This course offers an in-depth introduction to the conservation movement and the philosophy, establishment, and operation of institutions engaged in that movement. Problems and attributes of leadership will be emphasized along with the operational implications, ethical issues and other considerations for successful implementation at non-governmental, local, state, and federal levels. Restricted to Junior or Senior Standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Conservation Leadership

GEO 4324. GPS and GIS.
Students will learn to plan and conduct fieldwork using the Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisite: GEO 2426, and GEO 3411 or GEO 3426, with grade(s) of "C" or higher.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about GPS and GIS

GEO 4325. Fluvial Processes.
Students analyze modern principles of river processes and forms within a geographical perspective. This course examines the fundamental mechanics of fluvial channels with an emphasis on quantitative geographic evaluation of their processes. The course emphasizes natural scientific perspectives and includes linkages to ecology, engineering, resources management, and policy. Prerequisite: GEO 3325 or GEO 3434 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fluvial Processes
GEO 4326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of Public Parks, Wildlife Refuges, Protected Areas, Non-Governmental Preserves and Historic Sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition. Prerequisite: Junior or Senior status.

Grade Mode: Standard Letter
about Parks and Protected Places

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4328. Geography of the Russian Realm.
This course presents a regional and systematic overview of the physical and human geography of the countries of the former Soviet Union. The course examines in depth issues such as the legacy of the degraded landscape and environmental problems left by decades of Soviet industrialization. (MC) (WI).

Grade Mode: Standard Letter
about Geography of the Russian Realm

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Geography of the Russian Realm

GEO 4334. Groundwater Resources.
This course examines, within a geographical perspective, the major concepts and principles that control groundwater availability and use. Students will analyze aquifer characteristics that determine their water quantity and quality. Constraints on aquifer use including environmental, economic, societal, and legal factors will be analyzed for optimizing aquifer management and water-use policy. Prerequisite: GEO 3434 with a grade of "C" or higher.

Grade Mode: Standard Letter
about Groundwater Resources

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4335. Directed Research.
Individual and group research projects at the advanced level that are not offered in the present curriculum. Permission and project approval must be obtained from the faculty member prior to registration. This course may be repeated for credit, but a student may not exceed six hours of credit in Directed Research.

Grade Mode: Standard Letter
about Directed Research

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Directed Research

GEO 4336. Transportation Systems.
This course is an examination of the evolution of urban transportation systems, policies, institutions, and methods in the United States. Principles, procedures, and techniques of transportation planning in the State of Texas are covered and students are introduced to the literature in transportation geography and methods of transportation analysis.

Grade Mode: Standard Letter
about Transportation Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4338. Planning Practicum.
This capstone course focuses on methods and procedures used for planning and managing urban development on the local level. Topics include municipal ordinances, the development/redevelopment process and relationships between development, capital improvements and the local economy. Prerequisite: GEO 3320 with a "C" or higher and junior or senior status.

Grade Mode: Standard Letter
about Planning Practicum

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4339. Environmental Hazards.
Analysis of environmental hazards with respect to human use of the land. Includes geologic hazards and problems caused by floods and meteorological conditions. Prerequisite: GEO 2410 with a grade of "C" or higher.

Grade Mode: Standard Letter
about Environmental Hazards

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Environmental Hazards

GEO 4340. Fundamental Themes in Geography.
Students will become familiar with the K-12 Geography Texas Essential Knowledge and Skills (TEKS) and the national geography content standards, identify instructional resources and materials, design instructional units, and fully develop grade level appropriate inquiry based lessons and student assessments. (WI).

Grade Mode: Standard Letter
about Fundamental Themes in Geography

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4341. Water Policy.
This course covers the evolution of water policy from the awareness of issues, through the political and legal process, to the implementation of specific plans, programs, and facilities. Prerequisite: GEO 3434 with a grade of "C" or higher.

Grade Mode: Standard Letter
about Water Policy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4350. Solid Waste Planning and Management.
A survey of the methods of solid waste disposal including waste storage, collection, transportation and disposal, and their short-and long-range effects on the environment. A practical course in the planning, implementation, and management of alternate methods of sanitary waste disposal. Prerequisite: GEO 2410 with a grade of "C" or higher.

Grade Mode: Standard Letter
about Solid Waste Planning and Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
GEO 4352. Air Quality Management.
This course provides an assessment and analysis of air quality including types, sources, and effects of air pollutants as well as principles governing their dispersal and management. These aspects are analyzed considering physical science, economic, legal and social factors. Prerequisite: CHEM 1141 and CHEM 1341, or GEO 2410, or GEO 3305 with a grade of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4355. Geography of Crime.
This course provides understanding of geographical aspects of crime and criminal behavior. Students are exposed to theories and analysis methods and models explaining and predicting crime spatial patterns. Computer exercises give students hands on experience on crime pattern analysis.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4380. Internship in Geography.
On-the-job training in a public or private-sector agency. Students must apply to the department internship director at least six weeks prior to registering for the internship course. This course may be repeated one time for additional internship credit.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4390. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4393A. Environmental Compliance.
This course examines the implementation and enforcement of environmental statutes and regulations from a geographic perspective that includes physical environmental, cultural, social, economic, and legal parameters. The course focuses on current environmental requirements as applied to contemporary regulatory challenges including widely applicable innovative compliance strategies. Prerequisites: GEO 4313 and one course from GEO 3434, GEO 4350, or GEO 4352, with grades of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4393B. Business Geography.
This course provides an exploration of the geospatial analysis of business activities in the United States with emphasis on site location, market segmentation and material/product tracking.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

GEO 4411. Advanced Cartographic Design.
This advanced course in cartography focuses on thematic map design. The objective is to produce a cartographic portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments.

Grade Mode: Standard Letter

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.

Introduction to the digital image processing of satellite scenes including restoration, enhancement, classification, change detection, and mapping for environmental monitoring and inventorying. Prerequisites: GEO 3301 and GEO 3416 with grades of "C" or higher.

Grade Mode: Standard Letter

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.

GEO 4417. Digital Terrain Modeling.
The course focuses on the mapping, transformation, mensuration, visualization, and applications of digital elevation models in Geography. Prerequisite: GEO 3416 or equivalent with a grade of "C" or higher.

Grade Mode: Standard Letter

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

GEO 4422. Web Mapping.
The course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 4311 or equivalent with a grade of "C" or higher.

Grade Mode: Standard Letter

4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
GEO 4427. GIS Design and Implementation.
This course involves students working as a team on a substantive
GIS project, which is designed and conducted by the class. Students
will develop and demonstrate competence in GIS techniques at the
professional level. Prerequisite: GEO 3426 or equivalent with a grade of
"C" or higher, Junior or Senior standing, and instructor approval.
about GIS Design and Implementation
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about GIS Design and Implementation

GEO 4430. Field Methods.
Methods and techniques for observing, measuring, recording, and
reporting on geographic phenomena are investigated in this course.
Students will learn the use of instruments and materials in the collection
of data for mapping and field research in the local area. Prerequisites:
GEO 2410 and GEO 3301 or equivalents with a grade of "C" or higher. (WI).
about Field Methods
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Field Methods

Courses in Geology (GEOL)

GEOL 1410. Physical Geology.
The study of materials making up the Earth, the processes that act upon
them, and the results of these processes; the development of tools for
the interpretation of earth's history and structure, and the major geologic
concepts.
about Physical Geology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core|Lab Required
Grade Mode: Standard Letter
TCCN: GEO 1403
about Physical Geology

GEOL 1420. Historical Geology.
A continuation of physical geology leading to consideration of the
geologic history of the Earth (with special emphasis on North America),
the evolution of life, the continents through geologic time and the
principles and procedures used in the interpretation of earth history.
Prerequisite: GEOL 1410.
about Historical Geology
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core|Lab Required
Grade Mode: Standard Letter
TCCN: GEO 1404
about Historical Geology

GEOL 2410. Mineralogy.
Study of the crystal systems, physical properties, classification, and hand
specimen identification of common rock-forming and ore minerals. One
semester of Chemistry recommended. Prerequisites: CHEM 1141 and
CHEM 1341, and "C" or better in GEOL 1410 and GEOL 1420.
about Mineralogy
4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Mineralogy

GEOL 2410. Petrology.
An introduction to the hand specimen and microscopic study of igneous,
sedimentary, and metamorphic rocks. This course includes the origin
of mineral assemblages that make up rocks and the environments of
formation. Prerequisite: GEOL 2410 with a grade of "C" or better.
about Petrology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Petrology

GEOL 3410. Sedimentation and Stratigraphy.
Principles of the weathering, transportation, deposition, and lithification
of sediments. Primary structures and textures of sediments are used to
determine environments of deposition. The recognition and classification
of strata into stratigraphic units. Prerequisite: GEOL 2410 completed with
a grade of "C" or higher.
about Sedimentation and Stratigraphy
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Sedimentation and Stratigraphy

GEOL 3430. Structural Geology.
Description, classification, and origin of Earth structures and the stresses
involved in their formation. Solution of structural geology problems
using analytical geometry, geologic maps, contouring of data, and
preparation of cross sections. Prerequisites: GEOL 1410 and GEOL 1420
(or equivalents).
about Structural Geology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Structural Geology

GEOL 3440. Paleontology and Biostratigraphy.
Identification of ancient invertebrate faunas and their applications in
reconstruction of paleoenvironments, paleogeography, and the means
by which "time" correlations can be effected in sedimentary strata. Field
intensive course, 1 full day in the field per week. Course will be offered
alternating summers. Prerequisites: GEOL 1410 and GEOL 1420 (or
equivalents).
about Paleontology and Biostratigraphy
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Paleontology and Biostratigraphy

GEOL 4121. Directed Study.
Independent study of a particular subject area in geology. Specific
topic to be discussed and agreed upon prior to registration. May be
repeated once with different emphasis and professor for additional credit.
about Directed Study
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Directed Study
GEOL 4320. Topics in Field Geology.
This course provides on-site directed investigations of geology in locations remote from campus. Prerequisite: GEOL 1410 and GEOL 1420 with grades of "C" or higher.

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**3 Credit Hours. 1 Lecture Contact Hour. 6 Lab Contact Hours.**

about Topics in Field Geology

GEOL 4321. Directed Study.
This course is designed to provide a student with an opportunity to conduct independent research for credit in consultation with his or her Geology instructors. The course may be repeated once with a different content or instructor. Prerequisite: GEOL 1410 and GEOL 1420 with grade of "C" or higher.

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

about Directed Study

GEOL 4330A. Introduction to Petroleum Geology.
This course discusses the origin and distribution of conventional and unconventional petroleum resources, source rocks, types of traps and seals, reservoir rock properties, exploration methods (seismic data analysis and interpretation, formation evaluation, subsurface mapping), reservoir characterization and modeling, reserves calculations. Prerequisites: GEOL 1410, GEOL 1420, and CHEM 1141/1341 with grades of "C" or higher. Co-requisite: GEOL 4121.

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

about Introduction to Petroleum Geology

GEOL 4330B. Planetary Geology.
This course is a survey of the application of geologic principles to the rocky planets and satellites in the solar system. Prerequisites: GEOL 1410 and GEOL 1420 with grades of "C" or higher.

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

about Planetary Geology

GEOL 4421. Hydrogeology.
This course will provide the student with an introduction to the science of hydrogeology, a conceptual and quantitative understanding of groundwater from a geological/mathematical/geochemical perspective, and experience with hydrogeology applications. Prerequisites: GEOL 1420 with a grade of "C" or higher, and CHEM 1141 and CHEM 1341.

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

about Hydrogeology

Courses in Nature and Heritage and Tourism (NHT)

NHT 4301. Planning and Development of Nature and Heritage Tourism.
This course applies basic planning and development principles to the special issues of nature and heritage tourism. Particular emphasis is placed on locational analysis, site analysis, and planning for sustainable use. Prerequisite: GEO 2410 with a grade of "C" or higher, or permission of the instructor.

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

about Planning and Development of Nature and Heritage Tourism

NHT 4302. Internship in Nature and Heritage Tourism.
Students will work in private or public sector settings to gain practical experience in the planning, development and management of nature and/or heritage tourism. Internships must be approved by the director of the Center for Nature and Heritage Tourism. Students will be expected to perform at high professional standards and will interpret the internship experience within the context of current literature. Prerequisite: NHT 4301.

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.**

about Internship in Nature and Heritage Tourism

Faculty

Ballinger, Thomas Justin, Assistant Professor, Geography, Ph.D., Kent State University

Blanchard-Boehm, Denise, Professor, Geography, Ph.D., University of Colorado Boulder

Blue, Sarah A, Associate Professor, Geography, Ph.D., Univ of California-Los Angeles

Boehm, Richard G, Professor - Endowed Chair, Geography, Ph.D., University of Texas at Austin

Butler, David R, Regents' Professor, Geography, Ph.D., Univ of Kansas Main Campus

Carter, Mark L, Senior Lecturer, Geography, M.A.Geo., Texas State University

Chow, Tzee Kiu E, Associate Professor, Geography, Ph.D., Univ of South Carolina Columbia

Cooper, Brian J, Senior Lecturer, Geography, Ph.D., Texas State University

Currit, Nathan Allen, Associate Professor, Geography, Ph.D., Penn State University Park

Davio, Rebecca Lynn, Asst Professor of Practice, Geography, Ph.D., College of Saint Joseph

Day, Frederick A, Professor Emeritus, Geography, Ph.D., The Ohio State Univ Main Campus

DeHon, Rene, Senior Lecturer, Geography, Ph.D., Texas Tech University

Devine, Jennifer Ann, Assistant Professor, Geography, Ph.D., Univ of California-Berkeley
Bachelor of Arts (B.A.) Major in Geography

Minimum required: 120 semester hours

General Requirements

1. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA.
2. Geography required elective courses (16 hours) to be selected in consultation with your academic advisor.
3. The degree requires students to select a minor area of study from the approved list of minors offered at Texas State. Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, or Physics are minors that are highly recommended to complement your Geography major. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.
4. Texas State requires a minimum of 120 semester hours of coursework to graduate including:
   a. general education core curriculum requirements;
   b. major requirements;
   c. minor requirements;
   d. additional College/degree requirements, which include an additional sophomore English literature course and 14 hours of the same modern language (1410, 1420, 2310, 2320); and
   e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).

First Semester: 16

Second Semester: 17

Junior

First Semester: 15-16

Second Semester: 16

Senior

First Semester: 15

Second Semester: 12

Total Hours: 120-121

1. All majors must satisfy the pre-major requirements with grades of "C" or higher in each course.

2. Majors must complete at least 30 hours of Geography coursework including a Geography Techniques Course to be selected from: GEO 2426, GEO 3411, GEO 3416, or GEO 4430.

Bachelor of Science (B.S.) Major in Geographic Information Science

Minimum required: 120 semester hours

General Requirements

1. The B.S. degree requires a minimum of 36 semester hours of Geography. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 TxSt GPA.

2. All majors must satisfy the pre-major requirements with grades of "C" or higher in each course.

3. Required Core Courses:

6. This major also requires an additional three hours of computer science or three hours of mathematics beyond the general education core curriculum requirement. (CS 1308 or higher, CIS 1323 or higher, MATH 1317 or higher). Does not count toward 36 required geography hours.

7. The degree requires that students select a minor from the approved list of minors. Various minors may be appropriate depending upon a student’s interests and career goals. Discuss possible options with your advisor.

8. Texas State requires a minimum of 120 semester hours of coursework to graduate including:

a. general education core curriculum requirements;

b. major requirements;

c. minor requirements

d. additional College/degree requirements, which include either an additional sophomore English literature course or ENG 3303—Technical Writing and 8 hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required); and

e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation, of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).
Bachelor of Science (B.S.) Major in Geography

Minimum required: 120 semester hours

General Requirements

1. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA.
2. Geography required elective courses (22 hours) to be selected in consultation with your academic advisor.

3. The degree requires students to select a minor area of study from the approved list of minors offered at Texas State. Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, or Physics are minors that are highly recommended to complement your Geography major. Other minors may be appropriate depending upon your interests and career goals. Discuss other possible options with your academic advisor.

4. Texas State requires a minimum of 120 semester hours of coursework to graduate including:
   a. general education core curriculum requirements;
   b. major requirements;
   c. minor requirements;
   d. additional College/degree requirements, which include an additional sophomore English literature course and 14 hours of the same modern language (1410, 1420, 2310, 2320); and
   e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).

**Bachelor of Science (B.S.) Major in Geography**

Minimum required: 120 semester hours

General Requirements

1. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA.
2. Geography required elective courses (22 hours) to be selected in consultation with your academic advisor.
Bachelor of Science (B.S.) Major in Geography (Teacher Certification in Social Studies, Grades 7-12: History Minor and Political Science Third Field)

Minimum required: 130 semester hours

General Requirements
1. This degree program requires a minimum of 130 semester hours of coursework to graduate including:
   a. general education core curriculum requirements
   b. major requirements;
   c. second and third teaching field requirements;
   d. additional degree requirements, which include either an additional sophomore English literature course or ENG 3303 (Technical Writing) and 8 hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required); and
   e. additional elective courses, as needed, to achieve the minimum 130 hours required for graduation, of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).
2. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA, at least a 2.50 major GPA for Geography, and a 2.50 GPA in the second and third teaching fields. In addition, students must make a “C” or higher in certain Core classes and in all coursework pertaining to each teaching field.
3. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).
4. This option in secondary teacher certification requires completion of the following 36 hours in Geography:
   - GEO 1309 Introduction to Cultural Geography 3
   - GEO 1310 World Geography 3
   - GEO 2410 Introduction to Physical Geography 4
   - GEO 2426 Fundamentals of Geographic Information Systems 4
   - GEO 3301 Research Methods in Geography 3
   - GEO 3303 Economic Geography 3
   - GEO 3309 United States and Canada 3
   - GEO 3313 Natural Resource Use and Management 3
   - GEO 4313 Environmental Management 3
   - GEO 3329 Geography of Texas 3
   - GEO 4340 Fundamental Themes in Geography 3
   - OR one additional techniques course from:
     - GEO 3411 Maps and Mapmaking 4
     - GEO 3416 Principles of Remote Sensing 4
     - GEO 3426 Advanced GIS 4
     - GEO 4430 Field Methods 4
   - OR two additional courses from (consult with your advisor):
     - GEO 3307 Geography of Europe 3
     - GEO 3308 Latin America 3
     - GEO 3328 Geography of North Africa and the Middle East 3
     - GEO 3332 Geography of South and Southeast Asia 3
     - GEO 3333 Geography of China and Japan 3
     - GEO 4306 Geography of the Southwest 3
     - GEO 4328 Geography of the Russian Realm 3

   Total Hours: 36

5. The minor in History (24 hours) requires completion of the following History courses:
   - HIST 1310 History of the United States to 1877 3
   - HIST 1320 History of the United States, 1877 to Date 3
   - HIST 2311 History of World Civilization to the 17th Century 3
   - HIST 2312 History of World Civilization from the 17th Century 3
   - Advanced Group A (World History) 3
   - Advanced Group B (European History) 3
   - HIST 3372 Texas History: A Survey 3
   - HIST 4300 Social Studies Resources and Practices 3

   Total Hours: 24

6. The third field in Political Science (15 hours) requires completion of the following courses:
   - POSI 2310 Principles of American Government 3
   - POSI 2320 Functions of American Government 3
   - Group 3 (Public Law) 6
   - Select one of the following: 3
     - POSI 3310 Constitutional Law: Basic Structures and Principles 3
     - POSI 3311 Constitutional Law: Individual Liberties 3
     - POSI 4311 The Supreme Court and the Judicial Process 3

   Total Hours: 15

7. In addition to the major, minor, and third field requirements, students must also complete 21 hours of professional sequence courses through the College of Education:
   - CI 4370 Classroom Management, Ethics, and Legal Issues in Secondary Teaching 3
   - CI 3325 Adolescent Growth and Development 3
Bachelor of Science (B.S.) Major in Geography (Teacher Certification in Social Studies, Grades 7-12: History Minor and Political Science Third Field)

| CI 4332 | Secondary Teaching: Curriculum and Technology | 3 |
| CI 4343 | Instructional Strategies for the Secondary Teacher | 3 |
| RDG 3323 | Teaching Reading in the Content Areas | 3 |
| EDST 4681 | Student Teaching 8-12 (Student Teaching) | 6 |

All coursework must be completed prior to student teaching.

Bachelor of Science (B.S.) Major in Geography Resource and Environmental Studies

Minimum required: 120 semester hours

General Requirements

1. The B.S. degree requires a minimum of 36 semester hours of Geography. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA.

2. All majors must satisfy the pre-major requirements with grades of "C" or higher in each course:
   - GEO 1309 Introduction to Cultural Geography 3
     or GEO 1310 World Geography
   - GEO 2410 Introduction to Physical Geography 4
   - GEO 2426 Fundamentals of Geographic Information Systems
   - GEO 3301 Research Methods in Geography 3

3. Required Core Courses:
   Select one of the following options: 3-6

   **Option A:**
   - GEO 2310 Introduction to Environmental Geography
   - GEO 3313 Natural Resource Use and Management

   **Option B:**
   - GEO 2310 Introduction to Environmental Geography
     or GEO 3313 Natural Resource Use and Management

   Select at least two of the following:
4. Required Capstone Course: GEO 4313.

5. Required Techniques Courses: At least one course from:
   - GEO 3411 Maps and Mapmaking 4
   - GEO 3416 Principles of Remote Sensing 4
   - GEO 4430 Field Methods 4

6. Geography Required Electives: In consultation with an advisor, select from the following courses to bring the required Geography hours to 36.
   - GEO 1305 Meteorology 3
   - GEO 3134 Water Quality Monitoring and Management 1
   - GEO 3303 Economic Geography 3
   - GEO 3305 Climatology 3
   - GEO 3310 Urban Geography 3
   - GEO 3320 Community and Regional Planning 3
   - GEO 3325 Geomorphology 3
   - GEO 3335 Oceanography 3
   - GEO 3340 Political Geography 3
   - GEO 3349 Population Geography 3
   - GEO 3426 Advanced GIS 4
   - GEO 4309 Cultural Ecology 3
   - GEO 4310 Regional Field Studies 3
   - GEO 4314 River Basin Management 3
   - GEO 4316 Landscape Biogeography 3
   - GEO 4322 Interpretive Environmental Geography 3
   - GEO 4325 Fluvial Processes 3
   - GEO 4326 Parks and Protected Places 3
   - GEO 4334 Groundwater Resources 3
   - GEO 4339 Environmental Hazards 3
   - GEO 4341 Water Policy 3
   - GEO 4380 Internship in Geography 3
   - GEO 4412 Digital Remote Sensing 4

Students may select one regional course as a Geography Elective from the following:
   - GEO 3307 Geography of Europe
   - GEO 3308 Latin America
   - GEO 3309 United States and Canada
   - GEO 3328 Geography of North Africa and the Middle East
   - GEO 3329 Geography of Texas
   - GEO 3332 Geography of South and Southeast Asia
   - GEO 3333 Geography of China and Japan
   - GEO 4306 Geography of the Southwest
   - GEO 4328 Geography of the Russian Realm

Depending upon your interests and career goals. Discuss other possible options with your academic advisor.

8. Texas State requires a minimum of 120 semester hours of coursework to graduate including:
   a. general education core curriculum requirements;
   b. major requirements;
   c. minor requirements
   d. additional College/degree requirements, which include either an additional sophomore English literature course or ENG 3303—Technical Writing and 8 hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required); and
   e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).

Bachelor of Science (B.S.) Major in Geography Urban and Regional Planning

Minimum required: 120 semester hours

General Requirements

1. The B.S. degree requires a minimum of 36 semester hours of Geography. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA.

2. All majors must satisfy the pre-major requirements with grades of "C" or higher in each course:
   - GEO 1309 Introduction to Cultural Geography 3
   - GEO 1310 World Geography 3
   - GEO 2410 Introduction to Physical Geography 4
   - GEO 2426 Fundamentals of Geographic Information Systems 4
   - GEO 3301 Research Methods in Geography 3

3. Required Core Courses:
   - GEO 3310 Urban Geography 3
   - GEO 3320 Community and Regional Planning 3
   - GEO 4321 Cities and Urban Design 3
   - GEO 4338 Planning Practicum 3

4. Required Techniques Courses: At least one course from:
   - Select one of the following:
     - GEO 3411 Maps and Mapmaking
     - GEO 3416 Principles of Remote Sensing
     - GEO 3426 Advanced GIS
     - GEO 4380 Internship in Geography
     - GEO 4430 Field Methods

5. This major also requires an additional three hours of ENG 3303 with a grade of "C" or higher (does not count toward the required Geography hours).

6. Geography Required Electives: In consultation with an advisor, select from the following courses to bring the required Geography hours to 36.
   - GEO 3303 Economic Geography 3
   - GEO 3313 Natural Resource Use and Management 3
   - GEO 3321 Energy Resource Management 3
   - GEO 3323 Location Analysis 3
   - GEO 3340 Political Geography 3

7. The degree requires that students select a minor from the approved list of minors. Minors may be any approved Texas State minor. Students interested in entering the professional planning field are strongly advised however, to consider a minor in Public Administration, Business Administration, or Construction Technology. Other minors may be appropriate depending on career goals. Plan to discuss choice of minor as well as selection of elective courses with your academic advisor.

8. Texas State requires a minimum of 120 semester hours of coursework to graduate including:
   a. general education core curriculum requirements;
   b. major requirements;
   c. minor requirements
   d. additional College/degree requirements, which include either an additional sophomore English literature course or ENG 3303—Technical Writing and 8 hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required); and
   e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).
### Bachelor of Science (B.S.) Major in Geography Water Resources

**Minimum required: 120 semester hours**

#### General Requirements

1. The B.S. degree requires a minimum of 37 semester hours of Geography. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA.

2. All majors must satisfy the pre-major requirements with grades of "C" or higher in each course:
   - GEO 1309 Introduction to Cultural Geography 3
   - or GEO 1310 World Geography
   - GEO 2410 Introduction to Physical Geography 3
   - GEO 2426 Fundamentals of Geographic Information Systems
   - GEO 3301 Research Methods in Geography 3

3. Required Core Courses:
   - GEO 3305 Climatology 3
   - GEO 3434 Water Resources 4
   - GEO 4314 River Basin Management 3
   - GEO 4325 Fluvial Processes 3
   - GEO 4334 Groundwater Resources 3
   - or GEOL 4421 Hydrogeology
   - GEO 4341 Water Policy 3

4. Required Techniques Courses: At least one course from:
   - GEO 3411 Maps and Mapmaking 4
   - GEO 3416 Principles of Remote Sensing 4
   - GEO 4430 Field Methods 4

5. The degree requires students to select a minor area of study from the approved list of minors. Minors may be any approved Texas State minor. Biology, Chemistry, Geology, Political Science, Anthropology, Business Administration, Plant and Soil Science, or Nature and Heritage Tourism are highly recommended to complement your Geography major in Water Studies.

6. Texas State requires a minimum of 120 semester hours of coursework to graduate including:
   a. general education core curriculum requirements;
   b. major requirements;
   c. minor requirements
   d. additional College/degree requirements, which include either an additional sophomore English literature course or ENG 3303—Technical Writing and 8 hours of modern language (if students completed two years of the same modern language in high school, then no additional courses are required); and
   e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI).

Total Hours: 120
Bachelor of Science (B.S.) Major in Physical Geography

Minimum required: 120 semester hours

General Requirements

1. The B.S. degree requires a minimum of 36 semester hours of Geography. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA.

2. All majors must satisfy the pre-major requirements with grades of "C" or higher in each course:

   - GEO 1309: Introduction to Cultural Geography
   - GEO 1310: World Geography
   - GEO 2410: Introduction to Physical Geography
   - GEO 2426: Fundamentals of Geographic Information Systems
   - GEO 3301: Research Methods in Geography

3. Required Core Courses:

   - GEO 3305: Climatology
   - GEO 3325: Geomorphology
   - Select at least two courses from the following: (6)
     - GEO 1305: Meteorology
     - GEO 3335: Oceanography
     - GEO 4316: Landscape Biogeography

4. Required Techniques Courses: At least two courses from:

   - GEO 3411: Maps and Mapmaking
   - GEO 3416: Principles of Remote Sensing
   - GEO 3426: Advanced GIS
   - GEO 4324: GPS and GIS
   - GEO 4412: Digital Remote Sensing
   - GEO 4422: Web Mapping
   - GEO 4430: Field Methods

5. Geography Required Electives: In consultation with an advisor, select from the following courses to bring the required Geography hours to 36.

   - GEO 2310: Introduction to Environmental Geography
   - GEO 2420: Introduction to Geographic Information Techniques
   - GEO 2427: Management and Implementation of GIS
   - GEO 3321: Energy Resource Management
   - GEO 3434: Water Resources
   - GEO 3349: Population Geography
   - GEO 4310: Regional Field Studies
   - GEO 4313: Environmental Management
   - GEO 4314: River Basin Management
   - GEO 4325: Fluvial Processes
   - GEO 4334: Groundwater Resources
   - GEO 4339: Environmental Hazards
   - GEO 4350: Solid Waste Planning and Management
   - GEO 4380: Internship in Geography

   Student may select one regional course as a Geography Elective from the following:

   - GEO 3307: Geography of Europe
   - GEO 3308: Latin America
   - GEO 3309: United States and Canada
   - GEO 3328: Geography of North Africa and the Middle East
   - GEO 3329: Geography of Texas
   - GEO 3332: Geography of South and Southeast Asia
   - GEO 3333: Geography of China and Japan

Total Hours: 120
6. The degree requires that students select a minor from the approved list of minors. Minors may be any approved Texas State minor. Biology, Chemistry, Computer Science, Geology, Mathematics, or Physics minors are highly recommended to complement your Physical Geography Major. Other minors may be appropriate depending upon your interests and career goals. Discuss possible options with your advisor.

7. Texas State requires a minimum of 120 semester hours of coursework to graduate including:
   a. general education core curriculum requirements;
   b. major requirements;
   c. minor requirements
   d. additional College/degree requirements, which include either an additional sophomore English literature course or ENG 3303—Technical Writing and 8 hours of modern language if students completed two years of the same modern language in high school, then no additional courses are required; and
   e. additional elective courses, as needed, to achieve the minimum 120 hours required for graduation, of which 36 hours must be advanced (3000—4000) level courses, and at least 9 semester hours must be writing intensive (WI)

Certificate in Environmental Interpretation

The Texas State Department of Geography Environmental Interpretation Certificate provides the recipient with a relevant background in environmental interpretation to prepare students to work as interpretive guides in park and other tourism venues and work in the professional areas of public information/education in resource management agencies.

Applicants to the Environmental Interpretation Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for the Certificate (16 hours) - Students must complete the following with no grade less than a “C” and an overall average for the five classes of at least a 2.5.

Certificate in Geographic Information Science

The Texas State Department of Geography Geographic Information Science Certificate provides the recipient with a working knowledge of Geographic Information Science (GISci) in sufficient detail that they are prepared for professional positions involving the theoretical and applied aspects of implementing and administering a Geographic Information Science.

To the prospective employer, the certificate is a professional endorsement that the recipient has received five university level courses on issues fundamental to the design, implementation, and management of Geographic Information Science. A formal certificate issued by the
Texas State's College of Liberal Arts and a statement on the recipient's Texas State transcript recognize successful completion of the program.

Applicants to the Geographic Information Science Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for the Certificate (19-20 hours) - Student must complete the following with no grade less than a "C" and an overall average for the five classes of at least a 2.5.

Total Hours: 19-20

**Recommended Specializations**

**GIS**
- GEO 2426: Fundamentals of Geographic Information Systems
- GEO 3426: Advanced GIS
- GEO 4427: GIS Design and Implementation

**Remote Sensing**
- GEO 3416: Principles of Remote Sensing
- GEO 4412: Digital Remote Sensing

**Cartography**
- GEO 3411: Maps and Mapmaking
- GEO 4411: Advanced Cartographic Design
- GEO 4422: Web Mapping

**GPS**
- GEO 4324: GPS and GIS

For additional information and application process, discuss with an academic advisor or refer to http://www.geo.txstate.edu/degrees-programs/certificates.html.

**Certificate in Location Analysis**

The Texas State Department of Geography Location Analysis Certificate provides the recipient with a focused background to work as location analysis in the public and private sectors. Such persons analyze spatial data to identify and optimize locations for business and public activities. A formal certificate issued by the Texas State's College of Liberal Arts and a statement on the recipient's Texas State transcript recognize successful completion of the program.

Applicants to the Location Analysis Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for Certificate (16-17 hours) - Students must complete the following with no grade less than a "C" and an overall average for the five classes of at least a 2.5.

Total Hours: 16-17

**Certificate in Water Resources Policy**

The Texas State Department of Geography Water Resources Policy Certificate provides the recipient with a working knowledge of water resources in sufficient detail that they are prepared for professional positions involving water resources management and policy. To the prospective employer, the certificate is a professional endorsement that the recipient has received four university level courses on issues fundamental to water resources management and policy. A formal certificate issued by the Texas State's College of Liberal Arts and a statement on the recipient's Texas State transcript recognize successful completion of the program.

Applicants to the Water Resources Policy Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

Requirements for Certificate (16-17 hours) - Student must complete the following with no grade less than a "C" and an overall average for the five classes of at least a 2.5.

</tbody>
</table>

Total Hours: 16-17

For additional information and application process, discuss with an academic advisor or refer to: http://www.geo.txstate.edu/degrees-programs/certificates.html.

**Minor in Geography**

Texas State Geography offers a wide range of content courses that can provide distinct career preparation and competitive advantages to many majors. Students pursuing a Geography minor may choose to focus their studies in these areas: Urban Planning and Land Development; Water Studies; Geographic Information Science; Regional International Studies; Physical Geography/Earth Science; Environmental Resource Management; or Cultural Geography and Demographics.

A Geography Minor requires a minimum of 19 semester hours including:
GEO 2410 Introduction to Physical Geography 4

Select one of the following: 3
GEO 1309 Introduction to Cultural Geography
GEO 1310 World Geography
GEO 3303 Economic Geography

Geography electives, 9 of which must be at the advanced (3000-4000) level 12

Total Hours 19

Minors are encouraged to consult with a Geography Department Academic Advisor to select courses to design the Geography minor.

**Minor in Geology**

Geology is the science and study of the solid matter of the Earth, its composition, structure, physical properties, history, and the processes that shape it. A geology minor is an ideal complement to a number of majors in the natural, social, and applied sciences.

A minor in geology requires 19 hours, including:

- **GEOL 1410** Physical Geology 4
- **GEOL 1420** Historical Geology 4
- **GEOL 2410** Mineralogy 4

Select at least one of the following: 4
- GEOL 3400 Petrology
- GEOL 3410 Sedimentation and Stratigraphy
- GEOL 3430 Structural Geology
- GEOL 3440 Paleontology and Biostratigraphy
- GEOL 4421 Hydrogeology

Select at least three hours from the following: 3
- ANTH 3338 Geoaquaculture
- GEOL 3325 Geomorphology
- GEOL 4325 Fluvial Processes
- GEOL 4121 Directed Study
- GEOL 4320 Topics in Field Geology
- GEOL 4321 Directed Study
- GEOL 4421 Hydrogeology

Total Hours 19

**Minor in Nature and Heritage Tourism**

Nature and Heritage Tourism is the most rapidly growing segment of the overall tourism industry. The minor in Nature and Heritage Tourism concentrates on planning, development and management of nature and heritage tourism activities that have a strong learning content. A minor in Nature and Heritage Tourism requires a minimum of 18 semester hours of coursework:

**Core Courses**

- **NHT 4301** Planning and Development of Nature and Heritage Tourism 3
- **NHT 4302** Internship in Nature and Heritage Tourism 3
- **GEO 4322** Interpretive Environmental Geography 3
- **GEO 4326** Parks and Protected Places 3

**Electives**

Select six hours from the following (from at least two departments outside of the student’s major department): 6

- AG 3318 Agricultural Business Management
- AG 3321 Range Management
- AG 3351 Agricultural Marketing and Sales
- AG 3426 Soil Science I
- AG 3427 Soil Science II
- AG 4383 Agricultural Resource Economics
- ANTH 2415 Introduction to Archaeology
- ANTH 3301 Principles of Cultural Anthropology
- ANTH 3306 World Prehistory
- ANTH 3314 Latin American Cultures
- ANTH 3315 Archaeology of the Southwest
- ANTH 3318 Texas Archaeology
- ANTH 3324 Mexican American Culture
- ANTH 3332 Myths and Moundbuilders
- ANTH 3333 North American Indians
- ANTH 3345 Archaeology of Mexico
- ANTH 3347 Archaeology of North America
- ANTH 4320 Rise of Civilization
- ANTH 4630 Archaeological Field School
- BIO 4304 Wildlife and Recreation: Impact, Policy, and Management
- BIO 4305 Nature Study
- BIO 4410 Field Biology of Plants
- BIO 4415 Ichthyology
- BIO 4416 General Ecology
- BIO 4420 Natural History of the Vertebrates
- BIO 4421 Ornithology
- BIO 4422 Mammalogy
- BIO 4423 Wildlife Management
- BIO 4434 Herpetology
- ENG 3345 Southwestern Studies I: Defining the Region
- ENG 3346 Southwestern Studies II: Consequences of Region
- ENG 4325 Literature of the Southwest
- GEO 2410 Introduction to Physical Geography
- GEO 3307 Geography of Europe
- GEO 3308 Latin America
- GEO 3309 United States and Canada
- GEO 3313 Natural Resource Use and Management
- GEO 3325 Geomorphology
- GEO 3328 Geography of North Africa and the Middle East
- GEO 3329 Geography of Texas
- GEO 3332 Geography of South and Southeast Asia
- GEO 3333 Geography of China and Japan
- GEO 3335 Oceanography
- GEO 3411 Maps and Mapmaking
- GEO 4306 Geography of the Southwest
- GEO 4313 Environmental Management
- GEO 4314 River Basin Management
- GEO 4316 Landscape Biogeography
- GEO 4328 Geography of the Russian Realm
Bachelor of Arts (B.A.)
- Major in History (p. 465)
- Major in History (Single Field Teacher Certification in History, Grades 7-12) (p. 467)
- Major in History (Two Fields Teacher Certification in History, Grades 7-12) (p. 477)
- Major in History (Teacher Certification in Social Studies, Grades 7-12: Geography Minor and Political Science Third Field) (p. 470)
- Major in History (Teacher Certification in Social Studies, Grades 7-12: Political Science Minor and Geography Third Field) (p. 474)

Minors
- History (p. 480)
- Second Teaching Field in History (Grades 7-12) (p. 482)

Courses in History (HIST)
HIST 2310 or HIST 2311 and HIST 2320 or HIST 2312 are open to all students regardless of classification. However, it must be understood that HIST 2310 or HIST 2311 and HIST 2320 or HIST 2312 will not satisfy the legislative requirement in American history. Students majoring in fields other than history would be well advised to begin with HIST 1310 or HIST 1320.

HIST 1310. History of the United States to 1877.
A general survey of the history of the United States from its settlement to the end of Reconstruction. (MC/P) (WI).
Course Attribute(s): American History Core|Multi.Content & Perspective|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 1301

HIST 1320. History of the United States, 1877 to Date.
A general survey of the history of the United States from Reconstruction to present. (MC/P) (WI).
about History of the United States, 1877 to Date
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): American History Core|Multi.Content & Perspective|Writing Intensive
Grade Mode: Standard Letter

A general survey of the history of the United States from Reconstruction to present. (MC/P) (WI).
about History of the United States, 1877 to Date
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): American History Core|Multi.Content & Perspective|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 1302

HIST 2310. Western Civilization to 1715.
A general survey of western civilization from earliest times to the end of the 17th century. (MC) (WI).
about Western Civilization to 1715
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2311

about Western Civilization to 1715
HIST 2311. History of World Civilization to the 17th Century.
A general survey of world civilization from the earliest times to the 17th Century. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2321

about History of World Civilization to the 17th Century

HIST 2312. History of World Civilization from the 17th Century.
A general survey of world civilization from the 17th Century to the present. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2322

about History of World Civilization from the 17th Century

HIST 2320. Western Civilization, 1715 to Date.
A general survey of western civilization from the Treaty of Utrecht to the present. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2312

about Western Civilization, 1715 to Date

HIST 3310. History of Europe, 1815-1919.
The background, course, and results of World War I, with emphasis on imperialism, diplomatic alliances, and nationalistic rivalries from the Congress of Vienna to the Paris peace settlements. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 3310

about History of Europe, 1815-1919

HIST 3311. History of Europe Since 1919.
The rise of Communism, Fascism, and Nazism; the background of World War II, and the post-war problems of peace. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about History of Europe Since 1919

HIST 3312. Renaissance and Reformation.
The cultural, political, and economic changes that marked the transition from the Middle Ages in Europe to the modern period; special attention to the decline of the medieval church and the Protestant revolt. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Renaissance and Reformation

HIST 3313. Europe During the Old Regime, 1600-1760.
A study of European society and institutions in the 17th and 18th centuries with special attention to the development of absolute and constitutional monarchy, the scientific revolution, and the intellectual ferment of the Enlightenment. (MC) (WI).

Grade Mode: Standard Letter
about The History of Texas Music

Emphasis will be on significant critical issues in Texas history. Topics will include: Mexican independence, Texas and U.S. expansion, the Texas Revolution and the Mexican War, the Civil War and Reconstruction, Spindletop, the Depression and WWII, and the rise of urban, high-tech Texas. (WI).
about Critical Issues in Texas History
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
about Critical Issues in Texas History

People of African ancestry have played a role in Texas history since Estebanico accompanied Cabeza de Vaca in exploring the region in the 1530s. As slaves, soldiers, and cowboys, Afro-Texans have participated in the state's development while being at the center of controversies regarding rights, racemixing and economic opportunity. (WI).

about The History of Texas Music
HIST 4380. Historical Resources and Practices.
This course is required for students seeking teacher certification in History. This course is an introductory methods course designed to familiarize students with general historical practice and its application in secondary teaching. Prerequisite: Departmental approval required. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Historical Resources and Practices

HIST 4388. Problems in History.
This is an independent study course open to advanced students on an individual basis. Repeatable for credit with different emphasis. Prerequisite: Approval of the Department Chair. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Problems in History

HIST 4390. History Practicum.
Researching, Writing, and Publishing Local History. This course will involve students in researching, writing, and publishing short historical guidebooks to sites/areas such as San Marcos, San Antonio, Fredericksburg, etc. Using desk-top publishing techniques, which are to be taught, the short (24-48 pages) guidebooks will be produced and marketed by the class. (WI).
about History Practicum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about History Practicum

HIST 4399. Senior Seminar.
This course is required for History majors not seeking teaching certification. In this course students refine skills and techniques essential to the historical profession. Students analyze primary and secondary sources, apply methods, and write a term paper. Prerequisite: 24 semester credit hours in History with a grade point average of at least 2.25 in those hours. (WI).
about Senior Seminar
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Total Hours: 33

1 In choosing advanced History electives, students are required to complete one course from Group A (World History), one course from Group B (European History), one course from Group C (U.S. History), and three courses from any Group as long as no more than three courses are taken from any one group. (See Group lists below).

2. Majors must satisfy general education core curriculum and B.A. requirements.

3. Majors must complete an approved minor. See minors in the Degrees and Programs section of this catalog.

4. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the 120 and/or 36 advanced hours requirement.

1 Course allowable for credit in more than one group. Such courses may not be taken to satisfy more than one group.

**Bachelor of Arts (B.A.) Major in History (Teacher Certification in Social Studies, Grades 7-12: Geography Minor and Political Science Third Field)**

**Minimum required: 130 semester hours**

**General Requirements**

1. This option is designed to prepare students for secondary teacher certification in the social studies disciplines: History, Geography, Government, and Economics.

2. Majors must satisfy general education core curriculum, teacher certification, and B.A. requirements.

3. The Social Studies Composite with a History major, Geography minor, and Political Science third field requires 30 hours of History, including:

**Advanced HIST Electives 1**

**Total Hours** 30

1 In choosing advanced History electives, students are required to complete one advanced course from Group A (World History), one advanced course from Group B (European History), one advanced course from Group C (U.S. History), and one advanced course from either Group A or B.

The minor in Geography (16 hours) requires the following:
The third field in Political Science (15 hours) requires the following:

- **POSI 2310** Principles of American Government 3
- **POSI 2320** Functions of American Government 3
- **Group 2 (American Government)** 6
- **Group 3 (Public Law)**
  - Select three hours from the following:
    - **POSI 3310** Constitutional Law: Basic Structures and Principles
    - **POSI 3311** Constitutional Law: Individual Liberties
    - **POSI 4311** The Supreme Court and the Judicial Process

**Total Hours** 15

4. In addition to the major, minor, and third teaching field requirements, students must also complete 21 hours of professional sequence courses under the College of Education:

- **CI 4332** Secondary Teaching: Curriculum and Technology 3
- **CI 3325** Adolescent Growth and Development 3
- **CI 4370** Classroom Management, Ethics, and Legal Issues in Secondary Teaching 3
- **CI 4343** Instructional Strategies for the Secondary Teacher 3
- **RDG 3323** Teaching Reading in the Content Areas 3
- **EDST 4681** Student Teaching 8-12 6

**Total Hours** 21

5. To be accepted into the Teacher Preparation program, students must possess a 2.75 overall GPA and they must apply through the Office of Educator Preparation. Students should apply to the program the semester before they plan to take any CI courses.

### Bachelor of Arts (B.A.) Major in History (Teacher Certification in Social Studies, Grades 7-12: Geography Minor and Political Science Third Field)

#### First Semester
- **HIST Advanced Group Electives**: 6 HIST 4300
- **EDST 4681**: 3

#### Second Semester
- **HIST 4300**: 3
- **EDST 4681**: 4

#### Third Semester
- **HIST Advanced Group Electives**: 9
- **Education Block**: 3
- **CI 4370**: 3
- **CI 4343**: 3
- **RDG 3323**: 3

**CI 3325**: 3
- **HIST Advanced Group Electives**: 3
- **CI 4370**: 3

**GEO 3329**: 3
- **Life and Physical Sciences**: 3

**Total Hours**: 130

1. Must be completed with a grade of "C" or higher.
2. Must be completed with a grade of "B" or higher. If the grade is lower than a "B", then an interview will need to be scheduled with the Office of Educator Preparation (OEP).
3. ECO 2301 or ECO 2314 is recommended to satisfy the Social and Behavioral Sciences component in the general education core curriculum since Economics is a teaching subject that is covered on the Social Studies Composite TExES exam.
4. Students must also maintain a 2.5 GPA in the teaching field, and all required coursework must be completed before student teaching (EDST 4681).

### HIST Advanced Group Electives

#### Group A - World History
- **HIST 3319**: Colonial History of Brazil
- **HIST 3320**: History of Mexico
- **HIST 3322**: Colonial History of Latin America to 1828
- **HIST 3324**: Latin America from Independence to Present
- **HIST 3325F**: Militarism in Latin America
- **HIST 3325G**: Modern Revolutions in Latin American History
- **HIST 3325H**: Development and Underdevelopment in Latin America
- **HIST 3326**: The Southern Cone of Latin America
- **HIST 3327**: History of Mexico to 1848
- **HIST 3329**: Spanish Borderlands, 1521-1821
- **HIST 3368F**: History of U.S. Foreign Policy-Making in the Muslim World
- **HIST 3368N**: History of U.S. Foreign Policy in Indochina

#### Group B - European History
- **HIST 3310**: History of Europe, 1815-1919
- **HIST 3311**: History of Europe Since 1919
- **HIST 3312**: Renaissance and Reformation
- **HIST 3313**: Europe During the Old Regime, 1600-1760
- **HIST 3314**: Revolutionary Europe, 1760-1815
- **HIST 3315**: History of England to 1603
- **HIST 3316**: History of England Since 1603
- **HIST 3358**: The Military History of the Western World
- **HIST 3361**: The Napoleonic Wars
- **HIST 3368B**: Courts and Society in Early America
- **HIST 4303**: Ancient Greece and the Mediterranean World, 1600 B.C. to 30 B.C.

Course allowable for credit in more than one group. Such courses may not be taken to satisfy more than one group.

**Bachelor of Arts (B.A.) Major in History (Teacher Certification in Social Studies, Grades 7-12: Political Science Minor and Geography Third Field)**

**Minimum required: 130 semester hours**

**General Requirements**

1. This option is designed to prepare students for secondary teacher certification in the social studies disciplines: History, Geography, Government, and Economics.
2. Majors must satisfy general education core curriculum, teacher certification, and B.A. requirements.
3. The Social Studies Composite with a History major, Political Science minor, and Geography third field requires 30 hours of History, including:
   - HIST 1310 History of the United States to 1877 3
   - HIST 1320 History of the United States, 1877 to Date 3
   - HIST 2311 History of World Civilization to the 17th Century 3
   - HIST 2312 History of World Civilization from the 17th Century 3
   - HIST 3372 Texas History: A Survey 3
   - HIST 4300 Social Studies Resources and Practices 3
   - Advanced HIST Electives 1 12
   **Total Hours 30**

   1 In choosing advanced History electives, students are required to complete one advanced course from Group A (World History), one advanced course from Group B (European History), one advanced course from Group C (U.S. History), and one advanced course from either Group A or B.

The minor in Political Science (21 hours) requires the following:
   - POSI 2310 Principles of American Government 3
   - POSI 2320 Functions of American Government 3
   - POSI 3300 Basic Political Ideas 3
   or POSI 3301 Basic Political Institutions
   **Group II (American Government) 6**
   **Group III (Public Law)**
   Select three hours from the following:
   - POSI 3310 Constitutional Law: Basic Structures and Principles 3
   - POSI 3311 Constitutional Law: Individual Liberties
   - POSI 4311 The Supreme Court and the Judicial Process
   - POSI 4398 Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics 3
   **Total Hours 21**

The third field in Geography (10 hours) requires the following:
   - GEO 1309 Introduction to Cultural Geography 3
   or GEO 1310 World Geography
   - GEO 2410 Introduction to Physical Geography 4
   - GEO 3303 Economic Geography 3
   or GEO 3309 United States and Canada
   **Total Hours 10**

4. In addition to the major, minor, and third teaching field requirements, students must also complete 21 hours of professional sequence courses under the College of Education:
   - CI 4332 Secondary Teaching: Curriculum and Technology 3
   - CI 3325 Adolescent Growth and Development 3
   - CI 4370 Classroom Management, Ethics, and Legal Issues in Secondary Teaching 3
   - CI 4343 Instructional Strategies for the Secondary Teacher 3
   - RDG 3323 Teaching Reading in the Content Areas 3
   - EDST 4681 Student Teaching 8-12 6
   **Total Hours 21**

To be accepted into the Teacher Preparation program, students must possess a 2.75 overall GPA and they must apply through the Office of Educator Preparation (p. 232). Students should apply to the program the semester before they plan to take any CI courses.

Bachelor of Arts (B.A.) Major in History (Two Fields Teacher Certification in History)

Minimum required: 129 semester hours

### General Requirements

1. This option is designed to prepare majors for secondary teacher certification in both History and a second teaching field.

2. The major requires 33 hours, including:
   - HIST 1310 History of the United States to 1877 3
   - HIST 1320 History of the United States, 1877 to Date 3
   - HIST 2311 History of World Civilization to the 17th Century 3
   - HIST 2312 History of World Civilization from the 17th Century 3
   - HIST 3372 Texas History: A Survey 3
   - HIST 4380 Historical Resources and Practices 3
   - Advanced history electives 1 15

**Total Hours**

33

1. Students are required to take one course from Group A (World History), one course from Group B (European History), two courses from Group C (U.S. History), and one course from either Group A or B.

3. Majors must complete all requirements associated with an approved second teaching field.

4. Majors must satisfy general education core curriculum, teacher certification, and B.A. requirements.

5. In addition to the first and second teaching field, students must also complete 21 hours of professional sequence courses under the College of Education:
   - CI 4332 Secondary Teaching: Curriculum and Technology 3
   - CI 3325 Adolescent Growth and Development 3
   - CI 4370 Classroom Management, Ethics, and Legal Issues in Secondary Teaching 3
   - CI 4343 Instructional Strategies for the Secondary Teacher 3
   - RDG 3323 Teaching Reading in the Content Areas 3
   - EDST 4681 Student Teaching 8-12 6

**Total Hours**

21

6. To be accepted into the Teacher Preparation program, students must possess a 2.75 overall GPA and they must apply through the Office of Educator Preparation (p. 232). Students should apply to the program the semester before they plan to take any CI courses.

**Total Hours: 129**

1. Must be completed with a grade of "C" or higher.
2. Must be completed with a grade of "B" or higher. If the grade is lower than a "B", then an interview will need to be scheduled with the Office of Educator Preparation (OEP).
3. ECO 2301 or ECO 2314 is recommended to satisfy the Social and Behavioral Sciences component of the general education core curriculum.
4. Students must also maintain a 2.5 GPA in the teaching field, and all required coursework must be completed before student teaching (EDST 4681).

The Department of Modern Languages offers courses in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, and Spanish. Instruction focuses on the acquisition of proficiency in the foreign language and on the development of knowledge of the culture, traditions, and literature of the speakers of the language. The department also offers a number of study abroad opportunities. Majors in French, German, or Spanish complete 24 hours of upper division course work and may simultaneously earn teacher certification.

People proficient in a second language have always been in demand in both the public and private sectors. They facilitate communication among people and nations and make possible the free interchange of information, ideas, and transactions. Career opportunities abound in such diverse fields as international business, international law, foreign affairs, translation, interpretation, politics, publishing, and teaching.

**B.A. Modern Language Requirement**

Students seeking a BA degree are required to successfully complete an intermediate proficiency level in a modern language of their choice. Most students will need to complete the first year of the language (1410 and 1420) before beginning the intermediate level. Students can choose 6 hours from:

- **ASL 2310** Intermediate American Sign Language I
- **ASL 2320** and Intermediate American Sign Language II
- **ARAB 2310** Intermediate Arabic I
- **ARAB 2320** and Intermediate Arabic II
- **CHI 2310** Intermediate Chinese I
- **CHI 2320** and Intermediate Chinese II
- **FR 2310** Intermediate French I
- **FR 2320** and Intermediate French II
- **GER 2310** Intermediate German I
- **GER 2320** and Intermediate German II
- **ITAL 2310** Intermediate Italian I
- **ITAL 2320** and Intermediate Italian II
- **JAPA 2310** Intermediate Japanese I
- **JAPA 2320** and Intermediate Japanese II
- **LAT 2310** Intermediate Latin
- **LAT 2320** and Intermediate Latin

**SPAN 2310** Intermediate Spanish I
**& SPAN 2320** and Intermediate Spanish II

Students who choose Spanish as their foreign language, must earn a grade of "C" or higher in each course (SPAN 1410, SPAN 1420, SPAN 2310, and SPAN 2320) to advance to the next level course.

**Bachelor of Arts (B.A.)**

- Major in French (p. 495)
- Major in French (Teacher Certification in French, Grades EC-12) (p. 496)
- Major in German (p. 497)
- Major in German (Teacher Certification in German, Grades EC-12) (p. 497)
- Major in Spanish (p. 498)
- Major in Spanish (Teacher Certification in Spanish, Grades EC-12) (p. 499)

**Minors**

- French
- German (p. 500)
- Japanese (p. 500)
- Spanish (p. 500)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Subjects in this department include:** ASL (p. 484), ARAB (p. 485), CHI (p. 485), FR (p. 486), GER (p. 488), ITAL (p. 489), JAPA (p. 490), LAT (p. 490), LING (p. 491), POR (p. 491), SPAN (p. 491).

**Courses in American Sign Language (ASL)**

Note: American Sign Language courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www_studyanywhere.txstate.edu/.

**ASL 1410. Beginning American Sign Language I.**
Introduction to understanding and using American Sign Language within the cultural framework of the deaf community.

4 Credit Hours. 4 Lecture Contact Hours. 1 Lab Contact Hour.

**Total Hours:** 24

1. Prerequisite to all other upper division courses, may be taken simultaneously with SPAN 3309.

2. Prerequisite to all other upper division courses in literature, may be taken simultaneously with SPAN 3308.

3. Majors must select a minor from the approved list of minors.

4. Majors must satisfy general education core curriculum, and B.A. requirements.

5. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).
Minor in French

A minor in French requires 15 upper division hours in the language. The first two years of beginning and intermediate level course work serve as prerequisites to all upper division courses. These prerequisites include FR 1410, FR 1420, FR 2310, and FR 2320.

FR 1410 Beginning French I 4
FR 1420 Beginning French II 4
FR 2310 Intermediate French I 3
FR 2310 Intermediate French II 3
Advanced Hours in French 15

1 Students may satisfy these prerequisites by passing a credit-bearing test (e.g. CLEP or departmental proficiency exam) or successfully completing the courses.

Minor in German

A minor in German requires 15 upper division hours in the language. The first two years of beginning and intermediate level course work serve as prerequisites to all upper division courses. These prerequisites include GER 1410, GER 1420, GER 2310, and GER 2320.

GER 1410 Beginning German I 4
GER 1420 Beginning German II 4
GER 2310 Intermediate German I 3
GER 2310 Intermediate German II 3
Advanced hours in German 15

1 Students may satisfy these prerequisites by passing a credit-bearing test (e.g. CLEP or departmental proficiency exam) or successfully completing the courses.

Minor in Japanese

A minor in Japanese requires 12 upper division hours in the language. The first two years of beginning and intermediate level course work serve as prerequisites to all upper division courses. These prerequisites include JAPA 1410, JAPA 1420, JAPA 2310, and JAPA 2320.

JAPA 1410 Beginning Japanese I 4
JAPA 1420 Beginning Japanese II 4
JAPA 2310 Intermediate Japanese I 3
JAPA 2310 Intermediate Japanese II 3
Advanced hours in Japanese 12

1 Students may satisfy these prerequisites by passing a credit-bearing test (e.g. CLEP or departmental proficiency exam) or successfully completing the courses.

Minor in Spanish

A minor in Spanish requires 15 upper division hours in the language. The first two years of beginning and intermediate level course work serve as prerequisites to all upper division courses. These courses are SPAN 1410, SPAN 1420, SPAN 2310, and SPAN 2320. In addition, SPAN 3308 is a prerequisite to all other upper division courses, and SPAN 3309 is a prerequisite to all other upper division literature courses.

SPAN 1410 Beginning Spanish I 4
SPAN 1420 Beginning Spanish II 4
SPAN 2310 Intermediate Spanish I 3
SPAN 2310 Intermediate Spanish II 3
Advanced hours in Spanish 15

1 Students may satisfy these prerequisites by passing a credit-bearing test (e.g. CLEP or departmental proficiency exam) or successfully completing the courses.

Department of Philosophy

Comal Building Room 102
T: 512.245.2285 F: 512.245.8335
www.txstate.edu/philosophy

Philosophy raises some of the most fundamental questions about our world and ourselves—questions about the nature of reality, knowledge, morality, God, and society. Students of philosophy study the thinking of major philosophers on such matters and learn to think critically and clearly on their own.

Since philosophy is the home of the study of logic and the principles of good argumentation, it lends itself well to being joined with virtually any course of study. Some philosophy majors pursue careers in business, journalism, law, medicine, and education. In these cases students recognize that the successful practitioner is the good thinker and turn to philosophy to develop their critical and creative powers. Other majors develop an interest in becoming professional philosophers and enroll in some of the nation’s best graduate programs in philosophy.

For those students with special interests in a particular area, the department offers the following recommendations:
Pre-Professional Study of Philosophy

Students interested in pursuing graduate work in philosophy are advised to take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 3320</td>
<td>Ethics</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 3340</td>
<td>Symbolic Logic</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 4356</td>
<td>Philosophical Theory of Knowledge</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 4370</td>
<td>Metaphysics</td>
<td>3</td>
</tr>
</tbody>
</table>

They should also develop a language proficiency in French or German.

Pre-Law

All pre-law students should consider an undergraduate major in philosophy, given the importance that both philosophy and law attach to analysis, argumentation, and the evaluation of evidence. Pre-law students should also consider taking the following electives:

<table>
<thead>
<tr>

Pre-Professional Study of Religion

A minor in religious studies is appropriate for various professional plans, including education, journalism, the arts, ministry, and graduate work in religious studies and other humanities and social sciences. Students interested in graduate work in religious studies should combine the minor with a major appropriate to their plans and interests.

Bachelor of Arts (B.A.)

- Philosophy (p. 507)

Minors

- Philosophy (p. 507)
- Religious Studies (p. 507)
- Value Studies (p. 508)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Subjects in this department include: PHIL (p. 501), REL (p. 504)

Courses in Philosophy (PHIL)

PHIL 1305. Philosophy and Critical Thinking.
A study of universal philosophical problems and their solutions with a view toward developing clear thinking about knowledge, belief, and value. Approximately one half of this course will focus on the student’s critical thinking skills. Credit cannot be given for both PHIL 1305 and PHIL 3301. (WI).

PHIL 1320. Ethics and Society.
Study of ethics, its recent focus on social problems, and new fields of inquiry, including environmental ethics, ethics in business, professions, technology and sport. Also such global issues as poverty, minority rights, and stem cell research. Emphasis on development and application of principles of critical thinking and moral reasoning. (WI).

PHIL 1330. Critical Thinking.
Study of informal fallacies, valid argument forms, problem solving strategies, language clarification, and application of analytic skills. About Critical Thinking

PHIL 2311. History of Philosophy Before 1600.
Early Greek, Roman, and medieval systems of thought. (MC) (WI).

PHIL 2312. History of Philosophy Since 1600.
Modern philosophical thought through the 19th century. (MC) (WI).

PHIL 2330. Elementary Logic.
A study of the nature and forms of correct reasoning, both deductive and inductive.

PHIL 2316. History of Philosophy Before 1600.

PHIL 2317. History of Philosophy Since 1600.

PHIL 2303. Elementary Logic.
A study of the nature and forms of correct reasoning, both deductive and inductive.

PHIL 3301. Philosophy and Critical Thinking.

PHIL 3302. Ethics and Society.

PHIL 3303. Critical Thinking.

PHIL 3304. History of Philosophy Before 1600.

PHIL 3305. History of Philosophy Since 1600.

PHIL 3306. Elementary Logic.
PHIL 3301. Philosophical Issues.
The great philosophical concepts that have challenged the best thoughts of people and have contributed to the fulfillment of the good life.
Emphasis upon the applicability of those concepts to human life in our time and to the development of intellectual perspective. Approximately one half of this course will focus on the student’s critical thinking skills.
Credit cannot be given for both PHIL 3301 and PHIL 1305. (WI).
Grade Mode: about Philosophical Issues
Course Attribute(s): 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Philosophical Issues

PHIL 3314. American Philosophy.
Examination of contributions of Americans to perennial philosophical issues. (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about American Philosophy

PHIL 3315. Contemporary Philosophy.
Selected readings in late 19th and 20th century philosophy; existentialism, positivism, analytic philosophy, phenomenology, and pragmatism. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Contemporary Philosophy

PHIL 3316. Existentialism and Phenomenology.
A study of the nature of human experience and existence in the philosophies of Kierkegaard, Nietzsche, Husserl, Heidegger, Sartre, Merleau-Ponty, and Camus. Topics will include freedom, dread, emotion, death, other minds, faith, and the past as experienced by the individual. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of instructor. (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Existentialism and Phenomenology

PHIL 3317. Science and Religion.
An examination of modern science and Western religion, and an analysis of the issues and ideas involved in the relationships between them.
Prerequisites: 3 hours of lower division PHIL, PHIL 3301, or consent of the instructor. (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Science and Religion

PHIL 3318. Reason, God and Nature.
An analysis of the concept of God, terms predicated on God, and theological propositions. An attempt to determine the nature of religious utterances in comparison with those of everyday life, scientific discovery, morality, and imaginative expression. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (Capstone) (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Reason, God and Nature

PHIL 3320. Ethics.
A study of classical and contemporary philosophical inquiries into our knowledge of the “good” and the grounds of moral obligation. May be repeated once for additional credit. (Capstone) Prerequisite: Three hours of lower division PHIL, PHIL 3301, or consent of the instructor. (WI).
Course Attribute(s): Exclude from 3-peat Processing/Writing Intensive
Grade Mode: Standard Letter about Ethics

Contemporary Moral Problems. (3-0) Exploration of philosophical dimensions of contemporary moral problems such as abortion, euthanasia, poverty, animal rights, nuclear war, and privacy in a computer age. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. May be repeated once for additional credit. (WI).
Course Attribute(s): Exclude from 3-peat Processing/Writing Intensive
Grade Mode: Standard Letter about Contemporary Moral Problems

PHIL 3322. Professional Ethics.
Study of major topics in business and professional ethics, including what a profession is, whether it differs from business, and what is involved with the moral education, social responsibilities, and ethical standards of professionals and business people. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (Capstone) (WI).
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Professional Ethics

PHIL 3323. Environmental Ethics.
Study of ethical issues associated with the environment including nature, use, preservation, and restoration of the environment.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter about Environmental Ethics
PHIL 3324. Meaning of Life.
Investigation of major theories of the meaning of life in Western and Eastern philosophies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Meaning of Life

PHIL 3325. Philosophy of Sex and Love.
Critical survey of major thinking on sex and love from ancient to modern times. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Philosophy of Sex and Love

PHIL 3326. Philosophy and Sport.
Examines philosophical issues in sport, including the social significance of sport, ethical issues, gender equity, sport and race, mind and body in sport, aesthetics, sport and self knowledge, and the connection of sport and philosophy. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Philosophy and Sport

PHIL 3331. Philosophy of Law.
The major theses which have been set forth in the history of jurisprudence including foundations of law, natural law, legal positivism, and the judicial process. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Philosophy of Law

PHIL 3332. Social and Political Philosophy.
Critical examination of major theories concerning the organization of societies and governments. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Social and Political Philosophy

PHIL 3333. Feminist Theory.
This course will examine major feminist theories including liberal feminism, Marxist feminism, radical feminism, and post-modernist feminism with an eye especially to revealing the complexity and diversity of contemporary feminist thought. Prerequisite: Three hours of lower division philosophy, PHIL 3301, WS 3376 or WS 3377, or permission of the instructor. (MC) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter
about Feminist Theory

PHIL 3334. Symbolic Logic.
Study of the logic of propositions through prepositional calculi, formal proofs, and first-order functional calculi. Also included is an investigation into the axiomatic method as used in logic and mathematics, including the concepts of completeness and consistency. Prerequisite: PHIL 2330, or MATH 2372, or consent of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Symbolic Logic

PHIL 3335. Philosophy and Literature.
The course explores the relation between philosophy and literature. Prerequisite: Three hours lower division PHIL, PHIL 3301, or consent of instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Philosophy and Literature

PHIL 4301. Applied Philosophy.
Practical application of methods and teaching of philosophy to religion, science, morality, politics, art, or literature. The study of one or more of these areas will demonstrate how philosophy contributes to the identification of issues as well as their resolution. May be repeated for credit. Prerequisite: 3 hours of lower division PHIL, PHIL 3301, or consent of instructor. (Capstone) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Excluded from 3-peat Processing Writing Intensive
Grade Mode: Standard Letter
about Applied Philosophy

PHIL 4302. Dialogue.
Study of literature about the nature, purpose, and significance of dialogue along with active participation in the dialogues of the Department of Philosophy's Dialogue Series. Prerequisite: PHIL 1305 or permission of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Excluded from 3-peat Processing Writing Intensive
Grade Mode: Standard Letter
about Dialogue

PHIL 4303. Philosophy of Technology.
Study of philosophical and ethical dimensions of technology including the nature of technology and technological progress, the relation of humans to the technological environment, whether technology is value laden, and the social character of technology. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Philosophy of Technology
PHIL 4350. Philosophy of the Arts.
A critical and historical analysis of the nature of aesthetic experience and creative genius. Prerequisite: three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (Capstone) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHIL 4351. Philosophy of Education.
Study of major philosophical theories on nature, values, and purpose of education. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHIL 4355. Philosophical Theory of Science.
Study of the major theories concerning the nature and value of science and the scientific method. Repeatable for credit with different emphasis. Prerequisite: 3 hours of lower division philosophy, PHIL 3301, or consent of instructor. (Capstone) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PHIL 4356. Philosophical Theory of Knowledge.
A study of the major theories concerning knowledge, belief, certainty, and perception. Repeatable for credit with different emphasis. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

PHIL 4370. Metaphysics.
Systematic study of metaphysical problems by examination of classical and modern texts. Topics considered will involve being and unity, mind and matter, God, causation and necessity, free will and determinism. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4371. Asian Philosophy.
The course covers mainly Chinese and Indian philosophy, such as Confucianism, Taoism, Buddhism. How do people in the orient look at the meanings of life, the nature of the world and their place in the world? This course shall shed light on these issues. May be repeated for credit. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4372. Latin American Philosophy.
Study of ancient Latin American thought, including Mayan, Aztec, Toltec, and Incan, pre- and post conquest Latin American philosophy, contemporary Latin American philosophy, and the thinking of Latin Americans in the U.S. Prerequisite: PHIL 1305 or permission of the instructor. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4373. Asian Philosophy.
The course covers mainly Chinese and Indian philosophy, such as Confucianism, Taoism, Buddhism. How do people in the orient look at the meanings of life, the nature of the world and their place in the world? This course shall shed light on these issues. May be repeated for credit. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4388. Problems in Philosophy.
Independent study of specific problems in philosophy. Open to students on an individual or small group basis by arrangement with the Department of Philosophy. Problem area, bibliography, and study paper outline are to be approved by the instructor. Prerequisite: Three hours of lower division philosophy, PHIL 3301, or consent of the instructor. May be repeated once for additional credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Religion (REL)

REL 1300. World Religions.
This course will be a survey and comparative study of the major religions of the world including Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, Confucianism, and the Indigenous Religions. Recommended as an entry course for religion minors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

REL 2310. Introduction to the Hebrew Bible.
An introduction to the contemporary academic study of the Hebrew Bible ("Old Testament") and related Near Eastern and Second Temple Jewish literature. Representative texts will be examined using the historical and literary methods of scholarship.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
An introduction to the contemporary academic study of the New Testament, including apocryphal and post-canonical works. Representative texts will be examined using the historical and literary methods of scholarship.
Grade Mode: Standard Letter
about Introduction to the New Testament
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

REL 2321. Founders, Prophets and Saints.
Critical analysis of the life, works, and thought of a major religious figure, e.g., Jesus, Paul, Luther, St. Teresa, Maimonides, the Baal Shem Tov, Mohammad, al-Ghazzali, Rumi, Buddha, Gandhi. May be repeated for credit.
Grade Mode: Standard Letter
about Founders, Prophets and Saints
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Founders, Prophets and Saints

REL 2360. Asian Religious Traditions.
This course is a survey of the major religious traditions originating in Asia: Hinduism, Buddhism, Taoism, and others. Basic doctrines and practices will be covered in an historical framework.
Grade Mode: Standard Letter
about Asian Religious Traditions
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The course features a thematic selection of literary and artistic works in order to examine the connections and disconnections between the aesthetic and religious aspects of human culture. May be taken twice for credit with different topics.
Grade Mode: Standard Letter
about Religion, Literature, and the Arts
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Religion, Literature, and the Arts

REL 3342. The Homeric Epic: The Iliad and the Odyssey.
A close reading of the Iliad and the Odyssey in English translation, with emphasis on philosophical and religious issues. Prominent topics include the gods, religious rituals, heroic ethics, and the human condition. The course also considers the concept of a classic in religion and literature.
Grade Mode: Standard Letter
about The Homeric Epic: The Iliad and the Odyssey
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about The Homeric Epic: The Iliad and the Odyssey

REL 3364. Abrahamic Religious Traditions.
A comparative study of Judaism, Christianity, and Islam. Basic doctrines and practices will be covered in an historical framework. Attention will be given to both majority and minority variants of each tradition.
Grade Mode: Standard Letter
about Abrahamic Religious Traditions
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Abrahamic Religious Traditions

REL 3366. Topics in Comparative Religion.
The course is a comparative examination of religions. Topics might include mysticism, scriptures, heroic figures or saints, and engagement with philosophical traditions.
Grade Mode: Standard Letter
about Topics in Comparative Religion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Topics in Comparative Religion

REL 3370. Mythology and Cosmology.
This course examines human efforts to address questions of cosmic origins, with a global, comparative survey of cosmogonic (creation) myths and a historical approach to modern cosmology. It examines the features and functions of mythopoetic and scientific thought, and reflects philosophically on questions of origin and meaning. May be taken twice for credit with different topics.
Grade Mode: Standard Letter
about Mythology and Cosmology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Mythology and Cosmology

REL 3372. Apocalypticism.
An historical-cultural survey of end-of-the-world literature, art, and thought in Western Civilization, from ancient Judaism and Christianity to the present. Historical and scientific methods provide the framework for this course.
Grade Mode: Standard Letter
about Apocalypticism
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Apocalypticism

REL 3381. The Philosophical and Spiritual Heritage of India.
Indian philosophers predominantly present a spiritual, multi-dimensional outlook on the nature of reality and human consciousness; they combine reason, experience, yoga and meditation as methods of inquiry. This course will explore Indian spiritual philosophy from the time of the ancient Vedas to the contribution of modern sages.
Grade Mode: Standard Letter
about The Philosophical and Spiritual Heritage of India
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about The Philosophical and Spiritual Heritage of India
This course provides a rigorous grounding in the intellectual tradition of academic religious studies. It includes the major theorists and a sustained examination of the problem of method. This course is strongly urged for RS minors and students intending graduate work in the field. Prerequisite: At least one course from those included in the minor; two recommended.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s):Exclude from 3-peat Processing Writing Intensive
Grade Mode: Standard Letter

about Advanced Methods in Religious Studies

REL 4388. Problems in Religion.
Independent study of specific topics in religion. Open to students on an individual or small group basis. May be repeated for credit with different emphasis.

about Problems in Religion

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s):Exclude from 3-peat Processing
Grade Mode: Standard Letter

Bachelor of Arts (B.A.) Major in Philosophy

Minimum required: 120 semester hours

General Requirements
1. The major requires 30 hours, including:
   - PHIL 1305 Philosophy and Critical Thinking 3
   - PHIL 2311 History of Philosophy Before 1600 3
   - PHIL 2312 History of Philosophy Since 1600 3
   - PHIL 2330 Elementary Logic 3
   - Advanced Philosophy electives 18
   **Total Hours:** 30

2. Graduating seniors must submit a portfolio of their work and participate in an exit interview with the Philosophy faculty. Details about the portfolio are available in the Department’s main office.

3. Majors must satisfy general education core curriculum and B.A. requirements.

4. Majors must complete an approved minor.

5. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the 120 and/or the 36 advanced and 9 hour writing intensive total hours required for graduation.

### First Semester Hours

| Eng 1310 | Modern Language 1420 | 4 |
| US 1100 | 1 | ENG 1320 | 3 |
| Modern Language 1410 | 4 | PHIL 2330 (meets B.A. Science) | 3 |
| Life and Physical Sciences | 3 | Life and Physical Sciences | 3 |
| PHIL 1305 | 3 | COMM 1310 | 3 |
| Elective | 3 | | |
| **Total:** | 17 | 16 |

### Sophomore Hours

| POSI 2310 | 3 | POSI 2320 | 3 |
| MATH 1312 (or above) | 3 | PHIL 2312 | 3 |
| Modern Language 2310 | 3 | Select one of the following (English Literature): | 3 |
| PHIL 2311 | 3 | ENG 2310 | |
| HIST 1310 | 3 | ENG 2320 | |
| | | ENG 2330 | |
| | | ENG 2340 | |
| | | ENG 2359 | |
| | | ENG 2360 | |
| | | Modern Language 2320 | 3 |
| | | HIST 1320 | 3 |
| **Total:** | 15 | 15 |

### Junior Hours

| PHIL advanced electives | 6 | Social and Behavioral Sciences | 3 |

### Senior Hours

Select one of the following:
- PHIL advanced electives 3
- Minor 6

### Minor in Philosophy

A minor in Philosophy requires 18 hours, including:
- PHIL 1305 Philosophy and Critical Thinking 3
- PHIL electives, 12 of which must be advanced 15
**Total Hours:** 18

### Minor in Religious Studies

A minor in Religious Studies is an interdisciplinary minor that requires 18 hours, selected from:

Select six of the following:
- ANTH 3305 Magic, Ritual and Religion
- ANTH 3322 Peoples and Cultures of Africa
- ANTH 3326 Maya History and Society
- ANTH 3332 Myths and Moundbuilders
- ANTH 3349 The Incas
- ANTH 4320 Rise of Civilization
- ARTH 2301 Ancient to Medieval Art
- ARTH 2302 Renaissance to Modern Art
- ENG 3329 Mythology
- HIST 3312 Renaissance and Reformation
- HIST 4320 Origins of Christianity
- HIST 4325 Islamic History to 1798
- HIST 4348 Mahatma Gandhi in World History
- PHIL 3317 Science and Religion
- PHIL 3318 Reason, God and Nature
- PHIL 4371 Asian Philosophy
- PHIL 4388 Problems in Philosophy
Minor in Value Studies

This minor allows a student with special interests in value theory to pursue a course of study, which culminates in an independent research project in value studies. This project may be a study of a theoretical issue in value studies or something of an applied nature; students may affiliate with people in various work environments or service learning settings to identify value conflicts and suggest resolutions.

A minor in Value Studies requires 18 hours, including:

Recognition of Student Scholarship

The Annual Professor Henderson Award

The Department of Political Science annually presents the Professor Henderson Award to the graduating Political Science major with the highest overall GPA (the award may be for either a December or May graduate of the current academic year). The award has the purpose of recognizing and honoring a student of Political Science who has, as a student at Texas State, displayed academic excellence and character in the tradition and values cherished and exhibited by Richard B. Henderson, Distinguished Professor Emeritus.

The Howard M. “Prof” Greene Award

This award honors an academic mentor in politics to Lyndon B. Johnson and thousands of other Texas State alumni and goes to one or more graduating Political Science majors who have earned overall Texas State grade-point averages of 3.9 or above.

Bachelor of Arts (B.A.)

- Major in Political Science (p. 517)
- Major in Political Science (Teacher Certification in Social Studies, Grades 7-12: Geography Minor and History Third Field) (p. 518)
- Major in Political Science (Teacher Certification in Social Studies, Grades 7-12: History Minor and Geography Third Field) (p. 520)

Bachelor of Public Administration (B.P.A.)

- Major in Public Administration (p. 522)

Minors

- Political Science (p. 523)
- Public Administration (p. 523)
- Political Communication (p. 523)

Courses in Political Science (POSI)

A survey of the principles of political science, of the American system of government, and of the origins and development of the constitutions of the United States and Texas. Satisfies the legislative requirements for teacher certification.

about Principles of American Government
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Govt/Political Science Core
Grade Mode: Standard Letter
TCCN: GOVT 2306
about Principles of American Government
This course is a study of functions performed in the American system of government, both national and state, within the framework of the U.S. and Texas Constitutions.
about Functions of American Government
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Govt/Political Science Core
Grade Mode: Standard Letter
TCCN: GOVT 2305
about Functions of American Government

POSI 3300. Basic Political Ideas.
Introduction to the fundamental ideas of the Western political tradition including conservatism, liberalism, socialism, democracy, and totalitarianism. This course (or 3301) is required of all Political Science majors and minors, and it serves as a co-requisite for other advanced courses in Political Science.
about Basic Political Ideas
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Basic Political Ideas

POSI 3301. Basic Political Institutions.
The study of political institutions emphasizing the fundamentals of political science research and analysis, the tools used in bibliographical research, and methods of locating and presenting data for comparing political institutions. This course is required of all public administration majors and is a co-requisite for other advanced political science courses.
about Basic Political Institutions
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Basic Political Institutions

POSI 3305. The American Founding.
An examination of the origins, nature, and foundations of the American Constitutional system with special emphasis on the Federalist/Anti-federalist debates and the writing of the constitution.
about The American Founding
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The American Founding

POSI 3306. Religion and American Public Life.
An examination of the ways in which religious beliefs and groups have influenced the course of American democratic experience; and the ongoing debates in constitutional law and democratic theory regarding the proper role of religion in American public life. (WI).
about Religion and American Public Life
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Religion and American Public Life

POSI 3307. Parties and Party Politics.
The American political system, including its history and organization, suffrage, nominations and elections, campaigns, and the related areas of public opinion and pressure group activities. (WI).
about Parties and Party Politics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Parties and Party Politics

POSI 3308. Congress and the Legislative Process.
The dynamics of lawmaking and legislative politics in the United States. The structure, party organization, rules of procedure, and actual operation of the Congress and of selected state legislatures (including Texas) are analyzed, compared, and evaluated. (WI).
about Congress and the Legislative Process
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Congress and the Legislative Process

POSI 3309. The American Presidency.
A comprehensive examination of both the presidency and the men who have held it. (WI).
about The American Presidency
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about The American Presidency

A case study approach to an analysis of fundamental principles of governmental structure with an emphasis on the office and powers of the President and inter-governmental relationships in the main body (Articles I through VII) of the U.S. Constitution.
about Constitutional Law: Basic Structures and Principles
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Constitutional Law: Basic Structures and Principles

An examination of that area of Constitutional interpretation commonly known as Civil Liberties or the relations between the individual and the government. (May be used to satisfy Group II requirements).
about Constitutional Law: Individual Liberties
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Constitutional Law: Individual Liberties

POSI 3314. State and Local Government.
A study of the organization, functions, and powers of state, county, and municipal government in the United States with particular reference to patterns of such governments in Texas. (May be substituted for POSI 2310) (WI).
about State and Local Government
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about State and Local Government
POSI 3316. Introduction to Public Administration.
The organization and management of the machinery for executing public policies, with particular emphasis upon the Federal bureaucracy. (WI).
about Introduction to Public Administration

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Introduction to Public Administration

POSI 3318. Public Personnel Administration.
A study of public personnel systems in the United States with major concentrations on the national civil service system. Special emphasis is given to current research in the areas of leadership, informal organization, motivation, and small group theory. (W).
about Public Personnel Administration

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Public Personnel Administration

POSI 3319. Metropolitan Politics.
An examination of the political institutions and processes of urban and suburban America, including such topics as urban sprawl, reform movements, ethnic politics, and city-county consolidation. (MC) (W).
about Metropolitan Politics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Metropolitan Politics

POSI 3320. Comparative Public Administration.
A survey of the field of Public Administration that will emphasize those aspects of administration that are common to all administrative systems. (May be used to satisfy Group IV requirements.) (W).
about Comparative Public Administration

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Comparative Public Administration

POSI 3322. Introduction to International Studies.
This “core seminar” identifies critical interdisciplinary questions that will be examined in all courses in the International Studies Program. Required of all majors and minors in International Studies. (W).
about Introduction to International Studies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Introduction to International Studies

POSI 3325. Economic Development in Latin America.
This course examines the economic history of and current obstacles to economic development in Latin America. It explores the Import Substitution Industrialization era, the debt crisis of the 1980s, free market economics, and the nature and revival of economic populism.
about Economic Development in Latin America

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Economic Development in Latin America

POSI 3328. Public Finance Administration.
Focuses on planning, organization, and implementation of budgeting including fund accounting, auditing, and debt management in the public sector. Prerequisites: MATH 1315 or higher with a grade of C or better, POSI 3301 and POSI 3316 with a grade of C or better. (W).
about Public Finance Administration

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Public Finance Administration

POSI 3331. American Political Thought.
The development of American political ideas from the colonial period to the present. (W).
about American Political Thought

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about American Political Thought

POSI 3332. Ancient and Medieval Political Thought (Greeks to 1600).
A study of the masters of classical and medieval political theory from Plato to Machiavelli. (MC) (W).
about Ancient and Medieval Political Thought (Greeks to 1600)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Ancient and Medieval Political Thought (Greeks to 1600)

POSI 3333. Modern Political Theory (1600-1900).
The development of modern political ideas; the meaning and relationships of the significant ideologies of our time; democracy, capitalism, the welfare state, socialism, fascism, and totalitarian communism. (MC) (W).
about Modern Political Theory (1600-1900)

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Modern Political Theory (1600-1900)

POSI 3334. Contemporary Political Theory.
A study of selected theories, ideologies, and movements in 20th century political theory. (W).
about Contemporary Political Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Contemporary Political Theory

POSI 3335. Comparative Politics.
This course is a comparative study between two or more political systems, their institutions, and processes, including the origin, development, geographical units, forms, sources of authority, powers, purposes, functions, and operations of government.
about Comparative Politics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Comparative Politics

Course Attribute(s):
Multicultural Content|Writing Intensive
POSI 3336. Civil-Military Relations in Comparative Perspective.
This course is intended to serve as an intensive exploration of the important subject of civil-military relations. Students will critically examine the primary positive and normative theories of civil-military relations. They will then investigate the state of civil-military relations in the United States and around the globe.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Civil-Military Relations in Comparative Perspective

This course is a comparative analysis of the political and economic significance of Southeast Asia and will include an empirical and conceptual examination of the political dynamics of the region.

Grade Mode: Standard Letter
about Politics of Modern Southeast Asia

POSI 3340. Urban Policy and Administration.
The purpose of this course is to provide a critical introduction to the key aspects of urban administration and policy. Students will build an understanding of how urban administration practices and policies influence the form and function of American cities.

Grade Mode: Standard Letter
about Urban Policy and Administration

POSI 3377. Analytical Techniques.
Examines basic scientific methods, including problem definition, hypothesis testing, explanation and prediction, and theory construction.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Analytical Techniques

POSI 4301. Politics in Film.
This course will expose the students to films which explicitly address political issues such as racism in the United States, the conflict between public duty and private conscience, and politics and media manipulation, and the role of perception in all the actions people take.

Grade Mode: Standard Letter
about Politics in Film

POSI 4302. Legal Theories and Research.
This course examines the American Legal System at both the state and federal levels involving civil and criminal procedure. Emphasis is on the process of these systems and the framework within which disputes are resolved. Students will become familiar with legal research methods to better understand the composition of legal options.

Grade Mode: Standard Letter
about Legal Theories and Research

POSI 4303. Civil Law in American Society.
This course considers the structure and functions of government together with the law regulating private social relations, i.e., contract law, property law, tort law, and the causal relations between legal policies and societal goals and regulations.

Grade Mode: Standard Letter
about Civil Law in American Society

POSI 4304. Issues in Law and Public Policy.
This course examines contemporary legal issues by focusing on their relationship to public policy. Selected topics will vary, i.e., AIDS, abortion, affirmative action/reverse discrimination, capital punishment, environmental protection, euthanasia, and surrogate motherhood.

In connection with these controversial issues we will address: (1) alternative views; (2) social consequences; and (3) political responses to and legal issues resulting from alternative positions.

Grade Mode: Standard Letter
about Issues in Law and Public Policy

POSI 4311. The Supreme Court and the Judicial Process.
An intensive examination of the judiciary, focusing upon the politics of judicial selection and the decision-making process of the judiciary as well as the position of the judiciary in the entire political process. (WI).

Grade Mode: Standard Letter
about The Supreme Court and the Judicial Process

POSI 4313. Islamic Law and Politics.
This course is a study of the law, origins, development, divisions, and politics of Islam. Special emphasis will be given to law, political thought, history, and the culture of the Middle East. Topics covered include Muslim law and political institutions; the Arab and Persian roles in Islam; the Islamic Community as a political system; major points of the Islamic faith and their political significance and the political and historical significance of Muslim mysticism. (This course may be used to satisfy Group I requirements.) (MC) (WI).

Grade Mode: Standard Letter
about Islamic Law and Politics
POS 4314. Revolution and Nationalism.
This course examines the phenomena of modern revolution and nationalism focusing on different countries in various geographical areas such as the Middle East, Latin America, and others. This course is repeatable for credit twice with different emphasis. (MC) (WI).
about Revolution and Nationalism

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Revolution and Nationalism

POS 4315. The Arab-Israeli Conflict.
Origins and development of the Arab-Israeli conflict: Jewish and Palestinian nationalism; regional, international and religious dimensions; and the changing social and political character of Israel and the Palestinian community. (WI).
about The Arab-Israeli Conflict

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about The Arab-Israeli Conflict

POS 4320. Issues and Interest Groups: Power and Pressure in America.
An examination of selected issues at the state and national level and the interest groups which attempt to influence governmental decisions about them. The goal of the course is to promote a better understanding of the process of government and an informed opinion on the question, “Is there a Public Interest?” Prerequisite: POSI 2310. (WI).
about Issues and Interest Groups: Power and Pressure in America

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Issues and Interest Groups: Power and Pressure in America

POS 4322. Public Policy Formulation.
Intensive analysis of theories and processes of both policy formation and policy enforcement in the American administrative system, emphasizing the regulatory function. Prerequisite: POSI 2310 and POSI 3301. (WI).
about Public Policy Formulation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Public Policy Formulation

POS 4326. Issues in World Politics.
This course is designed to acquaint the student with major issues in world politics and major concepts in international relations and comparative politics. (MC) (WI).
about Issues in World Politics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Issues in World Politics

POS 4327. Theories of International Politics.
This course focuses on theories and concepts in the study of international relations. Major theoretical works and illustrative case studies will be critically examined. (MC) (WI).
about Theories of International Politics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Theories of International Politics

POS 4328. The Holocaust.
An undergraduate seminar on The Holocaust. Among the topics covered are: efforts to understand The Holocaust; the evolution of anti-Semitism in Germany; ordinary Germans and ordinary Poles and The Holocaust; and representing The Holocaust in fiction, film, and poetry. (may be used to satisfy group IV requirement.) (WI) (MC/MP).
about The Holocaust

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about The Holocaust

POS 4330. Women in Politics.
A study of the role of women in political life. The course will examine women’s influence on politics as well as how various public policies affect women. Topics may include feminism, electoral politics, political representation, and the internal politics of women’s groups. (WI).
about Women in Politics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Women in Politics

POS 4331. Minority Politics.
This course examines and analyzes the political participation of American minorities (Blacks, Hispanics, women, and other minorities) in the American political system and the impact of various public policies on minority groups. The course will emphasize the following topics: electoral participation; public policy participation, representation and implementation; protest politics; and political behavior. Some reference will be to Texas and the Southwest. May be repeated once with different emphasis. (MC) (WI).
about Minority Politics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Minority Politics

POS 4335. Politics and Personality.
An introduction to the relationship between political behavior and human motivation. Topics include psychological perspectives and political theory; personality and political orientation; the political personality, and the politically relevant insights into these areas offered by fiction. (WI).
about Politics and Personality

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Politics and Personality
POSI 4336. Campaigns and Elections.
An examination of the dynamics of American political campaigns and elections, including an analysis of federal and state elections as well as voting behavior and party and interest group influence. (WI).
about Campaigns and Elections
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Campaigns and Elections

POSI 4337A. Texas Politics.
This course focuses on the history, culture, institutions, issues, and policies of the Texas political systems. (WI).
about Texas Politics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
about Texas Politics

POSI 4337B. The Politics of the American Working Class.
This course engages students in an intensely focused examination of the social, cultural, and political reasons why Americans vote at a lower rate than do citizens of most other Industrial Democracies. We will examine policy consequences of this phenomenon and consider whether or not policy change is warranted. (WI).
about The Politics of the American Working Class
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
about The Politics of the American Working Class

POSI 4337C. Media and Public Opinion.
This class will cover how the media influences public opinion and voting behavior. Specific topics include media functions in campaigns and elections, media bias, new media, and media effects on political attitudes and behaviors. This course uses lectures, discussions, with active participation, and group projects. (WI).
about Media and Public Opinion

about Politics of International Economic Relations

POSI 4361. Administrative Law.
Course stresses the legal principles and practical doctrines involved in the work of administrative tribunals vested with quasi-legislative or quasi-judicial powers or both. Primary focus on development, practice, and procedures of federal administrative agencies. (WI).
about Administrative Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Administrative Law

An overview of the relationship of American business to public policy as a whole. Focus is on several factors affecting the relationship between the public and private sectors including political ideology and culture, pluralism, political party development, political business cycles, monetary policy, and the domestic economy and political accountability. May be repeated once with different emphasis.
about Government and American Business
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Government and American Business

Examines historical and spatial patterns of conflict (including war, terrorism, and economic coercion) from Realist, Idealist, and Marxian schools of thought. The course will also examine strategies for conflict prevention and resolution such as deterrence, armscontrol, collective security, and "building democracy." (MC).
about International Conflict and Security
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about International Conflict and Security

POSI 4379. Independent Study.
Independent reading and/or research on various problem areas of political science. Instructor will approve specific problem area, bibliography, and study paper outline. May be repeated once with different subject matter and instructor. No more than six semester hours credit in meeting degree requirements. (WI).
about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Independent Study

POSI 4380. Internship in Government.
The student will participate in the ongoing work of a selected governmental unit. A research paper dealing with the internship experience written under the direction of a faculty member will be required. This course may be repeated one time for additional internship credit.
about Internship in Government
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Internship in Government

POSI 4381. Internship in Public Administration.
Students in the Bachelor of Public Administration (BPA) degree program will participate in the ongoing work of a public or non-profit agency. A research paper dealing with the internship experience written under the direction of a faculty member will be required. May be repeated once.
about Internship in Public Administration
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Internship in Public Administration

POSI 4397. Research in Public Administration.
This course is designed to assure familiarity with the basic concepts and approaches used in the study of public administration. Students will learn to identify, locate, and employ resources to assist in understanding public administration at all governmental levels. Course may be taken as a substitute for POSI 4381.
about Research in Public Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research in Public Administration

POSI 4398. Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics.
This course is designed to assure familiarity with the basic concepts and approaches used in the study of politics. Students will learn to identify, locate, and employ resources to assist in understanding politics at local, state, national, and international levels. Model Congress or U.N., visits to local government offices and councils, moot court, critiques of political propaganda films, and simulations in international relations are some of the applied methods of studying politics that students will learn. This course is required of all B.A. students seeking a teaching certificate in Political Science; it may be taken as a substitute for POSI 4399 for Political Science non teacher certification majors. (WI).
about Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics
POSI 4399. Senior Seminar in Political Science.
Seminar devoted to intensive reading, research, writing, and discussion focusing on different sub-fields in the discipline taught by appropriate faculty. Students in consultation with faculty in their area of interest should select a particular sub-field seminar in accordance with their needs and professional objectives. Required of all majors and must be taken in the student’s junior or senior year. Other interested students may take the course with the consent of the chair and instructor. May be repeated with different instructor and approval of chair. Prerequisites for the Senior Seminar are all of the core courses in Political Science or approval of the Department Chair. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Writing Intensive
Grade Mode: Standard Letter
about Senior Seminar in Political Science

POSI 4680. Internship in Government.
The student will participate full time (40 hours per week) in the ongoing work of selected governmental units. A research paper dealing with the internship experience written under direction of a faculty member will be required.
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Internship in Government

**Bachelor of Arts (B.A.) Major in Political Science**

**Minimum required: 120 semester hours**

### General Requirements

1. Majors must take a minimum of 30 hours in political science, including:
   - **POSI 2310** Principles of American Government & **POSI 2320** Functions of American Government
   - **POSI 3300** or **POSI 3301** Basic Political Ideas or Basic Political Institutions
   - One advanced course from four of the five groups: 12
     - I. Political Theory and Methodology
     - II. American Government
     - III. Public Law and Public Administration
     - IV. Comparative Government
     - V. International Relations
   - Advanced POSI electives
   - **POSI 4399** Senior Seminar in Political Science or **POSI 4398** Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics

   **Total Hours** 30

2. Majors must complete an additional science course known as the B.A. Science Requirement in addition to the Life and Physical Sciences component, a minor from the approved list of minors, and general education core curriculum and B.A. requirements.

3. Majors must complete at least 120 total hours of which 36 hours must be advanced (24 advanced completed at Texas State) and 9 hours must be writing intensive.

1. Majors are required to complete 6 hours of a Modern Language (2310, 2320). Most students will complete 1410 and 1420 as prerequisites before attempting 2310.

2. Majors are required to complete 6 additional hours of history in Western or World Civilization (HIST 2310 or HIST 2311 and HIST 2312 or HIST 2320).

3. The senior seminar courses (POSI 4398 or POSI 4399) have a prerequisite of at least 21 hours of Political Science.

### Political Science Advanced Group Electives

#### Group I - Political Theory and Methodology
- POSI 3331 American Political Thought 3
- POSI 3332 Ancient and Medieval Political Thought (Greeks to 1600) 3
- POSI 3333 Modern Political Theory (1600-1900) 3
- POSI 3334 Contemporary Political Theory 3
- POSI 3377 Analytical Techniques 3
- POSI 4328 The Holocaust 3
- POSI 4335 Politics and Personality 3

#### Group II - American Government
- POSI 3305 The American Founding 3
- POSI 3306 Religion and American Public Life 3
- POSI 3307 Parties and Party Politics 3
- POSI 3308 Congress and the Legislative Process 3
- POSI 3309 The American Presidency 3
- POSI 3314 State and Local Government 3
- POSI 3319 Metropolitan Politics 3
- POSI 3340 Urban Policy and Administration 3
- POSI 4301 Politics in Film 3
- POSI 4320 Issues and Interest Groups: Power and Pressure in America 3
- POSI 4330 Women in Politics 3
- POSI 4331 Minority Politics 3
- POSI 4336 Campaigns and Elections 3
- POSI 4337A Texas Politics 3
- POSI 4337C Media and Public Opinion 3
- POSI 4345 American Foreign Policy 3
- POSI 4362 Government and American Business 3

#### Group III - Public Law and Public Administration
- POSI 3310 Constitutional Law: Basic Structures and Principles 3
- POSI 3311 Constitutional Law: Individual Liberties 3

Bachelor of Public Administration (B.P.A.) Major in Public Administration

Minimum required: 120 semester hours

General Requirements

1. Major requires 33 semester hours in political science coursework.

2. Majors are strongly encouraged, but not required, to choose their free electives from the following career support areas:

   **Local Government**
   - POSI 3319 Metropolitan Politics 3
   - GEO 3310 Urban Geography 3
   - GEO 3320 Community and Regional Planning 3

   **International**
   - POSI 4345 American Foreign Policy 3
   - POSI 4356 International Law 3
   - POSI 4357 International Organization 3
   - ECO 3317 International Economics 3

   **Social Services**
   - SOCI 3328 Complex Organizations 3
   - SOWK 2375 Social Services in the Community 3
   - SOWK 4310 Diversity and Social Justice in Social Work 3
   - SOWK 4355 Policy Practice 3

   **Legal Services**
   - POSI 3310 Constitutional Law: Basic Structures and Principles 3
   - POSI 3311 Constitutional Law: Individual Liberties 3
   - POSI 4304 Issues in Law and Public Policy 3
   - CJ 2360 Fundamentals of Criminal Law 3

   **Health Services**
   - HA 3308 Healthcare Organization 3
   - HIM 3380 Quality Improvement Regulations & Procedures for HIM 3

3. Enrollment in the required internship requires completion of 24 hours of Political Science and the following minimum GPA’s: a Texas State GPA of 2.25 and a major GPA of 2.25.

4. There is no foreign language requirement for those who have completed two years of the same foreign language in high school.

5. Majors must satisfy general education core curriculum, additional B.P.A. requirements, and a minor from the approved list of minors.

### Notes

1. Students must take ECO 2301 or ECO 2314 as the Social and Behavioral Sciences component for the general education core curriculum, as Economics is one of the subjects tested on the Social Studies TExES exam.
**Minor in Political Communication**

This minor is administered by the Department of Communication Studies; please contact the Department of Communication Studies for additional information.

A minor in Political Communication addresses a variety of theories, principles, and skills related to the political communication process. The minor is designed for students interested in law, politics, public administration, public policy, or other professions related to issues and ideas in a political communication context.

A minor in Political Communication requires 24 hours, which includes 12 hours from the Department of Communication Studies and 12 hours from the selected courses from the Department of Political Science.

</tr>
</tbody>
</table>

Total Hours: 24

If a student elects to minor in either Communication Studies or Political Science, no COMM or POSI course may count both for a major and a minor.

**Minor in Political Science**

A minor in Political Science requires 24 hours, including:

| POSI 3300 Basic Political Ideas 3 |
| POSI 3301 Basic Political Institutions |

or

| POSI 2310 Principles of American Government 3 |
| POSI 2320 Functions of American Government 3 |

At least one course from 4 of the 5 groups: 12

| POSI advanced elective course 3 |

Total Hours: 24

**Minor in Public Administration**

A minor in Public Administration requires 24 hours, including:

| POSI 2310 Principles of American Government 3 |
| POSI 2320 Functions of American Government 3 |
| POSI 3316 Introduction to Public Administration 3 |
| POSI 3318 Public Personnel Administration 3 |
| POSI 3328 Public Finance Administration 3 |
| POSI 3377 Analytical Techniques 3 |
| POSI 4322 Public Policy Formulation 3 |
| POSI 4361 Administrative Law 3 |

Total Hours: 24
Psychology is the science that studies the behavior of individual people, animals, and organizations. To psychologists, behavior means not only actions, but also thoughts and feelings. Beyond its introductory course, the department offers courses in biological, developmental, social, and learned bases of behavior, as well as statistics and methodology. Psychology majors take courses in all of these areas. Later they may participate in advanced theory, individual research, and internship classes to prepare for graduate programs in psychology.

Employment as a psychologist in clinical or industrial psychology requires a graduate degree beyond the bachelor’s level. Many psychology majors, however, plan to enter jobs in business, government, health, and education immediately, with a B.A. or B.S. major in Psychology. For more information planning courses for a suitable program, the "Guide for Psychology Majors" is available at http://www.psych.txstate.edu.

Course Prerequisite Sequence

The Psychology Department strictly enforces all course prerequisites. Adherence to the following course sequence is necessary for completion of the B.A. and B.S. degrees.

1 Or its equivalent, with a grade of "C" or higher.

This sequence requires four separate semesters (or summer terms), because course prerequisites may not be taken concurrently.

Bachelor of Arts (B.A.)
- Major in Psychology (p. 529)

Bachelor of Science (B.S.)
- Major in Psychology (p. 530)

Minors
- Psychology
- Forensic Psychology (p. 531)
- Sport Psychology (p. 532)

Information about graduate programs can be found in the Graduate Catalog (p. 634).
PSY 2311. Psychology of Human Sexuality.
A psychological and physiological examination of the human sexual experience from conception through old age. Current research findings serve as a basis for study. Major consideration is given to the human sexual system, the sexual act, sexual attitudes and behavior, and sexual complications.

Grade Mode: Standard Letter
TCCN: PSYC 2306

about Psychology of Human Sexuality

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

PSY 3300. Lifespan Development.
Survey of the psychology of human development from the pre-natal period through adulthood. Emphasis placed on cognitive, motivational, and physiological processes of development in childhood and adolescence. Prerequisite: PSY 1300.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Lifespan Development

PSY 3312. Adolescent Psychology.
A developmental psychology course designed to examine the complex characteristics of human cognitive and emotional life during the period of adolescence. Emphasis is directed toward the basis of behavior, interpersonal relationships, development, growth, and motivation. Prerequisite: PSY 1300 with a grade of "C" or better.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Adolescent Psychology

PSY 3313. Psychology of Adulthood and Aging.
The development of individuals in the post-adolescent period, particularly after middle age. Topics studied include social, psychological, and physiological changes and problems associated with the aging process. Prerequisite: PSY 1300.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Psychology of Adulthood and Aging

PSY 3314. Psychology of Consciousness.
An introduction to theory, research, and experiential applications in the study of consciousness; topics studied include the findings and implications of post-Einsteinian science relevant to the study of consciousness. Prerequisite: PSY 1300 (WI).

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive

about Psychology of Consciousness

PSY 3315. Abnormal Psychology.
An introduction to the study of abnormality: (1) issues in defining and evaluating it, (2) examples, (3) theories and research attempting to categorize, describe, and explain it, and (4) approaches used to prevent or change it when it is deemed a problem by the individual and/or society. Prerequisite: PSY 1300.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Abnormal Psychology

PSY 3316. Personality Psychology.
A comprehensive introduction to research, theory, and application in the field of personality. Individual differences and situation influences are examined concerning authoritarianism, achievement motivation, anxiety, intelligence, self-concept, interpersonal attraction, aggression, sexuality, and altruism. An integrative model is suggested for describing and predicting human behavior. Prerequisite: PSY 1300.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Personality Psychology

PSY 3321. Sensation and Perception.
An introduction to the processes of perception. Topics will include perceptual measurement, the physiological bases of perception, basic visual processes, and basic haptic, olfactory, and gustatory processes. Prerequisite: PSY 3402 with a grade of "C" or better. (WI).

grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive

about Sensation and Perception

PSY 3322. Brain and Behavior.
This course covers research findings and theoretical concepts concerned with the physiological, anatomical, and pharmacological bases of behavior. Topics include sensory systems, the physiological mechanisms of motivation, and the physiological correlates of associate processes such as learning. Prerequisite: PSY 1300.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Brain and Behavior

PSY 3323. Evolution and Behavior.
The course provides a contemporary understanding of human behaviors, emotions, and cognitions through an examination of Darwin's theories of natural selection, sexual selection, and mental evolution. Relevant interdisciplinary perspectives from biology, anthropology, archaeology, psychology, and genetics are incorporated. Prerequisites: PSY 1300, PSY 3300.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Evolution and Behavior
PSY 3325. Psychology of Persuasion.
This course uses a socio-psychological perspective to understand the dynamics of persuasion and propaganda. It applies selected theories and research on social influence, persuasion and attitude change to such areas as political and educational campaigns, product advertising, mass media and public opinion. Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Psychology of Persuasion

PSY 3331. Social Psychology.
The study of how people influence each other. The course covers such topics as conformity, inter-personal attraction, prejudice, and aggression. Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Psychology

PSY 3332. Psychology of Women.
The special problems and demands made on the woman within modern western culture. Topics studied include status, roles, values, opportunities, expectations, stress, and self-realization of the modern woman. Prerequisite: PSY 1300. (MC) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Psychology of Women

PSY 3333. Industrial Psychology.
The study of applying psychological knowledge and techniques to the modern industrial environment. Topics studied include employee needs, attitudes, selection, testing, boredom, motivation, anxiety, and job satisfaction. Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Industrial Psychology

PSY 3334. Psychology of Human Diversity.
Explanations about how the environment, genetics and culture shape human differences, and how these differences are linked to world progress and understanding are addressed. (MC).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Psychology of Human Diversity

PSY 3335. Forensic Psychology.
Examines the relationships between psychology and the processes of the American courtroom. Sample issues to be addressed include; (a) What psychological theories are used to explain jury decision making? (b) How accurate is the memory of eyewitnesses? (c) How do characteristics of defendants influence juries? Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Forensic Psychology

PSY 3336. Sports Psychology.
This course examines the relationships, psychological concepts, and individual's thoughts regarding sports, health and exercise. Sample topics include (1) current theoretical perspectives of personality factors at sports and exercise, (2) why people engage in sports, (3) exercise adherence, (4) mental skills, and (5) the psychological effects of sports and exercise. Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Sports Psychology

PSY 3337. Psychology of Prejudice, Discrimination, and Hate.
This course will explore psychological theories and factors that underlie prejudice, discrimination, and hate. Although the course will focus primarily on these issues as they have developed and influence realities in the United States, global issues will also be explored. Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Psychology of Prejudice, Discrimination, and Hate

This course examines clinical, legal and psychosocial conditions of adults who, due to mental illness, developmental impairments, brain injuries or aging, are declared "incapacitated" and have court-appointed guardians. Students will serve as the probate court representatives who inspect living conditions and services for individuals under the court-ordered guardianships. Prerequisites: PSY 1300 and Instructor Approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Psychology & Law: Protecting the Vulnerable

This course covers the acquisition and use of knowledge, contemporary research on perception, pattern recognition, memory, thinking, problem solving, and language comprehension. Prerequisite: PSY 3402 with a grade of "C" or higher. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Cognitive Processes

The course provides theory, research, and application of psychological principles that affect humans in education, business, and personal life. Emphasis is placed on effective use of reinforcement, classroom management, self-control, relaxation, and assertiveness. Prerequisite: PSY 1300. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Behavior Modification and Cognitive Therapies

PSY 3339. Psychology of Human Diversity.
Explanations about how the environment, genetics and culture shape human differences, and how these differences are linked to world progress and understanding are addressed. (MC).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
about Psychology of Human Diversity

The course provides theory, research, and application of psychological principles that affect humans in education, business, and personal life. Emphasis is placed on effective use of reinforcement, classroom management, self-control, relaxation, and assertiveness. Prerequisite: PSY 1300. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Behavior Modification and Cognitive Therapies
PSY 3352. Group Processes.
A study of how the individual relates to his group membership. Students will analyze the development and functioning of their own groups, with attention to such issues as problems faced by group members in the early phases of a group’s existence, leadership roles, group pressure, and trust. Prerequisite: PSY 1300 or consent of instructor. (WI).

