about Opera Theater

MUSE 5108. Orquesta del Rio.
Performing ensemble specializing in Latin and South American music. May be repeatable for credit. (MC).

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required|
Multicultural Content
Grade Mode: Standard Letter
about Orquesta del Rio

MUSE 5120. Bobcat Marching Band.
This ensemble performs at all home and select away football games, utilizing traditional and corps-style marching. The ensemble is focused on delivering entertaining and high-powered halftime shows while supporting Bobcat Football. The band also performs in exhibitions for high school band events. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Grade Mode: Standard Letter
about Bobcat Marching Band

MUSE 5123. Concert Band.
This ensemble provides playing experiences for non-music majors and music majors who want to improve their skills and serve as a lab ensemble for conducting students. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Concert Band

MUSE 5124. Women’s Choir.
Performing ensemble specializing in choral literature for women’s voices. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Women’s Choir

MUSE 5125. Men’s Choir.
Performing ensemble specializing in choral literature for men’s voices. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Men’s Choir

MUSE 5126. Chamber Music.
Small group performing ensembles focusing on chamber literature of mixed and similar instrumental music. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Chamber Music

MUSE 5127. Jazz Combo.
A small performance ensemble designed to develop improvisational skills and individual musical creativity through performance of standard jazz literature. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Jazz Combo

MUSE 5128. Conducting Seminar.
A seminar based course focusing on conducting technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or permission by the instructor.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Conducting Seminar

MUSE 5129. Afro-Caribbean Lab.
This course is an experimental ensemble of flexible size and instrumentation that specializes in advanced arranging, performance, and improvisation involving Afro-Caribbean styles and rhythms. An audition is required for placement in this ensemble.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Afro-Caribbean Lab

MUSE 5130. Wind Symphony.
Major instrumental ensemble comprised of the most outstanding wind and percussion students who are selected by audition. The group is dedicated to the performance of the finest wind repertoire, whether a contemporary works for winds, or transcriptions from the orchestral repertoire. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Grade Mode: Standard Letter
about Wind Symphony

MUSE 5131. Symphonic Winds.
Major instrumental ensemble consisting primarily of music majors and talented non-music majors. This ensemble performs a broad range of full ensemble repertoire, representative of all historical periods and styles. May be repeated for credit.

1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter
about Symphonic Winds
MUSE 5140. Texas State Chorale.
Auditioned major choral ensemble specializing in performances of literature from the Renaissance and 20th Century. May be repeated for credit.

about Texas State Chorale
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5141. University Singers.
Major choral ensemble that performs a variety of literature, including masterworks from the 17th Century to the present. May be repeated for credit.

about University Singers
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5150. Texas State Symphony Orchestra.
A full symphony orchestra that performs standard orchestra literature, as well as oratorio, concerto, and opera accompaniments. May be repeated for credit.

about Texas State Symphony Orchestra
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5160. Jazz Ensemble.
The jazz-based ensemble performs advanced arrangements of contemporary popular music in various styles. May be repeated for credit.

about Jazz Ensemble
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5161. Jazz Orchestra.
The jazz-based ensemble performs intermediate arrangements of contemporary popular music in various styles. May be repeated for credit.

about Jazz Orchestra
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5162. Jazz Lab Band.
The jazz-based ensemble performs beginning arrangements of contemporary popular music in various styles. May be repeated for credit.

about Jazz Lab Band
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5170. Accompanying.
A coaching seminar for pianists to develop reading and accompanying skills. May be repeated for credit.

about Accompanying
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5180. Mysterium for Modern Music.
A seminar-based course focusing on the performance and analysis of 20th century music in all styles and media. May be repeated for credit. Prerequisite: Music (Composition Specialization) major status.

about Mysterium for Modern Music
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5185. Modern Music Ensemble.
A performance-based course focusing on the performance of modern music in all styles and media. May be repeated for additional credit.

about Modern Music Ensemble
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter

MUSE 5190. Guitar Ensemble.
Chamber guitar ensemble designed to provide interaction with fellow guitarists, develop musicianship as an ensemble performer, and to familiarize the student with music from different periods through a variety of literature. May be repeated for credit. Prerequisite: Music (Guitar Performance Specialization) major status.

about Guitar Ensemble
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Standard Letter

Music Performance (MUSP)

MUSP 5101. Graduate Recital.
A full-length, public recital in the appropriate applied music area. Should be taken simultaneously with a final semester of applied music instruction by those students in performance degree plans.

about Graduate Recital
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

about Applied Voice
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5127. Applied Conducting.
Through supervised private coaching, instruction focuses on conducting technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.

about Applied Conducting
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
MUSP 5130. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

Grade Mode: Standard Letter
about Applied Keyboard

MUSP 5135. Piano Pedagogy Internship.
Supervised teaching experience. Practical application of methods, techniques, and materials of piano pedagogy. Prerequisite: Instructor’s permission.

Grade Mode: Standard Letter
about Piano Pedagogy Internship

MUSP 5140. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

Grade Mode: Standard Letter
about Applied Woodwind

MUSP 5150. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

Grade Mode: Standard Letter
about Applied Brass

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

Grade Mode: Standard Letter
about Applied String

MUSP 5164. Mariachi Melodia Techniques.
This course provides students with the fundamentals of playing and teaching the melodic instruments associated with the Mariachi ensemble, with specific emphasis on the voice, violin, and trumpet. Topics will cover history, tuning, and stylistic techniques associated with each instrument. This course is repeatable for credit three times.

Grade Mode: Standard Letter
about Mariachi Melodia Techniques

MUSP 5165. Mariachi Armonia Techniques.
This course provides students with the fundamentals of playing and teaching the rhythm/harmony instruments in the Mariachi ensemble, with specific emphasis in the guitarrón, vihuela/guitar, and the harp. Topics will cover history, tuning, strumming, and stylistic techniques specific to each instrument. This course is repeatable for credit three times.

Grade Mode: Standard Letter
about Mariachi Armonia Techniques

This course provides students with knowledge that is essential to become effective directors of Mariachi and Salsa ensembles. Instruments, styles, repertory, and resources that are related to these ensembles will be discussed.

Grade Mode: Standard Letter
about Latin Music Methods

MUSP 5170. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

Grade Mode: Standard Letter
about Applied Percussion

MUSP 5175. Afro-Cuban Hand Drumming.
The fundamentals of playing and teaching Afro-Cuban Drums. Topics will cover history and knowledge of styles of the various Afro-Cuban percussion instruments.

Grade Mode: Standard Letter
about Afro-Cuban Hand Drumming

MUSP 5180. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

Grade Mode: Standard Letter
about Applied Composition

Introduction to recording and tape manipulation techniques of music concrete, electro-acoustical music techniques involving digital and analog synthesizers, and the MIDI environment. May be repeated for credit. Prerequisite: Music major status or permission from instructor.

Grade Mode: Standard Letter
about Electro-acoustic Music
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5227. Applied Conducting.
Through supervised private coaching, instruction focuses on baton technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5230. Applied Keyboarding.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5240. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5250. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5260. Applied String.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5270. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Introduction to recording and tape manipulation techniques of music concrete, electro-acoustical music techniques involving digital and analog synthesizers, and the MIDI environment. May be repeated for credit. Prerequisite: Music major status or permission from instructor.

2 Credit Hours. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the vocal area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MUSP 5327. Applied Conducting.
Through supervised private coaching, instruction focuses on baton technique, musicality, score reading, literature and performance in the conducting area, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated for additional credit. Prerequisite: Conducting Major or consent of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5330. Applied Keyboard.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the keyboard area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MUSP 5335. Keyboard Skills.
Advanced keyboard skills, styles, performance techniques, and professional health for pianists.

About Keyboard Skills
3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5337. Advanced Conducting.
Music performance class designed for further development of baton technique, score reading, and rehearsal preparation with special emphasis on analysis and musical styles. May be repeated once with different emphasis for additional credit.

About Advanced Conducting
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MUSP 5340. Applied Woodwind.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the woodwind area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

About Applied Woodwind
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MUSP 5350. Applied Brass.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the brass area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

About Applied Brass
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MUSP 5360. Applied String.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the string area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

About Applied String
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MUSP 5370. Applied Percussion.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the percussion area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

About Applied Percussion
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

MUSP 5380. Applied Composition.
Through supervised private coaching, instruction focuses on technique, musicality, literature, and performance in the composition area. May be repeated for credit. Prerequisite: Music major status or consent of instructor.

About Applied Composition
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

Introduction to recording and tape manipulation techniques of music concrete, electro-acoustical music techniques involving digital and analog synthesizers, and the MIDI environment. May be repeated for credit. Prerequisite: Music major status or permission from instructor.

About Electro-acoustic Music
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

Minor in Music
A minimum of twelve hours of graduate-level music studies are required for a minor in music. Graduate students majoring in other departments should meet with the director of graduate studies in music in order to determine the course assignments to be included in their official degree audits.

Minor in Music Education
A minimum of twelve hours of graduate-level music studies are required for a minor in music education. Graduate students majoring in other departments should meet with the director of graduate studies in music in order to determine the course assignments to be included in their official degree audits.

**Department of Theatre and Dance**

Theatre Center Room 101  
T: 512.245.2147  F: 512.245.8440  
http://www.theatreanddance.txstate.edu/

At Texas State, you will work closely with faculty who have earned national and international recognition. Texas State faculty have acted on Broadway, starred in television shows, worked at Tony-Award winning regional theatres, had their designs displayed internationally, written books and articles, and have had their plays produced in New York and abroad. We are large enough to have a full complement of highly qualified specialists, yet small enough to provide personal attention to our students.

Classes take place in the university's distinctive Theatre Center and new Performing Arts Center. Together these spaces include four theatres that provide students the opportunity to experience a variety of production styles. They house completely equipped scene and costume shops, a computer drafting laboratory, a video editing laboratory, and classrooms with seating for 30 to 110 students, and extensive audiovisual resources for both research and teaching. There are ample opportunities for graduate student participation in productions. Recent productions include *Urinetown*, *Richard III*, and *Water by the Spoonful*.

Our goals are:

- to provide a stimulating and creative environment in which students may deepen their aesthetic experience, and to provide studies in a broad range of theatre skills and principles,
- to preserve in living form the great heritage of dramatic literature, and to encourage experimentation in new forms and ideas of staging, and
- to make a significant cultural impact on the campus and throughout the region served by the university.

---

**Facilities**

The theatre program is housed in the distinctive Theatre Center. In addition to the main theatre and a studio theatre, the center houses completely equipped scene and costume shops, twenty-one offices, seven classrooms, a computer-drafting laboratory, and intensive audiovisual resources for both research and teaching.

---

**Financial Assistance**

Graduate assistantships offered at competitive stipends with waiver of out-of-state tuition are available to qualified applicants. Contact the department for more information.

**Maines, Sarah**, Associate Professor, Theatre & Dance, M.F.A., Univ of California-San Diego

**Mayo, Sandra**, Associate Professor, Theatre & Dance, Ph.D., Syracuse University Main Campus

**Ney, Michelle**, Professor, Theatre & Dance, M.F.A., University of Texas at Austin

**Ney, Charles**, Professor, Theatre & Dance, Ph.D., Univ of Illinois Urbana-Champaign

**Price, James W**, Senior Lecturer, Theatre & Dance, A.M., University of Michigan-Ann Arbor

**Sodders, Richard P**, Professor, Theatre & Dance, Ph.D., Louisiana State Univ A&M College

---

**Master of Arts (M.A.), Major in Theatre**

---

**Major Programs**

A master of arts (M.A.) with a major in theatre offers specializations in directing, history-criticism, dramaturgy, and playwriting. The M.A. will
prepare students to teach at the secondary or community college level, to continue graduate education at the doctoral level, or to seek a career in community or professional theatre.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/th.html.

**Degree Requirements**

Thirty to thirty-nine semester credit hours are required for the degree, depending on the area of specialization. A minimum of six hours is taken in a minor or cognate area.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.
Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one subject of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library.
   However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Courses Offered

Theatre (TH)

**TH 5199B. Thesis.**

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit

about Thesis

**TH 5299B. Thesis.**

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit

about Thesis
TH 5301. Drama Research.
An examination of problems and research techniques in drama. Historical, critical, descriptive, and experimental research approaches will be surveyed and basic procedures in research report writing will be considered. Required of theatre majors.
about Drama Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5302. Text Analysis, Research and Interpretation.
This course reviews various methods of analysis of a dramatic text. This includes inductive, deductive, structural, and methodical approaches. It also examines techniques for production research and explores issues of interpretation that affect the development of a play's translation into a production on stage.
about Text Analysis, Research and Interpretation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5303. Conceptualization and Composition.
This course investigates conceiving and developing a production concept and/or production context. It also explores how the concept/context is useful in the formation of a plan of staging. Finally, it examines potential blocking and staging implications that result from conceptualization and context, as well as composition implications.
about Conceptualization and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5310. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course covers topics related to employment responsibilities. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.
about Graduate Assistant Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

TH 5312. Director/Designer Collaboration.
This course examines the nature of director/designer collaboration. Areas studied and developed include the director's visual perceptions, visual interpretations, and visual choices. In addition, attention is focused on discovering and uncovering these characteristics embedded in theatrical texts.
about Director/Designer Collaboration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5313. History of Directing and Scenography.
This course is a historical survey of the work of directors and designers. Particular emphasis will be on seminal production plans for notable directors and designers of the 20th and 21st centuries.
about History of Directing and Scenography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5320. Directing Theatre Activities.
Designed to assist any teacher in directing theatre activities. During the course, students will direct plays or scenes. May be repeated with different emphasis for additional credit. Graded on a credit (CR), no credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

TH 5323. Shakespeare Through Performance.
This intensive summer study abroad program immerses students in the language and culture of Shakespeare's plays. Incorporating a performance-based approach to the study of Shakespeare, this course includes theatrical workshops taught by professionals at leading international theatres, including the Royal Shakespeare Company.
about Shakespeare Through Performance
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This intensive study abroad program immerses students in the language and culture of Shakespeare's plays. In Stratford, academic workshops are led by scholars from the Shakespeare Birthplace Trust. Through immersion in the cultural environment in which the plays were produced, students gain insight into the context that shaped Shakespeare's theatre.
about Shakespeare: Text and Context
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5330. Stage Management.
An in-depth seminar in stage management, including organization, techniques, and practices for managing stage productions from initial planning through performance.
about Stage Management
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5331. Television Writing.
This course focuses on the techniques of writing for television, including both half-hour situational comedies and hour-long dramas. Students will pitch story ideas, develop beat sheets, write treatments, and complete written scripts. Prerequisite: TH 5354.
about Television Writing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TH 5332. Stage Properties.
This course trains students in the craft, artistry and management of stage properties for careers in theatre, film and the entertainment industry.
about Stage Properties
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TH 5334. Figure Drawing for Theatre Design.
This course covers drawing the human figure using traditional media, technique and application. Intended for the theatre designer, this course places special emphasis on aspects of drapery as they relate to the human figure.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

about Figure Drawing for Theatre Design

TH 5338. Advanced Stage Lighting.
Graduate lighting design is a continuation of the principles covered in Lighting Design (undergraduate). This course will concentrate primarily on the aesthetics of stage lighting, and will cover such topics as: viewer psychological and physiological responses as they pertain to visual perception; color; script analysis; use of light in creating both static and dynamic visual compositions; development and graphic representation of a theatrical lighting design.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Stage Lighting

TH 5340. Professional Internship.
This course provides professional hands-on experience in the theatre or film industry. Consent of Instructor required.

3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter

about Professional Internship

TH 5341. Dramatization and Adaptation.
This course focuses on the development of new theatrical scripts based on existing stories and source material. Students will explore a variety of potential source materials, pitch adaptation ideas, and complete a written script. Prerequisite: TH 5354.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Dramatization and Adaptation

TH 5342. MFA Studio I.
This course focuses on work with actors. Students will explore various rehearsal methods, motifs and strategies. Students will direct two short scenes for class and explore effective ways of working with actors. In addition, students will observe directors and acting coaches in the department work with and coach actors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about MFA Studio I

TH 5343. MFA Studio II.
Builds upon the work of MFA Studio I. This course examines additional techniques for working with actors as well as tools the director can use to shape each unit of performance text in order to build a dramatic story on stage. Students will analyze, rehearse and perform a one-act play. Prerequisite: TH 5342.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about MFA Studio II

TH 5345. Advanced Studies in Costume Design.
Costume problems for entire productions. Prerequisite: TH 5342.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Studies in Costume Design

TH 5346. Historical Costume Research.
This course is a study of clothing, accessories, and customs of selected theatrical periods as an approach to costuming period plays. Students will write for a departmental production. The course includes a written report of the project that demonstrates an understanding of the creative process of the chosen discipline. Prerequisite: Completed at least 18 graduate hours towards their M.F.A.

3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

about Historical Costume Research

TH 5347. Advanced Costume Construction.
A graduate course on the advanced level that studies the construction of costumes for the stage. Advanced techniques in sewing, pattern drafting/design as well as accessories/crafts construction is included. Prerequisite: TH 5342.

3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Costume Construction

TH 5350. Second Year Project.
Students in the second year of the MFA in Theatre will direct, design, or write for a departmental production. The course includes a written report of the project that demonstrates an understanding of the creative process of the chosen discipline. Prerequisite: Completed at least 18 graduate hours towards their M.F.A.

3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

about Second Year Project

This course is a study of architecture and interiors throughout history as it impacts design for theatre. This course will look at periods of design from ancient Egypt to the early Twentieth Century.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about History of Architecture and Interiors for Theatrical Design

TH 5352. MFA Studio III.
MFA Studio III is the student's second year project. The course includes all phases of directing a play, from conception and research, to rehearsal and performance. Prerequisite: TH 5343.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about MFA Studio III
TH 5353. MFA Studio IV.
A primary focus of the course is on experimental theatre. Students rehearse and perform scene work from 20th and 21st century plays, and put together a final experimental performance project. Prerequisite: TH 5343.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5354. Playwriting.
A seminar in the art and craft of playwriting, from initial idea through a completed draft of a play. May be repeated with different emphasis for additional credit.
Grade Mode: Standard Letter

TH 5355. Scene Painting.
Theory and practice of scene and costume painting as developed in the Italian Renaissance and continuing into new media available today. May be repeated with different emphasis for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5356. Advanced Theatre Drafting.
A study of computer drafting techniques and procedures used in the preparation of design and technical drawings for theatrical scenery, costumes, and lighting.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5357. Scene Design.
Seminar on design, emphasizing presentation and justification of executed renderings or models for selected plays. Emphasis on styles of staging, settings, lighting and properties, and their relationship to the complete production. May be repeated with different emphasis for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5358. Screenwriting.
This course offers a comprehensive study of the art and craft of writing screenplays. During a semester of intensive writing, readings, script analyses, and critiques, writers complete assignments in storytelling, character, structure, and script development. Each writer completes a full-length screenplay as the capstone project for the semester.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5359. Advanced Screenwriting.
This course focuses on the development and revision of full-length screenplays. May be repeated for credit with different emphasis.
Prerequisite: TH 538.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

TH 5360. Problems in Theatre.
Designed to give supervised experience to qualified advanced students in theatre history, playwriting, directing, acting, technical, or other theatre problems. Research problems or actual production problems may be chosen. May be repeated with different emphasis for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5361. Oregon Shakespeare Festival Intensive.
This course examines theatre production with a specific focus on directors and directing at this country’s largest Shakespeare theatre, the Oregon Shakespeare Festival. Students will study issues of translating the current season’s nine plays from script to stage, as well as analyzing the perspectives and choices of each director’s production.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5363. Directing for Film.
An in-depth examination of directing theories and procedures for film with practical filming and editing exercises. May be repeated with different emphasis for additional credit.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5364. Stage Directing.
Development of skills in analysis, research, staging, and production, with practical experience provided by directing scenes.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

TH 5365. Backgrounds of Modern Drama.
An analysis of those developments in dramatic literature that formed the basis of modern drama. Primary emphasis will be on nineteenth-and twentieth-century European and American drama.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TH 5366. Directing Styles.
A study of directing different dramatic styles. Students will direct a one-act play during regular semesters. Prerequisite: TH 5364 or permission of instructor.

Grade Mode: Standard Letter

The study of dramatic theory and criticism from Aristotle to the present. Prerequisite: Th 5363.

Grade Mode: Standard Letter

TH 5368. American Theatre and Drama.
Studies in the development of the American theatre and drama from colonial days to the present.

Grade Mode: Standard Letter

TH 5369. Contemporary World Theatre and Drama.
Studies of current trends in world theatre and drama.

Grade Mode: Standard Letter

Studies of the methods of creative dramatics in use in the classroom.

Grade Mode: Standard Letter

TH 5371. Classical and Renaissance Drama.
Seminar in Greek, French Neoclassical, and English Renaissance theatre, with intensive examination of selected works by Sophocles, Euripides, Shakespeare, and Marlowe. Primary focus will be on analysis of plays as performance texts, and on the historical cultural environments in which the plays were created and first performed.

Grade Mode: Standard Letter

TH 5372. Theory and Practice of Dramaturgy.
Study of the practical application of historical research and textual analysis in the production of period plays and new works. Emphasis upon the dramaturg as an instrument of collaboration between members of the artistic team and as a facilitator of audience outreach.

Grade Mode: Standard Letter

TH 5373. Advanced Film Directing.
An in-depth examination of narrative filmmaking that includes screenplay analysis, storyboarding, scheduling the shoot, directorial techniques, staging actors, camera placement, filming on location, and editing. Prerequisite: TH 5363.

Grade Mode: Standard Letter

TH 5374. Art History for Theatrical Design.
This course focuses on major art movements since the Renaissance. Baroque, Rococo, Neoclassicism, Romanticism, Realism, Impressionism, Expressionism, Surrealism, and other movements from throughout the world are studied in relationship to their use by theatrical designers.

Grade Mode: Standard Letter

TH 5375. Advanced Playwriting.
This course focuses on an in-depth study of the techniques of playwriting and the variety of styles that a playwright might employ. The course culminates with the writing of a full-length play. Prerequisite: Th 5354.

Grade Mode: Standard Letter

TH 5376. Advanced Film Directing.
This course offers a study of and experience in preparing and directing Shakespeare: from inception of a given approach to handling the language issues to performance. This course examines how professional directors actually work on production for major Shakespeare theatres in America.

Grade Mode: Standard Letter

A study of directors, theories, and problems of directing in the contemporary theatre. May be repeated with different emphasis for additional credit.

Grade Mode: Standard Letter

TH 5378. Play Development Lab.
This course provides a laboratory workshop development process for new plays. It provides a structured environment for rigorously revising student-written works. Prerequisites: TH 5375 or instructor approval.

Grade Mode: Standard Letter

TH 5379. MFA Studio V.
This course offers a study of and experience in preparing and directing Shakespeare: from inception of a given approach to handling the language issues to performance. This course examines how professional directors actually work on production for major Shakespeare theatres in America.

Grade Mode: Standard Letter

Course Attribute(s): Lab Required
TH 5383. MFA Studio VI.
This course continues the styles work started in MFA Studio V. It focuses on directing projects from multiple periods and styles of plays. Scenes will be drawn from several periods of dramatic literature including Ancient Greece, the English Restoration, Moliere, Georgian, and other High Comedy texts. Prerequisite: TH 5382. 
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

TH 5387. Directing Practicum.
Study of and experience in choosing, preparing, and directing a theatre production from analysis to performance. Attention is given to theatre organization and management. May be repeated with different emphasis for additional credit. 
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5397. Diagnostic Creative Project.
This project involves the design of a relatively simple theatrical production that is produced by University Theatre. Complete production plans are prepared under faculty guidance, followed by faculty evaluation and debriefing after production. Requires Department Approval. 
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

TH 5398. Final Creative Project.
To be taken the last year of training. This project requires the student to direct a major University Theatre production. The student must demonstrate mastery of directing. A complete written report of the project must be approved by a faculty committee. The report is a part of the final examination for the degree of Master of Arts with a major in Theatre for students in Directing. 
Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

TH 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Theatre 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis. 
Grade Mode: Credit/No Credit

TH 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. 
Grade Mode: 5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. 
Grade Mode: 9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

Master of Fine Arts (M.F.A.), Major in Theatre

Major Programs
A master of fine arts (M.F.A.) with a major in theatre will prepare students for the field of theatre, more specifically to direct theatre, lead a theatre, or to teach theatre. This degree will provide students with a strong theoretical and practical education in preparing productions so that they might have long, fruitful careers in theatre or higher education. It will also hone student skills in critical thinking, problem solving, creative analysis, and application of the craft to real world projects so that they might excel in today's quickly changing and ever diverse theatre and academic environments.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/th.html.

Degree Requirements
The M.F.A. program is a three-year course of study that requires 60 semester credit hours. Students pursuing the M.F.A. in theatre may choose from the following three concentrations: directing, design, or dramatic writing.

Master’s level courses in Theatre: TH

Courses Offered

Theatre (TH)

TH 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. About Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

TH 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. About Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

TH 5301. Drama Research.
An examination of problems and research techniques in drama. Historical, critical, descriptive, and experimental research approaches will be surveyed and basic procedures in research report writing will be considered. Required of theatre majors. About Drama Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Drama Research

TH 5302. Text Analysis, Research and Interpretation.
This course reviews various methods of analysis of a dramatic text. This includes inductive, deductive, structural, and methodical approaches. It also examines techniques for production research and explores issues of interpretation that affect the development of a play's translation into a production stage. About Text Analysis, Research and Interpretation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Text Analysis, Research and Interpretation

TH 5303. Conceptualization and Composition.
This course investigates conceiving and developing a production concept and/or production context. It also explores how the concept/context is useful in the formation of a plan of staging. Finally, it examines potential blocking and staging implications that result from conceptualization and context, as well as composition implications. About Conceptualization and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Conceptualization and Composition

TH 5310. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course covers topics related to employment responsibilities. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. About Graduate Assistant Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
About Graduate Assistant Development

TH 5312. Director/Designer Collaboration.
This course examines the nature of director/designer collaboration. Areas studied and developed include the director's visual perceptions, visual interpretations, and visual choices. In addition, attention is focused on discovering and uncovering these characteristics embedded in theatrical texts. About Director/Designer Collaboration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Director/Designer Collaboration

TH 5313. History of Directing and Scenography.
This course is a historical survey of the work of directors and designers. Particular emphasis will be on seminal production plans for notable directors and designers of the 20th and 21st centuries. About History of Directing and Scenography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About History of Directing and Scenography

TH 5320. Directing Theatre Activities.
Designed to assist any teacher in directing theatre activities. During the course, students will direct plays or scenes. May be repeated with different emphasis for additional credit. Graded on a credit (CR), no credit (F) basis. About Directing Theatre Activities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
About Directing Theatre Activities

TH 5323. Shakespeare Through Performance.
This intensive summer study abroad program immerses students in the language and culture of Shakespeare's plays. Incorporating a performance-based approach to the study of Shakespeare, this course includes theatrical workshops taught by professionals at leading international theatres, including the Royal Shakespeare Company. About Shakespeare Through Performance
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Shakespeare Through Performance

This intensive study abroad program immerses students in the language and culture of Shakespeare's plays. In Stratford, academic workshops are led by scholars from the Shakespeare Birthplace Trust. Through immersion in the cultural environment in which the plays were produced, students gain insight into the context that shaped Shakespeare's theatre. About Shakespeare: Text and Context
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Shakespeare: Text and Context
TH 5330. Stage Management.
An in-depth seminar in stage management, including organization, techniques, and practices for managing stage productions from initial planning through performance.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

TH 5331. Television Writing.
This course focuses on the techniques of writing for television, including both half-hour situational comedies and hour-long dramas. Students will pitch story ideas, develop beat sheets, write treatments, and complete written scripts. Prerequisite: TH 5354.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5332. Stage Properties.
This course trains students in the craft, artistry and management of stage properties for careers in theatre, film and the entertainment industry.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5334. Figure Drawing for Theatre Design.
This course covers drawing the human figure using traditional media, technique and application. Intended for the theatre designer, this course places special emphasis on aspects of drapery as they relate to the human figure.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.

TH 5338. Advanced Stage Lighting.
Graduate lighting design is a continuation of the principles covered in Lighting Design (undergraduate). This course will concentrate primarily on the aesthetics of stage lighting, and will cover such topics as: viewer psychological and physiological responses as they pertain to visual perception; color; script analysis; use of light in creating both static and dynamic visual compositions; development and graphic representation of a theatrical lighting design.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

TH 5340. Professional Internship.
This course provides professional hands-on experience in the theatre or film industry. Consent of Instructor required.
Grade Mode: Standard Letter
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

TH 5341. Dramatization and Adaptation.
This course focuses on the development of new theatrical scripts based on existing stories and source material. Students will explore a variety of potential source materials, pitch adaptation ideas, and complete a written script. Prerequisite: TH 5354.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5342. MFA Studio I.
This course focuses on work with actors. Students will explore various rehearsal methods, motifs and strategies. Students will direct two short scenes for class and explore effective ways of working with actors. In addition, students will observe directors and acting coaches in the department work with and coach actors.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5343. MFA Studio II.
Builds upon the work of MFA Studio I. This course examines additional techniques for working with actors as well as tools the director can use to shape each unit of performance text in order to build a dramatic story on stage. Students will analyze, rehearse and perform a one-act play. Prerequisite: TH 5342.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5345. Advanced Studies in Costume Design.
Costume problems for entire productions.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5346. Historical Costume Research.
This course is a study of clothing, accessories, and customs of selected theatrical periods as an approach to costuming period plays.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TH 5347. Advanced Costume Construction.
A graduate course on the advanced level that studies the construction of costumes for the stage. Advanced techniques in sewing, pattern drafting/design as well as accessories/crafts construction is included.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
TH 5350. Second Year Project.
Students in the second year of the MFA in Theatre will direct, design, or write for a departmental production. The course includes a written report of the project that demonstrates an understanding of the creative process of the chosen discipline. Prerequisite: Completed at least 18 graduate hours towards their M.F.A.
about Second Year Project
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Second Year Project

This course is a study of architecture and interiors throughout history as it impacts design for theatre. This course will look at periods of design from ancient Egypt to the early Twentieth Century.
about History of Architecture and Interiors for Theatrical Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about History of Architecture and Interiors for Theatrical Design

TH 5352. MFA Studio III.
MFA Studio III is the student's second year project. The course includes all phases of directing a play, from conception and research, to rehearsal and performance. Prerequisite: TH 5343.
about MFA Studio III
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about MFA Studio III

TH 5353. MFA Studio IV.
A primary focus of the course is on experimental theatre. Students rehearse and perform scene work from 20th and 21st century plays, and put together a final experimental performance project. Prerequisite: TH 5343.
about MFA Studio IV
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about MFA Studio IV

TH 5354. Playwriting.
A seminar in the art and craft of playwriting, from initial idea through a completed draft of a play. May be repeated with different emphasis for additional credit.
about Playwriting
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Playwriting

TH 5355. Scene Painting.
Theory and practice of scene and costume painting as developed in the Italian Renaissance and continuing into new media available today. May be repeated with different emphasis for additional credit.
about Scene Painting
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Scene Painting

TH 5356. Advanced Theatre Drafting.
A study of computer drafting techniques and procedures used in the preparation of design and technical drawings for theatrical scenery, costumes, and lighting.
about Advanced Theatre Drafting
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Advanced Theatre Drafting

TH 5357. Scene Design.
Seminar on design, emphasizing presentation and justification of executed renderings or models for selected plays. Emphasis on styles of staging, settings, lighting and properties, and their relationship to the complete production. May be repeated with different emphasis for additional credit.
about Scene Design

TH 5358. Screenwriting.
This course offers a comprehensive study of the art and craft of writing screenplays. During a semester of intensive writing, readings, script analyses, and critiques, writers complete assignments in storytelling, character, structure, and script development. Each writer completes a full-length screenplay as the capstone project for the semester.

TH 5359. Advanced Screenwriting.
This course focuses on the development and revision of full-length screenplays. May be repeated for credit with different emphasis.
Prerequisite: TH 5358.
about Advanced Screenwriting
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours. 
Course Attribute(s): Exclude from 3-peat Processing 
Grade Mode: Standard Letter 
about Advanced Screenwriting

TH 5360. Problems in Theatre.
Designed to give supervised experience to qualified advanced students in theatre history, playwriting, directing, acting, technical, or other theatre problems. Research problems or actual production problems may be chosen. May be repeated with different emphasis for additional credit.
about Problems in Theatre
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Problems in Theatre

TH 5361. Oregon Shakespeare Festival Intensive.
This course examines theatre production with a specific focus on directors and directing at this country's largest Shakespeare theatre, the Oregon Shakespeare Festival. Students will study issues of translating the current seasons' nine plays from script to stage, as well as analyzing the perspectives and choices of each director's production.
about Oregon Shakespeare Festival Intensive
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours. 
Grade Mode: Standard Letter 
about Oregon Shakespeare Festival Intensive
TH 5363. Directing for Film.
An in-depth examination of directing theories and procedures for film with practical filming and editing exercises. May be repeated with different emphasis for additional credit.
about Directing for Film
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Directing for Film

TH 5364. Stage Directing.
Development of skills in analysis, research, staging, and production, with practical experience provided by directing scenes.
about Stage Directing
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Stage Directing

TH 5365. Backgrounds of Modern Drama.
An analysis of those developments in dramatic literature that formed the basis of modern drama. Primary emphasis will be on nineteenth-and twentieth-century European and American drama.
about Backgrounds of Modern Drama
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Backgrounds of Modern Drama

TH 5366. Directing Styles.
A study of directing different dramatic styles. Students will direct a one-act play during regular semesters. Prerequisite: TH 5364 or permission of instructor.
about Directing Styles
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

Background Check and Drug Screening
As a condition for placement in some professional practice sites, some students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the drug screening process will be provided by program/department/school. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

What is a Communication Disorder?
A communication disorder affects an individual’s ability to hear, speak, understand, read, and/or write. The various types of communication disorders an individual can exhibit include: fluency, articulation, voice, swallowing, cognitive, and language disorders.

Which Professionals Assess and Treat Individuals Exhibiting Communication Disorders?
Speech-language pathologists diagnose and treat communication disorders. Speech pathologists are employed in a variety of settings including: public schools, hospitals, rehabilitation centers, nursing care facilities, community clinics, colleges and universities, private practice, health departments, home care, adult day care centers, and research laboratories. Speech-language pathologists also assess and treat swallowing disorders, cognitive-communication disorders, and auditory processing disorders.

Master of Arts (M.A.)
• Major in Communication Disorders (p. 1072)

Master of Science in Communication Disorders (M.S.C.D.)
• Major in Communication Disorders (p. 1077)

Immunization Requirements
It is the policy of the College of Health Professions that each student must provide a Health Report completed by a physician, and must take specific immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and the required forms may be obtained through the program/department/school office.
Resendiz, Maria D, Assistant Professor, Communication Disorders, Ph.D., University of Texas at Austin
Schwarz, Amy Louise, Assistant Professor, Communication Disorders, Ph.D., University of Texas at Dallas

Master of Arts (M.A.), Major in Communication Disorders

Major Program
The major in communication disorders is clinically oriented and is designed to prepare clinicians for employment in hospitals, clinics, private practice, and public schools. The program meets the minimum education and clinical requirements for state licensure as a speech-language pathologist and for the Certificate of Clinical Competence in Speech-Language Pathology awarded by the American Speech-Language-Hearing Association (ASHA). The academic program is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the ASHA.

Candidates for the communication disorders master’s degree are encouraged to earn a passing score on the Praxis Examination in Speech-Language Pathology before graduation and substitute a passing score for the required departmental graduate comprehensive examination.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/codis.html.

Facilities
The university operates the Speech-Language-Hearing Clinic on a twelve-month basis and is nationally known as a treatment center for communication disorders. Graduate students utilize the clinic for research in addition to clinical training experiences.

Course Work Requirements
The M.A. requires a minimum of 39 academic hours:

| Communication Disorders Major Course Work | CDIS 5331 | Stuttering Therapy | 3 |
| CDIS 5333 | Language Disorders in School-Age and Adolescence | 3 |
| CDIS 5334 | Articulation and Phonological Disorders: Assessment and Intervention | 3 |
| CDIS 5336 | Neuromotor Disorders of Speech: Description and Rehabilitation | 3 |
| CDIS 5337 | Vocal Rehabilitation | 3 |
| CDIS 5339 | Dysphagia | 3 |
| CDIS 5342 | Aphasia and Related Disorders | 3 |
| CDIS 5362 | Introduction to Research in Communicative Disorders | 3 |
| CDIS 5363 | Language Disorders in the Birth-to-5 Population | 3 |
| Thesis Course Work | CDIS 5199B | Thesis | |
| CDIS 5299B | Thesis | |

| Communication Disorders Cognate | CDIS 5399A | Thesis |
| CDIS 5399B | Thesis |
| CDIS 5599B | Thesis |
| CDIS 5999B | Thesis |

| Communication Disorders Cognate | Chosen from the list below | 6 |

| Clinical Practicum | Must be taken each semester. Courses do not count for graduate degree credit. | |
| CDIS 5321 | Clinical Practicum in Audiology |
| CDIS 5344 | Advanced Clinical Practicum |
| CDIS 5689 | Internship in Communication Disorders |

Total Hours | 39 |

Cognate Requirement
The communication disorders M.A. degree requires specific minors from within the Department of Communication Disorders. Please consult with the communication disorders graduate advisor for more information about this program. Students may choose from the following cognate options:

• Communication Disorders Bidialectal Cognate (6 hours)
• Communication Disorders Bilingual Cognate (6 hours)
• Communication Disorders Fluency Cognate (6 hours)
• Communication Disorders Neurogenic, Voice, & Swallowing Cognate (9 hours)
• Communication Disorders Versatility in Practice Cognate (9 hours)
• Open Cognate (6 hours)

Cognate Course Work
Courses required for the 6-hour cognate options include:

| CDIS 5340 | Cognitive Rehabilitation in Traumatic Brain Injury | 3 |
| CDIS 5350 | Multicultural Issues in Communication Disorders | 3 |

Courses required for the 9-hour cognate options include:

| CDIS 5340 | Cognitive Rehabilitation in Traumatic Brain Injury | 3 |
| CDIS 5350 | Multicultural Issues in Communication Disorders | 3 |
| CDIS 5390 | Seminar in Communication Disorders | 3 |

Background Course Work
The number of hours of background work required is determined in consultation with the communication disorders undergraduate/leveling advisor and is dependent on the courses taken at the undergraduate level. Please refer to the Leveling Course Sequence located on the Department of Communication Disorders website at http://www.health.txstate.edu/cdis/Admissions/Graduate-Admissions.html. Upon completion of the required background work (leveling), applicants may apply for admission to the regular graduate sequence for a fall term. Completion of the background requirements in the Department of Communication Disorders at Texas State DOES NOT GUARANTEE admission to the TWO-YEAR graduate program.

