Access

In addition to the unrestricted display of the bibliographic information and the abstract, we agree that the above-mentioned document be placed in the ETD archives with the following status (**choose one**):

☐ 1. Release the entire work for Access Worldwide immediately.

☐ 2. Delay release of the entire work for one year for publication or other proprietary purposes. After one year, release for worldwide access.

☒ 3. Delay release of the entire work for two years for proprietary purposes. After two years, release for worldwide access.

If necessary, the student may request an extension by sending a written request to the Graduate College. Extension requests must be approved by the Graduate Dean.

Reason for delay, if requested:

☐ Patent Pending

☐ Publisher Restrictions. Please provide details: _____

☒ Other (please explain): WOULD LIKE TIME FOR MY RESEARCH TO BE
PEER REVIEWED IN ENVIRONMENTAL GEOGRAPHY JOURNALS

Subject: FYI: Graduate Thesis Published on eCommons, Geography: [Michelle Bussemey]

Dear Drs. Williamson/Suckling,

This is to inform you that the two-year delay the author requested for Michelle Bussemey's 2007 master thesis has expired. Her thesis, "Analysis of Landscape Change of the Rio Vista Dam in San Marcos, Texas" has been published in the *Theses and Dissertations-Geography* digital collection on the eCommons web site.

You may access it by going to this URL:

<http://ecommons.txstate.edu/geogtad/21>

To encourage readership, please refer people to the above web page.