Grade Mode: Standard Letter
about Group Processes

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive

PSY 3353. Computer Applications in the Social and Behavioral Sciences and Education.
The principles of data analysis and interpretation using SPSS. Topics studied include data entry and management, statistical concepts, hypothesis testing and the proper interpretation of SPSS output. Prerequisite: PSY 3301 and PSY 3302.

about Computer Applications in the Social and Behavioral Sciences and Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3361. Health Psychology.
Surveys contemporary theory and research on body/mind interaction in physical and mental health. Emphasis on personality, psychosocial, and stress factors in physical health. Other topics include the effects of physical health on psychological well being, pain management, longevity and aging, and coping with illness and dying. Prerequisite: PSY 1300. (WI).

about Health Psychology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3402. Experimental and Research Methods.
This course introduces students to basic instruction in experimental design, data collection, and technical report writing in psychology. By examining applications of various methodologies, this course provides information on the steps involved in crafting and executing empirical research projects as well as instruction on procedures and software. Prerequisite: PSY 2301 and PSY 2101 with grades of C or better. (WI).

about Experimental and Research Methods

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4318. Psychological Measurement.
Study of principles, concepts, and methods involved in tests and inventories currently used in the assessment of intelligence, aptitudes, interests, and personality, with emphasis on the proper administration, scoring, and evaluation of psychological instruments. Prerequisites: "C" or better in PSY 3301.

about Psychological Measurement

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 4342. Learning and Memory.
A study of memory and learning in humans and animals. Attention is given to comparative cognition, cognitive and neuropsychological aspects of memory, and memory deficits. Prerequisite: PSY 3402 with a grade of "C" or higher. (WI).

about Learning and Memory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course focuses on Glasser’s concepts of Choice Theory and Reality Therapy. This course explores how the “total behaviors” and choices we make impact our lives, the kinds of relationships we want to have with others, health and quality of the life. Prerequisite: PSY 1300. (WI).

about Reality Therapy/Choice Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4352. Introduction to Clinical Psychology.
Overview of clinical psychology. Emphasis on current theories and methods of individual psychotherapy. Class discussions of readings, films, audiotapes, and live examples illustrating approaches. Experiential learning via class exercises in pairs and small groups and by role-playing both therapist and client in a series of helping sessions. Practical focus on developing relationship skills and job skills. Prerequisite: PSY 3315. (WI).

about Introduction to Clinical Psychology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4390B. Emotion and Human Behavior.
This course will provide an advanced understanding of the multifaceted phenomenon of emotion and its effect on human behavior. Students will be introduced to the philosophical and theoretical underpinnings of emotion, the various individual emotions (e.g. fear, anger, happiness) and will learn how emotion can affect physical and psychological health.

about Emotion and Human Behavior

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PSY 4390C. Interpersonal Relationships.
This course will provide students with an overview of theory and research in the area of interpersonal relationships. The goals of relationships as well as the different forms that relationships may take will be discussed. A major emphasis will be placed on applying ideas from class to students’ everyday lives. Prerequisite: PSY 1300.

about Interpersonal Relationships

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
PSY 4390M. Psychology and Opera.
This course will explore the ways in which psychology and opera may, together, enrich our understanding of the human condition and will deal with the scientific attempts to establish causes of human behavior. This course will show the relationship of the intellectual enterprise—psychology—with a great art form—opera.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Psychology and Opera

PSY 4390N. Psychopharmacology.
This course reviews psychopharmacology topics including: neuronal and chemical mechanisms underlying drug action; environmental factors modulating the impact of drugs on emotion, cognition, perception and behavior; the processes underlying drug dependency, tolerance, and withdrawal; and the implications for drug abuse treatment and prevention strategies, especially concerning adolescents. Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Psychopharmacology

PSY 4390P. Human Factors and Ergonomics.
This course examines characteristics of people that are applicable to the design of systems and technological devices. This course will illustrate how methods and principles of human factors and ergonomics enhance the usability, safety and performance of human-machine systems.
Prerequisite: PSY 1300.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Human Factors and Ergonomics

PSY 4390Q. Introduction to Developmental Disabilities.
This course will provide students with perspectives on the causes, manifestations, and treatment of developmental disabilities throughout the lifespan. Historical views and societal issues will be investigated along with current practices and research. Prerequisites: PSY 1300 and PSY 3315.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Introduction to Developmental Disabilities

PSY 4390R. Intermediate Statistics.
This course introduces statistical methods designed for psychological research with multiple independent variables. Topics include factorial analysis of variance and multiple regression. Interpreting interaction effects is a main focus. This is a practice-based course that will cover both the theoretical contracts and also step-by-step computer procedures. Prerequisites: PSY 2301 and PSY 2101 with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Intermediate Statistics

PSY 4391. History and Theory.
Study of the evolution of psychology as a science through a systematic review of the principal scientific and philosophic antecedents of modern psychology, and analysis of the status of the major contemporary theoretical schools. Prerequisites: PSY 3402 with a grade of "C" or better, and 24 Psychology hours. (WI).

about History and Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about History and Theory

PSY 4393. International Psychology.
The course focuses on the history, status, and future directions of scientific and professional psychology throughout the world. It requires reading about, discussing, and writing about the relatively new specialty area of international psychology. The objective is to deepen students' knowledge of psychology’s relevance to the solution of global problems. (WI).

about International Psychology

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about International Psychology

PSY 4395. Individual Study.
Students design and execute original research, or engage in extensive fieldwork, in the field of psychology under the supervision of a faculty member. All students planning to attend Graduate School are advised to enroll in the course. May be repeated once for additional credit. Prerequisite: PSY 3402 with a grade of "C" or better and consent of instructor. (WI).

about Individual Study

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Individual Study

PSY 4396. Internship in Psychology.
Extensive field work in a professional setting related to psychology. May be repeated once for additional credit. Prerequisites: 12 hours of PSY and consent of instructor.

about Internship in Psychology

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Standard Letter
Grade Mode: Standard Letter
about Internship in Psychology

Faculty
Abramovitch, Amitai, Assistant Professor, Psychology, Ph.D., Tel Aviv University
Adams, Laura L, Lecturer, Psychology, Ph.D., Univ of Texas Southwestern Med Ct
Angulo, Sarah K, Senior Lecturer, Psychology, Ph.D., University of Texas at Austin
Archer, Richard L, Professor, Psychology, Ph.D., Duke University
Bitney, Catherine Suzanne, Lecturer, Psychology, Ph.D., The New School
Bachelor of Arts (B.A.) Major in Psychology

Minimum required: 120 semester hours

General Requirements
1. All majors are required to take at least one course from each of Groups A-C and to take PSY 4391.
2. Majors are required to have a minor. See the Degrees and Programs (http://mycatalog.txstate.edu/undergraduate/general-information/degrees-programs/offered-at-texas-state) section of this catalog for a list of approved Texas State minors.
3. At least 36 advanced hours must be taken. Of these, at least 18 advanced hours must be in psychology. Sufficient courses from the minor and other electives must be selected to ensure a total of 36 hours of advanced course work.
4. Majors are required to complete their Social and Behavioral Sciences component of the general education core curriculum requirement by taking one of the following courses:
   Select one of the following:
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 1312</td>
<td>Cultural Anthropology</td>
</tr>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>BIO 1320</td>
<td>Modern Biology I, Molecules, Cells, and Physiology</td>
</tr>
</tbody>
</table>
Bachelor of Science (B.S.) Major in Psychology

Minimum required: 120 semester hours

General Requirements

1. All majors are required to take at least one course from each of Groups A-C and to take PSY 4391.
2. A science minor must be selected from the Departments of Anthropology (courses to be taken from Physical, Forensic, or Archaeology), Biology, Chemistry and Biochemistry, Computer Science, Geography, Mathematics, or Physics.
3. At least 36 advanced hours must be taken. Of these, at least 18 advanced hours must be in psychology; sufficient courses from the minor and other electives must be selected to ensure a total of 36 hours of advanced coursework.
4. Majors are required to complete their Social and Behavioral Sciences component of the general education core curriculum requirement by taking one of the following courses:
   Select one of the following:
   - ANTH 1312 Cultural Anthropology
   - SOCI 1310 Introduction to Sociology
   - ECO 2301 Principles of Economics
   - ECO 2314 Principles of Microeconomics
   - GEO 1310 World Geography
5. Majors are required to complete their Life and Physical Sciences component of the general education core curriculum requirement by taking two courses in:

1. Foundation course for all serious study of psychology; much material covered in later courses depends on a thorough knowledge of topics in these five. These courses are required before students take Group C courses and PSY 4391. PSY 1300 is a prerequisite for all other PSY courses (except PSY 2311).
2. Majors are required to complete their BA Science requirement by taking one additional science and/or mathematics course, to be selected from the following disciplines: ANTH 2414 or ANTH 2415, any advanced Physical Anthropology or Archaeology course, biology (above 1421), chemistry, physics (including astronomy), mathematics (1317 and above), computer science (1319 and above), geology, PHIL 2330 (only), or GEO 1305 or GEO 2410 (only).

### Minor in Forensic Psychology

Forensic is defined as “evidence” or “relating to, used in, or appropriate for courts of law.” This minor looks at forensic issues from both psychological and criminal justice perspectives. The minor is suitable for criminal justice majors or any individual wishing to pursue a background in psychology and criminal justice. The minor also would be good preparation for those individuals wishing to pursue pre-law or social work and for individuals considering graduate coursework in forensic psychology.

A minor in Forensic Psychology requires 21 hours, including the following:

<table>

| Total Hours | 21 |

Psychology majors pursuing the forensic psychology minor cannot double count courses toward their major and the minor. Enrollment in the required PSY courses assumes that non-psychology majors will have completed PSY 1300 as part of their social science core curriculum component. If not, PSY 1300 is a prerequisite for PSY 3315, PSY 3316, PSY 3331, and PSY 3335. The prerequisite requirements for CJ 3329...
and CJ 4340 will be waived only for students pursuing this minor. This is justified by the fact that students will be exploring many of the issues covered in those requisite courses in the psychology coursework portion of the minor.

**Minor in Psychology**

A minor in Psychology requires 18 hours, including:

- **PSY 1300** Introduction to Psychology 3
- Any PSY courses, of which 12 hours must be advanced (3000 or 4000 level) 15

**Total Hours** 18

**Minor in Sport Psychology**

Sport Psychology examines the relationships between psychological concepts, theories and an individual’s thoughts toward health and exercise. Current theoretical perspectives of personality factors in exercise, why people exercise, exercise adherence, mental skills and the psychological effects of exercise will be investigated. The minor will focus on topics such as methods of training and coaching, teamwork and leadership, motivation and stress, and social issues in sport. Students will study the relationships between brain biology and behavior. Students will learn to apply psychological theories and perspectives toward understanding thoughts about exercise, an individual’s willingness to exercise, choice of exercise, and to assess the relationships between physical health and mental health.

A minor in Sport Psychology requires 21 hours, including the following:

- **PSY 3331** Social Psychology 3
- **PSY 3336** Sports Psychology 3
- **PSY 3350** Behavior Modification and Cognitive Therapies 3
- or **PSY 3361** Health Psychology
- **PSY 3321** Sensation and Perception 3
- or **PSY 3322** Brain and Behavior
- **ESS 3323** Psychosocial Aspects of Exercise of Sport Science 3
- **ESS 3329** Motor Learning 3
- Select one of the following: 3
  - **PHIL 3326** Philosophy and Sport
  - **SOCI 3340** Sociology of Sport and Leisure
  - An elective approved by the Department.

**Total Hours** 21

Psychology majors pursuing the sport psychology minor cannot double count courses toward their both major and the minor. Enrollment in the required PSY courses assumes that non-psychology majors will have completed PSY 1300 as part of their social science core curriculum component. If not, PSY 1300 is a prerequisite for PSY 3321, PSY 3331, PSY 3350, PSY 3361, PSY 3322, and PSY 3336.

**Department of Sociology**

Undergraduate Academic Center Room 449  
T: 512.245.2113 F: 512.245.8362  
www.soci.txstate.edu (http://www.soci.txstate.edu)

Sociology contributes both to the classic liberal arts tradition and to the practical application of the liberal arts to the world of work. The Department of Sociology provides academic advising and encourages all students considering a major in sociology to take advantage of these services. Suggested degree plans, while helpful in planning an academic schedule, should not be used in lieu of academic advising.

Sociology majors may choose the Bachelor of Arts major in Sociology, which prepares them for professional or graduate study in the liberal arts tradition, or the Bachelor of Science major in Applied Sociology, which provides practical research skills for students who wish to attend graduate school or to enter the work force upon graduation. The B.A. major in Sociology is a 39-hour degree for students interested in entering the professions. As such, it is a pre-professional degree that includes courses designed to prepare students for professional or graduate study. The B.S. is a 39-hour major designed for students who intend to apply sociological principles and practices in governmental and business settings. Students who are interested in collecting, analyzing, interpreting, and presenting data on a variety of social phenomena may select the B.A. or the B.S.

Majors in both degree programs learn to conduct social research, to work with statistical packages, and to enhance the practical skills of writing and analysis. Graduates are prepared for a variety of employment opportunities, including law, management, education, the ministry, public administration, and human resource management in business, government and industrial settings.

**Bachelor of Arts (B.A.)**  
- Major in Sociology (p. 537)

**Bachelor of Science (B.S.)**  
- Major in Applied Sociology (p. 538)

**Minors**  
- Aging and the Life Course  
- Sociology (p. 539)  
- Studies in Popular Culture (p. 539)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in Sociology (SOCI)**

SOCI 1310 or SOCI 3300 is a prerequisite to all other sociology courses except SOCI 3300, SOCI 3327, SOCI 3333, and SOCI 3350.

**SOCI 1310. Introduction to Sociology.**  
A survey of the basic concepts in sociology including social organization, culture, socialization, groups, and human population leading to the development of a sociological perspective of human behavior. SOCI 1310 and SOCI 3300 may not both be counted for credit.  
Grade Mode: Standard Letter  
TCRN: SOCI 1301  
about Introduction to Sociology

| Course Attribute(s): Soc & Behav Sciences Core | 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. |
| Course Grade Mode: Standard Letter | TCCN: SOCI 1301 |
| about Introduction to Sociology |
SOCI 2320. Social Problems.
This course examines community problems, significant social issues, and disorganization in major social institutions in contemporary American society.

Grade Mode: Standard Letter

TCCN: SOCI 1306

about Social Problems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3300. Principles of Sociology.
Survey of the discipline of sociology, including socialization, social institutions, collective behavior, urban and community studies, demography, race relations, culture, and personality. Emphasis on basic concepts and the behavioral science approach to the study of human groups. SOCI 1310 and SOCI 3300 may not both be counted for credit. (WI).

Grade Mode: Writing Intensive

Course Attribute(s): Multi.Content & Perspective

about Principles of Sociology

TCCN: SOCI 1304

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The application of descriptive and inferential statistics of behavioral science data.

Grade Mode: Standard Letter

about Statistics for the Behavioral Sciences

TCCN: SOCI 3301

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3317. Popular Culture and Society.
The content of popular culture, including movies, television, genre novels, popular music, fads and fashion, sports, contemporary folklore, festivals and celebrations, clothing and body decoration, and related cultural material, is examined and analyzed for social significance.

Grade Mode: Standard Letter

about Popular Culture and Society

TCCN: SOCI 3315

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3318. Applied Data Analysis.
This course introduces the student to some of the uses of various existing statistical software packages including proper application, limitations, and interpretations of results. Prerequisites: Three hours of statistics or departmental approval.

Grade Mode: Standard Letter

about Applied Data Analysis

TCCN: SOCI 1308

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3319. Social Psychology.
The basic course in social psychology; the nature of the individual in society; the process of socialization; the human personality; personality and social adjustment; and social interaction.

Grade Mode: Standard Letter

about Social Psychology

TCCN: SOCI 2319

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3320. Population Dynamics.
A study of the composition of the world's population, focusing on growth, problems, politics, and controls. (MC).

Grade Mode: Standard Letter

about Population Dynamics

TCCN: SOCI 1307

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content

SOCI 3321. Suicide, Society, and Human Experience.
This course will offer a systematic approach to understanding the human encounter with suicide. Issues of theoretical concern are addressed. The course draws upon current and classic sociological research.

Grade Mode: Standard Letter

about Suicide, Society, and Human Experience

TCCN: SOCI 3303

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3324. Social Stratification.
The study of inequality as it relates to occupational, educational, religious, political, and other social activities.

Grade Mode: Standard Letter

about Social Stratification

TCCN: SOCI 3304

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3325. Social Deviance.
Theoretical and descriptive analysis of the major types of deviant behavior.

Grade Mode: Standard Letter

about Social Deviance

TCCN: SOCI 3325

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multi.Content & Perspective

SOCI 3327. Multicultural Relations.
The nature and the problems inherent in racial and other minority groups, with special reference to the American scene. (MC/P).

Grade Mode: Standard Letter

about Multicultural Relations

TCCN: SOCI 3327

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3328. Complex Organizations.
The study and analysis of complex organizations, bureaucracies, and professions and their influence on individuals and society and its institutions.

Grade Mode: Standard Letter

about Complex Organizations

TCCN: SOCI 3328

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3329. Life Course Sociology.
This course examines major sociological approaches to the study of the human life course. Theoretical approaches reviewed include age stratification, the life course perspective, and constructivist and critical approaches to the life course.

Grade Mode: Standard Letter

about Life Course Sociology

TCCN: SOCI 3329

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
SOCI 3330. Globalization and Development.
This course covers the sociology of globalization and development. Students will learn about theories of globalization; the effects of globalization on cultural, economic and political life; and factors at different levels of analysis affecting socioeconomic development, security, human rights, and democracy around the world. about Globalization and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Globalization and Development

This course explores the dynamic and interactive relationships between music, culture, and society. Popular American music - from blues, gospel, ragtime, jazz, country, and swing to rock, disco, punk, alternative, and rap - will be analyzed as reflections of culture, as society's "voice," and as a powerful instrument of socialization and social change. about The Sociology of Popular Music
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Sociology of Popular Music

SOCI 3337. The Family.
A comparative study of the family in various cultures, both historical and contemporary, with attention to the family in terms of social organization, social change, and social disorganization. about The Family
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Family

SOCI 3338. Family Problems.
This course applies sociological knowledge to common problems encountered in families: spouse and child abuse, elder abuse, catastrophic illness, suicide, unemployment, poverty, teen pregnancy, aging and gender issues. Worldwide traditions and norms affecting the institution of the family are also reviewed. (MC). about Family Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Family Problems

SOCI 3340. Sociology of Sport and Leisure.
The theories and research in leisure and popular culture will serve as the broad framework. An emphasis will be placed on the sub-area of sport sociology, including such topics as sport and aggression, competition, children, women, minorities, professionalism, and others. about Sociology of Sport and Leisure
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Sociology of Sport and Leisure

SOCI 3343. Criminology.
The various theories of crime, the cause of crime, areas of crime, treatment of criminals through the courts, punishment, reform, education, probation, and parole, and means of crime prevention. about Criminology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Criminology

SOCI 3344. The Sociology of Law.
This course introduces students to the function of law in human societies. Theories relevant to the study of law as a mechanism of social control and social change will be discussed. Law as a social institution, the training of lawyer, and their socialization into the role of lawyer will examined. about The Sociology of Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Sociology of Law

SOCI 3347. Juvenile Delinquency.
Delinquency in modern society, basic factors and conditions of juvenile delinquency, and the problem of delinquency control. about Juvenile Delinquency
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Juvenile Delinquency

SOCI 3348. Social Control.
An examination of the creation and maintenance of order in society, including socialization and institutions which respond to disorder. Included areas are education, religion, law, welfare, and medicine. Focus on law as both a mechanism of control and the basis for control in other institutions in industrial society. about Social Control
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Control

SOCI 3349. Drugs and Society.
A sociological examination of the social context of drug abuse with emphasis on the social factors, processes, and institutions that impact drug abuse. Applications of sociological theories and research methods will be studied. about Drugs and Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Drugs and Society

SOCI 3350. Men, Women, and Societies.
This course examines the relations between male and female roles throughout the world, including the United States, Europe, and third world countries. Special attention is given to changes in these roles and the consequences of such changes for societies, including familial, marital, and sexual relationships. (MC). about Men, Women, and Societies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Men, Women, and Societies

SOCI 3353. Urban Society.
A study of urbanization as a social phenomenon with attention to traditional sociological studies of the community. about Urban Society
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Urban Society
SOCI 3358. Work and Society.
This course will explore sociological studies of work and occupations, including the structure of work, economic changes, and concerns of workers such as earnings, promotions, and unemployment. It is divided into three main topics: the social organization of work, current work trends, and inequalities at work. Prerequisite: SOCI 13310.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

An examination of the social determinants and consequences of human health, morbidity, and mortality, including considerations of health institutions, organizations, professionals, and clients. Social epidemiology of human diseases and mortality and changing relationships of acute and chronic diseases are stressed. (WI). about Medical Sociology: The Sociology of Health and Illness Behavior

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

SOCI 3365. Society and Environment.
This course addresses issues emerging from the reciprocal relationship between society and its environment. The impacts of social and economic organization, social class, and government policies on the physical and social milieu will be examined in order to produce a better understanding of social and environmental interactions. about Society and Environment

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3366. Folkways and Folklore: An Introduction.
A study of the folkways of the cultures of Texas through selected examples of traditional beliefs, customs, folktales, songs, arts, games, artifacts, and techniques for the collection and preservation of folk materials. (MC) (WI). about Folkways and Folklore: An Introduction

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Multicultural Content|Writing Intensive

SOCI 3370. Industrial Sociology.
The social setting and formal organization of work; individual and group adaptation in industrial organization. about Industrial Sociology

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3372. Food and Society.
This course surveys the sociological study of food. Students will examine how people in societies socially construct "food", how people obtain food and the implications of this process for our health, economy, and environment; and how food relates to issues of race-ethnicity, social class, and gender. about Food and Society

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3375H. The Sociology of Technology.
This course examines societal transformations resulting from adopting modern technologies and their logic. Technologies will include, but are not limited to, the clock, gun, and auto. about The Sociology of Technology

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

SOCI 3375J. Sociology of Consumption.
Consumption is an integral part of social life in the United States, shaping how we see ourselves and others. While consumption can enhance consumers' lives, it is linked to a host of social and environmental problems. This course critically examines such problems and explores alternatives to the way of life that is consumerism. about Sociology of Consumption

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

SOCI 3375K. Social Movements.
This course examines social movements, repeated display of collective action outside sanctioned political channels to bring about social change. Different theoretical approaches to social movements will be reviewed to determine how movements organize, attract members, utilize resources, ideologically frame their issues, and engage in unconventional tactics to influence public policy. about Social Movements

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

SOCI 3383. Aging and Society.
This course is an introduction to the sociology of aging and social gerontology. It employs a multicultural perspective to examine diversity in the aging process as influenced by societal forces. about Aging and Society

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
SOCI 3384. The Sociology of Death and Dying.
A study of the sociological and social psychological perspectives on death and dying in contemporary societies with particular emphasis on the meanings of death, on dying as a social process, and on death in the context of both social organization and the life cycle.

Grade Mode: Standard Letter
about The Sociology of Death and Dying

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3390. Technology and Society.
The subject of this course is the relationship between technologies and social institutions. Topics covered may include but are not limited to theories of sociotechnical change, diffusion, social constructivism, modernity and rationalism, and case studies of transformative technologies such as the clock, the car, and the birth control pill. 

Grade Mode: Standard Letter
about Technology and Society

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 3395. Sociology of Sexuality.
Sexuality is explored from a social constructionist perspective, in contrast to essentialist and biological determinist perspectives dominating the Western understanding of sexual roles and behavior. Sexual identity, desire, behavior, response, and health are viewed as socially constructed, largely in response to concerns about societal order.

Grade Mode: Standard Letter
about Sociology of Sexuality

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 4306. Sociological Theory.
This course will examine classical sociological theories and the contemporary theories that follow from them. The major approaches covered are functionalism, conflict theory, symbolic interaction, and phenomenology. Prerequisites: twelve hours of Sociology or departmental approval. (WI).

Grade Mode: Standard Letter
about Sociological Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

SOCI 4308. Quantitative Research Methods.
Basic issues in social research are introduced, while emphasizing design and analysis of quantitative research studies. Research exercises culminate in a major research paper analyzing secondary data from The General Social Survey. Critique of published research articles is also required. Prerequisites: SOCI 3307 and SOCI 3318. (WI).

Grade Mode: Standard Letter
about Quantitative Research Methods

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

Grade Mode: Standard Letter
about Quantitative Research Methods

SOCI 4309. Qualitative Research Methods.
This course examines issues in the sociological research process with an emphasis on qualitative methods. Students will design, propose, and submit a qualitative study based on an extensive review of the sociological literature. Prerequisites: twelve hours of Sociology, or departmental permission. (WI).

Grade Mode: Standard Letter
about Qualitative Research Methods

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 4332. The Sociology of Education.
An examination of education as a formal institution and as a social system. Emphasis is placed upon the nature and functions of education organization in modern societies.

Grade Mode: Standard Letter
about The Sociology of Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SOCI 4360. Directed Study.
(By arrangement) A course of independent study open to superior students by permission of the professor and approval of the Chair of the department. May be repeated with different emphasis.

Grade Mode: Standard Letter
about Directed Study

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

SOCI 4690. Internship in Applied Sociology.
This course is a supervised work experience related to students’ career interests. Requirements include seminars and a 300-hour internship for 15 weeks during long semesters or 10 weeks in the summer. This course is limited to BS majors who meet all prerequisites and can be taken for credit only once.

Grade Mode: Standard Letter
about Internship in Applied Sociology

6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

<td>3</td>
</tr>
<tr>
<td>SOCI 4306</td>
<td>Sociological Theory</td>
<td>3</td>
</tr>
</tbody>
</table>

2. The remaining 21 hours of coursework may be selected from any SOCI courses. Majors are encouraged to consult with the undergraduate academic advisor for elective course selection.

3. Sociology majors must select a minor from the list of approved minors in this catalog.

4. Nine hours of writing intensive courses (not including ENG 1310 or ENG 1320) are required for graduation.

5. The minimum number of hours required for a degree is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the 120 and/or the 36 advanced and/or the 9 hours writing intensive required for graduation.

# Bachelor of Science (B.S.) Major in Applied Sociology

**Minimum required: 120 semester hours**

## General Requirements

1. Majors are required to complete:
   - SOCI 1310 Introduction to Sociology 3
   - or SOCI 3300 Principles of Sociology
   - SOCI 3307 Statistics for the Behavioral Sciences 3
   - SOCI 3318 Applied Data Analysis 3
   - SOCI 4306 Sociological Theory 3
   - SOCI 4308 Quantitative Research Methods 3
   - SOCI 4309 Qualitative Research Methods 3
   - SOCI 4690 Internship in Applied Sociology 6

   The remaining 15 hours of upper division sociology coursework should be related to their occupational goals or free SOCI advanced electives. Courses should be chosen with the advice of the undergraduate academic advisor.

2. The Social and Behavioral Sciences component of the general education core curriculum may not include SOCI 1310 or SOCI 3300.

3. In addition to general education core curriculum and requirements for the B.S. degree, students must complete two semesters of coursework in the same foreign language (1410, 1420) unless they successfully completed two years of foreign language in high school, and must complete one additional English sophomore literature course or Technical or Professional Writing (ENG 3303 or ENG 3304).

4. The minimum number of hours required for a degree is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the 120 and/or the 36 advanced total hours required for a degree.

### First Semester Hours Second Semester Hours

| SOCI 1310 | 3 | HIST 1310 | 3 |
| 3 SOCI 1310 | 3 |
| ENG 1310 | 3 | SOCI elective | 3 |
| US 1100 | 1 MATH 1312 (or higher) | 3 |
| POSI 2310 | 3 | ENG 1320 | 3 |
| 3 Life and Physical Sciences | 3 |
| COMM 1310 | 3 |
| 16 | 15 |

**Total Hours: 120**

1. In the senior year, majors must complete a field internship (SOCI 4690) related to their applied sociological training and minor concentration. Enrollment in the internship requires completion of all other course work in the major and a Texas State GPA of 2.00, a major GPA of 2.25 and a minor GPA of 2.00.

## Minor in Aging and the Life Course

Students who want a minor that may lead to a career studying gerontology or working with people in their various life stages, including their final stage, should select Aging and the Life Course as a minor.

A minor in Aging and the Life Course requires 18 semester hours including:

- Select nine hours from the following: 9
  - SOCI 3329 Life Course Sociology
  - SOCI 3383 Aging and Society
  - SOWK 4320 Social Work with Older Adults

## Bachelor of Science (B.S.) Major in Applied Sociology

**Senior**

| First Semester Hours Second Semester Hours |
|---|---|
| SOCI 4308 | 3 SOCI 4309 | 3 |
| SOCI advanced electives | 6 SOCI advanced elective | 3 |
| Minor | 3 SOCI elective | 3 |
| Electives (as needed) | 3 Minor | 6 |
| 15 | 15 |

**Total Hours: 120**

1. The Social and Behavioral Sciences component of the general education core curriculum may not include SOCI 1310 or SOCI 3300.
Minor in Sociology

A minor in Sociology consists of a minimum of 18 semester hours, including:

- SOCI 1310 Introduction to Sociology 3
- or SOCI 3300 Principles of Sociology
- SOCI electives, 12 of which must be completed at the advanced (3000-4000) level 15

Total Hours 18

Minor in Studies in Popular Culture

The Studies in Popular Culture minor is designed to acquaint students with trends in American popular culture. Techniques of research, social meanings and consequences of popular culture are the major foci of the minor.

Courses for the Studies in Popular Culture minor were selected because they deal with significant aspects of everyday life ranging from mass media through the history of cultural trends and phenomenon. The courses selected deal with subjects that both are influenced by and influence popular culture.

- SOCI 3317 Popular Culture and Society 3
- Select 15 hours of advanced level courses from the following: 15
  - ANTH 3309 Cultures Through Film
  - ENG 3309 The Southwest in Film
  - ENG 3326 American Drama on Film
  - ENG 3329 Mythology
  - ENG 3331 Literature of Black America
  - HIST 3343 Social and Intellectual History of the United States Since 1865
  - HIST 3368K American Cultural History
  - HIST 3368L History of Mexican American Music in the Southwest
  - HIST 3368M Popular Music and Social Movements in 20th Century America
  - HIST 3368Q History of Professional Baseball, 1869-1994
  - HIST 3368R History of Rock and Roll
  - HIST 3368S History of Music and Race in the American South

Total Hours 18

College of Science and Engineering

Dean
Robert B. Hablingreither, Ed.D., Interim
Centennial Hall Room 201
T: 512.245.2119 F: 512.245.8095
http://www.cose.txstate.edu/

Associate Dean
Thomas H. Myers, Ph.D.

Associate Dean of Research
Gary W. Beall, Ph.D.

Assistant Dean
Gregory B. Passty, Ph.D.

Department Chairs/School Directors
Biochemistry—Dittmar Hahn, Ph.D.
Chemistry and Biochemistry—William J. Brittain, Ph.D.
Computer Science—Hongchi Shi, Ph.D.
Engineering—Stan A. McClellan, Ph.D.
Engineering Technology—Andy H. Batey, Ph.D.
Mathematics—Susan Morey, Ph.D.
Physics—Mark W. Holtz, Ph.D.

The mission of the College of Science and Engineering is threefold: to prepare students for careers in the natural sciences, mathematics, computer science, engineering, or technology; to provide general scientific and mathematical backgrounds for non-science majors; and to prepare students for advanced training in professional or graduate schools. To accomplish its mission the College maintains an academic
atmosphere conducive to excellence in teaching and research and enforces high standards of performance for faculty and students.

To ensure an understanding of basic scientific concepts, the College offers extensive opportunities for student participation. Students gain experience in laboratories, interact with the environment through field studies, conduct undergraduate research, and train in technologically advanced instrumentation. A combination of student participation, rigorous classroom instruction, and library research gives majors a competitive advantage in career advancement or in the selection of professional or graduate colleges. The non-science major is assured of adequate scientific knowledge to make informed decisions essential to citizens in a science-oriented, technological world.

The seven academic units in the College of Science and Engineering are the Departments of Biology, Chemistry and Biochemistry, Computer Science, Mathematics, Physics, and Engineering Technology, and the Ingram School of Engineering.

Majors include applied mathematics, aquatic biology, biochemistry, chemistry, computer science, electrical engineering, engineering technology, biology, industrial engineering, manufacturing engineering, mathematics, microbiology, physics, technology management, and wildlife biology. In addition, pre-professional programs of study are available in dentistry, medicine, and pharmacy. Secondary teacher certification may be incorporated into some of the majors.

**Academic Advising Center**

Centennial Hall Room 202
T: 512.245.1315 F: 512.245.9210
www.cose.txstate.edu/advising (http://www.cose.txstate.edu/advising)

The College of Science and Engineering Undergraduate Academic Advising Center advises current students on academic and administrative issues. Students are informed about matters related to academic general education core requirements, scholarships and awards within the College, the selection of an appropriate major and minor, the selection of appropriate courses, transfer and correspondence courses, academic probation/suspension, the choice of an educational program leading to a bachelor's degree, and participation in pre-professional programs. The Advising Center is a resource for current students who are considering a science major or pre-professional program and provides assistance for students applying for graduation. Career counseling is available in the academic unit of the student's major and through Career Services.

**Teacher Certification**

Currently, there are seven Texas science-related teacher certification programs available at Texas State University:

- Chemistry (B.S. major in Chemistry),
- Computer Science (B.A. or B.S. major in Computer Science),
- Life Sciences (B.S. major in Biology),
- Mathematics (B.S. major in Mathematics),
- Physical Science (B.S. major in Chemistry),
- Science (B.S. major in Interdisciplinary Science), and
- Technology Education (B.S. major in Technology Management).

Students seeking any of these certifications need to follow coursework leading to a degree in the appropriate science field, in addition to taking the required certification courses. Relevant information can be found within each departmental section of the catalog. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student.

Students interested in certification are strongly encouraged to see the Science and Engineering Advisor early in their undergraduate program or certification process.

The Bachelor of Science (B.S.) major in Interdisciplinary Science is designed to broadly train students in a wide spectrum of science disciplines in preparation for the Science teacher certification exam for grades 7 through 12. Admission into the program requires both admission to the university and to the Teacher Preparation Program. The Teacher Preparation Program admittance requirements are found in the College of Education section of this catalog. Students successfully completing the program and the Science teacher certification exam will be prepared to teach any high school science subject and in informal science educational settings within communities. There is a high job market need for science teachers nationally and in Texas. Students must enroll and complete all of the required courses in the following degree plan in order to sit for the teacher certification exam.

**Bachelor of Science (B.S.)**

- Major in Interdisciplinary Studies (Teacher Certification in Science, Grades 7-12) (p. 540)

**Minors**

- Second Teaching Field in Life Science (Grades 7-12) (p. 541)
- Second Teaching Field in Physical Science (Grades 6-12) (p. 541)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Bachelor of Science (B.S.) Major in Interdisciplinary Science (Teacher Certification in Science, Grades 7-12)**

**Minimum required: 132 semester hours**

**General Requirements**

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.
2. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
3. An overall GPA of at least 2.75 or higher to graduate.
4. A GPA of at least 2.75 in all assigned courses in the professional sequence with no grade below a “C”.
5. A GPA of at least 2.75 in all science courses with no grade below a “C”.
6. A minor in secondary education is required.
7. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

### Second Teaching Field in Life Science (Grades 7-12)

For students who are seeking a teacher certification within their major and would like a second teaching field in Life Science, the requirements are:

- BIO 1330: Functional Biology
- BIO 1331: Organismal Biology
- BIO 2410: Intermediate General Botany
- BIO 2450: Genetics
- BIO 4408: Science Processes and Research
- BIO 4416: General Ecology
- CHEM 1341: General Chemistry I
- CHEM 1342: General Chemistry II
- CHEM 1343: and General Chemistry Laboratory I
- CHEM 1344: and General Chemistry Laboratory II
- Total Hours: 32

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

### Second Teaching Field in Physical Science (Grades 6-12)

For students who are seeking a teacher certification within their major and would like a second teaching field in Physical Science, the requirements are:

- CHEM 1341: General Chemistry I
- CHEM 1342: General Chemistry II
- CHEM 2341: Organic Chemistry I
- CHEM 2342: Organic Chemistry II
- CHEM 3410: Quantitative Analysis
- CHEM 4295: Laboratory Development and Practice
- Advanced CHEM

---

1. BIO 4408 must be taken in the semester just prior to student teaching.
All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

**Department of Biology**

Supple Building Room 384  
T: 512.245.2178 F: 512.245.8713  
www.bio.txstate.edu (http://www.bio.txstate.edu)

Biology is the study of living systems and how they function. Because the biological sciences have had and continue to have profound impact on questions of concern to human society - longevity, environmental quality, biotechnology - knowledge of the biological sciences is an essential aspect of higher education.

Biologists find employment in research laboratories, regulatory agencies, and education. Interested students should see the major area advisors.

Biology majors take a minimum of 11 courses that include the core curriculum of Functional Biology, Organismal Biology, Genetics, a biological diversity course, a physiology course, Ecology, and Evolution. At the sophomore level and above, a variety of courses in cellular and organismal biology assure a broad education in any of the regions of specialization. Additional required courses in chemistry, mathematics and physics provide a broad scientific background. A minor outside the Biology Department is required for all areas of study except for the Wildlife Biology program. The B.S. major in Biology or in Microbiology is often the choice for those seeking pre-medical and pre-dental education as the courses required for graduation fulfill all the prerequisites required for admission to medical school.

**Teacher Certification**

Students may earn the Life Science (Texas Grades 7-12) certification through a B.S. major in Biology. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science and Engineering Advisor early in their undergraduate program or certification process.

**Bachelor of Science (B.S.)**

- Major in Biology (p. 552)
- Major in Biology (Teacher Certification in Life Sciences, Grades 7-12) (p. 553)
- Major in Aquatic Biology (p. 554)
- Major in Microbiology (p. 554)
- Major in Wildlife Biology (Leading to National Wildlife Foundation Certification as a Wildlife Biologist) (p. 555)

**Minors**

- Biology (p. 556)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Subjects in this department include:** BIO (p. 542), GS (p. 551)

**Courses in Biology (BIO)**

BIO 1320 and BIO 1421 may be taken in any order. BIO 1320 and BIO 1421 will not meet the requirements for medical or dental schools.

**BIO 1130. Functional Biology Laboratory.**  
Fundamental techniques and instruments used in cellular biological research will be taught while emphasizing safety, measurements, and scientific methods. Students will design and implement controlled experiments, identify independent and dependent variables, analyze data, draw conclusions, and communicate results with appropriate tables and graphs in oral presentations and written papers. Co-requisite or Prerequisite: BIO 1330.  
Grade Mode: Standard Letter  
TCCN: BIOL 1106

**BIO 1131. Organismal Biology Laboratory.**  
This course introduces the students to the basics of experimental design, scientific method and inquiry, use of statistical analyses and writing research papers. Topics covered include Mendelian and population genetics, natural selection, population ecology, phylogeny, and behavioral ecology. Co-requisite or Prerequisite: BIO 1331.  
Grade Mode: Standard Letter  
TCCN: BIOL 1107

**BIO 1320. Modern Biology I, Molecules, Cells, and Physiology.**  
Provides students with basic scientific and biological principles. Current problems in biology and the ethics of science are presented with perspectives of public policy from a scientific viewpoint. This course is not recommended for majors in the natural sciences, including biology.  
Grade Mode: Standard Letter  
TCCN: BIOL 1308
BIO 1330. Functional Biology.
This course provides the students with a strong foundation in cellular and molecular biology. Topics include biochemistry, energy metabolism, molecular bases of gene regulation and protein functions, cell division and control, and cell signaling. This course is required for all biology majors and is not recommended for non-science majors. Co-requisite or Prerequisite: BIO 1130.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: BIOL 1306
about Functional Biology

BIO 1331. Organismal Biology.
This course provides science majors with a foundation in organismal biology, Mendelian and population genetics, evolution and ecology. Topics include: patterns of inheritance, genetics, evolution, speciation, phylogenetics, and behavioral population, community, and ecosystem ecology. This course is required for all biology majors and is not recommended for non-science majors. Co-requisite or Prerequisite: BIO 1131.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: BIOL 1307
about Organismal Biology

This course provides the nonscience major the strong and diverse background necessary to understand the structural and functional diversity of organisms, evolution and behavior, and interactions among organisms and their environment. Topics include issues such as the genetic basis of behavior, overpopulation and extinction, ozone depletion, and conservation biology. This course is not recommended for majors in the natural sciences, including biology.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: BIOL 1409
about Modern Biology II, Organisms, Evolution, and Environment

BIO 2400. Microbiology.
Principles of microbiology, morphology, anatomy, physiology and taxonomy of representative groups of non-pathogenic organisms. Laboratory methods stress studies of pure cultures, the use of laboratory apparatus in quantitative determinations and the detection and identification of microbial populations in the environment. Prerequisites: BIO 1330 and BIO 1130, and BIO 1331 and BIO 1131; and CHEM 1341 all with grades of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab
Grade Mode: Standard Letter
TCCN: BIOL 2421
about Microbiology

BIO 2410. Intermediate General Botany.
An introduction to the biology of plants and plant-like organisms, emphasizing their role in ecosystem processes, relationships between structure and function, and the evolutionary relationships among the major plant groups. Prerequisites: BIO 1330 and BIO 1130, and BIO 1331 and BIO 1131 with grades of "C" or higher.
about Intermediate General Botany
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab
Grade Mode: Standard Letter
TCCN: BIOL 2404
about Intermediate General Botany

BIO 2411. Intermediate Zoology.
Provides biology majors a strong foundation in animal biology at the organismal level. The format will include details of animal form and function as well as concepts relating to classification, phylogeny, evolution, and ecology. Topics will include natural history, biogeography, adaptations to local environments, shared characters, and behavior. All material is presented in an accepted phylogenetic sequence. Prerequisites: BIO 1330/BIO 1130, and BIO 1331/BIO 1131 all with grades of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab
Grade Mode: Standard Letter
TCCN: BIOL 2420
about Intermediate Zoology

BIO 2430. Human Physiology and Anatomy.
A course on human physiology covering the various organ systems. Principles of molecular biology, cell and tissue structure, anatomy and relationship of structure and function are stressed. May not be credited toward a Biology major or minor.
about Human Physiology and Anatomy
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab
Grade Mode: Standard Letter
TCCN: BIOL 2404
about Human Physiology and Anatomy

BIO 2440. Principles of Microbiology.
The Basic Principles of microbiology, morphology, physiology, immunology and the relationship of microorganisms to diseases. This course is designed primarily to meet the requirements for students in allied health sciences and other programs requiring only one semester of microbiology. This course may not be credited toward a biology major or minor. Prerequisites: BIO 1330 and CHEM 1341 with minimum grades of D.
about Principles of Microbiology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab
Grade Mode: Standard Letter
TCCN: BIOL 2420
about Principles of Microbiology
BIO 2450. Genetics.
An introduction to basic principles of Genetics by studies of Mendelian, molecular, quantitative and population genetics. Topics include: classical transmission genetics, and gene mapping, DNA replication and repair, transcription, translation, control of gene expression, genetic engineering techniques, Hardy-Weinberg equilibrium, evolutionary change via natural selection, and genetic drift. Prerequisites: BIO 1330, BIO 1130, BIO 1331 and BIO 1131; CHEM 1141, CHEM 1341, CHEM 1142, and CHEM 1342 all with grades of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2416

BIO 2451. Human Anatomy and Physiology I.
Part I of a two semester course on the structure and function of the human body. Designed specifically to prepare students for nursing and other health professions. Prerequisites: BIO 1330 and CHEM 1341 with grades of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 2452. Human Anatomy and Physiology II.
This course is the second part of a two semester course on the structure and function of the human body designed specifically to prepare students for nursing and other health professions. Prerequisites: BIO 1330, CHEM 1341, BIO 2451, with grades of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3300. Cell and Molecular Biology.
Fundamentals of structure and function of prokaryotic and eukaryotic cells. Course includes cell and organelle structure, basic biochemistry, principles of thermodynamics and energy transformation, nucleic acid and protein synthesis, enzyme kinetics, cell motility and cell signaling. Prerequisites: BIO 1330, BIO 1130, BIO 2450, and CHEM 1342 with grades of "C" or higher, or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An interdisciplinary introduction to the science of global environmental change. Emphasis will be placed on understanding principles of earth system science, the scientific basis underlying the major components of global environmental change, the linkages between these components, and the central role of humanity in contributing to the observed changes. Prerequisites: BIO 1330, BIO 1130, BIO 1331 and BIO 1131 with grades of "C" or higher. 

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

BIO 3351. Forensic and Human Genetics.
This course introduces students to basic principles of Mendelian, molecular, and forensic genetics as it relates to the problems of human populations. This course is intended for non-science majors. May not be credited towards a biology major or minor. Prerequisites: BIO 1320 and BIO 1421, or BIO 1330/BIO 1130 and BIO 1331/BIO 1131.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 3406. Economic Botany.
An introduction to the utilization of plants by humans and their economic and ecological significance. Laboratories will stress plant features beneficial to economic and societal needs. Prerequisite: BIO 2450 with a grade of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3410. Phycology.
A study of algal organisms, comparative and culture techniques. Prerequisites: 8 hours from BIO 1410, BIO 2410, BIO 2450, BIO 3400, or BIO 3450 with grades of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3421. Vertebrate Physiology.
The study of the physiology of vertebrate organ systems, including the nervous system, musculoskeletal system, endocrine system, cardiovascular system, respiratory system, digestive system, reproductive system and urinary system. Mammalian systems will be emphasized. Prerequisites: BIO 2450 with a grade of C or higher.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
BIO 3430. Mycology.
A study of the fungal kingdom including slime molds and lichens. Laboratory studies will emphasize taxonomy, morphology and culture techniques. Prerequisites: BIO 2410 or BIO 2400, BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3442. Virology.
The structure, multiplication and genetics of bacterial, plant, and animal viruses. The role of viruses in human and plant disease. Prerequisites: BIO 2400, BIO 2450 with grades of "C" or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 3460. Aquatic Biology.
An introduction to plant and animal life in the fresh water habitats of the local area. Prerequisites: BIO 2411, BIO 2450 with grades of "C" or higher; and one year of Chemistry. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3461. Plant Taxonomy.
Principles of identification and classification of plants; nomenclature and characteristics of various plant groups with emphasis on the higher plants. Prerequisites: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3465. Plant Physiology.
Basic principles of plant physiology studied in lecture and laboratory. Prerequisite: BIO 2450 with a grade of "C" or higher or consent of instructor. One semester of organic chemistry is strongly recommended.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3470. Invertebrate Zoology.
A study of the comparative morphology, evolution, systematics and natural history of invertebrates. Prerequisites: BIO 2411, BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 3480. Histology.
A study of the structural and functional relationships between cells and tissues in organs. The laboratory includes the study of prepared slides and of microtechnique. This course is designed to meet the needs of pre-professional students. Prerequisite: BIO 2450 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

This course will cover basic principles of developmental biology in both plant and animal systems. Course will mainly address cell, molecular and genetic mechanisms underlying the development of model organisms. Prerequisites: BIO 1430 and BIO 2450.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

BIO 4126. Immunology Laboratory.
This laboratory-based course will cover cells of the immune system and basic serological reactions, including bacterial and viral agglutination reactions, precipitation, immunoelectrophoresis, immunofluorescence, and enzyme-linked immunosorbent assays. Prerequisites: BIO 2400 and BIO 2450 with grades of C or higher. Pre- or co-requisite: BIO 4326. Course restricted to Microbiology majors.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4166. Medical Microbiology Laboratory.
This laboratory-based course will cover pathogenic bacteria emphasizing identification of selected groups of pathogens and the biological basis for virulence. Prerequisites: BIO 2400 and BIO 2450, with grades of C or higher. Corequisite: BIO 4345. Course restricted to Microbiology majors.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

BIO 4299. Undergraduate Research.
Supervised individual research projects in a mentor-student relationship with a biology professor. Available only to biology majors with junior standing and at least a "B" average. May be repeated once for credit. Prerequisites: BIO 2450 with a grade of "C" or higher and consent of the supervising professor.
2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
BIO 4300. Neurobiology.
This course will give students an overview of neuroscience, particularly the areas of neuroanatomy, neurophysiology, and evolutionary and developmental neurobiology. Prerequisite: BIO 2450 with a grade of "C" or higher. (MC).

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Neurobiology

BIO 4301. Evolution.
Basic genetic principles applied to natural selection, adaptation, populations, speciation and man's future. Consideration is given to the origin of life, nature of chromosomal variation, evolution of genetic systems and certain other selected topics. Prerequisite: BIO 2450 with a grade of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Evolution

Students will be introduced to the impact human recreational activities have on wildlife habitats and populations. Management practices to enhance human-wildlife encounters or to minimize detrimental effects on wildlife populations will be presented. Prerequisite: BIO 4416.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Wildlife and Recreation: Impact, Policy, and Management

This course provides a comprehensive survey of natural events. It includes laboratory and field work emphasizing observation, collection and discovery of relationships. It is creditable only for those seeking elementary or middle school certification and is required for those seeking grade 4-8 Science or Science/Mathematics teaching certification. This course must be taken the semester immediately prior to student teaching.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Nature Study

BIO 4311. Cancer Biology.
Cancer Biology provides a foundation for understanding the complex molecular, biochemical, and cellular processes associated with cancer development. Topics include the role of tumor suppressor genes, oncogenes, DNA repair, apoptosis, ECM, cell-cycle control, cell signaling pathways, immune function and cancer-causing viruses. Emerging diagnostics and/or therapeutics will also be discussed. Prerequisite: BIO 2450 Genetics with a grade of C or higher; or approval of instructor.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Cancer Biology

This course is an introduction to the protection and sustainable use of populations, species, habitats, and ecosystems. Course also includes study of the methods used to analyze biodiversity and population regulation. Prerequisite: BIO 4416 or concurrent enrollment.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Biological Resources: Conservation and Planning

BIO 4326. Immunology.
This lecture-based course will cover the biology of the immune system and its relationship to disease, emphasizing B and T cell immunity, immune diseases, hypersensitivities, transplantation, and cancer. Prerequisites: BIO 2400 and BIO 2450 with grades of C or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Immunology

BIO 4350B. Biological Implications of Water Planning in Texas.
Current topics in understanding the biological implications of water planning in Texas. This course will be of particular interest to students who have a background in aquatic biology and who intend to stay in Texas post-graduation. Prerequisites will be determined by topic and faculty offering the course. May be repeated once with different emphasis.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

Grade Mode: Standard Letter

about Biological Implications of Water Planning in Texas

BIO 4350D. Watershed Management Frameworks and Applications.
Introduction to integrated watershed assessment and management tools for identifying programmatic water quality and quantity issues and their root causes and solutions, and their practical application. The scientific and socio-economic elements are considered within the context of planning and developing watershed protection plans and programs. Prerequisite: Instructor approval.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

Grade Mode: Standard Letter

about Watershed Management Frameworks and Applications

BIO 4350E. Techniques in Aquatic Biology.
This course will provide hands on experience with a suite of physical, chemical, and biological sampling techniques and gear used in applied river studies. Students will be exposed to the fundamentals of data quality objectives, accuracy, precision, detection limits, data visualization, exploratory analysis, univariate and multivariate statistics.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Topics

Grade Mode: Standard Letter

about Techniques in Aquatic Biology
BIO 4350I. Bird Conservation and Management.
This course is an introduction to the conservation and management of bird populations in an ecological context. Course covers a variety of species and spatial scales from landscape to ecoregion. Laboratory portion will involve field trips, intensive computer-based labs, and class discussion. Prerequisites: BIO 4416 or concurrent enrollment.

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Bird Conservation and Management

BIO 4350J. Environmental Physiology of Animals.
This course is a study of how animals respond physiologically to changes in environmental temperature, moisture, salinity, partial pressure of gases, and toxins. Prerequisites: BIO 1330, BIO 1331, and BIO 2450 with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Environmental Physiology of Animals

BIO 4350K. Genomics.
The course is a lecture covering modern genomics, including principles of genome function, the human genome, comparative genomics, genome sequencing, evolution and genomic change, databases and medicine, ethical, legal and social issues. The course also includes discussion of transcriptomics, proteomics, metabolomics, directed evolution, protein design, and systems biology. Prerequisite: BIO 2450 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Genomics

BIO 4350L. Bacterial Genetics.
This course will cover concepts and mechanisms involved in the genetics of Archaea and Bacteria.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Bacterial Genetics

BIO 4350M. Wildlife Policy and Law in North America.
This course provides the student with a historical and cultural context within which wildlife policy and law have developed in North America, particularly in the United States. Federal treaties, statutes, case law, and regulations pertaining to wildlife will be presented. Wildlife law from representative states will be referenced as well. Prerequisite: BIO 4423 or 4435 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Wildlife Policy and Law in North America

BIO 4350O. Tropical Ecology and Conservation.
Students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. It is an immersive and intensive study abroad course combining traditional lecture and field-based laboratory instruction. All course work will be conducted during a ~1 month stay in the South American country of Ecuador. Restricted to Juniors and Seniors with a minimum 2.50 Overall GPA. Co-requisite: BIO 4350P.

3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Tropical Ecology and Conservation

This laboratory course complements the lecture course BIO 4350O, in which students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. It is an immersive and intensive study abroad course combining traditional lecture and field-based laboratory instruction. All course work will be conducted during a ~1 month stay in the South American country of Ecuador. Restricted to juniors and seniors with a minimum 2.5 Overall GPA. Co-requisite: BIO 4350O.

3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Tropical Ecology and Conservation Lab

BIO 4350Q. Biological Oceanography.
Students will be introduced to the principles of oceanography and will understand anthropogenic impacts on the oceans. Topics to be investigated will include: ocean formation and destruction, sediments, ocean circulation, waves, tides, estuaries, life in the oceans, hydrothermal vents, coral reefs, fisheries, marine pollution, and climate change. Must be at least a Junior to enroll with a minimum 2.5 Overall GPA.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Biological Oceanography

BIO 4366. Medical Microbiology.
This lecture-based course will cover pathogenic bacteria and their relationship to disease, epidemiology and the biological basis for virulence. Prerequisites: BIO 2400 and BIO 2450 with grades of C or higher. Students may take only one of BIO 4345, BIO 4350G or BIO 4445 for credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Medical Microbiology
BIO 4369. Biosystematics.
Biological systematics is a multidisciplinary component of most biological disciplines. Course topics include: classification schemes, homology, homoplasy, the application of nomenclature, and phylogeny reconstruction. The course will also present relevant issues in conservation, biodiversity cataloguing, museum and collection management, and identification methods/dichotomous keys. Prerequisite: BIO 2450 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Biosystematics

BIO 4402. Earth Science I.
The description and interpretation of earth phenomena considered from the standpoint of meteorology and astro science. Includes field observations, methods of measurement and interpretation of data related to the physical environment and space technology. May not be counted toward a major or minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Earth Science I

BIO 4403. Earth Science II.
The description and interpretation of earth phenomena considered from the standpoint of geology and oceanography. Includes field observations, methods of sampling and interpretation of data related to the physical environment. May not be counted toward a major or minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Earth Science II

BIO 4408. Science Processes and Research.
Students will analyze scientific research design, design research, interpret data, and communicate results. Stress will be placed on broad-field structure and integration of major science concepts and research-based science pedagogy. This course must be taken the semester prior to student teaching and is required for those seeking 7-12 Life Science or Science teacher certification. This course may not count as one of the four upper-level Biology courses required of general Biology majors, or one of the three upper-level Biology courses required of Biology minors.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Science Processes and Research

BIO 4410. Field Biology of Plants.
Ecological relationships and natural history of plants, including historical geology, geography, soils, vegetational regions and surface geology of central Texas. Emphasis is placed on plant-soil-water relationships to develop conservation concepts. Students will make a representative collection of plants. Prerequisite: BIO 2450 with a grade of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Field Biology of Plants

The structure, life-cycles and evolution of fossil and living vascular plants. Emphasis on such topics as the origin of land plants, evolution of the ovule, angiospermy, the flower and fruit. Prerequisites: BIO 2450 with a grade of "C" or higher; one year of Chemistry.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Morphology of the Vascular Plants

BIO 4412. Plant Anatomy.
The anatomy of vascular plants stressing descriptive, development and comparative aspects of seed plants and the anatomical adaptations of plants to environmental factors. Prerequisites: BIO 2450 with a grade of "C" or higher; one year of Chemistry.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Plant Anatomy

BIO 4413. Parasitology.
The biology and biological significance of the common parasites of man and animals. Prerequisites: BIO 2411, BIO 2450 with a grade of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Parasitology

BIO 4415. Ichthyology.
An introduction to the morphology, taxonomy, natural history and evolution of fishes. Field trips will be made to collect specimens and laboratory periods will be devoted to morphological and systematic analysis. Prerequisites: BIO 2411, 2450 with a grade of "C" or higher.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter about Ichthyology
BIO 4416. General Ecology.
The ecological relationships that exist between organisms and those relationships that exist between organism and environment. Laboratory sessions will be devoted to literature review and/or specific ecological problems. This course or BIO 4454 is required of all biology majors. Prerequisites: BIO 2450; BIO 2410, BIO 2411, or BIO 2400 with a grade of "C" or higher. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about General Ecology

BIO 4418. Field Ornithology.
This course is designed to introduce and provide an advanced knowledge of the application of various field, laboratory, and statistical methods and techniques in the study of avian species. The course will include topics related to survey methodology, sampling design, marking/banding, measurement/sample extraction, and aging/sexing of avian species. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher. BIO 4416 is also recommended. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Field Ornithology

BIO 4420. Natural History of the Vertebrates.
Environmental relationships and natural history of vertebrates. Emphasis is upon taxonomy, speciation and biotic provinces. The laboratory will include field trips for the study and collection of animals in their natural habitats. Students will assemble a representative collection of animals. Prerequisites: BIO 2411, BIO 2450 with a grade of "C" or higher and permission of instructor required for non-wildlife majors. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Natural History of the Vertebrates

BIO 4421. Ornithology.
Introduction to anatomy, behavior, ecology and identification of birds of Texas. Laboratory will emphasize field studies of birds and their habitat requirements. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Ornithology

BIO 4422. Mammalogy.
The taxonomy, distribution, ecology, behavior and evolution of mammals with particular emphasis on wild animals of the southwest. Laboratory will emphasize anatomy, identification, preparation of specimens and field exercises in the methods of population analysis. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher. BIO 4416 is also recommended. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Mammalogy

BIO 4423. Wildlife Management.
Applications of the principles of ecology and natural history to the management of wildlife habitats and control of wildlife populations. Laboratory will involve demonstrations and practice exercises with wildlife management techniques and instrumentation and field trips to observe wildlife management projects. Prerequisites: BIO 2410, BIO 2411, and BIO 2450 with a grade of "C" or higher. BIO 4416, BIO 4421, or BIO 4422 is also recommended. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Wildlife Management

BIO 4425. Biometry.
Basic principles of statistical methods as applied to biological problems such as sampling techniques, analysis of data, experimental design and population dynamics. Emphasis will be on practical application. Prerequisites: BIO 2450 with a grade of "C" or higher; MATH 1315.

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Biometry

BIO 4434. Herpetology.
A course treating the origin and evolution of amphibians and reptiles; their reproductive and physiological tactics; taxonomy/systematics; and population biology. Emphasis will be placed on North American species and those groups inhabiting Texas. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher.

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Herpetology

BIO 4435. Techniques in Wildlife Management.
The basic methodology of practical wildlife management. This involves techniques in monitoring and data collection related to population dynamics and habitat parameters of wildlife species. Prerequisites: BIO 2411 and BIO 2450 with a grade of "C" or higher and permission of instructor required for non-wildlife majors.

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Techniques in Wildlife Management

BIO 4441. Cellular Physiology.
Advanced cellular biology, including membrane physiology, thermodynamics, energy transduction and distribution, and cellular movement in non-muscle and muscle cells. Laboratory includes discussion of current research and exercises in cellular physiology. Prerequisites: BIO 2450 with a grade of "C" or higher; one semester of Organic Chemistry. (WI).

**Grade Mode:** Standard Letter

**Lab Required:** Writing Intensive

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Lab Required

about Cellular Physiology
BIO 4442. Experimental Techniques.
Use of methods and instruments applicable to biological investigations, including colorimetry; UV-spectrophotometry; fluorescence; flame and atomic absorption spectrophotometry; paper, gas, gel filtration and ion exchange chromatography; radioactive counting; and electrophoresis. Prerequisite: BIO 2450 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Experimental Techniques

BIO 4444. Microbial Ecology.
This course will illustrate the wide variety of bacteria in nature, their interactions with other organisms and the environments, and their roles in global cycling of elements such as carbon, nitrogen, and sulfur. The laboratories will feature enrichments for selected groups of microorganisms (sulfate reducers, nitrogen fixers) and analysis of these isolates by microscopy, gas chromatography and radiochemical substrate utilizations. Prerequisites: BIO 2400 and BIO 2450 with a grade of “C” or higher. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Microbial Ecology

BIO 4447. Microbial Physiology and Genetics.
This course will cover fundamental concepts in bacterial physiology and genetics, including central and specialized metabolism, and unique aspects of bacterial genetics. Prerequisites: BIO 2400 and BIO 2450; CHEM 2142 and CHEM 2342 with grades of “C” or higher. (WI).
about Microbial Physiology and Genetics
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Microbial Physiology and Genetics

BIO 4450. Physiological Ecology of Animals.
This course will cover fundamental concepts in bacterial physiology and genetics, including central and specialized metabolism, and unique aspects of bacterial genetics. Prerequisites: BIO 2400, BIO 2450; CHEM 2142, CHEM 2342 with a grade of “C” or higher. (WI).
about Physiological Ecology of Animals
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Physiological Ecology of Animals

BIO 4454. Plant Ecology.
Physiological ecology and community structure and function in the organization of terrestrial plant ecosystems. Quantitative vegetational sampling and the use of field and laboratory physiological equipment are included in the laboratory. This course or BIO 4416 is required of all Biology majors. Prerequisite: BIO 2450 with a grade of “C” or higher. (WI).
about Plant Ecology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Plant Ecology

BIO 4457. General Entomology.
Principles of morphology, physiology and taxonomy of insects. Laboratory time will be devoted to a taxonomic study of the common orders and families of insects. Prerequisites: BIO 2411 and BIO 2450 with a grade of “C” or higher.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about General Entomology

BIO 4458. Limnology.
The physical, chemical, and biological factors affecting productivity in lakes, ponds, and streams. Limnological sampling methods, chemical, and biological analysis of samples and hydrographic surveying are included in the laboratory. Prerequisites: BIO 2450 with a grade of “C” or higher; one year of chemistry. (WI).
about Limnology
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Limnology

BIO 4472. Animal Behavior.
This course presents all the major facets of the study of animal behavior, giving special attention to its evolution and ecological significance. We will discuss major conceptual models guiding past and present research in the field. Laboratories will emphasize experimental techniques and statistical analysis. Prerequisites: BIO 2450; and BIO 2400, BIO 2410, or BIO 2411 with a grade of “C” or higher. (WI).
about Animal Behavior
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Animal Behavior

BIO 4475. Cytology and Microtechnique.
A study of cellular structure and microscopic technique. The lecture portion of the course presents cytology of all cell types and theoretical aspects of microscopy including light and electron-based technologies. The laboratory portion of the course provides training in standard light and electron microscopy, laser scanning confocal microscopy, and digital microscopy. Prerequisite: BIO 2450 with a grade of “C” or higher.
about Cytology and Microtechnique
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Cytology and Microtechnique

BIO 4476. Vertebrate Anatomy.
This course is a comparative study of vertebrate anatomy. Fossil histories are evaluated to understand how vertebrate radiation occurred in the geological past, along with changes in structure of organs and organ systems. Lab includes dissection of representative members of each major vertebrate group. Prerequisite: BIO 2450. (MC) (WI).
about Vertebrate Anatomy
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Vertebrate Anatomy

BIO 4480. Cytology and Microtechnique.
A study of cellular structure and microscopic technique. The lecture portion of the course presents cytology of all cell types and theoretical aspects of microscopy including light and electron-based technologies. The laboratory portion of the course provides training in standard light and electron microscopy, laser scanning confocal microscopy, and digital microscopy. Prerequisite: BIO 2450 with a grade of “C” or higher.
about Cytology and Microtechnique
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Cytology and Microtechnique
BIO 4481. Internship in Biological Laboratory Technologies.
The student will participate in the work of a selected biology unit (private, commercial, or governmental). A research paper, reporting the internship experience conducted at the biological unit under the supervision of a faculty member, will be required. This course may be credited toward a biology major with prior approval of the biology department adviser and chair. Prerequisite: BIO 2450 with a grade of "C" or higher.

Grade Mode: Standard Letter
about Internship in Biological Laboratory Technologies

4 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.

Courses in General Science (GS)

GS 3310. General Science.
This course is a laboratory course designed to acquaint the student with the fundamentals of chemistry and earth space science. It is non-creditable for science majors but is a required course for Elementary EC-6 Generalist certification. Prerequisites: PHYS 1310, PHYS 1320, and PHYS 1110; or PHYS 1410 and PHYS 1420.

Grade Mode: Standard Letter
about General Science

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required

GS 3320. General Science.
This course is a laboratory course designed to acquaint the student with the fundamentals of biological science. It is non-creditable for science majors but is a required course for Elementary EC-6 Generalist certification. Prerequisite: BIO 1320, BIO 1421, BIO 1330 and BIO 1130, or BIO 1331 and BIO 1131 completed with a grade of "C" or higher.

Grade Mode: Standard Letter
about General Science

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required

Faculty

Abel, Michael Gregory, Senior Lecturer, Biology, Ph.D., University of Tennessee
Aspbury, Andrea, Senior Lecturer, Biology, Ph.D., Univ of Nebraska

Nice, Chris, Professor, Biology, Ph.D., Univ of California-Davis
Nowlin, Weston Hugh, Associate Professor, Biology, Ph.D., University of Victoria
Bachelor of Science (B.S.) Major in Biology

Minimum required: 120 semester hours

General Requirement

1. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree.

In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

| US 1100 | 1 ENG 1310 | 3 |

Total Hours: 120

¹ Math requirements may be satisfied by taking MATH 2321 and MATH 2328, or MATH 2321 and MATH 2331, or MATH 2471 and MATH 2472
² Choose one Advanced Physiology course from: BIO 3421 (fall or spring), BIO 3465 (fall), or BIO 4441 (spring).
³ See the Academic Services section of this catalog for general education core curriculum requirements.
⁴ A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.
⁵ BIO 4299 requires faculty and departmental chair approval to count toward the 15 hours of advanced BIO electives. Biology advanced electives cannot include: BIO 3351, BIO 4305, BIO 4402, BIO 4403, and BIO 4408.
Recommended minor is chemistry or biochemistry. Minor and electives should be chosen in consultation with the academic advisor.

**Bachelor of Science (B.S.) Major in Biology (Teacher Certification in Life Science, Grades 7-12)**

**Minimum required: 125 semester hours**

**General Requirements**

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.

2. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

3. A Secondary Education minor is required.

4. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

**Total Hours: 125**

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.

2. See the Academic Services section of this catalog for general education core curriculum requirements.

3. Neither BIO 4305 nor BIO 4408 count as advanced electives in any other degree program in Biology.

### BIO Advanced Elective

Select two from the following with advisor approval: 6

- BIO 3308 Global Ecology
- BIO 3406 Economic Botany
- BIO 4410 Field Biology of Plants
- BIO 4420 Natural History of the Vertebrates
- BIO 4421 Ornithology
- BIO 4422 Mammalogy
- BIO 4425 Biometry
- BIO 4434 Herpetology
- BIO 4446 Microbial Ecology

3. See the Academic Services section of this catalog for general education core curriculum requirements.

4. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.

5. Recommended minor is chemistry or biochemistry. Minor and electives should be chosen in consultation with the academic advisor.
Bachelor of Science (B.S.) Major in Wildlife Biology (leading to National Wildlife Foundation certification as a Wildlife Biologist)

Minimum required: 127 semester hours

General Requirements

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.
2. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree.
3. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

1. Math requirements may be satisfied by taking MATH 2321 and MATH 2328, or MATH 2321 and MATH 2331, or MATH 2471 and MATH 2472.
2. Fifteen hours of advanced BIO electives are required of which 11-12 hours must be chosen from: BIO 3430, BIO 4342 (fall), BIO 4326/BIO 4126 (spring), BIO 4366/BIO 4166 (fall), BIO 4446 (spring), BIO 4447 (fall), BIO 4350L (spring), BIO 4480 (fall), or BIO 4413 (fall) Junior year - 2nd Semester.
3. BIO 4447 can only be used to satisfy the physiology requirement or the advanced microbiology course requirement, but not both.
4. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.
5. Recommended minor is chemistry or biochemistry. Minor and electives should be chosen in consultation with the academic advisor.
6. See the Academic Services section of this catalog for general education core curriculum requirements.

**Department of Chemistry and Biochemistry**

Chemistry Building Room 238  
T: 512.245.2156  F: 512.245.2374  
www.txstate.edu/chemistry

Chemistry is the central science and the study of chemistry provides the essential knowledge needed to address many of society's most pressing needs, such as feeding, clothing, and housing the peoples of the world; tapping new sources of energy; improving health and conquering disease; providing renewable substitutes for dwindling resources; strengthening our national security; and monitoring and protecting our environment. Basic research in chemistry will help future generations address their evolving needs and ensure a higher quality of life.

Chemists and biochemists can work in almost any field and find careers in teaching, research, production, quality control, technical services, and/or sales. Graduates from the Department of Chemistry and Biochemistry have an excellent record of job placement in industrial, academic, and government positions. Many also seek advanced degrees or pursue careers in medicine, dentistry, or pharmacy.

Chemistry and biochemistry majors gain skills in quantitative thinking and problem solving. Majors can work as laboratory instructors for lower division courses or as research assistants in faculty research laboratories. Students often participate in internships and research programs both on and off campus during the summer. The faculty, facilities, library holdings, and chemistry curriculum of the Department of Chemistry and Biochemistry have been accredited by the American Chemical Society. Recipients of a B.S. major in Chemistry or B.S. major in Biochemistry, who have fulfilled the minimum requirements for professional chemists, are awarded certificates by the American Chemical Society. Receipt of the ACS certificate is recommended as essential knowledge needed to address many of society's most pressing needs, such as feeding, clothing, and housing the peoples of the world; tapping new sources of energy; improving health and conquering disease; providing renewable substitutes for dwindling resources; strengthening our national security; and monitoring and protecting our environment. Basic research in chemistry will help future generations address their evolving needs and ensure a higher quality of life.

Chemistry and biochemistry majors gain skills in quantitative thinking and problem solving. Majors can work as laboratory instructors for lower division courses or as research assistants in faculty research laboratories. Students often participate in internships and research programs both on and off campus during the summer. The faculty, facilities, library holdings, and chemistry curriculum of the Department of Chemistry and Biochemistry have been accredited by the American Chemical Society. Recipients of a B.S. major in Chemistry or B.S. major in Biochemistry, who have fulfilled the minimum requirements for professional chemists, are awarded certificates by the American Chemical Society. Receipt of the ACS certificate is recommended as necessary for professional chemists, are awarded certificates by the American Chemical Society. Receipt of the ACS certificate is recommended as necessary for professional chemists, are awarded certificates by the American Chemical Society.

Students seeking a B.S. major in Chemistry begin their studies taking foundation courses in chemistry, physics, and mathematics. After completion of the foundation courses, students take advanced courses and laboratories in physical chemistry, analytical chemistry, inorganic chemistry, and organic chemistry. A minor is required for this degree.

Students seeking a B.S. major in Biochemistry begin their studies taking foundation courses in chemistry, biology, physics, and mathematics. After completion of the foundation courses, students take advanced courses and laboratories to gain knowledge and experience in the modern techniques of biochemistry and molecular genetics. The Biochemistry curriculum meets the standards set by the American Society for Biochemistry and Molecular Biology. A minor is required for this degree.

Qualified chemistry or biochemistry majors competing their junior year of chemistry courses who plan to pursue advanced studies have the opportunity to complete both B.S. and M.S. degrees with one additional
year of course work and research after receipt of a B.S. degree. Students must be active in undergraduate research prior to their senior year to be eligible for the program.

Pharmacy
Pharmacy is a professional program and prerequisite courses required in order to apply to Pharmacy School may be taken at Texas State. The eight pharmacy schools in Texas (The University of Texas at Austin, University of Houston, Texas Southern University, Texas A&M Health Science Center, Texas Tech University Health Science Center, University of North Texas Health Science Center, University of the Incarnate Word, and The University of Texas at Tyler) all require two years of prerequisite courses in chemistry, biology, math, physics, English, humanities and social sciences, but the exact courses required vary by school. Consequently, it is imperative that pre-pharmacy students consult with an advisor prior to and during their pre-pharmacy program. For more information contact the Department of Chemistry and Biochemistry pre-pharmacy advisor.

Teacher Certification
Students may earn either a Chemistry (Grades 7-12) or Physical Science (Grades 6-12) certification in Texas, while pursuing a B.S. major in Chemistry. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science Advisor early in their undergraduate program or certification process.

Bachelor of Science (B.S.)
- Major in Biochemistry (p. 562)
- Major in Chemistry (p. 563)
- Major in Chemistry (Teacher Certification in Chemistry, Grades 7-12) (p. 563)
- Major in Chemistry (Teacher Certification in Physical Science, Grades 6-12) (p. 564)

Bachelor of Science and Master of Science (B.S./M.S.)
- Major in Biochemistry (Early-Entry Combined Program) (p. 565)
- Major in Chemistry (Early-Entry Combined Program) (p. 566)

Minors
- Biochemistry (p. 567)
- Chemistry (p. 567)
- Second Teaching Field in Chemistry (Grades 7-12) (p. 568)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Chemistry (CHEM)

CHEM 1141. General Chemistry Laboratory I.
First of two laboratory courses in general chemistry for science-related majors. Course introduces the students to the basics of experimental measurements, including density, separation techniques, formula determinations, titrations, thermodynamics, gas laws, and descriptive chemistry. Prerequisite or Co-requisite: CHEM 1341, CHEM 1335, or CHEM 1310.

about General Chemistry Laboratory I
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1111

CHEM 1142. General Chemistry Laboratory II.
Second of two laboratory courses in general chemistry. Laboratory techniques are emphasized, and applied to both qualitative and quantitative analysis. Prerequisites: CHEM 1341 and CHEM 1141. Prerequisite or Co-requisite: CHEM 1342.

about General Chemistry Laboratory II
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 1112

CHEM 1310. Introductory Chemistry for Non-Science Majors.
A one semester principles course for students in non-science related majors. Course covers the major concepts of chemistry and the role of chemistry in contemporary society. Students will not receive credit for both CHEM 1310 and CHEM 1341.

about Introductory Chemistry for Non-Science Majors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: CHEM 1305

CHEM 1335. Engineering Chemistry.
This one semester lecture course is tailored to engineering students. Topics include stoichiometry, gases, chemical bonding and structure, periodic trends, materials, energy, kinetics, equilibrium, electrochemistry and nuclear chemistry. Course is a stand-alone course and does not serve as a prerequisite to any courses currently requiring CHEM 1341 as a prerequisite. Restricted to Engineering and Engineering Technology majors. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 520 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.

about Engineering Chemistry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Engineering Chemistry
CHEM 1341. General Chemistry I.
Initial lecture course in general chemistry for science-related majors, covering atomic and molecular structure, bonding, states of matter, solutions, and descriptive chemistry. Students will not receive credit for both CHEM 1310 and CHEM 1341. Concurrent registration in CHEM 1141 is recommended. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 520 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.

about General Chemistry I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: CHEM 1311
about General Chemistry I

CHEM 1342. General Chemistry II.
Second of two lecture courses in general chemistry for science-related majors, covering equilibrium processes, acid-base chemistry, and kinetics, and electrochemistry. A basic knowledge of algebra is needed. Concurrent enrollment in CHEM 1142 is recommended. Prerequisite: CHEM 1341 with a grade of “C” or higher.

about General Chemistry II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: CHEM 1312
about General Chemistry II

CHEM 1430. Chemistry for Non-Science Majors.
A one semester course which surveys organic and biochemistry and may include petro-chemistry, nuclear chemistry, synthetic and natural polymers. Prerequisite: CHEM 1310 or CHEM 1341, about Chemistry for Non-Science Majors
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: CHEM 1407
about Chemistry for Non-Science Majors

CHEM 2130. Laboratory Technique in Organic Chemistry.
An optional laboratory to accompany CHEM 2330, covers experimental techniques of preparation, purification, and determination of physical and chemical properties of organic compounds. Prerequisites: CHEM 1342 and CHEM 1142. Co-requisite: CHEM 2330.

about Laboratory Technique in Organic Chemistry
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: CHEM 2123
about Laboratory Technique in Organic Chemistry

CHEM 2141. Organic Chemistry Laboratory I.
This laboratory introduces the student to the general techniques of organic chemistry. Prerequisites: CHEM 1342 with a grade of “C” or higher, CHEM 1142. Prerequisite or Co-requisite: CHEM 2341.

about Organic Chemistry Laboratory I
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 2123
about Organic Chemistry Laboratory I

CHEM 2142. Organic Chemistry Laboratory II.
This laboratory involves the study of typical organic reactions. Prerequisites: CHEM 2341 with a grade of “C” or higher, CHEM 2141. Prerequisite or Co-requisite: CHEM 2342.

about Organic Chemistry Laboratory II
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 2125
about Organic Chemistry Laboratory II

CHEM 2150. Biochemistry & Metabolism Lab.
An optional laboratory to accompany CHEM 2350. This laboratory examines the physical properties and chemistry of carbohydrates, amino acids, proteins, lipids and nucleotides. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: CHEM 2330/CHEM 2130 or CHEM 2342/CHEM 2142. Co-requisite: CHEM 2350.

about Biochemistry & Metabolism Lab
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Biochemistry & Metabolism Lab

A one-semester course which covers nomenclature, structure and reactions of organic compounds with an introduction to bioorganic molecules. Course is designed for students majoring in nutrition, clinical laboratory sciences and agriculture. Prerequisites: CHEM 1342 and CHEM 1142.

about Fundamentals of Organic Chemistry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fundamentals of Organic Chemistry

CHEM 2341. Organic Chemistry I.
This course covers the nomenclature, reactions and reaction mechanisms of the hydrocarbons and the alkyl halides. Prerequisites: CHEM 1342 with a grade of “C” or higher. Pre- or Co-requisite: CHEM 1142.

about Organic Chemistry I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 2323
about Organic Chemistry I

CHEM 2342. Organic Chemistry II.
This course covers the nomenclature, reactions and reaction mechanisms of the major functional groups. Prerequisite: CHEM 2341 with a grade of “C” or higher. Prerequisite or Co-requisite: CHEM 2141.

about Organic Chemistry II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: CHEM 2325
about Organic Chemistry II
CHEM 2350. Biochemistry & Metabolism.
A one-semester study of carbohydrate, proteins, lipids and nucleotides which presents both structure and intermediary metabolism along with an introduction to the function of enzymes and coenzymes. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: CHEM 2330/CHEM 2130 or CHEM 2342/CHEM 2142.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Biochemistry & Metabolism

CHEM 3245. Physical Chemistry Laboratory.
Experiments illustrating principles and methods of physical chemistry are performed. Written reports on the experiments are prepared. Prerequisites: CHEM 3330 with a "C" or better, and CHEM 3410. Prerequisite or Co-requisite: CHEM 3340. (WI).

2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Physical Chemistry Laboratory

CHEM 3275. Biochemical Techniques.
Course introduces biochemical majors to techniques in analytical and physical biochemistry. Experiments reinforce fundamental concepts and utilize modern instrumentation. Experimental design, interpretation of results, and data reporting will be emphasized. Prior completion or concurrent enrollment in BIO 2400 is strongly recommended. Prerequisites: CHEM 3375 with a grade of "C" or higher. Co-requisite: CHEM 3380. (WI).

about Biochemical Techniques
2 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
about Biochemical Techniques

CHEM 3276. Experimental Biochemistry.
Course introduces biochemistry minors to the fundamental techniques used in modern biochemistry. Experiments use the essential techniques employed in the study of proteins, enzymes and nucleic acids with emphasis on the use of modern instrumentation and the manipulation and analysis of experimental data. Prerequisites: CHEM 3375 or CHEM 4375 with a grade of "C" or higher.

about Experimental Biochemistry
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Experimental Biochemistry

CHEM 3330. Physical Chemistry I.
The course covers principles of thermodynamics and thermochemistry, phase equilibria, electrochemistry and elementary kinetics including rate laws and mechanisms. Prerequisites: CHEM 1142; CHEM 1342 and MATH 2472 with a grade of "C" or higher.

about Physical Chemistry I
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Physical Chemistry I

CHEM 3340. Physical Chemistry II.
The course covers kinetics, quantum mechanics, spectroscopy, and other selected topics. Prerequisites: CHEM 3330 with a "C" or better; MATH 2472 with a "C" or better; and PHYS 2425 with a grade of "C" or higher.

about Physical Chemistry II
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Physical Chemistry II

CHEM 3341. Descriptive Inorganic Chemistry.
An analysis of atomic, molecular, and solid state bonding and structure with an emphasis on coordination compounds and bioinorganic chemistry. Representative compounds and reactions of the elements will be surveyed. Prerequisite: CHEM 2342 with a grade of "C" or higher.

about Descriptive Inorganic Chemistry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Descriptive Inorganic Chemistry

Course provides biochemistry majors and minors with a rigorous introduction to biochemistry. Topics include the chemical function and structure of proteins, nucleic acids, lipids and carbohydrates; enzyme mechanisms, kinetics and regulation. Prior completion or concurrent enrollment in BIO 2450 is strongly recommended. Prerequisites CHEM 2342 with a grade of "C" or higher.

about Principles of Biochemistry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles of Biochemistry

CHEM 3380. Analytical Biochemistry.
This course is designed to acquaint the student with the chemical and physical principles of modern biochemical methods. Emphasis is placed upon the application of the methods to current problems in biochemistry and molecular biology and the interpretation of data. Prerequisite: CHEM 3375 with a grade of "C" or higher.

about Analytical Biochemistry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Analytical Biochemistry

CHEM 3390. Physical Chemistry for Biochemists.
A study of the theories and laws of physical chemistry as it relates to biochemistry. The topics covered include ideal and real gases, classical thermodynamics, reaction kinetics, phase equilibria, electrochemistry, quantum mechanics, spectroscopy and statistical mechanics. Prerequisite: CHEM 3375 and MATH 2472 with a "C" or better.

about Physical Chemistry for Biochemists
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Physical Chemistry for Biochemists
CHEM 3410. Quantitative Analysis.
Course covers the general theory and practice of typical methods of gravimetric and volumetric analysis, satisfies the quantitative analysis requirements for chemistry majors, minors, pre-medical and pharmacy students. Prerequisites: CHEM 1342 with a grade of "C" or higher, CHEM 1142.

Grade Mode: Standard Letter

4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required

About Quantitative Analysis

CHEM 4231. Advanced Laboratory I.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. Prerequisites: CHEM 3245, CHEM 3340, CHEM 3410. Prerequisite or Co-requisite: CHEM 4331. (WI).

Grade Mode: Standard Letter

2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

About Advanced Laboratory I

CHEM 4241. Advanced Laboratory II.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. Prerequisites: CHEM 3245, CHEM 3340, CHEM 3410. Prerequisite or Co-requisite: CHEM 4331. (WI).

Grade Mode: Standard Letter

2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

About Advanced Laboratory II

CHEM 4282. Advanced Biochemistry Research Laboratory.
The second of two laboratory courses providing instruction in the modern techniques of biochemistry. Students will perform independent research projects involving isolation, manipulation and characterization of biomolecules. Results of these experiments and the scientific literature investigations will be used to prepare formal written reports and oral presentations. Prerequisite: CHEM 4481. (WI).

Grade Mode: Standard Letter

About Advanced Biochemistry Research Laboratory

CHEM 4295. Laboratory Development and Practice.
This course develops the laboratory instructional abilities of students seeking either 8-12 Chemistry or 8-12 Physical Science Teaching Certification. Topics include both traditional laboratory techniques and guided inquiry techniques, safety, laboratory management, pedagogical theory and practical knowledge of laboratory experiments. Prerequisite: Junior standing and an overall GPA of 2.5 or higher.

Grade Mode: Standard Letter

About Laboratory Development and Practice

CHEM 4299. Undergraduate Research.
This course is available to undergraduate chemistry or biochemistry majors only. It may be repeated for credit but a maximum of four semester hours from this course are applicable toward advanced chemistry electives. Prerequisite: Permission of department.

Grade Mode: Standard Letter

2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required

About Undergraduate Research

CHEM 4312. Organometallic Chemistry.
This course will survey the structure, bonding, and reactivity of organometallic complexes. Homogeneous catalysis of the transition metals as well as the main group elements along with specialized "seminal research papers" in the field of organometallic chemistry will also be presented. Prerequisites: CHEM 2342 and CHEM 3341 with a grade of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

About Organometallic Chemistry

CHEM 4331. Instrumental Analysis.
The theory and methodology associated with the quantitative analysis of materials, i.e., electronics, spectroscopy, electrochemistry and chromatography are presented. Prerequisite: CHEM 3340.

Grade Mode: Standard Letter

About Instrumental Analysis

CHEM 4333. Spectroscopy.
The study of various spectrometric techniques in qualitative and structural analysis of chemical substances. Prerequisite: CHEM 2342 with a grade of "C" or higher.

Grade Mode: Standard Letter

About Spectroscopy

CHEM 4341. Advanced Inorganic Chemistry.
This course will use group theory analysis to predict vibrational spectra and bonding in molecules, including metal complexes. Numerous approaches (acid/base, redox, etc.) will be employed to rationalize the products of inorganic and organometallic reactions. The materials properties of solids and nanomaterials will also be discussed. Prerequisites: CHEM 3341 and CHEM 4331.

Grade Mode: Standard Letter

About Advanced Inorganic Chemistry

CHEM 4342. Advanced Inorganic Chemistry.
This course covers the general theory and practice of typical methods of gravimetric and volumetric analysis, satisfies the quantitative analysis requirements for chemistry majors, minors, pre-medical and pharmacy students. Prerequisites: CHEM 1342 with a grade of "C" or higher, CHEM 1142.

Grade Mode: Standard Letter

4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required

About Quantitative Analysis

CHEM 4231. Advanced Laboratory I.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. Prerequisites: CHEM 3245, CHEM 3340, CHEM 3410. Prerequisite or Co-requisite: CHEM 4331. (WI).

Grade Mode: Standard Letter

2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

About Advanced Laboratory I

CHEM 4241. Advanced Laboratory II.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. Prerequisites: CHEM 3245, CHEM 3340, CHEM 3410. Prerequisite or Co-requisite: CHEM 4331. (WI).

Grade Mode: Standard Letter

2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

About Advanced Laboratory II

CHEM 4282. Advanced Biochemistry Research Laboratory.
The second of two laboratory courses providing instruction in the modern techniques of biochemistry. Students will perform independent research projects involving isolation, manipulation and characterization of biomolecules. Results of these experiments and the scientific literature investigations will be used to prepare formal written reports and oral presentations. Prerequisite: CHEM 4481. (WI).

About Undergraduate Research

CHEM 4312. Organometallic Chemistry.
This course will survey the structure, bonding, and reactivity of organometallic complexes. Homogeneous catalysis of the transition metals as well as the main group elements along with specialized "seminal research papers" in the field of organometallic chemistry will also be presented. Prerequisites: CHEM 2342 and CHEM 3341 with a grade of "C" or higher.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

About Organometallic Chemistry

CHEM 4331. Instrumental Analysis.
The theory and methodology associated with the quantitative analysis of materials, i.e., electronics, spectroscopy, electrochemistry and chromatography are presented. Prerequisite: CHEM 3340.

Grade Mode: Standard Letter

About Instrumental Analysis

CHEM 4333. Spectroscopy.
The study of various spectrometric techniques in qualitative and structural analysis of chemical substances. Prerequisite: CHEM 2342 with a grade of "C" or higher.

Grade Mode: Standard Letter

About Spectroscopy

CHEM 4341. Advanced Inorganic Chemistry.
This course will use group theory analysis to predict vibrational spectra and bonding in molecules, including metal complexes. Numerous approaches (acid/base, redox, etc.) will be employed to rationalize the products of inorganic and organometallic reactions. The materials properties of solids and nanomaterials will also be discussed. Prerequisites: CHEM 3341 and CHEM 4331.

Grade Mode: Standard Letter

About Advanced Inorganic Chemistry

CHEM 4342. Advanced Inorganic Chemistry.
CHEM 4350. Modern Molecular Modeling.
A study of the application of computational techniques to molecular modeling. Topics covered include quantum mechanical modeling, forcefield-based molecular modeling, molecular energy minimization, molecular dynamics, vibrational spectra, solution of crystalline structures, diffraction patterns, molecular blends, phase equilibria, crystal morphology, physical property prediction and mesoscale modeling. Prerequisite: CHEM 3340.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Modern Molecular Modeling

CHEM 4351. Introduction to Polymers.
This course is designed to develop the student’s general understanding of polymer history and importance as well as terminology, structure, and synthesis. The overall scope of the course will be to develop the student’s general knowledge of polymer synthesis and structure. Prerequisite: CHEM 2342 with a grade of “C” or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Introduction to Polymers

CHEM 4360. Molecular Biology.
This course provides Biochemistry majors and minors with advanced knowledge of the field of molecular biochemistry. Topics include gene expression (transcription and translation of genes in bacteria and higher organisms), post-translational modification of proteins, chromosomal DNA replication, cell cycle checkpoint controls, DNA damage and repair, as well as theories of cancer and aging. Prerequisite: CHEM 3375 or CHEM 4375.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Molecular Biology

CHEM 4371. Directed Study.
Independent study on a particular subject area in chemistry or biochemistry. The specific study area, resource material, goals, and achievements will be approved by the instructor. Prerequisites: CHEM 2342 with a C or better, and permission of department.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing Grade Mode: Standard Letter about Directed Study

CHEM 4375. Biochemistry.
Course provides Chemistry majors and minors with an overview of biochemistry topics. Topics include a description of the structure and function of proteins, enzymes, nucleic acids, lipids and carbohydrates. Students may not receive credit for both CHEM 3375 and CHEM 4375. Prerequisites CHEM 2342 with C or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Biochemistry

CHEM 4385. Metabolism.
A study of the biodegradation and biosynthesis of carbohydrates, lipids, amino acids, proteins, and nucleic acids. Prerequisite: CHEM 3375 or CHEM 4375.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Standard Letter about Metabolism

CHEM 4390. Supramolecular Chemistry.
This course is designed to be a survey of the nature of non-covalent interactions between host and guest species. Emphasis will be focused on the rational design of hosts, thermodynamic and kinetic parameters involved in binding and the applications of various binding/recognition phenomena. Prerequisite: CHEM 2342 with a grade of “C” or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Writing Intensive Grade Mode: Standard Letter about Supramolecular Chemistry

CHEM 4481. Advanced Biochemistry Lab I.
The first of two laboratory courses providing instruction in the modern techniques of biochemistry. Experiments are performed on the isolation, manipulation and characterization of DNA, RNA and proteins. Students will prepare formal written reports and oral presentations. Prerequisites: CHEM 3275 with a grade of “C” or higher; CHEM 3380. (WI).

4 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours. Course Attribute(s): Lab Required|Writing Intensive Grade Mode: Standard Letter about Advanced Biochemistry Lab I

Faculty
Allison, Jeffrey Corbin, Lecturer, Chemistry & Biochemistry, Ph.D., University of Texas at Austin
Beall, Gary W, Associate Dean, College of Science and Engineering and Professor, Chemistry & Biochemistry, Ph.D., Baylor University
Betancourt, Tania, Assistant Professor, Chemistry & Biochemistry, Ph.D., University of Texas at Austin
Blanda, Michael T, Assistant Vice President of Research and Federal Relations and Professor, Chemistry & Biochemistry, Ph.D., Texas A&M University
Booth, Chad, Associate Professor, Chemistry & Biochemistry, Ph.D., Univ of Southern Mississippi
Booth, Rachell, Associate Professor, Chemistry & Biochemistry, Ph.D., Univ of Southern Mississippi
Brittain, William J, Chair - Professor, Chemistry & Biochemistry, Ph.D., California Inst of Technology
Compton, Ross D, Associate Professor Emeritus, Chemistry & Biochemistry, Ph.D., University of Texas at Austin
Damin, Craig A, Lecturer, Chemistry & Biochemistry, Ph.D., Miami University
David, Wendi M, Senior Lecturer, Chemistry & Biochemistry, Ph.D., University of Texas at Austin
Bachelor of Science (B.S.) Major in Biochemistry

Minimum required: 120 semester hours

General Information
1. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

2. A minimum of 9 writing intensive hours and a total of 38 advanced hours are required to graduate.

3. Minor and electives should be chosen in consultation with the departmental or academic advisor. Recommended minor is biology.

4. One semester of CHEM 4299 is highly recommended and required for the optional certification of the degree as approved by the American Chemical Society.

Total Hours: 120

See the Academic Services section of this catalog for general education core curriculum requirements.

Bachelor of Science (B.S.) Major in Chemistry (Teacher Certification in Chemistry, Grades 7-12)

Minimum required: 120 semester hours

General Requirements
1. CHEM 4299 must be taken twice for credit and is required for certification of the degree as approved by the American Chemical Society.

2. A minor in Secondary Education is required.

3. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

1. See the Academic Services section of this catalog for general education core curriculum requirements.
2. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.
3. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
4. Minor and electives should be chosen in consultation with the departmental or academic advisor.
Bachelor of Science and Master of Science (B.S./M.S.) Major in Biochemistry (Early-Entry Combined Program)

Minimum required: 152 semester hours

General Requirements
1. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
2. Students completing 124 semester hours will be eligible for graduation with a B.S. degree. The M.S. degree will be awarded only after the completion of all required courses and the successful defense of a research thesis.
3. The graduate-level courses taken in the senior year are CHEM 5110, CHEM 5395, CHEM 5399A, and a 3-hour elective approved by the graduate advisor. After admission to The Graduate College, 20 additional graduate hours (including a research thesis) and successful completion of a comprehensive examination is required for the M.S. degree.
4. Students may be admitted to the M.S. program without entrance qualification exams if they have a 3.00 GPA or higher in all chemistry and biochemistry courses, have completed CHEM 3275, CHEM 3380, and two semesters of CHEM 4299, have taken the Graduate Record Exam, and have been accepted by a graduate thesis advisor. Applicants will be evaluated by the Graduate Evaluation Committee to determine their suitability to enter the program. The application process is the same as for other graduate applicants to The Graduate College. Graduate status is provisional until the B.S. degree is awarded. The B.S. degree will be certified as approved by the American Chemical Society.

Bachelor of Science and Master of Science (B.S./M.S.) Major in Biochemistry (Early-Entry Combined Program)

Minimum required: 152 semester hours

General Requirements
1. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

### Minor in Biochemistry

A minor in Biochemistry requires:

- CHEM 1141 General Chemistry Laboratory I
- CHEM 1341 and General Chemistry I
- CHEM 1142 General Chemistry Laboratory II
- CHEM 1342 and General Chemistry II
- CHEM 2141 Organic Chemistry Laboratory I
- CHEM 2341 and Organic Chemistry I
- CHEM 2142 Organic Chemistry Laboratory II
- CHEM 2342 and Organic Chemistry II
- CHEM 3276 Experimental Biochemistry
- CHEM 3375 Principles of Biochemistry
- or CHEM 4375 Biochemistry
- CHEM 4380 Molecular Biology
- or CHEM 4385 Metabolism

**Total Hours**: 24

### Minor in Chemistry

A minor in Chemistry requires:

- CHEM 1141 General Chemistry Laboratory I
- CHEM 1341 and General Chemistry I
- CHEM 1142 General Chemistry Laboratory II
- CHEM 1342 and General Chemistry II
- CHEM 2141 Organic Chemistry Laboratory I
- CHEM 2341 and Organic Chemistry I
- CHEM 2142 Organic Chemistry Laboratory II
- CHEM 2342 and Organic Chemistry II
- CHEM 3410 Quantitative Analysis

One advanced course with a minimum of 3 advanced hours, not to include CHEM 4299

**Total Hours**: 23
Second Teaching Field in Chemistry (Grades 7-12)

For students who are seeking a teacher certification within their major and would like a second teaching field in Chemistry, the requirements are:

- **CHEM 1341** General Chemistry I and General Chemistry Laboratory I (4 hours)
- **CHEM 1342** General Chemistry II and General Chemistry Laboratory II (4 hours)
- **CHEM 2341** Organic Chemistry I and Organic Chemistry Laboratory I (4 hours)
- **CHEM 2342** Organic Chemistry II and Organic Chemistry Laboratory II (4 hours)
- **CHEM 3410** Quantitative Analysis (4 hours)
- **CHEM 4295** Laboratory Development and Practice (2 hours)
- **CHEM 4375** Biochemistry (3 hours)

**Total Hours: 25**

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

**Department of Computer Science**

Comal Building Room 211
PH: 512.245.3409 FAX: 512.245.8750
www.cs.txstate.edu (http://www.cs.txstate.edu)

**Mission Statement**

The Department of Computer Science mission is to advance the knowledge of computer science and technology through education, research, and service for the betterment of industry, government, and society.

**Vision Statement**

The department seeks to become a competitive doctoral-granting department and to expand its depth and breadth in the research and study of applied computing.

**Computer Science Goals**

1. Graduating students with strong technical backgrounds and communication skills.
2. Graduating students who understand the values and requirements of responsible professionalism and lifelong learning.
3. Building a sustainable research program.
4. Developing international visibility for our research.
5. Providing quality service to the university, the profession, and the community.

**Overview**

The Department of Computer Science offers two degree options for students - a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.). The Bachelor of Science degree program in Computer Science is accredited by ABET, Inc.

The department offers courses in computer architecture, data structures and algorithms, automata theory, compilers, operating system, object-oriented design and implementation, Web programming, software engineering, computer graphics, computer networks, distributed systems, computer security, digital forensics, database design, data mining, machine learning, human computer interaction, social computing, artificial intelligence, and several programming languages including C, C++, Java, Assembly, LISP, Perl, PHP, and JavaScript.

Computer Science graduates can further their studies in graduate schools or seek employment in industry, such as software development; computer applications in the petroleum, aerospace, and chemical industries; and secondary school teaching.

**Teacher Certification**

Students may pursue a B.A. or B.S. degree with teacher certification in Computer Science for Texas public schools (grades 8-12). Students follow the curriculum sequence outlined by their major department or college. Undergraduates interested in certification are strongly encouraged to see an academic advisor early in their undergraduate program. Students seeking teacher certification must complete 21 hours of the professional sequence courses under the College of Education:

**Education Core**

- CI 4332 Secondary Teaching: Curriculum and Technology (3 hours)
- CI 3325 Adolescent Growth and Development (3 hours)

**Field-Based Block**

- CI 4343 Instructional Strategies for the Secondary Teacher (3 hours)
- CI 4370 Classroom Management, Ethics, and Legal Issues in Secondary Teaching (3 hours)
- RDG 3323 Teaching Reading in the Content Areas (3 hours)

**Student Teaching**

- EDST 4681 Student Teaching 8-12 (6 hours)

**Total Hours: 21**

1. Please note that students must take CI 4332 and CI 3325 prior to participating in a field-based block.

For information about admission requirements to the teacher certification program refer to the Office of Educator Preparation (OEP) (p. 232) section in this catalog. Graduate or post-baccalaureate students should also contact the OEP for further information. The three types of students the OEP provides services to are undergraduate students seeking certification, graduate students seeking certification, and post-baccalaureate students seeking certification only. Admission to teacher education is required for students who want to be certified to teach in Texas accredited schools.

**Bachelor of Arts (B.A.)**

- Major in Computer Science (p. 573)
- Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12) (p. 574)

**Bachelor of Science (B.S.)**

- Major in Computer Science (p. 576)
- Major in Computer Science (Computer Engineering Concentration) (p. 577)
- Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12) (p. 578)
Minor

- Computer Science (p. 579)
- Second Teaching Field in Computer Science (Grades 8-12) (p. 579)

Certificate

- Computer Science (p. 579)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Computer Science (CS)

CS 1308. Computer Literacy and the Internet.
A study of the uses of computers and their effects on society. Text processing, spreadsheets, databases, and Web programming. Does not count for computer science credit towards a minor, a BS, or a BA in computer science.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 1300

about Computer Literacy and the Internet

CS 1319. Fundamentals of Computer Science.
Provides fundamental knowledge of the six layers of computer science as per the ACM CS0 curriculum. The information, hardware, programming, operating system, applications, and communications layers are presented plus appropriate open computer laboratory exercises. Does not count for computer science credit towards a minor, BS, or BA in computer science.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 1315

about Fundamentals of Computer Science

CS 1428. Foundations of Computer Science I.
Introductory course for computer science majors, minors and others desiring technical introduction to computer science. Contains overview of history and structure of the digital computer, including binary data representation. Problem solving, algorithm development, structured programming, good coding style, and control structures of C++ are emphasized. Prerequisite or co-requisite: MATH 1315.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 1420

about Foundations of Computer Science I

CS 2308. Foundations of Computer Science II.
Fundamentals of object-oriented programming. Introduction to abstract data types (ADTs) including lists, stacks, and queues. Searching and sorting. Pointers and dynamic memory allocation. A continuation of CS 1428. Prerequisite: CS 1428 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 2315

about Foundations of Computer Science II

CS 2315. Computer Ethics.
This course is primarily for computer science majors, focusing on the ethical codes of the professional societies, the philosophical bases of ethical decision-making, and the examination of several contemporary case studies. Prerequisites: CS 1428, ENG 1310, COMM 1310, and PHIL 1305 or PHIL 1320 with grades of C or higher. (WI).

about Computer Ethics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 2315

about Computer Ethics

CS 2318. Assembly Language.
A course covering assembly language programming, including instruction sets, addressing modes, instruction formats, looping, logic, data representation, subroutines and recursion; and the interface between hardware and software. Prerequisites: MATH 2358 and CS 2308 with grades of C or higher.

about Assembly Language

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 2325

about Assembly Language

CS 2420. Digital Logic.
An introduction to fundamental computer technologies, including Boolean logic design, logic circuits and devices, and basic computer hardware. A laboratory providing hands-on experience with electricity, combinational and sequential digital circuits, and computer hardware. Prerequisite: CS 1428 with a grade of C or higher.

about Digital Logic

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 2420

about Digital Logic

CS 2332. Internet Software Development.
A course providing foundations for the construction and design of static and dynamic Web pages with database applications. This will include server-side and client-side software development. Prerequisite: CS 2308 with a grade of C or higher, or consent of instructor.

about Internet Software Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 2332

about Internet Software Development

Use of fundamental hardware components. Topics include ALU’s, single and multiple cycle datapath and control, RISC vs. CISC, pipelining, caches, I/O, virtual memory and related performance issues. Prerequisites: (CS 2420 or EE 2420), (CS 2315 or EE 2400), and (CS 2318 or EE 3420) with grades of C or higher.

about Computer Architecture

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: COSC 3339

about Computer Architecture
CS 3358. Data Structures.
A course covering classic data structures and an introduction to object-oriented development. Prerequisites: CS 2308 and MATH 2358 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3369. Embedded Computer Systems.
This course studies the architecture of embedded systems, micro-controllers, their peripherals, languages, and operating systems and the special techniques required to use them. Prerequisites: CS 2318 and CS 2420 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3378. Theory of Automata.
An introduction to automata theory, computability, and formal languages. Prerequisite: CS 3358 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 3398. Software Engineering.
The study of software design, implementation, and validation techniques through team projects. Structured analysis, programming style, and project documentation are emphasized in large software projects. Prerequisites: (CS 2315 or EE 2400) and CS 3358 with grades of C or higher. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

CS 4100. Computer Science Internship.
Provides on-the-job training supervised by computer scientists in industry internship programs approved by the department. Prerequisite: CS majors and minors only.

1 Credit Hour. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Credit/No Credit

CS 4298. Undergraduate Research I.
Supervised individual research project in a mentor-student relationship with a computer science faculty member. Cannot be given degree credit until the satisfactory completion of CS 4299. Prerequisites: Junior standing; major GPA of 3.00; departmental approval.

2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

CS 4299. Undergraduate Research II.
Supervised individual research projects in a mentor-student relationship with a computer science faculty member. Prerequisites: CS 4298 and departmental approval.

2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CS 4310. Computer Networks.
A survey of network architectures and their components. Emphasis will be on media access, network and transport layer protocols. Prerequisite: CS 3358 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4315. Introduction to Data Mining.
This course covers fundamental concepts and techniques in data mining and information retrieval. Data mining topics include classification, cluster analysis and pattern mining. Information retrieval topics include Boolean retrieval, vector space model, and Web search. Prerequisite: CS 3358 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CS 4318. Program Translators.
A study of computer languages, data structures, algorithms, and theory used in constructing compilers and other program translators. Prerequisite: CS 3358 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Principles and methods in human factors and ergonomics applied to the design and use of computer systems. Prerequisite: CS 3358 with a grade of C or higher. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Principles of operating systems. Algorithms for CPU scheduling, memory management, cooperating sequential processes and device management. Prerequisites: (CS 2318 or EE 3420) and CS 3358 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
CS 4322. Introduction to Database Systems.
Introduction to database concepts, data models, file structures, query languages, database management systems. Prerequisite: CS 3358 with a grade of C or higher.

about Introduction to Database Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Introduction to Database Systems

CS 4346. Introduction to Artificial Intelligence.
An introduction to the basic concepts of artificial intelligence; search techniques, knowledge representation, problem solving. Prerequisite: CS 3358 with a grade of C or higher.

about Introduction to Artificial Intelligence

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Introduction to Artificial Intelligence

CS 4350. Unix Systems Programming.
Fundamentals of Unix operating systems, Unix file system and environment, C memory allocation, development tools, processes and signals, threads, device drivers, and programming for security. Prerequisite: CS 3358 with a grade of C or higher.

about Unix Systems Programming

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Unix Systems Programming

CS 4354. Object-Oriented Design and Implementation.
An in-depth study of object-oriented design and implementation issues with emphasis on understanding the life cycle of object-oriented software, Unified Modeling Language, inheritance and polymorphism, designing remote and persistent objects, and exception handling. In-depth study of Java object-oriented language. Java will be used for implementing the exercises. Prerequisite: CS 3398.

about Object-Oriented Design and Implementation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Object-Oriented Design and Implementation

CS 4368. Survey of Computer Languages.
A survey of computer languages. Criteria for choosing languages to be covered include history, important development paradigms and environments, and language implementations. Prerequisite: CS 3358 with a grade of C or higher.

about Survey of Computer Languages

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Survey of Computer Languages

Course covers practical aspects of computer system security including managing and producing code for secure systems. Theory, such as cryptography, is introduced as needed. Prerequisite: CS 3358 with a grade of C or higher.

about Computer System Security

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Computer System Security

CS 4378A. Introduction to Digital Forensics.
This course is an introduction to digital forensics that describes the techniques and tools used in criminal and civil investigations that involve computing systems, digital devices, and networks. Hands-on experience will be acquired through projects. Prerequisite: CS 4350 or consent of instructor.

about Introduction to Digital Forensics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

about Introduction to Digital Forensics

CS 4378P. Introduction to Digital Multimedia.
Concepts, problems and techniques in digital multimedia. Topics include digital representation of video and data compression. Applications, primarily in education and business presentations, and new and potential capabilities, such as video on demand and virtual reality. Prerequisite: CS 3358 with a grade of C or higher.

about Introduction to Digital Multimedia

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

about Introduction to Digital Multimedia

CS 4378V. Introduction to Machine Learning.
Provides systematic introduction to machine learning, covering basic theoretical as well as practical aspects of the use of machine learning methods. Topics include learning theory, learning methods, recent learning models, etc. Application examples include multimedia information retrieval, text recognition, computer vision, etc. Prerequisite: CS 3358 grade of C or higher.

about Introduction to Machine Learning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

about Introduction to Machine Learning

CS 4378W. Introduction to Human Computer Interaction.
Introduces HCI topics specifically highlighted by new input modalities such as eye-tracking. Considers new input modalities as new channels for data gathering including multimedia compression, interface design, usability evaluation, biometrics. Application of HCI as an interdisciplinary research tool also will be discussed. Prerequisite: CS 3358 with grade of C or higher.

about Introduction to Human Computer Interaction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

about Introduction to Human Computer Interaction

CS 4378Z. Practical Game Development.
Course teaches practical aspects of computer game design and implementation. Topics include graphics game engines, game physics, AI methods applied to games, and software architectures for computer games. Students will gain knowledge and skills needed for game development via team projects.

about Practical Game Development

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

about Practical Game Development
CS 4379A. Software Testing. 
The concepts used in a formal testing of safety critical and high-quality software applications are investigated. Topics include, but are not limited to, test design, static and dynamic testing tools, and formal testing documentation. Prerequisite: CS 3398 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CS 4379B. Introduction to Graphical User Interfaces. 
This course covers abstract and practical foundations of graphical user interface design, evaluation, and implementation. It discusses the fundamentals of computer graphics and interactive computer/human interfaces. The course includes a survey of usability measures, the major GUI standards, and GUI tools. Prerequisite: CS 3358 with a grade of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CS 4379Q. Introduction to Recommender Systems. 
This course covers the basic concepts of recommender systems, including personalization algorithms, evaluation tools, and user experiences. We will discuss how recommender systems are deployed in e-commerce sites, social networks, and many other online systems. Additionally, we will review current research in the field. Prerequisite: CS 3358 with a grade of “C” or higher, or consent of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CS 4379Y. Introduction to Green Computing. 
Reducing energy consumption of mobile devices, cloud computing platforms, and supercomputers is a paramount but daunting problem. This course covers fundamental concepts and techniques in green computing, including a hardware energy efficiency roadmap; energy efficient software design, resource management, and storage solutions; and green data centers and mobile computing. Prerequisites: CS 3339 and CS 3358 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CS 4380. Parallel Programming. 
This course teaches practical aspects of parallel programming. The covered topics include multi-core processors and shared-memory programming, hardware accelerator programming, and distributed-memory machines and message-passing programming. The students will gain the knowledge and skills needed for developing parallel software by writing programs for a variety of parallel computers. Prerequisite: CS 3358 with a grade of “D” or higher; or instructor consent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Faculty 
Ali, Moonis, Professor, Computer Science, Ph.D., Aligarh Muslim University
Burtscher, Martin, Professor, Computer Science, Ph.D., University of Colorado Boulder
Chen, Xiao, Associate Professor, Computer Science, Ph.D., Florida Atlantic University
DasGupta, Sumit, Lecturer, Computer Science, Ph.D., Syracuse University Main Campus
Durrett, H. John, Associate Professor, Computer Science, J.D., St. Mary’s University
Ekstrand, Michael Dean, Assistant Professor, Computer Science, Ph.D., Univ of Minnesota-Twin Cities
Gao, Ju, Associate Professor, Computer Science, Ph.D., Simon Fraser University
Bachelor of Arts (B.A.) Major in Computer Science

Minimum required: 120 semester hours

General Requirements

1. A minimum of 120 hours is required for graduation. Of those hours, 9 hours must be writing intensive and 36 hours must be advanced.