Practicum
In order to obtain the required clinical hours for certification, graduate students must enroll for clinical practicum each term enrolled for study.
Toward the master's degree. Students participating in on-campus clinical practicum in speech-language pathology must enroll in CDIS 5344. Students earning supervised clock hours in audiology must enroll in CDIS 5321. Graduate students earning clinical hours in both speech-language pathology and audiology during the term must enroll for both CDIS 5344 and CDIS 5321 concurrently. Students participating in off-campus clinical practicum must enroll in CDIS 5689. Academic hours for clinical practicum do not count toward the degree.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members' signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

   Master’s level courses in Communication Disorders: CDIS (p. 1074), HP (p. 1075).
Courses Offered

Communication Disorders (CDIS)

CDIS 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

CDIS 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

CDIS 5301. Advanced Independent Study in Communication Disorders.
Discussions of various areas of speech language pathology. Attention to individual needs of the student. Emphasis on independent study in habilitation and rehabilitation of communication disorders. This course is repeatable for credit and can be taught by different faculty covering different topics. Prerequisite: Faculty permission required.
Grade Mode: Leveling/Assistantships
about Advanced Independent Study in Communication Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CDIS 5312. Neuroanatomy for Communication Disorders.
This is a lecture course that examines the organization of the brain, spinal cord, and peripheral nervous system. Significance of the areas of the nervous system that are primary or secondary for speech, language, and hearing are the main focus of this course. This course does not earn graduate degree credit.
Grade Mode: Leveling/Assistantships
about Neuroanatomy for Communication Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling

CDIS 5321. Clinical Practicum in Audiology.
Supervised clinical practicum in audiology. Focus is on both diagnostic and rehabilitative audiological management of diverse populations. Must be taken every semester that a student participates in supervised audiology practicum. May be repeated for credit but not counted toward graduate degree credit. Graded on a credit (CR), no-credit (F) basis. Prerequisites: CDIS 4420 and CDIS 4370 or equivalents; instructor approval.
Grade Mode: Leveling/Assistantships
about Clinical Practicum in Audiology
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required

CDIS 5325. Anatomy and Physiology of the Speech Production System.
Description of structure and function of the speech production system with emphasis on physical problems in speech, language, and hearing. This course does not earn graduate degree credit.
about Anatomy and Physiology of the Speech Production System
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Anatomy and Physiology of the Speech Production System

CDIS 5330. Speech and Language Development.
Course to acquaint students with acquisition of speech and language in children. Basic information from linguistics, psycholinguistics, psychology, and communication are examined for children in various stages of development. This course does not earn graduate degree credit.
about Speech and Language Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Speech and Language Development

CDIS 5331. Stuttering Therapy.
Description of therapeutic intervention with children and adults who stutter. Techniques of assessment, management, and counseling are emphasized.
about Stuttering Therapy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Stuttering Therapy

CDIS 5333. Language Disorders in School-Age and Adolescence.
This introductory-level course will review assessment and intervention for language disorders in the school-age and adolescent population. The relationship between language and literacy will be discussed. Students will engage in detailed narrative analyses. Evidence-based practice and collaborative models of intervention will be emphasized.
about Language Disorders in School-Age and Adolescence
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Disorders in School-Age and Adolescence

CDIS 5334. Articulation and Phonological Disorders: Assessment and Intervention.
Study of normal, delayed, and disordered child phonology in English and select dialects/languages. Course covers etiologies, characteristics, and anatomic/physiologic bases of delays/disorders, as well as their potential impact on phonological awareness and subsequent development in reading/writing. Prevention, assessment, and treatment of disorders will be discussed.
about Articulation and Phonological Disorders: Assessment and Intervention
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective
Grade Mode: Standard Letter
about Articulation and Phonological Disorders: Assessment and Intervention
CDIS 5335. Bilingual Phonology and Phonological Disorders.
Typical development of Spanish-English bilingual/bidialectal children’s articulation and phonology will be discussed. Assessment and intervention of articulation and phonology with bilingual/bidialectal children will also be addressed. The information and theoretical foundations serve as a guide for students to critically evaluate and clinically apply research in bilingual populations.

about Bilingual Phonology and Phonological Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bilingual Phonology and Phonological Disorders

CDIS 5336. Neuromotor Disorders of Speech: Description and Rehabilitation.
The course reviews the neuroanatomic mechanisms underlying speech production and surveys the etiology, symptomatology, epidemiology, course, and prognosis of speech disorders resulting from impairment of the central and/or peripheral nervous system. Emphasis is placed on apraxia and the dysarthrias. Clinical application in assessment and rehabilitation of patients with neurogenically-based motor speech deficits is stressed. Prerequisite: CDIS 3312 or equivalent.

about Neuromotor Disorders of Speech: Description and Rehabilitation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Neuromotor Disorders of Speech: Description and Rehabilitation

CDIS 5337. Vocal Rehabilitation.
Assessment of vocal function and disorders; rehabilitation of the patient with vocal abnormalities due to vocal abuse, psychological, and/or organic etiologies, including laryngectomy. Clinical application in assessment and radiographic examination of deglutition will be reviewed. Rehabilitation procedures will be described in detail.

about Vocal Rehabilitation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Vocal Rehabilitation

CDIS 5339. Dysphagia.
A review of anatomic and physiologic disturbances of swallowing in neurologically impaired and post-surgical head and neck cancer patients will be presented. Instrumentation, techniques of evaluation, and radiographic examination of deglutition will be reviewed. Rehabilitation procedures will be described in detail.

about Dysphagia

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Dysphagia

This introductory-level course will review neuropathology and neurophysiology of traumatic brain injury and dementia, introduce relevant terms and models in cognitive rehabilitation, provide a framework for assessment and treatment, and discuss the functional impact of cognitive-communicative disorders on the patient and others. Prerequisites: CDIS 5336, CDIS 5342.

about Cognitive Rehabilitation in Traumatic Brain Injury

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cognitive Rehabilitation in Traumatic Brain Injury

CDIS 5342. Aphasia and Related Disorders.
The course develops an understanding of the etiology, symptomatology, assessment, remediation, and recovery patterns of acquired communication disorders that result from impairment of the central nervous system, with a focus on the aphasias and traumatic brain injuries. Coexisting problems caused by damage to cortical/sub-cortical structures will also be addressed. Recent advances in relevant clinical research and technology will be surveyed. Prerequisite: CDIS 3312 or equivalent.

about Aphasia and Related Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Aphasia and Related Disorders

CDIS 5344. Advanced Clinical Practicum.
Clinical practicum for graduate students focusing on assessment and remediation of communication disorders in children and adults. Required each semester enrolled. Repeated for credit but not counted toward graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

about Advanced Clinical Practicum

3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required
Grade Mode: Leveling/Assistantships
about Advanced Clinical Practicum

CDIS 5350. Multicultural Issues in Communication Disorders.
Addresses the social, cultural, and linguistic factors that impact the clinical service delivery provided to culturally and linguistically diverse populations. A primary focus of the course will be to address general principles of assessment and intervention as they relate to the clinical management of individuals with communication disorders from diverse cultural and language backgrounds.

about Multicultural Issues in Communication Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Multicultural Issues in Communication Disorders

CDIS 5362. Introduction to Research in Communicative Disorders.
Designed to acquaint the student with research protocol in behavior science, with an emphasis in speech-language pathology. Topics include research design, data analysis, manuscript preparation, and obtaining external funding. Emphasis on critical analysis of professional literature.

about Introduction to Research in Communicative Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Research in Communicative Disorders

This introductory-level course will review assessment and intervention for language disorders in the birth-to-5 population. Use of assessment information to determine language disorders versus language difference will be addressed. Students will engage in detailed language sample analyses. Creating effective intervention plans using assessment data will be discussed.

about Language Disorders in the Birth-to-5 Population

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Disorders in the Birth-to-5 Population
CDIS 5370. Aural Rehabilitation.
Principles and procedures in the habilitation and rehabilitation of hearing-impaired children and adults. This course does not earn graduate degree credit. Prerequisite: CDIS 5420.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Aural Rehabilitation

CDIS 5380. Communication and Aging.
The influx of senior citizens in our population will require preparation for the increased incidence of communication problems due to normal and pathological aging processes. This course will address how aging affects communication, how communication disorders manifest in the aging population, and implications for professionals working with older adults. This course is restricted to non-CDIS major graduate students.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Communication and Aging

CDIS 5390. Seminar in Communication Disorders.
Examination of current theoretical and clinical issues in Communication Disorders. Issues may include family management in communication disorders, language and literacy, issues in health care rehabilitation, instrumentation and entrepreneurship. May be repeated for credit.
Prerequisite: Graduate standing and permission of instructor and graduate advisor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Communication Disorders

CDIS 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in Communication Disorders 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CDIS 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CDIS 5420. Introduction to Audiology.
Relates anatomy and physiology of the auditory system and the science of acoustics to the study of normal, pathological auditory function. Laboratory experience in administration and interpretation of audiological tests. Discussion of professional opportunities in the field of Audiology and provision of audiological service to special populations. This course does not earn graduate degree credit. Prerequisite: CDIS 5459.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required|Leveling
Grade Mode: Leveling/Assistantships
about Introduction to Audiology

CDIS 5459. Phonemics and Phonetics.
Analysis of normal and abnormal phonological processes in children and adults. Proficiency in transcription using the alphabet of the International Phonetic Association emphasized. This course does not earn graduate degree credit.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from Graduate GPA|Lab Required|Leveling
Grade Mode: Leveling/Assistantships
about Phonemics and Phonetics

CDIS 5462. MP Remediation of Articulatory and Phonological Disorders.
This course prepares students to manage articulation and phonological disorders. Current therapeutic models are reviewed. Observation of therapy and instruction in preparation of written clinical reports are required. This course does not earn graduate degree credit. Prerequisites: CDIS 5325 and CDIS 5459.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required|Leveling
Grade Mode: Leveling/Assistantships
about MP Remediation of Articulatory and Phonological Disorders

CDIS 5466. Clinical Management of Language Disorders.
Study of principles and procedures for the identification, description, assessment, and remediation of language disorders in infants, children, and adolescents. Students will observe demonstrations of assessment procedures and types of language disorders within the context of clinical procedures. Describing observed behaviors and analyzing language samples are emphasized. This course does not earn graduate degree credit. Prerequisite: CDIS 5330.
4 Credit Hours. 4 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required|Leveling
Grade Mode: Leveling/Assistantships
about Clinical Management of Language Disorders

CDIS 5466. Clinical Management of Language Disorders.
Study of principles and procedures for the identification, description, assessment, and remediation of language disorders in infants, children, and adolescents. Students will observe demonstrations of assessment procedures and types of language disorders within the context of clinical procedures. Describing observed behaviors and analyzing language samples are emphasized. This course does not earn graduate degree credit. Prerequisite: CDIS 5330.
4 Credit Hours. 4 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required|Leveling
Grade Mode: Leveling/Assistantships
about Clinical Management of Language Disorders
CDIS 5469. Introduction to Hearing Science.
Study of acoustics, auditory physiology, and perception of sound. Includes discussion of auditory sensitivity, signal detection, psychoacoustic methods, perception of pitch and loudness, binaural hearing, and speech perception. Associated laboratory promotes reinforcement of concepts addressed in lecture through review, problem-solving, and weekly assignments. This course does not earn graduate degree credit.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): 4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Leveling/Assistantships
about Introduction to Hearing Science

CDIS 5475. Speech Science.
Normal processes of speech production will be addressed from anatomic, physiologic, kinematic, aerodynamic, acoustic, and perceptual perspectives. Measurement and analysis techniques, instrumentation, and experimental paradigms used to study speech production and perception will be emphasized. This course does not earn graduate degree credit. Prerequisites: CDIS 5325 and CDIS 5459.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required|Leveling
Grade Mode: Leveling/Assistantships
about Speech Science

CDIS 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisites: CDIS 5325 and CDIS 5459.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CDIS 5689. Internship in Communication Disorders.
Laboratory and clinical practicum at selected therapeutic sites used to provide additional breadth to therapeutic experiences. Dependent on approval of faculty advisor. Repeated for credit. Graded on a credit (CR), no-credit (F) basis. This course does not earn graduate degree credit.
6 Credit Hours. 1 Lecture Contact Hour. 30 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Internship in Communication Disorders

CDIS 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisites: CDIS 5325 and CDIS 5459.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

about Teaching in the Health Professions

Master of Science in Communication Disorders (M.S.C.D.), Major in Communication Disorders

Major Program
The major in communication disorders is clinically oriented and is designed to prepare clinicians for employment in hospitals, clinics, private practice, and public schools. The program meets the minimum education and clinical requirements for state licensure as a speech-language pathologist and for the Certificate of Clinical Competence in Speech-Language Pathology awarded by the American Speech-Language-Hearing Association (ASHA). The academic program is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the ASHA.

Candidates for the communication disorders master’s degree are encouraged to earn a passing score on the Praxis Examination in Speech-Language Pathology before graduation and substitute a passing score for the required departmental graduate comprehensive examination.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/codis.html.

Facilities
The university operates the Speech-Language-Hearing Clinic on a twelve-month basis and is nationally known as a treatment center for communication disorders. Graduate students utilize the clinic for research in addition to clinical training experiences.

Course Work Requirements
The time to degree may vary, depending on the undergraduate background of a student, but the M.S.C.D. requires a minimum of 36 academic hours:

Communication Disorders Cognate
Choose from the list below 9

Clinical Practicum
Must be taken each semester. Courses do not count for graduate degree credit.
CDIS 5321 Clinical Practicum in Audiology
CDIS 5344 Advanced Clinical Practicum
CDIS 5689 Internship in Communication Disorders

Total Hours 36

Cognate Requirement
The communication disorders M.A. degree requires specific minors from within the Department of Communication Disorders. Please consult with the communication disorders graduate advisor for more information about this program. Students may choose from the following cognate options:

- Communication Disorders Autism Cognate
- Communication Disorders Bilingual Cognate
- Communication Disorders Fluency Cognate
- Communication Disorders Neurogenic, Voice, & Swallowing Cognate
- Communication Disorders Versatility in Practice Cognate

Cognate Course Work

Courses required for the 9-hour cognate options include:

CDIS 5340 Cognitive Rehabilitation in Traumatic Brain Injury 3
CDIS 5350 Multicultural Issues in Communication Disorders 3
CDIS 5390 Seminar in Communication Disorders 3
or CDIS 5301 Advanced Independent Study in Communication Disorders 3

Background Course Work
The number of hours of background work required is determined in consultation with the communication disorders undergraduate/leveling advisor and is dependent on the courses taken at the undergraduate level. Please refer to the Leveling Course Sequence located on the Department of Communication Disorders website at http://www.health.txstate.edu/cdis/Admissions/Graduate-Admissions.html. Upon completion of the required background work (leveling), applicants may apply for admission to the regular graduate sequence for the subsequent term. For students who have not previously enrolled in a thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources, failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor will require enrollment for the thesis course.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor will require enrollment for the thesis course.

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.
may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Communication Disorders: CDIS (p. 1079), HP (p. 1083)

Courses Offered

Communication Disorders (CDIS)

CDIS 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CDIS 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CDIS 5301. Advanced Independent Study in Communication Disorders.
Discussions of various areas of speech language pathology. Attention to individual needs of the student. Emphasis on independent study in habilitation and rehabilitation of communication disorders. This course is repeatable for credit and can be taught by different faculty covering different topics. Prerequisite: Faculty permission required.
about Advanced Independent Study in Communication Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Independent Study in Communication Disorders

CDIS 5312. Neuroanatomy for Communication Disorders.
This is a lecture course that examines the organization of the brain, spinal cord, and peripheral nervous system. Significance of the areas of the nervous system that are primary or secondary for speech, language, and hearing are the main focus of this course. This course does not earn graduate degree credit.

about Neuroanatomy for Communication Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Neuroanatomy for Communication Disorders

CDIS 5321. Clinical Practicum in Audiology.
Supervised clinical practicum in audiology. Focus is on both diagnostic and rehabilitative audiological management of diverse populations. Must be taken every semester that a student participates in supervised audiology practicum. May be repeated for credit but not counted toward graduate degree credit. Graded on a credit (CR), no-credit (F) basis. Prerequisites: CDIS 4420 and CDIS 4370 or equivalents; instructor approval.
about Clinical Practicum in Audiology

3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Lab Required
Grade Mode: Leveling/Assistantships
about Clinical Practicum in Audiology
CDIS 5325. Anatomy and Physiology of the Speech Production System.
Description of structure and function of the speech production system with emphasis on physical problems in speech, language, and hearing. This course does not earn graduate degree credit.
about Anatomy and Physiology of the Speech Production System
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Anatomy and Physiology of the Speech Production System

CDIS 5330. Speech and Language Development.
Course to acquaint students with acquisition of speech and language in children. Basic information from linguistics, psycholinguistics, psychology, and communication are examined for children in various stages of development. This course does not earn graduate degree credit.
about Speech and Language Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Speech and Language Development

CDIS 5331. Stuttering Therapy.
Description of therapeutic intervention with children and adults who stutter. Techniques of assessment, management, and counseling are emphasized.
about Stuttering Therapy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Stuttering Therapy

CDIS 5333. Language Disorders in School-Age and Adolescence.
This introductory-level course will review assessment and intervention for language disorders in the school-age and adolescent population. The relationship between language and literacy will be discussed. Students will engage in detailed narrative analyses. Evidence-based practice and collaborative models of intervention will be emphasized.
about Language Disorders in School-Age and Adolescence
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Disorders in School-Age and Adolescence

CDIS 5334. Articulation and Phonological Disorders: Assessment and Intervention.
Study of normal, delayed, and disordered child phonology in English and select dialects/languages. Course covers etiologies, characteristics, and anatomic/physiologic bases of delays/disorders, as well as their potential impact on phonological awareness and subsequent development in reading/writing. Prevention, assessment, and treatment of disorders will be discussed.
about Articulation and Phonological Disorders: Assessment and Intervention
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective
Grade Mode: Standard Letter
about Articulation and Phonological Disorders: Assessment and Intervention

CDIS 5335. Bilingual Phonology and Phonological Disorders.
Typical development of Spanish-English bilingual/bidialectal children’s articulation and phonology will be discussed. Assessment and intervention of articulation and phonology with bilingual/bidialectal children will also be addressed. The information and theoretical foundations serve as a guide for students to critically evaluate and clinically apply research in bilingual populations.
about Bilingual Phonology and Phonological Disorders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Bilingual Phonology and Phonological Disorders

CDIS 5336. Neuromotor Disorders of Speech: Description and Rehabilitation.
The course reviews the neuroanatomic mechanisms underlying speech production and surveys the etiology, symptomatology, epidemiology, course, and prognosis of speech disorders resulting from impairment of the central and/or peripheral nervous system. Emphasis is placed on apraxia and the dysarthrias. Clinical application in assessment and rehabilitation of patients with neurogenically-based motor speech deficits is stressed. Prerequisite: CDIS 3312 or equivalent.
about Neuromotor Disorders of Speech: Description and Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Neuromotor Disorders of Speech: Description and Rehabilitation

CDIS 5337. Vocal Rehabilitation.
Assessment of vocal function and disorders; rehabilitation of the patient with vocal abnormalities due to vocal abuse, psychological, and/or organic etiologies, including laryngectomy.
about Vocal Rehabilitation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Vocal Rehabilitation

CDIS 5339. Dysphagia.
A review of anatomic and physiologic disturbances of swallowing in neurologically impaired and post-surgical head and neck cancer patients will be presented. Instrumentation, techniques of evaluation, and radiograph examination of deglutition will be reviewed. Rehabilitation procedures will be described in detail.
about Dysphagia
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Dysphagia

This introductory-level course will review neuropathology and neuropsychology of traumatic brain injury and dementia, introduce relevant terms and models in cognitive rehabilitation, provide a framework for assessment and treatment, and discuss the functional impact of cognitive-communicative disorders on the patient and others. Prerequisites: CDIS 5336, CDIS 5342.
about Cognitive Rehabilitation in Traumatic Brain Injury
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cognitive Rehabilitation in Traumatic Brain Injury
CDIS 5342. Aphasia and Related Disorders.
The course develops an understanding of the etiology, symptomatology, assessment, remediation, and recovery patterns of acquired communication disorders that result from impairment of the central nervous system, with a focus on the aphasias and traumatic brain injuries. Coexisting problems caused by damage to cortical/sub-cortical structures will also be addressed. Recent advances in relevant clinical research and technology will be surveyed. Prerequisite: CDIS 3312 or equivalent.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Aphasia and Related Disorders

CDIS 5344. Advanced Clinical Practicum.
Clinical practicum for graduate students focusing on assessment and remediation of communication disorders in children and adults. Required each semester enrolled. Repeated for credit but not counted toward graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

Grade Mode: Advanced Clinical Practicum

about Aphasia and Related Disorders

CDIS 5350. Multicultural Issues in Communication Disorders.
Addresses the social, cultural, and linguistic factors that impact the clinical service delivery provided to culturally and linguistically diverse populations. A primary focus of the course will be to address general principles of assessment and intervention as they relate to the clinical management of individuals with communication disorders from diverse cultural and language backgrounds.

Grade Mode: Excluding from Graduate GPA

about Multicultural Issues in Communication Disorders

CDIS 5352. Introduction to Research in Communicative Disorders.
Designed to acquaint the student with research protocol in behavior science, with an emphasis in speech-language pathology. Topics include research design, data analysis, manuscript preparation, and obtaining external funding. Emphasis on critical analysis of professional literature.

Grade Mode: Standard Letter

about Introduction to Research in Communicative Disorders

This introductory-level course will review assessment and intervention for language disorders in the birth-to-5 population. Use of assessment information to determine language disorders versus language difference will be addressed. Students will engage in detailed language sample analyses. Creating effective intervention plans using assessment data will be discussed.

Grade Mode: Standard Letter

about Language Disorders in the Birth-to-5 Population

CDIS 5370. Aural Rehabilitation.
Principles and procedures in the habilitation and rehabilitation of hearing-impaired children and adults. This course does not earn graduate degree credit. Prerequisite: CDIS 5420.

Grade Mode: Leveling/Assistantships

about Aural Rehabilitation

CDIS 5380. Communication and Aging.
The influx of senior citizens in our population will require preparation for the increased incidence of communication problems due to normal and pathological aging processes. This course will address how aging affects communication, how communication disorders manifest in the aging population, and implications for professionals working with older adults. This course is restricted to non-CDIS major graduate students.

Grade Mode: Standard Letter

about Communication and Aging

CDIS 5390. Seminar in Communication Disorders.
Examination of current theoretical and clinical issues in Communication Disorders. Issues may include family management in communication disorders, language and literacy, issues in health care rehabilitation, instrumentation and entrepreneurship. May be repeated for credit.

Grade Mode: Standard Letter

about Seminar in Communication Disorders

CDIS 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in Communication Disorders 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit

about Thesis

about Clinical Management of Language Disorders 

CDIS 5469. Introduction to Hearing Science.  
Study of acoustics, auditory physiology, and perception of sound. Includes discussion of auditory sensitivity, signal detection, psychoacoustic methods, perception of pitch and loudness, binaural hearing, and speech perception. Associated laboratory promotes reinforcement of concepts addressed in lecture through review, problem-solving, and weekly assignments. This course does not earn graduate degree credit. 
Grade Mode: Excluding from Graduate GPA. Lab Required. Leveling.

School of Health Administration
Health Professions Building Room 250
T: 512.245.3494 F: 512.245.8712
http://www.health.txstate.edu/HA

Welcome to the School of Health Administration, which has steadily over the last 20 years assembled one of the best Health Administration (HA) faculties in the nation. The HA faculty have both educational preparation and the real-world experience necessary to maintain credibility with both students and employers of our students. The school boasts four faculty with the rank of professor teaching in HA, and eight faculty certified by the American College of Healthcare Executives at the highest level of Fellow. In addition, we have two faculty members certified at the highest level of Fellow in the Healthcare Financial Management Association.

Four of the faculty have significant international experience: Dr. Matthew Brooks, Dr. Oren Renick, Dr. Michael Nowicki, and Dr. Scott Kruse.

Immunization Requirements
It is the policy of the College of Health Professions that each student must provide a health report completed by a health care provider and must take specific immunizations before the student can be placed in field placement. Information on these requirements and the required forms may be obtained through the program/department/school office.

Background Check and Drug Screening
As a condition for placement in all professional practice sites, students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the drug screening process will be provided by program/department/school. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code will affect eligibility for placement in field experience.

Topinka, Joseph Baar, Assistant Professor, Health Administration, L.L.M., Loyola University of Chicago

Master of Science (M.S.), Major in Health Services Research

Major Program
Health services research, while focusing on health informatics, effectively utilizes biostatistics, epidemiology, and management engineering. The program prepares the graduate to be a vital contributor to clinical research, quality improvement, or policy development in the health sciences. The Texas State program represents the practical application of computer based qualitative, quantitative, and analytical methods of problem solving and decision making in both clinical and administrative settings. Graduates work in public health, biotechnology, or other careers related to health services administration where their quantitative and computer skills are a strong asset. The program is designed for entrance by students with diverse academic preparations, including both the health and non-health professional.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/hsr.html.
# Degree Requirements

The degree will require between 43 to 45 semester hours. The degree can be thesis or non-thesis, with most students choosing thesis.

## Total Hours

43

## Prerequisite

The prerequisite for health services research majors is statistics (HP 3325, HR 5330, or equivalent). Course equivalent for statistics may be accepted from other universities. This prerequisite must be taken prior to or during the first term of graduate courses. Health service research majors should have knowledge of various computer applications, including Excel, Word, and Access. Students lacking knowledge in these applications may be required to take a computer application class.

## Comprehensive Exam

All degree-seeking graduate students must pass a comprehensive exam at the end of the didactic portion of their programs. The School of Health Administration administers comprehensive exams at the end of the fall and spring terms. Students with field placements on their degree audits must pass the comprehensive exam before they begin their field placement. Students who fail the comprehensive exam may take the exam again the next term it is offered.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

## Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

## Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

## Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to
enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Health Administration: HR

Courses Offered
Health Research (HR)

HR 5101. Independent Study in Health Services Research.
An in-depth study of a single topic or related problem solved through health services research. The course may be repeated once if the topic studied is different.

about Independent Study in Health Services Research
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HR 5191. Field Experience and Thesis Orientation.
This course will prepare students for the field experience or thesis experience as well as the comprehensive exams qualifying students for these experiences.

about Field Experience and Thesis Orientation
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

HR 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

HR 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HR 5301. Independent Study in Health Services Research.
An in-depth study of a single topic or related problem solved through health services research. The course may be repeated once if the topic studied is different.

about Independent Study in Health Services Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HR 5311. Seminar in Health Services Research.
This course will introduce the student to some of the latest trends and issues in health services research, as well as newer analytical techniques, focusing on research applications where possible using real data and problems. This course may be repeated for credit with different area of study.

about Seminar in Health Services Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted
Grade Mode: Standard Letter

about Seminar in Health Services Research
HR 5330. Biostatistics for Health Professionals.
An applied course addressing statistical and analytical techniques important to researchers and practitioners within the scientific and health profession communities. This course provides in depth coverage of biostatistical methods from simple ANOVA and regression, through selected multivariate techniques. This course cannot be used for degree credit. Graded on a credit (CR), no credit (PR) basis. Prerequisite: HP 3302 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Leveling/Assistantships about Biostatistics for Health Professionals

HR 5331. Research Methods in Health Services.
Quantitative and qualitative research methods are introduced to evaluate effective health services. Psychometric techniques are covered to prepare survey questionnaire, experimental design for data collection, data analysis, and interpretations. Scientific principles such as randomization and replication are illustrated for efficient decision making. Prerequisite: HP 3302 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Research Methods in Health Services

HR 5333. Regression Analysis and Biostatistics.
An introduction to multivariate analysis techniques appropriate to the health sciences. Multiple statistical packages such as the Biomedical package (BMD) will be utilized. The analysis of health data using least-squares analysis for the study of multiple regression and analysis of variance will be examined. Time series analysis will be studied for its utility in forecasting needs within health agencies. Prerequisite: HR 5331 or consent of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Regression Analysis and Biostatistics

HR 5337. Clinical Trials and Statistical Analysis.
A survey of statistical techniques important in the analysis of biomedical data, statistical analyses related to bioassay, clinical trials, and survey research with special emphasis on mathematical modeling techniques. Confidentiality and privacy of records, safe-guarding computer data, and rights of human and animal subjects will be addressed. Prerequisite: HR 5333 or consent of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Clinical Trials and Statistical Analysis

HR 5339. Advanced Multivariate Health Data Analysis.
Advanced multivariate analysis techniques are examined for their utility to the health sciences. Statistical computer packages, such as the Biomedical Statistical Package (BMD), will be used for the study of each statistical procedure. Applied to health data will be procedures such as multivariate analysis of variance, canonical correlation, factor analysis, and discriminate analysis. Prerequisite: HR 5333 or approval of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Advanced Multivariate Health Data Analysis

HR 5341. Operations Research in Health Administration.
Adaptation and application of procedures and principles of operations research to the specific needs and requirements of health service institutions. Specific attention will be given to the improvement of effectiveness and efficiency of management functions and the delivery of health services. Emphasis will be placed on techniques to optimize allocation of resources, inventory control, customer service/cost factors, and project management within health institutions. Prerequisite: HHR 5391 or HR 5331.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Operations Research in Health Administration

HR 5351. Principles of Epidemiology.
Principles of epidemiological methods are examined as they may identify factors influencing health and disease in a population. Epidemiological methods are examined for their technique of hypothesis formation, retrospective and prospective methods, and sampling problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Principles of Epidemiology

HR 5357. Clinical Epidemiology and Outcomes Research.
Examination of techniques and issues important to clinical epidemiology and how they can be applied to health outcome research. A study of variation in the measurement of illness to include diagnostic and screening tests; experimental design; outcome measures; patient satisfaction; and risk adjustment for severity, co-morbidity, and demographic factors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Clinical Epidemiology and Outcomes Research

HR 5362. Bioinformatics.
Examines clinical information systems and statistical issues in the emerging field of genomics and proteomics. Topics examined include medical advances, gene mapping, database issues, ethical issues surrounding genomic research, stochastic models, dynamic programming, Markov-Chain Monte Carlo methods, neural networks, and Bayesian statistical techniques. Prerequisite: HR 5330.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Bioinformatics
HR 5363. Medical Informatics.
An examination of clinical aspects of health care information systems to include administrative systems, diagnostic systems, and patient care monitoring systems. Current challenges and future technologies will be discussed.
about Medical Informatics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Medical Informatics

HR 5369. Health Information Systems.
Critical examination of concepts and theories of medical information systems and their integrated support in functional areas of health institutions, such as pharmacy, clinical laboratory, radiology, food service, wards and clinics, patient administration, patient appointment scheduling and logistics.
about Health Information Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Health Information Systems

HR 5383. Healthcare Marketing Research.
Examination of methods for internal and external environmental analysis, including patient demographics and economic factors. Patient satisfaction surveys, institutional image analysis, competition analysis, and sources of health marketing research data will be introduced.
about Healthcare Marketing Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Marketing Research

HR 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Health Research 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

HR 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

HR 5495. Directed Study in Health Services Research.
A course where the student investigates a topic of importance to Health Services Research under the supervision of a faculty member. Topics may be selected to advance a student’s knowledge beyond that normally covered in an organized course. A significant terminal project should result from the investigation. Graded on credit (CR), no-credit (F) basis.
about Directed Study in Health Services Research
4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Directed Study in Health Services Research

HR 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

HR 5640. Administrative Practicum.
A one semester, part-time field experience which provides an orientation to the health services research organization and special projects. Designed for the student already working full-time in healthcare.
about Administrative Practicum
6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Administrative Practicum

HR 5840. Administrative Internship.
A one semester, full-time field experience which provides an orientation to the organization, a rotation through health services research functions in healthcare organizations and special projects. Designed for the student with little or no prior work experience in healthcare.
about Administrative Internship
8 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Administrative Internship

HR 5999A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Health Research 5999B. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
6 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

Master of Healthcare Administration (M.H.A.), Major in Healthcare Administration

Major Program
The major in healthcare administration offers courses designed to enhance the career mobility of persons currently employed in health professions as well as to provide a solid base of academic and directed experiences for persons who may desire entry into the field of health administration. The primary focus of the curriculum is middle-to senior-level management.

Principal areas of study include health and disease; sociological, economic, legal, and political forces which affect health care; and management organizational behaviors including such specializations as financial management, human resource management, planning, marketing, and data generation and analysis.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/ha.html.
Course Work Requirements

The 49-hour M.H.A. degree with a major in healthcare administration usually includes 43 hours of core courses and either a field experience of 6 hours or six hours of thesis, depending on the student’s previous health administration experience.

Total Hours: 49

Prerequisites

Course prerequisites for healthcare administration majors include the following: statistics, economics, and financial accounting. These prerequisites may be accepted from other universities and should be taken prior to entering the graduate program.

Comprehensive Exam

All degree-seeking graduate students must pass a comprehensive exam at the end of the didactic portion of their programs. The School of Health Administration administers comprehensive exams at the end of the fall and spring terms. Students with field placements on their degree audits must pass the comprehensive exam before they begin their field placement. Students who fail the comprehensive exam may take the exam again the next term it is offered.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each
subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Health Administration: HA

Courses Offered

Health Administration (HA)

HA 5111. Topics in Health Administration. An in-depth study of a singular topic or a related problem being faced by practicing managers in the rapidly changing healthcare industry. Special emphasis will be placed on the topic’s current relevance and its utilitarian value to the participant. May be repeated if topic differs.

Grade Mode: Standard Letter

HA 5191. Field Experience Orientation. This course will assist the student to prepare for the field experience and to prepare for the comprehensive exam. An extensive orientation to the field experience will be provided to better enable students to move from the classroom setting to a workplace scenario.

Grade Mode: Credit/No Credit

HA 5199B. Thesis. This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit

HA 5211. Topics in Health Administration. An in-depth study of a narrow range of topics or related problems being faced by practicing managers in the rapidly changing healthcare industry. Special emphasis will be placed on the topic’s relevance and its utilitarian value to the participant. Maybe repeated if topic differs.

Grade Mode: Standard Letter

HA 5299B. Thesis. This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit
A survey of the organization and delivery of health services focusing on the history and development of health systems as they relate to the overall health and medical care systems. Major attention is given to governing bodies, patient care organizations, and executive management structures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Organization and Delivery

A study of research methodology as it pertains to healthcare administration. Included are hypothesis forming, designing research, and the collection, manipulation and analysis of data. Knowledge of numeracy and statistics is essential.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Administration Research Methods

This course provides a comprehensive introduction to information systems management for healthcare organizations. It covers the determination of information required by whom, design of information flows, procurement of information systems technology resources, assurance of information security, and management of systems integration.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Information Systems Management in Healthcare

A study of economic theories that have an impact on the healthcare industry. Special emphasis will be placed on emerging economic research and its impact on potential policy ramifications.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Economics and Financial Theory

HA 5311. Trends in Health Administration.
An in-depth study of singular trend or a related problem being faced by practicing managers in the rapidly changing healthcare industry. Special emphasis will be placed on the topic’s current relevance and its utilitarian value to the participant. Examples of trends, which are typically offered, include trends in rural health, managed care ethical issues, and in total quality management. This course may be repeated for credit with a different subject area.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Trends in Health Administration

An introduction to healthcare financial management including the financial management in healthcare organizations, healthcare payment systems, financing and investment decisions, and financial planning, analysis, and control. Prerequisites: accounting, economics, and statistics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Financial Management

An in-depth analysis of healthcare law and its effect on the relationships between the patient, the patient’s family, the provider, and other interested third parties. Analysis of cases is the primary method of study.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Law

HA 5325. Patient Care Management and Integrated Delivery Systems.
A study of alternative delivery systems, managed care organizations, consumer-driven healthcare and the quality movement in health care. Quality management will be explored with special attention given to the quality management process, the role of outcomes, the characteristics, uses, and sources of quality standards, and risk management and information management.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Patient Care Management and Integrated Delivery Systems

An introduction to the fundamentals of selected operations research techniques essential to the analysis of healthcare managerial problem situations, the design of new and improved systems, and the implementation of systems to achieve desired systems performance.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Operational Decision Making for Healthcare Managers

This course introduces the healthcare manager to public health and its role in preventing illnesses and improving the health of the community. Students will learn of the role of the manager in disease prevention and how to participate and lead community efforts for the wellness of the community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Public Health for Healthcare Administrators

This capstone course examines mission, vision, strategy, and operations from both the formulation and implementation perspectives. Emphasis will be on the role of the manager/leader in strategic management analysis, creativity, and action. This course is available to HA majors only.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Strategic Management
A study of personnel administration in the healthcare facility and the environment in which it functions. Emphasis will be on the role of the Personnel Office in forecasting, developing, and managing human resources, in addition to a review of current legislation affecting the personnel function.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Resource Management in Healthcare Facilities

Prospective healthcare administrators analyze changing healthcare paradigm to determine decision-points where policies can be affected. Course allows students to apply existing skills to real world policy issues at state and national levels and to analyze policy development from numerous stakeholders’ viewpoints.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Policy Development in Healthcare Arena

This course is a study of theory and concepts drawn from the behavioral and social sciences. These concepts are applied as a foundation and conceptual framework for the analysis, diagnosis, prediction and guidance of human behavior in healthcare organizations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Healthcare Organizational Behavior/Theory

A study of marketing functions and principles as they relate to the healthcare delivery system. Analysis of marketing concepts such as market segmentation, marketing planning, marketing audit, marketing positioning, and marketing mix will be discussed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Marketing of Health Services

HA 5375. Healthcare Accounting.
An introduction to financial accounting in healthcare with an emphasis on the preparation of non-profit financial statements for healthcare service organizations, control procedures for healthcare entities, and accounting issues unique to the healthcare industry. This course does not count for graduate degree credit. Graded on a credit (CR), no credit (PR) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Exclude from Graduate GPA
about Healthcare Accounting

HA 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis, HA 5399B.
Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

HA 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

HA 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

HA 5640. Administrative Practicum.
A one-semester, part-time field experience designed for the student already working full-time in healthcare. The practicum provides a broader orientation to the student’s organization and exposure to special projects. This course is graded on a credit (CR), no-credit (F) basis.
6 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Administrative Practicum

HA 5840. Administrative Internship.
A one-semester, full-time field experience designed for the student with no prior healthcare work experience. The internship provides a full orientation to the organization and exposure to special projects. This course is graded on a credit (CR), no-credit (F) basis.
8 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Administrative Internship

HA 5841. Administrative Residency.
A full-time field experience, which provides an extensive rotation and special projects. Designed for the student with no prior work experience in healthcare. Student must be enrolled in the course for the duration of the field experience. Repeatable for credit.
8 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Administrative Residency
Minor in Healthcare Administration

Minor or Cognate

The School of Health Administration offers a 15-hour minor in healthcare administration. Students are required to take:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HA 5300</td>
<td>Healthcare Organization and Delivery</td>
<td>3</td>
</tr>

</tbody>
</table>

Total Hours 9

Certificate in Healthcare Administration

The graduate certificate in healthcare administration is designed to offer the core M.H.A. degree content to healthcare managers and other healthcare professionals. The graduate certificate in HA is taught in a learning environment where students with management and professional experience can supplement their existing practical knowledge with new theoretical knowledge of healthcare organizations, healthcare organizational behavior, healthcare law, and related healthcare administration topics.

Applicants applying for the graduate certificate in health administration must have at least two (2) years of experience as a healthcare manager and/or healthcare professional and must provide a current resume during the application process.

Admission Policy

For information regarding admission application requirements and deadlines, please see The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html.

Department of Health Information Management

The mission of the Department of Health Information Management (HIM) at Texas State is to develop the skills and qualities needed to fulfill the multifaceted role of a health information management practitioner and to develop the attitudes and principles which will encourage continuing growth in the profession that is rapidly expanding in scope and responsibility in the dynamic environment of the health care industry.

Health information management improves the quality of health care by insuring that the best information is available to make any healthcare decision. HIM professionals manage healthcare data and information resources. The profession encompasses services in planning, collecting, aggregating, analyzing, and disseminating individual patient and aggregate clinical data. It serves the healthcare industry including: patient care organizations, payers, research and policy agencies, and other healthcare related industries.

Projected by the Bureau of Labor Statistics to be one of the 15 fastest growing occupations in the United States, HIM is an excellent career choice for the person who is seeking a healthcare profession that combines interest in computer sciences, business, management, legal procedures, and healthcare research. HIM professionals play a key role in
making the healthcare system work. They perform the data collection and analysis that doctors, nurses, and other healthcare professionals need to provide quality patient care.

More than half of new HIM graduates start with salaries in the $30,000 to $50,000 ranges. In five years, many of these graduates are earning up to $75,000. These professionals work in a broad range of settings that span the continuum of healthcare, including office-based physician practices, nursing homes, home health agencies, mental health facilities, and public health agencies. The growth of managed care has created additional job opportunities in HMOs, PPOs, and insurance companies.

Immunization Requirements
It is the policy of the College of Health Professions that each student must provide a health report completed by a physician and must take specific immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and the required forms may be obtained through the program/department/school office.

Background Check and Drug Screening
As a condition for placement in some professional practice sites, some students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the drug screening process will be provided by program/department/school. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

Master of Health Information Management (M.H.I.M.)
• Major in Health Information Management (p. 1093)

Certificate
• Health Information Management (http://mycatalog.txstate.edu/graduate/health-professions/information-management/certificate)
  Dolezel, Diane M, Assistant Professor, Health Information Management, M.S., Texas State University
  Gibbs, David L, Assistant Professor, Health Information Management, Ph.D., Texas State University
  Hewitt, Barbara A, Assistant Professor, Health Information Management, Ph.D., Univ of Texas at San Antonio
  McLeod, Alexander John, Assistant Professor, Health Information Management, Ph.D., Univ of Texas at San Antonio
  Moczygemba, Jacqueline A, Chair - Associate Professor, Health Information Management, M.B.A., Texas State University
  Wang, Tiankai, Associate Professor, Health Information Management, Ph.D., Rutgers State Univ New Brunswick

Masters in Health Information Management (M.H.I.M.), Major in Health Information Management

Major Program
The major in health information management (M.H.I.M.) will offer current and emerging content about the evolving health information management field with the expanding reliance on patient data. The educational objectives of the program are:

• to prepare students for the emerging roles and functions within the health information management domain,
• to provide graduate level education that will prepare students to develop problem solving skills with the ability to analyze and evaluate systems, technology, regulations, data needs to assist in creating new methods, and in policy development,
• to provide a broad-based program of coursework that supports the varied aspects of HIM practice focusing on health data management, data analytics, health information technology project management, and compliance with regulations including privacy of patient information,
• to establish a framework for professional behavior and ethical principles to be used to guide decision-making and actions in the expanding role of health information management professionals, and
• to conduct research that will illustrate and define the health information body of knowledge.

The curriculum will help prepare leaders in the areas of information technology, data stewardship, Health Information Exchange information governance, clinical documentation integrity, project management, and quality data analytics.

Online Information
This program is taught exclusively online. For students residing outside of Texas and not planning on relocating to the state, please visit http://www.distancelearning.txstate.edu/ before applying.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/him.html.

Degree Requirements
The M.H.I.M. degree is a 36-hour program with thesis and non-thesis options. It requires a 30 hour core of Health Information Management (HIM) courses, plus 6 hours of electives or thesis. The electives in Computer Information Systems (CIS), Health Administration (HA), and HIM Informatics allow the students to select a curriculum aligned with their career goals.

