1          GNU GENERAL PUBLIC LICENSE
2              Version 3, 29 June 2007
3
4  Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
5  Everyone is permitted to copy and distribute verbatim copies
6  of this license document, but changing it is not allowed.
7
8              Preamble
9
10 The GNU General Public License is a free, copyleft license for
11 software and other kinds of works.
12
13 The licenses for most software and other practical works are designed
14 to take away your freedom to share and change the works.  By contrast,
15 the GNU General Public License is intended to guarantee your freedom to
16 share and change all versions of a program--to make sure it remains free
17 software for all its users.  We, the Free Software Foundation, use the
18 GNU General Public License for most of our software; it applies also to
19 any other work released this way by its authors.  You can apply it to
20 your programs, too.
21
22 When we speak of free software, we are referring to freedom, not
23 price.  Our General Public Licenses are designed to make sure that you
24 have the freedom to distribute copies of free software (and charge for
25 them if you wish), that you receive source code or can get it if you
26 want it, that you can change the software or use pieces of it in new
27 free programs, and that you know you can do these things.
28
29 To protect your rights, we need to prevent others from denying you
30 these rights or asking you to surrender the rights.  Therefore, you have
31 certain responsibilities if you distribute copies of the software, or if
32 you modify it: responsibilities to respect the freedom of others.
33
34 For example, if you distribute copies of such a program, whether
35 gratis or for a fee, you must pass on to the recipients the same

```

36 freedoms that you received. You must make sure that they, too, receive  
37 or can get the source code. And you must show them these terms so they  
38 know their rights.

39  
40 Developers that use the GNU GPL protect your rights with two steps:  
41 (1) assert copyright on the software, and (2) offer you this License  
42 giving you legal permission to copy, distribute and/or modify it.

43  
44 For the developers' and authors' protection, the GPL clearly explains  
45 that there is no warranty for this free software. For both users' and  
46 authors' sake, the GPL requires that modified versions be marked as  
47 changed, so that their problems will not be attributed erroneously to  
48 authors of previous versions.

49  
50 Some devices are designed to deny users access to install or run  
51 modified versions of the software inside them, although the manufacturer  
52 can do so. This is fundamentally incompatible with the aim of  
53 protecting users' freedom to change the software. The systematic  
54 pattern of such abuse occurs in the area of products for individuals to  
55 use, which is precisely where it is most unacceptable. Therefore, we  
56 have designed this version of the GPL to prohibit the practice for those  
57 products. If such problems arise substantially in other domains, we  
58 stand ready to extend this provision to those domains in future versions  
59 of the GPL, as needed to protect the freedom of users.

60  
61 Finally, every program is threatened constantly by software patents.  
62 States should not allow patents to restrict development and use of  
63 software on general-purpose computers, but in those that do, we wish to  
64 avoid the special danger that patents applied to a free program could  
65 make it effectively proprietary. To prevent this, the GPL assures that  
66 patents cannot be used to render the program non-free.

67  
68 The precise terms and conditions for copying, distribution and  
69 modification follow.

## 70 71 TERMS AND CONDITIONS

### 72 73 0. Definitions.

74  
75 "This License" refers to version 3 of the GNU General Public License.

76  
77 "Copyright" also means copyright-like laws that apply to other kinds of  
78 works, such as semiconductor masks.

79  
80 "The Program" refers to any copyrightable work licensed under this  
81 License. Each licensee is addressed as "you". "Licensees" and  
82 "recipients" may be individuals or organizations.

83  
84 To "modify" a work means to copy from or adapt all or part of the work  
85 in a fashion requiring copyright permission, other than the making of an  
86 exact copy. The resulting work is called a "modified version" of the  
87 earlier work or a work "based on" the earlier work.

88  
89 A "covered work" means either the unmodified Program or a work based  
90 on the Program.

91  
92 To "propagate" a work means to do anything with it that, without  
93 permission, would make you directly or secondarily liable for  
94 infringement under applicable copyright law, except executing it on a  
95 computer or modifying a private copy. Propagation includes copying,  
96 distribution (with or without modification), making available to the  
97 public, and in some countries other activities as well.

98  
99 To "convey" a work means any kind of propagation that enables other  
100 parties to make or receive copies. Mere interaction with a user through  
101 a computer network, with no transfer of a copy, is not conveying.