2. A minimum of 42 hours must be completed in the general education core curriculum. Refer to the Academic Services section of this catalog for additional information about general education core curriculum requirements.

3. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

4. Computer Science majors must complete a CS project course from:
   - CS 3369 Embedded Computer Systems 3
   - CS 4326 Human Factors of Computer Systems 3
   - CS 4398 Software Engineering Project 3

5. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.

Select one of the following:
- English Literature:
  - ENG 2310

Texas State University
Bachelor of Arts (B.A.) Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12)

Minimum required: 127 semester hours

General Requirements

1. A minimum of 127 hours will be completed for students pursuing teacher certification. Of those hours, 9 hours must be writing intensive, and 36 hours must be advanced.

2. A minimum of 42 hours must be completed in the general education core curriculum. Refer to the Academic Services section of this catalog for additional information about general education core curriculum requirements.

3. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

4. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

5. Students pursuing the B.A. degree are required to complete an additional 3 hours of English Literature beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the CS major. Students may select from ENG 2310, ENG 2320, ENG 2330, ENG 2340, ENG 2359, ENG 2360, ENG 3303 (Technical Writing), or ENG 3311 (Writing for the Computer Industry) to fulfill this requirement. ENG 3303 or ENG 3311 is recommended.

6. Students pursuing the B.S. degree are required to complete an additional 3 hours of English Literature beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the CS major. Students may select from ENG 2310, ENG 2320, ENG 2330, ENG 2340, ENG 2359, ENG 2360, ENG 3303 (Technical Writing), or ENG 3311 (Writing for the Computer Industry) to fulfill this requirement. ENG 3303 or ENG 3311 is recommended.

Students pursuing the B.A. degree are required to complete 6 hours of modern language (2310 and 2320) in the same modern language. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

5 A minor is required, and it is recommended that it be chosen in consultation with the academic advisor.

1. MATH 2417 or MATH 2471 may substitute for the MATH 1317, MATH 1319, MATH 1329, or MATH 2321 requirement.

2. Computer Science majors must take eight hours (2 courses) from: BIO 1330/BIO 1130 & BIO 1311/BIO 1131; PHYS 1315/PHY1 1115 & PHYS 1325/PHY1 1125 or PHYS 1430 & PHYS 2425; CHEM 1341/CHM1 1141, and CHEM 1342/CHM1 1142; or GEO 1410 & GEOL 1420. The eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above.

3. Students pursuing the B.A. degree are required to complete 6 hours of modern language (2310 and 2320) in the same modern language. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

4. Students pursuing the B.S. degree are required to complete an additional 3 hours of English Literature beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the CS major. Students may select from ENG 2310, ENG 2320, ENG 2330, ENG 2340, ENG 2359, ENG 2360, ENG 3303 (Technical Writing), or ENG 3311 (Writing for the Computer Industry) to fulfill this requirement. ENG 3303 or ENG 3311 is recommended.

5. A minor is required, and it is recommended that it be chosen in consultation with the academic advisor.

6. Computer Science majors must complete one CS project course from:

---

1. ENG 3303 or ENG 3311 is recommended.
7. A minor is required. Students seeking teacher certification will automatically satisfy a minor in Secondary Education when they successfully complete the 21 hours of Professional Education sequence of courses under the College of Education:

### Bachelor of Science (B.S.) Major in Computer Science

**Minimum required: 120 semester hours**

#### General Requirements

1. A minimum of 120 hours is required for graduation. Of those, 9 hours must be writing intensive and 36 hours must be advanced.

2. A minimum of 42 hours must be completed in the general education core curriculum. Refer to the Academic Services section of this catalog for additional information about general education core curriculum requirements.

3. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

4. Students pursuing the B.S. are required to complete a total of 17 hours in mathematics. Therefore, a Mathematics minor is recommended.

5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language must be taken at the college level.

**Total Hours: 127**

1. MATH 2417 or MATH 2471 may substitute for the MATH 1317, MATH 1319, MATH 1329, or MATH 2321 requirement.

2. Computer Science majors must take eight hours (2 courses) from: BIO 1330/BIO 1130 & BIO 1331/BIO 1131; PHYS 1315/PHYS 1115 & PHYS 1325/PHYS 1125; CHEM 1341/CHEM 1141, and CHEM 1342/CHEM 1142; or GEOL 1410 & GEOL 1420. The eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above.

3. Students pursuing the B.A. degree are required to complete 6 hours of language (2310 and 2320) in the same modern language. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.
Computer Science majors must take sixteen hours (4 courses) from: BIO 1330/BIO 1130 & BIO 1331/BIO 1131; PHYS 1315/PHYS 1115 & PHYS 1325/PHYS 1125 [or PHYS 1430 & PHYS 2425]; CHEM 1341/CHEM 1141 and CHEM 1342/CHEM 1142; or GEOL 1410 & GEOL 1420. Eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above.

Students pursuing the B.S. degree are required to complete an additional 3 hours of English Literature beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the CS major. Students may select from ENG 2310, ENG 2320, ENG 2330, ENG 2340, ENG 2359, ENG 2360, ENG 3303 (Technical Writing), or ENG 3311 (Writing for the Computer Industry) to fulfill this requirement. ENG 3303 or ENG 3311 is recommended.

Computer Science majors must complete one CS project course from: CS 3369, CS 4326, or CS 4398.

A minor is required, and it is recommended that it be chosen in consultation with the academic advisor.

Bachelor of Science (B.S.) Major in Computer Science (Computer Engineering Concentration)

Minimum required: 120 semester hours

General Requirements

1. A minimum of 120 hours is required for graduation. Of those, 9 hours must be writing intensive and 36 hours must be advanced.

2. A minimum of 42 hours must be completed in the general education core curriculum. Refer to the Academic Services section of this catalog for additional information about general education core curriculum requirements.

3. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language must be taken at the college level.

5. The concentration in computer engineering consists of:

Bachelor of Science (B.S.) Major in Computer Science (Teacher Certification in Computer Science, Grades 8-12)

Minimum required: 132 semester hours

General Requirements

1. A minimum of 132 hours is required for graduation. Of those hours, 9 hours must be writing intensive hours, and 36 must be advanced.

2. A minimum of 42 hours must be completed in the general education core curriculum. Refer to the Academic Services section of this catalog for general education core curriculum requirements.

3. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

4. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

5. A minor is required. Students seeking teacher certification automatically satisfy a minor in Secondary Education when they successfully complete the 21 hours of Professional Education sequence of courses under the College of Education:

   - CI 3325: Adolescent Growth and Development (3)
   - CI 4332: Secondary Teaching: Curriculum and Technology (3)
   - CI 4343: Instructional Strategies for the Secondary Teacher (3)
   - RDG 3323: Teaching Reading in the Content Areas (3)

6. Students pursuing the B.S. are required to complete a total of 17 hours in mathematics from:
   - MATH 2471: Calculus I (4)
   - MATH 2472: Calculus II (4)
   - MATH 3305: Introduction to Probability and Statistics (3)
   - MATH 2358: Discrete Mathematics I (3)
   - MATH 3398: Discrete Mathematics II (3)

   Total Hours: 17

7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level.

Total Hours: 132

2 Students pursuing the B.S. degree are required to complete an additional 3 hours of English Literature beyond the general education core curriculum. A grade of C or higher is required in these additional hours to satisfy the graduation requirements of the CS major. Students may select from ENG 2310, ENG 2320, ENG 2330, ENG 2340, ENG 2359, ENG 2360, ENG 3303 (Technical Writing), or ENG 3311 (Writing for the Computer Industry) to fulfill this requirement. ENG 3303 or ENG 3311 is recommended.

3 Computer Science majors must complete one CS project course from: CS 3369, CS 4326, or CS 4398.

Certificate in Computer Science

Additionally, for persons who already hold a baccalaureate degree, the department offers a Certificate in Computer Science. Refer to the Texas State Graduate Catalog for more information.

Minor in Computer Science

A minor in Computer Science requires:

<table>
<thead>
<tr>
<th>Course</th>

</tr>
</tbody>
</table>

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Ingram School of Engineering

Roy F. Mitte Building Room 5202
T: 512.245.1826 F: 512.245.7771
www.engineering.txstate.edu (http://www.engineering.txstate.edu)
The B.S. major in Electrical Engineering provides students the background that is essential for the conception, design, development, and manufacture of electrical, electronic and information technology products and systems. Students may specialize in the areas of networks and communication systems, micro and nano devices and systems, or computer engineering. Proficiency in mathematics is especially important in Electrical Engineering. In order to be admitted to the EE program, a student needs to be qualified to take MATH 2417 or higher. The B.S. with a major in Electrical Engineering and the B.S. with a major in Electrical Engineering with Computer Engineering Concentration are both accredited by the Engineering Accreditation Commission of ABET (www.abet.org).

The B.S. major in Industrial Engineering provides students the background that is essential for improving the productivity, quality, safety, and cost effectiveness of all types of systems and processes. Industrial engineers are typically engaged in the areas of quality assurance, ergonomics, production and operations management, facilities design, work design, system optimization, information technology, and industrial safety. The B.S. major in Industrial Engineering is accredited by the Engineering Accreditation Commission of ABET (www.abet.org).

The B.S. major in Manufacturing Engineering is designed to provide students with the mathematics, science, management, engineering, and applications skills needed to become manufacturing engineers. These engineers are typically responsible for promoting manufacturability, process planning, tool design, cost estimation, factory layout, work methods, quality assurance, automation, and systems integration. The degree has a concentration in general manufacturing, mechanical systems or semiconductor/high technology manufacturing. The B.S. major in Manufacturing Engineering is accredited by the Engineering Accreditation Commission of ABET (www.abet.org).

Annual student enrollment and graduation data is posted by the institution and is accessed through the website http://www.engineering.txstate.edu/About/Data.html.

The Electrical Engineering Mission Statement

Our mission is: To lead students to be innovative, ethical engineering professionals through solid education at the undergraduate level, by providing opportunities to participate in research, and by responding to the needs of the Central Texas region, the state of Texas, and the nation. We achieve this mission by:

- Engaging colleagues and students in new and more effective ways to transmit knowledge to the next generation of electrical and computer engineers.
- Engaging colleagues and students in pioneering, scholarly, multidisciplinary research efforts.
- Creating an inclusive environment which emphasizes ethics and integrity and fosters creativity, appreciation for all ideas, and respect for others.
- Seeking and maintaining bonds with our alumni and the industries which hire them.
- Maintaining a student-centered atmosphere for undergraduate education and research.

The objectives of the program are to produce graduates who, in 3-5 years of receiving the EE degree, attain the necessary skills and abilities to:

1. Analyze, design, develop, optimize, and implement complex systems in the context of modern interdisciplinary engineering work.
2. Contribute to the solution of practical problems in industrial, service, and government organizations by applying skills acquired through formal and lifelong learning.
3. Enjoy fulfilling engineering careers, including professional advancement, entrepreneurship, and the pursuit of graduate studies.
4. Practice engineering while observing appropriate technological, organizational, societal, global, and ethical contexts.

Each graduate is expected to have:

(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic,
environmental, social, political, ethical, health and safety, manufacturability, and sustainability

(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in lifelong learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
(l) a knowledge of probability, statistics, and mathematics through differential and integral calculus, differential equations, linear algebra, complex variables, and discrete mathematics
(m) a knowledge of sciences and engineering topics (including computer science) necessary to analyze and design complex electrical and electronic devices, software, and systems containing hardware and software components.

5. Work effectively in diverse, multicultural environments emphasizing the application of teamwork and communication skills.
6. Practice life-long learning to sustain technical currency and excellence throughout one’s career. Promote the profession and its benefits to society.

Each student is expected to demonstrate:

(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in life-long learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
(l) an ability to design, develop, implement, and improve integrated systems that include people, materials, information, equipment, and energy and to accomplish the integration of systems using appropriate analytical, computational, and experimental practices.

The Industrial Engineering Mission Statement, Program Educational Objectives, and Student Outcomes

Our mission is:

To provide an excellent and innovative education setting to our students so they can learn and discover how complex systems work better. The IE program strives to maintain a comprehensive curriculum that enables students to become leading engineers and/or creative researchers in the global marketplace and/or in graduate studies. The program seeks to collaborate with private and public sectors in the search of methodologies and creative solutions to problems that contribute to the advancement of education, technology, and professional development. Through plans and activities that search to embrace a student population of strong diversity, the program attempts to be a significant provider of global workforce.

Within 3-5 years after graduation, graduates of our IE program are expected to be able to attain the following educational objectives:

1. Perform as industry leaders in the global marketplace, capable of successfully planning, controlling, and implementing large-scale projects.
2. Understand and apply the principles of science, technology, engineering, and math involving industry-relevant problems.
3. Contribute to the profitable growth of industrial economic sectors by using IE analytical tools, effective computational approaches, and systems thinking methodologies.
4. Maintain high standards of professional and ethical responsibility.

The Manufacturing Engineering Mission Statement, Program Educational Objectives, and Student Outcomes

Our mission is:

• To sustain a quality, student-centered, industry-oriented engineering curriculum.
• To attract students and prepare them with the knowledge, practical skills, and abilities to perform as highly competent engineers in the global marketplace and/or in graduate studies.
• To produce graduates skilled in materials and manufacturing processes; process, assembly and product engineering; manufacturing competitiveness and systems design.
Within 3-5 years after graduation, graduates of the Manufacturing Engineering program are expected to be able to attain the following educational objectives:

1. Perform as engineering leaders in the global marketplace.
2. Understand and apply the principles of math, science, and engineering in design and manufacturing related activities.
3. Contribute to the profitable growth of manufacturing businesses.
4. Maintain high standards of professional and ethical responsibility.

Each student is expected to demonstrate:

(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in life-long learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Bachelor of Science (B.S.)

- Major in Electrical Engineering (Computer Engineering Concentration) (p. 589)
- Major in Electrical Engineering (Micro and Nano Devices and Systems Concentration) (p. 590)
- Major in Electrical Engineering (Networks and Communication Systems Concentration) (p. 591)
- Major in Industrial Engineering (p. 592)
- Major in Manufacturing Engineering (General Manufacturing Concentration) (p. 593)
- Major in Manufacturing Engineering (Mechanical Systems Concentration) (p. 594)
- Major in Manufacturing Engineering (Semiconductor Manufacturing Concentration) (p. 595)

Subjects in this school include: EE (p. 582), ENGR (p. 585), IE (p. 585), MGF (p. 587)

Courses in Electrical Engineering (EE)

EE 2400. Circuits I.
This course provides an introduction to the profession of Electrical Engineering and its specialties. Fundamental DC and sinusoidal steady-state circuit analysis techniques include Ohm's law, power, Kirchoff's laws, and Thevenin and Norton equivalent circuits. Prerequisites: MATH 2471.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

EE 2420. Digital Logic.
An introduction to fundamental computer technologies, including Boolean logic design, logic circuits and devices, and basic computer hardware are studied. Laboratories provide hands-on experience with electricity, combinational and sequential digital circuits, and computer hardware. Prerequisite: CS 1428 with a grade of "C" or higher.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 3340. Electromagnetics.
Wave propagation, Maxwell's equations, transmission lines, wave guides, and antennas. Prerequisites: MATH 3373 and PHYS 2435 with grades of "C" or higher. Co-requisite: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

EE 3350. Electronics I.
Analysis and design of active device equivalent circuits with emphasis on transistors, switching circuits, and operational amplifiers. Prerequisites: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

EE 3355. Solid State Devices.
Semiconductor materials, principles of carrier motion, operating principles and circuit models for diodes, bipolar transistors and field-effect transistors. Introduction to integrated circuits. Prerequisites: EE 3300 or EE 3400.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Information about graduate programs can be found in the Graduate Catalog (p. 634).
EE 3370. Signals and Systems.
Frequency domain representation of signals and systems and frequency domain concepts for circuit analysis and design. Transfer function and frequency response, Laplace and z-transforms, Fourier series, Fourier transform, and sampling. Prerequisites: EE 3300 or EE 3400.
Course Attribute(s): about Signals and Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Signals and Systems

EE 3400. Circuits II.
This course includes a brief review of EE 2400, transient analysis, application of Laplace transforms, Bode plots, and network principles. Materials learning in EE 2400 is extended and applied here. Prerequisites: EE 2400 and MATH 3323.
Course Attribute(s): about Circuits II
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Circuits II

EE 3420. Microprocessors.
Introduction to microprocessors, principles of operation, assembly language programming, timing analysis, and I/O interfacing. Prerequisites: EE 2420.
Course Attribute(s): Writing Intensive
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Microprocessors

EE 4321. Digital Systems Design Using HDL.
This course will cover the design of digital systems using HDL including implementation of custom microprocessor and peripheral architectures. Prerequisite: EE 3420 with a grade of "C" or higher.
Course Attribute(s): Lab Required
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Digital Systems Design Using HDL

This course provides the necessary fundamental techniques to analyze and process digital images. It covers principles, concepts, and techniques of digital image processing and computer vision. Prerequisites: CS 1428 and EE 3420 with grades of "C" or higher.
Course Attribute(s): Lab Required
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Digital Image Processing

EE 4350. Electronics II.
Analysis and design of integrated circuits, feedback, and frequency response. Prerequisites: EE 3350.
Course Attribute(s): Lab Required
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Electronics II

EE 4351. Fundamentals of Electroceramics.
Introduction to binary and ternary phase diagrams, non-centro-symmetric crystal structures and symmetry groups, nonlinear dielectrics (including ferroelectricity, piezoelectricity, pyroelectricity), nonlinear magnetics, oxide wideband gap semiconductors, detectors and sensors, brief introduction to MEMS, radhard electronics, and spintronic technology. Research oriented labs related to materials processing, characterization, fabrication, and testing. Prerequisite: ENGR 2300 or equivalent; Co-requisite: EE 3355; GPA of 2.25 or higher.
Course Attribute(s): about Fundamentals of Electroceramics
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Fundamentals of Electroceramics

EE 4352. Introduction to VLSI Design.
Analysis of design of CMOS integrated circuits. Introduction to CAD tools for VLSI design. Prerequisites: CS 2420, EE 2420, and EE 3350 with grades of "C" or higher.
Course Attribute(s): Lab Required
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Introduction to VLSI Design

EE 4353. Fundamentals of Advanced CMOS Technology.
Key concepts of advanced semiconductor technology including Moore's law, transition from NMOS to CMOS, CMOS scaling, high-K gate dielectrics, metal electrodes, source/drain scaling technology, new channel materials replacing silicon, and three dimensional device structures. Prerequisite: EE 3355 with a grade of "C" or higher.
Course Attribute(s): about Fundamentals of Advanced CMOS Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fundamentals of Advanced CMOS Technology

EE 4354. Flexible Electronics.
This course will cover the materials systems, processes, device physics and applications of flexible electronics. The materials range from amorphous and nanocrystalline silicon, organic and polymeric semiconductors to solution cast films of carbon nanotubes. Real device discussions include high speed transistors, photovoltaics, flexible flat-panel displays, medical image sensors, etc. Prerequisites: EE 3350, EE 3355, and EE 4350 with grades of "C" or higher, or permission of the instructor.
Course Attribute(s): about Flexible Electronics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Flexible Electronics

EE 4355. Analog and Mixed Signal Design.
Operational amplifier design applications, feedback, offset, stability, and compensation. Introduction to random signals and noise, discrete time circuitry analog-to-digital converters, and digital-to-analog converters. Prerequisites: EE 3370 and EE 4350.
Course Attribute(s): Lab Required
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
about Analog and Mixed Signal Design
EE 4358. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392.
about Introduction to Microelectromechanical Systems

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Introduction to Microelectromechanical Systems

Transmission of signals through linear systems, analog and digital modulation, filtering, and noise. Prerequisites: EE 3300, EE 3370, and IE 3320.
about Communication Systems

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Communication Systems

EE 4372. Communication Networks. 
Data communication concepts, protocols, algorithms, 7-layer OSI model, physical media, LAN architecture and components, Ethernet, FDDI, TCP/IP, and related standards. Prerequisite: EE 2400 and EE 3420.
about Communication Networks

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Communication Networks

EE 4374. Introduction to Wireless Communication. 
Principles, practice, and system overview of mobile systems. Modulation, demodulation, coding, encoding, and multiple access techniques. Prerequisites: EE 4370.
about Introduction to Wireless Communication

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Introduction to Wireless Communication

EE 4376. Introduction to Telecommunications. 
about Introduction to Telecommunications

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Introduction to Telecommunications

EE 4377. Introduction to Digital Signal Processing. 
Discrete systems, convolution, spectral analysis, and FIR and IIR filter design. Prerequisites: EE 3370.
about Introduction to Digital Signal Processing

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Introduction to Digital Signal Processing

EE 4378. Data Compression and Error Control Coding. 
Introduction to information theory, information content of messages, entropy and source coding, data compression, channel capacity data translation codes, and fundamentals of error correcting codes. Corequisite: EE 4370.
about Data Compression and Error Control Coding

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Data Compression and Error Control Coding

EE 4390. Electrical Engineering Design I. 
This course is a team-based design of a system or component, which will include oral presentations and written reports. Prerequisites: EE 3350, EE 3370, and EE 3420 with grades of "C" or higher. Co-requisites: EE 4352 or EE 4370. (WI).
about Electrical Engineering Design I

3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  
about Electrical Engineering Design I

EE 4391. Electrical Engineering Design II. 
Advanced team-based design of a system or component, which will include oral presentations and written reports. Prerequisites: EE 4390. (WI).
about Electrical Engineering Design II

3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  
about Electrical Engineering Design II

EE 4399A. Dynamic Data Acquisition and Analysis. 
Methods for acquiring and analyzing dynamic (time-varying) data. Frequency domain analysis, analog-to-digital conversion, windowing, and digital filtering taught in the context of various industrial applications. Prerequisite: EE 3370 Signals and Systems.
about Dynamic Data Acquisition and Analysis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Dynamic Data Acquisition and Analysis

EE 4399B. Overview of Information Theory and Coding. 
Fundamentals of Information Theory, Huffman coding, image encoding techniques, Hamming and BCH error control codes, Reed-Solomon coding, convolutional codes and the Viterbi decoding algorithm. 
Prerequisite: EE 3370 Signals and Systems.  
Corequisite: EE 4370.  
Grade Mode: Standard Letter  
about Overview of Information Theory and Coding

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Overview of Information Theory and Coding
Courses in Engineering (ENGR)

An introductory communications course in the tools and techniques utilized to produce various types of working drawings. Principles of multiview projections, geometric relationships, shape and size description, and pictorial methods are included with emphasis on technical applications and design problem solving. about Engineering Design Graphics
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Engineering Design Graphics

ENGR 2300. Materials Engineering.
Structure, properties and behavior of engineering materials including metals, polymers, composites and ceramics. Mechanical, electrical, magnetic, thermal, and optical properties are covered. Prerequisites: CHEM 1341 or CHEM 1335; CHEM 1141.
about Materials Engineering
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Materials Engineering

ENGR 3190. Cooperative Education.
This course provides special problems in engineering for cooperative education students. Problems are related to the student's work assignment and culminate in a technical report. Three hours may be used as technical elective, and one additional hour may be used as free elective; 4 hours may be used toward graduation. Prerequisite: Overall GPA 2.5 or above and approval of department head.
about Cooperative Education
1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Cooperative Education

This course covers the principles of mechanic materials and includes the following topics: stress and strain; elastic modulus and Poisson's ratio; constitutive equations; torsion; bending; axial, shear and bending moment diagrams; deflection of beams; and stability of columns. Prerequisite: ENGR 3375 or MATH 3375.
about Mechanics of Materials
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Mechanics of Materials

ENGR 3315. Engineering Economic Analysis.
Interest formulas, economic equivalence, rate of return analysis, techniques of economic analysis for engineering decisions and an introduction to cost estimation. Prerequisite: MATH 1315.
about Engineering Economic Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Engineering Economic Analysis

ENGR 3360. Structural Analysis.
Structural engineering fundamentals to include design loads, reactions, force systems, functions of a structure, and the analysis of statically determinate and indeterminate structures by classical and modern techniques. Prerequisite: ENGR 3311.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Structural Analysis

ENGR 3373. Circuits and Devices.
DC and AC circuit analysis, network theorems, electromechanical devices, electronic devices and an introduction to amplifiers, oscillators and operational amplifiers. Prerequisite: PHYS 2425.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Circuits and Devices

ENGR 3375. Mechanics for Engineers.
This course covers statics, using a vector approach to mechanics. Prerequisite: PHYS 1430. Co-requisite: MATH 2472.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Mechanics for Engineers

ENGR 4390. Internship.
Supervised on-the-job professional learning experience in engineering and other technical areas. This course provides practical work experience in their particular field of interest.

3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Internship

Open to undergraduate students on an independent basis by arrangement with the faculty member concerned. Requires school director's approval. Repeatable for credit with different emphasis. Prerequisite: junior or senior standing.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Studies in Engineering

Courses in Industrial Engineering (IE)

IE 3310. Project Management for Engineers.
Basic principles governing the efficient and effective management of engineering projects. Topics include project planning, scheduling, and cost estimation procedures. Prerequisite: ENGR 3315. (WI).
about Project Management for Engineers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Project Management for Engineers
Fundamentals of probability and statistical inference for engineering applications, probability distributions, parameter estimation, hypothesis testing, and analysis of variance. Prerequisite: MATH 2472.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
about Engineering Statistics

IE 3330. Quality Engineering.
Quality assurance systems, quality costs, statistical quality control, and approaches for engineering quality into products and processes. Prerequisite: IE 3320.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Quality Engineering

This course teaches models in operations research including linear programs, the simplex method, duality theory, sensitivity analysis, integer programs, and network flows. The emphasis is in learning to recognize, formulate, solve, and analyze practical industrial problems. The course also teaches commercial mathematical programming languages. Prerequisites: CS 1428, MATH 3377, ENGR 3315.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Operations Research

IE 3360. Methods Engineering and Ergonomics.
This course is a survey of methods for assessing and improving performance of individuals and groups in organizations. Techniques include various basic industrial engineering tools, work analysis, data acquisition and application, performance evaluation and appraisal, and work measurement procedures. Prerequisite: IE 3320.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Methods Engineering and Ergonomics

Probabilistic models in operations research to include queuing theory, simulation, and Markov chains. Emphasis will be placed on modeling applications to solve problems in industry and computing. Prerequisite(s): IE 3320 and CS 1428.
Grade Mode: Lab Required|Writing Intensive
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
about Probabilistic Operations Research

IE 4310. Statistical Design of Experiments.
Statistically designed experiments for engineering applications. Topics include analysis of variance, randomized complete designs, factorial designs, empirical models generated from controlled experiments, and response surfaces. Prerequisite: IE 3320.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Statistical Design of Experiments

IE 4320. Integrated Production Systems.
Basic concepts in the design and control of integrated production systems to include forecasting, inventory models, material requirements planning, scheduling, planning, and shop floor control. Coverage will include both traditional and kanban systems. Prerequisite: IE 3340.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Integrated Production Systems

IE 4330. Reliability Engineering.
Reliability of components and systems, reliability models, life testing, failure analysis, and maintainability. Prerequisite: IE 3320.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Reliability Engineering

IE 4340. Optimization Techniques.
Mathematical modeling and computational methods for linear, integer, and nonlinear programming problems. Prerequisite: IE 3340.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Optimization Techniques

IE 4350. Supply-Chain Engineering.
The analysis of supply chain problems to include facility location, customer assignment, vehicle routing, inventory management, and the role of information and decision support systems in supply chains. Prerequisite: IE 3340.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Supply-Chain Engineering

IE 4355. Facilities Planning.
Planning, design, and analysis of facilities. Emphasizes the principles and methods used for solving plant layout, facility location, material handling, automation, computer integration, and warehouse operations.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Facilities Planning

IE 4360. Human Factors Design.
This course will emphasize the applications of human factors engineering to systems design. Prerequisites: IE 3360. (WI).
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Writing Intensive
about Human Factors Design

Probabilistic models in operations research to include queuing theory, simulation, and Markov chains. Emphasis will be placed on modeling applications to solve problems in industry and computing. Prerequisite(s): IE 3320 and CS 1428.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Probabilistic Operations Research
IE 4380. Industrial Safety.
This course is a survey of occupational safety and hazards control. Topics include the history of occupational safety; hazard sources related to humans, environment, and machines; and engineering management of hazards.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

IE 4380. Industrial Safety.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

IE 4390. Industrial Engineering Capstone Design.
Students form teams and apply industrial engineering principles to develop and implement solutions to industrial problems and/or systems engineering issues. Prerequisites: IE 3310, IE 3330; and at least two of: IE 3340, IE 4310, IE 4355, IE 4370 and MFGE 4396. Corequisites: IE 4320 and IE 4350.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

IE 4399A. Six Sigma Methodologies.
This course covers the principles and methodologies of Six Sigma. Emphasis is on the tools and techniques used in Six Sigma projects, including statistical process control, experimental design, and project management. Students will develop and complete a Six Sigma project in industry. Prerequisite(s): IE 3310, ID 3330, and ID 4310.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Excluding Sigma Methodologies
Grade Mode: Standard Letter

IE 4399B. Human Computer Interaction.
Introduces the fundamentals of human-computer interaction relative to interactive computer applications and associated interfaces. Principles and methodologies of usability testing will highlight relationships between human factors, design, and cognitive psychology in the development of computer applications. A variety of assessment and validation methodologies are applied. Prerequisite: Faculty advisor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Excluding 3-peat Processing|Topics
Grade Mode: Standard Letter

IE 4399C. Engineering Statistics II.
This course is the continuation of IE 3320 Engineering Statistics I and covers simple and multiple regression analysis, analysis of variance, 2\(^k\) Factorial Experiments, and the use of statistical packages. Prerequisite: IE 3320.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Excluding 3-peat Processing|Topics
Grade Mode: Standard Letter

IE 4399D. Modern Heuristic Optimization Techniques.
Heuristic methods that search beyond local optima such as simulated annealing, tabu search, genetic algorithms, ant-colony systems, and particle swarm. Papers from the literature, problem-specific heuristics, evaluation methods and serial/parallel implementations are discussed.

This course is an advanced undergraduate course for students in engineering and related fields. Prerequisites: IE 3340, CS 1428.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

Courses in Manufacturing Engineering (MFGE)

MFGE 2132. Manufacturing Processes Lab.
Hands-on experience in variety of material removal processes such as turning, milling, drilling, and CNC machining; joining processes such as gas/arc welding, and soldering; metal casting, polymer and composite processing, and microelectronics manufacturing. Prerequisite or corequisite: MFGE 2332.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

MFGE 2332. Material Selection and Manufacturing Processes.
Overview of material processing, material selection and process parameter determination. Processes covered include: material removal, forming, casting, polymer processing, semiconductor manufacturing and assembly processes. Laboratory activities provide opportunities for applying the design through manufacture activities of the product cycle. Prerequisite: ENGR 2300. Corequisite: ENGR 2300.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

Topics include design process, description of wireframe/surface/solid models, transformation and manipulation of objects, finite element analysis, data exchange, process planning, machine elements, fundamentals of numerical control programming for turning and milling processes, fundamentals of CAD/CAM systems, CNC code generation by CAD/CAM software, waterjet, and plasma cutting. Prerequisites: ENGR 1313 and MFGE 2332.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

This course will cover the general procedures in designing various machine elements. These elements include shafts and flexible elements, springs, welded/riveted/brazed joints, screw fasteners, rolling/sliding contact bearings, gears, cams, and followers. Emphasis will be placed on using standard design practices. Prerequisite: ENGR 3311 or TECH 2351.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Texas State University
MFGE 4357. Dynamics of Machinery.  
This course will cover kinematics and kinetics of particles; kinematics and kinetics of rigid bodies in two and three dimensions; application of dynamics to the analysis and design of machine and mechanical components; mechanical vibrations; linkages; gear trains; and balancing of machines. Prerequisites: MATH 3323 and MATH 3375. 
about Dynamics of Machinery  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Dynamics of Machinery

Integrated design and development of products and processes; impact of ethical issues on design; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports; plans or specifications; cost estimation; project management, communication and the fabrication of an engineered product/system. Prerequisites: ENGR 3311, MFGE 4365, and senior standing. Corequisite: IE 3330. (WI), about Concurrent Process Engineering  
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  
about Concurrent Process Engineering

MFGE 4365. Tool Design.  
Design of single and multi-point cutting tools, jig and fixture design, gage design, and the design of tooling for polymer processing and sheet metal fabrication. Laboratory projects will involve the use of computer aided design and rapid prototyping. Prerequisite: MFGE 3316 or ENGR 3316 or TECH 2310. about Tool Design  
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Tool Design

MFGE 4367. Polymer Properties and Processing.  
Structure, physical & mechanical properties, design considerations and processing methods for polymer-based materials are presented. Processing methods include: injection molding, blow molding, thermoforming, compression molding, extrusion, filament winding, lay-up methods, vacuum bag molding and poltulsion. Prerequisite: MFGE 2332 or TECH 4362. about Polymer Properties and Processing  
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Grade Mode: Standard Letter  
p about Polymer Properties and Processing

MFGE 4376. Control Systems and Instrumentation.  
The theory of automated control systems and its applications to manufacturing systems are covered in this course. Topics covered include: modeling of systems, time and frequency domain feedback control systems, stability analysis, transducer and sensor technology and digital control. Prerequisites: PHYS 1430 and one of the following MFGE 2332, TECH 4362 or EE 3370. Co-requisite: MATH 3323. about Control Systems and Instrumentation  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Control Systems and Instrumentation

MFGE 4392. Microelectronics Manufacturing I.  
Provides an overview of integrated circuit fabrication including crystal growth, wafer preparation, epitaxial growth, oxidation, diffusion, ion-implantation, thin film deposition, lithography, etching, device and circuit formation, packaging and testing. The laboratory component involves production and testing of a functional semiconductor device. Prerequisites: CHEM 1141 and CHEM 1341. about Microelectronics Manufacturing I  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  
about Microelectronics Manufacturing I

MFGE 4394. Microelectronics Manufacturing II.  
Topics include: atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes i.e. CVD, PVD; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation. Prerequisite: MFGE 4392. about Microelectronics Manufacturing II  
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Microelectronics Manufacturing II

This course is an overview of computer integrated manufacturing is presented. Topics include control strategies for manufacturing systems, automated material handling systems, production planning, shop floor control, manufacturing execution systems, manufacturing databases and their integration, data communication and protocols and man/machine interfaces. Prerequisite: MFGE 3316. (WI). about Computer Integrated Manufacturing  
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  
about Computer Integrated Manufacturing

MFGE 4396. Manufacturing Systems Design.  
Applications of simulation modeling to the design and analysis of manufacturing systems are presented in this course. Topics covered include queuing theory and discrete event simulation methods. Design projects will involve the use of current simulation language for modeling and analysis of manufacturing systems. Prerequisites: IE 3320. (WI). about Manufacturing Systems Design  
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  
about Manufacturing Systems Design

MFGE 4399A. Reverse Engineering and Rapid Prototyping.  
In the course 3D scanning technology for design, analysis, and inspection, is covered. Also, applications of the 3D scanning in reverse engineering and different rapid prototyping processes in a hands-on approach will be explained in this course. about Reverse Engineering and Rapid Prototyping  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Topics  
Grade Mode: Standard Letter  
about Reverse Engineering and Rapid Prototyping
MFGE 4399B. Introduction to Reinforced Polymer Nanocomposites in Industrial Applications.
Introductory course in reinforced polymer nanocomposites focusing on materials, manufacturing, characterization, and applications. Include, primarily nanoclay polymer matrix composites. Thrust will be the challenges in low-cost manufacturing for industrial applications, commercial successes, its impact on current material market, and future. about Introduction to Reinforced Polymer Nanocomposites in Industrial Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Introduction to Reinforced Polymer Nanocomposites in Industrial Applications

MFGE 4399C. Introduction to Industrial Robotics.
This course will cover the basic principles and techniques involved in industrial robotics. Emphasis will be placed on industrial robot applications, analysis of robot manipulated components of industrial robots, robot programming and control. Prerequisite: MFGE 4376.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Introduction to Industrial Robotics

Faculty
Asiabanpour, Bahram, Associate Professor, Engineering, Ph.D., University of Southern California
Aslan, Semih, Assistant Professor, Engineering, Ph.D., Illinois Institute of Technology
Bilgin, Enes, Lecturer, Engineering, Ph.D., Boston University
Casey, Michael L, Senior Lecturer, Engineering, Ph.D., The University of Alabama
Chen, Heping, Assistant Professor, Engineering, Ph.D., Michigan State University
Chen, Yihong, Associate Professor, Engineering, Ph.D., University of Texas at Austin
Chowdhury, Sarah Hamida, Lecturer, Engineering, M.S., Texas Tech University
Compeau, Cecil Richard, Senior Lecturer, Engineering, Ph.D., University of Mexico
Droopad, Ravindranath, Professor, Engineering, Ph.D., University of London
Dutta, Satyajit, Lecturer, Engineering, M.S., George Washington University
Hein, Jerrell Paul, Lecturer, Engineering, M.S., Stanford University
Jimenez, Jesus, Associate Professor, Engineering, Ph.D., Arizona State University
Jin, Tongdan, Associate Professor, Engineering, Ph.D., Rutgers State Univ New Brunswick
Kim, Namwon, Assistant Professor, Engineering, Ph.D., Louisiana State Univ A&M College
Koutitas, Georgios, Lecturer, Engineering, Ph.D., University of Surrey
Larson, Lawrence, Professor of Practice, Engineering, Ph.D., Washington State University
Londa, Michelle, Senior Lecturer, Engineering, Ph.D., University of Connecticut
McClellan, Stanley A, School Director - Professor, Engineering, Ph.D., Texas A&M University
Novoa, Clara M, Associate Professor, Engineering, Ph.D., Lehigh University
Perez, Eduardo, Assistant Professor, Engineering, Ph.D., Texas A&M University
Phillips, Ronn, Lecturer, Engineering, Ph.D., Texas A&M University
Prejean, Stephen E, Professor of Practice, Engineering, D.Eng., Lamar University
Rab, Muhammad T, Lecturer, Engineering, Ph.D., University of Texas at Austin
Rosas-Vega, Rosario, Senior Lecturer, Engineering, Ph.D., Texas A&M University
Sosa, Edward D, Assoc Professor of Practice, Engineering, Ph.D., University of North Texas
Stapleton, William A, Associate Professor, Engineering, Ph.D., The University of Alabama
Stephan, Karl, Professor, Engineering, Ph.D., University of Texas at Austin
Stern, Harold P, Professor, Engineering, Ph.D., University of Texas at Arlington
Talley, Austin Bates, Senior Lecturer, Engineering, Ph.D., University of Texas at Austin
Tate, Jitendra S, Associate Professor, Engineering, Ph.D., North Carolina Ag & Tech State U
Telang, Nina Kamath, Lecturer, Engineering, Ph.D., University of Notre Dame
Thomas, Patrick L, Lecturer, Engineering, Ph.D., Southern Methodist University
Viswanathan, Vishu Ramamoorthy, Professor, Engineering, Ph.D., Yale University
Yu, Qingkai, Assistant Professor, Engineering, Ph.D., University of Houston
Zare, Khalil, Lecturer, Engineering, Ph.D., University of Texas at Austin

Bachelor of Science (B.S.) Major in Electrical Engineering (Computer Engineering Concentration)
Minimum required: 136 semester hours

General Requirements

1. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
   a. ACT Math score of 24 or higher,
   b. SAT Math score of 520 (re-centered) or higher, or
   c. credit for one of the following math courses with a grade of “C” or higher:
      MATH 1315 College Algebra 3
      MATH 1317 Plane Trigonometry 3
      MATH 1319 Mathematics for Business and Economics I 3
      MATH 1329 Mathematics for Business and Economics II 3

   Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of “C” or higher may declare Electrical Engineering as their major:
      MATH 1315 College Algebra 3
      MATH 1317 Plane Trigonometry 3
      MATH 1319 Mathematics for Business and Economics I 3
      MATH 1329 Mathematics for Business and Economics II 3

2. All Electrical Engineering majors must complete Electrical Engineering (EE) course prerequisites with a grade of “C” or higher.
3. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.
4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
5. Electrical Engineering degrees include all the courses required for an Applied Mathematics Minor.

Bachelor of Science (B.S.) Major in Electrical Engineering (Micro and Nano Devices and Systems Concentration)

Minimum required: 137 semester hours

General Requirements

1. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
   a. ACT Math score of 24 or higher,
   b. SAT Math score of 520 (re-centered) or higher, or
   c. credit for one of the following math courses with a grade of “C” or higher:
      MATH 1315 College Algebra 3
      MATH 1317 Plane Trigonometry 3
      MATH 1319 Mathematics for Business and Economics I 3
      MATH 1329 Mathematics for Business and Economics II 3

   Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of “C” or higher may declare Electrical Engineering as their major:
      MATH 1315 College Algebra 3
      MATH 1317 Plane Trigonometry 3
      MATH 1319 Mathematics for Business and Economics I 3
      MATH 1329 Mathematics for Business and Economics II 3

1. Departmental requirements that also satisfy the general education core curriculum requirements for the following components: mathematics- MATH 2471; life and physical sciences- PHYS 1430 and PHYS 2425; and social and behavioral sciences- ECO 2301, ECO 2314 or ECO 2315. See the Academic Services section of this catalog for the English literature requirements.
2. A minimum of eight (8) hours of approved, senior-level Electrical Engineering electives are required.
2. All Electrical Engineering majors must complete Electrical Engineering (EE) course prerequisites with a grade of “C” or higher.

3. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

5. Electrical Engineering degrees include all the courses required for an Applied Mathematics Minor.

2 A minimum of eight (8) hours of approved, senior-level Electrical Engineering electives are required.

Bachelor of Science (B.S.) Major in Electrical Engineering (Networks and Communication Systems Concentration)

Minimum required: 137 semester hours

General Requirements

1. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
   a. ACT Math score of 24 or higher,
   b. SAT Math score of 520 (re-centered) or higher, or
   c. credit for one of the following math courses with a grade of "C" or higher:
      MATH 1315 College Algebra 3
      MATH 1317 Plane Trigonometry 3
      MATH 1319 Mathematics for Business and Economics I 3
      MATH 1329 Mathematics for Business and Economics II 3

   Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of "C" or higher may declare Electrical Engineering as their major:
      MATH 1315 College Algebra 3
      MATH 1317 Plane Trigonometry 3
      MATH 1319 Mathematics for Business and Economics I 3
      MATH 1329 Mathematics for Business and Economics II 3
2. All Electrical Engineering majors must complete Electrical Engineering (EE) course prerequisites with a grade of “C” or higher.

3. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

4. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

5. Electrical Engineering degrees include all the courses required for an Applied Mathematics Minor.

### Bachelor of Science (B.S.) Major in Industrial Engineering

**Minimum required: 135 semester hours**

**General Requirements**

1. In order to declare Industrial Electrical Engineering as a major, students must meet one of the following prerequisites:
   a. ACT Math score of 24 or higher,
   b. SAT Math score of 520 (re-centered) or higher, or
   c. credit for one of the following math courses with a grade of “C” or higher:
      - MATH 1315 College Algebra 3
      - MATH 1317 Plane Trigonometry 3
      - MATH 1319 Mathematics for Business and Economics I 3
      - MATH 1329 Mathematics for Business and Economics II 3

   Students who do not meet the above prerequisites may choose Pre-Industrial Electrical Engineering as their major. Pre-Industrial Engineering students who complete one of the following math courses with a grade of “C” or higher may declare Industrial Engineering as their major:
   - MATH 1315 College Algebra 3
   - MATH 1317 Plane Trigonometry 3
   - MATH 1319 Mathematics for Business and Economics I 3
   - MATH 1329 Mathematics for Business and Economics II 3

2. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

3. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
4. Industrial Engineering degrees include all the courses required for an Applied Mathematics Minor.

Department of Engineering Technology

The mission of the Department of Engineering Technology is to prepare students for technical/professional careers in industry and education. The mission is accomplished through a dedicated faculty offering programs in specialized areas with a formal, technical focus. Upon graduation, students are prepared to assume positions of professional responsibility in the areas of manufacturing, construction, concrete industry management, computer aided technologies, electronics, and
education. Fourteen well-equipped technical laboratories serve to educate students in the techniques and processes used by contemporary world class industries.

The Bachelor of Science Major in Concrete Industry Management (CIM)
The Bachelor of Science major in Concrete Industry Management (CIM) prepares students who are grounded in basic construction management, who are knowledgeable in concrete technology and techniques and who are able to manage people and systems to promote products and devices related to the concrete industry. CIM professionals find a wide array of opportunities in the concrete industry including positions in sales, operations, technical services and construction management. This degree program is accredited by the National Steering Committee of CIM.

The Bachelor of Science Major in Construction Science and Management (CSM)
The Bachelor of Science major in Construction Science and Management (CSM) prepares students to enter professional careers in the construction industry. Graduates may become construction project managers, estimators, schedulers, field engineers, general and/or subcontractors, code inspectors, material suppliers and technical sales representatives. Students learn the technical aspects of how construction projects are built through classes in residential, commercial, engineering and industrial construction, and learn how to manage construction through the required business administration minor and courses in estimating, scheduling and project management. Career opportunities are many in this industry, which comprises 16% of the Gross National Product. Students entering this degree need to successfully complete the Pre-Construction Curriculum before they will be allowed to register for advanced Construction Science and Management courses. Also, a sophomore level internship is required, where students spend 10 weeks and 400 hours working in the construction industry. Students interested in pursuing the Construction Science and Management degree program can receive more information on the major contacting a CSM Faculty Advisor. This degree program is accredited by the American Council for Construction Education.

The Bachelor of Science Major in Technology Management
The Bachelor of Science major in Technology Management prepares students for professional management positions in industry, or to become public school teachers in the field of Technology Education. Industry bound graduates will be prepared for work involving materials, processes, product design and development, quality management, safety management, supply chain issues, facility planning, and similar concepts in industrial management. Graduates of the Technology Education track will be prepared to teach a variety of industry and technology related subjects in Texas public schools. This degree has three specializations, Manufacturing Technology, Electronics Technology, and Technology Education. Students interested in pursuing the Bachelor of Science in Technology Management should see a faculty advisor in the Department of Engineering Technology for more details.

The Bachelor of Science in Technology Major in Engineering Technology
The Bachelor of Science in Technology major in Engineering Technology provides students with the technical background to work with engineers in planning production processes, developing tooling, establishing quality assurance procedures, developing safety programs, establishing work methods, and setting time standards. Students can specialize in Electrical Engineering Technology, Construction Engineering Technology, Environmental Engineering Technology, Manufacturing Engineering Technology, and Mechanical Engineering Technology. The Bachelor of Science in Technology major in Industrial Technology prepares students for work in industry in materials, processes, industrial safety, and concepts of industrial management. This degree has program majors in Manufacturing, and General Technology. The General Technology major, under Industrial Technology, can be customized to meet specific student needs offering opportunities in electronics, industrial safety, education, etc. Students interested in exploring such opportunities should see an Engineering Technology Department advisor for more details.

Teacher Certification
A student seeking certification to teach at the secondary level must take:

Courses in Concrete Industry Management (CIM)

CIM 3330. Concrete Construction Methods.
This course covers forming, shoring, placing and reinforcing operations. Transporting, placing, consolidating, finishing, jointing and curing concrete for cast-in-place foundations, pavements, slabs on ground, structural frames, and other structural members are studied. Other topics include waterproofing concrete foundations and erecting precast concrete members. Prerequisite: CIM 3420.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIM 3340. Understanding the Concrete Construction System.
A detailed look at how the concrete construction industry works. The course includes a review of model building codes, building officials and their function, concrete industry codes and standards, concrete construction processes, quality assurance systems, contract documents, estimating, construction scheduling and concrete construction markets. Prerequisite: MATH 2328 and CIM 3420.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIM 3366. Applications of Concrete in Construction.
This course is a detailed study of the many uses of concrete in the construction of buildings, pavements and other facilities. Emphasis will be placed on the advantages, disadvantages, and unique problems faced by materials suppliers, contractors and design professionals when concrete is chosen for specific applications. Prerequisite: CIM 3330.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course examines effects of concrete-making materials (aggregates, cements, admixtures, etc.) on the properties of fresh and hardened concrete. Concrete mixture proportioning calculations and statistical analysis of strength tests are also studied. Prerequisite: CSM 2342.

Grade Mode: Standard Letter
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

CIM 4310. Senior Concrete Lab.
This course provides students with an opportunity to further develop their technical and laboratory knowledge and pursue a project of individual interest. A formal report/presentation will be required at the conclusion of the course. Prerequisites: CIM 3366 and CIM 3420 with grades of C or better.

Grade Mode: Standard Letter
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.

CIM 4320. Issues in Concrete and Construction Industry.
This course involves a case study approach to critically analyze various historical and current events in the concrete and construction industry. Particular emphasis will be placed upon developing a managerial decision-making process incorporating ethical, legal, financial and other business perspectives. Prerequisites: CIM 3340, MGT 3303, FIN 3325, and BLAW 2361.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIM 4330. Management of Concrete Products – Ordering and Scheduling.
This course is designed to provide the student with a basic understanding of managing the ordering and delivery process common to all concrete products. Emphasis will be in planning, organizing and controlling at both the first-line supervisory and managerial levels. Prerequisites: CIM 3340 and MGT 3303.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIM 4340. Concrete Problems: Diagnosis, Prevention and Dispute Resolution.
Course involves diagnosing/preventing problems related to concrete production, testing, construction and performance. Students learn to identify causes of fresh and hardened concrete problems, i.e. fast and slow setting, air content variations, low strength, cracking and scaling. Pre-job conferences and dispute resolution methods are examined. Prerequisite: CIM 3366.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIM 4398. Capstone.
An intensive study of a problem(s) appropriate to the major/student’s career interests. Requires knowledge from previous technical/business coursework. Solution(s) for the problem(s) will be presented to an industry committee. Presentation must emphasize depth of analysis, completeness/effectiveness of solution, and presentation skills. Prerequisite: CIM 4330. (WI).

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3peat Processing/Intensive Writing Intensive
Courses in Construction Science and Management (CSM)

CSM 1260. Introduction to the Construction and Concrete Industry.
This is an introductory course for Construction and Concrete Industry Management (CIM) majors. Residential, commercial, heavy, civil and highway construction is explored including the concrete industry. The role of the contractor, architect/engineer and owner are covered including contracts, careers, sustainability and economic importance of the construction industry.
Grade Mode: Standard Letter
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
about Introduction to the Construction and Concrete Industry

CSM 2160. Introduction to Construction Surveying and Site Layout.
Common construction surveying and site layout techniques are studied using both optical levels and total stations. Benchmarks, building lines, property lines, differential and profiling are discussed in lecture with applied exercises performed in the laboratory. Prerequisite: Pre-Construction or Instructor’s Approval.
Grade Mode: Standard Letter
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Lab Required
about Introduction to Construction Surveying and Site Layout

CSM 2313. Architecture Design I - Construction Documents.
Students are introduced to the language and process of producing architectural construction documents in residential projects utilizing computers and CAD software. Site plans, floor plans, sections, elevations, and details are drawn individually and as a team as orthographic projection theory and its importance in resolving complex building geometry are covered.
Grade Mode: Standard Letter
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
about Architecture Design I - Construction Documents

CSM 2342. Construction Materials and Processes.
This course will introduce students to various types of construction materials including ceramics, ferrous, non-ferrous, and organic materials used in construction. Their properties, working characteristics and processes used to manufacture and assemble these materials are studied. Laboratory activities are used to reinforce lecture material. Prerequisites: PHYS 1315/PHYS 1115 or PHYS 1410 or PHYS 1430 with grades of "C" or higher.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
about Construction Materials and Processes

A residential construction course, which deals with interpreting plans and specifications, along with studying site work, foundations, walls, roofing, ceilings, floor and finishing systems. Also, residential MEP systems are covered along with applicable building codes and construction financing. Prerequisite: TECH 2342 or Instructor's Approval.
Grade Mode: Standard Letter
about Residential Construction Systems
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required

CSM 3360. Structural Analysis.
This is a structural engineering fundamentals class to include design loads, reactions, force systems, functions of a structure, and both the analysis and design of determinate structures by classical and modern techniques. Prerequisites: Completion of Pre-Construction coursework and TECH 2351 with a grade of "C" or higher, or Instructor’s Approval.
Grade Mode: Standard Letter
about Structural Analysis
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

This is a commercial building construction systems class that deals with soils, site work; heavy foundations, steel, reinforced concrete and pre-cast structures along with common assemblies. Commercial MEP’s are studied along with CSI master format, as-built and shop drawings, schedule of values, AIA documents and appropriate building codes. Prerequisite: Pre-Construction or Instructor’s Approval.
Grade Mode: Standard Letter
about Commercial Building Construction Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CSM 3363. Heavy, Civil and Highway Construction Systems.
Selection, acquisition and capabilities of heavy construction equipment are presented. Applications of economics to performance characteristics and production of equipment is discussed. Sector-specific construction management methods are covered, including unit price estimating, equipment fleet design, repetitive scheduling and major components of highways, bridges and engineered facilities. Prerequisite: Pre-Construction or Instructor’s Approval.
Grade Mode: Standard Letter
about Heavy, Civil and Highway Construction Systems
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.

Properties of subsurface materials and the principles of subsurface construction are studied. Topics include soil classification and testing, soil mechanics and foundation systems, including site layout, excavation, caissons, piles, slurry wall, slab and spread footings. Prerequisite: Pre-Construction and TECH 2351 with a grade of "C" or higher, or Instructor’s Approval.
Grade Mode: Standard Letter
about Soils and Foundations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CSM 3367. Mechanical, Electrical and Plumbing Systems.
This course covers typical Mechanical, Electrical and Plumbing (MEPs) systems found in residential and commercial construction along with design and installation methods used to conserve both energy and water in new and remodeled structures. Prerequisites: Pre-Construction coursework or Instructor’s Approval.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Mechanical, Electrical and Plumbing Systems

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.

Students create individual and group commercial projects which include plans, elevations, sections, details, and 3D drawings utilizing 3D building information modeling (BIM) and other current technologies used in the industry. Structural, mechanical, electrical, plumbing, accessibility, and sustainable building issues are discussed. Prerequisite: CSM 2313.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Architectural Design II - Technology in Construction

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

CSM 4360. Senior Construction Management Capstone.
Students work in groups to prepare a bid proposal based on a real life construction project involving contract negotiations, construction documents interpretation, estimating, bidding, scheduling and developing safety and quality control plans. Emphasis is on developing leadership, team building, and written and oral communication skills. For senior construction majors. Prerequisites: Pre-Construction coursework or MATH 2471 and TECH 4313, TECH 4361, TECH 4364, TECH 4369 or Instructor’s Approval. Recommended TECH 4390.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Senior Construction Management Capstone

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.

The fundamentals of construction estimating are covered including feasibility, conceptual, square feet, cubic feet, unit in place, preliminary, engineering, range and contractor’s detail bid estimates. Plans and specifications are used along with contemporary estimating software to develop estimates commonly used in the construction industry. Prerequisite: Pre-Construction and CSM 3361 or Instructor’s Approval.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Construction Estimating

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

CSM 4364. Construction Project Management and Scheduling.
Concepts of construction management are studied beginning with contract documents through the effective management of manpower, machines, material and money necessary to complete construction projects on time and within budget. Gantt Charts and PERT/CPM schedules are developed, using contemporary software. Prerequisites: Pre-Construction coursework and CSM 4361 (concurrent enrollment allowed) or Instructor’s Approval.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Construction Project Management and Scheduling

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.

This course covers environmentally sustainable practices used in building design and construction. THE LEED system will be used to guide the course, which covers aspects of sustainable sites, water efficiency, energy and atmosphere, materials and resources, indoor environmental quality and the CAD design process. Prerequisite: Pre-Construction or ID 2329 and CSM 2313 or Instructor’s Approval.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required

Grade Mode: Standard Letter

about Environmentally Conscious Design and Construction

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.

CSM 4369. Construction Contracts, Liability and Ethics.
Legal aspects of design and construction contract documents are presented, including contract formation, interpretation, rights and duties and changes. Legal liabilities are explored in the context of professional ethics for design firms and constructors. Prerequisite: Pre-Construction Coursework or CIM 3340 or Instructor’s Approval. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive

Grade Mode: Standard Letter

about Construction Contracts, Liability and Ethics

3 Credit Hours. 3 Lecture Contact Hours.

Courses in Technology (TECH)

This course provides an introduction to the fundamentals of technical drawing and the related graphical tools used to communicate engineering design concepts. The topics include two dimensional graphics, orthographic projections, geometric dimensioning and tolerancing, computer-aided graphics, parametric solid modeling, and introduction to three dimensional graphics.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

about Engineering Design Graphics

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.

TECH 1330. Assembly Processes.
Basic assembly process to include gas, arc, resistance, thermite, induction, and forge welding; weldability, weld metallurgy, weld symbolology, and weld testing; brazing; soldering; mechanical fastening to include threaded fasteners, rivets, shrink and press fits, seams, staples, crimping, and structural adhesives. Principles of joint design and cost estimation. An overview of electronics assembly processes and automated assembly.
about Assembly Processes
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Assembly Processes

TECH 1363. Manufacturing Processes I.
The course will provide an overview of the manufacturing processes. Major emphasis is placed on machining theory, setup and tooling. Metal forming and fabrication procedures are introduced. Joining and assembly includes welding, mechanical fastening, adhesive bonding and surface finishing concepts. Laboratory demonstrations and tutorials involve machining, joining and forming techniques.
about Manufacturing Processes I
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Manufacturing Processes I

TECH 1393. Manufacturing Processes II.
The course involves the fundamentals of casting and molding processes. Emphasis is placed on casting terminology, molding sand, molding processes, pattern making, coremaking and quality control. Ferrous and non-ferrous alloy composition and casting geometry are explored. Plastic and composite forming concepts are included. Microelectronic manufacturing principles and processes are introduced. Prerequisite: TECH 1363.
about Manufacturing Processes II
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Manufacturing Processes II

TECH 2190. Industrial Internship.
This course is a supervised experiential learning course in various technical disciplines as appropriate to a student's degree program. This work integrated learning course helps the student link theory with practice. Repeatable for credit. Prerequisites: 45 hours completed with at least 12 having been completed at Texas State and a minimum major GPA of 2.25.
about Industrial Internship
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
about Industrial Internship

TECH 2310. Introduction to Computer-Aided Design (CAD).
Principles of 3D modeling are introduced in the preparation of drawings for manufacturing processes. Emphasis includes the parametric solid modeling of machine elements and geometric dimensioning and tolerancing. The laboratory component involves production of engineering drawings and simulations connecting this course to computer-aided engineering. Prerequisite: ENGR 1313 or instructor’s approval.
about Introduction to Computer-Aided Design (CAD)
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Introduction to Computer-Aided Design (CAD)

Fundamentals of Material Removal. (3-0) An overview of the micro and macro structure of materials is studied. Assessment of materials with regard to their chemical and mechanical properties and how these properties relate to machining is explored. Machining conditions with regard to feed, speed, surface finish, tooling requirements, horsepower capabilities, time, and cost analysis complete the class. Prerequisite: MATH 1315.
about Fundamentals of Material Removal
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fundamentals of Material Removal

TECH 2344. Power Technology.
This class deals with understanding the basic laws of thermo-dynamics. It probes efficiency and examines energy-converting devices from the inputs, processes, outputs model. Internal combustion engines, electric motors, hydraulic, pneumatic, and gearing systems, and fuel analysis are reviewed from a practical and theoretical perspective.
about Power Technology
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Power Technology

Course covers principles of statics and strength of materials to include forces, equilibrium, friction, centroids, and stress/strain relationships, axial stress and deformation, thermal stress and deformation, stress concentrations, factor of safety, torsional stress, beam stresses and combined stress. Prerequisites: CSM 2342 or ENGR 2300, PHYS 1315 and PHYS 1115 or PHYS 1410 or PHYS 1430, all courses with a grade of C or higher.
about Statics and Strength of Materials
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Statics and Strength of Materials
TECH 2370. Electricity/Electronics Fundamentals.
Fundamentals of safety, Ohm’s Law, series, parallel, and series-parallel circuits, meters, relays, and basic transistor circuits. 3310 Industrial Design. (3-0) The fundamentals, elements, and principles of design applied in creative ways to industrial design problems emphasizing function, form, and aesthetics. Ergonomics, product life cycles, environmental concerns, and use of elementary statics for stress analysis. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: ENGR 2305

TECH 3322. Development of Technology.
The role of technology in the development of Western World culture is studied from a technical perspective. Social repercussions resulting from the introduction of foundational technical developments are reviewed. Examples of technical areas examined are agriculture, transportation, manufacturing, engineering, defense, and communications. Readings focus discussions and papers on specific topics and encourage synthesis level understanding. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

TECH 3344. Applied Thermofluids.
Basic concepts, first and second laws of thermodynamics, thermodynamic properties, heat transfer by conduction, convection and radiation, fluid statics and fluid dynamics are studied. Prerequisites: TECH 2344 and PHYS 1430.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The course provides an in-depth understanding of the lean principles as they apply to manufacturing and service organizations with emphasis on lean tools and concepts such as Value Stream Mapping, 5S, kaizen, waste, takt/cycle time, visual control, six-sigma, mistake proofing, single piece flow, cell design and pull systems. Prerequisite: TECH 3364.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 3357. Facilities Planning and Design.
This project-based course provides students with a practical knowledge of designing efficient facility layout and material handling system. Systematic layout planning (SLP) based on a product and process information is studied in depth. Simulation tools are used for flow analysis. Prerequisites: TECH 2310.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 3364. Quality Assurance.
This course covers the principles of quality management to include basic probability and statistics concepts, control charts for attributes and variables, sampling plans, quality audits and costs. The laboratory component of this class includes exercises that provide exposure to basic metrology and data collection.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

TECH 3370. Electronics.
This course is a study of the characteristics of basic electronic circuits and their component parts. Course content includes the use of electronic test equipment, inductance, capacitance, reactance, impedance, rectification, switching, amplification, and electronic circuit fabrication. Prerequisite: TECH 2370 or EE 2400.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

This course deals with basic principles of communication systems. Specific topics include analysis of signals and systems, modulation techniques (digital and analog), analysis of transmitters and receivers, networking, and wireless communication systems. Prerequisites: TECH 2370 or EE 2400.
3 Credit Hours. 3 Lecture Contact Hours.
Grade Mode: Standard Letter

TECH 4197. Special Problems.
The investigation of a special topic by developing the problem, researching the topic, and presenting the findings as they apply to industry/technology. This course will be applicable to all areas of technology, and must be done only with the approval of the cooperating faculty member and Department Chair. Repeatable for credit with different emphasis.
1 Credit Hour. 1 Lecture Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
TECH 4330. Foundry & Heat Treatment.
The technical aspects of foundry and heat treatment of ferrous and non-ferrous metals are reviewed. Students gain proficiency with interpretation of binary phase diagrams, mathematical modeling of gate and runner systems, micro-structural analysis, process cost evaluation, sand testing, investment casting and other technical processes. Technical report writing is an important part of this class. Data collection and data analysis with experiments allow students to develop appropriate techniques for presenting technical data in report format. Prerequisites: TECH 2310, ENGR 2300 and TECH 2351 or MFGE 2332 or Instructor’s Approval. (WI).

about Foundry & Heat Treatment

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Foundry & Heat Treatment

TECH 4345. Method Engineering and Ergonomics.
The course provides an in-depth understanding of the lean principles as they apply to manufacturing and service organizations with emphasis on lean tools and concepts such as Value Stream Mapping, S5, kaizen, waste, takt/cycle time, visual control, six-sigma, mistake proofing, single piece flow, cell design and pull systems. Prerequisite: TECH 3364.

about Method Engineering and Ergonomics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Method Engineering and Ergonomics

This course will provide students with fundamentals of manufacturing processes planning and engineering. Major emphasis will be placed on make-buy analysis, tolerance analysis and dimensional control, tool and fixture design, process and material selection, design for manufacturing, design for assembly, and process planning. Prerequisites: TECH 1393 and TECH 2310.

about Manufacturing Process Engineering

3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Manufacturing Process Engineering

Principles of the design of mechanical components; theories of failure; material selection; design of shafts, gears, cams, fasteners, springs and brakes; dynamics; balancing of machinery and vibration control are studied. Prerequisites: TECH 2310 and TECH 2351.

about Machine Elements: Dynamics and Design

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Machine Elements: Dynamics and Design

TECH 4367. Polymer Properties and Processing.
Structure, physical & mechanical properties, design considerations and processing methods for polymer-based materials are presented. Processing methods include: injection molding, blow molding, thermoforming, compression molding, extrusion, filament winding, lay-up methods, vacuum bag molding and poltrusion. Prerequisite: ENGR 2300.

about Polymer Properties and Processing

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
about Polymer Properties and Processing

TECH 4372. Electronic Devices and Circuits.
This course covers transistor configurations, field effect transistors and circuits, voltage regulation, amplifier feedback principles, operational amplifiers and circuitry, and unijunction transistors and applications. Prerequisites: TECH 2370 or EE 2400.

about Electronic Devices and Circuits

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Electronic Devices and Circuits

TECH 4373. Control Systems and Instrumentation.
This course is an introduction to modern control systems and instrumentation. Topics covered include transducers, sensors, actuators, instrumentation, open and closed loop control systems, PID controllers, programmable logic controllers and ladder logic, and computer interface software and hardware. Prerequisites: TECH 2370 or EE 2400.

about Control Systems and Instrumentation

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Control Systems and Instrumentation

TECH 4374. Digital Systems.
Solid state digital electronics from basic concepts to current industrial needs in terms of logic gates (all types), number systems counters (all types), registers (all types), sequential control circuits, and shift register generator. Prerequisite: TECH 2370 or PHYS 2425.

about Digital Systems

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Digital Systems

TECH 4380. Industrial Safety.
Introduction to the field of industrial safety with emphasis on compliance with Federal and State regulations. Prerequisite: Junior standing. (WI).

about Industrial Safety

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
about Industrial Safety

TECH 4383. Driver and Traffic Safety Education I.
Content, methods, and materials for instruction in the classroom phase of driver education in Texas. Topics include Texas traffic law; Texas Education Agency standards for high school driver education; driver behavior, attitude, and psychomotor skills; and safety in the highway transportation system.

about Driver and Traffic Safety Education I

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Driver and Traffic Safety Education I
TECH 4385. Driver and Traffic Safety Education II. 
Content, methods and materials for instruction in the laboratory phase of driver education in Texas. Topics include in-car instruction, multi-car range, and simulation. During laboratory sessions participants will observe in-car instructors, peer teach in the car, and teach a high school student how to drive. TECH 4383 and 4385 will be taken simultaneously. Prerequisites: TECH 4383 and a good driving record. about Driver and Traffic Safety Education II
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter
about Driver and Traffic Safety Education II

TECH 4387. Motorcycle Safety and Rider Education.
Techniques and methods of teaching beginner rider education. Includes classroom techniques as well as laboratory experience in on-street and off-street riding. Not applicable to the BS in Technology program.
about Motorcycle Safety and Rider Education
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter
about Motorcycle Safety and Rider Education

TECH 4389A. Advanced Residential Construction.
Advanced concepts in residential construction are covered including land acquisition, land development, infrastructure, deed restrictions, cash flow, financial forecasting, marketing, scheduling and sustainable building practices. Prerequisite: CSM 2360 with a grade of "C" or higher.
about Advanced Residential Construction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Advanced Residential Construction

TECH 4389B. Construction Industry Best Practices.
This course will cover current issues facing the construction industry today including the best practices used to resolve these issues. Several industry leaders will lecture on these contemporary problems facing the industry. Restricted to Junior level Construction Science and Management Majors.
about Construction Industry Best Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Construction Industry Best Practices

TECH 4390. Internship.
Supervised on-the-job professional learning experience in construction, manufacturing, electronics, and other technical areas. This course provides practical work experience in their particular field of interest. Repeatable for credit. Prerequisites: Consult internship coordinator. (WI).
about Internship
3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dual Enrollment Permitted|Time Conflicts Permitted|Writing Intensive
Grade Mode: Standard Letter
about Internship

TECH 4392. Micro and Nano Manufacturing.
This course covers the basic principles of micro and nano manufacturing. Emphasis is placed on the process descriptions, terminology, equipment requirements, and processes for micro and nano systems. Basic physics and process chemistry is combined with control schemes to arrive at overall systems descriptions. Prerequisites: CHEM 1335 or CHEM 1341, and PHYS 1325 or PHYS 1420 or PHYS 2425.
about Micro and Nano Manufacturing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Micro and Nano Manufacturing

TECH 4393. Driver and Traffic Safety Education III.
Content, procedures, and administration of multi-phase driver education programs. Topics include scheduling, maintenance and operation of laboratory equipment, record keeping, lesson plan development, and driver education for the handicapped. Practicum in classroom and/or simulation instruction. Not applicable to the Bachelor of Science in Technology degree program. Prerequisite: TECH 4383, TECH 4385, and TECH 4393 may be taken simultaneously.
about Driver and Traffic Safety Education III
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Lab Required
Grade Mode: Standard Letter
about Driver and Traffic Safety Education III

TECH 4394. Microelectronics Manufacturing II.
This is an intermediate level course in integrated circuit processing. Topics covered include: atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes such as chemical vapor deposition, physical vapor deposition; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation tool such as SUPREM.
about Microelectronics Manufacturing II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Microelectronics Manufacturing II

TECH 4395. Automated Manufacturing Systems I.
This course primarily deals with automation in industrial systems. In particular, this course focuses on automation and control technologies in manufacturing systems at machine and device levels. Included in its structure are areas such as fundamentals of industrial automation, sensors and actuators, numerical control, robotics, and PLC.
Prerequisites: TECH 1393 and TECH 2310 or TECH 4373.
about Automated Manufacturing Systems I
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
about Automated Manufacturing Systems I
TECH 4396. Automated Manufacturing Systems II.  
This course primarily deals with automation in industrial systems. In particular, this course focuses on automation and control technologies at a system level. This course includes topics such as simulation of manufacturing systems, flexible manufacturing systems, automated quality control, automated identification, and automated material handling. Prerequisites: TECH 4395.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter  

about Automated Manufacturing Systems II

TECH 4397. Special Problems.  
The investigation of a special topic by developing the problem, researching the topic, and presenting the findings as they apply to industry/technology. This course will be applicable to all areas of technology, and must be done only with the approval of the cooperating faculty member and Department Chair. Repeatable for credit with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  

about Special Problems

TECH 4398. Senior Design.  
This course deals with application of technical and non-technical skills and knowledge using a multidisciplinary team-based approach for solving real-world problems related to product and process development. The topics include systematic product development, development of business plans, project management, cost estimation, documentation and presentation, prototyping, fabrication and concurrent engineering. Prerequisites: TECH 4395 or TECH 4372 or EE 3400 or GEO 4313. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Lab Required|Writing Intensive  
Grade Mode: Standard Letter  

about Senior Design

TECH 4399. Seminar in Technology.  
The topics for this course will vary. The course will involve the identification of the topic, its nomenclature, its processes, tools, equipment or materials, and its application to technology. The topic may apply to either the certification program or technology program or to both. A final report summary or presentation will conclude each seminar. Repeatable for credit with different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  

about Seminar in Technology

Faculty  
Ameri, Farhad, Associate Professor, Engineering Technology, D.Eng., University of Michigan-Ann Arbor  
Bartlett, Laura Nicole, Assistant Professor, Engineering Technology, Ph.D., Missouri Univ of Science and Tech  
Batey, Andy H, Chair - Associate Professor, Engineering Technology, Ph.D., Univ of Maryland College Park  
Galassini, Joel Lyn, Lecturer, Engineering Technology, M.B.A., Univ of Texas at San Antonio  
Habingreither, Robert B, Interim Dean, College of Science and Engineering and Professor, Engineering Technology, Ed.D., West Virginia University  
Hager, Cassandrea Jane, Senior Lecturer, Engineering Technology, Ph.D., Texas A&M University  
Hanzel, David W, Senior Lecturer, Engineering Technology, M.Ed., Texas State University  
Humphries, Steven Cade, Lecturer, Engineering Technology, M.S.S.W., Texas State University  
Kent, Bryan, Lecturer, Engineering Technology, M.B.A., St. Edward’s University  
Kim, Yoo-Jae, Associate Professor, Engineering Technology, D.SC., Washington Univ in St. Louis  
Lee, Soon Jae, Associate Professor, Engineering Technology, Ph.D., Clemson University  
Newton, Terry John, Lecturer, Engineering Technology, M.A., University of Houston  
Pool, William R, Senior Lecturer, Engineering Technology, M.S., Texas State University  
Reese, Garth Benjamin, Lecturer, Engineering Technology, M.S., Brigham Young University  
Rodon, Charles M, Lecturer, Engineering Technology, B.S., University of North Texas  
Rowe, Scott L, Senior Lecturer, Engineering Technology, M.Ed., Texas State University  
Schemmel, John Joseph, Professor, Engineering Technology, Ph.D., North Carolina State University  
Sharma, Vivek, Senior Lecturer, Engineering Technology, M.S., Arizona State University  
Song, In-Hyouk, Assistant Professor, Engineering Technology, Ph.D., Louisiana State Univ A&M College  
Spencer, Bobbi J, Senior Lecturer, Engineering Technology, M. Arch., Texas A&M University  
Sriraman, Vedaraman, University Distinguished Professor, Engineering Technology, D.Eng., Lamar University  
Summers, Mark Thomas, Lecturer, Engineering Technology, M.S.S.W., Texas State University  
Talley, Kimberly Grau, Assistant Professor, Engineering Technology, Ph.D., University of Texas at Austin  
Tarbox, Tamara Nina, Lecturer, Engineering Technology, M.S.S.W., Texas State University  
Torres, Anthony S, Assistant Professor, Engineering Technology, Ph.D., Univ of New Mexico Main Campus
Bachelor of Science (B.S.) Major in Concrete Industry Management

Minimum required: 120 semester hours

General Requirements

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

2. Departmental requirements that also satisfy general education core curriculum requirements:
   - MATH 2417 Pre-Calculus Mathematics 4
   - PHYS 1315 General Physics I 3
   - ECO 2301 Principles of Economics 3

   See the Core Curriculum (p. 51) section of this catalog for the English literature requirements.

3. If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

4. A Minor in Business Administration is required for this degree. Courses for the minor in Business Administration are included in the following degree plan.

<table>

Total Hours: 120

Bachelor of Science (B.S.) Major in Construction Science and Management

Minimum required: 120 semester hours

General Requirements

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

2. If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

3. A Minor in Business Administration is required for this degree. Courses for the minor in Business Administration are included in the degree plan below.

4. Effective Fall 2010: No “D” grades received at other institutions will be credited towards the major.

5. Effective Fall 2010: Students will enter the 30 semester hour Pre-Construction Curriculum, which will consist of:

---

**Bachelor of Science in Technology (B.S.T.) Major in Engineering Technology (Environmental Engineering Technology Specialization)**

**Minimum required: 124 semester hours**

### General Requirements
1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.
2. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Minor in Technology

A minor in Technology requires 18 hours of Technology courses, of which 9 hours must be advanced. Courses will be determined by conference with a departmental faculty advisor or the Chair of the Department.

Department of Mathematics

Math/Computer Science Building Room 470
T: 512.245.2551 F: 512.245.3425
www.math.txstate.edu/ (http://www.txstate.edu/math/welcome.html)

The study of mathematics is more than four thousand years old and comprises an enormous body of knowledge. Mathematics remains a very active area of research continually giving rise to new theories and questions. The knowledge accumulated and the questions being considered concern both mathematics itself and its many applications.

Mathematics is a fundamental skill required at some minimal level of all educated people, and required in depth in many professions. The teaching objective of our Department includes the development of reasoning and computations skills, and the preparation of students for careers requiring a significant mathematical background.

Centers for Excellence

The department houses two Centers for Excellence. Mathworks, a center for innovation in mathematics and math education, designs and hosts programs for students from kindergarten to high school, conducts research on math curriculum, and provides training for teacher education students as well as current teachers. Mathworks received the 2001 Star Award for Closing the Gaps from the Texas Higher Education Coordinating Board and the 2007 Siemens Founders Award.

The mission of the Center for Mathematics Readiness is to provide students with a fresh perspective, immersing them into the world of Mathematics through infrastructure planning, content and curriculum, technical support and evaluation. This will ensure that all students are afforded the opportunity to succeed, not just in college, but in life as well.

Majors

The department offers the Bachelor of Science with a major in Mathematics with or without teacher certification, the Bachelor of Science with a major in Applied Mathematics, and the Bachelor of Arts with a major in Mathematics.

Bachelor of Arts (B.A.)

- Major in Mathematics (p. 619)

Bachelor of Science (B.S.)

- Major in Applied Mathematics (p. 620)
- Major in Mathematics (p. 621)
- Major in Mathematics (Teacher Certification in Mathematics, Grades 7-12) (p. 621)

Minors

- Applied Mathematics (p. 622)
- Mathematics (p. 623)
- Second Teaching Field in Mathematics (Grades 7-12) (p. 623)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

Courses in Mathematics (MATH)

MATH 1101. Math Developmental Education Intervention.
Developmental education interventions are available to students who have been determined to benefit from short, innovative, research-based approaches for learning mathematics. Students will be assessed using college readiness indicators or other information to determine individualized approaches. This is a non-credit, non-course, non-semester-length based developmental education program that is designed to provide students with just-in-time knowledge and skills for college level courses. Co-Requisite: MATH 1315. Prerequisite: Departmental Approval.

1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.

Course Attribute(s): Developmental/Remedial

MATH 1300. Elementary Algebra.
A course to remediate and review basic academic skills in mathematics, including number concepts, computation, elementary algebra, geometry and mathematical reasoning. MATH 1300 will not constitute a part of the hours required for a bachelor’s degree.

1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.

Course Attribute(s): Developmental/Remedial

Grade Mode: Developmental

MATH 1300. Elementary Algebra.
A course to remediate and review basic academic skills in mathematics, including number concepts, computation, elementary algebra, geometry and mathematical reasoning. MATH 1300 will not constitute a part of the hours required for a bachelor’s degree.

1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.

Course Attribute(s): Developmental/Remedial

Grade Mode: Developmental

about Elementary Algebra

MATH 1300. Elementary Algebra.
A course to remediate and review basic academic skills in mathematics, including number concepts, computation, elementary algebra, geometry and mathematical reasoning. MATH 1300 will not constitute a part of the hours required for a bachelor’s degree.

1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.

about Elementary Algebra

MATH 1300. Elementary Algebra.
A course to remediate and review basic academic skills in mathematics, including number concepts, computation, elementary algebra, geometry and mathematical reasoning. MATH 1300 will not constitute a part of the hours required for a bachelor’s degree.

1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.

Course Attribute(s): Developmental/Remedial

Grade Mode: Developmental

about Elementary Algebra
MATH 1311. Intermediate Algebra.
A preparatory course for college algebra. Topics include linear
equations and inequalities, rational expressions, exponents and radicals,
quadratics and word problems. This course is designed for students
who have graduated from high school with no more than the minimum
mathematics requirements or for students who have been away from
mathematics for a number of years. Prerequisite: MATH 1300 with a
grade of CR, ACT Mathematics score of 15 or more, SAT Mathematics
score of 400 or more, Accuplacer College Mathematics score of 40 or
more, or Compass Algebra score of 35 or more.
Course Attribute(s): Remedial
Grade Mode: Developmental
about Intermediate Algebra
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Developmental/
Remedial|Lab Required
about Intermediate Algebra

MATH 1312. College Statistics and Algebra.
A course covering linear and quadratic equations, inequalities, functions
and their graphs, logarithms, systems of equations, and applications
of mathematics. Special emphasis on statistical concepts including linear
and quadratic regression, distributions confidence intervals, & hypothesis
testing. This course is not intended to substitute for MATH 1315 as a
prerequisite. Prerequisite: College Readiness in Mathematics according
to the TSI regulations.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1342
about College Statistics and Algebra
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1315. College Algebra.
A course covering linear and quadratic equations, inequalities, word
problems, functions, logarithms, systems of equations and other college
algebra topics as time permits. Prerequisite: College Readiness in
Mathematics according to the TSI regulations.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1314
about College Algebra
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1316. Survey of Contemporary Mathematics.
(MATH 1332) A study of the uses of mathematics in society today.
Emphasis is on concepts rather than technical details. May not be used
as a prerequisite for any other mathematics course. Prerequisite: College
Readiness in Mathematics according to TSI regulations.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1332
about Survey of Contemporary Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1317. Plane Trigonometry.
A course covering trigonometric functions, right triangles, radian
measure, graphs of trigonometric functions, trigonometric identities,
including multiple and half-angle identities, inverse trigonometric
functions, trigonometric equations, oblique triangles, and complex
numbers. Prerequisite: MATH 1315 with a grade of C or higher,
Accuplacer College Mathematics score of 86 or more, or Compass
College Algebra score of 46 or more.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1316
about Plane Trigonometry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1319. Mathematics for Business and Economics I.
Topics from college algebra and finite mathematics which apply to
business and economics including applications of equations and
inequalities, simple and compound interest and annuities. Prerequisite:
College Readiness in Mathematics according to the TSI regulations.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1324
about Mathematics for Business and Economics I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1329. Mathematics for Business and Economics II.
Topics from finite mathematics and elementary differential calculus
which apply to business and economics. Prerequisite: MATH 1315 or
1319 with a grade of C or higher, ACT Mathematics score of 27 or more,
SAT Mathematics score of 580 or more, Accuplacer College Mathematics
score of 86 or more, or Compass College Algebra score of 46 or more.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1325
about Mathematics for Business and Economics II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 2311. Principles of Mathematics I.
Logical deductive reasoning, number theory, a rational development of
the real numbers with the associated number structures and algorithms
for the fundamental operations, including historical, philosophical and
cultural significance. Prerequisite: MATH 1315 with a grade of “C” or
higher.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1350
about Principles of Mathematics I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 2312. Informal Geometry.
Geometric measuring. Euclidean Geometry, and topics associated
with informal geometry, including historical, philosophical, and cultural
significance. Prerequisite: MATH 2311 with a grade of “C” or higher.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 1351
about Informal Geometry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MATH 2321. Calculus for Life Sciences I.
This course is designed to serve the needs of students in the life sciences. Topics will include: graphs, derivatives, exponents and logarithms, scientific notation, sequences, summation, and applications. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score 520 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core
Grade Mode: Standard Letter
TCCN: MATH 2313
about Calculus for Life Sciences I

MATH 2328. Elementary Statistics.
This course is an algebra-based introduction to descriptive statistics, random sampling, design of experiments, probability and the Central Limit Theorem. Inferential statistics topics include the foundational concepts for confidence intervals and hypothesis testing for simple experiments. Prerequisites: MATH 1315 with a grade of “C” or higher, MATH 2321 with a grade of “D” or higher, MATH 2417 with a grade of “D” or higher, MATH 2471 with a grade of “D” or higher, ACT Mathematics score of 24 or more or SAT Mathematics score of 520 or more.

Grade Mode: Standard Letter
TCCN: MATH 2342
about Elementary Statistics

MATH 2331. Calculus for Life Science II.
Topics in this course will include: trigonometric functions, probability, integral calculus, differential equations, and applications. Prerequisites: MATH 2321 with a grade of “C” of higher, MATH 2471 with a grade of “D” of higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 2305
about Calculus for Life Science II

MATH 2358. Discrete Mathematics I.
This course is a study of discrete mathematical structures that are commonly encountered in computing hardware and software. Prerequisites: MATH 1315 with a grade of “C” of higher, MATH 2471 with a grade of “D” of higher, or MATH 2417 with a grade of “D” of higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: MATH 2305
about Discrete Mathematics I

MATH 2417. Pre-Calculus Mathematics.
A survey of functions, trigonometry and analytic geometry to prepare students for calculus. Prerequisite: MATH 1315 with a grade of C or higher, ACT Mathematics score of 24 or more, SAT Mathematics score of 520 or more, Accuplacer College Mathematics score of 86 or more, or Compass College Algebra score of 46 or more.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2412
about Pre-Calculus Mathematics

MATH 2471. Calculus I.
This is the first course in differential and integral calculus which stresses limits as well as the applications of calculus to the problems of science. Prerequisites: MATH 2417 with a grade of “C” or higher, ACT Mathematics score of 27 or more, SAT Mathematics score of 580 or more, Accuplacer College Mathematics score of 103 or more, Compass Trigonometry score of 46 or more.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2413
about Calculus I

MATH 2472. Calculus II.
A continuation of differential and integral calculus including methods of integration, sequences and series, and introduction to partial derivatives. Prerequisite: MATH 2471 with a grade of “C” or higher.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2414
about Calculus II

MATH 3305. Introduction to Probability and Statistics.
Basic probability models, generating functions and conditional probability, also discrete and continuous, univariate and bivariate distributions of random variables. Concepts of estimation, tests of hypothesis and statistical inference. Prerequisite: MATH 2472 with a grade of “C” or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Probability and Statistics

MATH 3315. Modern Geometry.
Modern geometry with an emphasis on the triangle, circle, plane and Euclidian geometry, an historical aspects will be integrated into the course. May not be applied toward a minor in mathematics. Prerequisites: MATH 2321 or MATH 2471 with a grade of “C” or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Modern Geometry
MATH 3323. Differential Equations.
A course covering solutions to the more common types of ordinary differential equations, especially those of first and second order, with emphasis on geometrical and physical interpretations. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Differential Equations

MATH 3325. Number Systems.
Algebraic construction of the natural numbers. Covers the basic vocabulary and proof techniques of abstract algebra, and the structural properties of the natural numbers, integers, rational, real and complex number systems. Prerequisite or Co-requisite: MATH 2471.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Number Systems

MATH 3330. Introduction to Advanced Mathematics.
An introduction to the theory of sets, relations, functions, finite and infinite sets, and other selected topics. Algebraic structure and topological properties of Euclidean Space, and an introduction to metric spaces. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Advanced Mathematics

This course provides a broad overview of deterministic operations research techniques. Linear programming will be covered including the simplex method, duality and sensitivity analysis. Further selected topics are from integer programming, dynamic programming, scheduling models, game theory, and associated topics. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Deterministic Operations Research

A rigorous, integrated, analytical perspective of mathematical topics; quantitative reasoning, geometry and measurement, probability and statistics, number theory and algebraic reasoning. May not be applied towards a mathematics minor. Must be taken before student teaching.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Principles of Mathematics II

MATH 3377. Linear Algebra.
An introductory course in linear algebra covering vector spaces, linear transformation, matrices, systems of linear equations, and inner product spaces. Prerequisite: MATH 2472 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3380. Analysis I.
A course covering the introduction to the theory of real functions. Topics include limits, continuity and derivatives and associated topics. Prerequisite: MATH 3330 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 3383. Numerical Analysis I.
This course covers instructions in computer arithmetic, solutions of equations, interpolation, numerical differentiation/integration, and applications to scientific and industrial applications. Prerequisite: MATH 2472 with grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Numerical Analysis I

MATH 3398. Discrete Mathematics II.
A continuation of discrete Mathematics I. Prerequisite: MATH 2358 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Discrete Mathematics II

MATH 4302. Principles of Mathematics II.
Algebraic reasoning and probability with selected topics from quantitative reasoning, measurement, statistics, and geometry are integrated with middle school pedagogical practices such as inquiry learning and use of technology. Appropriate correlated lessons, writing components, and culturally responsive teaching are incorporated. Prerequisite: MATH 2312 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Principles of Mathematics II

MATH 4303. Capstone Mathematics for Middle School Teachers.
A rigorous, integrated, analytical perspective of mathematical topics; quantitative reasoning, geometry and measurement, probability and statistics, number theory and algebraic reasoning. Must be taken before student teaching. Prerequisites: Math 2331 or 2472 and Math 3315 with grades of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Capstone Mathematics for Middle School Teachers
Basic concepts underlying algebra, geometry, trigonometry, and calculus taught from an advanced standpoint, including historical, philosophical, and cultural significance. May not be applied toward a minor in mathematics. Must be taken before student teaching. Prerequisite: MATH 3315 and MATH 2331 or MATH 2472 with grades of "C" or higher. About Capstone Mathematics for Secondary Teachers of Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Capstone Mathematics for Secondary Teachers of Mathematics

MATH 4305. Probability and Statistics.
A course covering sample spaces, probability of events, binomial and multinomial distributions, random variables, normal approximations, statistical inference, and applications. Prerequisite: MATH 3305 with a grade of "C" or higher. About Probability and Statistics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Probability and Statistics

MATH 4306. Fourier Series and Boundary Value Problems.
Advanced solution methods for differential equations; partial differential equations; series approximations, Fourier series; boundary value problems typical of scientific applications. Prerequisite: MATH 3323 with a grade of "C" or higher. About Fourier Series and Boundary Value Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Fourier Series and Boundary Value Problems

MATH 4307. Modern Algebra.
A course covering elementary set theory, structures, functions, and concepts of modern algebra. Prerequisites: MATH 3300 with a grade of "C" or higher and MATH 3325 or 3377 with a grade of "C" or higher. About Modern Algebra
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Modern Algebra

MATH 4311. Introduction to the History of Mathematics.
A survey of the development of major mathematical topics, including geometry, algebra, calculus, and advanced mathematics. Philosophical and cultural aspects will be integrated with the structure, theorems, and applications of mathematics. May not be applied toward a minor in mathematics. Prerequisite: MATH 3315 with a grade of "C" or higher and MATH 2331 or MATH 2472 with a grade of "C" or higher. (WI). About Introduction to the History of Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive About Introduction to the History of Mathematics

MATH 4315. Analysis II.
A continuation of MATH 3380. Topics include integration, series and sequences of functions and associated topics. Prerequisite: MATH 3380 with a grade of "C" or higher. About Analysis II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Analysis II

MATH 4330. General Topology.
Topics include introductory treatment of convergence, continuity, compactness, connectedness and fixed points in topological spaces with special emphasis on metric spaces. Prerequisite: MATH 3330 or MATH 3380 with a grade of "C" or higher. About General Topology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About General Topology

Selected topics including Laplace transforms, complex variables, advanced calculus for applications, calculus of variations, integral equations, intermediate differential equations, vector analysis, etc. May be repeated once for credit with a different topic. Prerequisite: Consent of instructor. About Studies in Applied Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing About Studies in Applied Mathematics

MATH 4350. Introduction to Combinatorics.
This course introduces fundamental concepts and results in combinatorics such as counting techniques, binomial coefficients, and recurrence relations; and applications in different fields such as complexity of algorithms and graph theory. Mathematical proofs are an essential part of this course. Prerequisite: MATH 2472 with a grade of "C" or higher. About Introduction to Combinatorics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Introduction to Combinatorics

MATH 4382. The Literature and Modern History of Mathematics and Its Applications.
This course will focus on mathematical articles in recent journals. The articles will be re-written so that the proofs and comments are more easily understood by the casual reader. This embellishment of journal articles will take place in class with the class participating, in groups for outside work and as individual assignments. May not be applied toward a minor in mathematics. Prerequisites: A grade of "C" or higher in two of these three: MATH 3380, MATH 4307, or MATH 4330. (WI). About The Literature and Modern History of Mathematics and Its Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing About The Literature and Modern History of Mathematics and Its Applications

MATH 4383. Numerical Analysis II.
This course focuses on a broad range of mathematical and computational methods in modeling, analysis, and simulation of scientific and engineering problems. This course covers instructions in numerical analysis, approximation, optimization, differential equations, scientific computation, and applications to scientific and industrial topics. Prerequisites: MATH 3383 and MATH 3323 with grades of "C" or higher. About Numerical Analysis II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter About Numerical Analysis II
Faculty

Acosta, Maria T, Associate Professor, Mathematics, Ph.D., University of Arizona

Balmer, Elizabeth Johanna, Lecturer, Mathematics, Ph.D., Washington State University

Bandy, Carroll L, Professor, Mathematics, Ph.D., University of Houston

Bertos, Glynda B, Senior Lecturer, Mathematics, M.S., Texas State University

Bond, Valleri L, Lecturer, Mathematics, M.S., Northeastern University

Burch, Tammy M, Lecturer, Mathematics, M.S., Mississippi State University

Chase, Timothy M, Lecturer, Mathematics, Ph.D., Auburn University

Cousino, Andrew James, Lecturer, Mathematics

Cross, Christopher Adam, Lecturer, Mathematics

Cuevas, Gilbert J, Professor, Mathematics, Ph.D., University of Miami

Curtin, Eugene, Professor, Mathematics, Ph.D., Brown University

Czocher, Jennifer Ann, Assistant Professor, Mathematics, Ph.D., The Ohio State Univ Main Campus

Dalrymple, Leslie A, Lecturer, Mathematics, M.S., Texas State University

Davila, Randy Ryan, Lecturer, Mathematics, M.A., Rice University

Dean, Nathaniel, Professor, Mathematics, Ph.D., Vanderbilt University

Dix, Julio G, Professor, Mathematics, Ph.D., Univ of Cincinnati Main Campus

Dorman, Walter A, Senior Lecturer, Mathematics, M.S., Texas State University

Edgell, John J, Professor, Mathematics, Ph.D., University of Texas at Austin

Ferrero, Daniela Maria, Associate Professor, Mathematics, Ph.D., Technical University of Catalonia

Gerlofs, Maureen Patricia, Lecturer, Mathematics, M.S., Texas State University

Grilliette, William B, Lecturer, Mathematics, Ph.D., Univ of Nebraska - Lincoln

Gronberg, Sharon M, Senior Lecturer, Mathematics, Ph.D., University of Texas at Austin

Gu, Weizhen, Professor, Mathematics, Ph.D., Louisiana State Univ A&M College

Gutt-Lehr, Joanna, Lecturer, Mathematics, M.S., Purdue University Main Campus

Hanusch, Sarah Elizabeth, Lecturer, Mathematics, Ph.D., Texas State University

Hruzek, Emilie Anne, Lecturer, Mathematics, M.S., Texas State University

Ioudina, Vera, Lecturer, Mathematics, Ph.D., Moscow Inst of Economics and Stat

Jia, Xingde, Professor, Mathematics, Ph.D., City University of New York

Jiang, Zhonghong, Professor, Mathematics, Ph.D., University of Georgia

Jones, Theresa L, Lecturer, Mathematics, Ph.D., University of Texas at Austin

Juett, Jason Robert, Lecturer, Mathematics, Ph.D., University of Iowa

Keller, Christine I, Lecturer, Mathematics, M.S., Johannes Gutenberg Univ of Mainz

Keller, Thomas M, Professor, Mathematics, Ph.D., Johannes Gutenberg Univ of Mainz

Knittel, Jarred L, Lecturer, Mathematics, M.S., Texas State University

Lee, Marvin Kunjae, Lecturer, Mathematics, M.Ed., Texas State University

Lee, Young Ju, Assistant Professor, Mathematics, Ph.D., Penn State University Park

Limmer, Douglas J, Lecturer, Mathematics, Ph.D., Oregon State University

Lowe, Shane Aaron, Lecturer, Mathematics, M.Ed., Texas State University

Lund, Merrie Ellen, Lecturer, Mathematics, M.S., Univ of Houston - Clear Lake

McCabe, Glenn A, Lecturer, Mathematics, M.S., Texas State University

McCabe, Terence W, Assistant Professor, Mathematics, Ph.D., University of North Texas

Miller, Micah Israel, Lecturer, Mathematics, Ph.D., City University of New York

Morey, Susan, Chair - Professor, Mathematics, Ph.D., Rutgers State Univ New Brunswick

Nankervis, Bryan, Senior Lecturer, Mathematics, Ph.D., University of Texas at Austin

Nie, Bikai, Lecturer, Mathematics, M.S., University of Delaware

Obara, Samuel, Associate Professor, Mathematics, Ph.D., University of Georgia

Oh, Suho, Assistant Professor, Mathematics, Ph.D., Massachusetts Institute of Tech

Passty, Gregory B, Assistant Dean, College of Science and Engineering and Professor, Mathematics, Ph.D., University of Southern California

Peterson, Michael S, Lecturer, Mathematics, M.Ed., Texas State University

Prueitt, Paul S, Lecturer, Mathematics, Ph.D., University of Texas at Arlington

Quayle, Cara Michelle, Lecturer, Mathematics, M.Ed., Texas State University

Ratliff, Ernest F, Associate Professor Emeritus, Mathematics, Ph.D., Univ of Oklahoma Norman Campus

Total Hours: 120

1 Even though MATH 2471 is the first required mathematics course, some students will need to take courses numbered below 2471. Credit examinations in MATH 1315, MATH 2417 and MATH 2471 are available.

2 See the Academic Services section of this catalog for general education core curriculum requirements.
See the list of minors under the Degrees and Programs section of this catalog. Minor and electives should be chosen in consultation with the academic advisor.

A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

**Total Hours: 120**

1. Even though MATH 2471 is the first required mathematics course, some students will need to take courses numbered below 2471. Credit examinations in MATH 1315, MATH 2417, and MATH 2471 are available.
2. See the Academic Services section of this catalog for general education core curriculum requirements. PHYS 1430 is highly recommended as one of the life and physical science courses since it is a prerequisite for MATH 3375 in the advanced MATH electives.
3. See the list of minors under the Degrees and Programs section of this catalog. Minor and electives should be chosen in consultation with the academic advisor.
4. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.
5. If two years of the same foreign language were taken in high school, then no additional language hours required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

**Total Hours:** 38

Minor in Applied Mathematics

Even though MATH 2471 is the first required mathematics course, some students will need to take courses numbered below 2471. Credit examinations in MATH 1315, MATH 2417 and MATH 2471 are available. Electives should be chosen in consultation with the academic advisor.

See the Academic Services section of this catalog for general education core curriculum requirements.

A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

If two years of the same modern language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

A minor in Secondary Education and admission into the Teacher Preparation Program is required. Visit the Office of Educator Preparation (OEP) website for more information, http://www.education.txstate.edu/oep/

May be sophomore level English Literature or ENG 3303 Technical Writing.

**MATH Advanced Electives**

At least 38 hours are required in mathematics and must include:

<table>

Total Hours: 20

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 232).

Department of Physics

Roy F. Mitte Building Room 3240
T: 512.245.2131 F: 512.245.8233
www.txstate.edu/physics/ (http://www.txstate.edu/physics)

Physics, the study of matter and energy, is at the root of every field of natural science and underlies all physical phenomena. The problem-solving skills learned in the study of physics are valuable even if one's career is not in a physics-related field.

The B.S. with a major in Physics provides a rigorous background in physics as a preparation for graduate studies or a career in industry. The B.A. with a major in Physics is for students who want a background in physics but plan to pursue fields of interest other than physics as a life's work.

Career opportunities for a physics major exist in a wide variety of settings—from teaching in a classroom to basic research in an industrial or government laboratory, as a self-employed consultant, or as a member of a multidisciplinary research team.

Students who enter Texas State needing mathematics at a level below MATH 2417 are urged to attend a summer session to avoid any delay in starting their physics courses.

For more information contact the College of Science and Engineering Advising Center or the departmental advisor for the Department of Physics. For information on engineering technology, electrical engineering, industrial engineering, and manufacturing engineering see the Ingram School of Engineering and Department of Engineering Technology sections of this catalog.

Teacher Certification

Students interested in seeking a Physical Science (Texas Grades 6-12) certification should contact the Science Advisor for requirements. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science Advisor early in their undergraduate program or certification process.

Bachelor of Arts (B.A.)

- Major in Physics (p. 628)

Bachelor of Science (B.S.)

- Major in Physics (p. 629)

Minor

- Physics

Information about graduate programs can be found in the Graduate Catalog (p. 634).
Courses in Physics (PHYS)

PHYS 1110. Elementary Physics Laboratory.
This course explores and illustrates some of the basic principles covered in PHYS 1310 and PHYS 1320. This lab should be taken as the second of two courses, PHYS 1310 and PHYS 1320.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHYS 1105
about Elementary Physics Laboratory

PHYS 1115. General Physics I Laboratory.
First of two laboratory courses in General Physics for science-related majors. Course introduces students to the basics of measurement. Topics cover mechanics and heat. Prerequisite or Corequisite: PHYS 1315.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHYS 1101
about General Physics I Laboratory

PHYS 1125. General Physics II Laboratory.
Second of two laboratory courses in general Physics. Course introduces the students to experimental measurements and demonstration of principles of electricity, magnetism, optics, modern physics, electromagnetic waves.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHYS 1102
about General Physics II Laboratory

PHYS 1140. Introductory Laboratory in Astronomy.
An introduction to the constellations, the uses of telescopes, and other material relating to the study of stars and planets. This course is designed to be taken with PHYS 1340 or PHYS 1350 or those students desiring a laboratory course.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHYS 1111
about Introductory Laboratory in Astronomy

PHYS 1310. Elementary Physics.
A non-mathematical survey of mechanics, properties of matter, heat and sound. These topics are described in a conceptual way with applications relating to the world around us. The laboratory experience may be obtained in a separate one-hour credit lab (PHYS 1110). PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science. The laboratory experience is recommended with the second course.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Co-require(s): PHYS 1115
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: PHYS 1305
about Elementary Physics

PHYS 1315. General Physics I.
The first course in a two-semester sequence which is a survey of the basic laws and principles of physics and includes the topics of mechanics and heat. Designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisite: PHYS 1110 and MATH 1317 is recommended.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHYS 1311
about General Physics I

PHYS 1320. General Physics II.
A non-mathematical survey of electricity, magnetism, light, relativity, and atomic and nuclear physics. These topics are described in a conceptual way with applications relating to the world around us. The laboratory experience may be obtained in a separate one-hour credit lab (PHYS 1110). PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science. The laboratory experience is recommended with the second course.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: PHYS 1307
about Elementary Physics

PHYS 1325. General Physics II.
Second course in a two-semester sequence which is a survey of the basic laws and principles of physics and includes the topics of waves, light, electricity and magnetism. Designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisites: PHYS 1315 and MATH 1315 with a grade of "C" or higher. MATH 1317 and concurrent enrollment in PHYS 1125 are recommended.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Co-require(s): PHYS 1125
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: PHYS 1302
about General Physics II

A study of the solar system. Topics included are a study of the sun, the planets and their satellites, the comets, and other components of the solar system. Some aspects of telescopes and ancient astronomy will be included also.

1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: PHYS 1312
about Astronomy: Solar System
PHYS 1350. Astronomy: Stars and Galaxies.
A study of the universe beyond the solar system. Topics included are a study of the stars and star clusters, nebulae, galaxies, and an introduction to some aspects of cosmology.
about Astronomy: Stars and Galaxies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core
Grade Mode: Standard Letter
TCCN: PHYS 1311
about Astronomy: Stars and Galaxies

This course covers the principles of classical mechanics through problem solving and laboratory investigations. PHYS 1430, PHYS 2425, and PHYS 2435 are designed for students majoring and minoring in physics and/or other disciplines within the college of science and engineering. Credit for both PHYS 1315 and PHYS 1115 and PHYS 1430 cannot be given. Pre or Co-requisite: MATH 2471 with a C or higher or concurrent enrollment in MATH 2471. (MC).

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Physical Sciences Core|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2425
about Mechanics

PHYS 2425. Electricity and Magnetism.
This course is an introduction to physics-specific pedagogy and the methods and results of physics education research (PER). Students will investigate relevant literature in PER and cognitive science, engage in discussions about physics teaching and learning, and reflect on their own teaching practice in the role of Physics Learning Assistants. (WI).

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Physics Cognition and Pedagogy

A survey of the physics of sound and acoustic measurement. Special emphasis will be placed on sound production, propagation, and perception as applied to music. Prerequisites: PHYS 1410 and PHYS 1420 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Musical Acoustics

PHYS 3311. Mechanics I.
This course discusses the fundamentals of classical mechanics focusing on the physical description of the behavior of single and multiple particle systems. Topics included are advanced problem solving strategies for systems with position and velocity dependent forces, simple harmonic oscillators, and non-inertial reference frames. Prerequisite: PHYS 2435 with a C or higher. Co-requisite: PHYS 3320.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mechanics I

PHYS 3312. Modern Physics.
This course is an introduction to the foundations of modern physics, including the following topics: relativistic mechanics, kinetic theory of matter, quantization of charge, light and energy, the atom, wave nature of particles, and the Schroedinger equation. Prerequisite: PHYS 2435 with a C or higher. PHYS 2425 with a grade of C or higher, or concurrent enrollment allowed.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Modern Physics

PHYS 3315. Thermodynamics.
This course is a fundamental study of thermodynamics and statistical mechanics. Prerequisites: MATH 3323 and (PHYS 2435 or PHYS 1325 and PHYS 1125 or (PHYS 2425 and ENGR 2300)).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Thermodynamics
PHYS 3320. Introduction to Mathematical Physics.
An introduction to the mathematical methods of theoretical physics with emphasis on the vectorial-functional approach emphasized in current research literature. Applications will be made to certain fundamental problems of mechanics and electromagnetic field theory. Prerequisites: PHYS 2425 and MATH 3373 with grades of C or higher; MATH 3323 with a grade of C or higher, or concurrent enrollment.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

PHYS 3411. Advanced Physics Laboratory.
Experiments in modern physics, with emphasis on demonstrating quantum effects and introducing nuclear physics. Prerequisites: PHYS 2425 with a grade of C or higher; PHYS 3312 with a grade of C or higher, or concurrent enrollment. (WI).
Grade Mode: Standard Letter

4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive

This Laboratory/lecture course is an introduction to electronic test bench methods for the construction, operation and analysis of important DC/AC circuits utilizing resistors, capacitors, diodes, BJTs, FETs, and OpAmps. The behavior of the circuits will be modeled in SPICE. Elementary semiconductor device physics and microfabrication methods will be discussed. Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher. (WI).
Grade Mode: Standard Letter

4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Writing Intensive

PHYS 4221. Undergraduate Research.
This course represents a student’s research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Instructor’s approval required.
Grade Mode: Standard Letter

2 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

PHYS 4305. Statistical Physics.
This course will examine the physics that describes the equilibrium thermal properties of systems. Statistical physics explains the microscopic properties of systems that give rise to their measurable macroscopic behavior. This includes thermodynamic properties, transport processes, fluctuations from equilibrium, phase transitions and critical phenomena, and quantum fluids. Prerequisites: PHYS 3312, PHYS 3320, and MATH 3323 with grades of C or higher.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

PHYS 4310. Electromagnetic Field Theory I.
An introduction to the electromagnetic field theory of classical physics for static fields. Topics included will be the electrostatic field, polarization and dielectrics, electrostatic energy, magnetic field of steady currents, magneto static energy, and magnetic properties of matter. Prerequisites: MATH 3323, MATH 3373 and PHYS 3320 with grades of “C” or higher.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Application of physics principles to solid materials. Topics include crystal structure and the reciprocal lattice, including x-ray diffraction, crystal binding and elastic properties, lattice vibrations, energy bands, semiconductors and metals. Prerequisites: PHYS 3312 and PHYS 3320 with grades of C or higher.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

PHYS 4312. Quantum Mechanics I.
An introductory course in quantum mechanics. Topics include mathematical foundations, fundamental postulates, time development, and one dimensional problems. Prerequisites: MATH 3323, PHYS 3312, and PHYS 3320 with grades of C or higher; and six additional hours of advanced physics.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
PHYS 4313. Quantum Mechanics II.
An advanced course in quantum mechanics intended as an elective for students intending to pursue graduate study in physics. Topics include angular momentum, three dimensional problems, matrix mechanics, and perturbation theory. Prerequisite: PHYS 4312 with a C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Quantum Mechanics II

PHYS 4314. Mechanics II.
Fundamentals of Classical Mechanics focusing on the physical description of the behavior of single and multiple particle systems. Topics include central force motion, rigid body rotation, and coupled oscillations. This course is intended as an elective for students intending to pursue graduate study in physics. Prerequisites: PHYS 3311 and MATH 3323 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Mechanics II

PHYS 4315. Electromagnetic Field Theory II.
An introduction to the electromagnetic field theory of classical physics for time varying fields. Topics included will be electromagnetic induction, time varying electric and magnetic fields, Maxwell’s equations, electromagnetic energy, electromagnetic waves and radiation, and a brief introduction to some specialized topics. Prerequisite: PHYS 4310 with a C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Electromagnetic Field Theory II

PHYS 4317. Computational Physics.
Introduction to computational techniques for problem-solving and research beyond the standard techniques of most physics courses. Numerical, symbolic, and simulation methods applied to modern physics using advanced mathematical software and a highlevel programming language. Prerequisites: PHYS 3320 and six additional hours of advanced physics or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
about Computational Physics

PHYS 4320. Selected Study in Physics.
Topics are chosen in theoretical and experimental areas of current interest in physics with specific topic to be discussed agreed upon prior to registration. May be repeated once with different emphasis and professor for additional credit. Prerequisite: Instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Selected Study in Physics

PHYS 4321. Undergraduate Research.
A research project in physics to be carried out under the supervision of a faculty member by upper division physics majors. Student must contact a faculty member in advance to arrange topic and specific course objective. Course may be repeated only as an elective towards the BS or BA in physics. Prerequisite: Instructor approval.