Total Hours 36

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer
to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

### Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

### Courses Offered

#### Health Information Management (HIM)

**HIM 5301. The Enterprise Electronic Health Record.**

This course provides an in-depth analysis of the concept of an organization-wide electronic health record system. A major focus will be on the analysis of how this technology impacts overall hospital operations from both a clinical and administrative perspective. Departmental approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**HIM 5311. Informatics, Analytics and Data Use.**

This course provides an introduction to the fundamental concepts of data analytics and decision support. A major focus will be quality-driven data-based decision making systems for business intelligence, consumer informatics and health information exchanges. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**HIM 5320. Research Methods for HIM.**

This course provides an introduction to research study design, methods, descriptive and inferential statistics needed to conduct research studies in the Health Information Management domains. The foundation for compiling, analyzing, and displaying healthcare statistics needed to report and monitor healthcare statistics in the workplace will also be covered. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**HIM 5330. Healthcare Informatics.**

This course provides an overview and introduction to healthcare informatics. Topics in the course will include the information infrastructure, data needs, implementing healthcare information systems, decision making, privacy and security, consumer informatics and emerging technologies. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**HIM 5340. Healthcare Informatics.**

This course will provide an overview of healthcare terminologies, code sets and classification schemes, and associated standards. Mapping and the relationship of SNOMED to an administrative classification system such as ICD-9-CM will be explored. The purpose and differences encountered in mapping a terminology to a classification will be examined. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**HIM 5341. Healthcare Terminologies and Vocabularies.**

This course provides an overview of healthcare terminologies, code sets and classification schemes, and associated standards. Mapping and the relationship of SNOMED to an administrative classification system such as ICD-9-CM will be explored. The purpose and differences encountered in mapping a terminology to a classification will be examined. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**HIM 5342. Information Systems and Technology.**

This course provides an introduction to the fundamental concepts of health information technologies and information management strategic planning. A major focus will be design and selection of data-driven systems that offer strategic advantages, facilitate compliance and provide a return on investment. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**HIM 5350. Legal Aspects of Electronic Health Information.**

This course offers a detailed assessment of how state laws and federal regulations influence the development and management of protected health information within a healthcare organization.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**HIM 5352. Information Systems and Technology.**

This course provides an introduction to the fundamental concepts of health information technologies and information management strategic planning. A major focus will be design and selection of data-driven systems that offer strategic advantages, facilitate compliance and provide a return on investment. Department approval required.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
HIM 5351. Data Security, Privacy, and Confidentiality.
This course provides a detailed assessment of how state laws and federal regulations influence the development and management of policies and technology to protect date security, privacy, and confidentiality of protected health information. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HIM 5363. Health Data Content Structure and Standards.
This course provides an in-depth study of the components and use of health records. Interoperability and healthcare informatics standards for collecting, maintaining and transcribing healthcare data will be examined. The role of the HIM professional in developing an effective information governance program will be analyzed. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will focus on healthcare financial and revenue cycle/ reimbursement management issues that impact the practice of Health Information Management. Specific topics covered include financial management, coding compliance, case mix index, revenue cycle, and reimbursement methods. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides a detailed assessment of how state laws and federal regulations influence the development and management of policies and technology to protect date security, privacy, and confidentiality of protected health information. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HIM 5380. Quality Improvement in Health Care.
This course provides an in-depth study on quality improvement methodology to include data retrieval, display, outcomes analysis and the aspect of risk management for various sectors of healthcare. Mechanisms for promoting facility-wide participation in achieving optimum patient care as delineated in accreditation and government standards will be analyzed. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HIM 5382. Compliance for HIM Topics.
Compliance activities and methods will be covered for HIM topics to include HIPAA, fraud and abuse, coding auditing, severity of illness, data analytics, fraud surveillance, and clinical documentation improvement. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HIM 5383. Interoperability in health care information exchange.
This course will provide an overview of the technological and business challenges to achieving horizontal and vertical interoperability in health care information exchange.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit

HIM 5390. Contemporary Leadership Principles for HIM.
This course explores the expanded role of the Health Information Management professional in the healthcare environment. Topics include public policy development, executive decision making, strategic business alliances, change management, enterprise wide strategic planning, stakeholder engagement, training and development, information governance, cultural diversity and ethics. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HIM 5397. HIM Directed Practicum.
This course provides a one semester, part-time practicum experience in a healthcare or related organization. Included is an orientation to the organization and completion of a project suitable for implementation at the site. Department approval required.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit

HIM 5399A. Thesis.
This course represents a student’s initial thesis enrollment to initiate the thesis project. No thesis credit is awarded until completion of HIM 5399B. Thesis is graded on a credit (CR), progress (PR), no credit (F) basis. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

HIM 5399B. Thesis.
The course is a student’s continued enrollment in the thesis. The student continues to enroll in this course until the thesis is submitted for binding. This course is repeatable for credit until the thesis is completed. Course is graded on a credit (CR), progress (PR), no credit (F) basis. Department approval required.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

St. David’s School of Nursing
Nursing Building
Round Rock Campus
Round Rock, TX
T: 512.716.2900 F: 512.716.2911
http://www.nursing.txstate.edu/

Vision
The St. David’s School of Nursing at Texas State University will provide supportive and creative educational programs, which inspire those who teach and those who learn, based on mutual respect and a commitment to contribute to the health of individuals, families, populations, communities, and the environment worldwide.

Mission
St. David’s School of Nursing educates and prepares graduates, using innovative teaching strategies and state-of-the-art technology. Graduates provide ethical, safe, and effective patient-centered care and
contribute to present and emerging research and health management practices. Graduates demonstrate competence in clinical judgment, collaborate as members of the interprofessional healthcare team, and utilize scientifically-based interventions. As caring professional nurses, graduates manage illness; promote, maintain, and restore health; and provide end-of-life care for diverse individuals, families, populations, and communities across the lifespan.

Values
In pursuing excellence in nursing education, we the faculty and staff of the St. David’s School of Nursing are guided by shared values. We believe in:

• educational opportunities which provide for intellectual and professional growth and that challenge students to excel in nursing,
• a holistic approach to nursing education across the continuum of health and the lifespan,
• diversity and a spirit of inclusiveness with respect for the dignity and moral wholeness of every person without conditions or limitations,
• cultivation of character and civility through the modeling of honesty, integrity, caring, compassion, fairness, respect, and ethical behavior,
• teaching and learning based on student involvement and free exchange of ideas and diverse perspectives,
• research, scholarship, and creative activity as a source for evidence-based practice and generation of new knowledge as an expression of the human spirit,
• commitment to public service and advocacy as a resource for personal, educational, cultural, and economic development in promotion of a healthy environment,
• caring, thoughtful reflection, collaboration, planning, and evaluation to meet diverse and changing healthcare needs, practices, and resources,
• professional competency, systematic use of the nursing process, leadership, critical reasoning, and lifelong learning leading to safe, quality patient care, and
• interprofessional activity allowing for the advancement of science and positive patient outcomes.

Goals
We, the faculty, are committed to:

• equip graduates to adapt to rapid changes in healthcare delivery and practice,
• provide educational programs to prepare registered nurses at the M.S.N. and/or the doctor of nursing practice (D.N.P.) or Ph.D. levels,
• develop an overall plan for faculty scholarship,
• pursue funding to promote diversity in the admission and graduation of students,
• provide faculty access to professional development,
• assess, identify, and develop a plan to address community needs,
• develop educational partnerships with community organizations and other community entities in order to obtain input for the development of academic and service delivery programs to enhance community health knowledge,
• become a continuing nursing education (CNE) provider through the Texas Nurses Association (TNA), and
• collaborate with University Advancement and Development to support a sustainable plan for nursing programs.

Master of Science in Nursing (M.S.N.)

• Major in Family Nurse Practitioner (p. 1097)

Biggan, Elizabeth A, Clinical Assistant Professor, Nursing, M.S.N., University of Texas at El Paso

Covington, Barbara G, Associate Professor, Nursing, Ph.D., Texas A&M University

Kajs-Wylie, Marylyn R, Clinical Associate Professor, Nursing, M.S.N., University of Arizona

Kim, Son Chae, Professor, Nursing, Ph.D., University of San Diego

Levenson, Shirley Ann, Clinical Assistant Professor, Nursing, Ph.D., Texas Woman's University

Love, Karen Elaine, Lecturer, Nursing, M.S.N., University of Texas at Austin

Poole, Marcia, Clinical Associate Professor, Nursing, Ed.D., University of Houston

Willson, Pamela Ann, Clinical Professor, Nursing, Ph.D., Texas Woman's University

Master of Science in Nursing (M.S.N.), Major in Family Nurse Practitioner

Major Program

The master of science in nursing (M.S.N.) program is a 21-month (5-term) program in which registered nurses (RNs) with a bachelor of science in nursing (B.S.N.) degree will advance their skills to the entry level for certification as a Nurse Practitioner (NP), one of the four advanced practice nursing roles. Instruction will be in a hybrid format with twice per term meetings at the School of Nursing in Round Rock, to assure that advanced level competencies have been met. The program will teach the NP to treat the whole family; however, that family chooses to identify itself. As a result, graduates will be prepared to treat diverse populations, with knowledge to promote health and to assess patients of all ages. Beyond focusing on the family as a population, the program will emphasize the primary care environment and recruit nurses interested in practicing in rural areas, to mitigate the burgeoning shortage of primary care providers both rurally and overall. In addition to achieving certification as a Family Nurse Practitioner (FNP), graduates of the program will have developed competence in the theory and techniques of integrative health.

In addition to meeting all relevant professional competencies, M.S.N. graduates will be qualified to sit for one or more of the following certification exams:

• American Nurses Credentialing Center (ANCC) Certification Exam (FNP)
• American Academy of Nurse Practitioners (AANP) Certification Exam (FNP)
Nursing Program Student Educational Outcomes
At the completion of the M.S.N. program, a graduate of the St. David’s School of Nursing will be able to:

- integrate nursing and related sciences into the delivery of advanced nursing care to diverse populations,
- incorporate current and emerging genetic/genomic evidence as well as biopsych-ecological paradigms in providing advanced nursing care to individuals, families, and communities while accounting for patient values and clinical judgment,
- design nursing care for a clinical or community-focused population based on biopsychosocial, public health, nursing, and organizational sciences,
- evaluate the nutritional, vitamin, supplemental, herbal interventions in individuals, groups, and communities,
- apply ethical analysis and clinical reasoning to assess, intervene, and evaluate advanced nursing care delivery,
- synthesize evidence for practice to determine appropriate application of interventions across diverse populations,
- use quality processes and improvement science to evaluate care and ensure patient safety for individuals and communities,
- integrate organizational science and informatics to make changes in the care environment to improve health outcomes,
- analyze nursing history to expand thinking and provide a sense of professional heritage and identity, and
- synthesize integrative practices based on biopsychoneurological scientific underpinnings, cognitive neuroscience, and psychoneuroimmunology.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/nurs.html.

Total Hours: 48

Master’s level courses in Nursing: NURS

### Courses Offered

**Nursing (NURS)**

**NURS 5102. Advanced Health Assessment Practicum.**
This course emphasizes advanced health assessment techniques and skills common to patient evaluation and development of differential diagnoses. Advanced physical assessment skills and identifying common signs and symptoms related to physical examination will be developed. Restricted to MSN degree students only. About Advanced Health Assessment Practicum 1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours. Grade Mode: Credit/No Credit About Advanced Health Assessment Practicum

**NURS 5106. Fundamentals of Appraisal and Translational Research II.**
This course builds upon work begun in the first research course. Emphasis will be placed on writing an evidence-based scholarly paper or project in collaboration with a faculty member. Presentation of the findings and submission of a paper for publication will be required in the final semester. Restricted to MSN degree students only. About Fundamentals of Appraisal and Translational Research II 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Grade Mode: Standard Letter About Fundamentals of Appraisal and Translational Research II

**NURS 5107. Fundamentals of Appraisal and Translational Research III.**
This course is a continuation of work begun in previous courses and will result in an evidence-based scholarly paper or project. Presentation of the findings and submission of a paper for publication will be required. This is a culminating project for the entire course of study. Restricted to MSN degree students only. About Fundamentals of Appraisal and Translational Research III 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Grade Mode: Standard Letter About Fundamentals of Appraisal and Translational Research III

**NURS 5141. Reproductive, Sexual and Obstetrical Health Practicum.**
Students will integrate research evidence into practice with adolescent and adult patients while working in clinical settings in collaboration with other health care professionals. Students will utilize a systematic approach of assessment to develop advanced practice treatment plans for patients seeking care related to reproduction, sexual and obstetrical health. Restricted to MSN degree students only. About Reproductive, Sexual and Obstetrical Health Practicum 1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours. Grade Mode: Standard Letter About Reproductive, Sexual and Obstetrical Health Practicum
NURS 5202. Advanced Health Assessment.
This course emphasizes advanced health assessment techniques and skills common to family practice. Advanced skills in laboratory evaluation, taking and assessing patient history, and diagnostic capabilities, which are sensitive to cultural and developmental needs of a variety of patients in diverse settings, will be developed. Restricted to MSN degree students only.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Health Assessment

NURS 5204. Fundamentals of Appraisal and Translational Research I.
This course focuses on a variety of interest areas, related research and the evaluation of current research trends. There will be critique of research methodologies and outcomes into application within the clinical setting, as well as exploration of technological applications and student data compilations. Restricted to MSN degree students only.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
about Fundamentals of Appraisal and Translational Research I

This course will utilize documents from the World Health Organization, current research in the concepts of complexity leadership skills, creating adaptive systems, and new views on communication and intersubjectivity in collaborative relationships within these systems. Research in mindfulness and reflective practice will be employed. Restricted to MSN degree students only.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
about Health Care Leadership for a Changing World

NURS 5208. Current Issues in Advanced Practice Nursing.
The current professional and legal issues that influence advanced practice nursing, nursing education and the health care delivery system are discussed. Health care policy, changes in the economics of health care, and their impact on nursing are considered. Restricted to MSN degree students only.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
about Current Issues in Advanced Practice Nursing

NURS 5303. Advanced Pharmacotherapeutics.
This course provides advanced knowledge in selecting pharmacologic agents and specific drugs, based on acute and chronic health problems in diverse populations. Knowledge of pharmacologic groups, indications and contraindications, dosing with special needs groups, adverse effects, and collaborative monitoring of pharmacotherapy and alternative therapies will be developed. Restricted to MSN degree students only.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Advanced Pharmacotherapeutics

NURS 5310. Adult/Gerontology Primary Care Practicum.
This clinical experience encompasses adult through geriatric health care in a variety of clinical settings. Application of the principles for developing a differential diagnosis, clinical decision making, designing interventions for patient care, and treatment in a variety of clinical settings will be performed. Restricted to MSN degree students only.
Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.
about Adult/Gerontology Primary Care Practicum

NURS 5311. Behavioral Health Primary Care.
This course includes family system theories and their application to families. Common behavioral health diagnoses, such as anxiety, depression, and co-existing mental and physical illness, are investigated in relation to the human lifespan. The prevalence and incidence of behavioral health issues are considered in terms of diagnosis and therapy. Restricted to MSN degree students only.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Behavioral Health Primary Care

NURS 5330. Pediatric & Adolescent Primary Care Practicum.
Students will integrate translational research evidence into practice with adolescent and pediatric patients while working in clinical settings in collaboration with other health care professionals. Students will utilize a developmental approach of assessing the pediatric and adolescent patient to create advanced practice treatment plans. Restricted to MSN degree students only.
Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.
about Pediatric & Adolescent Primary Care Practicum

NURS 5341. Reproductive, Sexual and Obstetrical Health.
This course examines issues of fertility and infertility in males and females as well as the diseases related to sexual health. Selected topics in obstetrics, genetics, adolescent sexuality, family planning, cancers, HIV/AIDS, and STI’s will be explored. Restricted to MSN degree students only.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Reproductive, Sexual and Obstetrical Health
NURS 5350. Integrative Family Primary Care Practicum. This course develops skills in utilization of holistic assessment, as well as application of the principles for developing a differential diagnosis, clinical decision making, and designing interventions and treatment in a variety of clinical settings. Evaluation of traditional and complementary/alternative methods for supporting health promotion will also be explored. Restricted to MSN degree students only.

3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Integrative Family Primary Care Practicum

NURS 5351. Theoretical Foundations of Advanced Integrative Nursing. This course includes nursing theories and the interrelatedness to the advanced practice role. Mind and body interconnectedness, allopathic and alternative care models are discussed. The developmental processes between wellness and illness are considered. Restricted to MSN degree students only.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical Foundations of Advanced Integrative Nursing

NURS 5410. Adult/Gerontology Primary Care. This course focuses on the collection of data, pertinent laboratory findings, diagnostic tests, differential diagnoses and plans for therapeutic intervention. Integration of theory, health promotion, disease prevention, and clinical decision making in a variety of clinical care settings as applied to adults and older adults will be emphasized. Restricted to MSN degree students only.

4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Adult/Gerontology Primary Care

NURS 5430. Pediatric & Adolescent Primary Care. This course investigates the primary care management process to diagnose, treat, and follow up common illnesses of increasing complexity in pediatric and adolescents using family-centered and developmental perspectives. Perspectives of underserved populations in a variety of clinical settings will be explored. Restricted to MSN degree students only.

4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Pediatric & Adolescent Primary Care

NURS 5450. Integrative Family Primary Care. This course emphasizes the evaluation of clinical indications and contraindications, potential risks, and methods of accessing evidence-based information about complementary and alternative care, nutrition, herbs and dietary supplements. Skills in educating patients, communicating and collaborating with other health professionals, and documenting and reporting adverse events will be mastered. Restricted to MSN degree students only.

4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Integrative Family Primary Care

Department of Physical Therapy
Health Professions Building Room 310B
T: 512.245.8351 F: 512.245.8736

http://www.health.txstate.edu/PT

Physical Therapy is a dynamic profession with an established theoretical and scientific base and widespread clinical application in the restoration, maintenance and promotion of optimal physical performance.

For more than one million people every day in the United States, physical therapists:

- Diagnose and manage movement dysfunction and enhance physical and functional abilities.
- Restore, maintain and promote not only optimal physical function but optimal wellness and fitness and optimal quality of life as it relates to movement and health.
- Prevent the onset, symptoms, and progression of impairments, functional limitations, and disabilities that may result from diseases, disorders, conditions, or injuries.

Physical therapists are essential participants in the health care delivery system. They assume leadership roles in rehabilitation, in prevention, health maintenance, and in programs that promote health, wellness, and fitness in professional organizations and the community. Physical therapists also play important roles both in developing standards for physical therapist practice and in developing health care policy to ensure availability, accessibility and optimal delivery of physical therapy services (Rothstein, 2001).

Social and economic trends point towards people with and without physical disability living longer as well as a growing population of uninsured individuals. In addition, the baby boom generation is entering the prime age of age-related conditions — heart attack, stroke, and musculoskeletal injury. Future medical developments will also permit higher survival rates for trauma cases resulting in the increased need for rehabilitation. Health promotion, another major area of expertise for physical therapists, has potential to diminish risk factors for certain pathologies and thereby promote a healthier population in any one community. Physical therapists, at a lower cost and risk than surgery and medication, can provide services to these groups of individuals that can enhance performance, restore function, improve mobility, relieve pain, and prevent or limit permanent physical disabilities. The need for physical therapists will always be present. The U.S. Department of Labor, Bureau of Labor Statistics lists physical therapists as one of the fastest growing occupations, 2012-2022. These data project a 36% growth rate, prompting US News and World Report to rank physical therapy as the 6th “best job” among all professions, not just health care.

Immunization Requirements
It is the policy of the College of Health Professions that each student must provide a health report completed by a physician and must take specific immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and the required forms may be obtained through the program/department/school office.

Background Check and Drug Screening
As a condition for placement in some professional practice sites, some students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the drug screening process will be provided by program/department/school. Previous misdemeanor or felony convictions under various titles of the
The Department of Physical Therapy offers a graduate degree in physical therapy: doctor of physical therapy (D.P.T.). The program admits 40 students per year into a cohort based program. The D.P.T. is a 9-semester, 3-year, full-time graduate program. The program is accredited by the Commission on Accreditation of Physical Therapy Education. Graduates are eligible to take the licensure examination upon completion of the degree.

Physical therapy is defined as the care and services provided by or under the direction and supervision of a physical therapist. Physical therapists provide services to patients/clients who have impairments, functional limitations, disabilities, or changes in physical function and health status resulting from injury, disease, or other causes. They interact and practice in collaboration with a variety of professionals – physicians, dentists, nurses, educators, social workers, occupational therapists, speech-language pathologists, audiologists, and other personnel involved with the patient/client. Physical therapists provide prevention and promote health, wellness, and fitness. In addition they provide consultative services to health facilities, colleagues, business and community organizations, and agencies. Physical therapists provide health care to their patients/clients in a wide variety of settings, including but not limited to, physical therapy office practices, hospitals, rehabilitation facilities, homes, long term care settings, schools, industrial settings, and athletic/fitness centers.

Physical therapist education is built on the knowledge and skills characteristically attributed to completion of a baccalaureate degree – general education that provides students with broad exposure to the humanities, arts, basic science, and social science; requirements that provide students with the opportunity to delve into a discipline at some depth; and electives that provide students with the opportunity to explore other interests. Additionally, admission to physical therapist education programs typically requires students to have completed a set of prerequisite courses in biology, chemistry, physics, statistics, psychology, and human anatomy and physiology.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/dpt.html.

**Program Standards**

Students enrolled in the physical therapy curriculum must maintain high scholastic standards and develop skills necessary to work effectively as a physical therapist with people with diverse needs. Students are expected to demonstrate emotional, mental, and physical fitness in their interactions with others, use skills and techniques that are generally accepted by the professional community and conform to the Code of Ethics of the American Physical Therapy Association and the laws of the State of Texas. A student’s acceptance into the program does not guarantee that student’s fitness to remain in the program. The faculty is responsible for assuring that only those students who continue to meet academic and professional behavior standards are allowed to continue in the program.

**Evaluating Student’s Professional Behavior**

Members of the faculty, using their professional judgment, evaluate student’s professional behavior continuously. Students receive information and counseling related to their professional behavior performance from faculty members, their advisors, and their clinical education supervisors. The criteria used by the faculty to make such judgments include instructors’ observations of course performance, evaluation of student’s performance in simulated practice situations, supervisors’ evaluations of student’s performance in clinical situations, generic abilities/professional behavior assessment, assessment of
clinical skills, and adherence to the Code of Ethics. Relevant expectations are explicit in each course syllabus. Students who are not making satisfactory progress or who are not meeting program standards will be encouraged to withdraw from the program.

In this context, the term “unsatisfactory progress in the program” refers to an academic judgment made regarding the student’s professional behavior. It is a judgment that the student has failed to meet academic standards rather than a judgment made on the basis of the student’s violation of valid rules of conduct. Disciplinary matters are referred to the assistant dean of students.

Required Withdrawal from the Program

If a faculty member believes that a student is not making satisfactory progress or meeting program or university standards, they should discuss the situation with the student and the student’s advisor.

The department chair, after considering the advisor’s recommendations and after meeting with the student will determine whether the student will be allowed to remain in the program. The department chair need not meet with the student before making a decision if the department chair has given the student reasonable opportunity to meet and the student has either failed or refused to meet. The student will be notified of the department chair’s decision in writing within ten working days of the department chair’s meeting with the student.

If the student is dissatisfied with the department chair’s decision, they may appeal to the dean of the College of Health Professions. However, in order for an appeal to be considered, the student must submit a written notice for an appeal to the department chair within 10 working days of receiving the department chair’s decision. The dean will consider the matter based on results compiled by the department chair and notify the student of this or her decision within 10 working days of receipt of the appeal from the department chair.

Clinical Education

All students are required to complete part-time clinical education experiences in physical therapy facilities within the Central Texas area and in the Texas State Physical Therapy Clinic. The full-time clinical experiences may be completed in facilities within or outside of the Central Texas area. The additional costs of travel during the part-time experiences, as well as the cost associated with temporary relocation during the full-time experiences, are the responsibility of the student.

Total Hours 99

Doctoral level courses in Physical Therapy:

Courses Offered

Physical Therapy (PT)

PT 7114. Professional Issues.

This course serves as an introduction to the historical, current, and future issues faced by the physical therapy profession.

Grade Mode: Standard Letter about Professional Issues

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

PT 7115. Evidence-Based Practice.

This course introduces the concept of evidence-based practice in physical therapy including the formulation of answerable clinical questions, methods of obtaining peer-reviewed evidence to those clinical questions, and how to critically appraise evidence once located.

Grade Mode: Standard Letter about Evidence-Based Practice

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
PT 7125. *Clinical Decision Making I.*
This course provides a venue in which students can explore multiple aspects of patient evaluation, intervention, and outcomes in a problem-based learning environment. Students will identify complicating issues in patient care including physical, psychosocial, financial, and environmental factors as well as develop possible solutions to identified problems.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

about Clinical Decision Making I

PT 7130. *Clinical Education Orientation.*
This course provides an orientation to the requirements of the clinical education course sequence including patient education as well as the legal, ethical and professional requirements of physical therapy practice.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

about Clinical Education Orientation

PT 7135. *Clinical Decision Making II.*
This course provides a venue in which students can explore multiple aspects of patient evaluation, intervention, and outcomes in a problem-based learning environment. Students will identify complicating issues through case scenarios incorporating factors from all courses taken through the first year spring semester.

Grade Mode: Standard Letter

about Clinical Decision Making II

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

PT 7150. *Directed Clinical Experience.*
A structured clinical experience in which the student will have the opportunity to demonstrate the ability to apply the theory and clinical skills acquired during didactic course work into the clinical environment. This course will be completed in the Texas State Physical Therapy Clinic. This course is repeatable for credit.

Grade Mode: Standard Letter

1 Credit Hour. 0 Lecture Contact Hours. 15 Lab Contact Hours.

about Directed Clinical Experience

PT 7155. *Clinical Decision Making III.*
This course provides a venue in which students can explore multiple aspects of patient evaluation, intervention, and outcomes in a problem based learning environment. Students will identify complicating issues through case scenarios incorporating factors from all courses taken through the second year fall semester.

Grade Mode: Standard Letter

about Clinical Decision Making III

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

PT 7165. *Clinical Decision Making IV.*
This course provides a venue in which students can explore multiple aspects of patient evaluation, intervention, and outcomes in a problem based learning environment. Students will identify complicating issues through case scenarios incorporating factors from all courses taken thus far in the program.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

about Clinical Decision Making IV

This course is a continuation of the DPT research sequence that culminates in a supervised project to analyze outcomes in a defined area of clinical practice. The course involves development of data collection tools and strategies in a practice-based research environment. Completion of the full research sequence is required for graduation.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

about Research IV in Physical Therapy

This course is a continuation of the DPT research sequence that culminates in a supervised project to analyze outcomes in a defined area of clinical practice. The course includes patient outcomes data collection in a practice-based research environment. Completion of the full research sequence is required for graduation.

Grade Mode: Standard Letter

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.

about Research V in Physical Therapy

PT 7190. *Independent Study in Physical Therapy.*
An in-depth independent study of a singular problem or related problem in the dynamic field of physical therapy and health care. Emphasis will be on the relevance of the problem and the value to the participant. May be repeated twice for credit.

Grade Mode: Credit/No Credit

about Independent Study in Physical Therapy

1 Credit Hour. 1 Lecture Contact Hour. 3 Lab Contact Hours.
PT 7197. Research VI in Physical Therapy.
This course is a continuation of the DPT research sequence that culminates in a supervised project to analyze outcomes in a defined area of clinical practice. The course includes completion of data collection and analysis for an oral presentation and final paper. Completion of this last course is required for graduation.

1 Credit Hour. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Research VI in Physical Therapy

Study of static and dynamic aspects of the vertebral column and skull including bony landmarks, muscular, ligamentous attachments, and blood and nerve supply will be studied through lecture, lab, dissection of human cadavers, and independent study.

2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Multi.Content & Perspective
Grade Mode: Standard Letter
about Anatomy II – Spine

Study of static and dynamic aspects of the lower extremity including bony landmarks, muscular, ligamentous attachments, and blood and nerve supply will be studied through lecture, lab, dissection of human cadavers, and independent study.

2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Anatomy III - Lower Extremity

PT 7251. Anatomy IV - Upper Extremity.
Study of static and dynamic aspects of the upper extremity including bony landmarks, muscular, ligamentous attachments and blood and nerve supply studied through lecture, lab, dissection of human cadavers, and independent study.

2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Anatomy IV - Upper Extremity

Pharmacology, medical imaging, electromyography, and other selected diagnostic tests as related to physical therapist practice. Content emphasizes expected and adverse effects of selected medications, documentation of results of medical imaging procedures, and the use of muscle and nerve integrity testing via nerve conduction velocity techniques.

2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Body Systems III – Diagnostics

PT 7294. Special Issues in Physical Therapy.
Provides opportunities for learning through lecture covering multiple physical therapy practice settings and areas of specialization. Also designed to provide information relevant to the licensure process, preparation for the licensure exam, and test-taking strategies to enhance performance. This course is repeatable for credit. Prerequisite: Taken in last semester of program.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Issues in Physical Therapy

Introduction to the structure and function of the human body with emphasis on the skeletal, muscular, and nervous system. Content includes laboratory study of the human cadaver.

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Anatomy I: Structural Anatomy

PT 7312. Patient Care Skills I.
This course introduces students to basic patient care skills and documentation. Topics emphasized include body mechanics, patient positioning, mobility, transfers, patient communication/instruction skills, and documentation format. Students will also receive an introduction to therapeutic exercise, health promotion and wellness, and infection control as well as patient rights and reimbursement issues.

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Patient Care Skills I

Normal and abnormal organ system function as related to physical therapist practice with emphasis on the musculoskeletal, neuromuscular, cardiovascular/pulmonary, and integumentary systems. Content includes tissue inflammation and repair, infection, degenerative processes, and changes related to processes of aging.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Body Systems I – Pathology

Structure and function of the central, peripheral, and autonomic nervous systems in the context of lifespan human development.

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Neuroscience I: Functional Neuroanatomy
PT 7327. Research in Physical Therapy I.
Three-course sequence introducing the physical therapy student to research and statistical methodologies. This initial course emphasizes the application of basic principles of the scientific method for: 1) critically reviewing physical therapy literature; 2) developing research proposals; and 3) identifying the tools necessary for analysis and assessment of clinical practice patterns.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

PT 7328. Examination Techniques.
This course introduces students to basic evaluation and examination techniques used in physical therapy. Students will perform basic orthopedic, neurologic, cardiopulmonary, and integumentary evaluations in open lab and case-based learning environments. An emphasis will be placed on body mechanics, communication skills, positioning, and draping.

Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

PT 7333. Body Systems II – Cardiovascular/pulmonary System.
Fitness, health, wellness, and normal and abnormal function of the cardiovasculat/pulmonary and metabolic systems as related to physical therapist practice. Content emphasizes motor control, motor learning, and recovery of function in the context of relevant models of practice, models of disablement, hypothesis-oriented clinical practice, and theories of motor control.

Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

Study of typical growth and motor development and diseases, disorders, and dysfunction affecting postural control from birth to young adulthood. Content emphasizes motor control, motor learning, and recovery of function in the context of relevant models of practice, models of disablement, hypothesis-oriented clinical practice, and theories of motor control.

Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

PT 7346. Neuroscience III.
This course studies the neurologic diseases, disorders, and dysfunction affecting postural control in the adult. Content emphasizes motor control, motor learning, and recovery of function in the context of relevant models of practice, models of disablement, hypothesis-oriented clinical practice, and theories of motor control.

Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

PT 7347. Research in Physical Therapy II.
Three-course sequence introducing the physical therapy student to research and statistical methodologies. This second course emphasizes the proposal writing aspect of research, building on knowledge of research methods and statistics gained in PT 7327. Includes introduction to statistical software packages used for data-analysis and generating bibliographic material.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

PT 7356. Neuroscience IV.
This course studies the neurologic diseases, disorders, and dysfunction affecting postural control in the adult. Content emphasizes motor control, motor learning, and recovery of function in the context of relevant models of practice, models of disablement, hypothesis-oriented clinical practice, and theories of motor control.

Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

PT 7363. Body Systems III – Cardiovascular/Pulmonary System.
Fitness, health, wellness, and normal and abnormal function of the cardiovascular/pulmonary and metabolic systems as related to physical therapist practice. Content emphasizes motor control, motor learning, recovery of function in the context of relevant models of practice, models of disablement, hypothesis-oriented clinical practice, and theories of motor control.

Grade Mode: Standard Letter

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.

PT 7370. Clinical Education I.
A full-time clinical education experience in which the student will apply the theory and clinical skills acquired during previous didactic course work in the clinical setting.

Grade Mode: Credit/No Credit

3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

PT 7428. Therapeutic Interventions.
Provides an introduction to basic therapeutic interventions. Topics emphasized include current theory and application of tissue mobilization, light, heat, cold, ultrasound, hydrotherapy, compression, and electrical currents as well as assistive devices, traction, and isokinetics. Introduces therapeutic exercise including energy metabolism, muscle physiology, and response to exercise.

Grade Mode: Standard Letter

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
PT 7462. Patient Care Skills II.
This course introduces physical therapy care for medically complex patients with multi-system involvement. Content will focus on integumentary care and wound management, acute care/ICU, orthotics, and prosthetics. Complicating factors such as age, malnutrition, pain, obesity, diabetes, and other comorbidities will also be included.
Course Attribute(s): 4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Patient Care Skills II

PT 7474. Management Issues.
Study of basic management theories, principles, and practices as they relate to the health care delivery system, reimbursement resources and issues, and internal and external forces that impact health care delivery.
Course Attribute(s): 5 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Management Issues

PT 7470. Clinical Education II.
A full-time clinical education experience in which the student will apply the theory and clinical skills acquired during previous didactic course work in the clinical setting. Prerequisites: good academic standing.
Course Attribute(s): 6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Clinical Education II

PT 7480. Clinical Education III.
A full-time clinical education experience in which the student will apply the theory and clinical skills acquired during previous didactic course work in the clinical setting. Prerequisites: satisfactory progress in PT 7480, and good academic standing.
Course Attribute(s): 5 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Clinical Education III

Study of static and dynamic aspects of the vertebral column and skull studied through lecture, lab, literature review, and independent study. Knowledge and skill will be integrated to identify problems, prognosis, functional goals, and to develop comprehensive intervention programs related to the spine, including preventative health planning.
Course Attribute(s): 5 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Musculoskeletal I – Spine

PT 7549. Musculoskeletal II - Lower Extremity.
Study of static structural and dynamic aspects of the lower extremity. Emphasizes the effects and affects of forces on function. Clinical decision-making involving the integration of knowledge and skill to identify problems, establish goals, and develop comprehensive physical therapy programs related to the region of study.
Course Attribute(s): 5 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Musculoskeletal II - Lower Extremity

PT 7559. Musculoskeletal III - Upper Extremity.
Study of static structural and dynamic aspects of the upper extremity. Emphasizes the effects and affects of forces on function. Clinical decision-making involving the integration of knowledge and skill to identify problems, establish goals, and develop comprehensive physical therapy programs related to the region of study.
Course Attribute(s): 5 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Musculoskeletal III - Upper Extremity

PT 7690. Clinical Education IV.
A full-time clinical education experience in which the student will apply the theory and clinical skills acquired during previous didactic course work in the clinical setting.
Course Attribute(s): 6 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Clinical Education IV

Department of Respiratory Care
Health Professions Building Room 351
T: 512.245.8243 F: 512.245.7978
http://www.health.txstate.edu/rc

Vision Statement
The vision of the Department of Respiratory Care is to produce quality graduates who meet the expectations of the communities of interest served by the program, to establish and maintain an excellent national reputation, and to be a leader in innovative educational endeavors in the profession. As a means to accomplish the vision, the respiratory care departmental goals include:

- advancing the curriculum as national higher education and professional standards evolve,
- maintaining accreditation by meeting new essentials set by CoARC in respiratory care and polysomnography theory & clinical practice,
- recruiting and maintaining racial, gender, and ethnic diversity in both the faculty and students,
- encouraging faculty to pursue professional development through participation in advanced specialty credentialing and professional continuing education,
- encouraging faculty & students to participate in professional organizations and community service projects,
- increasing external funding for the university, college, and department through grant activity and entrepreneurship,
• utilizing the Texas State Sleep Center to meet the educational and research needs of the students and faculty while meeting the diagnostic and treatment needs of the Texas State campus faculty, staff and student body,
• utilizing the Texas State Sleep Center to meet the sleep diagnostic and treatment needs of San Marcos and the surrounding region as it pertains to education and research, and
• encourage students to pursue graduate education to advance competency in areas of education, research, management, and professional specialties.

Certificate

• Polysomnographic Technology (p. 1107)

Marshall, S. Gregory, Chair - Professor, Respiratory Care, Ph.D., University of Texas at Austin

Petroff, Peter A, Clinical Professor, Respiratory Care, M.D., Univ of Illinois at Chicago

Russian, Christopher J, Associate Professor, Respiratory Care, Ph.D., Texas State University

Certificate in Polysomnographic Technology

Certificate Program

The Department of Respiratory Care offers a graduate certificate in polysomnographic technology. The nine-month program is accredited by the Commission on Accreditation for Respiratory Care and graduates are eligible to immediately sit for national credentialing examinations upon completion of the certificate. Polysomnographic technologists, or sleep technologists, are health care practitioners who record and collect diagnostic sleep data as well as make recommendations to physicians for appropriate therapy to treat sleep disorders. Gathering extensive physiologic data that occurs while sleeping, sleep studies measure multiple parameters including breathing efforts, blood oxygen levels, electrical activity of the brain (EEG), electrocardiogram (ECG), eye movement (ROC and LOC), muscle activity (EMG), and many other physiological responses.

Admission Policy

Admission is selective and competitive. The curriculum sequence begins once per year starting each fall and completing in the spring.

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html%23Poly.

Following the application deadline, the PSG admissions committee begins the application review process. Cohort size is limited due to accreditation standards for student/teacher ratios. Successful candidates are notified by mail and email. Unsuccessful candidates are notified by email and are provided with information regarding the reapplication process.

Immunization Requirements

It is the policy of the College of Health Professions that each student must provide a health report completed by a physician and must take specific immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and the required forms may be obtained through the program/department/school office.

Background Check and Drug Screening

As a condition for placement in some professional practice sites, some students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the drug screening process will be provided by program/department/school. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

Clinical Education

All students are required to complete clinical education experiences in sleep center facilities within the Central Texas area and in the Texas State Sleep Center. The costs of travel during clinical experiences are the responsibility of the student.

RC 5214. Polysomnography Instrumentation II.
Advanced study of waveform characteristics and montage development, filters, and PSG electronics. Signal pathways, reference electrodes, impedance checking and filter settings in calibration waves will be covered. Prerequisite: Departmental approval.
Grade Mode: Standard Letter
about Polysomnography Instrumentation II
2 Credit Hours. 0 Lecture Contact Hours. 2 Lab Contact Hours.

RC 5215. Clinical Polysomnography-Sleep Staging II.
Advanced clinical education in sleep staging rules, light, delta and REM sleep scoring and analysis. EEG, EMG, ECG and respiratory events will be discussed in depth and are components of the polysomnogram report. A research project and presentation will be assigned by the faculty. Prerequisite: Departmental approval required.
Grade Mode: Standard Letter
about Clinical Polysomnography-Sleep Staging II
2 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.

Introduction to the physiology of sleep, including sleep neurology, sleep architecture, and classification of sleep disorders. Review of basic cardiac physiology and ECG arrhythmia recognition. Sleep pathologies will be discussed according to etiology, pathophysiology, symptoms, diagnosis, treatment, and prognosis. Prerequisite: Departmental approval.
Grade Mode: Standard Letter
about Clinical Polysomnography-Sleep Staging II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RC 5312. Clinical Polysomnography-Sleep Staging I.
Direct patient diagnostic monitoring is performed under close supervision in a sleep lab. Differential amplifiers, amplifier calibration, artifact correction and the professional role of the sleep tech will be demonstrated. A research project and presentation will be assigned by the faculty. Prerequisite: Departmental approval required.
Grade Mode: Standard Letter
about Clinical Polysomnography-Sleep Staging I
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.

RC 5313. Polysomnographic Therapeutic Intervention.
In-depth study of the treatments available for sleep apnea including, CPAP, BiPAP, oxygen therapy, patient adjunctive fitting, surgical intervention, and the role of the sleep tech in titration. Special attention will be given to titration algorithms, nocturnal seizure disorder studies, REM behavior disorder studies, MSLT’s, and MTW’s. Prerequisite: Departmental approval.
Grade Mode: Standard Letter
about Polysomnographic Therapeutic Intervention
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

College of Liberal Arts
Dean
Michael J. Hennessy, Ph.D.
Flowers Hall Room 313
T: 512.245.2317 F: 512.245.8291

Associate Dean
Charles Bousman, Ph.D.
Associate Dean
Nancy J. Grayson, Ph.D.
Associate Dean
Lucy Ditto Harney, Ph.D.

Department Chairs/Program Directors
International Studies—Dennis Dunn, Ph.D.
Diversity and Gender Studies—Audwin Anderson, Ph.D.
Study of the Southwest—J.F. de la Teja, Ph.D.
Anthropology—Elizabeth Erhart, Ph.D.
English—Daniel T. Lochman, Ph.D.
Geography—Alberto Giordano, Ph.D.
History—Mary C. Brennan, Ph.D.
Modern Languages—Robert A. Fischer, Ph.D.
Philosophy—Craig Hanks, Ph.D.
Political Science—Kenneth L. Grasso, Ph.D.
Psychology—William L. Kelemen, Ph.D.
Sociology—Chad L. Smith, Ph.D.

Department of Anthropology
Evans Liberal Arts Building Room 266
T: 512.245.8272 F: 512.245.8076
http://www.txstate.edu/anthropology

For all graduate majors the educational goals of the department are to
1. give students the highest quality graduate-level education possible,
2. provide students interested in continuing their graduate education in anthropology at the Ph.D. level the appropriate basis to successfully compete for entrance into top-tier programs,
3. provide students interested in nonacademic careers that require, or are facilitated by, an advanced degree in anthropology the education, tools and training necessary to secure employment, and
4. produce professional, ethical, and productive graduates.

The graduate curriculum, fieldwork opportunities, laboratories, and research centers provide an excellent foundation for student research, grant writing experience, and numerous training and educational activities.

Faculty Interests
Faculty in the Department of Anthropology have varied research interests and have active research programs in Texas, Peru, Mexico, Belize, Madagascar, and South Africa. Research interests in cultural and linguistic anthropology include anthropological theory, political economy, globalization, race and gender, Latino/a issues, Latin American cultures, West African cultures and languages, sociolinguistics, phonetics, and the applied area of medical anthropology. Research interests in archaeology include complex societies in Mesoamerica, South America and the U.S., iconography, geoarchaeology, ceramic and lithic analysis, hunter-gatherers and agricultural groups in Texas and Africa, and the applied area of Culture Resource Management. Research interests in biological anthropology include human biological variation, bioarchaeology, primate behavioral ecology, primate cognitive evolution, primate behavioral development, primate conservation, and the applied area of forensic anthropology.
Labetories and Centers
The Department of Anthropology houses fully equipped laboratories and centers for training and research in cultural anthropology, linguistic anthropology, archaeology, and biological anthropology. The Center for Archaeological Studies (CAS) provides student training in archaeological research in the New and Old Worlds and Cultural Resource Management in Texas. The Archaeological Curation Facility (ACF) offers students curatorial training and is 1 of 3 facilities located at a Texas university certified by the Texas Historical Commission as a State Curatorial Facility. The Center for the Arts and Symbolism in Ancient America (CASAA) is an academic center for students to study prehistoric works of ancient art in the Americas. The Forensic Anthropology Center at Texas State (FACTS) gives students hands-on experience with forensic casework, excavation and recovery methods, and laboratory analysis of human remains. At the Forensic Anthropology Research Facility (FARF) students are able to conduct research on taphonomy and human decomposition.