103 An interactive user interface displays "Appropriate Legal Notices"  
104 to the extent that it includes a convenient and prominently visible  
105 feature that (1) displays an appropriate copyright notice, and (2)  
106 tells the user that there is no warranty for the work (except to the  
107 extent that warranties are provided), that licensees may convey the  
108 work under this License, and how to view a copy of this License. If  
109 the interface presents a list of user commands or options, such as a  
110 menu, a prominent item in the list meets this criterion.

#### 111 112 1. Source Code.

113  
114 The "source code" for a work means the preferred form of the work  
115 for making modifications to it. "Object code" means any non-source  
116 form of a work.

117  
118 A "Standard Interface" means an interface that either is an official  
119 standard defined by a recognized standards body, or, in the case of  
120 interfaces specified for a particular programming language, one that  
121 is widely used among developers working in that language.

122  
123 The "System Libraries" of an executable work include anything, other  
124 than the work as a whole, that (a) is included in the normal form of  
125 packaging a Major Component, but which is not part of that Major  
126 Component, and (b) serves only to enable use of the work with that  
127 Major Component, or to implement a Standard Interface for which an  
128 implementation is available to the public in source code form. A  
129 "Major Component", in this context, means a major essential component  
130 (kernel, window system, and so on) of the specific operating system  
131 (if any) on which the executable work runs, or a compiler used to  
132 produce the work, or an object code interpreter used to run it.

133  
134 The "Corresponding Source" for a work in object code form means all  
135 the source code needed to generate, install, and (for an executable  
136 work) run the object code and to modify the work, including scripts to  
137 control those activities. However, it does not include the work's  
138 System Libraries, or general-purpose tools or generally available free  
139 programs which are used unmodified in performing those activities but  
140 which are not part of the work. For example, Corresponding Source  
141 includes interface definition files associated with source files for  
142 the work, and the source code for shared libraries and dynamically  
143 linked subprograms that the work is specifically designed to require,  
144 such as by intimate data communication or control flow between those  
145 subprograms and other parts of the work.

146  
147 The Corresponding Source need not include anything that users  
148 can regenerate automatically from other parts of the Corresponding  
149 Source.

150  
151 The Corresponding Source for a work in source code form is that  
152 same work.

#### 153 154 2. Basic Permissions.

155  
156 All rights granted under this License are granted for the term of  
157 copyright on the Program, and are irrevocable provided the stated  
158 conditions are met. This License explicitly affirms your unlimited  
159 permission to run the unmodified Program. The output from running a  
160 covered work is covered by this license only if the output, given its  
161 content, constitutes a covered work. This License acknowledges your  
162 rights of fair use or other equivalent, as provided by copyright law.

163  
164 You may make, run and propagate covered works that you do not  
165 convey, without conditions so long as your license otherwise remains  
166 in force. You may convey covered works to others for the sole purpose  
167 of having them make modifications exclusively for you, or provide you  
168 with facilities for running those works, provided that you comply with  
169 the terms of this License in conveying all material for which you do

170 not control copyright. Those thus making or running the covered works  
171 for you must do so exclusively on your behalf, under your direction  
172 and control, on terms that prohibit them from making any copies of  
173 your copyrighted material outside their relationship with you.  
174

175 Conveying under any other circumstances is permitted solely under  
176 the conditions stated below. Sublicensing is not allowed; section 10  
177 makes it unnecessary.  
178

### 179 3. Protecting Users' Legal Rights From Anti-Circumvention Law.

180

181 No covered work shall be deemed part of an effective technological  
182 measure under any applicable law fulfilling obligations under article  
183 11 of the WIPO copyright treaty adopted on 20 December 1996, or  
184 similar laws prohibiting or restricting circumvention of such  
185 measures.  
186

187 When you convey a covered work, you waive any legal power to forbid  
188 circumvention of technological measures to the extent such circumvention  
189 is effected by exercising rights under this License with respect to  
190 the covered work, and you disclaim any intention to limit operation or  
191 modification of the work as a means of enforcing, against the work's  
192 users, your or third parties' legal rights to forbid circumvention of  
193 technological measures.  