3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Undergraduate Research

PHYS 4340. Materials Physics Laboratory.
A laboratory based course introducing a broad array of materials synthesis and characterization methods. The specific subjects will be coordinated with topics of current interest in the literature and will be chosen by mutual consent of the student and faculty advisor. Prerequisites: PHYS 3416, PHYS 3411, and PHYS 4311. (WI).

3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Materials Physics Laboratory

PHYS 4350A. Thin Film Photovoltaic Devices.
This course is a survey of the Physics of photovoltaic devices with emphasis on device physics including the photovoltaic effect, photon absorption, electrons and holes, generation and recombination, the pn-junction, charge separation, monocrystalline solar cells, thin film solar cells, and losses. Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Thin Film Photovoltaic Devices

PHYS 4350B. Relativity.
This course includes a review of Special Relativity, an introduction to the mathematics of tensor calculus and differential geometry, and such topics from General Relativity as the Schwarzschild solution and black holes, tests of General Relativity, cosmological models, and applications of relativity in the Global Positioning System (GPS). Prerequisites: PHYS 2425 and PHYS 2435 with grades of C or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Relativity

1. BIO 1330/BIO 1130 and BIO 1331/BIO 1131 may be taken instead of CHEM 1141, CHEM 1341 and CHEM 1142, CHEM 1342 listed below.

2. See the Academic Services section of this catalog for general education core curriculum requirements.

3. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate. An advanced course is one that is numbered above 3000 and below 5000.

4. Majors should consult the department advisor or the College of Science and Engineering Advising Center before choosing a minor and the electives.

5. ENG 3303 Technical Writing course can be substituted for the second English literature course from the general education core curriculum.

PHYS Electives

At least 13-16 advanced PHYS chosen from:
Bachelor of Science (B.S.) Major in Physics

Minimum required: 120 semester hours.

General Requirement
1. The major requires at least 48-50 hours.

At Texas State students begin their educational journey at the PACE Center—the University’s commitment to Personalized Academic and Career Exploration. It reflects a philosophy of enhancing student achievement within and outside the classroom through four student-centered programs:

1. Academic Advising - helps students select the right classes, build a class schedule customized to meet their personal and academic needs, and develop a plan for educational success focused on graduation.
2. Career Counseling - helps students clarify career interests and develop the resume needed to successfully transition to the professional world.
3. Mentoring - helps students become engaged in their major and connect to mentors and peers, and develop networking skills essential to career success.
4. University Seminar (US 1100) - this required course helps students transition to Texas State by leading them in discovering campus support networks, offering opportunities to make new friends, and providing mentoring from one of the University’s exceptional faculty.

University College Advising Center provides academic advising for students who are undecided about a major, those who are changing majors, those who are working toward admission into a particular program, and those majoring in General Studies. Advisors will assist students in researching options, evaluating alternatives, and making decisions so that they may make realistic and satisfying choices of majors. They will also provide guidance in completing general education requirements. The advising goal is to provide accessible, friendly, an accurate advising.

University College Advising Center and PACE Center are located on the first floor of the Undergraduate Academic Center and is open between 8:00 a.m. and 5:00 p.m., Monday through Friday. Services include one-on-one appointments, advising sessions before and during registration, and probation advising sessions.

General Studies major

The objective of the Bachelor of General Studies major in General Studies (B.G.S.) is to help each student who enters the program develop a unique career goal that is matched by three Texas State minors. Those best suited for the B.G.S. either have a career goal which is not well supported by a traditional Texas State major or that traditional major or major/minor is not the best option. Others may be undecided or unclear about career choices but are willing to make the decisions that will lead to a clear career/degree plan with linked minors.

The B.G.S. starts with GNST 3350 – Interdisciplinary Preparation, a course that helps students learn how to assess their talents, match them with potential careers, and maximize or choose three Texas State minors to best prepare them for the requirements of the career. Then they get practice in interviewing and preparing resumes, cover letters, etc., and discover how to market themselves. Following completion of most of the courses in the three B.G.S. minors, the final B.G.S. course (GNST 4350 – Interdisciplinary Project) challenges students to make use of their education in tailoring a research-based project that innovatively contributes to the career, incorporates all three minors, and gives them good supporting material to use in job interviews.

A 30-minute Information Session is required for all students seeking to learn more about a major in General Studies. These are scheduled about once every two weeks (more often during registration/orientation). B.G.S. faculty/staff will provide information regarding the requirements and criteria needed to successfully enter and complete the major. Information on registering for a B.G.S. Information Session is available at http://www.txstate.edu/ucollege/bgs/bgs3/informationform.html.

Following the B.G.S. Information Session, students should complete and submit the B.G.S. Interest Form. Answers to the questions on the form describe personal goals and career aspirations and lists the minors the student is interested in pursuing. This information will be discussed with a B.G.S. faculty/staff member and is used to develop a plan for success in the B.G.S. program, including matching minors with the student’s personal and career goals. Some students may benefit from completion of GNST 3150, a course designed to help students examine their goals and interests, and match them to major and career options.

As with any major, it is important to check with a University College advisor on a regular basis to ensure that progress is being made in meeting B.G.S. program requirements. Students are reminded to take particular notice that minors used for the B.G.S. degree may have different course requirements due to the advanced number of hours required of the program, and that minors, which are controlled by the host department and not B.G.S. personnel, may change requirements or prerequisites from time to time.

The following B.G.S. policies are particularly important to note:
In order to be advised for the B.G.S. program, register for GNST 3350 or GNST 4350, or enter the B.G.S. program, students must be in good academic standing at Texas State University. Those who are not in good academic standing and/or have questions about potential majors may make an appointment with University College Exploratory Advisors.

Only B.G.S. majors may register for GNST 3350 and GNST 4350 and both courses must be successfully completed at Texas State in order to be applied to the B.G.S. degree. Under some circumstances, students with Honors minors may be allowed to substitute HON 4390B-Honors Thesis if the topic meets the requirements of GNST 4350.

Successful completion (C or higher) of GNST 3350 is required before taking GNST 4350. These courses may not be taken concurrently. Both courses are offered only during the Fall and Spring semesters and are not available online.

Certain minor combinations may not be allowed if the coursework or content is duplicative. A course may be counted toward more than one minor only if it is specifically required by those minors. Once minors are matched with the career choice, they may not be changed without consultation with and approval of B.G.S. faculty.

Both GNST 3350 and GNST 4350 as well as all courses that are part of the three B.G.S. minors must be completed with a grade of C or higher. In addition to a minimum Texas State GPA of 2.0, graduation with a B.G.S. degree requires a GPA of 2.25 in each B.G.S. minor.

Enrollment in GNST 3350 is required within two semesters of entering the B.G.S. major. Due to class size limits, enrollment, particularly in GNST 4350, is not guaranteed for a particular semester. Consultation with a B.G.S. advisor well in advance of registration is recommended.

**Writing Intensive**

Certain Texas State courses are designated as “writing intensive” and are labeled as (WI) in this catalog and the schedule of classes. In order to achieve this status, at least 65% of the course grade must be based on written assignments and a minimum of one extended piece of writing must be required. Academic colleges require a minimum of 9 credit hours of these courses for graduation. In addition to certain major and elective courses, the two History and two Philosophy courses included in the general education core curriculum are writing intensive. These courses as well as other courses appropriate for writing intensive credit must be taken at Texas State.

**Transfer Students**

Students transferring from other institutions of higher education will have their transcripts initially evaluated by the Undergraduate Admissions Office to determine which courses will apply to Texas State requirements. Those seeking more specific evaluation of courses for fulfillment of general education core curriculum components may contact University College to initiate the process. Students should be prepared to provide documentation such as catalog descriptions, course syllabi and textbook information to facilitate verification of course content. Under the provisions of the Texas general education core curriculum, Texas State must accept courses that fulfill the core curriculum at other Texas public institutions (indicated by a 3-digit code on the transcript), and may not accept other courses unless they are equivalent to the required Texas State course.

**National Student Exchange**

The National Student Exchange (NSE) is a University College program that offers Texas State students a unique opportunity to expand their educational horizons by enrolling at a participating university for one or two semesters while paying an in-state resident tuition rate. Students can benefit from the NSE program by accessing different courses, internships, career options, and exploring graduate schools at over 200 colleges and universities in the United States, U.S. territories (including Guam, Puerto Rico, and the U.S. Virgin Islands) and Canada.

Credits earned at these host institutions can be transferred back to Texas State, allowing students to maintain progress toward their academic objectives. For the privilege of NSE participation, Texas State students enjoy in-state tuition and fees at their host institution on Plan A payment status, or 15 hours of coursework at Texas State in-state rates on Plan B payment.

Applications for the NSE program are due in February for fall and spring exchanges. Requirements of the program include a 2.5 cumulative GPA, completed application and a $185 application fee. For more information about the National Student Exchange, contact University College or refer to the Texas State-NSE web site at www.txstate.edu/ucollege/programs/nse.html (http://www.txstate.edu/ucollege/programs/nse.html).

**Bachelor of General Studies (B.G.S.)**

- Major in General Studies (p. 632)

Information about graduate programs can be found in the Graduate Catalog (p. 634).

**Courses in General Studies (GNST)**

**GNST 3150. Career and Major Exploration.**

Students unsure about career choice will determine interests and abilities linked to appropriate careers and the Bachelor of General Studies (BGS) or other majors. Varied group and individual projects will be guided by instructional teams from the PACE Center and/or Career Services. Required for some BGS majors. Prerequisite: Instructor permission.

about Career and Major Exploration

GNST 3350. Interdisciplinary Preparation.

This course includes assignments designed to encourage self-analysis of career interests and planning, and selection of component minors for BGS majors. Students will develop a degree plan matched to their career interests and/or their initial proposal for the GNST 4350 project. Successful completion requires a grade of C or higher. Prerequisite: Declaration of the BGS major, Texas State GPA 2.0 or better, instructor permission.

**Minimum required: 120 semester hours**

### General Requirements

1. A minimum of 9 writing intensive hours and a total of 36 advanced hours are required to graduate.
2. If two years of the same foreign language were taken in high school, then enough additional hours to total the minimum 120 hours required for the degree will fulfill this requirement. In the absence of such high school language, two semesters of the same foreign language must be taken at the college level.

### University Seminar

Undergraduate Academic Center, First Floor  
T: 512.245.7952 F: 512.245.7908  
[www.txstate.edu/ucollege/universityseminar](http://www.txstate.edu/ucollege/universityseminar)

University Seminar (US 1100) helps incoming freshmen transition to college life and should be taken during the students first semester at Texas State. Its small class setting allows students to get to know each other as well as their instructor. Classes meet once a week for 16 weeks during the fall semester.

University Seminar gets new students involved in the university community and supports PACE initiatives through related instruction, activities and guidance. Class assignments may include attending a university event such as a play or a keynote speech and writing a short report about the experience. Through US 1100 career assessment projects, students learn about individual career interests, find organizations and activities related to their academic fields, and develop a plan that will lead to graduation and professional success.

Taught by a diverse faculty, instructors of the course include professors, staff members, and administrators from departments across the Texas State campus. All instructors have at least a master’s degree and lend their unique and varied perspectives to enrich each classroom. Distinct sections of the course may serve freshmen with common interests. These are labeled in the Schedule of Classes.

Subjects in this department include: US
Course in University Seminar (US)

University Seminar is an introduction to the nature and aims of university education, with special emphasis on the value of broad learning. US 1100 is required of all undergraduate students entering the university with 0-15 semester credit hours completed since high school graduation. About University Seminar

The Texas Success Initiative Program (TSIP) is a statewide initiative created to improve student success in college-level coursework. As part of the program, all students enrolled in Texas public colleges or universities complete required assessments to determine math, reading, and writing proficiency. Developmental course instruction is provided to students needing to strengthen their basic academic skills. More information about this program, assessment requirements, and exemptions can be found in the Academic Policies section of the catalog under Texas Legislative Requirements.
2015-2016 Graduate Catalog

Texas State will not discriminate against any person in employment or exclude any person from participating in or receiving the benefits of any of its activities or programs on any basis prohibited by law, including race, color, age, national origin, religion, sex, disability, veterans’ status, or the basis of sexual orientation. Equal employment opportunities shall include: personnel transactions of recruitment, employment, training, upgrading, promotion, demotion, termination, and salary.

The information in the 2015-2016 Graduate Catalog is subject to change without notice and may not reflect the most recent changes. This catalog is a general information publication only. It is not intended to nor does it contain all regulations that relate to students. In the event of a conflict between the provisions of this catalog and the Rules and Regulations of the Board of Regents of the Texas State University System, the latter shall prevail. The provisions of this catalog do not constitute a contract, express or implied, between an applicant, a student, a faculty member, or a staff employee and Texas State University or the Texas State University System. Texas State reserves the right to withdraw courses at any time, to change fees or tuition, calendar, curriculum, degree requirements, admissions and graduation requirements or procedures, and other requirements affecting students. Changes will become effective whenever authorities determine and will apply to both prospective students and those already enrolled. Questions regarding current information should be addressed to the Office of the Provost and Vice President for Academic Affairs.

This catalog was published in May 2015 and becomes effective with the beginning of the fall semester, 2015.

General Information
University Organization
Texas State University is organized into the College of Applied Arts, the Emmett and Miriam McCoy College of Business Administration, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, the College of Science and Engineering, the Honors College, the University College, and The Graduate College.

Overview of Graduate Studies
Authorization
The establishment of The Graduate College at Texas State was authorized by the Board of Regents at its meeting on June 15, 1935. Graduate courses were first offered during the summer of 1936, and the first master of arts degree was conferred at the 1937 spring commencement.

Objectives of The Graduate College
The purpose of The Graduate College is to provide the means for continued intellectual growth through advanced and specialized education. The ultimate aim is to develop leaders that will make significant professional contributions to their fields of specialization.

More explicitly, The Graduate College has adopted the following objectives that will add both breadth and depth to the academic and professional preparation received at the undergraduate and master’s degree levels:

- To reinforce and extend students’ academic and professional experience as a means of improving professional competence;
- To afford students with the opportunity to undertake original research in their areas of specializations, both independently and in collaboration with the faculty;
- To provide students with the ability and resources to integrate their research into the community of scholars and professionals in a particular academic discipline;
- To challenge students intellectually, to develop their powers of independent thought, and to direct them toward positions of intellectual leadership in their personal and professional lives.

Characteristics of Graduate Study
Graduate study affords students of exceptional academic ability many opportunities to continue their intellectual growth and development. Doctoral study in particular seeks to integrate students into the professional community of scholars in a manner that emphasizes the completion, presentation, and publication of original research.

Graduate education differs from study at the undergraduate level in at least the following respects:

- Graduate students are expected to assume greater responsibility and demonstrate more self-initiative in meeting their academic goals;
- More extensive reading, emphasizing primary source material in a specialized field, is expected;
- Students are expected to become familiar with the current literature in their fields, with emphasis on recently published developments in research methods and results;
- Doctoral students are expected to assume responsibility for the planning, completion, and presentation of original scholarly research;
- Doctoral programs utilize seminar courses that stress active participation by students in intellectual exchange with both faculty and peers and in the critique of published research;
- Doctoral course work underscores integrating student research into the norms of an academic discipline.

- National Association of Schools of Music, Commission on Accreditation
- National Recreation and Park Association, Council on Accreditation of Parks, Recreation, Tourism, and Related Professions
- Network of Schools of Public Policy, Affairs, and Administration, Commission of Peer Review and Accreditation
- Teacher Education Accreditation Council, Inc.
History of the University

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. During the first century, the Legislature retained the regional designation in the name, but as its mission changed, it became first Normal College, then successively Teachers College, College and University. These changes reflected the change from a teacher-preparation institution to a regional university. In 2003, the Legislature dropped the regional designation and the institution became Texas State University-San Marcos, and in 2013 the place name itself was eliminated as the Legislature viewed Texas State University as an emerging research university within the State.

Texas State’s original mission was to prepare Texas public school teachers, especially those of the south central area. It became renowned for carrying out this mission, but today it does far more. Texas State currently offers programs in the College of Applied Arts, Emmett and Miriam McCoy College of Business Administration, College of Education, College of Fine Arts and Communication, College of Health Professions, Honors College, College of Liberal Arts, College of Science and Engineering, and University College. The University College oversees undergraduate advising as well as the freshman year experience. The Graduate College provides opportunities for continued intellectual growth through advanced and specialized education that develops leaders in the professions and in research.

As Texas State’s student population has grown—from 303 in 1903 to more than 35,000 in 2013—the campus, too, has expanded and today Texas State is the sixth largest public university in the state. Overlooking the campus and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur.

In 1979, after adding a number of classroom buildings and residence halls, Texas State purchased the former San Marcos Baptist Academy adjacent to the original campus. In 1981, South Texas entrepreneur Harry M. Freeman donated a 3,500-acre ranch to Texas State to be held in perpetual trust as the Harold M. Freeman Educational Foundation. The working ranch is used as a laboratory for students in agriculture, animal science, biology and a variety of other academic disciplines. In 1990, the university opened the Albert B. Alkek Library. The building, conveniently located in the center of campus, is named for the noted Texas rancher, oil man and educational philanthropist who died in 1995.

Texas State acquired one of the most unique ecosystems in the world in 1994 when it purchased the former Aquarena Springs resort and theme park. The purchase allowed Texas State to serve as steward of the headwaters of the San Marcos River, preserving and protecting the area for future generations of Texans. Now called the Aquarena Center, the 90-acre property is the site of a wide variety of educational and research pursuits. Aquarena Center is home to several endangered species of plants and animals that exist nowhere else in the world.

In 1998, as the lead institution, Texas State joined forces with other area universities to establish the Round Rock Higher Education Center, now known as the Texas State University Round Rock Campus (RRC). The RRC, located on 101 acres in northeast Round Rock, offers upper-division and graduate educational opportunities in Williamson County and Austin.

Texas State is located in San Marcos, a Hill Country community about halfway between Austin and San Antonio. Its location on the banks of the San Marcos River provides recreational and leisure activities for students throughout the year.

The Graduate College does so by providing an environment for the training of innovative and successful scholars, with the aim of providing the appropriate infrastructure and learning direction for excellence in graduate education at Texas State University.

The mission of The Graduate College is to provide vision, leadership, and direction for excellence in graduate education at Texas State University dedicated to excellence in serving the educational needs of the diverse population who participate in a global society. Texas State believes that freedom of thought, innovation and creativity are fundamental characteristics of a community of scholars. To promote such a learning environment, the university has a special responsibility to seek diversity, to instill a global perspective in its students, and to nurture sensitivity, tolerance and mutual respect. Discrimination against or harassment of individuals on the basis of race, color, national origin, religion, sex, sexual orientation, age, or disability are inconsistent with the purposes of the university.

### Ex Officio

- Dr. Gene Bourgeois, Provost and Vice President for Academic Affairs (2014-2017)
- Mr. Louis Jimenez, University Registrar, Registrar's Office (2010-2016)
- Dr. Denise M. Trauth, President, Texas State University (2015-2018)
- Dr. Wuxu Peng, Professor, Computer Science (2014-2017)
- Dr. Tiankai Wang, Associate Professor, Health Information Management (2015-2018)
- Dr. Gail Zank, Associate Professor, Marketing (2002-2017)

### Function

The Graduate Council recommends Graduate College policies to the dean of The Graduate College, who in turn administers the policies or submits recommendations to the provost and vice president for academic affairs and the president's cabinet. The Graduate Council also reviews standards for admissions, retention and enrollment patterns, in concurrence with the dean. The Graduate Council also approves membership standards for graduate faculty.

Updated 4/15/2015

### Mission Statement

"The noblest search is the search for excellence."

—Lyndon B. Johnson

Thirty-Sixth President of the United States, 1963–1969

Texas State University is a public, student-centered, Emerging Research University dedicated to excellence in serving the educational needs of the diverse population of Texas and the world beyond.

The mission of The Graduate College is to provide vision, leadership, and direction for excellence in graduate education at Texas State University with the aim of providing the appropriate infrastructure and learning environment for the training of innovative and successful scholars, teachers, and professionals. The Graduate College does so by

- articulating, promoting, and supporting the highest standards of quality in graduate education in keeping with the University's overall mission of teaching, research, and public service;

- constructing and maintaining an environment conducive to successful graduate education in concert with all graduate programs;

- supporting programs' efforts to foster a diverse student population who participate in a global society;

- promoting and supporting rigor in graduate education;

- providing key process and procedure guidance and support to graduate programs from admission to graduation;

- aiding in student recruitment, application processing, policy monitoring, and degree auditing;

- leading initiatives designed to provide best practices in graduate education leading to timely degree completion;

- providing graduate student support for creative and scholarly activities;

- offering professional development opportunities for graduate students at key stages in their graduate career; and

- engaging in research on graduate education.

The stakeholders of The Graduate College include students, faculty, and staff involved in graduate education at Texas State University.

### Shared Values Statement

In pursuing our mission as a premier institution, we, the faculty, staff, and students of Texas State University, are guided by a shared collection of values. Specifically, we value:

- An exceptional undergraduate experience as the heart of what we do;

- Graduate education as a means of intellectual growth and professional development;

- A diversity of people and ideas, a spirit of inclusiveness, a global perspective, and a sense of community as essential conditions for campus life;

- The cultivation of character and the modeling of honesty, integrity, compassion, fairness, respect, and ethical behavior, both in the classroom and beyond;

- Engaged teaching and learning based in dialogue, student involvement, and the free exchange of ideas;

- Research, scholarship, and creative activity as fundamental sources of new knowledge and as expressions of the human spirit;

- A commitment to public service as a resource for personal, educational, cultural and economic development;

- Thoughtful reflection, collaboration, planning, and evaluation as essential for meeting the changing needs of those we serve.

### Multicultural Policy Statement

Texas State believes that freedom of thought, innovation and creativity are fundamental characteristics of a community of scholars. To promote such a learning environment, the university has a special responsibility to seek diversity, to instill a global perspective in its students, and to nurture sensitivity, tolerance and mutual respect. Discrimination against or harassment of individuals on the basis of race, color, national origin, religion, sex, sexual orientation, age, or disability are inconsistent with the purposes of the university.
Students' Rights, Privileges, and Expectations

Texas State believes that the primary purpose of higher education is to promote learning and stimulate inquiry for truth in an atmosphere of freedom. Texas State is committed to the value of a racial and ethnic diversity. Accordingly, Texas State encourages students to exercise the rights of citizenship. However, these rights are subject to reasonable limitations necessary for the orderly operation of Texas State. Texas State expects students to accept their responsibilities as citizens and members of a scholarly community. Paramount among these responsibilities is respect for the rights of others, academic and personal integrity, and adherence to federal, state, and local law as well as university regulations.

The faculty and administration are genuinely concerned with the physical and ethical welfare of students. To that end, Texas State has established rules of conduct and has published these in a Code of Student Conduct and Honor Code. These regulations guide students in achieving personal and academic goals and help the University function in an orderly way. Since students voluntarily associate themselves with Texas State, they should know that these rules are honestly and faithfully enforced. The rules include clear prohibitions against sexual or racial harassment.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination or harassment on the basis of race, color, national origin, age, sex, religion, disability, or veterans’ status. This grievance procedure is described in University Policy and Procedure Statement 04.04.46 (http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML), Prohibition of Discrimination or Harassment. Students should follow the procedures for reporting instances of discrimination or harassment.

The administration and faculty encourage students to participate in managing Texas State through its system of advisory councils and committees. Students are invited to serve as voting members of many of these groups, and are expected to contribute actively to their success. Students may submit recommendations for changes in policy, not only through the committee structure, but also through their own student government.

Student Right-to-Know and Campus Security Act

The Student Right-to-Know and Campus Security Act was enacted in 1990 by federal law. The law requires institutions that receive student aid assistance to prepare and distribute an Annual Security Report (Campus Watch). The Campus Watch for Texas State University at San Marcos and Round Rock campuses include descriptions of campus crime prevention programs, procedures for reporting crimes and information about the number and frequency of crimes reported to the University Police Department for the last three years. It also provides Texas State’s policies for campus security and law enforcement related to sexual offenses, liquor law violations, and controlled substance offenses. In addition to publishing crime statistics, the act requires the Institute to provide timely warnings to the campus community of certain crimes reported to the University Police Department or local law enforcement which may be considered a threat to the campus community. The Campus Watch is available on the Texas State Website at http://www.police.txstate.edu/Clery.html, in the Offices of Undergraduate Admissions, Graduate College, Human Resources, and the University Police Department.

For a hard copy of the Campus Watch, contact the University Police Department, Nueces Building or to have a hard copy mailed to you free of charge you may call 512-245-2890.

Student Data, Privacy, and Communications

Correct Data

All students are responsible for making certain Texas State has correct demographic data. A student’s name will appear on official records as it is stated on the application for admission, unless a student has previously attended Texas State under a different name. Changes in name, local and/or permanent address, telephone number, marital status, etc. should be reported immediately to the Office of the University Registrar. Texas State is not responsible for loss of correspondence credits due to unreported name changes. Address changes can be submitted at http://www.registrar.txstate.edu/our-services.html.

Family Educational Rights and Privacy Act of 1974 (FERPA)

FERPA protects the privacy of educational records, establishes the right of students to inspect and review their educational records, and provides guidelines for the correction of inaccurate or misleading data. Students also have the right to file complaints with the FERPA Office concerning alleged failures by Texas State to comply with the Act. University policy explains in detail the procedures to be used in complying with the act. The policy is available at http://www.registrar.txstate.edu/persistent-links/ferpa. The Dean of Students and the Registrar both presume that each student is independent of his or her parents when dealing with the student’s educational records. Procedures for establishing dependency status are available in both offices.

Communications

Most university offices use Texas State email as the official means of communication. Students are expected to set up and read their Texas State email frequently.

Abandoned and Unclaimed Personal Property

Abandoned and unclaimed personal property discovered on a system university campus shall be turned over to the University Police Department for safekeeping and standardized handling. Property shall be considered abandoned if it appears from the circumstances under which the University comes into possession of the property that the owner has thrown it away, has voluntarily left it, or has lost it without any intent or expectation to regain it.

Abandoned and unclaimed personal property acquired by the police department of a system university shall be held for a minimum of one hundred and twenty (120) days from the time the department acquires the property. If the property is reclaimed during that time, the University may charge the owner a reasonable storage fee. The University Police Department will develop appropriate procedures to facilitate the return
of unclaimed personal property to the proper owners. A reasonable effort will be made to notify the owner.

After one hundred and twenty (120) days the property will be declared abandoned. After appropriate property checks that reflect the value of the property have been made, the property may be sold as part of a normal surplus property sale. For specifics on the handling and processing of abandoned and unclaimed property, please refer to University Policy and Procedure Statement 05.01.20.

Albert B. Alkek Library

Alkek Library
www.library.txstate.edu (http://www.library.txstate.edu)
T: 512.245.2686 F: 512.245.0392

The Alkek Library contains more than 1.5 million print materials, including books, documents, theses/dissertations, and other resources. The library provides access to $540,000 ebooks, 500+ databases, more than 80,000 audiovisual materials, and more than 700,000 microform materials.

Special holdings of the Library include the Wittliff Collections (comprised of the Southwestern Writers Collection and the Southwestern and Mexican Photography Collection), the University Archives, and the K-12 textbook collection. The Library is also a selective depository for federal government documents. As a member of the Texas Digital Library, the Library's Digital Collections (http://digital.library.txstate.edu/) provides access to unique Texas State collections, including scholarships authored by university faculty, students, and staff and selected materials from The Wittliff Collections and the University Archives.

The Library's online catalog (http://catalog.library.txstate.edu) provides information on the Library's holdings. Wireless access to the university network is available within the Library. Laptop computers may be checked-out for building use. A computer lab provides workstations, laser printers, scanners, video-editing equipment, and adaptive equipment for individuals with disabilities.

The Library maintains cooperative borrowing agreements with other libraries in the region. Through TexShare, a statewide resource sharing program, students and faculty may borrow materials held by most public and private university libraries in the state. Materials may be transferred, by request, to the Texas State University Library in Round Rock.

Career Services

LBJ Student Center, 5th Floor
www.careerservices.txstate.edu (http://www.careerservices.txstate.edu)
T: 512.245.2645

Exemplary career services leading Texas State students into the future.

We provide compassionate, comprehensive career assistance to the diverse Texas State family. Our services incorporate leading practices to guide students through all stages of their career development and progression from college to career.

Through Career Services, students have access to a wide array of career-related programs, resources, and career development support.

Career Planning and Exploration

Individual career counseling and planning assistance is available to students as they select a major and establish their career goals. Career assessments and web-based guidance programs are also available to facilitate this process. In addition, counselors can review job search materials and assist with post-graduate program applications.

Career Advising and Job Search Strategies

Career Advisors are available to meet one-on-one with students to discuss their job search preparation. Topics of discussion include résumé and cover letter writing, interviewing techniques, and salary negotiations. Workshops focused on career development and professionalism are offered throughout the school-year to help in the transition from student to professional.

Employment

Resources are available to assist students find part-time, full-time, college work-study, internships and summer employment. These opportunities can be found in our online database, Jobs4Cats. Résumés, class schedules, applications, and proof of employment eligibility are required.

Job Shadowing and Internships

Job shadowing is a short term opportunity for students to discover various career options. This experience includes spending time with professionals inside different organizations gaining firsthand knowledge about diverse career fields, and serves as a critical component of career exploration. Internship opportunities are available to refine career goals, gain practical experience, and expand students' views of the world. Often, internships serve as key experiences that lead to full-time opportunities.

Employer Connections

Career Services provides students and alumni the opportunity to interact with numerous employers for networking and employment purposes. Bobcats have access to Jobs4Cats, Texas State’s exclusive job search database, as well as many additional online resources that can be viewed at www.careerservices.txstate.edu (http://www.careerservices.txstate.edu).

Career Services hosts approximately ten career events per semester. A few examples include an “All Majors” Spring and Fall Job and Internship Fair, STEM (Science, Technology, Engineering and Math) Job and Internship Fair, Health Professions Fair, and a Mass Communication Career Fair. These events bring hundreds of employers to campus with internship, part-time, and full-time opportunities for students and alumni.

Additional networking is available through employer information sessions and panel presentations, annual externship days, and résumé referrals.

Career Services hosts a robust on-campus interviewing program. Each long semester, approximately 70 employers conduct 700+ interviews on campus for internship and full-time opportunities. All on-campus interviewing opportunities can be found in Jobs4Cats.

Disability Services

LBJ Student Center 5-5.1
www.ods.txstate.edu (http://www.ods.txstate.edu)
T: 512.245.3451 F: 512.245.3452

Texas State does not discriminate on the basis of disability in the recruitment and admission of students. Students with disabilities must meet the same admission requirements as other students. A
student whose educational and/or personal goals for success have been negatively impacted due to disability-based reasons may wish to address this in the supplemental essay portion of the admission application.

The Office of Disability Services (ODS) at Texas State is dedicated to supporting the lives of students with disabilities who seek the goal of higher education. Because each person’s situation is unique, Disability Services simply asks that any interested student meet with us. Documentation requirements vary by situation. The Disability Services staff will talk to the student about documentation during the initial conversation. No student should delay meeting with the ODS out of concern for not having appropriate paperwork. Students needing sign language or oral interpreting services for admissions counseling or academic advising should contact ODS one week prior to the event to ensure interpreter availability.

Students with disabilities may be entitled to financial assistance from the Department of Assistive and Rehabilitative Services.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination on the basis of disability. This grievance procedure is described in UPPS No. 04.04.46 (http://www.txstate.edu/ effective/UPPS/UPPS-04-04-46.HTML), Prohibition of Discrimination or Harassment. A copy is available in the university library, the Office of Disability Services and most other university offices. Students who have concerns or complaints should contact the Director of Disability Services at 512.245.3451 or the university ADA Coordinator at 512.245.2278.

Veterans Affairs

J.C. Kellam Building Room 111
www.va.txstate.edu (http://www.va.txstate.edu)
Email: veteransaffairs@txstate.edu
T: 512.245.2641 F: 512.245.3271

Students attending Texas State while receiving educational assistance under one of the public laws for veterans and/or their dependents must contact the Texas State Office of Veterans Affairs to complete the required forms. Information and forms are also available on our website www.va.txstate.edu (http://www.va.txstate.edu).

New and transfer students applying for educational benefits under the U.S. Department of Veterans Affairs for the first time must provide the Office of Veterans Affairs with a Certificate of Eligibility for the respective benefit, a photocopy of the DD214 Member 4 form, “Certificate of Release or Discharge from Active Duty,” and a Change of Place of Training VA Form 22-1995 for transfer students. Reserve and National Guard members applying for Chapter 1606 benefits must provide DD 2384 form: “Notice of Basic Eligibility”. Active duty military and dependents are exempt from the above DD-214 requirement. All students must provide a copy of their Degree Works Audit for their major and must follow the degree requirements in order to receive the maximum payout of their benefit. It is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

Benefit payments are made at the end of each month. Any student enrolling under any of the provisions for VA educational benefits should bring sufficient funds to defray the initial cost of tuition, fees, and living expenses for approximately three (3) months.

As a graduate student receiving veteran benefits, you must file with the Office of Veterans Affairs an official master’s degree outline, a certification deficiency plan, or other similar documentation showing the requirements needed to accomplish your objective. It is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

Dependents of Texas veterans and veterans who have exhausted VA educational benefits, should check with the Office of Veterans Affairs for information about the Hazlewood Exemption. Note: dependents students who are eligible for Hazlewood are subject to federal satisfactory academic progress (SAP) policies. For more information, go to http://www.va.txstate.edu/benefits/hazlewood.html. Applications and information sheets for the Hazlewood Exemption may be obtained at the Office of Veterans Affairs or at www.va.txstate.edu (http://www.va.txstate.edu).

International Office

Thornton International House
334 W. Woods Street
www.international.txstate.edu (http://www.international.txstate.edu)
T: 512.245.7966 F: 512.245.8264

The International Office assists the University in developing and maintaining an internationally diverse student body, faculty, and staff by:

1. Contributing to the retention of international students and scholars by serving as their advocates, and by providing information and services that facilitate their academic success and cultural adjustment.

2. Maintaining compliance with federal regulations by acting as liaison with the Department of Homeland Security (DHS), and serving as immigration advisors to international students and scholars.

3. Contributing to the research and teaching mission of the university by assisting in the procurement of proper legal employment authorization for distinguished international faculty and staff.

4. Promoting global awareness and perspective at the university by facilitating international agreements and by sponsoring International Education Month each November.

Round Rock Campus

www.rcc.txstate.edu (http://www.rcc.txstate.edu)
T: 512.716.4001 F: 512.716.4110

In 1998, as the lead institution, Texas State joined forces with other area universities and colleges to establish the Round Rock Higher Education Center, now known as the Round Rock Campus (RRC). In 2005, Texas State opened the Round Rock Campus on 101 acres and offers bachelor’s and master’s programs in Williamson County.

Texas State is addressing the educational needs of North Austin and the Central Texas area at the RRC. Located at 1555 University Boulevard in northeast Round Rock, the RRC offers small class sizes as well as supportive, engaging faculty and staff in a state-of-the-art collegiate environment. The RRC provides the upper-level course work in select bachelor’s degrees, as well as several, post-baccalaureate certificates and master’s degree programs. Round Rock students pay the same tuition as those attending in San Marcos but certain fees may be waived.

Study Abroad

Thornton International House
334 W. Woods Street
www.studyabroad.txstate.edu (http://www.studyabroad.txstate.edu)
A study-abroad experience expands students’ intellectual and personal development as they become immersed in other cultures. Students gain a critical self-awareness, an appreciation for a multicultural world, and a clearer understanding of their own culture. Study abroad prepares students to assume their role as responsible world citizens and to succeed professionally in today’s global economy.

The Study Abroad Office offers students the opportunity to participate in a variety of study abroad programs at locations around the world. The credit students earn may be applied toward a degree at Texas State. Some of these programs involve direct enrollment in an overseas institution, while other programs are led by Texas State faculty.

Through Texas State Study Abroad Programs, students can spend from one week to a full academic year in another country either by learning another language, by concentrating their studies related to a specific topic in their field of study, or by participating in an internship. Texas State Study Abroad Programs include a variety of activities that allow students to learn and experience the culture of the host country. In some of these programs students have the opportunity to live with a host family to become totally immersed in the culture of the host country for a more comprehensive learning experience.

Program locations vary each year. Students may learn more about these programs from current information located in the Study Abroad Library. In addition to information about Texas State’s Study Abroad Programs, the Study Abroad Library houses a wealth of information about programs available from other universities as well as study-abroad providers.

Financial Assistance for Study Abroad Programs

Most of the financial aid that students would normally receive for studying at Texas State may be applied toward Texas State Study Abroad Programs. Additionally, there are many schools and study-abroad providers that offer financial aid for attending their programs. If a student is on federal or state financial aid, it is recommended that the student speak with a representative of the Texas State Office of Financial Aid and Scholarships to determine the application of such aid to any study-abroad program and the possible adjustment to meet the student’s needs.

The Study Abroad Office also has information on scholarships that are available to students who want to study abroad. At Texas State, students are also eligible for the International Education Fee Scholarship (IEFS). This scholarship program is funded through the student service fee account. The scholarships are distributed in a competition open to all undergraduate and graduate Texas State students, including international students, who meet the established eligibility requirements.

The credit students earn may be applied toward a degree at Texas State. Some of these programs involve direct enrollment in an overseas institution, while other programs are led by Texas State faculty.

Federal and State Aid Programs

Texas State participates in both federal and state financial aid programs. Financial Aid and Scholarships offers grants, work study, student loans, and other types of aid.

Applying for Financial Aid

To apply for financial aid, a student must complete and submit the Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov and include the Texas State University school code – 003615.

Deadlines

- March 15 is the priority date for filing the FAFSA for the upcoming academic year (fall and spring). If the deadline is missed, a student may still apply and receive some types of assistance such as student loans.
- March 1 is the priority deadline for filing the separate summer financial aid application prior to the upcoming summer semester. This separate summer application, which can be found online at http://www.finaid.txstate.edu/, is in addition to filing the appropriate year’s FAFSA.

Satisfactory Academic Progress Requirements

Federal regulations require students to meet certain minimum academic standards in order to remain eligible for financial assistance. The requirements are that a student:

1. maintain a minimum cumulative Texas State GPA;
2. complete at least 67% of all course work; and
3. not exceed a maximum limit of attempted hours toward their degree or post-baccalaureate teacher certificate program.

Additional program-specific requirements also exist. View these SAP criteria in more detail at http://www.finaid.txstate.edu/ by selecting Graduate Aid from the dropdown menu and then Maintain My Eligibility.

Alternative Loan Resources

For information on alternative loans, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Types of Aid.

Official Withdrawals and Financial Aid

If a student withdraws or is expelled from the university on or prior to the 60-percent point of the semester, the student is required to repay any unearned portion of their federal Title IV aid. For more details, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Unofficial Withdrawals and Financial Aid

If the student fails to earn a passing grade in at least one of their courses (i.e., all U’s, all I’s or a combination of all U’s, W’s or I’s) during a semester, the student is considered to have, for purposes of federal Title IV funds, unofficially withdrawn from the university. As a result, a federal withdrawal calculation must be performed to determine the amount of Title IV funds the student must repay. For more details, visit http://
www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Non-Attendance and Financial Aid
If the student is a Pell Grant, Iraq-Afghanistan Service Grant (IASG) or TEACH Grant recipient, federal regulations require the student to have begun attending the courses for which the student is enrolled and receiving these grants. If on the census date roster (e.g., 12th day of each fall and spring semester) the student is reflected as not attending a course, the student is assumed (for financial aid purposes) not to have begun attendance for that course. The student’s grant will then be adjusted or cancelled based on the courses the student has actually begun attending. For more details, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

To Withdraw
The student must complete the form entitled “Texas State Official Withdrawal Request” from the University Registrar’s Office. Financial aid recipients should speak with a Financial Aid and Scholarships representative before the withdrawal is processed. The withdrawal date is defined as the date on which a student first indicates his or her intent to withdraw.

Scholarships
The scholarships listed below are competitively-based and are available to qualified students, who are regularly admitted, through The Graduate College. Students who are not Texas residents and receive a Texas State competitive scholarship of at least $1,000 may be eligible to pay resident tuition.

Texas State Celebrity Classic Scholarships
Scholarships are awarded competitively each year through the Texas State Celebrity Classic Scholarship. A minimum enrollment of six graduate hours of course work (5000 level or above) per term is required. Eligibility requirements are posted on The Graduate College website and the application deadline is March 1.

Graduate College Scholarships
These scholarships are available to qualified graduate students as selected by a committee from each college. A minimum enrollment of six graduate hours of course work (5000 level or above) per term is required. Eligibility requirements are posted on The Graduate College website. The application deadline is March 1.

For additional information regarding scholarship eligibility, criteria, application deadlines, and the application process, visit http://www.gradcollege.txstate.edu/Prospect_Students/Fin_Grad_Ed/Scholarships.html. Information about additional scholarships, as well as teaching and research assistantships, may be available through the academic departments.

Application Deadlines
All required application materials should be submitted to The Graduate College no later than the following deadline dates to ensure processing for the desired term:

International Non-degree-Seeking Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. In addition to meeting the above requirements, international students seeking entry under the non-degree-seeking student admission category must:

1. Pay a $50 non-refundable international/evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
2. Submit two copies of official transcripts indicating that a baccalaureate degree was awarded: one copy translated in English and one copy in the student’s native language from every college or university attended. If the applicant’s transcript does not indicate the degree earned, he or she will need to submit a copy of the diploma or degree certificate, along with an English translation, showing the type of degree earned and the date the degree was earned.
3. Submit official English proficiency exams scores. Refer to the “International Admission Documents” (p. 649) section of this catalog for more information regarding accepted exam types, minimum score requirements, and waiver criteria.
4. Submit the non-degree graduate study approval form located on our website: http://www.gradcollege.txstate.edu/intl_home/docs.html.
A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session.

### Visiting Student Applicants

If a student is currently pursuing a graduate degree at another institution, the student may enroll in graduate courses at Texas State with the permission of the dean of The Graduate College and the graduate advisor.

**Courses taken at Texas State under the Visiting Student status may not be counted toward a graduate degree at Texas State should the student later decide to enter a degree program.**

A visiting student must:

1. Submit an admission application and non-refundable fee to The Graduate College at https://www.applytexas.org.
2. Complete a Visiting Student Applicant form (http://www.gradcollege.txstate.edu/docs/Visiting_Student.pdf) form.
   a. Obtain approval from the institution granting the degree giving the student permission to transfer the course(s).
   b. Obtain approval from the department(s) at Texas State offering the course(s) on the Visiting Student form.
3. Return the Visiting Student form signed and completed with all signatures for the Texas State graduate dean’s approval to The Graduate College two weeks prior to registration. This form must be completed prior to enrollment each term.

### International Visiting Student Admission

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. In addition to the requirements above, international students seeking entry under the visiting student admission category must:

1. Submit a letter from their primary university advisor stating that they are maintaining their immigration status. This letter is to be submitted to the International office.
2. Official English proficiency exams scores are required prior to admission consideration. Refer to the “International Admission Documents” (p. 649) section of this catalog for more information regarding accepted exam types, minimum score requirements, and waiver criteria.

International students may be expected to meet additional admission requirements, including the English proficiency requirement.

### Texas State Certificate Program Applicants

Texas State offers a number of certificate programs. Applicants who hold baccalaureate degrees from acceptable accredited institutions must apply through The Graduate College. All certificate course work must be completed within four years of initial enrollment.

Applicants must adhere to the following application procedure:

1. Submit an admission application and non-refundable fee to The Graduate College at https://www.applytexas.org.
2. Submit an official transcript from each senior level post-secondary institute attended.

### International Certificate Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. In addition to meeting the above requirements, international students seeking entry into a Texas State certificate program must:

1. Pay a $50 non-refundable international/evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
2. Submit two copies of official transcripts indicating that a baccalaureate degree was awarded: one copy translated in English and one copy in the student’s native language from every college or university attended. If the applicant’s transcript does not indicate the degree earned, he or she will need to submit a copy of the diploma or degree certificate, along with an English translation, showing the type of degree earned and the date the degree was earned.
3. Submit official English proficiency exams scores. Refer to the “International Admission Documents” (p. 649) section of this catalog for more information regarding accepted exam types, minimum score requirements, and waiver criteria.

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full time for that summer session.

### Certification or Licensure Program Applicants

#### Licensure or Non-Teacher Certification

If an applicant is seeking certification or licensure rather than seeking a graduate degree, and holds at least an acceptable baccalaureate degree, the applicant may gain admission as a “Post-Baccalaureate” or “Post-Graduate.” Applicants must hold a four-year baccalaureate degree from an acceptable accredited institution and must have fulfilled the residency requirement of their degree-granting institution. As a post-baccalaureate or post-graduate student, the applicant must:

1. Submit an admission application and non-refundable fee to The Graduate College at https://www.applytexas.org.
2. Submit an official transcript that shows the highest college degree earned.
3. Fulfill any other departmental program admission requirements, such as GPA or entrance score requirements. Applicants should consult with the prospective program for specifics.

#### International Licensure or Non-Teacher Certification Program Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. In addition to meeting the above requirements, international students seeking entry under the post-baccalaureate or post-graduate licensure or non-teacher certification program must:

1. Submit an admission application and non-refundable fee to The Graduate College at https://www.applytexas.org.
2. Submit an official transcript from each senior level post-secondary institute attended.

International students may be expected to meet additional admission requirements, including the English proficiency requirement.
1. Pay a $50 non-refundable international/evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)

2. Submit two copies of official transcripts indicating that a baccalaureate degree was awarded: one copy translated in English and one copy in the student's native language from every college or university attended. If the applicant's transcript does not indicate the degree earned, he or she will need to submit a copy of the diploma or degree certificate, along with an English translation, showing the type of degree earned and the date the degree was earned.

3. Submit official English proficiency exams scores. Refer to the "International Admission Documents (p. 649)" section of this catalog for more information regarding accepted exam types, minimum score requirements, and waiver criteria.

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session.

### Teacher Certification

Applicants may apply for admission to the University to pursue certification in grades EC-6, 4-8, 7-12, EC-12, or one of several professional educator certifications.

### Teacher Certification

If an applicant is seeking initial certification and holds at least a baccalaureate degree, the individual must apply for admission through The Graduate College. Applicants should adhere to the following procedure:

1. Submit an admission application and non-refundable $10 fee to The Graduate College at https://www.applytexas.org.
2. Submit an official transcript from each college or university attended.
3. After being admitted by The Graduate College, apply for a certification plan in the Office of Educator Preparation (ED 2016). NOTE: Applicants for teacher certification must have an overall GPA of at least 2.75 on all college/university work.
4. Go to the following website to learn more about the admission requirements and fees for the Teacher Preparation Program: http://www.education.txstate.edu/oep/.

### International Teacher Certification Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. In addition to meeting the above requirements, international students seeking post-baccalaureate or post-graduate teacher certification admittance must:

1. Pay a $50 non-refundable international/evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
2. Submit two copies of official transcripts indicating that a baccalaureate degree was awarded: one copy translated in English and one copy in the student's native language from every college or university attended. If the applicant's transcript does not indicate the degree earned, he or she will need to submit a copy of the diploma or degree certificate, along with an English translation, showing the type of degree earned and the date the degree was earned.

3. Submit official results of the internet-based TOEFL showing a score of 78 or higher, with a minimum of 26 on the speaking section. Certifications programs offered through the Office of Educator Preparation do not accept any other English proficiency exam scores.

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session.

### Holders of Valid Out-of-State Certificates

The State Board for Educator Certification (SBEC) reviews out-of-state teacher certificates. Contact the SBEC at 888.863.5880.

### Professional and Master Teacher Certification

Professional and master teacher certifications are available in the following education areas: principal, master reading teacher, master mathematics teacher, master science teacher, master technology teacher, counselor, superintendent, and reading specialist. Each certification requires a master's degree and teaching experience in Texas public schools. Refer to each individual departmental section of this catalog for specific information or contact the department.

If you are seeking a Professional or Master Teacher Certification, you must apply for admission through The Graduate College and adhere to the following procedure:

1. Submit an admission application and non-refundable $10 fee to The Graduate College.
2. Submit an official transcript that shows your highest college degree earned.

For principal, superintendent, and counselor certification, contact the Department of Counseling, Leadership, Adult Education, and School Psychology at 512.245.3083 for admission information and eligibility requirements.

For master mathematics teacher admission information and eligibility requirements, contact the Department of Mathematics at 512.245.2551.

For master reading teacher and master technology teacher admission information and eligibility requirements, contact the Department of Curriculum and Instruction at 512.245.2042.

For master science teacher admission information and eligibility requirements, contact the Department of Biology in the College of Science and Engineering at 512.245.2178.

For reading specialist certification, please apply for a certification plan in the Office of Educator Preparation at the following link: http://www.education.txstate.edu/oep/.
International Professional and Master Teacher Certification Applicants

An international applicant is defined as an applicant who is not a citizen or permanent resident of the United States. In addition to meeting the above requirements, international students seeking entry under the post-baccalaureate or post-graduate certification or licensure student admission category must:

1. Pay a $50 non-refundable international/evaluation fee. (The application fee for international students is $10 plus the $50 evaluation fee for a total application fee of $60.)
2. Submit two copies of official transcripts indicating that a baccalaureate degree was awarded: one copy translated in English and one copy in the student’s native language from every college or university attended. If the applicant’s transcript does not indicate the degree earned, he or she will need to submit a copy of the diploma or degree certificate, along with an English translation, showing the type of degree earned and the date the degree was earned.
3. Submit official results of the internet-based TOEFL showing a score of 78 or higher, with a minimum of 26 on the speaking section. Preparations programs offered through the Office of Educator Preparation do not accept any other English proficiency exam scores.

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin with the summer session must enroll full-time for that summer session.

Texas Certified Public Manager (CPM) Program

[Website Link]

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer this program in Texas. The CPM Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any time during the year; programs are held approximately every two months. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not for profit sector. The program’s primary goal is to improve the performance of public and not for profit sector managers and the organizational performance of state, local, and federal government. It is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant, their agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program is a 7 course sequence which leads to a nationally accredited public manager certification. The CPM Program is offered by Texas State University’s William P. Hobby Center for Public Service.

Reapplication Policy Procedure

Applicants wishing to change their application to a different term will be required to submit a new application and pay the non-refundable application fee. This policy also applies to students who are accepted into a degree program and fail to enroll. Students may contact The Graduate College about the possibility for a one-time deferral for up to two terms only, which is available for some programs.

Students who have been accepted into a degree program and fail to enroll for the term of acceptance are not guaranteed acceptance for future terms. Any student failing to enroll within a one year period will be required to submit a new admission application and non-refundable application fee. Students should review additional enrollment requirements and policies which relate to their program of study.

Applicants Seeking a Second Graduate Degree or Changing Majors

If a student wishes to pursue a second simultaneous or subsequent graduate degree or change a major, the student must submit an application for admission and comply with instructions as identified earlier under the degree-seeking admission requirements. This procedure must be completed in ample time to meet the admission deadlines. Acceptance in one program does not guarantee acceptance in another program. No courses applied toward one graduate degree may be applied toward another graduate degree.

Students on probation or suspension may not change programs without a recommendation and special request from the prospective department. The dean of The Graduate College will review the request when making the final decision. For additional information, please contact The Graduate College.

Changing From Certification/Certificate/Non-Degree Status to Degree-Seeking Status

If a student has been granted admission as a post-baccalaureate or post-graduate student and wishes to apply for admission to a degree program, the student must submit an application for admission and comply with instructions as identified earlier under the degree-seeking admission requirements. This procedure must be completed in ample time to meet the admission deadlines.

After a student is regularly admitted to a graduate degree program, he or she may be permitted to utilize some of the courses taken under the post-baccalaureate or post-graduate status toward their graduate degree. At the recommendation of the student’s graduate advisor and with approval of the dean of The Graduate College, up to six hours of graduate-level courses taken under the post-baccalaureate or post-graduate status with a grade of “B” or better may be petitioned for degree credit.
Applicants Seeking a Second Baccalaureate Degree

Students seeking a second baccalaureate degree may apply online at http://www.applytexas.org or by contacting the Office of Undergraduate Admissions.

After a student obtains a second baccalaureate degree and if the student wishes to apply for admission to The Graduate College, the grade-point average will be calculated on the applicant’s last 60 undergraduate semester hours, including those on the second baccalaureate degree (except for applicants to the master of business administration or master of accountancy programs). This is the only circumstance in which undergraduate credit hours taken beyond the initial baccalaureate degree are used in admission evaluation. Additionally, if a student has any graduate or professional work, these hours may also be used in conjunction with the applicant’s last 60 undergraduate semester hours to arrive at the admission GPA.

Texas State Intensive English Language Program (TSIE)

Thornton International House
334 W. Woods Street
www.txstate.edu/ie (http://www.txstate.edu/ie)
T: 512.245.7810 F: 512.245.3752

TSIE is a non-credit university intensive English-as-a-Second-Language (ESL) program for students who:

1. want to improve their command of the English language before entering college;
2. are participating in the TSIE Pre-Bridge or Bridge Programs; or
3. would like to polish their language abilities.

Beginning, intermediate, and advanced classes, emphasizing academic reading, writing, grammar, and oral skills, are offered during the fall, spring, and summer sessions.

Graduate Student Advisement

Professional academic counseling for students is handled through the student’s major department (or minor department if applicable) after the student has received formal acceptance to The Graduate College. This method of advisement ensures that students will receive sound academic counseling from faculty in their chosen field of study.

Admission Documents

All admission materials must be submitted to The Graduate College. Materials submitted become the property of the University and cannot be released, except in accordance with the Federal Family Education Rights and Privacy Act of the state Public Information Act. Admission Materials submitted without an ApplyTexas application will not be retained.

General Admission Documents

Application for Admission

An application for admission to The Graduate College must be submitted online through ApplyTexas. Applications are for specific terms.

Applicants wishing to change their application to a different term will be required to submit a new application and pay the non-refundable application fee. This policy also applies to students who are accepted into a degree program and fail to enroll. Students may contact The Graduate College about the possibility of a one-time deferral for up to two terms only, which is available for some programs. Students who have been admitted into a degree program and fail to enroll for the term of acceptance are not guaranteed acceptance for future terms.

Application Fee

A non-refundable application fee of $40 is required for all degree-seeking students. International students will need to pay an additional non-refundable international/evaluation fee, which is $50. A $10 non-refundable application fee is required of individuals seeking certification, certificate, non-degree, or visiting student status. An additional $25 non-refundable application fee is required for applicants to the doctor of physical therapy program. No application will be processed until the necessary fees are paid.

Official Transcripts

An applicant for a graduate degree program at Texas State must have one official transcript from each senior level post-secondary institute attended sent to The Graduate College. Transcripts from community colleges may be required for some programs. Check for specific program requirements at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps.html.

Applicants applying for a master’s or doctoral degree must at least hold a four-year baccalaureate degree from an acceptable regionally accredited institution. All applicants must have fulfilled the residency requirement of their degree-granting institution.

Transcripts must be mailed directly from the university or college attended or submitted in a sealed university envelope with the university registrar’s signature on the back of the envelope. The transcript must reflect all college work attempted and any degree(s) conferred. Scanned or faxed copies of transcripts will not be considered official. Please check with the Texas college or university attended to determine if the transcripts can be submitted electronically to Texas State. Texas State transcripts will be supplied.

Departmental Documents

Additional admission document requirements vary from program to program. Please check our website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps.html for specific program requirements. Supporting documents may be uploaded at https://tim.txstate.edu/gadocumentupload.

Graduate Record Examination (GRE)

The GRE is required to be on file in The Graduate College prior to admission consideration for some programs. The GRE may be required by other programs if the GPA is below the minimum required. Check for specific program requirements at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps.html.

Applicants who are required to take the GRE for admission consideration should take the general portion (verbal and quantitative sections) of the GRE. The writing section is also required for some programs. Subject examinations are not accepted.
The GRE is valid for five years after the exam date. GRE score reports that bear the designation of “applicant's copy” or “institutional examinations” are not considered official scores for admission purposes.

GRE information bulletins and application forms may be obtained from the Educational Testing Service, P.O. Box 6000, Princeton, New Jersey 08541-6000, U.S.A.; the University Testing Center at Texas State; The Graduate College; or http://www.ets.org/gre. Please allow adequate time for the examination results to reach the University prior to the admission application deadline. The college code for Texas State is 006667.

Graduate Management Admission Test (GMAT)

Applicants for the graduate business programs and the Master of Accountancy degree programs are required to take the GMAT, though the GRE may be substituted for the GMAT. The official results of the GMAT must be on file in The Graduate College before the application for admission will be considered.

The GMAT is valid for five years after the exam date. GMAT score reports that bear the designation of “applicant's copy” are not considered official scores for admission purposes.

GMAT information bulletins and test application forms may be obtained from the Educational Testing Service, P.O. Box 6103, Princeton, New Jersey 08541-6103, U.S.A.; the University Testing Center at Texas State; or www.mba.com (http://www.mba.com). The college code for Texas State is 006667.

Document of Meningitis Immunization

Universities in Texas are required by state law to collect proof of bacterial meningitis vaccination, or proof of an exemption, for incoming students under the age of twenty-two. Magnus Health Student Medical Records (SMR) collects, reviews, and confirms our students' bacterial meningitis vaccination information. For more information on this requirement, please visit http://www.healthcenter.txstate.edu/meningitis. Contact Magnus Health SMR customer service at 877.461.4831 or service@magnushealthportal.com.

International Admission Documents

In addition to all general admission requirements, applicants with international credentials (including any study abroad or exchange course work) or English proficiency exam scores, may be required to submit the following requirements for admission consideration.

Test of English as a Foreign Language (TOEFL)/International English Language Testing System (IELTS)

English proficiency exam scores through the Test of English as a Foreign Language (TOEFL) (http://www.ets.org/toefl) or International English Language Testing System (IELTS) (http://www.ielts.org) are required of all applicants if English is not their native language or if they are not eligible for an automatic TOEFL/IELTS waiver (http://www.gradcollege.txstate.edu/intl_home/lang.html) through The Graduate College.

Fluency in English is expected of all accepted students, specifically in the areas of listening, reading, speaking, and writing; therefore, applicants must submit a TOEFL internet-based test (iBT) score of at least 78 overall or an IELTS (academic) test score of at least 6.5 overall with 6.0 in each individual module scores. Only students currently enrolled in the Texas State Intensive English (TSIE) Bridge Program may submit a TOEFL paper-based test score of at least 550 for regular admission. Please note that some programs may require a higher overall score or 4 out of 4 minimum individual iBT section scores in order to be considered for regular admission. Additionally, some programs may require that applicants submit scores for one specific type of test.

In conjunction with the Texas State Intensive English (TSIE) Bridge Program, certain programs may allow English-based conditional admission. "Bridge Admission" requires a TOEFL internet-based overall score 59-77 or an IELTS (academic) overall score of 5.5-6.0 with minimum individual module scores of at least 5.5. Please note that some programs may require 4 out of 4 minimum individual iBT section scores in order to be considered for English-based conditional admission.

All TOEFL or IELTS scores submitted for admission consideration must be less than two years old as both Educational Testing Services (ETS) and International English Language Testing System (IELTS) will not maintain or release official score records beyond this time. All TOEFL or IELTS scores must be submitted to The Graduate College by ETS or IELTS directly – score reports bearing the designation of “applicant copy” or “institutional scores” will not be considered official for admission purposes.

The TOEFL and IELTS are administered at various centers in the United States and abroad at least six times each year. Information, practice materials, and registration for these tests are found through their respective organization’s websites: http://www.ets.org/toefl for TOEFL and http://www.ielts.org/ for IELTS.

International Evaluation Fee

If an application requires the review of any non-US credentials (including any courses taken through a study abroad or exchange program) or English proficiency exam scores, the applicant must submit a non-refundable international evaluation fee of $50 in addition to the $40 application with the ApplyTexas application. No application will be considered until the necessary fees have been paid.

Immigration Documents

All immigration-related documents will be collected by the International Office. Please visit http://www.international.txstate.edu/ for more information or contact the office directly at 512-245-7966 or international@txstate.edu.

Registration and Course Credit

Since applications are for specific terms, an applicant should notify The Graduate College as soon as possible if he or she will not be enrolling in the term of admission.

Texas State utilizes an online registration system referred to as Texas State Self-Service. Texas State Self-Service can be accessed through CatsWeb (http://www.catsweb.txstate.edu). It provides step-by-step instructions on how to register online and information on how to search for courses. For more information, students should access the Office of the University Registrar’s website at http://www.registrar.txstate.edu. Registration in The Graduate College beyond the first term depends on
satisfactory progress in fulfilling any admission conditions that may have been imposed and making satisfactory academic progress.

**Registration Termination**

The dean of The Graduate College may terminate the registration of any student who fails to comply with Graduate College and/or other appropriate university regulations.

**Course Load and Overloads**

**Course Load**

At the graduate level, the full-time course load during the fall, spring, and summer is nine semester hours. Seven hours is considered ¾ time and five hours is half-time. Students may take up to fifteen hours during the fall and spring terms and up to twelve hours during the summer.

An international student on an F-1 visa must register as a full-time student each fall and spring term. As a graduate student, an international student must carry a minimum of nine semester credit hours, as required by immigration regulations, to be considered full-time.

The department or operating unit will determine the permissible course load of employees of the university under their supervision. Graduate assistants should refer to the "Salaried Graduate Student Employment Procedures" (http://www.txstate.edu/effective/UPPS/ upps-07-07-06.html) outlined in UPPS 07.07.06.

A student receiving VA benefits must check with the Veterans Affairs Office for enrollment requirements at 512.245.2641.

**Overloads**

Course loads up to eighteen hours require written approval. Only the dean of The Graduate College may authorize an overload. To request an overload, you must make a request to your major department advisor to submit a written request to the dean of The Graduate College at least three days before registration for the dean's review and approval.

**Credit Hour**

For purposes of this catalog and in accord with federal regulations regarding the definition and assignment of credit hours under section 600.0 and 600.24(f) of the Higher Education Opportunity Act, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

- not less than one hour of classroom or direct faculty instruction and a minimum of two hours of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time;
- at least an equivalent amount of work as outlined in the item above for other academic activities as established by the institution including laboratory work, internships, practicum, studio work, and other academic work leading to the award of credit hours.

A semester credit hour is defined by THECB as a unit of measure of instruction consisting of 60 minutes, of which 50 minutes must be direct instruction over a 15-week period in a semester system. Credit hours must be presented in whole numbers. Academic administrative units are responsible for ensuring that credit hours are awarded only for work that meets this requirement. Students should expect to invest a minimum of two hours of additional work for each hour of classroom or faculty instruction per week.

**Adds and Drops/Schedule Changes**

Information regarding schedule changes can be found on the Office of the University Registrar's website at http://www.registrar.txstate.edu/. Schedule changes and withdrawal dates are published each term in the official university calendar that can be found at the following website: http://www.registrar.txstate.edu/persistent-links/academic-calendar.html.

For assistance, contact the Office of the University Registrar.

**Auditing a Course**

To audit a course, a student must be admitted to The Graduate College. After the student has registered on CatsWeb, he or she must contact the Office of the University Registrar in person by the 4th class day in the summer or by the 12th class day in the fall or spring. Check the University Academic Calendar for the exact date. A student will pay the same fees as if the course were taken for credit and the course will be entered on his or her transcript record, but the student will not receive credit for the course.

Senior citizens, 65 or older, may audit courses without payment of a fee if space is available. Registration is permitted just prior to the start of the term, with reductions made by the tuition adjustment clerk, Student Business Services (JC Kellam Administration Building 188), after registering.

**Course Numbers**

Texas State follows a four-digit numbering system. The first digit indicates the level of the course: 1-freshman, 2-sophomore, 3-junior, 4-senior, 5- and 6-graduate and post-graduate, and 7-doctoral. Courses numbered 5000-6000 are open to all graduate students. Courses numbered 7000 are designed for doctoral students but may be open to other graduate students. The second digit of the course number indicates the semester credit hours the course carries. For example, a course numbered 5300 would carry three semester hours of graduate-level credit. The last two digits usually indicate the location of the course in the department's curriculum. A letter (A, B, C, etc.) or symbol (#, @, etc.) attached to a course number indicates an area of concentration within the course. Numbers in parentheses (3-4) following a course title indicate the clock hours per week spent in lecture and laboratory, respectively.

**Dropping a Class**

Dropping a class is an official action whereby a student drops one or more courses, yet remains enrolled in at least one hour. Refer to the registration instructions at http://www.registrar.txstate.edu for details on dropping a class.

1. The drop deadline is the first 60% of the term. Please refer to the academic calendar on the University Registrar’s website for the most current dates.
2. A “W” grade will be assigned automatically when a student drops one or more classes by the automatic “W” deadline, the first 60% of the term.

**Withdrawal**

Withdrawing from the university (dropping all classes) is an official action whereby a student informs the Office of the University Registrar, who
in turn informs the instructor(s) of record, that the student will cease attending all classes in which he or she is enrolled.

1. The deadline to receive an automatic “W” is the first 60% of the term. Please refer to the academic calendar on the registrar’s website for the most current dates.

2. After the automatic “W” period, faculty assign grades to students who officially withdraw from the university. Faculty assign a “W” grade only to those students who have a passing average at the time the withdrawal action is officially completed. Otherwise, faculty assigns a “U” grade.

3. Please refer to the academic calendar on the University Registrar’s website for the withdrawal deadline.

The student must contact the Office of the University Registrar in person, by letter, by email, or by fax to withdraw officially from the university. Visit the registrar’s office website at http://www.registrar.txstate.edu/ or contact the registrar’s office at 512.245.2367 for the proper procedures. Students living in university residence halls must also contact the Department of Housing and Residential Life in person, by letter, or by fax.

Course Credit

Course Credit and Level

A student must be in attendance in class, fulfill the course requirements, and be evaluated by the course instructor in order to receive course credit for that class. The attendance requirement to receive class credit does not affect enrollment for thesis or independent study.

A student must be enrolled in the course during the term or summer session in which he or she receives credit for that class. A student may not enroll in a class to:

1. Receive credit for course work performed in a preceding term or summer session.
2. Receive credit for work performed at another college or university.

Course Level

All courses required for the graduate degrees offered at Texas State are at the 5000-level or above.

Repeating Courses

A student may repeat a course but cannot receive credit for the course more than once unless the course description in the catalog specifically provides that the course may be repeated for credit. When a course is taken more than once, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Texas State hours attempted, grade points earned, and GPA. “W”, “PR”, and “I” grades are excluded.

Post-Graduate Credit

After a student is regularly admitted to a graduate degree program, they may be permitted to utilize some of the courses taken as a post-graduate, teacher certification, non-degree, or certificate student toward their graduate degree. At the recommendation of the student’s graduate advisor and with approval of the dean of The Graduate College, up to six hours of graduate-level courses taken under the post-graduate status with a grade of “B” or better may be petitioned for degree credit.

Transfer Credit

Acceptable transfer credit may be applied to a graduate degree as follows:

- up to 6 hours for degrees with 30-35 credit hours,
- up to 9 hours for degrees with 36-41 credit hours, and
- up to 12 hours for degrees with 42+ hours.

Exceptions to the standard maximums are the mathematics education doctoral program and the communication design master’s program. The mathematics education doctoral program requires completion of 78 semester hours of course work, of which 24 credit hours of transfer course work may be approved by the dean of The Graduate College upon recommendation from the Ph.D. program director. The master’s in communication design is a 60 semester hour degree program, in which a maximum of 27 semester credit hours of transfer credit may be approved by the dean of The Graduate College upon recommendation from the program’s graduate advisor. Transfer credit will be accepted and applied toward the graduate degree provided that:

1. The credit was earned in graduate courses completed in residence at a regionally accredited institution.
2. The courses are at the appropriate level and applicable to the student’s degree program at Texas State.
3. Courses have not been, and will not be, used for credit toward another degree.
4. If the credits were earned prior to the student’s admission to his or her program of study within The Graduate College, the student must have his or her departmental graduate advisor submit a written request to the dean of The Graduate College asking for acceptance of the transfer work toward the student’s Texas State degree.
5. If the credits are to be earned after the student is admitted to The Graduate College, the student must obtain prior written approval from the dean of The Graduate College who will then send a letter of good standing to the other institution before the student enrolls in the course(s) to be transferred. The student must initiate a request for a letter of good standing well in advance of the time of anticipated enrollment if the student plans to take courses at another university to complete as part of his or her Texas State graduate program. Transfer credit cannot be permitted unless a letter of good standing has been issued prior to the student’s enrollment in the course(s) to be transferred. If a student is currently working toward a graduate degree at Texas State and wishes to take a course at another accredited university to apply toward his or her degree at Texas State, the student will need to:
   a. Receive permission from the departmental graduate advisor to take a course elsewhere.
   b. Have the graduate advisor submit a written request to the dean of The Graduate College so that the dean can issue an official letter of good standing. The request from the advisor should identify the course(s) by name and number and should state what term(s) and where the student will be taking the work. If the dean of The Graduate College approves the request, a letter of good standing will be sent by the dean of The Graduate College to the university where the student will enroll.
   c. Have an official transcript of the work forwarded to the The Graduate College at Texas State as soon as the student completes the course work.
Transfer work will be accepted only if it bears a letter grade of “B” or higher, or a numerical equivalent. A grade of “Credit,” “Pass,” “Satisfactory,” etc., is unacceptable. Transfer work will not be accepted for graduate degree credit from another institution if such courses are designated as non-degree, background, preparatory, etc. No credit will be awarded until an official transcript showing the course work to be transferred is on file in The Graduate College. The student may also be requested to provide a catalog from his or her prior school that gives course descriptions for any transfer work requested. Students admitted on “Conditional Admission” or students on “Probation/Suspension” will not receive credit for transfer work taken under the aforementioned status.

Transcripts for Transfer Work
Texas State transcripts will separate transfer course work from Texas State course work. On the transcript, transfer work will be listed first, followed by Texas State course work. In each section, course work will be listed chronologically. The transcript will show the number of hours transferred, Texas State hours attempted, Texas State hours passed, Texas State grade points, and Texas State GPA.

Courses taken at other schools will not be included in the GPA at Texas State. The Texas State GPA will be the only GPA calculated toward graduation.

Background Course Work
Courses taken at another institution to fulfill background requirements at Texas State will be accepted only if such courses are of the same level as those specified on the official degree audit.

Distance and Extended Learning

Continuing Education Study
With a wide range of learning opportunities, the Office of Continuing Education offers programs that extend the resources of Texas State and contribute to the professional and economic development of Texas. Enrollment is open to all interested persons on a non-credit hour basis; therefore, the courses are not offered through The Graduate College and do not apply toward a graduate degree, nor are they considered for regular admission. For information about continuing education programs go to http://www.txstate.edu/continuinged/.

Extended and Distance Learning
The university offers many courses and programs via distance learning and at the San Marcos campus and at extended hours on evenings and weekends.

All graduate courses and programs offered to distance learners carry the same course number, title, and description as those offered at the San Marcos campus.

For F-1 international students, no more than the equivalent of one class or three credits per term may be counted toward the full course of study requirement if the class is taken online or through distance education and does not require the student’s physical attendance for classes, examination, or other purposes integral to completion of the class.

Courses offered at a distance are identified each term in the Texas State Schedule of Classes and on CatsWeb. For more information on extended and distance learning at Texas State, visit http://www.distancelearning.txstate.edu.

Correspondence Study
When factors such as family, jobs, business travel, etc. compete for time, and students find that it is difficult to schedule their on-campus classes, correspondence study offers a solution. Courses are offered through various disciplines including art, humanities, health-related fields, mathematics, psychology, modern languages and sociology. Courses are revised frequently, so students are encouraged to contact the Office of Distance and Extended Learning for current course offerings or visit the office’s website.

The office offers graduate and undergraduate courses. It is up to the individual academic departments/graduate schools at a student’s university to determine if these courses may be applied to a graduate degree. Therefore, any student who wishes to apply a graduate-level course towards a degree should determine prior to enrolling if that course will be accepted. Students may enroll in courses at any time of the year and take up to nine months to complete them. Instruction for most courses is online, and all courses offer online assignment submission.

Enrollment in a correspondence course does not constitute acceptance to the university nor to any of its graduate programs. Correspondence course work cannot be used toward a doctoral degree at Texas State. For more information on correspondence studies at Texas State and a current list of course offerings, visit http://www.correspondence.txstate.edu/.

Extension Courses
Texas State’s Office of Distance and Extended Learning also serves those persons who are unable to come to campus and who wish to earn degree credit or to pursue in-service training, as well as those who wish to enroll in college courses not normally offered through the academic departments/schools. Extension courses are offered on campus and at various off-campus locations. The times and locations for such courses depend on student need, faculty availability, and demand. Extension courses are from the regular Texas State curriculum. Registration for an extension class is completed through the Office of Distance and Extended Learning and does not constitute acceptance as a regular student at Texas State.

Degree Credit for Extension Course Work
The department chair and the dean of The Graduate College must approve extension work for it to be credited toward a graduate degree. Students must meet the admission requirements as identified under the “Master’s and Doctoral Degree-Seeking Applicants” section and be accepted in a degree program before extension work can receive degree credit. Extension course work cannot be used toward a doctoral degree at Texas State.

A maximum of 12 semester hours of graduate credit may be earned in extension courses offered by Texas State.

Extension Transfer Credit
Up to three semester hours of the total allowable six hours of transfer credit for a degree may be earned through extension courses from another accredited institution. Students admitted on “Conditional Admission” or students on "Probation/Suspension" will not receive credit for transfer work taken under the aforementioned status.

For more information on Extension Studies at Texas State, visit our website at http://www.extension.txstate.edu/.
Academic and Grading Policies

Class Attendance
It is the policy of the university to require regular, punctual attendance at all classes. However, the university recognizes that attendance policies may vary from department to department and in course to course. The university has no mandatory class attendance requirements except:

1. Each faculty member will inform students of the course attendance policy at the initial class meeting.
2. Students are responsible for understanding the attendance policy for each course in which they enroll and for meeting the attendance requirements.

Religious Holy Days
“Religious holy day” means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. In accordance with Texas Education Code Section 51.911, Texas State will allow a student who is absent from classes for the observance of a religious holy day to take an examination or complete an assignment scheduled for that absent day within a reasonable time after the absence if the student notifies the instructor of each class that they would be absent for a religious holy day. The Education Code includes excused absences for travel to and from the religious holy day observance. The student may make up class assignments or examinations without penalty within a reasonable time after the absence. Students may obtain notification forms from the Dean of Students’ Office. The student should personally deliver completed forms to the instructor for each class. The instructor will sign and date the form, thus acknowledging notification. If the student cannot personally deliver the form to an instructor, the student should mail the form to the instructor by certified mail, return receipt requested. A student who is excused under this section shall not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time. Each instructor may establish additional procedures to accommodate the needs of students who are absent from classes to observe a religious holy day. These procedures must not conflict with the state law.

Coordinating Board rules now provide for an appeal of a disagreement between the student and a faculty member over an absence related to a religious holy day. If a student and an instructor disagree about the nature of the absence being for the observance of a religious holy day, or if there is a disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the college serves as the president’s designee to hear requests for decisions of the president or the president’s designee. The president or the president’s designee must take into account the legislative intent of Education Code Section 51.911. The student and instructor shall abide by the decision in writing. The appeal to the college dean in which the course is offered, whose decision is final. In accordance with Texas State’s records retention policies, a request for an appeal of a grade decision must be filed no later than two years after the grade is issued.

Course Grades

Grades
Texas State grades are assigned as follows “A,” excellent; “B,” good; “C,” passing (not at the doctoral level); “D,” passing (not at the graduate level); “F,” failure; “I,” incomplete; “U,” unearned “F”; and “W,” withdrawn passing. A grade of “PR,” in most instances may be temporary and non-punitive, but may be assigned in selected courses where the required clock hours needed to complete requirements extend beyond the regular term or summer session. A grade of “CR” is assessed when credit only is given for a course, as in the case of the thesis course, after completion of the thesis.

Incomplete Grade
If any course work is incomplete during any term, the work must be completed by an indicated deadline arranged between the student and the course instructor. The “I” grade may be assigned when due to unusual circumstances beyond the student’s control, a significant portion of a course, such as a term paper or final examination, has not been completed. An “I” grade from Texas State will not count as hours completed until another grade is substituted for the “I.” If the course work has not been completed in twelve months’ time, the grade will automatically change to “F.”

Withdrawal Grade
A “W” grade is assigned only if a student drops a course by the published deadline. See also "Registration and Course Credit" section under “Withdrawal”.

Change of Grade
An individual course grade may be changed when the involved faculty member certifies to the Office of the University Registrar that an error was made in computing the original grade. The grade change must be approved by the department chair/school director and the appropriate college dean. Students who wish to protest a grade earned in a course should first discuss the grade with the instructor. If no resolution is reached, the student may appeal the grade to the department chair. If no satisfactory conclusion can be reached at this level, the student may appeal the grade to the college dean. Students who wish to protest a grade earned in a course should first discuss the grade with the instructor. If no resolution is reached, the student may appeal the grade to the department chair. If no satisfactory conclusion can be reached at this level, the student may appeal the grade to the college dean. In accordance with Texas State’s records retention policies, a student appeal for a change of grade must be filed no later than two years after the grade is issued.

Grade Point Average (Four-Point System)
The GPA is the number of grade points earned divided by the number of semester hours attempted. Term grade symbols have the following values:

- A = 4 points
- B = 3 points
- C = 2 points
- D = 1 point
- U/F = 0 points

Grades are not calculated for “I,” “CR,” “PR,” or “W.”

Doctoral Leave of Absence Policy
To Whom the Policy Applies
Doctoral students who have achieved candidacy, and thus have a continuous enrollment requirement during long (fall and spring) semesters, may take an approved Leave of Absence during graduate study under certain conditions and for certain periods of time. A Leave of Absence must be approved by both the student’s graduate advisor
and the dean of The Graduate College. A Leave of Absence cannot be approved retroactively or for a semester that has already begun.

**Purpose and Limitations**

Students may need to discontinue their studies ("stop out") for a short period of time for reasons of personal or family exigency. Students who do not receive an approved Leave of Absence may be denied readmission to their program when attempting to reenter the program. Students who do not receive an approved Leave of Absence but are still readmitted may experience delays in registration and/or face additional fees. An approved Leave of Absence form is on file. Leaves of Absence must not be granted for the student in order to avoid exceeding the state doctoral hour limit, to avoid paying tuition, to avoid the regulation on continuous enrollment of doctoral students, or to avoid the full-time requirement for international students.

**Access to University Resources During a Leave of Absence**

Because the Leave of Absence is intended to be taken for reasons of personal or other exigency as opposed to degree progress, there is no support — whether faculty or university resources (library, office space, etc.) — provided to the student during the Leave of Absence period; students must register if making use of university resources or faculty time. A Leave of Absence does not extend a student’s time-to-degree requirement. Discontinuing students for a semester or more, with or without a Leave of Absence, may affect the student’s eligibility for other university areas beyond The Graduate College’s domain (such as financial aid, health insurance, etc.), and the student is responsible for consulting with those offices about the impact of not maintaining enrollment in the degree program.

**Length Limitations of a Leave of Absence**

A Leave of Absence can be granted for no more than three long semesters (fall and spring) total. The exact length of the Leave must be made explicit in the Leave of Absence request. Rationale for the Leave must be documented by the applicant.

**Process for Requesting a Leave of Absence**

Doctoral students who have advanced to candidacy must fill out the Doctoral Candidate Leave of Absence form, found here [http://www.gradcollege.txstate.edu/docs/lvofabs.pdf](http://www.gradcollege.txstate.edu/docs/lvofabs.pdf), which will require justification from the appropriate graduate advisor. The form must be submitted to The Graduate College for the dean’s review and approval.

**Process for Returning to the University after an Approved Leave of Absence**

Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not an approved Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Application form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to reapply to the program through ApplyTexas.

Depending on the length of time the student is away from the university, a new graduate catalog and/or program degree requirements may be in effect. With an approved Leave of Absence, the student may opt to complete their degree under the previous degree requirements or the new requirements with the approval of the graduate advisor; if the student was away from the university for a semester or more without an approved Leave of Absence on file, the student must complete their degree under the new degree requirements.

**Honor Code**

As members of a community dedicated to learning, inquiry, and creation, the students, faculty, and administration of our university live by the principles in this Honor Code. These principles require all members of this community to be conscientious, respectful, and honest.

**We are Conscientious**

We complete our work on time and make every effort to do it right. We come to class and meetings prepared and are willing to demonstrate it. We hold ourselves to doing what is required, embrace rigor, and shun mediocrity, special requests, and excuses.

**We are Respectful**

We act civilly toward one another and we cooperate with each other. We will strive to create an environment in which people respect and listen to one another, speaking when appropriate, and permitting other people to participate and express their views.

**We are Honest**

We do our own work and are honest with one another in all matters. We understand how various acts of dishonesty, like plagiarizing, falsifying data, and giving or receiving assistance to which one is not entitled, conflict as much with academic achievement as with the values of honesty and integrity.

**The Pledge for Students**

Students at our university recognize that, to ensure honest conduct, more is needed than an expectation of academic honesty, and we therefore adopt the practice of affixing the following pledge of honesty to the work we submit for evaluation:

"I pledge to uphold the principles of honesty and responsibility at our university."

**The Pledge for Faculty and Administration**

Faculty at our university recognize that the students have rights when accused of academic dishonesty and will inform the accused of their rights of appeal laid out in the student handbook and inform them of the process that will take place:

"I recognize students’ rights and pledge to uphold the principles of honesty and responsibility at our university."

**Addressing Acts of Dishonesty**

Students accused of dishonest conduct may have their cases heard by the faculty member. The student may also appeal the faculty member’s decision to the Honor Code Council. Students and faculty will have the option of having an advocate present to insure their rights. Possible actions that may be taken range from exoneration to expulsion. Information about the Honor Code Council and its policies and procedures may be found at [http://www.txstate.edu/honorcodecouncil](http://www.txstate.edu/honorcodecouncil).
Academic Information for Graduate Assistants (GA's)

A prospective graduate/doctoral assistant must be enrolled as a regular, degree-seeking student in The Graduate College. Graduate/doctoral assistants may be employed as teaching assistants, instructional assistants, research assistants, or graduate assistants in either an exempt or non-exempt status from the Fair Labor Standards Act (FLSA). The information below can also be found in UPPS 07.07.06 by clicking on the link here: http://www.txstate.edu/effective/UPPS/ upps-07-07-06.html.

Types of Graduate Assistantships

- **Graduate Teaching Assistants and Doctoral Teaching Assistants (GTA/DTA)** are employed by an academic department, paid from faculty salaries and reported as the “teacher of record” for an organized undergraduate class. Graduate teaching assistants and doctoral teaching assistants receive a faculty contract for a semester or the academic year, and are paid on a monthly basis, and are exempt from The Fair Labor Standards Act (FLSA) under the learned professional exemption.

- **Graduate Instructional Assistants and Doctoral Instructional Assistants (GIA/DIA)** are employed by an academic department, paid from faculty salaries, but are not reported as the “teacher of record.” Graduate instructional assistants and doctoral instructional assistants are responsible for a specific group of students (typically undergraduate students) and assign some portion of these same students’ grades. If graduate students are assigned as instructional assistants in graduate courses, they cannot grade other students’ work or have access to their grades. In rare circumstances, the dean of The Graduate College will allow an exception for doctoral instructional assistants assigned to master’s level classes, provided there is no conflict of interest. The academic department may pay graduate instructional assistants’ salaries for those assisting in the operation of a lab or an activity recitation group from course fees collected for this purpose. Graduate instructional assistants and doctoral instructional assistants are normally appointed for a semester or the academic year, paid on a monthly basis, and are exempt from the FLSA under the learned professional exemption.

- **Graduate Research Assistants and Doctoral Research Assistants (GRA/DRA)** are employed by a department or university office and may receive pay from grant or university funds. Chapter 10 of the US Department of Labor’s Field Operation Handbook defines research assistants as students “engaged in research in the course of obtaining an advanced degree and the research is performed under the supervision of a member of the faculty in a research environment provided by the institution under a grant or contract.” If employed on a grant, the work performed must directly relate to the objectives of the grant. Graduate research assistants and doctoral research assistants can be appointed for a semester, the academic year, or the duration of a research project or any portion thereof, and paid on a monthly basis. They are exempt from the FLSA under the graduate research exemption, as provided by the June 28, 1994 DOL opinion letter #1263.

- **Graduate Assistants and Doctoral Assistants (GA/DA)** are employed by a department or university office and may receive pay from grant or university funds. Responsibilities may include research (not under the supervision of a faculty member), technical assistance, and institutional support. To avoid conflicts of interests, graduate and doctoral assistants cannot have access to records of graduate students of their degree granting department. Graduate Assistants and Doctoral Assistants who have access to records must be FERPA trained and sign a confidentiality agreement. Within this role, there are two types of statuses:
  - **Exempt Status**: A Graduate/Doctoral assistant is considered exempt if the job is not subject to the minimum wage and overtime provisions of the Fair Labor Standards Act. The Human Resource Office is responsible for determining the exemption/non-exemption status of a position. These assistants are required to record working times on an exception basis and are not eligible for paid leave, including holidays.
  - **Non-Exempt Status**: A Graduate/Doctoral assistant is non-exempt if the job is subject to the minimum wage and overtime provisions of the Fair Labor Standards Act. The Human Resource Office is responsible for determining whether students need to record working times on an exception basis and are not eligible for paid leave including holidays. Non-exempt students who work over 40 hours in a week will be compensated at time and one-half. Graduate assistants cannot hold an exempt and non-exempt position concurrently.

Academic Expectations

All assistants must maintain a minimum 3.0 Texas State GPA in course work leading toward completion of a graduate degree.

Course Load

The minimum course load required during a fall/spring term of employment is nine graduate semester hours. Students who enrolled in nine graduate semester hours during the previous spring and fall terms are not required to enroll during the summer; otherwise enrollment in three graduate hours is required for the summer term. Assistants taking more than 12 graduate semester hours during the fall/spring terms must have approval from the dean of The Graduate College. Similarly, assistants taking more than six graduate semester hours per summer session must have approval from the dean of The Graduate College.

Required Teaching Assistantship Courses

As a condition of employment, all GTAs, DTA, GIA, and DIA must complete a total of three hours of professional development course work. The course titles for the required in-service teaching courses vary by department. Some departments offer one three-hour course, some departments offer a two-hour and one-hour course for a combination of three hours, and other departments offer a one-hour course to be taken three times. Assistants enroll in the course offered by the department in which they are employed during their first term of employment and continue to enroll in subsequent terms until the three hour requirement is met, as applicable. **Students may not enroll in this course work beyond the required three hours.** Up to a total of three semester hours may be used with other graduate courses to satisfy the minimum nine semester hours of enrollment required as a condition of employment. The University administration will cover the fees and tuition for the required teaching assistantship course (up to a total of three semester credit hours only).

Allowable Work Hours

During the fall and spring terms, assistants may work up to 50% FTE (20 hours per week). An exception request with justification from the graduate advisor or department chair approved by the dean of The Graduate College must be on file with The Graduate College for employment intended over 50% FTE. The graduate dean may approve up to a maximum of 75% FTE (30 hours per week) during the fall and spring terms.
Teaching Load for Graduate/Doctoral Teaching Assistants
The usual semester hour teaching load during the fall or spring term is six semester hours or two classes. The usual semester hour teaching load during a six-week or eight-week summer session is one course (up to a maximum of four hours). A twelve-week summer session carries a normal teaching load of six hours. The dean of The Graduate College must approve any exceptions to these teaching loads.

These policies are designed to protect the graduate/doctoral assistant from bearing an unfair employment and course load, which facilitates the timely completion of the degree. Refer to UPPS 07.07.06 (http://www.txstate.edu/effective/UPPS/UPPS-07-07-06.html), Salaried Graduate Assistant Employment Procedures, for more detailed information regarding salaried graduate student employment procedures.

Assistantship Orientation
Most departments conduct one or more orientation sessions for new assistants. Newly-hired assistants should inquire about orientation attendance requirements with the department or university office at the time they apply for employment.

Academic Eligibility Requirements
To see a detailed list of academic and enrollment requirements needed to be eligible for a specific assistantship position, please view The Graduate College’s guide here: http://www.gradcollege.txstate.edu/docs/gapcr_checklist.pdf.

How to Apply for a Graduate Assistantship
Applications for assistantships should be made directly to the department or university office following their application procedure. It is also possible to apply for certain assistantship positions online through Career Services at Jobs4Cats (http://www.careerservices.txstate.edu/resources/jobs4cats.html) here: http://www.careerservices.txstate.edu/resources/jobs4cats.html.

Selection and Appointment
Offers of assistantships are contingent on available funds and admission of the applicant to a degree seeking graduate program. Graduate assistantship appointments are normally made for a summer session semester term, four and one half month academic semester, nine month, or 12 month basis. The term of an appointment of a Research Assistant may be based on the period of available grant funding. Renewal is at the discretion of the department or university office for which the student is employed. In all cases, the account manager or the manager’s designee will decide who is hired in accordance with the qualifications and standards required for the position.

Supervision and Evaluation
Teacher Assistants are the Instructor of Record for the course(s) assigned, however they are under the direct supervision of a faculty member experienced in the teaching discipline. Instructional Assistants are supervised by the Instructor of Record or Laboratory Coordinator of the courses assigned. Research Assistants are usually supervised by the faculty member or office supervisor with whom they work. All assistantship positions undergo regular evaluation as required by the department in which they are employed.

Salaries and Benefits
Assistants are paid in accordance with the following University Pay Plan salary schedule which can be viewed at http://www.hr.txstate.edu/univpayplan/student.html.

Eligibility for In-state Tuition
Certain assistantship types may qualify for tuition waivers through the office of Student Business Services. For more details, please refer to the Tuition Waivers and Exceptions list here: http://www.sbs.txstate.edu/students/waivers-exemptions.html.

Health Insurance
Assistants, employed at least half-time (50% FTE) for a minimum period of four and a half consecutive months, are eligible for employer group insurance plans administered by the Human Resources Benefit Office. Assistants are able to make a choice between the Student Insurance Plan administered by the Student Health Care Center and the Employer Group Insurance Program administered by the Human Resources Office. Also, some assistants may already be covered by insurance outside the University and, therefore, may choose not to enroll in a health insurance option offered by Texas State. Assistants should refer to the comparison summary on the Human Resources Office web site in order to make an educated decision.

Non-Discrimination
No person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under, any program or activity sponsored or conducted by Texas State University on any basis prohibited by applicable law, including race, color, age, national origin, religion, gender, sexual orientation, or disability.

Probation and Suspension
A graduate or post-graduate student as defined in this catalog is required to maintain a 3.0 cumulative grade-point average for all Texas State 5000-, 6000-, and 7000-level courses (excluding required leveling courses) listed on a student’s degree audit for a graduate degree. Cumulative GPA’s are computed at the end of the fall term, the spring term, and the summer.

If a graduate degree seeking student’s cumulative GPA falls below 3.0 during any term of enrollment at Texas State, the student will be placed on academic probation. In the next term of enrollment, the student must raise his or her cumulative Graduate College GPA to 3.0 or above or be suspended from The Graduate College. When the student has achieved a cumulative GPA of at least 3.0 at the end of the term of probation, the student will be notified that they have been removed from probation status.

Readmission
A student on suspension may petition his or her graduate advisor for permission to re-enroll in The Graduate College. If the graduate advisor supports the request, the graduate advisor will make a recommendation for reinstatement to the dean of The Graduate College, who makes the final decision. Each readmission decision is made on an individual basis. Typically a student would be reinstated six months after suspension, but, in some cases, reinstatement is permissible prior to the sixth month period. If a student is readmitted after being suspended, the student must maintain a 3.0 cumulative GPA or be suspended again. Individual
graduate programs may also impose additional cumulative GPA or course restrictions for their students.

Change of Major

Graduate students on probation may not change programs or admission status without a recommendation and special request from the prospective department. The dean of The Graduate College will review the request when making the final decision. If a suspended student wants to be readmitted (after the six months of the first suspension has lapsed) but to a different program, that student must resubmit an application subject to the approval of the dean of The Graduate College. A recommendation from the advisor of the new major program must also be submitted to the dean of The Graduate College for final approval.

Financial Aid

If a student is receiving financial aid, the student must also meet the satisfactory academic progress requirements for financial aid. See the “General Information” section for further details.

Degree Information

Degree Audit

On the admission application, a student must identify the following choices: major, minor, cognate, no minor option, area of concentration or specialization (depending on what is required in the program of study), degree type (M.A., M.Ed., M.S., etc.), and thesis or non-thesis track. After being admitted to a program, the student may access a degree audit from Texas State Self-Service (CatsWeb). The degree audit will guide the student in selecting courses for registration each term. The student should meet with his or her graduate advisor during the first term of admission to discuss options and review the degree program. Requests for changes to a student's degree audit must be submitted by the student’s advisor to the dean of The Graduate College for approval.

Because graduate degree programs are individualized according to degree type and student goals, a student’s particular degree program may exceed the number of hours identified for the major in this catalog.

Students receiving Veterans Administration educational assistance must provide the Texas State Office of Veteran Affairs with a copy of the graduate degree audit.

Background/Leveling Course Requirements

Generally, background requirements are placed on the degree audit when a student is deficient in certain course work. Students should refer to the appropriate departmental pages in this catalog for specific information about background/leveling requirements or contact the graduate advisor for their program of study.

Course work identified on a student’s official degree audit as background/leveling is not used in the computation of the graduate GPA. However, this course work is computed in the overall GPA of the Texas State transcript for students graduating prior to fall 2011. See the “Grade-Point Requirements for Graduation” section. Any course work required for background/leveling is not awarded graduate degree credit.

Graduate advisors may stipulate that one undergraduate course be taken as a background requirement. All other background course deficiencies must be satisfied by the student enrolling in graduate level leveling courses.

Degree Time Limit

A program leading to a master’s degree must be completed within six years from the date of a student’s initial enrollment in graduate courses used toward the degree. No credit will be applied toward the master’s degree for course work completed more than six years before the date on which a student’s degree is to be conferred. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for time extension must be submitted to a student’s graduate advisor, who in turn submits a recommendation to the dean of The Graduate College for final approval. Doctoral students should refer to the appropriate departmental section of this catalog for specific time limit requirements regarding advancement to candidacy and dissertation completion.

99 Hour Rule

In accordance with Texas Education Code, Section 54.066, the university will incur a penalty once a doctoral student accumulates 100 or more doctoral semester credit hours. In response, the Texas State University System has a tuition structure (excessive hours fee) in which a doctoral student will be charged tuition at a rate equivalent to non-resident tuition for all doctoral semester credit hours exceeding 99. Courses taken by a doctoral student at the master’s or undergraduate level will not count towards the 99 hours. If the student is admitted to a doctoral program from the bachelor’s degree, the count begins after 30 hours of graduate course work. This tuition structure applies to Texas residents as well as out-of-state residents and international students who were eligible to be charged tuition at the resident rate as a result of scholarship and fellowship awards or employment as graduate assistants. Students should contact their doctoral program director regarding the appeal process.

Catalog

A student completing a master’s program within a six year time limit may graduate under the catalog in effect when he or she began the graduate program. A student completing a doctoral program within a ten year time limit may graduate under the catalog in effect when he or she began the graduate program. In certain programs, additional hours may be added to the degree for accreditation purposes. Should a program change occur, a student must submit a written request to The Graduate College to graduate under the new program requirements. A student who has questions should contact The Graduate College at 512.245.2581 and the graduate advisor.
General Graduation Requirements

Application for Graduation

Applying for Graduation

A student must apply for graduation by the published deadline date posted on the University Academic Calendar. That date, as well as other deadline dates, and instructions outlining how to apply for graduation are posted on The Graduate College website each term. For further information regarding the graduation application deadline, contact The Graduate College at 512.245.2581 or visit our website at: http://www.gradcollege.txstate.edu/Current_Students/Graduation.

Letter of Completion

If a student fails to apply for graduation by the published deadline date, a letter of completion may need to be issued and the student’s diploma will be mailed the following term.

Reapplication for the Degree

If a student fails to complete the degree requirements in time for his or her planned graduation, the student should notify The Graduate College. The student must then reapply for the next (or later) graduation within the period announced in the University Academic Calendar for degree application.

REMEMBER, IT IS THE STUDENT’S RESPONSIBILITY TO ENSURE THAT ALL GRADUATION REQUIREMENTS HAVE BEEN MET.

Comprehensive Examination

All candidates for graduate degrees must pass one or more comprehensive examinations, either written, oral, or both, covering at least the field of concentration and the thesis or dissertation if one is written. Students seeking more than one degree must take a comprehensive examination for each degree major. The examination for a master’s degree may not be taken until the student has completed at least 18 semester hours of graduate degree credit and may not be taken before the final term if the student has a grade deficiency. Master’s degree students may take the comprehensive exam without being enrolled in course work. However, an F-1 non-immigrant international student must contact the International Office at 512.245.7966 to verify that he or she is in lawful F-1 status, especially if the comprehensive examination is the final requirement remaining to complete his or her academic program.

Arrangements for the examination may be made with the student’s graduate advisor or the department chair. The Master’s Comprehensive Examination form or the Dissertation Defense Report form must be filed in The Graduate College at least ten days before the commencement at which the degree is to be conferred. The department is responsible for submitting the report to The Graduate College.

GPA Requirements for Graduation

To be eligible for graduation, a student must have a GPA of at least 3.0 for each major or minor/cognate listed on the degree audit. Some degree programs may also call for higher minimum requirements. A final course grade of "C" or higher is required for any graduate course that could be applied towards a graduate degree at Texas State. In addition, no grade earned below "B" on any graduate course may apply toward a doctoral degree at Texas State.

Background/Leveling Work

Background/leveling work is not computed in the graduation GPA requirement, nor is graduate-degree credit granted for background work for the degree to be earned.

Incomplete Grades

Incomplete grades should be cleared through the Registrar’s Office at least ten days before the commencement for which the degree is to be conferred.

Hours Requirements

Graduate degree programs range from 30-99 hours of course work. Most master’s degree programs require a minimum of 36 semester credit hours with a maximum of 80. Students obtaining certification may be required to complete additional hours.

Doctoral students should refer to the appropriate departmental section of this catalog for specific credit hours to satisfy degree requirements.

Residency Requirement

Doctoral students must satisfy a one-year residency requirement defined as 18 graduate credit hours (as part of the required hours of course work) taken in residence at Texas State during consecutive fall, spring, and summer terms.

Recommendation for the Degree

The dean of The Graduate College certifies candidates for graduation after the completion of all requirements for the appropriate graduate degree and with the approval of the departments concerned. Degrees are conferred publicly at the close of the fall term, the spring term, and the second summer session.

Thesis Requirements for a Master’s Degree

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing andSubmitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to his or her thesis committee. The required thesis proposal form may be obtained from The Graduate College or at http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Forms. After signing the form and obtaining committee members’ signatures, the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the
end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses in their field, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master's degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted on the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). NOTE: MFA theses will have a permanent embargo and will never be published to Digital Collections.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

Dissertation Requirements for Doctoral Degrees

Dissertation Committee

The dissertation committee must be composed of approved doctoral graduate faculty members. The minimum number of committee members varies by doctoral program. The student should consult with the doctoral program director regarding committee composition. To form the dissertation committee, the Dissertation Committee Request form must be completed and signed by the student, the committee members, the committee chair, the doctoral program director, and the department chair and then forwarded to the dean of The Graduate College for approval and signature. The required Dissertation Committee Request form may be obtained from The Graduate College or at http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Forms.

Dissertation Proposal

The student must submit the dissertation proposal and an official Dissertation Proposal form to his or her dissertation committee. The required Dissertation Proposal form may be obtained from The Graduate College or at http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Foms. After signing the form and obtaining committee members’ signatures, the doctoral program director’s signature and the department chair’s signature, the student must submit the Dissertation Proposal form and one copy of the proposal to the dean of The Graduate College for approval before proceeding with research on the dissertation. If the dissertation research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the dissertation research involves vertebrate animals, the Dissertation Proposal form must include the Texas State IACUC approval code.

Each Ph.D./Ed.D. program prepares its own procedures for the dissertation proposal defense. The procedures may be obtained from the doctoral program director. Following the dissertation proposal defense, members of the dissertation committee, the doctoral program director and the department chair sign the Defense of the Dissertation Proposal form. The form is then submitted to the dean of The Graduate College. The required Defense of the Dissertation Proposal form may be obtained from the office of The Graduate College or at http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Foms.
Dissertation Enrollment and Credit

A Ph.D./Ed.D. student may begin enrolling in a dissertation course during the term following completion of required course work as specified by the Ph.D./Ed.D. program. Once the student begins enrolling in a dissertation course, the student must continue to enroll in a dissertation course each term in which the student receives direct dissertation supervision or guidance and/or in which the student is using university resources until the dissertation has been completed, defended, and submitted to the Texas State Alkek Library. The minimum hours of required dissertation credit varies by Ph.D./Ed.D. program. The only grades assigned for dissertation courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a dissertation course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the dissertation is completed. The minimum number of hours of dissertation credit ("CR"), as specified by the Ph.D./Ed.D. program, will be awarded only after The Graduate College has received the Survey of Earned Doctorates, and the dissertation has been approved by The Graduate College and released to Alkek Library.

A student must be registered for a dissertation course during the term or Summer I (during the summer, the dissertation course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Deadlines and Approval Process

Dissertation deadlines are posted on the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed dissertation must be submitted to the chair of the dissertation committee on or before the deadlines listed on The Graduate College website.

The following must be submitted to The Graduate College by the dissertation deadline listed on The Graduate College website:

1. The Thesis/Dissertation Committee Approval form, bearing original signatures of the student and all committee members.
2. One (1) PDF of the dissertation in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option). Some doctoral programs may require additional copies; check with the doctoral program director regarding additional program requirements.

After the dean of The Graduate College approves the dissertation, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). Ph.D./Ed.D. students must submit the completed Survey for Earned Doctorates (SED) online by 5pm on the Thursday two weeks prior to commencement. This deadline is also available on The Graduate College website, listed above.

No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Tuition and Fees

The following are general descriptions of the various tuition and fees charged for registration for academic courses. Refer to http://www.sbs.txstate.edu/billing/fee_definitions.html for the most current information on the amounts charged for tuition and fees. Texas State reserves the right to change tuition and fees, in keeping with the actions of the Texas Legislature, the Texas State University System Board of Regents, and university administration.

Tuition
Faculty and staff salary increases, new faculty and staff positions, new academic programs and other strategic initiatives, and financial aid.

Student Service Fee
Activities that involve or directly benefit students that are separate and apart from regularly scheduled academic functions.

Student Center Fee
Operate and maintain Student Center. (Fee is waived for students enrolled exclusively in off-campus courses.)

Bus Fee
Operate shuttle buses. (Fee is waived for students enrolled exclusively in off-campus courses.)

Computer Services Fee
Classroom technology, academic computer labs, and campus connectivity.

Student Publications Fee
Pays for administrative publications. (Does not pay for The University Star or the Pedagog yearbook.)

Recreational Sports Fee
Operate and maintain Rec Sports Center and Campus Rec operations. (Fee is waived for students enrolled exclusively in off-campus programs.)

ID Card Services Fee
Supports the operation of the Bobcat Card and the Texas State University One Card System which provides access, identification, and debit card functionality.

International Education Fee
Scholarships for students studying abroad

Medical Service Fee
Basic operations of the Student Health Center. (Fee is waived for students enrolled exclusively in off-campus programs.)

Off-Campus Fee
All students enrolled in classes held at off campus locations are required to pay $30 per hour that will help defray the cost of services provided at these locations.

Note: For students enrolled in both on-and off-campus courses, the off-campus fee is in addition to all other fees.

Electronic Course Fees
An electronic course fee of $50 per hour will be charged for courses taught via the internet or hybrid instructional method. Same as off-
campus, fees may be waived if enrolled exclusively in electronic course and/or off-campus courses.

Other Special Fees and Charges
(In addition to registration fees)

Laundry Service Fees for Physical Education Uniforms

Laundry Service Fees
For individuals who wish to use the university physical education uniforms, fees are as follows:

- Student $7.00 per summer term
- Faculty/Staff $50.00 per twelve months

Additional Fees and Expenses

International Evaluation Fee
If an applicant is considered for admission on the basis of foreign credentials, the student must submit a non-refundable international evaluation fee of $50, in addition to the $40 application fee, with the application for admission to The Graduate College. No applications will be considered until the necessary fee is paid. International Students who have earned a bachelor’s degree from Texas State and do not require the F-1 visa do not have to pay the $50 international evaluation fee.

International Students Operations Fee
International students with an immigration status of “F-1” or “J-1” will be charged an international student operations fee in the amount of $60 per long term/$30 per summer session for the maintenance of records, compliance with government regulations, and services for nonimmigrant students.

Mandatory Health Insurance for International Students
All International students on non-immigrant visas are required by university policy to have health insurance coverage while at Texas State University.

1. International students will be required to purchase the Blue Cross Blue Shield student health insurance plan endorsed by the university.
2. Students will have to purchase the health insurance directly through Academic Health Plans.
3. Students with existing health plans may qualify for a waiver. Qualifying plans can be found in the link below.

Detailed information with instructions on how to purchase the health insurance or submit documents to request a waiver will be sent to international students by the Student Health Center. The health insurance plan must be purchased or a waiver approved prior to the start of classes.

Questions about the international student health insurance requirement should be directed to the Student Health Center at 512-245-2161. Please feel free to visit the website at http://www.healthcenter.txstate.edu/international for more information.

Auditing Fees
Where auditing of a course is permitted, all fees will be the same as if the course were taken for credit. Senior citizens, 65 or older, may audit courses without payment of a fee if space is available.

Fee Reduction
Qualifications
A master’s or doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054, if the student is registered for thesis or dissertation credit only and provided such credit is the final credit hour requirement for the degree in progress. Only Texas residents can qualify for this fee reduction.

Procedure
If a student meets the above qualifications, these are the steps to follow during registration:

1. Register on CatsWeb. Immediately after completing the registration process, contact The Graduate College to request a “Fee Reduction Verification of Enrollment” form.
2. The Graduate College will verify student eligibility to obtain reduction and then forward the Fee Reduction Verification of Enrollment form to the Student Business Services office, which will adjust the bill.
3. The adjustment should be made before paying fees if possible, but not later than the 12th class day (4th class day in summer terms).

Student Financial Obligations
Students are expected to meet financial obligations to the university when they are due. Tuition is due on the date given in the academic calendar, and students are not entitled to attend classes unless the tuition bill has been paid in full or in accordance with an approved payment plan. Refer to the Student Business Services website (http://www.sbs.txstate.edu/students/payment-options.html) for detailed information on payment options and requirements of payment plans.
Failure to pay the amount owed in the allotted time, or payments made with checks that are returned to Texas State unpaid by the bank may result in any or all of the following:

1. Dismissal from the university,
2. Withholding of future registration privileges,
3. Withholding of grades or an official transcript,
4. Withholding the conferring of a degree,
5. Bar against re-admission for the student,
6. Warrant hold with the State of Texas,
7. Referral of debt to a collection agency.

Late Registration Fee
A late fee will be charged if a student registers during the late registration period.

Campus Parking/Vehicle Registration
Every student, faculty, and staff person who operates or parks a vehicle on campus must:

1. register the vehicle with Parking Services;
2. purchase a permit;
3. properly display the permit any time the vehicle is parked on campus;
4. become familiar with and abide by the Traffic and Parking Rules.

The rules are enforced at all times throughout the year. The purchase of a permit and registration of the vehicle do not guarantee a parking space. Residence hall students must first submit an application to the Parking Services office before bringing a vehicle to campus. Residence hall parking spaces are limited, and it is recommended that on-campus residents not bring a vehicle to campus unless absolutely necessary. Commuters may register their vehicles on-line at http://www.parking.txstate.edu/.

Fees for vehicle registration will be published each year in the official rules and regulations on the Parking Services website. Additional information concerning the purchase and issuance of parking permits may be obtained by contacting Parking Services at 512.245.2887.

Payment of Fees
The university reserves the right to change fees in keeping with the acts of the Texas Legislature and the Board of Regents, Texas State University System.

Registration fees must be paid before classes begin. Payment may be made by check or money order payable to Texas State University. Students can make on-line payments using E-Checks or Credit/Debit Card. Credit/Debit Cards are accepted on-line only. For credit card or electronic check payments log on to http://www.sbs.txstate.edu/.