Financial Assistance
Scholarships are available to qualified students on a competitive basis through The Graduate College. Scholarships available include The Graduate College Scholarship, Celebrity Classic Scholarship, and The Graduate College Thesis Research Support Fellowship. For further information regarding applications for these scholarships, visit http://www.gradcollege.txstate.edu/Prospect_Students/Fin_Grad_Ed/Scholarships.html.

The Department of Anthropology also has a limited number of graduate instructional assistantships whereby students are employed to assist faculty with their instructional responsibilities for various amounts of time, ranging from five to twenty hours per week.

Master of Arts (M.A.)
• Major in Anthropology (p. 1109)

Minor
• Anthropology (p. 1117)

Agwuele, Augustine, Associate Professor, Anthropology, Ph.D., University of Texas at Austin

Black, Stephen L, Associate Professor, Anthropology, Ph.D., Harvard University

Bousman, Charles B, Associate Dean, College of Liberal Arts and Professor, Anthropology, Ph.D., Southern Methodist University

Brunson, Emily K, Assistant Professor, Anthropology, Ph.D., University of Washington

Conlee, Christina, Associate Professor, Anthropology, Ph.D., Univ of California-Santa Barbara

Erhart, Elizabeth, Chair - Associate Professor, Anthropology, Ph.D., University of Texas at Austin

Garber, James F, Professor, Anthropology, Ph.D., Southern Methodist University

Graham, Kerrie Patrica Lewis, Associate Professor, Anthropology, Ph.D., University of Durham

Hamilton, Michelle D, Associate Professor, Anthropology, Ph.D., University of Tennessee

Juarez, Ana M, Associate Professor, Anthropology, Ph.D., Stanford University

McGee, Reece Jon, Professor, Anthropology, Ph.D., Rice University

Reilly, Frank K, Professor, Anthropology, Ph.D., University of Texas at Austin

Schoch-Spana, Monica Lynn, Research Associate Professor, Anthropology, Ph.D., Johns Hopkins University

Spradley, Martha K, Associate Professor, Anthropology, Ph.D., University of Tennessee

Warms, Richard L, Professor, Anthropology, Ph.D., Syracuse University

Wescott, Daniel J, Associate Professor, Anthropology, Ph.D., University of Tennessee

Master of Arts (M.A.), Major in Anthropology

Major Program
The purpose of the master of arts (M.A.) in anthropology at Texas State is to

1. give students the highest quality graduate-level education possible,
2. provide students interested in continuing their graduate education in anthropology at the Ph.D. level the appropriate basis to successfully compete for entrance into top-tier programs,
3. provide students interested in non-academic careers that require, or are facilitated by, an advanced degree in anthropology the education, tools and training necessary to secure employment, and
4. produce professional, ethical, and productive graduates.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/anth.html.

Concentration in Archaeology

Major Courses
ANTH 5311 Seminar in Cultural Anthropology 3
ANTH 5312 Seminar in Biological Anthropology 3

Concentration Courses
ANTH 5305 Anthropological Statistics 3
ANTH 5306 Anthropology and Art 3
ANTH 5315 Archaeological Artifact Identification and Analysis 3

Anthropology Electives 6
Advisor-approved Free Electives 6

Thesis Courses
Choose 6 hours from:

ANTH 5199B Thesis 6

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.
Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Anthropology: ANTH

Courses Offered
Anthropology (ANTH)

ANTH 5105. Anthropology Research.
This practicum is designed to provide a student with credit while conducting independent research in the field or a lab setting. This practicum may be repeated twice with different content. Prerequisite: permission of a student's faculty mentor and the graduate advisor.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Anthropology Research

ANTH 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ANTH 5299B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ANTH 5300. Foundation Studies in Anthropology.
Students develop knowledge and skills required for success in graduate-level coursework in Anthropology. Course content varies depending on academic preparation. This course does not earn graduate degree credit. Repeatable up to 9 hours with different emphasis. Prerequisite: Approval of graduate advisor in Anthropology.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Standard Letter
about Foundation Studies in Anthropology

ANTH 5301. Advanced Principles of Cultural Anthropology.
This course is an ethnographically-based analysis of major theoretical positions and debates in contemporary anthropology. (Stacked course with ANTH 3301.).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
about Advanced Principles of Cultural Anthropology

ANTH 5302. Practicum in Teaching Anthropology.
An introduction to key concepts and practices in the teaching of college-level Anthropology. The course provides training in the practical aspects of classroom instruction. Required for first-year teaching and instructional assistants in the Anthropology Department. This course does not count toward degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
about Practicum in Teaching Anthropology

ANTH 5303. Speech Analysis.
The focus of this course is the analysis of human speech sounds. It includes description of the acoustic properties of speech sounds, transcription of sounds using the International Phonetic Alphabet system, an understanding of the acoustic theories of speech, and practical experience in forensic speakers' identification.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Speech Analysis

ANTH 5304. Sociolinguistics.
The focus of this course is on the complex interrelationships between language and other aspects of culture. Methods of sociolinguistics, theories of sociolinguistics, and current issues regarding the nature of language variation and change will be emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Sociolinguistics
In this course students will learn how to statistically analyze anthropological data. Students will gain a firm understanding of basic quantitative statistics, will be able to evaluate quantitative methods presented in anthropological research papers, and will be prepared for classes in more advanced statistical methods.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Anthropological Statistics

ANTH 5306. Anthropology and Art.  
In this course students will investigate the function of art and symbolism in pre-literate archaeological cultures that existed at the tribal and chiefdom levels of political and social development. A multidisciplinary focus will use anthropology and art historical approaches as research tools.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Anthropology and Art

ANTH 5307. History of Evolutionary Thought.  
This course discusses the impact of evolutionary discourse within the context of its history. Students will develop a thorough understanding of evolution and its importance to anthropology, as well as to other scientific disciplines.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about History of Evolutionary Thought

ANTH 5308. Cultural Resource Management and Archaeology.  
In this course students will examine various topics relevant to cultural resource management including state and federal laws, survey, testing, mitigation, and developing final reports.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Cultural Resource Management and Archaeology

ANTH 5309. Culture, Medicine and the Body.  
This course explores how the human body, functions of the body, and the practices of medicine and healing are situated and contextualized within cultural frameworks. Case studies cover body and health-related topics over the life course, from birth to death.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Culture, Medicine and the Body

ANTH 5310. Theories and Issues in Anthropology.  
This course explores major theoretical and historical developments in anthropology, highlighting the discipline’s unique four-field perspective that includes archaeology, biological and cultural anthropology, and anthropological linguistics. Topics stress the importance of anthropological thought in key scientific discoveries and cultural debates.

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Theories and Issues in Anthropology

ANTH 5311. Seminar in Cultural Anthropology.  
A survey of current research in cultural anthropology.

Grade Mode: Standard Letter

about Seminar in Cultural Anthropology

ANTH 5312. Seminar in Biological Anthropology.  
A survey of current research in biological anthropology in the areas of evolutionary theory, human variation, paleoanthropology, primatology, and skeletal biology.

Grade Mode: Standard Letter

about Seminar in Biological Anthropology

ANTH 5313. Seminar in Archaeology.  
A survey of current research in New World and Old World archaeology.

Grade Mode: Standard Letter

about Seminar in Archaeology

ANTH 5314. Latin American Cultures.  
Comprehensive study of cultures from Latin America. (Stacked course with ANTH 3314.)

Grade Mode: Standard Letter

about Latin American Cultures

ANTH 5315. Archaeological Artifact Identification and Analysis.  
This course will provide students with the skills, knowledge and ability to describe, characterize, and analyze artifacts commonly recovered from archaeological sites. Current theories covering the production and analysis of chipped and ground stone tools, ceramics, bone and other materials will be presented, and scientific analytical methods discussed.

Grade Mode: Standard Letter

about Archaeological Artifact Identification and Analysis

ANTH 5316. The Origin and Evolution of Human Behavior.  
This course presents our current understanding of Old World Paleolithic Archaeology. The origin and evolution of hominid behavior, the initial colonization of the Old World, and the development of modern human behavior will be discussed for each continent. (Stacked course with ANTH 3316.)

Grade Mode: Standard Letter

about The Origin and Evolution of Human Behavior
ANTH 5317. Rock Art Field Methods.
This course will train students in rock art field methods. They will gain first-hand experience recording rock art sites through photography, field sketches, mapping, and written inventories. Students will generate a visual and written description of the art, which they will use to infer and explain past human behavior. (Stacked course with ANTH 3317).

Grade Mode: Standard Letter
about Rock Art Field Methods

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5318. Texas Archaeology.
This course will present our current understanding of Texas archaeology. The environmental and social contexts of prehistoric, protohistoric, and historic records of Native American and Spanish occupations in Texas are discussed. (Stacked course with ANTH 3318).

Grade Mode: Standard Letter
about Texas Archaeology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content

ANTH 5319. Human Growth and Development.
This course covers the life history of humans from birth to death and investigates the biological and psychological changes that occur over a lifetime. (Stacked course with ANTH 3319).

Grade Mode: Standard Letter
about Human Growth and Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines the components that led to the dynamic state societies in Egypt, Sumeria, the Indus Valley, and China in the Old World and that of the Olmec in Mexico and Chavin in Peru. (Stacked course with ANTH 4320).

Grade Mode: Standard Letter
about Rise of Civilization

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5321. Seminar in Forensic Anthropology.
This course is designed as a critical survey of the theory and methodology utilized by forensic anthropologists. Through intensive review of the literature, the student will gain an appreciation for the development of the discipline, the techniques used in forensic skeletal analysis, and new research directions within the field.

Grade Mode: Standard Letter
about Seminar in Forensic Anthropology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5322. Peoples and Cultures of Sub-Saharan Africa.
Comprehensive study of cultures from Africa. (Stacked course with ANTH 3322).

Grade Mode: Standard Letter
about Peoples and Cultures of Sub-Saharan Africa

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content

ANTH 5324. Mexican American Culture.
This course examines the history and cultural practices of Mexican Americans, with a special emphasis on race, class, gender, and sexuality. Topics include historical heritage and transculturation, discrimination, organizations, activism, activism, zoot suits, lowriders, gangs, colonias, families, marriage, quinceañeras, machismo, domestic violence, gays and lesbians, religious practices, and the arts. (Stacked course with ANTH 3324).

Grade Mode: Standard Letter
about Mexican American Culture

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content

ANTH 5325. Medical Anthropology.
This course focuses on how illness identities are culturally constructed, how adaptations or maladaptations to local environments affect health, how political and economic forces influence health and health behaviors, and how the practice of medical anthropology can contribute to solving urgent health issues around the world.

Grade Mode: Standard Letter
about Medical Anthropology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5326. Field Methods in Forensic Anthropology.
In this course students will learn how to locate, excavate and recover human remains, associated personal effects, and other materials in order to ensure legal credibility for all recoveries.

Grade Mode: Standard Letter
about Field Methods in Forensic Anthropology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5327. Anthropology of Religion and Fundamentalism.
This course will examine the phenomenon of fundamentalism in a variety of religious traditions, both present and historical. Students will explore the political and social ramifications of fundamentalism in a world characterized by multiculturalism and globalization.

Grade Mode: Standard Letter
about Anthropology of Religion and Fundamentalism

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5328. Primate Cognition.
This course covers historical and current views of the cognitive abilities of nonhuman primates and humans. (Stacked course with ANTH 3328).

Grade Mode: Standard Letter
about Primate Cognition

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5329. Comparative Juvenile Behavior.
This course will give students a thorough understanding of the comparative method through examples from the development of juvenile animals. It will introduce students to socioecology, neurobiology, and life history markers, with information that they can apply across disciplines.

Grade Mode: Standard Letter
about Comparative Juvenile Behavior

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ANTH 5332. Myths and Mound Builders.
This course presents an anthropological approach to the iconography of the Native Americans of the Southeastern Ceremonial Complex. (Stacked course with ANTH 3332.)
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Myths and Mound Builders
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5333. Research Design in Biological Anthropology.
This course provides students with an introduction to the principles and processes by which research projects in biological anthropology are devised and executed. It focuses on the issues of finding a topic to research, defining its scope and limitations, developing a research bibliography, and elaborating a research design.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Research Design in Biological Anthropology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5335. The Anthropology of Native American Belief Systems.
In this course students use anthropological approaches to investigate past and present Native American belief systems in order to determine the temporal range and evolving complexity of Native American religious and ritual expression.
about The Anthropology of Native American Belief Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 5336. Community Research Project.
This course gives students the opportunity to conduct hands-on anthropological research on a variety of topics in local or other communities. Students will undertake individualized research projects designed in conjunction with the professor. Students must consult with the professor prior to enrollment to design the research project and receive approval. (Stacked course with ANTH 3336.)
about Community Research Project
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 5338. Geoarchaeology.
This course will provide students with the knowledge and ability to interpret sediments and the nature of sediment accumulation at archaeological sites. The course will provide students with a foundation in sedimentology, natural depositional environments, weathering processes and soil development, stratigraphic analysis, archaeological site formation processes. (Stacked course with ANTH 3338.)
about Geoarchaeology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 5340. Paleoanthropology.
Critical review of the human fossil record from the appearance of the earliest hominins to the appearance of modern human forms. (Stacked course with ANTH 3340.)
course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Paleoanthropology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5342. Primate Behavior.
An organized course that examines current research in nonhuman primate studies from an anthropological perspective. (Stacked course with ANTH 3342.)
course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Primate Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5343. Human Variation and Adaptation.
An organized course that examines human physical variation and adaptation from an evolutionary perspective.
about Human Variation and Adaptation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 5345. Archaeology of Mexico.
This course examines the development of early hunter-gatherers through the appearance of agriculture to the rise of civilization in Mesoamerica. (Stacked course with ANTH 3345.)
course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Archaeology of Mexico
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5347. Archaeology of North America.
This course examines human settlement of North America from the end of the Pleistocene to European discovery. (Stacked course with ANTH 3347.)
course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Archaeology of North America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5349. The Incas.
The Incas were the largest Pre-Columbian empire in the Americas. This course will explore the origins of this civilization and how they conquered such a large area of South America. Using archaeological and historic information the class will examine various aspects of Inca society including religion, economics, and kingship. (Stacked course with ANTH 3349.)
course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about The Incas
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ANTH 5350. Gender and Sexuality in Cross Cultural Perspective.
This course examines the relationships between women and men in societies around the world. (Stacked course with ANTH 3350.)
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Gender and Sexuality in Cross Cultural Perspective

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5354. Latin American Gender and Sexuality.
This course critically examines cultural constructions of gender and sexuality among indigenous, European, and mestizo populations throughout the Americas, with a special emphasis on identity and inequality in Greater Latin America. Topics include culture, identity, political economy, families, sexual practices, and globalization. (Stacked course with ANTH 3354.)
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Latin American Gender and Sexuality

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5355. Seminar in Culture Theory.
An intensive examination of the principal theoretical positions in cultural anthropology, with an emphasis on the preparation of students with ethnographic analysis and fieldwork.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Seminar in Culture Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5356. Andean Civilizations.
This course is a survey of civilizations in the Andean region of South America. Using archaeological data the class will examine cultural developments in the region from the earliest hunters and gatherers to the Inca Empire, the largest state in the Americas at the time of European contact.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Andean Civilizations

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5360. Economic Anthropology.
This course reviews central issues in economic anthropology using both case studies and theoretical writings. Analyzes production, exchange, distribution, consumption, property, economic surplus, and types of economic structure. (Stacked course with ANTH 3360.)
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Economic Anthropology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5361. Field Methods in Cultural Anthropology.
A training course in ethnographic field methods. (Stacked course with ANTH 4361.)
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Field Methods in Cultural Anthropology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5363. The Art and Archaeology of the Olmec.
This course will present our current understanding of the art and archaeology of the Olmec culture, the earliest known civilization in North America. The Olmec culture is considered the influential foundation for later Mesoamerican civilizations such as the Maya and the Aztec. (Stacked course with ANTH 3363.)
Course Attribute(s): Topics
Grade Mode: Standard Letter
about The Art and Archaeology of the Olmec

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5373A. Theory in Linguistic Anthropology.
In this course students will learn about the major theories of linguistic anthropology through reading and discussing classic and contemporary literature. Topics include language evolution, behaviorism, mentalism, structuralism, cognitive anthropology, ethnosemantics, universalism and linguistic relativism, symbolic anthropology, culture and gender, language and identity, ethnography of speaking, and language change.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Theory in Linguistic Anthropology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5373B. Theoretical Concepts in Archaeology.
This course provides a broad survey of theory in archaeology as it is practiced throughout the world. It includes both historical perspectives and contemporary usage.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Theoretical Concepts in Archaeology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5373C. Gross Human Anatomy.
Students in this course examine the gross anatomy of humans from an evolutionary perspective. Anatomy of the structures of the back, limbs, head, and neck are examined. Cadaver-based dissection labs accompany lecture topics.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Gross Human Anatomy

3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.

ANTH 5373D. Advanced Methods in Skeletal Biology, Part II.
This course focuses on technical case report writing and evidentiary best practices in forensic anthropological analysis of human skeletal remains. In addition to biological profile estimation techniques, research methods and theoretical foundations used for trauma analysis and taphonomic interpretation will be reviewed. Prerequisite: ANTH 5375.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Advanced Methods in Skeletal Biology, Part II

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ANTH 5373G. Research Design and Proposal Writing in Cultural Anthropology.
This course will familiarize students with the basic principles and practices of effective research design and proposal writing in cultural anthropology. Students will acquire a practical experience in formulating a feasible and creative research project, performing a rigorous literature review, planning to protect human research subjects, and giving/receiving constructive peer reviews.

Grade Mode: Standard Letter
About Research Design and Proposal Writing in Cultural Anthropology

ANTH 5374F. Mixtec Codices: Prehispanic Literatures of Oaxaca.
In this course students will learn about the cultures of the Zapotec and Mixtec Indians of prehispanic Oaxaca by examining and deciphering the Mixtec pictogram fan-fold books called codices. (Stacked course with ANTH3376A.)

Grade Mode: Standard Letter
About Mixtec Codices: Prehispanic Literatures of Oaxaca

ANTH 5374A. Archaeology of the Earliest Americans.
This course focuses on the long-standing and controversial issues of when, how, and who first peopled the Americas. This is a significant aspect of human prehistory and remains unresolved. Students will use archaeological, biological, linguistic, and environmental evidence to help identify the first inhabitants of the New World.

Grade Mode: Standard Letter
About Archaeology of the Earliest Americans

ANTH 5374Y. Human Evolutionary Anatomy.
This course is designed to give students an anatomical background to the study of human evolution with a focus on the comparative anatomy of apes, living humans, and fossil hominins.

Grade Mode: Standard Letter
About Human Evolutionary Anatomy

ANTH 5374Z. Curation of Archaeological Materials.
This course will examine the phenomenon or fundamentalism in a variety of religious traditions, both present and historical. Students will explore the political and social ramifications of fundamentalism in a world characterized by multiculturalism and globalization.

Grade Mode: Standard Letter
About Curation of Archaeological Materials

ANTH 5375. Advanced Methods in Skeletal Biology, Part I.
This course focuses on laboratory analytical techniques and data collection methods used to estimate the biological profile of modern, historic, or prehistoric human skeletal remains.

Grade Mode: Standard Letter
About Advanced Methods in Skeletal Biology, Part I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5375Z. Curation of Archaeological Materials.
This course provides students with the skills to prepare archaeological materials for curation, which includes the processes and techniques used to stabilize and preserve organic and inorganic materials. This training can be used to gain certification in the field of archaeological curation.

Prerequisite: ANTH 2415.

Grade Mode: Standard Letter
About Curation of Archaeological Materials

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5374. Mixtec Codices: Prehispanic Literatures of Oaxaca.
This course focuses on the long-standing and controversial issues of when, how, and who first peopled the Americas. This is a significant aspect of human prehistory and remains unresolved. Students will use archaeological, biological, linguistic, and environmental evidence to help identify the first inhabitants of the New World.

Grade Mode: Standard Letter
About Archaeology of the Earliest Americans

ANTH 5374Y. Human Evolutionary Anatomy.
This course is designed to give students an anatomical background to the study of human evolution with a focus on the comparative anatomy of apes, living humans, and fossil hominins.

Grade Mode: Standard Letter
About Human Evolutionary Anatomy

ANTH 5374Z. Curation of Archaeological Materials.
This course will examine the phenomenon or fundamentalism in a variety of religious traditions, both present and historical. Students will explore the political and social ramifications of fundamentalism in a world characterized by multiculturalism and globalization.

Grade Mode: Standard Letter
About Curation of Archaeological Materials

ANTH 5375. Advanced Methods in Skeletal Biology, Part I.
This course focuses on laboratory analytical techniques and data collection methods used to estimate the biological profile of modern, historic, or prehistoric human skeletal remains.

Grade Mode: Standard Letter
About Advanced Methods in Skeletal Biology, Part I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5375Z. Curation of Archaeological Materials.
This course provides students with the skills to prepare archaeological materials for curation, which includes the processes and techniques used to stabilize and preserve organic and inorganic materials. This training can be used to gain certification in the field of archaeological curation.

Prerequisite: ANTH 2415.

Grade Mode: Standard Letter
About Curation of Archaeological Materials

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5374. Mixtec Codices: Prehispanic Literatures of Oaxaca.
This course focuses on the long-standing and controversial issues of when, how, and who first peopled the Americas. This is a significant aspect of human prehistory and remains unresolved. Students will use archaeological, biological, linguistic, and environmental evidence to help identify the first inhabitants of the New World.

Grade Mode: Standard Letter
About Archaeology of the Earliest Americans

ANTH 5374Y. Human Evolutionary Anatomy.
This course is designed to give students an anatomical background to the study of human evolution with a focus on the comparative anatomy of apes, living humans, and fossil hominins.

Grade Mode: Standard Letter
About Human Evolutionary Anatomy

ANTH 5374Z. Curation of Archaeological Materials.
This course will examine the phenomenon or fundamentalism in a variety of religious traditions, both present and historical. Students will explore the political and social ramifications of fundamentalism in a world characterized by multiculturalism and globalization.

Grade Mode: Standard Letter
About Curation of Archaeological Materials

ANTH 5375. Advanced Methods in Skeletal Biology, Part I.
This course focuses on laboratory analytical techniques and data collection methods used to estimate the biological profile of modern, historic, or prehistoric human skeletal remains.

Grade Mode: Standard Letter
About Advanced Methods in Skeletal Biology, Part I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5375Z. Curation of Archaeological Materials.
This course provides students with the skills to prepare archaeological materials for curation, which includes the processes and techniques used to stabilize and preserve organic and inorganic materials. This training can be used to gain certification in the field of archaeological curation.

Prerequisite: ANTH 2415.

Grade Mode: Standard Letter
About Curation of Archaeological Materials

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5381. Paleopathology.
Paleopathology is the study of ancient diseases and is an important tool for understanding of past populations. In this course we will survey the range of pathology on human skeletons such as trauma, infection, syphilis, tuberculosis, leprosy, anemia, metabolic disturbances, arthritis, and tumors.

Grade Mode: Standard Letter
About Paleopathology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ANTH 5390. Directed Study.
Course of independent study open to individual students at the invitation of the faculty member with the approval of the department chair and the graduate advisor. Repeatable for credit.

Grade Mode: Standard Letter
About Directed Study

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ANTH 5395. Internship.
A supervised work or research experience related to a student’s professional development. Requirements include completing 250 hours of work with a public or private organization, weekly class meetings, and a semester-long project. The written approval of a student’s faculty mentor and graduate student advisor are required to register. Repeatable for credit with permission of the Internship Director.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 5395V. Andean Civilization.
Special topics in Anthropology.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

ANTH 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed their thesis proposal. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

ANTH 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

ANTH 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MINOR in Anthropology
The graduate minor in anthropology consists of nine hours of 5000-level ANTH course work. Courses are to be chosen in consultation with the anthropology graduate advisor.

Center for Diversity and Gender Studies
Undergraduate Academic Center Room 478
T: 512.245.2361 F: 512.245.1414
http://www.mcgs.txstate.edu/

The Center for Diversity and Gender Studies (CDGS) is a part of the College of Liberal Arts, one of the seven colleges at Texas State. CDGS was established at the beginning of the 1984 academic year. It assists students in preparing for a pluralistic society by providing faculty and students with resources that encourage the infusion of an interdisciplinary curriculum that addresses race, class, gender, sexual orientation, and ethnicity.

Minors
- Diversity Studies (p. 1117)
- Women and Gender Studies (p. 1118)

Minor in Women & Gender Studies

The Graduate College and the Center for Diversity and Gender Studies offers a minor in women and gender studies (WGS). WGS offers an interdisciplinary, 9- to 15-hour program that concentrates on the images and realities of women. Drawing on recent scholarship about women and gender, this minor provides a flexible, coherent program that enables students to complement any major with the study of the significance of gender. The women and gender studies minor helps students create opportunities for themselves in a rapidly changing society.

Total Hours: 9-15

Denotes topics course. Topics courses are offered on a selective basis, may count toward the minor with permission from the director of the Center for Diversity and Gender Studies and the dean of The Graduate College.

For more information, contact Dr. Sandra Mayo, director of the Center for Diversity and Gender Studies, at 512.245.2361 or e-mail at MCGS@txstate.edu.

Master's level courses offered in Diversity and Gender Studies: WS (p. 1118), DVST (p. 1119)

Courses Offered

Women's Studies (WS)

WS 5376. Images of Women.
This course, one of two multidisciplinary team-taught women's studies courses, is a survey of the changing images of women in the U.S. since 1800 through the eyes of historians, writers, artists, orators, the media, and educators. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

WS 5377. Realities of Women.
This course, one of two multidisciplinary team-taught women's studies courses, is a study of the realities faced by women in the U.S. today—including biological and psychological differences in males and females, politics and law, the work force, and the home. Gender roles in societies outside the U.S. will also be examined. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

WS 5388. Independent Research in Women and Gender Studies.
Independent research course open to students on an individual or small group basis. The research area in Women and Gender Studies, bibliography, and study paper outline are to be approved by the instructor. Prerequisite: Approval of the Director of Multicultural and Gender Studies. Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Diversity Studies (DVST)

Focusing on the four major ethnic groups (Native Americans, African Americans, Mexican Americans, and Asian Americans), this interdisciplinary course introduces critical theories and issues relating to race, class, ethnicity, culture, and other areas of diversity in the United States. The literature component of the course will supplement the theoretical texts.

Course provides framework for analyzing diversity globally. Examines how globalization acts to shape and re-shape ethnic identity and ethnic antagonism. Course investigates how the shaping and re-shaping of ethnic identity influences immigration policy, reproductive rights, LGBTQ rights, and healthcare delivery.

Financial Assistance
Graduate students in the M.A. programs may apply for appointments of up to two years as instructional or teaching assistants; students in the M.F.A. program may apply for appointments of up to three years. Instructional assistants have completed fewer than 18 graduate hours in English and have limited duties; teaching assistants have completed 18 or more hours in English and have a wider range of teaching duties. Assistants ordinarily have assignments in composition courses or surveys of literature. Applications are available from graduate program directors.

Graduate students may apply for a number of departmental scholarships, including the G. Jack Gravitt Scholarship, the William F. McKeen III Scholarship, the Peterson-Charles Mosley Scholarship, the W. Morgan and Lou Claire Rose Scholarship, and the Leonard and Elizabeth Wright Scholarship for Future Teachers. Contact a graduate program director for applications or additional information.

The Graduate College oversees additional scholarships and may be contacted at 512.245.2581 for further scholarship information.

The Therese Kayser Lindsey Endowment for Literature
The Lindsey Endowment, dedicated April 11, 1978, is a gift of Mrs. Louise Lindsey Merrick to the Texas State University Foundation, made in memory of her mother, Therese Kayser Lindsey. A noted poet and patron of the arts, Mrs. Lindsey attended Southwest Texas State Normal School, completing her degree in 1905. She published four volumes of poetry and helped organize the Poetry Society of Texas.

The endowment, along with the Katherine Anne Porter Literary Center, supports the mission of the department by sponsoring readings by distinguished writers and scholars such as Margaret Atwood, Sandra Cisneros, Junot Diaz, Rita Dove, Stanley Fish, Allen Ginsberg, Jorie Graham, Maxine Hong Kingston, Denise Levertov, Larry McMurtry, W. S. Merwin, N. Scott Momaday, Jayne Anne Phillips, Annie Proulx, Helen Vendler, Alice Walker, and Charles Wright.

Visiting writers and scholars often meet with graduate classes, attend question-and-answer sessions, and hold informal discussions with graduate students.

The University Endowed Chair in Creative Writing
The University Endowed Chair in Creative Writing brings distinguished writers annually to teach graduate writing workshops and to give public readings. Former chair holders include MacArthur Foundation Fellow Leslie Marmon Silko, National Book Award winning poet Ai, Pulitzer Prize finalist Barry Hannah, National Book Award winner Denis Johnson, American Book Award winner Li-Young Lee, National Book Award winner Robert Stone, and National Book Award winner Tim O’Brien, who is also a member of the M.F.A. program’s permanent faculty.

From Fall 2014 through Spring 2016, the chair holder will be National Book Critics Circle Award winner, Ben Fountain.

The Katherine Anne Porter Literary Center
Established in 2000, the Katherine Anne Porter Literary Center is based in the childhood home of the Pulitzer Prize and National Book Award-winning author. The Center is host to numerous visiting writers each year. The house was dedicated as a National Literary Landmark in June 2002, by the Friends of Libraries USA and the Library of Congress.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature
(if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is completed. The student will take the personal copies of their thesis to the Alkek Library and pay the binding fee for personal copies.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

**Courses Offered**

**English (ENG)**

Graduate courses listed as “repeatable” ordinarily count toward nine hours of English degree credit unless otherwise indicated. Exceptions require written justification and departmental approval. Specific emphases of repeatable courses vary by term and instructor, but they may focus on literary and rhetorical forms and genres; authors, periods, or literary movements; perspectives from social, intellectual, and cultural studies; literary themes; or theoretical and practical information for technical communication. The department provides descriptions of specific courses prior to each term’s enrollment period.

**ENG 5199B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal. about Thesis

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

**ENG 5299B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal. about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis
ENG 5300. Language Problems in a Multicultural Environment.
An introduction to the study of multicultural language and linguistics with descriptive, psychological, social, and semantic emphases.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Problems in a Multicultural Environment

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5301. Literary Scholarship.
An introduction to scholarly resources, methods, theories, and responsibilities that guide the study and interpretations of literature in English. Literary texts chosen for detailed examination vary with expertise of the instructor. Required in first year of M.A. with a Literature Major.
about Literary Scholarship

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literary Scholarship

ENG 5302. Media Studies.
The study of film and media history, theory, and practice. Special topics may include videography, video editing, genre, filmmakers, and regional film.
about Media Studies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Media Studies

ENG 5310. Studies in English Language and Linguistics.
A study of the English language, with special attention to phonology, morphology, syntax, semantics, dialectology, sociolinguistics, normal language acquisition, and/or writing and spelling systems. Repeatable with different emphases for up to nine hours of English credit.
about Studies in English Language and Linguistics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in English Language and Linguistics

An introduction to the theory and practice of technical communication.
about Foundations in Technical Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Technical Communication

ENG 5312. Editing the Professional Publication.
The editing, design, layout, and proofreading of a professional publication. This course is an internship. Graded on a credit (CR), no credit (F) basis. May be repeated one time with different emphasis.
about Editing the Professional Publication

3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Editing the Professional Publication

A group of courses that provide students theoretical and practical information useful in any position in technical communication. Recent emphases include Digital Media and the web, Technical Editing, and Visual Rhetoric. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Principles of Technical Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Principles of Technical Communication

A group of courses that provide students theoretical and practical information for specialized types of technical communication. Recent emphases include International Technical Communication Proposal Writing, Software Documentation and Writing for the Government. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Technical Communication

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Technical Communication

ENG 5315. Graduate Writing Workshop.
A studio course in which the primary texts are student manuscripts. Concentrations in fiction or poetry examine principles and techniques of creating, evaluating, and revising writing in these genres. The course requires class members to review writing produced by other workshop members. 12 hours of M.F.A. credit required.
about Graduate Writing Workshop

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Graduate Writing Workshop

ENG 5316. Foundations in Rhetoric and Composition.
A group of courses providing students with theoretical, pedagogical, and methodological foundations in the field of rhetoric and composition. Emphases vary but include Contemporary Composition Theory and Composition Pedagogy. Repeatable with different emphases for up to nine hours of English credit.
about Foundations in Rhetoric and Composition

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Rhetoric and Composition

ENG 5317. Specializations in Rhetoric and Composition.
A group of courses providing theoretical, pedagogical, methodological, and/or administrative grounding in specialized areas of rhetoric and composition. Emphases vary but may include Writing Center Theory, Practice, and Administration; Writing Across the Curriculum; Service Learning; and Literacy. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Rhetoric and Composition

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Rhetoric and Composition
ENG 5318. Effective Communication (Writing).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on writing. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Communication (Writing)

ENG 5319. Effective Communication (Reading).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on reading. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Communication (Reading)

ENG 5320. Form and Theory of Fiction.
An examination of traditional and current theory and practice in fiction. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of fiction in other literatures. For M.F.A. credit only.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Form and Theory of Fiction

ENG 5321. Contemporary Fiction.
Readings selected from canonical and/or experimental fiction. Recent emphases include novels into film, postmodern fiction, Magical Realism, and Saul Bellow. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Contemporary Fiction

ENG 5322. Form and Theory of Poetry.
An examination of traditional and current theory and practice in poetry. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of poetry in other literatures. For M.F.A. credit only.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Form and Theory of Poetry

A study of selected works in autobiography and biography with special attention to the art forms used in these works. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Autobiography and Biography

ENG 5324. Studies in Literary Genre.
A study of one or more literary genres over several historical periods or from a variety of cultural perspectives. The course focuses on genres such as the following: the epic, the novel, the short story, the lyric, the pastoral, the romance, and Irish comic fiction. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Literary Genre

ENG 5325. Studies in Literature of the Southwest.
Selected Texas and Southwestern writers with emphasis on fiction. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Literature of the Southwest

ENG 5326. Contemporary Composition Theory.
Introduces students to the history of writing instruction in the university and to the theories of writing and composing that inform contemporary composition studies and the teaching of writing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Contemporary Composition Theory

An introduction to research practices in rhetoric, composition, and technical communications, focusing on the paradigms/perspectives, strategies, and methods that characterize qualitative and quantitative research in these areas. Includes discussion of the history and role of research in the field, research ethics, and issues of representation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Methods in Rhetoric, Composition, and Technical Communication

ENG 5328. Directed Portfolio.
Constitutes partial fulfillment of non-thesis option for students earning the MA in Rhetoric and Composition. Under guidance of a graduate faculty committee, students produce a portfolio of representative written work with written commentary and reflection. Departmental approval required. Graded as credit (CR), progress (PR), no-credit (F). Repeatable once.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Directed Portfolio
Selected poets with a survey of their works. Recent emphases include Walt Whitman, Emily Dickinson, Southern poetry, Denise Levertov, and Robert Bly. Repeatable with different emphases for up to nine hours of English credit.
about Studies in American Poetry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in American Poetry

Selected authors with special attention to novels. Recent emphases include William Faulkner, Ernest Hemingway, Richard Wright, and Zora Neale Hurston. Repeatable with different emphases for up to nine hours of English credit.
about Studies in American Prose
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Studies in American Prose

ENG 5345. Southwestern Studies I: Defining the Region.
An interdisciplinary course that surveys the physical, cultural, and social history of the Southwest, emphasizing architecture, art, literature, philosophy, politics, popular culture, and technology. Historical focus from the 15th to the mid-19th century.
about Southwestern Studies I: Defining the Region
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Southwestern Studies I: Defining the Region

ENG 5346. Southwestern Studies II: Consequences of Region.
Second course in a survey of physical, cultural, and social history of the Southwest, emphasizing regional and ethnic expressions of culture. This course moves from the broad overview of the first semester to more specific problems in the region and to the artistic products of regional culture. Historical focus is from the Civil War to the present.
about Southwestern Studies II: Consequences of Region
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Southwestern Studies II: Consequences of Region

ENG 5353. Studies in Medieval Literature.
Emphasis on authors, contexts, and genres of the medieval period. Recent emphases include Anglo-Saxon culture, language, and literature; Chaucer; non-Chaucerian medieval literature; pilgrimage literature. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Medieval Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Medieval Literature

ENG 5354. Studies in Renaissance Literature.
Emphasis on authors, contexts, and genres of the Renaissance. Recent emphases include Shakespeare, Renaissance epic, Tudor humanism, and John Milton. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Renaissance Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Renaissance Literature

Major writers of the period with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Johnson and his circle, Restoration and eighteenth-century drama, and the eighteenth-century novel. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Restoration and Eighteenth-century Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Restoration and Eighteenth-century Literature

The works of the Early Romantics or Late Romantics in context with attention to nineteenth- and twentieth-century scholarship. Recent emphases include Blake and the other arts, Coleridge, the Wordsworths, Shelley, and Keats. Repeatable with different emphases for up to nine hours of English credit.
about Studies in the Romantic Movement
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in the Romantic Movement

Major Victorian poets with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Tennyson, the Brownings, the Pre-Raphaelites, and Hopkins. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Victorian Poetry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Victorian Poetry

Major Victorian prose writers with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include George Eliot, non-fiction Victorian prose, Victorian women novelists, and Charles Dickens. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Victorian Prose
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Victorian Prose

ENG 5372. Practicum in English Studies.
An introduction to key issues and concepts in the teaching of English studies. Required for first-year instructional assistants in the English Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.
about Practicum in English Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

Masters of Arts (M.A.), Major in Literature

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/lit.html.

Degree Requirements
The master of arts (M.A.) degree with a literature major comprises two tracks:

Thesis Track
Graduate English courses 18
Thesis 6
Approved graduate minor or area of emphasis (an individually tailored cognate made up of at least two graduate courses related by genre, period, or subject) 6
Total Hours 30

Non-thesis Track
Graduate English courses 27
Approved graduate minor or area of emphasis (an individually tailored cognate made up of at least two graduate courses related by genre, period, or subject) 9
Total Hours 36

Course Work Requirements

Non-thesis Option
ENG 5301 Literary Scholarship 3
ENG 5353 Studies in Medieval Literature 3
ENG 5354 Studies in Renaissance Literature 3
British Literature after 1600 Electives (Choose 1) 3
ENG 5321 Contemporary Fiction
ENG 5359 Studies in Restoration and Eighteenth-century Literature
ENG 5364 Studies in the Romantic Movement
ENG 5366 Studies in Victorian Poetry
ENG 5368 Studies in Victorian Prose
American Literature Electives (Choose 1) 3
ENG 5321 Contemporary Fiction
ENG 5325 Studies in Literature of the Southwest
ENG 5331 Studies in American Poetry
ENG 5332 Studies in American Prose
ENG 5345 Southwestern Studies I: Defining the Region
ENG 5346 Southwestern Studies II: Consequences of Region
Graduate Advisor-Approved Electives in English Literature after 1660 3
Minor Course Work (Choose an approved 9-hour minor) 9
Total Hours 36

Thesis Option
ENG 5301 Literary Scholarship 3
ENG 5353 Studies in Medieval Literature 3
ENG 5354 Studies in Renaissance Literature 3
British Literature after 1600 Electives (Choose 1) 3
ENG 5321 Contemporary Fiction
ENG 5359 Studies in Restoration and Eighteenth-century Literature
ENG 5364 Studies in the Romantic Movement

Minor Course Work (Choose an approved 6-hour minor) 6
Thesis Course Work (Choose a minimum 6 hours) 6
ENG 5199B Thesis
ENG 5299B Thesis
ENG 5399B Thesis
ENG 5599B Thesis
ENG 5999B Thesis
Total Hours 30

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attachment to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form
be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in English: ENG

**Courses Offered**

**English (ENG)**

Graduate courses listed as “repeatable” ordinarily count toward nine hours of English degree credit unless otherwise indicated. Exceptions require written justification and departmental approval. Specific emphases of repeatable courses vary by term and instructor, but they may focus on literary and rhetorical forms and genres; authors, periods, or literary movements; perspectives from social, intellectual, and cultural studies; literary themes; or theoretical and practical information for technical communication. The department provides descriptions of specific courses prior to each term’s enrollment period.