194

### 195 4. Conveying Verbatim Copies.

196

197 You may convey verbatim copies of the Program's source code as you  
198 receive it, in any medium, provided that you conspicuously and  
199 appropriately publish on each copy an appropriate copyright notice;  
200 keep intact all notices stating that this license and any  
201 non-permissive terms added in accord with section 7 apply to the code;  
202 keep intact all notices of the absence of any warranty; and give all  
203 recipients a copy of this License along with the Program.  
204

205 You may charge any price or no price for each copy that you convey,  
206 and you may offer support or warranty protection for a fee.  
207

### 208 5. Conveying Modified Source Versions.

209

210 You may convey a work based on the Program, or the modifications to  
211 produce it from the Program, in the form of source code under the  
212 terms of section 4, provided that you also meet all of these conditions:  
213

214 a) The work must carry prominent notices stating that you modified  
215 it, and giving a relevant date.  
216

217 b) The work must carry prominent notices stating that it is  
218 released under this license and any conditions added under section  
219 7. This requirement modifies the requirement in section 4 to  
220 "keep intact all notices".  
221

222 c) You must license the entire work, as a whole, under this  
223 license to anyone who comes into possession of a copy. This  
224 license will therefore apply, along with any applicable section 7  
225 additional terms, to the whole of the work, and all its parts,  
226 regardless of how they are packaged. This license gives no  
227 permission to license the work in any other way, but it does not  
228 invalidate such permission if you have separately received it.  
229

230 d) If the work has interactive user interfaces, each must display  
231 Appropriate Legal Notices; however, if the Program has interactive  
232 interfaces that do not display Appropriate Legal Notices, your  
233 work need not make them do so.  
234

235 A compilation of a covered work with other separate and independent  
236 works, which are not by their nature extensions of the covered work,

237 and which are not combined with it such as to form a larger program,  
238 in or on a volume of a storage or distribution medium, is called an  
239 "aggregate" if the compilation and its resulting copyright are not  
240 used to limit the access or legal rights of the compilation's users  
241 beyond what the individual works permit. Inclusion of a covered work  
242 in an aggregate does not cause this License to apply to the other  
243 parts of the aggregate.

#### 244 6. Conveying Non-Source Forms.

245  
246 You may convey a covered work in object code form under the terms  
247 of sections 4 and 5, provided that you also convey the  
248 machine-readable Source under the terms of this License,  
249 in one of these ways:  
250

251  
252 a) Convey the object code in, or embodied in, a physical product  
253 (including a physical distribution medium), accompanied by the  
254 Corresponding Source fixed on a durable physical medium  
255 customarily used for software interchange.

256  
257 b) Convey the object code in, or embodied in, a physical product  
258 (including a physical distribution medium), accompanied by a  
259 written offer, valid for at least three years and valid for as  
260 long as you offer spare parts or customer support for that product  
261 model, to give anyone who possesses the object code either (1) a  
262 copy of the Corresponding Source for all the software in the  
263 product that is covered by this License, on a durable physical  
264 medium customarily used for software interchange, for a price no  
265 more than your reasonable cost of physically performing this  
266 conveying of source, or (2) access to copy the  
267 Corresponding Source from a network server at no charge.

268  
269 c) Convey individual copies of the object code with a copy of the  
270 written offer to provide the Corresponding Source. This  
271 alternative is allowed only occasionally and noncommercially, and  
272 only if you received the object code with such an offer, in accord  
273 with subsection 6b.

274  
275 d) Convey the object code by offering access from a designated  
276 place (gratis or for a charge), and offer equivalent access to the  
277 Corresponding Source in the same way through the same place at no  
278 further charge. You need not require recipients to copy the  
279 Corresponding Source along with the object code. If the place to  
280 copy the object code is a network server, the Corresponding Source  
281 may be on a different server (operated by you or a third party)  
282 that supports equivalent copying facilities, provided you maintain  
283 clear directions next to the object code saying where to find the  
284 Corresponding Source. Regardless of what server hosts the  
285 Corresponding Source, you remain obligated to ensure that it is  
286 available for as long as needed to satisfy these requirements.

287  
288 e) Convey the object code using peer-to-peer transmission, provided  
289 you inform other peers where the object code and Corresponding  
290 Source of the work are being offered to the general public at no  
291 charge under subsection 6d.