Please note:

- A 2.75% convenience fee with a minimum $3 per transaction fee is applied to credit/debit card payments. The convenience fee is not collected by the university and is therefore non-refundable.
- Mailed payments must be received — not postmarked — by the due date. Students must make allowances for any postal delays.
- Students must have their NetID and password to access their account.

Tuition/fees and room/board may be paid through the following alternatives:

1. Payment for tuition, fees, room, and board in full. See the Registration Information booklet for specific dates.
2. Enrollment in a payment plan.

During the fall and spring terms, a down payment of 30% is due at the time of enrollment into the payment plan. Two additional installments of the remaining balance will be due on the designated due dates. See the Registration Information booklet for specific dates.

During the summer term, a down payment of 50% is due at the time of enrollment into the payment plan. The payment plan is only available for the first part of term. One additional installment of the remaining balance will be due on the designated due date. See the Registration Information booklet for specific dates.

A STUDENT WHO FAILS TO MAKE FULL PAYMENT OF TUITION AND FEES, INCLUDING ANY INCIDENTAL FEES, BY THE DUE DATE MAY BE PROHIBITED FROM REGISTERING FOR CLASSES UNTIL FULL PAYMENT IS MADE. A STUDENT WHO FAILS TO MAKE PAYMENT PRIOR TO THE END OF THE TERM MAY BE DENIED CREDIT FOR THE WORK DONE THAT TERM.

Returned Checks
If a check or EFT is returned unpaid for any reason other than the admitted error of the bank, the student must pay for the returned check with cash, cashier’s check, money order or credit card (MasterCard, VISA, Discover, Diners Club or American Express) immediately. A $30 service fee is assessed for each returned check. Until the check is paid, the student will be on “Cash Only” status. Cash Only status is a denial of check cashing privileges on campus.

Individuals who have three returned checks or EFT within a 12-month period will be placed on Cash Only status.

Stopping payment on a check for fees or allowing the check to be returned unpaid by the bank for any reason does not constitute official withdrawal. Failure to follow procedures for withdrawing from Texas State may result in financial penalties and delays with future enrollment in the university.

Residency for Tuition Purposes
The determination of residency classification for tuition purposes is governed by statutes enacted by the Texas Legislature and rules and regulations promulgated by the Texas Higher Education Coordinating Board. A student or applicant is classified either as a resident of Texas, a non-resident, or a foreign student for tuition purposes. An individual’s residency classification is based on information from his or her admission application. If an applicant or student is classified as a non-resident and wishes to be considered for reclassification as a resident, it is necessary to submit the Residency Core Questions available from the Office of Undergraduate Admission. Documentation may be requested by the institution in order to resolve issues raised by the information provided in response to the Core Residency Questions.

Chapter 21 of the Texas Higher Education Coordinating Board Rules includes the following provisions covering some of the more common residency situations. They are neither exhaustive nor complete and
Determination of Residence Status

1. The following persons shall be classified as Texas residents and entitled to pay resident tuition:
   a. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic term in which the person enrolls in an institution.
   b. a person who established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.
   c. a dependent whose parent established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.

2. The following non-U.S. citizens may establish a domicile in this state for the purposes of subsection (a) (2) or (3) of this section:
   a. a Permanent Resident;
   b. a person who is eligible for permanent resident status;
   c. an eligible nonimmigrant that holds one of the approved types of visas. A complete list is available on the Coordinating Board website at http://www.thecb.state.tx.us/Rules/;
   d. a person classified by the USCIS as a Refugee, Asylee, Parolee, Conditional Permanent Resident, or Temporary Resident;
   e. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS;
   f. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration Nationality Act 240A (b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; and
   g. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the "registry" program (8 United States Code 1259), or the Special Immigrant Juvenile Program (8 USC 1101(a) (27) (J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.

3. The domicile of a dependent's parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (a) (1) of this section.

4. A domicile in Texas is presumed if, at least 12 months prior to the census date of the term in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, or is married to a person who has established a domicile in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.

5. The temporary absence of a person or a dependent's parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person's ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent's parent shall provide documentation of the reason for the temporary absence.

6. The temporary presence of a person or a dependent's parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.

Exceptions

A non-resident or foreign student may qualify to pay in-state tuition. Students should direct questions and documentation for these waivers to Student Business Services.

1. The student or student’s spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered to be Texas residents.)

2. The student or student’s spouse or parent is employed at least half-time as a teaching or research assistant in a position related to the assistant’s degree program at a Texas public institution of higher education.

3. The student or student’s spouse or parent is employed at least half-time on a regular monthly salaried basis as a teacher or professor at a Texas public institution of higher education.

4. The student holds an approved competitive scholarship from Texas State of at least $1000 for the academic year or summer awarded by an official Texas State scholarship committee.

5. The student or student’s spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program. (Note: Go to http://www.thecb.state.tx.us/Rules/ Chapter 21, Sub Chapter X for a list of qualified employers.)

6. The student is a New Mexico resident who resides in a county bordering Texas.

7. The student is a Louisiana resident who resides in a parish bordering Texas.

8. The student is a resident of Mexico who has demonstrated a financial need as determined by the financial aid office.

Refund of Fees

Refer to the "Refund Information" section of the Student Business Services (SBS) website for detailed information of the university’s refund policy: http://www.sbs.txstate.edu/students/refunds.

Two scenarios that may result in students becoming eligible for a refund are:

- Scenario A: The student or student’s parent has relocated to Texas for employment or service with the U.S. Armed Forces.
- Scenario B: The student or student’s parent has relocated to Texas for educational purposes.

In both scenarios, the student’s eligibility for the refund may be determined by providing adequate documentation, such as a change of address, employment contracts, or military orders, to Student Business Services.
• **Withdrawal** – Dropping all classes. Students must do this through the Office of the University Registrar.

• **Dropping a class** – Removing one or more classes from the student's schedule while remaining enrolled in at least one course.

Please note: The refund schedule for withdrawal and dropping a class are not the same. Refund schedules, specific to each semester, can be found on the "Refund Information" page of the SBS website.

### College of Applied Arts

**Dean**
T. Jaime Chahin, Ph.D.
Agriculture Building Room 300
T: 512.245.3333 F: 512.245.3338
http://www.appliedarts.txstate.edu/

**Assistant Dean**
Donna Vandiver, Ph.D.

**Department Chairs/School Directors**

- Aerospace Studies—Lt. Col. Matthew S. Fehrman
- Agriculture—Donna Vandiver, Ph.D., Interim
- Criminal Justice—Christine Sellers, Ph.D.
- Family and Consumer Sciences—Rodney C. Runyan, Ph.D.
- Military Science—Lt. Col. Jose A. Garcia, M.A.
- Occupational, Workforce, and Leadership Studies—Mary Jo Biggs, Ph.D., Interim
- Social Work—Karen Knox, Ph.D., Interim

The College of Applied Arts' mission is to prepare undergraduate and graduate students for careers through programs of high quality in academic, professional, and technical areas; to further faculty excellence in teaching supported by quality scholarship; and to enhance our involvement with local, state, national, and international constituencies.

### Department of Agriculture

Agriculture Building Room 206
T: 512.245.2130 F: 512.245.3320
http://www.ag.txstate.edu/

The Department of Agriculture at Texas State prepares students to work as professionals in the agriculture industry, in leadership and management positions, and in educational settings such as community colleges or public schools. The department offers an emphasis on teaching development with research possibilities. The campus is located near the Freeman Center, a 3,500-acre, university-operated teaching and research ranch that provides a unique learning environment. Agricultural education has a long history at this university. When Southwest Texas State Normal School (now Texas State University) was created in 1899, it was charged with the responsibility of teaching agriculture to teachers who were training to work in rural schools. Today, agricultural education students enjoy a unique education experience with practical, hands-on classes combined with valuable educational insight. A variety of courses are offered such as Research Methods, Adult Education, Curriculum Development, Philosophy of Agricultural Education, and Methods of Technological Change, all of which help build a strong foundation to a successful career in agricultural education.

### Master of Education (M.Ed.)

- Major in Agricultural Education (p. 668)
- Minor
  - Agricultural Education (p. 671)

Angirasa, Aditi K, Professor, Agriculture, Ph.D., Texas A&M University
Cade, Tina Marie, Professor, Agriculture, Ph.D., Texas A&M University
Mix, Kenneth D, Assistant Professor, Agriculture, Ph.D., Texas State University
Morrish, Douglas G, Associate Professor, Agriculture, Ph.D., Texas A&M University
Richardson, Carl R, Professor, Agriculture, Ph.D., Univ of Illinois Urbana-Champaign

### Masters of Education (M.Ed.), Major in Agricultural Education

**Major Program**

The master’s program offered through the department prepares students to work as professionals in the agriculture industry and in positions of leadership and management in secondary schools and adult education.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/aged.html.

**Degree Requirements**

The department offers an emphasis on teaching development with research possibilities. A thesis or non-thesis degree may be selected. The major and supportive courses are to be taken with the advice and consent of the student's advisory committee, which consists of three or more faculty selected with the help of the graduate advisor.

**Course Work Requirements**

**Non-thesis Option with Minor**

Agricultural Education Electives
If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library.
   However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Agriculture: AG (p. 670), AGED (p. 670)
Courses Offered
Agriculture (AG)

AG 5360. Advancements in Animal Science.
Survey of the current knowledge and concepts in animal production including economic considerations and current production problems in breeding and feeding livestock.

Grade Mode: Standard Letter

AG 5370. Special Problems in Technical Agriculture.
Special problems will be selected to meet the needs of the individual student. May be repeated (once) for additional credit when the problem differs.

Grade Mode: Standard Letter

Agricultural Education (AGED)

AGED 5101. Instructional Skill Development.
Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Agricultural Education. Topics covered are essential teaching strategies, techniques, evaluation design, ethical classroom behavior, and effective instructional motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.

Grade Mode: Standard Letter

AGED 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

AGED 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit

AGED 5314. Special Problems in Agricultural Education.
The student is given the opportunity to work on problems of special interest and need in the discipline of agricultural education. May be repeated (once) for additional credit when the problem differs.

Grade Mode: Standard Letter

AGED 5318. Administration and Supervision of Vocational Education.
The administration of comprehensive vocational education programs with emphasis on the operation and implementation of programs governed by state and national laws.

Grade Mode: Standard Letter

AGED 5319. Principles and Methods of Adult Education.
The rationale, planning, implementing, conducting, and evaluation of adult education programs in formal and non-formal settings will be discussed.

Grade Mode: Standard Letter

AGED 5320. History and Philosophy of Agricultural Education.
This course covers the history, basic principles, and philosophy of different programs of agricultural education existing today.

Grade Mode: Standard Letter

AGED 5321. Methods of Technological Change.
The dynamics of cultural change as theoretical framework for planned technological change, methods of implementing change, the effects of change, and the prediction of change will be discussed.

Grade Mode: Standard Letter

AGED 5330. Research Methods in Agricultural Education.
The principles and procedures of using and communicating both quantitative and qualitative research in agricultural education will be addressed. Special emphasis will be given to using appropriate methods to address research problems.

Grade Mode: Standard Letter

AGED 5331. Guidance.
Analysis of occupational and vocational opportunities for vocational students; includes work in interpersonal communications as well as in the techniques of individual and group counseling in guidance. Practice in personality and occupational interest testing.

Grade Mode: Standard Letter
AGED 5335. Curriculum Development of Vocational Programs.
Principles and practices in developing curricula for different areas of vocational education will be emphasized. The dynamics of cultural and technological changes on methods of planning and implementing vocational curricula as it relates to the educational needs of vocational youth will be stressed.
Grade Mode: Standard Letter
Course Attribute(s): Topics

AGED 5371A. Agriculture Farm Power and Machinery.
Advanced study in areas related to the usage of farm power units and machinery in the production and processing of food and fiber. Emphasis will be placed on modern technology associated with various equipment utilized in mechanized agriculture.
Course Attribute(s): Topics

AGED 5371D. Agricultural Structures Design.
Principles of design and construction for structures associated with agricultural production. Emphasis will be placed on processes, materials and standards associated with different areas of production agriculture.
Course Attribute(s): Topics

AGED 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Agricultural Education, AGED 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.
Course Attribute(s): Topics

AGED 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

AGED 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

School of Criminal Justice
Hines Building Room 108
T: 512.245.2174 F: 512.304.8063
http://www.cj.txstate.edu/

Located in the Hines Academic Center, the School of Criminal Justice offers master’s- and doctoral-level curricula that address a wide range of social issues and research opportunities.

The School of Criminal Justice is a vibrant department, with approximately 70 master’s students and 40 doctoral students. Twenty-three full-time faculty members are involved in educating students as well as engaging in a wide range of research endeavors. The School of Criminal Justice also administers a number of institutes and centers, such as the Center for Geospatial Intelligence and Investigation and The Advanced Law Enforcement Rapid Response Training (ALERRT).

The goals of the department are two-fold:
1. the preparation of competent and responsible public servants to assume roles in criminal investigation and apprehension, agency administration, prosecution, and correctional services, and to assume roles in criminal investigation and apprehension, agency administration, prosecution, and correctional services, and
2. the preparation of graduates with advanced theoretical knowledge and research skills in criminal justice for leadership roles in academic, public policy, and administrative positions.

These goals are pursued in the context of a broad university curriculum that provides a foundation of knowledge necessary to function in a challenging world.

Doctor of Philosophy (Ph.D.), Major in Criminal Justice

Major Program
The School of Criminal Justice at Texas State offers a doctoral program for:
- criminal justice professionals who seek advanced education and
- students who will pursue academic appointments at colleges and universities in Texas and around the nation.

Texas State is located in the heart of the central Texas corridor, near sixteen state criminal justice offices and thirteen Texas counties, including Travis (Austin) and Bexar (San Antonio). The university's geographic proximity to state criminal justice agency headquarters for law enforcement, criminal courts, and corrections, and to managers and executives in these agencies, makes it an ideal location for offering a doctoral-degree program.

The doctoral program is part of a vibrant school, with approximately 800 bachelor’s students and 70 master’s students. Twenty-three full-time
faculty members are involved in a wide range of research. A list of faculty and their research interests is available at http://www.cj.txstate.edu/people/faculty. The School of Criminal Justice also administers a number of institutes and centers, including the Center for Geospatial Intelligence and Investigation.

Courses are offered in the evenings for the convenience of working professionals. Students are classified as either full-time (nine hours per term) or part-time. All students will be given the opportunity to initiate, complete, present, and publish original research.

Each student develops an appropriate degree plan to meet their career and academic goals. The degree plan will include a mix of theoretical, analytical, and elective courses that will prepare students to work independently and in multidisciplinary teams.

**Educational Goal**

The central educational goal of the Ph.D. program in criminal justice at Texas State is to prepare doctoral students to assume leadership roles in academic, public policy, and administrative positions within a rapidly changing criminal justice system. The school has developed a programmatic perspective that is sensitive to the importance of research skills, balanced with theoretically informed policy analysis, so that students can more effectively address the challenges in criminal justice in Texas and across the nation. Students gain expertise to apply statistically advanced research methodologies to conduct empirical studies in crime, law, public policy, and administration of the criminal justice system.

Other educational goals and objectives are to:

- Identify the theoretical perspectives and foundations of current research in the study of crime, law, and public policy decision-making undertaken by criminal justice agencies to assist law enforcement, court personnel, and corrections staff to plan, develop, and implement timely, efficient, and sound responses to crime.
- Apply precise, empirically validated, and tested research methods to investigate, analyze, and improve theory and policy to provide policy makers with the most current research and applicable technology to address emergent public safety growth areas, such as homeland security, terrorism, and the intersection of race, gender, and crime.
- Communicate effectively to educate and inform professional managers and administrators of criminal justice agencies, their service personnel (e.g., police) and the community-at-large about the 'best practices' for addressing the control of crime at the neighborhood, community, state, and national levels.
- Recognize ethical dilemmas and make ethically sound decisions to ensure that recommended criminal justice policy becomes a useful guide, if not benchmark procedure, for executives and heads of criminal justice agencies as they develop their strategic plans to address crime and public safety at the local, state, and national levels.
- Apply a broad understanding of the legal and empirical elements of criminal justice administration in leadership positions to encourage current and future working professionals and executives in criminal justice agencies to incorporate more comprehensive training using the 'best practices' in leadership and management theory when developing, planning, and implementing policies that effect their own agencies and the surrounding communities they serve.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/cjp.html.

**Financial Assistance**

Assistantships and scholarships are available to qualified applicants. The School of Criminal Justice offers doctoral instructional assistantships and teaching assistantships on a competitive basis to full-time students enrolled in the criminal justice Ph.D. program. An offer of financial support will normally be made at the time that a student is accepted into the program. The Graduate College can provide further information regarding scholarships.

**Degree Requirements**

**Degree Audit**

Each Ph.D. student is issued a preliminary degree audit by The Graduate College which should be used to plan the student's course of study. In the first term of enrollment, students should review the degree audit in consultation with their supervising professor and the program director.

With admission into the doctoral program, it is expected that students will pursue their course work and research activities in an efficient and timely manner. If it is determined that a student is not making adequate progress toward completion of the doctoral degree requirements, consultations will be undertaken between the student, their Ph.D. advisor, the program director, and the department graduate committee to develop a remediation plan, which may include revising a student's program of study or research. Failure to successfully remedy documented deficiencies will result in termination of the student's enrollment in the doctoral program at the discretion of the graduate committee. Students removed from the doctoral program in this manner may appeal to the dean of The Graduate College for reinstatement in the program.

**Course Work Requirements**

The Ph.D. in criminal justice requires students to complete, at minimum, 53 credit hours. All doctoral students are required to enroll in CJ 7210 Proseminar during the first term as an introduction to faculty research interests and areas of expertise, university research and development resources, and program expectations. Doctoral students selected for teaching assistantships will be required to enroll in CJ 7301 Instructional Assistant Supervision during the first three terms that they teach classes.

Students should complete all courses under the doctoral core and CJ 7320 and CJ 7321 under research tools as soon as possible after initiating course work. Each student will develop a degree plan in consultation with the doctoral coordinator and subject to approval by the doctoral executive council, which identifies the appropriate qualifying elective courses and doctoral development electives necessary for achieving the degree. Students must complete six credit hours of qualifying electives prior to taking their comprehensive examinations. After completing the comprehensive examination, doctoral students are required to complete three additional courses totaling nine credit hours from doctoral electives.

These courses will be chosen with the assistance and approval of the doctoral coordinator and the student's dissertation advisor.

**Proseminar**

| CJ 7210 | Proseminar | 2 |
The dean of The Graduate College approves advancement to candidacy once all requirements are met and at the recommendation of the doctoral executive council.

In addition, before advancement to candidacy, students are required to complete the following:

1. Completion of all core courses toward the doctoral degree with a GPA of 3.5 or higher on a 4.0 scale.
2. Satisfactory performance on the comprehensive examination. “Low pass” is the lowest satisfactory grade.
3. The student must select a dissertation advisor, and that advisor must be approved by the doctoral executive council. The student also must select a dissertation committee comprised of three additional members of the doctoral faculty and at least one external member from outside the department or the University.
4. The student must choose a topic with the approval of the student’s dissertation advisor and committee.
5. The student will submit a title and a written proposal for the dissertation to the student’s dissertation committee and successfully defend the proposal in an oral presentation with the dissertation committee. The proposal will include a statement of the problem to be studied, a discussion of the relevant literature, and the research method of the proposed dissertation topic.
6. The council will make a recommendation to the graduate dean who makes the final decision on the student’s advancement to candidacy. The Graduate College will notify the student once the decision has been made.

### Advancement to Candidacy Time Limit

Full-time, traditional students must be advanced to candidacy within five years of initiating Ph.D. course work applied toward the degree. Non-traditional, part-time students may request extensions from the doctoral executive council as long as they maintain a GPA of 3.5 and are making consistent progress toward fulfilling their degree requirements. The doctoral executive council will review part-time students’ requests for extensions on an individual, case-by-case basis.

No credit will be applied toward a student’s doctoral degree for course work completed more than three years before the date on which the student is admitted to candidacy. This time limit applies to course credit earned at Texas State, as well as course credit transferred to Texas State from other accredited institutions.

### Grade-Point Requirements for Advancement to Candidacy

A minimum GPA of 3.5 on all course work undertaken as a doctoral student in the criminal justice program is required for admission to candidacy. No grade earned below “B” on any graduate course work may apply toward a Ph.D. degree in criminal justice at Texas State.

Incomplete grades must be cleared through The Graduate College at least ten days before approval for advancement to candidacy will be granted.

### Dissertation Proposal

A dissertation proposal prepared by the student and approved by the student’s Ph.D. advisor and a majority of the other members of the dissertation committee is a requirement for Advancement to Candidacy status. The proposal must outline the substance and scope of the dissertation research, present the methodology to be used, and survey the relevant literature. The student’s Ph.D. advisor and other dissertation committee members will review the proposal and approve it.
committee members must indicate approval of the dissertation proposal on the “Ph.D. Dissertation Proposal” form. This form can be downloaded from The Graduate College website. A final copy of the dissertation proposal, accompanied by the signed approval form, must be turned in to the doctoral coordinator, who will forward it to the dean of The Graduate College for review and final approval.

Advancement to Candidacy Comprehensive Examination
After students have completed the core courses, research tools, and qualifying electives, they must take and pass a comprehensive examination, the purpose of which is to

1. assess a student’s knowledge of the core methodological, analytical, and theoretical techniques and issues in criminal justice and
2. judge their ability to use them to conduct independent research.

To be eligible to take the comprehensive examination, students must have a minimum GPA of 3.5 in all the core course work, including any course work that is transferred from another institution. Three members of the doctoral faculty will be asked by the doctoral coordinator, subject to approval by the other members of the doctoral executive council, to write and grade the examinations each year. All three must minimally hold associate doctoral faculty status, and at least one of the three must be a member of the core doctoral faculty. These examinations will be administered once during the fall and spring terms.

The comprehensive examination will be a written examination, and it will be graded “high pass,” “pass,” “low pass,” or “fail.” The examination must be taken on campus, in a location selected by the doctoral coordinator, without access to notes. It will have two parts that must be taken on the same day. The first part will last four hours and will focus on theories of crime causation/criminal justice and recent empirical tests. The second part also will last four hours and will focus on the methodological and analytical techniques commonly used in criminal justice research. The two parts of the comprehensive examination will be separated by a one-hour break. If students do not pass the examination, they may repeat it in a subsequent term. If they fail a second time, they may petition the doctoral executive council for permission to take the examination a third and final time. Students will not be allowed to take the examination more than three times. A student may begin work on the dissertation only after successful completion of the comprehensive examination and after formal approval of a dissertation proposal.

Full-time, traditional students are expected to pass their comprehensive exams by the end of their third year. For non-traditional, part-time students, the three years can be extended on an individual, case-by-case basis. However, extensions will require the approval of the doctoral executive council.

Recommendation for Advancement to Candidacy
The dissertation committee recommends the applicant for Advancement to Candidacy after successful completion of the doctoral comprehensive examinations. Students must submit an official “Application for Advancement to Candidacy” form, which can be downloaded from The Graduate College website. The results of the doctoral comprehensive examination and the completed Application for Advancement to Candidacy form must be filed in of The Graduate College before the dean of The Graduate College gives final approval to candidacy. The doctoral coordinator is responsible for submitting these forms to The Graduate College.

Dissertation Research and Writing
All doctoral students are required to complete a dissertation. The dissertation must present a systematic inquiry into a relevant research question, be informed by prior research, and add to the body of knowledge in the field. In most cases, the research will be quantitative in nature, although qualitative or legal research may be utilized in some cases. It is expected that the dissertation will provide the content for one or more publishable articles in academic journals.

Students are required to complete the following dissertation requirements:

1. The student will complete the dissertation, which must be an original contribution to scholarship and the result of independent research in a significant area of criminal justice. The student is expected to write the dissertation and orally defend it in an announced public presentation within three years of the official date of being advanced to candidacy. Questions posed to the student are initially limited to the dissertation committee membership. However, at the discretion of the presiding chair and when time permits, questions will also be solicited from the attending public audience. The approval of the dissertation requires the approval of the dissertation advisor and the approval of a majority of the other members of the committee. A written notice of the dissertation committee’s approval will be forwarded to the doctoral executive council and then to the graduate dean.
2. If the dissertation committee decides not to approve the candidate’s dissertation, the dissertation advisor will prepare a written response to the doctoral executive council, accounting for the decision and outlining the steps required for approval. These steps will also be communicated to the candidate.
3. The student will submit the final, approved dissertation to The Graduate College in the prescribed format.
4. The doctoral executive council will conduct a final review of the course work and recommendation from the student’s dissertation committee before making a recommendation to the graduate dean that the student be awarded the doctor of philosophy degree with a major in criminal justice. The graduate dean will certify that the student has met all of the requirements and can be awarded the degree.

Dissertation Enrollment Requirements
After being admitted to candidacy, students must be continuously enrolled for dissertation hours each term until the defense of their dissertation. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred. Students must complete a minimum of 12 semester hours of dissertation research and writing credit.

Dissertation Time Limit
It is expected that the dissertation will, in most cases, be completed in two terms of concentrated effort and in no more than six terms. Students must appeal to the doctoral executive council for an extension beyond six terms. The student must pass an oral defense of their dissertation before final completion of the doctoral program.
Fee Reduction

A master's or doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Committee

The dissertation committee is responsible for administering the doctoral comprehensive examination and will oversee the research progress of a doctoral student and the writing of the student’s dissertation. The committee will consist of at least four members, including the student’s Ph.D. advisor, two additional members of the doctoral faculty and at least one external member from outside the School or the University. The student’s Ph.D. advisor will chair the committee and will normally be from the major department. The student, doctoral coordinator, school chair, and the dean of The Graduate College will approve the composition of the dissertation committee. The student is responsible for obtaining committee members’ signatures on the “Dissertation/Research Advisor Assignment form” and the “Dissertation Committee Request form,” which can be downloaded from The Graduate College website.

Committee Changes

Any changes to the dissertation committee must be submitted for approval to the dissertation committee chair, the doctoral coordinator, the school chair, and the dean of The Graduate College. Changes must be submitted no less than sixty days before the dissertation defense. The “Ph.D. Research Advisor/Committee Member Change Request form” may be downloaded from The Graduate College website.

Dissertation Defense

The dissertation defense may not be scheduled until all other academic and program requirements have been fulfilled. A complete draft of the dissertation must be given to the members of the dissertation committee at least 65 days before the date of commencement during the term in which the student intends to graduate. After committee members have reviewed the draft with the student and provided comments, the student, in consultation with the dissertation advisor, will incorporate the recommended changes into a second draft of the dissertation. When each committee member is satisfied that the draft dissertation is defendable, the dissertation defense may be scheduled.

The student is expected to orally defend the dissertation in an announced public presentation within three years of the official date of being advanced to candidacy. Questions posed to the student are initially limited to the dissertation committee membership. However, at the discretion of the presiding chair and when time permits, questions will also be solicited from the attending public audience. The approval of the dissertation requires the approval of the dissertation advisor and the approval of a majority of the other members of the committee. A written notice of the dissertation committee's approval will be forwarded to the doctoral executive council, and then to the dean of The Graduate College. Specific information on the examination procedure can be found in the School of Criminal Justice Ph.D. Handbook or obtained from the doctoral coordinator.

Approval and Submission of the Dissertation

Following approval of the dissertation by the members of the dissertation committee, the student must submit one copy of the dissertation and a signed Thesis/Dissertation Committee Approval form to the office of The Graduate College for final approval. Specific guidelines for approval and submission of the dissertation can be obtained from The Graduate College.

Doctoral level courses in Criminal Justice: CJ

Courses Offered

Criminal Justice (CJ)

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours. Graded on credit (CR), progress (PR), no-credit, (F) basis.

Grade Mode: Credit/No Credit

about Dissertation

CJ 7210. Proseminar.
A course designed to introduce students to the department and ongoing research activities of its faculty. Emphasis is placed on identifying and coordinating opportunities for joint research and scholarship among faculty and students. Prerequisite: first-year criminal justice doctoral students only.

Grade Mode: Standard Letter

about Proseminar

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours. Graded on credit (CR), progress (PR), no-credit, (F) basis.

Grade Mode: Credit/No Credit

about Dissertation in Criminal Justice

CJ 7301. Instructional Assistant Supervision.
This course prepares doctoral students employed as research or teaching assistants to perform effectively in diverse instructional settings. The course provides for regular and planned opportunities for continuing evaluation of students. This course does not earn graduate degree credit.

Grade Mode: Leveling/Assistantships

about Instructional Assistant Supervision
CJ 7310. Philosophy of Law, Justice, and Social Control.
A current, thorough, and comprehensive review of the criminal justice system focused on how the system functions, and its current needs and future trends. Students submit extensive critiques and participate in panel discussions.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Philosophy of Law, Justice, and Social Control

CJ 7311. Advanced Criminological Theory.
An overview of the major criminological paradigms is presented focusing on the causes of crime and deviant behavior. The course includes a discussion of criminological theories from a philosophy of science perspective focusing on such issues as theory construction, theoretical integration, and the formal evaluation of theory and policy.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Advanced Criminological Theory

CJ 7312. Criminal Justice Ethics, Administration, and Public Policy.
This course addresses the role of ethics in criminal justice organizations and policymaking. Topics include the moral philosophy of criminal justice, the role of natural and constitutional law, codes of ethics and ethical review systems, and ethical decision-making by criminal justice professionals with attention to training issues.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Criminal Justice Ethics, Administration, and Public Policy

An exploration of how issues related to racial and ethnic minorities and criminal behaviors impact criminal justice reactions. Topics include racial disparities related to law enforcement and sentencing, and policy implications related to policing, probation, pre-sentencing and post-release issues.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Race and Ethnicity in Crime and Criminal Justice

A course that demonstrates the practical aspects of conducting criminal justice research that uses quantitative methodologies and design. Topics include the philosophy of science; research ethics; methodological designs in establishing causation; nonexperimental/descriptive research; sampling techniques; secondary data sources and data gathering techniques.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Quantitative Research Methods

CJ 7321. Linear Regression for Criminal Justice Research.
Instruction on the use of advanced linear modeling techniques in criminal justice research is addressed. After completing this course, students should be able to evaluate quantitative research articles in the major criminal justice journals and be prepared to complete a major quantitative research project of their own.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Linear Regression for Criminal Justice Research

CJ 7322. Advanced Research for Planning and Evaluation.
An introduction to evaluation and research design methodologies, assessment techniques including modeling and case studies, agency management issues, and on-going policy implications. Course gives students an understanding of the principles and techniques commonly used to evaluate the effectiveness and efficiency of criminal justice interventions.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Advanced Research for Planning and Evaluation

CJ 7330. Qualitative Research Methods.
A discussion of the methods and techniques used for achieving interpretable qualitative results in social research. Topics covered include ethnography, focus groups, in-depth interviewing and case studies. Students will be trained in inductive reasoning and coordinating qualitative with quantitative methods.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Qualitative Research Methods

CJ 7331. Law and Behavioral Science.
A review of the issues addressed in the application of the behavioral sciences to the criminal law system. Topics include criminal sanctions and diminished responsibility, civil commitment, victimology, psychology in the courtroom, the role of media, drugs, and alcohol to violence, and how the justice system reacts to violent offenders.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Law and Behavioral Science

CJ 7332. Law and Public Policy.
An examination of the intersections between law and public policy, its effect on criminal justice administration, its role in a free society and the function of law as a tool of social change. Topics include affirmative action, race, gender, privacy rights, and the process of criminalization.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Law and Public Policy
CJ 7333. Legal and Legislative Research.
This course presents the methods of research used in the legal system. Students learn to locate and interpret constitutional, statutory and case law, use secondary sources such as scholarly legal treatises, and apply research techniques using both print and electronic sources.
about Legal and Legislative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Legal and Legislative Research

CJ 7334. Organizational Theory.
A critical examination of organizational theories with applications to criminal justice where students analyze the developmental state of organizational theory, including historical derivations and the implications of various theoretical paradigms for understanding the functional quality of criminal justice organizations.
about Organizational Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Theory

CJ 7335. Criminal Justice Leadership and Management.
A course focused on identifying problems and solutions in criminal justice management. The case study method and current literature provide a mixture of practical and educational experiences on how leadership styles, human resources, and the organizational environment impact management decisions.
about Criminal Justice Leadership and Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Criminal Justice Leadership and Management

This course addresses the procedures and techniques used to create social surveys including question formulation, metrics, and question scaling. Students learn how to prepare face-to-face, telephone, and mail surveys, and are trained in sampling procedures related to survey administration.
about Survey Research Methods for Criminal Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey Research Methods for Criminal Justice

A comprehensive study of law, including common, Roman, socialist, and religion-based, including a critical assessment of the major organizational, administrative, and philosophical principles governing the operation of criminal justice systems worldwide, with special attention to international criminal law and human rights.
about Comparative Criminal Justice Systems, Philosophies, and Public Policy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Comparative Criminal Justice Systems, Philosophies, and Public Policy

CJ 7350A. Forecasting, Trend Analysis, and Data Interpretation.
A review of quantitative approaches to public policy analysis, the diverse conceptions of the goals and objectives that should be served by policy, and the appropriate role of the policy analyst. Policy consequences are traced to indirect and subtle incentives and disincentives.
about Forecasting, Trend Analysis, and Data Interpretation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Forecasting, Trend Analysis, and Data Interpretation

CJ 7350B. Academic Scholarship and Communication.
A course on conducting academic research, interpreting results and how to prepare manuscripts for publication in refereed journals. Included is a survey of the audiences, topical focus, and submission requirements of the major criminal justice, criminology, and law publications, along with specialized knowledge on achieving success in the scholarship environment.
about Academic Scholarship and Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Academic Scholarship and Communication

CJ 7350C. Qualitative Data Collection, Coding and Analysis.
This course takes a structured approach to understanding and implementing the various information collection methods used in qualitative research, including formatting the information for coding, coding schemes, and information interpretation.
about Qualitative Data Collection, Coding and Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Qualitative Data Collection, Coding and Analysis

CJ 7350D. Ethnography of Criminal Justice.
A course on the procedures and techniques required to conduct ethnography, fieldwork, in Criminal Justice. Students examine the culture, subculture, and groups within specific components of the criminal justice system in order to develop a deep ethnographic description. Prerequisite: CJ 7330.
about Ethnography of Criminal Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Ethnography of Criminal Justice

CJ 7350E. Discrete Multivariate Models.
This course focuses on regression models for discrete outcome variables, sometimes called limited or categorical dependent variables. Topics include maximum likelihood estimation, binary and multinomial logistic models and negative binomial models. Prerequisite: CJ 7321 or its equivalent or approval/permission of both the Instructor and the Doctoral Coordinator.
about Discrete Multivariate Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Discrete Multivariate Models
**CJ 7350F. Environmental Criminology.**
Crime distributes unevenly in space/time. As such, the course examines such questions as (1) What places are dangerous? (2) Why do we study specific crime types? (3) Where do crime types concentrate? (4) Where do offenders go in their normal activities? (5) What are the temporal patterns for crime? Prerequisite: CJ 7311 or its equivalent or approval/permission of both the instructor and the Doctoral Coordinator.

Course Attribute(s): Topics
Grade Mode: Standard Letter

**CJ 7350G. Seminar in Macro Criminology.**
This course has a macro focus, examining criminological theory and research that takes cities, geographical regions, states, and nations as the units of comparison. The importance and relevance of macro criminology for understanding the causes of crime and key criminal justice issues, such as police resources, are explored in depth. Prerequisite: CJ 7311 or its equivalent or permission of both the Instructor and the Doctoral Coordinator.

Course Attribute(s): Topics
Grade Mode: Standard Letter

**CJ 7350I. Introduction to Structural Equation Modeling.**
The course provides an introduction to structural equation modeling, which is sometimes called mean and covariance structure analysis or latent variable analysis. Topics include recursive and non-recursive models, path analysis, measurement models, and factor analysis. Prerequisite: CJ 7321 or its equivalent or approval/permission of both the Instructor and the Doctoral Coordinator.

Course Attribute(s): Topics
Grade Mode: Standard Letter

**CJ 7350J. Advanced Methodological Paradigms in Criminal Justice.**
This course examines the assumptions, foundations, and implications of the methodological paradigms used in criminal justice research. The dominant paradigms are closely examined and alternatives are explored. Prerequisites: CJ 7311, CJ 7320, CJ 7321.

Course Attribute(s): Topics
Grade Mode: Standard Letter

**CJ 7350K. Criminal Justice Forecasting and Policy Analysis.**
This course examines the inputs and outputs of criminal justice programs. It covers forecasting methods using statistical bootstrapping techniques including line fitting methods, moving averages, cohort propagation matrices, and systems simulations. Prerequisites: Graduate statistics and a working knowledge of Excel and SPSS.

Course Attribute(s): Topics
Grade Mode: Standard Letter

**CJ 7350L. Sex Offenders: Theory, Research & Policy.**
This course will focus on application of theory to explain sexual offenses, research design issues related to researching this salient population of offenders (e.g., ethical issues, gaining IRB approval, research design limitations, social desirability problems in self-report data, and examining available data sources), and examining policy related issues.

Course Attribute(s): Topics
Grade Mode: Standard Letter

**CJ 7350M. Applied Statistics and Quantitative Data Analysis.**
This is a course in statistics and data analysis for the purposes of original quantitative research. Topics include descriptive statistical inference for single and multivariable analysis, and principles underlying the techniques. This course makes extensive use of statistics software via command-line interface. No more than elementary algebra is assumed.

Course Attribute(s): Exclude from 3-peat Processing

**CJ 7360. Independent Study.**
Students will work closely with a particular doctoral faculty member and develop in-depth knowledge in a specific topic area of criminal justice. Topics vary according to a student’s program needs. Repeatable once for credit with different emphasis. Prerequisite: Approval of the Instructor and the Doctoral Coordinator in Criminal Justice.

Course Attribute(s): Topics
Grade Mode: Credit/No Credit

**CJ 7399. Dissertation.**
Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours. Graded on credit (CR), progress (PR), no-credit, (F) basis.

Course Attribute(s): Topics
Grade Mode: Credit/No Credit

**CJ 7599. Dissertation in Criminal Justice.**
Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours. Graded on credit (CR), progress (PR), no-credit, (F) basis.

Course Attribute(s): Topics
Grade Mode: Credit/No Credit
Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours. Graded on credit (CR), progress (PR), no-credit, (F) basis.

Master of Science in Criminal Justice (M.S.C.J.), Major in Criminal Justice

Major Program

The School of Criminal Justice offers a master of science in criminal justice (M.S.C.J.) degree. The curriculum provides for the development of skills in criminal justice program planning, implementation, and evaluation to ensure a meaningful contribution to this important area of community and human services.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/cjm.htm.

Degree Requirements

The M.S.C.J. degree provides a 36-hour program with thesis and non-thesis options. Candidates for the M.S.C.J. degree who choose the non-thesis option will be required to complete a professional quality paper as a component of the degree program. A committee composed of three graduate faculty members must approve this paper.

Minor in Cognate

6 Credit Hours.
Electives to be chosen in consultation with the graduate advisor.

As the requirements for minors vary among departments, specific requirements for completing the minor should be discussed with the appropriate graduate advisor.

**Comprehensive Examination**

All students must pass an oral comprehensive examination. The purpose of this examination is to provide a structured situation in which the candidate can demonstrate proficiency in various areas of study. A student must see the graduate advisor for a detailed description of the comprehensive examination procedures.

**Additional Course Requirements**

Any student accepted into the M.S.C.J. program may be required to take undergraduate course work in criminal justice as a prerequisite to graduate course work.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at [http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf).

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at [http://www.gradcollege.txstate.edu/gcforms.html](http://www.gradcollege.txstate.edu/gcforms.html). After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: [http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html](http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html). The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Criminal Justice: CJ
Courses Offered

CJ 5101. Graduate Assistant Supervision.
Prepares graduate student teaching and instructional assistants to perform effectively in diverse instructional settings and in their assigned instructional support roles. The course provides for regular and planned opportunities for continued evaluation of instructional and assistive responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship
Grade Mode: Leveling/Assistantships
about Graduate Assistant Supervision

CJ 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

CJ 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

This course is designed for students who do not have a sufficient background in the foundations of criminal justice studies. Coursework will vary depending on the student’s prior academic history. This course does not earn graduate degree credit. Repeatable with different emphasis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Foundation Studies in Criminal Justice

CJ 5310. Administration of Justice.
Introduction to the study of crime; explanations of criminal behavior; typologies of criminal behavior; the criminal justice system; and social reaction to crime and the criminal justice system.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Administration of Justice

CJ 5311. Administrative Law in Criminal Justice.
Legal principles and doctrines applicable to state and federal criminal justice agencies delegated quasi-legislative and quasi-judicial authority by legislatures are studied and evaluated in this course.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Administrative Law in Criminal Justice

The study of scientific research methods as used in the criminal justice system to include a review and critique of research on crime causation, law enforcement, courts, and corrections.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Advanced Research Methods in Criminal Justice

CJ 5320. History and Philosophy of Justice.
An exploration of historical approaches to social control of nonconforming behavior. The principal contributions of architects and theorists of systems of social justice are examined with emphasis on major Western European schools of thought. Special emphasis given to the development of the scientific method and its role in the contemporary system of justice.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about History and Philosophy of Justice

Case law and legislation, both state and federal, which have contemporary impact on practices and policies of criminal justice agencies will be examined in this course. Topics may vary to include such matters as civil rights liability, substance abuse and the law, juvenile crime, organized crime, tactics of enforcement, unionization, and other legal issues.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Current Legal Issues in Criminal Justice

This course provides an in-depth assessment of policing and the various types of community crime control. Core topics include the history of police, organizational and individual police discretion, police culture, use of force, minorities and the police, community oriented policing, and police problem-solving.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Police in Society

CJ 5323. Special Operation Units.
A course designed to acquaint students with basic principles of Special Operation Units (SOUs) within law enforcement, including the necessity for such units in the changing nature of policing communities. The principles of crisis management, the development of SOUs, selection/training/operationalizing of personnel and other strategic planning issues are emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

about Special Operation Units
CJ 5324. Investigations.
This course explores issues related to investigations. Topics covered include the history and state of investigations, investigative theory, interviewing, interrogation, polygraph, geographic profiling, serial crimes, and investigative failures.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The study of basic and advanced descriptive and inferential statistics, with an emphasis on applications in the criminal justice system will be taught. Focus will be given to various multivariate statistical procedures.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The study of behavior in complex bureaucratic or administrative organizations with an emphasis on organizational behavior, group processes, and the managerial function. Concepts and practices of managing criminal justice agencies within the United States will be stressed.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course will develop and apply analytical skills surrounding a wide range of theoretical concepts, assumptions, propositions, and variables aimed at explaining crime-related outcomes. In the process, students will learn how social scientists empirically (i.e., quantitatively and qualitatively) access theory and how theory influences public policy.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The study of personnel decisionmaking within the criminal justice agency. Topics emphasized will include recruitment and selection, promotion, training, performance evaluation, and human resource allocation.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

An in-depth presentation and discussion of vital contemporary issues in criminal justice, including research, process, procedure, and substance. General issues addressed remain constant and specific emphasis will vary depending on changes in contemporary issues.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5355. Intelligence Gathering and Operational Issues As Applied to Terrorism and Counterterrorism Operation.
This course provides an overview of the importance of intelligence gathering, examines issues involved with the gathering of intelligence, techniques for the gathering of intelligence, methods of collecting, collating, analyzing and disseminating intelligence, and a review of current terrorist threats.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Student will work directly with a faculty member and develop in-depth knowledge in a specific topic area of Criminal Justice. Repeatable for credit.

Grade Mode: Credit/No Credit

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Students in the non-thesis option will complete their professional paper while enrolled in this course.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380A. Ethics and the Criminal Justice System.
This special topics course will explore ethical issues that are faced by criminal justice professionals, basic ethical systems, and applications to dilemmas of criminal justice professionals.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380C. Drugs in Society.
This special topics course will explore issues related to the “War on Drugs.” Topics covered include theories of addiction, legal and philosophical issues of government response to drug use, and treatment strategies.
CJ 5380F. Police Problem-Solving Practicum.
This course applies contemporary police problem-solving tools and techniques (including SARA, COMPSTAT, crime mapping, intelligence-led policing and computer enhanced problem solving) to real world problems with practical problems derived from situations commonly facing police practitioners such as common law enforcement “problems” such as noise abatement, property offenses and traffic violations.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Police Problem-Solving Practicum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380H. Police Problem Solving Methodologies.
This course addresses police problem solving methodologies. The course covers the history, state, and theory of police problem solving. Emphasis is placed on using problem solving methodologies to address real issues facing the community.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Police Problem Solving Methodologies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380I. Race, Class, and Crime.
This course addresses issues related to racial/ethnic minorities, socioeconomic status, crime trends, perceptions of crime and criminal behaviors. The social/historical constructions of race and class are covered as well as their intersectionality within the criminal justice system. Topics include racial/ethnic and socioeconomic disparities in offending, victimization, law enforcement and sentencing.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Race, Class, and Crime
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380J. Sex Offender and the Criminal Justice System.
This course explores sex offenders and the criminal justice system and the issues faced by criminal justice professionals. Recent trends in assessment tools, treatment approaches, and legal responses to sex offenders are emphasized.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Sex Offender and the Criminal Justice System
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380L. Geospatial Intelligence and Geographic Profiling.
This course addresses the use of geospatial intelligence and geographic profiling in the military and intelligence environments. The course covers the theory, concepts, methods, and analysis of human geographic information. Emphasis is placed on understanding how geospatial knowledge can inform decision making and action plans.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Geospatial Intelligence and Geographic Profiling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380M. Crime Analysis.
This course teaches students step by step how to evaluate and synthesize local crime data and present it to others. It helps students identify local crime trends and cycles, develop usable crime maps, and to think of practical local police responses.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Crime Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course provides structured assistance to students who are preparing for significant independent research projects (i.e. Thesis, Professional Paper) by exposing them to the organizational tools, processes and techniques used by productive scholars. Ideally, students should expect to complete a viable research prospectus by the end of the semester.
Course Attribute(s): Exclude from 3-peat Processing!Topics
Grade Mode: Standard Letter
about Applied Research Practicum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5380P. Quantitative Data Analysis.
This course provides an introduction to quantitative data analysis. For the purposes of research and exploratory data analysis, topics include data construction and cleaning, variable coding, descriptive and inferential statistics, summary measures, and visual presentations of data. This course makes extensive use of statistical software.
Course Attribute(s): Exclude from 3-peat Processing!Topics
Grade Mode: Standard Letter
about Quantitative Data Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5399A. Thesis.
This course represents a student’s initial thesis enrollment. Credit is not awarded until student has completed the thesis in Criminal Justice 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
3 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
3 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

CJ 5599B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.
Grade Mode: Credit/No Credit
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
CJ 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Grade Mode: Credit/No Credit about Thesis

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

Admission Policy

For information regarding admission application requirements and deadlines, please see The Graduate College website at [http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html](http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html).

School of Family and Consumer Sciences

Family and Consumer Sciences Building Room 101
T: 512.245.2155 F: 512.245.3829
http://www.fcs.txstate.edu/

Mission

Family and consumer sciences — an inter-related applied discipline — enhances the quality of individual and family life, educates a diverse student population for professions that serve the public and private sectors, and prepares them for participation in a global society through effective teaching, scholarship, and service.

Vision

To be recognized as a premier school that engages in important scholarship and prepares the most qualified graduates in Texas and the nation from master’s programs in family and child studies, human nutrition, and merchandising and consumer studies.

Student Fitness and Performance

Program Standards

Students enrolled in all academic programs in the School of Family and Consumer Sciences must maintain high scholastic standards and develop a mastery of the knowledge and methods of their respective discipline. Students are expected to demonstrate emotional and mental fitness in their interactions with others, use skills and methods that are generally accepted by others in the profession, and conform to the code of ethics of their respective discipline and the university’s honor code. A student’s acceptance in any program does not guarantee the student’s fitness to remain in that program. The faculty is responsible for verifying that only those students who continue to meet program standards are allowed to continue in any program.

Evaluation of Student Fitness and Performance

Students enrolled in all academic programs in the School of Family and Consumer Sciences must maintain high scholastic standards and develop a mastery of the knowledge and methods of their respective discipline. Students are expected to demonstrate emotional and mental fitness in their interactions with others, use skills and methods that are generally accepted by others in the profession, and conform to the code of ethics of their respective discipline and the university’s honor code. A student’s acceptance in any program does not guarantee the student’s fitness to remain in that program. The faculty is responsible for verifying that only those students who continue to meet program standards are allowed to continue in any program.

In this context, the term “satisfactory progress” refers to an academic judgment made regarding the student’s fitness and performance. It is a judgment that the student has failed to meet program standards rather than a judgment made on the basis of the student’s violation of valid rules of conduct. Disciplinary matters are referred to Student Justice.

Student Review Process

If a faculty member believes that a student is not making satisfactory progress or meeting program standards, they should discuss the situation with the student. If the faculty member believes that the student’s performance cannot improve to acceptable standards, the faculty member should refer the student to the Program Standards Committee of the appropriate department. The Program Standards Committee consists of three faculty members appointed by the department chair in consultation with the department’s senior faculty.

The Committee will notify the student of the reasons that they are not making satisfactory progress or meeting program standards and will give the student an opportunity to meet with the Committee to respond and present information and witnesses to the committee. The Committee will also meet with the faculty member who referred the student to the Committee. After considering the matter, and within ten working days of meeting with the student, the Committee will report to the student and the department chair. The Committee will recommend that the student either be allowed to remain in the program or be removed from the program. The Committee may make other recommendations, such as placing restrictions or conditions on the student’s continuing in the program. Within ten working days of receiving the Committee’s...
recommendations, the student will notify the department chair of the student’s acceptance or rejection of the Committee’s recommendation.

Within ten working days of receiving the Committee’s recommendation, the chair will make a decision as to the student’s continued presence in the program. Before making the decision, the chair will give the student an opportunity to meet with the chair and to offer information on the student’s behalf. However, the chair need not meet with the student before making a decision if the chair has given the student a reasonable opportunity to meet, and the student has either failed or refused to meet. The chair will notify the student of the decision.

If the student is dissatisfied with the chair’s decision, he or she may appeal to the dean of the appropriate college. However, in order for an appeal to be considered, the student must submit a written notice for an appeal to the chair and to the dean within ten working days of receiving the chair’s decision. The dean will consider the matter based on information compiled by the chair and notify the student of his or her decision within ten working days of the dean’s receipt of the appeal from the chair. The dean may meet with the student and give the student an opportunity to address the issues. The dean’s decision is final.

Master of Science (M.S.)

- Major in Family and Child Studies (p. 686)
- Major in Human Nutrition (p. 691)
- Major in Merchandising and Consumer Studies (p. 696)

Certificate

- Dietetic Internship (p. 699)

Ahn, Mira, Associate Professor, Family & Consumer Sciences, Ph.D., Virginia Poly Inst & State Univ

Alfaro, Edna C, Assistant Professor, Family & Consumer Sciences, Ph.D., Arizona State University

Bhardwaj, Vertica, Assistant Professor, Family & Consumer Sciences, Ph.D., University of Tennessee

Biediger-Friedman, Lesli M, Assistant Professor, Family & Consumer Sciences, Ph.D., Texas Tech University

Bishop, Nicholas Joesph, Clinical Assistant Professor, Family & Consumer Sciences, Ph.D., Arizona State University

Blunk, Elizabeth M, Associate Professor, Family & Consumer Sciences, Ph.D., University of Texas at Austin

Crixell, Sylvia L, Professor, Family & Consumer Sciences, Ph.D., University of Texas at Austin

Davis, Kimberlee, Associate Professor, Family & Consumer Sciences, Ph.D., Texas Tech University

Dedek, Peter B, Associate Professor, Family & Consumer Sciences, D.A., Middle Tennessee State University

Delgado, Melissa Y, Assistant Professor, Family & Consumer Sciences, Ph.D., Arizona State University

DuPont, Ann M, Senior Lecturer, Family & Consumer Sciences, Ph.D., Texas Tech University

Friedman, BJ, Professor Emeritus, Family & Consumer Sciences, Ph.D., University of Texas at Austin

Hegde Nizgoda, Asha Latha, Associate Professor, Family & Consumer Sciences, Ph.D., Oklahoma State University

Hustvedt, Gwendolyn, Associate Professor, Family & Consumer Sciences, Ph.D., Kansas State University

Kang, Jiyyun, Assistant Professor, Family & Consumer Sciences, Ph.D., Louisiana State Univ A&M College

Lane, Michelle A, Associate Professor, Family & Consumer Sciences, Ph.D., Rutgers State Univ of NJ Newark

Perez-Brena, Norma Judith, Assistant Professor, Family & Consumer Sciences, Ph.D., Arizona State University

Phillips, Farya, Lecturer, Family & Consumer Sciences, Ph.D., University of Texas at Austin

Runyan, Rodney Carl, School Director - Professor, Family & Consumer Sciences, Ph.D., Michigan State University

Salcedo, Ramona, Assistant Professor, Family & Consumer Sciences, Ph.D., University of Texas at Austin

Vattem, Dhiraj A, Professor, Family & Consumer Sciences, Ph.D., University of Massachusetts

Youens, Christina Van Husen, Senior Lecturer, Family & Consumer Sciences, M.S., Texas Woman’s University

Zuniga, Krystle E, Assistant Professor, Family & Consumer Sciences, Ph.D., Univ of Illinois Urbana-Champaign

Master of Science (M.S.), Major in Family and Child Studies

Major Program

The graduate program provides students with the knowledge and expertise to attain professional positions and advancement opportunities in programs serving families and children.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/fcs.html.

Program Administration and Evaluation

Track

This track provides a thesis and non-thesis option (37 total hours required). Both the thesis and the non-thesis options require the completion of a common core of 19 semester credit hours and a 3-hour practicum in family and child studies. Students choosing the thesis option are required to complete a 6-hour thesis requirement. The non-thesis option requires the completion of an additional 3-hour practicum. Thesis students will have 9 semester credit hours and non-thesis students will have 12 semester credit hours of prescribed elective courses chosen by the student to create a concentration.
**Course Work Requirements**

**Thesis Option**

**Core Curriculum**

- SPED 5334 Assessment and Evaluation of Students with Disabilities 3
- SPED 5375 Behavior Management: School Application of Applied Behavior Analysis 3

**Child Life Specialist Track**

This track also provides a thesis and non-thesis option (37 total hours required). Both the thesis and non-thesis options require the completion of a common core of 25 semester credit hours, including the internship. Students choosing the thesis option are required to complete a 6-hour thesis requirement. Thesis students will have 6 semester credit hours of elective courses; non-thesis students will have 12 semester hours of electives.

1 The child life internship is a full-time, non-paid internship required by the Child Life Council. It should be completed in the final year of the master’s program. Child life internships are extremely competitive in nature and interns are selected by the individual hospitals. Therefore, internships are not guaranteed. Also, due to the competitive nature of internships, it might be necessary to apply to hospitals outside of the Central Texas area.

**Additional Course Requirements**

At the discretion of graduate faculty, leveling courses may be required for applicants with limited academic credentials in family and child studies.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at [http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf).

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at [http://www.gradcollege.txstate.edu/gcforms.html](http://www.gradcollege.txstate.edu/gcforms.html). After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor...
Texas State University

may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Family and Child Studies: FCD

Courses Offered

Family and Child Development (FCD)

FCD 5100. Introduction to Family and Child Studies.
Focus on gaining information and competencies important to graduate study success. Includes academic expectations for graduate students as well as information related to the Family and Child Studies graduate program. Required for Family and Child Studies majors. Graded on a credit (CR), no credit (F) basis. 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Grade Mode: Credit/No Credit

FCD 5101. Graduate Assistant Development.
This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. Repeatable with different emphasis. 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA Grade Mode: Leveling/Assistantships

FCD 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: FCD 5399A. 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours. Grade Mode: Credit/No Credit

FCD 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: FCD 5399A. 2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours. Grade Mode: Credit/No Credit

FCD 5340. Advanced Cultural Diversity of Families.
Survey study of family diversity through selected family science research methods and topics including family structure and function, family life patterns, multicultural groups, agents of enculturation, and family life education. Prerequisite: Graduate Standing. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Multicultural Content Grade Mode: Standard Letter
FCD 5341. Advanced Child Development.
Focus on developmental processes and influences from conception through early childhood period. Includes interactive relationship of biological and environmental factors in total development of the child. Child observations required. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Child Development

FCD 5342. Early Childhood Intervention.
This course provides an interdisciplinary introduction, study, and application of information to the professional discipline of early childhood intervention and the early intervention specialist (EIS). Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Early Childhood Intervention

FCD 5343. Hospitalized Child: Child Life Specialist.
This course enhances students' ability to utilize theoretical and applied technologies when interacting with children and families in hospital settings. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Hospitalized Child: Child Life Specialist

FCD 5344. Infant and Early Childhood Mental Health.
This course provides an interdisciplinary understanding of the social and emotional development of infants and young children within the context of the family. Focus will be on the role of the infant mental health specialist in strengthening the development of young children and the parent-child relationship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Infant and Early Childhood Mental Health

FCD 5345. Advanced Methods in Child Life.
This course focuses on the applied techniques and methodologies essential to the child life profession. In addition, this course offers guided experience and opportunities for stepping into the child life profession, ongoing career development and self care.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Methods in Child Life

This course will cover the foundations of family and child studies. Topics will include child development, principles of guidance, and family relationships. Prerequisite: Graduate standing. This course does not earn graduate degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Foundations of Family and Child Studies

FCD 5347. Grief and Bereavement in Children, Adolescents, and Parents.
This course includes a historical review of theoretical models on grief and bereavement, influences on grief and bereavement responses, and current perspectives on helping the bereaved cope. Implications for child life specialists will be analyzed.
about Grief and Bereavement in Children, Adolescents, and Parents
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Grief and Bereavement in Children, Adolescents, and Parents

FCD 5348. Pain and Anxiety Management for Children.
This course provides child life students with theoretical foundations and applied non-pharmacological strategies for assessing children's pain and anxiety and assisting them with alleviation during painful healthcare and other life experiences.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Pain and Anxiety Management for Children

Evaluation of research concepts, methods, and strategies in family and child studies. Topics include the nature of scientific research, sampling, measurement, data collection, types of socio-behavioral research, data analysis, and evaluation of research reports.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Design and Methods in Family and Child Studies

A critical evaluation of theoretical concepts and current research in family and child studies. Emphasis on recent trends in family and child theories.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Theory in Family and Child Studies

Seminar to examine current issues in family and child studies. Emphasis on current research, theories, and applications. Also includes orientation to the conceptual and methodological perspectives of multi-disciplinary study in the field of family and child studies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar: Issues in Family and Child Studies

Study of the diversity and effectiveness of family and child services programs at the federal, state, and community levels. Program evaluation strategies and measures, fiscal management, and grant writing will be included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Program Evaluation in Family and Child Studies

FCD 5354. Hospitalized Child: Child Life Specialist.
This course enhances students' ability to utilize theoretical and applied technologies when interacting with children and families in hospital settings. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Hospitalized Child: Child Life Specialist

This course enhances students' ability to utilize theoretical and applied technologies when interacting with children and families in hospital settings. Prerequisite: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Program Evaluation in Family and Child Studies
FCD 5355. Advanced Independent Study.
Individual work on problems related to student's primary area of specialization. Work may consist of empirical research or of critical reviews and integration of existing literature. Course may be repeated once for credit when topics vary.

about Advanced Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Independent Study

FCD 5356. Advanced Program Administration.
Study of family and child services systems. Management theory and strategies, strategic planning, program development and implementation, personnel management, and public policy are emphasized.

about Advanced Program Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Program Administration

FCD 5357. Comparative Studies in Child Development.
The study of cultural values and beliefs regarding children and the reflection of these in childrearing and early care and education programs and practices in the U.S. and selected countries. The interactive influence of culture and national policies will also be studied.

about Comparative Studies in Child Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Comparative Studies in Child Development

FCD 5358. Practicum in Family and Child Studies I.
Structured practical experience in family and child studies in a private or public setting. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Focus will be on experiential learning. Graded on a credit (CR), no credit (F) basis.

about Practicum in Family and Child Studies I
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Family and Child Studies I

FCD 5359. Practicum in Family and Child Studies II.
Continued practical experience in family and child studies at a private or public setting with supervision provided by a member of the graduate faculty and a designated individual at the work site. A research report will be integrated with practical application. Graded on a credit (CR), no credit (F) basis. Prerequisite: FCD 5358.

about Practicum in Family and Child Studies II
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Family and Child Studies II

FCD 5399A. Thesis.
This course represents a student's initial thesis enrollment. Focus is on identification of thesis topic, review of literature, and research design. No thesis credit is awarded until student has completed the thesis in FCD 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

FCD 5399B. Thesis.
This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: FCD 5399A.

about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

FCD 5599B. Thesis.
This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: FCD 5399A.

about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

FCD 5659. Internship in Child Life.
Structured hospital experience for individuals who plan to pursue a career in child life. Provides opportunity to work in a hospital setting under the direction of a certified child life specialist. Prerequisite: 30 hours of graduate coursework or approval of graduate advisor. Graded on a credit (CR), no credit (F) basis.

about Internship in Child Life
6 Credit Hours. 0 Lecture Contact Hours. 32 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Internship in Child Life

FCD 5999B. Thesis.
This course represents a student's continuing thesis enrollment. Focus is on data collection, analysis, and writing of thesis. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. Prerequisite: FCD 5399A.

about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

Master of Science (M.S.), Major in Human Nutrition

Major Program
The graduate program in human nutrition promotes the study of human nutrition, food science, and biotechnology with emphasis on promoting health and preventing disease. Graduate instruction is based on a variety of learning strategies, including lecture, seminar-style discussion, participation in research, and practical laboratory work using state of the art equipment and techniques. Graduates achieve the technical skills, scientific knowledge, and local, national, and global perspectives to integrate the fields of nutrition, food science and food biotechnology to address human health concerns of the 21st century.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/hmnt.html.
### Additional Course Requirements for Special Admission Considerations

Applicants with limited academic preparation in nutrition and foods can be conditionally admitted. Foundation courses will be required to provide fundamental knowledge for the discipline. These courses will not apply toward completion of the master’s degree and include, but may not be limited to:

- NUTR 5300 Foundation Studies in Human Nutrition (Nutrition Science)
- NUTR 5300 Foundation Studies in Human Nutrition (Food Science)
- NUTR 5300 Foundation Studies in Human Nutrition (Biochemical Nutrition)

Students with no biology or chemistry background will not be considered for admission without evidence of completion of the following courses:

- Introductory Biology
- Microbiology
- Anatomy and Physiology
- Two terms of Introductory Chemistry
- At least one Organic Chemistry course
- One course in Biochemistry

### Dietetic Internship Concurrent Enrollment

Students enrolled in the M.S. program who are interested in obtaining the registered dietitian (RD) credential are encouraged to apply for admission to the Texas State dietetic internship (DI) after they have completed at least one term. While up to nine hours of courses taken as part of the DI may count towards the M.S. degree, completion of both the M.S. and DI may require more course work than needed to complete the M.S. alone. Students interested in this dual option are required to meet with the graduate coordinator to determine courses required to complete both programs. It is important to note that admission to the M.S. does not guarantee acceptance into the Texas State DI.

### Degree Requirements

The nutritional science concentration prepares students to work in public and private nutrition and health care-related facilities, agencies and advocacy organizations. It also prepares students for doctoral programs in nutrition.

#### Thesis Option

**Core Courses**

- FCS 5310 Research Methods in FCS
- NUTR 5304 Advanced Functional Foods and Nutraceuticals
- NUTR 5305 Seminar in Nutrition and Disease
- NUTR 5306 Seminar in Nutrition in the Lifespan
- NUTR 5366 Nutrient Metabolism I
- NUTR 5367 Nutrient Metabolism II

**Nutritional Science Courses**

- FCS 5311 Statistics and Data Analysis for Family and Consumer Sciences
- NUTR 5302I Advances in Nutrition Policy & Ethics

Choose 3 hours from the following:

- NUTR 5302E Nutrition and Disease

#### Non-thesis Option

**Core Courses**

- FCS 5310 Research Methods in FCS
- NUTR 5304 Advanced Functional Foods and Nutraceuticals
- NUTR 5305 Seminar in Nutrition and Disease
- NUTR 5306 Seminar in Nutrition in the Lifespan
- NUTR 5366 Nutrient Metabolism I
- NUTR 5367 Nutrient Metabolism II

**Nutritional Science Prescribed Electives**

- NUTR 5302I Advances in Nutrition Policy & Ethics
- FCS 5311 Statistics and Data Analysis for Family and Consumer Sciences

Choose 3 hours from the following:

- NUTR 5302E Nutrition and Disease
- NUTR 5302F Nutritional Supplements
- NUTR 5302G Pediatric Obesity
- NUTR 5302H Advanced Nutrition and Genetics
- NUTR 5302J Diet Therapy and Pathophysiology
- NUTR 5362 Advanced Medical Nutrition Therapy
- NUTR 5363 Advanced Community Nutrition
- NUTR 5364 The Science of Nutrition and Exercise
- BIO 5426 Immunology
- H ED 5315 Application of Quantitative Data Analysis in Health and Wellness Promotion (Research II)
- H ED 5320 Foundation of Public Health

**Graduate Advisor-approved Electives**

Choose 12 hours

**Total Hours**

- 33

**Total Hours**

- 39
If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Human Nutrition: NUTR

**Nutrition and Foods (NUTR)**

**NUTR 5101. Graduate Assistant Development.**

This course is required as a condition of employment for graduate teaching and instructional assistants. This course provides regular in-service and planned periodic evaluations of instructional responsibilities. This course does not earn graduate degree credit. About Graduate Assistant Development

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA

Grade Mode: Leveling/Assistantships

about Graduate Assistant Development
NUTR 5199B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A. about Thesis

Grade Mode: 1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Leveling/Assistantships
Grade Mode: Credit/No Credit

NUTR 5299B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A. about Thesis

Grade Mode: 2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Leveling/Assistantships
Grade Mode: Credit/No Credit

This course is designed for students who do not have a sufficient background in the foundations of nutrition and food science to be successful in graduate level courses. Prerequisite: consent of graduate advisor. No graduate credit awarded; may be repeated. about Foundation Studies in Human Nutrition

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Standard Letter

NUTR 5302E. Nutrition and Disease.
An advanced study of the ability of various nutrient and non-nutrient compounds found in food to prevent and treat disease. Diseases covered include cancer, diabetes, cardiovascular disease, among others. Prerequisite: graduate standing and permission of instructor. about Nutrition and Disease

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302F. Nutritional Supplements.
An advanced study of the efficacy of dietary supplements. Both nutrient and non-nutrient supplement components will be discussed. Clinical trials, epidemiological data and molecular mechanisms of action of dietary supplements will be compared to manufacturer’s claimed action. Prerequisite: graduate standing and consent of instructor. about Nutritional Supplements

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302G. Pediatric Obesity.
An advanced study of pediatric obesity, including causes, economic and health related consequences, evidence-based treatment and prevention strategies. Prerequisite: graduate standing and consent of instructor. about Pediatric Obesity

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302H. Advanced Nutrition and Genetics.
This course will examine the specific processes in intermediary nutrient metabolism and their genetic regulation. The effects on gene expression, cell signaling, cell physiology, and disease processes will also be explored. Prerequisite: Admission to MS in Human Nutrition. about Advanced Nutrition and Genetics

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

NUTR 5302I. Advances in Nutrition Policy & Ethics.
This course will investigate scientific literature reviewing ethical and policy issues influencing the food systems and nutrition science in the United States and globally. Students will identify ethical issues, review current policy, and conduct analyses of policy solutions. Students will prepare and engage in informed debates of current issues. about Advances in Nutrition Policy & Ethics

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

NUTR 5302J. Diet Therapy and Pathophysiology.
This course will investigate the use of diet as a treatment for a variety of acute and chronic disease states. Students will also learn to apply the nutrition care process to treat patients/clients with acute and chronic diseases. about Diet Therapy and Pathophysiology

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

NUTR 5303. Nutrition and Food Science Project.
Directs the graduate student to review, analyze and compile current scientific literature pertaining to a specific, advanced topic in nutrition under guidance of faculty. Course includes preparation of a manuscript (review of literature) in publication format. Prerequisite: Graduate Standing. about Nutrition and Food Science Project

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Sources and mechanism of action of dietary bioactive compounds in functional foods, nutraceuticals and supplements in the prevention and management of chronic and infectious diseases. The efficacy, safety and regulatory issues governing development and commercialization will be discussed. about Advanced Functional Foods and Nutraceuticals

Grade Mode: 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
NUTR 5305. Seminar in Nutrition and Disease.
An advanced study of a selected topic in nutrition concerning nutrients and functional foods and their role in disease prevention or treatment. Class topics will enter on clinical trials, epidemiological data and molecular mechanisms of action concerning the ability of nutrients to prevent or treat disease. Repeatable for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Nutrition and Disease

NUTR 5306. Seminar in Nutrition in the Lifespan.
An advanced study of a selected topic in nutrition and the lifespan from a multidisciplinary perspective, including review of scientific literature in nutrition, physiology, biochemistry, sociology, exercise sports science, epidemiology, endocrinology and genetics. Repeatable for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Nutrition in the Lifespan

Evaluation of research concepts, methods, and strategies used in nutrition and food science research. Topics include the nature of scientific research, sampling, measurement, data collection, types of research methodology, use of data analysis and management software, and evaluation of research reports.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research Methods in Nutrition and Food Science

Individual work with specific guidance from graduate nutrition faculty. Work may include participation in research, professional practice, and/or critical review of the scientific literature. Course may be repeated once for credit when topics vary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Independent Study in Nutrition

NUTR 5360. Practicum for Dietetic Internship.
Students observe and engage in the practice of dietetics under the supervision of practitioners in facilities for health care, public health, and food systems. Repeated twice to meet requirements to complete the dietetic internship program. Graded on a credit (CR), no credit (F) basis. Prerequisites: Admission to Texas State Dietetic Internship.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
about Practicum for Dietetic Internship

NUTR 5361. Advanced Food Systems Administration.
Techniques and procedures for management, service, and marketing of meals in commercial and noncommercial food service facilities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Food Systems Administration

NUTR 5362. Advanced Medical Nutrition Therapy.
Advanced study of medical nutrition therapy with emphasis on application of principles and techniques of nutritional assessment emphasizing current clinical nutrition practices. Current scientific literature will be used extensively to discuss most recent advances in the area of medical nutrition therapy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Medical Nutrition Therapy

NUTR 5363. Advanced Community Nutrition.
Assessment of the nutritional needs of the community and of programs that serve the needs. Experiences include survey techniques, nutritional education, and management of programs to meet specific nutritional needs through community agencies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Community Nutrition

An advanced course focusing on the physiological and biochemical impact of nutrient intake on physical performance, health and fitness. Special emphasis will be placed on the investigation of a variety of dietary supplements, including purported ergogenic aids. The course requires significant reading and interpreting of the scientific literature.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Science of Nutrition and Exercise

NUTR 5365. Analytical Food Science and Molecular Techniques.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Analytical Food Science and Molecular Techniques

NUTR 5366. Nutrient Metabolism I.
An advanced study of the biochemical and physiological foundations of nutrition and metabolism and its relevance to health and wellness. Scientific literature pertaining to biochemical structure, metabolism and physiological regulation of macronutrients and water-soluble vitamins. Prerequisites: Graduate Standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nutrient Metabolism I
NUTR 5367. Nutrient Metabolism II.
An advanced study of the biochemical and physiological foundations of nutrition with emphasis on fat-soluble vitamins and minerals. Current scientific information pertaining to structure, metabolism and physiological regulation of these micronutrients. Prerequisites: Graduate Standing.
about Nutrient Metabolism II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nutrient Metabolism II

NUTR 5368. Food Biotechnology.
Applications of microbiology, genetic engineering and biotechnology to the production of food and food ingredients. Addresses the use of biotechnology in creation of genetically engineered foods and functional foods from microbes, plants and animals. Ethical and security risks associated with food biotechnology will be debated. Prerequisites: Graduate Standing.
about Food Biotechnology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Food Biotechnology

NUTR 5369. Nutrition and Immune Function.
This course integrates existing knowledge in several areas - nutrition, food science, metabolism and immunology. Discussion will focus on the effect of dietary components on activation of cells and genes related to immune system and underlying mechanisms of nutritional immunomodulation. Prerequisites: Graduate Standing.
about Nutrition and Immune Function
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nutrition and Immune Function

NUTR 5370. Food and Nutritional Toxicology.
Basic principles of nutritional and food toxicology. Absorption, metabolism and excretion of xenobiotics, allergenic and toxic constituents in diet. Effect of dietary toxins on nutritional status, mutagenesis, carcinogenesis and disease. Regulation and safety assessment of foods including food additives, environmental contaminants, pesticides and antibiotic residues. Prerequisite: Graduate standing.
about Food and Nutritional Toxicology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Food and Nutritional Toxicology

NUTR 5371. Externship in Human Nutrition.
Structured practical experience in human nutrition, food science, food biotechnology. Supervision provided by a member of the graduate faculty and a designated individual at the work site. Requires a minimum of 150 hours of supervised experience. Prerequisites: Graduate standing and approval by graduate advisor and faculty supervisor.
about Externship in Human Nutrition
3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Grade Mode: Standard Letter
about Externship in Human Nutrition

NUTR 5375. Advances in Life Span Nutrition.
An advanced study of the nutritional requirements throughout the life span involving a multidisciplinary approach including, biochemistry, endocrinology and genetics, and perspectives of human psychological and social development. Prerequisite: consent of graduate advisor.
about Advances in Life Span Nutrition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advances in Life Span Nutrition

NUTR 5399A. Thesis.
Initial thesis enrollment. Focus is on identification of thesis topic, review of literature, research design and preparation of thesis proposal. No thesis credit is awarded until completion of NUTR 5399B. Prerequisite: Graduate standing.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

NUTR 5399B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

NUTR 5599B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
about Thesis
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

NUTR 5999B. Thesis.
Continuing thesis enrollment. Focus is on data collection, analysis and writing of the thesis. The student continues to enroll in this course until the thesis is defended. Prerequisite: NUTR 5399A.
about Thesis
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

Master of Science (M.S.), Major in Merchandising and Consumer Studies

Major Program
The master of science (M.S.) major in merchandising and consumer studies will educate the next generation of product developers, retail and merchandising managers, as well as consumer studies professionals, who will make pivotal and transformative decisions vital to intelligent economic, social, and environmental resource management. Our goal is to prepare students with competencies that address current and future consumer-related employment needs of Texas. Building on the undergraduate foundation, the master’s level curriculum engages students in the analysis, critical thinking, and holistic problem solving.
needed to respond to the complexity and growth of consumer-centric systems.

**Admission Policy**

For information regarding admission application requirements and deadlines, please visit The Graduate College website at [http://www.gradcollege.txstate.edu/mcs.html](http://www.gradcollege.txstate.edu/mcs.html).

Choose 6 hours in consultation with graduate advisor

**Total Hours**

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the [Graduate College Guide to Preparing and Submitting a Thesis or Dissertation](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf). The thesis handbook may be accessed at [http://www.gradcollege.txstate.edu](http://www.gradcollege.txstate.edu).

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at [http://www.gradcollege.txstate.edu/gcforms.html](http://www.gradcollege.txstate.edu/gcforms.html). After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to
enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit ("CR") will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

### Fee Reduction

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

### Thesis Deadlines and Approval Process

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 41 days before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library.
      However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Family and Consumer Sciences: FCS
FCS 5310. Research Methods in FCS.
This course will cover the evaluation of concepts, methods, and strategies for research in the disciplines of family and consumer sciences. The course will focus on the nature and ethics of scientific research, including design, sampling, measurement, and data collection. Restricted to graduate level majors in the School of Family and Consumer Sciences.
Grade Mode: Standard Letter
about Research Methods in FCS
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

FCS 5311. Statistics and Data Analysis for Family and Consumer Sciences.
This is a graduate level course covering statistical techniques commonly used in the field of family and consumer sciences. Topics include descriptive statistics, Chi-Square analysis, analysis of variance and covariance, simple and multiple linear regression, logistic regression, and use of statistical software. Data analysis to support decision-making is emphasized. Prerequisite: FCS 5310. Restricted to graduate students in FCS.
about Statistics and Data Analysis for Family and Consumer Sciences
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Statistics and Data Analysis for Family and Consumer Sciences

Study of Family and Consumer Sciences topics in international settings. Emphasis will be placed on an analysis of cultural differences and similarities and their application within FCS professions. Repeatable for credit.
about International Study in Family and Consumer Sciences
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about International Study in Family and Consumer Sciences

Dietetic Internship Certificate Program
The dietetic internship (DI) at Texas State is a post-graduate non-degree program that fulfills the supervised practice requirements to become a registered dietitian. At the successful completion of the program, the student will be eligible to sit for the Registration Exam, which is required to become a registered dietitian.

This program incorporates a minimum of 1,200 hours of supervised practice with three graduate courses that address topics related to dietetic practice. The program is currently accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association (ADA). Students must maintain a 3.0 grade point average in their course work to successfully complete the DI. A grade of D or F in any of the graduate classes will result in dismissal from the program.

The Texas State dietetic internship participates in the online application system DICAS for non-Texas State applicants. Information about accessing this system can be found at http://www.eatright.org/CADE/content.aspx?id=186.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/TXST_Cert.html#Diet.

Pre-select Option
Each spring, undergraduate and graduate students at Texas State who seek the RD credential can apply to the Texas State dietetic internship using a “pre-select option” instead of using the traditional computer-matching process. M.S. students are eligible to apply using the pre-select option if they have completed at least one term in the M.S. program and will have obtained a Verification Statement from a CADE-accredited Didactic Program in Dietetics before the internship begins. Additional information regarding admission application requirements and deadlines can be found online at http://www.fcs.txstate.edu/degrees-programs/nutr/nutr_di.html.

Post-Acceptance Requirements
- Negative Tb test
- Negative drug screening urinalysis
- Criminal background check
- Immunization for Hepatitis B, mumps, measles, and tetanus

Note: Up to 9 hours of DI course work can be applied to the requirements for completion of the M.S. degree.

Program Completion Requirements
- Attainment of entry-level performance through completion of approximately 1,240 hours of supervised practice

Department of Occupational, Workforce, and Leadership Studies

Pedernales Building
T: 512.245.2115 F: 512.245.3047
http://www.owls.txstate.edu

The Department of Occupational, Workforce, and Leadership Studies at Texas State prepares nontraditional students for careers through high-quality academic, professional, and technical programs. Here are some of the reasons this may be the right program for you:

- We offer courses at convenient times and locations for the working adult.
- By using past courses and work/life credit, you may be able to complete your entire degree in San Antonio or at the Round Rock campus.
- You can individualize your degree. Faculty advisors work with you in analyzing your strengths and weaknesses, and planning your future career goals.
Master of Arts in Interdisciplinary Studies (M.A.I.S.)
- Major in Interdisciplinary Studies (OWLS) (p. 700)

Master of Science in Interdisciplinary Studies (M.S.I.S.)
- Major in Interdisciplinary Studies (OWLS) (p. 704)

Master of Education (M.Ed.)
- Major in Management of Technical Education (p. 708)

Boden-McGill, Carrie J, Professor, Occ, Workforce, & Ldrshp Stds, Ph.D., Kansas State University
Cherrstrom, Catherine Ann, Assistant Professor, Occ, Workforce, & Ldrshp Stds, Ph.D., Texas A&M University
Dietz, Albert S, Assistant Professor, Occ, Workforce, & Ldrshp Stds, Ph.D., University of Texas at Austin
Eichler, Matthew A, Associate Professor, Occ, Workforce, & Ldrshp Stds, Ph.D., Univ of Minnesota-Twin Cities
Gibson, Patricia Ann, Lecturer, Occ, Workforce, & Ldrshp Stds, Ed.D., Northcentral University
Lopez, Omar S, Associate Professor, Occ, Workforce, & Ldrshp Stds, Ph.D., University of Texas at Austin
Robbins, Stacey Erin, Lecturer, Occ, Workforce, & Ldrshp Stds, Ed.D., Teachers College, Columbia Univ
Sherron, Todd, Lecturer, Occ, Workforce, & Ldrshp Stds, Ph.D., University of North Texas
Springer, Stephen B, Associate Professor, Occ, Workforce, & Ldrshp Stds, Ed.D., Texas A&M University

Master of Arts in Interdisciplinary Studies (M.A.I.S.), Major in Interdisciplinary Studies

Major Program
The master of arts in interdisciplinary studies (M.A.I.S.) degree with a concentration in occupation, workforce, and leadership studies is coordinated through the Department of Occupational, Workforce, and Leadership Studies. The interdisciplinary studies degree program is offered by the University and is not meant to replace any currently existing traditional program of study but does draw courses from other departments offering graduate-level work. The interdisciplinary studies degree is highly individualized and is designed to provide the adult with various course options. Further information may be obtained by contacting the program chair of the Department of Occupational, Workforce, and Leadership Studies, referencing the “Interdisciplinary Studies” section of this catalog, or the Department of Occupational, Workforce, and Leadership Studies website at http://www.oced.txstate.edu/.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/oced.

Degree Requirements
The M.A.I.S. degree consists of a minimum of 39-hours. Degree requirements include an entry module (9 hours), an academic module (21 hours), and an exit module (9 hours). Do not register for any course without the prior approval of your graduate advisor.

Course Work Requirements

Entry Module Course Work
Choose 9 hours of Graduate Advisor Approved Electives

Academic Module Course Work
Choose 21 hours of Graduate Advisor Approved Electives

Exit Module Course Work

Total Hours: 39

1 Students are not required to complete the Entry Module first. Courses from any module may be taken in any order, with the exception as noted in the Exit Module. The Entry Module is designed to help the student develop skills relating to communication, human relations, and cultural understanding. Students may choose courses from the following departments: Adult Education (ADED), Career and Technology Education (CTE), Developmental Education (DE), Healthcare Human Resources (HHR), English (ENG), Psychology (PSY), and Sociology (SOCI).

2 The courses in the Exit Module are sequential. OCED 5300 is only offered during fall semesters. You may take Exit Module courses while also taking Entry or Academic Module courses.

Master's level courses in Occupational, Workforce, and Leadership Studies: CTE (p. 700), OCED (p. 703)

Courses Offered

Career and Technical Education (CTE)
CTE 5300. Career and Technical Education Student Identification, Placement, and Follow-up.
This course provides an overview of the theory, methods, and instruments used in determining occupational aptitude, programs of job placement, and the study of the development and coordination of student follow-up.

About Career and Technical Education Student Identification, Placement, and Follow-up
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Career and Technical Education Student Identification, Placement, and Follow-up
CTE 5301. Technology of Teaching.
This course presents the research and theory related to the technology of teaching. Topics include learning theories, effective teaching techniques, motivation and performance, evaluation, and classroom dynamics.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5302. Coordination Techniques.
This course emphasizes the establishment of cooperative education programs, guidance, selection, and placement of students, work adjustment, the setting of student objectives, evaluation, labor laws, current research, and public relations for cooperative education programs.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5304. Organization and Management of Marketing Education Programs.
This course highlights the organization and administrative structure of both school based and workplace based marketing education programs in the United States. The course includes a discussion of objectives, programs, practices, teacher selection and supervision, and evaluative criteria for business education departments.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5305. Laboratory and Classroom Organization and Management.
This course involves the organization and management of CTE classroom and instructional laboratories and related materials. It includes the establishment of record and inventory systems, establishment of student rotations, hygiene and safety requirements, working with suppliers and potential donors, and maintenance of equipment.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5306. Instructional Materials Development Technology.
This course provides students opportunities to develop knowledge, skills, and abilities relevant to assessing instructional materials in education and training, within the context of real-world settings.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5307. Selection, Placement, and Follow-Up in Cooperative Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5308. Problems in Cooperative Training.
This course provides a review of basic standards for cooperative education, underlying reasons for standards, and current issues/problems in cooperative education programs. Students will discuss and provide solutions to current dilemmas of cooperative education, through the use of organizational research techniques and organizational problem solving.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5312. Development, Organization, and Use of Instructional Material.
This course involves the selection of lesson content, lesson planning, and instructional material development. The emphasis is on the effective development and evaluation of instructional materials. A variety of methods will be taught to gather and utilize instructional materials.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5313A. Teaching Entrepreneurship in Career and Technical Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5313B. Leadership and Leadership Activities for Career and Technical Education Teachers.
This course provides an overview of leadership and management styles, theories, and current research. An overview of leadership development techniques utilized in various CTE settings will be provided.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5313C. Teaching Entrepreneurship in Career and Technical Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5313D. Leadership and Leadership Activities for Career and Technical Education Teachers.
This course provides an overview of leadership and management styles, theories, and current research. An overview of leadership development techniques utilized in various CTE settings will be provided.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CTE 5313F. Human Performance in the Workplace.
The course provides an overview of current quality improvement strategies utilized in business and industry settings. Topics include the teaching of HPT, organizational culture, teamwork, leadership, measuring improvement, statistical process control, and restructuring of work. about Human Performance in the Workplace

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Human Performance in the Workplace

This course provides an overview of interdisciplinary studies frameworks in the fields related to occupational, workforce, and leadership studies. Students investigate career options, develop plans of study, integrate interdisciplinary academic material, and refine interdisciplinary writing skills.

about Interdisciplinary Studies in Occupational, Workforce, and Leadership Studies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Interdisciplinary Studies in Occupational, Workforce, and Leadership Studies

CTE 5313L. Emergent Workplace Perspectives.
This course examines the emergent and evolving nature of the modern workplace. Students will explore topics related to interdisciplinary perspectives in the workplace such as inequality related to gender and race, workers’ rights, knowledge, control, the role of technology, and globalization.

about Emergent Workplace Perspectives

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Emergent Workplace Perspectives

CTE 5314. Human Relations for Career and Technical Education Teachers.
This course includes a study of methods of establishing and maintaining effective relationships with students, co-workers, families, business and industry, and community members. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted.

about Human Relations for Career and Technical Education Teachers

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Relations for Career and Technical Education Teachers

CTE 5320. Effective Methods of Teaching and Training.
This fundamental course is for trade and industrial educators seeking certification and technical trainers who are not seeking certification. It is designed to prepare them to apply effective teaching principles and techniques. Lesson plans will be prepared, classrooms managed, and practice teaching included.

about Effective Methods of Teaching and Training

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Effective Methods of Teaching and Training

CTE 5321. Work-based Learning in Career and Technical Education.
This course is intended for teacher coordinators of work-based programs in trades and industrial cooperative education. There is an emphasis on selection of occupations and training stations, student recruitment, instructional coordination in numerous on-the-job experiences, state and local reports, and recordkeeping requirements. Research is conducted on local districts.

about Work-based Learning in Career and Technical Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Work-based Learning in Career and Technical Education

CTE 5322. Teaching and Training as Professions.
This course emphasizes the professional requirements of teaching and training in a variety of settings. Professional topics include licensure and preparation for the profession, organizations, philosophical foundations of teaching and training, and the socio-political landscape of teaching and training. Research is conducted on reform efforts.

about Teaching and Training as Professions

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching and Training as Professions

CTE 5323. Technology Applications.
This course covers the use of computers in the classroom or office. Topics include history of computers, philosophies of computer integration, research in computer use, overview of common computer programs, and history and use of the Internet. Trades and Industry teacher candidates will review for the TExES examination.

about Technology Applications

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Technology Applications

CTE 5330. Overview of Interdisciplinary Research.
Students will become familiar with various interdisciplinary research methods, learn concepts related to research, and conduct reviews and critiques of academic research articles. The application of academic research to practical problems will be emphasized.

about Overview of Interdisciplinary Research

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Overview of Interdisciplinary Research

CTE 5341. Supervision of Career and Technical Education.
This course provides an overview of skills and attitudes for the supervision of personnel in the field of CTE. Students will learn the dynamics of supervision, the supervisor’s role in the workplace, and the evaluation of instructional and other personnel in CTE settings.

about Supervision of Career and Technical Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Supervision of Career and Technical Education
**CTE 5355. Career Education and Occupational Information in Career and Technical Education Guidance.**

This course deals with the collection, evaluation, and interpretation of common occupational, career, and personal information. It includes an overview of current theory and research in occupational selection techniques, psychological and sociological factors in career selection, and job analysis. The emphasis is on the practical application in CTE settings.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**CTE 5380. Management of Business Office Education Training Programs.**

This course is for instructors in industry and business education settings and involves an in-depth analysis of governmental policies relating to teaching and training in business education, working with cooperative education students, assisting individuals with the transition to the workplace and further education.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**CTE 5381. Instructional Strategies in Business Office Education Training Programs.**

This course is designed for instructors in educational and industry settings. Students will learn to prepare in-depth individualized units of instruction, which include selecting curriculum, incorporating technology in teaching and training, and methods of assessment.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**CTE 5390. Independent Study in Career and Technical Education.**

This is an independent study course involving the study of important and timely topics in CTE. Students complete the study at the direction of the faculty member. This course may be repeated with different topics with departmental permission.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s): Exclude from 3-peat Processing**

**Occupational Education (OCED)**

**OCED 5101. Instructional Skill Development.**

Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Occupational/Career and Technology Education. Topics covered are essential teaching strategies, techniques, evaluation design, online instruction, and effective instructional, motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.

**Grade Mode:** Standard Letter

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA**

**OCED 5300. Interdisciplinary Research Methods.**

Basic and advanced concepts related to interdisciplinary research. Special emphasis will be placed on technical writing skills, electronic analysis of databases, appropriate statistical treatment of data, development and validation of instruments, and interdisciplinary research design and procedures.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**OCED 5301. Applied Interdisciplinary Research Part 1.**

The instructional intent is to provide the graduate students with an opportunity to apply their research skills. Students are carefully monitored and mentored in initiating, performing, and documenting their individualized research project. Prerequisites: OCED 5300 and approval of research proposal.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**OCED 5302. Applied Interdisciplinary Research Part 2.**

This course is the final course in the interdisciplinary research series. It requires the development of a comprehensive final research report including extensive tables and graphs. Students must also be prepared to present the findings of the research to the Occupational Education faculty and students at the Graduate Research Forum. Prerequisite: OCED 5301.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**OCED 5304. Professional Practicum.**

This course engages students in a field based experience designed in OCED 5360C, the previous course in the sequence. Students implement their practicum of approximately 120 hours in a work-based setting and concurrently collect ongoing reflections of their experience. Prerequisite: OCED 5360C.

**Grade Mode:** Standard Letter

**3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.**
OCED 5310. Human Problems in the Workplace.
Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.
Grade Mode: Standard Letter
about Human Problems in the Workplace
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360. Special Topics in Occupational Education.
This course represents directed study and research in selected topics in occupational education such as systems theory or critical thinking for the workplace. Independent research projects may be assigned to each student as part of the course. May be repeated (with different emphases) for credit.
Grade Mode: Standard Letter
about Special Topics in Occupational Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360A. Sustainable Human Systems in Occupational Sciences.
This course provides students with a knowledge foundation for systems theory. This knowledge, plus ethical reflection and applicable field work, will enhance students’ ability to understand human systems, ambiguity in those systems and organizational complexity, and have the ability to leverage systemic problem-solving skills and human interventions in organizations.
Grade Mode: Standard Letter
about Sustainable Human Systems in Occupational Sciences
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360B. Critical Thinking in the Workplace.
This course provides students with an opportunity to examine workplace decision making in terms of critical thinking. Current occupational approaches to critical thinking will be emphasized. Students will participate in simulations and case studies of critical thinking for the workplace.
Grade Mode: Standard Letter
about Critical Thinking in the Workplace
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360C. Reflective and Experiential Learning Techniques.
This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience, which can be carried out in a following course. Prerequisite or Co-requisite: CTE 5330.
Grade Mode: Standard Letter
about Reflective and Experiential Learning Techniques
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

OCED 5360D. Leadership Development.
This course introduces students to leadership theory. Students will explore multiple approaches to leadership, topics related to leadership within organizations, ethics and values in leadership, and practical applications of theory in real-life situations.
Grade Mode: Standard Letter
about Leadership Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Master of Science in Interdisciplinary Studies (M.S.I.S.), Major in Interdisciplinary Studies

Major Program
The master of science in interdisciplinary studies (M.S.I.S.) degree with a concentration in occupation, workforce, and leadership studies is coordinated through the Department of Occupational, Workforce, and Leadership Studies. The interdisciplinary studies degree program is offered by the University and is not meant to replace any currently existing traditional program of study but does draw courses from other departments offering graduate-level work. The interdisciplinary studies degree is highly individualized and is designed to provide the adult with various course options. Further information may be obtained by contacting the program chair of the Department of Occupational, Workforce, and Leadership Studies, referencing the “interdisciplinary studies” section of this catalog, or the Department of Occupational, Workforce, and Leadership Studies website at http://www.ociet.txstate.edu/.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/oced.

Degree Requirements
The M.S.I.S. degree consists of a minimum of 39-hours. Degree requirements include an entry module (9 hours), an academic module (21 hours), and an exit module (9 hours). Do not register for any course without the prior approval of your graduate advisor.

Course Work Requirements

| Entry Module Course Work | 9 |
| Choose 9 hours of Graduate Advisor Approved Electives |

| Academic Module Course Work | 21 |
| Choose 21 hours of Graduate Advisor Approved Electives |

| Exit Module Course Work | 2 |
| OCED 5300 Interdisciplinary Research Methods | 3 |
| OCED 5301 Applied Interdisciplinary Research Part 1 | 3 |
| OCED 5302 Applied Interdisciplinary Research Part 2 | 3 |

Total Hours | 39 |
Students are not required to complete the Entry Module first. Courses from any module may be taken in any order, with the exception as noted in the Exit Module. The Entry Module is designed to help students develop skills relating to communication, human relations, and cultural understanding. Students may choose courses from the following departments: Adult Education (ADED), Career and Technology Education (CTE), Developmental Education (DE), Healthcare Human Resources (HHR), English (ENG), Psychology (PSY), and Sociology (SOCI).

The courses in the Exit Module are sequential. OCED 5300 is only offered during fall semesters. You may take Exit Module courses while also taking Entry or Academic Module courses.

Courses Offered

Career and Technical Education (CTE)

CTE 5300. Career and Technical Education Student Identification, Placement, and Follow-up.
This course provides an overview of the theory, methods, and instruments used in determining occupational aptitude, programs of job placement, and the study of the development and coordination of student follow-up.

Grade Mode: Standard Letter

CTE 5301. Technology of Teaching.
This course presents the research and theory related to the technology of teaching. Topics include learning theories, effective teaching techniques, motivation and performance, evaluation, and classroom dynamics.

Grade Mode: Standard Letter

CTE 5302. Coordination Techniques.
This course emphasizes the establishment of cooperative education programs, guidance, selection, and placement of students, work adjustment, the setting of student objectives, evaluation, labor laws, current research, and public relations for cooperative education programs.

Grade Mode: Standard Letter

CTE 5304. Organization and Management of Marketing Education Programs.
This course highlights the organization and administrative structure of both school based and workplace based marketing education programs in the United States. The course includes a discussion of objectives, programs, practices, teacher selection and supervision, and evaluative criteria for business education departments.

Grade Mode: Standard Letter

CTE 5305. Laboratory and Classroom Organization and Management.
This course involves the organization and management of CTE classroom and instructional laboratories and related materials. It includes the establishment of record and inventory systems, establishment of student rotations, hygiene and safety requirements, working with suppliers and potential donors, and maintenance of equipment.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5381. Instructional Strategies in Business Office Education Training Programs.
This course is designed for instructors in educational and industry settings. Students will learn to prepare in-depth individualized units of instruction, which include selecting curriculum, incorporating technology in teaching and training, and methods of assessment.  
Grade Mode: Standard Letter
about Instructional Strategies in Business Office Education Training Programs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5390. Independent Study in Career and Technical Education.
This is an independent study course involving the study of important and timely topics in CTE. Students complete the study at the direction of the faculty member. This course may be repeated with different topics with departmental permission.  
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Independent Study in Career and Technical Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Occupational Education (OCED)

OCED 5101. Instructional Skill Development.
Graduate assistants are required to enroll in this course in order to be prepared to instruct/assist with classes in Occupational/Career and Technology Education. Topics covered are essential teaching strategies, techniques, evaluation design, online instruction, and effective instructional, motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.  
Grade Mode: Leveling/Assistantships
about Instructional Skill Development
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

OCED 5300. Interdisciplinary Research Methods.
Basic and advanced concepts related to interdisciplinary research. Special emphasis will be placed on technical writing skills, electronic analysis of databases, appropriate statistical treatment of data, development and validation of instruments, and interdisciplinary research design and procedures.  
Grade Mode: Standard Letter
about Interdisciplinary Research Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The instructional intent is to provide the graduate students with an opportunity to apply their research skills. Students are carefully monitored and mentored in initiating, performing, and documenting their individualized research project. Prerequisites: OCED 5300 and approval of research proposal.  
Grade Mode: Standard Letter
about Applied Interdisciplinary Research Part 1
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
This course is the final course in the interdisciplinary research series. It requires the development of a comprehensive final research report including extensive tables and graphs. Students must also be prepared to present the findings of the research to the Occupational Education faculty and students at the Graduate Research Forum. Prerequisite: OCED 5301.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Applied Interdisciplinary Research Part 2

OCED 5304. Professional Practicum.
This course engages students in a field based experience designed in OCED 5360C, the previous course in the sequence. Students implement their practicum of approximately 120 hours in a work-based setting and concurrently collect ongoing reflections of their experience. Prerequisite: OCED 5360C.
3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.
Grade Mode: Standard Letter
about Professional Practicum

OCED 5310. Human Problems in the Workplace.
Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.
about Human Problems in the Workplace
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Problems in the Workplace

OCED 5360. Special Topics in Occupational Education.
This course represents directed study and research in selected topics in occupational education such as systems theory or critical thinking for the workplace. Independent research projects may be assigned to each student as part of the course. May be repeated (with different emphases) for credit.
about Special Topics in Occupational Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Special Topics in Occupational Education

OCED 5360A. Sustainable Human Systems in Occupational Sciences.
This course provides students with a knowledge foundation for systems theory. This knowledge, plus ethical reflection and applicable field work, will enhance students’ ability to understand human systems, ambiguity in those systems and organizational complexity, and have the ability to leverage systemic problem-solving skills and human interventions in organizations.
about Sustainable Human Systems in Occupational Sciences
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Sustainable Human Systems in Occupational Sciences

OCED 5360B. Critical Thinking in the Workplace.
This course provides students with an opportunity to examine workplace decision making in terms of critical thinking. Current occupational approaches to critical thinking will be emphasized. Students will participate in simulations and case studies of critical thinking for the workplace.
about Critical Thinking in the Workplace
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Critical Thinking in the Workplace

OCED 5360C. Reflective and Experiential Learning Techniques.
This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience, which can be carried out in a following course. Prerequisite or Co-requisite: CTE 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Reflective and Experiential Learning Techniques

OCED 5360D. Leadership Development.
This course introduces students to leadership theory. Students will explore multiple approaches to leadership, topics related to leadership within organizations, ethics and values in leadership, and practical applications of theory in real-life situations.
about Leadership Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing

Master of Education (M.Ed.), Major in Management of Technical Education

Major Program
The Department of Occupational, Workforce, and Leadership Studies also offers the master of education (M.Ed.) degree for those interested in supervision. The M.Ed. degree has a major in management of technical education and is a highly specialized degree program. It is designed to assist an individual in learning skills that would enhance his or her performance in managing technical education in either an education or an industrial setting. The degree provides the broad skills necessary for an educator or trainer to become a better instructor and manager of instruction. In this program, students develop instructional and managerial competencies through various courses in curriculum design and delivery, instructional improvement, human performance technology, class organization, management, teaching/learning styles, diversity, understanding organizations, and program evaluation. Course schedules are flexible to accommodate the needs of working professionals, and many courses are offered in online and hybrid formats. This option allows students to complete courses from home and study whenever and wherever is convenient. Hybrid courses meet three times each semester, and the remainder of the work is online. Contact the program chair of Department of Occupational, Workforce, and Leadership Studies or go to http://www.oced.txstate.edu/ for more information.
Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/mtec.

Course Work Requirements
Each level must be completed before a student may start on the next level unless granted permission from the graduate advisor. All 5000-level EDCL courses should be taken in numerical order. CTE electives must be approved by the graduate advisor.

Courses Offered
Career and Technical Education (CTE)

CTE 5300. Career and Technical Education Student Identification, Placement, and Follow-up.
This course provides an overview of the theory, methods, and instruments used in determining occupational aptitude, programs of job placement, and the study of the development and coordination of student follow-up.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5301. Technology of Teaching.
This course presents the research and theory related to the technology of teaching. Topics include learning theories, effective teaching techniques, motivation and performance, evaluation, and classroom dynamics.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5302. Coordination Techniques.
This course emphasizes the establishment of cooperative education programs, guidance, selection, and placement of students, work adjustment, the setting of student objectives, evaluation, labor laws, current research, and public relations for cooperative education programs.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5304. Organization and Management of Marketing Education Programs.
This course highlights the organization and administrative structure of both school based and workplace based marketing education programs in the United States. The course includes a discussion of objectives, programs, practices, teacher selection and supervision, and evaluative criteria for business education departments.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5305. Laboratory and Classroom Organization and Management.
This course involves the organization and management of CTE classroom and instructional laboratories and related materials. It includes the establishment of record and inventory systems, establishment of student rotations, hygiene and safety requirements, working with suppliers and potential donors, and maintenance of equipment.
Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Master’s level courses in Occupational, Workforce, and Leadership Studies: CTE (p. 709), OCED (p. 712)
CTE 5306. Instructional Materials Development Technology.
This course provides students opportunities to develop knowledge, skills, and abilities relevant to assessing instructional materials in education and training, within the context of real-world settings. 
about Instructional Materials Development Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Materials Development Technology

CTE 5307. Selection, Placement, and Follow-Up in Cooperative Education.
This course provides an overview of organizing and operating cooperative training programs in the community. It includes instruction in the procedures for assisting in the selection of occupations appropriate for students, assisting students in managing school and work time, and coordinating of school and workplace instructional efforts.
about Selection, Placement, and Follow-Up in Cooperative Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selection, Placement, and Follow-Up in Cooperative Education

CTE 5308. Problems in Cooperative Training.
This course provides a review of basic standards for cooperative education, underlying reasons for standards, and current issues/problems in cooperative education programs. Students will discuss and provide solutions to current dilemmas of cooperative education, through the use of organizational research techniques and organizational problem solving.
about Problems in Cooperative Training
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Cooperative Training

CTE 5312. Development, Organization, and Use of Instructional Material.
This course involves the selection of lesson content, lesson planning, and instructional material development. The emphasis is on the effective development and evaluation of instructional materials. A variety of methods will be taught to gather and utilize instructional materials.
about Development, Organization, and Use of Instructional Material
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development, Organization, and Use of Instructional Material

CTE 5313C. Teaching Entrepreneurship in Career and Technical Education.
This course includes a study and analysis of ownership, marketing strategies, location, financing, regulations, managing, and protecting a business. Students will analyze current research and techniques in teaching entrepreneurship in CTE settings.
about Teaching Entrepreneurship in Career and Technical Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about Teaching Entrepreneurship in Career and Technical Education

CTE 5313D. Leadership and Leadership Activities for Career and Technical Education Teachers.
This course provides an overview of leadership and management styles, theories, and current research. An overview of leadership development techniques utilized in various CTE settings will be provided.
about Leadership and Leadership Activities for Career and Technical Education Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about Leadership and Leadership Activities for Career and Technical Education Teachers

CTE 5313F. Human Performance in the Workplace.
The course provides an overview of current quality improvement strategies utilized in business and industry settings. Topics include the teaching of HPT, organizational culture, teamwork, leadership, measuring improvement, statistical process control, and restructuring of work.
about Human Performance in the Workplace
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about Human Performance in the Workplace

This course provides an overview of interdisciplinary studies frameworks in the fields related to occupational, workforce, and leadership studies. Students investigate career options, develop plans of study, integrate interdisciplinary academic material, and refine interdisciplinary writing skills.
about Interdisciplinary Studies in Occupational, Workforce, and Leadership Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about Interdisciplinary Studies in Occupational, Workforce, and Leadership Studies

CTE 5313L. Emergent Workplace Perspectives.
This course examines the emergent and evolving nature of the modern workplace. Students will explore topics related to interdisciplinary perspectives in the workplace such as inequality related to gender and race, workers’ rights, knowledge, control, the role of technology, and globalization.
about Emergent Workplace Perspectives
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingTopics
Grade Mode: Standard Letter
about Emergent Workplace Perspectives

CTE 5314. Human Relations for Career and Technical Education Teachers.
This course includes a study of methods of establishing and maintaining effective relationships with students, co-workers, families, business and industry, and community members. Strategies for teaching students and mentoring employees on the dynamics of human relations are highlighted.
about Human Relations for Career and Technical Education Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Relations for Career and Technical Education Teachers
CTE 5320. Effective Methods of Teaching and Training.
This fundamental course is for trade and industrial educators seeking certification and technical trainers who are not seeking certification. It is designed to prepare them to apply effective teaching principles and techniques. Lesson plans will be prepared, classrooms managed, and practice teaching included.

Grade Mode: Standard Letter

About Effective Methods of Teaching and Training

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5321. Work-based Learning in Career and Technical Education.
This course is intended for teacher coordinators of work-based programs in trades and industrial cooperative education. There is an emphasis on selection of occupations and training stations, student recruitment, instructional coordination in numerous on-the-job experiences, state and local reports, and recordkeeping requirements. Research is conducted on local districts.

Grade Mode: Standard Letter

About Work-based Learning in Career and Technical Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5322. Teaching and Training as Professions.
This course emphasizes the professional requirements of teaching and training in a variety of settings. Professional topics include licensure and preparation for the profession, organizations, philosophical foundations of teaching and training, and the socio-political landscape of teaching and training. Research is conducted on reform efforts.

Grade Mode: Standard Letter

About Teaching and Training as Professions

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5323. Technology Applications.
This course covers the use of computers in the classroom or office. Topics include history of computers, philosophies of computer integration, research in computer use, overview of common computer programs, and history and use of the Internet. Trades and Industry teacher candidates will review for the TExES examination.

Grade Mode: Standard Letter

About Technology Applications

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5324. Supervision of Career and Technical Education.
This course provides an overview of skills and attitudes for the supervision of personnel in the field of CTE. Students will learn the dynamics of supervision, the supervisor’s role in the workplace, and the evaluation of instructional and other personnel in CTE settings.

Grade Mode: Standard Letter

About Supervision of Career and Technical Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course deals with the collection, evaluation, and interpretation of common occupational, career, and personal information. It includes an overview of current theory and research in occupational selection techniques, psychological and sociological factors in career selection, and job analysis. The emphasis is on the practical application in CTE settings.

Grade Mode: Standard Letter

About Career Education and Occupational Information in Career and Technical Education Guidance

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5326. Management of Business Office Education Training Programs.
This course is for instructors in industry and business education settings and involves an in-depth analysis of governmental policies relating to teaching and training in business education, working with cooperative education students, assisting individuals with the transition to the workplace and further education.

Grade Mode: Standard Letter

About Management of Business Office Education Training Programs

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5327. Instructional Strategies in Business Office Education Training Programs.
This course is designed for instructors in educational and industry settings. Students will learn to prepare in-depth individualized units of instruction, which include selecting curriculum, incorporating technology in teaching and training, and methods of assessment.

Grade Mode: Standard Letter

About Instructional Strategies in Business Office Education Training Programs

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CTE 5328. Independent Study in Career and Technical Education.
This is an independent study course involving the study of important and timely topics in CTE. Students complete the study at the direction of the faculty member. This course may be repeated with different topics with departmental permission.

Grade Mode: Standard Letter

About Independent Study in Career and Technical Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Occupational Education (OCED)

**OCED 5101. Instructional Skill Development.**
Graduate assistants are required to enroll in this course to be prepared to instruct/assist with classes in Occupational/Career and Technology Education. Topics covered are essential teaching strategies, techniques, evaluation design, online instruction, and effective instructional, motivational techniques. This course does not earn graduate degree credit. Repeatable with different emphasis. Graded on a credit (CR), no-credit (F) basis.

Grade Mode: Standard Letter

Grade Mode: Leveling/Assistantships

OCED 5300. Interdisciplinary Research Methods.
Basic and advanced concepts related to interdisciplinary research. Special emphasis will be placed on technical writing skills, electronic analysis of databases, appropriate statistical treatment of data, development and validation of instruments, and interdisciplinary research design and procedures.

The instructional intent is to provide the graduate students with an opportunity to apply their research skills. Students are carefully monitored and mentored in initiating, performing, and documenting their individualized research project. Prerequisites: OCED 5300 and approval of research proposal.

Grade Mode: Standard Letter

This course is the final course in the interdisciplinary research series. It requires the development of a comprehensive final research report including extensive tables and graphs. Students must also be prepared to present the findings of the research to the Occupational Education faculty and students at the Graduate Research Forum. Prerequisite: OCED 5301.

Grade Mode: Standard Letter

OCED 5304. Professional Practicum.
This course engages students in a field based experience designed in OCED 5360C, the previous course in the sequence. Students implement their practicum of approximately 120 hours in a work-based setting and concurrently collect ongoing reflections of their experience. Prerequisite: OCED 5360C.

