Oh that's fantastic. I didn't know about that. (I'm nontenure, so I don't do much research – but I write articles from time to time.)

Here's the textbook chapter. Thanks so much for offering to add that. I truly appreciate it.

Dale

Hi Dr. Blasingame,

I also wanted to mention that you could send a copy of the chapter, and other articles, to include in the Texas State University [Digital Collections Repository](https://digital.library.txstate.edu/handle/10877/10319). This is our institutional repository for the university that houses research and scholarship of our faculty. Each item is assigned a permanent URL, includes statistics on views and downloads, and you can share that link with your students each semester and add to your CV and Faculty Profile.

I'd be happy to add that and send you the link. Also, for any other items we can check the copyright and add those as well.

Please let me know if you'd also like to include the chapter in the repository or have any questions.

Best wishes,

It sounds like you retained the copyright, so you could upload a pdf of the chapter. I'm also copying the Subject Librarian for Journalism and Mass Comm, Ginger Williams, who can approve the ebook request. Ginger, I put it with a note in the JMassComm folder in GOBI.

When we get the ebook, Dale, you can link to your chapter in your course site. Students should be able to access it that way as well.

Thanks!
Stephanie

Hi Stephanie,

Thanks so much for your reply. I attached a screen grab of the copyright notice in the book. Like I mentioned earlier, I can't remember ever signing any documents with them and can't find any record of any documents in my email.

Here is the book itself. I couldn't find an ebook version at the library – and don't really want the university to spend money on the book, to be completely honest. My usage of it would be super limited to just this one chapter for one class. But if it's already available...

Thanks again!

Hi Dale,
If you didn't transfer copyright then you still own it and can use it without permission. Even if you transferred copyright, you could use it under fair use. How many pages total is the book? What's the title - I can see if we can get it as an ebook, too.

Thanks!
Stephanie

Subject: Textbook chapter question

Hi Stephanie,

I have a question about a book chapter I wrote that was published earlier this year. It was a rush request from the author (who was actually an editor and collected chapters from other people), so there was no formal copyright discussion related to my contribution. My chapter is 22 pages, and the book itself is around 280 pages. I'd like my students in Summer I to be able to read my chapter, but I'm unclear if that big a chunk of the book falls under fair use.

Can you provide some guidance?