292  
293 A separable portion of the object code, whose source code is excluded  
294 from the Corresponding Source as a System Library, need not be  
295 included in conveying the object code work.

296  
297 A "User Product" is either (1) a "consumer product", which means any  
298 tangible personal property which is normally used for personal, family,  
299 or household purposes, or (2) anything designed or sold for incorporation  
300 into a dwelling. In determining whether a product is a consumer product,  
301 doubtful cases shall be resolved in favor of coverage. For a particular  
302 product received by a particular user, "normally used" refers to a  
303 typical or common use of that class of product, regardless of the status

304 of the particular user or of the way in which the particular user  
305 actually uses, or expects or is expected to use, the product. A product  
306 is a consumer product regardless of whether the product has substantial  
307 commercial, industrial or non-consumer uses, unless such uses represent  
308 the only significant mode of use of the product.  
309

310 "Installation Information" for a User Product means any methods,  
311 procedures, authorization keys, or other information required to install  
312 and execute modified versions of a covered work in that User Product from  
313 a modified version of its Corresponding Source. The information must  
314 suffice to ensure that the continued functioning of the modified object  
315 code is in no case prevented or interfered with solely because  
316 modification has been made.  
317

318 If you convey an object code work under this section in, or with, or  
319 specifically for use in, a User Product, and the conveying occurs as  
320 part of a transaction in which the right of possession and use of the  
321 User Product is transferred to the recipient in perpetuity or for a  
322 fixed term (regardless of how the transaction is characterized), the  
323 Corresponding Source conveyed under this section must be accompanied  
324 by the Installation Information. But this requirement does not apply  
325 if neither you nor any third party retains the ability to install  
326 modified object code on the User Product (for example, the work has  
327 been installed in ROM).  
328

329 The requirement to provide Installation Information does not include a  
330 requirement to continue to provide support service, warranty, or updates  
331 for a work that has been modified or installed by the recipient, or for  
332 the User Product in which it has been modified or installed. Access to a  
333 network may be denied when the modification itself materially and  
334 adversely affects the operation of the network or violates the rules and  
335 protocols for communication across the network.  
336

337 Corresponding Source conveyed, and Installation Information provided,  
338 in accord with this section must be in a format that is publicly  
339 documented (and with an implementation available to the public in  
340 source code form), and must require no special password or key for  
341 unpacking, reading or copying.  
342

#### 343 7. Additional Terms.

344

345 "Additional permissions" are terms that supplement the terms of this  
346 License by making exceptions from one or more of its conditions.  
347 Additional permissions that are applicable to the entire Program shall  
348 be treated as though they were included in this License, to the extent  
349 that they are valid under applicable law. If additional permissions  
350 apply only to part of the Program, that part may be used separately  
351 under those permissions, but the entire Program remains governed by  
352 this License without regard to the additional permissions.  
353

354 When you convey a copy of a covered work, you may at your option  
355 remove any additional permissions from that copy, or from any part of  
356 it. (Additional permissions may be written to require their own  
357 removal in certain cases when you modify the work.) You may place  
358 additional permissions on material, added by you to a covered work,  
359 for which you have or can give appropriate copyright permission.  
360

361 Notwithstanding any other provision of this License, for material you  
362 add to a covered work, you may (if authorized by the copyright holders of  
363 that material) supplement the terms of this License with terms:  
364

365 a) Disclaiming warranty or limiting liability differently from the  
366 terms of sections 15 and 16 of this License; or  
367

368 b) Requiring preservation of specified reasonable legal notices or  
369 author attributions in that material or in the Appropriate Legal  
370 Notices displayed by works containing it; or

- 371  
372 c) Prohibiting misrepresentation of the origin of that material, or  
373 requiring that modified versions of such material be marked in  
374 reasonable ways as different from the original version; or  
375  
376 d) Limiting the use for publicity purposes of names of licensors or  
377 authors of the material; or  
378  
379 e) Declining to grant rights under trademark law for use of some  
380 trade names, trademarks, or service marks; or  
381  
382 f) Requiring indemnification of licensors and authors of that  
383 material by anyone who conveys the material (or modified versions of  
384 it) with contractual assumptions of liability to the recipient, for  
385 any liability that these contractual assumptions directly impose on  
386 those licensors and authors.  