Grade Mode: Standard Letter

OCED 5310. Human Problems in the Workplace.
Overview of problems that supervisors, teachers, and co-workers encounter in business/industry, social service, military, or education. This range of problems interferes with communication, performance, and development of proficiency in school/work. Perspectives and reports on the incidence of these problems will be presented, as well as actions for these human problems.

Grade Mode: Standard Letter

OCED 5360. Special Topics in Occupational Education.
This course represents directed study and research in selected topics in occupational education such as systems theory or critical thinking for the workplace. Independent research projects may be assigned to each student as part of the course. May be repeated (with different emphases) for credit.

Grade Mode: Standard Letter

OCED 5360A. Sustainable Human Systems in Occupational Sciences.
This course provides students with a knowledge foundation for systems theory. This knowledge, plus ethical reflection and applicable field work, will enhance students’ ability to understand human systems, ambiguity in those systems and organizational complexity, and have the ability to leverage systemic problem-solving skills and human interventions in organizations.

Grade Mode: Standard Letter

OCED 5360B. Critical Thinking in the Workplace.
This course provides students with an opportunity to examine workplace decision making in terms of critical thinking. Current occupational approaches to critical thinking will be emphasized. Students will participate in simulations and case studies of critical thinking for the workplace.

Grade Mode: Standard Letter

OCED 5360C. Reflective and Experiential Learning Techniques.
This course prepares graduate students for a field-based practicum. Students learn reflection and experiential learning techniques useful in the domain of careers, workplace, and leadership. They also locate, develop, and propose a professional practicum experience, which can be carried out in a following course. Prerequisite or Co-requisite: CTE 5330.

Grade Mode: Standard Letter

Grade Mode: Exclude from 3-peat Processing

Grade Mode: Topics
OCED 5360D. Leadership Development.  
This course introduces students to leadership theory. Students will explore multiple approaches to leadership, topics related to leadership within organizations, ethics and values in leadership, and practical applications of theory in real-life situations.

School of Social Work  
Health Professions Building Room 150  
T: 512.245.2592 F: 512.245.8097  
http://www.socialwork.txstate.edu/  
The School of Social Work is a vibrant branch of the College of Applied Arts. Its graduate program prepares students to engage in advanced specialized social work practice using a generalist framework.  
The School of Social Work at Texas State has long been committed to preparing social workers to engage competently with those clients who are most forgotten in our society; these are the clients who are typically served by public agencies. Not only are the School’s graduates well-prepared to deal effectively with the most marginalized populations, they are also quite competent in working with a broad spectrum of clients, other professionals, policy-makers, and organizations. A key component to their preparation is the School’s extensive network of public and private agencies, both rural and urban, in which students are placed for field practicum. The School is closely connected with the University’s Center for Children and Families, and many of the School’s students are pursuing careers working with children and families.  

Master of Social Work (M.S.W.)  
• Major in Social Work (p. 713)

Travis, Raphael, Associate Professor, Social Work, D.P.H., Univ of California-Los Angeles  

Masters of Social Work (M.S.W.), Major in Social Work  
Major Program  
The School of Social Work offers the master of social work (M.S.W.) degree, which prepares students for advanced specialized practice. The degree is fully accredited by the Council on Social Work Education. Social work practice at the M.S.W. level shares a common core of knowledge, values, and skills. Throughout the curriculum, the School emphasizes social justice and professional ethics. The M.S.W. degree prepares graduates for a wide variety of positions in many diverse, interesting fields that address human needs.  

Admission Policy  
For information regarding admission application requirements and deadlines, applicants should visit The Graduate College website using one of the following links:  
Advanced (BSW Holders)

Online Foundation (Non-BSW Holders) http://www.gradcollege.txstate.edu/sowkof

The M.S.W. Program

The M.S.W. degree program prepares graduates for advanced specialized professional social work practice, particularly in public services. The M.S.W. degree program offers regular and advanced standing tracks, as well as full- and part-time study.

The regular track involves 62 hours of course work. Full-time students typically spend two years (five terms) to complete the degree, while part-time students will commit four years to complete the M.S.W.

The advanced standing program (which enrolls students directly into second year content) consists of 36 hours of course work organized across one calendar year of three terms. Advanced standing is open to students who hold the B.S.W. degree. Students committed to part-time study should expect to spend two years to complete the advanced standing track.

The first (foundation) year curriculum focuses on the generic foundation knowledge and skills necessary for general social work practice, while the second (advanced) year focuses on specialized practice. Regular track students in their second year of course work, as well as advanced standing students, select a concentration of study in Advanced Practice Leadership.

Courses may be offered face-to-face, on-line, by web-casting or interactive television, or using a combination of these teaching methods.

Degree Requirements

Regular admission students must complete 62 credit hours to earn the M.S.W. degree. Advanced standing students must complete 36 credit hours.

Total Hours 36

Field Practicum

Field practicum (internship) involves the student intern working in a social service agency under the intensive supervision of a licensed master social worker. All regular track students (full- and part-time) must complete a total of 20 semester credit hours of field practicum, while advanced standing students must complete a total of 12 semester credit hours of field practicum. Regular track students complete a first-year field practicum while concurrently enrolled in other classes. In the second year, for both full-time regular track and advanced standing students, field practicum occurs during the spring term. Part-time students may spread second-year field practicum across two terms.

Master’s level courses in Social Work: SOWK
Courses Offered

Social Work (SOWK)

This foundation graduate course presents individual and family dynamics across the life cycle, centering on human development, individual and group strengths, and the effects of cultural diversity. It enhances critical thinking and assessment skills about human behavior in social environments, and incorporates material on professional values, ethics, and social justice.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Behavior in Individual and Family Social Environments

SOWK 5309. Human Behavior in Local and Global Social Environments.
This foundation graduate course explores human functioning in the environment by studying families, groups, communities, organizations, and societies in local and global contexts. Through learning content on diversity, populations at risk, and social and economic justice, students build critical thinking and assessment skills using developmental and eco-systems frameworks.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Behavior in Local and Global Social Environments

This foundation course studies the United States' social welfare system, emphasizing how social welfare policies affect diverse populations. Topics include social welfare history, and policy development, implementation, evaluation, and values. Prerequisite: Instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Welfare Policy and Services

This elective course focuses on commonly used and abused drugs as well as the dynamics and treatment of addiction. It emphasizes social work intervention aimed at addiction prevention and treatment. Prerequisite: Graduate standing or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Work Intervention in Drug Addiction & Abuse

SOWK 5313. Foundation Social Work Practice I.
This foundation course explores generalist social work theory and practice methodology in problem-solving with individuals, families, and groups, emphasizing data collection, assessment, intervention planning, and evaluation. Prerequisite: Admission to the M.S.W. degree program.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundation Social Work Practice I

SOWK 5314. Foundation Social Work Practice II.
This foundation skill-development course emphasizes generalist social work practice with task groups, organizations, and communities. Prerequisite: Admission to the M.S.W. degree program.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundation Social Work Practice II

This elective course considers child welfare services available to abused and neglected children in their own homes, in substitute care, and through the community, emphasizing social work intervention with children and their families. Prerequisite: Graduate standing or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Work Intervention in Child Abuse & Neglect

SOWK 5316. Foundation Social Work Practice III.
This foundation course develops the student's interpersonal and communication skills with clients and other professionals. Students must demonstrate competence in interviewing, assessment, and planning skills. Students learn to collect data to support assessment, plan intervention, and evaluate practice. Prerequisites: SOWK 5313.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundation Social Work Practice III

SOWK 5317. Social Work Research.
This foundation course builds introductory scientific research skills in critical thinking and knowledge of program and practice evaluation. It prepares students to read, interpret, and critique research with skepticism and rigor and to perform various research and social work practice activities. Prerequisite: Graduate standing or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social Work Research

SOWK 5319. Diagnostic Assessment.
This advanced course examines how individuals, families, and groups interact with the social environment, emphasizing mental health and adaptive capacity, theories of the etiology and development of mental and emotional disorders, and how culture affects mental health. Prerequisites: Advanced standing, foundation coursework completion, or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Diagnostic Assessment
This advanced skill-development course emphasizes social work practice in managing small and large organizations. Students develop knowledge and skills in social work management and supervision in non-profit and public organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Advanced Administrative Leadership Practice I: Introduction to Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Administrative Leadership Practice I: Introduction to Management

This advanced course, a study of social legislation affecting disadvantaged persons, emphasizes policy analysis, values, and advocacy through studying social policy history; developing, implementing, and evaluating policy; and influencing social and economic justice. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Advanced Social Policy and Social Justice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Social Policy and Social Justice

SOWK 5323. Advanced Social Work Research.
This advanced course builds knowledge and skills for systematically evaluating programs and practice. It enhances effective and ethical social work practice by teaching skills necessary to design, implement, and empirically assess intervention with client and programs. Prerequisites: SOWK 5317, advanced standing, foundation coursework completion, or instructor approval.
about Advanced Social Work Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Social Work Research

SOWK 5324. Advanced Direct Practice with Families.
This advanced course focuses on theories, research, and models of practice with families. It emphasizes a systems orientation to assessment and intervention, and integrates issues of self-awareness and human diversity. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Advanced Direct Practice with Families
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Direct Practice with Families

SOWK 5325. Advanced Administrative Leadership Practice III: Challenges and Innovations.
This advanced course expands knowledge and skills by exploring how theories, supervision and management interventions, and social work values are applied to diverse organizational environments. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Advanced Administrative Leadership Practice III: Challenges and Innovations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Administrative Leadership Practice III: Challenges and Innovations

SOWK 5326. MC/MP Advanced Direct Practice with Individuals.
This advanced course examines intervention theories and builds specialized skills for effective, ethical practice with individuals. It examines how culture influences individuals, and discusses how to assess individuals from multiple perspectives. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about MC/MP Advanced Direct Practice with Individuals
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about MC/MP Advanced Direct Practice with Individuals

SOWK 5327. Advanced Direct Practice with Groups.
This advanced course develops effective, ethical group practice skills, including assessment from multiple perspectives, facilitation of group process and intervention, evaluation, and addressing needs of diverse populations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Advanced Direct Practice with Groups
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Direct Practice with Groups

SOWK 5328. Interdisciplinary Perspectives on Aging.
This interdisciplinary course provides a graduate-level foundation in knowledge and skills used to address a wide range of needs among the aging population, their families, and support systems. Biophysical, psychosocial, and environmental perspectives will be integrated into development of culturally competent approaches to work with elders in many fields. Prerequisite: Graduate standing or instructor approval.
about Interdisciplinary Perspectives on Aging
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multi.Content & Perspective
Grade Mode: Standard Letter
about Interdisciplinary Perspectives on Aging

SOWK 5329. Organizational Development.
This advanced course examines organizational and inter-organizational social service delivery contexts; how funding, mandate, and organizational arrangements influence services; and factors to consider in modifying existing organizations. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Organizational Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Development

SOWK 5332. Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War.
The course examines topics at the individual, family, group, organizational, and community levels related to troops who are returning from current combat operations and their families. It reviews the needs, community resources, and policies in place for helping them and their families make this transition. Prerequisite: Graduate standing or instructor approval.
about Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Helping Troops Transition Back to their Families and Communities: The Invisible Wounds of War
SOWK 5334. Advanced Administrative Leadership Practice II: Resource Development.
This advanced course emphasizes grant-writing and marketing in nonprofit organizations. It builds knowledge, roles, and skills to extend organizational resources for effective, ethical social work practice and programs. Prerequisite: Advanced standing, foundation coursework completion, or instructor approval.
about Advanced Administrative Leadership Practice II: Resource Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Administrative Leadership Practice II: Resource Development

SOWK 5339. Selected Topics in Social Work.
Students study relevant social work topics in depth. Topics, such as social work in schools or in health care, are selected according to students' needs and professional trends. Repeatable for credit.
Prerequisite: Graduate standing or instructor approval.
about Selected Topics in Social Work
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Selected Topics in Social Work

This one-semester course highlights individualized reading, independent study and projects, and guided instruction. It is offered by invitation of the professor and with the consent of the MSW Coordinator. It may not be repeated for credit. Prerequisites: Graduate standing and the approval of the MSW Coordinator and School Director.
about Directed Study in Social Work
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Directed Study in Social Work

SOWK 5370. Advanced Program Planning and Grant-Based Resource Development.
This advanced course emphasizes social work practice in building and developing non-profit and public human services organizations. Course topics include: determining organizational needs and priorities; identifying resources to address needs and priorities; and pursuing grant-funded resources to address organizational needs. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
about Advanced Program Planning and Grant-Based Resource Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Program Planning and Grant-Based Resource Development

This advanced course focuses on observational and interview-based evaluations of organizational functioning related to change, diversity, ethical decision-making, budgeting, and implementation of action plans. The course also focuses on development of supervisory strategies to effectively lead and transform an organization. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
about Advanced Assessment, Leadership, and Supervision in Social Service Organizations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Assessment, Leadership, and Supervision in Social Service Organizations

SOWK 5372. Advanced Diagnostic Assessment and Intervention with Individuals.
This advanced course focuses on culturally relevant diagnostic assessment of and intervention with individuals based on current theory. The course emphasizes critical analysis of contemporary mental health practice using a psychosocial framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
about Advanced Diagnostic Assessment and Intervention with Individuals
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Diagnostic Assessment and Intervention with Individuals

SOWK 5373. Advanced Intervention with Families and Groups.
This advanced course focuses on culturally relevant knowledge and skills for theory-based, therapeutic assessment and intervention with diverse families and groups. The course emphasizes systemic, critical analysis of contemporary mental health practice using a psychosocial, strengths-based framework. Requires advanced standing or completion of foundation coursework. Departmental approval required to enroll.
about Advanced Intervention with Families and Groups
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Intervention with Families and Groups

SOWK 5410. Foundation Field I (Concurrent).
This foundation course consists of supervised beginning generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: Admission to MSW degree program and completed field application process.
about Foundation Field I (Concurrent)
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundation Field I (Concurrent)

SOWK 5411. Foundation Field II (Concurrent).
This second foundation course continues supervised generalist social work practice in agencies for a minimum of 250 clock hours, applying classroom knowledge to work with individuals, families, groups, and communities. Prerequisites: SOWK 5410 and Field Coordinator approval.
about Foundation Field II (Concurrent)
4 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundation Field II (Concurrent)
SOWK 5612. Direct Practice Field I.
This course offers supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
about Direct Practice Field I
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Direct Practice Field I

SOWK 5613. Direct Practice Field II.
This course continues supervised advanced direct social work practice opportunities to apply classroom knowledge to interventions with individuals, families, and groups in agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
about Direct Practice Field II
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Direct Practice Field II

SOWK 5622. Administrative Leadership Field I.
This course offers supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Completion of field application process and completion of MSW class work.
about Administrative Leadership Field I
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Administrative Leadership Field I

SOWK 5623. Administrative Leadership Field II.
This course continues supervised advanced administrative leadership social work practice opportunities to apply classroom knowledge to interventions with public and non-profit social agencies for a total of 300 clock hours. Prerequisites: Field Coordinator approval.
about Administrative Leadership Field II
6 Credit Hours. 1 Lecture Contact Hour. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Administrative Leadership Field II

SOWK 5678. Advanced Practicum 1.
This course is the first part of the advanced MSW practicum in which students participate in supervised social work practice internships in community agencies and facilities. Students apply classroom knowledge to activities and interventions serving individuals, families, groups, and communities for a minimum of 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5679 unless enrolled in part-time student status.
about Advanced Practicum 1
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practicum 1

SOWK 5679. Advanced Practicum 2.
This course is the second in the MSW advanced/final practicum sequence. This course builds on the experiential learning in Advanced Practicum 1, and continues the application of classroom knowledge. The Advanced Practicum 2 focuses on more complex, micro, mezzo, and/or macro learning in diverse community social service agencies and/or facilities for 300 semester clock hours. Departmental approval required to enroll. Prerequisite: Completion of all MSW coursework. Co-requisite: SOWK 5678 unless enrolled in part-time student status.
about Advanced Practicum 2
6 Credit Hours. 2 Lecture Contact Hours. 20 Lab Contact Hours.

Mission Statement
Our mission is to offer quality, student-centered accounting programs for graduate students. Our primary goal is to prepare students for
professional careers in public accounting, industry, government, nonprofit, and other organizations. We strive to:

• Deliver graduate programs that prepare students with diverse undergraduate degrees for professional careers in accounting, including eligibility for licensure by State Boards of Public Accountancy.

• Provide innovative quality instruction and curricula that offer strong conceptual foundations and technical skills in accounting. Our programs emphasize critical thinking, ethical decision-making, technology usage, and communication skills.

• Engage in intellectual contributions that have impact in the areas of discipline-based scholarship, contributions to practice and learning, and pedagogical research.

• Provide service to our department, college, university, and other academic organizations. This includes engagement with the accounting profession and accounting student organizations. We also strive to build and maintain professional relationships among students, alumni, the accounting profession, and other stakeholders.

Master of Accountancy (M.Acy.)

• Major in Accounting (p. 719)

Master of Science (M.S.)

• Major in Accounting and Information Technology (p. 724)

Master of Accountancy (M.Acy.), Major in Accounting

Major Program

The master of accountancy (M.Acy.) program is designed to broaden the educational experience of individuals preparing for a career in the public accounting profession. Students explore the social, ethical, and environmental effects of accounting information on those who rely on it for their decision making needs. The M.Acy. program can be used to satisfy the 150-hour education requirement for the Certified Public Accountant (CPA) exam in Texas.

Admission Policy

For more information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/acct.html.

Degree Requirements

The requirements for the M.Acy. degree program consist of satisfactory completion of the following:

1. The graduate background courses (or their equivalents completed in a baccalaureate degree program).

2. The undergraduate background accounting courses (or their equivalents) completed either in a baccalaureate degree program in business or as part of the background course requirements in the M.Acy. program. These courses are needed to fulfill the state’s 30-hour advanced accounting requirement to sit for the CPA exam in Texas.

3. Five M.Acy. core courses in accounting, plus a professional research course.

4. Four graduate accounting elective courses.

5. One graduate business or accounting elective course.

6. Successful completion of the comprehensive examination.

The M.Acy. degree consists of three requirements: background courses, graduate core courses, elective courses. The M.Acy. degree does not have a thesis requirement but does have a comprehensive exit exam requirement.

Graduate Core Courses

In addition to satisfying the background courses, all M.Acy. students must complete 18 semester hours of graduate core accounting courses. Students must satisfy all prerequisites of a graduate course before enrolling. These prerequisites include the background course or its equivalent and undergraduate accounting courses, if applicable. ACC 5389 should be taken within nine hours of graduation and meets the ethics course requirement for Texas CPA candidates.

Elective Courses

In addition to the 18 semester hours of core courses, students must complete 15 hours of graduate-level accounting and business electives. Students must satisfy all prerequisites of an elective course before enrolling, including any undergraduate accounting prerequisites. Students should review carefully the undergraduate accounting prerequisites for desired graduate accounting elective courses and
register for the appropriate prerequisites which also can fulfill their undergraduate background course requirements.

Course Work Requirements

M.Acy. Core Courses
ACC 5315 Selected Topics in Financial Accounting 3
ACC 5320 Auditing 3

MKT 5325 Global Marketing and the Value Chain
MKT 5330 International Marketing
MKT 5331 Integrated Marketing Communications
MKT 5335 Services Marketing
MKT 5395 Independent Study in Marketing
MKT 5397A Sports Marketing
MKT 5397B Social Marketing
QMST 5332 Quantitative Methods
QMST 5335 Introduction to Forecasting and Simulation

Total Hours 33

All graduates will have the 30 upper-level accounting hours and ethics course required to sit for the CPA Exam in Texas (graduates may still need 24 hours of related business course work). M.Acy. students must complete a comprehensive examination at the end of the program to satisfy university requirements.

Background Courses

The purpose of background courses is to provide a strong base of knowledge for advanced business and accounting studies. The M.Acy. background course requirement is composed of the following courses:

Undergraduate Level
ACC 3313 Intermediate Accounting I 3
ACC 3314 Intermediate Accounting II 3

Graduate Level
ACC 5303 Fundamental Accounting (or equivalent) 3
ACC 5340 Individual Income Tax 3

1 Student must make a grade of "B" or better to continue in the graduate program.

2 Students must be admitted to the M.Acy. program before enrolling in graduate-level background courses.
Background courses cannot be used to fulfill the 33 hours of M.Acy. core and elective courses. The equivalent undergraduate courses also may be taken at any accredited four-year college or university. Information regarding transfer work is identified in the Course Credit (p. 651) section of this catalog.

Applicants who have not met the admission standards and who must satisfy background course requirements may be admitted as non-degree seeking students to take undergraduate courses only. While under the non-degree seeking student enrollment, students may take whatever actions that may be required to satisfy the admission requirements. See the Non-Degree Seeking Applicants (p. 644) section of this catalog for further information regarding enrolling as a non-degree seeking student.

### Needed Business Courses for CPA Eligibility

To be eligible to sit for the CPA exam in Texas, the candidate must have 24 hours of upper level business courses. The 24 hours may be completed at a community college or university, at the undergraduate or graduate level. There is a limit of 6 hours in any one area (i.e., management, economics, business law, etc.). Additionally, business statistics and communication may be used to meet this requirement. For further information, please consult [http://www.tsbpas.state.tx.us/](http://www.tsbpas.state.tx.us/).

Master’s level courses in Accounting: ACC

### Courses Offered

#### Accounting (ACC)

**ACC 5303. Fundamental Accounting.**
An intensive study of financial accounting procedures, concepts, and reports utilized in making business decisions, including preparation and interpretation of financial statements, measurement of cash flows, and financial forecasting. May not be counted as an elective MBA course. This course does not earn graduate degree credit.

**Grade Mode:** level 林/Assistantships

**Course Attribute(s):** Exclude from Graduate GPA/Leveling

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

#### ACC 5315. Selected Topics in Financial Accounting.

The study of specialized financial accounting topics, existing and prospective, necessary for an advanced understanding of financial reporting. Topics include: pensions and post-retirement benefits, deferred taxes, derivatives, share-based payments, interim and segment reporting and emerging issues of the Emerging Issues Task Force. Prerequisite: ACC 3314 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

### ACC 5316. Advanced Accounting.

A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-for-profit accounting. Prerequisite: ACC 3314 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

#### ACC 5320. Auditing.

A study of the underlying theory of external financial auditing including professional ethics, auditing standards and procedures, and the role of auditor’s judgment. (Suggested for CPA eligibility). Prerequisite: ACC 3314 with a grade of “B” or better. Co-requisite: ACC 5315.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

#### ACC 5340. Individual Income Tax.

A study of the tax concepts and issues involved in an individual’s employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. Prerequisite: ACC 3313 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

#### ACC 5350. Professional Accounting Research.

An examination of the sources of authoritative standards in accounting, auditing, and tax; includes primary sources (FASB, GASB, SAS, law and administrative tax) and secondary. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

#### ACC 5352. Financial Statement Reporting and Analysis.

A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5303, or ACC 5361 or equivalent.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**ACC 5355. Individual Income Tax.**

A study of the tax concepts and issues involved in an individual’s employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. Prerequisite: ACC 3313 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**ACC 5357. Advanced Accounting.**

A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-for-profit accounting. Prerequisite: ACC 3314 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**ACC 5360. Professional Accounting Research.**

An examination of the sources of authoritative standards in accounting, auditing, and tax; includes primary sources (FASB, GASB, SAS, law and administrative tax) and secondary. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of “B” or better.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**ACC 5362. Financial Statement Reporting and Analysis.**

A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5303, or ACC 5361 or equivalent.

**Grade Mode:** Standard Letter

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
ACC 5355. IT Auditing.
A study of the IT audit: the process of collecting and evaluating evidence of an IT system practices and operations. The course develops understanding of the procedures to test whether the systems are safeguarding assets, maintaining data security and operating effectively and efficiently. Prerequisite: ACC 5320 or ACC 5371.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5361. Accounting Analysis for Managerial Decision Making.
Use of accounting information for improving managerial decision making. Emphasis is on understanding the practice of business management, budgeting, cost behavior, and operational, internal, and management control. Prerequisite: B A 5352.

Grade Mode: Standard Letter

about Accounting Analysis for Managerial Decision Making

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5362. Cost and Managerial Accounting Theory.
A study of recent developments and topics in the area of cost and managerial accounting. Includes a discussion of quantitative techniques and their applicability to accounting problems. Prerequisites: ACC 3313 with a grade of "B" or better or ACC 5361.

Grade Mode: Standard Letter

about Cost and Managerial Accounting Theory

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5366. Business Entity Taxation.
Federal income tax provisions affecting business decisions, with an emphasis on C Corporations, Limited Liability Companies, and Partnerships. An introduction to the choice, formation, organization, operation and distribution rules or the preceding business entities. Prerequisite: ACC 3313 with a grade of "B" or higher.

Grade Mode: Standard Letter

about Business Entity Taxation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5367. Seminar in Auditing.
A continuing study of the underlying theory of auditing with an emphasis on professionalism, ethics, and legal liability. Coverage will also extend to the responsibilities and standards of external auditing, internal auditing, governmental auditing, and international auditing, including exposure to current developments in these areas. Practical applications will focus on risk assessment, the use of analytical procedures, and the use of the computer as an audit tool. Prerequisite: ACC 5320.

Grade Mode: Standard Letter

about Seminar in Auditing

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5369. Special Studies in Accounting.
Directed study and research on selected accounting topics, including the development of accounting thought and research in: advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction.

Grade Mode: Standard Letter

about Special Studies in Accounting

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5370. Internship in Accounting.
Experiential learning during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Graded on a credit (CR), no credit (F) basis. Prerequisite: Specified by employer with consent of instructor and department chair.

Grade Mode: Standard Letter

about Internship in Accounting

3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

ACC 5371. Accounting Information Systems.
This course studies various accounting information systems technologies used to enhance business process operations. It also explores management of risks and controls, and management of information resources. Prerequisite: ACC 3313 with a grade of "B" or higher.

Grade Mode: Standard Letter

about Accounting Information Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5372. Tax Research.
An examination of the sources of tax authority, which include its primary sources (legislative, judicial, and administrative), as well as secondary sources. The course also develops procedures for identifying the applicable tax issues, locating appropriate tax authority, and communicating the results of tax research. Prerequisite: ACC 5366 or concurrent enrollment.

Grade Mode: Standard Letter

about Tax Research

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5373. Fraud Detection and Prevention.
This course provides an in-depth study of how and why fraud is committed. It explores red flags that may help in detecting fraudulent activities, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite: ACC 3313 with a grade of "B" or better.

Grade Mode: Standard Letter

about Fraud Detection and Prevention

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5374. Special Studies in Accounting.
Directed study and research on selected accounting topics, including the development of accounting thought and research in: advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction.

Grade Mode: Standard Letter

about Special Studies in Accounting

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ACC 5375. Business Information Consulting.
Integrative capstone for the MSAT program using principles and concepts applied through the analysis and presentation of case studies dealing with current issues or emerging trends in the fields of accounting and information technology for the accounting professionals serving as consultants. Prerequisite: ACC 5371.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Information Consulting

ACC 5377. Partnership Taxation.
A comprehensive study of the tax implications of conducting a business as a partnership or as a limited liability company. Life-cycle analysis and tax planning considerations are emphasized. Prerequisite: ACC 5340.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Partnership Taxation

This course focuses on the procedural aspects of tax planning and tax return preparation. Coverage includes IRS enforcement tools and corresponding taxpayer rights, audits and appeals, civil and criminal penalties, and statutory relief provisions. Professional standards and ethical considerations in tax practice are emphasized. Prerequisite: ACC 5366 or concurrent enrollment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Tax Practice, Procedures, Audits and Controversy

ACC 5379. State and Local Taxation.
This is a survey of state and local income tax systems emphasizing income and franchise taxes on individuals and business entities, sales and use taxes, and property taxes. Coverage includes business nexus and multistate allocation and apportionment issues. Prerequisite: ACC 4328 or ACC 5340. Corequisite: ACC 5366.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about State and Local Taxation

ACC 5381. Advanced Business and Regulation Concepts.
An in-depth study of business environment and regulation concepts in preparation for professional accounting exams. Either ACC 5380 or 5381 must be taken in the final semester of the Master of Accounting program. Prerequisites: ACC 5360 and ACC 5366.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Business and Regulation Concepts

The use of information technology for integrating enterprises for operational control and strategic business intelligence is examined via ERP applications in customer relationship management, accounting and finance, purchasing and production control, sales and marketing, and human resource management. Managerial issues surrounding the selection, design and implementation of ERP systems are emphasized. about Enterprise Resource Planning Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise Resource Planning Systems

ACC 5384. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization. about IT Systems Project Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about IT Systems Project Management

ACC 5385. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design, and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Student will use a relational database management system to develop a management information system. about Database Management Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Database Management Systems

ACC 5386. International Accounting.
A study of the corporate governance and ethical issues in accounting, including ethical reasoning, integrity, objectivity, independence, core values and professional issues. Prerequisites: ACC 5315, ACC 5320 and ACC 5366, and within 9 hours of graduation. about Corporate Government Ethics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Corporate Government Ethics

ACC 5389. Corporate Government Ethics.
A study of the corporate governance and ethical issues in accounting, including ethical reasoning, integrity, objectivity, independence, core values and professional issues. Prerequisites: ACC 5315, ACC 5320 and ACC 5366, and within 9 hours of graduation. about Corporate Government Ethics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Corporate Government Ethics

ACC 5390A. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Topics
Grade Mode: Standard Letter
about International Accounting

ACC 5390B. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Topics
Grade Mode: Standard Letter
about International Accounting

ACC 5390C. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Topics
Grade Mode: Standard Letter
about International Accounting

ACC 5390D. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Topics
Grade Mode: Standard Letter
about International Accounting
ACC 5390F. Mergers, Acquisitions, and Consolidations Taxation.
This course on mergers, acquisitions and consolidations will examine the tax ramifications and corporate strategies considerations of buying, selling and combining different companies; the consolidated tax return consequences of those affiliated groups; and the residual outcomes and tax attributes that result from corporate divisions. Prerequisite: ACC 5366.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Mergers, Acquisitions, and Consolidations Taxation

ACC 5390G. Sustainability Reporting.
This course on sustainability reporting strategies will examine analytical methods and reporting techniques used by for-profit and non-profit companies to support sustainable operations. Prerequisite: ACC 5303 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Sustainability Reporting

Master of Science (M.S.), Major in Accounting and Information Technology

Major Program
The master of science (M.S.) in accounting and information technology is a cross-department curriculum comprised of accounting and information technology core courses, prescribed accounting and information technology electives, and open graduate business or accounting electives. The program does not have a thesis requirement; however, students must complete a comprehensive examination at the end of the program to satisfy university requirements. Applicants with undergraduate degrees in disciplines other than business or from a non-AACSB accredited university could be required to complete additional background course work. Applicants to the M.S. degree program who hold an undergraduate degree from an AACSB accredited university will normally require 36 semester hours of graduate course credit to complete the program.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/ait.html.

Degree Requirements

Background Courses
The purpose of background courses is to provide a strong base of knowledge for advanced business and accounting studies. Background courses may be waived for students who have successfully completed and achieved a grade of “B” or higher on previous course work addressing current developments in the content area. The background course requirement is composed of the following courses:

Total Hours 36

1 Students must satisfy all prerequisites of a graduate course before enrolling. These prerequisites include the background course or its equivalent and undergraduate accounting courses, if applicable.
2 At least one but not more than two of the four must be an Accounting course.
3 These courses must be chosen in consultation with the graduate advisor for the McCoy College of Business Administration. Students must satisfy all prerequisites of an elective course before enrolling, including any undergraduate accounting prerequisites.

Master's level courses in Accounting: ACC (p. 725), CIS (p. 727)
Courses Offered

Accounting (ACC)

ACC 5303. Fundamental Accounting.
An intensive study of financial accounting procedures, concepts, and reports utilized in making business decisions, including preparation and interpretation of financial statements, measurement of cash flows, and financial forecasting. May not be counted as an elective MBA course. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Standard Letter

ACC 5315. Selected Topics in Financial Accounting.
The study of specialized financial accounting topics, existing and prospective, necessary for an advanced understanding of financial reporting. Topics include: pensions and post-retirement benefits, deferred taxes, derivatives, share-based payments, interim and segment reporting and emerging issues of the Emerging Issues Task Force. Prerequisite: ACC 3314 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5316. Advanced Accounting.
A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-for-profit accounting. Prerequisite: ACC 3314 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5320. Auditing.
A study of the underlying theory of external financial auditing including professional ethics, auditing standards and procedures, and the role of auditor's judgment. (Suggested for CPA eligibility). Prerequisite: ACC 3314 with a grade of "B" or better. Co-requisite: ACC 5315.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5340. Individual Income Tax.
A study of the tax concepts and issues involved in an individual’s employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. Prerequisite: ACC 3313 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5350. Professional Accounting Research.
An examination of the sources of authoritative standards in accounting, auditing, and tax; includes primary sources (FASB, GASB, SAS, law and administrative tax) and secondary. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of "B" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5352. Financial Statement Reporting and Analysis.
A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5303, or ACC 5361 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5355. IT Auditing.
A study of the IT audit: the process of collecting and evaluating evidence of an IT system practices and operations. The course develops understanding of the procedures to test whether the systems are safeguarding assets, maintaining data security and operating effectively and efficiently. Prerequisite: ACC 5320 or ACC 5371.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5356. Accounting Analysis for Managerial Decision Making.
Use of accounting information for improving managerial decision making. Emphasis is on understanding the practice of business management, budgeting, cost behavior, and operational, internal, and management control. Prerequisite: B A 5352.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ACC 5362. Cost and Managerial Accounting Theory.
A study of recent developments and topics in the area of cost and managerial accounting. Includes a discussion of quantitative techniques and their applicability to accounting problems. Prerequisites: ACC 3313 with a grade of "B" or better or ACC 3361.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ACC 5366. Business Entity Taxation.  
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Business Entity Taxation 

ACC 5367. Seminar in Auditing.  
A continuing study of the underlying theory of auditing with an emphasis on professionalism, ethics, and legal liability. Coverage will also extend to the responsibilities and standards of external auditing, internal auditing, governmental auditing, and international auditing, including exposure to current developments in these areas. Practical applications will focus on risk assessment, the use of analytical procedures, and the use of the computer as an audit tool. Prerequisite: ACC 5320. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Seminar in Auditing 

ACC 5369. Special Studies in Accounting.  
Directed study and research on selected accounting topics, including the development of accounting thought and research in; advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction. Prerequisite: Consent of instructor and department chair. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Special Studies in Accounting 

ACC 5370. Internship in Accounting.  
Experiential learning during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Graded on a credit (CR), no credit (F) basis. Prerequisite: Specified by employer with consent of instructor and department chair. 
Grade Mode: Standard Letter  
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours. 
about Internship in Accounting 

ACC 5371. Accounting Information Systems.  
This course studies various accounting information systems technologies used to enhance business process operations. It also explores management of risks and controls, and management of information resources. Prerequisite: ACC 3313 with a grade of "B" or higher. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Accounting Information Systems 

ACC 5372. Tax Research.  
An examination of the sources of tax authority, which include its primary sources (legislative, judicial, and administrative), as well as secondary sources. The course also develops procedures for identifying the applicable tax issues, locating appropriate tax authority, and communicating the results of tax research. Prerequisite: ACC 5366 or concurrent enrollment. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Tax Research 

ACC 5373. Fraud Detection and Prevention.  
This course provides an in-depth study of how and why fraud is committed. It explores red flags that may help in detecting fraudulent activities, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite: ACC 3313 with a grade of "B" or better. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Fraud Detection and Prevention 

ACC 5375. Business Information Consulting.  
Integrative capstone for the MSAIT program using principles and concepts applied through the analysis and presentation of case studies dealing with current issues or emerging trends in the fields of accounting and information technology for the accounting professionals serving as consultants. Prerequisite: ACC 5371. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Business Information Consulting 

ACC 5377. Partnership Taxation.  
A comprehensive study of the tax implications of conducting a business as a partnership or as a limited liability company. Life-cycle analysis and tax planning considerations are emphasized. Prerequisite: ACC 5340. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Partnership Taxation 

This course focuses on the procedural aspects of tax planning and tax return preparation. Coverage includes IRS enforcement tools and corresponding taxpayer rights, audits and appeals, civil and criminal penalties, and statutory relief provisions. Professional standards and ethical considerations in tax practice are emphasized. Prerequisite: ACC 5366 or concurrent enrollment. 
Grade Mode: Standard Letter  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
about Tax Practice, Procedures, Audits and Controversy
ACC 5379. State and Local Taxation.
This is a survey of state and local income tax systems emphasizing income and franchise taxes on individuals and business entities, sales and use taxes, and property taxes. Coverage includes business nexus and multistate allocation and apportionment issues. Prerequisite: ACC 4328 or ACC 5340. Corequisite: ACC 5366.

Grade Mode: Standard Letter
about State and Local Taxation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5381. Advanced Business and Regulation Concepts.
An in-depth study of business environment and regulation concepts in preparation for professional accounting exams. Either ACC 5380 or 5381 must be taken in the final semester of the Master of Accounting program. Prerequisites: ACC 5360 and ACC 5366.

Grade Mode: Standard Letter
about Advanced Business and Regulation Concepts

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

The use of information technology for integrating enterprises for operational control and strategic business intelligence is examined via ERP applications in customer relationship management, accounting and finance, purchasing and production control, sales and marketing, and human resource management. Managerial issues surrounding the selection, design and implementation of ERP systems are emphasized.

Grade Mode: Standard Letter
about Enterprise Resource Planning Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5384. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.

Grade Mode: Standard Letter
about IT Systems Project Management

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5385. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design, and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Student will use a relational database management system to develop a management information system.

Grade Mode: Standard Letter
about Database Management Systems

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5389. Corporate Government Ethics.
A study of the corporate governance and ethical issues in accounting, including ethical reasoning, integrity, objectivity, independence, core values and professional issues. Prerequisites: ACC 5315, ACC 5320 and ACC 5366, and within 9 hours of graduation.

Grade Mode: Standard Letter
about Corporate Government Ethics

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5390A. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315.

Grade Mode: Standard Letter
about International Accounting

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5390F. Mergers, Acquisitions, and Consolidations Taxation.
This course on mergers, acquisitions and consolidations will examine the tax ramifications and corporate strategies considerations of buying, selling and combining different companies; the consolidated tax return consequences of those affiliated groups; and the residual outcomes and tax attributes that result from corporate divisions. Prerequisite: ACC 5366.

Grade Mode: Standard Letter
about Mergers, Acquisitions, and Consolidations Taxation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5390G. Sustainability Reporting.
This course on sustainability reporting strategies will examine analytical methods and reporting techniques used by for-profit and non-profit companies to support sustainable operations. Prerequisite: ACC 5303 or equivalent.

Grade Mode: Standard Letter
about Sustainability Reporting

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Computer Information Systems (CIS)

CIS 5318. Information Technology in the Digital Economy.
Provides an understanding of the issues involved in the strategic management of the information assets of organizations. Examines the issues and challenges that users face within the Information Technology (IT) management arena as part of a firm's business and IT strategy. Focus is on managerial rather than technical issues. Prerequisite: BA 5351.

Grade Mode: Standard Letter
about Information Technology in the Digital Economy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CIS 5354. Decision Support Models in Management.
This course is designed to give students the skills to design, implement, analyze, and present the results of an executive decision model. Students will gain hands-on experience both by preparing applications-oriented projects/cases and also by designing selected parts of DSS using Graphical User Interface (GUI) tools. Prerequisites: A strong working knowledge of personal computers and the Windows operating environment.

about Decision Support Models in Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Decision Support Models in Management

CIS 5355. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Students will use a relational database management system to develop a management information system.

about Database Management Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Database Management Systems

CIS 5356. Business Telecommunications.
Explores the technology that is revolutionizing the manner in which business and government conduct their operations and the effects new developments in communication media have on computing systems. This course reflects the current state-of-the-art in data communication networking.

about Business Telecommunications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Telecommunications

CIS 5358. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.

about IT Systems Project Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about IT Systems Project Management

This course is designed to familiarize students with current and emerging e-commerce technologies. Topics include Internet technology for business advantage, reinventing the future of business through e-commerce, business opportunities in e-commerce, and social, political, global, and ethical issues associated with ecommerce.

about E-Commerce: Strategies, Technologies, and Applications
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about E-Commerce: Strategies, Technologies, and Applications

CIS 5364. Data Warehousing and Mining.
Familiarizes students with current and emerging data warehousing and mining technologies that are likely to play a strategic role in business organizations. Topics include data mining techniques, data warehouse development life cycle, data warehouse navigation, data quality, and performance issues. Prerequisites: QMST 5334, QMST 2333 or equivalent.

about Data Warehousing and Mining
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Data Warehousing and Mining

This course covers the analysis, design, development, implementation, and maintenance of information security systems. Topics include legal, ethical, professional, personnel issues; risk management; technology; cryptography; and physical security.

about Information Security
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Information Security

The use of information technology in integrating enterprises for operational control and strategic business intelligence is examined via Enterprise Resource Planning (ERP) applications in customer relationships management, accounting, finance, purchasing, production control, sales, marketing, and human resource management. Emphasizes managerial issues surrounding the need, selection, and implementation of ERP systems.

about Enterprise Resource Planning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise Resource Planning

CIS 5390A. Business Process Modeling.
A study of tools and techniques for analyzing requirements of business process oriented systems. The course emphasizes a model driven approach and its usage for developing information controls. Unified Modeling Language (UML) is introduced to specify the user/system interaction, business logic, and data storage.

about Business Process Modeling

Department of Management

McCoy Hall Room 524
T: 512.245.2571 F: 512.245.2850
Our departmental faculty members have garnered impressive teaching, research, and service experiences across a wide variety of national, international, and global business contexts. As a result of their commitment to high quality endeavors, management faculty members have won numerous college, university, and national awards for scholarship, teaching, and service.

Balancing a focus on theory and practice, we have developed a management curriculum that includes courses in entrepreneurship, human resource management, international management, operations management, organizational behavior, and strategy. In addition, special topic courses allow our faculty to offer in-depth examination of a number of contemporary business issues such as business ethics and labor relations and negotiations.

Master of Science (M.S.)

- Major in Human Resource Management (p. 729)

Konopaske, Arthur R, Associate Professor, Management, Ph.D., University of Houston

Miller, Brian Keith, Associate Professor, Management, Ph.D., University of Houston

Minifie, Jana Roberta, Professor, Management, Ph.D., Univ of South Carolina Columbia

Nicols, Kay McGlashan, Associate Professor, Management, Ph.D., Texas A&M University

Quinn, Floyd F, Lecturer, Management, Ph.D., Texas State University

Ramachandran, Indu, Assistant Professor, Management, Ph.D., Univ of Texas at San Antonio

Rechner, Paula L, Chair - Professor, Management, Ph.D., Indiana University Bloomington

Smart, Dennis L, Associate Professor, Management, Ph.D., Texas A&M University

Temponi, Cecilia C, Professor, Management, Ph.D., University of Texas at Arlington

Master of Science (M.S.), Major in Human Resource Management

Major Program

The master of science (M.S.) in human resource management program is a flexible, part-time program designed to prepare people for successful careers in human resource management. In comparison to the M.B.A. program, which offers a broad-based business education, the M.S. program offers in-depth knowledge associated with the major aspects of human resource management. The M.S. curriculum has been designed to adhere to educational guidelines set forth by the Society for Human Resource Management (SHRM), the premier professional association for the human resource field.
MGT 5301. Graduate Assistant Development.
Completion of this course is required as a condition of employment for graduate assistants. The course is seminar based and covers topics related to employment responsibilities. This course does not earn graduate credit. Graded on a credit (CR), no-credit (F) basis. Prerequisite: McCoy College Graduate Assistant.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Leveling/Assistantships
about Graduate Assistant Development

MGT 5310. Organizational Change Management.
Practices an overview of the process of change in an organization and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored along with practical ideas on building effective teams to make change possible and sustainable.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Change Management

MGT 5311. Process Improvement Management in Organizations.
Learn existing and latest developments in process improvement techniques for continuous improvement and the role of quality as a system for establishing an organization's competitive advantage. Process mapping is emphasized and assessment of effectiveness in the interactions of the managerial and technical systems of organizations is also studied.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Process Improvement Management in Organizations

MGT 5312. Seminar in Management.
Development of philosophy, strategy, and tactics in managing an enterprise. Administrative processes common to all enterprises, such as entrepreneurship, business and society, leadership and group behavior in organizations, business ethics, and international management. (Course may be repeated for credit with different course focus.).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Management

MGT 5313. Strategic Management.
An integrative approach to policy formulation and administration (decision making) to achieve organization objectives. Should be taken in the last semester of student’s MBA program. Prerequisites: QMST 5334, MKT 5321, ACC 5361, FIN 5387.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Strategic Management

MGT 5314. Organizational Behavior and Theory.
Organizational behavior and structure as influenced by environmental variables and system relationships. Prerequisite: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Behavior and Theory

MGT 5315. New Venture Management.
This course provides an overview of the entrepreneurial process from the initial idea through start-up, growth, and harvest. Students learn how to write a business plan, manage all the elements of an entrepreneurial business, and develop a better understanding of the requirements of the entrepreneurial life path.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about New Venture Management

MGT 5318. Cross-Cultural Management.
The global environment requires sensitivity to and the adaptation of leadership and management skills and practices, and the culture-bound differences in workplace behavior and attitudes. Explores how differences in cultural core values shape behavior and attitudes of workers, managerial colleagues, and negotiating partners. Prerequisites: B A 5351.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Cross-Cultural Management

MGT 5321. Supply Chain Management.
A variety of tools and frameworks provide students and understanding of the basis behind supply chain decision making. Topics include supply management concepts, demand-supply management, pull/push system, capacity and resource allocation, performance measurement, relationship assessment, and outsourcing in an integrated supply chain. Require graduate standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Supply Chain Management

MGT 5325. Managing Business Creativity.
This course focuses on the means by which businesses and individuals foster and maintain their creative and innovative skills. Key topics include: idea generation and refinement, idea screening, prototype development, and feasibility analysis. Objectives are met through classroom exercises, case analysis, guest speakers, and individual and team projects.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Business Creativity
A study of current developments and practices in human resource management, including employment laws; planning, recruitment and selection; training and development programs; wage and benefits administration; performance management, human relations and productivity; labor relations; safety and health; an current contributions to human resource management theory.
about Seminar in Human Resource Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Human Resource Management

MGT 5333. Problems in Business Administration.
The student is here given the opportunity to work in the field of his special interest, particularly in the subjects of accounting, business law, marketing, statistics, finance, and insurance. The course will be conducted by conferences between the student and instructors concerned. Problems will be assigned as nearly as possible for the needs of the individual student.
about Problems in Business Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Business Administration

MGT 5335. New Venture Launch.
The purpose of this class is to ensure students gain a full understanding of what it takes to start and grow a business. Students learn the process of creating a new venture from the inside by planning, organizing and launching an actual business. Prerequisite: MGT 5315.
about New Venture Launch
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about New Venture Launch

MGT 5336. Compensation and Benefits.
This course addresses the rewards systems in organizations. Strategic and technical considerations in designing, administering and managing compensation and benefits plans in organizations, including job analysis and evaluation, wage levels and structures, legal issues, individual and group incentives, and benefits are considered. Prerequisites/corequisite: MGT 5330.
about Compensation and Benefits
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Compensation and Benefits

MGT 5337. Organizational Staffing.
A study of the methods involved in recruitment and selection of employees with an emphasis on measurement, job analysis, performance appraisal, legal issues, and the role of human resource planning and strategy. This course relies on statistics to teach students to make reliable and valid employment decisions. Prerequisite: MGT 5330.
about Organizational Staffing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Staffing

A study of theoretical and applied perspectives on needs assessment, design, development delivery and evaluation of training and development as well as organizational change and development. Prerequisite/corequisite: MGT 5330.
about Human Resource Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Resource Development

A study of challenges that decision makers consider when managing their human resources across the globe. Drawing on theories and models from cross-cultural and international management areas, this course covers such topics as globalization, culture, emerging international assignments, and expatriate recruitment, selection, training, repatriation, and career management. Prerequisite/corequisite: MGT 5330.
about International Human Resource Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about International Human Resource Management

MGT 5345. Integrative Field Project.
Student teams work directly with organizations and managers to solve significant managerial problems. Students apply their skills and knowledge acquired in the program in a real world setting. Results of the project are summarized in a comprehensive written report and a formal oral presentation. Prerequisites: Permission of the instructor.
about Integrative Field Project
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Integrative Field Project

MGT 5375. International Management-Latin America.
A study of the cultural, economic, regulatory, and political factors impacting international business. Emphasis is placed on theory and research of management phenomena in Latin America and on issues mediating commercial and governmental relations between the United State and Latin American countries.
about International Management-Latin America
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about International Management-Latin America

MGT 5380A. Business Ethics Leadership.
This course examines a variety of ethical issues in business from multiple stakeholder perspectives (top management, employees, community members, etc.). The course is designed to enhance moral awareness and facilitate individual development with respect to making ethical decisions that contribute to effective corporate management and leadership.
about Business Ethics Leadership
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Business Ethics Leadership
MGT 5380B. Human Resource Information Systems.
This course provides an overview of functional areas in an HRIS system with a focus on the acquisition of skills with respect to the software as well as knowledge regarding the implementation process, associated benefits and costs, and the application of HRIS to manage critical HRM processes. Prerequisite/corequisite: MGT 5330. about Human Resource Information Systems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter about Human Resource Information Systems

MGT 5380D. Labor Relations and Negotiation.
This graduate level course is a study of labor organizations and their impact as well as negotiation and conflict resolution issues. The course will examine the National Labor Relations Act (NLRA), union and employer rights under the NLRA, union organizing, collective bargaining, negotiation, contract administration, mediation and arbitration. Prerequisite or Co-requisite: MGT 5330. about Labor Relations and Negotiation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter about Labor Relations and Negotiation

Designed to aid graduate students in analyzing reports, evaluating research and in planning research reports. Involves the selection of research problems, sources of data, analysis, presentation, report writing, directed reading, class reports, and a research problem. about Business Research Methods
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Business Research Methods

The study and application of theory and psychology of managerial communication using written, oral, and technological modes to communicate within the business environment. The course includes the process and product approach to graphics, leadership, problem solving, prioritizing, interviewing, and communicating change. about Managing the Communication Process
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter about Managing the Communication Process

MGT 5395. Graduate Business Internship.
Integration of professional and academic experience through internship with an external employer. Prerequisites: MBA students only; must have completed 12 or more hours of graduate business courses; enrollment subject to availability and approval. about Graduate Business Internship
3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.
Grade Mode: Standard Letter about Graduate Business Internship

MGT 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in MGT 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

MGT 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit about Thesis

Grade Mode: Credit/No Credit about Thesis

M.B.A. in Business Administration

Major Program
The master of business administration (M.B.A.) program in the McCoy College emphasizes the knowledge and tools needed for professional success and is designed for those individuals who expect to pursue careers in the management of organizations in either the public or private sector. The curriculum provides broad-based, generalized education with the flexibility to meet individual needs. Students may choose an optional emphasis in one of three areas of study. The entire general M.B.A. program can be completed on the San Marcos campus or at the Round Rock Campus.

Students in the M.B.A. program with a computer information systems emphasis learn how technology has changed the way business operates and how to harness the power of technology in various business management settings.

The M.B.A. with an engineering and technology emphasis is offered in cooperation with the Department of Engineering Technology, an academic division of the College of Science and Engineering. M.B.A. students pursuing the engineering and technology specialization should find enhanced career opportunities with companies oriented significantly toward engineering and technology.

Students interested in careers related to international business may choose to seek the M.B.A. degree with an international business
emphasis. This emphasis is designed to provide focused study in international business including cultural, historical, and political issues. While this emphasis is available to all students in the M.B.A. program, it is especially well suited for undergraduate students in the international studies undergraduate program.

If your interest is the healthcare industry, the M.B.A. with a health administration emphasis may be for you. Offered jointly with the College of Health Professions, the program combines academic content from both colleges to prepare students for a successful career in healthcare.

For those interested in the field of human resources, an M.B.A. with an emphasis in human resource management is available.

Each of the above options require completing course work from three sets of courses:

• Courses in the first set constitute Tier 1 core courses. They are designed to give students a strong foundation in business as well as begin intensive professional development. These courses must be completed for any of the M.B.A. options selected.

• The second set of courses is the Tier 2 core courses. The purpose of the Tier 2 core courses is to ensure all students completing a program of study have a common academic experience in all areas critical to success in a discipline. While all M.B.A. options require a similar set of Tier 2 core courses, there are some exceptions noted on the Requirements tab.

• The third set of courses for the M.B.A. options is the elective courses. In addition to the required Tier 1 and Tier 2 core courses for each M.B.A. option, the degree candidate is allowed to select a group of courses from an approved set of electives. The exact number of elective courses varies between degree options. Course requirements for each M.B.A. option are described on the Requirements tab.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/bus.html.

Degree Requirements

The requirements for the M.B.A. degree program consist of satisfactory completion of the following:

1. Tier 1 and Tier 2 graduate core and elective course work as determined by the M.B.A. option selected: For students who select the general M.B.A. non-thesis option, eleven M.B.A. graduate-level core courses and three elective courses (9 hours); or
   a. For general M.B.A. students who select the thesis option, eleven M.B.A. graduate-level core courses, one elective course (3 hours) and a thesis (6 hours credit);
   b. For students who select the M.B.A. with a computer information systems emphasis, eleven M.B.A. graduate-level core courses, two computer information science required courses (6 hours credit), and two computer information science elective courses (6 hours credit) (45 hour program); Thesis option not available;
   c. For students who select the M.B.A. with an engineering and technology emphasis, twelve graduate-level core courses and three engineering and technology elective courses (9 hours) (45 hour program). Thesis option not available;
   d. For students who select the M.B.A. with an international business emphasis, eleven M.B.A. graduate-level core courses and four international elective courses (12 hours credit) focusing either international management or international finance and economics (45 hour program); Thesis option not available;
   e. For students who select the M.B.A. with a health administration emphasis, twelve graduate-level core courses and three health administration elective courses (9 hours) (45 hour program). Thesis option not available.
   f. For students who select the M.B.A. with a human resource management emphasis, twelve graduate-level core courses and three human resource management elective courses (9 hours) (45 hour program). Thesis option not available.

2. Satisfactory completion of the comprehensive examination taken as part of the capstone course: MGT 5313 Strategic Management;
3. Acceptance of the thesis if the thesis degree option is selected.

Course Work Requirements

General M.B.A. Option

The general M.B.A. degree (a 42-hour program) requires 33 semester hours of required core courses and 9 semester hours of elective courses. In addition, students enrolled in the general M.B.A. option may choose to write a thesis as part of the degree requirements. Under the thesis plan, the student must complete the same requirements as the non-thesis option except that six semester hours of electives will be replaced by six hours of thesis credit. The university requirement for a comprehensive examination is satisfied by an in-depth analysis of a case designed to integrate the M.B.A. core areas.

All general M.B.A. students must complete 33 semester hours of graduate core courses. Students must satisfy all prerequisites of a graduate course before enrolling in a course. Tier 1 core courses should be taken before other courses. QMST 5334 should be taken early in a student’s academic program. MGT 5313 should be taken in the student’s last term because it serves as the capstone course for integrating the course material in the M.B.A. program. The university-required comprehensive exam is given as part of this course.

The required core courses for this option include the following. Descriptions of these courses may be found in the Courses tab.

Tier 1 Core Courses

Graduate-level Electives and Optional Thesis

Select 9 hours of graduate-level electives, or 3 hours of electives and six hours of thesis if choosing the thesis option.
### M.B.A. in Business Administration

1. Electives are available in accounting, business law, computer information systems, economics, finance, management, marketing, quantitative methods, and disciplines outside the field of business. Each academic department may offer additional courses whenever the demand exists and resources are available. All electives are not offered every term. A maximum of six elective hours may be taken outside of business, but the courses must be approved by the Emmett and Miriam McCoy College of Business Administration graduate advisor and the dean of The Graduate College **before the student enrolls** in the course. Students should confer with their advisor when selecting elective courses.

Total Hours 45

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gradforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will...
enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Business Administration: ACC (p. 736), B A (p. 739), BLAW (p. 739), CIS (p. 740), ECO (p. 741), FIN (p. 742), MGT (p. 743), MKT (p. 746), QMST (p. 747)

Courses Offered
Students must complete the appropriate background course or its equivalent before enrolling in elective courses.

Accounting (ACC)
ACC 5303. Fundamental Accounting.
An intensive study of financial accounting procedures, concepts, and reports utilized in making business decisions, including preparation and interpretation of financial statements, measurement of cash flows, and financial forecasting. May not be counted as an elective MBA course. This course does not earn graduate degree credit.

ACC 5315. Selected Topics in Financial Accounting.
The study of specialized financial accounting topics, existing and prospective, necessary for an advanced understanding of financial reporting. Topics include: pensions and post-retirement benefits, deferred taxes, derivatives, share-based payments, interim and segment reporting and emerging issues of the Emerging Issues Task Force. Prerequisite: ACC 3314 with a grade of “B” or better.

ACC 5316. Advanced Accounting.
A study of accounting for business combinations and consolidated financial statements. Additional selected topics may include accounting for multinational operations, interim reporting, SEC reporting, partnership and governmental and not-forprofit accounting. Prerequisite: ACC 3314 with a grade of “B” or better.

ACC 5320. Auditing.
A study of the underlying theory of external financial auditing including professional ethics, auditing standards and procedures, and the role of auditor’s judgment. (Suggested for CPA eligibility). Prerequisite: ACC 3314 with a grade of “B” or better. Co-requisite: ACC 5315.

ACC 5340. Individual Income Tax.
A study of the tax concepts and issues involved in an individual’s employment and personal life, and in sole proprietorships, property transactions, tax administration and tax practice. Regulatory and ethical issues are incorporated into the discussion. Prerequisite: ACC 3313 with a grade of “B” or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Fundamental Accounting

3 Credit Hours. 3 Lecture Contact Hours.

Grade Mode: Leveling/Assistantships

about Fundamental Accounting
ACC 5350. Professional Accounting Research.
An examination of the sources of authoritative standards in accounting, auditing, and tax; includes primary sources (FASB, GASB, SAS, law and administrative tax) and secondary. The course develops procedures for identifying the applicable accounting issues, locating appropriate authority, and communicating the results of professional research. Prerequisite: ACC 3314 with a grade of “B” or better.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5352. Financial Statement Reporting and Analysis.
A study of financial statement reporting and analysis. Use of tools and skills will be used to analyze and interpret financial reports for assessing financial performance of firms to facilitate investment, lending, and other financial decisions in a variety of business contexts. Prerequisite: ACC 3313, or ACC 5303, or ACC 5361 or equivalent.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5355. IT Auditing.
A study of the IT audit: the process of collecting and evaluating evidence of an IT system practices and operations. The course develops understanding of the procedures to test whether the systems are safeguarding assets, maintaining data security and operating effectively and efficiently. Prerequisite: ACC 5320 or ACC 5371.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5361. Accounting Analysis for Managerial Decision Making.
Use of accounting information for improving managerial decision making. Emphasis is on understanding the practice of business management, budgeting, cost behavior, and operational, internal, and management control. Prerequisite: B A 5352.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5362. Cost and Managerial Accounting Theory.
A study of recent developments and topics in the area of cost and managerial accounting. Includes a discussion of quantitative techniques and their applicability to accounting problems. Prerequisites: ACC 3313 with a grade of “B” or better or ACC 5361.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5366. Business Entity Taxation.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5367. Seminar in Auditing.
A continuing study of the underlying theory of auditing with an emphasis on professionalism, ethics, and legal liability. Coverage will also extend to the responsibilities and standards of external auditing, internal auditing, governmental auditing, and international auditing, including exposure to current developments in these areas. Practical applications will focus on risk assessment, the use of analytical procedures, and the use of the computer as an audit tool. Prerequisite: ACC 5320.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5369. Special Studies in Accounting.
Directed study and research on selected accounting topics, including the development of accounting thought and research in; advanced tax topics, international accounting, professional ethics and managerial and financial accounting. Courses will be offered as independent instruction. Prerequisite: Consent of instructor and department chair.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ACC 5370. Internship in Accounting.
Experiential learning during which the students work in accounting. This work experience may be in public, industry, or governmental accounting units. The student is immersed in a variety of intensive work assignments with increasing levels of responsibility. Graded on a credit (CR), no credit (F) basis. Prerequisite: Specified by employer with consent of instructor and department chair.
Grade Mode: Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

ACC 5371. Accounting Information Systems.
This course studies various accounting information systems technologies used to enhance business process operations. It also explores management of risks and controls, and management of information resources. Prerequisite: ACC 3313 with a grade of “B” or higher.
Grade Mode: Standard/Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
ACC 5372. Tax Research.
An examination of the sources of tax authority, which include its primary sources (legislative, judicial, and administrative), as well as secondary sources. The course also develops procedures for identifying the applicable tax issues, locating appropriate tax authority, and communicating the results of tax research. Prerequisite: ACC 5366 or concurrent enrollment.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Tax Research

ACC 5373. Fraud Detection and Prevention.
This course provides in-depth study of how and why fraud is committed. It explores red flags that may help in detecting fraudulent activities, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite: ACC 3313 with a grade of "B" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Fraud Detection and Prevention

ACC 5375. Business Information Consulting.
Integrative capstone for the MSAIT program using principles and concepts applied through the analysis and presentation of case studies dealing with current issues or emerging trends in the fields of accounting and information technology for the accounting professionals serving as consultants. Prerequisite: ACC 5371.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Information Consulting

ACC 5377. Partnership Taxation.
A comprehensive study of the tax implications of conducting a business as a partnership or as a limited liability company. Life-cycle analysis and tax planning considerations are emphasized. Prerequisite: ACC 5340.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Partnership Taxation

This course focuses on the procedural aspects of tax planning and tax return preparation. Coverage includes IRS enforcement tools and corresponding taxpayer rights, audits and appeals, civil and criminal penalties, and statutory relief provisions. Professional standards and ethical considerations in tax practice are emphasized. Prerequisite: ACC 5366 or concurrent enrollment.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Tax Practice, Procedures, Audits and Controversy

ACC 5379. State and Local Taxation.
This is a survey of state and local income tax systems emphasizing income and franchise taxes on individuals and business entities, sales and use taxes, and property taxes. Coverage includes business nexus and multistate allocation and apportionment issues. Prerequisite: ACC 4328 or ACC 5340. Corequisite: ACC 5366.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about State and Local Taxation

ACC 5381. Advanced Business and Regulation Concepts.
An in-depth study of business environment and regulation concepts in preparation for professional accounting exams. Either ACC 5380 or 5381 must be taken in the final semester of the Master of Accounting program. Prerequisites: ACC 5360 and ACC 5366.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Business and Regulation Concepts

The use of information technology for integrating enterprises for operational control and strategic business intelligence is examined via ERP applications in customer relationship management, accounting and finance, purchasing and production control, sales and marketing, and human resource management. Managerial issues surrounding the selection, design and implementation of ERP systems are emphasized.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise Resource Planning Systems

ACC 5384. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to Information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about IT Systems Project Management

ACC 5385. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design, and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Student will use a relational database management system to develop a management information system.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Database Management Systems
ACC 5389. Corporate Government Ethics.
A study of the corporate governance and ethical issues in accounting, including ethical reasoning, integrity, objectivity, independence, core values and professional issues. Prerequisites: ACC 5315, ACC 5320 and ACC 5366, and within 9 hours of graduation.
about Corporate Government Ethics

Grade Mode: Standard Letter

ACC 5390A. International Accounting.
A study of the impact of international business activity on the profession of accounting. The course will investigate the development of international accounting standards and compare those standards to existing United States standards. Students taking ACC 4390A for credit may not take ACC 5390A for credit. Prerequisite: ACC 5315.

Course Attribute(s): Multicultural Content

Grade Mode: Standard Letter

ACC 5390F. Mergers, Acquisitions, and Consolidations Taxation.
This course on mergers, acquisitions and consolidations will examine the tax ramifications and corporate strategies considerations of buying, selling and combining different companies; the consolidated tax return consequences of those affiliated groups; and the residual outcomes and tax attributes that result from corporate divisions. Prerequisite: ACC 5366.

Course Attribute(s): Topics

Grade Mode: Standard Letter

ACC 5390G. Sustainability Reporting.
This course on sustainability reporting strategies will examine analytical methods and reporting techniques used by for-profit and non-profit companies to support sustainable operations. Prerequisite: ACC 5303 or equivalent.

Course Attribute(s): Topics

Grade Mode: Standard Letter

Business Administration (B A)

This course is designed to contribute to the development of the business professional. Academic content is supplemented by training in soft skill topics to better prepare the students for a successful business career. Prerequisite: MBA students only.

Grade Mode: Credit

B A 5351. Organizational Performance and Competitive Advantage.
This course is designed to provide an integrative understanding of the firm. A variety of organizational models and perspectives will be incorporated to facilitate understanding of the complexities of the firm, its environments, and its relationships with stakeholders. Includes focus on case analysis issues and communication skills. Prerequisite: MBAs only.

Course Attribute(s): Exclude from Grad GPA

Grade Mode: Standard Letter

B A 5352. Developing the Financial Perspective of the Firm.
Development of the theoretical basis and presentation of accounting and finance. Topics include understanding the basic elements of financial statements, the use of accounting information in decision making, and the techniques for the acquisition and management of the firm’s financial resources. Prerequisite: B A 5351 or concurrent enrollment.

Grade Mode: Standard Letter

B A 5353. Understanding and Analyzing Organizational Problems.
An introduction to the concepts of economic theory and statistics, with an emphasis on developing skills in data and economic analysis to solve business problems. Coverage includes prices, costs, market structures, macroeconomic policies, central tendencies in data, confidence intervals, hypothesis testing, and regression. Prerequisite: B A 5351 or concurrent enrollment.

Grade Mode: Standard Letter

Business Law (BLAW)

BLAW 5308. The Legal, Ethical, and Regulatory Environment of Business. A broad based course on the fundamentals of business law, as viewed from the managerial standpoint. Topics include court systems, constitutional law, contracts, sales, consumer rights, employment, antitrust, agency and ethical considerations. This course does not earn graduate degree credit.

Grade Mode: Leveling/Assistantships

BLAW 5310. The Employment Relationship.
A study of trends in the rapidly evolving “law of workplace,” with emphasis on how lawmakers attempt to balance the rights and responsibilities of employers and workers. Prerequisite: B A 5351.

Grade Mode: Standard Letter
BLAW 5368A. Judicial and Legislative Trends in the Legal Environment of Business.
An examination of recent court cases and legislation enacted or that may be pending before Congress in order to understand the impact of current laws on business activity.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Judicial and Legislative Trends in the Legal Environment of Business
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368B. Law and Ethics in the Business Environment.
An examination of the ethical dimensions of management decision-making. Problems are viewed through the lens of a value system determined, in part, by the legal system.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Law and Ethics in the Business Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368D. Business Dispute Administration.
Course describes civil and religious law systems, both in the U.S. and abroad, alternative dispute resolution programs.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Business Dispute Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368E. Environmental Law and Policy.
Course attempts to integrate the study of environmental law w/ concepts from other disciplines necessary to an assessment of the law, primarily economics.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Environmental Law and Policy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368F. Business Law for Entrepreneurs.
Course explores steps that an entrepreneur who is contemplating leaving an employer can take to make the departure amicable.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Business Law for Entrepreneurs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368G. Legal Issues in International Business Law.
Emphasis in Latin American Business.
Course Attribute(s): Multicultural ContentTopics
Grade Mode: Standard Letter
about Legal Issues in International Business Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368H. Legal Issues of Sustainability and Responsibility.
Diverse frameworks and analytical methods underlying our understanding of sustainability are explored, including the legal aspects & impact on business, society, environment and economy. Topics include corporate governance, globalization, urbanization, energy, human population, food, natural resources, water and equity.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Legal Issues of Sustainability and Responsibility
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368J. Commercial Law.
A traditional business law course which examines sales, negotiable instruments, creditor’s rights and remedies, secured transactions, bankruptcy law, personal property, bailments, real property and landlord-tenant relationships. Prerequisites: BLAW 2361, graduate status, and good academic standing.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Commercial Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

BLAW 5368K. Business Organizations and Government Regulations.
A traditional business law course which examines agency, employment law, partnerships, limited liability companies, corporations, securities law, law for small business, administrative law, consumer law, environmental law, antitrust law, and insurance. Prerequisites: BLAW 2361, graduate status, and good academic standing.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Business Organizations and Government Regulations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Computer Information Systems (CIS)

CIS 5318. Information Technology in the Digital Economy.
Provides an understanding of the issues involved in the strategic management of the information assets of organizations. Examines the issues and challenges that users face within the Information Technology (IT) management arena as part of a firm’s business and IT strategy. Focus is on managerial rather than technical issues. Prerequisite: B A 5351.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Information Technology in the Digital Economy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CIS 5354. Decision Support Models in Management.
This course is designed to give students the skills to design, implement, analyze, and present the results of an executive decision model. Students will gain hands-on experience both by preparing applications-oriented projects/cases and also by designing selected parts of DSS using Graphical User Interface (GUI) tools. Prerequisites: A strong working knowledge of personal computers and the Windows operating environment.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Decision Support Models in Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CIS 5355. Database Management Systems.
Explores the concepts, principles, issues and techniques for managing corporate data resources using database management systems. The course includes techniques for analysis, design and development of database systems, creating and using logical data models, database query languages, and procedures for evaluating database management software. Students will use a relational database management system to develop a management information system.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Database Management Systems

CIS 5356. Business Telecommunications.
Explores the technology that is revolutionizing the manner in which business and government conduct their operations and the effects new developments in communication media have on computing systems. This course reflects the current state-of-the-art in data communication networking.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Telecommunications

CIS 5358. IT Systems Project Management.
An in-depth study of the project management body of knowledge as applied to information Technology with emphasis on the management of scope, costs, schedules, quality and risks. Includes program management, system methodologies, material procurement, and human, cultural, and international issues and their impact on the organization.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about IT Systems Project Management

This course is designed to familiarize students with current and emerging e-commerce technologies. Topics include Internet technology for business advantage, reinventing the future through business process through e-commerce, business opportunities in e-commerce, and social, political, global, and ethical issues associated with ecommerce.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Business Telecommunications

CIS 5364. Data Warehousing and Mining.
Familiarizes students with current and emerging data warehousing and mining technologies that are likely to play a strategic role in business organizations. Topics include data mining techniques, data warehouse development life cycle, data warehouse navigation, data quality, and performance issues. Prerequisites: QMST 5334, QMST 2333 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Data Warehousing and Mining

This course covers the analysis, design, development, implementation, and maintenance of information security systems. Topics include legal, ethical, professional, personnel issues; risk management; technology; cryptography; and physical security.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Information Security

The use of information technology in integrating enterprises for operational control and strategic business intelligence is examined via Enterprise Resource Planning (ERP) applications in customer relationships management, accounting, finance, purchasing, production control, sales, marketing, and human resource management. Emphasizes managerial issues surrounding the need, selection, and implementation of ERP systems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Enterprise Resource Planning

CIS 5390A. Business Process Modeling.
A study of tools and techniques for analyzing requirements of business process oriented systems. The course emphasizes a model driven approach and its usage for developing information controls. Unified Modeling Language (UML) is introduced to specify the user/system interaction, business logic, and data storage.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Business Process Modeling

CIS 5390B. Business Intelligence Project.
Development of a system used for the implementation of analytics to diverse areas of interest, including: marketing, financial risk analysis, quality management in manufacturing, health care management, and geographic information systems. Prerequisite: CIS 5355, CIS 5364.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Business Intelligence Project

Economics (ECO)
An intensive study of micro-and macroeconomic concepts; the price system as it functions under competition, monopoly, monopolistic competition and oligopoly; national income measurement and determination; business cycles; money and banking; monetary policy; fiscal policy and economic stabilization. May not be counted as an elective MBA course. This course does not earn graduate degree credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Economic Theory and Policy
Examination of the patterns of trade and finance among nations, integrating the topics of exchange rates, trade barriers, customs unions, and macroeconomics policy into a unified treatment of international economic relations. Prerequisite: B A 5353.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about International Economics

ECO 5316. Managerial Economics.
The application of economic theory and analysis to the formulation of business policy, including demand analysis, production theory, linear programming, and pricing policy. (MBA with Technology Emphasis students complete TECH 5315.) Prerequisite: QMST 5334.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Managerial Economics

The course focuses on the structural characteristics of the emerging market economies, with an emphasis on analyzing the salient economic challenges and opportunities facing contemporary emerging market economies. Prerequisites: BA 5353.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Emerging Market Economies

ECO 5378. Macroeconomic Theory and Policy.
An analysis of theory and policy questions relating to the rate of economic growth. The theory of national income, employment and the price level from the point of view of dynamics. Students may take either BA 5378 or BA 5316. Prerequisite: BA 5302 or equivalent.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Macroeconomic Theory and Policy

Finance (FIN)

FIN 5307. Financial Analysis.
Development of the theoretical basis and presentation of the techniques for the acquisition and management of the firm's financial resources. Topics include working capital management, capital budgeting, and internal and external financing decisions. May not be counted as an MBA elective course. This course does not earn graduate degree credit. Prerequisite: B A 5301.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Financial Analysis

FIN 5322. Investment Analysis.
This course provides an introduction to the basic concepts of investments and investment management. It is designed to develop a framework within which to view the investment process in a global environment and an understanding of the institutional setting in which investment decisions are made. Prerequisite: B A 5352.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Investment Analysis

This course is designed to provide students with an overview of the strategies for creating and managing portfolios. At the end of this course, students should understand the tools for investment management. Topics covered include portfolio construction and analysis, risk analysis, asset class management, derivatives, and portfolio performance analysis. Prerequisite: FIN 5322.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about Portfolio Theory and Capital Markets

FIN 5337. International Finance.
Examination of economic incentives and rationale for multinational firms, exchange rate risk exposure and management, investment decision strategy, and the general economic impact of multinational firm activity. Prerequisite: B A 5352.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Course Attribute(s): Multicultural Content
about International Finance

Examination of economic incentives and rationale for international investment and financing. Topics include exchange rate risk exposure and management, global debt and equity investment and financing, foreign currency derivative markets, and general investment and financing strategy in global capital market. Prerequisite: B A 5352.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about International Investments and Financial Management

FIN 5347C. Real Estate Investment.
An application of capital budgeting to real estate investment decisions. Prerequisite: FIN 5387.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Real Estate Investment
FIN 5347D. Behavioral Finance and the Business of Professional Sports. This course provides student with an understanding of the relationship between psychology, investor behavior, and financial market efficiency. While market participants may believe that they are acting rationally when making investment decisions, often they are influenced by irrelevant information or ignore pertinent factors. Students will be presented with recent research in the field of behavioral finance. Attention will be given to sports betting markets; such markets provide a useful model for analyzing investor behavior. The course also includes an in-depth examination of sports as a business. Specifically, students will analyze financial decision-making in the NFL, MLB, NHL, NBA, and horse racing.

about Behavioral Finance and the Business of Professional Sports
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Behavioral Finance and the Business of Professional Sports

FIN 5347F. Money, Banking, Financial Markets & Institutions. This course will examine the important relationships between money, depository institutions, financial markets and non-depository financial institutions. It is designed to equip managers with intellectual tools necessary to critically evaluate changing and evolving financial market conditions and their impact on managerial decision making. Prerequisite: B A 5352.

about Money, Banking, Financial Markets & Institutions
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Money, Banking, Financial Markets & Institutions

FIN 5347G. Short-Term Financial & Treasury Management. The focus of the course is to apply financial concepts and quantitative techniques to solve issues in corporate treasury and short-term financial problems. Topics include cash collection, cash concentration, disbursement management, forecasting cash flows, credit management, banking relationships, and short-term investment and borrow strategies. Prerequisite: B A 5352.

about Short-Term Financial & Treasury Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Short-Term Financial & Treasury Management

FIN 5387. Managerial Finance. Concentrates on the finance function, analysis and budgeting of funds, management of current assets, short and intermediate-term financing requirements, long-term debt policy and capital structure, capital budgeting, and the concept of cost of capital. Risk and return trade-offs also are studied. Prerequisite: B A 5352.

about Managerial Finance
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managerial Finance

FIN 5395. Independent Study in Finance. An in-depth study of a single topic or related problem solved through finance research. The course may be repeated once if the topic studied is different. Prerequisite: Consent of instructor and Department Chair.
about Independent Study in Finance

Grade Mode: Standard Letter
about Independent Study in Finance

Management (MGT)

MGT 5199B. Thesis. This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

about Graduate Assistant Development

MGT 5310. Organizational Change Management. Presents an overview of the process of change in an organization and stresses the key issues involved in reengineering and renewing organizations. Problems dealing with stress and conflict during major change will be explored along with practical ideas on building effective teams to make change possible and sustainable.

about Organizational Change Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Organizational Change Management

MGT 5311. Process Improvement Management in Organizations. Learn existing and latest developments in process improvement techniques for continuous improvement and the role of quality as a system for establishing an organization’s competitive advantage. Process mapping is emphasized and assessment of effectiveness in the interactions of the managerial and technical systems of organizations is also studied.

about Process Improvement Management in Organizations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Process Improvement Management in Organizations
MGT 5312. Seminar in Management.
Development of philosophy, strategy, and tactics in managing an enterprise. Administrative processes common to all enterprises, such as entrepreneurship, business and society, leadership and group behavior in organizations, business ethics, and international management. (Course may be repeated for credit with different course focus.).

about Seminar in Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5313. Strategic Management.
An integrative approach to policy formulation and administration (decision making) to achieve organization objectives. Should be taken the last semester of student’s MBA program. Prerequisites: QMST 5334, MKT 5321, ACC 5361, FIN 5387.

about Strategic Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5314. Organizational Behavior and Theory.
Organizational behavior and structure as influenced by environmental variables and system relationships. Prerequisite: B A 5351.

about Organizational Behavior and Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5315. New Venture Management.
This course provides an overview of the entrepreneurial process from the initial idea through start-up, growth, and harvest. Students learn how to write a business plan, manage all the elements of an entrepreneurial business, and develop a better understanding of the requirements of the entrepreneurial life path.

about New Venture Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5318. Cross-Cultural Management.
The global environment requires sensitivity to and the adaptation of leadership and management skills and practices, and the culture-bound differences in workplace behavior and attitudes. Explores how differences in cultural core values shape behavior and attitudes of workers, managerial colleagues, and negotiating partners. Prerequisites: B A 5351.

about Cross-Cultural Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5321. Supply Chain Management.
A variety of tools and frameworks provide students and understanding of the basis behind supply chain decision making. Topics include supply management concepts, demand-supply management, pull/push system, capacity and resource allocation, performance measurement, relationship assessment, and outsourcing in an integrated supply chain. Require graduate standing.

about Supply Chain Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5325. Managing Business Creativity.
This course focuses on the means by which businesses and individuals foster and maintain their creative and innovative skills. Key topics include: idea generation and refinement, idea screening, prototype development, and feasibility analysis. Objectives are met through classroom exercises, case analysis, guest speakers, and individual and team projects.

about Managing Business Creativity
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of current developments and practices in human resource management, including employment laws; planning, recruitment and selection; training and development programs; wage and benefits administration; performance management, human relations and productivity; labor relations; safety and health; an current contributions to human resource management theory.

about Seminar in Human Resource Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5333. Problems in Business Administration.
The student is here given the opportunity to work in the field of his special interest, particularly in the subjects of accounting, business law, marketing, statistics, finance, and insurance. The course will be conducted by conferences between the student and instructors concerned. Problems will be assigned as nearly as possible for the needs of the individual student.

about Problems in Business Administration
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MGT 5335. New Venture Launch.
The purpose of this class is to ensure students gain a full understanding of what it takes to start and grow a business. Students learn the process of creating a new venture from the inside by planning, organizing and launching an actual business. Prerequisite: MGT 5315.

about New Venture Launch
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
MGT 5336. Compensation and Benefits.
This course addresses the rewards systems in organizations. Strategic
and technical considerations in designing, administering and managing
compensation and benefits plans in organizations, including job analysis
and evaluation, wage levels and structures, legal issues, individual and
group incentives, and benefits are considered. Prerequisites/corequisite:
MGT 5330.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Compensation and Benefits

MGT 5337. Organizational Staffing.
A study of the methods involved in recruitment and selection of
employees with an emphasis on measurement, job analysis, performance
appraisal, legal issues, and the role of human resource planning and
strategy. This course relies on statistics to teach students to make
reliable and valid employment decisions. Prerequisite: MGT 5330.
about Organizational Staffing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

http://www.education.txstate.edu/oep

Teacher preparation was the original mission of Southwest Texas Normal School when it was chartered in 1899, and today faculty members in the College of Education continue to focus their efforts on this primary mission. Over the last century, the mission of the College has expanded from preparing teachers at the undergraduate level to include the preparation of educators at the master’s and doctoral levels as well as the preparation of professionals in other fields including recreation administration, health and wellness promotion, athletic training, health and fitness management, educational leadership, school psychology, professional counseling, and adult and developmental education.

**Department of Counseling, Leadership, Adult Education, and School Psychology**
Education Building Room 4037
T: 512.245.2575 F: 512.245.8872
http://www.txstate.edu/clas

Comprised of graduate programs at the master’s and doctoral levels, our department consists of a multidisciplinary team of professors and highly qualified staff committed to the educational and professional success of our students. Our students and graduates provide leadership and professional service to schools, agencies, communities, colleges and universities, and professions across Texas as well as nationally and internationally. Pursuing the dreams and possibilities of a graduate education, our students come from many distinct fields, diverse backgrounds, and bring a wide range of professional and personal experiences that enrich our work together. Our faculty are deeply involved in high quality, innovative, and critical research projects generating knowledge and understanding oriented toward the flourishing of communities, individuals, and the social institutions that support them. Eager to share the work of research, scholarship, and learning with their students, the faculty also supports and advances Texas State as a Hispanic Serving Institution. The department consists of approximately 38 full-time faculty, 20 part-time faculty with practitioner leadership expertise, 5 staff, 440 master’s students, and 115 doctoral students. The department employs 30 doctoral and graduate assistants and operates community counseling clinics at both the San Marcos and Round Rock campuses.

**Student Fitness and Performance Program Standards**

Students enrolled in all academic programs in The Graduate College must maintain high scholastic standards and develop a mastery of the knowledge and methods of their respective discipline. Students
are expected to demonstrate emotional and mental fitness in their interactions with others, use skills and methods that are generally accepted by others in the profession, and conform to the code of ethics of their respective discipline, and the university’s honor code. A student’s acceptance in any program does not guarantee the student’s fitness to remain in that program. The faculty is responsible for verifying that only those students who continue to meet program standards are allowed to continue in any program.

Evaluation of Student Fitness and Performance

Members of the faculty, using their professional judgments, evaluate student fitness and performance continuously. The criteria used by the faculty to make such judgments include instructors’ observations of student performance in class or in activities related to courses, evaluations of student performance on theses and practica, site supervisors’ evaluations of student performance in practica, and the codes of ethics noted above. Students who are not making satisfactory progress or who are not meeting program standards should consider withdrawing from the program.

In this context, the term “satisfactory progress” refers to an academic judgment made regarding the student’s fitness and performance. It is a judgment that the student has failed to meet program standards rather than a judgment made on the basis of the student’s violation of valid rules of conduct. Disciplinary matters are referred to Student Justice.

Student Review Process

If a faculty member believes that a student is not making satisfactory progress or meeting program standards, he or she should discuss the situation with the student. If the faculty member believes that the student’s performance cannot improve to acceptable standards, the faculty member should refer the student to the Program Standards Committee of the appropriate department. The Program Standards Committee consists of three faculty members appointed by the department chair in consultation with the department’s senior faculty.

The Committee will notify the student of the reasons that he or she is not making satisfactory progress or meeting program standards and will give the student an opportunity to meet with the Committee to respond and to present information and witnesses to the Committee. The Committee will also meet with the faculty member who referred the student to the Committee. After considering the matter, and within ten working days of meeting with the student, the Committee will report its decision to the student and the department chair, stating that the student should either remain in or leave the program. The Committee may make other decisions, such as placing restrictions or conditions on the student’s continuing in the program. Within ten working days of receiving the Committee’s decision, the student will notify the department chair of the student’s acceptance or rejection of the Committee’s decision. If the student rejects the Committee’s decision, he or she may appeal to the department chair.

Within ten working days of receiving the student’s appeal, the chair will make a decision as to the student’s continued presence in the program. Before making the decision, the chair will meet with the student. However, the chair need not meet with the student before making a decision if the student was given a reasonable opportunity to meet, and the student either failed or refused to meet. The chair will notify the student of the decision.

If the student is dissatisfied with the chair’s decision, he or she may appeal to the dean of the appropriate college. However, in order for the dean to consider an appeal, the student must submit a written notice of appeal to the chair and the dean within ten working days of receiving the chair’s decision. The dean will consider the matter based on information compiled by the chair and notify the student of the decision within ten working days of the dean’s receipt of the appeal from the chair. The dean may meet with the student and give the student an opportunity to address the issues. The dean’s decision is final.

Certification and Licensure Programs

Academic preparation for certification and licensure requirements is available in addition to majors and emphases associated with degree programs. These include certification in school counseling, principal, or superintendent, and licensure as marriage and family therapist, professional counselor, or Licensed Specialist in School Psychology. Inquiries regarding any of these certification or licensure programs should be directed to the appropriate program certification advisor. To be considered for admission to a certification or licensure program, students must meet the same admission and deadline requirements as the degree-seeking students, which are detailed on The Graduate College’s website. Satisfactory performance on the TExES certification examination is required for provisional or professional certificates. Other conditions and professional tests are required by the state of Texas to be certified or licensed. It is the responsibility of the student to be aware of and to meet these conditions.

Educational leadership certification includes two distinct certifications as Texas public school administrators: principal/assistant principal, a 21- to 36-hour program, and superintendent, which requires 15 additional hours above the principal/assistant principal certification. These programs fulfill academic requirements for leadership positions such as elementary, middle, or secondary principal/assistant principal and central office positions.

Certification in counseling and guidance includes certification as a school counselor. The M.A. in professional counseling with the school counseling specialization meets state academic requirements for school counseling certification.

Licensure in professional counseling includes Texas Licensed Professional Counselor (LPC) and Texas Licensed Marriage and Family Therapist (LMFT). The professional counseling program meets the academic and practicum requirements of the Texas State Board of Examiners of Professional Counselors and the Texas State Board of Examiners of Marriage and Family Therapists.

Licensure as a Specialist in School Psychology includes both a degree program and a re-specialization plan. The school psychology program meets the academic and supervised practice standards of the Texas State Board of Examiners of Psychologists for providing psychological services in the public schools as a Licensed Specialist in School Psychology (LSSP). The program also meets the standards of the National Association of School Psychologists (NASP) for the credential of National Certified School Psychologist (NCSP). Applicants must have graduated from a master’s, specialist, or doctoral program in psychology in order to be eligible for re-specialization and licensure in school psychology.

Doctor of Philosophy (Ph.D.), Major in Education – Adult, Professional and Community Education

Ph.D. Program

The doctoral program in education with a major in education-adult, professional and community education is designed for individuals in a variety of educational roles who wish to develop and refine their abilities to provide leadership for educational excellence. The program prepares education professionals to individually and collaboratively engage in reflective and ethical practice as they foster the development of individual learners as well as existing and emerging learning communities, including schools, post-secondary institutions, workplaces, and community-based organizations.

The program admits students in the fall term only, and the students enroll each year as a cohort group. All students in a given cohort (including full-time and part-time students) will enroll together in each core course during the first year. All students in a given cohort who choose the same major also ordinarily enroll together in each course in the major.

Educational Goal

The College of Education’s educational goal is to provide graduates with the experience to:

1. act as change agents;
2. apply the fundamental principles of facilitating student-centered, lifelong learning;
3. accommodate the diverse needs of those they teach;
4. use technology as a tool for communication, research, teaching, and learning;
5. make ethically sound decisions and articulate the values and principles that guide decision making;
6. engage in professional development and support the professional development of others;
7. conduct and use research to strengthen the ties between educational theory and practice.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/apce.html.

Financial Assistance

Doctoral assistantships are available to qualified candidates. Please see the Ph.D. program website (http://www.txstate.edu/edphd/) or contact the doctoral program director for more information about assistantships and the degree program. Please see The Graduate College website for information on scholarship opportunities (http://www.gradcollege.txstate.edu/Prospect_Students/Fin_Grad_Ed.html).

Course Work

Academic Guidance

During the first year, the student will be assigned an academic program mentor. The academic program mentor will work with the student to develop a program of study, and provide general academic and career-related advisement to the student. The doctoral program director,
acting in the role of graduate advisor for the program, will submit all recommendations for the program of study and results of programs examinations to the dean of The Graduate College for approval. The dean of The Graduate College has final approval on all recommendations from the doctoral program director.

A dissertation advisor must be selected by the time a student takes the comprehensive examination; a complete dissertation committee must be formed prior to presenting a dissertation proposal for defense.

Semester Hour Requirements

The student must complete 51 semester hours of graduate work to meet the minimum requirements for advancement to candidacy and then a minimum of 12 hours of dissertation courses to complete the degree for a minimum of 63 hours. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must have satisfied the residency requirement of 18 graduate credit hours.

Degree Audit

In the first term that a student enrolls for doctoral study, the student should confer with their graduate advisor and prepare a degree audit for their program. Doctoral degree audits are tailored with the individual student in mind. It is therefore possible for the individual degree audit to exceed the number of degree hours identified in the catalog.

- HR 7375 Aquatic Health Ecology and Human Disease 3
- REC 7378 Independent Study 1 3
Advancement to Candidacy

Application for Advancement to Candidacy

Doctoral students will need to be advanced to candidacy within five years of initiating Ph.D. course work. Students need to indicate their intent to advance to candidacy during the term they complete the 51 hours of required course work. The Application for Advancement to Candidacy form may be obtained from The Graduate College website. The doctoral program director will then submit the completed forms to the dean of The Graduate College for review.

Advancement to Candidacy Time Limit

No credit will be applied toward the doctoral degree for course work completed more than five years before the date on which the student is advanced to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions.

Requests for a time extension must be submitted to the doctoral program director, who in turn, submits a recommendation to the dean of The Graduate College.

Grade-Point Requirements for Advancement to Candidacy

To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below a "B" on any graduate course may apply toward a Ph.D. at Texas State.

Incomplete grades must be cleared through the office of The Graduate College before a student can be approved for advancement to candidacy.

Comprehensive Examination

The doctoral students in the Ph.D. in education program are required to pass a comprehensive examination in which the student must integrate knowledge from core and concentration courses to solve a problem that the student is likely to encounter in a professional work setting. Arrangements for comprehensive examinations are made through the director of the Ph.D. program and the dissertation advisor. The results of the examination must be filed in the office of The Graduate College before the dean of The Graduate College gives final approval of advancement to candidacy. The Department of CLAS is responsible for submitting the reports to The Graduate College.

Dissertation Proposal

The dissertation proposal must be successfully defended and approved by the dean of The Graduate College before a student can be advanced to candidacy. Students must submit the dissertation proposal and one copy of the official "Dissertation Proposal form" to the dissertation advisor. Guidelines that discuss the purpose of the proposal, its preparation, its format, and procedures for its presentation and defense are available from the program director. After defending the dissertation proposal and obtaining committee members’ signatures, the student must submit the dissertation proposal and dissertation proposal form to the program director for signature. The form also requires evidence of the IRB approval for any research involving human subjects. The program director will then forward the dissertation proposal and form through the department chair, to the dean of The Graduate College for final approval. Final approval must be received before proceeding with research on the dissertation. The Dissertation Proposal form may be obtained from the office of The Graduate College; proposal guidelines are also available at the website or from the doctoral program director.

Defense of the Dissertation Proposal

Students must defend the dissertation proposal in a meeting that begins with a public presentation and continues with an oral examination by the dissertation committee. The examination will address the proposed dissertation topic (problem definition and scope), research method, and relevant literature. The dissertation committee must sign the "Defense of the Dissertation Proposal form" to indicate approval and then submit the form for the signature of the doctoral program director and the department chair. The approved Defense of the Dissertation Proposal form must be forwarded to the dean of The Graduate College. The dissertation proposal must be approved and the Defense of the Dissertation Proposal form must be on file in the office of The Graduate College before any student can be advanced to candidacy.

Recommendation for Advancement to Candidacy

The dissertation committee recommends the applicant for advancement to candidacy to the doctoral program director, the department chair, and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been met. To be eligible for admission to candidacy the student must have successfully completed the comprehensive exam, completed all course work, and successfully defended the dissertation proposal.

Dissertation Research and Writing

All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of the Publication Manual of the American Psychological Association.

Dissertation Enrollment Requirements

Enrollment

Any time a student is receiving official guidance on the dissertation, the student must be enrolled in a dissertation course. A student must maintain continuous enrollment in dissertation hours every term from the time they advance to candidacy until the dissertation is defended and approved. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred.

Students will normally register for at least three credit hours of dissertation. With the approval of the dissertation chair and the program director, they may be allowed to register for one hour of credit (ED 7199A or ED 7199B) when working less intensely on the dissertation (more detailed explanation available from the program director). Approval is not needed to register for ED 7199A or ED 7199B in the summer. This one-credit course is ordinarily repeatable for only three times during fall or spring terms.
Education-adult, professional and community education majors will enroll in a combination of:

**Hours**

Students must complete a minimum of 12 semester hours of dissertation research and writing credit.

**Fee Reduction**

A doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Dissertation Time Limit**

Students are expected to complete the dissertation within five years of advancement to candidacy. The dissertation committee will review the student’s progress annually.

**Dissertation Advisor and Committee**

A dissertation committee must be formed to oversee the research and writing of the dissertation. The dissertation committee will include a dissertation advisor and a minimum of three additional committee members.

The members must be chosen from qualified Ph.D. faculty. The dissertation advisor will chair the dissertation committee and must be from the College of Education. The committee members must be selected in consultation with the dissertation advisor. At least two members of the dissertation committee must be from the Department of Counseling, Leadership, Adult Education, and School Psychology. No more than one of the four required members of the committee should be someone external to the university (either a practitioner or a faculty member from another university approved as adjunct doctoral faculty). The doctoral program director, the department chair, and the dean of The Graduate College must approve the dissertation advisor and committee members.

**Committee Changes**

Any changes to the dissertation committee must be submitted for approval to the dissertation advisor, the doctoral program director, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty days before the final dissertation defense. The “Dissertation Advisor/Committee Member Change Request form” may be obtained from The Graduate College website.

**Defense of the Dissertation**

Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. Students must defend the dissertation in a meeting that begins with a public presentation and continues with an oral exam by the dissertation committee. Before scheduling the final oral exam, the student must have received approval of the dissertation chair. A completed “Dissertation Defense Report form” report must be submitted according to the schedule posted by the dean of The Graduate College and no later than ten days before the date of graduation.

**Approval and Submission of the Dissertation and Abstract**

The approval of the dissertation and abstract requires positive votes from the dissertation advisor and from a majority of the dissertation committee members. Refer to the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation for specific guidelines regarding submission of the dissertation. The document must be submitted in electronic format.

Doctoral level courses in Education: ADED (p. 755), COMM (p. 756), ED (p. 756), EDCL (p. 763), HHR (p. 763), HR (p. 763), REC (p. 763), SAHE (p. 764)

**Courses Offered**

**Adult Education (ADED)**

ADED 7325. Teaching Adults: Principles and Practices.

Seminar that addresses methods and techniques for effective instruction of adults across a variety of settings and content. Emphasis on concepts, theories, and principles relevant to the selection, use, and evaluation of instructional strategies. Participants will have an opportunity to practice strategies that expand their teaching repertoire.

About Teaching Adults: Principles and Practices

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

关于Teaching Adults: Principles and Practices

**ADED 7337. Adult Literacy.**

This course is designed to provide students with a broad foundation about the needs of undereducated students with a broad foundation about the needs of undereducated adults, including adult English language learners. Students will analyze and evaluate adult literacy legislation, instruction, research, and delivery systems.

关于Adult Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

关于Adult Literacy

**ADED 7342. Adult ESL Methods and Materials.**

This course reviews traditional and contemporary adult language teaching methodologies. It focuses on the design of lessons that integrate listening, speaking, reading, writing, culture and all language skills. This class provides strategies for choosing, adopting, and adapting textbooks that integrate teaching material appropriate to different adult language learning settings.

关于Adult ESL Methods and Materials

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

关于Adult ESL Methods and Materials
ADED 7343. Organizational Learning and Development.
The course addresses a range of topics, including the effects of change, methods of organizational change, and factors influencing organizational development success. Students learn the roles of internal and external organizational development consultants, tools and processes for helping organizational members identify problems, gather and analyze information, and implement solutions.
Grade Mode: Standard Letter
about Organizational Learning and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ADED 7344. Multicultural Perspectives in Postsecondary Education and Adult Education.
This seminar covers a broad range of topics related to diversity within postsecondary and adult education. Course readings and projects relate to a wide variety of setting including colleges and universities, adult literacy programs, the workplace, and community-based organizations. Students who have completed ADED 5344 may not take this course for doctoral credit.
Grade Mode: Standard Letter
about Multicultural Perspectives in Postsecondary Education and Adult Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ADED 7345. Current Issues in Adult, Continuing and Professional Education.
A seminar style course focusing on current issues in continuing and professional education including research and professional practice. Specific emphasis will vary depending on changes in contemporary issues. Students who have completed ADED 5345 may not take this course for doctoral credit.
Grade Mode: Standard Letter
about Current Issues in Adult, Continuing and Professional Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Communications (COMM)
An independent study of a specific communication research area. May be repeated with different emphasis for additional credit. Prerequisite: Doctoral level standing.
Grade Mode: Standard Letter
about Directed Research in Communication Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 7325A. Instructional Communication.
A review of instructional communication theory and research with an emphasis on the function of communication in instructional settings. Prerequisite: Doctoral level standing.
Grade Mode: Standard Letter
about Instructional Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 7325B. Organizational Communication.
A review of organizational communication theory and research with an emphasis on organizational development from a communication perspective. Prerequisite: Doctoral level standing.
Grade Mode: Standard Letter
about Organizational Communication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COMM 7325C. Communication Assessment.
An in depth study of communication assessment techniques employed in the field of oral communication. Statistical, experimental, and observational methods of assessing oral communication in interpersonal, group, and classroom settings are included.
Grade Mode: Standard Letter
about Communication Assessment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Education (ED)
ED 7111. Collaborative Inquiry Project, Phase I: Field-Based Assessment.
This course involves the selection of a problem for study in the field. Students will gather and analyze assessment data and design an action plan for field-based research.
Grade Mode: Standard Letter
about Collaborative Inquiry Project, Phase I: Field-Based Assessment
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

ED 7112. Collaborative Inquiry Project, Phase II: Field-Based Implementation.
This course requires students to implement an action plan to solve a problem in the field that has been selected in ED 7111. Prerequisite: ED 7111 or instructor's permission.
Grade Mode: Standard Letter
about Collaborative Inquiry Project, Phase II: Field-Based Implementation
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

This course involves the collection and analysis of data as part of a field-based action research project. Students will gather, analyze, and interpret a variety of data and prepare a written report on a field-based research project. Prerequisites: ED 7111, ED 7112 or instructor's permission.
Grade Mode: Standard Letter
about Collaborative Inquiry Project, Phase III: Field-Based Evaluation
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
ED 7199A. Dissertation in Education-Adult, Professional, and Community Education.
Original research and writing in Education-Adult, Professional and Community Education, to be accomplished under direct supervision on the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Education-Adult, Professional, and Community Education
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Education-Adult, Professional, and Community Education

ED 7199B. Dissertation in Education-School Improvement.
Original research and writing in Education-School improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Education-School Improvement
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Education-School Improvement

ED 7299A. Dissertation in Education-Adult, Professional and Community Education.
Original research and writing in Education-Adult, Professional and Community Education, to be accomplished under direct supervision on the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Education-Adult, Professional and Community Education
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Education-Adult, Professional and Community Education

ED 7299B. Dissertation in Education - School Improvement.
Original research and writing in Education-School improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Education - School Improvement
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Education - School Improvement

ED 7310. Instructional Roles in Counseling, Leadership, Adult Education & School Psychology.
This seminar is intended to prepare graduate teaching and instructional assistants in the CLAS Department to function effectively in various instructional and instructional support roles. Required for first-year teaching assistants and GIAs. This course does not earn graduate degree credit. Repeatable with different emphasis.
about Instructional Roles in Counseling, Leadership, Adult Education & School Psychology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Instructional Roles in Counseling, Leadership, Adult Education & School Psychology

ED 7311. Educational Philosophy in a Social Context.
This course examines the philosophical foundations of education from the time of Plato through current writings. It frames these foundations through the lens of educational challenges of today. Readings include classical and current writings.
about Educational Philosophy in a Social Context
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Philosophy in a Social Context

ED 7312. Leadership and Organizational Change.
This course will familiarize students with different perspectives on organizations, different paradigms by which they might be viewed, and a survey of research done on organizations, organizational leadership and change.
about Leadership and Organizational Change
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Leadership and Organizational Change

ED 7313. Advanced Studies in Adult Learning and Development.
This advanced seminar will examine research and theoretical literature on a variety of topics including: characteristics of adult learners; models of adult cognitive and psychosocial development; adult cognition, memory, and intelligence; and principles for facilitating adult learning. Restricted to Ph.D. in Education degree, Major in School Improvement.
about Advanced Studies in Adult Learning and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in Adult Learning and Development

ED 7314. Community Development for Educators.
Examines models and methods of community development as relevant to the practice and scholarship of formal and non-formal education.
about Community Development for Educators
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Community Development for Educators

This course examines the philosophies informing different research epistemologies, and examples of how these can be actualized methodologically. Philosophies to be analyzed include feminism, and race-based theory. This course will help students see the multiple possibilities for conducting research.
about Models of Inquiry: Understanding Epistemologies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Inquiry: Understanding Epistemologies

ED 7316. Advanced Studies in Adult Development.
This course examines current theories of adult development, fundamental developmental changes in adulthood, and the implications for practice in adult education. Restricted to students admitted to the Education Ph.D. Program- APCE major or with permission of instructor.
about Advanced Studies in Adult Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in Adult Development
ED 7318. Advanced Studies in Adult Learning.
This advanced seminar will examine research and theoretical literature on a variety of topics related to adult learning such as: characteristics and diversity of adult learners; key theories of adult learning; alternative perspectives on adult learning; intelligence, aging and wisdom; and learning in the digital age. Restricted to students admitted to the Education Ph.D. Program – APCE major or with permission of instructor.
about Advanced Studies in Adult Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in Adult Learning

ED 7320. Literature Review for Research Writing.
In this seminar course, students conduct a careful examination of a body of literature related to a research topic in adult/professional/community/lifelong education. The literature review tests research questions in relation to what is published about a topic, discusses various positions, crafts coherent arguments and addresses knowledge gaps. Prerequisites: ED 7352 or ED 7351. Restriction: Doctoral standing.
about Literature Review for Research Writing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literature Review for Research Writing

ED 7321. Historical and Philosophical Foundations and Contemporary Issues in Adult Education.
Examines historical and philosophical foundations for the study and practice of adult professional, and community education in formal and non-formal settings; and contemporary issues in adult education in a "learning society." Prerequisites: Core courses or instructor’s permission.
about Historical and Philosophical Foundations and Contemporary Issues in Adult Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Historical and Philosophical Foundations and Contemporary Issues in Adult Education

Examines the methods, practices, and issues of facilitating learning related to occupational, professional, and volunteer roles. Prerequisites: Core courses or instructor’s permission.
about Human Resource and Professional Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Resource and Professional Development

ED 7323. Community/Organizational Leadership and Management.
Examines issues and strategies related to the operation and delivery of educational programs in post-secondary, adult, and community settings. Prerequisites: Core courses or instructor’s permission.
about Community/Organizational Leadership and Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Community/Organizational Leadership and Management

ED 7324. Problems and Strategies in Program Planning Seminar.
Addresses principles and procedures, issues and trends, utilization of assessment, goal setting, and other effective strategies for developing learning opportunities and programs responsive to human, professional, and community needs. Prerequisites: Core courses or instructor’s permission.
about Problems and Strategies in Program Planning Seminar
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems and Strategies in Program Planning Seminar

ED 7326. Theoretical Foundations of Educational Policy, Politics and Practice.
This course examines the historical and theoretical underpinnings informing educational policy, politics and social justice. It addresses both the micro and macro levels of the context, values, and cultural norms guiding policy and practice in a democratic society. Prerequisites: ED 7311, ED 7312, and ED 7313.
about Theoretical Foundations of Educational Policy, Politics and Practice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical Foundations of Educational Policy, Politics and Practice

ED 7327. Education Policy Development.
This course equips students with the skills needed to analyze the origins and consequences of existing policy and to play active roles in policy development for educational equity and social justice. Prerequisite: ED 7326.
about Education Policy Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Education Policy Development

ED 7328. Research and Analysis in Education Policy.
This course engages students in a field-based educational policy research project using quantitative and qualitative techniques. Students will develop their skills to identify policy issues, gather and analyze data, and draw conclusions, and disseminate findings. Prerequisites: ED 7326, ED 7327, ED 7351, and ED 7352.
about Research and Analysis in Education Policy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Research and Analysis in Education Policy

ED 7329. Field-Based Experience in Educational Policy.
This course provides field-based practice in policy analysis and development from a democratic and social justice perspective. With guidance from a university faculty supervisor and site mentor, the student will develop and implement a policy project related to democracy and social justice. Prerequisite: ED 7328.
about Field-Based Experience in Educational Policy
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Field-Based Experience in Educational Policy
ED 7331. Foundations of School Improvement.  
Examines school improvement efforts from philosophical, political, psychological, cultural, ethical, and technological foundations. Prerequisites: Core courses or instructor’s permission.  
Grade Mode: Standard Letter 

ED 7333. Curriculum and Instructional Leadership.  
Examines the relationship between curriculum, instructional improvement, and teacher development, with experiential applications. Prerequisites: Core courses or instructor’s permission.  
Grade Mode: Standard Letter 

ED 7334. Models of Educational Assessment.  
Includes assessment of student learning at the individual, classroom, school, and system level; teacher assessment; and program assessment. Prerequisites: Core courses or instructor’s permission.  
Grade Mode: Standard Letter 

In this course students approaching dissertation stage meet in a seminar designed to help them clarify their research problem and develop a preliminary proposal for the dissertation. Core and concentration courses must be completed with minimum grades of "B" in each course prior to taking ED 7341. Prerequisites: ED 7351, ED 7352, and ED 7353 or ED 7354 with minimum grades of "B". Departmental approval required.  
Grade Mode: Standard Letter 

ED 7349. School Finance and Business Management.  
This course focuses on the financing of public schools. Students will examine the school budgeting process, sources of school revenues, principals of taxation, methods of school fund accounting, and techniques of business management. Students taking the course will complete an original research project under the instructor’s direction.  
Grade Mode: Standard Letter 

ED 7350. Methods of Research in Education.  
This course provides an introduction to the design and analysis of quantitative and qualitative research in education. Topics included are quantitative research design, measurement, and statistical analysis. From a qualitative perspective, the course provides an introduction to the various qualitative modes of inquiry relevant to education.  
Grade Mode: Standard Letter 

ED 7351. Beginning Quantitative Research Design and Analysis.  
Includes descriptive statistics; sampling techniques; statistical inference including the null hypothesis, significance tests, and confidence intervals; and causal-comparative analyses, including t-test and ANOVA. Prerequisites: Core and Concentration courses or instructor’s permission.  
Grade Mode: Standard Letter 

ED 7352. Beginning Qualitative Design and Analysis.  
Introduces the qualitative paradigm. Includes distinctive features, alternative qualitative traditions, purposeful sampling, common data collection methods, inductive analysis, the role of the researcher, and evaluating qualitative research. Prerequisites: Core and Concentration courses or instructor’s permission.  
Grade Mode: Standard Letter
This course focuses on issues in the design and implementation of quantitative research. Topics include ANOVA, ANCOVA, and MANOVA, correlation analysis, regression analysis, nonparametric tests, and relationships between experimental designs and statistical analysis techniques. Prerequisite: ED 7351 with a minimum grade of "B", or instructor's permission.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Quantitative Research Design and Analysis

ED 7354. Intermediate Qualitative Design and Analysis.
Focuses on issues in design and implementation of qualitative research. Topics include influence of alternative traditions, literature in qualitative research, access to the field and ethical issues, researcher-participant relationships, purposeful sampling strategies, inductive analysis procedures, developing theory, and reporting research. Prerequisite: ED 7352 with a minimum grade of "B", or instructor’s permission.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Qualitative Design and Analysis

ED 7355. Non-Parametric Research Design and Analysis.
This course is designed to address problems in education in situations where the sample size collected is small, categorical in nature, of non-parametric research design and statistical methods are covered in detail.
about Non-Parametric Research Design and Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Non-Parametric Research Design and Analysis

ED 7357. Advanced Study in Action Research.
This course examines underlying theory, practice, skills, and issues in action research. Conducting research in the area of action research is also addressed. This course is an appropriate elective for majors in School Improvement or Adult, Professional and Community Education.
about Advanced Study in Action Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Study in Action Research

ED 7358. Theoretical and Conceptual Frameworks in Qualitative Research.
Advanced study in the historical, philosophical, conceptual, and theoretical underpinnings of qualitative research.
about Theoretical and Conceptual Frameworks in Qualitative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical and Conceptual Frameworks in Qualitative Research

ED 7359. Seminar in Quantitative Research.
This course is a small group seminar that focuses on analytic strategies specific to the doctoral student’s dissertation topic. Examples include structural equation modeling, hierarchical linear modeling, log linear modeling, non-parametric analyses, factor analysis, factorial analysis of variance, and other multivariate statistical methods. Prerequisites: ED 7351 and ED 7353 with minimum grades of "B" in each course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Quantitative Research

ED 7361. Understanding People: Professional Development.
Fundamental issues related to development of personnel. Knowledge of staff appraisal, adult learning and development, and staff development. Focus on professional development in K-12 schools.
about Understanding People: Professional Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Understanding People: Professional Development

ED 7362. Supervision of Instruction.
Concepts of curriculum and instructional models for schools will be developed. Factors such as curriculum leadership and instructional improvement are considered as part of the internal environment. An emphasis will be placed on supervision knowledge, skills, and tasks.
about Supervision of Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Supervision of Instruction

ED 7363. Curriculum Design.
Theory and practice in planning for curriculum needs assessment, development, implementation, and evaluation. Focus on K-12 school curricula. Students who have completed EDA 6342 may not take this course for doctoral credit.
about Curriculum Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum Design

ED 7364. Team Development in Education.
This course addresses the development and use of educational teams to improve educational organizations, teaching, and learning. Because of its focus on education, it is recommended only for doctoral students preparing for careers in educational settings.
about Team Development in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Team Development in Education

ED 7365. Cross-cultural Leadership in Education.
Students will work as a team to undertake a research study of leadership across cultures in the U.S. and Mexico. Students must be accepted in the Education Ph.D. program. Fluency in Spanish is preferred.
about Cross-cultural Leadership in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Cross-cultural Leadership in Education
ED 7371. Anthropology and Education.
This course introduces the student to the basic concepts in anthropology and education and sketches the application of these concepts. It explores the research in anthropology and education with relevance to both K-12 schools and other, more general educational settings. The course is an appropriate elective for Education Ph.D. majors.

