Subject: Including your recent article in the Digital Collections Repository

Dr. Hegde,

I came across a recent publication that you co-authored:

- Hegde, A. L., Boucher, T. M. & Lavelle, A. D. (2018). How do you work? Understanding user needs for responsive study space design. *College & Research Libraries*, 79(7), pp. 895-915.

We would like to include this in the [TXST Digital Collections Repository](#). The Digital Collections Repository is an online archive for the research and scholarly output of our university. All items are assigned a permanent URL that can be included on any website, online profile (ORCID, TXST Faculty Profiles, etc.), and on your CV. Including your work provides wider dissemination and increase citations, viewable usage statistics, long-term preservation, and organization and access to your research.

The article includes a CC BY-NC, so copyright permission is allowed. If you would like to include this article, simply respond to this email and I will upload it and email you a copy of the permanent URL.

Please let me know if you have any questions.

Thank you and I look forward to hearing from you.

Laura Waugh

Digital Collections Librarian

Texas State University
