**Subject:** Request Permission: Article in Perspectives in Health Information Management

Mary Butler,

One of our faculty members would like to archive their work in our Texas State University Digital Collections Repository (<https://digital.library.txstate.edu/>). We would include the full citation, publisher information, and link back to the journal.

Below is the article that we'd like to include:

- Dolezel, D., McLeod, A. (Summer 2019). Cyber-analytics: Identifying discriminants of data breaches. "Perspectives in Health Information Management, Vol. 16.

Please let me know if you need additional information. Thank you for your time and I look forward to hearing from you.

Laura Waugh