Grade Mode: Standard Letter
about Anthropology and Education

ED 7372. The Emotions of Leading, Teaching, and Learning.
This course offers an introduction to theories of emotion, leading, teaching, and learning as interconnected fields. Students in this course will achieve a theoretical grounding that will deepen their understandings of the relationship of emotion to all of these important human endeavors. This course will be of interest of practitioners, researchers, and/or theorists.

Grade Mode: Standard Letter
about The Emotions of Leading, Teaching, and Learning

ED 7378. Problems in Education.
Individual problems or topics will be designed and completed to emphasize selected areas of study. May be repeated for additional credit at the discretion of the program coordinator.

Grade Mode: Standard Letter
about Problems in Education

ED 7379. Independent Study.
Individual problems or topics will be designed and completed to emphasize selected areas of study in the Counseling, Leadership, Adult Education & School Psychology Department. May be repeated for additional credit at the discretion of the program coordinator.

Grade Mode: Standard Letter
about Independent Study

ED 7389A. Theological Issues in Education.
This course focuses on theological issues in education. Informed by the disciplinary structures of curriculum theory, this seminar course convokes a community of scholars and practitioners in thoughtful dialogue and study that takes up questions of spiritual, moral, and theological issues within education in a pluralistic society.

Grade Mode: Standard Letter
about Theological Issues in Education

ED 7389B. Seminar in International Educational Research: Chile.
This course develops theoretical knowledge, methodological skills, and scholarly capacity for international educational research. It focuses on research within the complex educational environment of Chile, involving seminar components held at the university and research fieldwork in Chile. International research is framed as a form of service learning. Restricted to students in the PhD in Education program.

Grade Mode: Standard Letter
about Seminar in International Educational Research: Chile

ED 7389C. Advanced Theory in Qualitative Research.
This course features advanced study in qualitative research methods. The course studies such methods as ethnography, case study, phenomenology, narrative analysis, post-qualitative research, grounded theory, or more advanced qualitative research in general and their constitutive field techniques. Prerequisites: Introduction to Qualitative Research and Intermediate Qualitative Research.

Grade Mode: Standard Letter
about Advanced Theory in Qualitative Research

ED 7389D. Advanced Theory in Qualitative Research: Narrative Research.
The purpose of this course is to explore the possibilities of narrative research. The course will provide an overview of narrative inquiry, look at various theories and corresponding examples of research, and explore, analyze, and interpret data using narrative methods. Prerequisites: Introduction to Qualitative Research and Intermediate Qualitative Research.

Grade Mode: Standard Letter
about Advanced Theory in Qualitative Research: Narrative Research

ED 7389E. Mexican Perspectives on Mexico - U.S. Immigration.
The course gives U.S. educators an understanding of Mexican to U.S. immigration from Mexican women’s perspectives. Students will read background information and visit Mexico where through lectures, field interviews, and field visits, they will view immigration from the “other side”. They will analyze and write up data when they return.

Grade Mode: Standard Letter
about Mexican Perspectives on Mexico - U.S. Immigration

ED 7389F. Adult Learners in Higher Education.
This course examines adult academic learning, instruction, and the particular challenges adults face balancing multiple life demands and often studying in a system established to meet the needs of younger students. Course may not be repeated. Maximum 3 credit hours.

Grade Mode: Standard Letter
about Adult Learners in Higher Education
ED 7389L. Writing for Publication.
Students will hone their writing skills. Students will work individually and in groups, getting feedback from other students and the instructor. Topics include APA style, getting started, first drafts, polishing and tightening, re-writing, submitting a manuscript, responding to feedback/reviews and more. Restricted to masters’ and doctoral students.
Grade Mode: Standard Letter
Course Attribute(s): Topics
about Writing for Publication
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7390. Survey Research and Scale Development.
This course provides the technical information necessary to design and conduct a quantitative or mixed-method survey research project. The course is divided into three sections: 1) the details of scale development; 2) details of sample selection and survey delivery systems, and 3) data analysis, writing, and presenting results effectively.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Survey Research and Scale Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7399A. Dissertation.
Original research and writing in Adult, Professional, and Community Education, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted

ED 7399B. Dissertation.
Original research and writing in School Improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each semester (including summer) for at least three dissertation hours. Graded on a credit (CR), progress (PR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted

ED 7599A. Dissertation in Education - Adult, Professional and Community Education.
Original research and writing in Education-Adult, Professional and Community Education, to be accomplished under direct supervision on the dissertation chair. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), progress (PR), or no-credit (F) basis. Prerequisites: Core, Concentration, and Methodology courses or instructor’s permission.
Grade Mode: Credit/No Credit
about Dissertation
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7599B. Dissertation in Education - School Improvement.
Original research and writing in Education-School improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7699A. Dissertation.
The student conducts original research and writing in Adult, Professional, and Community Education, guided by the direct supervision of the dissertation chair. While conducting dissertation research and writing, students must be continuously enrolled. The course is graded on a credit (CR), progress (PR) or no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7699B. Dissertation.
Students produce a dissertation under direct supervision of dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. This course is graded on a credit (CR), progress (PR), or no-credit (F) basis. Prerequisites: Core, Concentration, and Methodology courses or instructor’s permission.
Grade Mode: Credit/No Credit
about Dissertation
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7999A. Dissertation in Education - Adult, Professional and Community Education.
Original research and writing in Education-Adult, Professional and Community Education, to be accomplished under direct supervision on the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7999B. Dissertation in Education - School Improvement.
Original research and writing in Education-School improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7999C. Dissertation in Education - School Improvement.
Original research and writing in Education-School improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Credit/No Credit
about Dissertation
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Educational Leadership (EDCL)

EDCL 7100. Educational Leaders' Continuing Professional Development.
This course provides state-of-the-art continuing professional development for in-service, non-degree seeking educational leaders. New topics will be addressed with each offering. The course may be repeated as necessary.
Grade Mode: Credit/No Credit

EDCL 7344. Campus Leadership.
Develops the skills needed as a practitioner in elementary and secondary schools, focusing on the role and functions of the principal as a leader. Activities lead participants to practice skill development in evaluation processes, student activity programs, staffing patterns, site-based decision-making, community relations, accounting procedures, as well as other skills. Prerequisites: All Level I core courses, and EDCL 6342, EDCL 6343, EDCL 6348, or permission of the instructor.
Grade Mode: Standard Letter

EDCL 7348. Public School Law.
Examines constitutional provision, statutory laws, court decisions, and regulations governing public schools, with reference to state and federal relationships. Participants develop skills in researching and interpreting law, policy development and impact on public schools and communities. (Note: Students who took EDCL 6348 may not repeat this course for doctoral credit.)
Grade Mode: Standard Letter

EDCL 7351. Instructional Models.
Characteristics of effective Pre-K through 12 teaching are identifies and correlated with learning theories and their corresponding instructional models. Matching instruction to the needs of learners and integrative approaches are emphasized. Students who have completed EDCL 6351 may not take this course for doctoral credit.
Grade Mode: Standard Letter

EDCL 7387. Field Practicum, Part I.
Students seeking Principal Certification must complete this field-based 2 semester internship focusing on actual experiences with each of the state standards. The practicum provides opportunities to plan, produce, participate in, and reflect upon campus leadership. (Note: Students who took EDCL 6387 may not repeat these courses for doctoral credit.)
Grade Mode: Credit/No Credit

Healthcare Human Resources (HHR)

HHR 7335. Internet Based Multimedia Distance Education in Health & Public Service.
Issues and policies important in the analysis and improvement of Internet based distance education. U.S. law and international policies related to accessibility of Internet resources for special populations will be examined. Students will have hands on activities in the preparation of multimedia modules for distance education.
Grade Mode: Standard Letter

HHR 7348. Public School Law.
Examines constitutional provision, statutory laws, court decisions, and regulations governing public schools, with reference to state and federal relationships. Participants develop skills in researching and interpreting law, policy development and impact on public schools and communities. (Note: Students who took EDCL 6348 may not repeat this course for doctoral credit.)
Grade Mode: Standard Letter

Health Research (HR)

HR 7375. Aquatic Health Ecology and Human Disease.
Introduction to the health consequences of human-environment interaction and aquatic pollution. Topics to include bacterial and toxic aquatic agents and their relation to human disease. Control of communicable and noninfectious diseases from water resources, and epidemiological principals important to research in waterborne human disease, will be examined.
Grade Mode: Standard Letter

Recreation (REC)

REC 7378. Independent Study.
Individual problems or topics will be designed and completed to emphasize selected areas of study in the Health, Physical Education, Recreation, and Dance Department. May be repeated for additional credit at the discretion of the program coordinator.
Grade Mode: Credit/No Credit
SAHE 7000. Foundations of Higher Education Administration. This course is intended to provide students with an understanding of the historical, philosophical, sociological, organizational, and political foundations upon which the field of higher education administration is based.

SAHE 7001. Higher Education and Student Affairs in Qatar. This course focuses on higher education and student affairs in the country of Qatar. Qatari colleges and American higher education branch campuses in Qatar will be examined. Topics include Qatari and Arab history and culture, student affairs services in Qatar, student development and student involvement, and intercultural competence.

SAHE 7339. Foundations of Higher Education Administration. This course is intended to provide students with an understanding of the historical, philosophical, sociological, organizational, and political foundations upon which the field of higher education administration is based.

SAHE 7340. College Student Development: Theory and Practice. This course seeks to provide in-depth understanding of developmental needs and issues of college and university students, identifies ways to enhance learning by considering developmental and environmental effects, and offers practice in creating learning opportunities that consider developmental needs.

SAHE 7377. Independent Study. This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

SAHE 7378. Independent Study. This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

SAHE 7379A. Gender in the Collegiate Environment. This course examines the role of gender in higher education. Designed using feminist theory and a social justice framework, the course includes topics of gender identity development, sexual orientation, gender privilege and oppression, gender disparities in achievement and persistence, femininity, and masculinity.

SAHE 7379B. Higher Education and Student Affairs in Qatar. This course focuses on higher education and student affairs in the country of Qatar. Qatari colleges and American higher education branch campuses in Qatar will be examined. Topics include Qatari and Arab history and culture, student affairs services in Qatar, student development and student involvement, and intercultural competence.

SAHE 7389A. Current Issues in the Administration of Recreation and Leisure Services. Topics vary and include the study of leadership issues related to Recreation and Leisure Services. Philosophical and historical foundations of recreation, leisure, and play will play a significant role. Additional emphasis will be placed on leadership base upon which to interpret the recreation and leisure services profession.

SAHE 7389B. Current Issues in Recreation and Leisure Services. The purpose of this course is to develop an increased understanding of current issues in the fields of health, physical education, and recreation in order to be more effective leaders of educational organizations.

SAHE 7335. Leadership in Student Affairs. This course provides an examination of leadership in student affairs and higher education through the study of leadership and organizational theory. Additionally, the course focuses on student leadership development. Students will be prepared to utilize their knowledge of leadership theories and models to practice leadership and develop leadership in others.

Student Affairs in Higher Education (SAHE)

SAHE 7178. Independent Study. This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

SAHE 7278. Independent Study. This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

SAHE 7339. Foundations of Higher Education Administration. This course is intended to provide students with an understanding of the historical, philosophical, sociological, organizational, and political foundations upon which the field of higher education administration is based.

SAHE 7340. College Student Development: Theory and Practice. This course seeks to provide in-depth understanding of developmental needs and issues of college and university students, identifies ways to enhance learning by considering developmental and environmental effects, and offers practice in creating learning opportunities that consider developmental needs.

SAHE 7379A. Gender in the Collegiate Environment. This course examines the role of gender in higher education. Designed using feminist theory and a social justice framework, the course includes topics of gender identity development, sexual orientation, gender privilege and oppression, gender disparities in achievement and persistence, femininity, and masculinity.

SAHE 7379B. Higher Education and Student Affairs in Qatar. This course focuses on higher education and student affairs in the country of Qatar. Qatari colleges and American higher education branch campuses in Qatar will be examined. Topics include Qatari and Arab history and culture, student affairs services in Qatar, student development and student involvement, and intercultural competence.

SAHE 7389A. Current Issues in the Administration of Recreation and Leisure Services. Topics vary and include the study of leadership issues related to Recreation and Leisure Services. Philosophical and historical foundations of recreation, leisure, and play will play a significant role. Additional emphasis will be placed on leadership base upon which to interpret the recreation and leisure services profession.
SAHE 7379C. Professional Development in Student Affairs. Professional development plays an important role in student affairs. This course will allow students to learn more about professional development, professional associations, and conferences. Additionally, students will attend a professional conference and explore the theme of the conference through readings and meetings with professional association leaders and speakers.

about Professional Development in Student Affairs

Doctor of Philosophy (Ph.D.), Major in Education – School Improvement

Ph.D. Program
The doctoral program in education with a major in education-school improvement is designed for individuals in a variety of educational roles who wish to develop and refine their abilities to provide leadership for educational excellence. The program prepares education professionals to individually and collaboratively engage in reflective and ethical practice as they foster the development of individual learners as well as existing and emerging learning communities, including schools, post-secondary institutions, workplaces, and community-based organizations.

The program admits students in the fall term only, and the students enroll each year as a cohort group. All students in a given cohort (including full-time and part-time students) will enroll together in each core course during the first year. All students in a given cohort who choose the same major also ordinarily enroll together in each course in the major.

Educational Goal
The College of Education’s educational goal is to provide graduates with the experience to:

1. act as change agents;
2. apply the fundamental principles of facilitating student-centered, life-long learning;
3. accommodate the diverse needs of those they teach;
4. use technology as a tool for communication, research, teaching, and learning;
5. make ethically sound decisions and articulate the values and principles that guide decision making;
6. engage in professional development and support the professional development of others;
7. conduct and use research to strengthen the ties between educational theory and practice.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Fin_Grad_Ed.html.

Financial Assistance
Doctoral assistantships are available to qualified candidates. Please see the Ph.D. program website (http://www.txstate.edu/edphd/) or contact the doctoral program director for more information about assistantships and the degree program. Please see The Graduate College website for information on scholarship opportunities (http://www.gradcollege.txstate.edu/Prospect_Students/Fin_Grad_Ed.html).

Course Work

Academic Guidance
During the first year, the student will be assigned an academic program mentor. The academic program mentor will work with the student to develop a program of study, and provide general academic and career-related advisement to the student. The doctoral program director, acting in the role of graduate advisor for the program, will submit all recommendations for the program of study and results of programs examinations to the dean of The Graduate College for approval. The dean of The Graduate College has final approval on all recommendations from the doctoral program director.

A dissertation advisor must be selected by the time a student takes the comprehensive examination; a complete dissertation committee must be formed prior to presenting a dissertation proposal for defense.

Semester Hour Requirements
The student must complete 51 semester hours of graduate work to meet the minimum requirements for advancement to candidacy and then a minimum of 12 hours of dissertation courses to complete the degree for a minimum of 63 hours. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must have satisfied the residency requirement of 18 graduate credit hours.

Degree Audit
In the first term that a student enrolls for doctoral study, the student should confer with their graduate advisor and prepare a degree audit for their program. Doctoral degree audits are tailored with the individual student in mind. It is therefore possible for the individual degree audit to exceed the number of degree hours identified in the catalog.

¹ Repeatable for credit with the doctoral program director’s permission.

**Advancement to Candidacy**

**Application for Advancement to Candidacy**
Doctoral students will need to be advanced to candidacy within five years of initiating Ph.D. course work. Students need to indicate their intent to advance to candidacy during the term they complete the 51 hours of required course work. The "Application for Advancement to Candidacy form" may be obtained from The Graduate College website. The doctoral program director will then submit the completed forms to the dean of The Graduate College for review.

**Advancement to Candidacy Time Limit**
No credit will be applied toward the doctoral degree for course work completed more than five years before the date on which the student is advanced to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions.

Requests for a time extension must be submitted to the doctoral program director, who in turn, submits a recommendation to the dean of The Graduate College.

**Grade-Point Requirements for Advancement to Candidacy**
To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below a “B” on any graduate course may apply toward a Ph.D. at Texas State.

Incomplete grades must be cleared through the office of The Graduate College before a student can be approved for advancement to candidacy.

**Comprehensive Examination**
The doctoral students in the Ph.D. in education program are required to pass a comprehensive examination in which the student must integrate knowledge from core and concentration courses to solve a problem that the student is likely to encounter in a professional work setting. Arrangements for comprehensive examinations are made through the director of the Ph.D. program and the dissertation advisor. The results of the examination must be filed in the office of The Graduate College before the dean of the Graduate College gives final approval of advancement to candidacy. The Department of CLAS is responsible for submitting the reports to The Graduate College.

**Dissertation Proposal**
The dissertation proposal must be successfully defended and approved by the dean of The Graduate College before a student can be advanced to candidacy. Students must submit the dissertation proposal and one copy of the official “Dissertation Proposal form” to the dissertation advisor. Guidelines that discuss the purpose of the proposal, its preparation, its
format, and procedures for its presentation and defense are available from the program director. After defending the dissertation proposal and obtaining committee members’ signatures, the student must submit the dissertation proposal and dissertation proposal form to the program director for signature. The form also requires evidence of the IRB approval for any research involving human subjects. The program director will then forward the dissertation proposal and form through the department chair, to the dean of The Graduate College for final approval. Final approval must be received before proceeding with research on the dissertation. The Dissertation Proposal form may be obtained from The Graduate College website; proposal guidelines are also available at the website or from the doctoral program director.

Defense of the Dissertation Proposal

Students must defend the dissertation proposal in a meeting that begins with a public presentation and continues with an oral examination by the dissertation committee. The examination will address the proposed dissertation topic (problem definition and scope), research method, and relevant literature. The dissertation committee must sign the "Defense of the Dissertation Proposal form" to indicate approval and then submit the form for the signature of the doctoral program director and the department chair. The approved Defense of the Dissertation Proposal form must be forwarded to the dean of The Graduate College. The dissertation proposal must be approved and the Defense of the Dissertation Proposal form must be on file in the office of The Graduate College before any student can be advanced to candidacy.

Recommendation for Advancement to Candidacy

The dissertation committee recommends the applicant for advancement to candidacy to the doctoral program director, the department chair, and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been met. To be eligible for admission to candidacy the student must have successfully completed the comprehensive exam, completed all course work, and successfully defended the dissertation proposal.

Dissertation Research and Writing

All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of Publication Manual of the American Psychological Association.

Dissertation Enrollment Requirements

Enrollment

Any time a student is receiving official guidance on the dissertation, the student must be enrolled in a dissertation course. A student must maintain continuous enrollment in dissertation hours every term from the time they advance to candidacy until the dissertation is defended and approved. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred.

Students will normally register for at least three credit hours of dissertation. With the approval of the dissertation chair and the program director, they may be allowed to register for one hour of credit (ED 7199A or ED 7199B) when working less intensely on the dissertation (more detailed explanation available from the program director). Approval is not needed to register for ED 7199A or ED 7199B in the summer. This one-credit course is ordinarily repeatable for only three times during fall or spring terms.

Education-school improvement majors will enroll in a combination of:

- ED 7199B Dissertation in Education-School Improvement 1
- ED 7299B Dissertation in Education-School Improvement 2
- ED 7399A Dissertation 3
- ED 7399B Dissertation 3
- ED 7599B Dissertation in Education-School Improvement 5
- ED 7699A Dissertation 6
- ED 7699B Dissertation 6
- ED 7999B Dissertation in Education-School Improvement 9

Hours

Students must complete a minimum of 12 semester hours of dissertation research and writing credit.

Fee Reduction

A doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Time Limit

Students are expected to complete the dissertation within five years of advancement to candidacy. The dissertation committee will review the student’s progress annually.

Dissertation Advisor and Committee

A dissertation committee must be formed to oversee the research and writing of the dissertation. The dissertation committee will include a dissertation advisor and a minimum of three additional committee members.

The members must be chosen from qualified Ph.D. faculty. The dissertation advisor will chair the dissertation committee and must be from the College of Education. The committee members must be selected in consultation with the dissertation advisor. At least two members of the dissertation committee must be from the Department of Counseling, Leadership, Adult Education, and School Psychology. No more than one of the four required members of the committee should be someone external to the University (either a practitioner or a faculty member from another university approved as adjunct doctoral faculty). The doctoral program director, the department chair, and the dean of The Graduate College must approve the dissertation advisor and committee members.

Committee Changes

Any changes to the dissertation committee must be submitted for approval to the dissertation advisor, the doctoral program director, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty days before the final dissertation defense. The "Dissertation Advisor/Committee Member Change Request form" may be obtained from The Graduate College website.
Defense of the Dissertation

Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. Students must defend the dissertation in a meeting that begins with a public presentation and continues with an oral exam by the dissertation committee. Before scheduling the final oral exam, the student must have received approval of the dissertation chair. A completed “Dissertation Defense Report form” must be submitted according to the schedule posted by the dean of The Graduate College and no later than ten days before the date of graduation.

Approval and Submission of the Dissertation and Abstract

The approval of the dissertation and abstract requires positive votes from the dissertation advisor and from a majority of the dissertation committee members. Refer to the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation for specific guidelines regarding submission of the dissertation. The document must be submitted in electronic format.

Courses Offered

**Adult Education (ADED)**

ADED 7325. Teaching Adults: Principles and Practices.
Seminar that addresses methods and techniques for effective instruction of adults across a variety of settings and content. Emphasis on concepts, theories, and principles relevant to the selection, use, and evaluation of instructional strategies. Participants will have an opportunity to practice strategies that expand their teaching repertoire.

Grade Mode: Standard Letter

AGED 7337. Adult Literacy.
This course is designed to provide students with a broad foundation about the needs of undereducated students with a broad foundation about the needs of undereducated adults, including adult English language learners. Students will analyze and evaluate adult literacy legislation, instruction, research, and delivery systems.

Grade Mode: Standard Letter

AGED 7342. Adult ESL Methods and Materials.
This course reviews traditional and contemporary adult language teaching methodologies. It focuses on the design of lessons that integrate listening, speaking, reading, writing, culture and all language skills. This class provides strategies for choosing, adopting, and adapting textbooks that integrate teaching material appropriate to different adult language learning settings.

Grade Mode: Standard Letter

**Communications (COMM)**

Independent study of a specific communication research area. May be repeated with different emphasis for additional credit. Prerequisite: Doctoral level standing.

Grade Mode: Standard Letter

COMM 7325A. Instructional Communication.
A review of instructional communication theory and research with an emphasis on the function of communication in instructional settings. Prerequisite: Doctoral level standing.

Grade Mode: Standard Letter
COMM 7325B. Organizational Communication.
A review of organizational communication theory and research with an emphasis on organizational development from a communication perspective. Prerequisite: Doctoral level standing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Organizational Communication

COMM 7325C. Communication Assessment.
An in-depth study of communication assessment techniques employed in the field of oral communication. Statistical, experimental, and observational methods of assessing oral communication in interpersonal, group, and classroom settings are included.
about Communication Assessment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted|Time Conflicts Permitted
Grade Mode: Standard Letter
about Communication Assessment

Education (ED)
ED 7111. Collaborative Inquiry Project, Phase I: Field-Based Assessment.
This course involves the selection of a problem for study in the field. Students will gather and analyze assessment data and design an action plan for field-based research.
about Collaborative Inquiry Project, Phase I: Field-Based Assessment
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted|Time Conflicts Permitted
Grade Mode: Standard Letter
about Collaborative Inquiry Project, Phase I: Field-Based Assessment

ED 7112. Collaborative Inquiry Project, Phase II: Field-Based Implementation.
This course requires students to implement an action plan to solve a problem in the field that has been selected in ED 7111. Prerequisite: ED 7111 or instructor’s permission.
about Collaborative Inquiry Project, Phase II: Field-Based Implementation
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted|Time Conflicts Permitted
Grade Mode: Standard Letter
about Collaborative Inquiry Project, Phase II: Field-Based Implementation

This course involves the collection and analysis of data as part of a field-based action research project. Students will gather, analyze, and interpret a variety of data and prepare a written report on a field-based research project. Prerequisites: ED 7111, ED 7112 or instructor’s permission.
about Collaborative Inquiry Project, Phase III: Field-Based Evaluation
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted|Time Conflicts Permitted
Grade Mode: Standard Letter
about Collaborative Inquiry Project, Phase III: Field-Based Evaluation

ED 7199A. Dissertation in Education-Adult, Professional, and Community Education.
Original research and writing in Education-Adult, Professional and Community Education, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Education-Adult, Professional, and Community Education
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Education-Adult, Professional, and Community Education

ED 7199B. Dissertation in Education-School Improvement.
Original research and writing in Education-School Improvement, to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled. Graded on a credit (CR), no-credit (F) basis.
about Dissertation in Education-School Improvement
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

about Dissertation in Education - School Improvement

ED 7310. Instructional Roles in Counseling, Leadership, Adult Education & School Psychology.
This seminar is intended to prepare graduate teaching and instructional assistants in the CLAS Department to function effectively in various instructional and instructional support roles. Required for first-year teaching assistants and GIAs. This course does not earn graduate degree credit. Repeatable with different emphasis.
about Instructional Roles in Counseling, Leadership, Adult Education & School Psychology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Instructional Roles in Counseling, Leadership, Adult Education & School Psychology
ED 7311. Educational Philosophy in a Social Context.
This course examines the philosophical foundations of education from the time of Plato through current writings. It frames these foundations through the lens of educational challenges of today. Readings include classical and current writings about Educational Philosophy in a Social Context
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educational Philosophy in a Social Context

ED 7312. Leadership and Organizational Change.
This course will familiarize students with different perspectives on organizations, different paradigms by which they might be viewed, and a survey of research done on organizations, organizational leadership and change about Leadership and Organizational Change
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Leadership and Organizational Change

ED 7313. Advanced Studies in Adult Learning and Development.
This advanced seminar will examine research and theoretical literature on a variety of topics including: characteristics of adult learners; models of adult cognitive and psychosocial development; adult cognition, memory, and intelligence; and principles for facilitating adult learning. Restricted to Ph.D. in Education degree, Major in School Improvement about Advanced Studies in Adult Learning and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in Adult Learning and Development

ED 7314. Community Development for Educators.
Examines models and methods of community development as relevant to the practice and scholarship of formal and non-formal education. about Community Development for Educators
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Community Development for Educators

This course examines the philosophies informing different research epistemologies, and examples of how these can be actualized methodologically. Philosophies to be analyzed include feminism, and race-based theory. This course will help students see the multiple possibilities for conducting research about Models of Inquiry: Understanding Epistemologies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Inquiry: Understanding Epistemologies

ED 7316. Advanced Studies in Adult Development.
This course examines current theories of adult development, fundamental developmental changes in adulthood, and the implications for practice in adult education. Restricted to students admitted to the Education Ph.D. Program - APCE major or with permission of instructor about Advanced Studies in Adult Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in Adult Development

ED 7318. Advanced Studies in Adult Learning.
This advanced seminar will examine research and theoretical literature on a variety of topics related to adult learning such as: characteristics and diversity of adult learners; key theories of adult learning; alternative perspectives on adult learning; intelligence, aging and wisdom; and learning in the digital age. Restricted to students admitted to the Education Ph.D. Program – APCE major or with permission of instructor about Advanced Studies in Adult Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in Adult Learning

ED 7320. Literature Review for Research Writing.
In this seminar course, students conduct a careful examination of a body of literature related to a research topic in adult/professional/community/lifelong education. The literature review tests research questions in relation to what is published about a topic, discusses various positions, crafts coherent arguments and addresses knowledge gaps. Prerequisites: ED 7352 or ED 7351. Restriction: Doctoral standing about Literature Review for Research Writing
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literature Review for Research Writing

ED 7321. Historical and Philosophical Foundations and Contemporary Issues in Adult Education.
Examines historical and philosophical foundations for the study and practice of adult professional, and community education in formal and non-formal settings; and contemporary issues in adult education in a "learning society." Prerequisites: Core courses or instructor's permission about Historical and Philosophical Foundations and Contemporary Issues in Adult Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Historical and Philosophical Foundations and Contemporary Issues in Adult Education

Examines the methods, practices, and issues of facilitating learning related to occupational, professional, and volunteer roles. Prerequisites: Core courses or instructor's permission about Human Resource and Professional Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Resource and Professional Development

ED 7323. Community/Organizational Leadership and Management.
Examines issues and strategies related to the operation and delivery of educational programs in post-secondary, adult, and community settings. Prerequisites: Core courses or instructor's permission about Community/Organizational Leadership and Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Community/Organizational Leadership and Management
ED 7324. Problems and Strategies in Program Planning Seminar.
Addresses principles and procedures, issues and trends, utilization of assessment, goal setting, and other effective strategies for developing learning opportunities and programs responsive to human, professional, and community needs. Prerequisites: Core courses or instructor's permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ED 7326. Theoretical Foundations of Educational Policy, Politics and Practice.
This course examines the historical and theoretical underpinnings informing educational policy, politics and social justice. It addresses both the micro and macro levels of the context, values, and cultural norms guiding policy and practice in a democratic society. Prerequisites: ED 7311, ED 7312, and ED 7313.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ED 7327. Education Policy Development.
This course equips students with the skills needed to analyze the origins and consequences of existing policy and to play active roles in policy development for educational equity and social justice. Prerequisite: ED 7326.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ED 7328. Research and Analysis in Education Policy.
This course engages students in a field-based educational policy research project using quantitative and qualitative techniques. Students will develop their skills to identify policy issues, gather and analyze data, and draw conclusions, and disseminate findings. Prerequisites: ED 7326, ED 7327, ED 7351, and ED 7352.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ED 7329. Field-Based Experience in Educational Policy.
This course provides field-based practice in policy analysis and development from a democratic and social justice perspective. With guidance from a university faculty supervisor and site mentor, the student will develop and implement a policy project related to democracy and social justice. Prerequisite: ED 7328.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ED 7331. Foundations of School Improvement.
Examines school improvement efforts from philosophical, political, psychological, cultural, ethical, and technological foundations. Prerequisites: Core courses or instructor's permission.

Grade Mode: Standard Letter

ED 7332. Facilitating School Improvement.
Examines school culture, schools as learning communities, the change process, and research-based school improvement models, with experiential applications. Prerequisites: Core courses or instructor’s permission.

Grade Mode: Standard Letter

ED 7333. Curriculum and Instructional Leadership.
Examines the relationship between curriculum, instructional improvement, and teacher development, with experiential applications. Prerequisites: Core courses or instructor’s permission.

Grade Mode: Standard Letter

ED 7334. Models of Educational Assessment.
Includes assessment of student learning at the individual, classroom, school, and system level; teacher assessment; and program assessment. Prerequisites: Core courses or instructor’s permission.

Grade Mode: Standard Letter

ED 7335. Human Resources and Instructional Management.
This course focuses on the twin areas of human resource administration and instructional improvement. Topics addressed include legal requirements for personnel management, staff supervision, appraisal, and development, curriculum planning and alignment and student assessment. Students taking the course will complete an original research project under the instructor's direction.

Grade Mode: Standard Letter

In this course students approaching dissertation stage meet in a seminar designed to help them clarify their research problem and develop a preliminary proposal for the dissertation. Core and concentration courses must be completed with minimum grades of "B" in each course prior to taking ED 7341. Prerequisites: ED 7351, ED 7352, and ED 7353 or ED 7354 with minimum grades of "B". Departmental approval required.

Grade Mode: Standard Letter
ED 7347. The Superintendency.
This course addressed issues critical to superintendents in Texas. These include leadership, leadership assessment, school board relations, and other governance issues, management strategies, the role of public education in a democratic society, and professional ethics. Students taking the course will complete an original research project under the instructor's direction.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Superintendency

ED 7349. School Finance and Business Management.
This course focuses on the financing of public schools. Students will examine the school budgeting process, sources of school revenues, principals of taxation, methods of school fund accounting, and techniques of business management. Students taking the course will complete an original research project under the instructor's direction.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about School Finance and Business Management

ED 7350. Methods of Research in Education.
This course provides an introduction to the design and analysis of quantitative and qualitative research in education. Topics included are quantitative research design, measurement, and statistical analysis. From a qualitative perspective, the course provides an introduction to the various qualitative modes of inquiry relevant to education.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Methods of Research in Education

ED 7351. Beginning Quantitative Research Design and Analysis.
Includes descriptive statistics; sampling techniques; statistical inference including the null hypothesis, significance tests, and confidence intervals; and causal-comparative analyses, including t-test and ANOVA. Prerequisites: Core and Concentration courses or instructor's permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Beginning Quantitative Research Design and Analysis

ED 7352. Beginning Qualitative Design and Analysis.
Introduces the qualitative paradigm. Includes distinctive features, alternative qualitative traditions, purposeful sampling, common data collection methods, inductive analysis, the role of the researcher, and evaluating qualitative research. Prerequisites: Core and Concentration courses or instructor's permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Beginning Qualitative Design and Analysis

This course focuses on issues in the design and implementation of quantitative research. Topics include ANOVA, ANCOVA, and MANOVA, correlation analysis, regression analysis, nonparametric tests, and relationships between experimental designs and statistical analysis techniques. Prerequisite: ED 7351 with a minimum grade of "B", or instructor's permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Quantitative Research Design and Analysis

ED 7354. Intermediate Qualitative Design and Analysis.
Focuses on issues in design and implementation of qualitative research. Topics include influence of alternative traditions, literature in qualitative research, access to the field and ethical issues, researcher-participant relationships, purposeful sampling strategies, inductive analysis procedures, developing theory, and reporting research. Prerequisite: ED 7352 with a minimum grade of "B", or instructor's permission.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Intermediate Qualitative Design and Analysis

ED 7355. Non-Parametric Research Design and Analysis.
This course is designed to address problems in education in situations where the sample size collected is small, categorical in nature, or non-parametric research design and statistical methods are covered in detail.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Non-Parametric Research Design and Analysis

ED 7356. Advanced Study in Action Research.
This course examines underlying theory, practice, skills, and issues in action research. Conducting research in the area of action research is also addressed. This course is an appropriate elective for majors in School Improvement or Adult, Professional and Community Education.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Study in Action Research

ED 7357. Theoretical and Conceptual Frameworks in Qualitative Research.
Advanced study in the historical, philosophical, conceptual, and theoretical underpinnings of qualitative research.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theoretical and Conceptual Frameworks in Qualitative Research
ED 7359. Seminar in Quantitative Research.
This course is a small group seminar that focuses on analytic strategies specific to the doctoral student’s dissertation topic. Examples include structural equation modeling, hierarchical linear modeling, log linear modeling, non-parametric analyses, factor analysis, factorial analysis of variance, and other multivariate statistical methods. Prerequisites: ED 7351 and ED 7353 with minimum grades of “B” in each course.
Grade Mode: Standard Letter
about Seminar in Quantitative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7361. Understanding People: Professional Development.
Fundamental issues related to development of personnel. Knowledge of staff appraisal, adult learning and development, and staff development. Focus on professional development in K-12 schools.
Grade Mode: Standard Letter
about Understanding People: Professional Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7362. Supervision of Instruction.
Concepts of curriculum and instructional models for schools will be developed. Factors such as curriculum leadership and instructional improvement are considered as part of the internal environment. An emphasis will be placed on supervision knowledge, skills, and tasks.
Grade Mode: Standard Letter
about Supervision of Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7363. Curriculum Design.
Theory and practice in planning for curriculum needs assessment, development, implementation, and evaluation. Focus on K-12 school curricula. Students who have completed EDA 6342 may not take this course for doctoral credit.
Grade Mode: Standard Letter
about Curriculum Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7364. Team Development in Education.
This course addresses the development and use of educational teams to improve educational organizations, teaching, and learning. Because of its focus on education, it is recommended only for doctoral students preparing for careers in educational settings.
Grade Mode: Standard Letter
about Team Development in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7365. Cross-cultural Leadership in Education.
Students will work as a team to undertake a research study of leadership across cultures in the U.S. and Mexico. Students must be accepted in the Education Ph.D. program. Fluency in Spanish is preferred.
Grade Mode: Standard Letter
about Cross-cultural Leadership in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content

ED 7371. Anthropology and Education.
This course introduces the student to the basic concepts in anthropology and education and sketches the application of these concepts. It explores the research in anthropology and education with relevance to both K-12 schools and other, more general educational settings. The course is an appropriate elective for Education Ph.D. majors.
Grade Mode: Standard Letter
about Anthropology and Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7372. The Emotions of Leading, Teaching, and Learning.
This course offers an introduction to theories of emotion, leading, teaching, and learning as interconnected fields. Students in this course will achieve a theoretical grounding that will deepen their understandings of the relationship of emotion to all of these important human endeavors. This course will be of interest of practitioners, researchers, and/or theorists.
Grade Mode: Standard Letter
about The Emotions of Leading, Teaching, and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7373. Theological Issues in Education.
This course focuses on theological issues in education. Informed by the disciplinary structures of curriculum theory, this seminar course convokes a community of scholars and practitioners in thoughtful dialogue and study that takes up questions of spiritual, moral, and theological issues within education in a pluralistic society.
Grade Mode: Standard Letter
about Theological Issues in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

ED 7374. The Emotions of Leading, Teaching, and Learning.
This course offers an introduction to theories of emotion, leading, teaching, and learning as interconnected fields. Students in this course will achieve a theoretical grounding that will deepen their understandings of the relationship of emotion to all of these important human endeavors. This course will be of interest of practitioners, researchers, and/or theorists.
Grade Mode: Standard Letter
about Theological Issues in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

ED 7375. Theological Issues in Education.
This course focuses on theological issues in education. Informed by the disciplinary structures of curriculum theory, this seminar course convokes a community of scholars and practitioners in thoughtful dialogue and study that takes up questions of spiritual, moral, and theological issues within education in a pluralistic society.
Grade Mode: Standard Letter
about Theological Issues in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

ED 7376. Theological Issues in Education.
This course focuses on theological issues in education. Informed by the disciplinary structures of curriculum theory, this seminar course convokes a community of scholars and practitioners in thoughtful dialogue and study that takes up questions of spiritual, moral, and theological issues within education in a pluralistic society.
Grade Mode: Standard Letter
about Theological Issues in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

ED 7377. Theological Issues in Education.
This course focuses on theological issues in education. Informed by the disciplinary structures of curriculum theory, this seminar course convokes a community of scholars and practitioners in thoughtful dialogue and study that takes up questions of spiritual, moral, and theological issues within education in a pluralistic society.
Grade Mode: Standard Letter
about Theological Issues in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

ED 7378. Problems in Education.
Individual problems or topics will be designed and completed to emphasize selected areas of study. May be repeated for additional credit at the discretion of the program coordinator.
Grade Mode: Standard Letter
about Problems in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dual Enrollment Permitted

ED 7379. Independent Study.
Individual problems or topics will be designed and completed to emphasize selected areas of study in the Counseling, Leadership, Adult Education & School Psychology Department. May be repeated for additional credit at the discretion of the program coordinator.
Grade Mode: Standard Letter
about Independent Study
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ED 7380. Theological Issues in Education.
This course focuses on theological issues in education. Informed by the disciplinary structures of curriculum theory, this seminar course convokes a community of scholars and practitioners in thoughtful dialogue and study that takes up questions of spiritual, moral, and theological issues within education in a pluralistic society.
Grade Mode: Standard Letter
about Theological Issues in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

Grade Mode: Standard Letter
about Theological Issues in Education

ED 7389B. Seminar in International Educational Research: Chile.
This course develops theoretical knowledge, methodological skills, and scholarly capacity for international educational research. It focuses on research within the complex educational environment of Chile, involving seminar components held at the university and research fieldwork in Chile. International research is framed as a form of service learning. Restricted to students in the PhD in Education program.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Seminar in International Educational Research: Chile

ED 7389C. Advanced Theory in Qualitative Research.
This course features advanced study in qualitative research methods. The course studies such methods as ethnography, case study, phenomenology, narrative analysis, post-qualitative research, grounded theory, or more advanced qualitative research in general and their constitutive field techniques. Prerequisites: Introduction to Qualitative Research and Intermediate Qualitative Research.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Advanced Theory in Qualitative Research

ED 7389D. Advanced Theory in Qualitative Research: Narrative Research. The purpose of this course is to explore the possibilities of narrative research. The course will provide an overview of narrative inquiry, look at various theories and corresponding examples of research, and explore, analyze, and interpret data using narrative methods. Prerequisites: Introduction to Qualitative Research and Intermediate Qualitative Research.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Advanced Theory in Qualitative Research: Narrative Research

ED 7389E. Mexican Perspectives on Mexico - U.S. Immigration.
The course gives U.S. educators an understanding of Mexican to U.S. immigration from Mexican women's perspectives. Students will read background information and visit Mexico where through lectures, field interviews, and field visits, they will view immigration from the "other side". They will analyze and write up data when they return.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Mexican Perspectives on Mexico - U.S. Immigration

ED 7389G. Adult Learners in Higher Education.
This course examines adult academic learning, instruction, and the particular challenges adults face balancing multiple life demands and often studying in a system established to meet the needs of younger students. Course may not be repeated. Maximum 3 credit hours.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Adult Learners in Higher Education

ED 7389L. Writing for Publication.
Students will hone their writing skills. Students will work individually and in groups, getting feedback from other students and the instructor. Topics include APA style, getting started, first drafts, polishing and tightening, re-writing, submitting a manuscript, responding to feedback/reviews and more. Restricted to masters' and doctoral students.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics

Educational Leadership (EDCL)
EDCL 7100. Educational Leaders' Continuing Professional Development.
This course provides state-of-the-art continuing professional development for in-service, non-degree seeking educational leaders. New topics will be addressed with each offering. The course may be repeated as necessary.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Educational Leaders' Continuing Professional Development

EDCL 7344. Campus Leadership.
Develops the skills needed as a practitioner in elementary and secondary schools, focusing on the role and functions of the principal as a leader. Activities lead participants to practice skill development in evaluation processes, student activity programs, staffing patterns, site-based decision-making, community relations, accounting procedures, as well as other skills. Prerequisites: All Level I core courses, and EDCL 6342, EDCL 6343, EDCL 6348, or permission of the instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Campus Leadership

EDCL 7348. Public School Law.
Examines constitutional provisions, statutory laws, court decisions, and regulations governing public schools, with reference to state and federal relationships. Participants develop skills in researching and interpreting law, policy development and impact on public schools and communities. (Note: Students who took EDCL 6348 may not repeat this course for doctoral credit.)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Public School Law

EDCL 7351. Instructional Models.
Characteristics of effective Pre-K through 12 teaching are identified and correlated with learning theories and their corresponding instructional models. Matching instruction to the needs of learners and integrative approaches are emphasized. Students who have completed EDCL 6351 may not take this course for doctoral credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Instructional Models

EDCL 7387. Field Practicum, Part I.
Students seeking Principal Certification must complete this field-based 2 semester internship focusing on actual experiences with each of the state standards. The practicum provides opportunities to plan, produce, participate in, and reflect upon campus leadership. (Note: Students who took EDCL 6387 may not repeat these courses for doctoral credit.)
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
About Field Practicum, Part I
EDCL 7388. Field Practicum Part II.
Students seeking Principal Certification must complete this field-based 2-semester internship focusing on actual experiences with each of the state standards. The practicum provides opportunities to plan, produce, participate in, and reflect upon campus leadership. (Note: Students who took EDCL 6388 may not repeat these courses for doctoral credit.)

Grade Mode: Credit/No Credit

HEALTHCARE HUMAN RESOURCES (HHR)

HHR 7335. Internet Based Multimedia Distance Education in Health & Public Service.
Issues and policies important in the analysis and improvement of Internet based distance education. U.S. law and international policies related to accessibility of Internet resources for special populations will be examined. Students will have hands on activities in the preparation of multimedia modules for distance education.

Grade Mode: Standard Letter

Health Research (HR)

HR 7375. Aquatic Health Ecology and Human Disease.
Introduction to the health consequences of human-environment interaction and aquatic pollution. Topics to include bacterial and toxic aquatic agents and their relation to human disease. Control of communicable and noninfectious diseases from water resources, and epidemiological principals important to research in waterborne human disease, will be examined.

Grade Mode: Standard Letter

Recreation (REC)

REC 7378. Independent Study.
Individual problems or topics will be designed and completed to emphasize selected areas of study in the Health, Physical Education, Recreation, and Dance Department. May be repeated for additional credit at the discretion of the program coordinator.

Grade Mode: Standard Letter

SAHE 7178. Independent Study.
This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

Grade Mode: Credit/No Credit

SAHE 7278. Independent Study.
This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

Grade Mode: Credit/No Credit

SAHE 7335. Leadership in Student Affairs.
This course provides an examination of leadership in student affairs and higher education through the study of leadership and organizational theory. Additionally, the course focuses on student leadership development. Students will be prepared to utilize their knowledge of leadership theories and models to practice leadership and develop leadership in others.

Grade Mode: Standard Letter
SAHE 7339. Foundations of Higher Education Administration.
This course is intended to provide students with an understanding of the historical, philosophical, sociological, organizational, and political foundations upon which the field of higher education administration is based.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations of Higher Education Administration

SAHE 7340. College Student Development: Theory and Practice.
This course seeks to provide in-depth understanding of developmental needs and issues of college and university students, identifies ways to enhance learning by considering developmental and environmental effects, and offers practice in creating learning opportunities that consider developmental needs.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about College Student Development: Theory and Practice

SAHE 7378. Independent Study.
This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

Grade Mode: Credit/No Credit
about Independent Study

SAHE 7379A. Gender in the Collegiate Environment.
This course examines the role of gender in higher education. Designed using feminist theory and a social justice framework, the course includes topics of gender identity development, sexual orientation, gender privilege and oppression, gender disparities in achievement and persistence, femininity, and masculinity.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Gender in the Collegiate Environment

SAHE 7379B. Higher Education and Student Affairs in Qatar.
This course focuses on higher education and student affairs in the country of Qatar. Qatari colleges and American higher education branch campuses in Qatar will be examined. Topics include Qatari and Arab history and culture, student affairs services in Qatar, student development and student involvement, and intercultural competence.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Higher Education and Student Affairs in Qatar

SAHE 7379C. Professional Development in Student Affairs.
Professional development plays an important role in student affairs. This course will allow students to learn more about professional development, professional associations, and conferences. Additionally, students will attend a professional conference and explore the theme of the conference through readings and meetings with professional association leaders and speakers.

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Professional Development in Student Affairs

Master of Arts (M.A.), Major in Adult Education

Major Program
The master of arts (M.A.) in adult education (ADED) is an academically rigorous program designed for individuals serving in or aspiring to leadership positions in the diverse field of adult education. Adult education, in this context, includes:

- adult basic and secondary education,
- English as a second language,
- community learning and development,
- workplace learning,
- university continuing education,
- continuing professional development, and
- organizational development.

Individuals completing this degree will be well prepared to teach, develop, evaluate, and/or administer programs in adult education or to conduct applied research regarding those programs.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/aded.html.

Degree Requirements
The common core curriculum prepares the educator to meet the contemporary needs of the adult learner and includes courses in adult learning and development, teaching adults, program planning, program management, and applied research. Students also complete an internship. In addition to the core curriculum, there are three concentrations in the ADED program: adult ESL, continuing and community education, and work and learning. A total of 39 hours are required for the M.A. in adult education (42 hours in the case of students in the adult ESL track who elect the thesis option). The degree includes two options: thesis and non-thesis. For the non-thesis option, the student must complete two additional electives and pass a comprehensive exam.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the [Graduate College Guide to Preparing and Submitting a Thesis or Dissertation](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf). The thesis handbook may be accessed at [http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf](http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf).

### Thesis Proposal

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at [http://www.gradcollege.txstate.edu/gcforms.html](http://www.gradcollege.txstate.edu/gcforms.html). After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.
Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Counseling, Leadership, Adult Education, and School Psychology: ADED

Courses Offered
Adult Education (ADED)
ADED 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis. about Thesis
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

about Thesis

ADED 5321. Adult Learning and Development.
This seminar will cover a range of topics of interest of professionals working with adult learners in a variety of settings, including characteristics and motivations of adult learners; theories of adult learning and intelligence; modes of adult cognitive and psychosocial development.
about Adult Learning and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Adult Learning and Development

ADED 5330. Managing Adult Education.
This course introduces skills and concepts needed to manage adult education programs and organizations within various settings. These include (a) educational institutions such as university continuing education, community colleges, for-profit post-secondary education, and public schools; (b) government; (c) not-for-profit and other non-governmental including community organizations, and (d) business and industry.
about Managing Adult Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Adult Education
ADED 5334. Family Literacy.
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5335. Applied Research in Adult Education.
An examination of purpose, principles, and methods of current research in adult education. Quantitative, qualitative, and mixed methods research design will be investigated as used in applied research including action research, evaluation research, and needs assessment.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5337. Adult Literacy.
The course is designed to provide students with a broad foundation about the needs of undereducated adults, including adult English language learners. Students will analyze and evaluate adult literacy legislation, instruction, research, and delivery systems.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5338. Applied Linguistics for ESL Teachers of Adults.
This course is designed to provide language teachers a practical introduction to the elements of the English language as applied to the teaching of ESL in adult settings; specifically, the course covers English syntactic structure, morphology, and phonology.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5339. Adult Literacy ESL Assessment and Evaluation.
This course is an introduction to assessment of adult students with emphasis on literacy and ESL populations. It is an overview of assessment constructs and social and historical movements in student literacy assessment and evaluation traditional assessment and evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5340. Adult Second Language Acquisition.
This course covers topics related to contemporary adult second language acquisition practices. It also examines the complexities of adult second language acquisition and the ways in which limited English-proficient adults learn more efficiently. Class readings and projects address a variety of issues dealing with adult second language acquisition.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5344. Multicultural Perspectives in Postsecondary Education and Adult Education.
This seminar covers a broad range of topics related to diversity within postsecondary and adult education. Course readings and projects relate to a wide variety of settings including colleges and universities, adult literacy programs, the workplace, and community-based organizations. Students taking ADED 5344 may not take ADED 7344 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5345. Current Issues in Adult, Continuing and Professional Education.
A seminar style course focusing on current issues in continuing and professional education including research and professional practice. Specific emphasis will vary depending on changes in contemporary issues. Students taking ADED 5345 may not take ADED 7345 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5347. Adult Second Language Acquisition.
This course covers topics related to contemporary adult second language acquisition practices. It also examines the complexities of adult second language acquisition and the ways in which limited English-proficient adults learn more efficiently. Class readings and projects address a variety of issues dealing with adult second language acquisition.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5378. Problems in Adult Education.
This course is designed to examine topical problems faced by practitioners in adult education. The topic of the course may change. Course may be repeated for credit with different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ADED 5382. Foundations of Adult Education.
This course will provide an overview of the field of adult education in its various forms and settings. Topics include (1) historical origins of adult education as a field of study and practice, (2) philosophical perspectives, (3) organization and delivery of adult education, and (4) emerging developments and issues in the profession.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ADED 5384. Internship in Adult Education.
The 150-clock hour internship is required of all Adult Education majors. The experience involves instruction and/or administration in an adult education setting and includes orientation to the roles, responsibilities, and functions of professionals in adult education. Graded on a credit (CR), no credit (F) basis. Prerequisites: ADED 5321, ADED 5330, ED 7324, ADED 7325.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit

ADED 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Adult Education 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

ADED 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

ADED 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

ADED 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

Master of Arts (M.A.), Major in Educational Leadership

Major Program
The purpose of the educational leadership program is to prepare leaders for the schools of Texas. The program offers graduate work leading to the master’s degree in educational leadership and certification as a principal (for students who already hold a master’s degree) or superintendent (for students with a master’s degree and a principal certificate). If you have questions about admission to the educational leadership program you may contact the coordinator of the educational leadership program.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/edcl.html.

Degree Requirements
Students who wish to exercise leadership beyond the classroom but not become a principal may choose the master of arts (non-thesis) in educational leadership with a specialization in instructional leadership (36 hours). The degree will enable to student to enhance their instructional leadership skills and to assume a leadership position as a master teacher, mentor teacher, department chair, team leader, or curriculum specialist.

Total Hours  36

Master’s level courses in Counseling, Leadership, Adult Education, and School Psychology: EDCL
Courses Offered

Educational Leadership (EDCL)

EDCL 5100. Educational Leaders' Continuing Professional Development. This course provides state-of-the-art continuing professional development for in-service, non-degree seeking educational leaders. New topics will be addressed with each offering. The course may be repeated once if necessary.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Successful leadership in organizational settings requires an understanding of human behavior. This understanding begins with the knowledge of self and leads to the understanding of others. The focus of this course is on the individual student. The intent is to enhance the student's self-awareness of values, beliefs, and attitudes related to successful school leadership.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course includes an understanding of the basic structural components of educational organizations and the theoretical frameworks that describe organizational behavior. Students will focus on the process of action research, planning, decision-making, change in organizations, and leadership. Concurrent or Prerequisite: EDCL 5339.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 5345. Understanding People: Professional Development.
This course includes fundamental issues related to the development of personnel, entry-level knowledge of staff appraisal, adult learning and development, and staff development. Prerequisite: EDCL 5339.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 5347. Understanding Environments: Social, Political, Economic, Legal, and Technological.
Concepts of the internal and external environment of educational organizations are explored. Entry level concepts are presented in areas of school environments. Concurrent or Prerequisite: EDCL 5339.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 5348. Supervision of Instruction.
Concepts of curriculum and instructional leadership models for schools will be developed. Factors such as curriculum leadership and instructional improvement are considered part of the internal environment of schools. Concurrent or Prerequisite: EDCL 5339.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 5388. Problems in Administration.
Individual problems not related to thesis or research problems. Designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 6342. Curriculum Design.
Theory and practice in planning for curriculum needs assessment, development, implementation, and evaluation. Course may not be taken concurrently with EDCL 5348. Prerequisite: All Level I core courses or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 6343. Continuous School Improvement.
Applies the concept and principles of Total Quality Improvement to schools and classrooms and integrates Total Quality Improvement with other school improvement models. Prerequisite: All Level I core courses or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

EDCL 6344. Campus Leadership.
Develop student skills as a practitioner in elementary and secondary schools, focusing on the role and functions of the principal as a leader. Activities lead participants to practice skill development in evaluation processes, student activity programs, staffing patterns, site-based decision-making, community relations, accounting procedures, and other skills as a campus leader would assume. Prerequisites: All Level I core courses; and EDCL 6342, EDCL 6343, and EDCL 6348, or consent of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
EDCL 6345. Human Resources and Instructional Management.
This course applies principles of leadership to the twin areas of human resource administration and instructional improvement. Topics addressed include legal requirements for personnel management including staff supervision, staff appraisal, staff development, curriculum planning and alignment, and student assessment.

about Human Resources and Instructional Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Human Resources and Instructional Management

EDCL 6347. The Superintendency.
This course addresses issues critical to superintendents in Texas. These include leadership and leadership development, school board-superintendent relations, management strategies, the role of public education in a democratic society, and professional ethics.

about The Superintendency
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Superintendency

EDCL 6348. School Law.
This course examines the constitutional provisions, statutory laws, court decisions, and regulations governing public schools with special reference to state and federal relationships.

about School Law
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about School Law

EDCL 6349. School Finance and Business Management.
This course applies principles of leadership to the financing of public schools. Students will develop skills in projecting district revenues, budgeting development and analysis, sources of school revenue, principles of taxation, financial accountability, and techniques relevant to the effective leadership of school business matters.

about School Finance and Business Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about School Finance and Business Management

EDCL 6351. Instructional Models.
Characteristics of effective teaching are identified and correlated with learning theories and their corresponding instructional models. Matching instruction to the needs of learners and integrative approaches are emphasized. Prerequisites: All Level I and II courses or permission of instructor.

about Instructional Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Models

EDCL 6352. School as Center of Inquiry.
Prepares the educational leader to be an intelligent consumer of research and to assume a leadership role in school-wide action research. This course is a prerequisite for EDCL 6358.

about School as Center of Inquiry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about School as Center of Inquiry

EDCL 6358. Integrative Seminar.
This course integrates key theories, concepts, and principles learned during the student’s course of study. The student will complete a paper including an action research plan designed to solve an educational problem present within a specific educational setting. The master’s student will defend the plan during the oral examination. Prerequisites: Levels I, II and EDCL 6352 or permission of instructor.

about Integrative Seminar
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Integrative Seminar

EDCL 6378. Field-Based Practicum.
The practicum provides students the opportunity to develop leadership skills needed by principals of elementary and secondary schools. Students will develop a practicum proposal in cooperation with their site-mentor and university supervisor. The course focus is on the development of administrative skills in a real world setting. Prerequisites: 27 hours of course work including EDCL 6352 or permission of instructor.

about Field-Based Practicum
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Field-Based Practicum

EDCL 6387. Principal’s Field-Based Practicum II.
This course is a continuation of EDCL 6387 and allows students to continue projects and activities begun in the fall semester and to work further with their on-site mentor and university supervisor. This course is offered in the spring semester only. Prerequisites: EDCL 6358 and EDCL 6387.

about Principal’s Field-Based Practicum II
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Principal’s Field-Based Practicum II

EDCL 6390. Superintendent’s Practicum II.
A continuation of EDCL 6390, this course allows students to carry through projects and activities begun in the fall semester and to work further with their on-site mentor and university supervisor. Offered spring semester only. May be taken concurrently with other superintendent certification courses.

about Superintendent’s Practicum II

3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.

Master of Arts (M.A.), Major in Professional Counseling

Major Program

The master of arts (M.A.) with a major in professional counseling consists of three specializations:

- community counseling,
- marital, couple and family counseling,
- school counseling.

These three areas of specialization in the professional counseling major have required course sequences that build skills through three levels, from basic to advanced, via didactic and experiential activities. The curriculum includes core foundations in theories, interventions, assessment, and research. In addition, core tenets that are emphasized throughout the program include diversity, ethics, professional development, and self-awareness. There is a strong emphasis on experiential learning integrated with the application of didactic, research-based knowledge. Internship is required as the capstone experience. The specializations in community counseling; marital, couple, and family counseling; and school counseling are nationally accredited by the Council for Accreditation of Counseling and Related Programs (CACREP).

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/coun.html.

Degree Requirements

The master of arts (M.A.) with a major in professional counseling consists of three specializations. Two specializations with a minimum of 61 semester hours are community counseling and marital, couple, and family counseling. Both areas of specialization meet academic requirements for the Texas Licensed Professional Counselor (LPC) credential. The marital, couple, and family counseling specialization also meets academic requirements for the Texas Licensed Marriage and Family Therapist (LMFT) credential. A third area of specialization is a 55-hour program in school counseling.

A grade of “B” or better must be earned in all course work counting toward a professional counseling degree.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student's capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

Thesis Proposal

The student must submit an official Master's Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members' signatures, graduate advisor's signature (if required by the program), and the department chair's signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A.

Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members.
Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master’s level courses in Counseling, Leadership, Adult Education, and School Psychology: COUN

Courses Offered
Counseling (COUN)
COUN 5158. Group Counseling Pre-Practicum.
This course is an experiential study of group dynamics, processes, and applications. Group stages, tasks and skills of group members and leaders, and the importance of developing an understanding of the therapeutic value of group, are covered. This course involves role-played participation in a group designed to closely resemble a real-life group experience. Students will participate as co-leader as well during the semester. Graded on a credit (CR), no credit (F) basis. Corequisite: COUN 5358.

COUN 5178. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated twice for additional credit at the discretion of the department chair.

COUN 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

COUN 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

COUN 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

COUN 5358. Group Counseling Pre-Practicum.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5178. Independent Study.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

COUN 5199B. Thesis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5199B. Thesis.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
COUN 5301. Community-based Counseling.
Community-based Counseling is presented as a basis for counselors who intend on working in community counseling agencies. This course includes theoretical and applied information based on a variety of settings, as well as a variety of intervention strategies, presented via didactic and experiential coursework.
about Community-based Counseling
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5305. Assessment in Counseling.
Problems and principles of administration, scoring and interpreting group and individually administered tests; utilization of test data for diagnostic, placement, predictive, and evaluative purposes; elementary statistical procedures; laboratory activities in test administration, scoring, and interpretation.
about Assessment in Counseling
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5307. Theories of Counseling and Personality.
This course surveys systematically derived theories of counseling and personality from their origins in social discourse, philosophy, and psychology to the present time. Each theorist is presented biographically and the theory considered with regard to its clinical, cultural, and ethical relevance and application to diverse populations. Prerequisite: COUN 5350 preferred.
about Theories of Counseling and Personality
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5316. Counseling Diverse Populations.
This seminar is designed to sensitize students to the roles societal power disparities, therapist’s racial identity and awareness, and client racial/cultural identity play in counseling persons of diverse backgrounds. The dynamics of counseling clients who are African-American, Asian-American, female, gay/lesbian, Latino/a, Native-American, and persons with disabilities, will be examined.
about Counseling Diverse Populations
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content

COUN 5328. Introduction to School Counseling: Leadership, Advocacy, and Accountability.
Orientation to identity and role of professional school counselors, and introduction to the study of comprehensive developmental guidance programs. Course reflects the Texas and ASCA Models with related standards. Topics include: program planning, implementation, and evaluation; use of data and accountability; leadership role; and ethical and legal practices in schools.
about Introduction to School Counseling: Leadership, Advocacy, and Accountability
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5338. Advanced Issues in School Counseling: Counseling, Consultation, and Coordination of Services.
Course covers advanced topics in counseling children and adolescents in schools. Emphasis will be placed on developmentally appropriate preventative and responsive counseling services. Consultation and collaboration with parents, school personnel, and community partners, as well as contextual issues in school counseling, will be addressed.
Prerequisites: COUN 5328, COUN 5316, COUN 5368.
about Advanced Issues in School Counseling: Counseling, Consultation, and Coordination of Services
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5340. Loss and Grief Recovery Counseling.
An in-depth study of loss and its aftermath, grief. Emphasis is given to the counseling literature, loss and grief in the arts, personal loss experience, and particular counseling interventions.
about Loss and Grief Recovery Counseling
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5344. Substance Abuse and Counseling: An Introduction.
This course focuses on chemical dependency across counseling settings, including school, agency, and private practice. This course includes theoretical and applied information on causative factors, assessment, and treatment strategies across a variety of settings and populations via didactic and experimental coursework.
about Substance Abuse and Counseling: An Introduction
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5345. Psychodrama Methods.
The course is both didactic and experimental. It provides a history of therapeutic drama beginning with the Greek theater of Dionysus. The work of J.L. Moreno is presented and the basic tenets of the theory studied. Students then engage in creating, producing, and acting out actual psychodramatic productions.
about Psychodrama Methods
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

COUN 5346. Filial Therapy.
Theoretical and practical application of the filial model will be addressed as well as techniques in training parents in the overall principles and methodology of child-centered play therapy. Graded on a credit (CR), no credit (F) basis. Corequisite: COUN 5689 or COUN 5389 or permission of instructor.
about Filial Therapy
Grade Mode: Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
COUN 5350. Professional Orientation and Ethics.
An introduction to the counseling profession as practiced in a variety of clinical and human service settings. Emphasis is placed on the philosophical and psychological foundations of mental health counseling, personal/professional traits and skills of effective counselors, professional ethics, licensure, credentialing and professional regulation, and contemporary professional issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Professional Orientation and Ethics

COUN 5351. Current Issues in Marriage, Couple and Family Therapy.
This course provides students with information regarding special issues in marital, couple and family counseling, including: grief and loss; domestic violence; substance abuse in the family; lesbian, gay, bisexual, and transgender issues; divorce; and re-parenting. Prerequisite: COUN 5367.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Current Issues in Marriage, Couple and Family Therapy

COUN 5354. Basic Techniques in Counseling.
This course is designed to introduce the student to basic counseling skills via role-play and videotape. The course also provides a general model of effective counseling, including basic communication skills and theory techniques. Prerequisite: COUN 5350 or COUN 5328.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Basic Techniques in Counseling

COUN 5355. Career Counseling.
Career choice and development are considered as critical aspects of persons in material cultures where occupation is a major component of one’s identity. Career concerns often addressed in counseling are presented and discussed along with the area of vocational guidance, occupational information, and preference inventories.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Career Counseling

COUN 5358. Dynamics & Processes in Group Counseling.
An intensive laboratory experience requiring highly active student participation in the form of honest, direct, and open communication combined with authentic self-exploration within the group setting. Through participation and required reading, students will gain first-hand familiarity with the basic principles of the dynamics that are characteristic of therapeutic groups. Prerequisites: COUN 5354 and COUN 5307. Corequisite: COUN 5158.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Dynamics & Processes in Group Counseling

COUN 5359. Abnormal Human Behavior.
The principles of understanding dysfunction in human behavior and systemic organization. This course includes diagnostic, preventive, and remedial methods and interventions. Prerequisite: COUN 5307.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Abnormal Human Behavior

COUN 5360. Intermediate Methods in Marital, Couple and Family Counseling.
Marital, couple, and family theory and techniques are discussed, selected, applied, and refined through lecture and supervised clinical practice. Specific skills include joining, diagnosis, goal formulation, treatment planning, termination, referral, and record keeping. Graded on a credit (CR), no credit (F) basis. Prerequisites: COUN 5354, COUN 5359, COUN 5367, and COUN 5369.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Intermediate Methods in Marital, Couple and Family Counseling

Provides experience in supervising practicum or intern students and integrating the theoretical foundations and current issues of professional supervision. Emphasis includes ethical, multicultural, gender, age, and lifestyle concerns in supervisory relationships, and academic requirements for supervisory status for Texas Licensed Professional Counselor and Licensed Specialist in School Psychology credentials. Course can be repeated once for credit. Graded on a credit (CR), no credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum in Professional Supervision: Theories and Applications

Counseling theories and techniques are discussed, selected, applied and refined through lecture and supervised practice. Specific skills include initiating the helping relationship process, diagnosis, goal formulation, treatment planning, termination, referral, and record keeping. Graded on a credit (CR), no credit (F) basis. Prerequisites: COUN 5354 and COUN 5359.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Intermediate Methods in Adult Counseling

COUN 5367. Marital and Family Counseling: Current Theories.
This course is designed to examine the principles of communication and the goals of marital, couple and family counseling. Selected theories, approaches and techniques used in marital, couple and family counseling will be examined.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Marital and Family Counseling: Current Theories
COUN 5368. Developmental Issues in Counseling Children, Adolescents, and Adults.
Emphasis will be on understanding the interactions between the developmental needs of each of these age groups and counseling techniques and procedures used to deliver mental health services to each of these groups.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

COUN 5369. Child and Adolescent Counseling Methods.
Course focus is an overview of counseling interventions with children and adolescents in agency, school, and private practice. Group, individual, and systems techniques will be covered. Assessment of child psychopathology and techniques for consulting with parents will be included. Prerequisites: COUN 5354 and COUN 5368.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will provide an overview of the physical, social, psychological, and behavioral characteristics of the adolescent. This course has a supervised practice experience. Emphasis will be placed on counseling interventions utilizing current research. Prerequisites: COUN 5359 and COUN 5369.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5371. Assessment and Treatment in Marriage and Family Counseling.
This course addresses the assessment of individual, couple, and family functioning and the planning and implementation of marital, couple and family treatment methods. Prerequisite: COUN 5367.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

COUN 5372. Assessment and Treatment in Marriage and Family Counseling.
This course provides a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5373. Intermediate Methods in Play Therapy.
This course explores the philosophical basis for play therapy, the history of play therapy, theoretical applications, techniques, stages, ethical issues, and application to a variety of populations and diagnostic categories. Graded on a credit (CR), no credit (F) basis. Prerequisites: COUN 5369 and COUN 5359.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5378. Problems in Counseling.
Individual problems not related to thesis. Designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the department chair.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

COUN 5381. Sandtray Therapy Methods.
This course provides students with the philosophical basis for sandtray therapy as a therapeutic intervention for children and families, including a review of its history, applications, techniques, stages, and ethical issues. Didactic and experiential methods are used. Prerequisite: COUN 5369. Co-requisite: COUN 5389 or COUN 55689 or permission of instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

COUN 5389. Site-Based Internship.
An on-site practicum-internship occurring in a school or agency setting with supervision by on-site and university supervisors. May be repeated based on the recommendation of the counseling faculty. Graded on a credit (CR), no credit (F) basis. Prerequisites: COUN 55689, recommendation of COUN 55689 supervisor, and consent of COUN 55689 supervisors.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5391. Research Methods.
Research, measurement, and design procedures for addressing issues in school psychology, counseling, and education. A research project is required of each student.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

COUN 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in COUN 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

COUN 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
Master of Education (M.Ed.), Major in Student Affairs in Higher Education

Major Program

The master of education (M.Ed.) with a major in student affairs in higher education (SAHE) focuses on preparing students to work in post-secondary and higher education student support services. This comprehensive, cohort-based, application-oriented program is grounded in developmental and learning theory. It celebrates diversity in faculty and student background, experience and culture, and offers practical exposure to the array of careers in student affairs. The innovative curriculum is shaped by student and practitioner participation and is responsive to research and new approaches in the field of student affairs.

Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/sahe.html.

Master’s level courses in Counseling, Leadership, Adult Education, and School Psychology: SAHE (p.  )

Doctoral level courses in Counseling, Leadership, Adult Education, and School Psychology: SAHE (p.  )
SAHE 5354. Basic Helping Skills.
This course will assist students with the development of basic communication, crisis assessment, and referral skills, through the use of role playing and modeling. It provides didactic and experiential activities to facilitate the acquisition of skills essential to helping in the student affairs context.

about Basic Helping Skills
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SAHE 5388. Internship-Student Affairs.
Internship applies knowledge of student development and organizational theory in a particular student affairs area of operation with group specific activities or projects. The connection between theory and practice is emphasized. The course may be repeated up to three times. Graded on a credit (CR), no credit (F) basis.

about Internship-Student Affairs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

SAHE 5390. Student Affairs Functions and Professional Orientation.
This course covers the history of student affairs in higher education; the context in which student affairs exists in higher education; the theories used in student affairs work and its philosophical foundations; and the mission, goals, and programs of selected functions in student affairs. Graded on a credit (CR), no credit (F) basis.

about Student Affairs Functions and Professional Orientation
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SAHE 5392. Student Affairs Capstone: The Application of Principles and Theories to Case Studies.
Utilizing case study format, students examine the application of Student Affairs theories and principles to significant issues, functions, and problems that student affairs administrators manage in work settings. Topics include ethical decision-making, management and leadership problems, human resource development, governance and legal issues, finance and budgeting, and evaluation and assessment.

about Student Affairs Capstone: The Application of Principles and Theories to Case Studies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SAHE 5393. Diverse Students and the College Experience.
This course provides an examination of the diverse characteristics and needs of contemporary college students. It includes an analysis of student subcultures and the needs, programs, resources, and services that facilitate student success.

about Diverse Students and the College Experience
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Student Affairs in Higher Education (SAHE) - Doctoral Level
SAHE 7178. Independent Study.
This course focuses on individual research topics. Students choose a selected area of study and work independently on a specialized project. Repeatable with departmental approval.

about Independent Study

Specialist in School Psychology (S.S.P.), Major in School Psychology  
Major Program  
The specialist in school psychology (S.S.P.) program is fully approved by the National Association of School Psychologists as a specialist-level degree that includes a 1200-clock-hour internship. The curriculum meets state and national standards for specialist-level training in school psychology. It includes didactic and experiential course work in data-based decision-making, problem solving, evidence-based interventions, and interactions among family, school, and community systems.  
School psychology may not serve as a minor for other programs.  
Graduates of the program are eligible to apply for the following credentials: Licensed Specialist in School Psychology and/or Licensed Psychological Associate from the Texas State Board of Examiners of Psychologists; and Nationally Certified School Psychologist from the National School Psychology Certification Board.

Grade Mode: Standard Letter
about Psychoeducational Assessment

SPSY 5377. Social, Emotional, and Behavioral Assessment.
This course covers the evaluation of personality, mental status,
and behavior. This includes the theoretical bases, construction,
administration, scoring, and interpretation of structured and projective
personality tests with integrative report writing emphasizing the
assessment of emotional disturbance and behavior disorders.
Prerequisites: PSY 5376 or its equivalent, graduate standing, and consent of
the instructor.
about Social, Emotional, and Behavioral Assessment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Social, Emotional, and Behavioral Assessment

SPSY 5378. Problems - School Psychology.
This course includes individual problems not related to thesis or research
problems. It is designed to place emphasis on selected areas of study. It
may be repeated for credit.
about Problems - School Psychology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems - School Psychology

SPSY 5379. Child and Adolescent Psychopathology: Advanced
Assessment and Interventions.
This course includes the advanced investigation of personality
dynamics and diagnosis of psychopathology through advanced
projective techniques and structured instruments. Students practice comprehensive report writing emphasizing intervention
recommendations. Prerequisites: PSY 5376 and PSY 5377, or the
equivalents, graduate standing, and consent of the instructor.
about Child and Adolescent Psychopathology: Advanced Assessment
and Interventions
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Child and Adolescent Psychopathology: Advanced Assessment
and Interventions

SPSY 5380. Individual and Group Counseling Techniques for School
Psychology.
This course focuses on the acquisition and practice of techniques used
in counseling interventions with children and adolescents in school
settings. Individual and group counseling techniques are emphasized,
along with a review and refinement of techniques for interviewing and
consulting with parents. Prerequisites: COUN 5368, COUN 5307, and
SPSY 5300.
about Individual and Group Counseling Techniques for School
Psychology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Individual and Group Counseling Techniques for School
Psychology

SPSY 5385. Ethics, Standards, and Procedures in Professional School
Psychology.
This course includes the presentation of historical foundations, role and
functions, and procedures used by psychologists in the school setting.
Emphasis includes ethical and legal issues, professional standards, state
and federal law, and organization and operation of the schools as applied
to the mental health and education of exceptional learners. Prerequisite: Enroll in the School Psychology Program.
about Ethics, Standards, and Procedures in Professional School
Psychology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Ethics, Standards, and Procedures in Professional School
Psychology

This course presents models of consultation as they apply to
the professional development and ethical position of the school
psychologist. The course emphasizes the consultative role in relation
to school administrators, guidance and counseling personnel, teachers,
parents, students, and referral sources. Prerequisites: Completion of
SPSY 5300, SPSY 5385, and concurrent enrollment in SPSY 5389.
about Consultation and Professional Issues in School Psychology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Consultation and Professional Issues in School Psychology
SPSY 5387. Data-Based Decision-Making in Evaluation and Intervention.
This course covers advanced techniques for assessment of special populations, including early childhood, and integration of information from a variety of sources for the development of educational interventions. A problem solving approach that focuses on linking evaluation and intervention processes will be utilized throughout the course. Prerequisite: SPSY 5376.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Data-Based Decision-Making in Evaluation and Intervention

This course includes theoretical and empirical aspects of psychological measurement, scale development and testing for school psychologists. Topics include the statistical foundations of psychological measurement; stimulus and response-based measurement; social, legal, and ethical implications of testing; test and item bias; score reliability and validity; factor analysis; generalizability theory; and item response theory. Prerequisites: Psychometrics for School Psychologists

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Psychometrics for School Psychologists

SPSY 5389. Practicum in School Psychology.
Three practicum experiences occur in a school or agency setting with supervision by on-site and university supervisor. This course must be repeated for a total of nine credit hours. Graded on a credit (CR), no credit (F) basis. Prerequisite: Completion of SPSY 5385, and SPSY 5376, graduate standing in the School Psychology Program, and consent of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
about Practicum in School Psychology

SPSY 5391. Research Seminar.
This course provides students with knowledge of the nature and techniques of social science research. Students will develop research literacy through critical reading and examination of both quantitative and qualitative research. Additional emphasis is given to the relationship and application of science to professional practice.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
about Research Seminar

The course provides a broad overview of the psychosocial, psychoeducational and multicultural issues surrounding the delivery of psychoeducational services to students in school systems. The course will help the student develop cross-cultural sensitivity when conducting assessments, providing consultation and performing other interventions. Prerequisite: Consent of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Issues in School Psychology

SPSY 5396. Biological Bases of Behavior.
This course covers atypical disorders of brain development or function, particularly those likely to be encountered in the practice of school psychology. It includes an overview of neuropsychological and other tests with emphasis on development of a comprehensive assessment and intervention model through interpretation and critique of case studies. Prerequisite: Completion of SPSY 5376, SPSY 5377, graduate standing, and consent of the instructor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Biological Bases of Behavior

This course introduces students to the practice of curriculum based assessment in the context of a problem solving model of psychological services in the schools. Lectures, assignments, and activities develop competencies in the areas of non-traditional assessment, development of academic interventions, and the evaluation of student outcomes.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SPSY 6301. Professional Internship in School Psychology.
Professional internship may be a continuation of the supervised school based experience or a placement in an appropriate alternative setting with supervision by a licensed psychologist. A minimum of 600 clock hours of experience is required. Graded on a credit (CR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Professional Internship in School Psychology

SPSY 6302. Professional Internship in School Psychology.
Professional internship may be a continuation of the supervised school based experience or a placement in an appropriate alternative setting with supervision by a licensed psychologist. A minimum of 600 clock hours of experience is required. Graded on a credit (CR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Professional Internship in School Psychology

Minor in Adult Education

AD 5321 Adult Learning and Development 3
AD 5324 or ED Graduate Advisor Approved Electives 9
Total Hours 12

Minor in Counseling and Guidance

Choose 1 class from the following: 3
COUN 5301 Community-based Counseling
COUN 5328 Introduction to School Counseling: Leadership, Advocacy, and Accountability
COUN 5367 Marital and Family Counseling: Current Theories
COUN 5370 Theories of Counseling and Personality 3
COUN 5354 Basic Techniques in Counseling 3
Minor in Educational Leadership

Students who wish to pursue educational leadership as a minor for another graduate program of study must meet all program admission requirements. If you have questions about admission to the educational leadership program you may contact the coordinator of the educational leadership program.

EDCL 5339 Understanding Self: Developing a Personal Vision of Leadership 3
EDCL 5340 Shaping Organizations and Using Inquiry: Management and Leadership 3
EDCL 5345 Understanding People: Professional Development 3
EDCL 5347 Understanding Environments: Social, Political, Economic, Legal, and Technological 3
EDCL 5348 Supervision of Instruction 3

Total Hours: 15

Certificate in Adult English as a Second/Foreign Language

Certificate Program

The certificate in adult English as a second/foreign language is designed for individuals who desire to teach, design, and coordinate English as a second/foreign language (ESL or EFL) education programs for adults in community colleges, study abroad programs, and profit and not-for-profit institutions offering adult ESL/EFL instruction. Objectives for the certificate include preparing instructors through:

• Studying and discussing research related to contemporary adult ESL/EFL learning practices,
• Exploring theoretical perspectives supporting innovative adult ESL/EFL methodologies and approaches to assessing/testing adult students’ language learning,
• Articulating the relationships and connections between assessment/testing of student performance and program evaluation,
• Designing activities that support and enhance inclusive adult ESL/EFL learning environments that cultivate respect for different cultural and linguistic backgrounds,
• Designing activities and materials to teach listening, speaking, reading, and writing to adult ESL/EFL students, keeping in mind integration of language skills, and
• Making informed/appropriate decisions when choosing textbooks, teaching materials, and assessment/evaluation methods congruent with program and student needs.

Admission Policy

For information regarding admission requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/Prospect_Students/Pgms_Apps/ TXST_Cert.html

Department of Curriculum and Instruction

Education Building Room 3044
T: 512.245.2157 F: 512.245.7911
http://www.txstate.edu/ci

The Department of Curriculum and Instruction (C&I) offers a variety of degrees and programs, both master's and doctoral, that are intended to enhance the professional development and career goals of teachers and other educators. C&I also offers post-baccalaureate initial teaching certificates (available only to those not already certified) that may be obtained at the graduate level with or without the master's degree. Before proceeding into any field of education at Texas State, the degree applicant should inquire as to certification requirements associated with or prerequisites to the degree. Those seeking initial teacher certification must keep in mind that certification requirements and graduate degree requirements may not be related and that the satisfactory completion of degree requirements may not always lead to certification. You will find more information on specific programs as well as contact information on the College of Education and Department of C&I websites. For additional information regarding requirements for admittance to teacher certification, please visit the Office of Educator Preparation website.

Background Requirements

Students seeking either a master's degree or certification combined with a master's degree can typically begin their studies without completing background or leveling classes. An exception to this would be approximately 6-9 hours of college level math, speech communication, computer literacy, and 6 hours of English composition necessary for students seeking initial teacher certification. Additionally, students seeking initial secondary teacher certification may be required to take additional undergraduate or graduate course work in their desired teaching fields. Note: Criminal background checks are required by Texas law for all teachers, and no one convicted of a felony may be certified to teach in Texas.

Post-Baccalaureate Programs

• **Post-Baccalaureate Initial Teaching Certification** serves individuals who have earned bachelor’s degrees in fields other than education. Students may earn EC-6, 4-8, or 7-12 certification by taking graduate level courses that may count toward a graduate degree.

• **Professional Certificates** are also available for the reading specialist and educational diagnostician.

Initial Certification Options

An individual may seek initial teacher certification as a post-baccalaureate student in several of the certification areas offered by the
State of Texas. Satisfactory performance on a State Board for Educator Certification test is required for provisional or professional certificates in education. For updated information please go to the website for The Office of Educator Preparation at: http://www.education.txstate.edu/oep/. Note: Criminal background checks are required by Texas law for all teachers, and no one convicted of a felony may be certified to teach in Texas.

**Supplementary Certificates (Endorsements)**
 These certifications may be added to a teaching certificate.

Supplementary certificates (formerly called endorsements) are offered in addition to majors and specializations associated with the degree programs in bilingual/bicultural, educational reading specialist, gifted and talented education, and special education. Satisfactory performance on a State Board for Educator Certification test is required for provisional or professional certificates in education.

**Bilingual Education Certificate**
These courses are required for bilingual education:

- **RDG 5331** Literacy Methods for Linguistically and Culturally Diverse Students 3
- **CI 5336** Methods and Materials for Teaching English as a Second Language 3
- **CI 5374** Bilingual/ESL Content Area Instruction 3
- **CI 5387** Bilingual Education: Principles and Practices 3

**Generic Special Education Certificate**
These courses are required for generic special education:

- **SPED 5311** Teaching Language Arts to Students with Disabilities 3
- **SPED 5313** Education Students with Emotional/Behavioral Disorders 3
- **SPED 5340** Principles and Practices of Effective Instruction 3
- **SPED 5327** Educating Students with Autism and Other Developmental Disabilities 3
- **SPED 5334** Assessment and Evaluation of Students with Disabilities 3
- **SPED 5360** Survey of Exceptionality 3
- **SPED 5375** Behavior Management: School Application of Applied Behavior Analysis 3
- **SPED 5389** Special Education Practicum 3

**Gifted and Talented Education Certificate**
These courses are required for gifted and talented education:

- **CI 5308** Introduction to Gifted/Talented Education 3
- **CI 5309** Talent Development 3
- **CI 5310** Creativity: Theories, Research, and Applications 3
- **CI 5311** Practicum in Talent Development 3
- **CI 5319** Social, Emotional, and Cultural Contexts of Advanced Development 3

**Student Fitness and Performance**

**Program Standards**

Students enrolled in all academic programs in The Graduate College must maintain high scholastic standards and develop a mastery of the knowledge and methods of their respective discipline. Students are expected to demonstrate emotional and mental fitness in their interactions with others, use skills and methods that are generally accepted by others in the profession, and conform to the code of ethics of their respective discipline, and the university’s honor code. A student’s acceptance in any program does not guarantee the student’s fitness to remain in that program. The faculty is responsible for verifying that only those students who continue to meet program standards are allowed to continue in any program.

**Evaluation of Student Fitness and Performance**

Members of the faculty, using their professional judgments, evaluate student fitness and performance continuously. The criteria used by the faculty to make such judgments include instructors’ observations of student performance in class or in activities related to courses, evaluations of student performance on theses and practica, site supervisors’ evaluations of student performance in practica, and the codes of ethics noted above. Students who are not making satisfactory progress or who are not meeting program standards should consider withdrawing from the program.

In this context, the term “satisfactory progress” refers to an academic judgment made regarding the student’s fitness and performance. It is a judgment that the student has failed to meet program standards rather than a judgment made on the basis of the student’s violation of valid rules of conduct. Disciplinary matters are referred to Student Justice.

**Student Review Process**

If a faculty member believes that a student is not making satisfactory progress or meeting program standards, he or she should discuss the situation with the student. If the faculty member believes that the student’s performance cannot improve to acceptable standards, the faculty member should refer the student to the Program Standards Committee of the appropriate department. The Program Standards Committee consists of three faculty members appointed by the department chair in consultation with the department’s senior faculty.

The Committee will notify the student of the reasons that he or she is not making satisfactory progress or meeting program standards and will give the student an opportunity to meet with the Committee to respond and to present information and witnesses to the Committee. The Committee will also meet with the faculty member who referred the student to the Committee. After considering the matter, and within ten working days of meeting with the student, the Committee will report its decision to the student and the department chair, stating that the student should either remain in or leave the program. The Committee may make other decisions, such as placing restrictions or conditions on the student’s continuing in the program. Within ten working days of receiving the Committee’s decision, the student will notify the department chair of the student’s acceptance or rejection of the Committee’s decision. If the student rejects the Committee’s decision, he or she may appeal to the department chair.

Within ten working days of receiving the student’s appeal, the chair will make a decision as to the student’s continued presence in the program. Before making the decision, the chair will meet with the student. However, the chair need not meet with the student before making a decision if the student was given a reasonable opportunity to meet, and the student either failed or refused to meet. The chair will notify the student of the decision.

If the student is dissatisfied with the chair’s decision, he or she may appeal to the dean of the appropriate college. However, in order for the dean to consider an appeal, the student must submit a written notice of
appeal to the chair and the dean within ten working days of receiving the chair’s decision. The dean will consider the matter based on information compiled by the chair and notify the student of the decision within ten working days of the dean’s receipt of the appeal from the chair. The dean may meet with the student and give the student an opportunity to address the issues. The dean’s decision is final.

Doctor of Education (Ed.D.), Major in Developmental Education

Doctoral Program
The Department of Curriculum and Instruction in the College of Education at Texas State offers a Ed.D. in developmental education (DE) that produces highly-qualified program leaders and practitioners in DE programs. The Ed.D. is designed to fill the urgent need for advanced research in an emerging field that serves those who are underprepared for postsecondary education.

Program Mission Statement
The doctoral program in developmental education within the Department of Curriculum and Instruction prepares future scholars, researchers, leaders, administrators, instructors, and practitioners in the field of developmental education. Both rigorous and supportive, the program aims to advance theory, research, and practice in multiple areas of developmental education — including developmental literacy, learning support, and developmental mathematics — by actively engaging students in teaching, scholarship, and professional service. As a multidisciplinary program, the faculty, staff, and students work collaboratively across various academic disciplines, diverse communities, and geographic boundaries.

Educational Goal
Major educational objectives for the programs include the following:

- To prepare DE professionals who engage in divergent and critical thinking, are culturally competent, and are skilled in maximizing technology applications for learning and communication;
- To prepare DE professionals who understand and can respond to the nature and needs of students who enroll in DE programs; the complexities of motivation, teaching, learning, and assessment in DE settings; the cultural, political, and social systems that create inequities in educational settings; and the structure and management of DE programs;
- To prepare DE professionals with sophisticated research skills that will enable them to critically evaluate DE programs and practices and implement research agendas that will inform practice and policy;
- To prepare DE professionals who will serve as leaders in the DE profession who can engage in institutional leadership, program administration, and innovative program development and evaluation that will promote systemic change and improvement.

Admission Policy
For more information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/deved.html.

Course Work
Advising
Advising in the doctoral program in developmental education takes three forms: the initial advisor, the program mentor, and the dissertation advisor. When students are first admitted, they are assigned an initial advisor who mentors them from entry through their first year benchmarks in the program. By the end of the first year, students formally ask a faculty member to be their program mentor who advises them from the end of their first year until their comprehensive exams. At a time no later...
than the completion of their comprehensive exams, students then select a dissertation advisor who is the chair of their dissertation committee, which must be formed at that time. These advising roles can be assumed by the same faculty member or different faculty members depending on students’ research interests and foci.

Semester Hour Requirements
Course work grounded in developmental education theory and research 15
Research methodology 12
Specialization in developmental education literacy, developmental education mathematics, or learning support 21
Elective choices that reflect significant issues in developmental education and research methodology 6
Dissertation 12
Total Hours 66

Students may transfer a maximum of six semester hours of doctoral-level credit earned at another accredited institution if it bears a letter grade of B or higher pending approval by the dean of The Graduate College. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must satisfy the residency requirement of 18 graduate credit hours.

Course Work Requirements

Required Foundation Courses
DE 7301 Understanding Developmental Education Learners in a Diverse Society 3
DE 7302 Policy and Politics in Developmental Education 3
DE 7303 Teaching and Learning in Developmental Education 3
DE 7305 Multicultural Education in a P-16 Context 3
DE 7380 Managing Developmental Education Programs 3

Required Research Courses
CI 7101 Introduction to the Research Experience 1
CI 7101 Introduction to the Research Experience 1
CI 7351 Beginning Quantitative Research Design and Analysis 3
CI 7352 Beginning Qualitative Design and Analysis 3

Research Elective
Select one of the following: 3
CI 7353 Intermediate Quantitative Research Design and Analysis
CI 7354 Intermediate Qualitative Design and Analysis

Specialization Electives
Select seven courses from the list below 21

Other Courses
Select two additional courses 6

Dissertation Courses
Take 12 hours from the following: 12
DE 7199 Dissertation
DE 7299 Dissertation in Developmental Education
DE 7399 Dissertation
DE 7599 Dissertation in Developmental Education
DE 7699 Dissertation

Specialization Elective Courses
Courses from several College of Education departments are approved as prescribed electives and are listed below. The College of Education and the dean of The Graduate College may approve additional electives. Students should contact the doctoral program director for additional electives.

MATH 7306 Current Research in Math Education 3
MATH 7324 Curriculum Design & Analysis 3
MATH 7328 Instructional Techniques & Assessments 3
Program Plan

In their first term, students will construct a program plan with the assistance of their initial advisor. The program plan is a focused, detailed description of the doctoral student’s proposed course work, specialization, and goals for the doctoral program. The program plan will be submitted to the doctoral program plan committee for approval and suggestions. The program plan must include the following:

- goal statement that includes doctoral study goals (including specialization) and future professional goals
- professional curriculum vitae
- course work plan. This is the appropriate place for petitioning for course transfer for graduate work done previously (there is a 5-year time limit on any course work counting toward candidacy).

The student should work with their advisor for direction while completing the program plan prior to submitting it to the program plan committee. It is due to the program plan committee by November 15 in the fall term of the student’s first year of study. After the program plan committee reviews the student’s program plan, a meeting may be scheduled with the student for further review of the plan.

Advancement to Candidacy

Application for Advancement to Candidacy

Once all course work (except for dissertation course work) has been completed, the comprehensive exams have been passed, and the dissertation proposal has been successfully defended, doctoral students will apply for advancement to candidacy. Candidacy must be achieved within five (5) years of initiating program course work. No credit will be applied toward the doctoral degree for course work completed more than five (5) years before the date on which the student is advanced to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for a time extension must be made to the program, which in turn submits a recommendation to The Graduate College. Achieving doctoral candidacy allows the student to begin doctoral dissertation research. Candidacy forms are found here: http://www.gradcollege.txstate.edu/Fac_Resources/Forms.html.

Grade-Point Requirements for Advancement to Candidacy

To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below a “B” on any graduate course may apply toward a doctorate at Texas State. Incomplete grades must be cleared through The Graduate College before a student can be approved for advancement to candidacy.

Comprehensive Exams

In the doctoral program in developmental education, the comprehensive exam is designed both to prepare students for the dissertation stage as well as demonstrate their readiness for dissertation research, and is achieved through a process that reflects the kinds of tasks that are a part of the vast majority of dissertations.

There are TWO options for your comprehensive exams. Students and their program mentors will discuss each and decide which option better aligns with the student’s background, program goals, and dissertation goals. This information will be considered by the program plan committee as well.

Neither option is “greater” or “lesser” than the other, and both options are designed to cover the same processes and achieve the same control over salient aspects of empirical research. The main difference is that the Two-project Option has a more scaffolded and formal literature review, while the One-project Option includes data collection and analysis.

Overview of Comprehensive Exam Options

With advisor and program plan committee’s assistance, the student chooses which comprehensive exam option to undertake:

Two-project Option of Comprehensive Exams

In the Two-project Option, students will undertake two parts to the comprehensive exam. Part I is the Control of Literature and Part II is the Control of Research. Part I, Control of Literature, is a structured, critical review of literature in the field. Part II, Control of Research, is an exhaustive proposal for an empirical research study. Part I must be completed before Part II and students must successfully complete both Part I and Part II in order to be admitted to candidacy.

One-project Option of Comprehensive Exams

In the One-project Option of Comprehensive Exams, students complete all aspects of a small-scale empirical research study — the Pilot Research Project — including research design, literature support, original data collection and analysis, and producing a written manuscript of publishable quality. Students must pass both the written portion (the manuscript) and the oral portion (the committee defense) of the project in order to be admitted to candidacy.

Dissertation Proposal

At a time no later than the completion of their Comprehensive Exams, students must select a dissertation advisor. After selecting their dissertation advisor, and before beginning their dissertation proposal, students will form a dissertation committee that will provide technical support for the inception, conduct, and completion of the dissertation research study and evaluate the final product. The student will undertake the research and write the dissertation under the guidance of their dissertation advisor. The dissertation proposal must be successfully defended and approved by the dean of The Graduate College before a student can be advanced to candidacy. Information about the dissertation procedures can be found in the Dissertation tab.

Students must submit the dissertation proposal and one copy of the official “Dissertation Proposal form” (available on The Graduate College website) to the dissertation advisor. After obtaining committee members’ signatures, the student must submit the dissertation proposal and dissertation proposal form to the program director for signature. The form also requires evidence of the IRB approval for any research involving
human subjects. The program director will then forward the dissertation proposal and form through the department chair to the dean of The Graduate College for final approval. Final approval must be received before proceeding with the defense of the dissertation proposal. The Dissertation Proposal form may be obtained from The Graduate College website.

**Defense of the Dissertation Proposal**

Students must defend the dissertation proposal in a meeting that begins with a public presentation and continues with an oral examination by the dissertation committee. The examination will address the proposed dissertation topic (problem definition and scope), relevant literature, and research method. The dissertation committee must sign the “Defense of the Dissertation Proposal form” to indicate approval and then submit the form for the signature of the doctoral program director and the department chair. The approved Defense of the Dissertation Proposal form must be forwarded to the dean of The Graduate College. The dissertation proposal must be approved and the Defense of the Dissertation Proposal form must be on file in The Graduate College before any student can advance to candidacy and begin dissertation research.

**Recommendation for Advancement to Candidacy**

The dissertation committee recommends the applicant for advancement to candidacy to the doctoral program director, the department chair, and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been met. To be eligible for admission to candidacy the student must have successfully completed the comprehensive exam, completed all course work, and successfully defended the dissertation proposal.

**Dissertation Research and Writing**

All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of the *Publication Manual of the American Psychological Association*.

**Dissertation Enrollment Requirements**

Any time a student is receiving official guidance on the dissertation, the student must be enrolled in a dissertation course. A student must maintain continuous enrollment in dissertation hours every term from the time they advance to candidacy until the dissertation is defended and approved. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred. Students must enroll in a minimum of 12 dissertation credit hours.

**Fee Reduction**

A doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Dissertation Time Limit**

Students must complete the dissertation within five (5) years of advancement to candidacy. The student’s dissertation advisor, with the student’s dissertation committee, will review the student’s progress annually.

**Dissertation Advisor and dissertation committee**

The dissertation committee must be composed of four approved doctoral graduate faculty members. The doctoral student must select a minimum of four committee members, one of which must be outside the program. The chair of the dissertation committee must be from the program. All committee members must hold at least associate doctoral faculty status, and chairs must hold core doctoral faculty status. To form the dissertation committee, the “Dissertation Committee Request form” must be completed and signed by the student, committee members, committee chair, doctoral program director, and the department chair and then forwarded to the dean of The Graduate College for approval and signature. The required Dissertation Committee Request form may be obtained from The Graduate College website.

**Committee Changes**

Any changes to the dissertation committee must be submitted for approval to the dissertation advisor, the doctoral program director, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty (60) days before the final dissertation defense. The “Dissertation Advisor/Committee Member Change Request form” may be obtained from The Graduate College website.

**Defense of the Dissertation**

All dissertations must meet the following requirements as judged by the student’s dissertation committee:

1. a systematic investigation of a problem,
2. informed by previous theory and research,
3. that adds to the body of knowledge in the area of investigation, and
4. is presented in a form capable of dissemination to scholars and practitioners.

Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. Students must defend the dissertation in a meeting that begins with a public presentation and continues with an oral exam by the dissertation committee. Before scheduling the final oral exam, the student must have received approval of the dissertation advisor. A completed dissertation defense report must be submitted according to the schedule posted by the dean of The Graduate College and no later than ten days before the date of graduation. The student must complete all aspects of the dissertation, including successful defense and submission of the dissertation to The Graduate College, within five (5) years of advancement to candidacy.