387

388 All other non-permissive additional terms are considered "further  
389 restrictions" within the meaning of section 10. If the Program as you  
390 received it, or any part of it, contains a notice stating that it is  
391 governed by this License along with a term that is a further  
392 restriction, you may remove that term. If a license document contains  
393 a further restriction but permits relicensing or conveying under this  
394 License, you may add to a covered work material governed by the terms  
395 of that license document, provided that the further restriction does  
396 not survive such relicensing or conveying.  
397

398 If you add terms to a covered work in accord with this section, you  
399 must place, in the relevant source files, a statement of the  
400 additional terms that apply to those files, or a notice indicating  
401 where to find the applicable terms.  
402

403 Additional terms, permissive or non-permissive, may be stated in the  
404 form of a separately written license, or stated as exceptions;  
405 the above requirements apply either way.  
406

#### 407 8. Termination.

408

409 You may not propagate or modify a covered work except as expressly  
410 provided under this License. Any attempt otherwise to propagate or  
411 modify it is void, and will automatically terminate your rights under  
412 this License (including any patent licenses granted under the third  
413 paragraph of section 11).  
414

415 However, if you cease all violation of this License, then your  
416 license from a particular copyright holder is reinstated (a)  
417 provisionally, unless and until the copyright holder explicitly and  
418 finally terminates your license, and (b) permanently, if the copyright  
419 holder fails to notify you of the violation by some reasonable means  
420 prior to 60 days after the cessation.  
421

422 Moreover, your license from a particular copyright holder is  
423 reinstated permanently if the copyright holder notifies you of the  
424 violation by some reasonable means, this is the first time you have  
425 received notice of violation of this License (for any work) from that  
426 copyright holder, and you cure the violation prior to 30 days after  
427 your receipt of the notice.  
428

429 Termination of your rights under this section does not terminate the  
430 licenses of parties who have received copies or rights from you under  
431 this License. If your rights have been terminated and not permanently  
432 reinstated, you do not qualify to receive new licenses for the same  
433 material under section 10.  
434

#### 435 9. Acceptance Not Required for Having Copies.

436

437 You are not required to accept this License in order to receive or

438 run a copy of the Program. Ancillary propagation of a covered work  
439 occurring solely as a consequence of using peer-to-peer transmission  
440 to receive a copy likewise does not require acceptance. However,  
441 nothing other than this License grants you permission to propagate or  
442 modify any covered work. These actions infringe copyright if you do  
443 not accept this License. Therefore, by modifying or propagating a  
444 covered work, you indicate your acceptance of this License to do so.

#### 446 10. Automatic Licensing of Downstream Recipients.

447  
448 Each time you convey a covered work, the recipient automatically  
449 receives a license from the original licensors, to run, modify and  
450 propagate that work, subject to this License. You are not responsible  
451 for enforcing compliance by third parties with this License.

452  
453 An "entity transaction" is a transaction transferring control of an  
454 organization, or substantially all assets of one, or subdividing an  
455 organization, or merging organizations. If propagation of a covered  
456 work results from an entity transaction, each party to that  
457 transaction who receives a copy of the work also receives whatever  
458 licenses to the work the party's predecessor in interest had or could  
459 give under the previous paragraph, plus a right to possession of the  
460 Corresponding Source of the work from the predecessor in interest, if  
461 the predecessor has it or can get it with reasonable efforts.

462  
463 You may not impose any further restrictions on the exercise of the  
464 rights granted or affirmed under this License. For example, you may  
465 not impose a license fee, royalty, or other charge for exercise of  
466 rights granted under this License, and you may not initiate litigation  
467 (including a cross-claim or counterclaim in a lawsuit) alleging that  
468 any patent claim is infringed by making, using, selling, offering for  
469 sale, or importing the Program or any portion of it.

#### 471 11. Patents.

472  
473 A "contributor" is a copyright holder who authorizes use under this  
474 License of the Program or a work on which the Program is based. The  
475 work thus licensed is called the contributor's "contributor version".