**ENG 5199B. Thesis.**

A study of the English language, with special attention to phonology, morphology, syntax, semantics, dialectology, sociolinguistics, normal language acquisition, and/or writing and spelling systems. Repeatable with different emphases for up to nine hours of English credit.
about Studies in English Language and Linguistics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in English Language and Linguistics

An introduction to the theory and practice of technical communication. about Foundations in Technical Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Technical Communication

ENG 5312. Editing the Professional Publication.
The editing, design, layout, and proofreading of a professional publication. This course is an internship. Graded on a credit (CR), no credit (F) basis. May be repeated one time with different emphasis. about Editing the Professional Publication
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Editing the Professional Publication

A group of courses that provide students theoretical and practical information useful in any position in technical communication. Recent emphases include Digital Media and the web, Technical Editing, and Visual Rhetoric. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Principles of Technical Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Principles of Technical Communication

A group of courses that provide students theoretical and practical information for specialized types of technical communication. Recent emphases include International Technical Communication Proposal Writing, Software Documentation and Writing for the Government. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Technical Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Technical Communication

ENG 5315. Graduate Writing Workshop.
A studio course in which the primary texts are student manuscripts. Concentrations in fiction or poetry examine principles and techniques of creating, evaluating, and revising writing in these genres. The course requires class members to review writing produced by other workshop members. 12 hours of M.F.A. credit required. about Graduate Writing Workshop
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Graduate Writing Workshop

ENG 5316. Foundations in Rhetoric and Composition.
A group of courses providing students with theoretical, pedagogical, and methodological foundations in the field of rhetoric and composition. Emphases vary but include Contemporary Composition Theory and Composition Pedagogy. Repeatable with different emphases for up to nine hours of English credit.
about Foundations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Rhetoric and Composition

ENG 5317. Specializations in Rhetoric and Composition.
A group of courses providing theoretical, pedagogical, methodological, and/or administrative grounding in specialized areas of rhetoric and composition. Emphases vary but may include Writing Center Theory, Practice, and Administration; Writing Across the Curriculum; Service Learning; and Literacy. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Rhetoric and Composition

ENG 5318. Effective Communication (Writing).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on writing. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
about Effective Communication (Writing)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Communication (Writing)
ENG 5319. Effective Communication (Reading).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on reading. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
Grade Mode: Standard Letter
Credit/No Credit

ENG 5320. Form and Theory of Fiction.
An examination of traditional and current theory and practice in fiction. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of fiction in other literatures. For M.F.A. credit only.
Grade Mode: Standard Letter
Credit/No Credit

ENG 5321. Contemporary Fiction.
Readings selected from canonical and/or experimental fiction. Recent emphases include novels into film, postmodern fiction, Magical Realism, and Saul Bellow. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
Credit/No Credit

ENG 5322. Form and Theory of Poetry.
An examination of traditional and current theory and practice in poetry. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of poetry in other literatures. For M.F.A. credit only.
Grade Mode: Standard Letter
Credit/No Credit

A study of selected works in autobiography and biography with special attention to the art forms used in these works. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
Credit/No Credit

A study of one or more literary genres over several historical periods or from a variety of cultural perspectives. The course focuses on genres such as the following: the epic, the novel, the short story, the lyric, the pastoral, the romance, and Irish comic fiction. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
Credit/No Credit

ENG 5325. Studies in Literature of the Southwest.
Selected Texas and Southwestern writers with emphasis on fiction. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
Credit/No Credit

ENG 5326. Contemporary Composition Theory.
Introduces students to the history of writing instruction in the university and to the theories of writing and composing that inform contemporary composition studies and the teaching of writing.
Grade Mode: Standard Letter
Credit/No Credit

An introduction to research practices in rhetoric, composition, and technical communications, focusing on the paradigms/perspectives, strategies, and methods that characterize qualitative and quantitative research in these areas. Includes discussion of the history and role of research in the field, research ethics, and issues of representation.
Grade Mode: Standard Letter
Credit/No Credit

ENG 5328. Directed Portfolio.
Constitutes partial fulfillment of non-thesis option for students earning the MA in Rhetoric and Composition. Under guidance of a graduate faculty committee, students produce a portfolio of representative written work with written commentary and reflection. Departmental approval required. Graded as credit (CR), progress (PR), no-credit (F). Repeatable once.
Grade Mode: Standard Letter
Credit/No Credit

Selected poets with a survey of their works. Recent emphases include Walt Whitman, Emily Dickinson, Southern poetry, Denise Levertov, and Robert Bly. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
Credit/No Credit
Selected authors with special attention to novels. Recent emphases include William Faulkner, Ernest Hemingway, Richard Wright, and Zora Neale Hurston. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Studies in American Prose

ENG 5345. Southwestern Studies I: Defining the Region.
An interdisciplinary course that surveys the physical, cultural, and social history of the Southwest, emphasizing regional and ethnic expressions of culture. This course moves from the broad overview of the first semester to more specific problems in the region and to the artistic products of regional culture. Historical focus is from the 15th to the mid-19th century.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Southwestern Studies I: Defining the Region

ENG 5346. Southwestern Studies II: Consequences of Region.
Second course in a survey of physical, cultural, and social history of the Southwest, emphasizing regional and ethnic expressions of culture. The works of the Early Romantics or Late Romantics in context with attention to nineteenth- and twentieth-century scholarship. Recent emphases include Blake and the other arts, Coleridge, the Wordsworths, Shelley, and Keats. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Southwestern Studies II: Consequences of Region

ENG 5353. Studies in Medieval Literature.
Emphasis on authors, contexts, and genres of the medieval period. Recent emphases include Anglo-Saxon culture, language, and literature; Chaucer; non-Chaucerian medieval literature; pilgrimage literature. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Medieval Literature

ENG 5354. Studies in Renaissance Literature.
Emphasis on authors, contexts, and genres of the Renaissance. Recent emphases include Shakespeare, Renaissance epic, Tudor humanism, and John Milton. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Renaissance Literature

Major writers of the period with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Johnson and his circle, Restoration and eighteenth-century drama, and the eighteenth-century novel. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Restoration and Eighteenth-century Literature

The works of the Early Romantics or Late Romantics in context with attention to nineteenth- and twentieth-century scholarship. Recent emphases include Blake and the other arts, Coleridge, the Wordsworths, Shelley, and Keats. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in the Romantic Movement

Major Victorian poets with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Tennyson, the Brownings, the Pre-Raphaelites, and Hopkins. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Victorian Poetry

Major Victorian prose writers with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include George Eliot, non-fiction Victorian prose, Victorian women novelists, and Charles Dickens. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Victorian Prose

ENG 5372. Practicum in English Studies.
An introduction to key issues and concepts in the teaching of English studies. Required for first-year instructional assistants in the English Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Practicum in English Studies

ENG 5381. Studies in Modern British and American Drama.
A survey of major British and American dramatists and their European or world context. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Modern British and American Drama
ENG 5382. Practicum in Composition.
An introduction to key issues and concepts in the teaching of expository writing at the college level. Required for first-year teaching assistants in the English Department who have not previously taken ENG 5372. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

about Practicum in Composition

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships
about Practicum in Composition

ENG 5383. Studies in Rhetorical Theory.
An introduction to classical and rhetorical theory in various areas of English studies. Recent emphases include Teaching of Composition and Technical Communication. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Rhetorical Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Rhetorical Theory

ENG 5384. Critical Theory.
A study of critical theory, emphasizing the history of criticism and/or contemporary critical theories. Repeatable with different emphases for up to nine hours of English credit.

about Critical Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Critical Theory

ENG 5388. Studies in Literature for Children or Adolescents.
A study of contemporary works, extending the student's knowledge of the literature and criticism in the field. Typical emphases are generic and/or thematic and include picture books, the contemporary novel, and the children's classics on film. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Literature for Children or Adolescents

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Literature for Children or Adolescents

ENG 5389. History of Children's Literature.
The history of children's literature from the Middle Ages through 1940. May be repeated with different emphases for up to six hours of graduate credit.

about History of Children's Literature

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Children's Literature

ENG 5390. Special Problems.
Independent study under supervision of a graduate faculty member in English, with in-depth readings and research focused on a special problem in literature and/or language. May be taken only with permission from the assigned professor, the graduate director, and the department chair.

about Special Problems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Problems

ENG 5391. Directed Studies in English.
Students will conduct studies as necessary preparation for graduate-level coursework in English. The nature of the work varies depending on the student's level of academic preparation. This course does not earn graduate credit. Repeatable up to 12 hours with different emphasis.

Prerequisite: Approval of graduate advisor.

about Directed Studies in English

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Directed Studies in English

ENG 5395. Problems in Language and Literature.
Recent emphases include literary technique and literary theory. Repeatable with different emphases for up to nine hours of English credit.

about Problems in Language and Literature

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Language and Literature

ENG 5399A. Thesis.
First semester of thesis enrollment. No thesis credit awarded until student has completed the thesis in English 5399B. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ENG 5399B. Thesis.
Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

Cognate Course Work
Select 6 hours of courses in rhetoric and composition or a related field designed to complement required and prescribed courses in the major

Total Hours 33

With program advisor's approval, students may take additional hours under ENG 5313 and ENG 5314 if course topics are deemed directly relevant to rhetoric and composition.

Topics vary

Excludes Topic: Composition Pedagogy.

Excludes Topic: History of Rhetoric.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcfoms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form...
be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**
The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

**Courses Offered**

**English (ENG)**

Graduate courses listed as “repeatable” ordinarily count toward nine hours of English degree credit unless otherwise indicated. Exceptions require written justification and departmental approval. Specific emphases of repeatable courses vary by term and instructor, but they may focus on literary and rhetorical forms and genres; authors, periods, or literary movements; perspectives from social, intellectual, and cultural studies; literary themes; or theoretical and practical information for technical communication. The department provides descriptions of specific courses prior to each term’s enrollment period.

**ENG 5199B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

**ENG 5299B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

**ENG 5300. Language Problems in a Multicultural Enviroment.**

An introduction to the study of multicultural language and linguistics with descriptive, psychological, social, and semantic emphases.

**ENG 5300. Language Problems in a Multicultural Enviroment.**

An introduction to the study of multicultural language and linguistics with descriptive, psychological, social, and semantic emphases.

**ENG 5300. Language Problems in a Multicultural Enviroment.**

An introduction to the study of multicultural language and linguistics with descriptive, psychological, social, and semantic emphases.

**ENG 5599B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

**ENG 5999B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

**ENG 5999B. Thesis.**

Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.
ENG 5301. Literary Scholarship.
An introduction to scholarly resources, methods, theories, and responsibilities that guide the study and interpretations of literature in English. Literary texts chosen for detailed examination vary with expertise of the instructor. Required in first year of M.A. with a Literature Major. about Literary Scholarship

ENG 5316. Foundations in Rhetoric and Composition.
A group of courses providing students with theoretical, pedagogical, and methodological foundations in the field of rhetoric and composition. Emphases vary but include Contemporary Composition Theory and Composition Pedagogy. Repeatable with different emphases for up to nine hours of English credit.
about Foundations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Rhetoric and Composition

ENG 5317. Specializations in Rhetoric and Composition.
A group of courses providing theoretical, pedagogical, methodological, and/or administrative grounding in specialized areas of rhetoric and composition. Emphases vary but may include Writing Center Theory, Practice, and Administration; Writing Across the Curriculum; Service Learning; and Literacy. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Rhetoric and Composition

ENG 5318. Effective Communication (Writing).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on writing. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
about Effective Communication (Writing)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Communication (Writing)
ENG 5319. Effective Communication (Reading).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on reading. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5320. Form and Theory of Fiction.
An examination of traditional and current theory and practice in fiction. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of fiction in other literatures. For M.F.A. credit only.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5321. Contemporary Fiction.
Readings selected from canonical and/or experimental fiction. Recent emphases include novels into film, postmodern fiction, Magical Realism, and Saul Bellow. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5322. Form and Theory of Poetry.
An examination of traditional and current theory and practice in poetry. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of poetry in other literatures. For M.F.A. credit only.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

A study of selected works in autobiography and biography with special attention to the art forms used in these works. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5324. Studies in Literary Genre.
A study of one or more literary genres over several historical periods or from a variety of cultural perspectives. The course focuses on genres such as the following: the epic, the novel, the short story, the lyric, the pastoral, the romance, and Irish comic fiction. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5325. Studies in Literature of the Southwest.
Selected Texas and Southwestern writers with emphasis on fiction. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5326. Contemporary Composition Theory.
Introduces students to the history of writing instruction in the university and to the theories of writing and composing that inform contemporary composition studies and the teaching of writing.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

An introduction to research practices in rhetoric, composition, and technical communications, focusing on the paradigms/perspectives, strategies, and methods that characterize qualitative and quantitative research in these areas. Includes discussion of the history and role of research in the field, research ethics, and issues of representation.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 5328. Directed Portfolio.
Constitutes partial fulfillment of non-thesis option for students earning the MA in Rhetoric and Composition. Under guidance of a graduate faculty committee, students produce a portfolio of representative written work with written commentary and reflection. Departmental approval required. Graded as credit (CR), progress (PR), no-credit (F). Repeatable once.
Grade Mode: Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Selected poets with a survey of their works. Recent emphases include Walt Whitman, Emily Dickinson, Southern poetry, Denise Levertov, and Robert Bly. Repeatable with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Selected authors with special attention to novels. Recent emphases include William Faulkner, Ernest Hemingway, Richard Wright, and Zora Neale Hurston. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Studies in American Prose

ENG 5345. Southwestern Studies I: Defining the Region.
An interdisciplinary course that surveys the physical, cultural, and social history of the Southwest, emphasizing architecture, art, literature, philosophy, politics, popular culture, and technology. Historical focus from the 15th to the mid-19th century.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Southwestern Studies I: Defining the Region

ENG 5346. Southwestern Studies II: Consequences of Region.
Second course in a survey of physical, cultural, and social history of the Southwest, emphasizing regional and ethnic expressions of culture. This course moves from the broad overview of the first semester to more specific problems in the region and to the artistic products of regional culture. Historical focus is from the Civil War to the present.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Southwestern Studies II: Consequences of Region

ENG 5353. Studies in Medieval Literature.
Emphasis on authors, contexts, and genres of the medieval period. Recent emphases include Anglo-Saxon culture, language, and literature; Chaucer; non-Chaucerian medieval literature; pilgrimage literature. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Medieval Literature

ENG 5354. Studies in Renaissance Literature.
Emphasis on authors, contexts, and genres of the Renaissance. Recent emphases include Shakespeare, Renaissance epic, Tudor humanism, and John Milton. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Renaissance Literature

Major writers of the period with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Johnson and his circle, Restoration and eighteenth-century drama, and the eighteenth-century novel. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Restoration and Eighteenth-century Literature

The works of the Early Romantics or Late Romantics in context with attention to nineteenth- and twentieth-century scholarship. Recent emphases include Blake and the other arts, Coleridge, the Wordsworths, Shelley, and Keats. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in the Romantic Movement

Major Victorian poets with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Tennyson, the Brownings, the Pre-Raphaelites, and Hopkins. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Victorian Poetry

Major Victorian prose writers with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include George Eliot, non-fiction Victorian prose, Victorian women novelists, and Charles Dickens. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Victorian Prose

ENG 5372. Practicum in English Studies.
An introduction to key issues and concepts in the teaching of English studies. Required for first-year instructional assistants in the English Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Practicum in English Studies

ENG 5381. Studies in Modern British and American Drama.
A survey of major British and American dramatists and their European or world context. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Modern British and American Drama
ENG 5382. Practicum in Composition.
An introduction to key issues and concepts in the teaching of expository writing at the college level. Required for first-year teaching assistants in the English Department who have not previously taken ENG 5372. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Practicum in Composition

ENG 5383. Studies in Rhetorical Theory.
An introduction to classical and rhetorical theory in various areas of English studies. Recent emphases include Teaching of Composition and Technical Communication. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Rhetorical Theory

ENG 5384. Critical Theory.
A study of critical theory, emphasizing the history of criticism and/or contemporary critical theories. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Critical Theory

ENG 5385. Special Problems.
Independent study under supervision of a graduate faculty member in English, with in-depth readings and research focused on a special problem in literature and/or language. May be taken only with permission from the assigned professor, the graduate director, and the department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Problems

ENG 5389. History of Children’s Literature.
The history of children’s literature from the Middle Ages through 1940. May be repeated with different emphases for up to six hours of graduate credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Children’s Literature

ENG 5390. Special Problems.
Independent study under supervision of a graduate faculty member in English, with in-depth readings and research focused on a special problem in literature and/or language. May be taken only with permission from the assigned professor, the graduate director, and the department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Special Problems

ENG 5391. Directed Studies in English.
Students will conduct studies as necessary preparation for graduate-level coursework in English. The nature of the work varies depending on the student’s level of academic preparation. This course does not earn graduate credit. Repeatable up to 12 hours with different emphasis.
Prerequisite: Approval of graduate advisor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Leveling
Grade Mode: Leveling/Assistantships
about Directed Studies in English

ENG 5395. Problems in Language and Literature.
Recent emphases include literary technique and literary theory. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Language and Literature

ENG 5399A. Thesis.
First semester of thesis enrollment. No thesis credit awarded until student has completed the thesis in English 5399B. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ENG 5399B. Thesis.
Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

Masters of Arts (M.A.), Major in Technical Communication

Major Program
The technical communication major prepares graduates to write in technical and other professional settings and to pursue doctoral work in the field.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/tcom.html.

Degree Requirements
The master of arts (M.A.) with a technical communication (MATC) major consists of 30 graduate hours distributed as follows:

Internship Track
Non-minor Option
Core Course Work
ENG 5311 Foundations in Technical Communication 3
ENG 5383 Studies in Rhetorical Theory 3
or ENG 5326 Contemporary Composition Theory

Internship Course Work
ENG 5312 Editing the Professional Publication 3

Technologically-focused Course Work
Choose 9 hours from the table at the bottom of this page 9

Prescribed Electives
Select 12 hours of the following: 12
ENG 5300 Language Problems in a Multicultural Environment
ENG 5310 Studies in English Language and Linguistics
ENG 5312 Editing the Professional Publication (may be taken twice) 1
ENG 5313 Studies in Principles of Technical Communication 1
ENG 5314 Specializations in Technical Communication 1
ENG 5317 Specializations in Rhetoric and Composition 1
ENG 5324 Studies in Literary Genre

Minor Course Work
Choose an approved 6-hour minor 6

Portfolio Exam

Total Hours 30

1 Advisor approved topics.

Minor in Cognate Option
With permission of the MATC director, students may replace 6 hours of prescribed electives with 6 hours of course work in rhetoric and composition or literature courses from Texas State as a minor in cognate. Likewise, students may opt for a minor in another program or discipline, but they should confer with the MATC director to choose an appropriate minor. Minors are typically three courses or more and require an advisor from the discipline in which the courses are taken. Students are not required to have either a cognate or minor to complete the MATC degree.

Core Course Work
ENG 5311 Foundations in Technical Communication 3

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress,
a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in English: ENG

Courses Offered

English (ENG)
Graduate courses listed as "repeatable" ordinarily count toward nine hours of English degree credit unless otherwise indicated. Exceptions require written justification and departmental approval. Specific emphases of repeatable courses vary by term and instructor, but they may focus on literary and rhetorical forms and genres; authors, periods, or literary movements; perspectives from social, intellectual, and cultural studies; literary themes; or theoretical and practical information for technical communication. The department provides descriptions of specific courses prior to each term's enrollment period.
An introduction to the theory and practice of technical communication. about Foundations in Technical Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Technical Communication

ENG 5312. Editing the Professional Publication.
The editing, design, layout, and proofreading of a professional publication. This course is an internship. Graded on a credit (CR), no credit (F) basis. May be repeated one time with different emphasis. about Editing the Professional Publication
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Editing the Professional Publication

A group of courses that provide students theoretical and practical information useful in any position in technical communication. Recent emphases include Digital Media and the web, Technical Editing, and Visual Rhetoric. Repeatable with different emphases for up to nine hours of English credit.
about Studies in Principles of Technical Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Principles of Technical Communication

A group of courses that provide students theoretical and practical information for specialized types of technical communication. Recent emphases include International Technical Communication Proposal Writing, Software Documentation and Writing for the Government. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Technical Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Technical Communication

ENG 5315. Graduate Writing Workshop.
A studio course in which the primary texts are student manuscripts. Concentrations in fiction or poetry examine principles and techniques of creating, evaluating, and revising writing in these genres. The course requires class members to review writing produced by other workshop members. 12 hours of M.F.A. credit required. about Graduate Writing Workshop
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Graduate Writing Workshop

ENG 5316. Foundations in Rhetoric and Composition.
A group of courses providing students with theoretical, pedagogical, and methodological foundations in the field of rhetoric and composition. Emphases vary but include Contemporary Composition Theory and Composition Pedagogy. Repeatable with different emphases for up to nine hours of English credit.
about Foundations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Rhetoric and Composition

ENG 5317. Specializations in Rhetoric and Composition.
A group of courses providing theoretical, pedagogical, methodological, and/or administrative grounding in specialized areas of rhetoric and composition. Emphases vary but may include Writing Center Theory, Practice, and Administration; Writing Across the Curriculum; Service Learning; and Literacy. Repeatable with different emphases for up to nine hours of English credit.
about Specializations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Rhetoric and Composition

ENG 5318. Effective Communication (Writing).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on writing. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
about Effective Communication (Writing)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Communication (Writing)

ENG 5319. Effective Communication (Reading).
An interdisciplinary study of communication in which the student learns to interrelate reading, listening, and writing. Emphasis on reading. Credit applies only to degrees in Interdisciplinary Studies; no credit for English graduate degrees.
about Effective Communication (Reading)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Communication (Reading)

ENG 5320. Form and Theory of Fiction.
An examination of traditional and current theory and practice in fiction. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of fiction in other literatures. For M.F.A. credit only.
about Form and Theory of Fiction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Form and Theory of Fiction

ENG 5321. Contemporary Fiction.
Readings selected from canonical and/or experimental fiction. Recent emphases include novels into film, postmodern fiction, Magical Realism, and Saul Bellow. Repeatable with different emphases for up to nine hours of English credit.
about Contemporary Fiction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Contemporary Fiction

ENG 5322. Form and Theory of Poetry.
An examination of traditional and current theory and practice in poetry. Major emphasis will be placed on the British/American tradition, but some attention will be given to the practice and theory of poetry in other literatures. For MFA credit only.
about Form and Theory of Poetry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Form and Theory of Poetry
A study of selected works in autobiography and biography with special attention to the art forms used in these works. Repeatable with different emphases for up to nine hours of English credit.  
Grade Mode: Standard Letter  
about Studies in Autobiography and Biography

ENG 5324. Studies in Literary Genre.  
A study of one or more literary genres over several historical periods or from a variety of cultural perspectives. The course focuses on genres such as the following: the epic, the novel, the short story, the lyric, the pastoral, the romance, and Irish comic fiction. Repeatable with different emphases for up to nine hours of English credit.  
about Studies in Literary Genre

ENG 5325. Studies in the Literature of the Southwest.  
Selected Texas and Southwestern writers with emphasis on fiction. Repeatable with different emphases for up to nine hours of English credit.  
Grade Mode: Standard Letter  
about Studies in the Literature of the Southwest

ENG 5326. Contemporary Composition Theory.  
Introduces students to the history of writing instruction in the university and to the theories of writing and composing that inform contemporary composition studies and the teaching of writing.  
about Contemporary Composition Theory

An introduction to research practices in rhetoric, composition, and technical communications, focusing on the paradigms/perspectives, strategies, and methods that characterize qualitative and quantitative research in these areas. Includes discussion of the history and role of research in the field, research ethics, and issues of representation.  
about Research Methods in Rhetoric, Composition, and Technical Communication

ENG 5328. Directed Portfolio.  
Constitutes partial fulfillment of non-thesis option for students earning the MA in Rhetoric and Composition. Under guidance of a graduate faculty committee, students produce a portfolio of representative written work with written commentary and reflection. Departmental approval required. Graded as credit (CR), progress (PR), no-credit (F). Repeatable once.  
about Directed Portfolio

Selected poets with a survey of their works. Recent emphases include Walt Whitman, Emily Dickinson, Southern poetry, Denise Levertov, and Robert Bly. Repeatable with different emphases for up to nine hours of English credit.  
Grade Mode: Standard Letter  
about Studies in American Poetry

Selected authors with special attention to novels. Recent emphases include William Faulkner, Ernest Hemingway, Richard Wright, and Zora Neale Hurston. Repeatable with different emphases for up to nine hours of English credit.  
about Studies in American Prose

ENG 5333. Studies in American Prose II.  
Second course in a survey of American prose. Recent emphases include William Faulkner, Ernest Hemingway, Richard Wright, and Zora Neale Hurston. Repeatable with different emphases for up to nine hours of English credit.  
about Studies in American Prose II

ENG 5334. Southwestern Studies I: Defining the Region.  
An interdisciplinary course that surveys the physical, cultural, and social history of the Southwest, emphasizing architecture, art, literature, philosophy, politics, popular culture, and technology. Historical focus from the 15th to the mid-19th century.  
Grade Mode: Standard Letter  
about Southwestern Studies I: Defining the Region

ENG 5335. Southwestern Studies II: Consequences of Region.  
Second course in a survey of physical, cultural, and social history of the Southwest, emphasizing regional and ethnic expressions of culture. This course moves from the broad overview of the first semester to more specific problems in the region and to the artistic products of regional culture. Historical focus is from the Civil War to the present.  
about Southwestern Studies II: Consequences of Region

ENG 5336. Studies in Medieval Literature.  
Emphasis on authors, contexts, and genres of the medieval period. Recent emphases include Anglo-Saxon culture, language, and literature; Chaucer; non-Chaucerian medieval literature; pilgrimage literature. Repeatable with different emphases for up to nine hours of English credit.  
about Studies in Medieval Literature

ENG 5337. Studies in Renaissance Literature.  
Emphasis on authors, contexts, and genres of the Renaissance. Recent emphases include Shakespeare, Renaissance epic, Tudor humanism, and John Milton. Repeatable with different emphases for up to nine hours of English credit.  
about Studies in Renaissance Literature

ENG 5338. Studies in Renaissance Literature II.  
Second course in a survey of Renaissance literature. Recent emphases include Shakespeare, Renaissance epic, Tudor humanism, and John Milton. Repeatable with different emphases for up to nine hours of English credit.  
about Studies in Renaissance Literature II
ENG 5359. Studies in Restoration and Eighteenth-century Literature. Major writers of the period with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Johnson and his circle, Restoration and eighteenth-century drama, and the eighteenth-century novel. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Restoration and Eighteenth-century Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5364. Studies in the Romantic Movement. The works of the Early Romantics or Late Romantics in context with attention to nineteenth- and twentieth-century scholarship. Recent emphases include Blake and the other arts, Coleridge, the Wordsworths, Shelley, and Keats. Repeatable with different emphases for up to nine hours of English credit.

about Studies in the Romantic Movement
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5366. Studies in Victorian Poetry. Major Victorian poets with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include Tennyson, the Brownings, the Pre-Raphaelites, and Hopkins. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Victorian Poetry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5368. Studies in Victorian Prose. Major Victorian prose writers with emphasis on scholarship and aesthetics as well as cultural and historical background. Recent emphases include George Eliot, non-fiction Victorian prose, Victorian women novelists, and Charles Dickens. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Victorian Prose
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5372. Practicum in English Studies. An introduction to key issues and concepts in the teaching of English studies. Required for first-year instructional assistants in the English Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

about Practicum in English Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

ENG 5381. Studies in Modern British and American Drama. A survey of major British and American dramatists and their European or world context. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Modern British and American Drama
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5382. Practicum in Composition. An introduction to key issues and concepts in the teaching of expository writing at the college level. Required for first-year teaching assistants in the English Department who have not previously taken ENG 5372. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

about Practicum in Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

ENG 5383. Studies in Rhetorical Theory. An introduction to classical and rhetorical theory in various areas of English studies. Recent emphases include Teaching of Composition and Technical Communication. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Rhetorical Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5384. Critical Theory. A study of critical theory, emphasizing the history of criticism and/or contemporary critical theories. Repeatable with different emphases for up to nine hours of English credit.

about Critical Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5388. Studies in Literature for Children or Adolescents. A study of contemporary works, extending the student's knowledge of the literature and criticism in the field. Typical emphases are generic and/or thematic and include picture books, the contemporary novel, and the children's classics on film. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Literature for Children or Adolescents
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5389. History of Children's Literature. The history of children's literature from the Middle Ages through 1940. May be repeated with different emphases for up to six hours of graduate credit.

about History of Children's Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5390. Special Problems. Independent study under supervision of a graduate faculty member in English, with in-depth readings and research focused on a special problem in literature and/or language. May be taken only with permission from the assigned professor, the graduate director, and the department chair.

about Special Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ENG 5391. Studies in Modern British and American Drama. A survey of major British and American dramatists and their European or world context. Repeatable with different emphases for up to nine hours of English credit.

about Studies in Modern British and American Drama
ENG 5391. Directed Studies in English.
Students will conduct studies as necessary preparation for graduate-level coursework in English. The nature of the work varies depending on the student's level of academic preparation. This course does not earn graduate credit. Repeatable up to 12 hours with different emphasis. Prerequisite: Approval of graduate advisor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Directed Studies in English

ENG 5395. Problems in Language and Literature.
Recent emphases include literary technique and literary theory. Repeatable with different emphases for up to nine hours of English credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Language and Literature

ENG 5399A. Thesis.
First semester of thesis enrollment. No thesis credit awarded until student has completed the thesis in English 5399B. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ENG 5399B. Thesis.
Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ENG 5599A. Thesis.
Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

ENG 5599B. Thesis.
Continuing thesis enrollment until the thesis is submitted for binding. Departmental approval required. Graded on a credit (CR), progress (PR), no-credit (F) basis. Prerequisite: Graduate College approval of thesis proposal.

Grade Mode: Credit/No Credit
about Thesis

Minor in Literature
Minor Requirements
Students with majors other than literature may select literature as a minor. Minors should have completed at least 21 hours of undergraduate English, including at least 9 hours of advanced courses, with a GPA of 2.75 or higher (4.0 scale).

The graduate minor in literature requires 6 hours of 5000-level English course work.

Department of Geography
Evans Liberal Arts Building Room 139
T: 512.245.2170 F: 512.245.8353
http://www.geo.txstate.edu/

Mission
The Department of Geography's mission is to provide its students with educational experiences of the highest quality and to conduct vital research that produces valuable publications. The department is committed to outstanding teaching and scholarly activities within the framework of academic freedom and diversity of ideas. The Department of Geography is dedicated to the advancement of knowledge and to serving our communities, from local to international.

Vision
The Department of Geography will continue to stress both the theoretical and applied realms in all of our degree programs. We will provide a high-quality educational experience and lead the discipline with innovative applied work. We will actively recruit top students nationwide and internationally for our research degree programs. In addition, we expect that significant faculty scholarship and grant activity will support our goal of becoming a top tier, nationally recognized Ph.D.-granting department.

Financial Assistance
Graduate assistantships are available to qualified candidates. Please contact the graduate program coordinator, Department of Geography, for more information about financial assistance and the degree programs. For scholarship information, please contact the office of The Graduate College at or visit their website at http://www.gradcollege.txstate.edu/Prospect_Students/Fin_Grad_Ed/Scholarships.html.

Doctor of Philosophy (Ph.D.), Major in Geographic Education

Ph.D. Program

The course curriculum for the doctoral degree is designed to provide depth and breadth of knowledge in geographic theory and research methods. To be admitted to the geography doctoral program, a student must have completed a master’s degree in geography or in a related discipline.

Each doctoral student will have their program tailored to meet the academic goals agreed upon in consultation with the Ph.D. research advisor, with the approval of the graduate program coordinator, the department chair, and the dean of The Graduate College. All programs will include the necessary core, skills, specialization, and internal and external elective courses.

Educational Goal

The educational goal of the program is to provide a Ph.D. in geography through which students will be educated in the process of geographic research, the development of new knowledge, and the application of this research and knowledge to solve problems with spatial dimensions.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/envgeo.html.

Financial Assistance

Graduate assistantships and scholarships are available to qualified candidates. Please contact the graduate staff advisor in the Department of Geography for more information about assistantships. The office of The Graduate College can provide further information regarding scholarships.

Course Work

Degree Audit

In the first term that a student enrolls for doctoral study, the student should confer with their graduate advisor and prepare a degree audit for their program. Doctoral degree audits are tailored with the individual student in mind. It is therefore possible for the individual degree audit to exceed the number of degree hours identified in the catalog.

Elective Courses (at the 7000-level)

Select 6 hours of electives in Geography or related fields

The student must ensure that they enroll in a combination of dissertation courses that equals 15 hours (i.e., 7399X, 7699X, 7699X; or 7699X and 7999X; etc.) in order to meet the minimum dissertation credit hour requirement.

Total Program Hours: 46

Advancement to Candidacy

Applications for Advancement to Candidacy

The student will need to download the Application for Advancement to Candidacy form from The Graduate College website. The student will need to complete the form and return it to their department, who will then submit it to The Graduate College for approval.

Advancement to Candidacy Time Limit

Doctoral students will need to be advanced to candidacy within four years of initiating Ph.D. course work. A student will need to indicate their intent to advance to candidacy during the term in which the student will complete the 31 hours of required course work.

No credit will be applied toward a student’s doctoral degree for course work completed more than four years before the date on which the student is to advance to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions.

Requests for a time extension must be submitted to the student’s Ph.D. advisor and graduate coordinator who, in turn, submits a recommendation to the dean of The Graduate College.
Grade-Point Requirements for Advancement to Candidacy

To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below "B" on any graduate course work may apply toward a Ph.D. at Texas State. Incomplete grades must be cleared through the office of The Graduate College at least ten days before the approval for advancement to candidacy.

Semester Hour Requirements

The student must complete 31 semester hours of graduate course work to meet the minimum requirements for advancement to candidacy. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must have satisfied the residency requirement of 18 graduate credit hours.

Advancement to Candidacy Comprehensive Examination

All applicants for advancement to candidacy for the doctoral degree must pass a comprehensive examination. The examination procedure may be obtained from the graduate staff advisor. Both prevailing expectations in the field and the actual courses taken by the candidate will determine the subject matter of the examination. This examination may not be taken until all required course work has been completed. The student may take the candidacy comprehensive examination without being enrolled in course work provided they have not been enrolled in dissertation course(s).

Arrangements for the examination will be made with the student’s Ph.D. advisor. The results of the “Advancement to Candidacy Comprehensive Examination” must be filed in the office of The Graduate College before final approval to advance to candidacy is given by the dean of The Graduate College. The department is responsible for submitting the report to the office of The Graduate College.

Dissertation Proposal

The dissertation proposal must be approved by the dean of The Graduate College and successfully defended in front of the dissertation committee before a student can advance to candidacy. Information about the dissertation procedures can be found in the “Dissertation Research and Writing” section of this catalog.

Recommendation for Advancement to Candidacy

The geography graduate committee recommends the applicant for advancement to candidacy to the chair of the Department of Geography and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been completed.

Dissertation Research and Writing

All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of Kate L. Turabian’s A Manual for Writers or the Annals of the Association of American Geographers.

Dissertation Enrollment Requirements

Enrollment

After being admitted to candidacy, students must be continuously enrolled each term for dissertation hours. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for that term. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred.

Hours

Students must complete a minimum of 15 semester hours of dissertation research and writing credit.

Fee Reduction

A master’s or doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Time Limit

Students are expected to complete the dissertation within three years of advancement to candidacy. The geography graduate committee will review the student's progress annually.

Ph.D. Advisory Committee

The Ph.D. advisory committee must be formed to oversee the research and writing of the dissertation. The Ph.D. advisory committee will include a Ph.D. advisor and a minimum of three additional committee members (two of whom must be from the Department of Geography and one from outside the department). The members must be chosen from qualified Ph.D. faculty. The Ph.D. advisor and the advisory committee will be selected in consultation with the student and through mutual agreement with committee members. The Ph.D. advisor will chair the dissertation committee and must be from the major department. The advisor and advisory committee must be approved by the graduate program coordinator, the department chair, as listed on the "Dissertation Committee Request" form and submitted to the dean of The Graduate College for final approval.

Committee Changes

Any changes to the advisory committee must be submitted for approval to the advisory committee chair, the graduate coordinator, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty days before the final oral comprehensive examination. The "Dissertation Advisor/Committee Member Change Request" form may be obtained from The Graduate College website.

Dissertation Proposal

Students must submit the dissertation proposal and one copy of the official "Dissertation Proposal" form to their dissertation advisor. After obtaining original committee members’ signatures and the department chair’s signature, the student must submit the dissertation proposal and the form to the dean of The Graduate College for approval before proceeding with research on the dissertation. The proposal form may be obtained from The Graduate College website.

Defense of the Dissertation Proposal

Students must defend the dissertation proposal in an oral examination with the Ph.D. advisory committee. The examination will address the proposed dissertation topic (problem definition and scope), research method, and relevant literature. The advisory committee must sign the "Defense of the Dissertation Proposal" form and then submit it for the
signature of the department chair. The original must be sent to the office of The Graduate College.

Final Oral Comprehensive Examination
Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. To schedule the final oral examination, the student must apply to their Ph.D. advisor the term that they complete the dissertation. A completed "Doctoral Comprehensive Examination Report" form must be submitted to the dean of The Graduate College.

Approval and Submission of the Dissertation and Abstract
The approval of the dissertation requires positive votes from the Ph.D. advisor and from a majority of the members of the Ph.D. advisory committee. One copy of the dissertation and the signed "Thesis/Dissertation Committee Approval" form must be submitted to the dean of The Graduate College for final approval once the committee has approved the dissertation. Refer to the Graduate College Guide to Preparing and Submitting a Thesis/Dissertation (available on The Graduate College website) for specific submission guidelines.

Doctoral level courses in Geography: GEO

Courses Offered
Geography (GEO)

GEO 7150. Practicum in Teaching Geography.
An introduction to key concepts and practices in the teaching of college Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year teaching and instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

GEO 7190. Independent Study.
Research in geography under the direction of a supervising professor. Repeatable once for additional credit with a different topic.

GEO 7199B. Dissertation in Geography-Geographic Education.
Original research and writing in Geography-Geographic Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

GEO 7199C. Dissertation in Geography-Geographic Information Science.
Original research and writing in Geography-Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

GEO 7250. Practicum in Teaching Geography.
An introduction to key concepts and practices in the teaching of college Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year teaching and instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

GEO 7290. Independent Study.
This course is designed to provide a student with credit while conducting independent research in consultation with his or her research advisor. Repeatable once for additional credit with a different topic.

