Arksey & O'Malley (2005) Scoping Literature Review & Concept Analysis

1. Identify Research Questions:

- What are the common cultural humility tenets or principles across the literature?
- How do cultural humility models in the literature address the common criticisms of cross-cultural education theories?
- How has the cultural humility concept evolved over time?

2. Select Relevant Literature:

- Cultural humility in the article/document title
- Keywords: theory, concept, model, conceptual, OR framework AND health, healthcare, medical, OR medicine
- 56 articles from 1998 to 2022 fit the inclusion criteria

3. Collate & Synthesize the Literature:

- Assign a priori categories from founding cultural humility concept authors (Tervalon & Murray-Garcia, 1998) & develop emergent themes
- Percentages of articles with each principle or theme
- Analysis of cross-cultural education critiques, cultural humility model adaptations, and new approaches