476  
477 A contributor's "essential patent claims" are all patent claims  
478 owned or controlled by the contributor, whether already acquired or  
479 hereafter acquired, that would be infringed by some manner, permitted  
480 by this License, of making, using, or selling its contributor version,  
481 but do not include claims that would be infringed only as a  
482 consequence of further modification of the contributor version. For  
483 purposes of this definition, "control" includes the right to grant  
484 patent sublicenses in a manner consistent with the requirements of  
485 this License.

486  
487 Each contributor grants you a non-exclusive, worldwide, royalty-free  
488 patent license under the contributor's essential patent claims, to  
489 make, use, sell, offer for sale, import and otherwise run, modify and  
490 propagate the contents of its contributor version.

491  
492 In the following three paragraphs, a "patent license" is any express  
493 agreement or commitment, however denominated, not to enforce a patent  
494 (such as an express permission to practice a patent or covenant not to  
495 sue for patent infringement). To "grant" such a patent license to a  
496 party means to make such an agreement or commitment not to enforce a  
497 patent against the party.

498  
499 If you convey a covered work, knowingly relying on a patent license,  
500 and the Corresponding Source of the work is not available for anyone  
501 to copy, free of charge and under the terms of this license, through a  
502 publicly available network server or other readily accessible means,  
503 then you must either (1) cause the Corresponding Source to be so  
504 available, or (2) arrange to deprive yourself of the benefit of the

505 patent license for this particular work, or (3) arrange, in a manner  
506 consistent with the requirements of this License, to extend the patent  
507 license to downstream recipients. "Knowingly relying" means you have  
508 actual knowledge that, but for the patent license, your conveying the  
509 covered work in a country, or your recipient's use of the covered work  
510 in a country, would infringe one or more identifiable patents in that  
511 country that you have reason to believe are valid.

512  
513 If, pursuant to or in connection with a single transaction or  
514 arrangement, you convey, or propagate by procuring conveyance of, a  
515 covered work, and grant a patent license to some of the parties  
516 receiving the covered work authorizing them to use, propagate, modify  
517 or convey a specific copy of the covered work, then the patent license  
518 you grant is automatically extended to all recipients of the covered  
519 work and works based on it.

520  
521 A patent license is "discriminatory" if it does not include within  
522 the scope of its coverage, prohibits the exercise of, or is  
523 conditioned on the non-exercise of one or more of the rights that are  
524 specifically granted under this license. You may not convey a covered  
525 work if you are a party to an arrangement with a third party that is  
526 in the business of distributing software, under which you make payment  
527 to the third party based on the extent of your activity of conveying  
528 the work, and under which the third party grants, to any of the  
529 parties who would receive the covered work from you, a discriminatory  
530 patent license (a) in connection with copies of the covered work  
531 conveyed by you (or copies made from those copies), or (b) primarily  
532 for and in connection with specific products or compilations that  
533 contain the covered work, unless you entered into that arrangement,  
534 or that patent license was granted, prior to 28 March 2007.

535  
536 Nothing in this License shall be construed as excluding or limiting  
537 any implied license or other defenses to infringement that may  
538 otherwise be available to you under applicable patent law.

#### 539 540 12. No Surrender of Others' Freedom.

541  
542 If conditions are imposed on you (whether by court order, agreement or  
543 otherwise) that contradict the conditions of this License, they do not  
544 excuse you from the conditions of this License. If you cannot convey a  
545 covered work so as to satisfy simultaneously your obligations under this  
546 License and any other pertinent obligations, then as a consequence you may  
547 not convey it at all. For example, if you agree to terms that obligate you  
548 to collect a royalty for further conveying from those to whom you convey  
549 the Program, the only way you could satisfy both those terms and this  
550 License would be to refrain entirely from conveying the Program.

#### 551 552 13. Use with the GNU Affero General Public License.

553  
554 Notwithstanding any other provision of this License, you have  
555 permission to link or combine any covered work with a work licensed  
556 under version 3 of the GNU Affero General Public License into a single  
557 combined work, and to convey the resulting work. The terms of this  
558 License will continue to apply to the part which is the covered work,  
559 but the special requirements of the GNU Affero General Public License,  
560 section 13, concerning interaction through a network will apply to the  
561 combination as such.

#### 562 563 14. Revised Versions of this License.

564  
565 The Free Software Foundation may publish revised and/or new versions of  
566 the GNU General Public License from time to time. Such new versions will  
567 be similar in spirit to the present version, but may differ in detail to  
568 address new problems or concerns.