GEO 7299A. Dissertation in Geography-Environmental Geography.
Original research and writing in Geography-Environmental Geography to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

GEO 7299B. Dissertation.  
Original research and writing in Geography-Geographic Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.  
Grade Mode: Credit/No Credit  
about Dissertation  
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7299C. Dissertation.  
Original research and writing in Geography-Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.  
Grade Mode: Credit/No Credit  
about Dissertation  
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7300. Advanced Geographic Research Design.  
The purpose of this course is to develop an appreciation for the process of research as practiced by contemporary professional geographers. Topics covered include formulating research problems, reviewing and critiquing published literature, developing and executing a research design, and completing a research project.  
Grade Mode: Standard Letter  
about Advanced Geographic Research Design  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7301. Advanced Quantitative Methods in Geography.  
How to mathematically and statistically model geographic problems is the focus of this course. The application of multivariate statistical techniques to geographic problems and the problems that spatial data create in the application of statistical and other quantitative techniques are central issues.  
Grade Mode: Standard Letter  
about Advanced Quantitative Methods in Geography  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
This course is a critical analysis of the historical development of geographic thought: its roots, its present status, and future directions.  
Grade Mode: Standard Letter  
about Nature and Philosophy of Geography  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7305. Historical Geography of the American Environment.  
This course examines the spatial evolution of environmental problems in the United States using the techniques and analytical perspectives of historical geography. Special emphasis is given to the emergence of environmental problems in the context of urbanization and industrialism. The course will expose students to the most significant work by geographers in this area to date, and to the historical development of environmental geographic analysis in the U.S.  
Grade Mode: Standard Letter  
about Historical Geography of the American Environment  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7308. Advanced Regional Field Studies.  
Advanced study of geographic phenomena during field excursions to a particular site or region. Course includes preparation of site inventory, site guides, and on-site presentations. Repeatable once for additional credit with a different site or region.  
Grade Mode: Standard Letter  
about Advanced Regional Field Studies  
3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.  
GEO 7313. Environmental Systems Analysis.  
Theories and concepts involved in environmental systems will be examined. Tools and research issues relevant to their analysis will also be explored. Basic principles, as well as specific research questions and techniques, will be proposed to give students a foundation for analysis of current issues involving environmental systems.  
Grade Mode: Standard Letter  
about Environmental Systems Analysis  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7314. Environmental Geography of Resource Development.  
This course will provide a detailed and in-depth analysis and critique of theories, policies, and practices regarding resource development and concomitant environmental effects.  
Grade Mode: Standard Letter  
about Environmental Geography of Resource Development  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
A detailed examination and implementation of sophisticated approaches for processing satellite digital images with emphasis on environmental applications.  
Grade Mode: Standard Letter  
about Remote Sensing and the Environment  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
GEO 7318. GIS and Environmental Geography.  
This course examines the nature of environmental problems and explores the potential of GIS for environmental modeling and management. The conceptual basis for using GIS as well as the framing of environmental research problems will be covered.  
Grade Mode: Standard Letter  
about GIS and Environmental Geography  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
GEO 7330. Geography of Natural Hazards.
This seminar examines the interdisciplinary nature of natural hazards research, the evolution of theories and thought in natural hazards, the geophysical causes of natural hazards, human impact and response to natural disasters, and issues and challenges in the Third World.
Grade Mode: Standard Letter
about Geography of Natural Hazards

GEO 7331. Geography of the Hazards of Technology.
This research seminar focuses on the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. Special attention will be paid to the theoretical and conceptual understandings of hazards among both professionals and the public to evaluate how these views affect policies, choices, behaviors, and impacts.
Grade Mode: Standard Letter
about Geography of the Hazards of Technology

GEO 7334. Geographic Aspects of Water.
This seminar is a critical analysis of developmental and current literature that define water’s critical role in determining the physical and cultural characteristics of the earth. Principal focus will be placed on water’s role on land use and as a critical resource.
Grade Mode: Standard Letter
about Geographic Aspects of Water

GEO 7342. Theories and Methods in Geographic Education.
This seminar is a critical analysis of previous and current literature concerning problems in pedagogy, philosophy, learning theory, research methods, teaching methodologies, and techniques of geographic education. A research paper will be required of each student on a topic related to the course content.
Grade Mode: Standard Letter
about Theories and Methods in Geographic Education

GEO 7344. Seminar in Geographic Curriculum.
The seminar will be a survey and discussion of major curricula in geographic education. Geography will be viewed as a school subject that is part of the social studies, as an element of interdisciplinary studies, and as a stand alone subject.
Grade Mode: Standard Letter
about Seminar in Geographic Curriculum

GEO 7346. Standards and Assessment in Geography.
An introduction to assessment procedures in geography education is central to the course. Analysis of national standards in geography and how they have affected geographic learning in grades K-12 will be addressed.
Grade Mode: Standard Letter
about Standards and Assessment in Geography

GEO 7348. Ethnic Geography.
This course will engage student in the in-depth critical analysis of the theories and methods of ethnic geography. The students will conduct careful research on a topic in ethnic geography.
Grade Mode: Standard Letter
about Ethnic Geography

GEO 7349. Population Geography.
An in-depth study of the growth, movement, and spatial distribution of human populations is the central theme. Students will read and discuss professional articles that stress both theory and analytical techniques. Topics will include population growth and the environment, rural and small town depopulation, spatial diffusion processes, migration trends and theories, urban population growth, and techniques such as multivariate analysis and population projections.
Grade Mode: Standard Letter
about Population Geography

GEO 7361. Advanced Geographic Information Systems.
This course provides exposure to advanced topics in GIS, particularly to quantitative methods and techniques for developing and interpreting models of natural and anthropogenic phenomena over the geographical space.
Grade Mode: Standard Letter
about Advanced Geographic Information Systems

GEO 7362. Geographic Visualization.
This course focuses on the interdisciplinary field of Geographic Visualization. Students will review visualization research in computer graphics, human computer interaction, GIScience, and cartography and relate the research approaches to useful and usable geographic visualizations. Prerequisite: GEO 3411 or equivalent.
Grade Mode: Standard Letter
about Geographic Visualization

GEO 7364. Geocomputation.
Geocomputation reviews and analyzes concepts of computational modeling in Geography. The course will include modeling theory and advanced topics such as parallel processing, neural networks, cellular automata, scientific visualization, and fuzzy modeling. Students will practice model development, specifically spatially explicit simulation.
Grade Mode: Standard Letter
about Geocomputation
GEO 7365. Theoretical Cartography.
This course focuses on theoretical developments in cartography, and in particular looks at the role of maps and other graphic devices as tools for the discovery, analysis, and communication of geographical knowledge. Prerequisite: GEO 3411 or equivalent.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The course focuses on advanced topics including the theoretical basis, mathematical foundations, and current research frontiers in remote sensing. Prerequisite: GEO 5415 or equivalent.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7367. Theoretical Cartography.
This course focuses on theoretical developments in cartography, and in particular looks at the role of maps and other graphic devices as tools for the discovery, analysis, and communication of geographical knowledge. Prerequisite: GEO 3411 or equivalent.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The course focuses on advanced topics including the theoretical basis, mathematical foundations, and current research frontiers in remote sensing. Prerequisite: GEO 5415 or equivalent.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7369. Theoretical Cartography.
This course focuses on theoretical developments in cartography, and in particular looks at the role of maps and other graphic devices as tools for the discovery, analysis, and communication of geographical knowledge. Prerequisite: GEO 3411 or equivalent.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7370. Advanced Seminar in Environmental Geography.
This research seminar focuses on the methods, approaches, issues, and concepts of major themes in environmental geography. Special emphasis will be placed on theoretical and conceptual understandings of how humans interact with the environment from a geographical perspective. Repeatable once for additional credit with a different topic.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7371. Advanced Seminar in Geographic Education.
This research seminar analyzes literature and research into recent trends in geographic education. Emphasis will be on new developments in curriculum, content, and teaching methodologies. Repeatable once for additional credit with a different topic.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7372. Seminar in Geographic Information Science.
This course deals with advanced and current research issues in Geographic Information Science. Based on this objective, the course aims at educating doctoral students to conduct research in Geographic Information Science as well as develop innovative applications of Geographic Information Science. May be repeated for credit with a different topic.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7390. Independent Study.
Research in geography under the direction of a supervising professor. Repeatable once for additional credit with a different topic.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7391. Foundation Studies in Geography.
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7393A. Qualitative Methods.
This course introduces the qualitative research paradigm, including appropriate research design, methods of data collection, types of inductive analysis and evaluation, as well as, standards of rigor for research that calls for a deeper understanding of more complex human relationships. The focus and application will be oriented towards human geography.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7393B. Biogeography in Mountain Environments.
This course examines how plants and animals interact with and affect geomorphological processes and landforms, and how geomorphological processes, landforms and geological factors affect spatial distribution of animals and plants; all within the environmental limitation and conditions of mountains. The role of humans in affecting these interrelationships will be emphasized.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7393C. Managing Urbanization.
This course examines survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 7393D. International Migration.
This course provides a survey of geographic and social science research conducted across various topics of international migration.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
GEO 7393E. Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulation in land management, and the human-environment impacts of land development.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Geography of Land Management

GEO 7393F. Gender and Development.
This course is a survey of geographic and social science research conducted across various topics of gender studies and international development.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Gender and Development

GEO 7393G. Political Geography.
This course is a survey of geographic and social science research conducted across various topics of political geography.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Political Geography

GEO 7393H. Urban Environment.
This course explores scholarly and governmental research relating to urban environments, urban environmentalism, and urban environmental management. Emphasis is placed on the myriad ways in which human-environment interaction influences, and is influenced by, urban geography and the urban experience.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Urban Environment

GEO 7393I. Contemporary Topics in Geography Education.
This course will be a survey of recent initiatives in geography education. This course will focus on areas such as research, assessment, and the development and use of instructional materials in relation to the National Science Foundation funded "Road Map for 21st Century Geography Education".

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Contemporary Topics in Geography Education

GEO 7393J. Soil and Society.
This course explores the importance of soil resources for environmental and socioeconomic sustainability. Soil science will be introduced, but the majority of the course will focus on soil's value to societies. Specific topics that will be explored include soil geography, historical abuses of soil resources, and current conservation efforts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Soil and Society

GEO 7393K. Biogeomorphology.
This course will examine the ways in which plants and animals interact with and affect geomorphological processes and landforms, and how geomorphological processes, landforms, and geological factors affect spatial distributions of animals and plants. The role of humans in affecting these interrelationships will be emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Biogeomorphology

GEO 7393L. Lidar.
This course is an introduction to Light Detection and Ranging (lidar) systems for mapping and analysis. Students will learn to successfully apply knowledge of lidar sensors and technology for a variety of geographic information science applications. Students must have prior knowledge and experience with GIS analysis and mapping tools.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

about Lidar

GEO 7399A. Dissertation.
Original research and writing in Environmental Geography, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Dissertation

GEO 7399B. Dissertation.
Original research and writing in Geographic Education, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Dissertation
GEO 7399C. Dissertation.
Original research and writing in Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation

Students will focus on geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.
about Geographic Applications of Remote Sensing

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Applications of Remote Sensing

GEO 7417. Geographic Information Systems.
Course is concerned with the analysis of interpretation of maps stored in digital form. Students are introduced to the concepts involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.
about Geographic Information Systems

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems

This course is concerned with the analysis and interpretation of maps stored in digital form. It will cover a variety of topics of interest to those seeking more in-depth knowledge of GIS and ancillary topics such as spatial statistics. The course provides an in-depth understanding of spatial analysis and modeling.
about Technical Foundations and Methods in Geographic Information Science

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Technical Foundations and Methods in Geographic Information Science

GEO 7430. Field Methods.
Methods and techniques for observing, measuring, recording, and reporting on geographic phenomena are investigated in this course. Students will learn the use of instruments and materials in the collection of data for mapping and field research in the local area. Prerequisites: GEO 2410 and GEO 3301 or equivalents.
about Field Methods

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Field Methods

GEO 7447. Spatial Graphics in Geographic Education.
This course examines traditional and innovative geoinformation and geovisualization technologies and their relationship to spatial thinking and the teaching and learning of geography. The course reviews academic literature, research methods, and teaching methodologies related to spatial graphics in geographic education. The lab portion provides geovisualization design skills for geographic education.

GEO 7447A. Dissertation in Geography - Environmental Geography.
Original research and writing in Geography-Environmental Geography to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Geography - Environmental Geography

GEO 7447B. Dissertation.
Original research and writing in Geography-Geographic Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation

GEO 7447C. Dissertation.
Original research and writing in Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation

GEO 7447D. Dissertation.
Original research and writing in Environmental Geography, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation
Doctor of Philosophy (Ph.D.), Major in Geographic Information Science

Ph.D. Program

The course curriculum for the doctoral degree is designed to provide depth and breadth of knowledge in geographic theory and research methods. To be admitted to the geography doctoral program, a student must have completed a master’s degree in geography or in a related discipline.

Each doctoral student will have her/his program tailored to meet the academic goals agreed upon in consultation with the Ph.D. research advisor, with the approval of the graduate program coordinator, the department chair, and the dean of the Graduate College. All programs will include the necessary core, skills, specialization, and internal and external elective courses.

Educational Goal

The educational goal of the program is to provide a Ph.D. in geography through which students will be educated in the process of geographic research, the development of new knowledge, and the application of this research and knowledge to solve problems with spatial dimensions.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/envgeo.html.

Financial Assistance

Graduate assistantships and scholarships are available to qualified candidates. Please contact the graduate staff advisor in the Department of Geography for more information about assistantships. The office of The Graduate College can provide further information regarding scholarships.

Course Work

Degree Audit

In the first term that a student enrolls for doctoral study, the student should confer with their graduate advisor and prepare a degree audit for their program. Doctoral degree audits are tailored with the individual student in mind. It is therefore possible for the individual degree audit to exceed the number of degree hours identified in the catalog.

1 Repeatable up to six hours with a different topic.
2 The student must ensure that he or she enrolls in a combination of dissertation courses that equals 15 hours (i.e., 7399X, 7699X, 7699X; or 7699X and 7999X; etc.) in order to meet the minimum dissertation credit hour requirement.

**Total Program Hours: 46**

**Advancement to Candidacy**

**Applications for Advancement to Candidacy**

The student will need to download the Application for Advancement to Candidacy form from The Graduate College website. The student will need to complete the form and return it to their department, who will then submit it to The Graduate College for approval.

**Advancement to Candidacy Time Limit**

Doctoral students will need to be advanced to candidacy within four years of initiating Ph.D. course work. A student will need to indicate their intent to advance to candidacy during the term in which the student will complete the 31 hours of required course work.

No credit will be applied toward a student’s doctoral degree for course work completed more than four years before the date on which the student is to advance to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions.

Requests for a time extension must be submitted to the student’s Ph.D. advisor and graduate coordinator who, in turn, submits a recommendation to the dean of The Graduate College.

**Grade-Point Requirements for Advancement to Candidacy**

To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below “B” on any graduate course work may apply toward a Ph.D. at Texas State.

Incomplete grades must be cleared through the office of The Graduate College at least ten days before the approval for advancement to candidacy.

**Semester Hour Requirements**

The student must complete 31 semester hours of graduate course work to meet the minimum requirements for advancement to candidacy. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must have satisfied the residency requirement of 18 graduate credit hours.

**Advancement to Candidacy Comprehensive Examination**

All applicants for advancement to candidacy for the doctoral degree must pass a comprehensive examination. The examination procedure may be obtained from the graduate staff advisor. Both prevailing expectations in the field and the actual courses taken by the candidate will determine the subject matter of the examination. This examination may not be taken until all required course work has been completed. The student may take the candidacy comprehensive examination without being enrolled in course work provided they have not been enrolled in dissertation course(s).

Arrangements for the examination will be made with the student’s Ph.D. advisor. The results of the “Advancement to Candidacy Comprehensive Examination” must be filed in the office of The Graduate College before final approval to advance to candidacy is given by the dean of The Graduate College. The department is responsible for submitting the report to the office of The Graduate College.

**Dissertation Proposal**

The dissertation proposal must be approved by the dean of The Graduate College and successfully defended in front of the dissertation committee before a student can advance to candidacy. Information about the dissertation procedures can be found in the “Dissertation Research and Writing” section of this catalog.

**Recommendation for Advancement to Candidacy**

The geography graduate committee recommends the applicant for advancement to candidacy to the chair of the Department of Geography and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been completed.

**Dissertation Research and Writing**

All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of Kate L. Turabian’s *A Manual for Writers* or the *Annals of the Association of American Geographers*.

**Dissertation Enrollment Requirements**

**Enrollment**

After being admitted to candidacy, students must be continuously enrolled each term for dissertation hours. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for that term. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred.
Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Time Limit
Students are expected to complete the dissertation within three years of advancement to candidacy. The geography graduate committee will review the student's progress annually.

Ph.D. Advisory Committee
The Ph.D. advisory committee must be formed to oversee the research and writing of the dissertation. The Ph.D. advisory committee will include a Ph.D. advisor and a minimum of three additional committee members (two of whom must be from the Department of Geography and one from outside the department). The members must be chosen from qualified Ph.D. faculty. The Ph.D. advisor and the advisory committee will be selected in consultation with the student and through mutual agreement with committee members. The Ph.D. advisor will chair the dissertation committee and must be from the major department. The advisor and advisory committee must be approved by the graduate program coordinator, the department chair, as listed on the "Dissertation Committee Request" form and submitted to the dean of The Graduate College for final approval.

Committee Changes
Any changes to the advisory committee must be submitted for approval to the advisory committee chair, the graduate coordinator, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty days before the final oral comprehensive examination. The "Dissertation Advisor/Committee Member Change Request" form may be obtained from The Graduate College website.

Dissertation Proposal
Students must submit the dissertation proposal and one copy of the official "Dissertation Proposal" form to their dissertation advisor. After obtaining original committee members' signatures and the department chair's signature, the student must submit the dissertation proposal and the form to the dean of The Graduate College for approval before proceeding with research on the dissertation. The proposal form may be obtained from The Graduate College website.

Defense of the Dissertation Proposal
Students must defend the dissertation proposal in an oral examination with the Ph.D. advisory committee. The examination will address the proposed dissertation topic (problem definition and scope), research method, and relevant literature. The advisory committee must sign the "Defense of the Dissertation Proposal" form and then submit it for the signature of the department chair. The original must be sent to the office of The Graduate College.

Final Oral Comprehensive Examination
Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. To schedule the final oral examination, the student must apply to their Ph.D. advisor the term that they complete the dissertation. A completed "Doctoral Comprehensive Examination Report" form must be submitted to the dean of The Graduate College.

Approval and Submission of the Dissertation and Abstract
The approval of the dissertation requires positive votes from the Ph.D. advisor and from a majority of the members of the Ph.D. advisory committee. One copy of the dissertation and the signed "Thesis/Dissertation Committee Approval" form must be submitted to the dean of The Graduate College for final approval once the committee has approved the dissertation. Refer to the Graduate College Guide to Preparing and Submitting a Thesis/Dissertation (available on The Graduate College website) for specific submission guidelines.

Courses Offered
Geography (GEO)
GEO 7150. Practicum in Teaching Geography.
An introduction to key concepts and practices in the teaching of college Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year teaching and instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. Credit/No Credit
Repeatable once for additional credit with a different topic.

GEO 7300. Advanced Geographic Research Design.
The purpose of this course is to develop an appreciation for the process of research as practiced by contemporary professional geographers. Topics covered include formulating research problems, reviewing and critiquing published literature, developing and executing a research design, and completing a research project.
Grade Mode: Standard Letter
about Advanced Geographic Research Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Geographic Research Design

GEO 7301. Advanced Quantitative Methods in Geography.
How to mathematically and statistically model geographic problems is the focus of this course. The application of multivariate statistical techniques to geographic problems and the problems that spatial data create in the application of statistical and other quantitative techniques are central issues.
Grade Mode: Standard Letter
about Advanced Quantitative Methods in Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Quantitative Methods in Geography

This course is a critical analysis of the historical development of geographic thought: its roots, its present status, and future directions.
Grade Mode: Standard Letter
about Nature and Philosophy of Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nature and Philosophy of Geography
GEO 7305. Historical Geography of the American Environment. This course examines the spatial evolution of environmental problems in the United States using the techniques and analytical perspectives of historical geography. Special emphasis is given to the emergence of environmental problems in the context of urbanization and industrialism. The course will expose students to the most significant work by geographers in this area to date, and to the historical development of environmental geographic analysis in the U.S. about Historical Geography of the American Environment 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Historical Geography of the American Environment

GEO 7308. Advanced Regional Field Studies. Advanced study of geographic phenomena during field excursions to a particular site or region. Course includes preparation of site inventory, site guides, and on-site presentations. Repeatable once for additional credit with a different site or region. about Advanced Regional Field Studies 3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours. Grade Mode: Standard Letter about Advanced Regional Field Studies

GEO 7313. Environmental Systems Analysis. Theories and concepts involved in environmental systems will be examined. Tools and research issues relevant to their analysis will also be explored. Basic principles, as well as specific research questions and techniques, will be proposed to give students a foundation for analysis of current issues involving environmental systems. about Environmental Systems Analysis 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Environmental Systems Analysis

GEO 7314. Environmental Geography of Resource Development. This course will provide a detailed and in-depth analysis and critique of theories, policies, and practices regarding resource development and concomitant environmental effects. about Environmental Geography of Resource Development 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Environmental Geography of Resource Development

GEO 7316. Remote Sensing and the Environment. A detailed examination and implementation of sophisticated approaches for processing satellite digital images with emphasis on environmental applications. about Remote Sensing and the Environment 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Remote Sensing and the Environment

GEO 7318. GIS and Environmental Geography. This course examines the nature of environmental problems and explores the potential of GIS for environmental modeling and management. The conceptual basis for using GIS as well as the framing of environmental research problems will be covered. about GIS and Environmental Geography 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about GIS and Environmental Geography

GEO 7330. Geography of Natural Hazards. This seminar examines the interdisciplinary nature of natural hazards research, the evolution of theories and thought in natural hazards, the geophysical causes of natural hazards, human impact and response to natural disasters, and issues and challenges in the Third World. about Geography of Natural Hazards 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Geography of Natural Hazards

GEO 7331. Geography of the Hazards of Technology. This research seminar focuses on the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. Special attention will be paid to the theoretical and conceptual understandings of hazards among both professionals and the public to evaluate how these views affect policies, choices, behaviors, and impacts. about Geography of the Hazards of Technology 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Geography of the Hazards of Technology

GEO 7334. Geographic Aspects of Water. This seminar is a critical analysis of developmental and current literature that define water’s critical role in determining the physical and cultural characteristics of the earth. Principal focus will be placed on water’s role on land use and as a critical resource. about Geographic Aspects of Water 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Geographic Aspects of Water

GEO 7342. Theories and Methods in Geographic Education. This seminar is a critical analysis of previous and current literature concerning problems in pedagogy, philosophy, learning theory, research methods, teaching methodologies, and techniques of geographic education. A research paper will be required of each student on a topic related to the course content. about Theories and Methods in Geographic Education 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Theories and Methods in Geographic Education

GEO 7344. Seminar in Geographic Curriculum. The seminar will be a survey and discussion of major curricula in geographic education. Geography will be viewed as a school subject that is part of the social studies, as an element of interdisciplinary studies, and as a stand alone subject. about Seminar in Geographic Curriculum 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Seminar in Geographic Curriculum

GEO 7346. Standards and Assessment in Geography. An introduction to assessment procedures in geography education is central to the course. Analysis of national standards in geography and how they have affected geographic learning in grades K-12 will be addressed. about Standards and Assessment in Geography 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Standards and Assessment in Geography
GEO 7348. Ethnic Geography.
This course will engage student in the in-depth critical analysis of the
theories and methods of ethnic geography. The students will conduct
careful research on a topic in ethnic geography.
about Ethnic Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Ethnic Geography

GEO 7349. Population Geography.
An in-depth study of the growth, movement, and spatial distribution
of human populations is the central theme. Students will read and
discuss professional articles that stress both theory and analytical
techniques. Topics will include population growth and the environment,
rural and small town depopulation, spatial diffusion processes, migration
trends and theories, urban population growth, and techniques such as
multivariate analysis and population projections.
about Population Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Population Geography

GEO 7361. Advanced Geographic Information Systems.
This course provides exposure to advanced topics in GIS, particularly
to quantitative methods and techniques for developing and interpreting
models of natural and anthropogenic phenomena over the geographical
space.
about Advanced Geographic Information Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Geographic Information Systems

GEO 7362. Geographic Visualization.
This course focuses on the interdisciplinary field of Geographic
Visualization. Students will review visualization research in computer
graphics, human computer interaction, GIScience, and cartography
and relate the research approaches to useful and usable geographic
visualizations. Prerequisite: GEO 3411 or equivalent.
about Geographic Visualization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geographic Visualization

GEO 7364. Geocomputation.
Geocomputation reviews and analyzes concepts of computational
modeling in Geography. The course will include modeling theory and
advanced topics such as parallel processing, neural networks, cellular
automata, scientific visualization, and fuzzy modeling. Students will
practice model development, specifically spatially explicit simulation.
about Geocomputation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geocomputation

GEO 7365. Theoretical Cartography.
This course focuses on theoretical developments in cartography, and in
particular looks at the role of maps and other graphic devices as tools for
the discovery, analysis, and communication of geographical knowledge.
Prerequisite: GEO 3411 or equivalent.
about Theoretical Cartography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical Cartography

The course focuses on advanced topics including the theoretical basis,
mathematical foundations, and current research frontiers in remote
sensing. Prerequisite: GEO 5415 or equivalent.
about Advanced Topics in Remote Sensing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Topics in Remote Sensing

GEO 7370. Advanced Seminar in Environmental Geography.
This research seminar focuses on the methods, approaches, issues, and
concepts of major themes in environmental geography. Special emphasis
will be placed on theoretical and conceptual understandings of how
humans interact with the environment from a geographical perspective.
Repeatable once for additional credit with a different topic.
about Advanced Seminar in Environmental Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Seminar in Environmental Geography

GEO 7371. Advanced Seminar in Geographic Education.
This research seminar analyzes literature and research into recent trends
in geographic education. Emphasis will be on new developments in
curriculum, content, and teaching methodologies. Repeatable once for
additional credit with a different topic.
about Advanced Seminar in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Seminar in Geographic Education

GEO 7372. Seminar in Geographic Information Science.
This course deals with advanced and current research issues in
Geographic Information Science. Based on this objective, the course
aims at educating doctoral students to conduct research in Geographic
Information Science as well as develop innovative applications of
Geographic Information Science. May be repeated for credit with a
different topic.
about Seminar in Geographic Information Science
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Geographic Information Science

GEO 7390. Independent Study.
Research in geography under the direction of a supervising professor.
Repeatable once for additional credit with a different topic.
about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study
GEO 7391. Foundation Studies in Geography.
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Foundation Studies in Geography

GEO 7393A. Qualitative Methods.
This course introduces the qualitative research paradigm, including appropriate research design, methods of data collection, types of inductive analysis and evaluation, as well as, standards of rigor for research that calls for a deeper understanding of more complex human relationships. The focus and application will be oriented towards human geography.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Qualitative Methods

GEO 7393B. Biogeography in Mountain Environments.
This course examines how plants and animals interact with and affect geomorphological processes and landforms, and how geomorphological processes, landforms and geological factors affect spatial distribution of animals and plants; all within the environmental limitation and conditions of mountains. The role of humans in affecting these interrelationships will be emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Biogeography in Mountain Environments

GEO 7393C. Managing Urbanization.
This course examines survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Managing Urbanization

GEO 7393D. International Migration.
This course provides a survey of geographic and social science research conducted across various topics of international migration.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about International Migration

GEO 7393E. Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics/philosophies, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulation in land management, and the human-environment impacts of land development.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Geography of Land Management

GEO 7393F. Gender and Development.
This course is a survey of geographic and social science research conducted across various topics of gender studies and international development.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Gender and Development

GEO 7393G. Political Geography.
This course is a survey of geographic and social science research conducted across various topics of political geography.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Political Geography

GEO 7393H. Urban Environment.
This course explores scholarly and governmental research relating to urban environments, urban environmentalism, and urban environmental management. Emphasis is placed on the myriad ways in which human-environment interaction influences, and is influenced by, urban geography and the urban experience.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Urban Environment

GEO 7393I. Contemporary Topics in Geography Education.
This course will be a survey of recent initiatives in geography education. This course will focus on areas such as research, assessment, and the development and use of instructional materials in relation to the National Science Foundation funded “Road Map for 21st Century Geography Education”.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Contemporary Topics in Geography Education
GEO 7393J. Soil and Society.
This course explores the importance of soil resources for environmental and socioeconomic sustainability. Soil science will be introduced, but the majority of the course will focus on soil’s value to societies. Specific topics that will be explored include soil geography, historical abuses of soil resources, and current conservation efforts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Soil and Society

GEO 7393K. Biogeomorphology.
This course will examine the ways in which plants and animals interact with and affect geomorphological processes and landforms, and how geomorphological processes, landforms, and geological factors affect spatial distributions of animals and plants. The role of humans in affecting these interrelationships will be emphasized.

about Biogeomorphology

GEO 7393L. Lidar.
This course is an introduction to Light Detection and Ranging (lidar) systems for mapping and analysis. Students will learn to successfully apply knowledge of lidar sensors and technology for a variety of geographic information science applications. Students must have prior knowledge and experience with GIS analysis and mapping tools.

about Lidar

GEO 7399A. Dissertation.
Original research and writing in Environmental Geography, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Dissertation

GEO 7399B. Dissertation.
Original research and writing in Geographic Education, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Dissertation

GEO 7399C. Dissertation.
Original research and writing in Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Dissertation

Students will focus on geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.

about Geographic Applications of Remote Sensing

GEO 7417. Geographic Information Systems.
Course is concerned with the analysis of interpretation of maps stored in digital form. Students are introduced to the concepts involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.

about Geographic Information Systems

This course is concerned with the analysis and interpretation of maps stored in digital form. It will cover a variety of topics of interest to those seeking more in-depth knowledge of GIS and ancillary topics such as spatial statistics. The course provides an in-depth understanding of spatial analysis and modeling.

about Technical Foundations and Methods in Geographic Information Science

GEO 7430. Field Methods.
Methods and techniques for observing, measuring, recording, and reporting on geographic phenomena are investigated in this course. Students will learn the use of instruments and materials in the collection of data for mapping and field research in the local area. Prerequisites: GEO 2410 and GEO 3301 or equivalents.
GEO 7447. Spatial Graphics in Geographic Education.
This course examines traditional and innovative geoinformation and geovisualization technologies and their relationship to spatial thinking and the teaching and learning of geography. The course reviews academic literature, research methods, and teaching methodologies related to spatial graphics in geographic education. The lab portion provides geovisualization design skills for geographic education.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Spatial Graphics in Geographic Education
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.

GEO 7599A. Dissertation in Geography - Environmental Geography.
Original research and writing in Geography-Environmental Geography to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

Doctor of Philosophy (Ph.D.), Major in Geography

Ph.D. Program

The course curriculum for the doctoral degree is designed to provide depth and breadth of knowledge in geographic theory and research methods. To be admitted to the geography doctoral program, a student must have completed a master's degree in geography or in a related discipline.

Each doctoral student will have her/his program tailored to meet the academic goals agreed upon in consultation with the Ph.D. research advisor, with the approval of the graduate program coordinator, the department chair, and the dean of The Graduate College. All programs will include the necessary core, skills, specialization, and internal and external elective courses.

Educational Goal

The educational goal of the program is to provide a Ph.D. in geography through which students will be educated in the process of geographic research, the development of new knowledge, and the application of this research and knowledge to solve problems with spatial dimensions.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/envgeo.html.

Financial Assistance

Graduate assistantships and scholarships are available to qualified candidates. Please contact the graduate staff advisor in the Department of Geography for more information regarding assistantships. The office of The Graduate College can provide further information regarding scholarships.

Degree Requirements

Degree Audit

In the first term that a student enrolls for doctoral study, the student should confer with their graduate advisor and prepare a degree audit for their program. Doctoral degree audits are tailored with the individual student in mind. It is therefore possible for the individual degree audit to exceed the number of degree hours identified in the catalog.

Course Work Requirements

Required Core Courses

(Core courses are prerequisites to other research courses).

1 Repeatable up to six hours with a different topic.

2 The student must ensure that he or she enrolls in a combination of dissertation courses that equals 15 hours (i.e., 7399X, 7699X, 7699X; or 7699X and 7999X; etc.) in order to meet the minimum dissertation credit hour requirement.

Total Program Hours: 46

Advancement to Candidacy

Applications for Advancement to Candidacy

The student will need to download the Application for Advancement to Candidacy form from The Graduate College website. The student will need to complete the form and return it to their department, who will then submit it to The Graduate College for approval.

Advancement to Candidacy Time Limit

Doctoral students will need to be advanced to candidacy within four years of initiating Ph.D. course work. A student will need to indicate their intent to advance to candidacy during the term in which the student will complete the 31 hours of required course work.

No credit will be applied toward a student’s doctoral degree for course work completed more than four years before the date on which the
student is to advance to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions.

Requests for a time extension must be submitted to the student’s Ph.D. advisor and graduate coordinator who, in turn, submits a recommendation to the dean of The Graduate College.

Grade-Point Requirements for Advancement to Candidacy
To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below “B” on any graduate course work may apply toward a Ph.D. at Texas State.

Incomplete grades must be cleared through the office of The Graduate College at least ten days before the approval for advancement to candidacy.

Semester Hour Requirements
The student must complete 31 semester hours of graduate course work to meet the minimum requirements for advancement to candidacy. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must have satisfied the residency requirement of 18 graduate credit hours.

Advancement to Candidacy Comprehensive Examination
All applicants for advancement to candidacy for the doctoral degree must pass a comprehensive examination. The examination procedure may be obtained from the graduate staff advisor. Both prevailing expectations in the field and the actual courses taken by the candidate will determine the subject matter of the examination. This examination may not be taken until all required course work has been completed. The student may take the candidacy comprehensive examination without being enrolled in course work provided they have not been enrolled in dissertation course(s).

Arrangements for the examination will be made with the student’s Ph.D. advisor. The results of the “Advancement to Candidacy Comprehensive Examination” must be filed in the office of The Graduate College before final approval to advance to candidacy is given by the dean of The Graduate College. The department is responsible for submitting the report to the office of The Graduate College.

Dissertation Proposal
The dissertation proposal must be approved by the dean of The Graduate College and successfully defended in front of the dissertation committee before a student can advance to candidacy. Information about the dissertation procedures can be found in the “Dissertation Research and Writing” section of this catalog.

Recommendation for Advancement to Candidacy
The geography graduate committee recommends the applicant for advancement to candidacy to the chair of the Department of Geography and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been completed.

Dissertation Research and Writing
All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of Kate L. Turabian’s *A Manual for Writers* or the *Annals of the Association of American Geographers*.

Dissertation Enrollment Requirements

Enrollment
After being admitted to candidacy, students must be continuously enrolled each term for dissertation hours. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for that term. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred.

Hours
Students must complete a minimum of 15 semester hours of dissertation research and writing credit.

Fee Reduction
A master’s or doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Time Limit
Students are expected to complete the dissertation within three years of advancement to candidacy. The geography graduate committee will review the student’s progress annually.

Ph.D. Advisory Committee
The Ph.D. advisory committee must be formed to oversee the research and writing of the dissertation. The Ph.D. advisory committee will include a Ph.D. advisor and a minimum of three additional committee members (two of whom must be from the Department of Geography and one from outside the department). The members must be chosen from qualified Ph.D. faculty. The Ph.D. advisor and the advisory committee will be selected in consultation with the student and through mutual agreement with committee members. The Ph.D. advisor will chair the dissertation committee and must be from the major department. The advisor and advisory committee must be approved by the graduate program coordinator, the department chair, as listed on the “Dissertation Committee Request” form and submitted to the dean of The Graduate College for final approval.

Committee Changes
Any changes to the advisory committee must be submitted for approval to the advisory committee chair, the graduate coordinator, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty days before the final oral comprehensive examination. The “Dissertation Advisor/Committee Member Change Request” form may be obtained from The Graduate College website.

Dissertation Proposal
Students must submit the dissertation proposal and one copy of the official “Dissertation Proposal” form to their dissertation advisor. After obtaining original committee members’ signatures and the department chair’s signature, the student must submit the dissertation proposal and the form to the dean of The Graduate College for approval before
proceeding with research on the dissertation. The proposal form may be obtained from The Graduate College website.

**Defense of the Dissertation Proposal**
Students must defend the dissertation proposal in an oral examination with the Ph.D. advisory committee. The examination will address the proposed dissertation topic (problem definition and scope), research method, and relevant literature. The advisory committee must sign the "Defense of the Dissertation Proposal" form and then submit it for the signature of the department chair. The original must be sent to the office of The Graduate College.

**Final Oral Comprehensive Examination**
Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. To schedule the final oral examination, the student must apply to their Ph.D. advisor the term that they complete the dissertation. A completed "Doctoral Comprehensive Examination Report" form must be submitted to the dean of The Graduate College.

**Approval and Submission of the Dissertation and Abstract**
The approval of the dissertation requires positive votes from the Ph.D. advisor and from a majority of the members of the Ph.D. advisory committee. One copy of the dissertation and the signed "Thesis/Dissertation Committee Approval" form must be submitted to the dean of The Graduate College for final approval once the committee has approved the dissertation. Refer to the *Graduate College Guide to Preparing and Submitting a Thesis/Dissertation* (available on The Graduate College website) for specific submission guidelines.

Doctoral level courses in Geography: GEO

**Courses Offered**

**Geography (GEO)**

**GEO 7190. Practicum in Teaching Geography.**
An introduction to key concepts and practices in the teaching of college Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year teaching and instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Practicum in Teaching Geography

**GEO 7190. Independent Study.**
Research in geography under the direction of a supervising professor. Repeatable once for additional credit with a different topic.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

**GEO 7199A. Dissertation in Geography-Environmental Geography.**
Original research and writing in Geography-Environmental Geography to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Geography-Environmental Geography

**GEO 7199B. Dissertation in Geography-Geographic Education.**
Original research and writing in Geography-Geographic Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Geography-Geographic Education

**GEO 7199C. Dissertation in Geography-Geographic Information Science.**
Original research and writing in Geography-Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Geography-Geographic Information Science

**GEO 7250. Practicum in Teaching Geography.**
An introduction to key concepts and practices in the teaching of college Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year teaching and instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Practicum in Teaching Geography

**GEO 7290. Independent Study.**
This course is designed to provide a student with credit while conducting independent research in consultation with his or her research advisor. Repeatable once for additional credit with a different topic.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study
GEO 7299A. Dissertation in Geography-Environmental Geography.
Original research and writing in Geography-Environmental Geography to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Geography-Environmental Geography
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Geography-Environmental Geography

GEO 7299B. Dissertation.
Original research and writing in Geography-Geographic Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.
about Dissertation
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation

GEO 7299C. Dissertation.
Original research and writing in Geography-Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.
about Dissertation
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation

GEO 7300. Advanced Geographic Research Design.
The purpose of this course is to develop an appreciation for the process of research as practiced by contemporary professional geographers. Topics covered include formulating research problems, reviewing and critiquing published literature, developing and executing a research design, and completing a research project.
about Advanced Geographic Research Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Geographic Research Design

GEO 7301. Advanced Quantitative Methods in Geography.
How to mathematically and statistically model geographic problems is the focus of this course. The application of multivariate statistical techniques to geographic problems and the problems that spatial data create in the application of statistical and other quantitative techniques are central issues.
about Advanced Quantitative Methods in Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Quantitative Methods in Geography

This course is a critical analysis of the historical development of geographic thought: its roots, its present status, and future directions.
about Nature and Philosophy of Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nature and Philosophy of Geography

GEO 7303. Historical Geography of the American Environment.
This course examines the spatial evolution of environmental problems in the United States using the techniques and analytical perspectives of historical geography. Special emphasis is given to the emergence of environmental problems in the context of urbanization and industrialism. The course will expose students to the most significant work by geographers in this area to date, and to the historical development of environmental geography in the U.S.
about Historical Geography of the American Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Historical Geography of the American Environment

GEO 7308. Advanced Regional Field Studies.
Advanced study of geographic phenomena during field excursions to a particular site or region. Course includes preparation of site inventory, site guides, and on-site presentations. Repeatable once for additional credit with a different site or region.
about Advanced Regional Field Studies
3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Regional Field Studies

GEO 7313. Environmental Systems Analysis.
Theories and concepts involved in environmental systems will be examined. Tools and research issues relevant to their analysis will also be explored. Basic principles, as well as specific research questions and techniques, will be proposed to give students a foundation for analysis of current issues involving environmental systems.
about Environmental Systems Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environmental Systems Analysis

GEO 7314. Environmental Geography of Resource Development.
This course will provide a detailed and in-depth analysis and critique of theories, policies, and practices regarding resource development and concomitant environmental effects.
about Environmental Geography of Resource Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environmental Geography of Resource Development

A detailed examination and implementation of sophisticated approaches for processing satellite digital images with emphasis on environmental applications.
about Remote Sensing and the Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Remote Sensing and the Environment

GEO 7318. GIS and Environmental Geography.
This course examines the nature of environmental problems and explores the potential of GIS for environmental modeling and management. The conceptual basis for using GIS as well as the framing of environmental research problems will be covered.
about GIS and Environmental Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about GIS and Environmental Geography
GEO 7330. Geography of Natural Hazards.
This seminar examines the interdisciplinary nature of natural hazards research, the evolution of theories and thought in natural hazards, the geophysical causes of natural hazards, human impact and response to natural disasters, and issues and challenges in the Third World.
about Geography of Natural Hazards
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of Natural Hazards

GEO 7331. Geography of the Hazards of Technology.
This research seminar focuses on the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. Special attention will be paid to the theoretical and conceptual understandings of hazards among both professionals and the public to evaluate how these views affect policies, choices, behaviors, and impacts.
about Geography of the Hazards of Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of the Hazards of Technology

GEO 7334. Geographic Aspects of Water.
This seminar is a critical analysis of developmental and current literature that define water's critical role in determining the physical and cultural characteristics of the earth. Principal focus will be placed on water's role on land use and as a critical resource.
about Geographic Aspects of Water
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geographic Aspects of Water

GEO 7342. Theories and Methods in Geographic Education.
This seminar is a critical analysis of previous and current literature concerning problems in pedagogy, philosophy, learning theory, research methods, teaching methodologies, and techniques of geographic education. A research paper will be required of each student on a topic related to the course content.
about Theories and Methods in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theories and Methods in Geographic Education

GEO 7344. Seminar in Geographic Curriculum.
The seminar will be a survey and discussion of major curricula in geographic education. Geography will be viewed as a school subject that is part of the social studies, as an element of interdisciplinary studies, and as a stand alone subject.
about Seminar in Geographic Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Geographic Curriculum

GEO 7346. Standards and Assessment in Geography.
An introduction to assessment procedures in geography education is central to the course. Analysis of national standards in geography and how they have affected geographic learning in grades K-12 will be addressed.
about Standards and Assessment in Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Standards and Assessment in Geography

GEO 7348. Ethnic Geography.
This course will engage student in the in-depth critical analysis of the theories and methods of ethnic geography. The students will conduct careful research on a topic in ethnic geography.
about Ethnic Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Ethnic Geography

GEO 7349. Population Geography.
An in-depth study of the growth, movement, and spatial distribution of human populations is the central theme. Students will read and discuss professional articles that stress both theory and analytical techniques. Topics will include population growth and the environment, rural and small town depopulation, spatial diffusion processes, migration trends and theories, urban population growth, and techniques such as multivariate analysis and population projections.
about Population Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Population Geography

GEO 7361. Advanced Geographic Information Systems.
This course provides exposure to advanced topics in GIS, particularly to quantitative methods and techniques for developing and interpreting models of natural and anthropogenic phenomena over the geographical space.
about Advanced Geographic Information Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Geographic Information Systems

GEO 7362. Geographic Visualization.
This course focuses on the interdisciplinary field of Geographic Visualization. Students will review visualization research in computer graphics, human computer interaction, GIScience, and cartography and relate the research approaches to useful and usable geographic visualizations. Prerequisite: GEO 3411 or equivalent.
about Geographic Visualization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geographic Visualization

GEO 7364. Geocomputation.
Geocomputation reviews and analyzes concepts of computational modeling in Geography. The course will include modeling theory and advanced topics such as parallel processing, neural networks, cellular automata, scientific visualization, and fuzzy modeling. Students will practice model development, specifically spatially explicit simulation.
about Geocomputation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geocomputation
GEO 7365. Theoretical Cartography.  
This course focuses on theoretical developments in cartography, and in particular looks at the role of maps and other graphic devices as tools for the discovery, analysis, and communication of geographical knowledge. Prerequisite: GEO 3411 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical Cartography

The course focuses on advanced topics including the theoretical basis, mathematical foundations, and current research frontiers in remote sensing. Prerequisite: GEO 5415 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Topics in Remote Sensing

GEO 7370. Advanced Seminar in Environmental Geography.  
This research seminar focuses on the methods, approaches, issues, and concepts of major themes in environmental geography. Special emphasis will be placed on theoretical and conceptual understandings of how humans interact with the environment from a geographical perspective. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Seminar in Environmental Geography

GEO 7371. Advanced Seminar in Geographic Education.  
This research seminar analyzes literature and research into recent trends in geographic education. Emphasis will be on new developments in curriculum, content, and teaching methodologies. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Seminar in Geographic Education

GEO 7372. Seminar in Geographic Information Science.  
This course deals with advanced and current research issues in Geographic Information Science. Based on this objective, the course aims at educating doctoral students to conduct research in Geographic Information Science as well as develop innovative applications of Geographic Information Science. May be repeated for credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Geographic Information Science

GEO 7390. Independent Study.  
Research in geography under the direction of a supervising professor. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

GEO 7391. Foundation Studies in Geography.  
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPALeveling
Grade Mode: Leveling/Assistantships
about Foundation Studies in Geography

GEO 7393A. Qualitative Methods.  
This course introduces the qualitative research paradigm, including appropriate research design, methods of data collection, types of inductive analysis and evaluation, as well as, standards of rigor for research that calls for a deeper understanding of more complex human relationships. The focus and application will be oriented towards human geography.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Qualitative Methods

GEO 7393B. Biogeography in Mountain Environments.  
This course examines how plants and animals interact with and affect geomorphological processes and landforms, and how geomorphological processes, landforms and geological factors affect spatial distribution of animals and plants; all within the environmental limitation and conditions of mountains. The role of humans in affecting these interrelationships will be emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Biogeography in Mountain Environments

GEO 7393C. Managing Urbanization.  
This course examines survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about Managing Urbanization

GEO 7393D. International Migration.  
This course provides a survey of geographic and social science research conducted across various topics of international migration.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about International Migration

GEO 7393E. Advanced Topics in Remote Sensing.  
The course focuses on advanced topics including the theoretical basis, mathematical foundations, and current research frontiers in remote sensing. Prerequisite: GEO 5415 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Topics in Remote Sensing

GEO 7393F. Advanced Seminar in Geographic Education.  
This research seminar analyzes literature and research into recent trends in geographic education. Emphasis will be on new developments in curriculum, content, and teaching methodologies. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Seminar in Geographic Education

GEO 7393G. Seminar in Geographic Information Science.  
This course deals with advanced and current research issues in Geographic Information Science. Based on this objective, the course aims at educating doctoral students to conduct research in Geographic Information Science as well as develop innovative applications of Geographic Information Science. May be repeated for credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Geographic Information Science

GEO 7393H. Independent Study.  
Research in geography under the direction of a supervising professor. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study
GEO 7393E. Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics/philosophies, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulation in land management, and the human-environment impacts of land development.
about Geography of Land Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Geography of Land Management

GEO 7393F. Gender and Development.
This course is a survey of geographic and social science research conducted across various topics of gender studies and international development.
about Gender and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Gender and Development

GEO 7393G. Political Geography.
This course is a survey of geographic and social science research conducted across various topics of political geography.
about Political Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Political Geography

GEO 7393H. Urban Environment.
This course explores scholarly and governmental research relating to urban environments, urban environmentalism, and urban environmental management. Emphasis is placed on the myriad ways in which human-environment interaction influences, and is influenced by, urban geography and the urban experience.
about Urban Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Urban Environment

GEO 7393I. Contemporary Topics in Geography Education.
This course will be a survey of recent initiatives in geography education. This course will focus on areas such as research, assessment, and the development and use of instructional materials in relation to the National Science Foundation funded "Road Map for 21st Century Geography Education".
about Contemporary Topics in Geography Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Contemporary Topics in Geography Education

GEO 7393J. Soil and Society.
This course explores the importance of soil resources for environmental and socioeconomic sustainability. Soil science will be introduced, but the majority of the course will focus on soil's value to societies. Specific topics that will be explored include soil geography, historical abuses of soil resources, and current conservation efforts.
about Soil and Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Soil and Society

GEO 7393K. Biogeomorphology.
This course will examine the ways in which plants and animals interact with and affect geomorphological processes and landforms, and how geomorphological processes, landforms, and geological factors affect spatial distributions of animals and plants. The role of humans in affecting these interrelationships will be emphasized.
about Biogeomorphology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Biogeomorphology

GEO 7393L. Lidar.
This course is an introduction to Light Detection and Ranging (lidar) systems for mapping and analysis. Students will learn to successfully apply knowledge of lidar sensors and technology for a variety of geographic information science applications. Students must have prior knowledge and experience with GIS analysis and mapping tools.
about Lidar
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Lidar

GEO 7399A. Dissertation.
Original research and writing in Environmental Geography, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Dissertation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation

GEO 7399B. Dissertation.
Original research and writing in Geographic Education, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Dissertation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation
GEO 7399C. Dissertation.
Original research and writing in Geographic Information Science, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit
about Dissertation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Students will focus on geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.

about Geographic Applications of Remote Sensing
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Applications of Remote Sensing

GEO 7417. Geographic Information Systems.
This course is concerned with the analysis of interpretation of maps stored in digital form. Students are introduced to the concepts involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.

about Geographic Information Systems
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems

This course is concerned with the analysis and interpretation of maps stored in digital form. It will cover a variety of topics of interest to those seeking more in-depth knowledge of GIS and ancillary topics such as spatial statistics. The course provides an in-depth understanding of spatial analysis and modeling.

about Technical Foundations and Methods in Geographic Information Science
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Technical Foundations and Methods in Geographic Information Science

GEO 7430. Field Methods.
Methods and techniques for observing, measuring, recording, and reporting on geographic phenomena are investigated in this course. Students will learn the use of instruments and materials in the collection of data for mapping and field research in the local area. Prerequisites: GEO 2410 and GEO 3301 or equivalents.

about Field Methods
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Field Methods

GEO 7447. Spatial Graphics in Geographic Education.
This course examines traditional and innovative geoinformation and geovisualization technologies and their relationship to spatial thinking and the teaching and learning of geography. The course reviews academic literature, research methods, and teaching methodologies related to spatial graphics in geographic education. The lab portion provides geovisualization design skills for geographic education.

about Spatial Graphics in Geographic Education
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Credit/No Credit
about Spatial Graphics in Geographic Education

GEO 7599A. Dissertation in Geography - Environmental Geography.
Original research and writing in Geography-Environmental Geography to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

about Dissertation in Geography - Environmental Geography
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Geography - Environmental Geography

GEO 7599B. Dissertation.
Original research and writing in Geography-Geographic Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.

about Dissertation
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

Master of Applied Geography (M.A.Geo.), Major in Geographic Information Science

Major Program

The master of applied geography (M.A.Geo.) degree program is designed to prepare geographers to use their skills and background knowledge to solve real-world problems with geographic dimensions. Applied geography includes such sub-fields as environmental management, geographic education, GIS, cartography, land use planning, location analysis, land management, transportation systems planning, applied physical geography, geographic aspects of environmental law, and spatial modeling.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/geo.html.