**Approval and Submission of the Dissertation and Abstract**

The approval of the dissertation and abstract requires positive votes from the dissertation advisor and from a majority of the dissertation committee members. Once the committee has approved the dissertation, one copy of the dissertation and the signed “Committee Approval form” must be submitted to the dean of The Graduate College for final approval. Refer to the *Graduate College Guide to Preparing and Submitting a Thesis or Dissertation* for specific guidelines.
Doctoral level courses in Developmental Education: CI (p. 805), DE (p. 806), ENG (p. 808), MATH (p. 809), RDG (p. 814)

Courses Offered

Curriculum and Instruction (CI)
CI 7101. Introduction to the Research Experience.
This course is designed to introduce students to the department and to the ongoing research activities of its faculty. Emphasis is placed on identifying and coordinating opportunities for joint research and scholarship among faculty and students. Students must enroll in the course for three semesters before dissertation.

about Introduction to the Research Experience
1 Credit Hour. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CI 7302. Research Methods and Measurement in Education.
This course provides a comprehensive introduction to research methods and fundamental measurement issues in education and the behavioral sciences. The course focuses on measurement, research design, and statistical modeling/analysis in non-experimental and experimental research. Concurrent enrollment allowed in CI 7351 and CI 7352.

about Research Methods and Measurement in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclusive from Graduate GPA
Grade Mode: Standard Letter

CI 7303. Educational and Psychological Measurement and Assessment.
Philosophical and empirical foundations of measurement, assessment, testing, and evaluation. Topics include philosophical and mathematical foundations in research; empirical levels and measurement description; test construction; observational rating scales; measurement interpretation; social, legal, and ethical implications; item analysis/refinement for scale performance; reliability and validity evidence; and standardized and placement tests.

about Educational and Psychological Measurement and Assessment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 7310. Teaching in College.
Teaching strategies for teaching/instructional assistants focused on creating syllabi, adapting to diverse student populations, collaborating with colleagues and staff; implementing active learning strategies; fostering assigned reading; assessing learning; and integrating technology. This course does not earn graduate degree credit. Graded on a credit (CR), no credit (F) basis.

about Teaching in College
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

CI 7326. Grant Development and Management.
Course focuses on developing competitive grant proposals and understanding grant management resources. Strategies will encompass locating funding sources, evaluating proposals, developing proposals and budgets, and methods of meeting accountability requirements.

about Grant Development and Management
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 7351. Beginning Quantitative Research Design and Analysis.
This course introduces students to quantitative research design and analysis. Topics include descriptive statistics; sampling techniques; statistical inference, including the null hypothesis, significance tests, and confidence intervals; and causal-comparative analyses, including t-test and ANOVA. Departmental Approval required. Prerequisite or concurrent enrollment in: CI 7302.

about Beginning Quantitative Research Design and Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CI 7352. Beginning Qualitative Design and Analysis.
This course introduces students to the qualitative paradigm. Topics include distinctive features, alternative qualitative traditions, purposeful sampling, common data collection methods, inductive analysis, the role of the researcher, and evaluating qualitative research. Prerequisite: CI 7302 or can be taken concurrently. Departmental approval required.

about Beginning Qualitative Design and Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CI 7353. Intermediate Quantitative Research Design and Analysis.
This course focuses on intermediate quantitative research design and statistical methods of data analysis related to problems in education, psychology, sociology, and biological sciences. The general linear model based univariate and selected multivariate statistical techniques are examined including theory/purpose, logic, practical implications, and interpretation of various analytic techniques.

about Intermediate Quantitative Research Design and Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

CI 7354. Intermediate Qualitative Design and Analysis.
This course focuses on issues in design and implementation of qualitative research. Topics include influence of alternative traditions, literature in qualitative research, access to the field and ethical issues, researcher-participant relationships, purposeful sampling strategies, inductive analysis procedures, developing theory, and reporting research.

about Intermediate Qualitative Design and Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
CI 7355. Mixed Methods in Research and Evaluation.
This course will cover mixed methods research designs that can be used in the evaluation of educational interventions and programs. Topics include mixed methods research designs; program evaluation models; quantitative and qualitative data analysis and interpretation; reading mixed methods research articles; and writing mixed methods research proposals and evaluation reports. Prerequisite: ED 7351; ED 7352.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Mixed Methods in Research and Evaluation

CI 7358. Theoretical and Conceptual Frameworks in Qualitative Research.
Intended for those versed in current paradigmatic and epistemological states of human inquiry, presenting an opportunity to design a research project and to address the major issues of a research career. Prerequisites: ED 7352, ED 7354.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Theoretical and Conceptual Frameworks in Qualitative Research

CI 7359. Seminar in Quantitative Research.
This course is a small group seminar that focuses on analytic strategies specific to the doctoral student’s dissertation topic. Examples include structural equation modeling, hierarchical linear modeling, log linear modeling, non-parametric analyses, factor analysis, factorial analysis of variance, and other multivariate statistical methods. Prerequisite: Seminar in Quantitative Research  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter  
about Seminar in Quantitative Research

CI 7360. Designing Educational Research.
Students identify problems in developmental education and develop a strategic proposal to apply to these problems. Students then, create an evaluation plan to assess the implementation of their proposal. Students develop skills in critiquing research reports and in synthesizing research from developmental education. Prerequisite: ED 7353 or ED 7354.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Designing Educational Research

CI 7375. Directed Research.
Students will participate in a doctoral faculty member’s research team assisting in completing a research study from identifying a researchable topic, reviewing the literature, producing research questions, designing research and methodology, analyzing results, drawing conclusions and implications, and producing a publishable article draft. This course is repeatable once. Prerequisite: Intermediate level research classes and four specialization courses.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Directed Research

CI 7386. Directed Research.
This topic offers an in-depth study of systematic instructional design emphasizing the selection and use of appropriate media for delivering instruction to maximize student learning. Special emphasis in this topic is on the leader’s role in influencing the use of technology.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Topics in Instructional Technology

Original research and writing in Development Education to be accomplished under direct supervision of the dissertation chair. While conducting research and writing, students must be continuously enrolled. Prerequisite: Admitted to doctoral candidacy.  
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.  
Course Attribute(s): Topics  
Grade Mode: Credit/No Credit  
about Dissertation

DE 7299. Dissertation in Developmental Education.
Original research and writing in Development Education to be accomplished under direct supervision of the dissertation chair. While conducting research and writing, students must be continuously enrolled. Prerequisite: Admitted to doctoral candidacy.  
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Credit/No Credit  
about Dissertation in Developmental Education

DE 7301. Understanding Developmental Education Learners in a Diverse Society.
This course identifies the evolution, characteristics, demographics, and needs of developmental education learners. Emphasis is placed on understanding internal factors, including the cognitive, affective, and psychosocial needs of these students, as well as on analyzing external factors, including the social, political and institutional forces that impact developmental learners’ educational experiences.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter  
about Understanding Developmental Education Learners in a Diverse Society
DE 7302. Policy and Politics in Developmental Education.
This course addresses the policy and politics of planning, funding, implementing, and evaluating Developmental Education programs in postsecondary education. Readings and discussions focus on current and historical issues relevant to addressing the academic needs of educationally disadvantaged students from the perspective of researchers, program directors, policy analysts, and instructors. about Policy and Politics in Developmental Education
Grade Mode: Standard Letter

DE 7303. Teaching and Learning in Developmental Education.
The course focuses on the institutional development, intellectual development, learner development, and self-development for effective teaching and learning in developmental education. Topics include instructional and learner theories, pedagogies, assessment and evaluation techniques, and best practices for instruction and intervention.
about Teaching and Learning in Developmental Education
Grade Mode: Standard Letter

DE 7304A. Curriculum Design in Developmental Education.
This course focuses on principles and processes of curriculum design and implementation in developmental education contexts, including examination of emerging research and issues. The course pedagogy also engages students in independent curriculum research, planning, and problem-solving.
about Curriculum Design in Developmental Education
Grade Mode: Standard Letter

DE 7304B. Theory and Research of Digital Literacies.
This course focuses on understanding the complex relationships between technology, teaching, and learning in varied developmental education environments. Tools and strategies for planning, integrating, and assessing technology-supported instruction are explored within frameworks linking theory to practice.
about Theory and Research of Digital Literacies
Grade Mode: Standard Letter

DE 7304C. Student Motivation and Self-Regulation.
This course focuses on research-based theories of student motivation and self-regulation and highlights practical applications of these theories for students in developmental education contexts.
about Student Motivation and Self-Regulation
Grade Mode: Standard Letter

DE 7304D. Transformative Learning.
This course introduces students to the core principles of transformative learning. The course is a theory-driven, project-based advanced class designed to enable students to develop theoretical perspectives, engage in intensive practice, and understand the use of transformative learning for applications with postsecondary individuals, groups, and organizations.
about Transformative Learning
Grade Mode: Standard Letter

DE 7304E. Current Topics in Motivation Intervention Research.
In this course, we will analyze, synthesize, discuss, and apply cutting-edge research on various types of motivation interventions in education. Emphasis will be placed on theory, research, and practice in postsecondary educational settings and developmental education contexts.
about Current Topics in Motivation Intervention Research
Grade Mode: Standard Letter

DE 7305. Multicultural Education in a P-16 Context.
This course uses critical multicultural framework to trace the evolution of the developmental learner in a P-16 educational system. Students in this examine school practices and policies in an attempt to map the educational trajectory and improve the educational experiences of P-16 underrepresented and underserved students.
about Multicultural Education in a P-16 Context
Grade Mode: Standard Letter

DE 7321. The Community College.
Introduction to community college and to its roles and functions in American education. Special attention will be directed to evolution, development and patterns of organization, purposes, programs, personnel and current issues of the community college.
about The Community College
Grade Mode: Standard Letter

DE 7322. Learning Support Centers in Postsecondary Settings.
The course explores the learning assistance movement in postsecondary settings including its history, leaders, and current research. Topics include program planning; leadership, organization, and management; human and financial resources; facilities and equipment; legal responsibilities; equal opportunity and access; diversity; ethics; campus and community relations; and assessment and evaluation.
about Learning Support Centers in Postsecondary Settings
Grade Mode: Standard Letter
The course focuses on Learning Disabilities (LD) and Executive Function (EF) Disorders and their nature, prevalence, and significance in postsecondary environments. Topics include theories about the origins and nature of LD and EF, development across the lifespan, characteristics of individuals, and approaches to service, delivery and teaching.
Grade Mode: Standard Letter

DE 7324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking skills in the college and adult classroom. Topics will include variables in teaching and learning, methods of assessment, and approaches to instruction. Students who have taken EDP 5371 or DAE 5371 cannot take this course for doctoral credit.
Grade Mode: Standard Letter

DE 7325. Advising Developmental Students.
The course will focus on theories and techniques of advising and helping skills for developmental students enrolled in postsecondary education. Didactic and experiential activities will provide students enrolled in the course with opportunities to learn and practice skill development in academic advising, helping, and communicating.
Grade Mode: Standard Letter

DE 7330. Managing Developmental Education Programs.
In this course, students will learn the theoretical and practical elements of management of developmental education programs in higher education. Readings and discussions focus generally on best practices in higher education leadership and specifically on best practices in leadership and management in developmental education.
Grade Mode: Standard Letter

DE 7380. Practicum.
Students seeking the Ed.D. degree must complete a one semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.
Grade Mode: Credit/No Credit

Current paradigmatic and epistemological states of human inquiry are discussed presenting an opportunity to examine educational inquiry, create research knowledge related to the current state of the academy, and examine the issues of a research career.
Grade Mode: Standard Letter

Original research and writing in Developmental Education to be accomplished under direct supervision of the dissertation chair. While conducting research and writing, students must be continuously enrolled. Prerequisite: Admitted to doctoral candidacy.
Grade Mode: Credit/No Credit

ENG 7300. Language Problems in a Multicultural Environment.
An introduction to the study of multicultural language and linguistics with descriptive, psychological, social, and semantic emphases.
Grade Mode: Standard Letter
ENG 7314. Specializations in Professional and Technical Communication.
Topics.
Provides theoretical and practical information for specialized types of
technical and professional communication.
Grade Mode: Standard Letter
about Specializations in Professional and Technical Communication
Topics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 7316. Foundations in Rhetoric and Composition.
A course providing students with theoretical, pedagogical, and/or
methodological foundations in the field of rhetoric and composition.
Emphases vary but may include Contemporary Composition Pedagogy,
Basic Writing Theory and Practice, and Writing Assessment. Repeatable
with different emphases for up to nine hours of English credit.
Grade Mode: Standard Letter
about Foundations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 7317. Specializations in Rhetoric and Composition.
A course providing theoretical, pedagogical, methodological, and/or
or methodological foundations in specialized areas of rhetoric and
composition. Emphases vary but may include Writing Across the
Curriculum, Service Learning, Writing Center Theory and Practice,
Computers and Writing, Literacy. Repeatable with different emphases for
up to nine hours of English credit.
Grade Mode: Standard Letter
about Specializations in Rhetoric and Composition
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 7326. Contemporary Composition Theory.
Introduces students to the history of writing instruction in the university
and to the theories of writing and composing that inform contemporary
composition studies and the teaching of writing.
Grade Mode: Standard Letter
about Contemporary Composition Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

ENG 7383. Studies in Rhetorical Theory.
An introduction to classical and rhetorical theory in various areas of
English studies. Recent emphases include Teaching of Composition and
Technical Communication. Repeatable with different emphases for up to
nine hours of English credit.
Grade Mode: Standard Letter
about Studies in Rhetorical Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Mathematics (MATH)
MATH 7111. Seminar in Teaching.
Seminar on individual study projects concerned with selected problems
in the teaching of mathematics. This course does not count for degree
credit. Graded on a credit (CR), no-credit (F) basis.
Grade Mode: Standard Letter
about Seminar in Teaching
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MATH 7187. Seminar in Mathematics.
Students are required to attend weekly research seminars in
mathematics and to give at least one research presentation in the
seminar during the semester. This course is repeatable for credit.
Grade Mode: Standard Letter
about Seminar in Mathematics
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MATH 7188. Seminar in Mathematics Education.
Students are required to attend weekly research seminars in
Mathematics Education and to give at least one research presentation in the
seminar during the semester. This course is repeatable for credit.
Grade Mode: Standard Letter
about Seminar in Mathematics Education
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MATH 7199A. Dissertation in Mathematics Education.
Original research and writing in Mathematics Education to be
accomplished under direct supervision of the dissertation advisor.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

MATH 7299A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student’s dissertation
enrollments. The course can be repeated as necessary. The dissertation
credit (18 hours) will not be awarded until the dissertation is submitted
for binding. Prerequisite: completion of the core and required
concentration courses, or approval of student’s dissertation advisor.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7301. Studies in Mathematics.
This course provides basic foundations in Mathematics for students
entering the doctoral program in Mathematics Education. This course
may be repeated, but the course does not earn graduate degree credit
and cannot be used for degree credit.
Grade Mode: Credit/No Credit
about Studies in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MATH 7302. History of Mathematics.
A study of the development of mathematics and of the accomplishments of men and women who contributed to its progress.
about History of Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Mathematics

MATH 7303. Analysis I.
This course covers foundations of modern analysis. Topics include: sequences, LimSup, LImInf, Sigma Algebras of sets that include open and closed sets, sequences of functions, pointwise and uniform convergence, lower and upper semi-continuity, Borel sets, outer measure, and Lebesgue measure. Prerequisite: MATH 4315.
about Analysis I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Analysis I

MATH 7306. Current Research in Math Education.
This course surveys the various current social, political, and economic trends in local, state, national, and international settings that are related to research in Mathematics Education.
about Current Research in Math Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Current Research in Math Education

MATH 7307. Algebra I.
Applications of Algebra and topics in modern algebra, including permutation groups, symmetry groups, Sylow theorems, and select topics from Ring Theory. Prerequisite: MATH 4307.
about Algebra I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Algebra I

MATH 7309. Topology I.
A course in point-set topology emphasizing topological spaces, continuous functions, connectedness, compactness, countability, separability, metrizability, CWcomplexes, simplicial complexes, nerves, and dimension theory. Prerequisite: MATH 4330.
about Topology I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Topology I

MATH 7312. Analysis II.
This course covers the theory of integration with special emphasis on Lebesgue integrals. Topics include: Lebesgue integral, Bounded Convergence theorem, differentiation and integration, absolute continuity, and Lp spaces. Prerequisite: Math 7303.
about Analysis II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Analysis II

MATH 7313. Algebra II.
A study of the important algebraic structures of rings and fields. Topics covered include rings, ideals, modules, polynomial rings, Euclidean algorithm, finite fields, and field extensions. Topics also include an introduction to Galois Theory with an emphasis on the geometric applications. Prerequisite: MATH 7307.
about Algebra II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Algebra II

MATH 7317. Algebra II.
A study of the important algebraic structures of rings and fields. Topics covered include rings, ideals, modules, polynomial rings, Euclidean algorithm, finite fields, and field extensions. Topics also include an introduction to Galois Theory with an emphasis on the geometric applications. Prerequisite: MATH 7307.
about Algebra II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Algebra II

MATH 7319. Topology II: Algebraic Topology.
This course covers the fundamental concepts and tools of algebraic topology. Topics include the fundamental group, covering spaces, homotopy type, the higher homotopy groups, singular homology theory, and the computation of homology groups via exact sequences and applications. Prerequisite: MATH 7307 and MATH 7309.
about Topology II: Algebraic Topology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Topology II: Algebraic Topology

MATH 7321. Graph Theory.
Topics in this course include trees, connectivity of graphs, Eulerian graphs, Hamiltonian graphs, planar graphs, graph coloring, matchings, factorizations, digraphs, networks, and network flow problems. Prerequisite: MATH 3398.
about Graph Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Graph Theory

MATH 7324. Curriculum Design & Analysis.
This course examines, analyzes, and evaluates the various concepts, topics, methods, and techniques that are related to curriculum design in Mathematics Education for grade levels P-16.
about Curriculum Design & Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum Design & Analysis

MATH 7325. Statistics 1.
A study of the mathematical and probabilistic underpinnings of the techniques used in statistical inference. Topics covered include sampling, sampling distributions, confidence intervals, and hypothesis testing with an emphasis on both simulations and derivations. Prerequisite: Math 2321, Math 3305.
about Statistics 1
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Statistics 1

MATH 7328. Instructional Techniques & Assessments.
This course examines, analyzes, and evaluates the various concepts, topics, methods, and techniques of instruction in Mathematics Education and the related assessment procedures for each for grade levels P-20.
about Instructional Techniques & Assessments
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Techniques & Assessments
MATH 7331. Combinatorics.
This course is a study of fundamental principles of combinatorics. Topics include: permutations and combinations, the Pigeonhole principle, the principle of inclusion-exclusion, binomial and multinomial theorems, special counting sequences, partitions, posets, extremal set theory, generating functions, recurrence relations, and the Polya theory of counting. Prerequisite: MATH 3398.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7335. Statistics II: Linear Modeling.
A study of the formulation and statistical methodologies for fitting linear models. Topics include the general linear hypothesis, least-squares estimation, Gauss-Markov theorem, assessment of model fit, effects of departures from assumptions, model design, and criteria for selection of optimal regression models. Prerequisite: MATH 3377 and MATH 7325. About Statistics II: Linear Modeling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 7346. Quantitative Research Analysis in Mathematics Education.
This course surveys the various research techniques used in quantitative analysis for mathematics education and covers topics such as experimental design, statistical analysis, and use of appropriate design methodologies to achieve the strongest possible evidence to support or refute a knowledge claim. Prerequisite: MATH 3377 and MATH 7325. About Quantitative Research Analysis in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 7356A. Advanced Qualitative Research.
This course encompasses investigation, development, and demonstration of competence, design, and execution for mathematics education problems in qualitative research. Prerequisite: MATH 7346. About Advanced Qualitative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7356B. Advanced Qualitative Research.
This course encompasses investigation, development, and demonstration of competence, design, and execution for mathematics education problems in qualitative research. Prerequisite: ED 7352. About Advanced Qualitative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7356C. Action Research in Mathematics Education.
This course examines underlying theory and issues in action research model and the development of action research projects. Prerequisites: MATH 7346 or ED 7352. About Action Research in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7361. Seminar in Advanced Mathematics.
Material in course will vary with the interest of students and faculty. A detailed study of subject matter may be chosen from advanced areas of analysis; algebra; topology and geometry; applied mathematics; and probability and statistics. This course is repeatable for credit when subject matter varies. About Seminar in Advanced Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 7366A. Teaching Post-Secondary Students (Developmental Math, Service Courses, and Majors).
This course examines how to develop and teach post-secondary students. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models. Prerequisites: MATH 7306. About Teaching Post-Secondary Students (Developmental Math, Service Courses, and Majors)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
About Teaching Post-Secondary Students (Developmental Math, Service Courses, and Majors)

MATH 7366B. Teaching K-12 Students (Elementary, Middle School, and High School).
This course examines how to develop and teach K-12 students. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models. Prerequisite: MATH 7306. About Teaching K-12 Students (Elementary, Middle School, and High School)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
About Teaching K-12 Students (Elementary, Middle School, and High School)

MATH 7366C. Teaching Teachers (In-Service; Pre-Service).
This course examines how to prepare teachers of mathematics. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models. Prerequisite: MATH 7306. About Teaching Teachers (In-Service; Pre-Service)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
About Teaching Teachers (In-Service; Pre-Service)
MATH 7366D. Teaching Specialized Content.
This course will be an in-depth study of a specialized content area in mathematics with an emphasis on teaching. The specific content area will vary by instructor. Examples include Euclidean Simplex Geometry and Discrete Probability Spaces with Implications for Public School Curriculum.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Teaching Specialized Content
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7366E. Developmental Mathematics Curriculum.
This course surveys the research, development, and evaluation of the scope and sequence of developmental mathematics curriculum. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models.

- Course Attribute(s): Exclude from 3-peat Processing
- Grade Mode: Standard Letter
- about Developmental Mathematics Curriculum
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371A. Advanced Graph Theory.
Topics in this course include Turan’s problems, Ramsey theory, random graph theory, extremal graph theory, algebraic graph theory, domination of graphs, distance problems, and applications. Prerequisite: MATH 7321.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Advanced Graph Theory
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371B. Advanced Combinatorics.
Topics in this course include Block designs, Latin squares, combinatorial optimization problems, coding theory, matroids, difference sets, and finite geometry. Prerequisite: MATH 7331.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Advanced Combinatorics
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371C. Combinatorial Number Theory.
A study of fundamental techniques in combinatorial number theory. Topics will include Waring’s problem, additive number theory, and probabilistic methods in number theory. Prerequisite: MATH 7331.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Combinatorial Number Theory
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371D. Discrete Optimization.
A study of some fundamental techniques in discrete optimization. Topics include discrete optimization, linear programming, integer programming, integer nonlinear programming, dynamic programming, location problem, scheduling problem, transportation problem, postman problem, traveling salesman problem, matroids, and NP-completeness. Prerequisites: MATH 7321 and 7331.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Discrete Optimization
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371E. Algorithms and Complexity.
A study of some fundamental concepts of computability and complexity. Topics include polynomially bounded problems, NP-complete problems, exponentially hard problems, undecidable problems, and reducibility. Prerequisite: MATH 7331.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Algorithms and Complexity
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371F. Probabilistic Methods in Discrete Mathematics.
A study of some fundamental probabilistic techniques used to solve problems in graph theory, combinatorics, combinatorial number theory, combinatorial geometry, and algorithm. Topics include linearity of expectation, alterations, second moment, local lemma, correlation inequalities, martingales, Poisson paradigm, and pseudo-randomness. Prerequisites: MATH 7321 and 7331.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Probabilistic Methods in Discrete Mathematics
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course introduces fundamental concepts in logic, Boolean algebra, and binomial coefficients; and applications in different fields such as complexity of algorithms and network theory. Prerequisites: MATH 2472 and MATH 4307 with a grade of “C” or higher, or with departmental approval.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Applied Discrete Mathematics
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7371H. Combinatorial Networks.
Combinatorial Networks is an area of study of certain types of networks using combinatorial methods extensively. This course introduces fundamental basics as well as the latest development in this area of research. Prerequisite: MATH 5307/7307 with a grade of “C” or higher.

- Course Attribute(s): Topics
- Grade Mode: Standard Letter
- about Combinatorial Networks
- 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MATH 7375C. Time Series Analysis.
A study of the theory of time-dependent data. The analysis includes modeling, estimation, and testing; alternating between the time domain; using autoregressive and moving average models and the frequency domain; and using spectral analysis. Prerequisite: MATH 7335.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Time Series Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7375D. Advanced linear Modeling.
The course provides an extension of regression methodology to more general settings where standard assumptions for ordinary least squares are violated. Topics include generalized least squares, robust regression, bootstrap, regression in the presence of autocorrelated errors, generalized linear models, and logistic and Poisson regression. Prerequisite: MATH 7335.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Advanced linear Modeling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7378A. Problem Solving, Reasoning, and Proof.
A study of the fundamental concepts of problem solving, logic, set theory, and mathematical proof and applications of these concepts in mathematics curriculum for grades P-20. Prerequisite: MATH 7306.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Problem Solving, Reasoning, and Proof
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7378B. Connecting and Communicating Math.
This course examines one of the basic principles involved in mathematics education: Connecting and Communicating Mathematics. This fundamental theme will be reviewed, researched, and discussed. Prerequisite: MATH 7306.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Connecting and Communicating Math
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7378C. Representing Fundamental Math Ideas (Function, Data Analysis, and Enumeration).
This course examines the basic principles involved in mathematics education. The process of representing fundamental mathematical ideas will be reviewed, researched, and discussed. Prerequisite: MATH 7306.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Representing Fundamental Math Ideas (Function, Data Analysis, and Enumeration)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7378D. Math Technologies.
This course examines the basic principles involved in mathematics education: Technology. This fundamental theme will be reviewed, researched, and discussed. Prerequisite: MATH 7306.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Math Technologies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7378E. Developmental Mathematics Perspectives.
This course examines developmental mathematics-specific strands including technological course support and placement tools/decisions. Issues related to the first mathematics core course required of undergraduates will also be addressed.

Grade Mode: Standard Letter
Course Attribute(s): Topics
about Developmental Mathematics Perspectives
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7378F. Research on Mathematical Problem Solving in Secondary Schools.
In this course a careful study is made of elementary techniques for problem solving in a variety of domains, including algebra, number theory, combinatorics, geometry, and logic puzzles. Students will learn these techniques by actually working on a collection of problems in each of these areas. Students will read and examine research about various aspects of problem solving and research in math education that includes both teacher training and student learning.

Grade Mode: Standard Letter
Course Attribute(s): Exclude from 3-peat Processing
about Research on Mathematical Problem Solving in Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7385. Independent Study in Mathematics.
Student will work directly with a faculty member and develop in-depth knowledge in a specific topic area of mathematics. Topics vary according to student’s needs and demands. Repeatable with different emphasis.

Grade Mode: Standard Letter
about Independent Study in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 7386. Independent Study in Mathematics Education.
Student will work directly with a faculty member and develop in-depth knowledge in a specific topic area of Mathematics Education. Topics vary according to student’s needs and demands. Repeatable with different emphasis.

Grade Mode: Standard Letter
about Independent Study in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
MATH 7389. Internship.
Students will work under the supervision of a faculty member to gain practical knowledge in Mathematics Education. Student experience can come from industry, government agencies, or other sources but must directly apply to furthering knowledge of mathematics education or its application.
about Internship
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Internship

MATH 7396. Mathematics Education Research Seminar.
Collaborative research projects with faculty through identifying an educational issue, reviewing literature, creating a research question, designing a methodology, analyzing data, drawing conclusions, implications, and creating a draft of a publishable paper. Prerequisite: MATH 7356, and (ED 7352 or MATH 7346).
about Mathematics Education Research Seminar
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Mathematics Education Research Seminar

MATH 7399A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.
about Dissertation in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education

MATH 7599A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.
about Dissertation in Mathematics Education
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education

MATH 7699A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.
about Dissertation in Mathematics Education
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education

MATH 7999A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.
about Dissertation in Mathematics Education
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education

Reading (RDG)

RDG 7301. Theory and Research of Literacy.
This course examines the current theories and basic research of literacy development from psychological, cultural, linguistic, educational, and epistemological frameworks.
about Theory and Research of Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theory and Research of Literacy

RDG 7302. Theory and Research of College Basic Literacy.
This course examines basic literacy needs and instructional strategies for students within post-secondary institutions. Explored are etiologies; comparison of basic to academic literacy; analysis of instructional strategies and materials for developing phonemic awareness, decoding, vocabulary, fluency, and comprehending in single sources of information. Prerequisite: RDG 7301.
about Theory and Research of College Basic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theory and Research of College Basic Literacy

RDG 7303. Theory and Research of College Academic Literacy.
This course examines basic literacy needs and instructional strategies for students in college. Explored are etiologies; comparison of academic workplace, and new literacies; instructional strategies and materials for developing vocabulary, comprehending, and critical and strategic reading in multiple sources of information. Prerequisite: RDG 7301.
about Theory and Research of College Academic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theory and Research of College Academic Literacy

RDG 7304. Theory and Research of Literacy Instruction for Culturally and Linguistically Diverse Readers.
This course examines the historical and contemporary understandings of language acquisition and instruction; foundational knowledge of literacy research and cultural and linguistic difference; instructional practices and materials including culturally responsive instruction understanding linguistic differences, creating supportive literate environment, assessment, diagnosis, evaluation; and critical literacy. Prerequisites: RDG 7301, RDG 7302, RDG 7303.
about Theory and Research of Literacy Instruction for Culturally and Linguistically Diverse Readers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theory and Research of Literacy Instruction for Culturally and Linguistically Diverse Readers
RDG 7305. Theory and Research of College Literacy Assessment.
This course reviews literacy assessment theory, research, policy, and practice in pre-school through grade 20 including accountability, standard-based curriculum, cultural and linguistic effects, assessment driven instruction, reliability and validity, interpretation, and types of instruments: high-staked, placement, diagnostic, classroom tests, and qualitative instruments. Prerequisites: RDG 7301, RDG 7302, RDG 7303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Theory and Research of College Literacy Assessment

RDG 7306. Literacy Research Seminar.
Doctoral students participate in weekly research seminar that explore research and policy papers in literacy and literacy education, examine their methodology and conclusions, and consider additional research questions. Prerequisite: RDG 7301.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Literacy Research Seminar

RDG 7307A. New Literacy Studies.
This course focuses on the field of New Literacy Studies (NLS). This course will include an examination of diverse ways in which new technologies broaden and change the demands on what it means to be a literate citizen of the 21st century. Prerequisite: RDG 7301.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about New Literacy Studies

RDG 7307B. Community Literacy.
Purpose is to explore, understand, refine, and reflect on literacy as social practices within a community which informs effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project. Prerequisite: RDG 7301, RDG 7302 or RDG 7303.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Community Literacy

RDG 7307C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to examine theory, research, and practice of an integrated reading and writing approach to postsecondary literacy instruction.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Foundations of Integrated Reading & Writing Pedagogy

RDG 7307E. Theory, Research and Practice of Disciplinary Literature.
This course examines core principles of disciplinary literacy. Students will examine the theory, research and pedagogical practices of literacy across the disciplines with an emphasis on understanding the potential for post-secondary learners and developmental education practices.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter
about Theory, Research and Practice of Disciplinary Literature

Doctor of Philosophy (Ph.D.), Major in Developmental Education

Doctoral Program
The Department of Curriculum and Instruction in the College of Education at Texas State offers a Ph.D. in developmental education (DE) that produces researchers, university faculty, and scholars focused on building strong research and theoretical base for DE. The Ph.D. is designed to fill the urgent need for advanced research in an emerging field that serves those who are underprepared for postsecondary education.

Program Mission Statement
The doctoral program in developmental education within the Department of Curriculum and Instruction prepares future scholars, researchers, leaders, administrators, instructors, and practitioners in the field of developmental education. Both rigorous and supportive, the program aims to advance theory, research, and practice in multiple areas of developmental education — including developmental literacy, learning support, and developmental mathematics — by actively engaging students in teaching, scholarship, and professional service. As a multidisciplinary program, the faculty, staff, and students work collaboratively across various academic disciplines, diverse communities, and geographic boundaries.

Educational Goal
Major educational objectives for the programs include the following:

- To prepare DE professionals who engage in divergent and critical thinking, are culturally competent, and are skilled in maximizing technology applications for learning and communication;
- To prepare DE professionals who understand and can respond to the nature and needs of students who enroll in DE programs; the complexities of motivation, teaching, learning, and assessment in DE settings; the cultural, political, and social systems that create inequities in educational settings; and the structure and management of DE programs;
- To prepare DE professionals with sophisticated research skills that will enable them to critically evaluate DE programs and practices and implement research agendas that will inform practice and policy;
- To prepare DE professionals who will serve as leaders in the DE profession who can engage in institutional leadership, program administration, and innovative program development and evaluation that will promote systemic change and improvement.
Admission Policy

For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/deved.html.

Course Work

Advising

Advising in the doctoral program in developmental education takes three forms: the initial advisor, the program mentor, and the dissertation advisor. When students are first admitted, they are assigned an initial advisor who mentors them from entry through their first year benchmarks in the program. By the end of the first year, students formally ask a faculty member to be their program mentor who advises them from the end of their first year until their comprehensive exams. At a time no later than the completion of their comprehensive exams, students then select a dissertation advisor who is the chair of their dissertation committee, which must be formed at that time. These advising roles can be assumed by the same faculty member or different faculty members depending on students’ research interests and foci.

Semester Hour Requirements

| Course Work grounded in developmental education theory and research | 12 |
| Research methodology | 12 |
| Specialization in developmental education literacy, developmental education mathematics, or learning support | 21 |
| Elective choices that reflect significant issues in developmental education and research methodology | 9 |
| Dissertation | 12 |
| **Total Hours** | **66** |

Students may transfer a maximum of six semester hours of doctoral-level credit earned at another accredited institution if it bears a letter grade of “B” or higher pending approval by the dean of The Graduate College. In some cases, a student may need to complete additional hours before being allowed to advance to candidacy. The student must satisfy the residency requirement of 18 graduate credit hours.

Course Work Requirements

| Required Foundation Courses |
| DE 7301 | Understanding Developmental Education Learners in a Diverse Society | 3 |
| DE 7302 | Policy and Politics in Developmental Education | 3 |
| DE 7303 | Teaching and Learning in Developmental Education | 3 |
| DE 7305 | Multicultural Education in a P-16 Context | 3 |

| Required Research Courses |
| CI 7101 | Introduction to the Research Experience | 1 |
| CI 7102 | Introduction to the Research Experience | 1 |
| CI 7351 | Beginning Quantitative Research Design and Analysis | 3 |
| CI 7352 | Beginning Qualitative Design and Analysis | 3 |
| CI 7386 | Directed Research | 3 |

| Research Elective |
| Select three of the following: | 9 |

Specialization Elective Courses

Courses from several College of Education departments are approved as prescribed electives and are listed below. The College of Education and the dean of The Graduate College may approve additional electives. Students should contact the doctoral program director for additional electives.

Program Plan
In their first term, students will construct a program plan with the assistance of their initial advisor. The program plan is a focused, detailed description of the doctoral student’s proposed course work, specialization, and goals for the doctoral program. The program plan will be submitted to the doctoral program plan committee for approval and suggestions. The program plan must include the following:

- goal statement that includes doctoral study goals (including specialization) and future professional goals
- professional curriculum vitae
- course work plan. This is the appropriate place for petitioning for course transfer for graduate work done previously (there is a 5-year time limit on any course work counting toward candidacy).

The student should work with their advisor for direction while completing the program plan prior to submitting it to the program plan committee. It is due to the program plan committee by November 15 in the fall term of the student’s first year of study. After the program plan committee reviews the student’s program plan, a meeting may be scheduled with the student for further review of the plan.

Advancement to Candidacy
Application for Advancement to Candidacy
Once all course work (except for dissertation course work) has been completed, the comprehensive exams have been passed, and the dissertation proposal has been successfully defended, doctoral students will apply for advancement to candidacy. Candidacy must be achieved within five (5) years of initiating program course work. No credit will be applied toward the doctoral degree for course work completed more than five (5) years before the date on which the student is advanced to candidacy. This time limit applies toward credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for a time extension must be made to the program, which in turn submits a recommendation to The Graduate College. Achieving doctoral candidacy allows the student to begin doctoral dissertation research. Candidacy forms are found here: http://www.gradcollege.txstate.edu/Fac_Resources/Forms.html.

Grade-Point Requirements for Advancement to Candidacy
To be eligible for advancement to candidacy, the student must have a minimum GPA of 3.0. No grade earned below a “B” on any graduate course may apply toward a doctorate at Texas State. Incomplete grades must be cleared through The Graduate College before a student can be approved for advancement to candidacy.

Comprehensive Exams
In the doctoral program in developmental education, the comprehensive exam is designed both to prepare students for the dissertation stage as well as demonstrate their readiness for dissertation research, and is achieved through a process that reflects the kinds of tasks that are a part of the vast majority of dissertations.

There are TWO options for your comprehensive exams. Students and their program mentors will discuss each and decide which option better aligns with the student’s background, program goals, and dissertation goals. This information will be considered by the program plan committee as well.

Neither option is “greater” or “lesser” than the other, and both options are designed to cover the same processes and achieve the same control over salient aspects of empirical research. The main difference is that the Two-project Option has a more scaffolded and formal literature review, while the One-project Option includes data collection and analysis.

Overview of Comprehensive Exam Options
With advisor and program plan committee's assistance, the student chooses which comprehensive exam option to undertake:

Two-project Option of Comprehensive Exams
In the Two-project Option, students will undertake two parts to the comprehensive exam. Part I is the Control of Literature and Part II is the Control of Research. Part I, Control of Literature, is a structured, critical review of literature in the field. Part II, Control of Research, is an exhaustive proposal for an empirical research study. Part I must be completed before Part II and students must successfully complete both Part I and Part II in order to be admitted to candidacy.

One-project Option of Comprehensive Exams
In the One-project Option of Comprehensive Exams, students complete all aspects of a small-scale empirical research study — the Pilot Research Project — including research design, literature support, original data collection and analysis, and producing a written manuscript of publishable quality. Students must pass both the written portion (the manuscript) and the oral portion (the committee defense) of the project in order to be admitted to candidacy.

Dissertation Proposal
At a time no later than the completion of their comprehensive exams, students must select a dissertation advisor. After selecting their dissertation advisor, and before beginning their dissertation proposal, students will form a dissertation committee that will provide technical support for the inception, conduct, and completion of the dissertation research study and evaluate the final product. The student will undertake the research and write the dissertation under the guidance of their dissertation advisor. The dissertation proposal must be successfully defended and approved by the dean of The Graduate College before a student can be advanced to candidacy. Information about the dissertation procedures can be found in the Dissertation tab.
Students must submit the dissertation proposal and one copy of the official "Dissertation Proposal form" (available on The Graduate College website) to the dissertation advisor. After obtaining committee members' signatures, the student must submit the dissertation proposal and dissertation proposal form to the program director for signature. The form also requires evidence of the IRB approval for any research involving human subjects. The program director will then forward the dissertation proposal and form through the department chair to the dean of The Graduate College for final approval. Final approval must be received before proceeding with the defense of the dissertation proposal. The Dissertation Proposal form may be obtained from The Graduate College website.

Defense of the Dissertation Proposal
Students must defend the dissertation proposal in a meeting that begins with a public presentation and continues with an oral examination by the dissertation committee. The examination will address the proposed dissertation topic (problem definition and scope), relevant literature, and research method. The dissertation committee must sign the "Defense of the Dissertation Proposal form" to indicate approval and then submit the form for the signature of the doctoral program director and the department chair. The approved Defense of the Dissertation Proposal form must be forwarded to the dean of The Graduate College. The dissertation proposal must be approved and the Defense of the Dissertation Proposal form must be on file in the office of The Graduate College before any student can advance to candidacy and begin dissertation research.

Recommendation for Advancement to Candidacy
The dissertation committee recommends the applicant for advancement to candidacy to the doctoral program director, the department chair, and the dean of The Graduate College. The dean of The Graduate College certifies the applicant for advancement to candidacy once all requirements have been met. To be eligible for admission to candidacy the student must have successfully completed the comprehensive exam, completed all course work, and successfully defended the dissertation proposal.

Dissertation Research and Writing
All doctoral students are required to complete a dissertation. The dissertation must be an original contribution to scholarship and the result of independent investigation in a significant area. Preparation of the dissertation must follow the latest edition of the Publication Manual of the American Psychological Association.

Dissertation Enrollment Requirements
Any time a student is receiving official guidance on the dissertation, the student must be enrolled in a dissertation course. A student must maintain continuous enrollment in dissertation hours every term from the time they advance to candidacy until the dissertation is defended and approved. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the term in which the degree is to be conferred. Students must enroll in a minimum of 12 dissertation credit hours.

Fee Reduction
A doctoral degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Dissertation Time Limit
Students must complete the dissertation within five (5) years of advancement to candidacy. The student’s dissertation advisor, with the student’s dissertation committee, will review the student’s progress annually.

Dissertation Advisor and Dissertation Committee
The dissertation committee must be composed of four approved doctoral graduate faculty members. The doctoral student must select a minimum of four committee members, one of which must be outside the program. The chair of the dissertation committee must be from the program. All committee members must hold at least associate doctoral faculty status, and chairs must hold core doctoral faculty status. To form the dissertation committee, the "Dissertation Committee Request form" must be completed and signed by the student, committee members, committee chair, doctoral program director, and the department chair and then forwarded to the dean of The Graduate College for approval and signature. The required Dissertation Committee Request form may be obtained from The Graduate College website.

Committee Changes
Any changes to the dissertation committee must be submitted for approval to the dissertation advisor, the doctoral program director, the department chair, and the dean of The Graduate College. Changes must be submitted no less than sixty (60) days before the final dissertation defense. The "Dissertation Advisor/Committee Member Change Request form" may be obtained from The Graduate College website.

Defense of the Dissertation
All dissertations must meet the following requirements as judged by the student’s dissertation committee:

1. a systematic investigation of a problem,
2. informed by previous theory and research,
3. that adds to the body of knowledge in the area of investigation, and
4. is presented in a form capable of dissemination to scholars and practitioners.

Students must pass the final oral examination that covers the dissertation and the general field of the dissertation. Students must defend the dissertation in a meeting that begins with a public presentation and continues with an oral exam by the dissertation committee. Before scheduling the final oral exam, the student must have received approval of the dissertation advisor. A completed "Dissertation Defense Report form" must be submitted according to the schedule posted by the dean of The Graduate College and no later than ten days before the date of graduation. The student must complete all aspects of the dissertation, including successful defense and submission of the dissertation to The Graduate College, within five (5) years of advancement to candidacy.

Approval and Submission of the Dissertation and Abstract
The approval of the dissertation requires positive votes from the dissertation advisor and from a majority of the dissertation committee.
members. Once the committee has approved the dissertation, one copy of the dissertation and the signed "Committee Approval form" must be submitted to the dean of The Graduate College for final approval. Refer to the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation for specific guidelines.

Doctoral level courses in Developmental Education: CI (p. 820), DE (p. 821), ENG (p. 823), MATH (p. 824), RDG (p. 829)

Courses Offered
Curriculum and Instruction (CI)

CI 7101. Introduction to the Research Experience.
This course is designed to introduce students to the department and to the ongoing research activities of its faculty. Emphasis is placed on identifying and coordinating opportunities for joint research and scholarship among faculty and students. Students must enroll in the course for three semesters before dissertation.

Grade Mode: Standard Letter

1 Credit Hour. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7301. Grant Development and Management.
Course focuses on developing competitive grant proposals and understanding grant management resources. Strategies will encompass locating funding sources, evaluating proposals, developing proposals and budgets, and methods of meeting accountability requirements.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7302. Research Methods and Measurement in Education.
This course provides a comprehensive introduction to research methods and fundamental measurement issues in education and the behavioral sciences. The course focuses on measurement, research design, and statistical modeling/analysis in non-experimental and experimental research. Concurrent enrollment allowed in CI 7351 and CI 7352.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7303. Educational and Psychological Measurement and Assessment.
Philosophical and empirical foundations of measurement, assessment, testing, and evaluation. Topics include philosophical and mathematical foundations in research; empirical levels and measurement description; test construction; observational rating scales; measurement interpretation; social, legal, and ethical implications; item analysis/refinement for scale performance; reliability and validity evidence; and standardized and placement tests.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7310. Teaching in College.
Teaching strategies for teaching/instructional assistants focused on creating syllabi, adapting to diverse student populations, collaborating with colleagues and staff; implementing active learning strategies; fostering assigned reading; assessing learning; and integrating technology. This course does not earn graduate degree credit. Graded on a credit (CR), no credit (F) basis.

Grade Mode: Leveling/Assistantships

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7326. Grant Development and Management.
Course focuses on developing competitive grant proposals and understanding grant management resources. Strategies will encompass locating funding sources, evaluating proposals, developing proposals and budgets, and methods of meeting accountability requirements.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7351. Beginning Quantitative Research Design and Analysis.
This course introduces students to quantitative research design and analysis. Topics include descriptive statistics; sampling techniques; statistical inference, including the null hypothesis, significance tests, and confidence intervals; and causal-comparative analyses, including t-test and ANOVA. Departmental Approval required. Prerequisite or concurrent enrollment in: CI 7302.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7352. Beginning Qualitative Design and Analysis.
This course introduces students to the qualitative paradigm. Topics include distinctive features, alternative qualitative traditions, purposeful sampling, common data collection methods, inductive analysis, the role of the researcher, and evaluating qualitative research. Prerequisite: CI 7302 or can be taken concurrently. Departmental approval required.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7353. Intermediate Quantitative Research Design and Analysis.
This course focuses on intermediate quantitative research design and statistical methods of data analysis related to problems in education, psychology, sociology, and biological sciences. The general linear model based univariate and selected multivariate statistical techniques are examined including theory/purpose, logic, practical implications, and interpretation of various analytic techniques.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

CI 7354. Intermediate Qualitative Design and Analysis.
This course focuses on issues in design and implementation of qualitative research. Topics include influence of alternative traditions, literature in qualitative research, access to the field and ethical issues, researcher-participant relationships, purposeful sampling strategies, inductive analysis procedures, developing theory, and reporting research.

Grade Mode: Standard Letter

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
CI 7355. Mixed Methods in Research and Evaluation.
This course will cover mixed methods research designs that can be used in the evaluation of educational interventions and programs. Topics include mixed methods research designs; program evaluation models; quantitative and qualitative data analysis and interpretation; reading mixed methods research articles; and writing mixed methods research proposals and evaluation reports. Prerequisite: ED 7351; ED 7352.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Mixed Methods in Research and Evaluation

CI 7358. Theoretical and Conceptual Frameworks in Qualitative Research.
Intended for those versed in current paradigmatic and epistemological states of human inquiry, presenting an opportunity to design a research project and to address the major issues of a research career. Prerequisites: ED 7352, ED 7354.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Theoretical and Conceptual Frameworks in Qualitative Research

CI 7359. Seminar in Quantitative Research.
This course is a small group seminar that focuses on analytic strategies specific to the doctoral student’s dissertation topic. Examples include structural equation modeling, hierarchical linear modeling, log linear modeling, non-parametric analyses, factor analysis, factorial analysis of variance, and other multivariate statistical methods.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

about Seminar in Quantitative Research

CI 7360. Designing Educational Research.
Students identify problems in developmental education and develop a strategic proposal to apply to these problems. Students, then, create an evaluation plan to assess the implementation of their proposal. Students develop skills in critiquing research reports and in synthesizing research from developmental education. Prerequisite: ED 7353 or ED 7354.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Designing Educational Research

CI 7378. Independent Study.
Individual problems or topics will be designed and completed to emphasize selected areas of study in the Department of Curriculum and Instruction. May be repeated for additional credit at the discretion of the program coordinator.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Independent Study

CI 7386. Directed Research.
Students will participate in a doctoral faculty member’s research team assisting in completing a research study from identifying a researchable topic, reviewing the literature, producing research questions, designing research methodology, analyzing results, drawing conclusions and implications, and producing a publishable article draft. This course is repeatable once. Prerequisite: Intermediate level research classes and four specialization courses.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Directed Research

CI 7387. Directed Research.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Directed Research

CI 7388. Directed Research.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Directed Research

CI 7389A. Topics in Instructional Technology.
This topic offers an in-depth study of systematic instructional design emphasizing the selection and use of appropriate media for delivering instruction to maximize student learning. Special emphasis in this topic is on the leader’s role in influencing the use of technology.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics

Grade Mode: Standard Letter

about Topics in Instructional Technology

Developmental Education (DE)

Original research and writing in Development Education to be accomplished under direct supervision of the dissertation chair. While conducting research and writing, students must be continuously enrolled. Prerequisite: Admitted to doctoral candidacy.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

Course Attribute(s): Topics

Grade Mode: Credit/No Credit

about Dissertation

DE 7299. Dissertation in Developmental Education.
Original research and writing in Development Education to be accomplished under direct supervision of the dissertation chair. While conducting research and writing, students must be continuously enrolled. Prerequisite: Admitted to doctoral candidacy.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Credit/No Credit

about Dissertation in Developmental Education

DE 7301. Understanding Developmental Education Learners in a Diverse Society.
This course identifies the evolution, characteristics, demographics, and needs of developmental education learners. Emphasis is placed on understanding internal factors, including the cognitive, affective, and psychosocial needs of these students, as well as on analyzing external factors, including the social, political and institutional forces that impact developmental learners’ educational experiences.

about Understanding Developmental Education Learners in a Diverse Society

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter

about Understanding Developmental Education Learners in a Diverse Society
DE 7302. Policy and Politics in Developmental Education.
This course addresses the policy and politics of planning, funding, implementing, and evaluating Developmental Education programs in postsecondary education. Readings and discussions focus on current and historical issues relevant to addressing the academic needs of educationally disadvantaged students from the perspective of researchers, program directors, policy analysts, and instructors.

Grade Mode: Standard Letter

about Policy and Politics in Developmental Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

DE 7303. Teaching and Learning in Developmental Education.
The course focuses on the institutional development, intellectual development, learner development, and self-development for effective teaching and learning in developmental education. Topics include instructional and learner theories, pedagogies, assessment and evaluation techniques, and best practices for instruction and intervention.

Grade Mode: Standard Letter

about Teaching and Learning in Developmental Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

DE 7304A. Curriculum Design in Developmental Education.
This course focuses on principles and processes of curriculum design and implementation in developmental education contexts, including examination of emerging research and issues. The course pedagogy also engages students in independent curriculum research, planning, and problem-solving.

Grade Mode: Standard Letter

about Curriculum Design in Developmental Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics

DE 7304B. Theory and Research of Digital Literacies.
This course focuses on understanding the complex relationships between technology, teaching, and learning in varied developmental education environments. Tools and strategies for planning, integrating, and assessing technology-supported instruction are explored within frameworks linking theory to practice.

Grade Mode: Standard Letter

about Theory and Research of Digital Literacies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics

DE 7304C. Student Motivation and Self-Regulation.
This course focuses on research-based theories of student motivation and self-regulation and highlights practical applications of these theories for students in developmental education contexts.

Grade Mode: Standard Letter

about Student Motivation and Self-Regulation

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

DE 7304D. Transformative Learning.
This course introduces students to the core principles of transformative learning. The course is a theory-driven, project-based advanced class designed to enable students to develop theoretical perspectives, engage in intensive practice, and understand the use of transformative learning for applications with postsecondary individuals, groups, and organizations.

Grade Mode: Standard Letter

about Transformative Learning

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

DE 7305. Multicultural Education in a P-16 Context.
This course uses critical multicultural framework to trace the evolution of the developmental learner in a P-16 educational system. Students in this examine school practices and policies in an attempt to map the educational trajectory and improve the educational experiences of P-16 underrepresented and underserved students.

Grade Mode: Standard Letter

about Multicultural Education in a P-16 Context

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

DE 7311. The Community College.
Introduction to community college and to its roles and functions in American education. Special attention will be directed to evolution, development and patterns of organization, purposes, programs, personnel and current issues of the community college.

Grade Mode: Standard Letter

about The Community College

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

DE 7322. Learning Support Centers in Postsecondary Settings.
The course explores the learning assistance movement in postsecondary settings including its history, leaders, and current research. Topics include program planning; leadership, organization, and management; human and financial resources; facilities and equipment; legal responsibilities; equal opportunity and access; diversity; ethics; campus and community relations; and assessment and evaluation.

Grade Mode: Standard Letter

about Learning Support Centers in Postsecondary Settings

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
The course focuses on Learning Disabilities (LD) and Executive Function (EF) Disorders and their nature, prevalence, and significance in postsecondary environments. Topics include theories about the origins and nature of LD and EF, development across the lifespan, characteristics of individuals, and approaches to service, delivery and teaching.
about Academic Support for Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Academic Support for Students with Learning Disabilities

DE 7324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking skills in the college and adult classroom. Topics will include variables in teaching and learning, methods of assessment, and approaches to instruction. Students who have taken EDP 5371 or DAE 5371 cannot take this course for doctoral credit.
about Teaching Learning Strategies and Critical Thinking
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Learning Strategies and Critical Thinking

DE 7325. Advising Developmental Students.
The course will focus on theories and techniques of advising and helping skills for developmental students enrolled in postsecondary education. Didactic and experiential activities will provide students enrolled in the course with opportunities to learn and practice skill development in academic advising, helping, and communicating.
about Advising Developmental Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advising Developmental Students

DE 7380. Managing Developmental Education Programs.
In this course, students will learn the theoretical and practical elements of management of developmental education programs in higher education. Readings and discussions focus generally on best practices in higher education leadership and specifically on best practices in leadership and management in developmental education.
about Managing Developmental Education Programs
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Developmental Education Programs

DE 7381. Practicum.
Students seeking the Ed.D. degree must complete a one semester, 150 clock hour practicum in an institution or agency other that their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.
about Practicum
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Practicum

Current paradigmatic and epistemological states of human inquiry are discussed presenting an opportunity to examine educational inquiry, create research knowledge related to the current state of the academy, and examine the issues of a research career.
about Nature of Educational Inquiry
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Nature of Educational Inquiry

Original research and writing in Developmental Education to be accomplished under direct supervision of the dissertation chair. While conducting research and writing, students must be continuously enrolled. Prerequisite: Admitted to doctoral candidacy.

English (ENG)

ENG 7300. Language Problems in a Multicultural Environment.
An introduction to the study of multicultural language and linguistics with descriptive, psychological, social, and semantic emphases.
about Language Problems in a Multicultural Environment
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Problems in a Multicultural Environment
ENG 7314. Specializations in Professional and Technical Communication Topics.
Provides theoretical and practical information for specialized types of technical and professional communication.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Professional and Technical Communication Topics

ENG 7316. Foundations in Rhetoric and Composition.
A course providing students with theoretical, pedagogical, and/or methodological foundations in the field of rhetoric and composition. Emphases vary but may include Contemporary Composition Pedagogy, Basic Writing Theory and Practice, and Writing Assessment. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Foundations in Rhetoric and Composition

ENG 7317. Specializations in Rhetoric and Composition.
A course providing theoretical, pedagogical, methodological, and/or administrative grounding in specialized areas of rhetoric and composition. Emphases vary but may include Writing Across the Curriculum, Service Learning, Writing Center Theory and Practice, Computers and Writing, Literacy. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Specializations in Rhetoric and Composition

ENG 7326. Contemporary Composition Theory.
Introduces students to the history of writing instruction in the university and to the theories of writing and composing that inform contemporary composition studies and the teaching of writing.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Contemporary Composition Theory

ENG 7383. Studies in Rhetorical Theory.
An introduction to classical and rhetorical theory in various areas of English studies. Recent emphases include Teaching of Composition and Technical Communication. Repeatable with different emphases for up to nine hours of English credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Studies in Rhetorical Theory

Mathematics (MATH)

MATH 7111. Seminar in Teaching.
Seminar on individual study projects concerned with selected problems in the teaching of mathematics. This course does not count for degree credit. Graded on a credit (CR), no-credit (F) basis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Graduate Assistantship|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships
about Seminar in Teaching

MATH 7187. Seminar in Mathematics.
Students are required to attend weekly research seminars in mathematics and to give at least one research presentation in the seminar during the semester. This course is repeatable for credit.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Mathematics

MATH 7188. Seminar in Mathematics Education.
Students are required to attend weekly research seminars in Mathematics Education and to give at least one research presentation in the seminar during the semester. This course is repeatable for credit.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Mathematics Education

MATH 7199A. Dissertation in Mathematics Education.
Original research and writing in Mathematics Education to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester. Graded on a credit (CR), no-credit (F) basis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education

MATH 7299A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student’s dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student’s dissertation advisor.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Dissertation in Mathematics Education

MATH 7301. Studies in Mathematics.
This course provides basic foundations in Mathematics for students entering the doctoral program in Mathematics Education. This course may be repeated, but the course does not earn graduate degree credit and cannot be used for degree credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from Graduate GPA|Leveling
Grade Mode: Leveling/Assistantships
about Studies in Mathematics
MATH 7302. History of Mathematics.
A study of the development of mathematics and of the accomplishments of men and women who contributed to its progress.
about History of Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about History of Mathematics

MATH 7303. Analysis I.
This course covers foundations of modern analysis. Topics include: sequences, LimSup, LimInf, Sigma Algebras of sets that include open and closed sets, sequences of functions, pointwise and uniform convergence, lower and upper semi-continuity, Borel sets, outer measure, and Lebesgue measure. Prerequisite: MATH 4315.
about Analysis I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Analysis I

MATH 7306. Current Research in Math Education.
This course surveys the various current social, political, and economic trends in local, state, national, and international settings that are related to research in Mathematics Education.
about Current Research in Math Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Current Research in Math Education

MATH 7307. Algebra I.
Applications of Algebra and topics in modern algebra, including permutation groups, symmetry groups, Sylow theorems, and select topics from Ring Theory. Prerequisite: MATH 4307.
about Algebra I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Algebra I

MATH 7309. Topology I.
A course in point-set topology emphasizing topological spaces, continuous functions, connectedness, compactness, countability, separability, metrizability, CW complexes, simplicial complexes, nerves, and dimension theory. Prerequisite: MATH 4330.
about Topology I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Topology I

MATH 7311. Analysis II.
This course covers the theory of integration with special emphasis on Lebesgue integrals. Topics include: Lebesgue integral, Bounded Convergence theorem, differentiation and integration, absolute continuity, and Lp spaces. Prerequisite: Math 7303.
about Analysis II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Analysis II

MATH 7312. Algebra II.
A study of the important algebraic structures of rings and fields. Topics covered include rings, ideals, modules, polynomial rings, Euclidean algorithm, finite fields, and field extensions. Topics also include an introduction to Galois Theory with an emphasis on the geometric applications. Prerequisite: MATH 7307.
about Algebra II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Algebra II

MATH 7313. Analysis III.
This course covers the fundamental concepts and tools of algebraic topology. Topics include the fundamental group, covering spaces, homotopy type, the higher homotopy groups, singular homology theory, and the computation of homology groups via exact sequences and applications. Prerequisite: MATH 7307 and MATH 7309.
about Topology II: Algebraic Topology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Topology II: Algebraic Topology

MATH 7314. Statistics I.
Topics in this course include trees, connectivity of graphs, Eulerian graphs, Hamiltonian graphs, planar graphs, graph coloring, matchings, factorizations, digraphs, networks, and network flow problems. Prerequisite: MATH 3398.
about Graph Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Graph Theory

MATH 7315. Curriculum Design & Analysis.
This course examines, analyzes, and evaluates the various concepts, topics, methods, and techniques that are related to curriculum design in Mathematics Education for grade levels P-16.
about Curriculum Design & Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum Design & Analysis

MATH 7316. Statistics II.
A study of the mathematical and probabilistic underpinnings of the techniques used in statistical inference. Topics covered include sampling, sampling distributions, confidence intervals, and hypothesis testing with an emphasis on both simulations and derivations. Prerequisite: Math 2321, Math 3305.
about Statistics I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Statistics I

MATH 7317. Algebra II.
A study of the important algebraic structures of rings and fields. Topics covered include rings, ideals, modules, polynomial rings, Euclidean algorithm, finite fields, and field extensions. Topics also include an introduction to Galois Theory with an emphasis on the geometric applications. Prerequisite: MATH 7307.
about Algebra II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Algebra II

MATH 7319. Topology II: Algebraic Topology.
This course covers the fundamental concepts and tools of algebraic topology. Topics include the fundamental group, covering spaces, homotopy type, the higher homotopy groups, singular homology theory, and the computation of homology groups via exact sequences and applications. Prerequisite: MATH 7307 and MATH 7309.
about Topology II: Algebraic Topology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Topology II: Algebraic Topology

MATH 7321. Graph Theory.
Topics in this course include trees, connectivity of graphs, Eulerian graphs, Hamiltonian graphs, planar graphs, graph coloring, matchings, factorizations, digraphs, networks, and network flow problems. Prerequisite: MATH 3398.
about Graph Theory
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Graph Theory

MATH 7324. Curriculum Design & Analysis.
This course examines, analyzes, and evaluates the various concepts, topics, methods, and techniques that are related to curriculum design in Mathematics Education for grade levels P-16.
about Curriculum Design & Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum Design & Analysis

MATH 7325. Statistics I.
A study of the mathematical and probabilistic underpinnings of the techniques used in statistical inference. Topics covered include sampling, sampling distributions, confidence intervals, and hypothesis testing with an emphasis on both simulations and derivations. Prerequisite: Math 2321, Math 3305.
about Statistics I
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Statistics I

MATH 7328. Instructional Techniques & Assessments.
This course examines, analyzes, and evaluates the various concepts, topics, methods, and techniques of instruction in Mathematics Education and the related assessment procedures for each for grade levels P-20.
about Instructional Techniques & Assessments
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Instructional Techniques & Assessments
MATH 7331. Combinatorics.
This course is a study of fundamental principles of combinatorics. Topics include: permutations and combinations, the Pigeonhole principle, the principle of inclusion-exclusion, binomial and multinomial theorems, special counting sequences, partitions, posets, extremal set theory, generating functions, recurrence relations, and the Polya theory of counting. Prerequisite: MATH 3398.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
about Combinatorics

MATH 7335. Statistics II: Linear Modeling.
A study of the formulation and statistical methodologies for fitting linear models. Topics include the general linear hypothesis, least-squares estimation, Gauss-Markov theorem, assessment of model fit, effects of departures from assumptions, model design, and criteria for selection of optimal regression models. Prerequisite: MATH 3377 and MATH 7325.
Grade Mode: Standard Letter
about Statistics II: Linear Modeling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Statistics II: Linear Modeling

MATH 7346. Quantitative Research Analysis in Mathematics Education.
This course surveys the various research techniques used in quantitative analysis for mathematics education and covers topics such as experimental design, statistical analysis, and use of appropriate design methodologies to achieve the strongest possible evidence to support or refute a knowledge claim. Prerequisite: MATH 7306 and MATH 7325.
Grade Mode: Standard Letter
about Quantitative Research Analysis in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Quantitative Research Analysis in Mathematics Education

MATH 7356A. Advanced Quantitative Research.
This course encompasses investigation, development, and demonstration of competence, design, and execution for mathematics education problems in quantitative research. Prerequisite: MATH 7346.
Grade Mode: Standard Letter
about Advanced Quantitative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Advanced Quantitative Research

MATH 7356B. Advanced Qualitative Research.
This course encompasses investigation, development, and demonstration of competence, design, and execution for mathematics education problems in qualitative research. Prerequisite: ED 7352.
Grade Mode: Standard Letter
about Advanced Qualitative Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Advanced Qualitative Research

MATH 7356C. Action Research in Mathematics Education.
This course examines underlying theory and issues in action research model and the development of action research projects. Prerequisites: MATH 7346 or ED 7352.
Grade Mode: Standard Letter
about Action Research in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Action Research in Mathematics Education

MATH 7361. Seminar in Advanced Mathematics.
Material in course will vary with the interest of students and faculty. A detailed study of subject matter may be chosen from advanced areas of analysis; algebra; topology and geometry; applied mathematics; and probability and statistics. This course is repeatable for credit when subject matter varies.
Grade Mode: Standard Letter
about Seminar in Advanced Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Seminar in Advanced Mathematics

MATH 7366A. Teaching Post-Secondary Students (Developmental Math, Service Courses, and Majors).
This course examines how to develop and teach post-secondary students. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models. Prerequisites: MATH 7306.
Grade Mode: Standard Letter
about Teaching Post-Secondary Students (Developmental Math, Service Courses, and Majors)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Teaching Post-Secondary Students (Developmental Math, Service Courses, and Majors)

MATH 7366B. Teaching K-12 Students (Elementary, Middle School, and High School).
This course examines how to develop and teach K-12 students. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models. Prerequisite: MATH 7306.
Grade Mode: Standard Letter
about Teaching K-12 Students (Elementary, Middle School, and High School)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Teaching K-12 Students (Elementary, Middle School, and High School)

MATH 7366C. Teaching Teachers (In-Service; Pre-Service).
This course examines how to prepare teachers of mathematics. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models. Prerequisite: MATH 7306.
Grade Mode: Standard Letter
about Teaching Teachers (In-Service; Pre-Service)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Teaching Teachers (In-Service; Pre-Service)
MATH 7366D. Teaching Specialized Content.
This course will be an in-depth study of a specialized content area in mathematics with an emphasis on teaching. The specific content area will vary by instructor. Examples include Euclidean Simplex Geometry and Discrete Probability Spaces with Implications for Public School Curriculum.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7366E. Developmental Mathematics Curriculum.
This course surveys the research, development, and evaluation of the scope and sequence of developmental mathematics curriculum. The course references the recommendations of government agencies and professional organizations and allows for the investigation of research-based models.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

MATH 7371A. Advanced Graph Theory.
Topics in this course include Turan's problems, Ramsey theory, random graph theory, extremal graph theory, algebraic graph theory, domination of graphs, distance problems, and applications. Prerequisite: MATH 7321.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7371B. Advanced Combinatorics.
Topics in this course include Block designs, Latin squares, combinatorial optimization problems, coding theory, matroids, difference sets, and finite geometry. Prerequisite: MATH 7331.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7371C. Combinatorial Number Theory.
A study of fundamental techniques in combinatorial number theory. Topics will include Waring's problem, additive number theory, and probabilistic methods in number theory. Prerequisite: MATH 7331.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7371D. Discrete Optimization.
A study of some fundamental techniques in discrete optimization. Topics include discrete optimization, linear programming, integer programming, integer nonlinear programming, dynamic programming, location problem, scheduling problem, transportation problem, postman problem, traveling salesman problem, matroids, and NP-completeness. Prerequisites: MATH 7321 and 7331.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7371E. Algorithms and Complexity.
A study of some fundamental concepts of computability and complexity. Topics include polynomially bounded problems, NP-complete problems, exponentially hard problems, undecidable problems, and reducibility. Prerequisite: MATH 7331.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7371F. Probabilistic Methods in Discrete Mathematics.
A study of some fundamental probabilistic techniques used to solve problems in graph theory, combinatorics, combinatorial number theory, combinatorial geometry, and algorithm. Topics include linearity of expectation, alterations, second moment, local lemma, correlation inequalities, martingales, Poisson paradigm, and pseudo-randomness. Prerequisites: MATH 7321 and 7331.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

This course introduces fundamental concepts in logic, Boolean algebra, and binomial coefficients; and applications in different fields such as complexity of algorithms and network theory. Prerequisites: MATH 2472 and MATH 4307 with a grade of "C" or higher, or with departmental approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter

MATH 7371H. Combinatorial Networks.
Combinatorial Networks is an area of study of certain types of networks using combinatorial methods extensively. This course introduces fundamental basics as well as the latest development in this area of research. Prerequisite: MATH 5307/7307 with a grade of "C" or higher.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
MATH 7375C. Time Series Analysis.
A study of the theory of time-dependent data. The analysis includes
modeling, estimation, and testing; alternating between the time domain;
using autoregressive and moving average models and the frequency
domain; and using spectral analysis. Prerequisite: MATH 7335.
about Time Series Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Time Series Analysis

MATH 7375D. Advanced linear Modeling.
The course provides an extension of regression methodology to
more general settings where standard assumptions for ordinary least
squares are violated. Topics include generalized least squares, robust
regression, bootstrap, regression in the presence of autocorrelated
errors, generalized linear models, and logistic and Poisson regression.
Prerequisite: MATH 7335.
about Advanced linear Modeling
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Advanced linear Modeling

MATH 7378A. Problem Solving, Reasoning, and Proof.
A study of the fundamental concepts of problem solving, logic, set
type, and mathematical proof and applications of these concepts in
mathematics curriculum for grades P-20. Prerequisite: MATH 7306.
about Problem Solving, Reasoning, and Proof
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Problem Solving, Reasoning, and Proof

MATH 7378B. Connecting and Communicating Math.
This course examines one of the basic principles involved in
mathematics education: Connecting and Communicating Mathematics. This fundamental theme will be reviewed, researched, and discussed. Prerequisite: MATH 7306.
about Connecting and Communicating Math
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Connecting and Communicating Math

MATH 7378C. Representing Fundamental Math Ideas (Function, Data
Analysis, and Enumeration).
This course examines the basic principles involved in mathematics
education. The process of representing fundamental mathematical ideas
will be reviewed, researched, and discussed. Prerequisite: MATH 7306.
about Representing Fundamental Math Ideas (Function, Data Analysis,
and Enumeration)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Representing Fundamental Math Ideas (Function, Data Analysis,
and Enumeration)

MATH 7378D. Math Technologies.
This course examines the basic principles involved in mathematics education: Technology. This fundamental theme will be reviewed, researched, and discussed. Prerequisite: MATH 7306.
about Math Technologies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Math Technologies

MATH 7378E. Developmental Mathematics Perspectives.
This course examines developmental mathematics-specific strands
including technological course support and placement tools/decisions. Issues related to the first mathematics core course required of undergraduates will also be addressed.
about Developmental Mathematics Perspectives
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developmental Mathematics Perspectives

MATH 7378F. Research on Mathematical Problem Solving in Secondary Schools.
In this course a careful study is made of elementary techniques for
problem solving in a variety of domains, including algebra, number theory,
combinatorics, geometry, and logic puzzles. Students will learn these
techniques by actually working on a collection of problems in each of
these areas. Students will read and examine research about various
aspects of problem solving and research in math education that includes
both teacher training and student learning.
about Research on Mathematical Problem Solving in Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Research on Mathematical Problem Solving in Secondary Schools

MATH 7385. Independent Study in Mathematics.
Student will work directly with a faculty member and develop in-depth
knowledge in a specific topic area of mathematics. Topics vary according
to student’s needs and demands. Repeatable with different emphasis.
about Independent Study in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Independent Study in Mathematics

MATH 7386. Independent Study in Mathematics Education.
Student will work directly with a faculty member and develop in-depth
knowledge in a specific topic area of Mathematics Education. Topics vary according to student’s needs and demands. Repeatable with different emphasis.
about Independent Study in Mathematics Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Topics
Grade Mode: Standard Letter
about Independent Study in Mathematics Education
MATH 7389. Internship.
Students will work under the supervision of a faculty member to gain practical knowledge in Mathematics Education. Student experience can come from industry, government agencies, or other sources but must directly apply to furthering knowledge of mathematics education or its application.

Credit/No Credit
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter

MATH 7396. Mathematics Education Research Seminar.
Collaborative research projects with faculty through identifying an educational issue, reviewing literature, creating a research question, designing a methodology, analyzing data, drawing conclusions, implications, and creating a draft of a publishable paper. Prerequisite: MATH 7356, and (ED 7352 or MATH 7346).

Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MATH 7399A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.

Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MATH 7599A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.

Credit/No Credit
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MATH 7699A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.

Credit/No Credit
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

MATH 7999A. Dissertation in Mathematics Education.
This course represents a Mathematics Education student's dissertation enrollments. The course can be repeated as necessary. The dissertation credit (18 hours) will not be awarded until the dissertation is submitted for binding. Prerequisite: completion of the core and required concentration courses, or approval of student's dissertation advisor.

Credit/No Credit
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Reading (RDG)

RDG 7301. Theory and Research of Literacy.
This course examines the current theories and basic research of literacy development from psychological, cultural, linguistic, educational, and epistemological frameworks.

Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

RDG 7302. Theory and Research of College Basic Literacy.
This course examines basic literacy needs and instructional strategies for students within post-secondary institutions. Explored are etiologies; comparison of basic to academic literacy; analysis of instructional strategies and materials for developing phonemic awareness, decoding, vocabulary, fluency, and comprehending in single sources of information. Prerequisite: RDG 7301.

Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

RDG 7303. Theory and Research of College Academic Literacy.
This course examines basic literacy needs and instructional strategies for students in college. Explored are etiologies; comparison of academic workplace, and new literacies; instructional strategies and materials for developing vocabulary, comprehending, and critical and strategic reading in multiple sources of information. Prerequisite: RDG 7301.

Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

RDG 7304. Theory and Research of Literacy Instruction for Culturally and Linguistically Diverse Readers.
This course examines the historical and contemporary understandings of language acquisition and instruction; foundational knowledge of literacy research and cultural and linguistic difference; instructional practices and materials including culturally responsive instruction understanding linguistic differences, creating supportive literate environment, assessment, diagnosis, evaluation; and critical literacy. Prerequisites: RDG 7301, RDG 7302, RDG 7303.

Credit/No Credit
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
RDG 7305. Theory and Research of College Literacy Assessment. This course reviews literacy assessment theory, research, policy, and practice in pre-school through grade 20 including accountability, standard-based curriculum, cultural and linguistic effects, assessment driven instruction, reliability and validity, interpretation, and types of instruments: high-staked, placement, diagnostic, classroom tests, and qualitative instruments. Prerequisites: RDG 7301, RDG 7302, RDG 7303. about Theory and Research of College Literacy Assessment

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Theory and Research of College Literacy Assessment

RDG 7306. Literacy Research Seminar. Doctoral students participate in weekly research seminar that explore research and policy papers in literacy and literacy education, examine their methodology and conclusions, and consider additional research questions. Prerequisite: RDG 7301. about Literacy Research Seminar

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter about Literacy Research Seminar

RDG 7307A. New Literacy Studies. This course focuses on the field of New Literacy Studies (NLS). This course will include an examination of diverse ways in which new technologies broaden and change the demands on what it means to be a literate citizen of the 21st century. Prerequisite: RDG 7301. about New Literacy Studies

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing about New Literacy Studies

RDG 7307B. Community Literacy. Purpose is to explore, understand, refine, and reflect on literacy as social practices within a community which informs effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project. Prerequisite: RDG 7301, RDG 7302 or RDG 7303. about Community Literacy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing about Community Literacy

RDG 7307C. Foundations of Integrated Reading & Writing Pedagogy. The purpose of this course is to examine theory, research, and practice of an integrated reading and writing approach to postsecondary literacy instruction. about Foundations of Integrated Reading & Writing Pedagogy

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing about Foundations of Integrated Reading & Writing Pedagogy

RDG 7307E. Theory, Research and Practice of Disciplinary Literature. This course examines core principles of disciplinary literacy. Students will examine the theory, research and pedagogical practices of literacy across the disciplines with an emphasis on understanding the potential for post-secondary learners and developmental education practices. about Theory, Research and Practice of Disciplinary Literature

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter about Theory, Research and Practice of Disciplinary Literature

Master of Arts (M.A.), Major in Developmental Education

Major Program
The master of arts (M.A.) degree in developmental education (DE) focuses on facilitating learner success in postsecondary programs. Students select a specialization and either the thesis or non-thesis option. A 15-hour minor in DE is also available for majors in other fields who hope to pursue careers in community colleges and other postsecondary settings.

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/deve.html.

Concentration Course Work

Choose 5 classes from the appropriate concentration (listed below) | 15 |

Thesis Course Work
If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation. The thesis handbook may be accessed at http://www.gradcollege.txstate.edu/docs/Thesis_Diss_Guide.pdf.

**Thesis Proposal**

The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form...
be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Fee Reduction**

A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T_D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.

2. One (1) copy of the thesis in final form, approved by all committee members, on standard paper (Hard-copy Submission Option) or PDF of the thesis in final form, approved by all committee members, uploaded in the on-line Vireo submission system (Vireo On-line Submission Option).

After the dean of The Graduate College approves the thesis, the process is as follows:

1. For the Vireo On-line Submission Option:
   a. No copies are required to be submitted to the Alkek Library. However, Alkek will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to the Alkek Library and pay the binding fee for personal copies.

Master's level courses in Curriculum and Instruction: CI (p. 832), DE (p. 837), ECE (p. 839), EDTC (p. 839), RDG (p. 840), SPED (p. 842)

**Courses Offered**

**Curriculum and Instruction (CI)**

CI 5199B. Thesis.

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

**Grade Mode:** Credit/No Credit about Thesis

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

CI 5299B. Thesis.

This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

**Grade Mode:** Credit/No Credit about Thesis

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

CI 5302. Practical Statistics for Educators.

This course uses graphical and numerical techniques to explore school related data, characterize patterns, and describe departures from patterns. The study of statistics will allow teachers to critically evaluate students, their teaching, and the results of educational research.

**Grade Mode:** Standard Letter about Practical Statistics for Educators

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

This course is an in-depth study of the mathematics content and methodology derived from principles of learning and research. The course will explore the skills needed in cooperative planning, provide methods of organizing mathematical principles into lessons for pupils, and examine techniques for evaluating pupil progress.

**Grade Mode:** Standard Letter about Teaching Math in the Elementary School

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**
CI 5304. Teaching Mathematics and Science in the Elementary School. The importance of problem solving in elementary mathematics and science is explored. Class activities emphasize the role of mathematics in collecting, recording, analyzing, and communicating scientific observations.

CI 5305. Methods in Geometry for Elementary Math Teachers. This course focuses on study of congruency, similarity, transformations, coordinate geometry, and measurement using cognitively guided instruction. Van Hiele's model will be used, and the importance of modeling relationships with and without technology will be taught. This course is designed for elementary school teachers with a mathematics specialization. Justification: This course addresses competencies required for this certificate as delineated by the Texas Education Agency.

CI 5306. Evaluative Techniques for the Classroom Teacher. An in-depth study of the objectives of evaluation, teacher-made tests, interpretation of standardized test results, self-evaluation, program evaluation, school evaluation, socio-metric techniques and their use, and reporting to parents. Prerequisites: CI 5390, CI 5314, CI 5333, CI 5365, CI 5370, RDG 5324, and an Overall GPA of 3.0.

CI 5307. Probability and Statistics Methods for Elementary Math Teachers. This course for elementary math teachers covers graphical and numerical techniques to explore data and describe patterns and departures from patterns using cognitively guided instruction. The course focuses on statistical inference, making and evaluating predictions, and designing problems to solve using the theory of probability and its relationship to sampling.

CI 5308. Introduction to Gifted/Talented Education. An introduction to gifted/talented education that covers: analysis of conceptions of giftedness and gifted/talented education; examination of policies related to gifted/talented education; survey of assessment practices, pedagogy, program options, and equity issues.

CI 5309. Talent Development. This course examines theories, research and pedagogy related to talent development throughout the life course. Topics include ways to support expertise development, critical youth development and becoming.

CI 5310. Creativity: Theories, Research, and Applications. A multidisciplinary exploration of creativity theories, research, and applications. Implications of current theory and research for creative thinking and innovation. Designed for Master's degree students in Education.

CI 5311. Practicum in Talent Development. This course is a capstone course in which students develop and apply knowledge and skills in talent development in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisites: CI 5310; CI 5308 or CI 5309; CI 5319 or CI 5383; and one of the following: CI 5324, CI 5359, or CI 5368.

CI 5312. Elementary Language Arts: Current Trends. A study of current trends in methods of instruction in the language arts, a study of research findings, and an examination of selected media and materials. Also identifies the relation of language arts to other aspects of the elementary school curriculum and the most effective diagnostic techniques for the language arts.

CI 5313. Research Seminar in Human Growth and Development. Training for teachers (elementary or secondary), counselors, supervisors, and administrators to improve their professional effectiveness through the direct study of individual students according to an organizing framework of scientific knowledge of human growth and development; emphasis on the physical processes, the affective processes, and peer relationships.

Texas State University
CI 5314. Human Growth and Development II.
For teachers (elementary or secondary), counselors, supervisors, and administrators to increase their understanding of the motivation, the developmental level, and the abilities of individual students by a direct study of individuals in the classroom; emphasis on increasing scientific knowledge of culture, self-development, and self-adjustive areas of development.
about Human Growth and Development II
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5315. Coaching Skills for Elementary Math Mentors.
This course focuses on using guidance and feedback to help teachers improve math instruction. Specific attention is given to roles and responsibilities of math content coaches, including their function in coaching a professional learning community, and the roles of math mentors in helping new and experienced teachers.
about Coaching Skills for Elementary Math Mentors
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5316. Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers.
This course examines numerical reasoning and problem-solving with particular attention to heuristics, strategies, and modeling. Students will learn methods for mental computation and computational estimation, and algorithmic processes. The course is for elementary math teachers.
about Problem-Solving, Reasoning, and Modeling for Elementary Math Teachers
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Alternative teaching models based on learning theory. Course designed to assist the elementary teacher in selecting appropriate strategies for meeting student learning styles and to broaden the scope of elementary school methodology.
about Teaching Strategies for Elementary Teachers: Alternative Models
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5319. Social, Emotional, and Cultural Contexts of Advanced Development.
This course explores social, emotional, and cultural context issues related to precociousness, creativity, and high performance in children and adolescents, with an emphasis on practices in school environments.
about Social, Emotional, and Cultural Contexts of Advanced Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5322. Middle School Instructional Strategies and Practices.
Description and analysis of curriculum, sources, organization, and development for middle level students. Preparation of developmentally responsive curriculum including direct, inquiry, cooperative learning, and constructivist strategies that adhere to state and national standards and assessments. Overview of expectations, routines, and procedures for classroom management.
about Middle School Instructional Strategies and Practices
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5323. Middle School Philosophy and Learning.
Middle school philosophy focusing on young adolescents’ cognitive, emotional, social, and physical needs. Instructional delivery strategies and assessments that are developmentally responsive and adhere to state and national standards. Positive learning environments that include family and community collaboration. Philosophical and historical foundations of the middle school movement. Prerequisite: CI 5322.
about Middle School Philosophy and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5324. Systems for Advanced Academics and Talent Development.
This course examines systems, organizational models, strategies and assessment approaches that facilitate advanced academics and talent development processes in K-12 school settings. Prerequisite: CI 5308.
about Systems for Advanced Academics and Talent Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5326. Curriculum & Management in the Elementary & Middle School.
Course deals with principles of curriculum development, the K-8 curriculum, planning various types of lessons and units across the curriculum in grades K-8, integrating instruction across the curriculum, and organizing and managing materials, classroom activities, and student behavior. Students will prepare curriculum materials and units.
about Curriculum & Management in the Elementary & Middle School
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

Defines and interprets the newer trends in elementary school practices; the philosophy and objectives of the elementary school, and procedures for implementing these objectives; classroom organization and management; the principles of unified learning as applied to school experiences, procedures for planning and developing experiences, meeting individual needs, and evaluation.
about Principles and Practices in the Elementary School
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
Development and purposes of the social studies curriculum; contributions of the social sciences to the social studies curriculum; relation of the social studies to the total elementary program; curriculum construction, supervision, and evaluation; current issues and trends. about Elementary Social Studies: Curriculum Problems
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Elementary Social Studies: Curriculum Problems

CI 5329. The Elementary School Science Curriculum.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Elementary School Science Curriculum

CI 5330. Multicultural Teaching and Learning.
Course topics include multicultural education theory and principles; research; current issues and trends; culturally responsive curriculum; teaching methods and materials, and teaching English language learners. Students will explore their cultures and other cultures to develop knowledge and sensitivity needed to teach in a multicultural multilingual society. about Multicultural Teaching and Learning
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Multicultural Teaching and Learning

CI 5332. Developing Tools for Instructional Interactions with English Language Learners in Mathematics.
This course will acquaint students with current learning theories that conceptualize interaction and participation as crucial to learning mathematics in contexts that include English Language Learners (ELLs). Students will make practical/meaningful connections to classroom instruction by designing learning environments that include tools to support ELLs in learning mathematics with understanding. about Developing Tools for Instructional Interactions with English Language Learners in Mathematics
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Developing Tools for Instructional Interactions with English Language Learners in Mathematics

CI 5333. The Secondary Curriculum.
A brief history of curriculum development with special emphasis on the Texas curriculum program; basic principles and techniques of curriculum construction and implementation; aims and purposes of the curriculum as a function in perpetuating and improving democratic ideals; and attention to significant research in curriculum development. about The Secondary Curriculum
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Secondary Curriculum

CI 5336. Methods and Materials for Teaching English as a Second Language.
Identification and use of English as a Second Language (ESL) material and teaching strategies for teaching ESL as an integrated process including first and second language acquisition. about Methods and Materials for Teaching English as a Second Language
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Methods and Materials for Teaching English as a Second Language

CI 5337. Language Acquisition and Development.
This course addresses the foundations for first and second language learning acquisition. Central concepts in child language development with special emphasis on language-minority issues will be presented and discussed. Prerequisite: CI 5336. about Language Acquisition and Development
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
about Language Acquisition and Development

CI 5339. Project-Based Instruction.
This course will examine a theory driven perspective accounting for how adolescents and young adults learn and how project-based instruction (PBI) may be our best choice for bridging the gap between theory and practice. Students will observe secondary PBI classes, participate in a project and design a PBI unit. about Project-Based Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Project-Based Instruction

CI 5359. Curriculum for Depth and Challenge.
This advanced course focuses on the understanding and design of curricula with depth and challenge for K-12 students who would benefit from advanced content. Prerequisites: CI 5309, or permission of the instructor. about Curriculum for Depth and Challenge
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum for Depth and Challenge

CI 5363. Strategies for Improving Secondary Teaching.
Analysis of teaching concepts as they apply to the development and improvement of teaching strategies appropriate for implementing selected objectives and content by the secondary teacher. Micro teaching sessions, including video tape recording, will be required. Prerequisite: CI 5333 and EDTC 5310 with grades of "C" or better. about Strategies for Improving Secondary Teaching
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Strategies for Improving Secondary Teaching
CI 5365. Biliteracy Development in the Bilingual Education Classrooms.  
This course focuses on current research and practice in literacy development in Spanish and English as a second language for bilingual students. Contexts framed by sociocultural, cognitive, and linguistic factors will be considered. The course will be taught in English and Spanish. Prerequisites: CI 5337; CI 5387. 
about Biliteracy Development in the Bilingual Education Classrooms  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5367. Dual Language Immersion Methods.  
This course focuses on current research and effective instructional methodology that shape two-way and one-way dual language curricula and instruction in bilingual education. Students will discuss literacy instruction through Spanish socio-linguistic and cognitive perspectives. The course will be taught in Spanish and English; academic Spanish proficiency is expected. Prerequisites: CI 5387, CI 5337. 
about Dual Language Immersion Methods  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5368. The Politics and Creativity of Being and Becoming.  
This course examines how some aspects of education may be inherently unpredictable, immeasurable, and not able to be generalized across contexts nor produced on demand, but still are fundamentally essential to education. Influences of societal trends, discourses, and school practices on political and creative aspects of becoming are analyzed. 
about The Politics and Creativity of Being and Becoming  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5370. Classroom Management, Discipline, and Legal Issues.  
Course topics include the development of an appropriate management and discipline system based on in-depth study of current theory and research. Students will study Texas School Law as it relates to classroom teachers and students. Some field work, school and state agency visitation may be required. 
about Classroom Management, Discipline, and Legal Issues  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5372. Philosophical Foundations of Education.  
An overview of the field of educational philosophy as related to the spectrum of human events and the educative process in particular. Designed for master's degree students without previous graduate work in philosophy or philosophy of education. 
about Philosophical Foundations of Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5374. Bilingual/ESL Content Area Instruction.  
Students study the integration of native language instruction and English as a Second Language (ESL) instruction in the academic content areas (mathematics, social sciences, and language arts) for English Language Learners (ELL). Prerequisites: CI 5387 and CI 5336. 
about Bilingual/ESL Content Area Instruction  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter 

CI 5375. Problems in Elementary Education.  
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. 
about Problems in Elementary Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5376. Problems in Secondary Education.  
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give secondary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. 
about Problems in Secondary Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5377. Problems in Bilingual Education.  
A workshop in innovative techniques or materials offered either on campus or off campus in approved sites. Designed to give elementary classroom teachers college credit for in-service type training; course gives an opportunity for teachers to upgrade their skills and knowledge. 
about Problems in Bilingual Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5378. Problems in Education.  
Individual problems not related to Thesis or Research Problems. Designed to place emphasis on selected areas of study. A number following the course title on the permanent record will indicate the area of emphasis according to this code (2) counseling (7) Supervision (8) elementary (9) secondary. 
about Problems in Education  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter 

CI 5381. Advanced Creativity, Curiosity, and Interest.  
This course is an advanced examination of issues and research in creativity, curiosity, and interest. Implications for education are explored. Prerequisite: CI 5310. 
about Advanced Creativity, Curiosity, and Interest  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter
CI 5383. Mentoring Across the Life Span.
This course examines types and processes of mentoring across the life span, with emphases on mentoring students and teachers in K-16 educational contexts. Talent development purposes for mentoring are included.

about Mentoring Across the Life Span

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

A study of the current trends in bilingual education and elementary school practices, the philosophy and objectives of the bilingual elementary school program, classroom organization and management, and procedures for meeting individual needs.

about Bilingual Education: Principles and Practices

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5388. The Politics of Language.
Using a critical linguistic perspective, this course examines the sociopolitical aspects of language in local, national, and global contexts. Students learn about language ideologies and gain a profound understanding for how languages and language practices are intricately tied to the racial and economic power relations embedded in schools and society.

about The Politics of Language

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5389. Action Research for Practitioners.
This course prepares practicing teachers to conduct action research in educational settings. Students will design and implement an action research project based on a self-selected topic. Prerequisites: CI 5390, CI 5302, plus 6 credit hours in the major, all with grades of "C" or higher.

about Action Research for Practitioners

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5390. Research Seminar in Education.
Study of problems in the education of children in the schools. Topics include basic research procedures needed in the preparation of thesis or other research reports and development or skill in reading, analysis, and application of educational and behavioral research. A research paper is required of each student. CI 5390 must be completed prior to the semester of the comprehensive exam.

about Research Seminar in Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CI 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until student has completed the thesis in Curriculum and Instruction 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

about Thesis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5399B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

about Thesis

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5599B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

CI 5999B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

DE 5199B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

DE 5299B. Thesis.
This course represents a student’s continuing thesis enrollments. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.

about Thesis

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
DE 5321. The Community College.
Introduction to the community college and to its roles and functions in American education. Special attention will be directed to evolution, development, and patterns of organization, purposes programs, personnel and current issues of the community college. Students take DAE 5383 or DE 5321 may not take DE 7321 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about The Community College

DE 5324. Teaching Learning Strategies and Critical Thinking.
Theory and pedagogy of learning strategies, problem solving, and critical thinking in the college and adult classroom. Topics will include variables in teaching and learning methods of assessment, and approaches to instructions. Students taking DAE 5371 or DE 5324 may not take DE 7324 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter
about Teaching Learning Strategies and Critical Thinking

DE 5339. Assessment and Evaluation in Developmental Education.
Foundations of students assessment and program evaluation for developmental education programs. Topics include: quantitative and qualitative classroom assessment; formative vs. summative assessment; test interpretation; social, legal, and ethical implications of assessment; reliability and validity; norm vs. criterion tests; placement test; program evaluation models; as well as formative and summative evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation in Developmental Education

DE 5365. Administration of Developmental Education.
An overview of the field of developmental education and of the various types of programs designed to meet the needs of the underprepared learner. Special emphasis is on needs assessment, program design, implementation, management and leadership, and evaluation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Administration of Developmental Education

DE 5373. Grant Development and Management.
Course purposes include demystifying grant proposal writing and becoming acquainted with grant management resources. Student will locate funding sources, develop a proposal and budget, and explore accountability issues and processes for funded projects. Emphasis is on optimizing location and use of online grant information and developing professional networks. Students taking DAE 5373 may not take ED 7373 for doctoral level credit.

3 Credit Hours. 1.5 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter
about Grant Development and Management

DE 5375. Learners in Developmental Education Contexts.
A profile of the underprepared postsecondary student and an overview of the programs and instructional strategies appropriate for use with that target population. Students taking DAE 5375 or DE 5375 may not take DE 7301 for doctoral level credit.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Learners in Developmental Education Contexts

DE 5378. Problems in Developmental Education.
This course is designed to examine topical problems faced by practitioners in developmental education. The topic of the course may change. Course may be repeated for credit with different topic.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Problems in Developmental Education

DE 5379. Independent Study.
Individual problems or research topics designed to place emphasis on selected areas of study. May be repeated once for additional credit at the discretion of the advisor.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study

DE 5384. Internship in Developmental Education.
Students seeking the M.A. degree must complete a one-semester, 150 clock hour practicum in an institution or agency other than their own; site selection needs approval of program coordinator. Practicum students will participate in leadership activities involving program planning, management, budgeting, and evaluation. Prerequisites: foundation and core courses.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Internship in Developmental Education

DE 5399A. Thesis.
This course represents a student's initial thesis enrollment. No thesis credit is awarded until student has completed the Thesis 5399B. Graded on a credit (CR), progress (PR), no credit (F) basis.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit
about Thesis

This course represents a student's continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no credit (F) basis.

Early Childhood Education (ECE)

ECE 5318. Advanced Early Child Development: Readiness for Learning and Language Abilities.
A study of the cognitive, affective, and psychomotor factors bearing on the young child's readiness for learning and acquisition of language. The course includes methods of child study, such as instruction, and practice in using observational techniques and anecdotal records. It includes the design and evaluation of specific readiness activities and guided field experience.
Grade Mode: Standard Letter
about Advanced Early Child Development: Readiness for Learning and Language Abilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Early Child Development: Readiness for Learning and Language Abilities

ECE 5319. Curriculum and the Young Child, I (Kindergarten).
Organization and evaluation of programs for young children. Translating developmental knowledge into effective practices, which may be employed in the total education of young children.
Grade Mode: Standard Letter
about Curriculum and the Young Child, I (Kindergarten)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, I (Kindergarten)

ECE 5330. Curriculum and the Young Child, II (Kindergarten).
Advanced study of curriculum and materials used in educational programs for young children.
Grade Mode: Standard Letter
about Curriculum and the Young Child, II (Kindergarten)
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Curriculum and the Young Child, II (Kindergarten)

ECE 5380. Independent Study in Early Childhood.
In-depth study of selected topics of current needs or interest in early childhood education. Work done on independent study basis with faculty member and only with permission of department. Repeatable once with departmental approval.
Grade Mode: Standard Letter
about Independent Study in Early Childhood
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Independent Study in Early Childhood

Educational Technology (EDTC)

EDTC 5310. Introduction to Educational Technology.
This course provides hands-on experience with a variety of educational uses of microcomputers in early childhood, elementary, middle, and high schools. Review of relevant research and discussion of current issues will also be included.
Grade Mode: Standard Letter
about Introduction to Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Introduction to Educational Technology

EDTC 5315. Advanced Educational Technology.
This course deals with both instructional and multimedia design principles. Students will design, implement, and evaluate an extended technology project to solve an instructional problem. Prerequisite: EDTC 5310.
about Advanced Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Educational Technology

EDTC 5320. Models of Integration of Educational Technology.
Students will examine trends and issues related to the integration of technology in instruction based on learning theory, learners' needs, teaching strategies/practices, social and psychological factors, and state/national standards. Prerequisite: EDTC 5310.
about Models of Integration of Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Models of Integration of Educational Technology

This course is designed to help the Educational Technologist manage the various needs and technologies in the school setting. Emphasis will be placed on planning for integration and management, hardware issues, software issues, and personnel issues. Prerequisites: EDTC 5310, EDTC 5315.
about Managing Educational Technology
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Managing Educational Technology

EDTC 5330. Implementing Technology in Education.
This course is designed to introduce students to those leadership skills required for implementing technology in an education program.
grade Mode: Standard Letter
about Implementing Technology in Education
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Implementing Technology in Education

EDTC 5334. Online Learning and Course Design.
This course will examine theoretical and research perspectives of learning in an online context. Students will analyze on-line tools in relation to teaching objectives and design an online component to a course they teach. Students will evaluate this online component through an action research project. Prerequisites: CI 5390, EDTC 5310.
about Online Learning and Course Design
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Online Learning and Course Design
EDTC 5335. Instructional Design for Educational Technology. 
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and online instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology. 
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Issues in Educational Technology

EDTC 5345. Educational Technology Internship. 
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework. 
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours. 
Grade Mode: Credit/No Credit about Educational Technology Internship

Reading (RDG)

RDG 5310. Teaching Literacy with Children's and Young Adult Literature. 
Course focuses on current research and methods for using children’s and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum. 
about Teaching Literacy with Children's and Young Adult Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Teaching Literacy with Children's and Young Adult Literature

RDG 5320. Foundations of Literacy Instruction. 
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research. 
about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Foundations of Literacy Instruction

RDG 5322. Teaching Reading in the Elementary and Middle Schools. 
Course focuses on effective literacy instruction in elementary and middle schools, including the following areas: word identification, spelling, word study, vocabulary instruction, comprehension strategy instruction, fluency, critical literacy, and engagement. The course examines reading curricula, instructional assessment, and selection of material. 
about Teaching Reading in the Elementary and Middle Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multi. Content & Perspective|Multicultural Content 
Grade Mode: Standard Letter about Teaching Reading in the Elementary and Middle Schools

RDG 5324. Developing Content Area Literacy in Middle and Secondary Schools. 
Course examines literacy development in middle and secondary school content areas. Topics include classroom assessment, development of strategic literacy, fluency, critical thinking, lifelong attitudes, interests, study strategies, and literacy in multiple sources of narrative and information text ranging from textbooks to electronic texts. Prerequisite or corequisite: CI 5363. 
about Developing Content Area Literacy in Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Developing Content Area Literacy in Middle and Secondary Schools

RDG 5326. Developmental Literacy in the Middle and Secondary Schools. 
Course focuses on effective literacy instruction for middle- and secondary-school students who struggle with literacy. The course also addresses reading curricula and instruction, assessment, and materials selection. RDG Majors, Minors, and MRT candidates only, or with permission of instructor. 
about Developmental Literacy in the Middle and Secondary Schools
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Developmental Literacy in the Middle and Secondary Schools

RDG 5331. Literacy Methods for Linguistically and Culturally Diverse Students. 
Course topics include linguistic and literacy challenges unique to students whose native language or dialect is not standard English, and innovative methods for teaching literacy to linguistically and culturally diverse students. Prerequisite: Reading Majors - RDG 5322, RDG 5324, or RDG 5326. 
about Literacy Methods for Linguistically and Culturally Diverse Students
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Course Attribute(s): Multicultural Content 
Grade Mode: Standard Letter about Literacy Methods for Linguistically and Culturally Diverse Students

RDG 5334. Family Literacy. 
Family literacy is an intergenerational program that integrates adult literacy and emergent literacy education. This course will provide students with the knowledge and abilities to manage a family literacy program. Students will analyze related learning theories, population needs, program structures, and policy issues, including diversity and accountability. 
about Family Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Family Literacy

RDG 5335. Instructional Design for Educational Technology. 
This course will focus on the use of instructional design principles in Educational Technology to solve instructional problems. Topics covered include developing teacher training materials, courses, individualized instruction, websites, multimedia projects, workshops, and online instruction in the education setting. Prerequisite: EDTC 5310, EDTC 5315. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Instructional Design for Educational Technology

EDTC 5340. Issues in Educational Technology. 
This course will provide students with information on current issues and trends to enhance their ability to function effectively as educational technology leaders at the school, district, or agency level. Students will prepare proposals and plans for their internship. May be repeated once for credit with different emphasis. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Issues in Educational Technology

EDTC 5345. Educational Technology Internship. 
The Educational Technology Internship allows the intern to apply theory into practice in a real world setting. The intern is provided site-based opportunities for applying leadership skills in training teachers to use technology in an educational setting. Graded on a credit (CR), no credit (F) basis. Prerequisite: Within last six hours of coursework. 
3 Credit Hours. 0 Lecture Contact Hours. 5 Lab Contact Hours. 
Grade Mode: Credit/No Credit about Educational Technology Internship

Reading (RDG)

RDG 5310. Teaching Literacy with Children's and Young Adult Literature. 
Course focuses on current research and methods for using children’s and young adult literature, including multicultural literature for literacy instruction in grades EC-12. Students will explore different genres and evaluate and select literature for instruction across the curriculum. 
about Teaching Literacy with Children's and Young Adult Literature
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Teaching Literacy with Children's and Young Adult Literature

RDG 5320. Foundations of Literacy Instruction. 
Course surveys reading and writing theories, processes, and models; theoretical bases of literacy instruction, stages of literacy development; the relationship between oral language and literacy; and classic and current quantitative and qualitative literacy research. 
about Foundations of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. 
Grade Mode: Standard Letter about Foundations of Literacy Instruction
RDG 5335. Basic Academic Literacy.
This course examines basic literacy needs and appropriate instructional strategies for traditional and non-traditional students entering college. Content covers basic to academic literacy, analysis of instructional strategies, comprehension, fluency, vocabulary, decoding, and phonemic awareness.

Grade Mode: Standard Letter
about Basic Academic Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5340. Connecting Reading and Writing in the Classroom.
Course focuses on the relationships between reading and writing; the connections among written language, oral language, and thinking; and the organization of integrated reading and writing instruction in grades EC-12, including "workshop" techniques and thematic teaching. Prerequisite: RDG 5322 or RDG 5324 or RDG 5326.

Grade Mode: Standard Letter
about Connecting Reading and Writing in the Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5345. Assessment-Driven Literacy Instruction.
Course focuses on classroom literacy assessment, interpretation of assessment results, and designing and implementing effective literacy instruction based on assessment results. Course concentrates on the special needs of individual readers within the classroom setting and includes interpretation of formal assessments. Prerequisite: RDG 5322.

Grade Mode: Standard Letter
about Assessment-Driven Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5350. Literacy as Sociocultural Practice.
Using a social constructivist lens, this course examines broadening conceptions of literacy and what it means to be literate in the 21st century. Students learn about current research, theory and practice pertaining to sociocultural models of literacy and literacy instruction.

Grade Mode: Standard Letter
about Literacy as Sociocultural Practice
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370A. New Literacies.
Course is an in-depth study of research and theory pertaining to the New Literacy Studies (NLS). Repeatable for credit.

Grade Mode: Standard Letter
about New Literacies
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Topics
Grade Mode: Standard Letter
about New Literacies

RDG 5370B. Social, Cultural, and Political Contexts of Literacy Instruction.
This course explores implications of social, cultural, and political contexts for literacy instruction/policy. Students examine how literacy policies are created, shaped, and implemented and the impact of policies on how literacy is defined. Repeatable for credit.

Grade Mode: Standard Letter
about Social, Cultural, and Political Contexts of Literacy Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370C. Foundations of Integrated Reading & Writing Pedagogy.
The purpose of this course is to develop, explore and reflect on literacy as social practices within a community.

Grade Mode: Standard Letter
about Foundations of Integrated Reading & Writing Pedagogy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Foundations of Integrated Reading & Writing Pedagogy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370D. Community Literacy.
The purpose of this course is to explore and reflect on literacy as social practices within a community, informing effective curriculum and instruction for K-16 school settings, adult literacy programs, and informal environments. Students will explore ethnographic research as a means to inform instruction and complete a service learning project.

Grade Mode: Standard Letter
about Community Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Community Literacy
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5370E. Writing Pedagogy in the P-12 Classroom.
In this course students will examine theories, research, and practice in writing instruction in P-12 classrooms. Students will write and reflect on their writing process; use this information to contribute to their students' growth as writers; develop standards and curricula; and critically examine district, state and national policy.

Grade Mode: Standard Letter
about Writing Pedagogy in the P-12 Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing
Topics
Grade Mode: Standard Letter
about Writing Pedagogy in the P-12 Classroom
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

RDG 5380. Independent Study in Reading Research.
In-depth analysis and interpretation of selected research topics of great current interest in reading and language arts. Topics and instructors will vary from semester to semester. May be repeated with different topics for additional credit.

Grade Mode: Standard Letter
about Independent Study in Reading Research
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
about Independent Study in Reading Research
RDG 5395. Teaching Academic Literacy to Adults.
Course focuses on teaching academic literacy to older students and adults in post-secondary settings. Topics include: the literacy needs of adult learners in formal schooling; appropriate assessment strategies; instructional methodologies, materials, and resources; and the school-based groups, schools, and agencies that serve these students. About Teaching Academic Literacy to Adults

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Teaching Academic Literacy to Adults

RDG 6330. Language Acquisition and Development for Literacy Instruction.
Course topics include first and second language learning; dialect acquisition and development; theories and stages of language development; language diversity; and language disorders. Students read and interpret research and study language development of EC-12 children from varying linguistic backgrounds. Prerequisites: RDG 5322, RDG 5320, and RDG 5324 or RDG 5326.
About Language Acquisition and Development for Literacy Instruction

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
About Language Acquisition and Development for Literacy Instruction

RDG 6333. Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development.
Course will focus on using interpretations of assessment data, literacy research, and state/national assessment requirements to demonstrate leadership and design professional development for literacy assessment and instruction. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requirements: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, RDG 6331, and RDG 6336.
About Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
About Reading Specialist Internship II: Designing and Evaluating Literacy Professional Development

RDG 6336. Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools.
This course focuses on designing, conducting, and interpreting quality, school-based research to guide literacy instructional decision-making. Internship students will work in approved educational settings to demonstrate the roles of the Reading Specialist including literacy teacher, leader, coach, and researcher. Prerequisites/co-requirements: RDG 5310, RDG 5320, RDG 5322, RDG 5326, RDG 5331, RDG 5340, RDG 5345, RDG 6330, and RDG 6331.
About Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
About Reading Specialist Internship I: Designing and Evaluating Literacy Research in Schools

Special Education (SPED)

SPED 5310. Selected Topics in Special Education.
In-depth study of selected topics of current interest in special education. Work done on independent study basis with faculty member and available only with permission of department. May be repeated for credit.
About Selected Topics in Special Education

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Selected Topics in Special Education

SPED 5311. Teaching Language Arts to Students with Disabilities.
Course provides effective, research-based instruction for struggling readers, including basic literacy and adaptations to facilitate students' access to the general education curriculum. Basic literacy content will be presented, including information about phonological awareness, word study and spelling, fluency, comprehension, and writing across content areas.
About Teaching Language Arts to Students with Disabilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Teaching Language Arts to Students with Disabilities

SPED 5313. Education Students with Emotional/Behavioral Disorders.
Specific strategies and issues associated with effective instruction of students with emotional/behavioral disorders. Content includes an overview of definitions and characteristics, etiological factors, assessment for diagnosis and intervention planning, treatment options, including methods and materials for effective instruction, collaborative interagency services, and current issues.
About Education Students with Emotional/Behavioral Disorders

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Education Students with Emotional/Behavioral Disorders

SPED 5314. Advanced Educational Strategies for Students with Autism.
This course examines theories and specialized instructional strategies pertaining to the education of children and youth with Autism Spectrum Disorders. Prerequisite: SPED 5327.
About Advanced Educational Strategies for Students with Autism

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Advanced Educational Strategies for Students with Autism

This course prepares special education teachers, behavior analysts, and other professionals associated with the education and treatment of students with autism for the ethical issues encountered in schools, homes, and clinics. This course emphasizes the ethical guidelines for responsible conduct established by the Behavior Analyst Certification Board. Restricted to Special Education Majors only.
About Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
About Ethics, Trends & Issues in Ed & Treatment of Students with Autism & Other Developmental Disabilities
SPED 5325. Development Perspectives of the Mildly Disabled.
In-depth study of language, cognitive, psychosocial, and motor development, from infancy to adulthood, in the mildly disabled. Special emphasis on the relationship between these developmental problems and the learning process.
about Development Perspectives of the Mildly Disabled
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Development Perspectives of the Mildly Disabled

SPED 5326. Educating Students with Mild Disabilities.
Course provides information about modifications for students with mild disabilities. Characteristics of special education categories discussed with primary emphasis on learning disabilities. Role of classroom management and classroom teacher’s role with students with mild disabilities addressed. Methods for individualizing instruction under a variety of classroom conditions presented.
about Educating Students with Mild Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Mild Disabilities

SPED 5327. Educating Students with Autism and Other Developmental Disabilities.
This course provides an overview of student characteristics and appropriate instructional techniques for individuals with developmental disabilities. Topics include specialized assessment and evidence-based practices, functional curriculum development, transition planning, medical and physical management, and assistive technologies.
about Educating Students with Autism and Other Developmental Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Educating Students with Autism and Other Developmental Disabilities

SPED 5329. Language Development and Intervention for Special Populations.
This course covers typical and atypical language development and intervention programming for individuals with significant language delays or disorders. Topics include assessment of language and social communication, individualized program development, and specialized language interventions across settings.
about Language Development and Intervention for Special Populations
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Language Development and Intervention for Special Populations

SPED 5334. Assessment and Evaluation of Students with Disabilities.
The course provides information about formal and informal assessment for the identification of cognitive aptitude, academic achievement, social, emotional, and motor development, as well as the implications of these results for instruction and remediation.
about Assessment and Evaluation of Students with Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Assessment and Evaluation of Students with Disabilities

This course provides study of research-based instructional theory and practices for students with disabilities. Focus is on instructional methods and curriculum for students with disabilities in special education settings. Topics include curricular planning, curriculum-based measurement, evidence-based strategies for facilitating student learning, and unique curricular needs of students with disabilities.
about Principles and Practices of Effective Instruction
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Principles and Practices of Effective Instruction

This course provides advanced study of issues related to school discipline, order, and safety. Topics include historical perspectives, studies of school discipline and safety, effects of school disorder, policies and practices in school discipline, disproportionality in school discipline, school-wide positive behavior supports, and transdisciplinary and comprehensive approaches to school discipline.
about Advanced Studies in School Discipline, Order, and Safety
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Studies in School Discipline, Order, and Safety

SPED 5355. Characteristics of Students with Learning Disabilities.
This course reviews the latest research on learning disabilities in each developmental area. The focus is on identification and eligibility issues. Topics include changing definitions, medical aspects, cognition and language characteristics, personality and social characteristics, generic instructional approaches, technology, and issues in the future of learning disabilities. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Characteristics of Students with Learning Disabilities
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Characteristics of Students with Learning Disabilities

This course reviews research-based instructional strategies for students with learning disabilities, focusing on proven practices and on improving instructional decision-making across content areas and grade levels. Topics include: understanding learning disabilities, response to intervention, individualized educational plans, differentiating instruction, assessment, collaborative partnerships, and facilitating content-area instruction and study skills. Prerequisite or Co-requisite: SPED 5326 or SPED 5340.
about Advanced Practices in Learning Disabilities/Inclusion
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Advanced Practices in Learning Disabilities/Inclusion

SPED 5360. Survey of Exceptionality.
Course provides for the examination of types, characteristics, and etiologies of various exceptionalities; identification of federal laws as they relate to various populations; and serves as an introduction to the education of exceptional students in the home, school, and community.
about Survey of Exceptionality
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
about Survey of Exceptionality
Course topics include planning and utilizing behavioral techniques such as functional assessment/analysis, behavioral recording, differential reinforcement, antecedent manipulation, generalization training, and self-management.
Grade Mode: Standard Letter
about Behavior Management: School Application of Applied Behavior Analysis
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course prepares behavior analysts, school psychologists, teachers, and other professionals responsible for the education and treatment of individuals with developmental disability and/or behavior disorders to use applied behavior analysis to treat severe problem behavior. The focus is on severe behaviors not ameliorated by typical classroom management and intervention. Prerequisite: SPED 5375 with a "C" or better.
about Advanced Intervention Practices for Challenging Behavior
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SPED 5377. Positive Behavior Interventions and Supports in Schools.
This course covers theory, issues, and applications of Positive Behavior Interventions and Supports (PBIS) in school settings. Topics include history and foundations of PBIS; PBIS assessment and evaluation; and best practices in behavior and academic interventions in PBIS programs. Prerequisite: SPED 5375 with a "C" or better.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5378. Positive Behavior Interventions and Supports in Schools.
Prerequisite: SPED 5375 with a "C" or better.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5379. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5380. Positive Behavior Interventions and Supports in Schools.
Prerequisite: SPED 5375 with a "C" or better.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5381. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

This course covers advanced principles, concepts, and practices related to educating students with Emotional/Behavioral Disorders. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course provides information about professional roles, ethics, standards, laws, rules, and regulations pertaining to educational diagnosticians. Procedures for selecting, administering, and interpreting standardized instruments utilized for evaluation of exceptional learners will also be addressed.
about Educational Diagnostician Ethics, Standards, and Procedures
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

about Educational Diagnostician Ethics, Standards, and Procedures
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5386. Advanced Techniques in Applied Behavioral Analysis.
Course covers advanced principles of Applied Behavior Analysis, including assessment and development of interventions. Topics include foundations and ethics of ABA, the analysis of verbal behavior, functional behavior analysis, single subject design, and program development and evaluation. Prerequisite: SPED 5375.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5387. Single-Subject Research Methods and Designs.
Single-subject analysis is a primary research methodology in special education and other related human service fields. This course will address uses of this methodology in applied behavior analysis for development of effective classroom instruction and clinical interventions and for evaluation and accountability purposes.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

SPED 5388. Special Education Practicum.
Design and implement educational programs for students with disabilities including assessment, planning, instruction, progress reporting, and development of annual goals and objectives. Superseded by SPED 5389.
Grade Mode: Standard Letter
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5389. Special Education Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.
Grade Mode: Standard Letter
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5390. Educational Diagnostician Practicum.
Provides opportunities for students to become familiar with the professional responsibilities of education diagnosticians. Emphasis will be on school-based services, including advanced, evidence-based instructional and behavioral interventions for improving academic, social, and behavioral outcomes. Prerequisites: Prior completion or concurrent enrollment in SPED 5311 or 5340, SPED 5375 and SPED 5313.
Grade Mode: Standard Letter
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.

SPED 5391. Field-Based Practicum in Autism Spectrum Disorders.
This course provides intensive field experience working with students with autism in school settings. Skills to be practiced include interventions based on applied behavior analysis, assessment of learning needs, behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisite or Co-requisite: SPED 5327.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.

SPED 5392. Field-Based Practicum in Autism Spectrum Disorders.
Grade Mode: Standard Letter
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
SPED 5392. Field Based Practicum in Behavior Disorders/Positive Behavior Supports.
This course provides intensive field experience working with students with behavior disorders in school settings to include practices based in positive behavior supports, applied behavior analysis, assessment of learning needs and behavior function, application of instructional and behavioral interventions, and evaluation of student progress. Repeatable for credit. Prerequisites: SPED 5313, SPED 5380, SPED 5382, SPED 5375, about Field Based Practicum in Behavior Disorders/Positive Behavior Supports
3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Master of Arts (M.A.), Major in Elementary Education

Admission Policy
For information regarding admission application requirements and deadlines, please visit The Graduate College website at http://www.gradcollege.txstate.edu/elem.html.

Course Work Requirements
Thesis Option with 12-hour Minor

Education Course Work
CI 5390  Research Seminar in Education  3
CI 5309  Talent Development  3
CI 5327  Principles and Practices in the Elementary School  3

Strategies
CI 5310  Creativity: Theories, Research, and Applications  3

Elementary Math/Science
Choose 3 hours

CI 5303  Teaching Math in the Elementary School
CI 5304  Teaching Mathematics and Science in the Elementary School
CI 5329  The Elementary School Science Curriculum

Elementary Arts and Social Studies
Choose 3 hours

CI 5328  Elementary Social Studies: Curriculum Problems  3
or RDG 5310  Teaching Literacy with Children's and Young Adult Literature

Thesis Course Work
Choose a minimum of 6 hours  6

CI 5199B  Thesis
CI 5299B  Thesis
CI 5399A  Thesis
CI 5399B  Thesis
CI 5599B  Thesis
CI 5999B  Thesis

Minor Course Work
Choose a 12-hour minor (Needs advisor approval)  12

Total Hours  36

Early Childhood Specialization with Thesis and 6-hour Minor

Education Course Work
CI 5390  Research Seminar in Education  3
CI 5309  Talent Development  3

Concentration Course Work
CI 5327  Principles and Practices in the Elementary School  3
EDTC 5310  Introduction to Educational Technology  3
ECE 5318  Advanced Early Child Development: Readiness for Learning and Language Abilities  3
ECE 5319  Curriculum and the Young Child, I (Kindergarten)  3
ECE 5330  Curriculum and the Young Child, II (Kindergarten)  3
ECE 5380  Independent Study in Early Childhood  3

Thesis Course Work
Choose a minimum of 6 hours  6

CI 5199B  Thesis
CI 5299B  Thesis
CI 5399A  Thesis
CI 5399B  Thesis
CI 5599B  Thesis
CI 5999B  Thesis

Minor Course Work
Choose a 6-hour minor (Needs advisor approval)  6

Total Hours  36

Talent Development Specialization with Thesis

Education Course Work
CI 5390  Research Seminar in Education  3
CI 5309  Talent Development  3

Concentration Course Work
CI 5375  Problems in Elementary Education  3
CI 5310  Creativity: Theories, Research, and Applications  3
CI 5311  Practicum in Talent Development  3
CI 5319  Social, Emotional, and Cultural Contexts of Advanced Development  3
CI 7352  Beginning Qualitative Design and Analysis  3
CI 5330  Multicultural Teaching and Learning  3

Thesis Course Work
Choose a minimum of 6 hours  6

CI 5199B  Thesis
CI 5299B  Thesis
CI 5399A  Thesis
CI 5399B  Thesis
CI 5599B  Thesis
CI 5999B  Thesis

Minor Course Work
Choose a 6-hour minor (Needs advisor approval)  6

Total Hours  30

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis.

Thesis Proposal
The student must submit an official Master’s Thesis Proposal form to their thesis committee. The required thesis proposal form may be obtained from The Graduate College at http://www.gradcollege.txstate.edu/gcforms.html. After signing the form and obtaining committee members’ signatures, graduate advisor’s signature (if required by the program), and the department chair’s signature, the student must submit the thesis proposal form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A.

Thesis Committee
The thesis committee must be composed of a minimum of three approved graduate faculty members.

Thesis Enrollment and Credit
The completion of a minimum of six hours of thesis enrollment is required. Enrollment for the thesis will be in course number 5399A for a student’s initial thesis enrollment and a thesis B course for each subsequent thesis enrollment in the field in which the subject matter of the thesis falls, e.g., ENG 5399A, ENG 5199B, ENG 5299B, ENG 5399B, ENG 5599B, and ENG 5999B. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

A student will be required to enroll in and pay the fee for at least one hour of the thesis course during any term in which the student will receive thesis supervision or guidance and/or in which the student is using university resources. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdraw), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis is filed in the Alkek Library and the librarian has electronically returned the thesis card to the office of The Graduate College.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during summer the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

Fee Reduction
A master’s degree candidate for graduation may be eligible for a one-time fee reduction under V.T.C.A. Education Code, Section 54.054. Please refer to the section titled Fee Reduction in the Additional Fees and Expenses chapter of this catalog for more information.

Thesis Deadlines and Approval Process
Thesis deadlines are posted at the following web page: http://www.gradcollege.txstate.edu/Thes-Diss_Info/T-D_Deadlines.html. The completed thesis must be submitted to the chair of the thesis committee no later than 41 days before the date of the commencement at which the degree is to be conferred.

The following must be submitted to the office of The Graduate College no later than 24 days, not counting weekends or holidays, before the date of commencement at which the degree is to be conferred (see The Graduate College webpage for specific deadlines):

1. The Thesis/Dissertation Committee Approval form bearing original signatures of the student and all committee members.