569  
570 Each version is given a distinguishing version number. If the  
571 Program specifies that a certain numbered version of the GNU General

572 Public License "or any later version" applies to it, you have the  
573 option of following the terms and conditions either of that numbered  
574 version or of any later version published by the Free Software  
575 Foundation. If the Program does not specify a version number of the  
576 GNU General Public License, you may choose any version ever published  
577 by the Free Software Foundation.  
578

579 If the Program specifies that a proxy can decide which future  
580 versions of the GNU General Public License can be used, that proxy's  
581 public statement of acceptance of a version permanently authorizes you  
582 to choose that version for the Program.  
583

584 Later license versions may give you additional or different  
585 permissions. However, no additional obligations are imposed on any  
586 author or copyright holder as a result of your choosing to follow a  
587 later version.  
588

#### 589 15. Disclaimer of Warranty.

590

591 THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY  
592 APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT  
593 HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY  
594 OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO,  
595 THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR  
596 PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM  
597 IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF  
598 ALL NECESSARY SERVICING, REPAIR OR CORRECTION.  
599

#### 600 16. Limitation of Liability.

601

602 IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING  
603 WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS  
604 THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY  
605 GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE  
606 USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF  
607 DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD  
608 PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS),  
609 EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF  
610 SUCH DAMAGES.  
611

#### 612 17. Interpretation of Sections 15 and 16.

613

614 If the disclaimer of warranty and limitation of liability provided  
615 above cannot be given local legal effect according to their terms,  
616 reviewing courts shall apply local law that most closely approximates  
617 an absolute waiver of all civil liability in connection with the  
618 Program, unless a warranty or assumption of liability accompanies a  
619 copy of the Program in return for a fee.  
620

621 END OF TERMS AND CONDITIONS

#### 622 How to Apply These Terms to Your New Programs

623

624  
625 If you develop a new program, and you want it to be of the greatest  
626 possible use to the public, the best way to achieve this is to make it  
627 free software which everyone can redistribute and change under these terms.  
628

629 To do so, attach the following notices to the program. It is safest  
630 to attach them to the start of each source file to most effectively  
631 state the exclusion of warranty; and each file should have at least  
632 the "copyright" line and a pointer to where the full notice is found.  
633

634 <one line to give the program's name and a brief idea of what it does.>  
635 Copyright (C) <year> <name of author>  
636

637 This program is free software: you can redistribute it and/or modify  
638 it under the terms of the GNU General Public License as published by

639 the Free Software Foundation, either version 3 of the License, or  
640 (at your option) any later version.

641  
642 This program is distributed in the hope that it will be useful,  
643 but WITHOUT ANY WARRANTY; without even the implied warranty of  
644 MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the  
645 GNU General Public License for more details.

646  
647 You should have received a copy of the GNU General Public License  
648 along with this program. If not, see <<http://www.gnu.org/licenses/>>.

649  
650 Also add information on how to contact you by electronic and paper mail.

651  
652 If the program does terminal interaction, make it output a short  
653 notice like this when it starts in an interactive mode:

654  
655 <program> Copyright (C) <year> <name of author>  
656 This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.  
657 This is free software, and you are welcome to redistribute it  
658 under certain conditions; type `show c' for details.

659  
660 The hypothetical commands `show w' and `show c' should show the appropriate  
661 parts of the General Public License. Of course, your program's commands  
662 might be different; for a GUI interface, you would use an "about box".

663  
664 You should also get your employer (if you work as a programmer) or school,  
665 if any, to sign a "copyright disclaimer" for the program, if necessary.  
666 For more information on this, and how to apply and follow the GNU GPL, see  
667 <<http://www.gnu.org/licenses/>>.

668  
669 The GNU General Public License does not permit incorporating your program  
670 into proprietary programs. If your program is a subroutine library, you  
671 may consider it more useful to permit linking proprietary applications with  
672 the library. If this is what you want to do, use the GNU Lesser General  
673 Public License instead of this License. But first, please read  
674 <<http://www.gnu.org/philosophy/why-not-lgpl.html>>.