Financial Assistance

Graduate assistantships are available to qualified candidates. Please contact the graduate program coordinator in the Department of Geography for more information about financial assistance and the degree programs. For scholarship information, please visit The Graduate College website at http://www.gradcollege.txstate.edu/ and choose Financing Your Graduate Education from the Prospective Students menu.

Degree Requirements

The Department of Geography offers a master of applied geography (M.A.Geo.) degree that requires 33 semester hours. All candidates must complete a required core and six hours of graduate electives in geography. Students are allowed to take up to six hours of those electives from any discipline outside the department. The remaining 15 hours of the degree focus on the geographic information science specialization. In summary, the M.A.Geo. requires:

- **Core Course Work**: 12
- **Specialization Course Work**: 15
- **Elective Course Work**: 6
- **Comprehensive Examination**: 

  Total Hours: 33

Courses Offered

Geography (GEO)

GEO 5150. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Practicum in Teaching Geography
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships about Practicum in Teaching Geography

GEO 5190. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. Enrollment requires consent of the instructor. about Independent Study
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Independent Study

GEO 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

GEO 5250. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Practicum in Teaching Geography
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships about Practicum in Teaching Geography

GEO 5290. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for total of six semester hours of credit. Enrollment requires consent of the instructor. about Independent Study
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Independent Study

GEO 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

Students will be introduced to appropriate research methods for applied geographers. Emphasis will be placed on the scientific method, productive library research, data collection and analysis, fieldwork, effective writing, and the nature of graphic representation. about Applied Research Design and Techniques
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Applied Research Design and Techniques

GEO 5301. Multivariate Quantitative Methods.
The use of multivariate descriptive and inferential statistics as applied to geographic data and problems, beginning with the general linear model and including topics such as multiple regression, principal components analysis, discriminant analysis, and clustering algorithms. Prerequisite: GEO 3301 or equivalent. about Multivariate Quantitative Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Multivariate Quantitative Methods

GEO 5308. Regional Field Studies.
Study of geographic phenomena during field excursions to a particular site or region. Students will study the physical and/or cultural environments through off-campus field experience. Students will research, analyze, and report on major regional geographic features. Repeatabl once for additional credit with a different site or region. about Regional Field Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Regional Field Studies

GEO 5309. Geographical Analysis.
A survey of typical spatial problems of interest to geographers, with emphasis on current research and application being undertaken by the faculty in the Department of Geography. Topics include environmental geography, geographic education, land use and regional development, and cartographic representation and geographic information theory. about Geographical Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Geographical Analysis
GEO 5312. Managing Urbanization.
Survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5313. Environmental Management.
An analysis of the major causes of environmental deterioration together with the basic strategies of dealing with these problems. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5314. Geographic Elements of Environmental Law.
A survey of environmental laws related to land, air, and water pollution. The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5315. Advanced Regional Studies.
Course focus is the region. Case studies will be selected from political and functional regions. Course content will include such information as demographics, economy, physical and social environments, transportation, and foreign trade. May be repeated for credit with a different topic. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5316. Applied Physical Geography.
This course is a survey of methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the physical environment. Emphasis will be on problems characteristic of particular geographic locations or specific environmental settings. Repeatable once for additional credit with a different topic. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5317. Seminar in Applied Human Geography.
A focus on the methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the human geographical environment. Emphasis will be on problems pertaining to particular geographic locations or special environmental settings. Repeatable once for additional credit with a different topic. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course serves as an in-depth introduction to the physical, social, and environmental landscapes of the region of the U.S.-Mexico Border. The course applies an interdisciplinary perspective to geographic understanding of the environmental and health-related issues experienced by residents of the borderlands. Special attention is given to management and planning solutions to the region’s problems. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5319. Seminar in Nature and Heritage Tourism.
This seminar focuses on the special geographic issues of nature and heritage tourism. Particular emphasis is placed on sites and activities, costs and benefits, commoditization and authenticity, resource protection, and substantive learning content of nature and heritage tourism activities. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5322. Interpretive Environmental Geography.
Students learn to use geographic theories and concepts to provide holistic and thematic interpretation of environmental information, as specified by interpretive principles. Students also learn advanced use of traditional and digital presentation techniques and research methods, which include audience assessment and program evaluation. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5323. Location Analysis.
Factors of importance in the decision-making process of locating both public and private sector facilities. Attention will be paid to the location of manufacturing activities, commercial enterprises, and a variety of social service facilities. 
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5324. GPS and GIS.
Students will learn to plan and conduct fieldwork using the Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisite: GEO 2426 or GEO 5418 with a grade of "C" or higher. 
Grade Mode: Standard Letter
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
GEO 5326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of public parks, wildlife refuges, protected areas, non-governmental preserves and historic sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition.
Grade Mode: Standard Letter
about Parks and Protected Places
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5329. Historical Geography of the Environment.
This course will introduce students to ideas, concepts, and literature in historical geography of the environment. It will explore methods used to document past environments and examine environmental changes, and it will analyze the distinctions between historical geography and related fields of study.
Grade Mode: Standard Letter
about Historical Geography of the Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5330. Geography of Natural Hazards.
There are five areas of hazards that this course covers: (1) the interdisciplinary nature of natural hazards with emphasis on the role of geography and planning; (2) the geophysical causes of natural hazards; (3) human impact and response to natural disasters; (4) planning and management of hazards; and (5) issues and challenges facing the Third World.
Grade Mode: Standard Letter
about Geography of Natural Hazards
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5331. Geography of the Hazards of Technology.
An investigation of the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. This course will focus on the study of spatial problems associated with technologies and the application of research to real-world management of hazards.
Grade Mode: Standard Letter
about Geography of the Hazards of Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5332. Environmental Geography of the Coastal Zone.
Investigation of the physical geographic factors associated with the coastal zone and the role of human activities in problems and opportunities characteristic of this environment.
Grade Mode: Standard Letter
about Environmental Geography of the Coastal Zone
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5334. Applied Water Resources.
Application of techniques employed in water management including flood hazards, water supply assessment, and water management strategies. Students will apply principles to specific watersheds and water problems including the analysis of various physical, land use, and legal parameters.
Grade Mode: Standard Letter
about Applied Water Resources
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5335. Directed Research.
A course designed to allow the student to pursue a topic of applied geographic research under the direct supervision of a professor. Generally, the topic will be something that is not customarily dealt with in an organized class. Group research is encouraged. Topics should be selected that involve library research and field investigation. Progress is monitored regularly by the supervising professor.
Grade Mode: Standard Letter
about Directed Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5336. Transportation Systems.
The principles and procedures of transportation planning and management will be examined. Transport theory will be discussed as well as the characteristics of various model systems. The effectiveness of federal, state, regional, and local programs and policies will be analyzed. Special emphasis will be placed on mass transit, particularly in view of changes in urban structure and the high costs of energy.
Grade Mode: Standard Letter
about Transportation Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5339. The Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics/philosophies, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulations in land management, and the human environmental impacts of land development.
Grade Mode: Standard Letter
about The Geography of Land Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 5340. Practicum in Geographic Education.
The content and methods needed for teaching geography in the schools. Emphasis will be on those essential elements that will allow teachers to satisfy current public school curriculum requirements. Preparation of a grade-level specific teaching unit is required.
Grade Mode: Standard Letter
about Practicum in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
GEO 5341. Contemporary Issues in Geographic Education.
This course examines current approaches to teaching geography in
American education. Specific attention will be given to new classroom
materials, curriculum reform efforts, and research developments.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Contemporary Issues in Geographic Education

GEO 5342. Seminar: Theory and Methods of Geographic Education.
A critical analysis of previous and current literature concerning problems
in pedagogy, philosophy, teaming theory, research methods, teaching
methodologies, and techniques of geographic education. A research
paper will be required of each student on a topic related to the course
content.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Seminar: Theory and Methods of Geographic Education

GEO 5343. Computer Technology in Geographic Education.
The course emphasizes the applications and theoretical implications of
computers in geographic education, particularly the interplay between
instructional technology and educational purpose and practice in
Geography.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Computer Technology in Geographic Education

GEO 5344. Seminar in Geographic Curriculum.
A survey and discussion of major curricula in geographic education.
Geography will be viewed as a school subject that is part of the social
studies, as an element of interdisciplinary studies, and as a stand-alone
subject.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Seminar in Geographic Curriculum

GEO 5345. Population Geography.
An in-depth study of the spatial distribution and movement of human
populations. Course will emphasize current issues and analytical
techniques. Topics will include the impact of population growth, spatial
diffusion processes, migration trends and theories, explanation of
regional demographic differences, and techniques such as population
projections.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Population Geography

GEO 5351. Regional Waste Management.
The principles of effective solid waste planning and management will be
examined as they relate to such activities as waste generation, storage
and collection, transfer and transportation, processing and volume
reduction, resource conservation and recovery, the disposal of wastes,
and the handling of special wastes, particularly those of a toxic and
hazardous nature.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Regional Waste Management

GEO 5352. Air Quality Management.
A geographic assessment of air quality management in the United States.
Spatial distribution of the types, sources, and effects of air pollutants.
Meteorology and physics of air pollution dispersion. Legislative and
regulatory approaches to pollution management. National, state, regional,
and local policy development procedures. Geographic methods for air
pollution management.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Air Quality Management

This course provides an overview of the most important aspects of
emergency management at all geographic scales, with emphasis on local,
regional, and federal levels. Best practices and proper methodologies
are emphasized as well as ways that students can develop the skills and
capabilities for a career in this field.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Emergency Management

GEO 5354. Seminar in Applied Physical Geography.
Critical analysis of theories, models, and techniques of physical
geographic research with the focus on application to real-world problems.
Repeatable once for additional credit with a different topic.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Seminar in Applied Physical Geography

GEO 5355. Internship.
Application of techniques of applied geography in an actual on-the-job
setting. Internships will be arranged and supervised by the Internship
Director. May be repeated once for additional credit. Graded on a credit
(CR), no credit (F) basis.

Grade Mode: Credit/No Credit

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Internship
GEO 5390. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit.
about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

GEO 5391. Foundation Studies in Geography.
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.
about Foundation Studies in Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Foundation Studies in Geography

GEO 5395. Problems in Applied Geography.
Designed to consider a selected topic relating to applied geography. Emphasis on the practical application of geographic tools, with individual or group participation in a specific project. Course topics may vary depending on student and faculty interests and may apply to any of the three graduate tracks: physical-environmental, land area development and management, or cartography. Repeatable for up to six hours.
about Problems in Applied Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Applied Geography

GEO 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in GEO 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5408. Web Mapping.
This course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 3411 or equivalent with a grade of "C" or higher.
about Web Mapping
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Web Mapping

Students will focus on Geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.
about Geographic Applications of Remote Sensing
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Applications of Remote Sensing

GEO 5417. Advanced Cartographic Design.
This advanced course in cartography focuses on thematic map design. The objective is to produce a series of well-designed, professional grade maps (or an atlas) that students can use to build a cartographic portfolio. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 or equivalent or consent of instructor.
about Advanced Cartographic Design
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Advanced Cartographic Design

GEO 5418. Geographic Information Systems I.
Course is concerned with the analysis and interpretation of maps stored in digital form. Students are introduced to concepts and practices involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.
about Geographic Information Systems I
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems I

GEO 5419. Geographic Information Systems II.
This course aims to develop more advanced GIS concepts and application issues, further spatial data manipulation and analysis skills, and provide hands-on experience with GIS hardware and software programs. The emphasis will be on practical application of skills to real world issues. Prerequisite: GEO 5418.
about Geographic Information Systems II
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems II

GEO 5430. Field Methods.
Course will emphasize common field techniques necessary in the construction of accurate maps. Various kinds of data collection techniques will be presented that will facilitate geographic research. Prerequisite: GEO 3301 or equivalent.
about Field Methods
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Field Methods
Master of Applied Geography (M.A.Geo.), Major in Geography

Major Program
The master of applied geography (M.A.Geo.) degree program is designed to prepare geographers to use their skills and background knowledge to solve real-world problems with geographic dimensions. Applied geography includes such sub-fields as environmental management, geographic education, GIS, cartography, land use planning, location analysis, land management, transportation systems planning, applied physical geography, geographic aspects of environmental law, and spatial modeling.

Admission Policy
For information regarding application requirements and deadlines, please visit our website at http://www.gradcollege.txstate.edu/geo.html.

Financial Assistance
Graduate assistantships are available to qualified candidates. Please contact the graduate program coordinator in the Department of Geography for more information about financial assistance and the degree programs. For scholarship information, please visit The Graduate College website at http://www.gradcollege.txstate.edu/ and choose Financing Your Graduate Education from the Prospective Students menu.

Degree Requirements
The Department of Geography offers a M.A.Geo. degree that requires 33 semester hours. All candidates must complete a required core and six hours of graduate electives in geography. Students are allowed to take up to six hours of those electives from any discipline outside the department. The remaining 15 hours of the degree are taken in one of the following specializations:

- General Geography
- Geographic Education

In summary, the M.A.Geo. requires:

Elective Courses
Six hours of electives in geography or from outside the department 6

Master's level courses in Geography: GEO
Courses Offered
Geography (GEO)

GEO 5150. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Practicum in Teaching Geography
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Practicum in Teaching Geography

GEO 5190. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. Enrollment requires consent of the instructor. about Independent Study
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

GEO 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5250. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Practicum in Teaching Geography

Students will be introduced to appropriate research methods for applied geographers. Emphasis will be placed on the scientific method, productive library research, data collection and analysis, fieldwork, effective writing, and the nature of graphic representation. about Applied Research Design and Techniques
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Applied Research Design and Techniques

GEO 5301. Multivariate Quantitative Methods.
The use of multivariate descriptive and inferential statistics as applied to geographic data and problems, beginning with the general linear model and including topics such as multiple regression, principal components analysis, discriminant analysis, and clustering algorithms. Prerequisite: GEO 3301 or equivalent. about Multivariate Quantitative Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multivariate Quantitative Methods

GEO 5308. Regional Field Studies.
Study of geographic phenomena during field excursions to a particular site or region. Students will study the physical and/or cultural environments through off-campus field experience. Students will research, analyze, and report on major regional geographic features. Repeatable once for additional credit with a different site or region. about Regional Field Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Regional Field Studies

GEO 5309. Geographical Analysis.
A survey of typical spatial problems of interest to geographers, with emphasis on current research and application being undertaken by the faculty in the Department of Geography. Topics include environmental geography, geographic education, land use and regional development, and cartographic representation and geographic information theory. about Geographical Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geographical Analysis

GEO 5312. Managing Urbanization.
Survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design. about Managing Urbanization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Urbanization
GEO 5313. Environmental Management.
An analysis of the major causes of environmental deterioration together with the basic strategies of dealing with these problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environmental Management

GEO 5314. Geographic Elements of Environmental Law.
A survey of environmental laws related to land, air, and water pollution. The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geographic Elements of Environmental Law

GEO 5315. Advanced Regional Studies.
Course focus is the region. Case studies will be selected from political and functional regions. Course content will include such information as demographics, economy, physical and social environments, transportation, and foreign trade. May be repeated for credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Regional Studies

GEO 5316. Applied Physical Geography.
This course is a survey of methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the physical environment. Emphasis will be on problems characteristic of particular geographic locations or specific environmental settings. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Applied Physical Geography

GEO 5317. Seminar in Applied Human Geography.
A focus on the methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the human geographical environment. Emphasis will be on problems pertaining to particular geographic locations or special environmental settings. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Applied Human Geography

This course serves as an in-depth introduction to the physical, social, and environmental landscapes of the region of the U.S.-Mexico Border. The course applies an interdisciplinary perspective to geographic understanding of the environmental and health-related issues experienced by residents of the borderlands. Special attention is given to management and planning solutions to the region's problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environment Problems of the U.S.-Mexico Border

GEO 5319. Seminar in Nature and Heritage Tourism.
This seminar focuses on the special geographic issues of nature and heritage tourism. Particular emphasis is placed on sites and activities, costs and benefits, commoditization and authenticity, resource protection, and substantive learning content of nature and heritage tourism activities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Nature and Heritage Tourism

GEO 5322. Interpretive Environmental Geography.
Students learn to use geographic theories and concepts to provide holistic and thematic interpretation of environmental information, as specified by interpretive principles. Students also learn advanced use of traditional and digital presentation techniques and research methods, which include audience assessment and program evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Interpretive Environmental Geography

GEO 5323. Location Analysis.
Factors of importance in the decision-making process of locating both public and private sector facilities. Attention will be paid to the location of manufacturing activities, commercial enterprises, and a variety of social service facilities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Location Analysis

GEO 5324. GPS and GIS.
Students will learn to plan and conduct fieldwork using the Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisite: GEO 2426 or GEO 5418 with a grade of "C" or higher.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about GPS and GIS
GEO 5326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of public parks, wildlife refuges, protected areas, non-governmental preserves and historic sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition.
about Parks and Protected Places
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Parks and Protected Places

GEO 5329. Historical Geography of the Environment.
This course will introduce students to ideas, concepts, and literature in historical geography of the environment. It will explore methods used to document past environments and examine environmental changes, and it will analyze the distinctions between historical geography and related fields of study.
about Historical Geography of the Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Historical Geography of the Environment

GEO 5330. Geography of Natural Hazards.
There are five areas of hazards that this course covers: (1) the interdisciplinary nature of natural hazards with emphasis on the role of geography and planning; (2) the geophysical causes of natural hazards; (3) human impact and response to natural disasters; (4) planning and management of hazards; and (5) issues and challenges facing the Third World.
about Geography of Natural Hazards
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of Natural Hazards

GEO 5331. Geography of the Hazards of Technology.
An investigation of the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. This course will focus on the study of spatial problems associated with technologies and the application of research to real-world management of hazards.
about Geography of the Hazards of Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of the Hazards of Technology

GEO 5332. Environmental Geography of the Coastal Zone.
Investigation of the physical geographic factors associated with the coastal zone and the role of human activities in problems and opportunities characteristic of this environment.
about Environmental Geography of the Coastal Zone
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environmental Geography of the Coastal Zone

GEO 5334. Applied Water Resources.
Application of techniques employed in water management including flood hazards, water supply assessment, and water management strategies. Students will apply principles to specific watersheds and water problems including the analysis of various physical, land use, and legal parameters.
about Applied Water Resources
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Applied Water Resources

GEO 5335. Directed Research.
A course designed to allow the student to pursue a topic of applied geographic research under the direct supervision of a professor. Generally, the topic will be something that is not customarily dealt with in an organized class. Group research is encouraged. Topics should be selected that involve library research and field investigation. Progress is monitored regularly by the supervising professor.
about Directed Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Directed Research

GEO 5336. Transportation Systems.
The principles and procedures of transportation planning and management will be examined. Transport theory will be discussed as well as the characteristics of various model systems. The effectiveness of federal, state, regional, and local programs and policies will be analyzed. Special emphasis will be placed on mass transit, particularly in view of changes in urban structure and the high costs of energy.
about Transportation Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Transportation Systems

GEO 5339. The Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics/philosophies, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulations in land management, and the human environmental impacts of land development.
about The Geography of Land Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Geography of Land Management

GEO 5340. Practicum in Geographic Education.
The content and methods needed for teaching geography in the schools. Emphasis will be on those essential elements that will allow teachers to satisfy current public school curriculum requirements. Preparation of a grade-level specific teaching unit is required.
about Practicum in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Practicum in Geographic Education
GEO 5341. Contemporary Issues in Geographic Education.
This course examines current approaches to teaching geography in American education. Specific attention will be given to new classroom materials, curriculum reform efforts, and research developments.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Contemporary Issues in Geographic Education

GEO 5342. Seminar: Theory and Methods of Geographic Education.
A critical analysis of previous and current literature concerning problems in pedagogy, philosophy, teaming theory, research methods, teaching methodologies, and techniques of geographic education. A research paper will be required of each student on a topic related to the course content.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Seminar: Theory and Methods of Geographic Education

GEO 5343. Computer Technology in Geographic Education.
The course emphasizes the applications and theoretical implications of computers in geographic education, particularly the interplay between instructional technology and educational purpose and practice in Geography.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Computer Technology in Geographic Education

GEO 5344. Seminar in Geographic Curriculum.
A survey and discussion of major curricula in geographic education. Geography will be viewed as a school subject that is part of the social studies, as an element of interdisciplinary studies, and as a stand-alone subject.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Seminar in Geographic Curriculum

GEO 5349. Population Geography.
An in-depth study of the spatial distribution and movement of human populations. Course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Population Geography

GEO 5351. Regional Waste Management.
The principles of effective solid waste planning and management will be examined as they relate to such activities as waste generation, storage and collection, transfer and transportation, processing and volume reduction, resource conservation and recovery, the disposal of wastes, and the handling of special wastes, particularly those of a toxic and hazardous nature.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Regional Waste Management

GEO 5352. Air Quality Management.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Air Quality Management

This course provides an overview of the most important aspects of emergency management at all geographic scales, with emphasis on local, regional, and federal levels. Best practices and proper methodologies are emphasized as well as ways that students can develop the skills and capabilities for a career in this field.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Emergency Management

GEO 5360. Seminar in Planning Problems.
A critical and in-depth examination of several problem areas currently facing the planner.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Seminar in Planning Problems

GEO 5370. Seminar in Applied Physical Geography.
Critical analysis of theories, models, and techniques of physical geographic research with the focus on application to real-world problems. Repeatable once for additional credit with a different topic.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Seminar in Applied Physical Geography

GEO 5380. Internship.
Application of techniques of applied geography in an actual on-the-job setting. Internships will be arranged and supervised by the Internship Director. May be repeated once for additional credit. Graded on a credit (CR), no credit (F) basis.
Grade Mode: Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Internship
GEO 5390. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

GEO 5391. Foundation Studies in Geography.
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Leveling
Grade Mode: Leveling/Assistantships
about Foundation Studies in Geography

GEO 5395. Problems in Applied Geography.
Designed to consider a selected topic relating to applied geography. Emphasis on the practical application of geographic tools, with individual or group participation in a specific project. Course topics may vary depending on student and faculty interests and may apply to any of the three graduate tracks: physical-environmental, land area development and management, or cartography. Repeatable for up to six hours.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Applied Geography

GEO 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in GEO 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5408. Web Mapping.
This course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 3411 or equivalent with a grade of “C” or higher.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Web Mapping

Students will focus on Geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Applications of Remote Sensing

GEO 5417. Advanced Cartographic Design.
This advanced course in cartography focuses on thematic map design. The objective is to produce a series of well-designed, professional grade maps (or an atlas) that students can use to build a cartographic portfolio. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 or equivalent or consent of instructor.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Advanced Cartographic Design

GEO 5418. Geographic Information Systems I.
Course is concerned with the analysis and interpretation of maps stored in digital form. Students are introduced to concepts and practices involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems I

GEO 5419. Geographic Information Systems II.
This course aims to develop more advanced GIS concepts and application issues, further spatial data manipulation and analysis skills, and provide hands-on experience with GIS hardware and software programs. The emphasis will be on practical application of skills to real world issues. Prerequisite: GEO 5418.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems II

GEO 5430. Field Methods.
Course will emphasize common field techniques necessary in the construction of accurate maps. Various kinds of data collection techniques will be presented that will facilitate geographic research. Prerequisite: GEO 3301 or equivalent.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Field Methods
GE 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

GE 5680. Internship.
Application of techniques of applied geography in an actual on-the-job setting. Internships will be arranged and supervised by the Internship Director. Graded on a credit (CR), no credit (F) basis.

6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

GE 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Science (M.S.), Major in Geography

Major Program
The geography degree is designed to give highly qualified students exposure to geographic theory and research at the predoctoral level. Programmatic emphases include environmental geography, geographic education, geographic information science, and other specialty areas in geography represented by the current active research interests of the faculty.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/geo.html.

Financial Assistance
Graduate assistantships are available to qualified candidates. Please contact the graduate program coordinator in the Department of Geography for more information about financial assistance and the degree programs. For scholarship information, please visit The Graduate College website at http://www.gradcollege.txstate.edu/ and choose Financing Your Graduate Education from the Prospective Students menu.

Course Work Requirements
The 30-hour curriculum includes:

Required Courses
GEO 5301 Multivariate Quantitative Methods 3
GEO 5309 Geographical Analysis 3
GEO 7300 Advanced Geographic Research Design 3

Geography Electives
Choose 15 hours of electives from the table below including a minimum 6 hours of 7000-level course work

Most of the course work options for completion of the 15 hours of electives are those currently afforded to doctoral students. By taking these doctoral-level courses and interacting with doctoral students and core Ph.D. faculty, M.S. students will gain entry into the world of high-level academic and professional research in geography. Graduates of the programs may qualify for admission into the geography Ph.D. programs at Texas State or in doctoral programs in geography at other universities. Those who do not wish to seek doctorates may be qualified for research-
oriented positions with public-sector agencies and private-sector firms
and for teaching in community colleges.

All students are also subject to the policies and procedures outlined
in the departmental graduate student handbook available from the
departmental graduate staff advisor.

If a student elects to follow the thesis option for the degree, a
committee to direct the written thesis will be established. The
thesis must demonstrate the student’s capability for research and
independent thought. Preparation of the thesis must be in conformity
with the Graduate College Guide to Preparing and Submitting a Thesis
or Dissertation. The thesis handbook may be accessed at http://

Thesis Proposal
The student must submit an official Master’s Thesis Proposal
form to their thesis committee. The required thesis proposal
form may be obtained from The Graduate College at http://
www.gradcollege.txstate.edu/gcforms.html. After signing the form and
obtaining committee members’ signatures, graduate advisor’s signature
(if required by the program), and the department chair’s signature, the
student must submit the thesis proposal form with one copy of the
proposal attached to the dean of The Graduate College for approval
before proceeding with research on the thesis. If the thesis research
involves human subjects, the student must obtain exemption or approval
from the Texas State Institutional Review Board prior to submitting the
proposal form to The Graduate College. If the thesis research involves
vertebrate animals, the proposal form must include the Texas State
IACUC approval code. It is recommended the thesis proposal form
be submitted to the dean of The Graduate College by the end of the
student’s enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three
approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is
required. Enrollment for the thesis will be in course number 5399A
for a student’s initial thesis enrollment and a thesis B course for each
subsequent thesis enrollment in the field in which the subject matter of
the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B,
ENG 5599B, and ENG 5999B. Preliminary discussions regarding the
selection of a topic and assignment to a research supervisor will not
require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour
of the thesis course during any term in which the student will receive
thesis supervision or guidance and/or in which the student is using
university resources. Failure to register for the thesis course during a
term in which supervision is received may result in postponement of
graduation. After initial enrollment in 5399A, the student will continue to
enroll in a thesis B course as long as it takes to complete the thesis. In
the rare case when a student has not previously enrolled in thesis and
plans to work on and complete the thesis in one term, the student will
enroll in both 5399A and 5399B. The only grades assigned for thesis
courses are PR (progress), CR (credit), W (withdrew), and F (failing). If
acceptable progress is not being made in a thesis course, the instructor
may issue a grade of F. If the student is making acceptable progress,
a grade of PR is assigned until the thesis is completed. The minimum
number of hours of thesis credit (“CR”) will be awarded only after the
thesis is filed in the Alkek Library and the librarian has electronically
returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the
thesis course during the term or Summer I (during summer the thesis
course runs ten weeks for both sessions) in which the degree will be
conferred.

Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time
fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer
to the section titled Fee Reduction in the Additional Fees and Expenses
chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://
www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The
completed thesis must be submitted to the chair of the thesis committee
no later than 41 days before the date of the commencement at which the
degree is to be conferred.

The following must be submitted to the office of The Graduate College no
later than 24 days, not counting weekends or holidays, before the date of
commencement at which the degree is to be conferred (see The Graduate
College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original
   signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee
   members, on standard paper (Hard-copy Submission Option) or
   PDF of the thesis in final form, approved by all committee members,
   uploaded in the on-line Vireo submission system (Vireo On-line
   Submission Option).

After the dean of The Graduate College approves the thesis, the process
is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library.
      However, Alkek will bind copies submitted that the student wants
      bound for personal use. Personal copies are not required to
      be printed on archival quality paper. The student will take the
      personal copies to the Alkek Library and pay the binding fee for
      personal copies.

   Master’s level courses in Geography: GEO
Courses Offered

Geography (GEO)

GEO 5150. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.
Course Attribute(s): Graduate Assistantship
Grade Mode: Credit/No Credit
about Practicum in Teaching Geography
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

GEO 5190. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. Enrollment requires consent of the instructor.
about Independent Study
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Independent Study

GEO 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5250. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.
about Practicum in Teaching Geography
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships
about Practicum in Teaching Geography

GEO 5290. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. Enrollment requires consent of the instructor.
about Independent Study
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

GEO 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Students will be introduced to appropriate research methods for applied geographers. Emphasis will be placed on the scientific method, productive library research, data collection and analysis, fieldwork, effective writing, and the nature of graphic representation.
about Applied Research Design and Techniques
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5301. Multivariate Quantitative Methods.
The use of multivariate descriptive and inferential statistics as applied to geographic data and problems, beginning with the general linear model and including topics such as multiple regression, principal components analysis, discriminant analysis, and clustering algorithms. Prerequisite: GEO 3301 or equivalent.
about Multivariate Quantitative Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5308. Regional Field Studies.
Study of geographic phenomena during field excursions to a particular site or region. Students will study the physical and/or cultural environments through off-campus field experience. Students will research, analyze, and report on major regional geographic features. Repeatable once for additional credit with a different site or region.
about Regional Field Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5309. Geographical Analysis.
A survey of typical spatial problems of interest to geographers, with emphasis on current research and application being undertaken by the faculty in the Department of Geography. Topics include environmental geography, geographic education, land use and regional development, and cartographic representation and geographic information theory.
about Geographical Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5312. Managing Urbanization.
Survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design.
about Managing Urbanization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5318. Managing Urbanization.
Survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design.
about Managing Urbanization
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 5313. Environmental Management.
An analysis of the major causes of environmental deterioration together with the basic strategies of dealing with these problems. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5314. Geographic Elements of Environmental Law.
A survey of environmental laws related to land, air, and water pollution. The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5315. Advanced Regional Studies.
Course focus is the region. Case studies will be selected from political and functional regions. Course content will include such information as demographics, economy, physical and social environments, transportation, and foreign trade. May be repeated for credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5316. Applied Physical Geography.
This course is a survey of methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the physical environment. Emphasis will be on problems characteristic of particular geographic locations or specific environmental settings. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5317. Seminar in Applied Human Geography.
A focus on the methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the human geographical environment. Emphasis will be on problems pertaining to particular geographic locations or special environmental settings. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course serves as an in-depth introduction to the physical, social, and environmental landscapes of the region of the U.S.-Mexico Border. The course applies an interdisciplinary perspective to geographic understanding of the environmental and health-related issues experienced by residents of the borderlands. Special attention is given to management and planning solutions to the region's problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5319. Seminar in Nature and Heritage Tourism.
This seminar focuses on the special geographic issues of nature and heritage tourism. Particular emphasis is placed on sites and activities, costs and benefits, commoditization and authenticity, resource protection, and substantive learning content of nature and heritage tourism activities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5320. Interpretive Environmental Geography.
Students learn to use geographic theories and concepts to provide holistic and thematic interpretation of environmental information, as specified by interpretive principles. Students also learn advanced use of traditional and digital presentation techniques and research methods, which include audience assessment and program evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5321. Location Analysis.
Factors of importance in the decision-making process of locating both public and private sector facilities. Attention will be paid to the location of manufacturing activities, commercial enterprises, and a variety of social service facilities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5322. GPS and GIS.
Students will learn to plan and conduct fieldwork using the Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisite: GEO 2426 or GEO 5418 with a grade of "C" or higher.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 5326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of public parks, wildlife refuges, protected areas, non-governmental preserves and historic sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Parks and Protected Places

GEO 5329. Historical Geography of the Environment.
This course will introduce students to ideas, concepts, and literature in historical geography of the environment. It will explore methods used to document past environments and examine environmental changes, and it will analyze the distinctions between historical geography and related fields of study.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Historical Geography of the Environment

GEO 5330. Geography of Natural Hazards.
There are five areas of hazards that this course covers: (1) the interdisciplinary nature of natural hazards with emphasis on the role of geography and planning; (2) the geophysical causes of natural hazards; (3) human impact and response to natural disasters; (4) planning and management of hazards; and (5) issues and challenges facing the Third World.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Geography of Natural Hazards

GEO 5331. Geography of the Hazards of Technology.
An investigation of the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. This course will focus on the study of spatial problems associated with technologies and the application of research to real-world management of hazards.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Geography of the Hazards of Technology

GEO 5332. Environmental Geography of the Coastal Zone.
Investigation of the physical geographic factors associated with the coastal zone and the role of human activities in problems and opportunities characteristic of this environment.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Environmental Geography of the Coastal Zone

GEO 5334. Applied Water Resources.
Application of techniques employed in water management including flood hazards, water supply assessment, and water management strategies. Students will apply principles to specific watersheds and water problems including the analysis of various physical, land use, and legal parameters.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Applied Water Resources

GEO 5335. Directed Research.
A course designed to allow the student to pursue a topic of applied geographic research under the direct supervision of a professor. Generally, the topic will be something that is not customarily dealt with in an organized class. Group research is encouraged. Topics should be selected that involve library research and field investigation. Progress is monitored regularly by the supervising professor.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Directed Research

GEO 5336. Transportation Systems.
The principles and procedures of transportation planning and management will be examined. Transport theory will be discussed as well as the characteristics of various model systems. The effectiveness of federal, state, regional, and local programs and policies will be analyzed. Special emphasis will be placed on mass transit, particularly in view of changes in urban structure and the high costs of energy.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Transportation Systems

GEO 5339. The Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics/philosophies, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulations in land management, and the human environmental impacts of land development.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about The Geography of Land Management

GEO 5340. Practicum in Geographic Education.
The content and methods needed for teaching geography in the schools. Emphasis will be on those essential elements that will allow teachers to satisfy current public school curriculum requirements. Preparation of a grade-level specific teaching unit is required.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Practicum in Geographic Education
GEO 5341. Contemporary Issues in Geographic Education.
This course examines current approaches to teaching geography in American education. Specific attention will be given to new classroom materials, curriculum reform efforts, and research developments. About Contemporary Issues in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Contemporary Issues in Geographic Education

GEO 5342. Seminar: Theory and Methods of Geographic Education.
A critical analysis of previous and current literature concerning problems in pedagogy, philosophy, teaming theory, research methods, teaching methodologies, and techniques of geographic education. A research paper will be required of each student on a topic related to the course content. About Seminar: Theory and Methods of Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Seminar: Theory and Methods of Geographic Education

GEO 5343. Computer Technology in Geographic Education.
The course emphasizes the applications and theoretical implications of computers in geographic education, particularly the interplay between instructional technology and educational purpose and practice in Geography. About Computer Technology in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Computer Technology in Geographic Education

GEO 5344. Seminar in Geographic Curriculum.
A survey and discussion of major curricula in geographic education. Geography will be viewed as a school subject that is part of the social studies, as an element of interdisciplinary studies, and as a stand-alone subject. About Seminar in Geographic Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Seminar in Geographic Curriculum

GEO 5349. Population Geography.
An in-depth study of the spatial distribution and movement of human populations. Course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections. About Population Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Population Geography

GEO 5351. Regional Waste Management.
The principles of effective solid waste planning and management will be examined as they relate to such activities as waste generation, storage and collection, transfer and transportation, processing and volume reduction, resource conservation and recovery, the disposal of wastes, and the handling of special wastes, particularly those of a toxic and hazardous nature. About Regional Waste Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Regional Waste Management

GEO 5352. Air Quality Management.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Air Quality Management

This course provides an overview of the most important aspects of emergency management at all geographic scales, with emphasis on local, regional, and federal levels. Best practices and proper methodologies are emphasized as well as ways that students can develop the skills and capabilities for a career in this field. About Emergency Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Emergency Management

GEO 5360. Seminar in Planning Problems.
A critical and in-depth examination of several problem areas currently facing the planner. About Seminar in Planning Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Seminar in Planning Problems

GEO 5370. Seminar in Applied Physical Geography.
Critical analysis of theories, models, and techniques of physical geographic research with the focus on application to real-world problems. Repeatable once for additional credit with a different topic. About Seminar in Applied Physical Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Seminar in Applied Physical Geography

GEO 5380. Internship.
Application of techniques of applied geography in an actual on-the-job setting. Internships will be arranged and supervised by the Internship Director. May be repeated once for additional credit. Graded on a credit (CR), no credit (F) basis. About Internship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
About Internship
GEO 5390. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Independent Study

GEO 5391. Foundation Studies in Geography.
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships

about Foundation Studies in Geography

GEO 5395. Problems in Applied Geography.
Designed to consider a selected topic relating to applied geography. Emphasis on the practical application of geographic tools, with individual or group participation in a specific project. Course topics may vary depending on student and faculty interests and may apply to any of the three graduate tracks: physical-environmental, land area development and management, or cartography. Repeatable for up to six hours.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Problems in Applied Geography

GEO 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in GEO 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Thesis

GEO 5399B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Thesis

GEO 5408. Web Mapping.
This course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 3411 or equivalent with a grade of "C" or higher.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Web Mapping

Students will focus on Geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Geographic Applications of Remote Sensing

GEO 5417. Advanced Cartographic Design.
This advanced course in cartography focuses on thematic map design. The objective is to produce a series of well-designed, professional grade maps (or an atlas) that students can use to build a cartographic portfolio. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 or equivalent or consent of instructor.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Advanced Cartographic Design

GEO 5418. Geographic Information Systems I.
Course is concerned with the analysis and interpretation of maps stored in digital form. Students are introduced to concepts and practices involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Geographic Information Systems I

GEO 5419. Geographic Information Systems II.
This course aims to develop more advanced GIS concepts and application issues, further spatial data manipulation and analysis skills, and provide hands-on experience with GIS hardware and software programs. The emphasis will be on practical application of skills to real world issues. Prerequisite: GEO 5418.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Geographic Information Systems II

GEO 5430. Field Methods.
Course will emphasize common field techniques necessary in the construction of accurate maps. Various kinds of data collection techniques will be presented that will facilitate geographic research. Prerequisite: GEO 3301 or equivalent.

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

about Field Methods
GEO 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

GEO 5680. Internship.
Application of techniques of applied geography in an actual on-the-job setting. Internships will be arranged and supervised by the Internship Director. Graded on a credit (CR), no credit (F) basis.

6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

GEO 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Applied Geography (M.A.Geo.), Major in Geography Resource and Environmental Studies

Major Program
The master of applied geography (M.A.Geo.) degree program is designed to prepare geographers to use their skills and background knowledge to solve real-world problems with geographic dimensions. Applied geography includes such sub-fields as environmental management, geographic education, GIS, cartography, land use planning, location analysis, land management, transportation systems planning, applied physical geography, geographic aspects of environmental law, and spatial modeling.

Admission Policy
For information regarding application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/geo.html.

Financial Assistance
Graduate assistantships are available to qualified candidates. Please contact the Graduate Program Coordinator, Department of Geography, for more information about financial assistance and the degree programs. For scholarship information, please visit The Graduate College website at http://www.gradcollege.txstate.edu/ and choose Financing Your Graduate Education from the Prospective Students menu.

Degree Requirements
The Department of Geography offers a master of applied geography (M.A.Geo.) degree that requires 33 semester hours. All candidates must complete a required core and six hours of graduate electives in geography. Students are allowed to take up to three hours of those electives from any discipline outside the department. The remaining 15 hours of the degree focus on the geographic resource and environmental studies specialization. In summary, the M.A.Geo. requires:

Master’s level courses in Geography: GEO
Master of Applied Geography (M.A.Geo.), Major in Geography Resource and Environmental Studies

Courses Offered

Geography (GEO)

GEO 5150. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5190. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. Enrollment requires consent of the instructor.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit

GEO 5199B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5250. Practicum in Teaching Geography.
An introduction to key concepts and practices in teaching Geography. Provides regular in-service training and planned periodic evaluations of instructional responsibilities. Required for first-year instructional assistants in the Geography Department. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Graduate Assistantship
Exclude from Graduate GPA

Grade Mode: Leveling/Assistantships

GEO 5290. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit. Enrollment requires consent of the instructor.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5299B. Thesis.
This course represents a student's continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit

Students will be introduced to appropriate research methods for applied geographers. Emphasis will be placed on the scientific method, productive library research, data collection and analysis, fieldwork, effective writing, and the nature of graphic representation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5301. Multivariate Quantitative Methods.
The use of multivariate descriptive and inferential statistics as applied to geographic data and problems, beginning with the general linear model and including topics such as multiple regression, principal components analysis, discriminant analysis, and clustering algorithms. Prerequisite: GEO 3301 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5308. Regional Field Studies.
Study of geographic phenomena during field excursions to a particular site or region. Students will study the physical and/or cultural environments through off-campus field experience. Students will research, analyze, and report on major regional geographic features. Repeatable once for additional credit with a different site or region.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5309. Geographical Analysis.
Study of geographic phenomena during field excursions to a particular site or region. Students will study the physical and/or cultural environments through off-campus field experience. Students will research, analyze, and report on major regional geographic features. Repeatable once for additional credit with a different site or region.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

GEO 5312. Managing Urbanization.
Survey methods and procedures related to managing and preparing for urban growth. Selected topics for examination include transportation planning, housing, historic preservation, and environmental design.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
GEO 5313. Environmental Management.
The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5314. Geographic Elements of Environmental Law.
A survey of environmental laws related to land, air, and water pollution. The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5315. Advanced Regional Studies.
The course focus is the region. Case studies will be selected from political and functional regions. Course content will include such information as demographics, economy, physical and social environments, transportation, and foreign trade. May be repeated for credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5316. Applied Physical Geography.
This course is a survey of methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the physical environment. Emphasis will be on problems characteristic of particular geographic locations or specific environmental settings. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5317. Seminar in Applied Human Geography.
A focus on the methods and techniques used in the collection, analysis, and evaluation of information relating to problems within the human geographical environment. Emphasis will be on problems pertaining to particular geographic locations or special environmental settings. Repeatable once for additional credit with a different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course serves as an in-depth introduction to the physical, social, and environmental landscapes of the region of the U.S.-Mexico Border. The course applies an interdisciplinary perspective to geographic understanding of the environmental and health-related issues experienced by residents of the borderlands. Special attention is given to management and planning solutions to the region’s problems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5319. Seminar in Nature and Heritage Tourism.
This seminar focuses on the special geographic issues of nature and heritage tourism. Particular emphasis is placed on sites and activities, costs and benefits, commoditization and authenticity, resource protection, and substantive learning content of nature and heritage tourism activities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5322. Interpretive Environmental Geography.
Students learn to use geographic theories and concepts to provide holistic and thematic interpretation of environmental information, as specified by interpretive principles. Students also learn advanced use of traditional and digital presentation techniques and research methods, which include audience assessment and program evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5323. Location Analysis.
Factors of importance in the decision-making process of locating both public and private sector facilities. Attention will be paid to the location of manufacturing activities, commercial enterprises, and a variety of social service facilities.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 5324. GPS and GIS.
Students will learn to plan and conduct fieldwork using the Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisite: GEO 2426 or GEO 5418 with a grade of "C" or higher.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 5326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of public parks, wildlife refuges, protected areas, non-governmental preserves and historic sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition.
about Parks and Protected Places
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Parks and Protected Places

GEO 5329. Historical Geography of the Environment.
This course will introduce students to ideas, concepts, and literature in historical geography of the environment. It will explore methods used to document past environments and examine environmental changes, and it will analyze the distinctions between historical geography and related fields of study.
about Historical Geography of the Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Historical Geography of the Environment

GEO 5330. Geography of Natural Hazards.
There are five areas of hazards that this course covers: (1) the interdisciplinary nature of natural hazards with emphasis on the role of geography and planning; (2) the geophysical causes of natural hazards; (3) human impact and response to natural disasters; (4) planning and management of hazards; and (5) issues and challenges facing the Third World.
about Geography of Natural Hazards
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of Natural Hazards

GEO 5331. Geography of the Hazards of Technology.
An investigation of the theories, methods, issues, and concepts of the major themes in geographic research on technological hazards. This course will focus on the study of spatial problems associated with technologies and the application of research to real-world management of hazards.
about Geography of the Hazards of Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Geography of the Hazards of Technology

GEO 5332. Environmental Geography of the Coastal Zone.
Investigation of the physical geographic factors associated with the coastal zone and the role of human activities in problems and opportunities characteristic of this environment.
about Environmental Geography of the Coastal Zone
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Environmental Geography of the Coastal Zone

GEO 5334. Applied Water Resources.
Application of techniques employed in water management including flood hazards, water supply assessment, and water management strategies. Students will apply principles to specific watersheds and water problems including the analysis of various physical, land use, and legal parameters.
about Applied Water Resources
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Applied Water Resources

GEO 5335. Directed Research.
A course designed to allow the student to pursue a topic of applied geographic research under the direct supervision of a professor. Generally, the topic will be something that is not customarily dealt with in an organized class. Group research is encouraged. Topics should be selected that involve library research and field investigation. Progress is monitored regularly by the supervising professor.
about Directed Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Directed Research

GEO 5336. Transportation Systems.
The principles and procedures of transportation planning and management will be examined. Transport theory will be discussed as well as the characteristics of various model systems. The effectiveness of federal, state, regional, and local programs and policies will be analyzed. Special emphasis will be placed on mass transit, particularly in view of changes in urban structure and the high costs of energy.
about Transportation Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Transportation Systems

GEO 5339. The Geography of Land Management.
This course explores U.S. land management philosophies, techniques, and development approaches. Major topics include land ethics/philosophies, U.S. traditions in cadastral geography, urban sprawl and green development, land conservation techniques, the role of local/state/federal regulations in land management, and the human environmental impacts of land development.
about The Geography of Land Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Geography of Land Management

GEO 5340. Practicum in Geographic Education.
The content and methods needed for teaching geography in the schools. Emphasis will be on those essential elements that will allow teachers to satisfy current public school curriculum requirements. Preparation of a grade-level specific teaching unit is required.
about Practicum in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Practicum in Geographic Education
GEO 5341. Contemporary Issues in Geographic Education.
This course examines current approaches to teaching geography in American education. Specific attention will be given to new classroom materials, curriculum reform efforts, and research developments. about Contemporary Issues in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Contemporary Issues in Geographic Education

GEO 5342. Seminar: Theory and Methods of Geographic Education.
A critical analysis of previous and current literature concerning problems in pedagogy, philosophy, teaming theory, research methods, teaching methodologies, and techniques of geographic education. A research paper will be required of each student on a topic related to the course content.
about Seminar: Theory and Methods of Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar: Theory and Methods of Geographic Education

GEO 5343. Computer Technology in Geographic Education.
The course emphasizes the applications and theoretical implications of computers in geographic education, particularly the interplay between instructional technology and educational purpose and practice in Geography.
about Computer Technology in Geographic Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Computer Technology in Geographic Education

GEO 5344. Seminar in Geographic Curriculum.
A survey and discussion of major curricula in geographic education. Geography will be viewed as a school subject that is part of the social studies, as an element of interdisciplinary studies, and as a stand-alone subject.
about Seminar in Geographic Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Geographic Curriculum

GEO 5349. Population Geography.
An in-depth study of the spatial distribution and movement of human populations. Course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections.
about Population Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Population Geography

GEO 5351. Regional Waste Management.
The principles of effective solid waste planning and management will be examined as they relate to such activities as waste generation, storage and collection, transfer and transportation, processing and volume reduction, resource conservation and recovery, the disposal of wastes, and the handling of special wastes, particularly those of a toxic and hazardous nature.
about Regional Waste Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Regional Waste Management

GEO 5352. Air Quality Management.
about Air Quality Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Air Quality Management

This course provides an overview of the most important aspects of emergency management at all geographic scales, with emphasis on local, regional, and federal levels. Best practices and proper methodologies are emphasized as well as ways that students can develop the skills and capabilities for a career in this field.
about Emergency Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Emergency Management

GEO 5360. Seminar in Planning Problems.
A critical and in-depth examination of several problem areas currently facing the planner.
about Seminar in Planning Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Planning Problems

GEO 5370. Seminar in Applied Physical Geography.
Critical analysis of theories, models, and techniques of physical geographic research with the focus on application to real-world problems. Repeatable once for additional credit with a different topic.
about Seminar in Applied Physical Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Applied Physical Geography

GEO 5380. Internship.
Application of techniques of applied geography in an actual on-the-job setting. Internships will be arranged and supervised by the Internship Director. May be repeated once for additional credit. Graded on a credit (CR), no credit (F) basis.
about Internship
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Internship
GEO 5390. Independent Study.
Individual study under direct supervision of a professor. May involve geographic field trips. GEO 5190, GEO 5290, and GEO 5390 may be taken for a total of six semester hours of credit.

about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

GEO 5391. Foundation Studies in Geography.
Students develop knowledge and skills required for success in graduate-level coursework in Geography. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable with different emphasis. Prerequisite: Approval of graduate advisor in Geography.

about Foundation Studies in Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Foundation Studies in Geography

GEO 5395. Problems in Applied Geography.
Designed to consider a selected topic relating to applied geography. Emphasis on the practical application of geographic tools, with individual or group participation in a specific project. Course topics may vary depending on student and faculty interests and may apply to any of the three graduate tracks: physical-environmental, land area development and management, or cartography. Repeatable for up to six hours.

about Problems in Applied Geography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Applied Geography

GEO 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in GEO 5399B. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

GEO 5408. Web Mapping.
This course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 3411 or equivalent with a grade of “C” or higher.

about Web Mapping
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Web Mapping

Students will focus on Geographic applications of the principles and practices of digital image processing, classification, and modeling using satellite images.

about Geographic Applications of Remote Sensing
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Applications of Remote Sensing

GEO 5417. Advanced Cartographic Design.
This advanced course in cartography focuses on thematic map design. The objective is to produce a series of well-designed, professional grade maps (or an atlas) that students can use to build a cartographic portfolio. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 or equivalent or consent of instructor.

about Advanced Cartographic Design
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Advanced Cartographic Design

GEO 5418. Geographic Information Systems I.
Course is concerned with the analysis and interpretation of maps stored in digital form. Students are introduced to concepts and practices involving computerized cartographic and geographic data input, storage and retrieval, data manipulation and analysis, graphic and tabular report generation, and cartographic modeling.

about Geographic Information Systems I
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems I

GEO 5419. Geographic Information Systems II.
This course aims to develop more advanced GIS concepts and application issues, further spatial data manipulation and analysis skills, and provide hands-on experience with GIS hardware and software programs. The emphasis will be on practical application of skills to real world issues. Prerequisite: GEO 5418.

about Geographic Information Systems II
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Geographic Information Systems II

GEO 5430. Field Methods.
Course will emphasize common field techniques necessary in the construction of accurate maps. Various kinds of data collection techniques will be presented that will facilitate geographic research. Prerequisite: GEO 3301 or equivalent.

about Field Methods
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Field Methods
GEO 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Thesis

GEO 5680. Internship.
Application of techniques of applied geography in an actual on-the-job setting. Internships will be arranged and supervised by the Internship Director. Graded on a credit (CR), no credit (F) basis.

6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Internship

GEO 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

about Thesis

Minor in Geography
Minor Requirements
The graduate minor in geography requires nine hours of advisor-approved electives.

Department of History
Taylor-Murphy Building Room 202
T: 512.245.2142 F: 512.245.3043
http://www.txstate.edu/history

The teacher-scholars of the Department of History at Texas State are dedicated to studying, interpreting, teaching, and communicating the human past. Departmental historians understand teaching and scholarly research to be a single unified whole and the most important aspect of their professional activity. The department’s principal teaching mission consists of two aspects: providing an introduction to the study of history as part of the liberal arts foundation required of all Texas State undergraduates and of offering a well-developed program of historical study to advanced undergraduate and graduate students, including those training to be secondary-level history and social studies teachers in the public schools and those preparing for careers in public history.

The Department of History is dedicated to building on its record of introducing students to the diversity of the world through course work, study abroad experiences and visiting scholars. A further departmental mission is scholarly research, as faculty members undertake significant research projects to advance historical knowledge and contribute to the constant reinterpretation of historical phenomena. They share their research with the national and international scholarly community through the presentation and publication of historical studies. Departmental members also engage the community and general public in numerous historical programs and activities to increase general interest in history and to broaden understanding of past human activity.

We support student teacher preparation for prospective secondary school teachers in the areas of history and social studies.

Successful graduates enter doctoral programs, or find jobs in the public and private sector. Our students have gone on for further study to universities across the country, from the University of California at Berkeley to the University of Michigan to the University of Massachusetts at Amherst. Other students have utilized their training in positions at Dell, General Motors, and many other major corporations. Public history students have earned appointments with national and regional governmental agencies while others have used their skills in secondary schools.

Master of Arts (M.A.)
• Major in History (p. 1198)

Master of Education (M.Ed.)
• Major in History (p. 1209)

Minor
• History (p. 1218)

Certificate
• Public History Studies (p. 1218)

Berlage, Nancy Kay, Assistant Professor, History, Ph.D., Johns Hopkins University
Bishop, Elizabeth A, Associate Professor, History, Ph.D., University of Chicago
Brennan, Mary C, Chair - Professor, History, Ph.D., Miami University
Cagniart, Pierre F, Associate Professor, History, Ph.D., University of Texas at Austin
de la Puente, Jose Carlos, Assistant Professor, History, Ph.D., Texas Christian University
De La Teja, Jesus Francisco, Regents’ Professor, History, Ph.D., University of Texas at Austin

Master of Arts (M.A.), Major in History

Major Program
The graduate program in history is designed to prepare students for careers in professional history (college teaching, research, or writing), public history, historic tourism, preservation, museums, consulting, public education (secondary teaching), and to provide a general liberal arts education for students desiring careers in business, journalism, law, and government service.

Individuals interested in a more detailed description of the graduate program in history should request a copy of the Graduate Student Handbook from the Department of History. Copies of the Graduate Student Handbook and other information may be obtained from the department’s website at http://www.txstate.edu/history.

Admission Policy
For information regarding admission application requirements and deadlines, please visit our website at http://www.gradcollege.txstate.edu/hist.html.

Financial Assistance
A limited number of assistantships and scholarships are available to qualified graduate students. Prospective students interested in applying for an assistantship should contact the graduate director in the Department of History. The Graduate College can provide further information about scholarships.

Degree Requirements
The Department of History offers the master of arts (M.A.) degree with or without thesis and with or without a specialization in public history. There are two options for earning the M.A. with a major in history. The first option requires at least 33 hours of graduate history courses, including thesis, or 27 hours of graduate history courses, including thesis, plus six graduate hours in a cognate field. The second option, which does not include thesis, requires 36 hours of graduate work in history, or 30 hours of graduate history courses and six graduate hours in a cognate field. Students with a specialization in public history can choose the 36-hour non-thesis option, which may include a minor, or a 39-hour thesis option, which may not include a minor.

A grade of "B" or better must be earned in all history course work counting towards either degree. All candidates in history must take and pass a comprehensive examination. All non-public history M.A. candidates, except those writing a thesis, also must have successfully completed HIST 5398 General Research Seminar. Students who choose the 33-hour M.A. option must also successfully defend a thesis. Public history candidates must successfully complete an internship.

Elective/Cognate Course Work

Choose one option from the following: 30

**Option 1**
- 30 hours of advisor-approved electives

**Option 2**
- 24 hours of advisor-approved electives
- 6 hours in a cognate minor field

Total Hours 36

Public History Concentration Options

Required Courses

| HIST 5371 | The Practice of Public History & Public History Internship 6 |
| HIST 5360 | American Historiography 3 |

Public History Electives

Choose 12 hours from the following: 12

| HIST 5345D | Oral History: Theory & Practice |
| HIST 5372 | The Practice of Museum Studies and Material Culture |
| HIST 5373 | The Practice of Historic Preservation |
| HIST 5375A | Documentary Film |
| HIST 5375B | Archival Management |
| HIST 5375C | Cultural Resource Management |
| HIST 5375D | Material Culture in America |
| HIST 5376 | Local and Community History |
| HIST 5377 | Public History Project |

Elective/Cognate/Thesis Course Work

Choose one option from the following: 15-18

**Option A**
- 15 hours of advisor-approved electives

**Option B**
- 9 hours of advisor-approved electives
- 6 hours in a cognate minor field

**Option C**
- 12 hours of advisor-approved electives
- 6 hours of thesis courses from the following:
  - HIST 5199B Thesis
  - HIST 5299B Thesis
  - HIST 5399A Thesis
  - HIST 5399B Thesis
  - HIST 5599B Thesis
  - HIST 5999B Thesis

Total Hours 36-39

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.
Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in History: HIST

Courses Offered
History (HIST)

HIST 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

HIST 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis. about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit about Thesis

HIST 5300. Foundation Studies in History.
Required as a condition of admission to the M.A. History program for otherwise qualified candidates lacking sufficient History background hours. In this course, students demonstrate necessary competency in History skills and methods to succeed in the program. This course does not earn graduate degree credit. Repeatable with different emphasis. about Foundation Studies in History
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from Graduate GPA about Foundation Studies in History
Grade Mode: Leveling/Assistantships about Foundation Studies in History

HIST 5301. Instructional Methods Practicum for Graduate Assistants.
Required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Graded on a credit (CR), no-credit (F) basis. about Instructional Methods Practicum for Graduate Assistants
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from Graduate GPA about Instructional Methods Practicum for Graduate Assistants
Grade Mode: Leveling/Assistantships

This course introduces graduate students to the craft of the medieval historian, with emphasis on major contemporary shifts in American historiography of the European Middle Ages. about Medieval European History: Contemporary Trends in Medieval Historiography
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Medieval European History: Contemporary Trends in Medieval Historiography

HIST 5308E. Latin Literature and Roman History and Society.
A seminar based on the study of the most important Latin literary works from the 2nd century B.C. to the 2nd century A.D. No knowledge of Latin is necessary to take this seminar. about Latin Literature and Roman History and Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Topics about Latin Literature and Roman History and Society
Grade Mode: Standard Letter

HIST 5308F. Roman History and Civilization: The “Golden Age” of Rome.
The history of Roman civilization (political, diplomatic, economic, social, cultural, etc.) from Augustus to Marcus Aurelius (27 B.C. – A.D. 180). The main focus will be to explain what made possible this exceptional period and why it lasted so long. about Roman History and Civilization: The “Golden Age” of Rome
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Topics about Roman History and Civilization: The “Golden Age” of Rome
Grade Mode: Standard Letter
HIST 5308G. Warfare in the Ancient World.
A seminar on the nature, development, and historical significance of war in the Western World, from the Trojan War (end of the 13th century BC) to the fall of the Western Roman Empire and the establishment of Germanic kingdoms (5th century AD).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Warfare in the Ancient World

HIST 5309A. Interpreting the Eighteenth Century.
A seminar designed to analyze the methods that historians have used to interpret the meaning of various phenomena such as the Enlightenment, the nature of society, and the origins of the French Revolution.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Interpreting the Eighteenth Century

HIST 5309B. The French Revolution.
A seminar designed to analyze the methods that historians have used to interpret the meaning of various phenomena such as the Enlightenment, the nature of society, and the origins of the French Revolution.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about The French Revolution

HIST 5309D. Early Modern Spain.
A seminar based on selected topics in political, social, intellectual, and economic history of Spain from 1450 to 1815.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

Master of Education (M.Ed), Major in History  
Major Program  
The graduate program in history is designed to prepare students for careers in professional history (college teaching, research, or writing), public history, historic tourism, preservation, museums, consulting, public education (secondary teaching), and to provide a general liberal arts education for students desiring careers in business, journalism, law, and government service.  

Individuals interested in a more detailed description of the graduate program in history should request a copy of the Graduate Student Handbook from the Department of History. Copies of the Graduate Student Handbook and other information may be obtained from the department’s website at http://www.txstate.edu/history.  

Admission Policy  
For information regarding admission application requirements and deadlines, please visit our website at http://www.gradcollege.txstate.edu/hist.html.  

Financial Assistance  
A limited number of assistantships and scholarships are available to qualified graduate students. Prospective students interested in applying for an assistantship should contact the graduate director in the Department of History. The Graduate College can provide further information about scholarships.  

Degree Requirements  
The Department of History offers the master of education (M.Ed.) degree, which consists of at least 21 hours of graduate history courses and 15 graduate hours in a minor field or a split minor of 9 graduate hours from one field and 6 graduate hours from a second field.  
A grade of “B” or better must be earned in all history course work counting towards either degree. All candidates in history must take and pass a comprehensive examination.

Grade Mode: Standard Letter
about The Practice of Historic Preservation
HIST 5374. Public History Internship. 
Application of skills in public history in an on-the-job setting. Internships will be selected by the student and instructor, and will be supervised by the instructor. May be repeated once for additional credit. Graded on a credit (CR), no credit (F) basis. 

3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours. 
Grade Mode: Credit/No Credit 
about Public History Internship

HIST 5375A. Documentary Film. 
The use of film & video in public programming; research & produce documents. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
about Documentary Film

HIST 5375B. Archival Management. 
A seminar based on the history, theory, and practice or archival management. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
about Archival Management

HIST 5375C. Cultural Resource Management. 
This seminar addresses the management of cultural resources such as historic buildings, historic sites, and other tangible remains of our heritage. It explores how cultural resources are preserved and managed under federal and state law, and the nature of the regulatory practice. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
about Cultural Resource Management

HIST 5375D. Material Culture in America. 
This course examines the interactions between people and things in American society. The ways in which Americans have created, used, altered, and thought about material objects help us to understand history. Readings and research will focus on the values and attitudes embodied in the production, use, and preservation of objects. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
about Material Culture in America

HIST 5375E. Management & Administration in Historical Organizations. 
This course provides an introduction to the non-profit based management, leadership, and administration issues and practices for historical organizations. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
about Management & Administration in Historical Organizations

HIST 5375F. Education Programs in Historical/Cultural Institutions. 
This course will study the role of education programs as primary to the missions of historical and cultural institutions and will explore how institutions create and evaluate formal and informal education programs and materials for a variety of audiences. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
Grade Mode: Standard Letter 
about Education Programs in Historical/Cultural Institutions

HIST 5375G. Preserving and Interpreting Historic Amateur Movies. 
Amateur filmmakers have documented notable people, places, and events over the last century, but noncommercial films and videos present unique challenges for both preservation and interpretation. This course explores how amateur movies contribute to the historical record and how they fit into the management of mixed-media collections. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
Grade Mode: Standard Letter 
about Preserving and Interpreting Historic Amateur Movies

HIST 5375H. Historic Preservation in East Asia. 
Participants will explore various approaches to the conservation of the built environment in a range of East Asian societies through in-depth readings and participant-directed projects concerning Japan, Korea, Hong Kong, Singapore, Vietnam, and China. We will compare these approaches to typical western patterns of preservation. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
Grade Mode: Standard Letter 
about Historic Preservation in East Asia

HIST 5375I. Heritage in a Global Context. 
Heritage management is the interdisciplinary approach to the preservation, protection, and public use of the historical record. This course examines definitions and approaches within a global context. Theory and practice will be analyzed through case studies and real world examples. Current issues, sustainability and maritime issues/practices will be included. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
Grade Mode: Standard Letter 
about Heritage in a Global Context

HIST 5375J. American Architectural History. 
This course will analyze the historical development of American architecture, and examine architecture as evidence of America’s cultural, social, economic, and technological evolution from 1607 to the present. Focus will be placed on the role of historic American architecture in the practice of public history. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Topics 
Grade Mode: Standard Letter 
about American Architectural History
HIST 5375K. Evaluating Historic Sites.
Every year millions of tourists flock to historic sites desiring to commune with "real" history, to "feel" the past. This course will introduce students to methods that scholars use to examine critically the interpretation of history at these sites without discounting the emotional connection to place that many visitors experience.
about Evaluating Historic Sites
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Evaluating Historic Sites

HIST 5375L. Controversy, Power, and Politics in Public History.
This seminar explores how controversy, power relations, and politics are embedded in the practice of public history. It is designed to help the future practitioner navigate the complex political landscape of public history. This course is informed by the professor's experience as a consultant and federal historian.
about Controversy, Power, and Politics in Public History

**Admission Policy**

For information regarding admission application requirements and deadlines, please see The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html.

**Center for International Studies**

Derrick Hall Room 101  
T: 512.245.2339 F: 512.245.7857  
http://www.txstate.edu/internationalstudies

The Center for International Studies is devoted to understanding and appreciating the rich cultural, political, and social differences of the world. Our mission is to provide quality interdisciplinary education about international affairs in order that graduates will be equipped for careers in the public and private sectors and for further professional education. Students will be prepared with the necessary research and writing skills to pursue careers in law, diplomacy, international affairs, and graduate level education in the International Studies Program at Texas State.

**Learning Outcomes**

- Students will demonstrate knowledge of an interdisciplinary perspective, global issues, global processes, global trends, global systems, and foreign policy constants.
- Students will demonstrate oral and written communication skills in international studies with a focus on international business, foreign policy, or travel and tourism.
- Students will demonstrate the ability to analyze an international relations problems.
- Students will demonstrate the ability to conduct research on international relations problems quickly and intelligibly.
- Students will demonstrate understanding of their culture in a global and comparative context.

**Master of Arts (M.A.)**

- Major in International Studies (p. 1219)

**Master of Arts (M.A.), Major in International Studies**

**Major Program**

The master of arts (M.A.) with a major in international studies is an interdisciplinary program that prepares students for work and leadership in an interdependent world. Through training in area studies, technology information training, oral and written communication skills, and business acumen, the program aims to develop leaders for business, government, military, education, non-profit organizations, and international institutions that are collectively facing an increasingly interdependent world where cultural diversity is a reality and the need to appreciate and value such heterogeneity is a prerequisite to global peace and prosperity.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/intlst.html.

**Financial Assistance**

A limited number of fellowships and scholarships are available to qualified graduate students. Departmental fellowships and scholarships are listed on the Center for International Studies website: http://www.txstate.edu/internationalstudies. The Graduate College can provide further information about scholarships.

**Degree Requirements**

There are two options for earning the master of arts in international studies. The first option requires at least 30 hours of graduate courses, including thesis. The second option, which does not include thesis, requires 36 hours of graduate work, including 3 hours of internship credit.

It is expected that students entering the program have a passing grade in introductory (principles of) microeconomics and macroeconomics at an accredited college or university. The economics courses can be taken after admission. In addition, many graduate courses have prerequisites for students who lack adequate preparation for advanced study in specific disciplines, such as business technology.

If a student elects to follow the thesis option for the degree, a committee must direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the...
personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in International Studies: IS

Courses Offered

International Studies (IS)

IS 5387. International Studies Internship.
A work/research experience in a government agency or company related to the students' career interests. The internship will consist of a minimum of 150 hours in the workplace and will require a research paper. This course may be repeated once for additional internship credit. Departmental approval required. Graded on a credit (CR), no credit (F) basis.

3 Credit Hours. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Credit/No Credit

Department of Modern Languages

Centennial Hall Room 214
T: 512.245.2360 F: 512.245.8298
http://www.modlang.txstate.edu/

The Department of Modern Languages helps prepare Texas State students for careers in education, international relations and business, and foreign service, as well as other professions.

If you want to think globally, then you need to speak a foreign language. The Modern Language Association:

"regards the learning of languages other than English as vital to an understanding of the world; such learning serves as a portal to the literatures, cultures, historical perspectives, and human experiences that constitute the human record. Pragmatically, we believe in the value of becoming part of a global conversation in which knowledge of English is often not enough, and the security and future of our country depend on accurately understanding other cultures through their linguistic and cultural practices."

The faculty of the Department of Modern Languages publish internationally and are recognized for their expertise in literature, linguistics, cultural studies, and film. CALICO, an international journal and organization devoted to the use of technology in foreign language teaching, is housed in the department. The department also publishes Letras Hispanas: Revista de Literatura y Cultura, a peer-reviewed, open-access online journal dedicated to publishing scholarly essays that engage topics in connection with Spanish, Latin American, and U.S. Latino literature and cultures.

Pujalte, Maria Nieves, Associate Professor, Modern Languages, Ph.D., The Ohio State Univ Main Campus

Ugalde, Sharon E, University Distinguished Professor, Modern Languages, Ph.D., Stanford University

Master of Arts (M.A.), Major in Spanish

Major Program

The master of arts (M.A.) program in Spanish is a dynamic academic unit that combines research and applied learning in order to advance knowledge of the Spanish language and the literature and cultures of the Hispanic world. Its objective is to empower individuals to be productive in a global society. At Texas State, the Spanish M.A. program provides students with the foundation they need to:

1. serve in a wide range of public and private sector professions requiring a high degree of proficiency in Spanish,
2. pursue doctoral studies, and
3. teach in institutions of higher learning.

The M.A. program is designed for students interested in advancing their skills and knowledge within the context of organized research in Spanish language, literature, and culture.

The M.A. program with minor allows students to advance their skills and knowledge within the context of organized research in Spanish language, literature, and culture and to develop a minor interest in a related area. Students may choose among minors in the humanities, social sciences, education, or other disciplines, or they may develop
special emphases in literary periods or areas such as Latin American studies, Medieval/Renaissance studies, Chicano/Chicana literature, critical theory, humanities, linguistics, education, or women's studies.

**Admission Policy**
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/span.html.

**Financial Assistance**
Qualified graduate students in the M.A. program may apply for appointments as instructional assistants or teaching assistants. Application forms for instructional assistantships and teaching assistantships are available from the department administrative assistant. For information on other scholarship programs for graduate students, contact The Graduate College.

**Degree Requirements**
The 33-hour master of arts program is designed for students interested in advancing their skills and knowledge within the context of organized research in Spanish language, literature, and culture.

The 36-hour master of arts program with minor allows students to advance their skills and knowledge within the context of organized research in Spanish language, literature, and culture and to develop a minor interest in a related area. Students may choose among minors in the humanities, social sciences, education, or other disciplines, or they may develop special emphases in literary periods or areas such as Latin American studies, Medieval/Renaissance studies, Chicano/Chicana literature, critical theory, humanities, linguistics, education, or women's studies.

**Total Hours** 33
If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Modern Languages: SPAN
Courses Offered

Spanish (SPAN)

SPAN 5100. Practicum in Teaching Spanish.
Required as a condition of employment for graduate teaching and instructional assistants in their initial semester of employment. The course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.

Grade Mode: Leveling/Assistantships
about Practicum in Teaching Spanish
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA

SPAN 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit
about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

SPAN 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

Grade Mode: Credit/No Credit
about Thesis
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

SPAN 5300. Foundation Studies in Spanish.
Course designed to develop knowledge and skills required for success in graduate-level studies in Spanish. Course content varies depending on academic preparation. This course does not earn graduate credit. Repeatable up to 12 hours with different emphasis. Prerequisite: Approval of graduate advisor in Spanish.

Grade Mode: Leveling/Assistantships
about Foundation Studies in Spanish
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling

SPAN 5310A. Voyages and Encounters in Spanish American Literature.
Thorough analysis of historical and fictional voyages. The course will address how encounters with indigenous, ethnic minority, and foreign cultures have influenced the development of individual, national and regional identities in Spanish America. Readings will include accounts of the Conquest, colonial texts, and literature for the 19th and 20th centuries.

Grade Mode: Standard Letter
about Voyages and Encounters in Spanish American Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

SPAN 5310B. Don Quijote.
A close reading of the classic Spanish novel Don Quijote by Miguel de Cervantes.

Grade Mode: Standard Letter
about Don Quijote
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

SPAN 5310C. Poetry of Spain and Spanish America.
A focus on the genre of poetry through a close reading of a selection of classical and contemporary poets from Spain and Spanish America.

Grade Mode: Standard Letter
about Poetry of Spain and Spanish America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

SPAN 5310D. Hispanic Literature: Gabriel García Márquez.
A study of selected works of Nobel Prize author Gabriel García Márquez, focusing on literature, history, politics, and popular culture of Latin America.

Grade Mode: Standard Letter
about Hispanic Literature: Gabriel García Márquez
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

SPAN 5310E. Hispanic Literature: Hispanic Film.
A study of Hispanic cultural issues through film and additional readings.

Grade Mode: Standard Letter
about Hispanic Literature: Hispanic Film
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

SPAN 5310F. Contemporary Mexican Narratives.
This course focuses on contemporary Mexican narratives. Students will study Mexico’s literary trends such as La nueva narrativa, the Crack Generation, women’s literature, and the new historic and testimonial fictions, in order to better understand the cultural process of the Mexico’s society in the late 20th and early 21st centuries.

Grade Mode: Standard Letter
about Contemporary Mexican Narratives
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics

SPAN 5311. Studies in Medieval and Golden Age Spanish Peninsular Literature.
Selections of fiction, poetry, theatre, essay, and film of medieval and Golden Age Spain. May be repeated once with different emphasis for additional credit.

Grade Mode: Standard Letter
about Spanish Applied Linguistics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPAN 5322. Spanish for the Professions.
Topics vary and include the study of Spanish for business, law, medicine, criminal justice, and/or the social sciences. May be repeated once with different emphasis for additional credit.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Spanish for the Professions

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
SPAN 5390. Studies in Spanish Culture, Language, or Literature. Independent study under supervision of a graduate faculty member in Spanish, with in-depth readings and research on a specific topic. May be repeated once with different emphasis for additional credit. Prerequisite: Approval by head of the Spanish Division and department chair. Application must be submitted prior to semester registration period.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Minor in Spanish

Students with majors other than Spanish may select Spanish as a minor. Students should have completed at least nine hours of advanced undergraduate Spanish with a GPA of 2.75 or higher (4.0 scale). The graduate minor in Spanish consists of six semester hours chosen in consultation with the graduate advisor.

Department of Philosophy

Comal Building Room 102
T: 512.245.2285 F: 512.245.8335
http://www.txstate.edu/philosophy

The mission of the Department of Philosophy is to:

• preserve, increase, and transmit knowledge of the discipline of philosophy and its applications,
• foster critical and moral thinking skills,
• support excellence in faculty research and creative activity, and
• promote public dialogue on matters of significance throughout the university and community.

The department regards as a high priority developing excellence in the area of Latin American philosophy.

The department maintains its commitment to fostering critical thinking and dialogue on matters of public interest. The successful Dialogue Series will continue, and we will especially look to encourage more connections with and involvement from the local community. We shall seek endowment funding for some or all of the series.

We anticipate that the number of our majors and minors will continue the steady increase we have witnessed since the 1980s and, so, predict a yearly increase of 10%. Students will continue to find attractive the skill set that is developed by the study of philosophy.

Master of Arts (M.A.)

Master of Arts (M.A.), Major in Applied Philosophy and Ethics

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/aphe.html.
Thesis Proposal
The student must submit an official Master's Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members' signatures, graduate advisor's signature (if required by the program), and the department chair's signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student's initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D DEADLINES.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Philosophy: PHIL
Courses Offered

Philosophy (PHIL)

PHIL 5100. Practicum in Teaching Philosophy.
This course orient Instructional Assistants to the principles of teaching philosophy responsibly. Topics include grades, evaluation of written work, classroom management, academic values, and teaching style. This course is required for all new Instructional Assistants in Philosophy. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships about Practicum in Teaching Philosophy

PHIL 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit about Thesis

PHIL 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit about Thesis

PHIL 5301. Applied Philosophy.
Practical application of methods and teaching of philosophy to such major areas of human experience as religion, science, morality, politics, art, or literature. The study of one or more of these areas will demonstrate how philosophy contributes to the identification of issues as well as their resolution. May be repeated twice for credit.

about Applied Philosophy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Applied Philosophy

PHIL 5302. Dialogue.
Study of literature about the nature, purpose, and significance of dialogue along with active participation in the dialogues of the Department of Philosophy’s Dialogue Series.

about Dialogue

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Dialogue

PHIL 5303. Philosophy of Technology.
Study of philosophical and ethical dimensions of technology including the nature of technology and technological progress, the relation of humans to the technological environment, whether technology is value-laden, and the social character of technology.

about Philosophy of Technology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Philosophy of Technology

PHIL 5304. Philosophy of Language.
This course will examine the nature, structure, and uses of language and its role in conceptualizing and attempting to solve perennial philosophical problems. Features of language such as meaning, reference, truth, verification, and speech acts will be investigated and applied to issues of metaphysics and ontology, epistemology, and theory construction.

about Philosophy of Language

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Philosophy of Language

PHIL 5306. Foundation Studies.
Foundation Studies in Philosophy.

about Foundation Studies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Foundation Studies

PHIL 5314. American Philosophy.
This course is an examination of contributions of Americans to perennial philosophical issues, including the tradition of American Pragmatism.

about American Philosophy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter about American Philosophy

PHIL 5320. History of Ethics.
This course is a survey of major ethical theories in the Western philosophical tradition.

about History of Ethics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter about History of Ethics

PHIL 5322. Professional Ethics.

Texas State Professional Ethics Certificate
The Texas State graduate certificate in professional ethics requires six semester hours of credit — three hours of required course work and three hours of elective course work. The required course is PHIL 5322. The elective course may be selected from any of the graduate courses in philosophy.

Admission Policy
For information regarding admission application requirements and deadlines, please see The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/ TXST_Cert.html.

Department of Political Science
Undergraduate Academic Center 355A
T: 512.245.2143 F: 512.245.7815
http://www.polisci.txstate.edu/

The Department of Political Science is a part of the College of Liberal Arts at Texas State. As a liberal arts discipline, the department is dedicated to promoting student learning about fundamental theory and key concepts relevant to political science and public administration and encouraging student learning relative to the development of strong analytical skills, effective oral and written communication skills, and rigorous critical thinking skills. Throughout the course of their study, students are invited to reflect not simply on their career goals but also on what type of persons they want to become, and on their rights and duties as citizens.

We are the academic home for about 800 undergraduate majors and minors and 380 graduate students. We also offer graduate certificates. We house the Center for Research, Public Policy, and Training (CRPPT) and the Armed Forces and Society Journal.

Master of Arts (M.A.), Major in Legal Studies

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/lglst.html.

Degree Requirements
The master of arts (M.A.) with a major in legal studies is a non-thesis, 36-hour program consisting of a core of 21 hours, including a cumulative research project and an internship. To receive an M.A. degree with a major in legal studies, all students must successfully complete the 36-hour curriculum while maintaining a “B” average and must receive a “B” or better in each required course.

In addition, an oral comprehensive examination over course work and a cumulative research project will be required for completion of the M.A. with a major in legal studies degree. The M.A. in legal studies is an ABA-approved program that offers career enhancement in law-related fields and helps meet the evolving needs of the legal and business communities and federal and state government entities. This program does not qualify graduates to practice law. Legal assistants or paralegals must work under the supervision of a licensed attorney.
